PROTEST AGAINST THE TARIFF LAW.

Legal Measur s to be Taken to Enforce the Bounty Act - Millions Involved-Beet Sugar Factories in Nebraska Threatened With Utter Annihilation.

SAN FRANCISCO, August 31.-The passage of the tariff bill promises to interfere considerably with the production of beet sugar in California. On last Tuesday word was received from the Secretary of the Treasury by Internal Revenue Collector Welburn to recall the inspectors stationed at the various beet sugar manufactories. This means that the bounty of 2 cents a pound on beet sugar has ceased, as the Wilson bill intended that it should, but the manufacturers of beetsugar do not propose to surrender without a fight, and the United States will find itself with a big legal fight on its hands, or Congress will be asked to remunerate the sugar men for the money the latter will lose by the operation of the Wilson law. There are six beet sugar manufactories in the United States-one in Lehigh, Utah, one in Norfolk, one in Grand Island, Neb., and three in California. The three companies in this State have engaged legal advice, and Col-lector Welburn, yesterday, received three protests against the removal of

the inspectors.

The three companies in California are the Western Sugar Refluery, of which J. D. Spreckels and brother are at the head; the Alameda Sugar Com-pany, of which John L. Howard is president, and the Chino Valley Beet-Sugar Company, which is controlled by the Oxnard Brothers. Between the three companies there is invested over \$2,000,000. The Alameda company is the only one of the trio which turns out refined sugar, the other companies shipping their raw sugar to this city to be refined. The bounty on refined sugar was 2 cents a pound, and on the raw material, over 80 and under 90 per

cent. 11 cents a pound.

It was stated yesterday by several sugar men that the protest was merely the commencement of proceedings against the Government, and that it neant much to California, Collector Welburn said that his action in the matter would end with the forwarding of the protest of the sugar men to

the Commissioner of Internal Revenue to the civilized world for the fun of "The sugar men," said the Collector, the Government which is binding on the latter, and it does seem that they had some foundation to their case. Licenses have been issued by the Government for them to operate for a year, and they are just about to start in grinding beets. On the other hand it is maintained that the action of Congress annulled such a contract. sued the licenses as they were called for, because at the time the bounty law was still in force."

John D. Spreckels, who is at the head of the Western Sugar Refinery, said that the Government must be held responsible for its acts just as a private individual. "The law was passed in 1890," he said, "encouraging the production of beet sugar by giving a bounty of 2 per cent a pound on the output. This was a garantee the business, putting up an expensive plant at Watsonville. In addition to this we had to run a railroad from January. Watsonville to Salinas. We have in vested altogether naarly \$1,000,000, and have only been in operation three years. As early as last February we had to make our contracts with the farmers for beets, knowing nothing of the coming legislation Last year our output was 7770 tons, and this year we expect to produce between 11,000 and 12,000 tons. We are licensed to produce beet sugar at 2 cents a pound duty, yet the Government steps in now and says that we are not to re-ceive that bounty, and it has removed its inspectors, who were to keep track of the output. Our first step is to try and have those inspectors returned. "If this is not done we will take legal proceedings. Just how the lat-ter will be conducted we do not exactly know. We may be allowed to

necessary to enact special legislation in Congress." Another beet-sugar man said that the passage of the Wilson bill tended to destroy one of the greatest grow-ing industries of California. "If they had done as they started to do at first," said he, "that is, to remove the bounty by degrees, one-quarter of a cent a year for eight years, there would have been no complaint. At the end of eight years the entire bounty would have been done away with. At the end of that time, too, the manufacture of best sugar would be flourishing as one of the greatest industries of the State. We will go right on with the work, however, for industries of the State. our contracts for beets have all been made, and the grinding is now about to commence. We think that the passage of the bounty law is as binding on the United States as any contract which

Direct Effect of the Tariff.

OMAHA (Neb.), Aug. 30.—The beet sugar industry of Nebraska, in which several million dollars have been invested and numerous big factories built, is threatened with extermination by the new tariff law. This is the declaration of James Hamilton, Secretary of the Oxnard Company, which has several factories here. He returned from New York today.

