TEN - PAGE EDITION. Scott law went into effect. The last company's plans is undoubtedly due to the regard in which Commander Men-TUESDAY, : AUGUST 27, 1889. OUR SAN FRANCISCO LETTER.

Arrival of the S. S. Australia with Fourteen Days Later News.

The news of the recent insurrectionary

outbreak in Honolulu, while totally unexpected, did not have any disastrous effect on any of the Hawaiian stocks, nor is it going to affect trade in the least. The general sentiment of merchants in the Hawaiian trade is that the effect of the outbreak will only be to increase the confidence in the stability when the steamer returned last Satof the government, and thus increase urday. business. The attempts of the two natives and their followers to overthrow the government, however, have been freely commented on by the American press. In every instance the acts of the present ministry receive the warmest approbation. A few of the would-be excitement. The cause of the shooting jokers in the newspaper profession, rail at the idea of attacking a bungalow with tween Judges Terry and Field which dynamite, and especially at the employment of a baseball pitcher as bomb-thrower. The whole incident will not cause a ripple on trade. Sugar Matters.

The local market is fairly active though prices are still lower in sympathy with the New York market. Granulated is quoted at 8 cents, confectioners' A. at 7% cents, other whites at

not favorable to high prices. The bears Upon examination afterward the bag have been encouraged by the publication of Mr. Licht's latest estimates of the beet sugar crop. The sugar beets abroad are said to be looking well.

Licht's revised circular gives the fol-lowing estimate of the probable product in tons, compared with the product of 1888 and 1887: 1889-90. 1888-9.

1887-8. 990,000 525,009 959,166 428.616 392,824 441,342 470,000 510.000 140,000 45,000 140,742

Dawaiian Gazette all the evidence thus far adduced being bronght to show that Florence Blythe is old T. H. Blythe's illegitimate daughter. The Chinese are coming in larger New York as to the ultimate success of

13ette.

customs officers have information that large numbers of Chinese are being smuggled from Canada and Mexico into the United States. Ten lepers are confined at the small-

pox hospital on twenty-sixth street. Four of the lepers are Chinese and six are white men.

The agreement between the powder companies to form a pool has been carried out. Powder and dynamite have gone up six cents a pound.

Mervyn Donahue is back from the East. He declines to say whether or not his line is to be the terminus of any transcontinental railroad.

Ah Ki the Chinese who obtained some prominence in the Sharon case as the body servant of the late William Sharon, returned from China recently on the City of Peking. There was no one here who would release him on habeas corpus and he was carried back to China

Killing of Judge Terry,

Judge David S. Terry was shot and instantly killed in the Lathrop Hotel at Lathrop at 7:15 o'clock on the morning of August 14th, by Deputy United States Marshal Nagle. The shooting occurred in the presence of about sixty or seventy people, and created a scene of the wildest was the well-known quarrel existing begrew out of the latter rendering a decithe Lathrop Hotel and slapped or struck him twice in the face, whereupon Deputy Marshal Nagle, face, who is traveling with Field as a bodyguard, drew a revolver and shot twice at Terry, one shot penetrating the left breast, and producing instant death. As the first shot was fired Mrs. Terry tioners' A. at 7% cents, other whites at 8% cents, Extra C. at 6% cents and Golden C. at 6% cents. The feeling in the Eastern markets as The feeling in the Eastern markets is aid of others took away the bag. was found to contain a pistol, which was sufficient proof of Mrs. Terry's motive.

General American News.

Elias Loomis, professor of mathematics at Yale College, is dead, aged 79 years. The table glass manufacturers of ohio, West Virginia and Pennsylvania, have formed an immense trust with headquarters at Pittsburg.

President Farrison is rusticating at Bar Harbor, Me.

Worth and Denver train near Tuscosa, Tex., on the 5th inst. They got \$2,000. Black Bart, the noted California bandit. is beleved to have led the gang.

WHOLE No. 1285.

numbers than at any time since the the enterprise. Part of the faith in the Scott law went into effect. The last company's plans is undoubtedly due to ocal of the navy is held. Commander Menocal is chief engineer of the com-pany and has made the solving of the Isthmean problem his life study. He was born in Havana and received his education at the Troy Polytechnic school. He became assistant engineer of the Havana Water Works, then an officer in the New York Department of Public Works and finally was made civil engineer in the navy department with the rank of lieutenant commander.

He has been connected with the Nicaragua canal enterprise since 1881, and the route of the canal is his choosing. Lieutenant McIntosh of the local

Hydrographic office has prepared a chart showing the distances that will be saved when the canal is open. The distance from New York to Honolulu iy way of Cape Horn is 14,230 miles and when the canal is open it will be 6,388 miles making a saving of 7,842 miles. From Liverpool to Honolul 1 by way of Cape Horn 14,080 miles and by way of the canal it is 9,136 making a saving of 4,944 miles.

Sporting Matters.

John L. Sullivan and Fitzpatrick the referee at the recent prize fight have been indicted at Purvis, Miss. Kilrain has also been indicted. He was arrested at Baltimore on the 14th inst. but has not yet gone South.

Intense interest is felt all over America in the result of the rowing match be-tween Wm. O'Connor, champion of America, and Harry Searle of Australia, for the championship of the world. The race will be decided September 9th on the Thames, and both men are in training. Their movements are watched by thousands on the river banks.

Pat Killen who is to fight Joe McAuliffe next month was arrested in the Cremorne Theater recently for offering to knock out any one in four rounds in the theater. The arrest caused much excitement in the city.

Shipping News.

Delegates from the Chamber of Commerce, Board of Trade, and other mercantile bodies, as well as the Pacific Coast Senators and representatives in Congress will discuss the steamship subsidiy question on the 29th inst. The Commercial News and other papers are making a warm fight in favor of adequate subsidies to American steamships.

Captain Hayward of the Mariposa has received a letter from the North British Shipping Company of Glasgow thanking him for his conduct in saving the crew of the bark Henry James, which was wrecked last year on Palmyra is-Six masked men robbed the Fort land. They also enclosed him \$100. Captain Haywood has already received a handsome piece of plate and thanks from the British Government. Hon. J. C.Abbott a leader in the Canadian Parliament has gone to New Zealand to get a subsidity for the long pro-jected steamship line betwen the Colonies and Vancouver by way of Honolulu. He has authority to offer a subsidity on the part of the Canadian Goyernment. Up to a recent date the Bank of California has been shipping tr-asure to Honolulu without putting it on the manifest. The customs authorities have discouraged the practice and have called Captain Hondlette of the Australia to tell why a \$40,000 shipment made on his vessel ou her last trip, was not properly manifested. Captain Houdlette says that in this instance there was no intent to violate the laws. The Spreckels brothers supposed that the bank would clear the treasure, but the bank people evidently let it for the steamship agents to do and consequently no one attended to the matter. The law imposes a fine of \$500 for such a failure. The bank shinped \$50,000 by the barkentine S. G. wilder on the 14th inst. The result of the resent trip of the Australia to Honolulu and return, the first since the new triple expansion engines were placed in her, is highly satisfactory. The owners report a clear saving of 23 per cent in the fuel consumed and an increase in speed of two knots an hour. . The Australia is of British build and the new engines were constructed in this city. The new four-masted schooner Robert Lewers, designed for the Hawaiian lumber trade, is on the stocks at Hall's shipyard, Puget Sound. She is to be 200 feet long, 40 feet beam, and her registry will be about 700 tons, with a carrying capacity of a million feet of lumber. Hall Bros. are also building a barkentine for the Hawaiian trade. She will be 165 feet long, 38 feet beam, and 1416 feet depth of hold, with a registry of about 600 ter . She will be affoat in three months. Six Portuguese who arrived here from Kahului on the schooner Anna, were refused landing as paupers by the Immigration Commissioner. They were subsequently released.

and cane sugars are lowering. Trade is exceedingly dull and there is a marked ized loss of confidence in the future stability of values. John D. Spreckels has returned from San Diego, and it is believed that at least two of the ten beet sugares which Claus Spreckels intends to erect in California will be located in the southern part of the State. When Mr. Spreckels was in that section recently he was

shown a number of locations which were believed to be favorable for the culture of the sugar beet. Beet growing in an experimental way has been tried at many places in southern California, and there is hardly a section in the northern portion in which some experiments have not been made. The people of San. Diego are confident that at least one of the sugaries will be located there. Sugar Trust stock fell from \$110 to

\$106% on the 13th inst., on the strength of a report that Judge Ingraham of New York, granted an order restraining the Trust from paying any further dividends. It was stated that the injunction was granted on the application of Receiver Grav of the North River Refinery. Treasurer John E. Searles of the Trust

at once denied the authenticity of the report and said most emphatically that no Court in its senses would grant an injunction on the grounds set forth by Gray. The stock recovered the same day to \$10816. On the 8th inst. a telegram was sent

all over America that the Sugar Trust at Berlin on the 24th inst., and remain and the independent refiners had come to an agreement whereby the Trust would get 70 per cent. of the American business and the outside refiners 30 per troops. The Czar, Emperor William cent. It was also said that the new re- and the Empress will then proceed to finery of Claus Spreckels would come under such a deal and that Harrison, Frazer & Co. would also be admitted to a share in the allotment. The report, which could not be traced to an authentic source, at once met with a prompt denial from Spreckels and Harrison, Frazer & Co. C. A. Spreckels said that the new refinery would be ready for business about September 15th. Claus Spreckels is reported to be formulating plans for the erection of another big refinery in the East.

