IS MOVING ALONG

Charity Organization People Still at Work.

A MEETING WELL ATTENDED

How the Societies of the City Vote on the Project—Three are Opposed—\$10,000 a Year.

A meeting of the Charitable Organization Society was held yesterday afternoon in the offices of the Safe Deposit Co. Representatives from the various organizations of the city were present. These were called on to give the conclusions reached by the various bodies which they represented. The result of the different opinions expressed was that thirteen were in favor of the C. O. S., three were opposed, two were partly in favor and one was partly opposed.

The by-laws prepared by the committee were then read. The question of life membership came up for discussion. The original draft provided for a life membership which might be obtained by the payment of \$20. It was deemed advisable to strike out this clause.

The motion was made and carried that the by-laws be referred to a committee to make such alterations as were suggested. President Dole moved that all societies wishing to join the Associated Charities of Hawaii, should each choose two delegates to meet on the 25th of May, to organize the Associated Charities. Meeting was adjourned to meet on that day.

The following societies were represented: Free Kindergarten Society, Ladies' Charitable Association, Catholic Benevolent Society, Hawaiian Relief Society, Hospital Flower Society, Ladies' Society of Central Union Church, Strangers' Friend Society, American Relief Fund and Japanese Benevolent Society.

There is a divided opinion among the various societies as to the purposes and methods of the C. O. S. Those who had voted against affiliation with the central body did so on the ground that it seemed as if the necessary expenditure would be greater, while the work done would be the same as is being done now.

Statistics read at the meeting yesterday showed that over \$20,000 has been spent for charitable purposes. However, half of this was disbursed by societies that are not strictly charitable organizations, as the Kindergarten. But this leaves \$10,000 spent by actual charitable societies in one year. This amount is a fairly large one and if it were all handled by one central body undoubtedly better and more efficient results should be effected. The object of the Associated Charities is the centralization of the dispensation of charity, and carrying on the work according to business methods.

At the meeting to be held in May it is intended to get a fair start. The date was purposely set quite a while ahead in order that right knowledge of the proposed organization should be disseminated and sufficient time given the various societies for the election of delegates.

Col. J. H. Fisher.

Colonel J. H. Fisher returned by the Rio yesterday. He was accompanied by his father, Henry Fisher, a hale old gentleman of seventy-four years. He will remain here some time with his two sons, Colonels J. H. Fisher and Will E. Fisher.

Colonel J. H. Fisher is looking remarkably well. He says he enjoyed every minute of his trip. Only the fact that his business demanded his attention prevented him from staying longer. His wife and daughter are still in San Francisco and will probably not return until August.

A Bargain Day.

The soldier boys on board the Warren have not been paid for some time. Yesterday they were trying to "raise the wind" by selling part of their equipment. The vicinity of the Oceanic wharf where the transport is docked was alive with people yesterday afternoon who were bargaining with the soldiers. One had sold both his cap and coat for \$2.00. "It only cost me \$11.75," he said. Natives, Chinamen and Japanese could be seen walking away with leggings, caps and coats in motley array strung over their shoulders. But the soldiers succeeded in getting a dollar or two.

Transports Coming.

The United States army transport Newport sailed from San Francisco about three hours before the Warren,

but took a more southerly course. She should be in this evening. The United States army transports Morgan City, Senator and Ohio were to sail for Manila on April 21st from San Francisco.

MATERIAL FOR SEWERAGE.

The contracts for sewer construction will be awarded as follows: Portland Cement, W. K. Grace & Co., San Francisco. Sewer pipe, Spalding, McBean & Co., San Francisco. Cast Manhole Covers, Sessions Foundry Co., Bristol, Conn. Steel pipe, Risdon Iron Works. Dirt Buckets, Risdon Iron Works. Valves, Risdon Iron Works. Gate valves, Adams & Co., York, England. The decision in regard to the other materials on the list will be reached later. There are so many different articles and different bids that it takes considerable time to go through them.

"TED THOMAS" TOWER.

Building for Diamond Head Light Completed.

"Ted" Thomas' Tower is finished. This pile is the new lighthouse for Diamond Head. The stone edifice is erected in place of the pipe structure which Mr. Rowell, Superintendent of Public Works, first designed. The material is from Oahu quarries. The new lighthouse is something over forty feet high. The light will be 120 feet above the sea. The masonry is surmounted by a tall steel cylinder in two sections and above this metal will be placed the lamp from France. The tower has foundations five feet in diameter and the walls are two and a half feet thick. The pipes for the structure as planned originally were to be eight inches in diameter. The pipe plan had the approval of all lighthouse builders all over the world, but the masonry was forced by men in the last Legislature. Mr. Thomas has completed his contract since the 4th of March and has given all the work his personal supervision.

"Lookout, Charlie's home is a considerable distance from the new tower. Charlie will attend to the light. A five-foot bull's-eye arch has been made in the direction of Barber's Point may not be obstructed. For all purposes required the new light is the best that money can buy. It can be seen twenty-five miles and is in line with the Mokolai and Barber's Point lights. Its position is that suggested by the majority of mariners visiting this port and fixed upon by Capt. King, Minister of the Interior. Contractor Thomas is leaving the tower job today and hopes to begin next Monday morning on the station house addition.

WAVERLEY CLUB.

Committee's Appointed—Collections—Coming Holiday.

At last evening's meeting, A. V. Gear presiding, the following committees were appointed for the present quarter: Finance—A. B. Scrimgeour, chairman; J. T. Copeland, E. C. Winston, C. Lind and W. Brash. Enrollment—C. K. Spencer, chairman; E. B. Thomas, J. Monkhouse, Jno. Bryant and A. V. Gear. Hall and Entertainment—W. Horace Wright, chairman; H. J. Gallagher, J. D. Conn, A. P. Morris, J. A. Mehrtens. Dues to the amount of \$55.50 were reported paid since last meeting.

The Hall and Entertainment committee were authorized to tender the hall to the British residents for their Queen's birthday meeting.

EXTENSION ENDORSED.

Meeting of Prof. Rolfe and the University Club. A special meeting of the University Club was held last evening at the home of Geo. R. Carter. Justice Frear presided. Professor Rolfe was the guest and the principal speaker of the evening. He detailed the methods by which the work of University extension was carried on in the United States and made clear the vast benefits available to those taking up the courses. In conclusion Professor Rolfe said that the question of whether or no University Extension should be established and maintained here was a debatable one. He would leave it entirely to the University Club and would like to hear views and discussion. Remarks were made by nearly all of the score of gentlemen present. After the debate a resolution endorsing the Extension work for Honolulu was adopted by unanimous vote.

Mr. Williamson, who will represent the Call-Herald in Samoa, slipped out of San Francisco very quietly, his name not appearing on the passenger list of the Mariposa.

ORDER OF TRAVEL

How "Johnny" Will Leave Manila for Home.

FIRST CALIFORNIA AT HEAD

This Command was First in the Field—Second Oregon—John Barrett's Opinion.

NEW YORK, April 19.—A Sun special from Washington says: At a conference between the President, Secretary Alger and Adjutant-General Corbin this afternoon it was decided that the volunteers should be returned to the United States in the order of their arrival at Manila. Instructions to do so will be sent to General Otis. According to the rule of procedure established, the several state organizations will be started for home in this order: First California Infantry, Second Oregon Infantry, Battery B, California Artillery, which reached Manila June 30, 1898; Batteries A and B of Utah Artillery, Tenth Pennsylvania Infantry, First Colorado Infantry, First Nebraska Infantry, First North Dakota Infantry, Thirteenth Minnesota Infantry, First Idaho Infantry, First Wyoming Infantry, First Montana Infantry, First South Dakota Infantry, First Washington Infantry, part of the battalion of the California Artillery, Twentieth Kansas Infantry, First Tennessee Infantry, Fifty-first Iowa Infantry, First troop Nevada Cavalry and Wyoming Battery.

It is the intention of General Otis to send home all the volunteers. The first expedition will leave for San Francisco between May 5th and 10th. WASHINGTON, April 19.—The following cable has been received from General Otis: "MANILA, April 19.—Adjutant-General Washington: Lawton returned from Lake country 17th inst., bringing captured vessels. Insurgents are much scattered, retreat before our forces and await an opportunity to attack detachments. The better class of people are tired of war and desire peace. Enemy build hope on the return of our volunteers to the United States. Its army is much demoralized and loss by desertion large. Will probably prosecute a guerrilla warfare, looting and burning the country which it occupies. The health and spirits of the troops good. Volunteers return will commence about May 5th. Will render willing service until return transports are available. Embarkation will continue through June and July.

"Reports from the Visayan islands continue very encouraging. Inter-island commerce heavy, customs receipts increasing. OTIS."

NEW YORK, April 19.—A Tribune special from Washington says: Fourteen thousand regulars are to be sent to re-enforce General Otis at Manila as soon as the necessary marine transportation can be procured. The first regiment to be ordered will probably be the Seventh Artillery, of which two light batteries, C and M, have been ordered home from Porto Rico for the purpose. They will be sent at once to San Francisco to await an available transport steamer. Thirteen heavy batteries of the regiment will be equipped as infantry, according to present plans, although one of them may be used as light artillery. It is not expected that the bulk of this large body of re-enforcements can reach Manila until the end of the rainy season, which has just begun, but they will follow closely the departure from the Philippines of the volunteers.

LONDON, April 19.—John Barrett, former United States Minister to Siam, who has just arrived from Manila, emphatically declares that the gloomy forebodings expressed in some quarters relative to the Philippines are not justified by the facts. "The United States naval and military authorities," he says, "have done everything possible in the difficult and exceptional circumstances, and the united support of all parties in the United States in the present juncture will enable them to bring matters in the Philippines to a quick and lasting settlement, honorable to the motherland.

AT KERR'S. Economy in these times is the watchword of success and those prudent mothers and housewives are going to Kerr's for table linen, sheetings and the like, that they may need while they send their daughters to get one or two of those beautiful shirtwaists that are being sold at half the value and former price, which even then was cheap.

STOP AT THE OWL LUNCH WAGON and take home a Hot Chicken Tamale.

Should the Filipinos, however, who are kept well informed, acquire the idea that a prolongation of hostilities would affect politics in the United States advantageously to them, the war would be more prolonged.

