ANNEXATION ALMOST HERE

A TREMENDOUS MAJORITY IN THE HOUSE.

Reed Gives Up the Fight and Leaves the Chair—Enthusiastic Reception of the News Here.

The Moana came in this morning with rigging dressed. And well she might. She brought news for which these Islands have watched and waited for months. She brought the news that annexation had triumphed in the House.

As soon as the crowds on the wharves saw the flags and bunting floating they knew that she brought good news, and they assumed that it related to annexation. But the Hawaiian flag at the taff rail showed that annexation was not yet fully accomplished and that the Hawaiian flag still had a place among the flags of the nations.

The annexation news brought was quickly spread throughout the city, and was everywhere received with the greatest enthusiasm. Men shook hands with each other and exchanged congratulations. No doubt was felt by anyone but that the Senate is all right.

A private dispatch from New York, dated June 15th, received in Honolulu by the Moana, says: "Our correspondent at Washington telegraphs annexation joint resolution adopted by House by vote of two hundred and nine to ninety-one. On the authority of a member of Senate Foreign Relations Committee resolution will be received in the Senate from House tomorrow and referred to Foreign Relations Committee and reported back immediately. Debate will begin Friday. The majority have agreed to stay until resolution is disposed of. It is believed vote will be taken in ten days to two weeks and will carry by heavy majority."

WASHINGTON, June 15.—Voting on the Hawaiian annexation proposition began in the House on a motion to substitute the minority for the majority resolution.

It was defeated by 205 to 94. The vote now comes on the question of adopting the annexation resolution.

Later—The annexation resolution has been adopted by a vote of 205 to 94 votes.

WASHINGTON, June 15.—The House passed the Hawaiian annexation resolution by a vote of 205 to 93 this afternoon. It was an unexpectedly glorious ending of the long campaign that began at the opening of this session of Congress. The most sanguine friends of Hawaii hardly expected such an overwhelming decisive vote. The Republican opposition, which had been expected to carry the day, vanished into thin air when the roll call came, and even Speaker Reed, who was the main and massive prop of the anti-annexationists, fled, leaving the chair to Dillard of Pennsylvania, a thing Reed never did before when a big question was up.

TO RAISE THE FLAG.

WASHINGTON, June 13.—The Sun says the Philadelphia is going to Honolulu as soon as she is ready to sail, and that she will stay there until the American flag is hoisted.

KALIHI-WAENA CLOSING.

George L. Edwards' school at Kalihi-waena will have closing exercises on Friday. From 9 a. m. to noon public examinations will be held, and in the afternoon there will be a program of literary exercises.

AT HALF PRICE.

Ribbons, laces, millinery goods and trimmings will be offered at half price for one week at L. B. Kerr's Queen street store. We always do what we advertise, and the rush for bargains will be great. This sale will last only one week to make room for new goods to arrive.

FRESH IMPORTS.

By the Bark Dimond, Camarinos will receive cherries, rubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

Star want ads. bring good returns.

Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

Pearson & Hobron

312 Fort street. Telephone No. 565. Opposite Towers & Cooke's.

TRANSPORTS AT ANY TIME

THEY SAILED JUST A WEEK AGO TODAY.

China, Zealandia, Colon and Senator are Bringing 3,525 Men—Arrangements Made to Receive Them.

Four transports with 3,525 men on board, are very close to the Islands this afternoon. They sailed from San Francisco between the hours of 1 and 2 last Wednesday, and are therefore now seven days out. The vessels are the China, Zealandia, Colon and the Senator. The troops are distributed between the ships as follows:

On the China—General Green, commander of the expedition and staff; First Regiment Colorado Volunteers, 1,022 men; half battalion Eighteenth United States Infantry, regulars; detachment of United States engineers, 20 men, and 10 sailors from the Kosh and Grant, for the McCullough. Total 1,302 men.

On the Colon—Four companies of the Twenty-third Infantry, two companies of the Eighteenth Infantry and Battery A of the Utah Artillery, 600 men in all. Lieutenant Colonel C. M. Bailey of the Eighteenth Infantry is in command.

On the Zealandia—Tenth Pennsylvania Regiment and a part of Battery B of the Utah Artillery. Total, 640 privates and 60 officers. With the artillery are two Maxim fighting machines, which, as a precautionary measure, are placed ready for action in the bow of the vessel. Colonel Hawkins is in command.

On the Senator—First Regiment of Nebraska Infantry, 1,002 men, Colonel Pratt in command. They were loudly cheered by the Kansas troops as they passed down to the wharf to go aboard, the men from the Cyclone state themselves expecting to sail by the Senator.

The ships are provided with an immense supply of ammunition, stores and even fuel. The coal supply of the ships is as follows: China, 2,700 tons; Colon, 1,500 tons; Zealandia, 1,100 tons, and Senator about 600 tons.

It is stated that the ships will not coal here, or if they do will take but very little. The reason given is that the government has found fuel cheaper at San Francisco. The China has so much coal on board that 200 tons of freight, including 150 tons of flour, had to be left behind.

The committee are on the alert and will be ready to meet the troops as soon as the transports are sighted off Koko Head. A steamer will leave from the wharf of the I. I. S. N. Co. soon after the whistles sound. If the troops get in tonight the reception on the grounds of the Executive building will probably be arranged for tomorrow. If they do not show up before morning the feast will take place the day after, Friday.

A meeting of the executive committee of the One Hundred will be held at 1:30 this afternoon to arrange the final details of the reception. The chairman of all the other committees will be present.

Minister Sewall and waterfront authorities do not think the transports will arrive much before tomorrow afternoon. The reason pointed out is that the Senator is a very slow boat and will require nine days, or near that, to make the voyage from the Golden Gate. It is assumed that the other steamers will hold back for her on the run to port.

Consul Haywood received no advices to the effect that his coal would not be required. The statement above that the ships had taken on an ample supply at San Francisco and would not coal here is taken from the Examiner and other Coast papers.

DEWEY'S MEN PROMOTED.

