Changes Made Today—No Succes-  
sor to McGrew Named—Faith-  
fulness Rewarded.

Frank B. McStocker will assume  
the duties of Collector-General of Custom-  
s, succeeding James B. Castle, re-  
signed. He was strongly recommended  
for the position by the retiring Col-  
lector-General on account of his cap-  
ability. He has been Deputy Collector  
of the port since the present Govern-

COLLECTOR-GENERAL M'STOCKER

ment came into power, and has given  
great satisfaction to the department  
and the business community.

Mr. McStocker is a native of Phila-  
delphia, and after receiving his edu-  
cation in one of the military acad-  
emies in Pennsylvania, he entered the  
service of the Pacific Mail Steamship  
Company as a cadet, and was assigned  
to one of the steamers running between  
San Francisco and Panama.

On retiring from the sea Mr. Mc-  
Stocker took up his residence in San  
Francisco and immediately became  
identified with local politics. He was  
appointed to positions in the Custom  
House and Post Office in San Francis-  
co and acceptably filled them until 1883,  
when he resigned and came to Honolu-  
lu. He entered the Customs Service  
here about 12 years ago, holding the  
position of Storekeeper, until Mr. Cas-  
tle was appointed Collector-General,  
at which time he was promoted to the  
Deputyship, made vacant by the retire-  
ment of Mr. Boardman. He is promi-  
nent in politics here, and is looked  
upon as a leader. He was the organizer  
of the Citizens' Guard here, and has  
the reputation of looking after his  
friends. When the Annexation Club  
was organized and some one was  
needed to bring order out of chaos, F.  
B. McStocker was made chairman of  
the Executive Committee, at whose  
hands the matter of reorganization was  
satisfactorily accomplished.

J. Fred Clay, who succeeds Mr. Mc-  
Stocker as Deputy Collector, came here  
from New Zealand some years ago.  
When the Kahuku Plantation was or-  
ganized he was made bookkeeper, re-  
maining there until 1894, when he re-  
signed and came to Honolulu and pur-  
chased a half interest with F. L. Hoogs  
in the Paradise of the Pacific. After  
the revolution of 1895 Mr. Clay dis-  
posed of his interest to Mr. Hoogs and  
was afterwards appointed on the clerical  
force in the Custom House. When  
Mr. Johnson retired from the Post Of-  
fice Savings Bank Mr. Clay was ap-  
pointed Superintendent to succeed him.  
His duties as Deputy Collector will not  
be altogether new to him, as his ex-  
perience in the other departments of  
the office frequently brought him in  
contact with Mr. McStocker. He is an  
excellent accountant, thoroughly up-  
right and well qualified for the place.  
The vacancy in the Post Office,  
caused by Mr. Clay's retirement, will be

filled by Louis K. McGrew, who, until  
yesterday, was assistant to Deputy  
Collector McStocker. This is a promo-  
tion for Mr. McGrew, and the position  
is one which he is abundantly qualified  
to fill. No successor has been yet  
named to take Mr. McGrew's place in  
the Custom House, and no appoint-  
ment will be made until the Collector-  
General and his Deputy have time to  
consider.

## IN CONVENTION.

One Man Doubts Qualifications  
of Candidates.

"You think we were turned down in  
our precinct because a favorite before  
the primaries were held was not nomi-  
nated. What can you expect when  
people remain away because they think  
some one will appear with the candi-  
dates' names written on his cuff, and  
there is no use of opposing him. A  
greater mistake was never made, and  
if the operations at the convention are  
to be conducted on the same general  
plan, every business man in town will  
have to get on the streets and work  
to elect good representatives.

"The idea that we are to sit down  
and let any one get nominated who is  
in with the push and when nominated  
be elected simply because people do not  
go out to the polls is sheer nonsense.  
It is as necessary today to put educated  
men in the Legislature as it ever was,  
and it is likewise every voter's duty to  
see that such men are elected. If our  
party does not nominate men who will  
have the support and confidence of the  
business community, then independent  
candidates of good standing should be  
elected. We have the timber in the  
party, and while there are good men,  
poor ones should be given the cold  
shoulder.

"This feeling that there is no use  
trying is what has kept the Portuguese  
from registering, and this fact proves  
to me that they are without a leader.  
No politician, through petty spite, the  
result of a fancied grievance, would ad-  
vise his followers to such a course, and  
no sensible man would have acted un-  
der such advice. While we are without  
opposing political parties, the election  
sifts down to an opposition to indi-  
viduals, and voters may select their  
favorite and elect him. With the na-  
tive population, entitled to vote on tak-  
ing the oath to the Government, the  
completion of the next Legislature  
would be materially changed, but had  
advisers kept them from registering  
and deprived them of their right of  
franchise—the Government did not do  
it—and the result is only a small na-  
tive vote will be polled.

"From what I can learn the men  
who want to be candidates before the  
Nominating Convention, some of the  
good independent candidates will not  
suffer defeat, if the people will exercise  
their right to vote. Aleck Robertson,  
of course, will be a party candidate,  
and will be elected, but I cannot say  
so much for some of the others whose  
names I have heard mentioned. Just  
wait until the nominations are made;  
the people will have a day or two to  
think over them and decide whether  
they are the proper persons to go to  
the Legislature. If they decide in the  
negative, independent candidates will  
spring up like mushrooms."

