INDURINE

A COLD WATER PAINT

A SUBSTITUTE FOR OIL PAINT AND WHITEWASH.

AN EXCELLENT FIRE RETARDANT AND DISINFECTANT.

Especially Designed For INSIDE Work on . . . Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash. It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor.

It will not set in the mixing vessel, in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping. IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered.

Is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.

Outside Indurine!

This is for OUTSIDE Work

Such as Fences, Outbuildings and Laborer's Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure as well as oil paint, and costs but a fraction as much. It is fire-resisting as it contains no oil, and has no equal as a light reflector in dark basements, damp cellars and similar places. It is supplied in colors.

THURSTON FIRED.

Secretary Gresham Gives Him His Passport.

HE ACCEPTS THE SNUB GRACEFULLY.

The China's mail brings intelligence that Secretary of State Gresham has given Lorrin A. Thurston his passport, so that he is no longer Minister of Hawaii at Washington.

Mr. Thurston will leave the country without waiting for formal notice from his Government to return.

Mr. Thurston is represented in Washington dispatches as having accepted the indignity gracefully and preserving a dignified silence.

For the present Frank P. Hastings will have charge of the Legation.

The New York Herald says that Secretary Gresham has been seriously considering the deportation of Thurston. He has been for a long time both officially and personally obnoxious to the Administration.

The Herald man says: "I am told that the State Department officials have been looking into the question of the right of the United States to direct the deportation of an obnoxious alien, and they have come to the conclusion that there is no legal obstacle in the way."

"The expressed intention of Minister Thurston to remain in the United States after he had severed his diplomatic relations for the purpose of furthering the annexation cause is thought to be the particular reason which caused the Secretary of State at this time to consider the propriety of ordering him to leave the United States."

JUDICIARY NOTINGS

Several Interesting Decisions—Matters at Chambers.

Bruce Cartwright has, on his own petition, been discharged as trustee of Nancy Sumner Ellis, by an order signed by Chief Justice Judd.

Judge Cooper has given a decision in Lucy Kila vs. S. K. Kila, ejectment, jury waived. It is in favor of plaintiff for possession of Apana B, a portion of Royal Patent 1801 L. C. A. 61, F. L. Magoon and Achi for plaintiff; Poepee and Johnson for defendant.

The Supreme Court, by Justice Bickerton, has rendered a unanimous decision in Republic of Hawaii by N. C. Wilfong, Deputy Tax Assessor, vs. Henry West and vs. E. Kekoa. Following is the syllabus:

"The Assessor-in-Chief, being paid a regular salary, has no pecuniary interest in a suit for the collection of taxes."

"The Republic of Hawaii is the party plaintiff in such suit."

"The Circuit Judge, being the father of the Assessor-in-Chief, is not disqualified to sit in such a case, under Article 89 of the Constitution."

The cases are remanded to the Fourth Judicial Circuit Court for trial. Deputy Attorney-General Robertson for plaintiff; Kane for Kekoa.

The Supreme Court, by Chief Justice Judd, has rendered a decision in W. H. Cummings vs. Mrs. Nau Laukea and J. K. Laukea, defendants in error, of which the following is the syllabus:

"An amendment was allowed by the Court to a petition for a writ of error by inserting an allegation that the judgment complained of was not fully satisfied, this appearing to be the fact and the amendment not appearing to prejudice the defendants."

"A writ of error and a bill of exceptions are concurrent methods for the correcting of errors made in the lower courts, the conditions and limitations in each method being different."

"To avail one of a writ of error it is not essential that the point has been raised in the court below and made the subject of exceptions."

"The failure of the clerk to note on his minutes that a demurrer had been argued and overruled and exceptions noted does not suspend or postpone the judgment entered on the verdict."

The writ of error is quashed on the ground that it was not sued out within six months after rendition of judgment. Achi for plaintiff in error; Johnson and Kaulukou for defendants in error.

Edma Genevieve Trousseau, widow of the late Dr. George Trousseau, has brought suit against Bruce Cartwright and Hugh E. McIntyre, executors of the will of the said doctor, for 136,655 francs and 50 centimes, with interest from January 1, 1894, equivalent to the sum of \$27,331.16 with interest from November 19, 1894, according to the particulars of an agreement whereby decedent paid 5000 francs annually to the plaintiff until the end of the year 1893, but paid nothing upon the principal sum of 130,865 francs and 50 centimes. Antonio Perry is attorney for the plaintiff.

LI HUNG CHANG SHOT.

