SUPPOSE!

Suppose the CLEVELAND people made a poorer Bicycle in '99 than in '98 and so on until in '99 than in '98, do you think the CLEVELAND would be considered the most reliable and honest wheel on the market today? No Sir! When prices are cut in two, the quality must be cut in the same ratio. Remember this when you buy a wheel. Don't make a mistake.

LAWTON ON HAND

The Brilliant Fighter Reports for Action.

OTIS ADVISES AN ADVANCE

Says Movement on Insurgents Will End the Rebellion—Village Burned—Honored Dead.

NEW YORK, March 10.—A special to the Sun from Washington says: A long dispatch was received tonight from Gen. Otis setting forth in detail the present situation in the island of Luzon. The American lesson, he says, has been very effective on the rank and file of the insurgent army, and he has no doubt that the great majority of the rebels would surrender but for the influence of the Filipino leaders, who are using every endeavor to bolster up the insurrection. The attitude of the Filipinos generally, with the exception of their leaders, had changed in favor of a peaceful settlement of the troubles. In the opinion of the American officers, he said, the time was now ripe for an aggressive movement, and it was thought a sharp, rapid campaign to the interior would end the rebellion. The arrival at Manila today of 1700 regulars under Gen. Lawton makes offensive operations possible and the opinion is expressed here tonight that a forward movement will at once be begun by Gen. Otis.

NEW YORK, March 10.—A cable to the Sun dated Manila, March 10, 5:55 p. m., says: The village of Pandacan was burned today. Capt. Smith, of the First Idaho Infantry, was wounded and Private Hartington, of the Fourth Cavalry, was accidentally killed in the firing there.

The Spanish Commissioners are visiting Malolos to negotiate with the insurgents for the liberation of Spanish prisoners in their hands.

MANILA, March 10, 5 p. m.—The remains of Col. W. E. Smith, Maj. E. McConville, Chaplain David S. Elliott and Second Lieut. Eugene S. French, who were killed in action, were shipped home today by the United States transport Scandia with military honors, the Second Oregon Volunteers furnishing the escort through the city.

Maj. Gen. Lawton, who arrived here today on board the United States transport Grant, from New York, formally reported to Maj. Gen. Otis, after which he returned on board the Grant. The troops that reached here on board the Grant (the Fourth Infantry and a battalion of the Seventeenth Infantry) will be disembarked immediately. A battalion of the Twenty-second Infantry has re-enforced Gen. Wheaton's Brigade.

IN HIS NEW POSITION.

Judge Cooper Presented as the New Attorney General.

Judge H. E. Cooper was sworn in as Attorney General by Chief Justice Judd yesterday morning. Upon the opening of Court Mr. W. O. Smith notified the body of his resignation. He then formally introduced Mr. Cooper as his successor. In his address to the Court and members of the bar present, Mr. Smith returned thanks to the members of bench and bar for the courtesy and aid which had been rendered him during his tenure of office.

Chief Justice Judd then administered the oath of office to Mr. Cooper and spoke of him as a man who needed no introduction, and spoke in high terms of his ability. The Chief Justice then dwelt at length in words of highest praise upon the ex-Attorney General. He spoke of his ability and of the conscientious manner in which he had performed the duties of his office.

On Sanitation.
M. M. Scott, principal of the High School, was host to the Social Science Association last evening at his handsome home near Thomas Square. The paper of the meeting was by Dr. F. R. Day, port physician and member of the Board of Health. The subject was the Science of Sanitation, with many local allusions and with suggestions for the improvement of conditions here. The

paper will be published in the Advertiser. A supper was served those present. The occasion was one of the happiest the Association has had in some time.

THE PRESIDENT'S POLICY.

WASHINGTON, March 10.—Upon authority so high that it is beyond question, the positive statement is made of President McKinley's fixed intention permanently to retain the Philippines. He believes that not only has destiny forced this course upon the United States, but self-interest as well as duty demand it.

The President believes he has the support of the great preponderance of American sentiment when he contends for the permanent retention of the whole archipelago. Already the form of government to be recommended for the islands is being considered. It is proposed, among other things, to provide specifically for an "open-door" policy, whereby all nations shall enjoy equal commercial advantages; to provide for such duties upon such imports from the islands as will prevent competition between Oriental cheap labor and American workmen. Other than this the plans for the Philippine government have gone no further than the consideration of means by which an admixture of our territorial and the British colonial forms may be adopted.

MAJ. LANGFITT'S MEN ARE TO LEAVE HAWAII.

WASHINGTON, March 9.—Four companies of the Second United States Volunteer Engineers, comprising those at Honolulu, are shortly to be called home. They have been on duty there since the outbreak of the Spanish war. They will be relieved either by four companies of the Twenty-fourth Infantry (colored) now in Utah, or by two or more batteries of the Sixth Artillery. Gen. Shafter, commanding the Department of California, has been informed that the Sixth Artillery may be utilized for this voyage, and has been instructed to recruit the regiment to its maximum strength.

Becomes Railway Bookkeeper.

Clarence M. White, who has long been with Macfarlane & Co., in Kaaumanu street, has deserted that compound, creating a vacancy that will be noted by many. Mr. White is now with the Cahu Railway and Land Company, at the depot, as accountant. He succeeds E. E. Paxton, who comes up town to be with Mr. Dillingham in the Judd building offices of the railway magnate and plantation promoter. Mr. White will be sadly missed from his place at Macfarlane & Co.'s and by the whole of the Merchant street contingent. The railway secures a good man.

That handsome corner store in the new progress block has been leased by Bruce Waring & Co. The owners had refused a dozen applications, awaiting a tenant to their liking. The store will be occupied by the Coyne-Mehrtens Furniture Co., Ltd. Manager Mehrtens will endeavor to occupy the place by April 1. Some of the new stock is already here. More is being purchased at the manufacturing centers in the United States.

Pacific Import Company.

The new Pacific Import Company, in the Model block, adjoining the Progress block on Fort street, is to open for business on Monday next. S. Ehrlich, who is well known here as a merchant, is the manager. His past experience gives him knowledge of the local market and he has purchased heavily in the United States. The stock is dry and fancy good and is a large one. On the evening of Saturday, the 25th, the store will be open for the inspection of visitors. The establishment has been handsomely fitted up and the display will be a grand one.

Frawley and Company.

NEW YORK, March 9.—Timothy Daniel Frawley's new company will open at the Columbia Theater, Washington, on April 3rd in "Trilby." The company will be cast as follows: John E. Kellard, Svengali; Burr McIntosh, Taffy; Alfred Hickman, Little Billie; Mary Van Buren, Trilby; and Harry Corson Clarke, Charles Wingate. Frank Mathies, Errol Dunbar, Jeffrey Stein, Harry Gwinette, T. Daniel Frawley, Mrs. F. M. Bates, Selma Johnson, Georgia Welles and Corrine Parker in the other parts.

H. A. WIDEMANN

Resolutions of Respect in Supreme Court.

FEELING EULOGIES SPOKEN

Remarks By the Chief Justice and Others—An Address By Gen. Hartwell.

The committee of the members of the bar appointed Saturday to draw up resolutions in regard to the death of the late Judge Widemann, presented the resolutions yesterday morning upon the opening of the March term of the Supreme Court. The committee

THE LATE JUDGE WIDEMANN. (Photo by Williams.)

was composed of Paul Neumann, Alfred H. Hartwell and Wm. Horace Wright.

Mr. Neumann arose and stated the object of the gathering. He paid an eloquent tribute to the deceased justice, and concluded by reading the following resolutions:

Whereas, It has pleased the Omnipotent in His wisdom to remove from this world, our Brother the Honorable Hermann A. Widemann, Second Associate Justice of the Supreme Court, from July 16th, 1869, until February 18th, 1874; be it

Resolved, That through the death of Judge Widemann, the Bar mourns the loss of an honored member, and the community a conscientious and upright man, a faithful public servant and a loyal friend.

Resolved, That our sincere condolence and sympathy be extended to the bereaved family of the deceased Justice.

Resolved, That this resolution be spread upon the records of the Supreme Court, and that a copy be forwarded to the widow of our late brother.

Resolved, That this Honorable Court be moved that when it adjourns this day, it adjourns out of respect to the memory of its ex-member, the late Hon. H. A. Widemann.

Signed:
PAUL NEUMANN.
ALFRED S. HARTWELL.
WM. HORACE WRIGHT.
A Committee of the Bar.

The Chief Justice and W. O. Smith spoke in feeling and eulogistic terms of the late Justice.

Gen. A. S. Hartwell said that in seconding the motion for the adoption of the resolutions that it gave him pleasure to refer to some of Mr. Widemann's admirable qualities. Continuing, Gen. Hartwell said:

In seconding, as I now do, Mr. Neumann's motion that the resolutions presented by the Committee be adopted, it gives me pleasure to refer to some of Mr. Widemann's admirable qualities.

I knew him well, and, in the earlier years of my acquaintance, intimately, for we sat together here upon this Bench as Associate Justices from July 1869, until February 1874, when we went into the first Cabinet of Kalaupana. Mr. Widemann as Minister of the Interior and myself as Attorney General.

Mr. Widemann afterward gave his personal attention to sugar planting on a large scale, at Wahee, on the

Island of Maui, and latterly at Waialeale, on the Island of Oahu, but he was always an influential factor in Hawaiian public affairs.

During the period of nearly five years in which I was associated with him officially I found him a charming friend, true to all his convictions of duty.

A large portion of the work of the Bench in those years was settling land titles, which was done to some extent by the method of ejectment, but largely by probate proceedings in the final settlement of administrators' accounts. These matters required patience and familiarity with the Hawaiian language, character and customs. It was this familiarity which Mr. Widemann had, together with his integrity of character, which made his judicial service valuable and trustworthy.

Mr. Widemann at different times was a large landed proprietor in the Islands of Kauai, Maui and Oahu.

He was cut upon a large pattern. He liked to deal in large transactions. I never saw anything small or mean about him.

He had traveled widely, and although his business career and social life did not leave much time for reading, he never lost his early taste for classic literature. He had been trained in Latin and Greek, a fact which I did not learn until I had known him a long time, for he was not in the habit of exploiting himself.