This man is looked upon as a party  
man and a warm supporter of the  
Government, but he is a business man  
and feels that his interests must be  
protected. Just who he referred to as  
possible candidates could not be learned.  
He may be disgruntled and every-  
one may appear united, in his opin-  
ion. One thing seems certain, and that  
is that the American Union party will  
not weaken its organization or influ-  
ence by the support of men for the  
Legislature whose records are not the  
best or who do not hold the confidence  
of the people. Nothing will create dis-  
cord quicker than an attempt to foist  
upon the public men who are not emi-  
nently qualified in every way to per-  
form the duties of a legislator. Tam-  
many methods are not wanted here and  
are not needed.

**NOT ALL CAKES AND ALE.**  
Returned Miner Says Getting to  
Klondyke Is Serious Business.

**SEATTLE, WASH., August 23.**  
George Stewart, one of the party who  
came out overland from Dawson with  
Ed Thorp, arrived here today from his  
home in Stuck Valley, and at once be-  
gan preparations for the return trip.  
He adds his voice to the warning  
sounded since the rush began.

"There are mistakes being made by  
the people who are rushing to the Yukon,"  
he said, "and I have warned my  
friends. Let no man go into the in-  
terior of the Yukon country without  
plenty of food, for if he runs out he will  
starve to death. I also want to say  
that unless more strikes are made this  
fall, the country is going to be over-  
crowded. Going into the Yukon is real  
serious business, and it is no place for  
an inexperienced man to be caught  
straying around."

**TO REFINE SUGAR**  
Star Mill to Commence Operations  
January First.

**LOOKING FOR ISLAND PRODUCT**

**Kaiulani to Return to the  
Islands.**

Said to be Hoping to be Restored  
to Power Through  
Compromise.

The Chronicle of August 24 says that  
beet sugar will not be the only product  
of the Star mill at Crockett when it  
starts up about January 1st next. That  
will be its special province, as stated  
in the dispatches, but the machinery  
will permit of the refining of cane sugar  
as well, and the prospects are that it  
will take considerable of the Hawaiian  
crop not controlled by Claus Spreckels.  
This year's crop is estimated at about  
200,000 tons, and while much of it may  
be shipped directly East, if prices war-  
rant—and the calculation is that they  
will—a large amount will find its way  
to the new factory on Carquinez straits.  
Under the arrangements made some  
years ago the Hawaiian planters are  
required to send their sugar to the  
Western Refinery Company to be clar-  
ified and made merchantable, but this  
contract will expire in December, and  
soon thereafter the California Beet Sugar  
and Refinery Company, as the new  
enterprise is named, will be in position  
to take as much of the Islands  
crop as is not in control of the Sugar  
Trust, as may be shipped to this Coast.

This season Claus Spreckels, in ad-  
dition to the cane grown on his own  
property, has secured that of the Da-  
vies plantation, but altogether it is es-  
timated that it will not exceed 50,000  
or 60,000 tons of the 200,000 tons pro-  
duced. Thus, even with the amount  
that may be sent East for refining,  
there will be considerable to be worked  
at the new California factory. The  
Crockett refinery is to be outside of  
the trust and will naturally come into  
competition, if not in opposition, to  
that great aggregation of capital.  
Those interested in the project are ex-  
tremely reticent regarding it, as they  
say the details have yet to be worked  
out, but there is reason to believe that  
the principal cause for silence is just  
this intention to take hold of the Ha-  
waiian sugar crop not controlled by  
the trust. The capital behind it is  
large, and in addition to such local  
moneyed men as George W. McNear,  
several houses interested in the Sand-  
wich Island trade, among others Welch  
& Co., are actively pushing the scheme  
in a manner that is to say the least  
significant. They admit even that the  
factory will be equipped to refine cane  
sugars, and that they expect to handle  
a portion of the Hawaiian output.

They are more particularly non-com-  
mittal as to the quantity, evidently be-  
ing undesirable to attract too much at-  
tention from their competitors in busi-  
ness. They say that Mr. Huntington,  
the president of the company, is busy  
making contracts for beets, and that  
the manufacture of that class of sugar  
will be the principal object in view,  
but no doubt is felt that when the re-  
fining of Island sugars on this Coast  
is once begun outside of the trust, a  
conflict will be inaugurated, and that  
in the future that will be a great  
branch of the work of the refinery at  
Crockett.

**COMING TO HAWAII.**  
Kaiulani said to be Looking for a  
Throne.

Princess Kaiulani, who has just at-  
tained her majority, will return to Ha-  
waii in October, after an absence of 10  
years, spent in England and on the  
Continent, says the San Francisco  
Call.

She has hopes of being made Queen  
of the present Island Republic if an-  
nexation fails. The Republic, she  
thinks, cannot be long maintained by  
itself without the willing support and  
approval of the majority of the peo-  
ple.  
She is watching for a change. When

it comes she looks for a compromise  
between the Republicans and the Roy-  
alists in favor of herself; for the  
chances of her aunt, ex-Queen Liliu-  
okalani, being restored to power are  
generally conceded to be very slim in  
any event.

Kaiulani is now a beautiful young  
woman, accomplished and carefully ed-  
ucated.