Cowardly Assault By a Japanese on the General.

As Li Hung Chang, the Chinese peace envoy, was returning to his lodgings at Shimomesei on March 24 after having attended a conference with Count Ito and Viscount Mutsu, the Japanese peace plenipotentiaries, a young Japanese fired a pistol at him. The bullet sped straight, but most fortunately did no more harm than to inflict a wound in Li Hung Chang's face. At the time of sending this dispatch it is impossible to learn whether or not the wound is serious.

The attempt to assassinate the representative of the Emperor of China caused the most intense excitement, and on every side there were expressions of deep regret. The would-be murderer was arrested. It is believed that he was prompted to the crime by misguided patriotism.

London, March 26.—Li Hung Chang is making good progress toward recovery from the effects of the bullet wound in his face inflicted yesterday by Moyama Kokunosuki. The wound has developed no dangerous symptoms. The would-be assassin is reported to be a lunatic. Li Hung Chang objects to the extraction of the bullet, which lies a centimeter under his left eye. The wound is three centimeters deep. The Empress of Japan has sent two nurses to attend him. Letters and telegrams expressing regret and sympathy are pouring in from all directions.

Lumber Sale.

There was quite an assemblage of lumber merchants on the city front in the vicinity of the Oceanic wharf this forenoon. A quantity of lumber was to be put up at auction. The majority did not stay very long, as an agent of the firm of W. G. Irwin & Co. froze them out. The lumber was brought here on the three-masted schooner W. F. Jewett. Fairly good prices were realized. Spruce sold at \$25.50 a thousand feet, rustic at \$9.50, dressed lumber at \$18.50 and cedar at \$16.50. Laths sold at \$3.25 a thousand.

Japanese Labor.

The following disposition will be made of the Japanese immigrants which came on the S. S. Independent. It is the last of the Japs who came on that steamer. They will be sent out this afternoon on the steamer Kinan: Paauhau plantation, 88 men and 23 women; Ookala plantation, 15 men and 2 women; Kukaiau plantation, 30 men and 7 women.

Mr. Hartwell's Address

EDITOR BULLETIN:

I went on Thursday evening last to the annexation meeting solely to hear the speech of Judge Hartwell. I expected to hear a good and sufficient reason why these Islands should be annexed to the United States. I was terribly disappointed. The main reason given was "that Hawaii was now, and in the future would be the key to the maritime dominion of the Pacific after the Isthmian canals are cut." This is illusive. It was true under the former condition of Pacific navigation, but, according to the report of the American Commissioner in 1886, Samoa is and will be of far greater importance to America than Honolulu. Even in 1886 there was landed at Apia, under all the existing disadvantages, over \$200,000 of American goods shipped by sailing ships from San Francisco. In nine weeks of his stay he saw three sailing ships unloading their cargoes to American and English houses. That was nine years ago; the increase since is enormous. The position of Apia makes it a distributing point for a very large proportion of Polynesia whose islands are continually increasing in their demands for manufactured goods. Again he says: "The Islands, with Australia, will open up markets more than sufficient to absorb our surplus production and it needs no prophet to assure us that Hawaii will resign to Samoa the key of the maritime dominion of the Pacific."

The judge pleaded for a forgetfulness of the theft committed by an American Minister and an American captain of the navy. He also made assertions in connection therewith which he knew no one believed in. If the American Government had done as they did in Samoa—insist on the restoration of the status quo existing before the theft, there might be forgetfulness of wrongs. I wish to call the judge's attention to the seventh annual message of that great American General, Jackson. The citation is too long for this letter. I was more than surprised at the judge's quoting "Gloster's Soliloquy," but it was very applicable. If you remember at the time of this supposed soliloquy, Gloster was studying the carrying out of a policy which placed him at the head of all the crowned rascals and scoundrels England has produced. I will conclude with a part of Hamlet's soliloquy which in my opinion is more appropriate: "It is better to bear the ills we know than fly to others that we know not."

Honolulu, March 30, 1895.

Wants a Time Table.

EDITOR BULLETIN:

For the benefit of the Honolulu public something should be done as regards the running of busses. Every day we see busses from different companies leaving the terminus at the same time. This should be speedily looked after at once. For many days I have watched with keen interest and studied its results and have come to the conclusion that these bus lines should run on schedule time, to suit and benefit the passengers.

