**VILE IMPOSTOR UNMASKED.**

Said He Was Bishop Gulstan and

Came from Hawaii.

THE ROGUE PRIEST IN PORTLAND.

Claimed to be at the Head of the Cath-  
olic Church in This Country—His  
Glib Tongue Gave Him Away—He  
Was Entertained by Churchmen.Bishop Gulstan Ropert, the head  
of the Catholic church in this  
country, left some months ago for a  
visit to Rome and other European  
cities. News comes from Portland,  
Oregon, to the effect that a man  
claiming to be at the head of the  
Catholic church in Hawaii had  
been unmasked.In speaking of the incident, the  
Portland Oregonian of August 4th,  
says:"A white-haired, smooth-shaven  
old man of venerable appearance, clad  
in the garb of a priest of the Roman  
Catholic church, and wearing the pur-  
ple collar and cap of a bishop, who  
has been the guest of Catholic clergy-  
men in this city for several days, was  
yesterday proven to be one of the  
most flagrant impostors and all-round  
scoundrel that ever infested a God-  
fearing community. The man claimed  
to be the Rt. Rev. Gulstan Ropert,  
of Honolulu, bishop of the diocese  
comprising the Hawaiian islands, and  
during a brief sojourn in this city, be-  
ginning last Wednesday and ending  
yesterday afternoon, so successfully  
enacted his assumed role that he said  
early mass on two occasions. Yester-  
day, however, Archbishop Gross and  
Rev. Father Orth, of St. Laurence  
church, stripped the mask from the  
sham priest's identity, and he soon  
after left the city for parts unknown."The man called at the residence of  
Father Orth, pastor of St. Laurence  
church, at the corner of Second and  
Sherman streets, last Wednesday.  
He gave his name as Bishop Ropert,  
of the Hawaiian Islands, and said he  
had just arrived in the city from the  
East, after brief stops at different  
points en route. The man appeared  
every inch a bishop, and the purple  
guarantee to Father Orth that his  
visitor was a genuine priest of the  
church. He invited him in the  
house, assigned him a room, and had  
the housekeeper take care of a valise  
and umbrella he brought with him.The visitor told about his work at  
the Hawaiian Islands that seemed  
strangely incredible. He dilated  
to an alarming extent about the  
famous leper island of Molokai, and  
gave a graphic description of the  
manner in which the unfortunate  
were cared for. Molokai ought to be  
pretty well known to the priests of  
the famous part an Oregon priest,  
Rev. Father Conradi, is taking there,  
and Father Orth flattered himself that  
he was familiar with the work among  
the lepers. He knew that there were  
seven Catholic churches or chapels on  
the islands, and that Father  
Conradi and Father Wendelin were  
the two heroic priests who, with a  
number of Sisters of the church,  
were risking their lives to partially  
alleviate the misery of the unfor-  
tunate human beings. The Catholic  
directory would have told Father  
Orth this, even if he had not been  
especially interested in the work.  
Since his friend, Father Conradi,  
who left for Molokai only a few years  
ago, he had read the graphic accounts  
of the place published from time to  
time in American and English news-  
papers.The bogus Bishop said that he  
was an old classmate of Pope Leo  
XI, and that he had gone to Rome in  
January of this year at his invitation.  
He was in Rome, he said, about three  
months, and then came to America  
to attend the jubilee of Bishop Wil-  
liams, of Boston. Then he visited  
Monsignore Satali at Washington  
city. He was on his way to Hawaii,  
he said, and had been delivering lec-  
tures along his route. He had  
spoken, he said, at La Grande and  
other places in Eastern Oregon, and  
would consent to deliver a lecture in  
this city.Father Orth's suspicions grew  
apace with his guest's stories of the  
leper island. The latter, among other  
things, said he had recently moved  
his place of episcopal residence from  
Honolulu to the home of the lepers.  
He found, he said, that he could do  
more good in the life work before him  
among the afflicted natives, and that  
he was resigned to the possibility of  
having his own life ended by the dread  
disease.Father Orth at last hit upon an  
idea that proved to be the beginning  
of the end. On his library shelves  
was a copy of the Catholic directory  
of the world for 1895. It contained a  
picture of every bishop of the church.  
Happening to think of this, he took  
the book down from the shelf, but up-  
on examination found that the head-  
shot of the Hawaiian islands was  
from a priest. This almost staggered  
the good priest, but went a long waysto confirm his suspicions. He felt  
reasonably sure that his visitor had  
destroyed the leaf. But Father Orth  
was not to be outwitted. He thought  
of an older directory, one published in  
1894, which he had put away among  
some old books in the attic. This he  
examined, and, sure enough, found an  
excellent portrait of the Right Rev.  
Gulstan Ropert, bishop of Hawaii.  
The most interesting feature of the  
photograph, too, and that which ab-  
sorbed Father Orth's earnest attention,  
was the overwhelming evidence that  
the photograph was no more like his  
guest than it was like himself. It did  
not resemble him at all."When Father Orth said: 'You are  
an impostor; you are no bishop!'  
"You're a d-d liar!" retorted the  
man, which exclamation proved be-  
yond doubt he was not a consecrated  
bishop."The man is about sixty years of  
age, smooth shaven, and of average  
height and weight. His hair is white,  
and he has dark gray eyes. Father  
Orth is not sure about the color of his  
eyes, but says he could identify him  
any place by a broken upper tooth.  
It is about half gone."**LAST DAY AT H. R. A. BUTTS.**Talk of Another Day—List of High-  
est Scores.The last day of the Citizens' and  
All-Comers match drew forth a