The later political changes in Hawaii came hard to him, not, as he told me a year or two ago, because he thought these changes could have been long deferred, but because he did not like the way in which they were made.

Mr. Widemann's personality was strong; his influence in Hawaii socially and in every other way was great.

I join sincerely in mourning his loss. The resolutions were then adopted. Justice Judd accepted the motion that the next adjournment of the Court should be out of respect to the memory of one of its ex-members, the late H. A. Widemann. At noon the Court adjourned according to the motion.

The following members of the judiciary and bar were present:

Chief Justice Judd, Associate Justice Fenn, Associate Justice Whiting, Judge Stanley, Judge Perry, Judge Wilcox, W. O. Smith, H. E. Cooper, Paul Neumann, A. S. Hartwell, F. M. Hatch, Cecil Brown, E. P. Dole, A. G. M. Robertson, W. Horace Wright, J. A. Magroom, J. M. Davidson, A. A. Wilder, A. W. Carter, Chas. Creighton, Geo. D. Gear, S. M. Bailon, J. K. Kaula, A. M. Brown, P. L. Weaver, C. B. McClean, W. A. Henshall, Geo. A. Davis, A. G. Correa, W. C. Achi, D. H. Case, A. L. C. Atkinson, L. A. Dickey, S. P. Chillingworth, J. K. Kahookano, J. M. Kaneakua, R. D. Silliman, L. Andrews, Henry Smith, J. T. De Bolt, T. McCants Stewart, M. F. Prosser, J. M. Vivas, R. Mead, H. P. Weber, J. W. Romaine, Geo. Hens.

Housewarming.

Several hundred city people, including a number of society ladies, inspected the new Judd building yesterday. One of the chief pleasures of the visit was the ride to the fourth floor in the elevator. The tenants at home were the Bank of Hawaii, Gear, Lansing & Co., and W. O. Smith. Others will move in today and within the next few days. All who called were pleasantly received and were enthusiastic in praise of the offices and furnishings. The bank company very favorably with any metropolitan institution. The vault, equipped under the direction of C. M. Cooke, is a feature. The place has all the various windows, including the savings department and offices for the directors and the president. Gear, Lansing & Company are nicely situated for their plantation, real estate and insurance business. W. O. Smith, attorney at law, is the happiest man in the building.

DEWEY TO REMAIN.

WASHINGTON, March 10.—The statement can be repeated on the authority of the detail office of the Navy Department that Admiral Dewey will not be relieved at Manila until he chooses to make application for such relief. So far he has not given any intimation of a purpose to apply for relief in the immediate future and from the few declarations he has let fall the department has reason to believe that he does not contemplate any such action. Consequently there is no foundation for the story that Admiral Schley or any other admiral has been selected to take command of the Asiatic station.

Reports of Dewey's illness are not credited.

CHINA THE BONE

Several Great Nations Are Now
Involved.

ITALY TO SEND MORE SHIPS

France and Russia Combining
Against Great Britain —
Germany's Part.

LONDON, March 11.—A Rome correspondent of the Daily Mail says the Government has ordered three more cruisers to get in readiness to proceed to Chinese waters in connection with the demand of Italy for a concession of San Mun, province of Che-Kiang.

A dispatch from Rome on Tuesday announced that the squadron of five Italian cruisers, with 100 guns and 1500 men, would soon arrive at San Mun bay.

LONDON, March 11.—The Peking correspondent of the Times says: In retaliation for blocking the extension of the French concession at Shanghai, the French and Russian Ministers instructed their Consuls to block the extension of the cosmopolitan settlement. China, therefore, refuses to extend the latter on the ground that the Consuls are not unanimous.

LONDON, March 10.—A dispatch from Allahabad, capital of the north-west province of India, says it is reported there from Yarkand, Chinese Turkestan, that a large force of Russian troops has arrived at the Russian post, Fort Murghabi, on the Murghabi river, in the Sari (Great) Pamir, with the intention of seizing Sir-i-Kel, the hundred-mile stretch of territory north of the Mustagh mountains, which was left undefined by the Pamir Boundary Commission in 1895. Its seizure by Russia will cause complications with Germany.

PORTO RICANS RESTIVE.

CHICAGO, Mich. 10.—A special to the Tribune from New York says: "The Porto Ricans want independence," said Col. William P. Hubbell, commander of the Fourteenth Regiment, today on his return from Porto Rico.

Col. Hubbell declared his belief that an insurrection of the natives of Porto Rico is bound to come sooner or later.

KIPLING RECOVERING.

Patient Told of the Death of His Favorite Child.

NEW YORK, March 10.—"Mr. Kipling is still improving," said Dr. Doubleday tonight. Mr. Kipling had taken some sweet breads for supper and had been able to eat more of solid food than at any time since he became ill.

Unable to keep Mr. Kipling in ignorance of the death of his favorite daughter, Josephine, the news was broken to him tonight by Dr. Dunham. The blow was a heavy one, but the father bore up bravely.

"How long was she ill?" he asked. He was then told as much as the attendants thought wise. Tears stood in the author's eyes, and he murmured half to himself, half aloud, "Poor little Joe." It was thus he always called the little one. The doctors believe it was best to break the news, as the worry and distrust he seemed to have in all the replies given to his queries about the little one would have probably been more harmful than to let him have the truth.

CALIFORNIA SENATORSHIP.

SACRAMENTO, March 10.—The ballot to-day was the seventy-sixth taken in joint assembly. The result was:

Grant	26
Burns	25
Barnes	22
Scott	6
Estee	1
W. W. Foote (D.)	29
Phelan (D.)	1
Rosenfeld (D.)	2

Total 112

TALMAGE RESIGNS.

WASHINGTON, March 9.—Rev. Dr. T. De Witt Talmage, who for nearly four years has been pastor of the First Presbyterian Church of this city, today sent a letter to the session of that church, tendering his resignation.

It is the intention of Dr. Talmage to continue his residence in this city. He will devote most of his time to literary pursuits.

LONDON, March 11.—The Rome correspondent of the Daily Chronicle says: The Pope continues to improve, but his physicians say he shows great weakness, which is rather alarming to his entourage.

INSPECTION.

This is the Order of the Week in the N. G. H.

Honolulu, March 20th, 1899.

Regimental Orders No. 20.

Pursuant to Special Orders No. 43 from General Headquarters, a Board of Survey, composed of Major C. J. McCarthy, Major C. W. Ziegler and Capt. Jno. Schaefer, is hereby appointed for the purpose of making full survey and report of the serviceable condition of the arms, equipment, stores and property of the National Guard of Hawaii. They will make written return thereof to these Headquarters not later than Monday, March 27th, 1899.

Commanding Officers of companies to facilitate the work of the above appointed Board, will as soon as circumstances permit within the above time, make written return to the said Board of the serviceable condition of the arms, equipment and property in their possession.

By order of Lieut. Colonel Jones,
(Signed) JNO. SCHAEFER,
Capt. and Adjutant.

The second battalion, Major Ziegler, will have inspection and drill this evening. It is required that every man present at the Drill Shed all of his equipment of every kind.

The first battalion will not have a drill this week. Instead, each company will have drill and inspection as follows:

D Company, to-morrow (Wednesday) evening, when Lieut. Col. Jones will have a communication from the commander in chief for the command and when all must be present with all equipment.

A Company, Thursday evening.

C and H Companies, Friday evening.

It is intended at this time to make a complete inventory of all the property in the hands of members of the regiment, as the usual inspection and muster was not held on January 17th of this year.

What Shakespeare Would Say.

A bicycle is just what it is made. A good one is a pleasure and pride to its owner, but if perchance he gets a poor one, it were better he never had bought. Be not the first to take up each new idea, nor yet the last to lay the old aside. The manufacturers of the famous Sterling bicycle have always been known for their conservatism. Every proportion, every detail of construction in the Sterling wheel is the result of most careful study. (They have not adopted any novelty simply because it was a novelty. When they have become convinced a certain detail was good they have carefully weighed the matter before relinquishing it for something untried. ("One thorn of experience is worth a whole wilderness of warning.") They have determined to build a wheel of sterling qualities, whose reputation, like Caesar's wife, should be above suspicion. A bicycle's defects quickly become known, while its good qualities are recognized only after long use. The Pacific Cycle & Mfg. Co. have half a car load of 1899 model Sterling wheels in transit. Price for the highest grade \$60.00.

MR. REED A THORN OVER THE ROAD

Feud of the President and the
House Speaker.

A BATTLE ROYAL IN SIGHT

Western Man Seated to Succeed
the Czar—Reed's Offences—His
Great Strength.

WASHINGTON, March 10.—The administration's contest against Reed for re-election as Speaker is occupying much space in the Eastern press. It is likely to become historical, and may have a most important bearing on the Presidential campaign next year. Reed's jealousy of McKinley is well known. It is of long standing and appears to have become chronic.

In discussing this subject a leading Republican today said: "I am sorry that events have so shaped themselves as to force the President to fight Reed. Mr. Reed is of course a tough customer, and he can make a good deal of trouble, but Mr. McKinley has demonstrated that he is a pretty good politician, and I am satisfied that he will prove to be equal to the present emergency. Mr. Reed was given every opportunity to adjust matters on a satisfactory basis, but declined to avail himself of it. That the administration can defeat Reed for Speaker of the Fifty-sixth Congress is the conviction of the great majority of conservative observers. Some Western man will be picked out for the administration forces to rally around. It may be Henderson of Iowa, or Hopkins of Illinois, or some unknown man, but the decision is in favor of a man from the West.

"There is method in this, of course. The bulk of the Republican membership of the next House will be composed of Western men. They will be in the majority and should, in the natural order of things, dominate the House. It will be easier to defeat Reed with a Western man than with Mr. Sherman or any one from the Eastern States.

"Mr. Reed can also continue his fight against the administration from the floor, but the President believes that if Mr. Reed can be reduced to the ranks in the House he will become more tractable. Anything would be preferable, he thinks, to his re-election as Speaker."