The sorghum sugar works at Topeka, Kan., were burned this week; loss \$70,000. Hundreds of acres of sorghum in the vicinity were nearly ready for grinding.

Owing to a lack of sugar the Greenock Refinery of London has shut down. The refinery is one of the largest in England. San Francisco News.

Charles Francis Adams, President of the Union Pacific, still remains on the Coast and is presumed to be directing the Union Pacific surveyors who are working between Ogden and San Fran-

Truckee is having trouble with the tramps which infest the place. One was tarred and feathered and run out of town. The next night a fire broke out and destroyed forty dwellings and about ten stores. The loss is \$15,000. It was believed at first that the tramps set fire to the town, but the truth is not known. A Vigilance Committee has been organ-

The Wisconsin Central train from Chicago for Minneapolis, was held up between Chippewa Falls and Abbotsford. Minn., on the morning of the 8th inst. One man did the work. He escaped, getting but little plunder.

The excitement over the seizure of the sealer Black Diamond, has abated, both in Victoria and Quebec. Great Britain will remonstrate against any more seiz-

Eden S. Allen, until a few days ago the President of the Forty-second & Grand Street Ferry Railway Company, of New York, is charged with forgery in issuing cortificates of pany to the amount of \$110,000. He admits issuing the 700 shares of stock and getting the benefit of it, but denied forging the signature of John Green and Charles Curtis, former Presidents of the company.

Foreign Affairs.

Boulanger, Dillon and Rochefort have been found guilty of conspiracy and embezzlement of army funds, and have been sentenced to imprisonment in a fortress yet to be named. Boulanger still remains in London.

Henry M. Stanley is coming down to the East African coast with Emin Pasha, 9,000 men and enormous quantities of ivory. The exact date of their arrival at Zanzibar is uncertain.

It is expected that the Czar will arrive several days. He will be accompanied by the Czarevitch. During the stay the troops. The Czar, Emperor William Kiel or Stettin to meet the Czarina.

A telegram received at the Japanese Legation at Washington, brings the intelligence that a treaty with Russia has been concluded and was signed at Tokio. It is similar to the treatise recently concluded between Japan and the United States, and Japan and Germany. The Haytian Council at New York has

published the following: The Haytian Consulate-General is in receipt of news under date of July 28th from Port au Prince by the steamer Athos, that the rebel chiefs Hippoloyte and Jean Jumeau, with their combined hordes, made a concerted attack on Port an Prince, which resulted in a general rout of the attacking forces, which at last reports were retreating toward St. Marc. Peace is expected shortly.

Tennyson celebrated his 80th birthday anniversary on August 6th at Ald-

Mrs. Maybrick the American woman who murdered her husband at Liverpool last March in order that she might live with a man named Briarly, has been found guilty and is under sentence to be hanged on the 28th inst. The judge to save her and a petition hearing 100,000 names has been got up in her behalf.

The schooner Adelaide was wrecked at New Haven August 6th. She is a total loss; insurance, \$6,800.

F. W. Hart, chief officer of the Mariposa, has been sued for \$299 99 dam-ages, by H Thomas, one of the crew. Thomas claims that Hart struck him in the face on July 27th with his fist and a pair of handcuffs. He wants damages for the injuries sustained.

While the steamer Costa Rica was going to sea at 6 p. m. August 7th, she collided with the bark C. D. Bryant, which arrived August 6th. loaded with sugar, rice, etc., from Honolulu. The steamer struck the bark on her port quarter, cutting away six planks and water plank, also carried away topmast and part of rigging. The steamer was uninjured and proceeded to sea bound for Nanaimo.

The steamers Teutonic and City of New York have just finished a race from Liverpool to New York. The City of New York won in 6 days 14 hours and 33 minutes, actual sailing time; the Teu-tonic's record being 6 days 15 hours and 51 minutes

The sunken hull of the old brigantine in which Napoleon made his escape from ties of ivory obtained from their tusks comes from the Yukon country. The Blythe will case is dragging along, Central America the Nicaragua Canal. Elba to France, has been discovered in Monterey bay. The brig was under the Mexican flag when she was lost.

THE BOARD OF EDUCATION.

HawaiianGazette EST MODUS IN REBUS. TEN-PAGE EDITION

TUESDAY, : AUGUST 27, 1889.

It is pleasing to hear how much interest is felt in the Hawaiian exhibit at the Paris Exposition. We had the opportunity of reading over a private letter the other day, which stated that the building in which the exhibit was, was fairly crowded, day after day. This agrees with what we have so frequently advanced. People will take an interest in Hawaii if Hawaii will only bring herself into notice in proper shape. Not an opportunity should be lost to show how advanced in civilization Hawaii is. The more tourists we attract the better, and this not only for the transient good of thus spending a few dollars among us, but for the more permanent one of some being induced to invest money with us.

BETTING.

We have on several occasions expressed hearty approval of the various athletic games indulged in by our young men. There is, however, one feature connected with the sports that we would like to see eliminated, and that is betting. There is not a baseball game, a boat race or anything in which the skill of two or more players or contestants is shown, that a great deal of money does not change hands. We have heard of quite young lads winning from \$50 to \$100. If some win, others of course lose, and they have with difficulty to find the money out of very scanty wages. This evil of betting is becoming a very serious one in our community and some day, if allowed to go on unchecked, it will cause what it has caused in every other country, defalcation. Many a promising young man has gone to rain through betting. It is not by sermonizing, however, that the evil will be checked, it is by the force of example. Let some of our prominen⁺ citizens who are not averse to a small bet, set their faces against it, and many will follow in their train.

Some months ago we published an account of the former school system on our Islands; pressure of other matter has kept us from making any review of the present system which was inaugurated in 1855. We are often surprised to note how little people really know of the machin-

ery of different parts of the government. of five members, appointed by His Majesty, who hold office during his pleasure. The present Board consists of the Hon. C. R. Bishop, President; Hon. W. D. Alexander, Vice-President; Hon. S. M. Damon, W. W. Hall, Esq., and there is one vacancy. The President of the Board apfinancial and other business of the meetings and manages the correspondence.

pointed by the Board: His duty is to visit the schools, examine them, report upon their proficiency, give advice and instruction to teachers, report upon the condition of schoolhouses and school property and ex-

amine the accounts of school agents. No one is eligible for the position of President or Inspector-General of | their powers. Care has been taken schools who is a clergyman or one in holy orders. The Board regulates all the edu-

cational affairs of the kingdom, prescribes the studies used in the schools, appoints the teachers and expends all the moneys available from Legislative appropriations, rents of school land, interest of school fund and other sources.

It is frequently asked, whence comes the school fund? It is the money received from the sale of school land, and such sales are thus provided for by law:

Sec. 33. All moneys and other avails of Government lands set apart for the general purposes of education, shall be kept as a seperate fund, and the interest only of each fund shall be appropriated, as the Board of Education shall, from time to time, decide, for the purpose of education.

The amounts of this school fund as reported to the Legislature in 1888 was \$46,100. It is deposited in the Hawaiian Treasury and bears 12 per cent. interest per annum.

The main support of the schools comes from two sources. The school

past year and a half. Several of what we familiarly know as a desert. these will be opened for the first time at the commencement of the like this, as oceanic isles have sufficiently Christmas term. It is very evident demonstrated. The rock, when it first that the Board is doing its duty by the country and striving to improve living thing, animal or vegetable in many practical directions.

THE PUNCHBOWL ROAD AGAIN.

The road to the top of Punchbowl, of which an account appeared in The Board of Education consists this paper a month ago, is rapidly approaching completion. Without doubt it is going to be of very great benefit to the town. The residents of all classes are going to enjoy it, and it will doubtless be quite an attracthe most picturesque on the Islands, points a secretary who attends to the has only been seen by the more energetic of our citizens and visitors. office, keeps a record of the board It is very probable that not a tithe of the adult population of this city has climbed the height and enobtained on arrival there. Now all this will be at the disposal of every other vegetation. man be he rich or poor. The grade of the road is so easy that the pedestrian will feel no effort in ascending and even ladies and young children will not find the ascent too much for to make the road perfectly safe for wheeled vehicles, walls having been built wherever the hillside is at all are asked among themselves despairprecipitous. In fact it will be an ingly: How shall we dispose of ideal road leading to one of the pleasantest of spots, for we feel sure duced to purchase our raisins? that once the road is completed our citizens will not be satisfied till the bowl of the old crater is itself beautified. Here is a fine chance for individual liberality, and no doubt efforts too much in raising staple that liberality will be forthcoming productions, and have over-supplied when it is needed. Public works not actually useful

> in bringing in money, are yet very tage. useful to the general well being of a city. The more parks, the finer buildings, the better schools you put climate are especially favorable for up, the more the citizens will take a certain products that may be scarce pride in their city and the more and dear when the industry begins, liberally they will themselves assist. the whole or greater part of the Honolulu has reached that stage attention of agriculturists is given when she can begin to take a pride to those particular products, without in herself. She has good roads, many handsome buildings, public and private, a lovely natural situation and fine scenery in every direction. She has the latest improve- limit is reached the sacrifice begins. ments in civilized life, as the tele phone, the electric light, the tramcars, and good postal and steamer service both inter-island and abroad. The motto of our citizens must be ever "onward and upward." To do so they must spend a little money and we feel sure that they will do so.

