JAPAN IS NOT FAVORING STRIKE

Tokio Government Said to be Anxious for Settlement.

From a statement made on the witness stand yesterday morning in the conspiracy case by Prof. Denning, the expert on the Japanese language, the inference may be clearly drawn that, although the Tokio government is taking no official cognizance of the strike of the plantation laborers in Hawaii, the Foreign Office is nevertheless quietly and unofficially taking a hand in the game and is working for the suppression of the strike.

The statement by Prof. Denning was made just as Attorney Lightfoot was concluding his cross examination of the expert.

"Did you," asked Mr. Lightfoot, "after your arrival here, make a speech to the Japanese strikers at Waipahu?"

"Yes, I did."

"And did you tell the Japanese that the Foreign Office wished them to go back to work?"

"I told them," replied the witness, "that the Japanese public and, I thought, the Japanese Foreign Office, were of the opinion that the strike was doing incalculable harm."

"And did you advise them to go back to work?"

"I did."

Attorney Kinney, evidently fearing that the answers of the witness might be taken as implying that he spoke to the Japanese at the instance of the prosecuting attorneys, asked, "Were Mr. Ballou or myself informed of that?"

"No," was the answer.

"Did you speak truly," continued Kinney, "when you told the strikers that the people in Japan thought the strike was doing harm and that they ought to go back to work?"

"Yes, I got my ideas from the Japanese newspapers in Japan."

"Did you get authority from the Japanese Foreign Office to come to Hawaii?"

"Yes."

It is clear from the above evidence

MRS. WALLACE SAILS FOR THE MAINLAND

Her dream of happiness shattered, Mrs. Ida Baker, or Wallace as her legal name must be written, sailed for the mainland yesterday on the Alameda.

Almost the last bit of Honolulu on which her eyes rested, ere the ship was headed for the open sea, was the somber stone building wherein is confined the man whom Mrs. Wallace supposed to be her husband.

Baker, the debonair, is confined in Oahu prison, under sentence of three years at hard labor of bigamy. Mrs. Wallace, who discarded the man to whom she was engaged that she might marry Baker, was helped out of town by charitable friends. Soon Baker will be doing honest work, albeit in prison stripes, in expiation of his crime. His dupe will be trying to forget her predicament thousands of miles away.

SINKING FUND MONEY DEPOSITED IN BANKS

Twenty thousand dollars were deposited by Treasurer Conkling yesterday afternoon, in amounts of \$5000 each, with the four banks of the city to the credit of the sinking fund. This action was taken in accordance with the provision in Act 123 of the Session Laws of 1909, commonly known as the Depository law, which permits the Treasurer to deposit a sum not to exceed \$5000 from any special fund in the Treasury in any good savings bank or savings bank department of any bank, without security.

MCCLELLAN MISSES THE ADVERTISER ON HIS JOURNEY

Mayor Fern yesterday morning received a letter from Supervisor McClellan, who is now on the mainland. McClellan wrote from San Francisco, but said that he expected to start soon for Seattle. He is having a pleasant vacation on the Coast, but misses the Advertiser, and asks Mayor Fern to see that it is sent to him that he may keep in touch with affairs here.

SECOND JUDGE HAS ARRIVED

George W. Woodruff will Meet the Bench and Bar Today.

Judge George W. Woodruff, recently appointed second judge of the United States District Court for the District of Hawaii, arrived on the Mongolia yesterday morning, accompanied by Mrs. Woodruff, and is already at home in the city. He went almost immediately to the Judiciary building to meet and get acquainted with those who are to work with him. He held a sort of informal reception in the court room, at which all the members of the Federal judiciary department were present.

A more formal reception will take place at 9 o'clock this morning, at which hour all the members of the bench and bar have been invited to be present in the Federal court room and make the acquaintance of Judge Woodruff. Court will be formally opened and Judge Woodruff will take the oath of office. No other business is in sight, and court will probably adjourn after Judge Woodruff has officially been made a member of the bench. He will then have an opportunity to meet in an informal way the judges and attorneys with whom he will have to do business hereafter.

Judge Woodruff is a good-looking man of athletic build and appears as if he might be able to cope with a good deal of hard work. He will have a good deal to cope with, too, for the calendar for the new term, which opens Monday, is a long one and contains a number of important cases which are to be tried. Judge Woodruff will undoubtedly find his work here much different from what he has been accustomed to, but he looks as if he would be able to handle it satisfactorily.

The arrival of the new judge will greatly lessen the burden which for so long has rested upon the shoulders of Judge Dole. The latter has for the past three months been resting up, handling no large cases, and leaving a good deal of work for his new associate to start in on. Judge Woodruff expresses himself as eager to get to work. Yesterday afternoon he occupied the bench with Judge Dole in the habeas corpus case of the three Chinese boys and apparently took a good deal of interest in the matter.

A MISSING NOBLEMAN WANTED IN HONOLULU

SAN FRANCISCO, July 29.—The whereabouts of Lord Basil Brooke, a young Irish nobleman, is exciting the anxiety of friends in three different parts of the globe. Communications received by the St. Francis hotel indicate that his relatives are very much alarmed about the sudden disappearance of the lord. Every effort to find him yesterday in this city, where he stopped for four days, was without result.

Under the name of Harold Morgan, which he assumed to avoid the notoriety which sometimes waits on men with a title, Lord Brooke registered at the St. Francis May 12. He brought only hand baggage with him, which, on his leaving the hotel on May 15, he carried personally, so there is no record of his destination. He did not even leave a forwarding mail address.

The St. Francis hotel management were advised of the young lord's disappearance yesterday, when a letter was received from Hobart Seymour, a connection of the family, who has been awaiting Brooke in Honolulu. The letter reads:

Honolulu, July 9.
Dear Sir: Can you advise me as to the whereabouts of Lord Basil Brooke, who registered at your hotel on May 12? The last letter to his family in Ireland was under the date of May 14, from your hotel, in which he mentioned the fact that he might sail for Honolulu the next day. Was there such a steamer leaving? His lordship sometimes went under the name of Harold Morgan and under such name he may have registered. The reason therefore was that he hated notoriety and that he disliked giving his title in a foreign country. He is a young man of about 24½ years old, six feet tall and light. I, myself, arrived here the other day and received word from his family with whom I have connections, to look for his lordship, as he is badly needed at home. Yours very truly,
HOBART SEYMOUR,
Young hotel, Honolulu.

Sir Basil Stanlake Brooke owns about 28,000 acres. His home is in Colebrook, Wiltshire, Ireland. He is the fifth baronet of the name.

BOARD WILL BEAR ALL EXPENSE

Terms for Bringing First Party of Russians Are Settled.

Fifty families, not to exceed 250 persons in all, will comprise the first party of Russian immigrants to be brought here by the Board of Immigration. At Tuesday afternoon's meeting of the board, this was decided upon, and a special committee of two was appointed to draft an agreement with A. W. Perelstrous who will undertake to secure the immigrants.

A. L. C. Atkinson and E. H. Wodehouse, the members of the special committee, yesterday morning sent cablegrams to the headquarters offices of the Pacific Mail Steamship Company and the Toyo Kisen Kaisha, asking what rates would be made on a party of 250 persons. Answers to the cables are expected today. On their receipt, a special meeting of the Board of Immigration will be called and the form of agreement will be submitted for approval.

Should the agreement prove satisfactory to the board, and also to Perelstrous, it will be duly signed and the way will be clear for the departure of Perelstrous by the next steamer for the Orient.

The board has changed its mind regarding the arrangement to be made with Perelstrous, and will take up the first offer made by the contractor. Under this arrangement the board will pay the fares of the immigrants, and will pay Perelstrous a lump sum large enough to cover his expenses, per diem charges and commission. A careful tab will be kept on all expenses, that the board may know just what it costs per capita to land the Russians here. It is expected that the cost per capita for the initial experiment will be considerably heavier than will be the case later on, should the Russians be brought here in larger numbers.

MONTREAL WOULD LIKE THE MAYOR'S COMPANY

"His Worship" Joseph J. Fern has been invited to attend the thirteenth annual convention of the League of American Municipalities at Montreal. The invitation, which arrived yesterday morning by the Mongolia, was addressed to His Worship, Joseph J. Fern, Mayor of Honolulu, and reads as follows:

"The City of Montreal, pursuant to a resolution passed by its City Council, most cordially and earnestly invites you to be present at the thirteenth annual convention of the League of American municipalities to be held at The Windsor, Montreal, August 25, 26, and 27, 1909.

"Very respectfully yours,
"LOUIS FAYETTE, Mayor.
"L. O. David, City Clerk."

BAIL MONEY SEEMS TO BE RUNNING LOW

It is evident that bail money for arrested strikers is running low. It took several days and a lot of running around before the \$200 bond for Fushino, one of the Waipahu false imprisonment men, could be fixed up. Finally, yesterday afternoon, two Japanese second-hand dealers and one bicycle man appeared before Judge De Bolt and satisfied him that among them they had wordly goods enough to satisfy the bond should Fushino skip out. So Fushino is once more out of jail.

ALOHA WILL COME HERE.

The schooner Aloha, which arrived on the Sound Sunday from San Francisco, will come to Tacoma shortly to load a cargo of lumber for Honolulu. She is expected to begin loading July 20 at the Tacoma mill—Tacoma Ledger, July 20.

CAPTAIN JOHNSON'S VACATION.