It is believed that her advent in Ha-  
waii will excite much enthusiasm, not  
only among her own people, but among  
foreign residents as well, for she is  
said to be brilliant and intellectual and  
possessed of a magnetic personality  
and graceful figure.

When she left Hawaii she was only  
a child, and the people of the Islands  
have not seen her since her departure,  
10 years ago. It is largely due to the  
repeatedly expressed wishes of the na-  
tives that she has decided to visit at  
this time the land of her birth.

During her absence she has been  
with her guardian and her governess,  
principally in England, but often on  
the Continent. Her studies have been  
pursued with a view to fitting herself  
some day to rule Hawaii. Recently  
she has been carefully watching the  
annexation question and the possibili-  
ties of the Islands.

The Princess will arrive in New  
York about September 25th from Eng-  
land. She will probably stay for a  
short time in this city, visiting with  
ex-Queen Liliuokalani, who will then  
be residing here temporarily, while  
Congress is not in session.

Kaiulani's father will accompany her.

Though she has just come of legal  
age, the Princess is possessed of very  
little property in her own right.

**CRISIS AT HAND.**  
England May Make Strong Move  
in Cretan Question.

**CONSTANTINOPLE, August 22.**—  
The meeting of the Peace Conference  
tomorrow is expected to develop a  
crisis. Sir Philip Currie, the British  
Ambassador to Turkey, has received  
fresh instructions of a serious nature.

The details of the so-called ratifica-  
tion of the Thessalian frontier have  
been made public, and they show that  
Greece will be placed entirely at the  
mercy of the Turk. The former fron-  
tier, which ran along the waterpart-  
ing of the mountain range forming  
the boundary of the Thessalian plain,  
has been superseded by a line follow-  
ing the southern base of the mountains  
and transfers to Turkey Miloua and  
all other important passes. Thus any  
future aggressive action on the part of  
Greece will be rendered impossible,  
while Turkey will be in a position to  
invade Thessaly without encountering  
serious opposition.

The principle of following the base  
of the mountain chain was deviated  
from in one important particular. A  
little west of Larissa the new frontier  
leaves the mountain, crosses the Sa-  
lamvria River, losing a considerable  
tract of plain to Greece and placing  
Turkey in possession of both banks of  
the river.

Revolutionary threats of the Arme-  
nians are causing anxiety. The Ar-  
menian quarters of the city are pla-  
cially patrolled and other precautions  
taken. The Armenian patriarch has  
disavowed the action of the agitators,  
apologized profusely and humbly to  
the Sultan and prepared an encyclical  
denouncing the bomb-throwers, which  
was read in all the Armenian churches  
today. It is generally considered that  
the bomb outrages will prove a peg  
upon which to hang another Armenian  
massacre. The Turkish authorities,  
however, are thoroughly controlling  
the mob and preventing assemblages  
of vagabond Moslems. Numerous ar-  
rests have been made of both Turks  
and Armenians.

**Volcano in Georgia.**  
**THOMASVILLE, Ga., August 23.**—  
People residing in this city and the  
surrounding country are greatly ex-  
cited over what appears to be a vol-  
cano on a plantation near here. The  
crater is about 25 feet square. Several  
streams of blue smoke issue from it.

**ROYAL**  
  
**BAKING POWDER**  
Absolutely Pure.  
Celebrated for its great  
leavening strength and  
healthfulness. Assures the  
food against alum and all  
forms of adulteration com-  
mon to the cheap brands.  
**ROYAL BAKING POWDER**  
CO., NEW YORK.

The ground in the immediate locality of the crater has sunk two feet. Excavations made show that the smoke proceeds from an extensive bed of ashes. Originally the source of disturbance was situated beneath the residence of a farmer, but the volume of smoke and intense heat compelled the destruction of the house. It is impossible that the smoke should proceed from burning mines, as there are no mineral deposits in this locality. Frequent rains have failed to quench the subterranean fires.

#### NO END IN SIGHT.

Miners' Strike Still Far From Settlement.

PITTSBURG, Pa., August 23.—Miners to resume work at the 54-cent rate, pending a decision of a board of arbitration.

Miners to resume work at an intermediate rate between the rate demanded and the one paid before the suspension pending a decision of a board of arbitration.

Miners to resume operations without a price named pending a decision of a board of arbitration.

These three propositions were submitted by the special committee of railroad coal operators of the Pittsburgh district at a conference held tonight.

Miners to resume work at the 69-cent rate pending the decision of a board of arbitration is the proposition submitted by the officers of the miners to the special committee. The propositions were talked over in an informal manner by both sides, when an adjournment was taken until 10 o'clock tomorrow morning.

As near as can be learned, the miners' officials will stand firm on the proposition they have made. In support of this claim they say that it is equally as fair for the miners to resume at the 69-cent rate pending arbitration as it is for them to go to work at the 54-cent rate under the same conditions.

After the conference tonight, several members of the committee of the operators said that a conference of operators of other States had been entirely eliminated from the controversy and that only the Pittsburgh district was being considered. National President Ratchford and District President Dolan stoutly maintained that the question was still an interstate one, and the general question is being generally deliberated upon. From the information at hand, the contending parties are still far apart. The operators hope that one of their propositions will be accepted.

WILL AID AMERICAN GROWERS. Prospect That Russia Will Prohibit Wheat Exports.