Many of us mechanics have to go to our daily labor, places of business, etc., on time, and we cannot use the busses under the present system. Now I, as one who lives outside the city limits, and one who has to ride to my place of labor, would like to see the Minister of Interior do something for the public benefit as regards the running of busses, on varied schedule time.

Fantasia—Let's be a Soldier Ellenberg
Waltz—Jolly Girls Vollstedt
Schottische—Little Alabama Coon Starr
Hawaii Ponoi.

Now that the war of the revolution is over, it is the duty of every man to support the existing form of government. Although things may not move with that cordiality that would ensure an everlasting peace, still they may be allowed to subside into that indifference without animosity that would allow either party to work out their best interests. All things considered it may be for the best, but time, the only arbitrator in such cases, must alone decide that James T. Stewart is a Plumber and will do your work in good shape and at figures that will give you satisfaction.

Blood Poisoning

13 Running Sores Gave Way to Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.:
"Gentlemen—Thirteen years ago I was in Cour De Alene, now called Fort Sherman, Idaho. While there I went in swimming one day and caught cold, chilling the bone in my leg, causing a fever sore on my limb. The sore continued about three months, continually rotting my leg until it got up to my knee, when I had the limb amputated. My leg was so rotten that after the limb was amputated the foot dropped off. From this state I got blood poisoning and had

Thirteen Running Sores on my body. These sores continued from three to four years, my blood being in a terrible condition. After this I commenced taking Hood's Sarsaparilla. I used three bottles and found it did me good, so I kept on until I had used ten bottles or more. My blood was completely cleansed. The sores stopped running and have not troubled me any now for six years. My appetite and digestion are good and I am perfectly well. I owe my cure to Hood's Sarsaparilla." P. S. News Notes.

Under a recent law foreign dogs are no longer admitted into Iceland. The measure is due to the fact that in 1893 a foreign dog was proved to have introduced a malady previously unknown which killed the greater part of the shepherds' dogs on the island.

Some of the radical members of parliament intend to urge on the British Government that both the Welsh disestablishment bill and the Irish land bill shall be referred to grand committees, in which the nationalities concerned shall be granted special representations.

Touching instances of the recent stress of weather come from the mountainous districts of Wales. At Ffestiniog a sheep walked into a house and placed its fore legs on a woman's lap to beg a bit of bread which she held in her hand. At Barmouth a robin took up quarters on board a steamship and accompanied it on its voyage to Liverpool and return. At dinner hours it hopped on to the table and dined with the captain.

The German chancellor does not accept "conscience money" as complacently as the British Government. Somebody in Frankfurt recently sent \$750 marked in that way, and the treasury has issued a public notice calling upon the offender to disclose himself, failing which he was warned that he will have to pay over again if he is discovered, besides rendering himself liable to prosecution for defrauding the revenue.

There is a strike against the hospitals in Vienna. In Austria the private doctor is almost unknown, as nearly everybody belongs to a medical club, by which, on paying of a trifle, medical attendance is furnished whenever required. These clubs have long had an agreement with the public hospitals to give admission to sick members for 36 cents a week. The hospitals are now trying to raise the rate to 50 cents per week and the clubs have struck against them.

A small colony of about forty lepers has been established in Vilnius, in eastern Siberia. At present the lepers are housed under tents, but huts are to be built for them in the spring, and the government has granted the settlement an annual subsidy of 7000 rubles, which will enable provision to be made for 100 lepers. Those of the inhabitants of the settlement who are still able to work engage in gardening, fishing and even hunting. A church for their special accommodation is in course of construction.

At the little Breton town of Paimpol the quaint ceremony of blessing the Iceland fishing fleet took place recently. It was announced by the clamor of the belfries, and after vespers the procession, with sailors at the head, traversed the principal streets, which were decked for the occasion. On the breakwater the cure of St. Saviour's preached to the 1316 hardy mariners in front of the fifty-six stout boats that were to carry them to the far north. Then, preceded by the cross, the canon blessed each vessel separately, the flag of each dipping in response.

One of the most ancient customs of France, collecting of octroi duties, is about to be abolished at Lyons. This system of levying taxes on commodities at all the gates or approaches to a town is very expensive, as well as troublesome, but it dates back to a very remote period, and in Paris it furnishes about one-third of the municipal revenue. It could not, of course, be abolished at Lyons any more than in Paris without a substitute being devised, and the Lyons municipality is preparing a scheme to take its place, which will have to receive the sanction of parliament and the government.