In the opinion of Mr. Barrett, the Filipino, as soon as he has had time to digest the recent successes of General Otis and General Lawton, and to become convinced of American superiority, will settle down to a life of peaceful and progressive citizenship.

Speaker Reed.

A dispatch from New York dated April 19, states that Thomas Brackett Reed, the noted Congressman, will give up political life to become senior member of the law firm of Simpson, Thatcher & Barnum, 10 Wall street, New York. An income of \$50,000 per year is guaranteed to him. Mr. Reed and family go to Europe for a vacation and rest. On their return Mr. Reed will resign his position in Congress and remove his family from Portland, Maine, to their New York City home.

SELECT SCHOOLS.

Board to Consider the Abolition of Fees.

At the meeting of the Board of Education yesterday afternoon it was voted that a committee of three members be appointed to consider the whole question of Government Select Schools and tuition fees. Minister Mott-Smith is chairman of this committee with power to appoint the other two members.

This move is the outcome of the discussion that has been recently going on as to whether or not the system of charging for tuition is the best one. The consensus of opinion seems to be that that the fee, however small, should be abolished entirely. The report of the committee voted by the Board will probably concur with this opinion, and propose steps for the substitution of a better plan.

It was voted to enlarge the playground of the Princess Kaiulani school. The fence will be moved towards the Reform School, making the necessary enlargement. The resignation of Miss E. Smith from Spreckelsville was accepted. Miss Blanche Allen, formerly assistant in the school, was promoted to fill the vacancy.

The usual routine work was discussed and acted upon. There was a large number of applications for schools which were placed on record. The number of applications seems to grow larger at each meeting.

Kilohana Art League.

There was a business meeting of the Kilohana Art League yesterday afternoon at which several new members were elected. The dates were also arranged for the coming exhibition, which is due in May, and which will be held in the new home of the League in the Model Block. May 10 is the day upon which members should send in their work, as the opening of the exhibition will take place May 18. Although so well understood that this semi-annual event occurs in May and November, the time generally arrives before everyone is prepared and contributors will need to realize that there is a very short two weeks in which to finish work and have it ready to be catalogued.

THE CAPTIVES.

WASHINGTON, April 19.—Considerable apprehension is felt by Navy Department officials regarding the probable fate of Lieutenant Gillmore and party. While Admiral Dewey made no mention of what steps had been instituted to secure the release of the men, if they are alive, it is confidently felt that every effort is being exhausted not only to learn the fate of the members of the party, but, if alive, to rescue them at once.

ROYAL BAKING POWDER
ABSOLUTELY PURE
Makes the food more delicious and wholesome
ROYAL BAKING POWDER CO., NEW YORK.

THE NEW SYSTEM

Perfect Telephone Service in Waikiki.

CABLE AND SWITCHBOARD

Simplicity and Efficiency—What is in Store for the City—Acting Manager.

The new branch telephone station at Waikiki has been inspected by officers of the company, with John Cassidy, superintendent of the Mutual system, as guide. The outlying "central" is in a neat little cottage on the road near the park. The force consists of one boy and one young lady, the latter a Hawaiian. In the operating room is a single switchboard of the new pattern adopted by the company. The wires are carried into the room from the floor. This place is the center of the service for the whole of Waikiki district and for communication between Waikiki and town subscribers. The arrangement for connections is simply beautiful in its simplicity and efficiency. Then as the ten trunk wires are in a cable there is absolute freedom from induction. A whisper into the transmitter does the business well enough and so perfect for their duties are the new instruments that at the receiving end a message can be heard in any part of a large room.

With this new switchboard, with which the city exchange is to be equipped, the user opens the circuit when he takes the earphone from the instrument. This action is shown by a drop in the office indicating the number that desires a connection. The operator inquires: "Number, please." The subscriber then indicates with whom he wishes to talk over the line and the connection is made in an instant. There is a tell-tale, which at Waikiki is a little white oblong space, but which in the big exchange will be a light. This shows when the caller returns the earphone to the instrument and obviates the necessity of saying "disconnect" or "off." It should be seen at once that the system is infinitely better for both operator and subscriber than the present equipment. It permits indefinite extension of switchboard, by the addition of the small sections, which will be kept in reserve by the company. The instruments must be treated well. Shouting into the transmitters will injure them. Children must not play about the telephones. One great feature of the new system is that when the connection is made, "Central" can no longer be talked at. The number called must reply. "Central" is not then in the circuit. The bell at the "other end" may be sounded by pulling down the hook of the earphone.

Professor Alexander Graham Bell, Electrical Expert, Fred J. Cross of this city and many other gentlemen competent to pass opinions have spoken in the very highest terms of the new telephone system for the city. Mr. Cassidy goes to the States in a short time now to return with the plant for the main office. He may then place some of the wires in the business part of town underground. At any rate there will be no more "induction" to bother. Where there are not the leaden cables with the copper wires inside there will be the metallic circuit instead of the present ground circuit. A couple of thousand feet of the cable which Mr. Cassidy has placed in commission, had at one time been all but sold by the company for its value as lead and copper. A marked improvement in the line in Waikiki is the placing of the poles where the tram line is so close to one side of the road, within the enclosures. The property holders along the route gave their consent for this. Miles upon miles of wire have been stored away since the cable was strung. The cable, of course, is not interfered with by trees and it has been placed on new poles in such a manner that its life is indefinite.

During the two months that Mr. Cassidy will be absent from the country, the acting superintendent of the system will be Chas. S. Crane. He is considered one of the best telephone men in the country and is familiar with the system and its operation. Mr. Crane spent a number of years in operating and in construction work.

THEY FUNK.

San Francisco Bidders Wish to Withdraw.

Victor Hoffman, of San Francisco, who received the contract for putting up the Beretania street school house has asked to be relieved from the contract. He writes that owing to an advance in the price of lumber he will be unable to put up the building for the figure specified. His bid was \$17,999.

The matter was thoroughly discussed in the Cabinet yesterday morning. The decision was finally reached that if Mr. Hoffman persisted in withdrawing the Government will declare forfeited his bond of \$1000. Although there are three other San Francisco bids lower than the local bids it is believed that the contract will now go to the lowest of the Honolulu bidders—Mr. Ouder-kirk.

Still another San Francisco man wishes to be released from his contract. This is F. P. Jones who writes that he will not be able to take the \$6000 of Government bonds owing to his money being tied up elsewhere. The bonds will be given to the highest local bidder.

Plans for the Big Affair.
Details—Committees.

Steamer day is a busy time for the business houses on account of correspondence. Hence the 6th of May, with two outgoing steamers, was not an ideal day for the Sunday School Rally.

It can be assumed that many clerks (and heads of houses for that matter) would be glad of the chance to take part in the exercises. It was on this account, as well as the fact that many of the friends of Sunday school people were going away on that day, that suggested the change to the following Saturday, May 13. There will be an important meeting today at 4:30 at the Y. M. C. A. to give the necessary information to the schools as to details of the arrangements. The following order of march has been agreed upon:

The Kamehameha band, followed by the school battalion heads the line after them come the Kamehameha Preparatory School, Methodist Episcopal, Kawaiahaeo, Christian, Japanese, Palama, Portuguese, Chinese, Kaunakapili, Central Union, Kamehameha Girls' School, Moanalua, Waikano Sunday schools in the order as above.

The position of the reviewing stand has not been absolutely determined, but it will be in the immediate neighborhood of the opera house. The reviewers will consist of pastors of the churches, and presidents of Y. M. C. A. organizations and Young People's Societies. They will be favored with the "best seats in the house" for hearing the song each individual school will sing as it passes the stand. The decoration committee met yesterday and is planning to make the whole line of march beautiful and impressive. No doubt all the schools will have a chance to assist in carrying out the ideas of the committee, considering the two large arches, three banners crossing the street and many shields to adorn poles and posts along the way, not to mention the two stands and the flag rack. Of these things as well as badges, music and more besides, much will be said at the meeting today. The music committee is requested to meet at 4 at the Y. M. C. A. today so as to be able to report at the 4:30 meeting.

HOW THE MAIL WAS SAVED.

Whew! Here it is mail day again! Letters to be written to Hawaii, Maui, and Kauai. Great Scott! There is that mass of coast mail just received and there goes the signal that the through steamer from the Colonies is sighted! I can't talk all my business over the telephone, and I must reach a dozen people before I can have needed information for my letters. Hack hire is expensive and the trams are too slow and don't touch the desired points. Must hold over some coast matter till next steamer; too bad; too bad! Time now is money indeed. Ah! Bureka! Come forth my trusted Sterling Steed; silent but faithful, strong and speedy. No limit to your endurance; well are you named Sterling, for at this moment you are a Sterling friend who saves me time and money, and my mail all goes.

MORAL:

He who would have a Sterling friend in need,
Should ride a Sterling bicycle indeed.
FOR SALE AT THE PACIFIC CYCLE & MFG. CO.

Complimentary Concert.

The band will give a complimentary concert to the Janet Waldorf company this evening at the Hotel grounds. The band of the 6th Artillery will also take part in the concert. This band is said to be about the best of all the military bands that have passed through here. The program will be as follows:

- March—"Stars and Stripes for Ever"
- Sousa
- Introduction—"Tannhauser" .. Wagner
- Selection—"Robin Hood," by request .. De Koven
- (a) Kapilina, Waiianuenu .. Miss J. Keliiaa.
- (b) Aloha no Wau, Moani ke Ala .. Mrs. N. Alapai.
- Selection by the 6th U. S. Artillery Band, C. Mindt, bandmaster.
- Cornet Solo—"The Surf," by request .. Steinhauser
- Mr. Charles Kreuter.
- Intermezzo—"Cavalleria Rusticana," by request .. Mascagni
- Selection—"A Runaway Girl," by request .. Carylil Monckton
- Finale—"Georgia Camp Meeting," Mills
- The Star Spangled Banner.

Once Circus Men.

Three of the soldier boys from the Warren proved themselves first class entertainers last evening. They wandered into the Boys' Club at Kaunakapili and amused those present for some time. One is a fine guitar player, one a clog dancer, and the third is a tumbler and acrobat. They were at one time with a circus. Their names are Holtz, Zuschlag and Lineaus. Efforts are being made to have them give an informal entertainment at the Seaman's Club before they leave.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever an opportunity offers, hoping that it may be the means of saving other lives. For sale by all Dealers, Benson Smith & Co., Ltd., Agents for H. I.