PHILADELPHIA, August 22.—The Press will say tomorrow: Word has been received at this port that the Russian Government is meditating the promulgation of a decree prohibiting the exportation of wheat, owing to the small crops in Southern Russia, and this report is causing some uneasiness to those interested.

The effect of this contemplated action will be to create a strong demand for tonnage in the Black Sea, so that as much grain as is possible may be shipped before the prohibition takes effect. This in itself would be calculated to force up freights on vessels loading here.

A well-known shipping man in this city said that this contemplated action of the Russian Government makes it almost a settled fact that Europe must look to the United States to fill her orders for cereals. Just what increase of business this means for Philadelphia, New York and Baltimore alone is incalculable. The exports of grain from Philadelphia, which already are the largest on record, will reach figures in excess of what has been the most sanguine expectation of shippers. Within the next few weeks cargoes of grain will be shipped from here to ports in the Adriatic Sea, to St. Louis du Rhone, Marseilles and Alexandria, Egypt.

This in itself serves to confirm the rumored prohibitory export law of the Russian Government, for unless something of the kind is contemplated it would be an unusual action to make such imports from ports at such a distance.

#### NO ONE TO TAKE HIS PLACE.

Premier Canovas' Place is Hard to Fill.

PARIS, August 22.—Gen. Lopez Dominguez, who was Spanish Minister of war in the last Cabinet of Senor Sagasta, is now in Paris.

In the course of an interview he deeply deplored the death of Senor Canovas del Castillo. He regards General De Azaraque, the new Premier, as a clever and active man, but does not believe that he will be able to replace Senor Canovas, as the dual task of being the head of the Government and also the head of the Conservative party is a heavy one.

"I do not believe that either Europe or the United States," he said, "will interfere in the Cuban difficulty. Spain has incalculable resources at her command, and the only thing to be feared is that political disputes may prevent the suppression of a rebellion which has now arrived at the limit of exhaustion."

PROFESSOR ELLIOTT AGAIN. Now He Says the Seal Branding Is Not Successful.

CLEVELAND, Ohio, August 23.—The remark of Dr. Jordan, as contained in the press dispatches of the 22d, that the "skins of branded cows returned this year to the islands show clearly the permanency of the mark and its efficiency to render the skin unsaleable without injury to the animal or to the herd," was commented on by Professor Elliott today as follows:

"I yield to no one in my esteem for Dr. Jordan's ability and integrity, but in this statement I believe him to be premature. The seals which were branded last year, and which Jordan speaks of as returning this year so marked, were some 350 female pup seals or the young of that season of

1896. They were branded between the 13th and 20th of September, or after they had shed their natural coat and put on their sea-going jackets for the coming year of their lives. Fur seals renew their hair once every year. Jordan has not yet had the time to observe the effects of the branding.

"I was forcibly impressed by the fact that all scars and wounds in the skins of fur seals healed without cicatrice while studying these animals on the island in 1873-74 '75. It was a very singular deviation from the law which governs such healing in the hides of horses, cattle or dogs and cats. I followed it closely in 1873 and again in 1874 and found it to be constant."

A CURE FOR BILIOUS COLIC. RESOURCE, Screen Co., Ga.—I have been subject to attacks of bilious colic for several years. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only sure relief. It acts like a charm. One dose of it gives relief when all other remedies fail.—G. D. SHARP. For sale by all druggists and dealers. Benson, Smith & Co., agents for Hawaiian Islands.

### Fads and Fancies.

### Wire Glass

IS THE PRODUCT of a recently invented process by which wire netting is so incorporated in a sheet of glass as to be completely enveloped and protected from any corroding or deteriorating influences.

The function of the netting and purpose of the inventor in making this novel use of same, is to give to sheet glass a greater amount of stability under extreme conditions, and therefore a wider range of application than has been possible heretofore.

Glass so reinforced will not melt or break to pieces when exposed to heat, cannot be cut or tampered with, will resist much rougher usage, and is, therefore, more desirable for sidewalk or floor lights, skylights, and any exposed situation. The meshing of wire, together with the tinge of green given this glass in blowing, make it unnecessary to use any artificial means to modify its illuminating power or to insure privacy.

As already stated, this glass cannot be cut, but is manufactured in various sizes. We have in stock sizes from 20x40 inches to 40x100 inches, sizes extremely useful for skylight or sidelight uses, a single sheet answering in place of a number of lights, thus reducing the chance of leakage in exposed places.

We have placed this style of glass on the balcony in front of our new store, and find it most acceptable in giving the place MORE LIGHT. Call at 227 and 229 King Street and inspect this new glass, as well as the fine line of Plumbing and House-Furnishing Goods we carry.

So many different styles of oil stoves have been put on the market during the past ten years, that it was with difficulty that the best could be determined until the Primus was introduced a year ago. This style burns a kerosene vapor and is non-explosive; you can turn it upside down and no danger will result.

The oil tank cannot be filled while burning as the removal of the filler cap extinguishes the flame instantly. In point of simplicity it has no equal for it has no wick, burns any grade of kerosene and the flame can be regulated. It produces a heat of from 2,100 deg. to 2,600 deg. Fahr. and consumes one quart of oil in five hours consecutive burning. This means an expense of 2 cents per hour. Nothing but solid brass is used in the manufacture of the Primus, and when in operation it is absolutely odorless. It will bring a quart of water to boiling in 3 minutes.