WASHINGTON, June 11.—The Navy Department has announced the advancement of the following officers, all of Rear Admiral Dewey's fleet: Captain Frank Wildes of the Boston, five numbers; Captain J. B. Coghlan, Raleigh, six; Captain N. M. Dyer, Baltimore, seven; Commander B. P. Lambert, six; Commander E. P. Wood, Petrel, ten. The advancement is made in recognition of service rendered during the battle of Manila. Commander Lambert's promotion makes him a captain.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

MESSANGER SERVICE.

Honolulu Messenger Service deliver messages and packages. Telephone, 378.

THE WHITE IS KING.

On Sunday, May 30, 1898, C. M. Smith of San Jose, on a White bicycle, rode five miles in the remarkable time of nine minutes and one second, reducing the previous record of nine minutes and twenty-four seconds, twenty-three seconds. The Pacific Cycle and Manufacturing Company are agents for this wheel.

TROOPS SAIL FOR CUBA

EIGHTEEN THOUSAND SOLDIERS LEAVE TAMPA BAY.

The Fleet Consists of Thirty-six Vessels, Transports and Men of War—Infantry, Cavalry, Artillery.

TAMPA, Fla., June 14.—Just eighteen thousand and a few odd men of the Fifth Army Corps and the Third and Ninth Infantry and four battalions of cavalry from the Fourth Army Corps at Mobile are now on the waters of the Gulf. A powerful convoy has doubtless met them by this time.

The troops that go are the Engineer Battalion, under Captain Graham D. Fitch, including Companies C and E; siege batteries, including II of the Fourth, G of the Fourth, K of the Fifth and M of the Fifth, and of light artillery K of the First and A and F of the Second.

About 500 men constituted the strength of the artillery. There are four six inch batteries, eight five inch siege guns and eight seven inch mortars. The regular infantry regiments taken were the First, Second, Third, Tenth, Twelfth, Thirteenth, Sixteenth, Seventeenth, Twenty-first, Twenty-second, Twenty-fourth and Twenty-fifth, and from the volunteers, the Second Massachusetts and the Seventy-first New York.

The provisional division which will remain here for the present includes the Thirty-second Michigan, Third Ohio, Fifth Ohio, Second Massachusetts, First District of Columbia, the Fifth Maryland, First Ohio, One Hundred and Fifty-seventh Indiana, Third Pennsylvania.

Fifty-one newspaper correspondents representing papers from every section of the country and from England are aboard the Olivette. The Olivette also carried the surgeons and the hospital corps. The Red Cross ship, State of Texas, did not go along with the expedition.

The formation from this point to Cuba will be made in three lines, each line containing twelve ships, there being now thirty-six in all, inclusive of war vessels. The Indiana and Detroit will lead the central column and following them will come in order and with gaps of 400 yards the Berkshire, Whitney, Olivette (the flagship), Seguranc, Kniekerbocker, Coneho, the City of Washington, Allegheny, San Marcos, Decatur, H. Miller, Saratoga and Laura, the last named being a steam barge carrying feed for horses and tackle to be used in effecting a landing.

On either side of this line and 100 yards away from it are the other two columns. That on the left will be led by the Miami and after her comes the Saratoga, Gussie, Cherokee, Seneca, Alamo, Comal, Yucatan, Rio Grande, Vigilance, Orizaba and Iroquois. The Mattawan leads the column on the right with these ships after her: The Arkansas, Stillwater, Breakwater, Morgan, Clinton, Manteon, Kanawha, Resolute, Cumberland, Leona and Florida.

The Kanawha is a water steamer carrying 180,000 gallons. The Annapolis and Castine will bring up the rear of the fleet, and the Hornet, Helena and Newport are to skirmish up and down the outside lines during the whole trip.

Our speed has been placed at a limit of eight knots. The troopships and most of the naval vessels assigned to convoy them will meet at Rebecca shoals, one of the Keys of the long, thin archipelago, that extends westward from Key West to Dry Tortugas.

It lies almost due south of Tampa and is 180 miles from that place.

MONTEREY ON HER WAY.

Lost Coal and Put Into San Diego Harbor.

SAN FRANCISCO, June 8.—The monitor Monterey and the United States coal transport Brutus started on their voyage to Manila at 1 o'clock yesterday afternoon. Save for the pandemonium of whistles that were turned loose when the Monterey began to move and the crowds attracted by the noise to the ends of some of the wharves, the departure was coldly official.

Commander Leutz hopes to be able to take the Monterey to Manila under her own steam.

SAN DIEGO, June 10.—The Monterey and Brutus arrived here at 4 o'clock p. m. The Monterey lost 83 tons of coal overboard the second day out, in a storm, and came in here to re-coal. She expects smoother seas from this port.

SAN DIEGO, June 11.—The Monterey and the Brutus sailed today for Honolulu.

WHY NOT BUY A SINGER?

You want a sewing machine? Then why not buy a Singer? There has been more of them sold than any other make. They wear longer, run lighter and do better work than any other make. They have never been a cut price machine, the workmanship on the Singer will not admit of cut prices. A few dollars in the original cost between a good machine and a poor one counts for nothing. B. Bergerson, agent, Bethel street.

Star want ads. bring good returns.

FIGHTING ON CUBAN SOIL

SIX HUNDRED MARINES BATTLE AT GUANTANAMO.

Are in a Dangerous Position, but are Holding It Against the Spaniards—Several Have Been Killed.

OFF GUANTANAMO, June 12.—(via Mole St. Nicholas, June 12).—Lieutenant Colonel R. W. Huntington's battalion of marines, which landed from the transport Panther on Friday and encamped on the hill guarding the abandoned cable station at the entrance to the outer harbor of Guantamamo, has been engaged in heading off an attack by Spanish guerrillas and regulars since 5 o'clock Saturday afternoon. The fighting was almost continuous for thirteen hours, until 6 o'clock this morning, when reinforcements were landed from the Marblehead. Four of our men were killed and one was wounded. The advance pickets, under Lieutenants Neville and Shaw, are unaccounted for.

THE KILLED.

Assistant Surgeon John Blair Gibbs, Sergeant Charles H. Smith, Private William Dunphy, Private James M. Colgan. The wounded: Corporal Glass.

The Spanish loss is unknown, but it was probably considerable. The engagement began with desultory firing at the pickets, 1,000 yards inland from the camp. Captain Spicer's company was doing guard duty and was driven in, finally rallying and repulsing the enemy. The bodies of Private McColgan and Dunphy were found, both shot in the head.