The normal course of events where new land rises above the sea is somethin emerges from the water, rises bare and rugged like a sea cliff. No is harbored anywhere on its nak-ed surface. In time, however, as rain falls upon its jutting peaks and barren pinnacles, disintegration sets in, or to speak plainer English, the rock crumbles, and soon streams wash down tiny deposits of sand and mud thus produced, into the valleys and hollows of the upheaved area. At the same time lichens begin to spring in yellow patches upon the bare face of the rock, and feathery ferns, whose spores have been waited by the wind or carried by the waves or borne on the feet of unconscious birds sprout here and there from the clefts and crannies. These, as they die and decay, in turn torm a thin layer tion to tourists. Formerly the views of vegetable mold, the first beginning from the top of Punchbowl, one of of a local soil, in which the trusty earth worm (imported in the egg on driftwood or floating weeds) straightway sets to work to burrow, and which he rapidly increases by his constant labor. On the soil thus deposited flowering plants and trees can soon root themselves as fast as seeds, nuts, or fruits are wafted to the island by various accidents from sur rounding countries. The new land The Inspector-General is ap- joyed the view from the summit, or thrown up by the great eruption of ointed by the Board: His duty is drank in the pure air that is to be Krakatoa has in this way already clothed itself from head to foot with a luxuriant sheet of ferns, mosses, and

The root of the trouble is, that our California friends have confined their the markets with one or two pro ducts, much to their own disadvan-

Pure All countries are liable to err in this way; because where soil and **Medicinal Preparations**, considering eventualities. There may be great consumption of certain PATENT products; but however great that may be it has a limit, and when that Overproduction has in every coun try the invariable tendency toward stagnation; and it cannot be otherwise than inferred from these facts that the productions of a country should be as varied as the conditions will warrant, so that in the event of E one kind of crop or product failing, other products can be realized upon to prevent a panic. From these facts and deductions, a lesson may be drawn that would m be serviceable to this kingdom. Valuable as the present staple productions of the Islands are, and much as extended areas of sugar and rice cultivation are commendable; yet our whole trust should not be confined to those products. Every reasonable encouragement should be given to minor industries that would help to swell the exports, and in fime might become valuable "standbys" under periods of depression in our staples. We cannot be blind to the fact that the progress and prosperity of the Islands is, at present, measured by the rise and fall of the sugar market, and that general business throughout the group fluctuates from the same stones cleaned and reset. cause.

HAWAIIAN SOILS.

Fault has often been found with the great porosity of Hawaiian soils: but this fault, if such it be, is in the process of speedy remedy where cultivation is carried on, and the same process in a slower degree goes on growths. The accumulations of vegetable decay make the soils of these Islands more compact and porosity complained of in the virgin soils, is only a condition of newness and a lack of sufficient vegetable decomposition mixed in it. In countries where deciduous trees and herbage abound, the yearly decay and "fall of the leaf" soon enrich the virgin soils; but Hawaiian trees and vegetation, being mostly of perennial

kinds, the natural enrichment of the soil is slower, and cultivation alone can alter the porous conditions suffi ciently fast to suit this progressive age. Working and turning over the soil, artificial fertilizers, manuring with decayed vegetation and compost, etc., all have a beneficial effect: and in a few years the natural porosity of the soils change under this treatment, and compactness and greater ability of the mold to hold water, follows as a matter of course.

The following article from the Cornhill Magazine brings out this view in greater detail:

Without vegetation there is no such thing as soil on earth anywhere. The top layer of the land in all ordinary countries is composed entirely of vegetable mold, the decaying remains of innumerable generations of weeds and grasses. Earth to earth is the rule of nature. Soil, in fact, consists entirely of dead leaves. And where there are no leaves to die and decay there can be no mold or soil to speak of. Darwin showed in his last great book that we owe the whole earthly covering of our hills and plains almost entirely to the perennial exertions of

that friend of the farmers, the harmless earthworm. Year after year the silent worker is busy every night pulling down leaves through his tunnelled burrow into his underground nest, and there converting them, by means of his castings, into the black mold which produces in the end for lordly man all his cultivable fields and pasture lands and meadows. Where there are no leaves and no earthworms, therefore, there can be no soil, houses have been erected during the | and under these circumstances we get | legislative procedure.

With more minor industries: more varieties of products, and larger quantities of each, progress would be steadier, there would be fewer risks in general business, and trade would have a healthier and more regular tone.

Among other agricultural and horticultural industries that require and should receive special encouragement, during their earlier, stages of development, are: coffee, ginger, tobacco, vanilla, spices, citrus and other suitable fruits, etc.; and also industries connected with the preparation and preservation of these products for the purposes of export. New industries in all countries require and generally receive special encouragements, while in the experimental stages; and, in some countries, government help is given until the assisted industries can stand un sided. These aids are given in the way of government subsidies, bonuses, land grants, special immunities from taxation, franchises, etc. Of course, these helps have to be given judiciously, and each application for assistance has to be carefully weighed and publicly dis-cussed. Hole and corner assistance is wrong in principle and hurtful in practice; but under constitutional government it is seldom that these slips are made, owing to critical

The language of the second Section was wide enough to include the Crown: and as the fourth referred It appears also from the testimony sions, nor should the plaintiff on to the Crown as plainly as if it had spoken expressly of Crown cases, the language of the sixth authorizing costs was construed as applying to such cases also, as well as to cases between subject and subject," (ibid. Sec. 166 and Moore vs. Smith, 1 E. general rights are declared or remedies given, by law, the commonwealth, though not named, is included." (Commonwealth vs. B. and M. Railroad, 3 Cush. 25, and Endlich on the Interpretation of Statutes, Sec. 167). "It is urged that the Government is not bound by a law unless expressly named; we do not see why this rule of construction should apply to acts of legislation which lay down general rules of procedure in civil actions. that Congress intended it to apply to actions in which the Government is a party, as well as those between private persons. For the United States is a necessary party in all criminal actions, which are excluded ex vi termini; and if it had been the intent to exclude all other actions in which the Government is a party, it would have been more natural and more accurate to have expressly confined the law to actions party instead of confining it to civil actions. It would then have corresponded precisely with such intent. Expressed as it is, the intent seems to embrace, instead of excluding civil actions in which the Government is a party." (Green vs. U. S., 9 Wall., 658.) When the Act of 1888, providing for the bringing of suits by or against the I am still further fortified in my be unless process is allowed by a Hawaiian Government, was passed, the present laws and rules of Court

relating to costs and attorney's fees were in force, but the Legislature maintain suits against the Government without making any exception as to costs. The inference is direct and strong that they intended to other litigants.

THE ORIGINAL and ONLY GENUINE.

Advice to Invalids.-If you wish to obtain quiet refreshing sleep, free from headache, re-lief from pain and anguish, to calm and assunge the weary achings of protracted disease, in-vigorate the zervous media, and regulate the circulating systems of the body, you will pro-vide yourself with that marvellous remedy dis-covered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valu-able remedy ever discovered. able remedy ever discovered. CHLORODYNE is the best remedy known fo

Coughs, Consumption, Bronchitis, Asthma

CHLORODYNE acts like a charm in Diarr hea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short ail at-tacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neu-ralgia. Rheumatism, Gout, Cancer, Toothache Meuingitis, &c.

Meningitis, &c. From Symes & Co., Pharmaccutical Chem ists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir.—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly exteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native baznars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad inglations of the ex-traordinary efficacy of Dr. Collis Browne's Chlo-rodyne in Diarrhem and Dysentery, Spasme Gramps, Neuralgia, the Vomiting of Pregnancr, and as a general sedative, that have occured under our personal observation during energian. to other litigants. The statute does not say that the Attorney-General " is forbidden to accept any fee or reward for any business to which it shall be his official duty to attend," but that he " shall not receive any fee or re-ward from or on behalf of any per-son or prosecutor, for services ren-dered in any business to which it shall be his official duty to attend." This appears to refer to professional ists. the United States is a party, (The Antelope, 12 Wheat., 546) the Gov-ernment is sometimes liable for its own costs in cases where it is the plaintiff, (U. S. vs. Ringgold, 8 Pet.

The defendants, by their answer, admit the copartnership of the complainant and M. Phillips and that the complainant is the sole surviv- Hayselden informed Mr. Gibson, ing partner, as set forth in said bill of complaint and further answer as follows :

"2. And defendants deny that His Majesty Kalakaua, on Febru- usually paid, and told Hayselden to ary 28, 1887, or at any time prior to that date or since, owed plaintiff or his said firm, said sum of nine the latter said, "I will pay for it if thousand eight hundred ninety and the Government won't." This was 95-100 (\$9,890.95) dollars, or any not communicated to the complainsum whatsoever, or was in any way indebted to them or either of them, and deny that the goods and materials set forth in the bill of particulars annexed to the complaint, were provided for, and delivered to the order of His Majesty, or upon his request, and deny any and all liability of His Majesty Kalakaua for, or on account of the said claim of plaintiffs. But defendants say that they are informed and believe and on such information an belief. allege and aver that the goods and materials mentioned in plaintiffs' claim were provided for the funeral of H. SPRECKELS' PURCHASE.