We have half dozen styles, single, double and triple burners; extensions for singles so that three vegetables may be cooked at once. Soldering irons, flat iron heaters, ovens and everything necessary to cook a meal.

VON HOLT BLOCK.

Y. M. C. A. NOTES.

Just now Secretary Coleman is preparing a prospectus of the year's work in the Y. M. C. A., which will begin in September. This will contain full and complete information regarding all departments of the institution, and will include a number of fine cuts of the various rooms of the hall, recently made in Chicago.

The committee appointed to look into the matter of employing an assistant to Secretary Coleman, met yesterday and decided to write to Mr. C. B. Ripley, now in the States, authorizing him to employ as assistant, Alfred T. Brock of Oakland, Cal., who has, for the past three years, been in Y. M. C. A. work in that place, and who has for the past two years been at the head of the physical work in the Y. M. C. A. gymnasium of Oakland. Mr. Brock is expected down on the Mariposa.

The first term in the Y. M. C. A. educational work begins September 20th and the second January 10th. Each will last 13 weeks.

The next board meeting will be held Monday evening.  
A class in "first aid to the injured" may be instituted in the Y. M. C. A.

**Funds Are Low.**

The extraordinary demands upon the Judiciary Department for funds since the last Legislature has quite depleted the appropriation, until now no funds are available. It is said the same condition of affairs exists in the Attorney-General's Department. Chester A. Doyle was booked for Kaula yesterday, and his failure to leave gave support to the rumor of the scarcity of funds. He was questioned about it last night, but denied any knowledge of it, adding that he always has enough money to get away on, if the department had not. He stated that important business only had kept him in the city.

**Kicked His Wheel.**

John Jones of the Manufacturer's Shoe Company, had quite an experience early last evening. He was riding his wheel along Fort street, and had just come to a position opposite Chilton's barber shop, when he saw a saddle horse tied suddenly turn around and kick at him. It was only a second before he found himself sprawling in the street, and, upon picking up the wheel, the front rim was found to be broken and other parts injured. The animal is the property of Willie Chilton, and is always left tied opposite the barber shop.

**Informers Arrested.**

Young Hee was arrested yesterday evening on a warrant charging him with being on the premises of another at night without lawful excuse. It seems that Young Hee is an informer, who hunts around at night time for Chinamen who have opium in their possession. On Monday night he walked into a place where he believed he could work up a case. The proprietor is a man not very easily scared out and yesterday he swore out a warrant for Young Hee's arrest.

## BEST WAY.

There is a best-clothing store in town; you probably know which it is.

There are best clothes—we don't mean finest—you want your rough clothes right. That's what we mean by best. There's nothing better than right. Do you know which the best clothes are?

They have this label under the coat collar.

If you will come in and try on, we'll talk about it. The clothes will do most of the talking for us though.

Your money back if you want it. Safe buying; safe selling too.

Look through our furnishings when you are in; they get forgotten, some of 'em. Some get into the papers; some don't. Don't know which to mention or skip. It's a handy place; tell the Boys you want to see everything.

WEDNESDAY : SEPTEMBER 1.

THE JAPANESE CORRESPONDENCE.

The Government still declines to give to the public any information about the latest correspondence with the Japanese Foreign Office. There are rumors running about town, like mongoose in a canfield, to the effect that the Japanese Government accepts arbitration, but at the same time "cuts its throat;" it will arbitrate, but fastens upon it impossible conditions; that it is the case of the lunatic who was invited to dine, and wrote in reply: "Your invitation to dinner is cordially accepted, but, of course, there will be no dinner."

We would be glad to give our readers on the other Islands an accurate statement of the situation, but cannot. The Japanese Government is now credited, in America, and in Europe, with taking a fair and upright course, fully abreast of the most advanced views on international disputes. If the rumors are correct, this credit can hardly be given. At the same time, it is mere speculation for us to discuss the terms of the reply.

"Serious" consequences are probably involved, as might have been expected from the beginning. But the war cloud, created by jingo imaginations has passed over. The United States are not quite so willing to take the dispute off our hands. They are ready to annex us, but with no encumbrances—a marriage—but the wife's relations not wanted.

The case is now in diplomacy, and that usually means procrastination. Time is a wonderful solvent of difficulties. Many a serious dispute has been settled in European diplomacy by "gaining time." The Japanese Government may not be disinclined to allow time to do its work in this case.

## SUGAR BEETS AGAIN.

The American Agriculturist says: "But for the Hawaiian uncertainty, the new sugar tariff would be fairly encouraging to farmers and capitalists wishing to engage in the domestic industry. The new law provides no bounty for the domestic producer, but by allowing the free admission of sugar from the Islands gives the Hawaiian monopolists a bounty of more than 1 1-2c per pound. This and the danger that the Islands will be annexed by action of Congress next December are the influences that retard the rapid development of our sugar beet industry."

The Agriculturist is probably in error. Hawaiian sugar is not yet a factor in the sugar industry of the States. It may be so in the future, but it is not at present. The failure of a large sugar beet factory in Wisconsin indicates that there is no royal road for the sugar beet men in America. Before them is a great and general success in the business, only thorough knowledge and experience must be had. Getting this costs money. There will be scores of disasters, much discouragement, some reaction, and, finally, after some years, general success.