**LAST GAME OF SERIES.**Very Exciting and Interesting  
Throughout.The last game of the league base-  
ball series was played Saturday  
afternoon between the Stars and  
Unknowns before one of the best  
audiences present at any time of  
the games.The game from beginning to end  
was replete with interest and most  
exciting. The Unknowns made  
three runs in the first inning and  
one in the second, while the Stars  
made one in the first two innings.  
In the third the Stars made seven  
runs, practically winning the game.  
The Unknowns had very bad luck  
in the third. Score, 14 to 12 in  
favor of the Stars, thus giving them  
the championship by two games.The Star baseball team hired a  
bus in the evening and "did" the  
town.Sunday morning they were pho-  
tographed with the baseball trophy  
for the season's championship.

are a source of filth, cause of sickness and are a constant menace to the public health, and it is ordered that all such structures and buildings be removed forthwith.

The resolution was carried without a dissenting voice.

It was decided to quarantine the steamers Hawaii and Kilauea Hou on their arrival. They will be kept outside in readiness to carry provisions to the other islands, if it is deemed necessary.

#### CHOLERA ON BENNINGTON.

Dr. Howard stated Sunday that the surgeon on the Bennington had reported several cases of cholera on the gunboat Bennington. The men were not very ill and there did not appear to be any danger. The vessel is now anchored in the roadstead. She will receive daily supplies from shore.

#### OFFICIAL CHOLERA BULLETIN.

The Board of Health will issue official bulletins until further notice; they will be displayed on a board on the Hawaiian News Company's blackboard. Two will be issued daily—one in the morning at 8 o'clock and the other at 3 in the afternoon. This is done to give the public official news and to put a stop to wild rumors. The first bulletin was posted yesterday morning and read as follows:

#### OFFICIAL CHOLERA BULLETIN.

OFFICE OF BOARD OF HEALTH, SUNDAY MORNING, SEPTEMBER 1ST.

For the 24 hours ending at 6 o'clock this morning, there were:

Five cases;

Five deaths;

Remaining in hospital—5.

(Signed) W. O. SMITH,

President Board of Health.

All the above were Hawaiians.

#### DISEASE-BREEDING DISTRICT.

Seven shanties at Kapookola, King street, were ordered vacated yesterday morning by the Board of Health. The families that lived in the two houses in which cholera broke out were moved to the quarantine station with their effects. Five other families were offered shelter at the same place but they declined and had their furniture moved to different portions of the city.

Kapookola is a disease-breeding hole and all the shanties in the vicinity will be torn down and the lumber burned. The district is now guarded by squads of "regulars," acting under orders from the Board of Health. The services of the Government's forces were offered yesterday by President Dole.

#### CHURCHES CLOSED YESTERDAY.

At a meeting of the Board of Health held on Saturday, it was decided to close all places of worship for the present, so no services were held in the various churches yesterday. It was also decided to postpone the opening of the school term.

No one will be allowed to go from Honolulu to any outside district on Oahu without having a permit from the Board of Health.

Brigadier and Mrs. Keppel and other members of the Salvation Army are expected to arrive by the Australia. They are advertised to hold a grand welcome meeting tomorrow night in Central Union Church. In all probability, the meeting will have to be postponed.

Acting Bandmaster Heilmann intends to give a concert this evening at Emma Square—the first one for a month on account of the band taking a vacation. It may not take place, as the Board of Health does not want a crowd to congregate.

#### The Empress of China.

The Dowager Empress of China, who was a good deal to the front during the late troubles in the Middle Kingdom, has had a very romantic history. She was the child of poor parents in the suburbs of Canton, and remarkable for her beauty. At a time when her parents did not know whence their daily bread was to come, she suggested that they should sell her as a slave. This course was followed, and she became the property of a famous general. He was so enchanted with her beauty that he adopted her. When the general next went to Peking he offered her beautiful daughter to the Emperor, and thereby won great favor. The young girl so charmed His Majesty that he soon made her his wife. When the Emperor died the former slave became Regent of the empire, and administered the national affairs better than almost any of her predecessors. She is just considered one of the great women of her time.—N. Y. Journal.