It is pointed out that Mr. Reed was opposed to the annexation of Hawaii, which the administration favored; that he was at no time in sympathy with the administration's Cuban policy; that he opposed the acquisition of the Philippines and of Porto Rico, and was unfriendly to army reorganization on a permanent basis; that he opposed the Nicaragua canal, which is regarded as essential to the development of the expansion policy, and the Pacific cables, being responsible for the defeat of both schemes.

It is suggested that his opposition thus disclosed to the general policy of the administration will be almost certain to hinder action if he is Speaker of the next House, and that moreover, his great power and prominence encourage the development of an anti-administration faction in the party along almost the same lines of opposition, save on the money question, as those adopted by the followers of W. J. Bryan—anti-expansion, anti-army, anti-almost everything that the administration is for. Moreover, it is asserted that even on the money question Mr. Reed's plans differ from those of the administration.

Notwithstanding the opposition to Reed for political reasons, it is conceded that he is the biggest and brainiest Republican alive, and it is probable that when it comes to a showdown many of those representatives who now talk bravely of opposing him will fall into Reed's lines as heretofore.

Drowned from the Castle.

L. Lowman, a business man from Cincinnati, who was a passenger on the barkentine S. N. Castle from Honolulu to San Francisco, fell overboard and was drowned March 3rd. The remains were not recovered, although Captain Hubbard, who was at the wheel, hove her to immediately and lowered a boat. Diligent search was made for several hours, but no sign discovered of the drowned man.

Lowman was about 40 years of age and had visited Honolulu in search of health.

Eczema, scald head, hives, itchiness of the skin of any sort, instantly and permanently cured. Doane's Ointment, at any chemist's, 50 cents.

Ladies of Honolulu call up phone 74, the New England Steam Bakery and Candy Co. who will furnish you with the finest line of ice cream, sherbets, bread, pastry, candies, etc., made in the city. Special features are April Fool candy and Easter egg novelties. J. Oswald Lutted, Manager.

Tourists and Town People on
Pleasure Bent.Charmed With Various Points.
Walaanae and Walaanae—A Visit
to the Ewa Mills.

A jolly carload of enthusiastic tourists were taken out over the Oahu railway yesterday. Some stopped off at Walaanae, a. the new hotel, in charge of Capt. Toogood, where they spent a couple of hours in that romantic locality. The Walaanae hotel is a new and comfortable building, located near the seashore, where town people or tourists can find a quiet retreat, with cool breezes, sea bathing, and the comforts of home. Part of the tourists rode on to Walaanae, where a spacious hotel has been erected by Mr. Dillingham, which is in charge of Col. and Mrs. Lauken. This front on the bay, which has always been noted as a favorite bathing resort. This hotel will be opened to the public in a few days, of which notice will be given.

Among the tourists was a gentleman from New York state, interested in railroads there, who expressed himself very much pleased with the Oahu railway, which is fully up to the average of first-class railways in the states, while very few routes there afford such a variety of scenery as this does, including its mountains and valleys on the one hand and its ever-varying marine views on the other. The road bed and the running of the cars was as smooth as the average of American roads, excepting some of the oldest, such as the New York Central. Tourists who visit these islands, and omit a ride over the Oahu railway, will miss seeing some very charming views to be seen nowhere else in Hawaii, and which once seen will be remembered with pleasure for a lifetime.

On the ride back a stop was made at Ewa and the excursionists were taken all through the mill. They were all interested in the manner of handling the cane, and enjoyed very much the experience of going through the mill. The party, which was under the direction of H. E. Kaesser, of the tourist firm of Thos. Cook & Son, was composed of the following:

Mr. and Mrs. Sprague, Mr. Brunman, Mrs. E. M. Titus, Mrs. Harmsen, Miss Emery, Miss Ford, Miss Augusta Ford, Mr. and Mrs. L. E. Mallory, Miss Mallory, Miss Mary Philip, C. H. Rathbone, Mr. and Mrs. Callaghan, Mr. Adams, Mr. Blumenthal, J. M. Whitney, Mr. Johnson, Mr. Huber, Mr. and Mrs. Wise.

AFTER FIFTEEN YEARS.

Mrs. Allau's Experience With Lau-
hala Trees.

Mary Allau, the well known Hawaiian lady who is always busy dealing in native mats, baskets, tapes and curios, was working hard at the two big lauhala trees in the grounds of the Executive building yesterday, stripping them of the dead and yellow rushes, which, woven into mats, are used in the lanais of many an island home.

"It was about fifteen years ago," said Mary, "that I planted these trees here with my own hands. I was then a lady in waiting to Queen Kapiolani and little thought that the time would come that they would be a profit to me. But I have been given permission by the kind keeper of the grounds to take away the dead branches from these—my trees—and weave them into beautiful mats."

Lauhala fibre is best when allowed to wholly mature on the tree. When taken off green and artificially seasoned and dried the lauhala is never as soft and pliable.

Molokai natives were around the city yesterday selling tapa cloth made on that island. As it comes into direct competition with a much cheaper article from Samoa, it is doubtful whether it will have much demand. In the South Sea Islands there is still a large fabrication of beautiful tapes which in Hawaii has sunk into nearly a lost art.

THE HONOLULU STEAM LAUNDRY COMPANY

Have added to their business a towel supply department.

They will furnish you with six towels a week at the nominal sum of \$1.25 per month.

Their solicitor will call on all the large and small firms the beginning of next week. This will be a God-send to printing offices, and office rooms of all descriptions.

Ring up telephone 583 if you want towels.

Oldest Native Member.

In addition to the resolution of condolence on the death of the late Judge H. A. Widemann, W. O. Smith presented a similar resolution on the death of Judge William L. Holokahiki of Maui. He spoke of the late Judge in highest terms and mentioned the fact that he was at the time of his death the oldest native member of the bar having been admitted in 1876. The resolution, which was seconded by Mr. Kaula, who paid a tribute to the deceased, was adopted.

FREE EXAMINATION.

I study the formation of your eye as closely and as accurately as the astronomer studies his stars. Every malformation of the eyeball has its effect. Headaches, dizziness, indistinct vision are all traceable to a misshape of the eyeball. Knowledge and experience, aided by the best and latest improved instruments and appliances, make my service in examining eyes invaluable to you. Yet that service is ABSOLUTELY FREE, and if glasses are required they're to be had at a more than reasonable price.

TUESDAY : : : MARCH 21.

THE NEW ATTORNEY GENERAL.

Mr. Cooper should discharge the duties of Attorney General with credit to himself, because he has had considerable judicial experience, and was held in high estimation by the Bar as a judge. He is also familiar with the social condition of our mixed races and will not make errors from lack of knowledge. He is also familiar with the routine duties of the Attorney General's office.

He has yet to show what his executive ability is in the rather difficult position of President of the Board of Health. The sanitary conditions of the city require constant attention, and in enforcing sanitary regulations there is always more or less friction. He will undoubtedly make an efficient officer.

At the time, in 1897, when Mr. Cooper, as acting Attorney General, drove back to Japan 1159 immigrants, the Advertiser believed that it was an unnecessary act of cruelty, and, probably, a violation of the treaty rights. The subsequent payment of indemnity was not however a recognition of the correctness of the legal position taken by the Japanese government.

At the time the poor unfortunate immigrants were driven back, it seemed as if the alone was responsible for a cruel act, even if it was lawful. But, in justice to Mr. Cooper, it should be said that he only represented the views of the dominant party in the community which had declared in its platform that all of its power and influence would be used to restrict Asiatic immigration. Guided as it was by lofty principles in its purpose to make these Islands a White Man's country, it exacted of the Attorney General and he responded to it, the utmost vigilance in driving back the Asiatic invasion. It was not Mr. Cooper, but the community acting through him that forced the unhappy immigrants home. The government must represent the people.

Since that fearful outbreak of indignation against the Asiatics, the community, including the dominant party, has found on a closer and more exhaustive analysis of its lofty principles, that it is a very narrow and "un-American" view of the matter to resist any Japanese invasion. On the other hand, we are under the strongest obligations as humble assistants in carrying the White Man's burden, to give the "open door" to the Japanese. This we are now doing, and if Providence permits, will continue to do, until selfish politicians on the Mainland interfere and arrest the good work.

Mr. Cooper, as he reflects upon the position which he was forced to take by the dominant party, will quite agree with Disraeli when he said that: "There is nothing in which the power of circumstance is more evident than in politics." Another power of circumstance operates with overwhelming force when there is a dollar in sight, but not in hand.

We hope that Mr. Cooper will, in the coming years, be identified with the progress of these Islands, and, if he desires to hold office, will secure it, by reason of meritorious services rendered.

MOISTURE AND SUGAR CANE.

The Planters' Monthly quotes at length from the discussion of the sugar planters of Louisiana, at their annual meeting, on the causes of the different percentages of sugar in cane. In any close competition in the production of sugar, profit or loss will be determined by the difference of this percentage. It was stated in the debate that in Demerara and other countries the percentage of sugar rarely rose above twelve per cent, because the canes were gorged with moisture. In other countries where it is dry, or there is a cessation of moisture, the percentage rises to 16, 17, and even as high as 20 per cent. The same differences in saccharine matter are found in the cultivation of watermelons, and they are due, aside from the chemical properties of the soil, to the amount of moisture. The Southern darky prays for dry weather when his melons are ripening. This effect of more or less moisture on crops, so far as sugar is concerned, is well known to all intelligent planters, but the laymen understand it imperfectly.

The time will soon come when the amount of excessive moisture during the season will become an important factor in calculating the values of sugar plantations.

It is settled, of course, that a plantation with an ample irrigating system, is of much greater value than the plantation that trusts to Heaven for rain, other things being equal. But in the close and even fierce competition in the production of sugar at the lowest possible cost, which must take place whenever protective duties are abolished, a very little difference in

the amount of saccharine matter in the cane will determine the question of profit or loss. A difference of 8 per cent, will, in the case of a 10,000 ton plantation, make a difference of a million of dollars on the value of its stock.

Our own planters are thoroughly alive to the importance of this matter. At the same time, their great success in the use of water by irrigating methods attracts the attention of the sugar cane planters in all parts of the world, and they are educating them to adopt the same course.

