CASTLE AND COOKE AND WALL NICHOLS ARE TO MOVE

Another big change in the location of prominent business establishments is to be made, the deal this time having to do with Castle & Cooke and the Wall, Nichols Company.

Negotiations have been going on for some time but the news was not out until after the last details had been finished up this morning.

The whole thing started from the Castle & Cooke side of the proposition. This big concern has for a long time felt crowded in the Stang-

CABLE FROM DELEGATE KUHIO SAYS CONGRESS WILL CALL JULY ELECTION

WASHINGTON, D. C., Feb. 15, 1910.

"Governor, Honolulu, "Joint Resolution proposes election July twenty-six expense appropriation include vote on following question, 'shall the Legislature be instructed to pass at next session a law prohibiting manufacture or sale of intoxicating liquors, etc., except medicinal and scientific purposes.'

"Congress sentiment opposes joining provision authorizing women vote, please publish.

"KUHIO."

The above cable was received by Governor Frear this morning. It again put a new phase on the Prohibition discussion. The former cables had been understood by many as indicating that Hawaii was to be asked to vote on whether Congress should pass the so-called Prohibition laws. It appears from the above message that Congress will call a vote on whether the people of Hawaii shall instruct their legislature to pass such laws.

Governor Frear, commenting on the cablegram, said that the instruction to the Legislature to pass a prohibitory liquor law if the people so voted was

unusual. He could not recollect a case that was exactly parallel.

According to the joint resolution a popular vote for prohibition would seem to be mandatory on the Legislature, the Governor thought, and if such a mandate were disobeyed the question might be whether Congress should not then pass a prohibitory law for the Territory.

Governor Frear said the possible situation might be like the case of the Legislature of Oregon which, though controlled by the Republicans, elected as United States Senator a Democrat in obedience to the choice of the voters at the primaries.

VIEWS ON PROHIBITION

BY ELEANOR RIVENBURGH

A reform wave is breaking over the islands at present, and carrying the debris of hundreds of wrecked homes in its powerful wake. And should it come to pass, the pitiful sights which are thrust upon us, of drawn sad faces of women—in useless persuasion of mauling husbands and fathers who in time come to fill our jails, or mar the beauty of our city's thoroughfares will be no more.

Business men will tell you that from two to three hundred thousand dollars per annum will be withdrawn from circulation (and they are men, by the way, for whom prohibition is not intended) while hundreds of women who have lost their youth and beauty, their homes and companionship of friends through the ravages of liquor are tensely awaiting the issue.

I interviewed five people representative of various phases of the question of prohibition. One was a noted physician.

"Yes, I think intoxicants should be regarded seriously, but it is tommyrot to include it in the category of prescriptions. It is not needed as a medicine any more than molasses taffy. There is nothing for which I should be obliged to prescribe liquor, that I know of. They can cut it out entirely if the medical profession is the only argument in its favor. Do I think it dangerous? Most decidedly, if Morphine or Nux Vomica are dangerous. It will kill as surely as they, but requires a larger quantity. There are a great many diseases caused by liquor—of course you understand I mean too much liquor, especially in the liver and kidneys. It makes human wrecks of

PROHIBITION DOES PROHIBIT

EDITOR STAR: What nonsense to hear that prohibition does not prohibit the sale of liquor. The worse kind of a lie sometimes is that which looks most like the truth, and to hear that prohibition does not stop the sale of liquor is the worse kind of falsehood because to some people it looks most like the truth.

And to hear that prohibition in these islands would not stop the sale of liquor should be an insult to the police of this city. When it is positively proven that liquor is one of the causes of this fine race of people not only in the Hawaiian Islands, but in the whole South Seas dying fast it should be the pride of every policeman in Honolulu to make this city so dry once prohibition is made a law that the very roofs of drachm holes will cry out vengeance.

If you think prohibition does not stop the sale of liquor go to Burlington, Vermont or Portland, Maine. How did Burlington stop the sale of liquor? It was Dr. Buckham the president of the University of Vermont who did it. How did he accomplish that? By spending his own money hiring detectives, to watch things. Now watch the results. Today the running expenses of the county of Vermont without the saloons is one fourth what it was with the saloons, and today also the jail of Burlington, is nearly empty when it was crowded while the saloons were open. If you want illustrations of this kind visit every prohibition town in the United States. You know the crimes committed under the influence of liquor. I will stop right here on that point.

Here is the American nation who gives the best of its manhood to the navy for the protection of these islands, no man can enter the navy nowadays without good credentials of excellent character and what do you do when they visit here? You make them a disgrace with your "rot gut" whiskey. Some will say we did not coax them to drink. Is it not human nature for men away from home and on restraint for weeks on board ships of the navy to fall in your dirty pitfalls—as long as they are open? You will say they will spend their money in worse places. Did you ever hear that two wrongs made one right?

If the outside world would do as much for the protection of its young men as the discipline of the navy does for the blue jackets every man of the navy would be regarded as a gentleman. Collectively the man in uniform is respected as a matter of national feeling; individually he is not respected as much as he should be, and the saloons in port cities are largely responsible for that and the want of better places of entertainments ashore.

One hears the word liberty thrown in as an excuse for open saloons. What right have we to dictate to a person what he should put into his mouth? On the same lines of reasoning what right have we to examine food on the public market to see if it will cause ptomaine poisoning or not? If liberty means the right of open saloons and the non restraint of nature on the part of men then I have a right to say that because a man has two legs and a goose

has two legs therefore a man is a goose. What is logical to some is not always good reasoning. This should be a fight to a finish against the saloons. People must be educated on the subject by public lectures and heart to heart talks. Once you know you are right go ahead.

Prohibition anywhere does not mean the absolute impossibility of "blind pigs" to get liquor in some way. Of the two evils, namely selling liquor on the sly and the open saloon it means to choose the lesser of the two evils—namely the closed saloons.