The Value of Experience

is plainly shown in our treatment of ourselves in health and sickness. When we are well, feeling splendid, we ignore the possibility of sickness. But overwork, high living, inherited poor blood, irregular courses, etc., develop symptoms of weakness, of dyspepsia, liver complaint, and the general health fails. You should know by experience, as thousands do, that by taking

Brown's Iron Bitters

whilst in health the system would never run down and doctors' bills would not have to be paid. This is a fact worth remembering and of vital importance to you. BROWN'S IRON BITTERS is an old and reliable remedy, your grandmother knew it well, and in no other form can iron—the great strengthener—be taken so easily. Small dose and pleasant to take. It won't stain your teeth.

Reliable druggists will not attempt to substitute, but it is well to use caution. Look for crossed red lines on the wrapper. The Sign of Genuineness. BROWN CHEMICAL CO. BALTIMORE, MD.

*Pledged to neither Sect nor Party,
But Established for the Benefit of All.*

TUESDAY, APRIL 2, 1895.

There will be general concurrence in the proposal to erect a band stand at Makee Island, Kapiolani park. Individuals have already subscribed a respectable nucleus for the required fund. The stand should be designed so as to be an ornament and not an eyesore. The park affords scope for a great deal of improvement to make it more of a popular pleasure and recreation resort. This paper long ago advocated a Government appropriation for a band stand on Makee Island.

It may be necessary to tell our old friends that the BULLETIN does not care to open its columns for any more thrashing out of the question of 1893. Yet space is found for a correspondent who reverts to the question to-day, whose reason given privately is that Mr. Hartwell saw fit to open it up in his speech the other night. There is a lesson in this fact to which the revolutionists of 1893 might take heed. If they wish to have the dead past buried, they should avoid dragging the corpse out themselves.

ANNEXATION

No small amount of talk is heard these days about the sincerity of the Government and a powerful section of its original supporters on the question of annexation. That was the chief motive, next to resenting of the sovereign's action in springing a new constitution on the country, for the revolution of 1893. It is really necessary that the Government should occasionally give some evidence of good faith in the matter. As straws showing how the wind blows there are circumstances occasionally cropping up which tend to show insincerity on the part of the Government in the matter. One of these was the fact of the apparently studied attempt to throw cold water on the recent action of the American League to bring the natives into a mass meeting for a discussion of the subject. The word subject is here used advisedly, for the matter was not left a question either by the proclamation of the Provisional Government or the Constitution of the Republic proclaimed on the last fourth of July. Annexation was by those documents made a fundamental principle of the new regime, and not left an open question in anywise. Now, what is the Government doing about it? There is a deep-rooted opinion among the dissidents of the revolution of 1893 that a grand mistake was made when the Provisional Government made itself a tail piece to the Republican party's kite in the United States. They think that annexation would have been far advanced on its way at this time if the Hawaiian Government had through its two representatives at Washington pressed a treaty of political union upon President Cleveland and the Democratic party after the President had abandoned the policy of restoration

of the monarchy. Influential members of the Democratic party, such as Senator Morgan, are known to be strongly in favor of annexation of the islands, and if the unusually high-priced diplomacy this Government sees fit to maintain at Washington were properly directed there is a probability that a combination of members of both parties in the United States could have been obtained which would carry the initial policy of this Government. Perhaps some effort has been made in this direction, but if so the mouthpieces of the Government are wonderfully silent on the subject. When the mass meeting of the other night was broached one of the Government organs was good enough to condemn it in a sneaking sort of a way as being scarcely opportune. After the event that paper, evidently having had the riot act read to it for its attitude on the event, switches round to bitterly assail its fellow-organ for sneering at the mass meeting. As to some of the Government's chief support, it is stated on excellent authority that the planters on the other islands make no bones about opposing annexation flat-footedly. The people at large all the same see no hope of stable government in anything but annexation. They do not want annexation of the Alaska kind, as described in an official citation by a correspondent the other day, but they expect that the Government shall steadfastly promote a scheme of union with the Great Republic, which will give the islands home rule as to local affairs, equal rights to all the intelligent classes of the body politic, and the strong protecting arm of a great nation over the country as an integral part of itself.

People Who Write

on typewriters marvel that busy business men still cling to the pen process. The business man using a typewriter would not voluntarily return to the old method, because he can turn off more work, of a better quality, and with less effort on his machine.

The Man Who Never Used a Typewriter

believes the task of learning to write a difficult and hopeless one. Try. Others have learned; you can. Your first attempt will probably reveal the fact that you do faster work with the pen. That's quite natural; you are just learning. Your next trial will surprise you. Your fingers go to the right keys instinctively. It becomes easier and you will then begin to realize the usefulness and benefit of a typewriter.