The recent analyses of the sugar beets in Anaheim, Cal., showing averages of nearly 20 per cent of saccharine matter, show that the industry in that State will prosper in any event. We are served with full notice of the fact and must make the best of it. But the rivalry will not come to close quarters for several years, and, indeed, with annexation, may not come at all.

The Planters' Monthly for August has an article on "profit

sharing," copied from the "Coonor (India) Planting Opinion." The article discussed the paper read by Mr. P. C. Jones before the Social Science Club, on that subject. The Indian paper quotes interesting facts from Mr. Jones' paper, and uses them in discussing the labor questions of India and Ceylon. Mr. Jones' clear presentation of the "profit sharing" arrangement may have fallen like seed on somewhat stony soil here, but the kindly winds have carried some of the seed of his thought across the sea, and planted it in good soil, at the ends of the earth. Possibly he has done missionary work of great value. The "Sons of the American Revolution" do not live in vain.

## THE JUBILEE MISSION.

It is rather singular that our friends, the jingoes, did not bitterly oppose the mission of Mr. Damon to the Queen's Jubilee. Why should the Republic tender to this estimable Sovereign good wishes, if it is true that for half a century she, as the supreme head of "perfidious Albion," has been wickedly trying to steal these Islands; to put them into her pocket when no one was looking on; always patiently holding a scoop net ready to feloniously land the little Hawaiian mullet; and, besides, giving no end of trouble to Uncle Sam, who has been compelled to keep his eye, day and night, over this royal kleptomaniac, as the jingoes believe, of Islands and territory?

After over half a century of grossly improper conduct towards us, as the jingoes claim, did the comity of nations require us to send her greetings with hypocritical good will? To profess the profoundest respect for a royal Sovereign who has been engaged in the nefarious business of robbing us of our birthrights?

No novelist, even, would permit his hero to enter the precincts of one who had tried to rob him of his watch, and generously wish him long life, health and prosperity.

It is possible that Mr. Damon's mission is the result of a humorous freak on the part of the jingoes. When Hawaii finds herself nearly safe in the stalwart arms of Brother Jonathan, after a long and dangerous chase by the said perfidious Person, she may gracefully turn to her pursuer, and with curtsy irony kiss her fingers and sweetly say: "Better luck to you next time." Our jingoes are humorous, if not serious. Mr. Damon has done his part well.

SHERMAN'S NOTE TO JAPAN. Minister Hoshi Acknowledges the Receipt of the Document. WASHINGTON, August 21.—Secretary Sherman has received prompt acknowledgment from Minister Hoshi of Japan to the Secretary's letter of last Saturday, relating to the annexation of Hawaii to the United States. Mr. Hoshi's acknowledgment is formal and does not go into the merits of the subject, as the answer to Secretary Sherman's last note will not be made public until word comes from the Japanese Foreign Office.

Previous dispatches contained all of the features of Secretary Sherman's note, with one exception, namely: Japan's prior note referred incidentally to reports that a majority of the inhabitants of Hawaii did not favor annexation. Mr. Sherman's answer takes issue with this statement, and urges at some length that the preponderance of influence in Hawaii is favorable to the annexation of the Islands to the United States.

Aside from this and the approval expressed of the plan of arbitration between Japan and Hawaii on the immigration question, the Sherman note is an enlarged argument of Mr. Sherman's former letter, stating the attitude of the United States as favorable to annexation. The report that Mr. Sherman did not enter into an argument, as it would be a reopening of the case with Japan, is not correct, as the Secretary's note is a very full argument on the entire question involved.

Change in Australian Mails. WASHINGTON, August 23.—General Superintendent White of the Railway Service, has ordered that hereafter articles destined for New Zealand and other Australian Colonies, except West Australia, will be included in the open mails forwarded to Vancouver for dispatch thence by steamers of the Canadian-Australian Steamship Company.

## Malt

Of the many reputable preparations offered to build you up and restore lost vigor, most all of them are repulsive to some people, and, therefore, ought not to be used. MALT NUTRINE acts with all alike; the effect is generally very marked, and at all times beneficial.

## Nutrine

For the teachers and clerks who have doubtless profited by their summer vacation, ought not to drift back to the tired and worn-out condition they were in previous to taking their vacation. Take MALT NUTRINE and continue to improve.

## Satisfies

You need not feel that you are experimenting when you begin taking MALT NUTRINE. The many hundreds who have profited by taking it have placed the preparation beyond all fear and doubt as to its virtues. Our orders placed with the manufacturers show a steady increase, which signifies popularity and merit.

## A PARAGON OF EXCELLENCE.

ALASKA is attracting an enormous amount of attention just now, and every line of matter containing reference to it, is eagerly scanned by thousands.

In view of this, perhaps it is not out of place to mention a few facts worth considering.

1. The Alaska is constructed upon strictly scientific principles, by which low temperature and dryness of air are naturally and inevitably obtained.