We are bound to hear a lot of nonsense in favor of saloons, and perhaps in the sight of some I am no wiser but if the surface of the earth were all level the country would not be half so picturesque and so interesting. So we must be thankful to those on the opposite side of the question to make life interesting in Honolulu just now. A great many know that liquor is a curse, but a lawyer who wants to win his case for his client, even though he knows in his heart he has a rotten case, he will continue, in spite of vengeance judge and jury, to make black appear white as newly fallen snow. And so are the saloon-keepers and their friends.

Just look at Germany today. You see they are big drinkers of beer and it does them no harm. Well if it does them no harm, why is it that many towns in Germany are now begging for prohibition? Read the papers.

In conclusion I will say that if Doctor Buckham of the University of Vermont, at least while I was there a student, can stop the sale of liquor in Burlington for the sake of college students, then why can't the millionaires of Honolulu hire detectives to prove to the world once more that prohibition does prohibit the sale of liquor, not only for the sake of the natives but for those of the navy who are the strength of a nation? If a blue jacket is discovered with liquor on board his ship, no matter if he receives fifty or one hundred dollars per month, as some do the discipline of the navy is such for the protection of the men and the nation that he will forfeit three months pay and get one month in the brig. The splendid discipline of the United States navy in this direction is most worthy of imitation. Make the fine for selling liquor under prohibition so high it will make the seller tremble. The fine will more than pay the hiring of honest detectives. Some will say honest men can't be hired in this. Such people talk their own characters. This government should not allow even the drug stores to sell liquor for medicine. This privilege would certainly be abused. The tourists do not need the saloons. They carry their own best brand of liquors. Better living and less crime with closed saloons never made less progress. Men who should leave the city because of the closed saloon Honolulu can well do without.

INSIST ON LOCAL SELF-GOVERNMENT.

The indications now are that the Congress of the United States is again to be controlled in the liquor matter by the proposition referred to locally by some as a "herring across the trail." It seems now that the national legislature will probably appropriate money to pay the expenses of an election at which the people of Hawaii may instruct their own legislature what to do in the matter in which Congress was asked directly to interfere here. Delegate Kubio cables today that Congressional sentiment opposes the proposition of authorizing women to vote in the special election contemplated. Possibly woman suffrage is regarded in Washington as a local question too. The amendment of election laws to allow woman suffrage on this or any other question is within the powers given to the legislature of the Territory of Hawaii.

FOURTH AMERICAN CITY IS IN SOUTH AMERICA.

Some time ago attention was called in these columns to the lack of American knowledge of the importance of their southern neighbors,—Brazil being cited, for example, as a country almost as large in area as the United States, but little appreciated. Now comes a United States consular report showing that the fourth city in the new world is Buenos Aires, and that her population is very close to that of Philadelphia, third city in the United States. Consul Charles Lyon Chandler, as quoted by the Christian Science Monitor, gives the following striking facts and reflections on the growth going on in the southern part of America:

"United States Consul Charles Lyon Chandler has forwarded recently to the state department some very interesting information with regard to the city to which he is assigned, Buenos Aires, Argentine Republic. That city now ranks fourth among the cities of these continents in point of population. New York, Chicago and Philadelphia only take the precedence. The last census was taken on October 22 of last year and showed that the inhabitants numbered 1,189,662. This total represented an increase over the figures of the census taken five years earlier (Sept. 18, 1904) of 238,771, or 5 1-2 per cent per annum. This is much like metropolitan growth in our own country, and it is rendered still more interesting by the calculations that it has invited. For instance, if Buenos Aires shall maintain the rate of increase of the last five years, it will have a population of 1,300,000 on Jan. 1, 1911, and of 2,400,000 in 1924, but the probabilities are that its growth will be much more rapid in the future than in the past.

"American and European travelers who in recent years have visited Buenos Aires and committed their impressions to the press are in complete agreement as to the advantageous and attractive situation of the city, its commercial importance, its well-planned and well-cared-for streets and avenues, its perfect sanitation, the beauty of its architecture and the excellence of its municipal government. Buenos Aires, however, is not the only South American city that is forcing itself upon our notice, despite our apparent disposition to look everywhere rather than toward Latin America for progress. Lima, in Peru, Santiago, and Valparaiso in Chile, and Rio Janeiro and Bahia in Brazil, especially, are flourishing and progressive modern communities.

"Perhaps the wonderful growth of Buenos Aires will serve to force upon our attention the advisability of acquainting ourselves more thoroughly with the splendid progress of our neighbors to the south."

It may be added that all the South American countries are also making vast progress. Their cities are as modern as any in North America.—Buenos Aires has been declared to have the finest theater in the world. And these countries are practically strangers to North America. Their commerce is with Europe, their sympathies with European countries. And while they are developing strength that begins to seem likely to match that of the United States, they never see an American seaman and buy practically no American goods.

We assumed that the proposed plebiscite on the liquor issue would be to settle whether the people here wished Congress to pass an anti-liquor law such as the Curtis bill now pending. It appears from Delegate Kalaniana'ole's cable of today that this assumption is wrong. The question to be submitted is whether the legislature here shall pass a bill. This is a less satisfactory form of submission,—except that it exemplifies the strong tendency in Washington to keep hands off matters which it is the duty of the people here to settle for themselves. A federal law on the subject, passed by vote of the people of Hawaii, would be no interference with local citizenship rights,—in fact the method of passing it would be a fine precedent,—and it would work more satisfactorily than could be expected of a local law.

Commercial News

BY L. D. TIMMONS.

This was a rather sleepy stock day, which was not entirely unexpected. On the streets there was a little doing, but the session was uninteresting from almost any view point.

As is not unusual on dull days, bonds came in for attention. Between boards \$4,000 Hilo Railway sixes sold at \$100.25, while during the session this morning \$1000 Olaa sixes and \$1000 Hilo Railway sixes at \$100.25.

Between boards 125 and 100 shares McBryde sold at \$7.25. For the stock \$7.125 was bid and \$7.375 asked.