Sally—"An' after we are married, will you keep on lovin' me?" Rube—"I'll love you till—the cows come home, as the feller says." Sally—"Y-a-a-s, an' then go down to the grocery an' let me do all the milkin'."

By order of the Board of Health,

WILLIAM O. SMITH,

President Board of Health.

Honolulu, August 30, 1895.

## BICYCLE

—: DIGEST.

The Bicycle has established itself. It is an institution. Though it has become a necessity of modern life, it has not ceased to be a source of pleasure and those who ride it for business purposes still find their greatest enjoyment in the saddle.

Taking it for granted that you have decided to ride, and naturally want the best wheel for your money, we wish to point out to you some of the superior features of the BARNES' SPECIAL.

One taking and distinctive feature of the Barnes' wheel, is the method of brazing the frame joint. When a Bicycle is reinforced from the outside it resembles a sore thumb with a rag around it—an apt but homely simile. Our joint is not a sore thumb. The connections are punched from steel formed into pieces of such shape that they encircle one tube, rendering it doubly strong and project therefrom to form a stud at the desired angle over which the adjoining tube can be fitted and brazed firmly. The steel connections are secured on each side by secondary pieces, and all of them brazed as one piece serve as a pointed reinforcement to the second tube.

Bearings—First quality tool steel hardened and ground to such a degree that there is no possibility of their becoming worn. On such grounds as these fair, frank and honorable, we solicit the patronage of the bicycle riding public. An examination will prove that they are all we claim for them.

Mothers

Nestlé's Milk Food for infants has, during 25 years, grown in favor with both doctors and mothers throughout the world, and is now unquestionably not only the best substitute for mother's milk, but the food which agrees with the largest percentage of infants. It gives strength and stamina to resist the weakening effects of hot weather, and has saved the lives of thousands of infants. To any mother sending her address, and mentioning this paper, we will send samples and description of Nestlé's Food. Taos, Leeming & Co., Sole Ag'ts, 29 Murray St., N. Y.

#### DESCRIPTION AND TERMS:

CREOLE is the gamest, fastest and best bred stallion that has ever been imported into the Hawaiian Islands. He reduced his record of 2:20 to 2:18 in Petaluma, Cal., August 24, 1894, distancing his whole field in the first heat; then again to 2:15 in Stockton, Cal., September 23, 1894, winning the first heat in 2:15, fourth heat in 2:15, and fifth heat in 2:19, proving that he is a remarkably game as well as a speedy race horse. ("Creole by Prompter out of Grace by Buccaneer shows that he is capable of getting a mark of 2:10 and is one of the gamest stallions seen this year, and besides being game, is one of the best formed, and remarkably intelligent."—Breeder and Sportsman, Sept. 25, 1894.) He is 15 1/2 hands high and of powerful build throughout. His color is glossy black with one white hind foot. His disposition is all that could be desired, and his action superb. He is a sure foal getter.

Terms, \$50, with usual return privilege. Will make the season at the

## WILL CONTEST THE ESTATE.

Mrs. Alphonsine McGrew Commences an Action Abroad.

Contest Opened in San Francisco and Will Be Carried to This Country. She Wants the Insurance.

Mrs. Alphonsine McGrew, the alleged widow of the late Dr. Henri McGrew of this city, is an inmate of a hospital in San Francisco and is said to be very ill. Through her attorney, Horace G. Platt, she has commenced an action in San Francisco to recover \$5000, being the amount of an insurance policy carried by the late doctor. It is understood that her attorney will come to this city and will carry on a contest for the entire estate.

The McGrew case has been before the courts in this country for some time and is still pending. The Supreme Court recently handed down a decision which virtually gives the insurance money to J. O. Carter, the administrator of the estate. The Court say in part:

"This is an action on a policy of insurance issued by the defendant company upon the life of Henri G. McGrew for \$5000 payable upon his death to 'Alphonsine McGrew, wife of Henri G. McGrew.' If living, if not living to his executors, administrators or assigns." The company stands ready to pay the money but desires that it be first judicially determined who is entitled to it—whether Alphonsine McGrew or the administrator of the insured. The doubt upon this point is occasioned by the fact that the insured prior to his decease obtained a decree of divorce from his wife on the ground of adultery, the validity and effect of which decree are questioned.

"The contract of insurance was entered into in the Hawaiian Islands; the policy is dated September 14, 1892; it was issued to Henri G. McGrew upon his application; he retained possession of it, and paid all premiums upon it; he died October 25, 1894; at the time of entering into the contract and until his death he was a subject and resident of and domiciled in these islands; J. O. Carter is the duly appointed administrator of his estate; all conditions and requirements necessary to be performed or complied with by the decedent or plaintiff have been performed and complied with.