It is now said that the best sugar industry of California will be reconstructed, and that hereafter the beets will be grown only upon lands subject to irrigation.

THE PASSING HOUR.

Poor China has no press agent.

It is evident that the latest news from Manila has not yet reached Porto Rico.

The President is keeping a lot of people busy trying to think out what he is trying to think out.

The verse put forth on Kipling's illness and recovery and on the great writer's latest poem will soon equal in measure the rhymes inspired by the war.

Major-General Otis knows the boys of his army when he says that they are all anxious to stay in the field till the last man jack of the enemy has disappeared.

Rev. Dr. Talmage is again a free lance and may once more visit Hawaii and preach a sermon beautifully and store up some sentimental political impressions.

They ought now to charge Gen. Alger with trying to get Admiral Dewey's job. This is about the only possible offense for which the Secretary of War has not yet been arraigned.

The tributes to the memory of the late Judge H. A. Widemann spoken in the Supreme Court were sincere. There was an absence of tone of fulsome flattery and there was earnest acknowledgment of the worth of the dead jurist. There is shown in this single incident that while political feeling here during the past six years ran high, it could not sever old friendships.

Holy Week.

The following union meetings will be held during Good Friday (next) week:

Tuesday—Service at the Christian Church. Speaker, Rev. C. M. Hyde. Wednesday—Service at Methodist church. Speaker, Wm. M. Kincaid. Subject: "God's Love to Man."

Thursday—Services at Central Union Church. Speaker, Wm. A. Gardner. Subject: "Man's Love to God."

Friday—Service at Central Union Church. Speaker, Rev. G. L. Pearson. Communion address.

Balloon Corps at Work.

Deputy Marshal Chillingworth and Ohas. Faneuf made a successful raid on Chinese gamblers last night. Twenty-eight were captured, together with a lot of incriminating evidence.

The den was situated on Hotel street. There was no entrance visible. The Deputy Marshal however heard the click of the bones and was determined not to be baffled. Accompanied by Faneuf he scaled the roof. Before he knew it he crashed through, landing in the midst of the astonished Celestials.

The Gazette (semi-weekly) will be issued this morning in time for the outgoing island and foreign mails.

MINISTERIAL UNION.

Organization Now Complete—Questions at Hand.

The second meeting of the newly organized Ministerial Union was held at the Y. M. C. A. yesterday. There was a good attendance of ministers and others who are connected with Christian organizations. The by-laws and constitution, which had been drawn up by a committee appointed for that purpose, were presented to the members and approved. The constitution was signed by about fifteen of those present.

Reports were then read by ministers and heads of religious organizations. Japanese and Chinese missions, Salvation Army, Y. M. C. A., and many other subjects came up for discussion. The promoters of the Union are very much pleased at the success with which their efforts are meeting. They think that it will be a great power toward creating unity and harmony in the many different branches of Gospel work. It is intended to map out a course of study of theological and sociological questions. Many other plans are in contemplation with a view toward creating interest in the work begun.

Drink PURE WATER.

If the advice given in those three words is heeded, good health will follow. City water is not good for many reasons, principally, because it is contaminated with vegetable and putrid matter of all descriptions. A simple analysis shows this to be a fact.

EXERCISE

Our doctors are busy treating patients who are suffering from complaints, more especially malarial disorders, which will be materially benefited if they drink a water that is pure and possesses curative features, as does Bartlett Spring Water.

DUE

Ask your family physician about the water, and if he is honest he will endorse its use.

All who have drank the water speak in the highest of terms for it.

This climate demands the use of such a water and you cannot afford to be without it.

VIGILANCE.

We will serve free of charge a glass of this wonderful natural Spring water at our Soda Counter to all who care to come and test its virtues. We deliver the water to your home in case lots at \$6.50 for 50 pints, \$9.50 for 50 quarts.

HOLLISTER DRUG CO.

Almost Blind "Pacific Heights" Notice.

Scrofula Affects the Eyes—Little Boy Treated by an Oculist Without Relief—But Now He Is Well.

"When my little boy was three months old his eyes became very sore and he was almost blind. I took him to an oculist who treated him for six months, and left him as bad as he was at the beginning. Finally Hood's Sarsaparilla was recommended and I began giving it to him. In less than three weeks he was able to go into the sun without covering his eyes, and today his eyes are perfectly well, and his ears and nose, which were badly affected, are also well. Hood's Sarsaparilla has certainly done wonders for my boy." Mrs. JAMES H. PAINTER, Amador, California.

Hood's Sarsaparilla is the One True Blood Purifier. All druggists, \$1.50 for \$5. Get Hood's Hood's Pills are the only pills to take with Hood's Sarsaparilla.

TIMELY TOPICS

March 20th, 1899.

Our advertisements for the past month have been directed, generally, to the housewife, but we have things in our store that will be of interest to the wife as well as the husband. No doubt you heard about the runaway a few weeks ago. A man was riding down Fort street, his horse suddenly got frightened at some object, became unmanageable and started to run away. The man tried every effort to check the horse, but without avail. A man happened to be coming up the street on his bicycle and before he could get out of the way, the horse, vehicle and all were upon him. The bicyclist was seriously hurt and was confined to his bed for some time. Now who do you think is to blame for that accident? We blame the driver, as he should have had one of

Whitman's Riding BITS

for his horse or A RACKING, or RACING DRIVING BIT. A gentle pull on the reins will check the wildest spirited horse living. Besides these bits we carry a full line of curry combs, the Dandy Horse Brushes, Black Snake Whips and Horse and Mule Collars of all sizes.

The Hawaiian Hardware Co. Limited.

307 FORT ST

Applications will be received at the office of Bruce Waring & Co. for the purchase of Lots on

PACIFIC HEIGHTS,

situated on the magnificent hillside between Nuuanu and Pauoa Valleys and commanding a superb marine and scenic view stretching from Diamond Head, over Punchbowl to the Waianae Range of Mountains.

A broad, winding Boulevard giving access to the property is now in course of construction and Choice Lots of sufficient area for magnificent homesteads will soon be available.

On the Nuuanu side of the Hill is a pali protecting it from the high winds and heavy showers of the Nuuanu Valley, ensuring a salubrious climate.

The elevation of the property is from 150 to 750 feet above the sea level.

Applications will be numbered and filed and choice will be allotted according to the number of the application.

Only \$1,000 for a Lot 100 by 200 feet. Terms easy.

W. W. DIMOND & CO., LTD HONOLULU.

GET IT AT WATERHOUSE'S.

AFTER Repeated Trials we have at last found the article we wanted. It came by the Albert and is now offered for sale to the public of Hawaii at the same prices as sold in the United States. Come and see for yourself and be convinced that the above statement is true in every respect.

Housekeepers will appreciate our effort after they have seen and tried our new

Scotch Granite Ware

and found it will not chip and then rust through, after it has been in use a few days. These goods when they once get into your house are there to stay.

Aluminum Ware

Is something that has been sold in Honolulu some time but the prices we are offering these goods at is a new departure altogether.

Another thing we have pleasure in bringing before the public, especially those who have youngsters in the family, and have more or less washing to have done at home, is a Wash Tub with an attachment on the side, for fastening a wringing machine to, thereby obviating the necessity of screwing your wrists all out of kilter, by wringing out clothes by hand power. These wringers we have in three sizes.

THE MARK IS 500

Rapid Increase in Y. M. C. A. Membership.

A Task Set—Mr. Ripley's Home Coming—Library and Reading Room.

Work at the Y. M. C. A. is going on very nicely. New members are coming in rapidly. Since the beginning of the month about twenty-five new paid-up members have been enrolled. It was the hope of the officers to increase the membership to 500 by the end of this month. While this mark may not be reached, the number will not fall far short.

The Association Review is out and among the many features is an interesting article by Mr. C. B. Ripley, who writes regarding Associations which he visited while on the mainland. The article concludes as follows:

"Upon returning to Honolulu my first visit down town was to attend the New Year's reception at the Association. As I entered the building I was most cordially greeted by a young man who was evidently a stranger, to me at least, for he urged me to look over the building, to see the exhibit of drawing and book-keeping and to make myself at home and to come to the rooms often while I was in the city. The greeting was so cordial and such a contrast to many that I received where I really was a stranger that I was proud of my own Association, and the pleasure of the home-coming was deepened, even if I was not recognized as a fellow with a paid-up membership card in my pocket."

The reading room and library of the Association are very well patronized. Through all the hours of the day a large number of men can be found reading the papers and magazines. Strangers especially make the reading room their headquarters. This fact is very gratifying to the organization, which makes special effort toward providing a place of refuge for the young man who is a stranger in a strange land.

The reading room and library are both well stocked. Every leading magazine and several of the metropolitan papers may be found scattered upon the tables. In regard to the reading room, Mr. Lindsay, a director of the Milwaukee Y. M. C. A., while on a visit here, said that he "never had seen one more thoroughly equipped, considering the size of the institution." The library includes about 600 standard works. Fiction, history and scientific works may be found upon the shelves. The general secretary, Mr. Coleman, takes a great deal of interest in these departments and is gratified at the interest which is being shown in them.

In addition to the regular classes, basketball and hand ball are receiving much attention. The teams of both these games are practicing all the time. It is intended soon to have a hand ball tournament. Basketball contests take place between the Association teams every Thursday evening.

Handball is a most interesting game, but it is one which a great many here do not know much about. It is very simple to learn and affords first class exercise to every part of the body. It may be played by two, three or four persons. The following athletic program is arranged for this week:

Tuesday evening—Classes, 7:30-9. Wednesday evening—Hand ball. Thursday evening—Basket ball. Friday evening—Classes, 7:30-9. Saturday evening—Hand ball. Gym. closes at 9 p. m.

STATE LIBRARY.

Lawyers Vote on Book Lending Regulations.

The Supreme Court opened yesterday morning for the March term. For the first time in several months the bench was occupied by the three Justices, Chief Justice Judd, Associate Justice Frear and Associate Justice Whiting all being present.

The presentation of the new Attorney General and the resolutions of respect to deceased members of the bar were the first matters to be acted upon.

The matter of the law library was then taken up.