A sale of 20 Hawaiian Commercial was made at \$38.875, although on 'Change only \$38.50 was bid and \$38.75 asked.

One large sale of Honokaa was made 250 shares changing hands at \$23. For the stock \$22.75 bid and \$23.25 asked.

On the boards a sale of 10 Pala was made at \$134. For the stock however,

only \$130 was bid this morning, holders standing out for \$134.

Another sale on the boards was 70 shares Olaa at \$6.875. The same was offered for more, but holders demanded \$7.

Wailua seemed a trifle weak, \$126.50 being the official bid, while \$128 was asked. Oahu was \$35.50 bid and \$35.75 asked. Ewa was \$33.75 bid and \$34. asked.

CLOUDBURST AT PAHALA.

C. Brewer & Company received a letter this morning from the manager of Hawaiian Agricultural Co. at Pahala Kau, telling of an immense cloudburst which visited that place Saturday afternoon. A wireless came in Saturday morning stating that an inch of rain had fallen all around that side of Hawaii. Following the wireless, the letter states that at 2 o'clock in the afternoon the great downpour came

and in less than an hour 2.65 inches had fallen. This was at the plantation office, and the indications from there were that the fall had been even heavier across the Chong gulch. There were just a few drops at Punaluu and none at Hutchinson. A good deal of damage was done to roads by washing but fortunately the railroad escaped any serious injury.

LINK JOINS IMPROVERS.

The lot at the corner of Pauahi and Nuuanu streets, next to Love's bakery which has stood vacant since the great fire of January 20, 1900, will soon carry a handsome, two-story store building, to be put up by the owner, L. L. McCandless. Architect H. L. Kerr is preparing plans for the structure. The building will be of brick and attractively finished.

MERCHANTS' ASSOCIATION.

As announced yesterday afternoon, an important business meeting of the Merchants' Association will be held at 3:30 this afternoon. Several matters are to be taken from the table and acted upon. It is expected also, that there will be a report from the committee on trading stamps and existing express rates. The trade and finance committee has been working on these two subjects for several weeks.

ATLANTIC CITY BAZAR.

W. H. Hoogs, one of the committee having in charge the matter of arranging for business at Atlantic City for supplying information and selling certain Hawaiian products—has reported to the Promotion Committee that about half of the money required has already been subscribed. This is regarded as a very encouraging start.

WAILUA DIVIDEND.

This is "dividend day" for Wailua at the offices of Castle & Cooke. Three fourths per cent is being paid out, the total footing up \$33,750.

ALAMEDA COMING.

The Alameda, bound from San Francisco to Honolulu, sent in a wireless last night, saying that she was 124 miles out and all well. She has 1000 tons freight, 86 cabin passengers, six steerage, 124 bags mail and Wells, Fargo express. If all goes well she will arrive here Friday morning.

AT THE THEATERS

By far the greatest card ever put on the Orpheum stage is a dainty little soubrette who will arrive either on the Wilhelmina or the Alameda, no less a stage personage than Toby Claude, a charming bit of femininity, who is making a tour of the world. Her manager is here and he has consented that she shall stop off in Honolulu for a while. She is a headliner on the Orpheum circuit on the mainland, and was brought over to New York from England a few years ago by the Schuberts to appear in "A Chinese Honeymoon" as a slavey, in which she made a big hit. The San Francisco notices of her appearances at the Orpheum are the best. She is said to be the size of a healthy peanut and emanates joy. She has a cozier song that makes a hit, is most generous with her encores and is a speaking proof that the best goods come in small packages. As for wardrobe there is a sufficiency and a verisimilitude. Only because her manager has not asked for \$450 a week, her usual salary, but just expenses, was Mr. Cohen able to book the brilliant little comedienne. She may be put on the latter part of this week or the first of next.

Jack Goden's company of funmakers left the Orpheum dark for about a week, but the vaudeville company now at the Orpheum is equally successful in pleasing the Orpheum audiences, and for an evening of enjoyment the Orpheum is just the place. The members of the company have a few numbers there which are some of the finest Joe Cohen has brought to Honolulu. The trick bicycle riders are probably the best that have ever appeared here. It is a pretty exhibition of the equilibrium of the man takes off a humorous stunt throughout, never speaking, while the pretty little woman who assists is a clever artist. Their trick is worth seeing.

Dick Stead, the Australian baritone, sings with his oldtime fervor. Miss Leslie and Miss Galardi, whom Mr. Cohen secured while they were en route to San Francisco from the Orient, are excellent singers, the former's ballads being beautifully rendered. Miss Galardi added a dance last evening that was prettily done. Schwartz, the violinist was encored repeatedly last evening.

On Thursday Mr. Cohen will add the far-famed Salome dancer, Walker and Stern, the jugglers; and Castleman and Montgomery a sketch team, all of whom are at present on quarantine island.

This will be one of the best programs put on at the Orpheum in months. The sale of seats has already begun to look like the Golden company days, and Thursday is certain to be a big opening night.

CASTLE AND COOKE

(Continued From Page One.)

was purchased, and a separate extension procured.
The shipping department of Castle & Cooke will go into the corner section of the building, the place formerly occupied by Roth's tailoring establishment and lately by the sporting goods department of the Wall, Nichols Company. This will also be headquarters of the Matson line of steam and sailing vessels.
The big main section of the building will be occupied by the various depart-

ments of the Castle & Cooke business. Ample room is there found for all purposes.

This deal of Castle and Cooke entails an important change for the Wall, Nichols Company. In brief, this concern will move back to the premises now occupied as a branch in King street near Fort. Before doing so, however, great changes will be made in the latter building. In the first place, it will be extended back straight forty feet, or, to the barber shop near Cunha's reception parlors. This will almost double the ground floor space. Then the Yokohama Specie Bank will move to its new building fronting the police station, and Wall, Nichols Company will occupy all of the second floor of the Republic building as well, really giving them nearly as much room as they now have at Merchant and Fort streets.