He takes a gloomy outlook for the beet sugar industry, and believes that unless the policy of the Government is very materially changed, the Nebraska factories will be compelled to go out of existence in another year.

"Under the new tariff bill ressed at

"Under the new tariff bill, passed at "Under the new tariff bill, passed at the dictation of the sugar trust," said Mr. Hamilton, "we are practically ruined in Nebraska. We started out five years ago with the intention of building ten sugar factories in Ne-braska and California, We have built three, and instead of build-ing more may be compelled to abaning more may be compelled to abandon those in operation at Chino, Grand Island and Norfolk.

"Under the operation of the Mc-Kinley tariff law our factories were slowly but surely gaining the confi-dence of the farmers of Nebraska. We were paying \$5 per ton for beets, and at this figure the farmers were raising beets at a liberal profit. They were beginning to become enthusias-

tic over beet culture.
"As a proof of this assertion I have only to cite the fact that the first year we commenced operations at Norfolk the farmers raised but 300 acres of beets. Last year they raised 900 acres, while this year they have 4200 acres and we were compelled to close our contract books last April because more beets were likely to be raised than we could well take care of.

"Under the new tariff bill we cannot pay more than \$4 per ton for beets delivered at the factory. We make contracts during the months of Octo-ber and November. We shall send out a circular letter making a frank statement of our situation and ask the beet-raisers to sustain just one-half of that loss. In other words, in order to run the factory on the new basis we shall have to purchase beets at \$4 per ton. We are willing, however,

to divide the loss. "Nebraska is just beginning to realize the importance of the sugar industry in this State. The people around Norfolk already realize it. Last year we paid out \$5000 for wages in our fac-tory during the seventy days we were operating. We paid out \$126,000 for beets to the farmers. If we can induce the farmers to raise the beets in suffi-cient quantities at \$4 per ton to run our factories we shall continue in bus-iness until the Republican party re-turns to power. If we cannot we shall quit entirely at the close of the run in the fall of 1895."

Negro Emigration.

BIRMINGHAM (Ala.), Aug. 30.-A well-defined plan has been set on foot to send thousands of Southern negroes grounded, and were afterward severely to Africa. The International Migra-tion Society of this city, which was incorporated last February for this purpose, has closed a contract in Phil-adelphia, through its president, J. R. Mullen, for transportation of 5000 negroes to Liberia prior to November 1st, and many more later. The first cargo will be taken on at different Southern ports by steamer, which will leave Philadelphia about September 15th and touch as far south as New

Orleans. The emigration managers say that the ruler of Liberia has promised each family twenty acres and implements to till the land to encourage emigration to that country. ands of negroes have joined the emi-gration society, which is conducted on the co-operative plan, a ticket to from the Government, and under Africa being given each member when such guarantee we went ahead with \$40 has been paid in. The negroes Africa being given each member when are enthused over the scheme, and fully 10,000 expect to go to Africa by

Lynchings in the South. Boston, Aug. 30.-Fanuell Hall, the historic "Cradle of Liberty," was the scene of an assemblage of colored people last night, who, by resolutions and speeches, uttered their indignant protest against the lynching of colored people in the South. The meeting was a notable one for its enthusiasm, and particularly was this the case when William Lloyd Garrison and Dr. Miner were introduced. Resolutions were adopted asking Congress to have appointed a commission to investigate the lynchings within the past ten years.

Steerage Rates Cut.

New York, Aug. 30.-The Hamburg American line made another cut in steerage rates today, reducing the price of a steerage ticket to Southampton from \$15 to \$10.

The latter rate has prevailed on the American line for several weeks, the company having more business than it could accommodate. The American line people say the cut of the Ham-burg-American line is an advantage to them, as enabling them to dispose of their surplus passengers without

MOVING ON THE CHINESE CAPITAL.

An Equal Number of Mongolian Soldiers and Vessels Engage the Mikado's Forces - Russia to Send Two Big Ironclads to Aslatic Waters.