For some time books have been taken from the library and not returned. The Chief Justice spoke of the necessity of returning the books. The fact that there was no librarian strengthened the importance of the plea, as the value of the library depended upon the fact that the books were returned.

Mr. Ballou suggested that books be allowed to be taken into Court only from the library. This was opposed by Mr. Geo. Davis on the ground that young lawyers without libraries of their own would be injured by such a rule. The motion to make the library one of reference only was finally carried by a vote of 26 to 6. The Court then proceeded with the calendar.

HOME.

To parties with limited means desirous of having a home. I wish to call attention to the fact that for a small payment down I will build houses, upon the Pawaia Tract or elsewhere, upon the installment plan.

WILL E. FISHER, Real Estate Agent and Auctioneer, Fort and Merchant streets.

OUR REPRESENTATIVES.

We have Shoes for those too young to walk, for those too old to run; for those who dance with merry feet, or through weary years still shuffle on.

Shoes as light as the heart of youth, as strong as manly courage, as beautiful as woman's grace and firm as truth most chaste.

Shoes for dry and wet, for cold and storm, for 1 week day and Sunday, and always to be depended on.

All our Shoes are like good ministers—they wear themselves out in the service of mankind.

Interview these representatives at

A. E. MURPHY & CO.

WHARF AND WAVE.

The United States gunboat Wheeling sailed for Manila at 7 o'clock yesterday morning.
 The United States collier Brutus' coal was taken by the battleship Iowa in San Francisco.

It was sugar day March 9th in San Francisco harbor, says the Chronicle, and customs officials and quarantine officers were kept busy all day attending to the fleet of sugar packets that sailed through the Golden Gate between sunrise and sun down. Eight vessels from the Hawaiian Islands arrived. Each was loaded to its utmost capacity with sugar. The bar Amy Turner arrived from Hilo, the schooner Defender from Kahului, and from Honolulu the barks Mauna Ala, Martha Davis, the brig W. G. Irwin, the barkentine S. G. Wilder, schooner Jessie Minor and the ship Fort George.

TENDERS FOR COAL.

TENDERS WILL BE RECEIVED at the office of Wm. G. Irwin & Co., Ltd., until 12 o'clock noon of March 23rd inst., for the purchase of 500 tons, more or less, of Hilo or Newcastle Coal, being a portion of the cargo of the ship "Star of Bengal."
 Capt. Henderson does not bind himself to accept the highest or any tender.
 Honolulu, H. L. March 20, 1899.

MAPS OF HONOLULU, UNMOUNTED, 50 cents each. Maps of Hawaiian Islands, unmounted, 50 cents each. By Hawaiian Gazette Co., Von Holt Block, King Street. 5144

BAILEY'S TIRE.

We have now on tap a supply of pure and unadulterated wind, free to all, direct from our own windbag, warranted to ride easier than any other brand on tap in Honolulu, puncture proof and free from oil or any substance that could possibly injure the most sensitive tire. Remember that a blow up at Bailey's will go farther than any other in town. We have the finest thing in a connection for free air, no hose, no trouble. Talking about puncture proof, we shall have in stock in a few days a tire that a Kiawe thorn cannot penetrate. We sent to the maker a full line of thorns for a trial, the factory experimented with them and found that the Milwaukee Puncture Proof Tire is impervious to the worst Kiawe thorn you can find. It is also as easy to ride as any first class tire in the market. Puncture proofing has not affected its resiliency, no metal, no strips in the tread.
 For sale in the Hawaiian Islands exclusively by
Bailey's Honolulu Cyclery.
 Established 1892.
 231 King Street.

HE IS FRIENDLY

Emperor William Makes a Show of Repentance.

Why His Brother is Sent to Command at Manila—An Indiscreet Admiral.

BERLIN, March 6.—A high official of the German Navy Department has informed the correspondent here of the Associated Press that the appointment of Prince Henry of Prussia, brother of Emperor William, to the command of the East Asiatic squadron, had been considered for months past, and was finally decided on as being the most available. The Emperor desires to show the American people that he is thoroughly friendly, and he knows that Prince Henry is popular in the United States.

When the official referred to was asked if the appointment was equivalent to the disgrace of Admiral Von Diederichs, he said:

"Not exactly. Still, if Admiral Von Diederichs had shown more tact last summer before Manila it would undeniably have been productive of good results all round. Our Government, unfortunately, was advised too late of a number of occurrences before Manila, none of which were really important, but which showed grave want of tact upon Admiral Von Diederichs's part. The main trouble was that the Admiral was insufficiently informed regarding international naval usages in such a delicate situation. Consequently he continued naval movements, drill and searchlight practice as if elsewhere than in a blockaded port, thus arousing distrust upon the part of the Americans."

The above is important as being the first German official admission that there had been trouble between the Germans and Americans in Manila Bay.

COL. MOZART.

The Posted Printer and the Musical Man's Copy.

(Washington Star.)

There is a young man in the government printing office who has no music in his soul, but what he thinks he knows of army and military matters would bulge the walls of the West Point Military Academy six inches out of plumb.

The other night he was helping a job printer friend of his on a piece of work and came across something which stumped him.

"Here Jim," he said, taking the tape to the boss, "this ain't right."

"What ain't?" inquired the boss, looking over the copy.

"Why, that Mozart's twelfth mass business."

"What's the matter with it?"

"There ain't any Twelfth Massachusetts, that's all. I know every regiment in the service."

"Oh," smiled the boss, tumbling to the situation. "Is that so?"

"Of course it is. And besides there ain't any Col. Mozart in the army. The chump that fixed up that copy ought to be court-martialed. It's a good thing I was here to-night to catch it in time."

Later the G. P. O. young man paid a bill of no mean proportions.

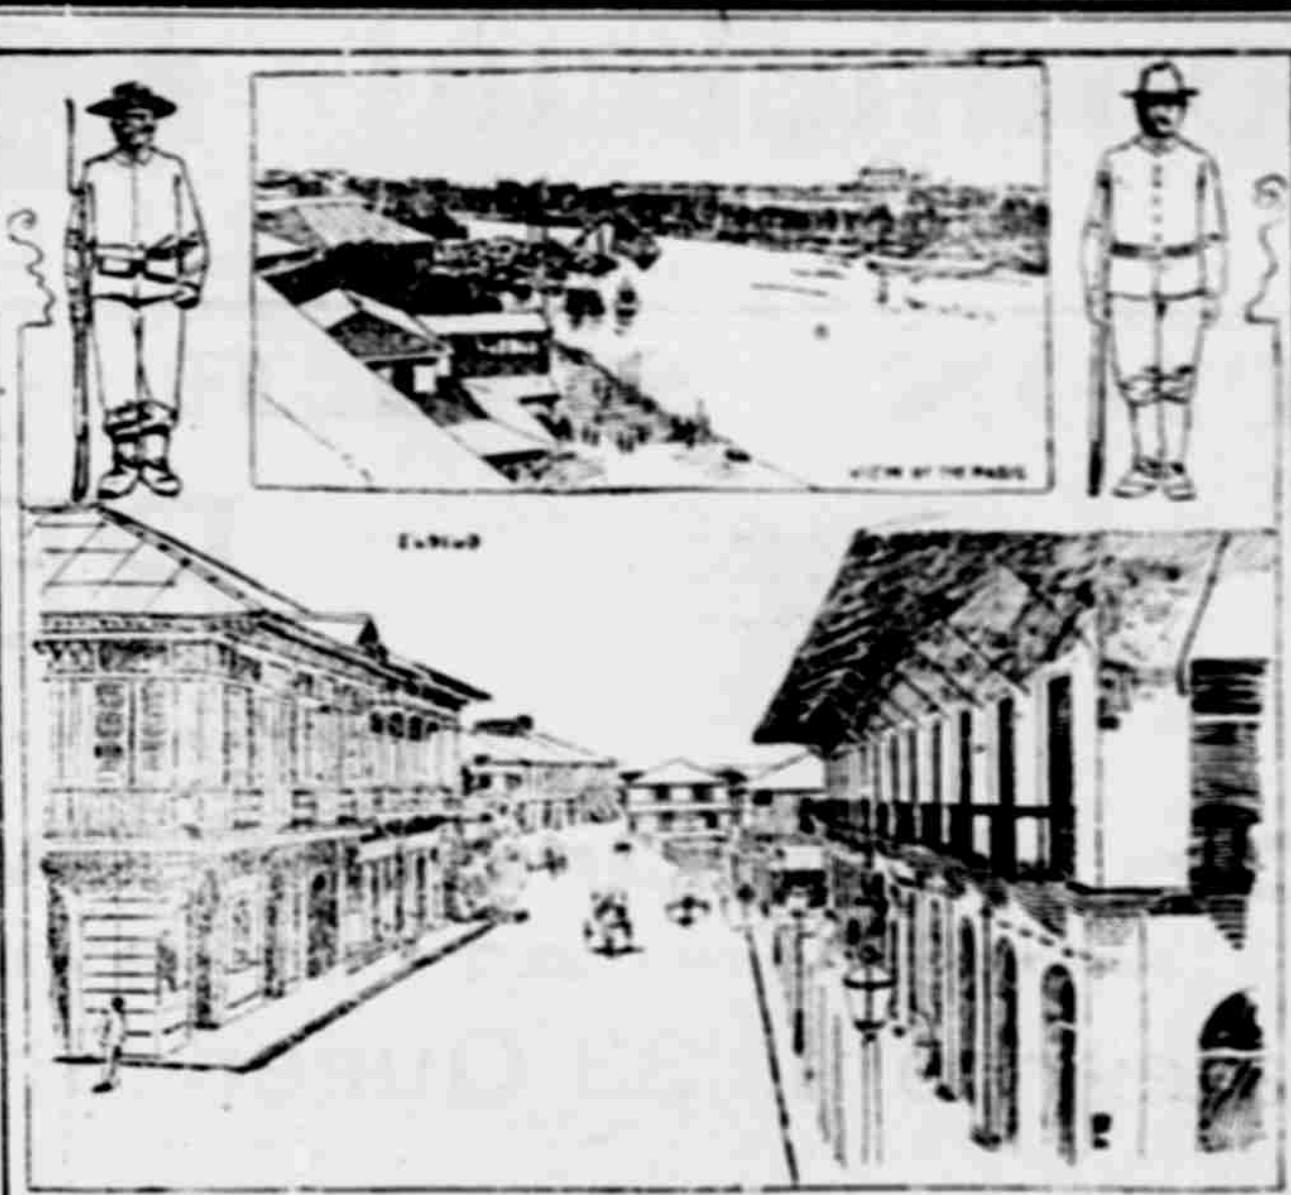

BRITISH NAVY.