The bodies were stripped of shoes, hats and cartridge belts and horribly mutilated with machetes. When they were brought in the whole battalion formed three sides of a hollow square about the camp on the hill top.

FIGHTING RENEWED.

GUANTANAMO BAY, June 12, noon (via Kingston, Jamaica, June 13, 11:30 a. m.).—At 9 o'clock firing was again renewed by the Spaniards, who appeared off the camp on the edge of a small island, about a mile to the northeast. It was promptly returned by thirteen rifles and a three inch field gun, and in a short time all the signs of the enemy had disappeared.

Lieutenants Neville and Shaw, with thirty men of Company D, returned in good shape, but much exhausted by eighteen hours of picket duty. One man, Sergeant Smith of Company K, had been shot through the abdomen and instantly killed. For most of the day and night Lieutenants Neville and Shaw had been surrounded by a much superior force.

Five Spaniards are known to have been killed, and as Lieutenant Neville's men kept up a steady fire all through the night and the enemy was not at a great distance, it is believed that the Spanish casualties were heavy indeed.

FLAG STILL FLOATS.

GUANTANAMO, Monday, June 13, noon (by the dispatch boat Wanda, via Jamaica, June 14, 7 a. m.).—After two nights of hard fighting the American flag floats over Cuban soil on the encampment of the marine battalion and our boys say they will keep it there until the belated troops arrive, if it takes until winter.

Were it not for the guns of the fleet the gallant little band would be annihilated by the Spanish troops, who are in overpowering numbers at Santiago de Cuba. As it is they probably can hold their position, but they cannot move forward until re-enforced.

The tents have been struck and rolled into breastworks, supplemented by trenches around the crest of the hill.

It is impossible to accurately estimate the Spanish attacking force, but it is numerous enough.

After the first attack on Saturday night Colonel Huntington decided that another attempt would be made Sunday night, and he caused the intrenchments to be thrown up on all sides of the camp, and in the trenches the main part of the battalion last night waited for the attack. It came within a short time after dark, and from that time until daybreak the firing was incessant and at times very heavy.

On the American side two men were killed and four wounded. The dead are:

Sergeant Major Henry Goode of the marines, and Private Taumann. The injured are: Private Wallace, Private Martin, Private Roxbury, Private Burke.

CUBANS CO-OPERATE.

The fight was the first of the war in which the Cubans co-operated with the American forces, and their co-operation was not a brilliant success.

The men freely criticize a policy which compels them to hold a position that could be retaken, they say, by half an hour's shelling, but not the faintest disposition is manifested to do otherwise than to fight it out.

WASHINGTON, June 15.—The Navy Department today posted the following bulletin:

"Admiral Sampson reports that he has been reinforced by several hundred Cubans and that our force at

(Concluded from Page Five.)

WHEN ANNEXATION COMES

LEGISLATURE MUST RATIFY THE NEWLANDS RESOLUTION.

Die May be Already Cast—Minister Sewall and President Dole Talk—News Saturday.

President Dole is of the opinion that a vote on the Newlands resolution was taken in the American Senate last Friday and that the Hawaiian Islands are already, from the American standpoint, a part and parcel of the United States.

The vote in the House amounted to a landslide for the opposition. It is believed that the overwhelming defeat there will result in annihilation of the influence of Pettigrew, White and others of the "uncommitted Senators," the end of which will be the immediate passage of the resolution by a vote proportionately as large as the one in the House. For this reason, as well as the great pressure that will be brought by the administration, President Dole believes the matter was rushed through in a single day.

Minister Sewall states that while such a result would not surprise him at all, he rather inclines to the opinion that there will be some debate and deliberation before a vote is taken. He hardly thinks action was taken in time to catch the Belgic, which will fall due Saturday.

The passage of the resolution by the American Congress does not perfect annexation. It is a fact that the same resolution has to pass both branches of the Hawaiian Legislature before it can have effect. This will necessitate an extra session for that special purpose, as it will be quite impossible to get the official papers in hand from Washington before the present session expires by limitation.

If telegraphic news arrives of the final passage of the resolution before the session closes the members will simply wait in Honolulu for the proclamation calling the special session together.

"No, I do not think the Newlands resolution will be rejected by the Hawaiian Legislature," said President Dole this morning with a smile.

DARING RECONNOISSANCE.

Lieutenant Blue Circles Santiago and Counts Cervera's Ships.

DISPATCH BOAT WANDA (off Santiago de Cuba), June 13, 2 p. m. (via Kingston, Jamaica, June 14, 7 a. m.).—Admiral Sampson on Saturday last sent Lieutenant Victor Blue of the gunboat Suvaneva to investigate. Lieutenant Blue landed on Saturday and proceeded with guides to the hills overlooking the harbor and the city. He distinctly saw and definitely located four Spanish armored cruisers and two torpedo boat destroyers. He also saw three small cruisers or gunboats.

Lieutenant Blue traveled about seventy-two miles, following the eastward line of the city.

WASHINGTON, June 14.—The Navy Department today posted the following bulletin:

MOLE ST. NICHOLAS, June 14.—Lieutenant Blue just returned after a detour of seventy statute miles of observation of the harbor of Santiago de Cuba. He reports the Spanish fleet is all there. The Spanish attacked vigorously the camp at Guantamamo. An outpost of four marines were killed and their bodies mutilated. Surgeon Gibbs was killed.

SAMPSON.

MANILA IN CLOSE SIEGE

INSURGENTS DRIVE BACK THE SPANIARDS.

Hospitals and Churches Crowded with Wounded—Two More Towns Fall Before Troops of Aguinaldo.

LONDON June 15.—The Shanghai correspondent of the Daily Telegraph, forwarding advices he has received from Manila up to June 8th, says: On June 5th the insurgents forced the passage of Zapote river and captured Las Pinas and Paranaqui. Since then, up to the time my advices left Manila, the fighting has been continuous, and the Spaniards were being gradually driven in.

The fall of the city seems imminent before the arrival of the American forces. Manila is absolutely incapable of resisting bombardment. The defenders of the city have suffered severely from the incessant attacks, from want of food and rest, and the hospitals and churches are crowded with the wounded.

