HERE'S AN IDEA:

A chance to get a

PAIR OF SHOES

-FOR-

Ten Minutes' Work!

The question among the business men of Honolulu is:

DOES ADVERTISING PAY?

To solve the problem as well as to ascertain whether advertisements attract the attention of newspaper readers, we offer a pair of our best \$5.00 shoes (\$6.50 anywhere else) to the person who sends us, under the head of "Wanted," the cleverest advertisement of our shoes. It must be original, concise, and to the point. It must not be longer than any ordinary want ad. found in the daily papers.

Advertisement to be written on one side of white paper and signed by the competitor's full name and address. State the name of the paper in which you saw this notice and enclose your effort in an envelope marked:

McInerny's Shoe Store,

Honolulu.

Ad. Competition.

The attention of out-of-town subscribers is particularly called to this competition—We want your ad.

Honolulu competitors may drop their envelopes in the box just inside the store door.

Competition Closes at Noon, June 15, 1895.

Competent judges will decide who is entitled to the prize.

THE POLICE COURT.

Ex-Detective Wagner and His Little Spree.

Twenty-two cases were on the Police Court calendar this morning and his Honor went at them with a will with the following results:

Mow Chow Foo will know better next time than to carry che fa tickets about with him. It cost him eighteen dollars to carry the last lot.

S. Sato loves saki not wisely but too well, and he paid into court the price of eighteen bottles to obtain his freedom.

Wa Kee is an individual who hails from the celestial kingdom, where such things as side-lamps on a brake are unknown and their use unnecessary. But in Honolulu it is different, as Mr. Wa Kee found upon the payment of \$5 and costs.

A. Marques, accused of selling liquor without first interviewing Mr. Hassinger on the subject, will have until June 7th to think about it.

Ex-Detective F. Wagner was in a peck of trouble this morning but he is feeling better now. A nolle pros. was entered on the charge against him for carrying concealed weapons, but when he was arraigned on the charge of being drunk, his soul revolted and he wouldn't have it that way. He pleaded not guilty and His Honor was forced to hear testimony. Two police officers testified that Wagner was gloriously how-come-you-so on Saturday evening last and that they arrested him on the order of the deputy-marshal.

In his own behalf Wagner denied the soft impeachment, but did not seem very clear as to what kind of language he used or to whom. His recollections of persons whom he met were also hazy and indistinct, though persons in the condition he was in are generally supposed to see double. One thing he was sure about and that was that he had used no "disrespectable" language on the occasion. His Honor, however, thought differently and fined him the same amount as a common every day drunk.

Lee Chun seems hard up for a place to sleep at night, and proceeding on the principle that what is born in the flesh is bred in the bone, hid himself to a certain wash-house where he was discovered and arrested. As Lee Chun had no lawful excuse for being there he will sleep across the reef for a month and dream of wash-houses. The Court was engaged with a che-fa case when the noon hour arrived and it is still going on.

Photo Engraving.

Frank Clifford, of the Press Publishing Co., has been studying up zinc etching and photo engraving for the past four years, but like Mulberry Sellers and the lacking ingredient he made too many failures to suit him. There was something he could not reach and he determined to visit San Francisco and learn it if possible. He visited a half dozen establishments before making satisfactory arrangements and when at last he settled in a place to his liking he learned what he wanted in an hour and a half. Some of the specimens of his recent work reflect great credit upon him as an artist in that line.

CIRCUIT COURT.

The Special Term Calendar Before Judge Cooper.

The special term of the Circuit Court commenced yesterday and a large number of cases have been disposed of. Owing to the absence of many of the attorneys at the Maui court about ten cases have been put over until next week.

The case of Thos. Nott vs. C. T. Gulick, guardian, has been discontinued; also that of J. Tinker vs. E. Norrie et al.

The assumpsit case of H. R. Macfarlane vs. Ira A. Lowell was heard by the Court and taken under advisement.