THE PACIFIC Commercial Advertiser.

W. N. ARMSTRONG - EDITOR

FRIDAY : : : : APRIL 28.

WHITE IMMIGRATION.

Mr. W. O. Smith, whose views on any subject connected with our local affairs are always interesting, and are generally valuable, says in the paper which he sent to the joint meeting of the Executive and the planting interest last week that: "The necessity of depending upon cheap Asiatic labor is removed. But the employers will not seek the higher priced labor so long as the cheaper class is available."

The Advertiser has persistently advocated the introduction of American laborers here for social and political reasons, and it has, in the past spoken with some indignation of the trifling indifferent conduct of the sugar interests in the matter. While \$150,000 or more is readily paid for a sugar mill, any proposition to spend the sum of \$50,000 for one vigorous, persistent and intelligent effort to introduce a good class of white laborers, by all of the plantations combined, would be met with derision. The motto has been, as a rule, "Millions for dividends, not a cent for civilization."

Mr. Smith believes that laborers other than Asiatic can now be obtained. They can be obtained, but not without the use of money, brains and sacrifice. The whole community, devoted to getting sugar profits, must realize that a day of reckoning may be at hand, unless the labor system is changed.

With the increase of Asiatic immigration, the difficulties of introducing the American laborers for instance have no doubt increased, until the conditions are such that only heroic treatment will now introduce white labor.

Five years ago, owing to the depressed condition of the grain industry, thousands of good Americans were ready and willing to immigrate to these Islands. It was the opportunity of Hawaii. Nothing was done. Conditions have changed, and the American farmer is now prosperous. Wages are high, and every honest laborer can get work at fair prices. The delay, almost criminal in its neglect of opportunities, increases the expense and trouble of securing suitable immigrants.

Any scheme of immigration that proposes to bring to these Islands white labor from the Mainland or Europe will find that the immigrant, unless in great distress or a "bummer" avoids countries where cheap labor fixes the rate of wages. During the last thirty-five years State Immigration bureaus in the Southern States, have made earnest efforts to secure white immigration from Europe, but those disposed to emigrate from the Northern States, or from Northern Europe, refused to go to the South where the wages of the negro indirectly fixes the standard of wages for the white man. The purpose of a laborer in emigrating to America is to better his condition. The purpose of an American farmer or laborer in emigrating to Hawaii is also to better his condition. And unless he is thoroughly convinced that he can better it, he will stay at home. The business difficulty lies in making him believe that he will be better off by emigration.

The movements of the American and European emigrating farmers during the last fifty years, have been governed by the price of land. The farmers are sturdy speculators in their way, and Uncle Sam, for a century, has allowed them to take up public land at \$1.25 per acre, and sell it at larger profits than the sugar stocks ever have produced.

The great majority of steady laboring farmers are married, and have children. With an offer of increased wages these married laborers will hesitate to move unless the social conditions are pleasant for their wives and children.

While the difficulties of securing a desirable class of immigrants for these Islands are great, they can be overcome. "Money and brains can do anything," the great capitalists say. Among the 75,000,000 of Americans, there are quite enough farm laborers to be had, who put climate before all things. These are not to be found in one place, but are scattered in many places. They may be found. Money and brains will find them. The bidders are ready to come at a moment's notice. The desirable men have something at stake where they live, and will not madly rush into any new schemes. They seek betterments, and a mild climate is betterment enough for many of them.

The change in our labor conditions requires heroic treatment. The money is here. So are the brains. The inflexible will is lacking.

Among the stockholders in every plantation is that sturdy character, Progress. Other stockholders may gobble up the cash dividends, but he de-

mands a moral dividend. And if he does not get it, he invokes the higher law, and forces disaster and finally bankruptcy.

THE CHURCH MILITANT.

The Church very gradually takes its true position as a moral force. It begins to dare to attack the acts of men, instead of their consciences which cannot be reached by laws. The railroad swindler looks on with contentment, while the pulpit fires into the sand bank of his conscience. When the Church picks out a single and conspicuous act of wickedness, and centers its fire on that, and is supported by the enflaming fire of other Churches, and the fire is ceaseless, then the wicked act crumbles in ruins, and the author of it mends his ways. Satan, in his confidential moments, admits that he has no special use for the Church militant that makes bulls' eyes, instead of firing over the heads of the enemy.

Recently, in the city of New York, some railway people, backed by the Tammany power, undertook to occupy Amsterdam avenue, one of the most attractive avenues in the city, with trolley tracks, to the great injury of the residences and the Churches. Dr. Peters, of St. Michael's Church, resolved to prevent this injury. Those who resided in premises adjoining the avenue needed a leader who was able and willing to organize their scattered forces into a solid and marching front. Dr. Peters did it thoroughly and well. He regarded the Churches as the true reservoirs of aggressive power. The Churches responded to his call. Father Gallican of the Roman Catholic Church, declared that the "combating of evil is as much a part of religion as the encouragement of goodness." The pastors of other Churches took a similar view. Satan did not agree with this radical view, and said it was dangerous doctrine to preach from the pulpit. It was purely heresy, and against all traditions. Some of the members of these belligerent Churches, were interested in promoting these injurious things. They agreed that Satan was "not far out of the way," and that their business interests ought to be protected rather than destroyed. Then the Churches put up money for a fight in the courts. This, Satan again said confidentially, was only making the Churches worldly affairs. It was not a fair fight, and the Churches would go to the dogs, if they kept on. He believed it was better to send money to Africa, for the conversion of the heathen, instead of using it to disturb business interests.

But Dr. Peters and the other pastors believed that the throwing of the stones of an injunction at the grasping capitalists did more good than pelting them with the grass of exhortation. The injunction, instigated by the Churches, knocked down the capitalists and kept them down. The confiscation of a public way was prevented. Satan writes to the journals that if the Churches keep on this way, he "will sell out even at a loss," and leave the country, and then people will find out how much they owe to him as a good business adviser.

With the increase of Asiatic immigration, the difficulties of introducing the American laborers for instance have no doubt increased, until the conditions are such that only heroic treatment will now introduce white labor.

Five years ago, owing to the depressed condition of the grain industry, thousands of good Americans were ready and willing to immigrate to these Islands. It was the opportunity of Hawaii. Nothing was done. Conditions have changed, and the American farmer is now prosperous. Wages are high, and every honest laborer can get work at fair prices. The delay, almost criminal in its neglect of opportunities, increases the expense and trouble of securing suitable immigrants.

Any scheme of immigration that proposes to bring to these Islands white labor from the Mainland or Europe will find that the immigrant, unless in great distress or a "bummer" avoids countries where cheap labor fixes the rate of wages. During the last thirty-five years State Immigration bureaus in the Southern States, have made earnest efforts to secure white immigration from Europe, but those disposed to emigrate from the Northern States, or from Northern Europe, refused to go to the South where the wages of the negro indirectly fixes the standard of wages for the white man. The purpose of a laborer in emigrating to America is to better his condition. The purpose of an American farmer or laborer in emigrating to Hawaii is also to better his condition. And unless he is thoroughly convinced that he can better it, he will stay at home. The business difficulty lies in making him believe that he will be better off by emigration.

The movements of the American and European emigrating farmers during the last fifty years, have been governed by the price of land. The farmers are sturdy speculators in their way, and Uncle Sam, for a century, has allowed them to take up public land at \$1.25 per acre, and sell it at larger profits than the sugar stocks ever have produced.

Series of Lectures. Rev. W. M. Kincaid intends to deliver a series of lectures at the Central Union church on "The Prophets of the World's Great Religions." The first of the series will be given next Sunday evening. The complete list is as follows: I. The Prophet and His Message. II. Moses the Prophet of Righteousness. III. Zoroastrian the Prophet of Works. IV. Confucius the Prophet of Politics. V. Buddha the Light of Asia. VI. Socrates the Prophet of Reason. VII. Mohammed the Prophet of Arabia. VIII. Jesus the Light of the World.

Drink PURE WATER.

If the advice given in those three words is heeded, good health will follow. City water is not good for many reasons, principally, because it is contaminated with vegetable and putrid matter of all descriptions. A simple analysis shows this to be a fact.

EXERCISE

Our doctors are busy treating patients who are suffering from complaints, more especially malarial disorders, which will be materially benefited if they drink a water that is pure and possesses curative features, as does Bartlett Spring Water.

DUE

Ask your family physician about the water, and if he is honest he will endorse its use. All who have drunk the water speak in the highest of terms for it. This climate demands the use of such a water and you cannot afford to be without it.

VIGILANCE.

We will serve free of charge a glass of this wonderful natural Spring water at our Soda Counter to all who care to come and test its virtues. We deliver the water to your home in case lots at \$6.50 for 50 pints, \$9.50 for 50 quarts.

We Know By Experience

Wise men use the experience of others and make it their own. Those who have taken Hood's Sarsaparilla are the ones who are competent to speak of its merits. The testimonials of cures by Hood's constitute a vast mass of testimony which proves the power of this medicine to cure a great variety of diseases. These cures often seem marvelous, yet they are perfectly natural and are easily explained. They are the necessary result of purifying and enriching the blood. "I have been troubled with scrofula all my life, and it effected my eyes so that I was obliged to remain in a dark room. I began taking Hood's Sarsaparilla. Now my eyes are so strong that the light never troubles me, and my health is good." Mrs. CARRIE WEEKS, Lompoc, Cal.

Hood's Pills easy to take, easy to buy, easy to operate. 25c.

TIMELY TOPICS April 12th, 1899.

The cool weather we are having now won't last long, all probabilities are that after this cold snap is over we may have hotter weather than ever we had before. If this is the case, we would advise you to secure some means of keeping your butter and vegetables fresh, and at the same time making your ice bill a small item of expense. If you are open for suggestions let us mention a few things about our

Alaska Refrigerators.

We can honestly say it is the best constructed refrigerator ever put on the market. It will keep provisions longer and use less ice than any other made. The inner frame is made from perfectly odorless wood, and is lined with zinc, polished as bright as a mirror, presenting a very clean and attractive appearance. They are also supplied with Patent Syphon and solid metal shelves. Our space will not permit us to say anything more in regard to this article, so we would like you to call and inspect them yourself. We have them in all sizes and are from \$15 to \$500. If you get more ice than your refrigerator will hold we would advise you to get one of our

Ice Chests.

