AS A POLITICIAN.

In a letter to the Governor of Mississippi, President Cleveland takes occasion to present views on practical politics. The views of the chief executive of the United States placed before the island public have related usually to Hawaiian affairs. The STAR believes Mr. Cleveland's expression on affairs of his own household will be interesting to readers. He says:

"I never had an idea of building up or fostering a personal following but so far as politics should properly influence me in making appointments I have tried to be Democratic and not proscriptive."

"Whether those appointments to place shall in speech and action be have decently toward the administration under which they hold office must remain to a large extent a matter of taste and good breeding."

"There are, however, some officials who devote themselves so industriously to vilification and abuse of those under whom they hold office as to indicate that their fidelity cannot be trusted for the performance of their duties in a manner creditable to the administration, and who, apparently, assume they may spend the time they owe to public service in doing political mischief."

"In the interest of good government such officials must not be surprised if they are summarily dealt with."

Toucing finances, Mr. Cleveland says:

"If we who profess fealty to the Democratic party are sincere in our devotion to its principles, and if we are right in believing that the ascendancy of those principles is a guarantee of our present liberty, universal care for the rights of all, non-sectarian American brotherhood and manly trust in American citizenship in any part of our land, we should study the effects upon our party, and consequently upon our country, of a commitment of the National Democracy to this silver aberration."

"If we should be forced away from our traditional doctrine of sound and safe money our old antagonist will take the field on the platform which we abandon, and neither the votes of reckless Democrats or reckless Republicans will avail to stay their easy march to power. This is as plain as anything can possibly be."

The permanency of Kilohana Art League seems assured.

It is almost good-bye to the Executive and Advisory Councils as a legislature.

FLORIDA's state officials show alertness and nerve by placing a Spanish gunboat in quarantine.

GERMANY is the first nation of the earth to develop sufficient courage to call the great oil monopoly to account.

For the service of its charter as Government revenue cutter, the steamer Lelua might appropriately be called the Mystery.

It is hoped the illness of Mr. Gresham will result in nothing more serious than his retirement from the Cleveland Cabinet.

This special session of the legislature should be a short one. Its duty is to remedy present defects and supply patent deficiencies in the laws.

JAPAN, at the request and on the advice of three great and friendly powers, retires from Chinese mainland with a halo of honor and colors flying.

Let us hope that the Citizens' Guard will never be massed for more serious duty than the attention they will be called upon to give their luncheon next week.

A RESERVOIR on Punchbowl, now in course of construction, will perfect the Honolulu water system and as well reduce the cost of maintenance to a minimum.

MR. KIRLEY, being ordered by a court to furnish the formula of his famous cure for dipomania, is placed in an embarrassing position. If he tells he will ruin his business and refusing he goes to jail.

In the current issue of the *Progressive Educator* considerable space is given to the important subject of a summer school for teachers. A practical summer school, earnestly conducted, will give full returns.

Nicaragua is taking a bold step making a state of the Mosquito reservation, thus terminating all British rule of that territory. She must feel in this matter, however, that both England and the United States will agree to the policy and utility of it.

THE SPRAY AND LEHUA.

NEWS OF THE SAUCY YACHT AND THE REVENUE CUTTER.

Captain Curtis has been to Honolulu on Business—Lehua, Late at Lahaina.

The yacht Spray in charge of Paddy Curtis, sailed in the harbor at 8:30 o'clock this morning. On the L. I. S. N. Co.'s wharf the yacht was boarded by Deputy Port Surveyor Gilliland and everything being found all right the yacht was allowed to dock. The Spray left on Saturday evening at 3 o'clock for Molokai for the purpose of bringing Mrs. Dudoit and daughter to Honolulu, Charles Dudoit being very ill. Owing to the bad weather and the fact that the yacht had not reached her destination until 10 o'clock yesterday morning, at 6:30 o'clock the same evening the Spray left for Honolulu with Mrs. Dudoit and family as passengers. This is considered fast time. The yacht had the Stars and Stripes flying at the masthead as she sailed in the harbor. Paddy says he did not see the revenue cutter.

If Curtis can secure a bondsman he will take the yacht Spray to Molokai and carry freight and passengers between Molokai, Maui, and Lahaina.

Port Surveyor Sanders returned by the steamer Kinu, which vessel he boarded yesterday, after having left the revenue cutter Lehua to finish the cruise without him. The port surveyor when seen said that the revenue cutter had cruised generally. The Lehua will return to port tomorrow evening. Stewart, or Opium Brown, as he is generally known, is expected to make one of his periodic visits to Hawaii, and this is presumably the reason of Mr. Sanders' return to port. The Miowara will be due on Friday from British Columbia and Mr. Sanders wants to be on hand.

It is learned that the revenue cutter Lehua picked up a whaleboat in which were Hiel Kapu and a native crew off Kaena Point. The whaleboat was towed to Pukou.

LAST OF THE COUNCILS.

Called to Make an Appropriation for War Debt.

The Councils met in joint session at 2 o'clock. The meeting was called for the express purpose of making an additional appropriation of about \$10,000 to finish up expenses incurred in putting down the late insurrection. As this will be the last meeting of the Councils before the Legislature assembles, no new business will be introduced. The alcohol bill and some other deferred matters may be brought up.

Found a Trace.

Customs officers were busy this afternoon testing some fluid which had adhered to the outside of a box of merchandise which came by the China for this port. The result of the test was that the stuff was opium, but where the bulk of it was, none could tell.

ENGLAND'S CABINET.

Mr. Harcourt's Significant Statement in the Commons.

LONDON, May 3.—The Times says that the immediate cause of Sir William Vernon Harcourt's singular announcement in the House of Commons on Thursday when, introducing the budget, he said that it would probably be the last time he would address the House of Commons on finance, is said to have been a difference of opinion in the Cabinet early in the day.

Olympia.

It will likely be some time before the Olympia reaches Honolulu. Speaking of her departure Commander Howison stated that no orders had been received and the movements of the Olympia at this time were uncertain. "There is much work to be done," said he, "and the vessel must yet undergo another trial trip satisfactory to both the contractors and the Government."