According to the Coast papers Captain Peter Johnson of the steamship Hilohian will lay off for two voyages, the Hilohian being under the command of Captain Frederickson meanwhile.

ORDINANCES ON THIRD READING

Supervisors Clear Up Mass of Routine Business at Meeting.

Five of the new ordinances necessitated by reason of the Legislature having turned over increased responsibilities to the City and County of Honolulu, were passed on third reading by the Board of Supervisors last night. The ordinances are: Ordinance No. 7, regulating the sale of vegetables, meat, fowl and fish; Ordinance No. 9, regulating the care of the indigent sick and providing for the appointment of a county physician; Ordinance No. 10, providing for certificates as to cause of death from the county physician, and Ordinance No. 14, regulating the erection and maintenance of tenement houses.

Ordinance No. 13, regulating the delivery of milk, was referred back to the committee on health and sanitation, it being considered wise to make some minor changes before the final reading.

A letter from Captain A. T. Marix, U. S. M. C., quartermaster at Camp Verry, asking that two electric lights be placed on Ala Moana road for the convenience of marines going to and from camp after nightfall, brought up some little discussion. The request was referred to the committee on electric lights, and Supervisor Quinn took occasion to call attention to the request of S. M. Damon that four lights be placed near the entrance to his Moanalu estate.

Quinn expressed the belief that the request should be granted, as Mr. Damon had already done a great many things for the city, and he thought it only right that when he saw fit to ask for something he should get it. Quinn also thought that the request of Captain Marix should be granted, in that the marines are a distinct asset to the community.

Should Wait Turn.

Aylett, as a member of the committee on electric lights, objected to granting the requests off-hand. He thought that the applications should be acted on in the order in which they are received, and that both Damon and the marine people should be required to wait their turn.

Quinn demurred at this reasoning, insisting that lights should be placed where they are most needed, without regard to the order in which the applications are received.

DIPLOMAT ROASTS THE PACIFIC MAIL LINE

SAN FRANCISCO, July 19.—W. W. Rockhill, for a long time United States minister to China and recently appointed ambassador to the court of the Czar at St. Petersburg, arrived here yesterday from the Orient on his way to his new post. He and Mrs. Rockhill were passengers on the Japanese liner Tenyo Maru, and the treatment they received on board the ship of the alien flag formed the text of Ambassador Rockhill's observations to the press. For a diplomat he spoke with exceeding plainness.

"If the Pacific Mail Company loses its trans-Pacific passenger trade," he said, "it will have only itself to blame. On this ship we have experienced nothing but the greatest freedom and the most courteous hospitality. If the Japanese put on a third ship like this I do not see how they can fail to get the bulk of the passenger traffic. The discourtesy of Pacific Mail officials is a byword in the Orient, and I know from personal experience how uncomfortable the innumerable and unreasonable restrictions imposed upon passengers make a voyage on a Pacific Mail liner. Complaints of the company's discourtesy are on the lips of all travelers. I am not referring, understand, to the officers of the ships. They, I believe, are ashamed of the orders they are compelled to carry out. The blame lies, I am told, with a man at this end of the line. I forgot his initials, but his name is Schwerin."

Here are some of the regulations imposed by Schwerin upon his passengers:

Passengers may not take their own steamer chairs, but if they don't care to cross the Pacific leaning against a stanchion, must rent one from the company. The chairs are all the same shape. The passengers are not. No exception is made in favor of cripples, invalids or old folks.

Passengers will not be served with meals in their rooms except upon a certificate signed by the ship's surgeon and O. K'd by the chief steward, who is too busy around meal time to do any clerical work.

Passengers wanting wine or beer with their meals must submit a statement to the chief steward at least an hour before mealtime.

Drinks will not be served to passengers in their rooms or on deck.

Lights go out at 11 o'clock sharp. Passengers may not take fruit to their staterooms.

BLOODY HAND OF RED REVOLT HOLDS SPAIN IN REIGN OF TERROR

President Pulliam of National League Attempts Suicide---Jeffries Posts Forfeit---Thaw Makes Good Showing---Flight Delayed.

(Associated Press Cablegrams.)

MADRID, July 29.—Spain is seething with revolt. The government has ordered the governors of provinces to crush the insurrection at any cost and without pity. Artillery will be used to demolish barricades.

JEFFRIES POSTS FORFEIT WHICH JOHNSON WILL COVER

NEW YORK, July 28.—Jim Jeffries has posted \$5000 forfeit to fight Jack Johnson.

CHICAGO, July 29.—Johnson will cover Jeffries' forfeit.

CHICAGO, July 19.—Jack Johnson, heavyweight champion of the world, after acting as umpire at a ball game here yesterday, sparred three brief rounds on the ball field with his sparring partner.

That Johnson was not in condition to meet anybody outside of a lightweight for some time to come was apparent, and that he will never clash with Jeffries was volunteered by himself.

"The \$1000 I offered to bet some time ago that Jeffries never would post a forfeit to meet me or anybody else in the ring goes," said the champion between puffs after the diamond battle around the home plate, where the "fight" was staged. "Jeffries never had the slightest intention of covering my \$10,000 and he never will. He is through."

"The fact that I was to meet Jeffries yesterday was simply a press agent yarn. I never promised anybody I would be there. Neither was I hurt in an automobile accident at Cedar Lake, but I am through with that burg."

Johnson said he would start for Detroit today in his automobile and try to make the trip in fifteen hours. He claimed there was \$1000 up on the result.

It was also made known yesterday that Jack had not had a glove on since he was in New York and that his training at Cedar Lake consisted in steering his automobile around the Cobe Cup course.

LEAGUE PRESIDENT PUTS OUT BOTH HIS EYES

NEW YORK, July 29.—Harry Pulliam, president of the National Baseball League, attempted to commit suicide by shooting yesterday. He destroyed the sight of both eyes and will probably die.

THAW ON THE STAND

WHITE PLAINS, New York, July 28.—Harry K. Thaw today took the witness stand to testify in his own behalf in the hearing as to his sanity, and the showing he made was such as to please his friends.

WATER SURVEY TO COMMENCE

Hydrographers Have Arrived.
and Are Ready for
Work.

The long talked of hydrographic survey of Hawaii is about to begin. Mr. O. Leighton, division chief of the Geological Survey, and W. C. Mendenhall, head of the division of Ground Waters, arrived on the Mongolia yesterday and are already busy with Superintendent of Public Works Campbell mapping out their campaign. Mr. Leighton expects to remain in the islands about six weeks. Mr. Mendenhall will remain some time longer. The former, as Marston Campbell puts it, will look after the waters above ground and the latter after those under ground.

Both gentlemen stated yesterday afternoon that their plans were not yet outlined, but they expected to be able to make a statement as to what they are going to do by the end of the present week. But it is evident that they expect to do some hard out-of-door work, for they were busy at the time ordering khaki suits, leggings, campaign hats, blankets, ponchos and other equipment for roughing it.

The survey that they will make will be chiefly a general one, to be followed up later on by a detailed survey. The latter will be made by local men, who will follow out the instructions to be laid down by the experts.

The general idea of the work is to obtain a comprehensive notion of the waters, both above and below ground, on all the Islands of the Territory, together with information as to how the waters can be best used and conserved. The work will not improbably result, sooner or later, in an extension to Hawaii of the Reclamation Service which has already accomplished so much in the arid and semi-arid regions of the States.

Mr. Leighton is accompanied by Mrs. Leighton, who will visit in Honolulu while the hydrographic expert is looking into the matters which bring him to Hawaii.

WANTS TO KNOW HOW TO PRONOUNCE HAWAII

Editor Advertiser: I should like to know if there is any authoritative or accepted pronunciation of the name of the Territory—Hawaii. All our young Hawaiian representatives at the Exposition pronounce the "W" in the word as though it were "V". Most of the haole contingent on the contrary make the "W" a "V". As I remember, a number of kamaaina residents, of education, who were born or raised in the Islands, and understand the Hawaiian language perfectly, have taken issue with this pronunciation. We find it difficult to get the average mainlanders to pronounce the word Hawaii, anywhere near right. It is generally "Hay-way-yah," "Ha-wah-yah," or something worse. When we come to correcting this kind of thing we get into trouble through our own variations in the pronunciation.

Perhaps you might give us some light on the matter, or would care to submit it to your readers for an open discussion.

RAIN DELAYS INITIAL OF HEAVY OIL ON STREETS

But for the unexpected rainstorm, Road Supervisor Wilson would have begun putting the heavy asphalt oil on the city streets yesterday. Wilson had it all arranged to make the initial tests and had his "cooking" plant all heated up to load the oil into the tank wagons. He will now have to wait until the streets dry out sufficiently to take the oil in good shape. He hopes to make the first trial before the end of the week.

JAPAN IS NOT FAVORING STRIKE

(Continued From Page One.)

given by Prof. Denning that the Japanese Foreign Office knew that he was coming to Honolulu to assist as Japanese expert, in the prosecution of Makino, Negoro and their crowd. The only possible inference, therefore, is that the Japanese government has taken the measure of the Higher Wage crowd in Hawaii and is willing and anxious to have them suppressed, even to the extent of loaning to the prosecution a professor from one of the big government colleges.