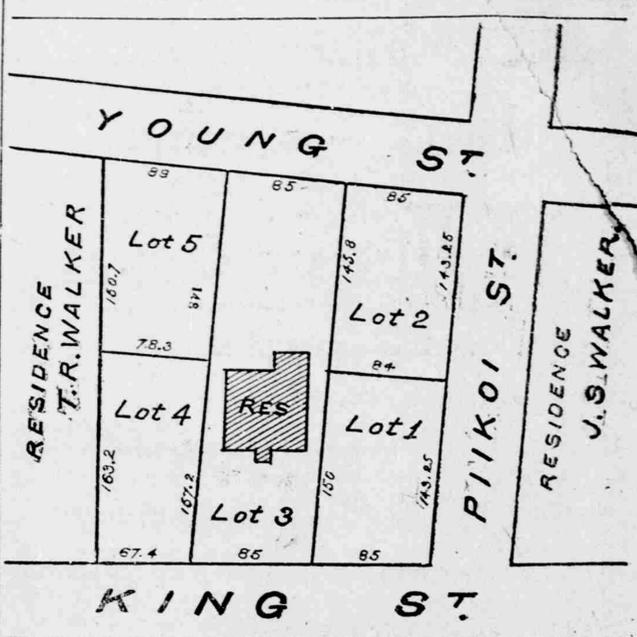

We also have them in all sizes, from \$8.50 to \$25.00. We have just received some very pretty

Water Coolers.

These coolers have wrought iron lining, with pure agate enamel, preserving the water and freeing it from metallic oxide, which is impossible to avoid with ordinary lining. Sizes are 2, 3 and 6 gallons, and range in prices according.

PERFECT PRESERVING PAINT CO.

READY TO TREAT

Instructions to the Commissioners to Samoa.

Clothed with Authority—First Desires of the United States—Still Talk of Partition.

WASHINGTON, April 18.—The instructions to the Samoan Commissioners have been completed. They are alike in all essential respects. They were summed up today by one of the Commissioners substantially as follows:

The Commission is given complete authority to carry on a provisional government for Samoa. In doing this the instructions carefully prescribe the preservation of order and the security of life and property as a first requisite. It is provided that the duties of all of those heretofore exercising authority in Samoa, either in the treaty of Berlin or in the service of either of the Governments, shall be suspended in order that the High Commission shall have complete authority over the affairs of the islands.

The Commission is required to make a report upon a variety of things, including the recent collisions and the causes leading up to them, the administration of the islands, the rights of the several claimants to the kingship, and also as to what changes are desirable in the methods provided by the treaty of Berlin.
The instructions call for unanimity in all action. The action of the Commission when unanimous is to be conclusive without referendum except when it suspends a provision of the treaty of Berlin. In that case also a provision of the treaty of Berlin may be suspended by unanimous agreement of the members, but the suspension is ad referendum and is not binding until the three governments approve or disapprove. The instructions are broad enough to include the recent troubles, so that these acute phases as well as the general government of Samoa will be adjusted.

LONDON, April 19.—The Berlin correspondent of the Standard says: The proposal to partition the Samoan islands, said to have been revived in the United States, will be accepted by Germany only if no other solution is possible.
WASHINGTON, April 13.—The Samoan Commission will sail for Apia on the naval transport Badger, leaving San Francisco on the 25th inst. This arrangement was made today after Baron Spreck von Sternberg, first sec-

retary of the German Embassy, had called on Secretary Hay and advised him of his appointment as the German member of the High Commission. This completed the body. As the plan to have the members get away on the Mariposa, sailing on the 19th, was no longer feasible, the transport Badger, now on her way to San Francisco, was placed at the disposal of the Commission.

CONGRESSMAN HILBORN DEAD.
WASHINGTON, April 19.—Former Representative Hilborn, of California, died at Garfield Hospital this afternoon. The cause of his death was blood poisoning, resulting from the kidney complications.

OAKLAND, Cal., April 19.—Samuel Greely Hilborn, ex-Congressman of the Third District of this State, was born in Minot, Androscoggin, then Cumberland county, Maine, on December 9, 1834. He read law with Tassenden and Butler, Portland, Maine, and was admitted to the bar in 1861. In that year he moved to Vallejo and practiced law. He moved to Oakland in 1887. He filled the unexpired term of Joseph McKenna in the Fifty-third Congress, defeating Warren B. English, was unseated by English in 1894 in a contest. He was elected to the Fifty-fourth and Fifty-fifth Congresses. He was a life long Republican. He leaves one daughter, Miss Grace Hilborn. His death prevented his appointment by President McKinley as Minister to Portugal.

Congressman Hilborn visited Hawaii about three years ago.

REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va.
About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.

THE BREW OF OLYMPUS

THE "HOFFMAN," corner of Hotel and Nuuanu streets, claims to be the "Banner" resort for gentlemen and holds the flag. L. H. Dee, the proprietor, has attained success in his line, by specially and personally supervising everything connected with his establishment. He now introduces to his patrons "Olympia Beer." This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne." Mr. Schmitt, the leading spirit of this corporation, is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

Platinotype Photographs.

Mr. L. HART, F. R. M. S., lecturer at the Ballarat School of Mines, and at the Working Men's College, Melbourne writes as follows:

"The Platinotype process is decidedly the most perfect process of photographic printing, as the metal is not affected by any sulphurous fumes or compounds such as are found in the atmosphere, whereas other processes are easily attacked by them.
"The impression is indeed unalterable and were it possible to hold a platinotype print in the hand for several hundreds of years the paper would crumble and rot away, but the photographic platinic image would remain intact."
"L. HART."

If you wish your pictures printed in platinum, see that you do not get imitations.

GEN. OTIS' ARMY

Commander at Manila Does Not
DECISION OF THE CABINET

Decision of the Administration -
Effective Force of 22 000 -
Lawton and Shafter.

WASHINGTON, April 19.—A conference held at the White House today, between the President, Secretaries Alger and Long, and Adjutant Corbin resulted in the confirmation of the original decision of the Administration to at present refrain from availing itself of the authorization conferred by Congress to organize a volunteer army of 35,000 soldiers in addition to the present regular army.

Gen. Otis' latest cablegram descriptive of the conditions in the Philippines was carefully considered and it was concluded to accept his estimate of the military needs of the case, so that as he has already indicated his present army is sufficient for the purposes, he has in view, the decision is tantamount to a resolve to avoid recourse to the additional volunteers.

A cablegram was sent to Gen. Otis, however, calling forth the necessity for withdrawing the state volunteers from the Philippines, again asking him whether he would need more men after he has received the reinforcements now on the way to Manila or under orders to embark as soon as transportation can be secured.

Otis now has a force believed to aggregate about 22,000 effective men.
Secretary Alger informed him that the troops now on the way would give him an army of about 30,000 men after allowing for the return of the state volunteers. This is believed at the War Department to meet all of the needs of the summer season. It is intended to withdraw one regiment from Porto Rico and send three regiments now in this country to the Philippines as soon as they can be equipped and transported there, though it is not believed that they will reach Manila for two or three months. It is also stated that the conditions in Cuba are such that it is quite probable some troops can be withdrawn from that island for service in the Philippines.

The matter of returning the volunteers was also discussed. The department is arranging for their return to the United States as soon as the necessary transportation can be secured. To General Otis has been left the selection of the organizations to be sent home first, and it is expected that he will follow the plan that he has outlined of relieving first the men who have been longest in the Philippines.
CHICAGO, April 18.—Maj. Gen. Shafter passed through Chicago today en route to his brother's home in Sycamore, Ill.

Discussing the Philippine war he said: "If Gen. Lawton says 100,000 men are needed in the Philippines in order to effectually end hostilities and bring the natives to terms I should say that undoubtedly an army of such proportions is required. We of the army have supreme confidence in Gen. Lawton's judgment, and it is his practice to underestimate rather than exaggerate when passing upon existing conditions.

"I don't know Otis—never saw him," the general added. "I think Lawton had a right to criticize the tactics of the commanding general if he believed them to be unwise.
"The Filipino is a suspicious fellow, just like the Cuban. He can't see the good intentions of this Government and he never will until we subjugate him with powder and ball.

"I have said before that it may be necessary to kill half the population of the islands in order that the remaining half may be lifted from their semi-barbarity to the civilization we are ready to give them."
"And let me tell you," General Shafter concluded, impressively, "that I do not believe our troubles in Cuba are over by any means."

SYCAMORE, Ill., April 18.—Gen. Shafter is at his brother's home in this city suffering from an attack of malarial fever. His physician says the attack is not serious and hopes to see Gen. Shafter well enough to go to San Francisco in two or three days.

NEW YORK, April 18.—A special to the Sun from Washington says: Secretary Alger said to a Sun reporter this evening that 5000 of the volunteer troops in the Philippines will sail at once for San Francisco on the transports now at Manila. Just what volunteer organizations will be sent home at this time the Secretary does not know, but he expects to be informed by Gen. Otis within a day or two.
OMAHA, April 18.—Capt. Baxton, of the Quartermaster's Department, has awarded the contract for transporting the Sixteenth Infantry to San Francisco. The battalion at Fort Crook will go by the Burlington, and the battalion at Jefferson Barracks and Fort Leavenworth will be divided between the Missouri Pacific, Santa Fe and Rock Island.

THE BEST IN THE WORLD.
We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine for colds and coughs.—The Herald, Andersonville, Ind. For sale by all Dealers, Benson Smith & Co., Ltd., Agents for H. Real Estate Agent.

410 Montgomery St.
San Francisco, California.

The attention of those having capital to invest is called to the fact, that no city in the United States or probably no city in the world offers better opportunities to make profitable or fortunate investments in Real Estate than does the city of San Francisco at the present time.

A great many reasons can be given why San Francisco really will advance in value from now on.

I offer my experience and knowledge of values to intending buyers of business properties or residence sites I can submit some very desirable purchases of Real Estate that will yield a fine income and steadily advance in value.

Information cheerfully given. Parties coming from the Islands who desire to invest are requested to call. I will be happy to correspond with any who may wish to obtain information in regard to San Francisco Real Estate.

Full charge taken of property and taxes paid for absent owner.

IN THE SUPREME COURT OF THE HAWAIIAN ISLANDS.

SEPTEMBER TERM, 1898.

LINCOLN L. McCANDLESS v. JOHN H. ESTATE, Limited.