The property recently purchased by John D. Spreckels at San Diego includes a third interest in the Coronado Beach Hotel, the Coronado Belt Line and the Park Belt Line Railroads, the San Diego & Coronado Water Company, the San Diego Street Car Company, the San Diego & Coronado Ferry Company, the Coronado Beach Motor Line and the Marine Ways. The Coronado Beach property consists of 6,000 acres of land, and with the many improvements made upon it, including the establishing of several railroad lines and the hotel and water works, it now represents a capital value of about \$5,000,000. The Coronado Beach Company, consisting principally of capitalists from Boston, first purchased and improved the property. The company branched out into the different enterprises above mentioned which are, with one or two exceptions, on a paying basis, The company started in by erecting the Coronado Hotel, laying out the surrounding property and construct ing snitable wharves, with the intention of making Coronado a recognized shipping point. A large amount of capital has been sunk in the scheme.

WILLIAM R. CASTLE.

turn over your money. With our growing population it is those retail dealers that are enterprising that are going to win in the race. We throw this suggestion out because we have heard several people who have come from the coast and the eastern states express surprise, that, after having made the purchases they have had to carry their parcels home themselves or else hire an express to do it for them.

THE WAR-SHIP ALEXANDRINE.

This new German corvette-cruiser, is now at Samoa in place of the Ger man war-vessels that were disabled in the recent hurricane at Apia; and,

as she may visit Honolulu or be heard from soon in connection with matters of interest, we clip the following description of this vessel from an Australian Journal:

The German warship Alexandrine, a vessel with a displacement of 2370 tons, is from Wilhelmshaven, the great naval dockyard of Germany, and is under orders to proceed to Somoa and there re place one of the ships lost during the reent disastrous hurricane. Her commission is for three years, and unless anything of importance transpires to take her elsewhere, will most likely be completed among the islands of the South Pacific. The officers and men are all new to the Pacific station and as might be expected, they look forward to their cruise among the "coral seas" with a certain amount of interest. The Alexandrine belongs to what is termed the "corvette cruiser" type. This class of vessel is frequently to be met with on foreign service and is looked upon as one of the most useful in the German sister-ships to the Alexandrine, and the new arrival also bears a striking resem-

blance to the Olga, of Samoan fame, which left the other day for Germany, after undergoing an extensive overhaul The Alexandrine of course is a more modern ship than either of the three mentioned, and further than this she has greater power and is better equipped, -the German naval authorities after

their terrible loss at Somoa being fully alive to the importance of keeping only first-class ships on the Pacific coast. This corvette is a wholesome-looking vessel with a sharp clipper entrance and

clean delivery, barque-rigged, with taunt masts and possessing every appearance of a fighting ship. She is entirely new, and was turned out recently at the Government dockyards at Kiel. The hull is composite built, with iron frames and wood planking sheathed with metal. The whole is well put together and finished in first-class style. She has two decks. The main deck is chiefly taken up by the armament. The heavy ordnance on board comprises 14 Krapp guns. The majority of these are broadside mounted. They are breechloading, and their callibre is 15 centimetres. Three guns of the same principle, but of lesser weight, are used for saluting

ministry. Under such circumstanbeautiful views are obtained.

The palace steamer St. Lawrence. which for several seasons has been the pride of her officers and the best of the Thousand islands line of boats, ran on a rock off Hog island in the Canadian Channel to-day and is going to pieces. She had on board nearly 900 people, who were safely conveyed to the adjoining islands. It is expected the steamer will go to pieces during the night.

The Granada's Treasure Recovered.

NEW YORK, August 1.-President George Gould of the Pacific Mail has received a cablegram from the company's agent at Manzanillo stating that the treasure (200,000) that was on board the steamer Granada when the vessel was lost, had been recovered. The vessel was valued at \$200,000 and is a total loss.

Little Dutics.

A letter carrier in one of our large cities some months ago found on reaching the postoffice, after a long round of delivery, a letter in his bag that he had overlooked. It would have taken him half an hour to return and deliver it. He was very tired and hungry. The letter was an ordinary, unimportant looking missive. He thrust it in his pocket and delivered it on his first round the next

What consequence followed? For want of that letter a great firm had failed stand upon made land between Oahu to meet their engagements, their note had gone to protest, a mill closed and Prison and King street; but very hundreds of poor workmen were thrown near to the latter. There will be a out of employment. The letter carrier himself was dis-

Statement of Expenditure at the Boys' Home and Bishop's Home, Molokai.

The Board met on Monday the 19th inst, at the usual hour, and the chief matters considered were Mr. R. W. Meyer's statements regarding the Boys' Home and Bishop's Home at the leper settlement-First is a "condensed statement of the number of inmates and expenses of the Boys' Home at Kalawao, for a period of twelve months from its commencement, from August 1st, 1888 to July 31st, 1889-in charge of the late Rev. Father Damien and, subsequently, the Rev. Sister Merianne, assisted by Mr. J. Dutton."

The statement referred to, shows the daily average of inmates to have been within a fraction of 97, and the consumption ci food and articles of use during the fiscal year, cost the total amount of \$3,553 25; the clothing cost \$999 18; utensils and sundries are estimated at \$100 and the expenses of management, labor and sundry services \$1193 10the total expense for the home during the year being \$5,845 53; and the cost per capita was \$60 61. It is noted that the cost of the Boys' home exceeds that of the Bishop's home, and this is accounted for by the advancing illness of the late Father Damien. There is now, however, a very large reduction in the cost per capita.

Second. The statement regarding the Bishop's Home is a condensed report of that institution "for girls and unprotected females at the Leper Settlement in charge of the Rev. Sister Merianne, covering a period of six months from its opening on Feb. 1st, 1889 to July 31st," of the same year. The average daily number of inmates, during the six months, was 4918. The consumption of food and other articles consumed cost\$624-35 ;clothing \$201 30 ; utensils \$25 ; management \$340; servants \$250-making the total cost of the Bishop's Home \$1440 83; and the cost per capita for the six months \$29.33.

It is obvious that any increased number of inmates would decrease the cost per capita, and the above named amount of \$29 33, for six months, or \$58 66 yearly, cannot be said to be a high rate per capita

The two reports, in their varied details, were approved by the Board of Health; and they appear to us very satisfactory exhibits of the institutions under notice.

.... The Behring Sea Trouble.

The Canadian excitement over the seizure of the scaling vessel "Black Diamond," appears, so far, to be a tempest in a teapot. The event has created very little comment in either army or navy circles in the United States.

The dispatch to the San Francisco Chronicle dated August 1st says:

It is understood that before he left this country for England Sir Julian Pauncefote, the British Minister, was in consultation with Secretary Blaine in reference to this very matter, as well as the Atlantic seaboard fisheries.

stary of State that the British Gov-

One of our popular Deputy Sheriffs has resigned, to fill the vacancy of paymaster of the Volcano Road, R.W. Lane having resigned. Mr. C. J. Stevens, the title of "His Official Dignity," was believe

HILO NEWS LETTER.

Another Chinaman has been arrested, who was wanted in the Honomu murder creased number of visitors. The incase. The murderer of Anderson, it is crease is doubtless owing to nearly onebelieved, will be found yet.

Mr. Frank W. Damon gave at First Foreign Church on the 18th inst. an interesting account of his work among the Chinese generally. It was listened to are no palis or anything approaching to with marked attention, and contained steep grades, and the surrounding much instruction regarding the Chinese mission.

The Japanese school is increasing rapdly in numbers. The new missionary, Mr. John Okabe, is a great favorite with his countrymen; but the difficulty seems to be to get enough teachers at all times. There were forty-five Japanese present at school on the 18th inst.

Mr. and Mrs. Luther Severence, and Mr. and Mrs. C. L. Furneux, have gone to their summer residence, four miles from Hilo, on the rock bound coast where the waves dash high.

The Church Sociable of the Hilo Foreign Church was held at the house of Mr. Henry Porter on the 16th inst.

We want more rain in Hilo districtcall not Hilo, Rainland, any longer. The Japanese had a grand time at Waiakea on the 17th inst. Japanese music and Japanese tricks, dancing, refreshments, etc., and they had Silva, the Hilo photographer, there to take views to send home to their friends in Japan.

English Astronomical Expeditions Will be Sent to Cayenne and West Coast of Africa

LONDON, August 1 .- Extensive preparations are being made to take observations of the total eclipse next December by the Royal Astronomical Society. W. H. Wesley, assistant secretary, said to the Herald correspondent to-day : "We intend to send out two expeditions to

observe the eclipse-one to South America and the other to West Africa. The line of totality barely touches South America along its northeast coast. It passes across Africa, striking the west coast near St. Paul de Loanda.