"The case was tried in the Circuit Court, First Circuit, jury waived upon agreed facts, and comes here upon the following questions reserved by the Circuit Court on motion of both parties:

1. Is Alphonsine McGrew a necessary party to this case?  
2. Were H. G. McGrew and Alphonsine McGrew divorced; and if so, is the decree still in effect?  
3. Is the amount due on Henri G. McGrew's insurance payable to J. O. Carter, administrator of the estate of H. G. McGrew?  
The first question reserved must be answered in the negative, the other two questions in the affirmative, and the case is remanded to the Circuit Court for such further proceedings as may be proper."

## Obstinate Chinamen Arrested.

Captain Robert Parker of the police force was very busy Saturday examining into the condition of the network of wooden buildings known as Chinatown. Most of the filth has been removed, thanks to the good work of those who have been sent out for that purpose. Still there were places where Chinamen of an indifferent turn of mind refused to assist in the cleaning up process. Two of this number used insolent language to Captain Parker, furthermore refusing absolutely to do anything. They were escorted to the police station.

## The "Bird Cage" Raided.

Detective David Kapaa and a number of police officers made a raid Saturday night on a house which is generally known as the "Bird's Cage" on Punchbowl street below Queen. "Jack" Hall, the owner and two girls, were arrested. Hall is charged with keeping a disorderly house and selling spirituous liquor without a license; the girls are held for further investigation.

## Funeral of Mrs. Mott-Smith.

The funeral of Mrs. Mott-Smith took place from the family residence, Nuuanu avenue, Sunday afternoon. Services were held at the house and the grave in Nuuanu cemetery by Rev. Alex. Mackintosh. Many friends of the deceased were present. The floral tributes were beautiful. Mrs. Mott-Smith was well known in the city. She died Saturday morning after a long illness.

## Special Writer Coming.

Miss Charlotte Miller, a well-known newspaper writer, and at present society editor on the Cincinnati Tribune, is to be sent to this country as special correspondent by the paper mentioned. According to private advices, her letters will be of such a character as would tend to "boom" Honolulu and the islands generally. She is expected here during October.

## CHOLERA ON THE BELGIC.

If the statements made by Awa-na, a Chinese passenger on the Belgic, are true, both Captain Walker and Dr. Bowie of that vessel are guilty of fraud and crime and may be prosecuted, under the laws of the United States. The charge that the three deaths of Chinamen occurred from cholera, but that the truth was suppressed in the medical report, is a very serious one. It touches the honesty and good faith of the merchant marine service, and, if true, leaves us no alternative but to close our port to vessels from the Asiatic countries.

We must refuse to accept this statement until the officers of the Belgic can be heard from. In the meantime it is a fair presumption that officers of known good character have told the truth.

The fact that no Japanese immigrants, during the voyage or since the arrival of the vessel, have taken the disease, makes the case a remarkable one, and in due time it will be an interesting study for our medical brethren.

There is some good reason for believing that, in spite of all precautions, the goods taken by the Belgic at Kobe contained cholera germs, for which the ship's doctor is in no way responsible. The charge that the Chinese passengers had the disease reflects strictly on the officers of the vessels, and is most serious.

## A GOOD BOARD OF HEALTH.

The measures taken by the Board of Health assure us that the cholera will not spread, unless the conditions here are different from those existing in other countries. Its action means the quick and effectual stamping out of the disease. During the last thirty years much has been learned about the treatment of it. It is no longer a mysterious disease, but one which exists under conditions which can be controlled. A hundred years ago it would have been regarded by theologians as a visitation of Providence; now, it is known to be the direct product of filth and impure water.

In India, the home of the cholera, the average mortality in the cities is 3.32, and in the country 1.52 per 1000 persons. There, sanitary regulations have not been enforced. In China, and in the Malay States, the disease is never stamped out. In Japan, during late years, the authorities, with their progressive methods, have kept it in control.

So simple are the methods of keeping off the disease in the Oriental countries, the foreigners residing in them do not fear it. They keep their own premises clean and drink good water, and are quite indifferent to the deaths from the disease in the neighborhood.

In Japan, on the 1st of August, the deaths from the disease during the year reached 5300, while there were 9000 cases of sickness. At the same time travel is unobstructed. Foreign tourists fill the hotels and scatter over the country. The railway trains are filled with the common people, and no restriction is put on them. But the police and the health authorities are vigilant, and every train is closely watched. The instant the disease appears, it is stamped out. Experience has taught the officials how to do it. The foreign residents of Yokohama, for many years, felt insecure from the attack of the disease owing to the lack of good drinking water. Now the purest water is brought from a long distance, and the community feels that it is beyond the reach of the disease, although 200,000 Japanese live in the immediate vicinity.