APPEAL FROM A DECREE OF A CIRCUIT JUDGE OF THE FIRST CIRCUIT OVERRULING A DEMURRER.

SUBMITTED OCTOBER 6 AND 7, 1898. DECIDED APRIL 20, 1899.

JUDD, C. J., WHITING, J., AND H. E. COOPER, ESQ., OF THE BAR, IN PLACE OF FREAK, J., ABSENT.

A husband marrying a wife owning real estate, before the Married Woman's Act of 1888, has the right to lease or otherwise dispose of her real property with her written consent for a definite term pending his natural life.

The "agreement" recited in the decision held not to create a revocable license, but an interest in land and resembles a lease. That the husband under the agreement, created thereby a special partnership with plaintiff, does not make the disposition of his wife's land for certain purposes an illegal exercise of his marital right. A covenant by a lessor that the land be used in a particular way can be enforced in equity.

The reservations in the agreement of certain portions of the whole land of "Waipio" indicate that the parts not reserved were intended by the parties to be used for the purposes set forth in the agreement, that is, for the "breeding and fattening of cattle," under the terms and conditions in the agreement set forth.

The covenant that the land be used in a particular way binds the covenantee and his assigns who take with notice.

Where a covenant is capable of specific enforcement, its threatened breach may be enjoined.

OPINION OF THE COURT BY JUDD, C. J.

The under recited agreement became the subject of the present litigation:

"This agreement made and entered into this 6th day of September, 1893, between Lincoln L. McCandless of Honolulu, in the Island of Oahu, the party of the first part, and Charles A. Brown, of the same place, the party of the second part.

Whereas the said party of the first part, is the owner of three hundred and fifty (350) head of cows and heifers on the said Island of Oahu, and Irene Ii Brown, the wife of the said C. A. Brown, is the owner of the tract of land known as the Ahupuaa of Waipio and of other ilis and lands situate within the said Ahupuaa of Waipio, situate in the District of Ewa, Island of Oahu, aforesaid, and whereas the said party of the second part, by and with the consent of his said wife Irene Ii Brown, signified by her execution of these presents has agreed to and with the said party of the first part, that the said three hundred and fifty (350) head of cows and heifers shall be put to pasture on the lands of said Irene Ii Brown in said district of Ewa upon the terms and conditions hereinafter set forth, and together with their increase shall be held and sold on the joint account of the party of the first and second part in equal shares.

Now this agreement witnesseth that in pursuance of the premises and in consideration of the mutual benefit to be derived by the parties hereto, he the said party of the first part, doth hereby for himself and his executors and administrators promise and agree to and with the said party of the second part, and his executors, administrators or assigns, that he will, within six months from the date of the finishing of the mountain fence, hereinafter agreed to be built, drive and place upon the Ahupuaa of Waipio and other lands in said district of Ewa lying within the same Ahupuaa, three hundred and fifty (350) head of cows and heifers, no heifer to be under one year of age, to be owned together with their increase by the said party of the first part and the second part on joint account and equal shares;

That he will build at his own cost and expense a mountain fence from the Waiawa fence to the fence dividing Waipio from Waianae-uka;

That he will furnish at his own cost and expense three (3) bulls of pure or part polled Angus breed, for breeding purposes for the original herd of three hundred and fifty (350) head;

That he will brand the said herd of three hundred and fifty cows (350) and heifers and all their increase with a brand to be registered as the joint brand of the parties of the first and second part;

That he will allow during the term of this agreement one-half (½) of the number of cattle that he may have the right to deliver by reason of his 1-32 interest in the Metropolitan Meat Co. to be delivered from said lands from partnership cattle for their joint account;

That he will not make any charge for services rendered by him in the carrying out of the agreements herein contained, or of the business for which these presents are entered into;

That when any of the cattle or live stock are fattened and ready for sale, he will sell or cause the same to be sold, and the proceeds thereof after deducting expenses of driving and delivering shall be equally divided between the parties of the first and second part;

And the said party of the second part for himself and his executors, administrators and assigns doth hereby promise and agree with the said party of the first part and his executors administrators and assigns that he and they may and shall pasture and herd all said three hundred and fifty (350) head of cows and heifers and their increase and all bulls used for breeding purposes on the lands now used for pasturage, (the party of the second part reserving all lands now used for the cultivation of rice and taro, and the two fish ponds and sea fishery; the land now used for making salt; all Konohiki house lots, the present house lot with vegetable garden mauka of same; the paddock between the house and depot and the small paddock makai of house now occupied as a ranch house, by the party of the second part), in the said Ahupuaa of Waipio and other lands within said Ahupuaa free of charge during the term of this agreement;

That he will turn over all wild unbranded cattle running upon the said Ahupuaa of Waipio and other lands within or adjoining said Waipio and under his control to be held and owned for the joint account of the parties of the first and second part;

That he will turn over all his tame herd of cattle now running on said land or lands and branded J I and B to be held and owned for the joint account of the parties of the first and second part;

And it is mutually agreed between the parties of the first and second part, that this agreement shall be in force for the term of fifteen years, from the date hereof fully to be complete and ended;

That all net profits shall be divided equally;

That all expense connected with the business, to wit, Branding, driving, freight, repairs to existing fences and houses used in the business, and the mountain fence erected by the party of

the first part, taxes on live stock and buildings as above, and upon all portions of land used as pasturage and all other expenses incidental to the business shall be borne equally;

That the said party of the first part shall have the sole management, control, supervision, conducting and carrying on the cattle business entered into under this agreement;

That all disputes shall be settled by arbitration; that the said party of the second part shall cause all Konohiki laborers or natives pasturing stock upon said land or lands, to work one day in each month for the partnership, for each and every head of stock running on said land;

That the said party of the first part shall have the right of pasturing upon said land or lands free of charge ten head of horses or mares;

That the said party of the second part, and his said wife, Irene Ii Brown, his son George Ii Brown, and Mrs. George K. Norton, the sister of his said wife, shall have the right of pasturing upon said land or lands, all horses belonging to them not to exceed in the aggregate 100 head, and all cattle branded J I and B and belonging to his said son George Ii Brown, not to exceed on the whole one hundred head of cattle;

That should at any time the United States Government desire to purchase the peninsula known as Pahao or any portion thereof, the same shall be sold free and clear of this agreement, and without any claim for damage to be made by the party of the first part by reason of such sale;

That the said party of the first part will not buy any Kuleanas within said Waipio or lands within its boundaries;

That the parties of the first and second part shall contribute towards the rent of the land known as Waikakalau the sum of Forty Dollars per annum and taxes during the term of this agreement;

That this business shall be carried on under the firm name or style of Brown & McCandless;

That at any time when store cattle are bought with the proceeds realized from the sale of partnership property or stock, such store cattle shall be held and owned upon joint account and equal shares;

That should at any time the party of the first part, purchase store cattle with private means and money, and such store cattle are put upon said land or lands for fattening, that then (¼) of the net account sales of such store cattle or stock shall be paid to the party of the second part in lieu of any charge for pasturage, provided however that the party of the first part shall before placing and putting said cattle so purchase upon said land or lands, obtain the written consent of the party of the second part;

That upon the expiration of the term of all present existing agreement or contracts to fatten cattle, upon shares or upon a percentage of their net account sales, the said party of the second part will not enter into any other or further agreements or contracts to fatten cattle upon shares, or upon a percentage of their net account sales, without the written consent of the party of the first part first had and obtained, and all profits that may be derived under or by virtue of any such agreement or contract shall ensue to the benefit and joint account of the parties of the first and second part in equal shares;

That all existing agreements of pasturage for work oxen and horses of Chinese rice firms on Waipio-uka shall enure to the benefit of the party of the second part, but after two years from date hereof the pasturage charge for the taking on pasturage of such work oxen and horses shall be raised by the said party of the second part as follows: for the working oxen Eight Dollars (\$8.00) per year, for all working horses Nine Dollars (\$9.00) per head per year, except in such cases where a contract is in existence for a specified price per head per annum;

That the said party of the second part shall have the right to take on pasturage upon Waipio-uka only, not more than 250 head of work horses and 150 head of work oxen, the pasture fee for same to enure to his sole use, benefit and advantage for the first three years of the existence of this agreement; after the expiration of said term of three years all money received as pasturage charges for all stock upon said lands shall be for the joint benefit of the parties of the first and second part in equal shares;

That after the expiration of said three years should the taking on pasturage of such work horses and oxen in the opinion of the party of the first part in any way interfere with or decrease the pasturage of the joint stock thereof, then and in such case no more stock shall be taken to pasture and all work horses and oxen then pasturing on said lands shall be removed and taken away;

That at the expiration of the term of this agreement, the said party of the second part shall have the first option of purchasing the interest of the party of the first part in the herd of cattle and their increase then upon the land or lands;

That in the event of the parties here failing to agree upon a price to be paid by one to the other for his share or interest in said herd of cattle then and in such case the herd shall be divided equally, such division to be made by arbitrators, one to be chosen by each party and the two then chosen to select a third and the decision rendered or apportionment made shall be final and conclusive;

That in case of a division as hereinbefore provided, then the said party of the first part shall have the time of six months in which he may remove and take away his share or half (½) of said cattle, and no charge of pasturage for said term of six months shall be made by the party of the second part;

And that all improvements made or put upon or any buildings erected upon said land or lands shall at the expiration of the term of these presents revert to and become the property of the said party of the second part; that all accounts shall be balanced and a settlement made between the parties hereto every twelve months; that in case of the absence of the party of the first part from the Hawaiian Islands that then and in such case the said party of the second part shall have the management, control and supervision, conducting and carrying on of said cattle business during such absence;

In Witness Whereof, the said parties of the first and second part, and the said Irene Ii Brown in token of her consent and confirmation of the agreements hereinbefore set forth, and of the execution of these presents, have hereunto set their hands and seals, the day and year first above written."

Following is the bill before us:

"The bill of complaint of the above named plaintiff, Lincoln L. McCandless, respectfully shows as follows:

1. That the Plaintiff is a resident of said Honolulu and that the defendant is a Hawaiian corporation having its principal office and place of business in said Honolulu.