The expedition to South America will probably go to Cayenne, in French Guiana. This expedition is in charge of Rev. S. J. Perry, F. R. S., director of the college observatory at Stowehurst. Albert Taylor will be in charge of the African expedition. Mr. Taylor's party will doubtless go to St. Paul de Loanda, It is asserted that Sir Julian told the and then go a hundred miles or more down the coast or into the interior

Road. Etc. A letter received by the Kinau Wednesday, from a gentleman in Hilo, states: "I returned from a visit to Kilauea last Friday, the 16th inst., and found great new paymaster, known in Hilo by the activity in the crater-Halemauman is again rising, and there is one long lake pleased to receive the appointment, and of fire at its base. The entire floor of will make a good man for the position, I the crater seems to be moving and changing levels, and the register at the Volcano House shows a largely in-

THE VOLCANO.

third of the new road from Hilo being finished for vehicular travel, leaving only about twenty miles of horseback riding over a good path on which there scenery and climate are of the most delightful kind. There is water enough for horses at short intervals along the track, and there are native houses every few miles. Scarcely any tourists now prefer the shorter and rougher track by way of Keauhou, because the six miles of difference in length is compensated for by greater convenience and a very much more agreeable road by the new highway from Hilo. In less than tude reached was something over 5,000 another month, I expect the new road will be finished beyond the Halfway feet. House and within fourteen miles of the Volcano. Then the whole travel will go by the new road, and the Keanhou

route must be and indeed is now discontinued for tourist travel, from inanition. The new wharf at Hilo is giving great satisfaction, and this is another reason why the new road is becoming already so popular. A new bridge is being constructed at the ponds on the first mile of the road, and various other improvements are being made at the Hilo end. It has already become a fashion-able drive, and bids fair to be the "Rotten Row" of the southern capitalriding, driving and walking upon the newly made highway being now common and much enjoyed. Of course, Hilo wants a properly conducted hotel and, were the people as progressive as in most American communities, a local newspaper to advocate the interests of the district, would have been established long ago; but when the new road to the Volcano is finished, new blood may be expected to settle here and the dry bones will be stirred considerably, although they hold to the city allotments with an aimless grasp so far."

PORTUGUESE POLITICAL OPINIONS.

An Editorial Article From the "Luso Hawailano" of August 17th, in which the Editor asks-"Will They Continue to be Protected?"

"Ho Fon, editor of the Chinese newspaper of this city, was arrested last Wednesday, for complicity in the late insurrection, and is accused of the crime of treason. It is probable that arrests are now being made of other Chinese.

Will the pro-Chinese gentleman of the reform, which constitutes the present

BALLOON ASCENSION. A Plucky Ascent of Prof. E. L. Melville, the Aeronaut, in Kohala. The following letter was received from Prof. Melville Wednesday: A large crowd of the foreign and native residents of the above district assembled to witness Prof. E. L. Melville ascend, shortly after 3 p. m. in his balloon "America" from Waimea on Satur-

day August 10th. Previous to the ascension the balloon unfortunately took fire, burning a hole in it large enough to admit a horse. However, that did not prevent the aeronaut from making a uccessful ascension, notwithstanding the request of the crowd to abandon the attempt. When up about 1,000 feet the hoop surrounding the bottom of the balloon broke, greatly to the consternation of the assembled people. The aeronaut then cooly hung by his toes, and fling-ing down his cap managed to alight safely, receiving only a few bruises several miles from the point of ascent. The residents of the district wished to witness a second ascension, and had offered to subscribe a good purse to the aeronaut; but, owing to the Professor having to meet the next outward bound steamer is order to fulfil engagements in America, he was unable to make another aerial flight. The highest alti-

Corporation Notice.

NOTICE IS HEREBY GIVEN THAT at a meeting held in Honolulu on the 29th day of July, 1889, of the subscribers to the stock of the HUI KALEPA HAWAII it was voted to accept the Charter of Incor-poration granted to them and their successors under the corporate name of the HUI KALEPA HAWAII on the 25th day of July, 1889, and that said corporation under said charter thereupon organized itself and elected the following officers: President and Treasurer Henry Smith Vice-President......S. K. Kane Secretary.....Josiah Kua

Secretary.....Josiah Kua Auditor.....M. K. Keohokalole, W. H. Cummings Manager Notice is further given that pursuant to the terms of said charter no stockholder shall be liable for the debts of the corporation beyond the amount which may be due upon the share or shares owned by him or her. ernment is as desirous of preventing the extermination of the fur seals as is the American Government, but the British are not willing to admit the claim of the United States that Behring sea is a closed sea.

ister was not, as reported, to bring his with him on his return, but to secure from the British Home Office the draft of a new convention covering many of the subjects now in dispute. It is owing to this fact undoubtedly that Assistant Secretary Wharton expresses his unqualified belief that the reported seizure will not lead to any open rupture.

A gentleman who was strongly instrumental in securing the passage of the bill for the protection of the fur seal industry, which is the basis of General Harrison's proclamation of last March, admitted frankly to-day that he did not believe at the time he spoke in behalf of the bill on the floor of the House that the United States could maintain its position of exclusive jurisdiction over

the body of water known as Behring sea. He said further that one of the objects of those who urged the passage of the bill

most strennously was to bring about some negotations which would result in an international agreement to protect the breeding grounds and to prevent the slaughter of female seals.

An Interview.

In reference to a letter written by James N. K. Keola and published in the evening paper, a representative of the ADVERTISER interviewed the late Adjutant and Acting Major of the Battalion of Volunteers recently disbanded, and received the following explanation. 1st. The names of the members of one of the companies were not furnished to the Acting Major, and he had no list of the members of that company. 2d. He does not know what company James N. K. Keola belonged to. 3d. He does not believe that he ever saw Keola at drill or meeting of any company. 4th. He does not know who James K. K. Keola is. 5th. James N. K. Keola could not have met two of the officers belonging to his company on the 30th July, as stated in his letter, because one of the officers was

The Jones Picnic.

A picnic to Pearl harbor was given by Mr. P. C. Jones on Taesday in honor of His Exellency H. A. P. Carter and wife, and Mr. Wm. P. Jones. Among those who received invitations were: Rev. Dr. Dwinell and wife, H. W. Severance but poorly supported Hawaiian Semin Esq., U. S. Consul-General, Lieut. Com-mander Lyons of the U. S. S. Nipsic, and Lieut. Moore of the U. S. S. Alert. There were about thirty ladies and gentlemen who went by the steamer Ewa and several of the larger yachts. Other excursionists wentt by land, and the day was very pleasantly spent among the groves and islands of the "inland sea." The steamer Ewa returned about 7 p. m. with a number of the picnic party, and others reached home by the yachts or by land at a later hour.

A man claimed admission the other day to a panorama at half price because he only had one eye.

When asked about the matter Prof. Lockyer said: "Our great point is this: We want to find out if the spectrum of the corona corresponds to that of the coal meteorites. It may be that the prominences which we have been thinking as

The story states further that the prime shot from a gun by a sort of violent ac-object of the return of the British Minside or from the upper layers of the sun's family over, although he will bring them atmosphere. If this is the case the theory long ago suggested of a meteoric origin of the sun will be revived into full belief. It has already been proved by photographic work, by the Solar Physics Committee, that the spectrum of the sun corresponds exactly with that of meteorites at a very high temperature. That means both have the same components. Now if the corona shows the same spectrum as the coal meteorites we shall know a great deal more than we do now about the components of the sun's atmosphere and the changes that are going We may be able to prove that the on. solar atmosphere becomer luminous from

the glowing of meteoric materials.' Laupahoehoe News.

A sociable has just been given here to

Mr. J. M. Lydgate as a formal leavetaking previous to that gentleman's departure from the district. The opportunity was chosen for the presentation of a watch and chain to him, as a token of appreciation of his untiring efforts to provide intellectual amusement for the residents, and for preaching on Sundays and holding religious services here for Gabriel was found, the police were the past six years. Mr. Lydgate has preached his farewell sermon, and it was discovered the mullato huddled up in listened to by a large congregation. He leaves a vacancy in this community that will be very hard to fill.

On Friday, the 9th of August, a native boy about 15 years old, was drowned at Laupahoehoe while fishing. It is supposed that a heavy sea struck him and stunned him. The body was found some hours later floating in the bay. An in-quest was held by E. W. Barnard, coroner, at which a verdict of accidental drowning was rendered. E.

A Rich and Timely Donation.

On his return from Hawaii last week Rev. Dr. C. M. Hyde was surprised in the Palace that morning, and another to find on his desk, awaiting his return, reported to him, the Acting Major. a check for one thousand dollars-an unsolicited gift from Hon. Charles R. Bishop, to aid in the maintenance of the North Pacific Theological Institute, o which the doctor is principal. The Inst tute was greatly in need of funds, and the unexpected gift will relieve a bur den, and help to cheer those engaged in

The Kohala Girls' School. The Hawaiian Board proposes to open the Kohala Girls' school about the first of October. Miss Whittier of Worcester, Mass., will be the principal, and Miss Garten of Salem, Mass., the assistant. Rev. Dr. Hyde and Rev. A. Ostrom have been appointed a committee to solicit contributions for the necessary alterations, repairs, and refurnishing. The school was opened in 1874 under

Miss G. W. Lyon, as principal, but since her resignation in 1882, the build-ng has been closed.

government, still continue to advocate the cause of their Celestial proteges, since having reason to believe that they took part in planning the destruction of their government. What do they think of the return

which they are now receiving? Noth-ing less was to have been expected.

