HONOLULU Hawaiian Islands.

PARTIES DESIRING A GOOD INVEST-ment in the Hawaiian Islands will have a rare opportunity in the purchase of the Rose Ranch property, lately owned by Captain James Makee, on the Island of Maui.

This estate comprises over eleven thousand (11,-000) acres of land held in fee simple, and about ten thousand (10,000) acres held under less to run

ten thousand (10,000) acres held under lease to run six years longer. The stock on the estate com-prises about 3,800 head of well-bred cattle, including 100 yoke working cattle and 300 milch cows and 90 horses and mules.

The buildings consist of a main dwelling house guests' cottages, office, billiard room, chapel, dairy and beef houses, store, overseer's house, promptly executed, and at reasonable charge.

servants' quarters, etc., etc. There are between three and four hundred thousand trees on the estate of varieties of eucalypius, scacia, cypress, Pride of India, cedar and cin-

The cisterns for water are 12 in number, the argest capable of holding 15,000 barrels.
Steamers from Honolulu stop at the landing of the estate once a week. The passage from Honolulu to the landing is made in 12 hours by steamer. Hundreds of citizens of California and the Eastern States have experienced the hospitality of the late Captain Makee, who will bear willing testimony to the natural beauties of the estate and to the salubrity of the climate.

ALSO TO BE SOLD, The fine residence in the city of Honolulu beionging to the Makee estate, together with the furniture belonging to the house.

The sale of the above-named properties will be held in the city of Honolulu MARCH 1, 1886. For further particulars apply to JOHN D. SPRECKELS BROS.,

LIQUID BREAD.

AN ABSOLUTELY PURE EXTRACT OF A VALUABLE TONIC AND REMEDIAL AGENT.

INDORSED AND RECOMMENDED BY THE ENTIRE MEDICAL FRATERNITY, Of all medicinal preparations that have been put pon the market in recent years, the extract of malt has proved itself one of the most valuable as a tonic or remedial beverage. It has received the unqualified recognition and support of physicians, and is freely prescribed by them in many cases, especially where the nervous or physical systems have been impaired by disease or over-v ork. The house of "DAVID NICHOLSON," of this city, has recently introduced a pure malt extract of high character, made at their request and under their suggestions by Mr. Adolphus Busch, and which is popularly known as "NICH-OLSON'S LIQUID BREAD," from its life-giving and health-restoring properties. A sample sub-mitted to Dr. F. L. James was made the subject

of a chemical analysis by him, and the result of his investigations are given in the appended cer-" T. Louis, April 29, 1884. "W. F. COULT, E. Esq., National Druggist—Dear Sir: Having submitted the Nicholson malt ex-tract to examination, as requested, I take pleasure in reporting that I find it to be all that the proprietors claim for it. The results, as shown in the following summary, are necessarily only approxi-mate, but are sufficiently accurate for all practical effervescing fluid, dark brown by direct and of a deep ruby color by transmitted light, resembling in general appearance and behavior a very supe-rior article of porter, Its taste was, however, much milder and more pleasant than porter, beng somewhat sweeter than beer the sweetness

derived evidently from hops. The specific gravity of a sample fresh f on: the bottle is 1.022 plus. Amount of extractive matter in 50 cubic centi-metres of the fluid is 3.96 grammes, or about 8 per cent. Amount of alcohol, per cent. is 2.84 plus The extractive matter is apparently identical with the "extractum maltis" of Trommer, or of the German Pharmacopæia. It consists almost en-tirely of malt sugar, dextrine, being free from fatty acids, etc. The fluid contains a very large amount of disstase, as shown by the fact that it easily liquefies an equal bulk of gelatinous starch. This fact, its low percentage of alcohol, its effer-vescence, its delightful taste and odor, all combine to recommend Nicholson's malt extract as being a most nourishing beverage, and the best article of the sort that has ever come under my exami-