CHOICE OF A TYPEWRITER

will either make or mar your writing happiness. For the business man desiring a machine, that combines speed, durability, does perfect work, and lastly, has the easiest keyboard to learn, buy the

NEW CALIGRAPH.

This typewriter stands at the head. It has all the latest improvements.

Timely Topics

March 11, 1895.

Is Hawaii to be without a cable through the action of the United State Congress, or will the people here awake from their sleepy ideas and tell Uncle Sam to do something or let England have Necker Island and go ahead with the work. Hawaii is as much in need of a cable as any place on the globe and other governments need the cable to Hawaii as much as we do. Why then should the government that feels a fatherly interest in a country stand in the way of its development.

Suppose the manufacturers of the Avery Plantation Implements would refuse to send them to this country would it be considered a square deal? The planters on Hawaii who are using these different implements are well satisfied with them and are willing to recommend them to other managers. They are coming more and more into general use; in another year there will not be a plantation on the Islands that will not use them. The following letters from such prominent managers should be convincing proof of their superiority:

ONOMEA SUGAR COMPANY,
PAPAIOU, HAWAII, Feb. 25, 1895.
MR. JOHN A. SCOTT, Wainaku, Hawaii.

DEAR SIR.—The Onomea Sugar Company has now in use three of the Stubble Diggers.

I think these machines are indispensable for the proper cultivation of ratoon.

We have never had an implement that would so thoroughly loosen the earth around the stools, and put the soil in such condition that the air, moisture and fertilizer would so readily find access to the fine roots of the cane and the soil around them.

I am glad to testify to the merits of these tools. The Sugar Land Disc Cultivators arrived too late for much use in the cultivation of the last young plant and ratoon, but I believe they will prove to be very useful and labor-saving implements in districts where cane is raised without irrigation.

Yours truly,

WM. W. GOODALE,
Manager Onomea Sugar Company.

HUTCHINSON PLANTATION COMPANY,
NAALEHU, HAWAII.

March 1st, 1895.
E. R. HENDRY, Esq., Hawaiian Hardware Company.

DEAR SIR:—In answer to your letter inquiring about the Avery Stubble Digger and Fertilizer Distributor, I would say that the fact that we have just received the second Stubble Digger speaks for itself. We have dug over four hundred acres of ratoon stools and consider it will be a great benefit.

The Fertilizer Distributor is a good thing and has effected a material saving of labor in the application of Fertilizer and applies it better than can be done by hand.

These machines are very simple and well constructed and we have had no trouble with the working of them and we consider them one of the most useful labor saving machines that can be used on plantations.

Yours truly,

G. C. HEWITT,
Manager H. S. P. Co.

HAKALAU, HAWAII,
February 16, 1895.

MR. E. R. HENDRY, President and Manager Hawaiian Hardware Company, Honolulu, Oahu:

We use the Avery Stubble Digger, Fertilizer Distributor and Cane Cultivator. They save labor and do the work claimed for them. The Stubble Digger I consider a particularly good implement.

Yours truly,
Geo. Ross,
Manager Hakalau Plantation Co.

Von Blumer—"Exactly. Don't you know whether to write out the figures or not. Don't know whether the cheque should be signed or endorsed on the back. My dear woman, didn't I give you five hundred dollars three weeks ago to open up a bank account with, so I wouldn't have to be bothered about it any more?"

Mrs. Von Blumer—"You did."

Von Blumer—"And didn't I spend nearly half a day in showing you how to make out a cheque?"

Mrs. Von Blumer—"Certainly. But—"

Von Blumer—"But you forgot it the next day, and I had to show you all over again. My dear, can you sign your own name?"

Mrs. Von Blumer—"Of course. I wish—"

Von Blumer—"Can you read the printed part of a cheque?"

Mrs. Von Blumer—"Won't you—"

Von Blumer—"Then can't you fill it in? Here's a bill, for instance. First satisfy yourself that the amount is correct. Then fill out your stub, then the cheque. Sign it, tear it out, and mail it with the bill."

Squad Eight

Squad 8 of the Citizens' Guard had an interesting meeting yesterday evening. There were several grievances aired, one being that members of the squad should not be subjected to trial by courtmartial for failure in complying with rules and regulations of the company. The meeting also came out against its members being under obligations to anyone but Marshal Hitchcock. A committee consisting of Sergeant J. Simonson, E. Hingley, C. Brown, J. H. Black and C. Dwight was appointed to confer with the officials in regard to the matter. It is probable that nothing will be done until the return of Marshal Hitchcock.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3004 tons. This is fully 10 percent more than the best work of former years."