The work of fitting up these respective places will take time. The contract for the addition to the King street premises mentioned will be let as soon as the workmen, now engaged upon the Union Grill addition are out of elbow reach of the new gang.

To the question "When will these things be?" it may be stated that June 1 has been decided upon as the date for the changes to be made. This will give time for the addition to the Wall, Nichols Company building in King street and such remodeling as Castle & Cooke may find necessary in the premises at Fort and King streets.

THE AMERICAN BOYS' TOUR

Major Sidney S. Peixotto under whose direction the American Boys are touring Australia, as president of the Pacific Athletic Association, and also, as President of the Public Schools Athletic League of San Francisco, became interested in the Australian game of football and entered into correspondence with J. J. Simons, secretary of the Western Australian Football League of Perth to consider the advisability of a party of young Australian footballers visiting America for the purpose of coaching American boys in the game. This project could not be financed, so Major Peixotto determined to bring 40 members of the Columbia Park boys' club of which he is the founder, to the Commonwealth to learn the Australian game.

The Australian Football Council sanctioned the idea of such a tour, and the American party landed in Sydney on the 2nd of July, at which city the boys witnessed their first match of football, Australian rules.

They took to it at once and in four months' time they have become most clever exponents of the game. By their hard work they have qualified themselves to introduce the game into the public schools of the United States. They are well developed athletes and the way in which they have mastered the game has been a surprise to all who have seen them play.

Major Peixotto is a champion of clean amateur sport, and he believes that introduction of the Australian game into the American schools will be most opportune. Professionalism or semi-professionalism is a difficult problem on the Pacific Coast, but he feels assured that the present tour of his club boys will mean much for the future of American sport.

Aside from the sports interest, education by travel has proven itself to be the very best means of not only enlightening the youth of the civilized world, but the heads and official bodies of nations agree that it is only by visiting different countries that a real

knowledge of its resources, activities, and institutions can be obtained. The visit of the young Americans to Australia has been rich in experience for them, and no amount of study from books could have given them the accurate knowledge they have obtained of our Commonwealth.

This will not only be of great benefit to themselves and their own state, but Australia, as a result of their visit will be better known to the world. The American Boys will appear in the Hawaiian Opera House Thursday, Friday and Saturday evenings of this week.

WITTY WITTE TO SPIEL FOR ELKS

Walter S. Witte, not so long from New York, now cashier at Honolulu plantation is to spiel for the Elks at Ye Olde Curiosity Shoppe on the Elks' Trail on the carnival evenings of February 21 and 22. Witte is witty and a wonder and has had experience in Dreamland, Coney Island, and at Coney's Bowery. He is possessed of an unlimited fund of rapid-fire humor.

Another spieler who is bound to attract large crowds by the power of his voice and the eloquence of his expression is Ches Irwin, concerning whom his friends say he is a bullfighter by profession and a good fellow by habit.

ALLEGED SCORCHER ATCHERLEYS MISSED THE BOAT

Summons is out for appearance at 9 a. m. tomorrow, before Judge Andrade, of Richard Cooke, Auto 248, complained against by Officer Scully as violating the City speed ordinance, exceeding fifteen miles an hour in city limits, said scorching said to have occurred between Alapai and Kapiolani streets.

SUFFRAGETTES ACTIVE HERE

NEW YORK, Feb. 5.—The headquarters of the American Suffragettes here has received an application from Hawaii for associate membership. The application is from an organization of women in Hawaii which is planning a crusade throughout the Archipelago with the object of obtaining votes for women in the islands.

IS SALOME SAFE?

EDITOR STAR:—Can you find room in your valuable paper for a few words of inquiry concerning his much advertised "Salome dance" which Mr. Cohen says he's going to put on the Orpheum stage on Thursday night? I have heard Salome on the phonograph and have seen the dance in moving pictures and am worried lest the exhibition of the living dance on the stage will be just right for me to go and see. A gentleman friend has invited me to go to the Orpheum with him on Thursday. Will Mr. Cohen assure me that I may attend without having to wear a veil to hide my blushes?

WHY ECZEMA PATIENTS SUFFER No Wonder They Despair—But Cure Has Now Been Found.

It is a strange thing about eczema. After wasting money on nostrums, dosing the stomach or smearing on greasy salves for years, many a skin sufferer gives up in despair. He says:

"What is the use, some may be cured, but my case is hopeless."
But a trial of the simplest remedy—just a little oil of wintergreen properly compounded (as in D. D. D. Prescription) will wash away that itch. In fact, it will take away the itch immediately the instant D. D. D. is applied.

Read this letter from Thomas Chapman, U. P. Passenger Agent at Ellis, Kan.:

"I cannot delay any longer writing to tell you how grateful I feel for the great benefit I have received from your marvelous skin remedy, D. D. D. Prescription. Besides finding it a wonderful cure for itching eczema, I have used it for burns, fever sores, Cuban itch, chafing around certain parts of the body caused by perspiration, etc., and the instant I have applied it, the trouble ceases."

Now, if there is any one in your town suffering with eczema, ringworm, tetter, psoriasis or poison ivy, tell the sufferer not to sit back and say, "I have tried everything, there is no cure for me."

Call at our store and we shall explain. Honolulu Drug Co.

ATCHERLEYS MISSED THE BOAT

Dr. Atcherley and his wife, Mary, who recently left Honolulu for Tahiti, by way of San Francisco, missed the S. S. Mariposa at San Francisco and have to wait over in that great city for thirty days. Meanwhile the Atcherleys have written to Honolulu to have certain personal property forwarded including the doctor's medical instruments.

FIGHT IN RICE MILL.

There was a fight in a Chinese rice mill at Hanula on Saturday night when Sam Logan, deputy sheriff of Lale went over on Dan Paa's territory and complained to the Orientals that they had been gambling. They tore his clothes and threw him out, and they declare that he wanted a present which they were unwilling to give. Dan Paa is deputy for Hanula. Honolulu police headquarters will investigate the row.