When court convened at 8:30 yesterday morning, Prof. Denning again took the stand for the purpose of identifying his translation of the letters found in Makino Higginbotham's safe. These letters, which have been admitted in evidence, contain the usual vicious attacks upon Sheba and the other "sycophants" who refused to truckle to the Higginbotham gang. They were evidently intended for publication in the Jiji but had not been printed.

When Lightfoot took the witness for cross-examination, he made a vigorous effort to induce Prof. Denning to state that some of the words translated as meaning get rid of, destroy and other things indicating bodily harm might not necessarily have the significance of anything as strong as those expressions. But the attorney made little headway along this line. Prof. Denning was evidently jealous of his interpretations and showed himself to be a very thorough student of the Japanese language and a careful translator. Lightfoot played a long time on the indecent word so often appearing in the Jiji and translated by Prof. Denning, for the sake of decency, as "sycophant." He tried to get the witness to admit that the word might, through use, have come to have a less objectionable meaning, but Prof. Denning emphatically denied that such is the case. But, he said, a great many of the Japanese are accustomed to read indecent literature and might not think much of the use of the word, though its meaning is unmistakable.

The word "hikokomin" had been translated as meaning traitor. Lightfoot tried to break the witness down on this interpretation, but did not succeed at all. The word, said Prof. Denning, has come into general use in Japan since the war with Russia, and is one of the strongest words that can be found in the Japanese language. It always means a man who has become a traitor to his country. This word has been used by the Jiji time and again in mentioning Editor Sheba.

The exact meaning and shades of meaning of the word "taizi," translated by the expert as "get rid of," caused a long fight between the witness and counsel for the defense, and before the controversy ended Prof. Denning had the floor beside him piled with Japanese dictionaries from which he had endeavored to prove that his translation is the correct one. The expert sturdily maintained that his rendition was correct.

A wordy war took place between opposing counsel over Lightfoot's efforts to make the witness give the translation of words without reference to the context. This Prof. Denning absolutely refused to do, and he maintained his position with all the zeal of the school man whose accuracy has been assailed. Attorney Kinney came to the rescue of his witness, and his objections to Lightfoot's manner of cross-examination were upheld by the Judge.

Another word frequently appearing in the Jiji where reference is made to Sheba, the Hawaii Shinpo and to those who had failed to side with the strikers, is "bokumetsu." This Prof. Denning had translated as meaning "destroy." All the efforts of the defense to get him to modify his translation resulted in failure. The professor stuck to his guns, and when he was finally excused and allowed to leave the stand his evidence stood practically as he gave it on direct examination. The defense had failed to score a single point.

One other witness was examined during the morning, Mr. Onodera, editor of the Japanese Daily Chronicle, who was questioned by the prosecution as to what took place at the Anis Lan theater on the night of January 15, when the Higher Wage drama was produced. His testimony was along the same lines as that given the previous day by Terada. He said one of the characters in the play, Fusi, represented Editor Sheba, and that his appearance and the words put into his mouth by the playwright greatly excited the audience, who yelled to "fix" him.

The witness was still on the stand, the prosecution having just finished his direct examination, when court adjourned for the day, to meet again at 8:30 this morning.

If Russian immigration is to be kept up, it must be ascertained that the people can be brought here economically, and the board believes that it can get a better line on the cost by paying all expenses and allowing Perelstous a certain commission for his work.

Only field hands will be brought, it being the intention of the board to secure immigrants who understand agriculture thoroughly, and thus can be taken as a fair sample of what may be expected of colonists from the land of the Czar.

When the men arrive they will be placed on plantations where they can be carefully watched. Not only a man's ability to work will be taken into consideration, but also his willingness to stay at work.

Careful tab will be kept on the daily output of each man, and also on the number of days in a month that he works. The showing, from month to month, will be taken into consideration when deciding whether or not it may be wise to bring in Russians on a larger scale.

BARNEY WANTS TO THRILL US

"Demon" Oldfield Wishes to Give an Exhibition in Honolulu.

Barney Oldfield, the demon among auto racers, whose wonderful exploits behind the wheel of the fastest racing machines in the world, have made him famous as one of the nerviest men of the day, wants to come to Honolulu to give an exhibition next January. His manager, Walter Hempel, writing from Detroit, under date of July 16, to Secretary Wood of the Promotion Committee, says:

"Can you suggest any means for Oldfield and one other driver to give a race meet (track) at Honolulu in January? Both cars and drivers can beat 55 seconds a mile, on a mile track. We could also furnish other racing cars and drivers."

Here's a chance for auto seorchers to see just what can be done in a race against time. Outside of any pleasures on the subject of seorching, however, Oldfield's proposition indicates that Honolulu's roads and the good automobile have come to the notice of

BROKE A RECORD.

SAN FRANCISCO, July 19.—P. Donovan, the sensational Irish athlete, is credited with breaking a world's record in the 56 pound weight for height at the games of the original Gaelic dancing club, held at Shell Mound park yesterday. Donovan tossed the ball over a bar 15 feet 3 7-16 inches from the ground, beating the former record by half an inch. The other competitors in this event, with the exception of Ralph Rose, dropped out at an early stage, and Rose was defeated when he failed at the 14 feet 1 inch mark. The weight used will be officially weighed tonight at the Olympic club rooms, and if found correct Donovan will stand forth as a world's champion. The unattached Irishman also won first prize in the 56 pound weight for distance.

"KID" TERRY WANTS TO SCRAP SARCONI

"Kid" Terry, the nimble youth of the U. S. S. Iroquois, who has a reputation with the mits, is anxious for a go with Bugler Sarconi of the Marine Corps, the crack light fighter who knocked out Nigel Jackson at the Orpheum. The "Kid" says he can go in at 125 pounds and will take on Sarconi at that weight. "I can put it over him," said the "Kid" last night. Lets have a try boys.

ALCOHOL IS A PRESERVATIVE.

Alcohol is recognized the world over as the proper, most efficient and wholesome preserver of medicinal compounds, and while some journalists try to alarm the world by the cry that patent "medicines contain more alcohol than beer," they neglect to state that proprietary medicines are taken in doses from a teaspoonful to a tablespoonful, while beer is a beverage that is consumed in quantities from a glass to several quarts a day.

Lynn E. Pinkham's Vegetable Compound contains only 18% alcohol, simply enough to preserve the roots and herbs from which it is made, and may be relied upon by every woman in the land as a reliable, honest and sure remedy for the ills peculiar to her sex.

The safest and best way to send a small amount of money to the mainland is to send a money order from the Bank of Hawaii, Ltd. These can be secured for any amount up to \$100.

COAST TEAM HERE AGAIN

Hildebrand Wants to Take a Nine Over to Far East.

Baseball cruises from the mainland to Honolulu and the Orient have become popular since Mique Fisher's effort of last season, for, according to the San Francisco Bulletin, not less than three prominent men in baseballdom on the coast are planning to take a team over to the Far East. The San Francisco Bulletin of June 29 has the following:

At this time there are three different parties figuring on taking baseball clubs to the Orient this winter. Mike Fisher and Jess Woods must have started something. So successful was the first tour of Japan, China, Philippines and Hawaii that others want to follow in the same footsteps. Already the Pacific Mail has received calls from ambitious baseball promoters looking for rates. "We will give them a reasonable rate if they want to take clubs over," said one of the officials of the steamship company yesterday. "We treated Fisher and Woods pretty decently and we will do as well by others. As a matter of fact, we hope more clubs do go out to the Orient. They advertise our boats, our country, and help things generally."

George Hildebrand, who traveled with Fisher and Woods last winter, is associated with one of the parties looking for rates. As he won't play any baseball this season, Hildebrand has time to give to such a venture, and as he has been over the ground he would be a valuable man to any party promoting such a trip. Of course, Hildebrand would have charge of the players and look after the playing end of the trip, should go through. He would attempt to pick as strong a club as he could find. The clubs should sail as early as possible so as to reach Japan before the cold weather sets in. Mike Fisher sailed from here on election day (November 3), which was fully two weeks too late. If Fisher should go out again with a club he would start about October 1. Then he would encounter warmer weather in Japan and China. As the winters of the Philippines and Hawaii are almost as hot as the summers, it matters less what time the clubs strike there. Fisher and Woods have not thought of retracing their steps this year, but they have a trip to Australia under consideration. Baseball is played quite extensively in the Antipodes, and a tour of that faraway country with a first-class baseball club, such as they would take, might be a big paying proposition.

WIFE OBJECTS TO BEING SUPPLANTED

Lizzie K. Kamela has brought suit for divorce from her husband, John Kamela, who, she asserts, is in the habit of treating her with extreme cruelty. He is addicted to the pleasant habit of beating, choking and kicking her. But, worse than that, he appeared at their home one day with another woman named Napua, and announced that she was his new wife. The real wife, naturally incensed at such a statement, ordered the two out of the house, whereat the husband threw her on the floor and beat her.

The libellant asks the court to order her husband to pay the costs of the action, her attorney's fee, and \$40 a month alimony.

PARANOIAC DOCTOR SAVES ALL RIGHTS

In the Atcherley case a stipulation has been filed that any appeal which Dr. Atcherley may make to the Lunacy Commission from the judgment of the District Magistrate shall not act as a waiver of any rights he may have to appeal to the Circuit Court for a jury trial.