London, August 28,-A dispatch to the times from Shanghai, dated August 29th, says: It is reported that the Chinese forces, joined by 5,000 Koreans, have beaten back the Jap-anese army, with heavy loss, to Kal-Seng, forty miles north of Seoul. The Chinese are still advancing. They are helped everywhere by the Ko-

reans. SHANGHAI, August 28.—It is reported here that Japanese transports, encorted by war vessels, are landing troops to the northward of Taku with the intention of marching upon Pekin. Another report says the Japanese have succeeded in landing 20,000 men on the banks of the Ya-Loo-King river, separating Korea from China, and thus cut off the supplies of the

large army which the Chinese have sent down the Korean Peninsula.

Greekam Protests Against the Arrest of Americans at Elucfields-A Chance That the Corbett-Jackson Fight May Take Place After All-Adams to Come.

CHICAGO, August 30.-A Washington special to the Chicago Daily News says there is a well-founded assertion that the President said lately he would terminate the Reciprocity Treaty with Hawaii. His object is to make sugar from Hawali dutiable. The new tariff bill expressly continues the Hawallan Treaty, which, it is asserted, gives the Sugar Trust a great advantage. Under his terms the treaty may be terminated after twelve months' notice.

Admiral Walker's Report.

WASHINGTON, August 31.-Rear Admiral J. G. Walker, recently commanding the Pacific station, accompanied by Captain A. S. Barker-who was relieved several days ago of the command of the cruiser Philadelphia -reached this city this morning direet from San Francisco.

The Admiral came to the department late this afternoon and had an andience with the Secretary of the Navy. It is understood that the Admirst has already completed his report on his mission to Hawaii and will hand it to Secretary Herbert upon the latter's return from his present inspection trip along the At-

lantic Coast. It is doubtful whether this report will ever be made public for the reasons that it contains numerous references to diplomatic occurrences which, it is said, are of such a nature that they would be liable to arouse the nations to whom they refer. It is understood that the report refers to the friendly relations which exist between Great Britain and the Ha-

wallan royalists. Affairs at the islands were quiet at the time of Admiral Walker's departure. It is, I understand, however, was married at Edinburgh Wednesthat in view of this apparent feeling day, before the Sheriff, to Cissy Lotof sympathy between the royalists tus, the youthful mimic and star of and the English Government the report recommends that a United States riage is the sensation of the hour. warship to be kept at Honolulu until there can be no doubt that the new blic is able to withstand any force | pretty. that the royalists may bring against

WASHINGTON, Aug. 30.-The State Department has as yet received no communication from Minister Baker at Nicaragua about the arrest and banishment of American citizens by the Nicaraguan Government. It is claimed that British subjects as well as Americans concerned in the revolt were arrested, and that none of them have been granted a fair trial.

Hather tardily, Secretary Gresham cabled Minister Baker to demand that the Americans who had been arrested,

the Americans who had been arrested, and whose property had been seized, be released immediately.

It is said in official circles here to-day that the high-handed actions of Nicaragua in arresting American elitizens and carrying off prisoners from Bluefields to Managua without the formality of a trial is something annual and that this Governunprecedented, and that this Govern-ment will be compelled to take some vigorous action if Minister Baker's protest against these summary ar-rests and banishments is not re-

Curbett and Jackson May Fight.

New York, August 31.- Now that the Stoux City Athletic Club has come forward and posted two certified checks of \$1500 each, to be paid to Corbett and Jackson for training ex-penses, there is a strong probability of a settlement between the big fellows. There is apparently only one chance for a hitch, and that is with the cub, as the principals have declared themselves as willing to fight under the auspices of the Western club. The matter that is likely to cause a disagreement is the stipulation to the checks, to the effect that the money is payable to the club if Corbett and Jackson fail to sign articles of agreement satisfactory to its officials. This was done, however, more target the Story City men rather to protect the Stoux City men rather than to cause complication.

The World's Record Broken. FORT WAYNE (Ind.), Aug. 31 — Massot, Flying Jib and Nancy Hanks have been dethroned, and Robert J. stands today king of barness horses. The great son of Hartford, driven by Ed Geers, today made the fastest mile ever paced in harness, lowering the world's record of 2:04 to 2:03].

A Bell on Wheels.