We rejoice to see our Portuguese, (who constitute an enormous colony in this archipelago, and which in spite of being the most useful is the least favored, and whose importance to these islands not all yet realize), so far from being suspected in the late insurrection, having on the contrary, many of them left their homes, and taken a rifle in defence of the government, at the risk of losing their own lives and of leaving their wives unprotected and their children orphans.

How many Chinese and Japanese, who bring no good to these islands except to the pocket of half a dozen influential tock-jobbers, grasped a weapon in defence of the Hawaiian Government? Nobody saw one who did.

The general elections are approaching, and with them approaches the opening of the Parliament; and we are going to see what will become of Reform."

Gabriel Arrested.

The mulatto, Gabriel, was arrested Monday about 2:30 p.m. on board the steamer Mokolii, which sailed at 5 p. m. for Molokai and Lanai. At the time searching the vessel for Pat Hayes, and one of the sailors' bunks. He is now booked in the police register on a charge of treason; and it appears he has been in hiding, for the past twenty days, somewhere in Kalihi valley, but had made an attempt to get away to Molokai by leaving his hiding place during night and stowing himself on board steamer above named. He might have succeeded in making his escape, had it not been for the strict search to capture Hayes.

The Larger "Trusts."

The trust companies whose un listed securities are dealt in at the New York Stock Exchange have given their capital stocks and issues of certificates as follows:

e	Names of Trust.	Number certificates.	Total capital.
и i-	Lead	830,188	\$\$3,018,800

In the matter of telegrams received per 100 of inhabitants, it seems that Australia comes first (250 per 100),

and Belgium and Switzerland next with 150 and 100. The United States

comes in with 90, Great Britain 90,

or the remaining 25.6 per cent. of

different nations."

A MODEL OF THE EARTH. One of the novel exhibits at the Paris Exposition is a model of the earth accurately made to a scale of one millimeter to the kilometer, or the one-millionth part of its natural size. Accounts of the model have the one-millionth part of its natural size. Accounts of the model have been widely published, from one of which the following is taken: "It is a sphere 12.732 millimeters, or nearly 42 feet, in diameter, having painted on its surface all the detail of the earth's surface. This globe is built up on a skeleton of wrought iron, with the outside surface covered with wood, to which are affixed the card with the outside surface covered with wood, to which are affixed the card board panels covered with hard varnish. This great work was con-ceived and elaborated by M. Th. Villard and M. Ch. Cotard, and it was carried out by M. T. Seyrig (engineer) and M. Albert Tissandier (architect). LUCAL AND GENERAL.

Sugar has receded to 7 cents for 96 test

Mr. Anton Vogel has left the employ of Messrs, E. Hoffschlager & Co.

The steamer Australia will sail for San Francisco on Friday, August 30th inst.

Purser Edward A. Keil has the thanks of the GAZETTE and ADVERTISER for files of papers and news favors.

* The Inter-island Co.'s steamer Waialeale is laid up for repairs. She is to have a general overhauling.

Considerable rainfall at Kohala is reported during Sunday and Monday nights,-about half an inch each night

His Majesty the King visited the U.S. warship Nipsic Thursday atternoon, during the reception held on board that vessel

The well-known hostess Mrs. J. T. White, now presides in the branch establishment at Waikiki, in connection with the Hawaiian Hotel.

A report is current in certain quarters that Mr. E. P. Adams, formerly an auctioneer in Honolulu, intends returning to the Hawaijan Islands.

In another column will be found epitomized statements of expenditure at | at 11:10 a. m. Wednesday. the Boys' Home and Bishop's Home at the Leper Settlement, Molokai.

Dr. Belden, the recently appointed Supreme Court stenographer, has, we learn, resigned the position and returned to the Coast by the S. S. Zealandia.

at the hospital of Oahu Prison, have been discharged and placed under bonds to appear at Court when called upon.

The thanks of the ADVERTISER and GAZETTE are due to Purser McLane of the Zealandia for files of Australian, New Zealand and Samoan papers, etc.

Among the passengers from Kohala by the Kinau Wednesday were Mr. and Mrs. George Renton, and Mr. and Mrs. H. P. Woods, on their way to the States.

The six cars expected by the Tramways Co., arrived by the Australia. They will now give additional and much needed facilities for the crowded tram-traffic

An entertainment was given by His Majesty the King at Iolani Palace Wednesday evening, to the officers of the war vessels Nipsic and Alert, and other invited guests.

An individual of advanced thought says : "conversation by telephone is becoming the Central Union Church were conso common in Honolulu, that in time it must change the tone of voice and mode of speach.

Australia. They were nearly all Portu- from the Church at 3:45 p. m., and proguese; many of them having returned | ceeded to Nuuanu cemetery where the rom the States, and prefer the Hawaiian last rites were performed in which the

Messrs. Wilder & Co. have received advices of continued activity in the crater of Kilauea, and also in the Volcano House, as the number of guests recently have been large.

Two more cars were landed from the brig Geo. H. Douglass on Saturday. Eight of these vehicles, altogether, were added last week to the rolling stock of the Tramways Co.; and they will pro-bably be running to-day.

Escapes from the prison gangs are now getting rather frequent, and the system needs overhauling. It is a serious matter when prisoners cannot be secure after they are convicted, and when the people are taxed so heavily for the purpose both of convicting and securing the custody of convicts.

The San Francisco newspapers, especially the Chronicle, Call and Bulletin, copied their descriptions of the riot of July 30th chiefly from the P. C. ADVER-No mention is made of any TISER. other Honolulu newspaper excepting in the Examiner which gives extracts from both the English dailies; and the Call, in giving a verbatim narrative from the P. C. ADVERTISER, heads it a "graphic description.

Death of Mr. C. H. Nicoll.

The above named gentleman died at his residence, Kinau street, near Piikoi,

Several months ago deceased met with an accident in a fall by which he received internal injuries that culminated in cancer of his kidneys which was the cause of his death. Nr. Nicoll lingered about seven months, and most of this period The three wounded rioters that were he was confined to his house. His ultimate recovery was scarcely looked for during the past two or three months. and he died respected by all who knew him.

> Deceased was a native of England, being born in Lancashire on Feb. 2d, 1854. He arrived at Honolulu on Oct. 20th. 1883, as chief engineer of the steamer Planter, in which position he remained until about four years ago, when he became manager of the store in Fort street belonging to Mrs. Thos. Lack.

> He was Junior Warden of Hawaiian Lodge No. 1. F. and A. M., and was also a member of Excelsior Lodge No. 1. I. O. O. F. He was 1st Corporal in company A, Honolulu Rifles, and was for a considerable time secretary of the Hawaiian Rifle Association.

> On Sept. 10th, 1885, he married Miss Frances M. Lack who, with two children, survives him.

The ceremonies at the funeral of the late C. H. Nicoll took place Thursday at the hour advertised. The services at ducted by Rev. Dr. Beckwith, and were very impressive. The procession-including about 200 volunteers of the Honolulu Rifles, and members of the Sixty steerage passengers came by the Oddfellows lodges in regalia-started Oddfellows took part. A squad of the volunteers fired three volleys over the grave, and all that was mortal of Mr. C. H. Nicoll was then left in its last resting place. There were about forty carriages in the procession; and the Odd-fellows and volunteers, headed by the Hawaiian band, marched before the hearse.

PERSONAL MENTION.

His Excellency Clarence W. Ashford, Attorney-General of the Hawaiian Government, takes a short vacation and will probably return in the Zealandia, unless he should desire to go east, when he may be absent two weeks longer. George C. Beckley goes on a short

visit to meet his better half, with whom he returns in the course of a month. Mr. Wm. P. Jones returns to Boston

after a very enjoyable stay and tour through these Islands. What he has not seen here is not worth seeing; and what he does not know about business men and things here is not worth knowing. About the Volcano, Pearl river, sugar plantations and luaus, Parker is

the latest and best authority extant. Mr. H. P. Wood and wife expect to be absent about a year. The trip is taken on account of Mrs. Wood's health.

Messrs. Schuyler and Allardt, to whom we referred a few days since, have examined the water supplies of Oahu, and have reported very favorably on the projects in connection with this subject. It is probable they may return here soon. Mr. J. M. Lydgate leaves for the purpose of continuing his studies, and may be absent some years. We trust he will find it to his interest to return here.

Mr. Edward Suhr, cashier of the firm of Messrs. Hackfeld & Co., returns to the old country on a year's leave of absence. He is accompanied by Mr. H. Focke of the house of Messrs. Ed. Hoffschlaeger & Co.

Several of our leading citizens returned in the Australia, including Messrs. C. R. Bishop, J. T. Waterhouse Jr., Lowry, Hopper, Ables, Gray, and others, all looking as though they had enjoyed their vacation, which doubtless they did.