2. The Alaska has preserved fresh meats perfectly for three weeks in the hottest weather.

3. The Alaska produces better results with less ice than any other.

4. The Alaska possesses the only provision chamber free from odor.

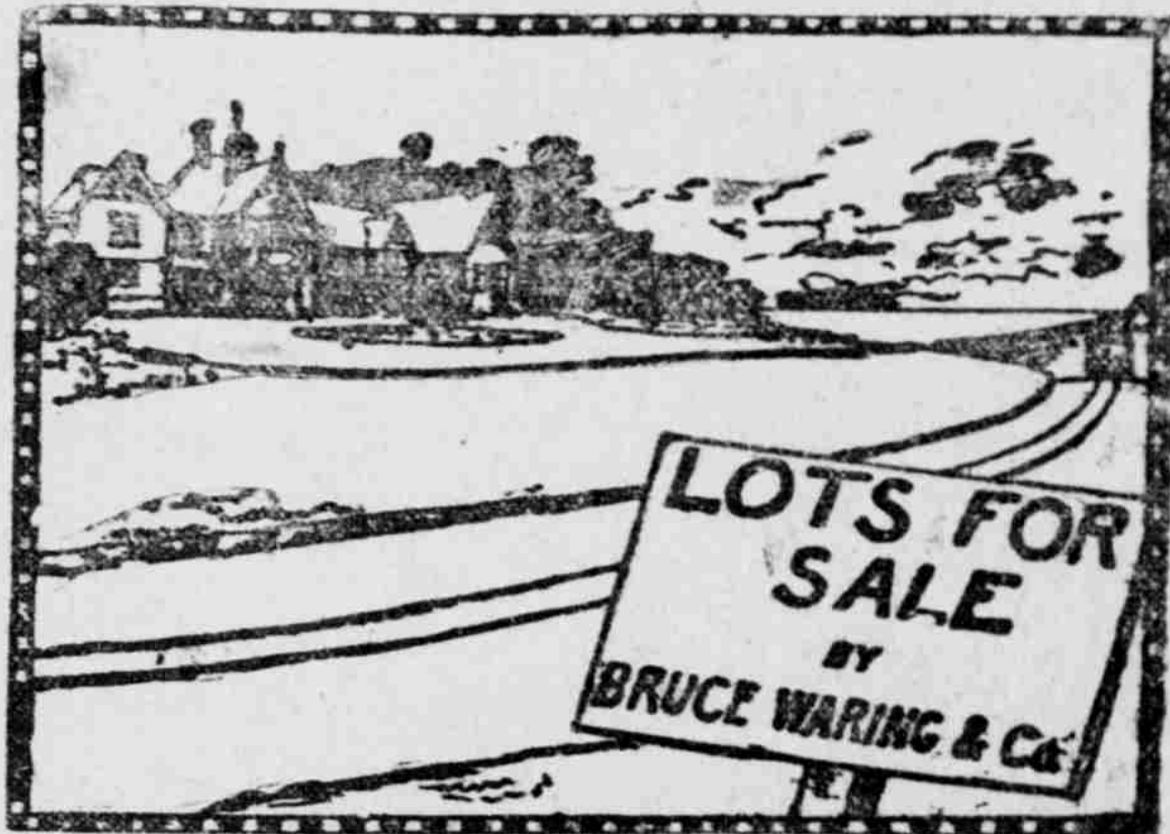

5. Between the outer and inner walls there is an inch and a half space filled with pure charcoal, and experience extending over three and a half years, has convinced us that the Alaska is without doubt, the best refrigerator on the market, in construction, in power to preserve perishable goods, in economy of ice, and in fact, in all points necessary to make them first-class in every respect.

We have them in several sizes, at from \$15 to \$25 and also keep the Alaska ice chests.

Mr. and Mrs. Judd Entertain.  
Chief Justice and Mrs. A. F. Judd entertained very hospitably last evening some 50 friends of their sons, Mr. Albert and Mr. James Judd. They received from 8 to 9 o'clock, after which there was dancing. The house was very tastefully decorated for the occasion. The furniture was removed from the dining and the adjoining rooms for dancing. Refreshments were served later in the evening. Mr. Albert Judd returns to the States on Saturday to continue his law studies. Mr. James Judd follows in two weeks to continue the study of medicine.

## Pool Tournament.

The first of the series of games in the pool tournament at the Arlington billiard parlors, took place last night. There were only five entries. H. E. Walker won three games, "Ed" two and Tom Pryce two. The other two contestants won a game apiece.

A number of the players of the city are kicking vigorously on account of having been refused play, the point being made that they are professionals. They disclaim all title to such honor.

The next series of games will be played Thursday night. After that there will be but three more series.

## Police Court Notes.

In the Police Court yesterday morning, Kilili, the kahuna, was fined \$50 and costs on the charge of practicing medicine without a license. The case of vagrancy against the defendant was nolle pross'd.

In the case of Nakaamo, for having che fa tickets in his possession, defendant plead guilty and sentence was suspended until moved on by the prosecution.

Kealoa was sentenced to six months on the reef for larceny in the second degree.

For assault and battery on Milenia, Kehele was fined \$5 and costs.

## Left Home and Wife.

It is understood that a certain man who wrote from the States recently for a position under the Government, and who turned up later to see how his application was faring, left home on account of trouble with his wife. Knowing what occupation he would be likely to seek, she wrote to the department to which he had sent his application, inquiring for particulars regarding his whereabouts. Probably communications of the kind have gone to various parts of the world. It is understood that the man has admitted everything in regard to leaving home, but he is at a loss just now what to do.

## MILWAUKEE BEER.

Macfarlane & Co., Made Agents  
for Schlitz Brewing Co.