JACKSON NAMES DAY FOR BIG RACE

Nigel Jackson is putting in some hard work gathering up prizes for his coming Marathon race to Waiālae, and it really looks as though he will make a success of the project. His list last night showed a large number of names, and the prizes seem to be of an attractive character. The promoter is still working, however, and expects in a day or two to have prizes sufficient to tempt a very large number of competitors into the long run.

Jackson states that the date finally set for the race is March 27, a Sunday. It is intended to have it start from Aala Park and to be straightaway over the road to Waiālae. Mayor Ferk is taking an active interest in the race and will probably be starter for it.

BOAT CLUB RACES SET FOR SUNDAY

Next Sunday afternoon the Healanies and Myrtles will meet in the harbor for one of the fiercest aquatic struggles witnessed here in years. The races will begin at 2 o'clock. Thus far no officers for the day have been selected although this will be attended to in ample time. At present the program is in the hands of officers of the two boat clubs.

The first race will be a pair-oar stunt. It will start at Buoy No. 8 and finish opposite the Healan boat house.

Next will come the four-oar shell race, starting from the Hackfeld wharf and finishing at Buoy No. 10, off the Myrtle boat house. This will probably be the most exciting event of the day.

The third race will be a six-oar barge event for "strawberry" crews. This will start at the spar buoy and finish at the Healan boat house.

Each of the boat clubs will keep open house during the afternoon and it is expected that large crowds of people will be present to witness the events.

THE LINCOLN CLUB HAS SOCIAL TIME

The Lincoln Club, a kind of social-sports organization of Portuguese young men for a starter gave a smoker last Saturday night at its new hall on Luau street.

According to post notice, the affair was a most enjoyable one. It was given in commemoration of the birth anniversary of Abraham Lincoln, after whom the club was named.

The following were among those present by invitation: Mayor Fern Representatives A. D. Castro and J. C. Cohen, Senators Charles F. Chillingworth and J. C. Lane, L. L. McCandless, Supervisor McClellan and John C. Anderson.

The Lincoln Club is a new organization and starts out with fifty members. The officers are: M. S. Deponce president; Frank Souza, vice president; M. R. Freitas, secretary; J. R. Freitas, treasurer.

BIG GOLF DOINGS ON FEBRUARY 22

Next Sunday there will be nothing special doing on the links at the Country Club, although open house will be kept for the members and their friends. On Washington's Birthday, however there will be the biggest kind of a golf rally. It will be novelty playing and will begin at 2 o'clock in the afternoon. As this will be the first important event of the year on the links it is expected that most of the golfers will be out.

The change in the ninth hole on the links has been made, and all is now in good shape except for the grass, which is being teased out gradually.

A new, stone bunker has been started near the ninth hole this completing another of the improvements decided on for the new year.

FINE CUP PUT UP FOR FIELD SPORTS

The Floral Parade committee decided yesterday afternoon to put up a cup to be competed for by the Columbia boys and High School at the Boys' Field on Washington's Birthday. These field events will take place in the afternoon and should attract a large number of city people. The program will give the visiting boys their one big chance of participating in a regular field program locally, the other events being meets for single stunts.

The contests will be decided on points, and the cup will go to the side having the greatest number. While the Columbia boys are known to be well up on everything in the way of field sports, the High School athletes believe they will be close around at the finish.

Preparations are being made for pitching the tents on the Boys' Field for use of the visitors after they come over from Maunaloa on Thursday. If the weather remains fine the youngsters will have a really excellent place of it.

INTERNATIONAL TUG OF WAR PULL

A. K. Vierra is working up an international tug-of-war match to take place at Athletic Park on Sunday, the 27th. Six teams, it is expected will enter, composed of Japanese, Chinese, Portuguese, Hawaiians and one military.

It is intended to limit the weight of the contestants to 200 pounds. This is on account of the Japanese and Chinese, who are never so heavy as that.

Vierra has raised the sum of \$300 which will be given out as prizes, thusly: First prize, \$150; second, \$100; third, \$50. As this is enough for expenses and a little high life on the side it is not thought there will be any difficulty in getting full teams of first class men.

HANDBALL GAMES OVER TO SUNDAY

So many of the games in the handball tournament at the Y. M. C. A. have been played that there will be no more until tomorrow afternoon. At that time however, there will be two fast matches. The first one will be between Sing Hung and Gertz, and the second between Purvis and Ewaliko. All of these players run well together, and the games are certain to be warm numbers.

On the 18th or Friday, there will be one make Fook On trying conclusion with Nott. This contest will start at 5 o'clock.

According to the rules adopted for the series, all games must be finished prior to February 19, so that next Friday will be the last day.

Dr. Hand expresses himself as well satisfied with the results thus far, and has every hope for a highly successful tournament.

Paul S. Junkin, of Creston, Iowa, representing the Creston Advertiser-Gazette, Albia Republican, Chariton Herald-Patriot and Bedford Times-Republican is a passenger aboard the excursion steamer Cleveland on the present "round-the-world" tour. Mr. Junkin is a cousin of Harry G. and Rolla D. Junkin, pioneers of the Olaa section of Hawaii and now located at Mountain View, on the Volcano road. The traveller gathers material here for a series of articles to be printed in the several papers represented by him.

Mr. Junkin was particularly well pleased with Hawaiian pineapples, which he characterized as the best he had ever seen. He believes that a big trade in them could be worked up in the Middle West.

SOUTH POLE BUG BITES ROOSEVELT

Professor McMillan Thinks Former President Ambitious to Become Great Discoverer.

NO MONEY FOR AEROPLANES.

Six Steamers Hurrying to Save Lives.

Bill For Two New National Parks.

(Associated Press Morning Service.)

PORTLAND, Maine, February 15.—Former President Roosevelt may lead an expedition in search of the South Pole, according to Professor McMillan of this city. The professor last night stated that the former President is greatly interested in polar explorations and that there are good grounds for believing that he may conclude to undertake the task of placing the American flag on the south end of the earth. Professor McMillan was a member of the Peary expedition and himself is a man of recognized achievements in exploration work.