VIENNA, June 14.—The Neue Freie Presse says that Spain has requested the powers to urge the United States to occupy Manila should the town surrender, and not allow the insurgents to do so.

SACRIFICE.

Every life has in it the ingredient that carries the flavor of the tried disciplines of the aged Abraham. There is no cup that has not its dregs; no life that has not its passages that remind us of the sad Patriarch's journey to Mount Moriah, and even of the little altar upon which the darling of one's heart has to be laid. The journey toward the place of offering may not be always so agonizing, nor the sacrifice that is laid upon the wood always so unspeakably precious, but there is not one of us that has not heard, that does not hear the voice of the Lord calling out to us with something of the distinctness with which it addressed Abraham, requiring us, too, to carry burdens that make our shoulders tired, and to surrender treasured hopes that make our hearts ache. In other words there is enough of steep highway—made out of difficulties and disappointments—that each of us have to climb, to give us all the opportunity to share with Abraham the blessing that crowned his tender surrender, and to rise along a pathway of hard but gentle obedience into a profounder knowledge of God and a richer experience of His power and grace.—C. H. Parkhurst D. D.

COLOR OF THE EYES.

It is not generally known that the eyes of infants are always blue, and that they do not begin to assume their permanent color until the sixth or eighth week. There is, therefore, truth as well as poetry in the statement that babies look about them in "blue-eyed wonder." The wonder may be left to poets and philosophers, but the blue is always a practical fact. It is not uncommon to see different colors in the eyes of the same person, and even in the same eye half of the iris is sometimes brown and the other half blue. There is a popular notion that dark eyes are stronger than light ones. There is no truth in this except so far as they are better protected against excessive light. Hence light eyes prevail among northern nations and dark eyes among the races who live in the glare of a tropical sun.

DIVORCE IN CANADA.

In Canada the man or woman who wants to sever the bonds of matrimony must go before the Dominion Parliament, when the Committee on Divorce in the Senate takes up the case and goes over the details very thoroughly, and if, in the opinion of the committee, the testimony warrants the granting of a divorce the report to that effect is made and both houses concur in a bill giving the required relief.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays 25 cents, the other is out a hundred dollars, and then wonders why his neighbor is getting richer while he is getting poorer. For sale by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

Reward of Merit.

At the Chicago Cycle Show in 1897, each visitor on entering the show was handed a coupon reading as below:

"After viewing the exhibits, kindly fill in the name of the Bicycle which pleases you best as regards beauty and mechanical merit, and deposit the coupon in ballot box near exits.

"Name of Bicycle"

The "SHIRK" received 17,489 ballots against 12,377, the next highest. When it is known that all the leading makes of wheels in the United States were on exhibition at this show the above speaks for itself. The Honolulu Bicycle Company have secured the agency for this elegant high grade wheel. It will interest you to call and see it.

LEWIS & CO.

WHEAT CORNER COLLAPSES

LEITER FAILS WITH 16,000,000
BUSHELS ON HAND.

After Putting Up \$7,000,000 in Secu-
rities in May, His Father With-
draws Support.

CHICAGO, June 13. —Joseph
Leiter has surrendered to his credi-
tors 16,000,000 bushels of wheat.
His grain deal, beginning April 2,
1897, has collapsed. His estimated
loss is \$5,000,000. On wheat owned
May 31st, Leiter might have
realized a profit of \$4,500,000.
Since then the market has declined,
and his father's financial support
which he had hitherto received, be-
ing withdrawn, he retired on the
best terms possible.

Joe Leiter's weakness all through
this deal has been his lack of ap-
preciation of quantity. He was will-
ing to buy any market to a stand-
still in order to accomplish his pur-
pose.

It was no secret among a few
closest to the Leiters that the re-
fusal of the father to furnish his son
further capital was due to the dis-
covery that the younger man had
not followed out the plan agreed on
in May, when the elder put up
\$7,000,000 securities to see the deal
through the crisis at that time.

Why didn't Leiter sell when the
foreigner was crazy to buy? This
was the question the grain specu-
lator was asking to-day. He began
to buy wheat in the sixties, saw it
sell at almost \$2 and at prices the
highest in twenty years, yet after
fourteen months experience he
falls with 16,000,000 bushels left
on his hands.

A FALSE ASSUMPTION.

I notice, writes the correspondent
of the Washington Post, that the
Spanish Board of Inquiry of the
Maine disaster (shall I say murder?)
seem to base their conclusions on
two assumed facts: There were no
dead fish found and there was no
tidal wave or great disturbance of
water. There are probably 50,000
people living who saw the greatest
submarine explosion ever known,
that at Hellgate, N. Y., in 1876.
The writer is one of that number.
For three or four years the United
States engineers had been at work
under water, blasting out chambers
in the solid rock until acres had
been literally honeycombed, and
when the fatal day arrived 25,000
pounds or more of high explosives
waited the pressing of the button.
New York city was on the tip-toe
of excitement. It was a mooted
question whether or not the city
would be shaken to its foundations.

Tens of thousands of people
gathered on the distant shores
waiting and watching in the most
intense anxiety. The writer was
on one of the yachts of the Brook-
lyn Yacht Club, anchored on the
edge of Harlem Cove, a mile and a
half of clear water between it and
the scene of the explosion. The
captain had promised us plenty of
fish for dinner. Hellgate was a
noted fishing ground, or rather
water. The fated moment came.
Whether our yacht would be
swamped or not we could not tell.
All eyes were straining and breaths
came short and quick. A dull thud,
a column of water and broken tim-
ber shot upward fifty or seventy-
five feet—no perceptible tidal wave
—and all was over.

Fifteen minutes afterward our
yacht was sailing over the spot.
Scores of Hellgate fishermen were
pulling here and there saving the
flotsam and jetsam of crushed and
broken timber, but if there were
any martyred fish we did not see
them, and we had beefsteak instead
of a fish dinner that evening on the
yacht.

TITHES.