Nonsuits have been entered in the cases of R. W. Holt vs. Chang Fat, ejectment; C. S. Desky vs. L. K. Kamakaia et al., assumpsit, and Charles Wilcox vs. W. C. Achi, assumpsit.

In the replevin suit of H. A. Widemann vs. E. B. Thomas a jury trial has been waived.

At this morning's session a nonsuit was ordered in the ejectment suit of Mahi vs. Rev. Gulstan and others.

In the assumpsit suit of C. S. Desky vs. L. K. Kamakaia the order made yesterday granting a nonsuit was set aside and the case reinstated on the calendar.

The case of Union Feed Company vs. C. Klemme et al. was tried this morning and judgment ordered for plaintiff for \$942 with costs and interest.

In the assumpsit suit of J. Tinker vs. Wm. Maxwell et al. a nonsuit was ordered.

The case of Mau Sen vs. Lau Ho dismissed yesterday on account of the absence of the defendant was reopened, argued and submitted. Hartwell for plaintiff, Castle for defendant appellant.

The assumpsit suit of Peter High vs. Charles Wall is on trial before Judge Cooper this afternoon. Hartwell for plaintiff and Hatch for defendant.

In the case of James R. Holt vs. George Lycurgus, a stipulation has been filed granting the defendant fifteen days in which to perfect his motion for a new trial.

In the case of Catherine K. Brown vs. W. C. King, an answer denying generally and specifically all the allegations of the complaint has been filed.

In the matter of the estate of Lam Pou alias Yait Sang, I. Rubenstein has appealed for letters of administration on behalf of the creditors. Judge Whiting made an order this morning appointing him temporary administrator under a bond of \$1000.

Shipping Notes.

The Mariposa is due from San Francisco on Thursday.

The Helen Brewer is taking on sugar and discharging coal.

The Tillie E. Starbuck which arrived this morning from San Francisco, will load sugar for New York.

Captain Hey is the new master of the S. G. Wilder.

The steamer Kinau will leave Hilo at 10 o'clock next Sunday and will arrive in Honolulu on Monday afternoon in time for the races on June 11th.

The Bertie Minor brings a cargo of redwood lumber and ties.

INDURINE

A COLD WATER PAINT

SUBSTITUTE FOR OIL PAINT AND WHITEWASH.

AN EXCELLENT FIRE REFRIGERANT AND DISINFECTANT.

Especially Designed For INSIDE Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor.

It will not set in the mixing vessel, in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping.

IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered.

It is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.

OUTSIDE INDURINE!

This is for OUTSIDE Work.

Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure as well as oil paint, and costs but a fraction as much. It is fire-resisting as it contains no oil, and has no equal as a light reflector in dark basements, damp cellars and similar places. It is supplied in colors.

*C. I. Hood & Co., Lowell, Mass.: "Gentlemen:—I feel that I cannot say enough in favor of Hood's Sarsaparilla. For five years I have been troubled with scrofula in my neck and throat. Several kinds of medicines which I tried did not do me any good, and when I commenced to take Hood's Sarsaparilla there were large bunches on my neck so sore that I could not bear the slightest touch. When I had taken one bottle of this medicine, the soreness had gone, and before I had finished the second the bunches had entirely disappeared." BLANCHE ATWOOD, Sangerville, Maine.

A Remarkable Cure for Rheumatism.

WESTMINSTER, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. HARRIS. For sale by all dealers. Failed to Connect.

A young man who tried to get away on the Warrimoo Saturday night without paying a debt he owed a friend, was stopped at the wharf and made to disgorge forty-seven very large dollars. As that amount left him short on the amount necessary for his fare, the creditor told him to come around on Monday and he would give him a passage ticket on the Australia to San Francisco. The liberal offer was not accepted.

The New Process.