The whole matter, as stated yesterday, has been passed up to the Supreme Court by Judge Robinson. He reserves the matter in the form of two questions, which he asks the upper court to answer. They are as follows: "First. Has the Circuit Court power and is it its duty to set down for trial before a jury the matters and things at issue upon said appeal from said decision, judgment and order of commitment of said District Magistrate?" "Second. Has the Circuit Court jurisdiction, under the law, of an appeal from a decision, judgment and order of commitment made by a District Magistrate, finding a person to be insane, that the public safety requires his restraint and committing him to the Insane Asylum at Honolulu, City and County of Honolulu, Territory of Hawaii, until such person becomes sane or is discharged according to law?"

SECOND JUDGE HAS ARRIVED

(Continued from Page One.)

He was in San Francisco only two days before taking the Mongolia for Honolulu, but the two days were busy ones for him. Many of the prominent business men knew him, and the fact that, in his capacity as legal adviser of the Department of the Interior, he has had to handle the legal phases of the Hetch-Hetchy grant by which San Francisco is to get her new water supply, was of importance to make him a man of importance in the Bay city. A banquet was tendered him, of which the San Francisco Chronicle says: "United States Judge George W. Woodruff, recently appointed and as-

signed to the Circuit Court at Honolulu, was the guest of honor at a dinner given him at the St. Francis Hotel last evening by the Board of Supervisors. The affair was of a dual character. It was complimentary to him in recognition of his fight for the people of this city on the Hetch-Hetchy proposition while he was Assistant Attorney General, assigned to the Department of the Interior, and also in the nature of a farewell dinner. Judge Woodruff sails for his new post the latter part of this week.

"The committee in charge introduced a new feature. There were no speeches, other than the impromptu one by the principal guest himself. In his short speech Judge Woodruff briefly sketched his identification with the Hetch-Hetchy fight, of former Secretary Hitchcock's opposition to the proposition and of the favorable attitude of his successor, Secretary Garfield, terminating with the prophecy that if the people of this city relentlessly keep up the fight they will secure from Congress the same right to the use of their waters for municipal purposes as Los Angeles.

"Those present were Supervisors Bancroft, Booth, Center, Behan, Jennings, Murphy, McLean, Hoek, Murdoch, Sanderson and Johnston; City Engineer Mason, City Attorney Long, ex-Judge Lindley, Dr. Giannini, James D. Phelan, Warren Olney Jr., Elmer Smith, M. Casey and J. K. Moffett.

PLEADED GUILTY, BUT APPEALED THEIR CASES

Doi, Amasi, Kimori, Fukui and Tamura, the five Waimanalo Japanese who were arrested for their participation in the trouble which took place there some time ago, at the time Sheriff Jarrett was surrounded in the plantation house, and who pleaded guilty in police court to the charge of assault and battery, have notwithstanding that plea, filed an appeal to the Circuit Court. Doi was sentenced by Judge Andrade to six months in jail and each of the others to five months.

A LOOK AHEAD.

Now that the plans to import large numbers of Filipinos to labor on Oahu plantations are working out and there is good reason to expect an influx of Europeans also, the tendency of the strikers to migrate to the other islands is one which, from many points of view, may be looked on complacently. If they go—indeed, if the great majority of the Japanese field hands should go with them, leaving their places to be filled with competent laborers of other races—the advantages might atone for all the trouble caused by the strike.

The reasons are both economic and military. In the first place if the Japanese here should move over to Kauai, Maui and Hawaii, most of the Oriental stores which live on their trade and compete with white merchants, would follow them or close. Filipinos and Europeans, especially the latter, would swell the white Honolulu retail trade far beyond its present limits, and what is more, these people would spend a much larger percentage of their earnings than the Japanese do. Nothing, or practically nothing, in the way of cash, would be sent back to the old home. The wage-money would stay here, keeping business good and the market easy.

From a defensive point of view Hawaii has but one nation to fear; and that nation has thousands of loyal men living within the growing circle of Oahu's defenses. If "the great power in the offing," should ever make trouble for America, our Japanese population on Oahu would put the garrison at an enormous disadvantage, if only for the food it would consume. If the danger grew worse, instead of presenting a compact front to the enemy, at least half the white and native arms-bearing population of the island would have to be detailed to watch the enemy's sympathizers within our gates; while, on the other hand, European, native and Filipino labor contingents would be of inestimable value, not merely as military recruits, but as producers of food products. The one class, in the event of a war, would do no work for the garrison and would be a menace to the internal peace; while the other would help the regular forces to stand off a siege of whatever duration.

It is not insupportable that, in the event of trouble looming up with Japan, the Federal government would require the general transfer of resident Japanese to the outlying parts of the Territory. There is no purpose to defend the other islands, because, without protected harbors and depots, they would be of no particular use to an enemy. What happier strategic circumstance could occur, in advance of all this, than for the Japanese field hands to accomplish such a transfer for themselves, leaving vacancies which a labor population loyal to the United States or, at least, in no sense hostile to it, would fill?

Oahu is to be a Malta, a great military district. Its chief importance to the United States will be construed as that of a defensive outpost for the Pacific Coast. As time goes on vital changes will occur and it does not seem possible that the Federal power will suffer Oahu, in the matter of population, to give any kind of aid or comfort to an enemy, real or potential. The part of wisdom is to prepare for the new conditions, and if things are already shaping themselves that way so much the better, in the long run, for American interests.

It would be interesting to learn how many articles derived from the growths of tropical soil, which the United States now imports, could be produced here. "Chicle," an ingredient of chewing gum, comes from Southern Mexico, and of this exudation of the sapodilla plant tree the United States has taken, during the last decade, over eight million dollars' worth. As the moist, warm climate of Southern Mexico and that of certain parts of Hawaii are much alike, it is possible that the plant tree could be made a useful asset here. "Dragon's blood," a sort of resin from trees in Sumatra, is a possibility with us, though not much of a one owing to the small importation. It is used in varnishes, stains and dentifrices. Nux Vomica is a product of Southern Asia, a valuable medicinal seed, of which the American market takes three million pounds a year. Hawaii might be able to produce it.

The view that Japan was ready to seize these islands in 1893 strikes us as extreme. Hawaii was then considered within the sphere of American influence and the United States government had shown itself ready, on occasion, to assert its rights here as paramount to those of any other foreign power. Furthermore, a treaty guaranteeing the autonomy of Hawaii was then in force between England and France. It is not reasonable to suppose, in the face of all this, that Japan meditated overt acts, but she undoubtedly meant to protect her interests and those of her subjects here, hence the sending of the Naniwa and later the Takachiho to Honolulu. That her statesmen did not like the revolutionary movement is clear enough, but that did not, in our opinion, imply a purpose to interfere.

Conditions in Spain must be dangerous, indeed, if the whole country has gone under martial law. In Barcelona, a revolutionary center, troubles which began as a protest against the campaign in Africa, have taken wider scope and are believed to be now directed against the tenure of the government. Whether the Carlists are figuring in the matter is doubtful, despite the presence of Don Jaime on the frontier. A more probable explanation is that the republicans, whose immense electoral successes last spring gave them their first consciousness of strength, are lashing themselves into a revolutionary mood. If that is the case, the monarchy will need have a care for the morrow.

One of the most remarkable of periodic comets is the one known to astronomers as Halley's, it having the distinction of being the first of these strange objects whose return was predicted. Edmond Halley, an English astronomer, closely observed the comet of 1682 and, examining the records of past observations, calculated that it was the one seen several times before. He predicted its return within seventy-five or seventy-six years. The latter date was correct, as the comet reappeared in 1758. It entered the human plane of vision again in 1834, and is scheduled for next year. The splendor of this comet's appearance is a matter of history.

Who knows but that, in ten years' time, as many men will own aeroplanes in Honolulu as now own automobiles; and that, at lunch and dinner time, the air will hum with the flight of aerial craft to villas in mountains which are now practically inaccessible? Who knows but there will be lodging airships in which uneasy sleepers may ascend far above mosquitoes and the sound of autos and milk carts and spend the nights breathing good, cold air and slumbering soundly in the silence of the upper deep? Nothing of the sort is impossible now that the principle governing airships has been discovered and applied.

In the present financial exigency, any public crusade against mosquitoes can hardly be looked for, but the way is always open for the individual citizen to set a good example. The improvement clubs, by getting every householder in their districts to destroy any breeding places for mosquitoes he may find on his own premises, could help a great deal. The destruction of tin cans, the ciling of cesspools, and even of water used in the tins that kitchen table legs sometimes stand in, are things that help; and all are in reach of the average resident. At present the government can do little; but always the householders can do much.

Judge Woodruff has heard from a part of the press and learns that he is expected to do something to overcome the "oligarchy," whatever that may be. As the Judge has a reputation for common sense, he will go on holding court as the first Judge does without reference to politics or factions and with the purpose of rendering just decisions in cases that come before him. That is what he is here for, and any suggestion that he has come to represent the President on any special mission of reform must strike him, as it does everybody else, as street-curbs twaddle.

A hotel for bachelors has been long in coming, but is now on the way. Eleven years ago ex-Senator Clark, who became briefly interested in Honolulu, wanted to build such a place at the corner of Beretania and Fort streets, but something happened to prevent. The Pleasanton experiment, judging from the list of applicants for rooms in the annex, shows that Mr. Clark was right in his belief that a demand existed here for a bachelors' hotel and suggests that a downtown experiment on these lines would also be worth while.

Cohen's vaudeville seems to be boycott-proof.

ORDINANCES ON THIRD READING

(Continued from Page One.)