The Board of Health in this city has at hand the best experience of the world at command. The young doctors are pulling together like trained artillery horses. The President of the Board is, as usual, the wheel-horse. All goes well, so far.

## MARK TWAIN.

We regret that Mark Twain was not permitted to land and visit the spot which became familiar to him, before he became known as one of the world's great humorists. He told the truth about us, in the early days, and he made fun of our weak points.

He who has amused the world for thirty years, now carries a burden of debt. Behind his laughter-making face is much serious thought. With a large income from his books, and married to a woman of large wealth, his condition was an enviable one. But the "age-end" desire for vast wealth seized him, and he launched into a business he did not understand, and it ruined him.

As a missionary of humor he has rendered good and great service. "The Innocents Abroad," the "Jumping Frog," and his other writings, have driven away care and anxiety from many moody minds, and have served a better purpose than drugs and faith cures.

Perhaps some day he will speak to us of the religion of humor and its high place in man's life. Perhaps he will preach to us about the crime of solemnity, and how it filled the homes of New England with one-sided men and women, who regarded a smile as a sinful act, and a joke as the work of the evil one.

Henry Ward Beecher said that the angels must laugh, and if they watch men they would find plenty to laugh at. Perhaps they will give Mark Twain a cordial reception some day. Will not Dr. Birnie, on some Sunday morning, give us his views on the subject?

The establishment of the bicycle as a vehicle of pleasure and of business, is beyond question. We find new uses constantly presenting themselves in almost every channel, and people becoming interested in cycling that a year ago did not give it a passing thought. The advancement in the construction of safety bicycles of the higher grades during the past three or four years has been most phenomenal, and has exceeded the anticipations of the most sanguine admirers of the safety.

Improved facilities for manufacturing have fully kept pace with the increased public interest, and the public has been the gainer, as manufacturers have been unable to continually produce better work, and by the use of automatic machinery to make considerable reductions in the selling price. Two years ago it would have seemed impossible to produce so perfect a piece of machinery as is today placed on the market at the price, and it is only possible to do so on account of the increased interest in bicycle riding and a corresponding increased patronage.

In calling your attention to the TRIBUNE we believe we have found one of the best racing wheels yet manufactured. One of the many points favorable to the TRIBUNE over all others is the Cycloidal Sprocket. The object of the Cycloidal Sprocket as used on the TRIBUNE is to remove this useless friction and cause the chain to drive as freely as the running of ball bearings. There is no necessity for friction in the running of a chain; all that is necessary to prevent it, are four conditions: 1st.—That the tooth should be curved properly to enter the chain without contact. 2d.—That the chain shall pull exactly at a right angle, with its bearing surface against the tooth. 3d.—That the chain block shall not shift or change its position while passing around the sprocket. 4th.—That the tooth shall leave the chain without the least resistance. In order to establish these conditions it has been found, after much consideration and practice, that it is necessary to form the teeth with what is known as a cycloidal curve, which in mechanics, is the curve by fixed point, say on the periphery of a circle, when rolled along a plane surface. The advantage of the cycloidal tooth is most apparent when the rider is climbing a hill or forcing his wheel rapidly on an up grade or against the wind. This is where the ordinary tooth grinds and makes the rider work at least 15 per cent. harder than there is any necessity. There is no additional friction with the TRIBUNE CYCLOIDAL SPROCKET, no matter how great the power applied, the chain simply pulls direct and squarely on the face of the teeth and the power is freely imparted to the wheel.

GATE CITY STONE FILTER. These Filters are easily cleaned, and never become cracked or crazed by change of temperature of the water. The filtering medium is a Natural Stone, mined from the earth. It is unlike any other stone. It does not absorb and become foul. Impurities never penetrate it, but lie on the surface, and internally the stone remains as pure and white after years of use as when taken from the mine.

## Boiled Soda Water.

Appreciating the fact that people when "down town" have no place to get a drink of cholera-proof water we have made arrangements to supply only carbonated water that has been boiled and filtered. There can be no question about the purity of our Soda. We can say as of old: "NO HARM IN ANY AMOUNT OF OUR SODA."

Other dispensers of soda will probably see the wisdom of our action in supplying pure, wholesome soda, and follow our example. Our fountain now flows BOILED SODA, ICY COLD.

## THE DOCTOR DEFENDED.

His Side Should be Heard Before Condemning Him.

Mr. Editor:—The sworn statement of Awana, a Chinese merchant of Maui, and a passenger on the Belgic, calls for a reply.

His statement is substantially that three steerage passengers on the Belgic died of Cholera after leaving Yokohama.