Mr. J. O. Carter is credited with a scheme for selling all native kuleanas and Crown lands, and investing the money for the support of the King and native landowners. This scheme, if carried out, would destroy the political influence of the native people, who would soon spend their money after having lost their property qualification. I asked Mr. Walker to bring Mr. Oakley's bill to me, which he did. I went over the bill and told Mr. Walker \$300 had been paid; and must be deducted from the bill. I also told him there were some items which I advised the Queen under no circumstances to pay. The amount may have been \$148 or \$178. I do not remember. My impression is it was \$178. The bill was brought to me afterwards, and Mr. Walker told me that Oakley would not strike out the items. I do not remember the items. I approved of the bill with interest to date, striking out the items objected to, and sent word to Mr. Walker that I should let the Queen know. I heard subsequently from Mr. Walker that Oakley declined to accept it. The matter so rested until one day Mr. Oakley came into my office. He introduced himself to me and asked me as a favor whether I could not have the matter settled. He offered me \$100 if I did. I told him I could not accept a cent nor did I want a cent, as I was not his attorney. If he consented to accept the bill as I had allowed it he could have his money at once. Valuable Real Estate in the Business Center of Honolulu

For Sale by Private Contract or at Public Auction.

The undersigned have received instructions from MESSRS. G. W. MACFARLANE & CO. to offer for sale at auction, at our salesrooms, on

MONDAY, January 25th,

At 12 o'clock Noon,

Unless previously disposed of by private sale,

The whole of that valuable city property known as the BOOTH ESTATE, excepting only the corner lot, owned by Mr. James Olds, containing in all 20,990 square feet, together with houses, stores and buildings thereto be-

This is the most compact and desirable piece of property ever offered for sale in Honolulu. Its main frontages are 75 feet 5 inches to Nuvanu street, and 93 feet 6 inches to Hotel street. The rear front of the property extends from Nuuanu street, back of Messrs. Castle & Cooke's fine brick warehouse and store, 172 feet 11 inches to Rose Lane, the side frontage along the line of the Robinson lot to Hotel street being 142 feet 3 inches.

The value of this and the adjoining property might be greatly enhanced by carrying Rose Lane straight through to Hotel street. Access is had to Hotel and Nuuanu streets from the rear and center of the estate by lanes long in use on the property itself.

Situated in the heart of the retail business quarter of the city, and having a large area of available building space unoccupied, this property holds out unusual inducements to capitalists as a permanent investment. The present annual income is \$4,500, or 10 per cent on \$45,000; but as the leases expire shortly, the rental might be increased to \$6,000 a year without expenditure for repairs or additions to buildings. If the estate were sold as a whole, however, by judicious and inexpensive improvements which a practical eye would suggest, even this large prospective income might be very considerably added to.

The Nuuanu street frontage is occupied by a row of two-story buildings, the upper story being used as dwellings, and the first floor as stores, which are always in occupation. Restaurants and retail stores similarly occupy the frontage on Hotel street.

The old International Hotel is in the center of the property, and goes with the lot. It is used as a lodging house and pays handsomely.

Another advantage of this fine property as an investment is its excellent sanitary conditions. It is on the highest part of the city makai of Beretania street, and is therefore easily drained.

The property, if not disposed of before date of sale, will be first put up as a whole in one lot. Failing a satisfactory purchaser, we shall then put it up in lots, for which purpose it has been subdivided into sixteen lots. We shall offer these lots at the following upset prices, viz.:

Lot No. 11. Lot No. 12

And upon the following favorable terms ONE THIRD CASH.

Balance in one, two and three years, with interest at 7 per cent per annum, secured by mortgage.

We solicit an examination of this property, and confidently recommend the investment as a permanent paying one, with greater contingencies for advancement than almost any other kind of property.

A Plan of the Property can be seen at the office of

Notice to Inspectors of Election. To the Inspectors of Election in the several Dis

tricts of the Kingdom: Inquiries having been made whether persons who are exempt from the payment of personal taxes by reason of being clergymen, teachers, pupils in High Schools, firemen, etc., or by reason of being over the age of sixty years, or whose taxes have been excused by the Assessor on account of infirmity or poverty, are allowed by law to vote at the election for Representatives.

It is my opinion that all such persons are enticarriage plainly shown on the glass of each lan- tled to vote. The Tax Collector should issue to each such person a tax receipt with the words "Qualified to Vote" upon it, which he must sign, and in place of the amount of taxes he must write "exempt" or "excused." On the presentation of this Tax Receipt to the Inspectors of Election at their sessions previous to the election, the name of the voter must be put on the list of voters and the receipt returned to the voter.

At the General Election to be held on the 3d or February, 1886, the votes of such persons must be received, unless challenged for other reasons. PAUL NEUMANN, Attorney-General.

On the Tramp.