By the end of December, 1899, the British navy will have in hand no less than sixteen battle-ships and twelve armored cruisers in course of construction or completion. Contracts for four battle-ships of 14,000 tons each were recently given out, two going to the Thames Iron Works, one to Laird and the fourth to Palmers. Of the twelve armored cruisers, eight are already in course of building and three have been contracted for at Fairfield, Clydebank, and at Barrows, and a fourth is to be built at the Pembroke Dockyard. The armored cruisers will be of 14,100 tons, 30,000 horsepower and have a speed of 23 knots. These eight ships represent 112,400 tons, 196,000 horsepower, and a cost, exclusive of armament, of \$40,000,000.

UNDERGROUND TROLLEY.

(Philadelphia Record.)

It is said that experience with the underground trolley system has developed the fact that while its initial cost is larger than that of the overhead system, the saving in running expenses and repairs is so considerable as to overbalance the advantage of cheaper installation. If there shall prove to be continuous saving after tests for a sufficient length of time to demonstrate fully the superior merits of underground traction we may hope to witness the abandonment of all overhead wires within city limits—a consummation devoutly to be wished.

RIVER PASIG AT MANILA AND STREET IN ILOILO.
The Pasig river will be known to many because it was into that stream that the Filipinos were forced by Brigadier General King's brigade. The street scene in Iloilo is interesting, as that town was taken by our troops recently. Iloilo is the principal town on the island of Panay.

IN SIBERIA.

One Tourist Who Enjoyed the Heavy Weather.

(Prince Kropotkin, in the Atlantic.)

The five years that I spent in Siberia were for me a great education in life and human character. I was brought into contact with men of all descriptions; the best and the worst; those who stood at the top of society and those who vegetated at the very bottom—the tramps and the so-called incorrigible criminals. I had ample opportunities to watch the ways and habits of the peasants in their daily life, and still more opportunities to appreciate how little the state administration could give to them, even though it was animated by the very best intentions. Finally, my extensive journeys, during which I traveled over 50,000 miles in carts, on board steamers, in boats and especially on horseback, had a wonderful effect in strengthening my health. They also taught me how little man really needs as soon as he comes out of the enchanted circle of conventional civilization. With a few pounds of bread and a few ounces of tea in a leather bag, a kettle and a hatchet hanging at the side of the saddle, and under the saddle a blanket, to be spread at the camp fire upon a bed of freshly cut spruce twigs, a man feels wonderfully independent, even amidst unknown mountains thickly clothed with woods and in winter time.

Siberia is not the land buried in snow and peopled with exiles only, that it is imagined to be, even by many Russians. In its southern parts it is as rich in natural productions as are the southern parts of Canada, and besides half a million of natives, it has a population of more than 4,000,000 as thoroughly Russian as that to the north of Moscow.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

People Rapidly Leaving the Great Boom Town.

BUSINESS AT A STANDSTILL

Speculators at Work—Poor Men Have Small Chance—Costly and Difficult Methods.

DAWSON, January 13.—The business outlook for Dawson during 1899 is most unpromising. Hundreds of people are migrating to more congenial climates, and the retail traders complain that they have more outfits offered for sale than purchases sought. The saloons and gambling-houses are popularly reported to be operating at a loss, and the Tivoli Theater, with Cad Wilson as its bright particular star, has closed its doors. The warehouses of the great commercial companies are still filled to the eaves with unsold merchandise, and on every hand goes up the cry that Dawson is "dead."

News from the new discoveries is not of such a character as to arouse energetic enthusiasm; indeed, with the exception of Thistle creek, all are reported as strictly barren. Hundreds of people have left for the outside with the intention of returning with large importations of merchandise, but unless all present indications are misleading, most of these ventures will prove unprofitable. Travelers passing through here from the Koyukuk region bring vague and hazy tales of richness to be uncovered in that district, but there is an alarming silence from the neighborhood of Rampart City, which indicates that the tales of Aladdin-like wealth sent out from there last year are far from true.

To sum up the situation on the Yukon in the fewest words, it is such as should deter all adventurers from entering the field unless supplied with sufficient money and determination to withstand several years of successive disappointment. Rich fields, such as Bonanza and El Dorado, are the exception, and less profitable fields than these are not for the poor man. It must remain for great aggregations of capital to utilize these minor sources of wealth.

New methods of mining must be devised whereby the cost of gathering the gold is cheapened. The majority of the diggings are neither "grub-stake" nor "wages propositions"—they are syndicate enterprises calling for cheap labor and perfected machinery. The steam thawing machine, it is true, has opened an avenue for the man of moderate means to profitably work out claims of average richness, but its development to such a magnitude as to make the working of the ordinary Yukon gold fields profitable is a problem for associated capital. This phase of the situation is well understood here by mining experts and representatives of foreign capital and by the usual circle of well-informed speculators, with the result that applications are being made for concessions on all creeks, whether they have shown up well or not, for "bedrock flume" grants which is but a preliminary to the establishment of hydraulic plants.

Joseph F. McGilvray, the Californian mining expert who was instrumental in devising many aids to the more perfect working of Californian placer diggings, has matured a plan whereby he expects to solve the problem of cheaply handling the Yukon gravel gold deposits. He starts tomorrow for San Francisco by dog team. He refuses to divulge anything of his plans.

John J. Healey has sent out to his claim, No. 52 below on Bonanza, an immense steam pumping plant with the expectation of working that claim by the process that is now successfully used in Oregon, but I have been informed by at least one expert that this method will prove too costly for the Yukon country. The result of Healey's experiment will be awaited with interest by many observant ones, who are watching it, eagerly hoping for its success.

It is altogether too early to give anything definite or reliable concerning the output of the creeks. Earlier in the season reports were highly favorable to an immense clean up. Just now the reports are directly the opposite. Sulphur and Dominion are reported to be utter failures. But such reports are as little worthy of credence as the earlier ones of startling richness. A few laymen on the lower end of each creek have bottomed on blanks, and have in consequence abandoned their lays disheartened. On the other hand, some few claims have developed amazing richness. There is a peculiarity about these creeks that makes them especially difficult to operate. The pay streak is located in most instances at so considerable a height and distance from the stream that water must be taken a mile beyond the limit of the claim. Yukon laws render this impossible except by consent of the intervening claimant, and this cannot be obtained. The result is that most holes have been sunk in close proximity to the creeks, with the result that an immense amount of waste labor has been performed.

To thoroughly understand this the reader must know that the windings of these creeks are tortuous, while the pay streak supposedly runs in an old channel whose windings, equally tortuous, bring it at times several hundred feet distant from the present water-course. In some places the new and

the old channels cross, and here the rich pay is easily located and cheaply worked. With these evidences of success close to the creek other prospectors are induced to try their luck close by the stream, but away off the pay. In consequence there are many disappointments, yet it has been demonstrated beyond a doubt that good pay does exist on these creeks, as is evidenced by the output of several claims. On Dominion one of these claims is owned by Captain Hansen and worked by Douglas Waterman, a young Californian mining engineer, a graduate of Berkeley. Good pay has been struck in apparently inexhaustible quantities. An example of the other class is the claim owned by B. F. Davis and Lou F. Haber of San Francisco, abandoned by laymen. The owners, however, confident of striking the yellow metal, have put men to work to develop the claim. On Sulphur the claim of John D. McGilvray, owner of the San Francisco Mining and Scientific Press, is yielding well, while those of many others have proven profitless.

A different condition of affairs exists on El Dorado and Bonanza. There the pay streak is usually found at a lower level than the bed of the creek, and there is little or no difficulty in getting water on the bedrock without interference with others' rights. By the work done on No. 19, El Dorado, this winter it has been proven absolutely that the pay streak is at least 250 feet wide, while on Nos. 24 and 25 the pay is nearly as wide. The richest claims in that district have not been worked for more than fifty feet of their width. If the proof of the greater extent of the pay applies to others, then there is yet much to be done on them with profit to their owners. This much may be said of all the claims on both these creeks, that the work done this winter is of a far more careful nature than previously, and less gold will escape the searching eye of the miners than heretofore.

The prospect of valuable quartz discoveries is becoming more hopeful, if the evidence of some rich specimens recently shown me is to be credited. M. A. Day, an attaché of the Alaska Exploration Company, has a one-third interest in a quartz ledge claim located sixty-five miles from Dawson up the Klondike. He showed me three specimens which he said had been taken from the vein, evidently from near the footwall, and the gold was so plentifully bedecked through it as to give indubitable evidence of unsurpassed richness. A ton of equally rich rock would yield several hundred thousand dollars. Mr. Day says the extension of this ledge has been located for a distance of three miles. Should development work disclose a continuance of the lead the permanence of Dawson is assured. It is difficult to speak with more certainty on this subject as Day is reticent regarding the exact location of the claim and will give no definite information concerning it.

Hugh O'Donnell and Maurice A. Marsden, mining experts, have returned from a tour of inspection of the Forty-mile diggings, including Chick Creek and other creeks reported phenomenally rich. They report the country to be ordinary grub-stake ground, and that the development work done thus far has disclosed nothing to justify a boom. Eagle City boomers who have gone to the outside will doubtless make a great noise over the Forty-mile country, in the interests of their town, but it should be understood by the reading public that for the prospector there are no ground floor opportunities in that region, whether it be rich or barren.

On the other hand the wise ones say that Thistle creek promises to be another Klondike. Alex. McDonald and other successful operators here have full faith in it, but in this case it must be understood, as in the case of Forty-mile, that the opportunities there are for investors and not for prospectors, as every available foot of surface has been staked and recorded long ago.