I was a passenger on the same vessel and was in Yokohama for a week previous to her departure. Before she arrived from Hongkong I was present at an interview between Mr. Howard, the agent of the steamship company and Consul General McIver of the United States, and heard the discussion between them regarding the disposition of vessels leaving for the United States during the cholera epidemic. On the arrival of the Belgic at Kobe with some five hundred Chinese on board from Hongkong no communication was allowed with the shore beyond that of receiving some Japanese freight in sampans or freight boats. At that time there were deaths from cholera every day, principally among the returning troops from Korea. American, English, German and French vessels were treated alike by the Japanese authorities. On the arrival of the Belgic in Yokohama, July 30th, no Japanese passengers were allowed to take passage until the Chinese in the steerage had been examined. On the day of sailing, both Minister Irwin and Consul General McIver caused every passenger in saloon and steerage to be examined.

Mr. Howard, the agent of the line, requested the physician on board to inform me from time to time as to the health of the steerage passengers, so that in case of trouble I might be able to give additional information to the health officer in Honolulu. As the deaths occurred, the physician did inform me of the details of the diseases, which caused the deaths. No statement was made to me like the one made by Awana, and the physician stated that there was no cholera cases on board. The Chinese passengers did not come from an infected port. The Japanese, who did come from a country where cholera prevailed, were watched with great care. It was believed by both the physician and the captain that if cholera appeared, it would naturally appear among the Japanese. The Chinese passengers were not in contact at any time with the freight on board of the vessel. The captain took the ground that if the disease appeared on board, he would not stop at Honolulu, but continue his voyage to the Coast. Before the story of Awana is accepted as true, an opportunity should be given to the physician of the Belgic to hear and reply to it. W. N. ARMSTRONG.

## P. T. C. Tennis Tournament.

The semi-finals in the Pacific Tennis Club's informal tournament were played Saturday afternoon at the club courts. Quite a number of persons were present to witness the contests.

In the first of these Hyde and Norton won from Mist and James. Score 6-1 and 6-2.

In the second the Atherton brothers won the first set from Dillingham and Coney. The second set was won by the latter and the third by the former, making the Atherton brothers winners.

The finals between the Atherton brothers and Hyde and Norton will be contested this afternoon at 4 o'clock. All friends of the P. T. C. are cordially invited to the grounds.

The Gazette issued every Tuesday and Friday.

## ORIENTAL LUXURY AT HOME

The wonders of the Orient lay revealed before the eyes of all who care to see them, and that, too, without it being necessary to journey to lands across the seas.

The Oriental never does any more work than is necessary, and when not working, his engrossing care is to make himself comfortable. In many respects the art of living appears better understood in the East than in our bustling Western world.

There is now hardly a fashionable home that has not its Oriental room or rooms, or at least its cozy corner; sometimes the latter is Japanese in effect, sometimes Turkish; but whatever it is, be sure it is the result of an inner craving for the beautiful things of life.

Porcelain Ware, Silks, Cushions, Rugs, Mattings, Chinese Silverware, Open-Work Linen Doilies.

TO CLOSE THEM OUT FROM THIS DATE, LADIES' SHIRT-WAISTS WILL BE SOLD AT \$1.00 EACH. THESE ARE MADE FROM NO. 1 CREPE, WITH HATS, COLORED AND WHITE, HAVE ALSO BEEN REDUCED FROM \$2 TO \$1 EACH.

Four-in-Hand Neckties, which will be sold for 20 cents a-piece or \$2.25 a dozen.

I make a specialty of taking orders for matting ranging from plain solid to others with colors so blended as to be almost too pretty to use. Crepes will be made in any design imaginable.

The Beauty

OF SOME PIANOS

Is only "case deep." It is much easier to make a handsome case than it is to put music into it. A tolerable mechanic can do the one—the other requires the best thought of a musical artist.

## The Kroeger Pianos

All have handsome, tasteful, durable cases; but in their factory constant, careful, studious attention is given to the production of a perfect and lasting tone. The beauty and honesty of a Kroeger begins with the varnish on the case, and goes straight through to the iron plate that holds the strings. We'd like to show you the inside of a Kroeger.

## DESERVES TIME IN PRISON.

Dieckmann, the Inhuman Parent, Exposed in San Francisco.

HIS BASE CAREER IN HONOLULU.

Claimed That He Was Thrown Into Prison and Denied a Trial—He Enlists Sympathy in San Francisco, but An Investigation Condemns Him.

During last December a man named Charles Dieckmann arrived here from the Colonies with his boy and girl, the latter about 12 years of age. During the month of January he was appointed a watchman in one of the local saloons and after he worked several days he was placed under arrest on a serious charge. It was claimed that he had had improper relations with his daughter and enough evidence was on hand to convict the brute.

Finally an offer was made which allowed him to leave the country, and, on the advice of the British Consul here, he decided to go. His son and daughter were taken in hand by some ladies in this city and finally sent to their mother, who lives in Sydney.