Applications are placed on file. The discussion closed with the intimation that the lamps are to be installed at once. Bids for material and supplies for the coming month were read and a motion passed awarding the contracts to the lowest bidders for the different items.

Several tenders for supplying new desks for some of the public schools were opened. Supervisor Logan moved that they all be referred to the ways and means committee, there being some doubt concerning the amount of money that would be available for their purchase.

Waikane Bridge Completed.

County Engineer Gere reported that work on the Waikane bridge was completed Tuesday, and that his men could turn their attention elsewhere. He also reported that the school work is nearing completion. He expressed the belief that \$1700 will cover the cost of the schoolhouse renovation work, exclusive of the plumbing. He said that he was not able to hazard a guess as to the cost of that.

"I believe that we should devote the rest of the money on hand to the schools in the outside districts," said Gere in conclusion. "The schools at Aiea, Pearl City and Waiialua particularly require attention."

Quinn brought up the question of city printing. He said that the Bulletin had complained that it was not getting its full share.

Bulletin Gets Full Share.

County Clerk Kalanokalani explained that it has been his practice, pursuant of instructions from the Board of Supervisors, to hand ordinances and such printing out to the papers in succession. He did not believe that the Bulletin had gotten any the worst of it, and he showed his books to prove that some of the longest ordinances have been published in the evening paper.

"I can not pass out part of an ordinance to one paper and a part to another," said Kalanokalani. "I can not tell what ordinance the Supervisors are going to pass. All that I can do is to hand the ordinances out in turn, and let all of the papers take their chances. I have not heard any complaint from the Advertiser or from the Star when they have gotten the short ones. If the Supervisors are not satisfied with the way that I have been doing things, they can take the work upon themselves. In that case I shall consider myself relieved from all responsibility."

Quinn hastened to explain that he was not finding fault and that he simply wanted to know how the matter is handled. He expressed entire confidence in the way the County Clerk has been transacting the business.

The appropriation for the maintenance of the Hawaiian band was, for the first time, pro-rated as follows:

One soloist and assistant bandmaster, \$85; one first-class musician, \$70; three first-class members at \$65; eight second-class members at \$55; ten third-class members at \$50; five fourth-class members at \$30; one vocalist at \$50; one bandmaster at \$185; total \$1675.

Health Officers.

The health committee presented demands for the salaries of the new officers, appointed in accordance with the act of the last Legislature, as follows: City and County Physician, \$150; Milk Inspector, \$100; Meat Inspector, \$150; Fish Inspector, \$85; Building and Plumbing Inspector, \$175; Sanitary Inspectors, \$170; Morgue Attendant, \$85. Dr. Mackall, County Physician, reported that of the patients who were at the Queen's Hospital on July 1 at the County's expense, but eight now remain. When these have been discharged he believes that the expense for the care of the indigent sick will be greatly reduced and can be kept down.

At the transport dock the troopship Buford is receiving a cargo of quartermaster and commissary supplies and will leave on July 26th for Seattle, where she will take aboard the Twelfth Infantry for the Philippines. The Buford will also take cold storage supplies at the northern port. The troopship Sheridan, which arrived Thursday from Manila, will go to Hunter's point drydock today. She makes the August trip to the Philippines, leaving here on August 5th.—Chronicle.

WATER FRONT NEWS

On or about August 20 the big American-Hawaiian freighter *Arizona* will arrive here from Norfolk with 10,000 long tons of coal for the naval station, equal in bulk to about 11,200 tons of sugar. The orders sending the *Arizona* direct to Honolulu came to the captain while his vessel was negotiating the Straits of Magellan. After the vessel left Norfolk the orders to the Pacific fleet to cruise to Asiatic waters were issued. The *Arizona*'s coal was originally intended for Mare Island, but as the fleet of at least eight vessels and auxiliaries, would need coal at Honolulu, the Navy Department desired the cargo delivered here.

As to the fleet, it is quite likely that the cruiser *St. Louis*, now in the South Seas and due to arrive here the middle of August, may be held here and ordered attached to Admiral Seabee's command.

INCREASE IN COLLECTIONS

Receipts of the Internal Re-
venue Office Mount
Up.

Walter F. Drake, Collector of Internal
Revenue for the District of Hawa-
ii, has just finished making up his
report to the Commissioner of Internal
Revenue, and the figures show some in-
teresting facts.

During the fiscal year ended June
30, 1909, the total collections amounted
to \$79,107.99, as against \$47,129.75 for
the preceding fiscal year, an increase
for this year over last of \$31,978.24.

Of the total amount collected, \$37,
369.53 is for withdrawals of distilled
spirits from the bonded warehouse, and
\$4,018.35 for withdrawals of ferment-
ed liquor, beer, ale, etc.

Fines, penalties, compromises, etc.,
yielded \$5,308.97; cigars and cigarettes
\$36.09; tobacco and snuff \$2,243.64;
playing cards \$792, and special taxes
\$19,140.31.

The last item, special taxes, repre-
sents the Internal revenue license fees
for the sale of liquor in the Territory.
The wholesale license is \$100 and the
retail license is \$25, so it is evident
that there are very many more Federal
liquor licenses issued in the Territory
than Territorial licenses.

Much of the increase in the total
amount collected is due to the greater
amounts collected for the withdrawal of
distilled spirits and fermented liquors
from the warehouses. Collector Drake
explains that many of the merchants
are now paying the tax here instead of
its being paid in the States. This is
because there is now greater warehouse
accommodation than used to be the case
and the liquor can be held here in the
warehouse instead of the dealers having
to hold it themselves. There is also
an increase over last year of about
\$2000 in fines, penalties and compro-
mises collected, which means increased
activity and vigilance on the part of
the local Internal Revenue office.

Collector Drake gets some reward for
his good work, the increase in the
amount collected having the effect of
automatically increasing his salary.
And that won't displease anybody who
knows the Collector.

The total disbursements for the ear,
including salaries and incidental ex-
penses, amounted to \$13,450.82, which
subtracted from the total collections,
leaves the department \$65,657.17 ahead.

THE BRIGHT SIDE

of life. It is a feeling common
to the majority of us that we
do not get quite the amount of
happiness we are entitled to.
Among the countless things
which tend to make us more or
less miserable ill health takes
the first place. No doubt a
crippled liver with the result-
ing impure blood, is the cause of
more mental gloom than any
other single thing. And who
can reckon up the fearful aggre-
gate of pain, loss and fear ar-
ising from the many diseases
which are familiar to mankind;
like a vast cloud it hangs over
a multitude no one can number.
You can see these people every-
where. For their life can scarce-
ly be said to have any "bright
side" at all. Hence the eager-
ness with which they search for
relief and cure. Remedies like
WAMPOLE'S PREPARATION
have not attained their high po-
sition in the confidence of the
people by bald assertions and
boasting advertisements. They
are obliged to win it by doing
actually what is claimed for them.
That this remedy deserves its
reputation is conceded. It is
palatable as honey and contains
all the curative properties of
pure Cod Liver Oil, combined
with the Compound Syrup of
Hypophosphites and the Extracts
of Malt and Wild Cherry. No-
thing has such a record of suc-
cess in Scrofula, Influenza,
Throat and Lung Troubles, and
emaciating complaints and dis-
orders that tend to undermine
the foundations of strength and
vigour. Its use helps to show
life's brighter side. Professor
Reddy, of Canada, says: "I have
much pleasure in stating that I
have used it in cases of debility
and found it to be a very val-
uable remedy as well as pleasing

AMUSEMENTS

Orpheum's Good Show.

That the people have been waiting
for what Manager Cohen brought to the
Orpheum is evident from the crowded
houses that greet the performers. Last
night was the last at which Buffalo Bill
will be seen, and there will be no weeps
shed on that account for it was the only
number on the program that did not
appeal to the audiences. There is room
for a cut in that respect, for the people
would rather hear good songs or see the
girls do a step or two than watch a
couple of characters get down on their
knees in response to the demands of a
melodramatic actor. As a whole, how-
ever, the company is good, and causes
lots of laughter for the audience. It
is a show in which much is given for
a little admittance fee and the patrons
are satisfied in consequence. The mo-
tion pictures are good, the absence of
waits between stunts and pictures being
refreshing. Twenty-five cents buys the
best seat in the house, and you may
have it reserved a week ahead of time,
or you can drop in and take a chance
for ten cents and not be disappointed.

STANDS BY JURY TRIALS.

Kaneohe, July 28 1909.
Editor Advertiser: In reply to "The
Bystander" in last Sunday's issue I
would say that when you have a bad
case, abuse your opponent. This he
did not do, but simply tried to draw
the Public's attention away from what
I was standing for by trying to belit-
tle me because of the ancient lineage
of my family a fact of which I have
all the documents to prove. He agrees
the "Cobbs" fight well but that is
not enough, as they fight "fair" (this
is learnt on the playgrounds of all En-
glish Public Schools) (boarding), sign-
ing their names to everything they
write and not hiding under a nom de
plume.

But, Mr. Editor, would it not be
advisable to pause and consider that
if Hawaii ever expects to be given
Statehood, it is not time for the Press
in Hawaii to stop advocating such
fallacies as abolition of Trial by Jury.
Yes, it is honary with age and
each year becomes older and will con-
tinue so to the end. But there are
some in this world who forget what
they owe to their forefathers as in
these strenuous times of getting the
almighty dollar, they are ready, in or-
der to get a few more dollars, to throw
away the precious jewels that form
the "Crown of Anglo-Saxon liberty,"
wrong form the English Kings by our
Sires.