TERRE HAUTE, IND., Aug. 23.-The Standard Wheel Company of this city has begun work on a truck on which the Columbia Liberty Bell, the duplicate of Independence Bell, made of metal composed of moneys and art treasures contributed by the educa-tional institutions of the country, will make a tour of this country and near-ly all foreign lands. The workmen at the wheel works will donate their laborer The truck is a big affair, as the bell weighs seven tons. The At least 1,000 natives perished in the flames.

The flower boats were moored stern and stern in rows and a large number of persons lived upon them. The spread of the conflagration from one boat to another was so rapid that now being made for it in St. Louis, many unfortunate Chinese had no time to cut them from their moorings, a strong wind materially helding to a strong wind marerially helping to increase the fire. Many hundred persons leaped overboard and were drowned.

Chinese Deserters.

PORT TOWNSEND, August 20.—The next steamer from the Orient takes from here three Chinese, Mock Shong, Mock Koong and Lum Bik Hop, who

ped away from the Celestial Kingdom to avoid military duty in the present war with Japan. When it became known that the deserters would be sentenced to death on their return steps were taken by several local phi-lanthropists to see if the destination could not be changed to British Colum-bia, they offering to pay \$50 a head, the tax charged across the line, if the

act could save their lives.

Today the committee in charge received the surprising information from a responsible Americanized Chinese merchant that although the men will be sentenced to death, they will not necessarily have to pay the penalty with life. For \$50 and a week's grace there are hundreds of river coolies who would gladly take their places on the executioner's block

for which she found little help. She has tried many things that promised well but performed little. Last fall a friend gave her a bottle of Hood's Sursaparilla. It seems surprising what simply one bottle could and did do for her. The attacks of heafache decreased in number and were less violent in their intensity, while her general health has been improved. Her appetite has also been better. From our emerslence with

WILL WAGE WAR IN CHINA

Celestials Plotting the Overthrow of the Emperor.

HOSTILITY TO THE TARTARS.

Organization of a Tong at Omaha Where Delegates Were Chosen for the Chicago Gathering on September 9th. When Heroic Measures will be Taken.

OMAHA (Neb.), Aug. 30 .- A local paper this afternoon prints a story that a convention of wealthy Chinese from various parts of the country was held in Omaha last night, the object of which was the overthrow of the present Chinese dynasty and practical interference in the war in which China is now involved. It recites that during the last few days it has been noticed that numerous strange Chinamen were arriving in the city, coming from Denver, Cheyenne, Sloux City, St. Paul, Minneapolis, Kansas City and other surrounding towns within a radius of two hundred miles. Yesterday afternoon Ling Gee, an intelligent fellow employed in Hong Kee's Harvey street laundry, told a reporter an important meeting would be held in the basement of Ging Loo's laundry, to be attended by all the visiting Chinamen, and a number of Omaha Chinamen would be initiated into the

mysteries of the new society.

Gee, when properly paid, took a reporter to a brilliantly lighted room, fully fifty feet square. Suspended from the ceiling and over each of the three chairs hung a sword, meaning that the person who divulged the se-erets of one of the Chinese orders would be beheaded. The reporter was secreted in a closet.

The Chinese gathered until there were fully 150 present, representing every city between the Pacific coast and Chicago, and from St. Paul on the

north to St. Louis on the South. Wo Hung stepped upon the platform and introduced Ni Pong, of San Fran-cisco, to explain the object of the meeting. Pong invited Joe Fow, of Denver, and W. Tong, of Kansas City, to the chairs on his right and left after which he said he had some left, after which he said he had come to Omaha for the purpose of establishing a branch of the Gee Hing, a so-ciety which had for its object the deposition of Toong Chee, the present Emperor of China. After organizing the branch, he said that the society would elect delegates to the Gee Hing. which is to be held in Chicago September 9th, at which time and place he said some plan would be developed.