Dieckmann went to San Francisco and immediately raised a howl; he said that he was arrested without cause, thrown into prison and kept there for six weeks and finally sent out of the country by forcible means. He also said that two attorneys deserted him and no trial would be given him. This last statement was as false as the other. Paul Neumann was sent for first and refused to defend the man when he was furnished the particulars of the case; Attorney Magoon was the second attorney; he advised Dieckmann to leave town sooner than stand trial.

Dieckmann told his troubles to the Masonic Board of Relief at San Francisco, and told such a straight story that members of the board interested themselves in his behalf. They corresponded with people here and the answers have made them change their minds regarding him.

The following is taken from a letter written by Harry J. Lask, the secretary of the board, and addressed to a reporter on the ADVERTISER:

"Your esteemed favor of the 18th ult. came duly to hand, and I thank you for your prompt and full reply. I will now say to you that I had all the information which you gathered in my possession before I wrote you, but as there was a doubt as to Dieckmann's guilt, and it was desired not to condemn him without the fullest investigation, I, as well as the others, wrote to friends in your city, and the replies are all to the same purport—his undeniable guilt."

....."Hawaii Ponoi"

### Boys' Definitions.

In a most recent examination some boys were asked to define certain words and to give a sentence illustrating the meaning. Here are a few: Frantic means wild. I picked some frantic flowers. Athletic, strong; the vinegar was too athletic to use. Tandem, one behind another; the boys sit at tandem at school. And then some single words are funnily explained. Dust is mud with the wet squeezed out; fins are fishes' wings; stars are the moon's eggs; circumference is distance around the middle of the outside.

### Activity and Health.

It is Mr. Gladstone's latest statement that the older a man in good health becomes the greater his mental activity ought to be. He declares that the mind grows stronger and clearer as the body's vitality dwindles, and he does not see how anything, except disease of the latter, can prevent intellectual progress from continuing almost to the end of a man's life.

### Flowers Were Very Scarce.

The lei girls were in a serious dilemma Saturday night. As usual, they were on the merry-go-round corner with leis of all kinds and were busily engaged in decorating their maudlin admirers with the feminine grace known only to themselves and for which they expect to be paid well, when they were informed by police officers that their houses were the best places for them to be. They took the hint, returned the flowers to their baskets and wended their way homewards, not, however, without many an anxious look backwards.

What with the cessation of lei selling, the closing of the merry-go-round and phonograph shops, the usual Saturday night revelry was not present.

The saloons in the neighborhood, however, were teeming with those who usually frequent the merry-go-round. From early until late at night a stream of drunken men were escorted to the police station.

Tired Feeling and Pains Dispelled by Hood's Sarsaparilla.

"I was in terrible misery with rheumatism in my hips and lower limbs. I read so much about Hood's Sarsaparilla that I thought I would try it and see if it would relieve me. When I commenced I could not sit up nor even turn over in bed without help. One bottle of Hood's Relieved Me

so much that I was soon out of bed and could walk. I had also felt weak and tired all the time; could not sleep, and obtained so little rest at night that I felt all worn out in the morning. I had no appetite to eat anything, but Hood's Sarsaparilla restored my appetite so that I could eat without any distress, and I have gained rapidly in strength. I have taken five bottles of Hood's Sarsaparilla and I am as well as ever." Mrs. S. A. Lefebvre, Rossmoyne, O.

SATURDAY, Aug. 31.  
Schr J. A. Cummins, Neilson, from Koolau.

## SUNDAY, Sept. 1.

Bktnr W. H. Dimond, Nilson, from San Francisco.  
Schooner Ka Mo, from Hawaii.

## DEPARTURES.

SATURDAY, Aug. 31.  
C. A. S. S. Warrimoo, Arundel, for the Colonies.  
Bktnr Bockhahn, Meincke, for Alameda.  
Bktnr Retriever, Bogan, for Port Townsend.

DIAMOND HEAD—Sept. 1, 10 P.M.  
NE—Weather, cloudy; wind, fresh.

The Miowera, from Sydney, is due today.

The schooner Bertie Minor loads lumber at Eureka for Honolulu.

The barkentine Irmgard, now at Puget Sound, will load lumber for Fiji.

The barkentine Retriever left port on Saturday, bound for Port Townsend.

The bark Guy C. Goss recently arrived at San Francisco with scurvy aboard.

The schooner John G. North is on her way to Honolulu with a cargo worth \$6,704.

The steamer Kaala will return from Kauai this morning; the Kilanea Hou is expected also.

The Bennington steamed out of the harbor on Saturday and is now lying at anchor in the roadstead.

The yacht Eleanor, with W. A. Slater and party aboard, recently left Victoria for Alaska.

The schooner Alice Cooke left Vancouver for Sydney on the 22d ult. She took a cargo of lumber, valued at \$7,610.