A political meeting was held in the Kaihi meeting-house by Messrs. J. O. Carter and Henry Waterhouse last Wednesday afternoon, which was well attended. They addressed the natives, traveling over their old ground of attack on the Government, misrepresenting facts and policy. At the conclusion of their harangues they asked the meeting to indorse them and the two other candidates on the Opposition ticket. The natives declined to do anything of the kind, and told them that they did not want LYONS & COHEN, Auctioneers. them and would not indorse any one else on their ticket.

THE LATEST AMERICAN INVENTION.

THE VICTORY OF ELECTRICITY. Since Electricity has been applied for lighting purpeses, all efforts of inventors have been directed to construct a lamp for general domestic use. The reason why this prob-lem has till now not been solved, is that none of the inventors could rid themselves of the idea of gas lighting, and that all have adhered to the system of producing the electricity in some central place, or by large machinery, instead of first laying down the principle that a lamp which should ever become generally useful and popular, must be portable like an oil lamp, and contain the generator of electricity in itself, i. e., in the foot of the

The Norman Electric Light Company has at last succeeded in completely realizing this ideal of electric lighting, and there is no doubt that this most important invention will bring about a complete revolution in all branches of lighting. Our Electric Lamp needs neither machinery, conductors, nor any expensive outlay, and is neither complicated or disagreeable in manipulation; all that is necessary is to refill it every four of five days with acid. The cost of lighting will be as cheap as gas (% cents per hour), and it has before the latter the immense advantage of neither producing heat, smoke nor carbonic acid, owing to which the air is not impured, and remains at the same degree of temperature. It is further, absolutely inodorous, and does not need to be kindled by match or otherwise, but simply by turning the key, thus avoiding all danger of

fire, explosion or suffocation, as in the case of gas, if the key is left open; and it must be conceded that this advantage alone is invaluable. It is further preferable to any known kind of lighting for the following reasons: 1. Its manipulation is so simple that any child can keep it in order. 2. That the lamp is portable, and can be removed like any oil lamp, from one place to another.

3. That it neither requires the disagreeable fixing of the wick, or the cleaning of the

cylinder, as in the case of oil lamps. 4. That the light produced is a soft and most steady one; that it never flickers, and the flame, though being equal in power of lighting to gas, can be regulated to any degree. 5. That every danger of fire is absolutely excluded, as the light will extinguish immediately, if by any accident the glass surrounding the burner should be broken. 6. That it will barn, even in the strongest wind, completely unaffected, thus being invaluable for illuminations, lighting of gardens, corridors, etc.

This lamp is constructed for the present in three different sizes: A, small size. Height of complete lamp, 14 inches; weight, about 5 pounds; for lighting rooms, cellars, storage houses, powder magazines (or similar places where explosives are kept), coaches, illuminations, gardens, mines or any other industrial purpose. Price,

Per lamp delivered free to any part of the world. B, medium size. Serves all domestic purposes for lighting rooms, houses, etc. This lamp is elegantly decorated, and has removable white ground glass globe. Price per lamp (inclusive of bronze foot and globe, richly and elegantly constructed), 2. - delivered free to any part of the world.

C, grand size for parlor, hall, saloon, public building, etc. The lamp gives a most brilliant and steady light, has large removable white globe, decorated most tastefully, and the workmanship is both first-class and elegant. Price, £4.10. —. Foot of lamp in either bronze, Japanese, faience or silver oxide. Any special size of design made to order. Estimates furnished. All lamps are ready for immediate use, and will be sent, securely packed in strong wooden box, with printed directions for use, a quantity of chemicals sufficient for several months' lighting, and one extra burner for size A, and two for sizes B and C. The necessary chemicals can be purchased in any drug store, even in the smallest village. Every lamp is accompanied by a written guarantee for one year, and will be exchanged, or money refunded if the same should not give complete satisfaction.

first-class references on a New York or Philadelphia house. The best method of sending money is by draft on New York, which can be precured of any banker, and everywhere, or enclose the amount in bank notes, gold coins or postage stamps of any country of the world. All orders, the smallest as well as the most important, will receive the same particular attention, and will be forwarded without delay. Our Electric Lamps are protected by law, and all imitations and infringements

On all orders for six lamps and above, a discount of six per cent will be allowed. No

orders from abroad filled, unless accompanied by a remittance to cover the amount, or

will be prosecuted. TAgents, salesmen on commission, and consignees for our lamps wanted every where. No special knowledge or capital required. A fortune to be made by active persons.