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company."

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality."

"I continue to find the megass from shredded cane better fuel than from whole cane."

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons."

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

Change of Business.

Williams Bros., furniture dealers and undertakers, on King street, have dissolved partnership, the elder son, Henry, retiring. The original founder of this old established business, C. E. Williams, has returned to the islands and will in conjunction with his son, Ed. A. Williams, conduct the business in the future.

Ed. A. Williams is a practical undertaker and expert embalmer, having graduated with high honors from Clark's school of embalming. Clark's school is the most noted one of its kind in the world and no one can get a diploma there until he is thoroughly conversant with the business. The BULLETIN wishes C. E. Williams & Son all the success their years of experience demand.

S. S. Warrimoo.

The R. M. S. S. Warrimoo, 3326 tons, Chas. E. Bird, R. N. R., commander, left Sydney, March 18, at 2 p. m., cleared heads 3 p. m. Passed Mount Washington, 24th, at 3 a. m., arriving in Suva the same date. Left at 9 p. m., clearing the Fijian Group at noon next day; sighted Oahu, April 2, at 3 a. m.

Experienced, on leaving Sydney, strong southerly and southeast winds, with rainy weather and high seas until the 23d, thence light winds and dull overcast weather with smooth seas to Suva. Left Suva with fine clear weather. Thence had strong trade winds and fine weather with high seas to arrival. Heavy squalls of rain on Equator.

A Great Battle

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore bodily health for many years.

Hood's Pills cure nausea, sickness, indigestion and biliousness. 25c.

Card of Thanks.

We desire to extend our heartfelt thanks to the ladies of the Strangers' Friend Society, to Dr. Kobayashi for his free attendance, and others for their kind attention during our recent illness and for their benevolence.

Mrs. Isa Griggs.

Ennis, Texas.

The restoring and invigorating properties of Hood's Sarsaparilla, combined with its power to vitalize and enrich the blood, render it peculiarly adapted for all troubles peculiar to women, that tired feeling, or debility, caused by change of season, climate or life. Many weak women have found in Hood's Sarsaparilla just the blood purifying and vitalizing properties so much needed at the critical time of life. It invigorates the system and all the organs to healthy action and endows the body with renewed vigor and perfect health. Such was the experience of Mrs. Isa Griggs, whose letter follows:

"Ennis, Texas, Sept. 22, 1894. "C. I. Hood & Co., Lowell, Mass.: "Dear Sirs: I feel it is courtesy due to you to state what Hood's Sarsaparilla has done for me. About fifteen years ago, overcome and the use of morphine discontinued, but it was not so decreed. I broke out with boils from the punctures and some of the places had proud flesh in them for a month or so. Last winter I commenced to have those risings again. I was taking eight punctures a day, a total of one and one-half grains of morphine. Last June I

Began to Take Hood's Sarsaparilla. I have taken over seven bottles of the medicine and also several boxes of Hood's Pills. When I commenced taking Hood's Sarsaparilla I weighed only 112 pounds. Now I weigh over 125 pounds and am in better health than for the past fifteen years. I am now approaching 50 years of age. Formerly I was covered with eruptions; now my skin is clear of them. I can truly say Hood's Sarsaparilla has no equal for poor run-down women. I am well known here in

Pure Milk. Jewelry!

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasture switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feeds upon, and no longer wonder at the richness of the milk from our dairy. Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

Real Estate and Loans

The enlargement of the LOAN Market so as to cover the wants and necessities of the large number of honorable people who are not owners of unimproved Real Estate was one of the most necessary innovations of recent years. To many it has meant relief from pressing claims at the very time when most essential. When properly and honorably conducted this business is of equally great importance and value to the community as Building and Loan Associations have proved themselves to be.

The Hawaiian Investment Co.

Makes a specialty of Negotiating and Procuring Loans for Borrowers who are unable to discount their Notes at the Banks and who do not care to obligate themselves to some friend or acquaintance by asking his endorsements to their Note. This Company will make Loans upon Household Furniture, Pianos, Organs, Horses, Mules, Wagons, Carriages and Personal Property without removing the Property from the Borrower's possession, and all business will be conducted on a STRICTLY CONFIDENTIAL BASIS.