In a warm climate like ours the people are always striving to get a fuel that will be economical and at the same time effective. The objections to gasoline in this country has always been the danger of explosion, and the objection is based solely upon the fact that two accidents occurred here some years ago from its use. The idea that improvements could be made in gasoline stoves does not seem to have occurred to some of the people here, but such is the case. There is no more danger in using a New Process gasoline stove than there is in using one that burns wood or coal. You couldn't explode, one try as hard as you may, because the manufacturers have provided against any such contingency. C. V. Sturdevant, agent for the New Process in the Waring Block, has one of the old style which he exhibits for the purpose of showing customers the difference between the old and the new. He has twenty different styles and sizes of the new stoves which he sells at surprising-ly low prices.

Suez Canal Traffic in 1894.

Suez Canal traffic for 1894 is reported by Consul-General F. C. Penfield, of Cairo, as follows: The number of vessels passing was 3352, 10 in excess of 1893, and the amount received from tolls was \$14,770,081. In 1874 only 1264 vessels used the canal. The year of largest business was 1891, when 4206 steamers passed through. By reason of the application of electric light nearly 95 percent of the vessels using the canal in 1894 were enabled to travel at night. Only 5 American ships passed the canal—war ships and yachts. The British ships numbered 2394 of 6,006,902 aggregate tonnage. Germany sent 294 ships through. France 184, and Holland 188. The aggregate net tonnage of all ships in 1894 was 8,059,106 tons.

Common Sense

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local applications can do no permanent good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

Hood's Pills cure constipation by restoring peristaltic action of the alimentary canal.

IT HAS BEEN REMARKED by visitors that for variety of goods, quality and style, the shops of Honolulu compare favorably with those in the largest cities in the United States. These remarks are not strange to us because we are familiar with the needs of the people, we know that their tastes are the same as other people, though they are to a degree isolated from the rest of the world. But they are a reading people and they are apt scholars; they have the same amount of ability to copy the ideas of others or create new ones as the ladies of New York or Boston. To cater to the tastes of the different people here requires tact, ability and coin; in the selection of goods, both as to design, quality and price, all of the business qualifications of man are brought into play. If we did not exercise it in our corner of the mercantile world how could we offer all shades of genuine woolen goods, not shoddy, but woolen at fifty cents a yard, when every other dealer in Honolulu sells the identical goods for seventy-five cents and a dollar. Nor do we confine ourselves to a single shade—we have them in endless variety. The same may be said of our stock of all-wool flannels. Who ever heard of them going for less than fifty cents a yard. They bring that because they are worth it to any one who wants them, but we let them go to you at thirty-five cents a yard, or three yards for a dollar. You can't realize it but we can prove it to you as easy as we can show you the largest and handsomest collection of white goods of every description ever shown in Honolulu. The goods are here and the wearing qualities are guaranteed; we are ashamed to mention the prices out of consideration of the feelings of our rivals; they're low enough of that you may be assured. A drive in shoes interests every one—our stock includes all sorts and conditions for men, women and children, and to go with the shoes we have a wonderful collection of hosiery for ladies.

J. T. STACKER, EDITOR.

TUESDAY, JUNE 4, 1895.

Col. McLean had an opportunity to become acquainted with the members of the Citizens' Guard Saturday night and learn from them what loyal, and, by their hospitality, what royal fellows they are. This branch of the military or police department has done good service during the last two years, and as they will now be subject to Col. McLean's orders to a certain extent it was proper that he should meet the men in a body. The occasion was one which those present will long remember.

Just what good C. B. Wilson can expect from his letter in the Advertiser this morning is difficult to determine. These same questions have been put by other interested people many times before, but as yet no answers have been given. Perhaps the most simple answer to the simple question, "Why has annexation failed?" is, because the United States does not want to add to its territory by taking islands in the middle of the Pacific ocean.

Mr. Thurston can throw no light on the matter possibly because he has none to throw. The United States has not asked for Hawaii and the people over there might object to such an expensive alliance.

The Board of Health now advertises for tenders for paiai to be furnished the leper settlement at Molo-kai. Unless our memory fails us, some two or three years ago paiai was furnished by manufacturers at Wailuku; the article was first class in every respect and acceptable to the people at the settlement.