2. That upon the 6th day of September, A. D. 1893, the plaintiff being then the owner of 350 head of cows and heifers on the said Island of Oahu, and Irene Ii Brown, wife of Charles A. Brown, of said Honolulu, being the owner of the Ahupuaa of Waipio and of certain ilis and lands within said ahupuaa situate in the District of Ewa in said Island of Oahu, did with the consent of the said Irene Ii Brown enter into a certain agreement, a copy whereof is hereto appended and made a part hereof, with the said Charles A. Brown, which said agreement was consented to and confirmed by the said Irene Ii Brown.

3. That in and by the said agreement it was agreed by the said Charles A. Brown and Irene Ii Brown that for and during the term of 15 years from said 6th day of September, A. D. 1893, the plaintiff and his executors, administrators or assigns might and should pasture and herd, free of charge, all said 350 head of cows and heifers and their increase and all bulls used for breeding purposes on the lands then used for pasturage in the said Ahupuaa of Waipio and other lands within said ahupuaa, and that the said Charles A. Brown would turn over all wild unbroken cattle running upon the said Ahupuaa of Waipio and other lands within or adjoining said Waipio and under his control to be held and owned for the joint account of the plaintiff and the said Charles A. Brown, and that he, the said Charles A. Brown, would turn over all his tame herd of cattle then running on said lands to be held and owned for the joint account of the plaintiff and the said Charles A. Brown, dividing equally all net profits and bearing equally all expenses;

And that the plaintiff should have the sole management, control, supervision, conducting and carrying on of the cattle business entered into under said agreement;

Excepting, however, and reserving from the operation of said agreement the land then used for rice, taro, fish-ponds, sea-fishing and salt lands, and certain house lots and paddocks, as in said agreement expressed;

And with certain other conditions and stipulations which fully appear in said written agreement.

4. That the plaintiff placed his said herd on said land and that said herd, with its increase, except such cattle as have been sold in the ordinary course of the business of a cattle ranch, are, together with the cattle agreed as aforesaid to be placed thereon by said Charles A. Brown, now pasturing and running on said land, and that the plaintiff has to this date managed and carried on the cattle ranch so formed as aforesaid, and is now managing and carrying on the same, and has in all respects done and performed all the acts and things required by said agreement to be done and performed by him.

5. That on the 2nd day of July, A. D. 1897, the said Charles A. Brown and Irene Ii Brown transferred and conveyed to one Holmes, who thereupon transferred and conveyed to the defendant, the said land and all their cattle thereon and all their rights under the said agreement, and that the defendant now holds the property so conveyed and has since exercised and now exercises all the rights secured to said Charles A. Brown and Irene Ii Brown under said agreement, and has accepted and undertaken and is liable and subject to all the covenants and stipulations which the said Charles A. Brown and Irene Ii Brown, and each of them, made and entered into in and by the said agreement.

6. That the herd of cattle now held under said agreement by the plaintiff and defendant and running and pasturing on said land number from 600 to about 700 head;

7. That the deep gulch, called the Kipapa Gulch, is in said land and is part of the land on which said cattle run and pasture and since said agreement have run and pastured;

8. That the water naturally flowing in and through the said gulch, varying greatly in wet and dry seasons and in times of freshets, has always heretofore been available and of great use and benefit to the cattle running on said lands, and that there are many natural receptacles, pools, depressions and pockets in said gulch in which water has always heretofore accumulated in times of freshets or of wet seasons and there remained for the use and benefit of said cattle until consumed by the cattle and disappearing by natural causes of evaporation, or otherwise, and that in dry times the said cattle largely depend for their drinking water upon water so collected and standing as aforesaid in such receptacles, pools, depressions and pockets in said gulch;

9. That the defendant on the 15th day of April last informed the plaintiff that it was negotiating with the Oahu Sugar Co., Limited, for a lease of the water in said gulch and a portion of the makai part of said land of Waipio, and the defendant would "refuse to recognize any rights of Brown and McCandless in the matter," meaning thereby and including any rights of the plaintiff in or under the said agreement;

10. That the defendant claims that it has the right to lease and asserts that it is about to lease to said Oahu Sugar Co. two large tracts of land being portions of said Ahupuaa of Waipio, one of said tracts containing about 200 acres and lying between the Oahu Railroad track and the Government Road to Waianae, and the other tract containing about 1400 acres, situate on the peninsula and known as Pahao;

And also to grant to said Oahu Sugar Co. the right to divert and take from said Kipapa Gulch all the water which the defendant and said Oahu Sugar Co., one or both of them, should claim to be not required for the uses and purposes of the cattle and business mentioned in said agreement;

And also to grant to said Oahu Sugar Co. the right to build such flumes and ditches and make such reservoirs as the said Oahu Sugar Co. should deem to be necessary or proper on the lands named in said agreement and not leased to said Oahu Sugar Co.

11. That the lands so proposed by the defendant to be leased to the said Oahu Sugar Co. are part of the lands heretofore used and now in use for cattle ranching under the said agreement, and are necessary and proper for the full benefit, use and enjoyment of said lands for a cattle ranch or for the purposes named in said agreement.

12. That the defendant also claims that it has the right and asserts that it is about to grant to the said Oahu Sugar Co. the right to tap the stream now and heretofore flowing in said gulch at or near the head or source of said stream in order thence to divert the water as above mentioned, and that such tapping of said stream and such diversion of said water would, except in times of freshets, result in drying up the bed of the stream of water heretofore flowing in said gulch.

13. That the granting of said lease and water rights as aforesaid would authorize and permit the said Oahu Sugar Co. to dig and maintain many water ditches over and across the lands heretofore and now held for said cattle ranching, and that such ditches would be required in order to exercise the rights proposed to be granted as aforesaid under said lease and water grant, and that many of the cattle now and heretofore running on said lands under and in conformity with said agreement would be liable to be seriously injured or killed in running or being driven across, into or over such ditches and that such ditches would also be a material and serious obstruction to the driving of said cattle across the range in the cattle drives which the said cattle business requires as stated periods;

14. That if the defendant shall make such lease of land and grants of water as above mentioned, the said lands and the water thereto appurtenant will, by reason of the matters and things above mentioned, become less valuable and useful for purposes of a cattle ranch as provided for under the terms and conditions expressed in said agreement;

And the plaintiff will be subjected in the premises to great and irreparable loss and injury, and the defendant in so doing would violate the terms of said agreement;

15. That the defendant has requested the plaintiff to consent to the lease and grants of water rights above mentioned and

that the plaintiff refuses to consent thereto, and has requested the defendant to desist from the same, with which request the defendant declines to comply;

And that the plaintiff is informed by the defendant and believes that the defendant will, unless restrained by a writ of injunction issuing out of this Honorable Court, make the lease of land and grants of water and of other rights herein mentioned, and such injunction is here prayed for.

Wherefore, the plaintiff prays:

1. That the defendant be summoned to appear and answer hereunto and be bound by all the proceedings to be had therein:

2. That the defendant, its officers, agents and servants, be enjoined by writ of injunction issuing out of this Honorable Court from making any lease of any of the land now and heretofore used for said cattle or cattle ranch, and from making any grant of any water or rights of water, or rights to make or maintain ditches, flumes or reservoirs in or upon any of said lands:

3. For such other and further relief, orders and decrees as may be requisite and proper."

Following is the amendment:

"The plaintiff with the consent of the Court, hereby amends his bill herein by adding thereto a new paragraph numbered 2a.

"2a. That the said Charles A. Brown and the said Irene Ii Brown were married on the 30th day of September, 1886, at a time when by the laws of Hawaii, the husband by virtue of his marriage, unless otherwise stipulated by express contract, have the custody, use and usufruct, rents, issues and profits of all property of a fixed and immovable nature, belonging to his wife before marriage, or accruing to her after marriage; and by virtue of which he could, with her written consent, rent or otherwise dispose of the same for any term not exceeding the term of his natural life;

That neither at the time of the marriage of the said C. A. Brown and Irene Ii Brown nor before or since then was any stipulation by express contract or otherwise, by virtue of which the said C. A. Brown was deprived of any of the rights, powers and privileges conferred upon him by the said law last above referred to, made or entered into;

That on the said 30th day of September, 1886, the said powers, rights and privileges above enumerated, by virtue of said law and said marriage accrued to and became vested in the said C. A. Brown, into and concerning all of the property of a fixed and immovable nature, belonging to his said wife before said marriage, and continued to belong to and be vested in him up to and including the said 6th day of September, 1893, the day of the date of the said agreement the subject of this suit;

That the said Ahupuaa of Waipio and other lands in said agreement mentioned, to be occupied for the purposes of said agreement, were the lands of the said Irene Ii Brown at and before the said date of her said marriage, and upon said marriage became subject to the use usufruct, control and disposal of her said husband, in accordance with said law, and so continued up to and including the said 6th day of September, 1893, the date of said Agreement."

This bill was demurred to by defendant on the ground that it does not disclose facts sufficient to constitute a cause of action and that the plaintiff has a complete and adequate remedy at law. The circuit judge overruled the demurrer, and the defendant's appeal from the decree was heard by us at the September term, 1898. We have found the issues of law raised in this case to be numerous and difficult of solution.

The plaintiff's contentions are that the agreement binds Charles A. and Irene Ii Brown and their assigns the John Ii Estate for the term of fifteen years. The agreement gives plaintiff an interest in the land which cannot be cancelled at the will of the Browns nor of the defendant, their assigns. The agreement does not create a revocable license but a virtual lease of the land. Equity should enjoin the alienation by defendant by way of lease or otherwise any portion of the land or water inconsistent with their use as pasturage and water for cattle under the agreement. The lease contemplated to be made by defendants would diminish the value of the land to the plaintiff as a cattle ranch and subject him to irreparable loss and injury and would be in violation of the terms of the agreement.

The defendant claims that the agreement created a mere license revocable at will with notice to plaintiff. That the agreement created a partnership between the parties, and not a lease of the land; that a suit for damages in case the proposed lease was made would afford compensation to plaintiff.

We first consider the legal status of C. A. Brown when he executed the agreement. He was in 1886 married to Irene Ii who owned the land in question. The Married Women's Act was passed in 1888. Mr. Brown's status must be settled by the law in force in 1886, which was Section 1286 of the Compiled Laws: "The husband shall in virtue of his marriage, unless otherwise stipulated by express contract, have the custody, use and usufruct, rents, issues and profits of all property of a fixed and immovable nature belonging to his wife before marriage, or accruing to her after marriage; and he may, with her written consent, rent or otherwise dispose of the same for any term not exceeding the term of his natural life." That this vested right of the husband was not affected by the subsequent Act of 1888, see *Nam Chong & Co. v. Lau Kona*, 9 Haw. 373.