Pong said some centuries ago the Chinese were a law-abiding, peaceful race, skilled in the arts, prosperous and happy and well supplied with the goods of this world. In 1643, he said, the Tartars better known as the Manchoos, then residing in the northern portion of Asia and forming the ex-treme northeast part of the Chinese empire, invaded the interior. After slaying thousands they marched upon Pekin, the capital of the empire, where they burned, sacked and murdered, continuing the march of devas tation until the sea was reached. Re tracing their steps the Manchoo again visited Pekin and placed Toong Chee upon the Chinese throne, but not until the end of a war which con-

tinged until 1648. Taking from his pocket a Wan Tsz Yat Po, published at Hongkong, Pong read extracts, showing that the Chinese were in sympathy with the movement to depose Emperor Toring Chee, and that for that purpose branches of the Gee Hing were being organized all over China. By way of explanation, he said that the copy of the paper, which he held in his hand, was a special edition printed for circulation in the United States. If the Chinese would come to the rescue with a contribution of not less than \$2,000,000, an army could be equipped that would free China from the grind-ing rule of the iron heel of a foreign

Pong said the meeting of the Gee Hing in Chicago next month would adopt heroic measures. He said the Manchoos, or Tartars, manifested the greatest friendship for the foreigners, while the Chinese, who were largely in the majority, were opposed to them. The foreign emigration to China, he said, if it were allowed to continue, meant the extinction of the principles for which Ming Sin Ton died more than two centuries ago

> Therefore, in any speculative ventures in matters connected with sugar, it must be kept well in mind that, whether or not the President of the United States has the sole power to terminate the Reciprocity treaty, is an uncertain matter.

If he has the power, whether he will use it or not is another question. There is strong reason for believing that he will not terminate it. This is the belief of some men in Washington, who are in a position to judge correctly in the matter. Whatever the President's disposition may be toward the Repub. lic, he is forced to keep the importance of Pearl Harbor in mind, even if he does not put the high estimate upon it which naval and army men do. The repeal of the laws providing the payment of sugar bounties, in quite incapable of discriminating States, which, in the abrogation of the States, will, it is said, destroy the sugar beet industry, now existing in about seven different places in the States, and representing several millions of dollars of cash investments. It is said that those injured by the repeal of the law will make claims against the Government for their losses. But the claims are doubtful, unless it can be shown that the Government made a lawful contract with each sugar beet grower to pay him the bounty for a number of years. No doubt the McKinley Congress tried to do so, but its success is quite doubtful. One Congress makes an industry and another Congress destroys it. For twenty years, says the Baltimore Record, the halls of Congress have been the worst gambling hell in the States. The evils of horse racing and of lottery bills are less than that of constantly upsetting the trade of Judges only who can say what the country by legislation. Tariff-After a hard struggle the bill, as passed by the Senate, became a law on the 28th inst., and the sugar money plentiful.

The abnormally low price of grain in the States, will keep the attention of farmers to the sugar beet industry, and in time it will
be made profitable, simply because
Americans have a way of getting
out of difficulties, and the making of sugar will help them out.

THE mission of the ex-Queen's friends to Washington is gradually clearing the political air. It has removed grave doubts in the minds of influential friends of the Monarchy, although it brought no settlement of any question to the Ex-Queen herself, or to the natives generally. It is now highly probable that a strong party of natives will form, and advocate general registration, in the hope of securing control of the House of Representatives. THE SUGAR MARKET.

Extracts from Williams, Dimond & Co.'s Circular.

SAN FRANCISCO, Aug. 31.-There has been a good demand in our local sugar market during the month, and jobbers have purchased freely of late in anticipation of an advance on account of tariff legislation. There have also been some speculative purchases outside of the usual trade.

Eastern and Foreign Markets-The New York market has ruled active during the month with a gradual adduring the month with a gradual advancing tendency as the end of the tariff legislation drew near, and it became more apparent that there would be a duty levied on sugars. September 4, 1894.

Since the good people of Mani have constructed a house at the summit of Haleakala there is no reason why a visit to the largest extinct crater in the world should not be included in the itinery of every personally conducted party to the islands. The great objection in the past to a journey to the summit has been the lack of accommodations for tourists; it's been a climb and do the best they could for rest. Now, however, the weary traveler will be made as comfortable in so far as sleeping accommodations go as if he was at a hotel. The men who conceived and carried out the idea of a house at the summit may be looked upon as benefactors just as we have in introducing a piece of machinery like the Aermotor that has saved so many thousand dollars to the people who are using them here on the Islands. We sold one the other day to a man who wanted to use it in place of a steam engine for cutting feed for cattle; he thought a 16-foot mill would be necessary, because it always required a 5horse power engine to do the work. We sold him a 12-foot geared mill, because we were satisfied that it would develop all the power necessary; we believe it would cut nails. The gentlemen tells us that it has proven itself a good thing far beyond his expectations. His experience is the same as a hundred or more others to whom we have sold Aermotors. It would surprise us very much to have a person tell us he is dissatisfied with his Aermotor.