When tenders were advertised some Chinamen bid on it, and, being much lower than the Wailuku people got the award. It was declared then that the Chinese would

be unable to fill the contract and recent events have shown the correctness of the prophecy; complaints of the scarcity of poi have had the consideration of the members of the Board of Health and it is necessary to ask for tenders.

Very wisely the board demands a bond of \$1000 for the faithful performance of the contract, and if the quantity and quality is not right the contractor cannot withdraw without indemnifying the government.

The EVENING BULLETIN learns with deep regret that there is an individual in Honolulu who thinks the editor of this paper is itching to stir up a strife of some kind among the supporters and non-supporters of the government. The individual complains, also, that the EVENING BULLETIN is against annexation and for that reason is pursuing a course opposite to the wishes and the interests of the people. Let us ask right here, who are the people?

There is no one connected with the EVENING BULLETIN, in any capacity, who wants strife of any kind, and we fail to see how a man, with the faintest suspicion of gray matter in his brain cavity, could form such an opinion through reading the editorial expressions in this paper. We are against strife of any kind, political or otherwise. Nor do we believe that the man who makes the charges against this paper really thinks we favor disruption. This paper is opposed to annexation only so long as the country is dependent upon the production of one staple; increase the industries and decrease the danger of total annihilation of sugar through annexation and we will favor it in every way. The man who objects to the policy of the EVENING BULLETIN would do much toward relieving the anxiety of the people if he would tell them what the United States Government is willing to do with us on the labor problem. We have not yet heard of any arrangement being made and upon that one item hinges the benefits or loss to the community through annexation.

EVENING BULLETIN, 50 cents per month.

Business Talks

May 29, 1895.

If the business in any one line was controlled by one individual, what would be the result? If there was a demand for his wares he would be richer than Croesus at the end of a year and you would have to pay through the nose for what you bought of him. In the United States competition has brought the price of necessities down to a stage where people may have them and not be looked upon as extravagant. If you will look around among our stock you will find that it is made up largely of articles for which you have every day use. We have luxuries as well, but, to-day we tell you of things needful about the house. Agate ware for instance!

There's been a scarcity in Coffee Biggins in town, but we have a stock of them That will interest everyone.

We get our goods in agate ware from La Lance and Grosjean, the makers, and they have the reputation of making the best goods in their particular lines in the United States. We can get "seconds" from them, but the first quality is the best because the enamel will not chip off.

Water coolers, handsomely painted outside and enamel lined inside, Small ones for a family or large ones for a foundry.

Japanned ware includes cake tins, trays, crumb pans, cuspidors and lots of other things. The prettiest and probably the most useful article in the lot is a toilet stand, very neat as to decorations and complete as to detail in the matter of articles that go with them.

The one that will strike your fancy Has a water tank that will Hold sufficient water for the day.

The price of these articles is not in proportion to the value of the goods. You get more for your money than you are used to, but then—competition has fixed that in the United States—we buy cheap and follow the same rule in selling, you understand the Golden Rule.

Retinned Glue Pots and Slop Bowls Are a new thing with us: Bright and pretty, like a silver dollar.

And you can get them at a price that will amaze you. You should have one of these because they are useful and serviceable.

This is a fish-eating community because the fish are fresh and of an exquisite flavor. All people do not know how to cook them so as to get the substance.

With one of our Agate Steamers you Can steam or boil your fish And not lose the flavor.

These fish kettles vary in size from the mullet to the ulua, and the price goes according to the size.

Farmers' Boilers are not used in every household, but there is scarcely a plantation on the islands but what requires one; they are not to be found in every store in the city, but we have a few of them to accommodate the people who want them.

Among other useful articles let us call your attention to agate and tin basting spoons, tea and coffee caddies, egg poachers, chopping bowls, dish pans, dairy pans and wooden potato slicers.

What is better with your chop In the morning than a few Saratogo Chips? You can get them By using one of these slicers.