NO AIR DRAGONS.

WASHINGTON, February 15.—The Army will get no aeroplanes yet awhile. President Bishop of the Aero Club of America's committee on aeronautical societies yesterday called on the President and urged that appropriations be made for the purchase of aeroplanes for the use of the military service. Mr. Taft expressed regret that the strict economy necessary from now on until the end of the year will make it impossible to provide the necessary appropriation this session.

RACING TO RESCUE.

ANCUD, Chile, February 15.—Six steamers are now racing toward the Strait of Magellan in the hope of saving eighty-eight survivors of the wreck of the British steamer Lima. The unfortunates are clinging to the battered hull and are in momentary danger of going to their deaths. The steamer Hatumet, which went to the assistance of the shipwrecked ones, managed to take off 205, but the lives of five members of its crew were lost in the work of mercy.

HARD LIVES OF TWO WIVES

Harriet K. Beringer has brought a libel for separation against Frederick L. Beringer. She alleges that he fails to provide support for herself and their eight month old daughter, although receiving \$150 a month in the customs service. They were married at Kapaa on June 7, 1905, and the complaint says that at all times during their marriage her husband has habitually squandered his salary in drunkenness and debauchery. Before the birth of their child she was reduced to such straits that she pawned her engagement ring valued at \$150, which he had given her, for \$60 with which to purchase necessary food. Furthermore she accuses him of habitual and gross cruelty to her in word and deed since a few weeks after they were married. They occupy a home at Punui purchased in her name for \$1100 on which they have made improvement at an expense of about \$670. There is a mortgage debt of \$600 on the premises, while \$400 is owing for improvements. Mrs. Beringer desires to be permitted to live at said home and to add to its improvements. She also seeks protection of the court from molestation by her husband, and prays for alimony, suit money and separation in perpetuity or otherwise as to the court may seem provident and reasonable.

Mary Gomes has brought a bill for maintenance against her husband M. Gomes on behalf of herself and their two young children. She says that on February 3, 1910, he packed his clothes and other belongings in a trunk and took them away. Moreover on leaving he stopped her credit at the store where they had been getting supplies, also with the milkman, and on the evening before abandoning her burned her hat, shoes and clothing. He informed her he would not support her but would rather go to jail instead.

BY AUTHORITY

HILL NO. 20.

AN ORDINANCE PROVIDING FOR THE INSPECTION OF MILK AND DAIRIES AND DAIRY COWS, AND REGULATING THE SALE OF MILK, AND PROHIBITING AND PUNISHING THE DIFFERENCE OF UNWHOLESOME, IMPURE OR ADULTERATED MILK IN THE CITY AND COUNTY OF HONOLULU.

Be it ordained by the People of the City and County of Honolulu:

SECTION 1. No milk producer or milk vendor shall after this Ordinance becomes operative, either himself or through his agents, servants or employes, offer or expose for sale or sell or deliver for sale, use or consumption within the City and County of Honolulu, any milk without first having obtained from the Board of Supervisors of the City and County of Honolulu a permit so to do as hereinafter provided:

SECTION 2. To procure such a permit, the applicant therefor shall present to the Board of Supervisors a written application, and shall state therein the name and business and residence addresses of the applicant, the source or sources from which said applicant obtains or will obtain supplies of milk, the number of cows in the possession of said applicant, the daily average quantity of milk produced, and the daily average quantity of milk disposed of by said applicant, and the manner and character of such disposition. He shall within four months after the filing of such application furnish a certificate from a veterinary surgeon showing that all such cows are free from tuberculosis. The Board of Supervisors shall provide for the testing of cows and the furnishing of such certificate without charge to the applicant. Such application shall be made to the Board of Supervisors upon printed blanks to be furnished by said Board for such purpose. Such application shall further state the specific brand or business name, if any, under which said milk is to be sold, exchanged or distributed.

SECTION 3. If the Board of Supervisors, upon such application, shall determine that the statements therein made are true and satisfactory, it shall be the duty of the Board of Supervisors to direct the City and County Clerk to issue, and said City and County Clerk shall thereupon issue to said applicant a permit to sell, expose or offer for sale, exchange, deliver or distribute milk within the City and County of Honolulu.

SECTION 4. One such permit shall be required for each place of production, general sale or storage of milk. Such permits shall be issued only in the names of the owners of the supply of milk thus on storage or for sale, and shall for the purpose of this Ordinance be conclusive evidence of such ownership. No such permit shall be sold or assigned or transferred. Such permit shall be subject at any time to revocation by said Board of Supervisors in its discretion upon sufficient cause therefor shown; provided, however, that no permit shall be revoked until after a hearing given by the Board of Supervisors in the matter of the revocation of such permit after (5) five days' notice in writing has been served on the owner of such permit, which notice shall state the ground of complaint against such owner, and the time and place of such hearing; and provided further, that no permit shall be revoked by said Board of Supervisors for the first offense without the unanimous consent of all the members of said Board.

At least once each year every person or persons, firm or corporation holding such permit shall register with the City and County Clerk his or their name and permit number, and shall make a written statement to said Board of Supervisors containing all the information required to be given by applicants for permits in their written applications for permits as hereinbefore provided; and all applications for permits and all such written statements required as aforesaid shall be registered in a register to be kept by the City and County Clerk for that purpose.