It took a revolution and a change of Government to make Hawaii one of the most talked-of places in the world. If it had not been for the miner who made the lucky find of gold, Klondyke would not have had a place on the map. Just one thing will make a place famous. Milwaukee, for instance, has been brought to the front mainly through Schlitz beer, and it is a question whether the city or the beer is the best known.

Schlitz beer has always had a good sale here, and it is constantly growing in favor among people who enjoy a glass of beer at their meals. A. H. Emanuel, special agent of the brewing company, has appointed Macfarlane & Co. sole agents for the Islands, and persons in the city may be served in dozen lots or with original packages. Schlitz beer is light and of excellent quality and leaves no bad effects.

"My boy came from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Myer Bros. Drug Co., St. Louis, Mo. "I dressed the wound and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household necessity." For sale by all druggists and dealers, Benson, Smith & Co., agents for Hawaiian Islands.

## WHO OWNED THE MONEY?

Charge of Grand Larceny Against Ex-Pastor Kenneth Duncan Dismissed.

The charge of grand larceny against Kenneth Duncan, the ex-pastor of Howard Presbyterian Church, was dismissed by Judge Low yesterday morning, says the San Francisco Call of August 24th.

The complaining witness was Mrs. John Axtell, wife of the keeper of a restaurant on Sixth street. Duncan was employed in the restaurant for a few days and Mrs. Axtell alleged that he stole \$85. Duncan left the city and went to San Jose, where he was arrested.

Mrs. Axtell was too ill to appear in court, but her husband went on the witness stand and asked, for the sake of charity, that the case be dismissed. The money, he said, was his and he was willing that the ex-pastor should not be prosecuted, as he believed he was insane and not responsible for his actions.

Detective O'Dea informed the Court that Mrs. Axtell claimed that the money stolen belonged to her and she wanted to prosecute the case. She had requested him to ask for a postponement of the case until she was able to appear in court.

The Judge expressed the opinion that, in view of Axtell's statement, he could do nothing but dismiss the case, although Mrs. Axtell could secure the rearrest of Duncan if she so desired.

Attorney Nagle, who represented Duncan, asked the Judge to surrender him to the custody of the police, that he might be examined as to his sanity, but the Judge refused and suggested that a warrant could be obtained from any of the Superior Court Judges.

## William Shields, of Woonsocket, R. I.

Rode down the steps of the west front of the Capitol, March 31st; he was photographed during his descent, and the product of the camera is on exhibition to convince the skeptics. It is much more difficult to ride down the terrace steps of the west front of the Capitol than those of the east, for the steps are broken by several landings. It is believed this feat was never attempted before, although several riders have ridden down the east steps. On the west there are four flights of steps mounting the terrace. There are seventy-four steps and three landings.

Shields waited until the steps were entirely clear, and then placing his bicycle at the brink of the steep incline, swung into the saddle and began the descent. It lasted only fifteen seconds. Gathering momentum with every foot of the downward passage, the rider seemed to be going as if shot out of a cannon. When he reached the last landing the velocity of his descent had become such that he literally leaped over the final flight of sixteen steps to the bottom. He left the saddle, but at the bottom, wheel and rider fell in a heap—the latter escaped, however, without a serious bruise. The STERLING wheel, which he was riding, DID NOT LOOSEN A BOLT, OR WEAKEN AT ANY POINT under the severe strain to which it was put, and aside from a twisted handle bar, received at the bottom, came out of the ordeal without a scratch.—Washington Star.

#### WHARF AND WAVE.

DIAMOND HEAD SIGNAL STATION, August 31, 10 p. m.—The weather is cloudy; wind, light, north.

The Claudine got away precisely on time yesterday.

The next steamer from the Coast is the Coptic, due September 9th.

The J. D. Spreckels sailed from San Francisco for Mahukona, August 21.

The brig W. G. Irwin sailed from San Francisco for this port, August 20.

The schooner Kauikaeouli, for Paauilo, and the schooner Waiailua, for Waiailua ports, will both sail today.

The American schooner Transit, Jorgensen master, arrived in port yesterday afternoon, 13 days from San Francisco, with a full cargo of general merchandise. She is at the Oceanic wharf.

The S. S. Peru, Saunders commander, arrived in port and hauled alongside the Pacific Mail wharf early yesterday morning, having sailed from San Francisco on the 24th inst. She will sail for China and Japan at 10 a. m. today.

The barkentine Irmgard arrived in San Francisco, August 20, 23 days from this port. On August 7, in lat. 35 N., lon. 156 W., the mainmast preventive backstay was carried away and the mainmast lost overboard in the NE. trades.

H. W. Meheula, one of the school teachers who left for Maui yesterday, came very near being left. The last whistle of the Claudine was blown, and the gangway was lowered away, almost immediately. The young man had gone ashore to bid a last farewell to someone, and got back to find the steamer moving away. Some of his

friends grabbed him and fairly shot him on board.

There have been some changes on the Peru since her last trip to this port. Capt. Saunders, recently first officer of the China, and later commander of one of the Panama steamers came as captain in place of the regular man who is off on a vacation. Mr. Puckering is out and Mr. Minton, who was on the China three or four years ago, has taken his place. Mr. Kidder has retired and a younger man has taken his place as freight clerk.