The labor question I have nothing

to say about, feeling sure the Planters
can handle this without outside inter-
ference. The pros. & cons. as to where
the blame lies go back to over two
and a half decades ago, and the writer
does not consider it his business when
so many abler men with more time at
their disposal should shoulder this bur-
den. My theme is Trial by Jury or
by Judges. Which?
HENRY COBB-ADAMS.

The suit of Dr. Herbert against Mr.
and Mrs. I. R. Burns has been satis-
factorily settled out of court, a com-
promise having been reached during
the week.

THE BRIGHT SIDE

of life. It is a feeling common
to the majority of us that we
do not get quite the amount of
happiness we are entitled to.
Among the countless things
which tend to make us more or
less miserable ill health takes
the first place. No doubt a
crippled liver with the result-
ing impure blood, is the cause of
more mental gloom than any
other single thing. And who
can reckon up the fearful aggre-
gate of pain, loss and fear ar-
ising from the many diseases
which are familiar to mankind;
like a vast cloud it hangs over
a multitude no one can number.
You can see these people every-
where. For their life can scarce-
ly be said to have any "bright
side" at all. Hence the eager-
ness with which they search for
relief and cure. Remedies like
WAMPOLE'S PREPARATION
have not attained their high po-
sition in the confidence of the
people by bald assertions and
boasting advertisements. They
are obliged to win it by doing
actually what is claimed for them.
That this remedy deserves its
reputation is conceded. It is
palatable as honey and contains
all the curative properties of
pure Cod Liver Oil, combined
with the Compound Syrup of
Hypophosphites and the Extracts
of Malt and Wild Cherry. No-
thing has such a record of suc-
cess in Scrofula, Influenza,
Throat and Lung Troubles, and
emaciating complaints and dis-
orders that tend to undermine
the foundations of strength and
vigour. Its use helps to show
life's brighter side. Professor
Reddy, of Canada, says: "I have
much pleasure in stating that I
have used it in cases of debility
and found it to be a very val-
uable remedy as well as pleasing
to take." You cannot be disap-
pointed in it. Sold by chemists.

No. 857 Kaahumanu St.

45 Minutes

From Honolulu to a Lovely
Place on Kaneohe Bay

On Saturday, August 7, 1909, at
12 O'CLOCK NOON, AT MY SALES-
ROOM, 857 KAAHUMANU ST.,
HONOLULU.

I will sell at public auction a deligh-
tful property at Kaneohe Bay, adjoin-
ing the landing.

This property contains 2 99-100 acres,
of which 80-100 acre is fee simple, and
2 19-100 acres under lease.

This leasehold embraces also 61-100
acre bordering on the stream.

The lease expires January 23, 1911,
and is at the rate of \$44 per year.

This property is situated in the main
government road, is quite elevated and
commands a lovely view of the Pali
and the sea.

The situation is near the landing,
where the steamer J. A. Cummins
makes regular trips.

Fine bathing, boating and fishing
within a few yards of the property. A
lovely site for a seaside residence.

Call at my office for further particu-
lars.

JAS. F. MORGAN.

AUCTIONEER.

At Auction

A beautiful home. The house is in
good repair, almost as good as new,
and well built. The grounds are large,
100x250, and are covered with all kinds
of fruit trees, which are bearing fruit.
It is situated in the best residence
section of Honolulu, 1508 Keeaumoku
street. House contains four bedrooms,
parlor, diningroom, bath, kitchen, pan-
try and lanai; hot and cold water, gas
and electric light. Servants' quarters
are very large, good stable, a modern
chicken house and pigeon loft. The
owner is going to leave town, so will
sell this beautiful place, including
chickens and pigeons (about 200) at
auction upset price of \$6000, on Sat-
urday, the 31st of July, 1909, at 12
o'clock, at the auction rooms of
JAS. F. MORGAN.

857 Kaahumanu St.

There is also adjoining this property
a large lot, well improved with trees
and flowers, which will be sold at the
same time. This lot can be nicely di-
vided; it is 106x100. Upset price will
be \$1800. Mrs. H. C. Pflieger, the
owner, will be pleased to show you
this property, or call at my office for
further information.

in the Punahou District are offered for
sale at a bargain.

The grounds are well planted with
fruit and shade trees.

An artesian well with windmills and
13,000 gallons of tankage render you
proof against any government water
meters.

A roomy, convenient dwelling house
with 4 bedrooms, parlors, lanais, bed-
rooms, baths, etc., give you all com-
forts possible.

If the property is too large for you,
there is plenty that can be sold and
leave you the dwelling house and some
grand trees, and the splendid water
system.

Talk business and I will show you
the property and give you a price that
will induce you to buy.

NEW DRY GOODS STORE.

K. L. Wong, formerly a student at
the Honolulu High School, and subse-
quently with May & Co., Ltd., will open
a store in the Robinson block, Hotel
street, in the place formerly occupied
by Fukaroda, on Saturday next. He
will carry a complete line of ladies' dry
goods and "cents" furnishings, import-
ing direct from New York. The estab-
lishment will be fitted up in a modern
style and the ladies of Honolulu and
the Islands are cordially invited to call
and inspect the stock. The prices will
be within reach of everybody, and trade
is solicited from all classes.

LOCAL BREVITIES.

A cablegram received yesterday by
Dr. C. B. Cooper announced that Mrs.
Cooper was starting home from Lon-
don.

The Supervisors may find it neces-
sary to readvertise for tenders for the
burying of the indigent dead. It has
been discovered that Williams' bid of
\$8.50 did not include the digging of the
grave.

Lieutenant Houston, U.S.N., light-
house inspector, has appointed James
Keanu as keeper of the Makaulua
point light on Molokai. Keanu has
been lighthouse tender at Kalaupapa,
Molokai.

Alice T. Larsen has filed suit for di-
vorce from her husband, William Lar-
sen, alleging that, although they were
married less than a year ago, he has
failed utterly for the past seven
months to support her.

Willie Crowell, a 13-year-old Portu-
guese boy, was run over by a hack
on Merchant street yesterday morning.
He was not seriously injured and after
Dr. Brinkerhoff had examined his
injuries he was sent home.

Manager C. L. Wight of the Gas
Company, has offered to equip the
schools of the city with gas appliances
for instruction in cooking, free of
charge. The only charge to the county
will be for the gas consumed.

John Rodriguez, who was found guilty
by Judge Andrade on Tuesday of
having stabbed Antonio Freitas with a
pocket knife because Freitas had won
his lady-love away from him, has ap-
pealed his case to the Circuit Court.

Manager Balch states that by Wed-
nesday the old wireless station at Bar-
ber's Point will be discontinued and
all wireless business transacted through
the Kahuku station. The present land
telegraph line of Kahuku is working
well and a 'phone attachment will soon
be installed with it.

Undertakers M. E. Silva and Henry
H. Williams are indulging in recrimina-
tions at the expense of each other.
Each accuses the other of unfair con-
duct and Williams is alleged to have
used some very uncomplimentary lan-
guage concerning Silva. Both men are
applicants for the contract for burying
the indigent dead.

Judge Charles B. Elliott, a through
passenger on the Mongolia yesterday,
is on his way to Manila to take his
position as associate justice on the Su-
preme Bench of the islands. Judge El-
liott was formerly Associate Justice of
the Minnesota Supreme Bench. He
called on Governor Peary yesterday,
and was introduced around by Treasur-
er Conkling.

Superintendent Campbell has received
a letter from Arthur Hooker, Sec-
retary of the Board of Control, con-
firming Mr. Hooker's cablegram in
which he stated that Ralph Hosmer, of
the Department of Agriculture and For-
estry, had been given a place on the
program at the National Irrigation Con-
gress at Spokane as the representative
of Hawaii. Mr. Hooker expressed his
appreciation of Hawaii's interest in
the Congress.

Dr. Thos. C. Green, the lecturer who
made several addresses in Honolulu,
writes from Los Angeles that he and
Mrs. Green arrived there safely and
that his wife will remain at the Holly-
wood Hotel while he goes east to ful-
fill his engagements. He states that
in every lecture he will tell of the
hospitality and "the charming courtesy
of the people of Honolulu." He and
Mrs. Green send greetings to all their
friends and both look forward to com-
ing again to the "blessed islands."

A young man named Drossner drop-
ped off the Tenyo Maru last fall and
during his one day in port managed to
flim-flam several Honoluluans mainly
through his pretensions to acquaint-
ance with missionary friends in the
Orient. He was caught at his game
and notified to leave town on the Tenyo
which he did. Later he was caught up
by the police in Salt Lake for work-
ing the same game and now he has
turned up again in his home town—San
Francisco—doing the same old tricks.
He has been arrested in Santa Rosa,
accused of passing fictitious checks. The
call tells of his escapades along the
financial route and refers to his brief
experience in Honolulu.

ployment at the French Laundry.

THE PLEASANTON.