SECTION 5. No person or persons, firm or corporation shall sell or expose for sale or exchange or deliver or distribute, within the limits of the City and County of Honolulu, milk from any wagon or vehicle, unless such wagon or vehicle shall have exposed on both sides thereof the permit number of the person or persons, firm or corporation selling or offering or exposing for sale, or distributing or delivering or exchanging such milk. Such permit number shall be

printed on said wagon or vehicle in Arabic numerals not less than three (3) inches in height, and shall be placed on said wagon or vehicle under the direction of a duly appointed milk inspector, and in case milk is sold from cans or vessels (not carried in any wagon or vehicle), then the permit number as aforesaid shall be put in a conspicuous place on such can or vessel immediately below the opening thereof, so as to be plainly visible on superficial inspection; or if such milk is sold or exposed or offered for sale, delivery, distribution or exchange within a store or house, or on the sidewalk of any street in the City and County of Honolulu, then such permit number shall also be constantly exposed in some conspicuous manner at the place where such milk is sold or kept, so as to be plainly visible.

SECTION 6. It shall be unlawful for any person or persons, firm or corporation, by themselves or by their agents, servants or employes, in the City and County of Honolulu to render or manufacture, sell, offer for sale or exchange, deliver, distribute, or have in his, their or its possession with intent to sell, expose or offer for sale or exchange, or distribute for human consumption, any impure, adulterated, unhealthful or unwholesome milk, or any milk from which the cream has been skimmed or separated unless the same is specifically and openly stated to be skimmed milk.

SECTION 7. Milk shall be deemed to be impure, adulterated, unhealthful and unwholesome within the meaning of this ordinance under the following stated conditions, viz:

- 1st—Milk containing less than eight and one-half per centum (8 1/2%) of milk solids, excluding milk fat
2nd—Milk containing less than three per centum (3 per cent.) of milk fat.
3rd—Milk drawn from cows within fifteen days before or within five days after parturition.

4th—Milk drawn from cows fed on any unhealthful or unwholesome feed.

5th—Milk drawn from cows kept in an unhealthy or unsanitary condition, or from cows affected with any form of infectious, contagious or transmissible disease, or milk which contains more than one million bacteria per cubic centimeter.

6th—Milk from which any part of the cream has been removed, and milk which immediately upon being drawn from the cow shall not have been cooled by submerging the vessel in which the milk is contained in cool water to a depth equal to that of said milk in the vessel, or else cooled by a process of aeration, and kept in a cool place at a temperature of not higher than seventy-seven degrees (77 deg.) Fahrenheit until removed for delivery thereof.

7th—Milk which has been diluted with water or with any other fluid, or to which has been added or into which has been introduced any foreign substance whatever.

8th—Milk drawn from cows or by milkers that are themselves in a condition of filth or uncleanness.

9th—Milk which is shown by analysis to contain any substance or substances of any character whatsoever not natural or normal constituents of milk, or to have been deprived either wholly or in part of any constituent naturally or normally contained in milk.

10th—Milk containing any preservative or antiseptic.

SECTION 8. It shall be unlawful for any person or persons, firm or corporation to have or carry on any wagon or vehicle upon or from which milk or cream is being or is brought, carried, stored, deposited, sold, exchanged, delivered or distributed, or offered or exposed for sale or distribution as food for any human being, any swill, garbage, refuse or any decaying or fermenting, putrefying, foul unwholesome, noxious or filthy matter, or any cans or receptacles containing any material or substance with which cream or milk might be diluted, adulterated or rendered impure, unwholesome or unhealthful.

SECTION 9. The Board of Supervisors of the City and County of Honolulu shall appoint one or more milk inspectors as may be necessary to carry into effect the provisions of this ordinance. The salaries of such inspectors shall be fixed by the Board of Supervisors. Said inspectors shall have all the powers and shall perform all of the duties provided in this ordinance, and shall have such other powers and perform such other duties as may be hereafter prescribed by the Board of Supervisors.

SECTION 10. It shall be the duty of the City and County Physician to exercise practical supervision in respect to such milk inspectors, and said milk inspectors shall be subject to the direction at all times of said City and County Physician. Said milk inspectors shall make weekly reports to the said City and County Physician of their official doings.

SECTION 11. In order to carry out the purposes and provisions of

this ordinance the City and County Physician, the milk inspector or inspectors and any other duly authorized officers of the City and County of Honolulu, and any member of the health and sanitation committee of the Board of Supervisors, shall have the right at any and all times to enter upon or into the premises of any producer or vendor or distributor of milk authorized under the provisions of this Ordinance, and any refusal on the part of such producer or vendor or distributor to allow such entry and such inspection as may be required by such City and County Physician, milk inspector or other officers, may be punished by the revocation of the permit of such producer, vendor or distributor by the said Board of Supervisors. And it shall be unlawful for any person or persons, firm or corporation to obstruct or interfere with the City and County Physician, a milk inspector or any other duly authorized officer or employe of the said City and County in the performance of any of the duties required by this Ordinance.

SECTION 12. It shall be the duty of the milk inspector or inspectors to inspect from time to time all dairies and other milk establishments in the City and County of Honolulu, for the purpose of satisfying himself or themselves that the provisions and requirements of this Ordinance are being observed and obeyed.

SECTION 13. The City and County Physician, the milk inspector or inspectors and other officers of the City and County as hereinbefore described shall have the right to enter and have free access, egress and ingress to all places where milk is stored or kept for sale, and to all wagons, carriages or other vehicles, railroad cars, steamboats, or conveyances of every kind used for the carrying or transportation or delivery of milk for the purpose of consumption in the City and County of Honolulu.

SECTION 14. The City and County Physician and the milk inspector or inspectors shall have the right at any time to take samples of milk from any person, persons or concern selling or exposing for sale or exchanging or delivering or distributing milk in the City and County of Honolulu not exceeding one quart for each sample, such sample to be taken in full view and in the presence of the person from whom said sample is taken, and shall then and there furnish to the person from whom such milk is taken one-half of such sample sealed, and shall retain and seal the other half of said sample. Such sample so retained shall have written thereon an identification number, the date of the taking of the sample and the name of the person by whom it was taken, and a memorandum thereof shall be made by the person taking such sample in a book to be kept for that purpose, showing the name of the owner or driver from whom taken, the date when the same was taken and the number of the dealer's permit.