The Advance, Chicago, while it be-
lieves that the Congregationalists,
with the exception of the Moravians,
are the largest givers in the United
States finds that they fall far short
of contributing the tithes. Taking the
number of members as given in the
year book, and the average incomes,
as computed in the census reports, it
finds that the full tithe income for
this year would be \$22,050,000, where-
as the actual contributions for 1897
were a little short of \$9,000,000. With
the full tithe contributions \$10,000,000
could be available for home purposes,
each of the three great denomina-
tional missionary societies could have \$2-
000,000 a year, and there would still
be left \$6,000,000 for other objects.
"And if the 25,000,000 church mem-
bers in the United States should give
a tithe of income, the grand total
would be \$750,000,000."

"ONLY THE BEST."

Should be your motto when you
need a medicine. Do not be induced
to take any substitute when you call
for Hood's Sarsaparilla. Experience
has proved it to be the best. It is an
honest medicine, possessing actual
and unequalled merit. Be wise and
profit by the experience of other peo-
ple.

HOOD'S PILLS are the favorite
family cathartic, easy to take, easy to
operate.

Life
of the
Orange

The use of the orange by
the Medical Profession for
various ailments dates back
many a score of years. All
agree that it possesses great
curative qualities. As a Nerve
Food and Tonic it is especially
recommended.

Nature's

It is just the preparation
needed to correct malarial dis-
orders. Takes away that tired
and heavy feeling. THE LIFE
OF THE ORANGE has filled a
long felt want to the weak and
delicate.

Medicine

Many prominent Doctors
throughout the States write
in flattering terms of it. Ed-
ward Neumann, an analytical
chemist of high reputation,
upon oath swears that the
preparation is pure and free
from dangerous drugs, etc.

Chest.

It is prepared from the
fresh ripe fruit from which it
derives its name, and can be
given to the young and old
alike.

Try a bottle and repair
your nerves at once.

Price 60 cents and \$1 a
bottle.

WEDNESDAY, JUNE 23, 1898.

IT COMES.

The fact that there was a good majority in the United States House of Representatives for annexation was well known; there has been a majority all along, but a strong minority has been able to block all efforts. That the majority should be as large as it was is more than anyone hoped for. There is no uncertain sound about 209 in favor and 91 against; it is an overwhelming expression of opinion from the popular house. This is a triumph for McKinley and the administration and we are now on the very crest of the wave, with successful men guiding us to that which we have ardently desired.

That the minority in the Senate will be able to block the will of the majority is now almost impossible. The debate was to have been commenced last Friday, June 17th, and the majority has agreed to stay till the question is disposed of. The annexation of Hawaii has now become a great national measure, and not even the power of the Sugar Trust will be able to stay the popular tide that is rising, rising ever, rising surely.

The end of much heart burning, of much intrigue, of much honest and determined work, is now at hand. The clouds are rolling away from Hawaii's political horizon and we who have, as it were, been living between sky and earth, will now find our feet firmly planted on the Constitution of the United States, free citizens of the greatest Republic that the world has ever seen, and whose power the world is now realizing. Instead of a petty state we now enter upon the birthright of one of the mightiest of States, at no cost to ourselves we acquire that which is of inestimable benefit to us. A waif upon the waters of the Pacific, we are safe at the harbor's mouth at last, and over our heads, never more to be taken down, will wave the protecting folds of the Stars and Stripes.

Look out for the boys in blue; they are near the Islands today.

LICENSES.

The bill authorizing the sale of light wines and beer in the various districts of the Islands meets with favor, the only discussion upon it being as to how the licenses should be issued and how they should be controlled.

Member after member from the country districts spoke of the illicit sale of liquor in all parts of the Islands. There is probably not a Chinese store in any part of the Islands that does not do a trade in beer and rooster brandy, with sand paper gin on the side. It was one of Gladstone's pet theories to mitigate the evils of intemperance by getting the people to drink the light wines of France, and for this purpose he abolished the duty on French wines, or brought it down to a minimum.

In the same way the advocates of the light wine and beer bill here regard the measure as a step in the direction of temperance. There can be no doubt as to the evil effects of the cheap spirits retailed in the Chinese stores, they are manufactured out of the very worst kind of alcohol, chiefly out of potato spirit, doctored and flavored for such a market. The profit upon it, both for importer and retailer, is enormous, and it is easy upon such gains to pay the fines when the seller is occasionally caught.

It is to be hoped then that the light wine and beer bill will be given a trial, and that it will do good. That it will entirely stop illicit liquor selling is by no means likely, but it will do a good deal towards it. The high licenses in Hilo, in Lahaina, in Wailuku, have not put an end to illicit liquor selling, but they have reduced the number of low grogeries. It was stated yesterday, as a fact, that more cases of liquor went by train to Paia, Maui, where there is no license, than go to Wailuku, where there is a licensed place for the sale of liquor. And the probability is that an increase in the licenses on the lines proposed may have a good effect.

The war news is not very definite, but everything points to a crushing blow about to be delivered in Cuba. The operations in the vicinity of Santiago will probably end in the destruction of the Spanish fleet and the complete defeat of the Spanish army.

The fall of Havana will follow shortly after that. It is evident that General Miles has been careful to prepare his blow, and that now he is ready.

FORESTRY.

The forests of the country are likely to have more attention within the next two years than they have ever had before. In a sort of prefatory way there has been something done for the forests here and there. Private land holders have made an effort to reforest their tracts, as at Lihue, on Kauai, and a determined effort to preserve the forest has been made at Kukuiahae, on Hawaii, and in other places good work has been done. The government reforested the heights behind Makiki, but the expense was large. An effort is now being made to reforest the upper part of Nuuanu Valley, and Representative Pogue says the effort at present is not being crowned with success. But all these efforts are and have been to a certain extent spasmodic.

To meet the exigencies of the case, we want to work upon a general plan, and we can only reach such a plan by obtaining the best trained scientific talent. We have already experienced what science applied to our industries can do. The work of Professor Maxwell has been of enormous value to the cane cultivator, yet there were many who, when the professor first came, said "what can he teach us?" We are practical men and know all about it from experience," but he has taught much and every dollar expended upon the experiment station and the staff is bringing in two, twenty, and mayhap a hundred fold. Again the work of Prof. Koebele has been of inestimable benefit to the country and everyone recognizes it now.