THE RECENT ANNEXATIONS.

The following is from a Sydney exchange of Monday, August 5th :

News reached Sydney on Saturday by H. M. S. Rapid, from Somoa, of the annexation by the Imperial Government of the Union and Phoenix groups in the South Pacific. The important event took place early last month, being successfully performed by H. M. S. Egeria, which, it will be remembered, left here several months ago to survey the proposed Pacific cable route. The British flag was hoisted with all due ceremony at eight different islands, and the group mentioned were thus formaly taken possession of by Captain Oldham, the commander of the Egeria, as representative of Her Majesty the Queen. No opposition was met with, although it is reported that the American flag was found to be flying at several of the islands annexed. The cause of the sudden annexation is

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

CORRESPONDENCE.

The Tontine System.

MR. EDITOR: Ten years ago, next March, I was induced to take out two policies of \$5,000 each on the Tontine plan, one or two others doing the same. The premiums were to be \$235 90 per year on each, \$471 80. I paid two premiums on each, before I really understood the scheme. I then told the agent I was not at

all satisfied, and should drop them. He assured me that I would certainly receive back at the expiration of the Tontine period, all the money I had paid in, (although, now he denies it.) If he did not, what inducement had I to continue the payments? I continued paying \$235 90 up to the present time, together with interest, on one or two delayed payments, amounting to, I think, about

\$5. I borrowed on the policy, the sum of \$2000, about four years ago. It was considered good collateral for the amount. I having paid in about \$2364, and I am notified by the agent that I am entitled to \$1835 70! Three card monte, thim-

ble rig, or the strap.game, are fairer, as one has a chance to win back the amount risked. UA.

Maui Scenery.

MR. EDITOR: We often hear Kauai spoken of as the Garden Island, and a great many persons no doubt think that Island the fairest of the group, when in reality its beauty is very tame and insignificant when comtrue that some of the places on this Island (Maui) have but few attractions, still there are others that possess such charms, that they may without the least exaggeration, be of Italy; the scenery equals the wonders of Mexico. and vegetation so luxuriant as to surpass anything in the world.

Among these sights are mountains that ascend above the clouds, and the earth. There are gulches filled with all kinds of tropical plants, pre the proximity of the groups to the routes | senting a scene of woudrous beauty, proposed for the Pacific cable. The and there are scattered around, in are almost in a line with the other isgrandeur.

LATEST FOREIGN NEWS.

IN I Cut

Floods. Destructive floods are reported in the Schuylkill and tributaries. New Jersey and Pennsylvania towns are innundated. The Susquehanna is also in flood, and bridges across it have had to be ballasted with coalladen cars. A large dam at Feltvill, N. J., threatens to give way; and, if it does, the loss of life and property will be fearful. Already the loss is estimated at millions of dollars; but no loss of life is known so far, and the floods are beginning to abate.-S. F. Chronicle, Aug. 2d. Manitoba Projects

WINNIPEG, (Manitoba), Aug. 1 .-The Manitoba Government is contemplating several sweeping amendments. It intends at the next session to abolish the use of two languages (French and English,) for official purposes and to limit such business to English alone. They also propose to abolish the dual school system by nationalizing all schools and obliging both Protestants and Catholics to attend them.

The French Catholic minority threaten to appeal to the Imperial Government if these encroachments on what they consider their special privileges be made.

Irrigation for the West.

ST. PAUL, August 1.-The United Or to Cucit BROWN, Attorney for J C Cluney. [1283-41] States Senate Committee on the irrigation of arid lands in the West has commenced its labors. A delegation from Dakota was present and was heard touching the necessity for irrigation in certain sections of that State.

Trains in Collision.

WASHINGTON, August 1.-On the **Richmond and Fredericksburg Rail**road two passenger trains collided to-night. Engineer Desmond was pared to many of the others. It is killed and Conductor Neuman badly injured. Conductor Howell and a lady passenger were slightly hurt. Hippolyte's Advance.

New YORK, Aug. 1.-The steamship Ozana, which arrived to-day, brought some important news from called the fairest spots on earth. We Hayti, she having left the port of have a sky which for clearness and Gonaives July 21st. On the 14th beauty surpasses the far famed skies General Gerardi, Hippolyte's commander-in-chief, had taken Fort Toussaint l'Ouverture, situated on a hill three miles northeast of Port-au-Prince, and shelled that town.

Hippolyte was in Gonaives on the 29th, and much powder was expended craters that sink into the depths of during the day and night in celebrating his arrival, and in his welcome the Ozana joined. The captain of the Ozana is of the opinion that master of the situation.

Islands with all their faults.

In speaking about the sailing of the bark Pak Wan, it was stated by a knowing one that when the bark left she did PACK ONE; but whether Pat Haves was that one, is a question still unanswered.

As will be seen in our report of Police Court proceedings, Captain Kahalewai was nolle pros'd on a charge of treason. The evidence was not sufficient to hold him, but he has lost his former position.

Measurements of the rainfall in Kohala for the last five years show a steady diminution. In 1885, 73 inches; 1886 63; 1887, 52; 1888, 43; 1884, 36; the figures in each case being from August to dise. Fine weather and light trades the August.

Honolulu Police Station about 2 p. m. the same day, charged with treason. He was brought over the Pali.

Watermelons weighing sixty pounds each, are now in the market, averaging in price about one cent per pound. It is said that medical gentlemen rather like the prospect-a two cent dose of watermelon is sometimes sufficient for a \$20 fee.

The bark C. D. Bryant collided with a steamer on entering San Francisco harbor, and received some injury; but she is advertised to leave for Honolulu on the same day as the Planter, although a race would, of course, be out of the question.

A letter from Hamakua, by the Kinau last week, states that clouds are traveling over the district, but very little rain falls; while reports from the adjoining district of Kona, state that ten inches of rain fell there during July at the new sugar plantation.

In our advertising columns will be seen a corporation notice of the "Hui Kalepa Hawaii," of which Henry Smith is president and treasurer; S. K. Kane, vice-President; Josiah Kua, secretary; M. K. Keonokalole, auditor; and W. H. Cummings, manager.

According to a statement in an American Mercantile paper, the value of bananas imported into the United States during the year 1888, was \$3,482,846. and the demand for them is constantly increasing. No danger then of overstocking the market by exports from our little Kingdom.

The main station of the Oahu railroad will be a magnificent building. It will be 106 feet long, 37 feet wide, and two stories high. Each end veranda will be 38 feet long and 27 feet wide. There will also be a tower and ornamental roof, and the whole lower story will be devoted to the traffic department.

The dredge is now picking up unsavory mud near the Fish Market wharf; but the stuff makes excellent material for the site of the new market, and loses its disagreeable perfume when exposed to the air for a few days. The newly made site will be as level, compact and firm as any area of its size on the islands, when it gets a smoothing over.

The frail-looking inter-island cable is being landed from the schooner C. H. Tupper at the lime-kiln wharf, near the Fish Market; and it is stated that a schooner is not the right kind of vessel to perform the laying operations. In the meantime the cable is being nicely coiled away in a large circular tank; and, previous to the remaining sections being laid, some kind of strengthening present, and the proceedings closed and overhauling may be done.

Purser's Memorandum.

The S. S. Australia, H. C. Houdlette master, sailed from San Francisco August 16th at noon, with thirty-two cabin and sixty steerage passengers. Freight 1,346 tons of general merchanentire voyage. Importation: \$40,000 treasure, six tramcars, one Norman stal-Monday week, by the Deputy Sheriff of that district, and was lodged in the Honoluba Police Vittice Vit August 23d, 12 noon.

> S. S. Zealandia, K. Van Oterendorp, Commander, sailed from Sydney, Aug. 7th at 4 p.m.; passed the Heads at 5 p. m.; arrived at Auckland Aug. 12th at 3:42 p.m.; touched off Tutuila Aug. 17th at 5 a.m.; arrived at Honolulu Aug. 24th at 2 p. m. The Zealandia brings from the Colonies, 56 cabin, 57 steerage Severance. passengers, and 591 tons of cargo for San Francisco. Sydney to Auckland, experienced heavy easterly gales with high sea and very heavy rain ; Aug. 13th

and 14th, strong easterly winds; 15th to 24th, light variable winds and fine weather.

Mr. Matthew Makalua.

A letter has been received in Honolulu from Mr. Matthew Makalua now studying medicine at King's College, London, in which he says "that he has won the prize for Hygiene and Medical Sanitation, this being the first time a prize has

been given, as the science of Hygiene and Sanitation has only recently been introduced as a subject for qualification for Diploma. Mr. Makalua has also won the first Certificate of Honor for Medical Jurisprudence for the year 1888-9, and was third of the year for Pathology and Morbid Anatomy, He was one of the Hawaiian youths sent to England to be educated.

Decorated with Hawaiian Orders.

In our "By Authority" column it will be seen that His Majesty the King has conferred upon the under-mentioned

gentlemen certain decorations stated; and the following are the designations of the recipients of the honors: Mr. Georges Berger, is Directeur General de ' Exposition Universelle. Mr. Millas, is Directeur des sections etrangeres a l' Exposition de 1889. Mr. Alfred Houle, is H. H. M.'s Charge d'Aflaires and Consul-General at Paris. Messrs. H. Bonillette, S. A. Balme, Henri de Variguy, and H. Lagriffe, are Attaches of the Hawaiian Commissions at the Paris Exposition.