SECTION 15. Nothing herein contained shall be construed to prevent the use, sale or manufacture of what is known as condensed milk, or what is known as buttermilk, or what is known as sour milk, provided the same are made, compounded or prepared from pure, clean, fresh, wholesome and unadulterated milk within the meaning of this Ordinance, and are in sound and wholesome condition; and provided also that in the case of condensed milk the proportion of milk solids shall be not less than twenty-eight per cent. (28 per cent.), of which not less than twenty-seven and one-half per cent. (27 1/2 per cent.) shall be milk fat.

SECTION 16. Pure skimmed milk shall be permitted for sale or delivery, provided that the cans or vessels containing it shall be distinctly labeled "Skimmed Milk" in letters one and one-half inches high.

SECTION 17. Any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than five dollars (\$5.00) and not more than one hundred dollars (\$100.00), or by imprisonment for a term of not exceeding three months, or by both such fine and imprisonment.

SECTION 18. This Ordinance shall take effect thirty days after the date of its approval.

INTRODUCED BY SUPERVISOR R. W. AYLETT. Date of Introduction Feb. 8th, A. D. 1910.

The foregoing Bill was, at a regular meeting of the Board of Supervisors of the City and County of Honolulu held on Tuesday, February 8th, 1910, ordered pass to print on the following vote of said Board: Ayes: Ahia Aylett, Cox, Kane, Logan McClellan, Quinn. Total 7. Noes: None.

VIEWS ON PROHIBITION

(Continued from Page One.)

If you are going to restrict the free use of drugs, you should restrain the promiscuous dispensation of liquor.

I then approached a business man.

"It will eventually ruin Honolulu," he said. "When you come to realize what the revenues from the liquor licenses amount to annually and the money that is spent in this town by tourists, and that expended by the soldiers if the posts you cannot fail to realize and see the danger to our commercial side. There are now investors or rather intending investors awaiting the result. And if prohibition passes, they will depart to invest elsewhere. Surely they can foresee the result financially. The only money that is spent in Honolulu by the posts is for cigars, tobacco and liquor. All else is furnished by the government. That means after prohibition passes, we can look for nothing from that quarter. The money that the boys spend circulates through the town and keeps business moving. Of all the movements which could be advocated for Honolulu's disparagement, this is the worst. No, I do not believe there will be tourist traffic after this movement comes into effect. There is little enough now in Honolulu, without taking that away. This cry of the poor Hawaiian is rather insane, and comes at a pretty late day. After the Hawaiian has nothing more to lose, they are afraid he will lose it. If they are so interested in 'The Poor Hawaiian,' let them remove from the streets the blind Hawaiian beggar, a spectacle never seen before here. I make you a safe bet what coins he does get are dropped into his palm from the chaps who have come from the bar."

The next on my list was a society woman of Honolulu, and as it did not affect her greatly, her opinion was neutral.

"I should be very glad to see every saloon in this city with closed doors. I have nothing to gain or lose, but I cannot see that the humiliating position of the native Hawaiian today is due to spending his honest wages within those doors. He has lost everything, even his sense of pride, and seems an outcast in his own land. Most Hawaiians mortgaged their homes for gin, and now there is no home left, but a tenement in some foul oriental lodging house. I think the soldier boys should have their canteen. Society? Ah well, society cannot be affected in any way I am sure by prohibition."

And then I spoke with an intelligent wife and mother.

Prohibition? Well, I am sure it cannot come too quickly for some of us," she said. "Men may prate of business affairs and the loss of money, but money cannot buy happiness, and what is the loss of it compared to the forfeiting of respect and refinement of the home? Men talk somewhat idly of women staying at home to mind their children, when approached about the ballot, but what can they answer when you tell them, that many a woman has no home through having no voice in the affairs which controlled it. I believe that that many a woman has no home on of voting on the question of prohibition, there will be no more saloons. I myself do not advocate total prohibition, for there are many men who are temperate in their consumption of liquor, but what I do say is this—that the licenses granted to saloon men should be high. Not only if Congress grants the right to women would fewer be able to pay it, but it higher grade article. They could not afford to sell a good article cheaply. And naturally, the men who require a good standard would get it, while those who are selling their souls for a polluted grade of liquor, and squandering the wages which belong to the wives and children would be deprived of the home-breaking stuff which now saloon men sell them. I think, too, that the number of saloons should be restricted, and that those few with licenses should be under the strict surveillance of the authorities. And also there should be a list of incompetent men in whose behalf their wives have pleaded, to whom if liquor were sold in an intoxicated condition, the license would be forfeited. There seems to be a law concerning this now, but I have proved it to be very lax.

"A man, as my wife will tell you,

who has had experience, is entirely transformed by liquor, and many a gentle and loving husband and father is changed to an inhuman brute, under the influence of intoxicating stimulants. You know Bishop Simpson of New York once told Mrs. Cady Stanton there would never be prohibition till the great army of suffering wives and mothers and sisters marched in a body to demand it at the polls. I am glad the women are coming to the front. Were there no liquor, there would be fewer jails and poor-houses."

Taking this as a suggestion I visited the Police Station, where I obtained the following hard facts:

"What percentage of the cases of assault and battery can be justly attributed to intoxication?" I asked a judge of this city.

"I think I am perfectly safe in saying fifty per cent.," he answered.

There are two thousand one hundred and ninety-five other convictions for various crimes for which it is possible that liquor may have been responsible either directly or through inheritance, so those who may quaff at the material harm which can be averted by prohibition will have ample opportunity for speculation.

After setting a number of cases for trial this morning U. S. Judge Robertson, at the instance of Assistant District Attorney Rawlins, ordered a recess until 11:45 to await a report of the grand jury.

The grand jury came out of District Attorney Breckons' office, however, at 11:30 and Judge Robertson having been sent for resumed the session at once.

Norman Watkins, foreman, presented a partial report of the grand jury containing nineteen indictments, which Mr. Rawlins moved be placed on the secret file and that bench warrants be issued for the persons indicted. It was so ordered.