The alleged Carlisle creek discoveries prove to have been a "fake," and herein lies the proof of the most distressing fact of Yukon life—namely, the unscrupulous persons actuated by motives of selfish interest circulate the wildest reports without foundation. It is to sell valueless town lots, to make available a profitless stock of goods by selling to stampedees, to swell the coffers of transportation companies, to increase roadhouse receipts and in one instance it is said a big strike was reported in order that the owner of a stranded scow might procure cheap transportation to Dawson by returning stampedees glad of any means of turning a wild-goose chase to account.

There has been great excitement in Dawson for the past few days over a mysterious stampede led by Nigger Jim, Sam Stanley, Skiff Mitchell and others. Bonanza and El Dorado kings to a new creek, the whereabouts of which are unknown, but which the promoters say is "richer than El Dorado." Hundreds followed the men named in a wild chase into the unknown. Many have been sent back with frozen limbs and feet. No fatalities are reported, and no finds, either.

The first installment of the United States relief expedition reinder arrived here January 6th in charge of the Lapland herd. The last day's run was sixty miles. Large numbers of the reinder are said to have been slaughtered by Indians, who mistook them for wild game. The remnant of Uncle Sam's experiment will be driven to Circle City.

Dawson society young men gave a benefit minstrel performance Christmas night at the Tivoli Theater. Ben F. Davis of San Francisco was the star of the evening. The performance netted \$100 for St. Mary's Hospital, an institution much in need of funds.

W. A. RYAN.

A. R. De Fluente, editor of the Journal, Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. I tried Chamberlain's Pain Balm, and was surprised to receive relief almost immediately. The Pain Balm has been a constant companion of mine ever since and it never fails." For sale by Benson, Smith & Co., Ltd., wholesale agents.

READ THE RHYME OF**THE OLD WHALER MAN.**

(Lewiston Evening Journal.)

I purchased a glass of stiff Maine grog for a salty son of the sea,
And he condescendingly leaned on the bar
And spun this yarn to me:

"'Twas down on the ledge of the Saragosa in the nineteenth latitude
That I think I see the dumbest sight
That ever a sailor viewed.

We was dobbin' along with dumpy sails
In a high about dead calm
When the forward watch giv' a good
long squint and he yapped a loud
alarm.

And there afloat, two points to port,
was a shark—a regular he 'un—
The biggest shark I've ever seen cut-
side of the Caribbean.

The old man fired a mighty cuss and
he yelled to the second mate,
'Sling over the biggest hook ye've got
with a good big plug o' bait!'

We dragged 'er astern and his nob
come on and then with a mighty
splash,
He gulped the pork, he bit the rope and
away he went, by gosh!

But when he skipped two miles to lee
and begun to woppe and wheel,
We figured he found the lunch he had
a rayther too hearty meal.

Yet right behind in the quarter wash
the critter swum next day,
And though he gobbled the bait we
threw, he allus got away.

And at last, do ye know, we liked the
cuss for the way he showed his
spunk;
So we named him Pete and we shared
salt hoss and tossed him a daily
junk.

He got the orts of the fish we caught
and, all in all, I'll bet
A two-hoss wagon wouldn't haul the
grub that critter et.

Then one day Jones, the likeliest man
we had in all the crew,
Went off the rail with a swinging sail
and Pete he et him, too.

From that time on we tipped our caps
to the razor-backed old brute—
We tipped our caps and pulled a bow
in a most profound salute.

For 'twas only due from a decent crew
to honor a comrade's grave,
Though 'twas odd I'll own to have a
tomb afloat on the ocean wave.

And the old man ordered the fish lines
coiled, for he 'lowed 'twarn't proper
game
To bob for a cemetery lot; so Pete
swum on the same.

Swum on the same, though we come to
see that he didn't act quite right;
For he grew as thin's a belayin' pin
on that goldurned appetite.

And we couldn't figger the secret out,
though the second mate was firm
That stowed 'tween decks in the
shark's insides was a bastein' big
tape worm.

As we didn't have no vermifuge we
could only mourn for Pete
And steal salt hoss when the mate
warn't round and give him lots to
eat.

But at last he rolled his glassy eyes
and giv' an awful churn
And trundled his belly up to view and
drifted off astern.

He rolled and sogged on a logy swell
like a nut cake dropped in fat,
And it 'peared to all there was aughtin'
wrong with the shark we was
lookin' at.

So the old man ordered the gig crew
up and the bos'n piped his tune,
And away we splashed, with the mate
ahead, a-grippin' a big harpoon.

He slung the thing when we drew
abeam and we backed like all-
posse,
But that shark was sleepin' sound, you
bet, for we never broke his rest.

We never broke his peaceful snooze,
though plunk to the eyelet head
Went ripplin' in that big harpoon, for
you see, the shark was dead.

And the old man ordered an ortopsy,
for the thing seemed mighty queer
That an able-bodied, hearty shark was
deadern a door knob here.

So the mate was medical 'xaminer and
he straddled the critter's back
And bid him open from deck to keel
with one almighty whack.

Now listen close, while I tell the rest,
for this is the story's peth—
You may take my nob for a scuttle
bait, if the shark warn't starved to
death.

Starved to death, though the sea was
full of the fattest kind of fish,
And though a mariner, plump and
sound, had fallen in his dish.

Starved, though he had in his gorged
insides I'll bet a hundred weight
Of every kind of a floating thing from
a codfish down to bait.

And this was how: He'd spied, we
judged, an empty cask afloat,
And bein' a glutton he grabbed the
cask and tucked it down his throat.

The cask we found had an open end,
the bottom was good and stout;
The shark had swallowed the whole
end fast, the open end was out.

And ev'ry mossel the critter et was
scooped by the cask inside;
His vittles failed to reach the spot and
so the poor shark died."

This is a sample of weird, wild yarns
the mariners relate
Under the spur of a glass of grog in
the Prohibition State.

—Holman F. Day.

HOME COMFORT.Comfort in a Small Compass.
Honolulu Interested.

No one can be comfortable with any
itchiness of the skin. Irritations of
any nature, such as eczema or piles
make you miserable all day long, and
wretched all night. Relief means com-
fort, perfect cure means happiness.
Both relief and cure are near at hand,
for anyone who uses Doan's Ointment.
Everybody who tries it becomes an en-
thusiast, and always has a box about
himself. Plenty of Honolulu people
will endorse our claims for it.

Read what this citizen says:
Mr. W. D. Johnston, 1214 High St.,
member of the firm of Johnston, Decker
& Co., Hoop Mfgs., on Toledo St.,
Logansport, Ind., says: "About two
years ago, I had yellow jaundice very
bad and turned as yellow as saffron all
over. I wasted away until I was only
a shadow of my former self, and when
I recovered the skin commenced peel-
ing off, and great flakes of it I could
rub off. While this new skin was
forming, it caused a terrible itching,
which annoyed me greatly; it finally
passed away, as the new skin formed,
with the exception of the elbows. These
particular points continued to itch,
and though I tried every known rem-
edy, which realized them all. I spent
a good many dollars trying to cure
this, and at last I struck Doan's Oint-
ment, happening to notice an account
of it in our papers. I applied it to one
elbow that night, and it gave prompt
relief. Then I commenced it in earnest,
and was cured in a few days, and
never feel anything of it now. To say
that it is the best remedy that there is,
hardly expresses my opinion. I can
endorse it as a grand remedy for all
itchiness of any kind."

Doan's Ointment is a sure cure for
piles. It simply cannot fail. It may
be had of dealers generally, or by mail
from the Hollister Drug Co., Ltd., Ho-
nolulu, for 50c per box.

W. J. GUNN,**Real Estate Agent,****410 Montgomery St.**

BETWEEN CALIFORNIA AND SAC-

RAMENTO STREETS.

San Francisco, California.

The attention of those having money

to invest is called to the fact that there

are great opportunities to make splen-

did investments in San Francisco Real

Estate at the present time. The con-

dition of realty at present favors the

buyer. This is the time to invest when

properties can be purchased at low

prices.

San Francisco has a great future;

all unite on this point. It is to be the

great city of the Pacific Coast, it is the

gateway to the Orient, with the finest

port and bay in the world. Within the

last few months a new city charter has

been adopted by a vote of the people,

which goes into effect on the first day

of January next, vast improvements

are in contemplation under the new

charter that will enhance realty in cer-

tain portions of the city. The Santa

Fe Railroad Co. has purchased land

on the water front for terminal pur-

poses and will enter into competition

for a share of the passenger and freight

traffic, the Pacific Mail Steamship Co.

has given orders to have constructed

several first class steamers, the largest

and most powerful ever built to run on

the Panama route, so as to meet the

opposition they expect from the great

and wealthy Steamship Co. of Chile,

South America, which has decided to

extend their line of steamers to San

Francisco. All this means increase of

population and revival of business.

In purchasing real estate, to do well,

one must know where to buy and how

to buy. I offer my experience and

knowledge of values of property to

those who desire to purchase business

properties for income or lots for resi-

dence purposes. Information cheer-

fully given on all matters pertaining

to real estate in San Francisco. Par-

ties coming from the Islands who de-

sire to invest are requested to call and

absolute and positive bargains will be

submitted to them. I will be happy to

correspond with any who may wish to

inquire about real estate in San Fran-

cisco. Full charge taken of property

and taxes paid for absent owners.

IN A SMALL BOAT IT WAS COSTLY

Capt. Freitsch Due Here Soon in a Sloop.

A 24 foot Craft—Building It Himself—Will Go to Manila—He Has a Record.

(Correspondence P. C. A.)

MILWAUKEE, Feb. 15.—Captain Adolph Freitsch, the Milwaukee navigator, started today on a 10,000 mile journey—3,000 by rail and 7,000 across the stormy Pacific in a 24-foot sail boat. He has found a backer for his venture, and the contract was closed yesterday afternoon at Chicago.

A. R. Bremer, 15 to 21 La Salle St., Chicago, will back the Milwaukee navigator. The agreement on the part of Freitsch is that he is to build his own boat within twenty-four days after reaching San Francisco, and that he will reach Honolulu in twenty-one days sailing from the Golden Gate, and will reach Manila in forty-two days from the time he leaves Honolulu. The vessel will be named the *Coke*, will be twenty-four feet on the water line, flat bottomed, with a heavy centerboard.