Our stock is complete in detail—nothing old or shop-worn.

WHOA!

Just a minute. We want you to know about the famous BOYCE TABLET LINIMENT.

The many favorable testimonials received from Horsemen both in the United States, and in Europe concerning Boyce Tablets, encourage us, in preparing for the coming season, to make every effort to bring Boyce Tablets to the notice of everyone who is interested in horses. A few of these testimonials will suffice to show the reputation Boyce Tablets have obtained for themselves throughout the country.

To Horsemen who have not yet used Boyce Tablets, we would say that these tablets represent the solid ingredients of a most valuable Liquid Liniment prepared by combining the medicinal agents, recognized by the Veterinary Medical Profession to be the most effective in reducing fever, strengthening stimulating and imparting elasticity to the muscles and tendons; in purifying healing, and softening the skin; and in keeping the hair bright and silky.

It will readily be seen that this liniment in dry form has the following advantages over any other liniments.

1. Its great economy.
2. It requires much less space to carry it.
3. It is much lighter in weight.
4. It is free from danger of leaking, breaking, freezing or wasting.
5. Its ready solubility in either warm or cold water enables the Horseman to prepare his liniment in any quantity and of strength in a few moments time.

In addition to the ingredients most popularly considered by Horsemen as valuable constituents of Veterinary Liniment, we may say that, a Boyce Tablet contains more Genuine Witch Hazel than is in a quart of the liquid extract;

Eucalyptus, or Extract of the fever tree of South America, and Sal-Lister, whose valuable properties as an Antiseptic, Anizymotic and Prophylactic, are accepted and acknowledged by all medical practitioners, also form a part of Boyce Tablets.

TERRE HAUTE, IND., April 27, 1890.

Boyce Tablet Co.:

GENTLEMEN: After a fair and impartial trial of your Tablets, as a body and leg wash, would say I think them the best in the market. They are very convenient to carry, and when dissolved, produce the desired effect.

Yours truly, W. P. MALONEY.

HARRODSBURG, KY., Nov. 18, 1889.

Boyce Tablet Co.:

DEAR SIR: I like your Leg and Body Wash very much. It produces the desired results, besides being a great convenience.

Yours truly, CRIT DAVIS.

NEW YORK CITY.

Gents:

I have given the Boyce Tablets a trial and find it the best thing for fevered legs, inflamed tendons and sprained ankles I have ever used.

Yours truly, WM. CURLEY.

Popular Topics of the Day.

May 29, 1895.

If it had not been for the excellent quality of coffee produced in Kona, it is not likely that foreigners would have been induced to invest their capital in lands in that district nor would the building of a telephone line, such as the new company proposes to construct, have had an existence even on paper. It's the fact that the locality produced in a small way and in the most primitive manner an article which caught the fancy of "canoosers" in the matter of coffee; they wanted more and they were willing to pay a good price, but there were no means of getting it. Investigation demonstrated that the land would produce an unlimited quantity, but the people in the vicinity had not given the proper attention to the cultivation, you all know the result, foreign capital came in and is coming every day, and before another decade the production of coffee will be a leading industry of the islands and the machinery used in pulping, cleaning and putting it through the various processes necessary to make it marketable will come through us. And why? Because we are interested in the coffee business; we know what is wanted and we secure the very latest improvements in coffee machinery. What is good enough for one man may not be good enough for another, but our stock of implements for the coffee business is good enough for all. The industry is still in its infancy and the growers do not know themselves just what they require, but if they will communicate with us, we can give them the necessary information.
 The Helen Brewer brought us what charcoal irons will be needed during the next few months and the price is just what the condition of affairs here warrants. There was a time, not many years ago, where a single charcoal iron cost \$5.00. In those days it was a luxury to own one, now it is a necessity and the low price we charge for them enables every one to have one.
 We've never done much in the way of Refrigerators because the town seemed to be well supplied, but the prospects for a reduction in the price of ice warrant our carrying a few to accommodate people who want a really superior article—something they may depend upon to keep their meats and vegetables in during the day and over night without spoiling. It took an Eastern man to devise something a little better than any other inventor could produce—and we sell them.
 For people who live out of town and wish to maintain their own telephone lines we wish to recommend our Long Distance Telephone and Chicago Magneto bells. With these instruments a conversation may be carried on between parties at almost an unlimited distance from each other. We have all the necessary articles used in the construction of private and public lines of telephones and can supply them at the lowest rates.
 Among the articles received by the Helen Brewer are Brass Pipe Fittings—Galvanized Pipe and fittings—and Genuine New Bedford Cordage. If you are interested in galvanized pipe get a quotation from us.