The Pleasanton Hotel, at the corner
of Punahou and Wilder avenue, offers
unusual attractions to tourists in its
large reception and living rooms, mos-
quito-proof bedrooms, private baths and
lounging quarters. The grounds are
tropical and planted with beautiful
shade trees and exotic plants. A large
swimming pool is one of the features of
the Pleasanton. It is within fifteen
minutes ride of the postoffice and
banks by electric tram and twenty
minutes of Waikiki, a ten-minute ser-
vice being maintained by the Rapid
Transit Co. The locality of the hotel is
the best in the city, and is at all times
cool, being in the path of the trade
winds which come down Maunaloa valley.

TWELVE CHINESE BOYS ORDERED DEPORTED

The writ of habeas corpus in the
case of the three Chinese boys whose
attorney, W. W. Thayer, was trying to
prevent their deportation to their na-
tive land, was dismissed yesterday af-
ternoon by Judge Dole after he had
listened to the evidence in the case.
The contention of the petitioner was
that the boys had not had a fair trial
before the Immigration Commissioners,
but the judge concluded from the evi-
dence given that they had nothing to
complain of and that the immigration
authorities were right in refusing them
a landing.

It was claimed by the petitioner,
Kem Yan Tim, that the three boys
were born in Honolulu but had been
living in China for some years. They
arrived here recently and were refused
a landing by the immigration authori-
ties, who did not believe the story of
their being Hawaiian born.

Immediately upon the order of the
judge being given, dismissing the writ
of habeas corpus, R. L. Halsey and Dis-
trict Attorney Breckons called up the
immigration station and ordered the
three boys, Hoo Chan, Hoo Dang and
Hoo Sang, rushed down to the Mon-
golia and shipped to China on her. Their
stay in America was very brief.

THE WHY AND THE WHEREFORE

There's really no secret in our method of disposing of a stock of clothing that brings envious eyes in this direction. We know where to buy, and how. Kerr's clothing styles and prices are becoming the talk of clubdom and men admire the suits as they never did before.

THE ALAMEDA

brought to us another shipment of lightweight suits and single pieces. They are positively new in style and superior to anything shown in the Territory. London has been drawn upon for style and the great mills of England produced the cloth. There is quality and class, here, nothing shoddy, nothing that savors of ready-made garments in the sense in which they are often mentioned. You can bank on quality and be assured of being properly dressed wherever you go if you wear our suits.

We show genuine London finish Panama Hats this week at \$7.50, \$9.50, \$10.00 and \$12.00. Reduced from \$10.00, \$12.50, \$14.00 and \$16.00.

A line of neckwear embracing all fashionable shapes and shades came to us on the Alameda, Friday : : :

ARMY AND NAVY NEWS

The Army board, recently appointed for the purpose, has decided upon the site for the new Army post in Hawaii. It is at Leilehua, which is to be in the vicinity of the present cavalry cantonment, known as Schofield Barracks. The delay in definitely locating the site for the permanent post largely depended upon the question of an adequate water supply. The source of such a supply was located in the Koolan range, and it then became a question of where the post should be located with reference to the best fall for this water. This was believed to be in the vicinity of the Waiaina road at a considerable distance away from the cantonment. It is this site which has been decided upon, and now only the details need be worked out. The buildings will be of reinforced concrete, as the quartermaster general has found, after making extensive investigations, that it is the most economical. The climate at the new post is ideal for this purpose.—Army and Navy Register.

Mrs. Winnia Ill.

Mrs. Winnia, wife of Lieut. Winnia, Fifth Cavalry, Schofield Barracks, underwent an operation at the Queen's Hospital a few days ago, and is reported to be recovering satisfactorily.

Chaplain Chase to Depart.

Monsignor Chase, chaplain at Schofield Barracks, has been detached from the Fifth Cavalry and ordered to duty with the Fourteenth Cavalry. He will exchange posts with Chaplain Joyce, who is on duty with the Fourteenth Cavalry. Chaplain Joyce will remain on duty with the Fourteenth until that regiment reaches Honolulu en route to a new station, when he and Monsignor Chase will exchange posts. The latter will continue with the Fourteenth to the Philippines.

Colonel Schuyler Gets Leave.

Orders came yesterday from General Weston, commanding the Department of California, giving Colonel Schuyler of the Fifth Cavalry leave of absence. The Colonel will go to the mainland.

Lieut. Moses Ordered Away.

Lieut. Moses, U. S. M. C., adjutant of the marine battalion at Camp Verry, received orders by cable yesterday detaching him from Camp Verry and assigning him to the marine guard aboard the cruiser Pennsylvania. He will leave on the steamship Siberia for San Francisco. No appointment of adjutant will be made until his departure. Captain Robards, now on duty at Norfolk, is believed to have been ordered to Honolulu to replace Captain Snyder, ordered elsewhere. So far Camp Verry has lost four of its officers and has had two new officers. Lieut. Burchfield arrived last week from the coast.

Lieut. Clarence Lyman.

Lieut. Clarence Lyman, Fourth Cavalry, the first of the Lyman trio to graduate from West Point, has been ordered to take a special course at the Mounted Service School, Fort Riley, from October 1 to December 24.

Local Marine Garrison.

The marine garrison at the naval station at Pearl Harbor, Hawaii, will be made one of considerable importance. It is intended to have a permanent station with barracks sufficient to accommodate 300 men. Congress has appropriated money for this purpose, which is now available, and the work at that point during the present year will consist of the construction of one marine barracks, at a cost of \$135,000, and the completion of six officers' quarters. The Marine Corps owns about 100 acres of land at Pearl Harbor, and, in case of necessity, could, at the present time, put a force of 12,000 men under canvas at that point without crowding them. The improvements contemplated at the present time are based on accommodating, in case of necessity, a force of 1500 men.—Army and Navy Register.

Select Site for Post.

WASHINGTON, July 17.—Leilehua has been selected as a site for the new army post which the war department is to erect in Hawaii. It is in the vicinity of present cavalry cantonment known as Schofield barracks. The army also proposes to construct a three regiment garrison on post at Biliran islands, department of the Visayas, in the Philippines, if Congress appropriates \$782,000 for the purpose.

General Murray's Inspection.

SAN FRANCISCO, July 20.—Brigadier-General Arthur Murray, chief of Coast Artillery, arrived yesterday morning on the Hawaiian from Honolulu. He will remain in this vicinity about a week, during which time he will inspect the coast defenses about San Francisco.

He is on a return trip, having visited and inspected the coast defenses surrounding Manila, going from there to Honolulu, where he examined the fortifications, and will pass upon their needs.

General Murray said yesterday: "It is my duty to inspect and take note of the fortifications and land available for such, belonging to the United States; I left New York last February on the 17th, going by the way of Suez to the Philippines. All the defenses of the islands were given my attention, after which I passed on to the Hawaiian Territory, where the same routine was gone through."

Coming to Honolulu.

SAN FRANCISCO, July 20.—An interesting engagement of the week was that of Miss Henrietta Walker, daughter of Mrs. Etta B. Walker of Los

Angeles, and Lieutenant John S. Williams of the Coast Artillery, stationed at the Presidio. The marriage will take place in August, and the young couple will go to Honolulu, where Lieutenant Williams is to be stationed.

Lieutenant Eugene B. Walker, the brother of the bride-elect and Mrs. Walker, the sister of Lieutenant Williams, who were married last week, will return from their honeymoon trip in a day or two, and will be at the Presidio until their departure for the Philippines.

Mrs. J. B. Pourie, the wife of Captain Pourie, U. S. A., who is leaving early in August, is the incentive for many of the informal affairs of the month and will be the complimented guest at a luncheon to be given by Mrs. Shelby of New York, who will entertain at the St. Francis for the guest of honor. Captain Pourie has just been detailed to a station in Honolulu and Mrs. Pourie will sail for the islands next month.

Osburn and Evans Reprimanded.

VALLEJO, July 19.—Lieutenant F. W. Osburn is to be reprimanded by his superior officers at Mare Island for his Christmas day kissing of Mrs. Evans, wife of Lieutenant-Commander Holden A. Evans, and Evans is to be reprimanded for giving his domestic troubles such wide publicity. That advice reached the Mare Island navy yard today from the Secretary of the Navy, who has just communicated his findings on the court of inquiry called to consider the osculatory episode.

The court of inquiry was called to consider Lieutenant Osburn's conduct. If the Secretary of the Navy had thought the excessive gallantry of Osburn was dangerous to the good of the service the ardent young officer would have had to face a court martial.

But in the opinion of the head of the department Osburn deserves only a censure, and the husband is to receive the same punishment for making such a stir over the kiss. The Secretary of the Navy dealt gently with Mrs. Evans.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

VIGOROUS OLD AGE

Even ruddy-cheeked youth is not more beautiful than the mature vigor of healthy old age. This, however, is not seen so often as it should be, partly because many persons mistakenly suppose that weakness and ill-health are inseparable from ripe maturity of years.

Yet in the majority of cases enfeebled old persons require nothing but the simple, natural treatment afforded by

Stearns' Wine of Cod Liver Extract

which acts by increasing the appetite, aiding digestion and putting more iron into the blood. It has neither the taste nor smell of cod liver oil, but is as pleasant to the taste as a superior table wine. It is as valuable to old persons as to young ones and many of its most remarkable effects have been achieved with the aged. Get it at your chemist's and be sure you get STEARNS'—the genuine.

BOSTON FORGER MAY BE HERE

Police Asked to Watch Out for a Man Alleged to Have Raised Check.

George C. Drouin, thirty-six years old, five feet eight and one-half inches in height, 134 pounds in weight, medium dark complexion, maroon eyes, blond hair and mustache, is supposed to be in this city. Drouin is wanted by the Boston police for forgery and uttering a forged check.