Mr. Brown, then, having the legal right to lease or "otherwise dispose" of his wife's property had, during the term of his natural life, the right to enter into the agreement, his wife consenting to it. The incident of his making the agreement take the form of a partnership with plaintiff by which he, Brown, contributed to its assets (or partnership capital) the use of the land upon which the cattle contributed by him and by plaintiff were to be pastured, in the gains from which they were to share, does not make his agreement any the less a legal disposition of the use of his wife's land during the term of his (Brown's) natural life. It was suggested in the defendant's brief that a subsequent divorce of Mr. Brown has destroyed his estate in his wife's land. But this defense is not in issue on the demurrer and we cannot consider it. The defendant corporation has succeeded entirely to the rights and obligations of Brown in the agreement. The bill so alleges and the plaintiff made no objections to his new partner, the defendant. Whether the defendant could terminate it is not in issue on the demurrer. The defendant has thus far done

no act looking to this. We have called the agreement a "partnership." It seems to us to have the ingredients of a special partnership.

But it is contended that a revocable license only by Mr. Brown or Mrs. Brown or both of them was created by the agreement in favor of plaintiff.

A "license" in the law of real property is an "authority to do a particular act or series of acts upon another's land without possessing any estate therein." 13 Ency. 539; Wash. R. P. 629. It is a personal privilege, is not assignable, ceases upon the death of either party and is revoked by a sale of the land by the licensor. But the agreement expressly binds the executors, administrators and assigns of the parties. (Whether the stipulation in the agreement for the personal services of the plaintiff in conducting the business would survive his death is not raised by the demurrer.) If the instrument in question passes to the plaintiff a right to use the land for a definite term for a specific purpose, the grazing thereon of cattle, it creates an "interest" in the land, and therefore it does not create a license revocable at the will of the licensor, and it is immaterial whether the licensor be Mr. Brown in the exercise of his marital right, or Mrs. Brown, the then owner, to the partnership consisting of her husband and the plaintiff. The evident intention of the parties was to demise the pasturage of the land in question to plaintiff for the term of 15 years and Mr. Brown shared in the profits as a partner of plaintiff. This grant was in writing, signed by the parties, and was supported by valuable considerations moving from plaintiff. He was to furnish a certain number of cattle, put up a mountain fence, to procure and register a new brand as the joint brand of the joint concern, to allow the concern to furnish for market one-half of the cattle allowed himself under his interest in the slaughtering company; to attend to and manage all the business of the concern without charge, to pay half of the taxes on the property used by the concern, half the rent of the land of Waikakalana, one-half of the repairs of buildings and fences and covenants, not to purchase kuleanas in Waipio.

The reservations by Brown are numerous, i. e., the lands now used for the cultivation of rice or kalo, two fish ponds, the sea fishery, the land used in making salt, konohiki house lot; the present house lot and vegetable garden mauka, the paddock between the house and depot, and small paddock makai of ranch house. That the intention of the parties was to place at the disposal of the partnership all the land of Waipio for pasturage, excepting only the portions reserved by Brown, is made clearer by the clause, "That should at any time the United States Government desire to purchase the peninsula known as 'Pahao,' or any portion thereof, the same shall be sold free and clear of this agreement, and without any claim for damage to be made by the party of the first part by reason of such sale." Certainly if the parties thought that all of Waipio, a part of which Pahao is, was placed by the agreement in the use of the copartnership for pasturage, it would need a clause of the above character to allow any part of it to be sold and the area of the range of the cattle diminished without a claim for damage on the part of the plaintiff.

Is it not inferrable from this special clause that the parties intended that the whole land was to be dedicated to the pasturage purposes of the partnership? It is contended by the defendant that the clause that "Pahao" may be sold "without claim for damage" by plaintiff shows that the parties have chosen as the forum for redress a law court for damages and excludes the jurisdiction of a court of equity to enjoin the execution of a lease by defendant which would diminish the area of the pasturage. We hardly think that the plaintiff intended to be restricted to a law court by this language. He was thinking of redress in general and was willing to forego whatever remedy he would have, if the sale to the United States Government should take place. We hold that the intention of the parties to the agreement was to part with the occupation of all the land of Waipio, except the reserved portions, to the partnership for pasturage of cattle put on the land to breed and fatten for sale. Whether this be called a license coupled with an interest, an executed license, or a lease it is immaterial. It seems to us to be more like a lease than any other interest so far as the use of the land is concerned. And this character does not seem to be affected by the interest which Brown had reserved in the partnership in lieu of rent. And yet it is not a lease in that it gave the partnership or either party to it a right to make whatever use of the land it chose. The "interest" of plaintiff in the land is limited to his use of it for the food and water is produced as sustenance of the cattle of the partnership and he could not use it for any purpose not essential to this purpose. Then why could the defendant divert any portion of the land by lease or sale from the special use to which it was devoted by the agreement? It could not, if by so doing the interest of the plaintiff as copartner was injured. It is averred in the bill that that such an act would produce irreparable injury. Of course such averment would have to be established. Whether equity alone has cognizance of such a cause of action is the most difficult question arising in the case.

The application herein made is for an injunction to restrain defendant from violating its contract.

Mr. Pomroy says, "If the owner of land enter into a covenant concerning the land, concerning its use, subjecting it to easements or personal servitudes and the like and the land is afterwards conveyed or sold to one who has notice of the covenant, the grantee or purchaser will take the premises bound by the covenant and will be compelled in equity either to specifically execute it, or will be restrained from violating it," &c. 2 Pom. Eq. Jur. Sec. 659. One of the cases cited is *Tulk v. Moxhay*, 22 Eng. Ch. Cas. 774 (2 Phillips). The head note is, "A covenant between a vendor and purchaser, on the sale of land, that

the purchaser and his assigns shall use or abstain from using the land in a particular way, will be enforced in equity against all subsequent purchasers with notice, independently of the question whether it be one which runs with the land so as to be binding upon subsequent purchasers at law." Lord Cottenham, Chancellor, said, "That this court has jurisdiction to enforce a contract between the owner of land and his neighbor purchasing a part of it, that the latter shall either use or abstain from using the land purchased in a particular way, is what I never knew disputed." The Chancellor also says, "If an equity is attached to the property by the owner, no one purchasing with notice of that equity can stand in a different situation from the party from whom he purchased."

Now if a purchaser with notice, of the land of a covenantor can be compelled to perform the covenant much more can the covenantor himself be compelled to perform it; and if the covenant can be enforced against him, he can be enjoined from violating it. 3 Pom. Eq. Secs. 1338-1402.

The jurisdiction of courts of equity by injunction against the breach of covenant or agreement is in aid of the legal right and has been assumed for the advancement of justice. Kerr, Inj. p. 492.

"It is not necessary that the breach in respect of which the interference of the court is sought should have been actually committed; it is enough that the defendant claims and insists on his right to do the act complained of, although he may not have actually done it." *Id.* p. 494 and *id.* p. 198. The allegations of the bill are sufficient in this respect.

Another reason for sustaining the bill is, that it is doubtful if plaintiff could bring an action at law for damages against his "co-partner" the defendant. It seems to us that the court can specifically enforce the agreement and it is extremely doubtful if a resort to an action at law for damages, if it could be brought, would afford compensation. How could the damages be computed considering the numerous conditions and covenants of the agreement and the term of its continuance. The remedy at law must be "plain, adequate and complete."

We therefore confirm the decree appealed from, overruling the demurrer.

A. G. M. Robertson, A. S. Hartwell, Cecil Brown and L. A. Thurston for plaintiff.

J. A. Magoon & R. D. Silliman, Kinney & Ballou for defendant.

THE PLAY HOUSE

Janet Waldorf Company
Continues to Please.

The Star as "Beatrice"—An Even Presentation of a Fine Play—Mrs. Currier.

That Miss Waldorf is a genius must be conceded. Yet according to her instructress, Mrs. Currier, this has not been attained without hard work. Miss Waldorf spent four years' hard application before she ever attempted the stage. Her instructress was Mrs. Currier, and this influence still holds good in all the performances of the Janet Waldorf Company. Mrs. Currier has taken what may be considered crude talent and made it read Shakespeare, which is the highest praise that can be paid the instructress. The company is evenly balanced and shows that one hand is at the bottom of the success of the Janet Waldorf company. The entire company except, perhaps, Mr. McVay, are new to the work, yet through the excellent training given by Mrs. Currier they show excellent work.

Nothing could excel Miss Waldorf's climax in the third act in her exclamation "Oh! that I were a man!" and in this act, which is the point of the play, Mr. McGregor was well up to the pace set by Miss Waldorf.

It is absurd to talk any further about Miss Waldorf's developing into a genius in the future. She is a genius now. Her reading is good, her acting is all that could be desired. In other words instead of acting the role she was Beatrice to the end. The audience was so in love with her work that she was twice called to curtain—at the end of the third and fourth acts. Nothing could have been greater than the climax "Oh, that I were a man" and royally did Mr. McGregor as Benedick respond to her ideal of a man. Three times was the talented actress applauded during this act. It was an ovation to her genius. Yet not so. It was really an ovation to her fine reading of lines so familiar to all cultured people.

In fact nothing could have been more perfect than the reading of the lines of the immortal bard.

Mr. McVay's reading as Dogberry and the "Friar Francis" was perfect. In fact these parts, which require real reading for the words should always be given Mr. McVay. His fine voice carries an his clear enunciation overcomes bad acoustics. This may also be said of Miss Waldorf.

Mr. McNorval MacGregor really covered himself with glory. His conception of Benedick was far beyond expectation. It was as spirited as the role of Beatrice, which is great praise.

Miss Boyer's Hero was very fine. It might almost be called great in its conception. It was the finest support of the star that could be imagined.

It is impossible that each can be mentioned, yet it must be said that all deserve it. Too much praise cannot be given to the Janet Waldorf Company for their balance. This is undoubtedly due to the fact that the company is under the instruction of Mrs. A. Dow Currier. The Janet Waldorf company is practically a school of instruction which the people of Honolulu should delight to attend. The instructor of Julia Marlowe and Miss Waldorf can instruct all who attend the opera house.

Too much praise cannot be given the care taken in the costuming of the play. The Lady of Lyons, which has great requirements in this direction, will undoubtedly be costumed as well as the plays thus far produced. T. H. A.