A Farewell Gathering.

The farewell entertainment given on Thursday night at the residence of Thos. R. Walker, Esq., the British Vice Consul, in honor of the Rev. Geo. Wallace on the eve of his departure for the United States, was a very successful and elegant gathering. The flagstaff of the residence was converted into a tower o light, and altogether the entertainment was of the most recherche quality. Several hundred ladies and gentlemen were about 10 p. m.

lands north of the Equator annexed by Great Britain last year. The Union group is situated in lat. 10deg. south, long. 165deg. west, and the Phoenix group extends from lat. 3deg. 8min. south to lat. 4deg. 30min. south and from long. 161deg. 8min. 30sec. west to long. 174 deg. 40min. west. The Union group is fertile and populous. At Atafu, the principle island of the group, Messrs. Henderson and M'Farlane, of Anckland, have a trading station. The Phoenix Islands are of coral formation. They contain extensive guano deposits, which are worked by Solomon Island laborers employed by Messrs. Arundel Brothers, of London.

Explanation.

In several of our San Francisco exchanges we observe statements that Consul Severance was not received here by the King. We will simply say that all such statements are without foundation. Mr. Severance was most cordially received by the King, who sent his band to serenade him at the hotel. The letter in the Examiner, purporting to be from one of the King's household, is entirely false, and was not sent by any one near the King who is a personal friend of Mr.

Arrest of an Alleged Absconder.

A man named Richard E. Taylor, alias Frank B. Chandon, and several other the Maripose on June 8th last, and

Saturday's Game.

A large attendance witnessed the baseball match at Makiki on Saturday afternoon between the Stars and Kaiulanis. It was rather a one-sided game in which the Kaiulanis were easily defeated, making the eighth game lost by them this season; the score being 15 to 4. Holck made a two-base hit; Bruner and Perry made a double play; Baldwin struck out nine men and Holck four; Chan. Wilder had two passed balls and Perry four.

Nipsics vs. Alerts.

A six-inning baseball match was played Thursday afternoon between teams from the U. S. warships Nipsic and Alert at Makiki recreation grounds. The score was 29 to 11 in favor of the Nipsics. Willie Lucas umpired the game in a satisfactory manner. A large number of spectators were present, and all seemed pleased with the playing of both clubs.

in the Hawaiian Baseball League up to date, including last Saturday's game:

The Panama Canal Company has 14,000,000 francs in the treasury and

The great attractions, however, are the Iao Valley and Haleakala, the latter being so conspicuous as to be placed among the great wonders of the world; for here we find the greatest extinct crater yet discovered. and indeed it is supposed that within

ence could be placed all the craters of this group. From the top of this mountain can also be seen one of the grandest sights that ever met the human eye, for here at the early rosy morn can be seen the refracted rays of the sun

its immense depths and circumfer-

tinting everything with a beauty that surpasses the descriptive power of man to portray. Here we see the great white clouds rolling in like the billows of a mighty ocean, coming in, pilling up, and covering it as with a crown of silvery beauty. From the top can also be seen in every direction, innumerable sights and scenes of beauty. Near the summit we find the summer residence of Mr. H. P. Baldwin, who loves sometimes to rise and rest at such an altitude as eagles are said to delight in. This resort Mr. B. kindly puts at the disposal of his friends when not in use

by himself or family, and it is a great boon, and has proved a blessing to many; for here the climate is so rare and invigorating as to make one be aliases, was arrested on Saturday last on | lieve he has passed into a new world. a charge of forgery alleged to have been | Here the weak speedily grow strong, committed in California. The prisoner | and the old grow younger; the young is said to have arrived at Honolulu by grow rosy and joyous, and all are filled with delight and happiness. since then he has been quietly living in | Here we find the need of fires, and the neighborhood of the Mormon church. two or three pairs of blankets, and Papers for his extradition, signed by this at a time when the people of President Harrison, have been received. Honolulu are almost melting with heat.

Leaving this grand scene behind, we can travel to either East or West Maui, and find good roads, magnificent views and beauty at every step. Besides the natural scenery, there are the beautiful residences of the planters, and among them that of Mr. H. P. Baldwin, at Haiku, and Mr. H. Morrison, at Spreckelsville. We also note that these homes contain most of the comforts and many of the elegances of modern civilization; and still more, among the residents are many evidences of culture, refinement, and open-hearted hospi

tality. TOURIST. The Coke-Workers' Strike. PITTSBURG, August 1.-Private advices from the Louisville, O., coke region indicate that the great strike of 12,000 coke-workers, which was to take place to-day, was not general. About one-third of the miners are

said to be out. The strikers claim the men will all be out before evening.

The Dow Liquor Tax. COLUMBUS (O.) August 1.-The Dow liquor tax reports for the first half of 1889, which have been received by the Auditor of the State, show that there are 9602 saloons in the State, an increase of 115. The receipts to the revenue fund are \$232,000, an increase of \$600.

ment at the defeat of the proposed amendment to the Constitution last session; but the feeling has passed off to a great extent, owing mainly to the relief afforded by the present administration with regard to Chin-

under the new Constitution, the Reform party, or rather some injudicious agents of theirs, made promises they could not keep, or were not anthorized to make. This resulted in a certain amount of ill-feeling for some time after, but all that has long since disappeared.

to support the party now in power. The "Reform Party" is to them but a name, but they at least see it fruits in the present administration, which has done more for them, on the whole, than perhaps any since their emigration commenced.

members who were present as ministers at the debate on the Constitutional amendment, are Messrs. Thurston and Ashford and both these gentlemen supported the amendment. Mr. Thurston especially dis-tinguished himself for the stand he took on this occasion, and his words are memorable. He has since done all he could to diminish the evil he could not uproot,-and he has succeeded.

der how the Portuguese will act at can best satisfy them on the Asiatic question. There need be no mystery about this. They have no other political issue at stake.

This useful periodical for August is on our table, filled with choice original and selected articles pertaining to sugar cane and other products of domestic and foreign growth. Among the more interesting papers is one on pepper cultivation, giving the experience of a Ceylon pepper planter, and another describing the orchilla vine of Mexico, which is found to be one of the most valuable products known. It was discovered by a whaleman, who has become a millionaire by engaging in the locrative trade of gathering this valuable dye, and shipping it to Europe. Altogether, this monthly gives a great deal of valuable information, not found elsewhere, and is well worth its cost.

Up to Thursday only twenty-four deaths, in Honolulu, had been reported to the Board of Health for the month of August, so far. This is much below the the whole month.

Storms and Floods-More Annexations-The Admiral's Movements-German and Italian Representatives at

Loggerheads. By the Zealandia we have news from Sydney to August 7th, and from Auckland to August 12th. The items are unimportant to outsiders, and are chiefly

confined to local matters. As is usual at this season, floods and affirmed. W. A. Whiting attorney for storms have prevailed-doing more or less damage to shipping, and flooding low lying cities and towns on the banks (The opinion of the Court, and concurof rivers on the coasts of New South Wales and Queensiand.

H. B. M 's Ships Rapid and Calliope tember 3d. were at Neumea, New Caledonia; and several islands have been annexed in the South Pacific by Great Britain, and upon

which had been hoisted American flags previously.

The Zealandia also touched off the co: coast of Tutuila on August 17th, and received a mail by which Samoan files to August 10th reached this office. From these files it would appear that Admiral Kimberly expected to have left Samoa on August 15th; but he did not come by the Zealandia, for some reason not stated. The following are a few of the latest items from the Samoa Times : A dinner will be given to Admiral Kimberly at the Tivoli Hotel on Wednesday next, the 14th inst. A large number of tickets have already been applied for, and the Tivoli room will be well filled. We understand that a similar compliment is awaiting the Admiral

at Honolulu, for which place he leaves on the 15th inst. War again, yet no dollars flying about

War between two great Powers, commenced in Apia, yet in which we can take no hand! The news is indeed startling. Germany and Italy are at loggerheads. Angry words have pa-sed. blows have been exchanged between representatives of the two great Powers. The Consul of Italy has been struck whilst in his official uniform by a bloated capitalist of Apia ! Shades of Garabaldi ! Was it for this the red shirts poured out their blood in their endeavor to free

Italy? Did Cavour scheme in vain? Italy's official representative, in his uniform, struck by a German! All Rome must shudder at the thought. Perhaps some of our readers were quite unaware that such a mighty being as an Italian Consul existed in Samoa. But it is so. He is a man of means and of mark. And also, as he has narrated to admiring auditors in the highways of beer drink. ing, he is a man of muscle. He smote the German in return. But the insult to the uniform must be avenged. Rome

and Berlin must settle it! There are other rumors on the beach of robberies and attempted robberies. Matafele seems an especially unfortu-nate locality in this respect. We do not believe in all these outrages. The lively imagination of the stranger multiplies them. Yet if there were a few robberies it might more thoughoughly impress our Real Estate & Mining Brokers foreign population with the desirability of contributing toward the support of