Capt. Freitsch says that if his voyage to Manila is successful, as he hopes it will be, he may continue on around the Cape of Good Hope, and so make the trip back across the Atlantic, thus circumnavigating the globe, a feat which would be without a parallel under such conditions.

Capt. Freitsch is a Milwaukeean who has made for himself by the performance of similar feats to the one which he is now about to attempt a great name. In 1894 he sailed across the Atlantic in a forty-foot schooner called the *Nina*, performing the trip alone. It took him just thirty-four days and three hours to make 5,000 miles from Sandy Hook light to Teeright, and the performance attracted world-wide attention at the time. Later he made two trips across Lake Michigan from Milwaukee to the East shore and return during the stormy fall weather in a skiff rigged with a sail. He was almost given up for lost on his return trip, as he was much longer in making the crossing than was expected.

A later attempt to sail down the Mississippi in a small schooner built by himself in this city was abandoned, and since that time the captain has been planning other ventures, apparently only satisfied when he is risking his life in some manner.

A STATE HOTEL.

The Peculiar Arrangement of a House in the South.

(Chicago Times-Herald.)

"I ran across one of the queerest hotels in the world not long ago," said a drummer just in from a trip. "I don't care to advertise the establishment gratuitously, so suffice it to say, it's situated in a city made by nearly all traveling men out of New Orleans, and is run by an eccentric old chap who has named his rooms after states, instead of given them numbers. The effect is somewhat startling. I went there first to inquire for a friend. 'Yes, he's in Maine,' replied the clerk, when I mentioned the name. 'But he isn't in Maine,' I protested, 'for I happen to know he's right here in this hotel.' Then he explained. While I was standing there waiting, the side talk at the desk was enough to make a man crazy. 'Gent in Massachusetts is kicking, sir,' said a bell-boy; 'claims dat feller in Utah is all de time playin' re 'cordian at nights.' 'Put him in Montana,' replied the clerk. 'No towels in North Dakota,' said a chambermaid, and that fat man in Florida wants to be changed to Vermont.' My friend came down looking very rocky. He said he'd been sitting in a little poker game in Rhode Island the night before and woke up in California. Didn't know how the dickens he got there. The place interested me, and I could hardly tear myself away. My friend assured me that it was run strictly according to state traditions. He was in Maine at first, but they refused to send any beer to his room on account of the prohibition law, so he had them change him across the hall to Kentucky, and now he likes it so well he has concluded to stay indefinitely."

Oratorio Evening.

Next Thursday evening at 8 o'clock the Oratorio Concert will be given in the Kaumakapili church. Three numbers from the works of the great masters will be played by the Amateur Orchestra with the large organ. Two numbers on the program will be filled by Mrs. Geo. W. Macfarlane whose fine singing is sure to be a very leading attraction. There will also be a ladies' trio, violin and violoncello solos, tenor solos, and a Hawaiian chorus. The concert is for the benefit of the Kaumakapili church funds, and tickets now on sale are fixed at 50 cents.

Expensive Experiment in Ship Construction.

The Ernest Bazin Now to be Broken Up—Principle That Failed—Rollers Impracticable.

Bazin's roller-ship, the Ernest Bazin, now lies in the Hull Docks, England. Had she realized the high expectations of her builders she was to have revolutionized the form and construction of our swiftest passenger steamers. She cost over \$100,000, and a large measure of praise is due to her plucky inventor, who had the courage to risk a fortune in putting to the test an entirely fresh principle in shipbuilding.

It is easy to be wise after the event, but his central idea of facilitating the ship's progress by rolling over the water instead of forcing a passage through it was just one of those problems which can be solved only by a full-sized trial, and the maritime world is indebted in great degree to M. Ernest Bazin for definitely setting at rest for all time the feasibility of attaining any notable improvement in speed or stability by the adoption of the roller principle. The six hollow rollers are about 35 feet in diameter and 12 feet thick; the shape closely resembles two saucers having their edges joined together. About one-quarter only of each roller is submerged; no part of the hull of the vessel touches the water. The deck, about 130 feet long and 44 feet wide, is elevated considerably above the waterline, and carries the superstructure devoted to passenger accommodation and machinery spaces.

The method of propulsion is the usual screw, rotating in an inclined position between the rollers and driven by a 500-horsepower engine; the rollers also possess independent motive power. In the form of a smaller engine connected to each pair.

Unfortunately, on trial the ship hardly realized half the speed anticipated, and she has recently been sold at a fraction of the original cost, to be dismantled and broken up; nevertheless, the ingenious conception, unique design and exquisite workmanship are quite worthy of an appreciative record.

OMDURMAN.

A Rather Dismal Picture of the Mahdis Stronghold.

(National Review.)

Certainly the first glance gives an impression of squalor, because no one dared show openly any evidence of wealth or comfort; and those who built fine, large houses invariably surrounded them with a squalid mud wall ten to twenty feet high, against which the poorer people and slaves built lean-to huts on the outside. But walk in, and you perceive at once that these Talaisha Baggaras, whose child-ood must have been passed in tending their flocks in the open, and in wet and dry weather, had a very good idea of luxurious comfort and wide verandahs, houses, building went on incessantly, each emir outbuilding the other.

The crowning effort was the khalf's own masonry wall which he built to inclose, as within a prison, all his fighting emirs, his special soldiery, armory and grain stores. This is a solid wall four feet thick, fifteen feet high, over three miles in length, and with only five doorways in it. It is magnificently built, and the labor of bringing the blocks of hard stone and mortar from a distance must have been prodigious. It took the whole population, working from sunrise to sunset, over three years to build, and it is not quite completed, as there is a gap of 100 yards left between the khalf's and the Bellet Amona (arsenal). Yet, having built this wall, and knowing full well, that after Firket, we meant to come on, he did not put up a banquet inside—so his men could not shoot at us from behind this veritable fortification.

CIDER FOR TYPHOID FEVER.

Among the numerous virtues which cider is now supposed to possess, remarks the New York Tribune, is that of being a foe to the typhoid fever microbe. That popular rural beverage may not be capable of curing typhoid when a case is fully developed, but a moderate use of good cider would probably serve to kill off stray germs of that disease, if it should encounter any in the system. Thus cider is something of a preventive of the disorder. The scientific fact has been established in France recently that malleic acid, one of the acids found in fruit (but especially in the apple), will kill the microbe of typhoid fever. And cider that contains a certain percentage of the acid is also fatally obnoxious to the creature. Typhoid germs cannot live in first-class cider.

DECLINE IN RATE

Interest Figures Compiled by High Authorities.

Course of Legislation in New York—The Union of Lenders—Trust Fund Per Cent.

(Bradstreet's.)

As has been remarked in these columns before, the New York City Merchants' Association is strenuously objecting to the passage of a bill now pending at Albany which proposes reducing the rate of interest on loans in New York State from 6 to 5 per cent. The Association has issued considerable literature defining the reasons for its opposition to the passage of the bill, its latest production being an interesting pamphlet containing information bearing on the amount of money on loan in New York and the number and character of borrowers and lenders. It is pointed out by the pamphlet in question, which is compiled in part from the census of 1890, as will be recognized, that there are 422,658 lot owners in New York state who have borrowed \$1,400,000,000 on bond and mortgages, 155,814 farm owners who have borrowed \$220,000,000 and \$9,000 business firms whose loans aggregate \$320,000,000. The total interest paid in a year is about \$107,000,000. The average farm loan is \$1,403, and the average business and lot loan \$3,440. The lenders include 1,736,958 savings bank depositors and an unstated number of life insurance policy holders and widows' and orphans' trust funds. These three classes of lenders have \$1,500,000,000 out in loans. The loans of the banks of discount and deposit amount to \$400,000,000. Trust funds and savings banks earn 3 to 4 per cent on their loans. The earnings of banks of discount and deposit have declined from 8.65 per cent in 1890 to 4.99 per cent in 1897. The average rate of interest in farm loans in 1890 was 5.66 per cent and on lot loans 5.38 per cent, the present rate on mortgage security being 4 1/2 to 5 per cent. This reduction is due to the fact that since 1890 savings bank deposits have increased about 30 per cent, trust company funds have increased about 29 per cent, life insurance funds have swelled greatly and the total capital seeking secured loans has been doubled. Competition among lenders for safe loans has caused the interest rate to decline. On the other hand, the interest rate on ordinary mercantile loans has not declined because of the greater risk.

AND
STEREOTYPES

AT THE GAZETTE OFFICE.

The Japanese cruiser "Kasagi," which was built by Wm. Cramp & Sons, Philadelphia, for the Japanese Government, since she began her trial trips in June last has used the

VACUUM MARINE ENGINE
CYLINDER and
ARCTIC ENGINE OILS.

In January, 1899, she was supplied at Newcastle-on-Tyne, England, with

10 bbls. Vacuum Cylinder Oil,
30 bbls. Marine Engine Oil,
4 bbls. Arctic Engine Oil.

The use of the Vacuum Oils is increasing in all the markets of the world. The explanation of this is no doubt in part due to the fact that the Vacuum Oil Company uses petroleum from wells which show no traces of asphaltum.

Asphaltum is very injurious to machinery, and cheap oils containing it should be avoided.

A comparative test of Oils sold in this market, on one plantation, has resulted in an order for 48 bbls. of Vacuum Oils.

Pacific Hardware Co.
—LIMITED—

Sole Agents
FOR HAWAIIAN ISLANDS.

NEW LOCATION.

Have you visited our new quarters at 641 King street and seen our samples for Iron Fence and Monumental Work. Also those Plain and Ornamental Iron Settees, Chairs, Vases, Babbitte, and various other useful ornaments for the lawn.

We have on hand a complete line of Stable Fixtures such as oat troughs, hayracks, stall guards, gutters and watertroughs. See these before fitting your stable.

Do you need anything in the Monumental line. We are prepared to give you anything in this line at absolutely the lowest figure in town. Let us show you some of our work and samples.