Try a bath in a porcelain lined bath tub and compare it with one in an old time zinc affair. The difference is plain. One of our tubs can be kept as clean and with as much ease as a China wash bowl. The dirt which collects around the sides of a zinc tub will not stick to a porcelained one and it forever looks as new as the day it left the store. We have them in various patterns and at different prices, the smaller the tub and fewer the decorations the lower the price and the larger the tub and more elaborate the trimmings the more it costs you. It really would not make any difference if you had to pay double what we ask for them, you would not fail to be pleased with it; it's the comfort one gets out of a tub such as we sell that makes up for the difference between the price we charge and what you pay for a zinc one.

In addition to tubs we have a magnificent assortment of washstands, sinks, closets and everything needed about a bath room. If you have an idea that you want to refit your old bath room or make a new one, come to us and we will tell you to within a dollar or two what it will cost and show you pretty clearly by illustrations what the room will look like when completed. There's an advantage in baying here at home, because you see just what are you going to get and you pay no more for the article than you would by sending away for it.

Our remarks on wire have brought us good result. Some people who wanted to build six and three quarter miles of fencing and who wanted to get a serviceable article at a low price came to us for the materials for a Jones Locked. Our wire is cheaper than it can be bought elsewhere and the quality better.

The lower limbs of a native were badly burned on Saturday evening, so much so, that it was found necessary to send him to the hospital. He had been present at a luau, given in a house near the St. Louis College, and after he had filled up on gin and swipes, he went to sleep. There was a pleasant re-union of Yale men, last evening, at the residence of Chief Justice Judd, L.L.D. The following persons are graduates now resident in the islands: Hiram Bingham, '53; Prof. W. Damon, '96; C. M. Cooke, '97; C. H. Cooke, '97; A. D. Baldwin, '98.

Some thrilling accounts were given of the way in which Mr. Chief Justice Judd made things lively in their college days. The matter of forming an alumni association, or a university club, for all college men was discussed. It was believed that such organizations would encourage young men to prepare for and enter college. An Opium Seizure at Wailuku by the Police.

MANUEL ROSS ARRESTED AND FINED.

A Number of Maul Natives Appointed to Government Positions-A New Chinese School-Another Catholic Church Being Built-Other Items, etc.

MAUI, Sept. 8.—During Friday night, Sept. 31st, Port Surveyor Zumwaldt, Deputy Sheriff King and some policemen were on the watch for opium at Maalaea Bay, having received a "straight tip" from Honolulu. Upon the arrival of the Kinau they made discoveries, but no arrests, until Wailuku was reached.

Then, Manuel Ross, the well-known livery stable keeper, and Ah Yick, a hack driver, were apprehended by the officers of the law, charged with "opium in possession." Ross was subsequently released upon \$1000 bond. On Thursday, the 6th inst., he was fined by Judge Helekunihi \$150 and costs, and the case was appealed by his attorney, John Richardson.

The unfortunate part of the episode is that Ross had been recently married in Honolulu, and was bringing his bride home. Fifty-one tins were discovered in trunks belonging to Ross, and thirty tins in a box, presumably the property of the Chinaman. Yesterday, Ah Yick was aquit-ted, as the ownership of the opium schooner? Well, I think our ship ted, as the ownership of the opium was not proved.

Not only that, but Iosepa is re-commissioned Deputy Sheriff, for Haua, and William King appointed for Wai luku.

These are all native appointments. What more can these so-called friends

SMUGGLING BY A SEALER.

Carrying Opium to Hawaii as Profitable as Hunting Seals.