Schooners Fenced Off From the Ocean.

The schooners Confianza, Lizzie Prien, Mayflower and Joseph and Henry are in the harbor at the mouth of the Siuslaw river, with a rapidly shoaling bar fencing them off from the ocean. It will probably hold them there until the Spring freshets clear a channel for them through the sandbank. The four schooners have been engaged in the lumber trade between the Siuslaw and San Francisco, and about two weeks ago they all ran into the harbor together. Cargoes were ready for them at the mills and the crews began loading at once. Before they were ready to clear a heavy blow sprang up and made the entrance to the harbor a lee shore. The heavy combers that rolled in on the beach, and piled sand upon the bar that stretched across the mouth of the river for a week, and when the gale subsided a barrier had been formed across the entrance to the harbor that prevented any vessel large enough to go to sea from entering or leaving the river. At low water the bar showed above the surface of the water in many places, and the four schooners were hemmed in by a wall of sand, with little chance of getting away until the Spring freshets wash it away. The schooners have been carrying lumber for nearly two years at prices that hardly paid running expenses. Recently there was an advance in lumber charters, and they began to be a source of profit to their owners. —Astorian, May 5.

Some time ago I was taken sick with a cramp in the stomach, followed by diarrhoea. I took a couple of doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was immediately relieved. I consider it the best medicine in the market for all such complaints. I have sold the remedy to others and every one who uses it speaks highly of it. J. W. STRICKLER, Valley Center, Cal. MRS. AUG. DARROW.

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend it to all who are suffering with stomach trouble or nervous trouble.

Yours respectfully,

The ice plant purchased by Alexander Young for this company will be shipped by the Frick Manufacturing Co., Chicago, early in the present month and it is expected that the company will be making ice by Sept. 1st next. The cold storage department will be as complete as any in the United States. Theodore Hoffman, Superintendent of the Electric Company, in speaking of electric lights at Waikiki, said: "My men are so busy arranging for lights in the city proper that I have been unable to complete the Waikiki line, but I hope to finish it very soon." All of the residents in the locality of the park have made application for the service. When this is completed the company will be ready to light the entire Waikiki road with arc lights. This, however, cannot be done until the legislature will pass a bill authorizing it and make the necessary appropriation.

"A step in this direction will add very much to the value of the property in that locality," said Mr. Hoffman in conversation with a reporter for the BULLETIN, "and should be urged by men who have interests there."

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

Mortuary Report.

In the report of C. B. Reynolds, Agent for the Board of Health, we find that during the month of May there were fifty-three deaths in Honolulu. Of this number thirty-seven were males and sixteen females. The greatest number of deaths resulted from fever, paralysis and consumption, five each.

Of the total number of deaths there were of nationalities as follows: Hawaiians, 23; Chinese, 14; Portuguese, 5; Japanese, 5; Great Britain, 1; United States, 1; other nationalities, 2.

The comparative statement shows an increase of deaths over the same months in each year since 1891.

Nothing Like Success.

It is said that the Hawaiian Gazette Co. having outgrown its present quarters will move into a new building on the Von Holt property on King street as soon as it is completed. The arrangements for the structure were completed by Mr. Paris before his departure for the Coast, and it is understood that the machinery he will buy during his visit east will arrive here about the time the building is ready.