There are scientifically trained foresters and the Legislature has provided for obtaining this kind of talent. There is to be a forester in chief, whose appointment will be similar to all those who occupy government positions, but the Legislature has further provided means for obtaining the services of a highly trained expert who will, for a limited time, go over the Islands and study the best means of reforesting them. He will be accompanied by the forester in chief, who will on the departure of the expert carry out properly his suggestions. By this means the improvement of the forests on the Islands will be carried on in a proper manner to ultimate success. Of all the appropriations this is one of the best, probably, that has been made.

If each boy is to have a pie, our housewives will have to bake an extra thousand; over four thousand boys are at hand.

The Spaniards are only following out what has been charged against them by the Cuban patriots. In mutilating the bodies of the slain marines, they have disgraced the name of civilized warfare, and put themselves on a level with the Chinese and Afghans. No amount of politeness can wipe out the indelible stain of cruelty which is ingrained in the Spanish character.

CLOSING OF PUNAHOU.

Commencement Exercises Held in Punahou Hall.

The commencement exercises at Oahu College began at 8:10 o'clock last evening and were over in an hour and ten minutes. Each of the six graduates took some part in the program. The class, with Professor Hosmer, occupied chairs on the rostrum.

Short essays were read by the different members of the class. All of them showed clear thought and careful preparation. The Damon scholarship prizes for the year were awarded to C. Afook and Edwin Hall.

FRANK ANDRADE VENTURES.
Frank Andrade has purchased the interests of C. F. Schermerhorn and A. L. Morris in the People's Express Company. He will continue the business with M. T. Marshall as a partner. Andrade has given over his idea of taking a Hawaiian village to the Omaha Exposition.

Timely Topics.

June 16, 1898.

In times of war or times of peace, the people keep right on getting married. We are reminded that at this time there are a great many weddings in Honolulu. Of course they have to have wedding presents, and all will admit there is nothing more appropriate than silver ware. It not only looks nice but is useful. We carry a large stock in both solid and plated Sterling silver and know we can save you money by buying from us. Among the solid Sterling goods we might mention sets in cases very handsomely put up.

Oyster Forks,

Coffee Spoons,

Egg Spoons,

After-dinner Coffee Spoons,

Knives and Forks,

Soup Ladles, etc.

In plated ware we have duplicates of the above. They are heavily plated, and will last many years. It takes an expert to distinguish between them. We do not rely upon one article or line of goods for our profits and are able to make closer prices for this reason. You will do well to call in the next time you are looking for a wedding present, and you will not go out without buying.

HAWAIIAN HARDWARE CO
FORT ST., opp. Spreckels' Bank.

L. B. KERR, IMPORTER.
QUEEN STREET,

A Good Article

Is worth striking for. And in nothing is this better illustrated than in Footwear.

Ten cents taken out of the sole, and fifteen cents taken out of the upper, in the factory, makes the biggest kind of a difference when the Shoe is put into actual service. It's wise in the end to spend the extra twenty-five cents and thus secure security for your feet and pocket-book.

There are heaps of job lots sold at \$2.49 a pair, when an outlay of a few cents more would secure for you the real article.

Don't be led away by odd figures. A Shoe dealer with a reputation to sustain cannot afford at any time to put out a shoe that will not sustain this reputation of value.

We have a reputation to sustain.

THE POWER OF HABIT

A certain groove is easily fallen into; due to the fact of unconscious action. Many will perform the same act repeatedly, not thinking that a change might make matters less arduous and more beneficial. Habit is caused by lack of interest, and people through habit often miss opportunities of advantage. The practice of buying without considering is a fault, due to habit. Many dollars could be saved if people were less inclined to stay in the same old groove.

Shoes change in style constantly, and are more artistic at the present than ever before. Do you need a pair of shoes? Think. We have them and at proper prices.

FIGHTING ON CUBAN SOIL

(Continued from Page One.)

Guantanamo is in a very satisfactory condition. The town of Acerraderos has been occupied by the troops under General Rabi. The men under General Garcia are co-operating with the American forces.

WASHINGTON, June 14.—The six hundred marines at Caimanera are in a precarious situation and are liable to be massacred at any time by the Spaniards, who seem to have adopted the devilish guerrilla method of warfare. The general opinion in Washington is that some one blundered in landing this handful of men and exposing them to the merciless fire of Spanish forces vastly superior in numbers.

LANDING EFFECTED.

NEW YORK, June 14.—The dispatches have told of the operations that led up to the bombardment of the defenses of Caimanera on Tuesday, and how the cruiser Marblehead was holding the harbor awaiting the arrival of the marines to effect a landing. This afternoon the first landing in force by Americans was effected on Cuban soil, with 600 men from the transport Panther came ashore and took possession of this place. The landing was effected without it being necessary to fire a single shot, and this despite the Spanish boasts that they would defend Caimanera to the last gasp.

The first thing that was done when the men were safely ashore was to set fire to half a dozen houses which mark the entrance to the bay. This was done by order of the commanding officer, who took this and other safeguards possible to prevent the outbreak of yellow fever among the men.

The landing here was for the purpose of establishing a naval base for the American fleet, and, especially, for a coaling station, for which purpose the harbor offers ideal facilities. It is hardly possible that this place will be selected for the landing of troops supposed to be en route for the south side of Cuba. The situation for that purpose is bad. The country round about is very mountainous, and to handle heavy artillery where there are practically no roads, save mule paths, would be exceedingly difficult. It would take days for the army to march from here to Santiago. The seized territory here will be used for a rendezvous during the siege of Santiago, which is now apparently expected.

GUANTANAMO, June 14.—6 p. m.—The American marines and the Cubans today completely routed a force of 400 Spaniards. One American was slightly wounded. The Spaniards lost about 60 killed.

NEW YORK, June 15.—The following dispatch is a Journal special from Colon, Costa Rica, Guantanamo harbor, June 15th: The scouting parties of marines which were sent out yesterday returned here at 10 o'clock last night with eighteen Spanish prisoners, one of them an officer. The party also captured a hundred Mauser rifles and 10,000 rounds of ammunition. They report having had a series of engagements with Spaniards, in which 100 Spanish soldiers were killed and 200 wounded.