VICTORIA (B. C.), Aug. 31.—The owners and crew of the "sealing" schooner South Bend, which left here in April last and returned with empty batches only a few weeks since, do not appear to be particularly despondent over their hard luck. In fact, though their voyage was a fruitless one, so far as the catch goes, the men seem supplied with money and can afford to indulge in the luxuries of life even more freely than fortunate sealers are wont to. It was after a few days of such indulgence that one of the crew yesterday

supplied the context.

"We go sealing and come back without a skin," he said, "but we are not losers, for we know a better trick. Of course, we clear for the Japan coast on a hunting and fishing cruise. That is part of the game. But the only coast we saw was that of Mani island, and the stores we carried on the hunting and fishing cruise looked much like 'dope' to those who did not know what they chandler's name is Tai Yune. Billy Stuart can tell you for certain.

"You see opium is still a profitable thing to run to Hawaii, though it takes more time and capital and involves more risk than dropping it their interests. A glance at the recent appointments on Maui proves the used to. And then there aren't such falsehood of such charges. To the sat-isfaction of his many friends, J. POET-AND MUSICIAN.

Legal Strife Between a Honolulu Versifier and a Composer.

H. W. Schmidt of Honolulu is a merchant whose hours of relaxation are devoted to the wooing of the muses. G. Sauvlet is a San Franciscan whose specialty is music. On the last trip of the Sandwich islander to this city the pair met, and will spend the winter in Makawao District. Mrs. Heapy, the eldest daughter of John A. Moore, of Wailuku, was also among the arrivals. She will be principal of the Waikapu Examiner of August 30th. Sanylet er set to music the Hawaiian poet's Examiner of August 30th. Sauvlet claims that he did so at Schmidt's request, while the merchant poet claims that such was not the case. They could come to no agreement, and on the eve of his departure for his island home Schmidt received a letter requesting him to call at a lawyer's office.

He ignored the matter, and on the next day proceeded bag and baggage on the Alameda. No sooner had he installed himself than Sauvlet's attorney appeared on the scene, ac-companied by a Deputy Sheriff. He was proceeding to lay hands on the baggage of the sweet singer of Hawaii when John D. Spreckles interfered.

He informed the attorney that the steamship company had given a receipt for the traveler's trunks and that they could not be removed. The result was that the merchant poet departed with his belongings for his tropical home, but not till he had been served with a complaint for \$250 compensation brought by the San Francisco musician. The poet, not to be outdone in politeness, immediately placed his case in the hands af Delmas & Shortridge, and soon the story of "Hawaiian Liberty" will be told in court.

ARREST OF A SMUGGLER.

A Young Englishman Comes to Grief While Pursuing a Life of Adventure.

TACOMA, Aug. 31.—Jack Forbes, a young Englishman, was jailed here today on an indictment charging him with smuggling opium. He has been a successful smuggler for three years, perferring a life of adventure to living with his wealthy parents in England, who granted him a monthly allowance of £100 until last winly allowance of £100 until last win-

ter when he was bequeathed £12,000.
Two trunks full of contraband opium were seized here last February, since which time he has been travelling with Billy Stewart, another smuggler, between British Columbia and Honolulu, presumably in the smuggling business. He was recognized while returning to Seattle clandestinely.

There were forty members present and among the audience was E. G. Hitchcock, Marshal of the Republic. Henry Smith being the only nominee for the presidency he was elected by acclamation. He took the chair amidst great applause. The election resulted as follows:

President, Henry Smith.
Vice-President, W. J. Cuelho.
Recording Secretary, Chas. Wilcox.
Corresponding Secretary, Jas. H.

Mr. Smith, president, volunteered that the meeting accord a vote of thanks to Mr. Hitchcock, who had been an interested spectator during the proceedings. The motion was carried unanimously, accompanied with applause.

Mr. Hitchcock responded with appropriate remarks, adding that he was well pleased with what he had seen and heard. His wish was for the welfare of the new organization, which he hoped, as he thought, would be a permanent institution. A vote of thanks was passed to W. J. Cuelho, the chief promoter of the institution, and he in return made a few suitable remarks. Mr. Smith closed the meeting by announcing that the installation of officers would take place on the 19th inst., when an entertainment will be given. Friends of the institution will be invited, and an elegant programme will be presented. The committee reported favorably, and the meeting ad-