Want the Band.

Robert W. Shingle has received a letter from W. W. Umsted who is now en route to Honolulu as special commissioner to the Islands for the Greater American Exposition to be held in Omaha from July to November 1 of this year. Mr. Umsted's particular object here will be to endeavor to secure the services of the Government band. He has letters and credentials to a number of influential Isanau people.

THIRTY-ONE LIVES LOST.

WASHINGTON, April 19.—The Secretary of State today received a cablegram from Consul Ayme at Pointe Pitre, Guadeloupe, saying that fires believed to be incendiary started at midnight on the 17th inst., and destroyed sixteen squares in the vicinity of the American Consulate. He says that 400 houses were consumed, thirty-one lives lost and 2000 persons rendered homeless. The loss will approximate \$1,000,000. The Consul adds that the conflagration is out, but great uneasiness prevails among the people. The Governor has arrived at Pointe with fifty soldiers.

AFFAIR DREYFUS.

PARIS, April 19.—The decision of the Court of Cassation, which will probably be delivered on May 1, will be a refusal of revision of the Dreyfus case.

This appalling news has spread consternation among the friends of justice in France, and has already evoked manifold forebodings of the speedy downfall of the republic as the penalty for its renewed defiance of the first principles of truth and righteousness. Shame, indeed, would be the inevitable effect of persistence in the suicidal policy advocated by the anti-Dreyfus Parisians.

HALLOWELL, Me., April 19.—Col. D. P. Livermore, the oldest telegrapher in the country, died today. He was 94 years old.

OUR Optical Department

will from this day on be under the direct charge of MR. ARTHUR N. SANFORD a graduate of the Philadelphia Optical College, and all work will receive his closest attention.

The accurate fitting of Glasses to correct all errors of refraction will continue to be our special aim, though no part of this most necessary work will suffer from the slightest neglect. As we grind all manner of complicated lenses in our own workshop, the advantage to you of receiving your glasses within twenty-four hours after receipt of the prescription cannot be over estimated.

Recent imports of Lemaire, Bardou and the wonderful TRIEDER BINOCULARS places our stock of Optical Goods at the very top. The Trieder Binocular, having many times the magnifying power of the ordinary Marine Glass, together with compactness, recommends it as the finest glass for every use, where the magnification of objects is desired. We will be glad to show the difference, and convince you of the above fact.

H. F. WICHMAN.

The best at the lowest price at HOPP'S.

Keep Cool

About it; you may be fighting mad when you learn our prices and compare them with those charged in other shops for inferior goods. We buy our stock of furniture to sell, not to keep. We charge a reasonable price for things and in that way we are constantly putting furniture into the homes of town people.

This week we are going to offer you your selection of various styles of

Parlor and Dining Room Chairs

at an inside figure.

BEAUTIFULLY CARVED HARDWOOD EXTENSION TABLES.

The sort that have the leaves under the table and which fit in place automatically, are superior to the old style and are not so expensive.

You'll be interested in our assortment of

Rugs.

We have many pretty patterns for you to choose from; some large, some small, some plain, some fancy, at very reasonable prices.

J. HOPP & CO.

Leading Furniture Dealers, KING & BETHEL STS.

12 TWELVE Useful Articles

FOR THE KITCHEN For \$1.00, or 10 Cents FOR A SINGLE ONE.

You can make your own assortment. See them in our Big Window.

In a few days we will display a new

Blue Flame Oil Stove

Which Has No Superior, and invite you to come and inspect it.

W. W. DIMOND & CO. LIMITED.

SOLE AGENTS Gurney Cleanable Refrigerators Jewel Stoves.

GET IT AT WATERHOUSE'S.

AFTER Repeated Trials we have at last found the article we wanted. It came by the Albert and is now offered for sale to the public of Hawaii at the same prices as sold in the United States. Come and see for yourself and be convinced that the above statement is true in every respect.

Housekeepers will appreciate our effort after they have seen and tried our new

Scotch Granite Ware and found it will not chip and then rust through, after it has been in use a few days. These goods when they once get into your house are there to stay.

Aluminum Ware Is something that has been sold in Honolulu some time but the prices we are offering these goods at is a new departure altogether.

Another thing we have pleasure in bringing before the public, especially those who have youngsters in the family, and have more or less washing to have done at home, is a Wash Tub with an attachment on the side, for fastening a wringing machine to, thereby obviating the necessity of screwing your wrists all out of kilter, by wringing out clothes by hand power. These wringers we have in three sizes.

12 HAS A NEW NAME

U. S. A. Transport Scandia Here as the Warren.

Has Aboard Eight Batteries of Artillery for the Philippines -Officers.

The United States army transport Warren, formerly the Scandia, enroute for Manila docked at Oceanic wharf at 11 o'clock yesterday morning from San Francisco with eight batteries of the Sixth Artillery, with band, 947 men, 50 hospital men, and 192 recruits for other commands in the Philippines. The band played stirring airs while the big transport was coming through the channel and harbor.

The expedition is in command of Brigadier-General E. B. Williston. The other officers are as follows: Major Vose; Captains: Todd, Foster, Deeman, Millar, Homer, Sage, Ludlow; Lieutenants: Larned, Pershing, Starbird, Menohar, Lloyd, Curtis, March, Mc-Masters, Davis, McIntyre; Corporals: Bottoms, Gilbert and Bishop; Doctors: Major Edie and Lieutenants Person, Hartnett and Calvert.

Rev. J. L. Smiley and Layreader W. H. Wilson of the Brotherhood of St. Andrew who go to Manila in the interests of the American Episcopal Church are passengers on board.

Major S. A. Cloman is the quartermaster and is probably the most popular officer on board.

Captain Hart is still in command of the Warren. R. Pfeiffer is now steward and T. Madge second steward. Purser F. M. Bucklin is another familiar face.

The soldiers were nearly all given liberty during the afternoon and a lot of the soldiers were on the streets last night.

The Warren will remain in port about three days coaling.

WHAFF AND WAVE.

City of Peking from Yokohama tomorrow.

A ship and bark were outside last night, bound in.

Nine transports sail from San Francisco for Manila in May.

The W. G. Hall sails tomorrow for Lahaina, Maalaea, Kona and Kau at 10 a. m.

The schooner Honolulu finished discharging yesterday and anchored in the stream.

The Pacific Mail liner Rio arrived yesterday morning from San Francisco and docked at the company's wharf. She will sail for Yokohama at 8 o'clock this morning.

ST. MICHAELS, Azores, April 14.—Br. bark Kinfauns, from London, March 21, for Honolulu, has put in here damaged by collision with the Portuguese Government ship Pere Alenquer.

The following island steamers sail today: Steamer Kiloahua, Thompson, Makaweli, Uaimea and Kekeha, at 4 p. m.; steamer Ke Au Hou, Mosher, for Lahaina and Kaanapali, at 4 p. m.; steamer James Makee, Tullett, for Kapa, at 4 p. m.

Fourteen thousand bags of sugar arrived from Hawaii on the Helene yesterday, which will be discharged into the brig W. G. Irwin and bark S. C. Allen today, completing their cargoes. These vessels sail for San Francisco as soon as loaded and a champagne supper at the Cliff House will be paid for by the skipper getting there last.

The great advantage in buoyancy which the steel ship has over one of wood is illustrated, says the Bath Enterprise, by the fact that while the giant four-master Arthur Sewall draws a scant eight feet while light, a wooden vessel of that size would draw at least twelve. This difference, nearly one-sixth of the loaded draft, indicates a carrying power of dead weight one-sixth larger than that of the wooden ship of corresponding size, a fact of vast significance in these days of sharp competition.

Chas. Schermerhorn.

Some time ago the Advertiser stated that Chas. Schermerhorn, who enlisted with the First California when they came through here on the first expedition to Manila, had received his discharge on account of physical disability. A letter received from Portland by the Rio gives the additional information that Mr. Schermerhorn is badly afflicted with consumption and that his life cannot be prolonged any great length of time. This news will be received with regret by the many friends of Schermerhorn in this city. He was a prominent figure in local athletics. In football especially he was a first class player, having formerly been a member of the Multnomah Club, the most prominent athletic organization of the Northwest.

Difference in News.

There is a glaring inconsistency in the Call-Herald dispatches of April 19 and the special dispatches to the Examiner under the same date. The former states that "there is to be no cessation of hostilities in the Philippines." On the other hand the Examiner confidently declares that "President McKinley has endorsed a proposition to suspend active field operations against the insurgents in the Philippines."

Police Court.

Two Chinese, opium in possession, fined \$50 and costs each. The case of the Japanese rioters was postponed until Tuesday at the request of Attorney Robertson. Nine gamblers were fined \$4 and costs.

OUR REPRESENTATIVES.

We have Shoes for those too young to walk, for those too old to run; for those who dance with merry feet, or through weary years still shuffle on.

Shoes as light as the heart of youth, as strong as manly courage, as beautiful as woman's grace and firm as truth most chaste.

Shoes for dry and wet, for cold and storm, for week day and Sunday, and always to be depended on.

All our Shoes are like good ministers--they wear themselves out in the service of mankind.

Interview these representatives at

A. E. MURPHY & CO. 205 Hotel Street.

WHAT'S YOUR SHOE PRICE?

WHATSOEVER YOU WANT

In the way of SHOES, never doubt our ability to fit both purse and foot; its simply a matter of knowing your size, price and width. It isn't possible to give better shoe service that we give. We can suit everybody; we wouldn't be

"THE LEADERS"

If we couldn't, and we give as big value in proportion for \$2.50 and \$3.00, as we give for \$5.00. Likely that's the reason we're selling so many Men's and Women's \$2.50 and \$3.00 shoes just now.

The Manufacturers' Shoe Co., L'd.

Silhouette
Photography
IS NOW ALL THE RAGE.

Do you want to learn how to make SILHOUETTE PHOTOS? If you do step in our store and we will take pleasure in teaching you the art. We have a complete line of KODAKS, and PHOTOGRAPHIC GOODS. Our printing and developing department is turning out good work. Our customers are pleased. We take pains with every job—none slighted. We sell the Kodaks, the film, and take pride in the work of amateurs. We are glad to show anyone the kind of work we do. We have no photos for sale. Photo printing done by us in cloudy weather. Work always ready when promised.