They also destroyed a Spanish blockhouse and the telegraph station, through which the Spanish had been keeping Guantanamo and Santiago informed of the movements of American troops.

Hood's Pills

Cure Liver Ills

Hood's Pills are as peculiar and as pleasant, in comparison with all others, as is Hood's Sarsaparilla.

To compound a pill which shall be pleasant to take, shall not be coated with what by age becomes insoluble, and which shall be just that mild stimulant to the liver and bowels which shall help Nature to restore her disordered functions—that is the problem for the pharmacist.

It is easy to purge, but that is not what is wanted. A mild but sure and un-

CURE

disturbing cathartic will set Nature to going, and relieve the head, the stomach, the liver and all the organs of the body from the evils of a clogged drainage.

The Liver is the gateway between the stomach and the organs which the stomach purveys for. Stop up the gate and death quickly ensues. Barden it with obstructions and a thousand ills result.

Hood's Pills CURE Liver ills, sick headache, biliousness, indigestion, nausea, constipation, without purging, without pain, without violence.

Everybody at sometime needs them. Everybody should keep them on hand at all times for emergencies.

Liver Ills

Hood's Pills are sold by all druggists. 25 cents. Sent by mail on receipt of price, by C. I. Hood & Co., Lowell, Mass., U. S. A.

The cleanest, brightest and safest, really, in the long run, the cheapest and best light for use in the family residences, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers

MISSIONARIES MURDERED**FIENDISH WORK OF BARBAROUS AFRICANS.**

Further Details of the Horrible Massacre at Rotfunk—The Inexpressible Atrocities Perpetrated.

NEW YORK, June 4.—Leaving behind them their work of years ruined, their mission buildings burned or thrown down and their co-workers murdered by the savage tribes of Western Africa, the missionaries of the Church of the United Brethren in Christ who survived the Sierra Leone massacres of a month ago, arrived here to-day on the Cunarder Etruria. In the party are Rev. L. O. Burtner and Mrs. Burtner, Rev. L. S. Minshall, Mrs. Minshall and their baby, Miss Mary B. Mullen and Rev. A. A. Ward.

They are the smaller part of the American colony which went out a few years ago to carry on mission work in Sierra Leone. Seven of their companions are dead, victims of the fury of the tribes whom they went to teach. These were the Rev. J. N. Cain and his wife, Dr. Mary Archer, Dr. Mariana Hatfield and Miss Schenick, all killed at Rotfunk Mission, seventy miles east of Freetown, Tuesday May 3d, and Mr. and Mrs. L. A. McGrew killed at Tiama station, 125 miles east and inland from Freetown probably May 8th. Of the native missionaries, the entire colony of eleven persons at Danville station and the family of Daniel Wilberforce were slaughtered, and there is hardly a doubt that Mr. and Mrs. Hughes of Avery station, 100 miles east of Freetown, which place was taken by the savages about April 30th, suffered the same fate.

The massacre at Rotfunk came without warning.

Having no means of defense the five missionaries took to the bush. They were speedily captured and marched back to the mission-house in single file, their captors pricking them with spear points and striking them with switches which brought the blood wherever they fell. What followed is like a bit from the early Indian history of this country. It cannot be repeated here. Death put a welcome end to the shame and torture. The missionaries fell one after another in front of their own mission-house, the women stabbed to death by spears or beheaded with cutlasses. The man, after being cut almost to pieces, was fastened on a barbed wire fence which surrounds the mission grounds, and hung there until he died.

CIGARETTES.

Examining officers of the army say that a large share of the rejections of volunteers are due to weak hearts induced by excessive cigarette smoking. The army medical corps has a bad opinion of the cigarette, and possibly gives it a worse name than it deserves.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much, and the second bottle has absolutely cured me. I have not had as good health for twenty years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

Practical Watchmaker, Etc.Complicated Watches, Clocks, Music
Boxes, Etc.**REVENUE FROM STAMPS**SOME COUNTRIES COUNT ON IT
LARGELY.Change the Designs at Frequent In-
tervals so as to Increase the Sales
to Stamp Collectors.

It is generally understood that each country where stamps are used is responsible for the preparation and issuing of these articles. The announcement, therefore, that one little French colony makes about two hundred varieties of stamps comes as a bit of a surprise. This is the colony of Obok, and is simply a great stamp factory. The capital of the place is a little village of huts, and the administration consists merely of a governor with eight functionaries. The methods of these people are somewhat novel. The secretary of one of the engraving companies is under contract to supply without charge whatever postage stamps may be needed by Central and South America. Coupled with this agreement is the understanding that every year the design is a new one. The government returns to the company whatever stamps remain on hand unused. The manufacturers keep the design plates and all paraphernalia in order to make reprints for collectors. Under these circumstances it is not remarkable if very great latitude is allowed to their caprices by these people whenever they desire to run out a new issue of stamps. In one instance a man took possession of a rocky island where there were no inhabitants, gave the place a name and had an immense issue of postage stamps prepared, all of which were furnished to collectors at a good profit. If this sort of thing keeps on it will be easy enough to fill one's book with specimens which have really no local habitation nor name. Stamp collecting is all very well and interesting, but when it comes to making stamps for places that have no actual need for them or even an existence to warrant their turning out, it is time the line was strictly drawn, and some effort made to keep the fad on at least a rational basis.

CARE OF ORPHANS.

The Lutherans of Milwaukee and neighborhood have undertaken a new method of charity work in the organization of a society, the special purpose of which is to arrange for the adoption and education of orphaned children by Christian families. It is the conviction of the members that the common practice of housing such orphans together in a home does not accomplish the best ends; but that such institutions should exist only as temporary gathering places for these waifs until reliable Christian homes can be found for them; and the younger the children are when they are transferred to the bosoms of such families the better.

BALLOON SEARCHLIGHTS.

Russia is experimenting with giant searchlights mounted in balloons and containing electric burners connected with dynamos upon the ground. The largest of these yet reported is of 5,000 candle power. At a distance of about 600 yards above the earth it will illuminate a circular area below 500 yards in diameter to the brightness of day.

WORLD'S BIGGEST HOUSE.