It is understood that the owners of the Vancouver line, will make Auckland a port of call, which will necessitate putting a third steamer on the route.

The sealing schooner George R. White has not been heard from since October, 1894, and has been given up as lost. She had fourteen men on board.

The barkentine W. H. Dimond and the island schooner Ka Mo were sighted last evening, about 9:30 o'clock. The Dimond left San Francisco on the 18th ult.

Emil Grundstrom, a young Russian sailor, has brought suit against John Rosenfeld and others for \$16,000, alleging that he was fraudulently induced to ship on the ship Willie Rosenfeld, bound for Acapulco, and that he was abused and seriously injured on the voyage.—S. F. Call.

Irving M. Scott, of the Union Iron Works, which turned out the Olympia and several other crack American vessels, is on his way to Japan to bid on contracts for building men of war for the Japanese navy. Mr. Scott believes he will be able to secure a number of contracts.

The steamer W. G. Hall anchored in the stream on Saturday. On the arrival of the Australia, the expected party of tourists will be transferred to her and all other passengers who wish to go to the other islands. It is expected that arrangements will be made to transfer all provisions and other plantation freight to the Hall.

The Lehua must take second place if the following information is correct: It is taken from a Victoria paper: "The vessel was registered in Honolulu and given the Hawaiian appellation of Kahului, becoming the pride of the people of the locality whose name she bears, and as Captain Mitchell Tyson proudly states, 'the flagship of the Hawaiian squadron, and we carried two guns during the last war.'"

The Warrimoo left for Sydney at an early hour Sunday morning. Her passengers were landed early on Saturday; there were 22 for this port. The Warrimoo will probably be laid up for repairs when she reaches Sydney; another vessel will be char-

ered to take her place. She took neither passengers, mail or freight from this port.

The departure of the Olympia from San Francisco, must have been delayed as the vessel can make the trip to this port in six days easily. The stay of the Olympia in Japanese ports is uncertain as regards length. She will probably take part in some interesting international complications, and has a chance to see considerable service before her return. She will relieve the Baltimore, which has been recalled. The latter vessel will probably stop here on her way to San Francisco.

## A BOWL OF KAVA.

A Polynesian Drink Which is Peculiar in its Preparation.

Kava is the native drink, and by its use and the manner and ceremony of its preparation being among the most ancient customs of Polynesia, it merits I think, a short description. Kava is an indigenous tree, more or less plentiful throughout the South Sea islands, the root of which is employed in the manufacture of the drink. When visitors are present much ceremony is observed in its preparation. A beautiful round bowl of dark colored wood is produced, its interior shining with a blue enamel like coating, caused by the deposit of the root. Generally speaking the best bowl is the property of the village and much care is taken and time spent in polishing and preserving the enamel in the interior.

Three young girls with shining white teeth, chosen usually from the "belles" of the village, seat themselves around the bowl, each having a piece of the kava root. This they proceed to break up into small pieces and putting them into their mouths, chew the dry root until it is reduced to a pulp, which is placed from time to time in a bowl. A sufficiency having been thus prepared, water is poured in and the whole mixture is stirred up; bunches of fine fiber are then drawn through the liquid to strain out any small pieces of the root which may remain. The drink is now complete, and is passed around in cups of cocoanut shell to the chiefs and principal people of the assembly, in order of rank.

On my first attempt at drinking kava, I was strongly reminded of soapuds, but this unpleasant idea wore off after a time. A refusal to drink, or even not to drain the cup, is considered a grave impoliteness. The solution of the kava root produces a loss of power in the lower limbs. Many of the European residents drink it regularly, but of course it is then prepared in a different manner.—Westminster Review.

## Ownership of Trinidad.

The archives of the State Department have been searched to see if there was anything in the claim put forth that the United States, as the conqueror of the confederate states, had a claim to the island of Trinidad, over which there is now a dispute. Nothing of the kind could be found, and it is not believed at the department that there is anything in the claim. An official of the department, who has been looking into the matter, says there is little doubt that the island belongs to Brazil.—Washington Star.

## FITS CURED

(From U. S. Journal of Medicine)  
Prof. W. H. Peck, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P.O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PECK, P. O. 4 Cedar St., New York.

## INDURINE,

A COLD WATER PAINT  
ESPECIALLY DESIGNED  
FOR INSIDE WORK ON  
FACTORIES AND PUBLIC  
BUILDINGS.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

## OUTSIDE :- INDURINE

This is for Outside Work,

Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure as well as oil paint, and costs but a fraction as much.

## Cold Water Kalsomine.

Adapted for Dwellings, Offices and Public Dwellings, or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

## LUCOL.

A new Paint Oil. It comes raw and boiled; is superior to Linseed, and covers with one-third less lead and pigment to the gallon.