Drouin is nearsighted, wears spectacles, has a nervous twitching of the face, and walks with a peculiar quick step. When last seen he was smooth shaven, but it is thought possible that he may now be wearing a beard, as formerly he wore a Van Dyke. The man was employed as bookkeeper in the Hotel Bellevue at Boston. On June 26 he was given a check for \$26 which he is alleged to have raised to \$2600 and deposited in a bank. A few days later he drew \$1500 and skipped.

The last seen of Drouin he was in British Columbia; since then he has dropped out of sight. It is believed that he came here, and Sheriff Jarrett has been asked to keep watch for him.

Leal's Museum.

Chief of Detectives Joe Leal will soon have a pretty complete museum of crime utensils if he carries out his present intention. Leal has a fine collection of revolvers, knives, skeleton keys, blackjacks, jimmies, and porch-climbers equipment, and he is thinking of placing them about the walls of his office as curios. Among the other implements of the burglar's craft is the complete kit of housebreaking tools belonging to Ah Kong, the Chinese second story man who is now doing time on the reef for burglary. The collection of knives is well calculated to send a shiver down the sturdiest spine.

Ardent Wooing.

Mercene Rodriguez took it into his head that he wanted to marry an aged Hawaiian woman, and when the object of his affections would have nothing to do with him, he proceeded to carve her up with a knife. The law quickly took a hand in his little game and yesterday morning he found himself facing Judge Andrade on a serious charge.

After hearing all of the evidence in the case, Andrade concluded that about thirty days in jail might cool Rodriguez' matrimonial ardor, and ordered accordingly. Rodriguez will spend the next month in the County bastille wondering why he was ever so foolish as to fall in love.

Couple in Trouble.

Mrs. Turu Kondo and Kong Yun were taken into custody yesterday afternoon on a charge of violating the Edmunds Act. The police had been keeping a close watch on the woman, and when she entered Kong Yun's store, they descended upon the pair. The husband of Mrs. Turu, who is a respectable Japanese, said that he had no sympathy with his wife's alleged wayward tendencies, and did not show any immediate desire to help her out of her difficulties.

OVER THIRTY-FIVE YEARS.

In 1872 there was a great deal of diarrhoea, dysentery and infantile cholera. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-six years maintained that record. Nine Chemists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. For sale by all dealers. HOTEL FAIRMONT, SAN FRANCISCO.

Three years ago, when the fire was raging at its worst, the sight of the classic outlines of the Fairmont Hotel, standing out white against the black clouds of smoke, lent hope to the anxious thousands. When the flames swirled fiercely about it, to many it seemed that the last hope was gone. At that time the Fairmont Hotel was just about to open. Three years of time, and more than three millions of dollars had been spent in the construction of the building and the furnishings of its interior. How well the building was constructed is evidenced by the fact that it came out of the stress and trial of both fire and its accompaniments without a single injury other than the complete destruction of everything inflammable to be found inside of its walls.

After the reaction of the first month had passed, work was immediately commenced to rebuild and refurnish the entire building, at a cost of over two million dollars, the work of reconstruction went on. Over a million dollars was spent in interior finishings and furniture, and the magnificent appointments of the house as it stands today speak well for the care and taste used in the selection. The formal opening of the hotel to the public took place on the 18th of April, 1907, just one year after the catastrophe, at which time the Chamber of Commerce gave a banquet in celebration of the event. On the 21st of April, 1907, the doors were thrown open to the public with a splendid reception, to which nearly all San Francisco came.

The hotel was not fully complete at that time. Some of the rooms on the upper floors were not ready, but when the Palace Hotel Company, which formerly operated the old Palace Hotel on Market street, took hold, determined to push things through, the work went on with amazing rapidity. Today, more than any other building in San Francisco, the Fairmont stands a monument to the energy and determination of her citizens.

A Wonderful Hotel. In it San Franciscans have a hotel of which they can justly be proud, as in the matter of location, it stands absolutely unsurpassed in the world. In the matter of appointments, service, and exclusive features which make hotel life pleasant, it is without peer. The Fairmont Hotel today has capacity for

taking care of one thousand guests. Its entertainment features are so numerous and so varied that, as has happened many times, as many as six different gatherings, including banquets, balls and public meetings, can be held under its roof at the same time, and under such favorable conditions that one assembly scarcely realizes there is any other in the house.

Marvelous Outlook.

The view from the Fairmont is such as to make the most blasé and experienced globe-trotter stand in wonder and amazement. From its windows (for every room in this magnificent hostelry is an outside room) can be seen the superb panorama of the Golden Gate, the Bay of San Francisco, crowded with ships from all parts of the world, the mountains and hills of Contra Costa County on the other side of the bay, with Mt. Diablo 30 miles to the south-east, and Mt. St. Helena over a hundred miles to the northeast breaking the sky-line. In the immediate foreground of the hotel lies the busy city, in which new steel sky-scrapers are rising in place of the old style business houses which were destroyed.

In the Center of the City. Chinatown, almost entirely rebuilt in a new and better way, is but a few minutes' walk from the door of the hotel. By means of the various street car lines which pass its doors all parts of the city, the ferries and railroad stations, the banks and exchanges, retail business and theater centers, as well as the residence portions of the city can be easily reached.

Unique Among the World's Hotels. The Fairmont Hotel differs from almost any similar institution in the number of unique features which it offers for the entertainment of its guests.

Because of these, it is easily the social center of San Francisco; you might say, of the State. Just as the old Palace Hotel, which is now being rebuilt on a new and greater scale at the old site on Market street, was one of the most famous hosteleries of the world, and entertained guests of all nations, so the Fairmont, under the same management, which so adequately took care of the affairs of the Palace, is most cosmopolitan, and in its halls will be found the experienced travelers from every country of the world.

Unequaled Entertainment Features.

The ball room of the Fairmont Hotel is one of the most beautiful, as well as one of the largest, in existence. It has one of the few spring floors to be found in the country, making dancing peculiarly delightful. It is decorated in white and gold, with hangings of blue satin tapestry. Its walls are covered with mirrors, between which are decorations by the most famous mural artists of the world. And the ball-room is not merely an ornament. San Franciscans are a very sociable people, and the records of the ball-room show that it is occupied an average of three times a week during the social season. Behind it is the famous red banquet room, which has, perhaps, held more distinguished company than any other room of its kind west of Chicago. On the floor below is the magnificent Norman Cafe banquet room, a hall of superb proportions and simple grandeur. It is the best illustration of a hall of the Norman period. Even the tessellated floor is made of special design, a characteristic of the Norman times. From the lofty ceiling hang chandeliers of quaint design, made of hand-wrought iron in Paris especially for this room. The long French windows, which cover the entire north side of the Norman Cafe, open on the terrace, a broad, flagged promenade, which overlooks the Bay of San Francisco and the city. Upon special occasions of large entertainment, the terrace is canvassed in, making another hall, almost as large as the Norman Cafe itself. On warm days the terrace presents an animated scene, reminding one largely of Paris or the embankment in London. Here parties of convivial spirits gather around the tables where lunch is served in the open air, overlooking the most beautiful panorama of mountain and sea.

Numerous Dining Places.

Another thing for which the Fairmont Hotel is noted is the number and variety of its different dining places. In them one may find a place to dine as suits his convenience. The Laurel Court, which is immediately behind the lobby, offers a convenient grill for ladies and gentlemen. Further on is the main dining salon, with accommodations for three hundred people. This room is done in white and gold with silken tapestries. From its windows,

as one dines, he may look out over the bay and the shipping. Then there is the beautiful grey breakfast room, which is particularly well adapted for private dinners, luncheons and banquets. In other parts of the same floor are found the special tea and card rooms set aside for the use of guests who wish to entertain in a less formal way. Then there are private dining rooms, where organizations may meet around a friendly board. On floor A is found the crypt, one of the most unique cafes in existence. It is in the corner of Mason and Sacramento and is extremely popular with the business men of San Francisco. It offers a comfortable grill and bar for men, where special attention is paid to the cooking of steaks and chops and old country dishes. The service here is swift and efficient, and it is immensely popular as a luncheon place for business men.

Epitome of Hotel Excellence.

The Fairmont, as it stands today, is the epitome of hotel excellence. The vast experience which the Palace Hotel Company had in the celebrated Palace Hotel has been utilized in this house. To Colonel John C. Kirkpatrick, General Manager of the Palace Hotel Company, was given the task of instilling into a brand new house the spirit of hospitality which made the old Palace Hotel celebrated in two hemispheres. How well he has succeeded in doing this is evident the moment one enters the doors of the Fairmont. For the Palace Hotel spirit of hospitality enfolds one like a garment, making his visit one of delight, his leave-taking one of regret, and his memory of the time so spent one of great pleasure.

Only hotel in the world in which every room has a bath.

The Fairmont Hotel offers to the traveler all the conveniences and luxuries known to the best modern hotel, together with many exclusive features, some of which we have spoken of above. Every room in the entire hotel has a bath attached. For \$2.50 one may thus enjoy a pleasant room, beautifully furnished in mahogany, with a dainty white-tiled bath; or, for as low as ten dollars, a suite of rooms. Visitors to San Francisco may rest assured that at the Fairmont Hotel they will find only the best of accommodations and service.