The Sultan of Turkey has just built at Mecca the biggest house in the world. It is intended for the accommodation of pilgrims, and is capable of sheltering 6000 persons. The next biggest house in the world is in a suburb of Vienna. It consists of 1500 rooms, thirteen courts and thirty-one staircases, and accommodates 2112 tenants. Next come the three Rowton houses in London, with 800, 677, and 500 tenants respectively.

TELEPHONES IN USE.

According to Electrical Engineering of Chicago, the total number of telephones in use in various countries has been tabulated as follows: Province of Angola, 200; Austria, 20,000; Australia, 2,000; Bavaria, 15,000; Belgium, 11,000; British India, 2,000; Bulgaria, 300; Cape of Good Hope, 600; Cochin China, 200; Cuba, 2,500; Denmark, 15,000; England, 75,000; Finland, 6,000; France, 35,000; Germany, 140,000; Holland, 12,000; Hungary, 10,000; Italy, 14,000; Japan, 3,500; Luxembourg, 2,000; Roumania, 4,000; Russia, 18,000; Senegal, 100; Spain, 12,000; Sweden, 50,000; Switzerland, 30,000; Tunis, 300; United States, 900,000; Wurttemberg, 7,000. These give a total of 1,402,100. In this list it is very evident that Hawaii's 1,500 have been counted in with the United States.

If you need anything read the advertising columns of The Star.

JUST THINK OF IT.
An order for 2,000 barrels of high proof alcohol has just been filled by the American Spirits Manufacturing Company for the Japanese government. The order required a train of thirty freight cars to move it from Peoria, Ills. Other recent Japanese government orders for alcohol have aggregated, with this last order, between 6,000 and 7,000 barrels. Agents of Japan said the alcohol was to be used in the manufacture of smokeless powder.

HIS REASONS.

A New York paper says that Rev. Dr. Hall of Greenwich, Conn., leaves that place for New Britain, because, in spite of his efforts during six years many Greenwichers still play golf on Sunday, refuse to vote no license and are politically on the wrong track.

BY AUTHORITY

PUBLIC LANDS NOTICE.

On July 20th, at 12 o'clock noon, at the office of E. D. Baldwin, Hilo, Hawaii, will be sold at public auction, on special terms of payment and improvement, Lot 13, Kahoahuna, Hilo, Hawaii, containing an area of 66 9-10 acres, a little more or less.

Upset price, \$533.20.
For full particulars as to terms and conditions, plan, etc., apply at Public Lands Office, or at office of E. D. Baldwin, Hilo, Hawaii.

J. F. BROWN,
Agent of Public Lands.
June 20th, 1898.

SEALED TENDERS.

Specifications at office of Superintendent of Public Works.
The right is reserved to reject any or all the bids.

W. E. ROWELL,
Superintendent of Public Works,
Honolulu, May 20, 1898.

WATER NOTICE.

In accordance with Section 1 of Chapter XXVI of the Laws of 1896:

All persons holding water privileges or those paying water rates, are hereby notified that the water rates for the term ending December 31, 1898, will be due and payable at the office of the Honolulu Water Works, on the 1st day of July, 1898.

All such rates remaining unpaid for 15 days after they are due will be subject to an additional 10 per cent.

All privileges upon which rates remain unpaid August 15, 1898 (30 days after becoming delinquent) are liable to suspension without further notice.

Rates are payable at the office of the Water Works in the Kapuwa building.

ANDREW BROWN,
Superintendent Honolulu Water Works,
Honolulu, H. I., June 20, 1898.

NEWS IN A NUTSHELL.

Hits of Paragraphs that Give Condensed Notes of the Day.

The Monna sails for the Colonies at 3 o'clock.

The committee again ask people this afternoon to accede.

Wanted, \$500, on real estate security. Address A. E. Star office.

Company D will re-elect Captain Bierstrom on Friday evening.

The Alameda will sail for San Francisco at 8 o'clock this evening.

The Senate and House held important business sessions this morning.

Honolulu improved property is now wanted in exchange for an elegant ranch.

A meeting of the Fourth of July committee will likely be called for Saturday night.

Everybody decorates now. The L. N. L. is prepared to fill orders for flags or bunting.

Commissioner Kenny will entertain the cricketers on his grounds at Palama this afternoon.

A meeting for and by young people will be held in the parlors of Central Union church at 7:30 this evening.

The funeral of Bragard, the infant daughter of Mr. and Mrs. C. Rotte, will take place at 4 o'clock this afternoon.

Harry Vincent, assisted by Charles Faneoff and Captain Coe, painting the fence around the Executive Building grounds.

T. S. Southwick, rescued by the Monna the bad news that his home in Los Angeles has been burned. Scarcely anything was saved.

The Dairyman's Association give notice that on July 1, 1898, the price of milk delivered by them will be advanced to 12 cents per quart.

Albert Hoogs, brother of William H. and Frank L. Hoogs, arrived this morning. He will be employed as law clerk in the office of J. A. Magoon.

The Parmalees are moving from their residence near St. Andrew's cathedral to their new home below the Methodist church on Beretania street.

The Monterey is eleven days out from San Diego and should arrive during the afternoon or evening. She will be saluted by the Kakaako battery.

The notice of co-partnership between M. T. Marshall and Frank Andrade, under the firm name of The People's Express Co., is published in this issue.

During the absence of G. A. Howard, Jr., (of the firm of Howard, Train & Page) from the Islands, all business entrusted to the firm will receive prompt attention by Mr. Page, one of the partners.

Tickets for admission to the grand stand at the Blue Ribbon meet at Cyclomere on next Saturday evening are on sale at Wall, Nichols Co., Benson, Smith & Co., Hobron Drug Co., and F. W. Thrum's, at 20 cents each.

Honolulu Chapter No. 1 will hold a special meeting this evening for work in the Past Master and Most Excellent Master degrees. If the Boys in Blue arrive before 5 o'clock today, the meeting will not be held.

JAMES B. CASTLE.

Secretary of Legation James B. Castle was welcomed home from Washington this morning. He received the news of the passage of the annexation resolution at San Francisco.

Minister Cooper received a dispatch from Minister Hatch this morning telling of the passage of the Newlands resolution, elsewhere reported.

FOR ONE WEEK.
