AIALA PARK A SCHOOL YARD

The children are to come into possession of Aiala Park sooner than was thought after the two years that they have been deprived of their heritage. The warehouse is to become a school, temporarily. It is to be made to take the place of the condemned building of the Royal School until the new building can be erected. Representatives of the Commissioners of Education visited the warehouse yesterday and looked it over, and came to the conclusion that it could be very easily and at little expense, be made over into a school building that in many respects would almost be a model. It is roomy, and can be thoroughly well lighted.

It is the intention of the department to utilize it for the classes of the five rooms which are out of a home on account of the condemnation as unsafe of one of the buildings of the Royal School. This has not been formally and officially determined on yet, for the building itself belongs to another department of the government, and the consent of that department will have to be secured. There is little doubt, however, that it can be secured.

By this use of the building there will be ample room for playgrounds for the school children attending, and this use will not interfere with the improvement and development of the park for a children's playground, to which use it was dedicated by the last legislature of the Republic of Hawaii. At least, it will not interfere with such development for a time, and it is hoped that long before it will be possible for the entire park to be made for its ultimate use, the splendid new building of the Royal School, securing which was one of the last acts of E. A. Mott-Smith, as the head of the Department of Public Instruction, will be completed and occupied.

YANG BLAMES THE WU

THEIR CIRCULARS BETRAYED THEM.

Says Chinese Government Learned Identity of Bow Wong Wu Members Before He Sent Their Names.

The Chinese situation in Honolulu is becoming more strained every day, and each mail from China brings news to the members of the Bow Wong Wu of the imprisonment of members of their family by the home government. Members of the local reform association place all the blame for their misfortunes upon Yang Wai Pin, the local Consul General, but the latter declines to be held responsible. He says that the members of the Bow Wong Wu are themselves to blame in the matter for it was through them that the Chinese government first learned of the formation of the association in this city. Whatever he has done he says has been in a purely official capacity, and he has acted through motives of spite, but was merely following out the orders which were sent him by Minister Wu, the head of the diplomatic service in America, at Washington, D. C.

"Previous to the organization of the local society," said the Consul General this morning, "I was directed by Minister Wu to warn the Chinese in this district to have nothing to do with any reform association. These societies had been formed in China for some time previous, and while there might have been some excellent ideas incorporated in them, there was much that was pernicious against the Chinese government, and naturally it was thought wise to discourage my countrymen from joining. These facts were set forth in the proclamation which I issued. Shortly after this, however, the Bow Wong Wu which had organized sent their circulars to the Chinese government, and even to many places in China. These circulars gave the names of the various officers of the society. Naturally the Chinese papers published the news of the society in this place, and our government soon took cognizance of it.

"The Chinese government communicated with Minister Wu, and asked if it was true, as stated by the circulars, that the Bow Wong Wu had been organized in Honolulu. He turned to me for information upon this point, and in January I received a communication upon the subject from him. He requested me to provide him with the names of the officers and members of the society, and also to keep him posted regarding the progress of the organization. I had no choice in the matter as it was an official communication, so I at once passed him the information he sought.

"Now as to the claims of the members of the society that their families are being imprisoned by the Chinese Government I have no information and know nothing about it. Certainly, if such is the case the members of the Bow Wong Wu have no right to themselves to blame for their trouble as it was their circulars which first provided the Chinese government with the names. I can say however that it is the custom of our government to place under arrest members of the family of those who are engaged in working against the government. If of course it is impossible to apprehend the real offenders, I regret that the people should be in trouble and I wish that I lay within my power to aid those who are in need of assistance. I specially cautioned and advised them in my proclamation however against having anything to do with the reform association and have also used my personal influence to prevent their joining.

"Among those whose families are feeling the weight of Imperial resentment is Ly Lamai, the bookkeeper of the Wing Wo Chan Co. of this place. By the last mail from China Mr. Lamai received a letter which stated that 80 Imperial soldiers went to the home of his father at a small town close to Canton and destroyed the dwelling and looted the premises. The father and mother of Mr. Lamai escaped to Hongkong but the paternal grandmother and who is 85 years of age was captured and taken to Canton where she has since been imprisoned together with an 18 year old servant girl who remained with her. The elder Lamai is endeavoring to have the women liberated by means of a petition to the Imperial government.

OBJECT TO THE BOARDS

DEMOCRATS CLAIM THEY ARE PARTISAN.

Think the Democratic Party Should be Represented on the Boards of Registration—What They Say.

There is dissatisfaction expressed with Governor Dole's Boards of Registration. The objection is not to the individuals appointed, personally, but to the fact that they are all Republicans. There is not a Democrat on any of the island boards, so far as the politics of the individuals composing them can be found out, except R. C. Searle of the Maul board, and it is said there cannot be more than one or two who have not publicly declared themselves Republicans. With these exceptions the entire personnel of the board is Republican.

The gentlemen on the Oahu board have this to say of their politics:—

Merrin Andrews: "I am a Republican."

D. L. Naone: "I am a Republican."

M. A. Gonsalves: "I am a Republican."

Charles J. McCarthy, chairman of the Democratic Territorial Central Committee, sees no redress which the party can obtain, beyond unofficial methods. He expressed much indignation over what he termed the unfairness displayed in the appointments, and said: "I certainly think that the Democrats should be given representatives upon the boards, and I regard the appointments as a very high-handed proceeding. In the past practically all political parties have had representatives on the boards, and I know of no reason why they should not have been granted them in the present instance. Indeed, in view of the present chaotic condition of affairs as the result of the new style of government, and even to many places in China. These circulars gave the names of the various officers of the society. Naturally the Chinese papers published the news of the society in this place, and our government soon took cognizance of it.

"The Chinese government communicated with Minister Wu, and asked if it was true, as stated by the circulars, that the Bow Wong Wu had been organized in Honolulu. He turned to me for information upon this point, and in January I received a communication upon the subject from him. He requested me to provide him with the names of the officers and members of the society, and also to keep him posted regarding the progress of the organization. SUIT AGAINST MAUNALEI

RISDON IRON WORKS FILES BILL FOR \$15,335.75.

Debt is for Pumping Machinery, and is Admitted by Plantation—Time to be Given—Bills Assumed.

The Risdon Iron Works of San Francisco and Honolulu, yesterday filed a suit on a lien against the Maunalei Sugar Company for the sum of \$15,335.75. The bond against the suit was \$30,000. The claim is the purchase price of pumping machinery, and the cost of setting it up on the Island of Lanai.

It is understood that the suit is a friendly one, and is intended merely to formally establish the claim. The Risdon Iron Works will give the company time in which to pay, so that the debt will not embarrass it at all. The company admits the debt and also admits that it is due. The complications of the past several months, caused by the failure of stockholders to pay up their assessments, is the reason the bill has not been paid. Just at this time the company has no money, but expects to be on a sound basis very soon. Negotiations are now being carried on in the case which promise early and satisfactory results.

Gear, Lansing & Co. have assumed all the local debts of the company, and the assumption has been accepted by the creditors. These bills are for supplies, etc., furnished to the estate.

It is understood that Gear, Lansing & Co. have a little over \$100,000 tied up in the plantation.

"We expect to get out all right," said Mr. Gear this morning. "Maunalei is a fine property. It has the finest of water, and plenty of it. It has the best flow of surface water in the islands. If stockholders had stuck by the plantation as well as the plantation has stuck by them, there would be no embarrassment today. However, although no longer a director, and merely a stockholder, I may say that the estate will work out in spite of its difficulties. The money to put it on a firm basis and insure its success is now in sight."

WILL SOON BEGIN WORK

TRAMWAYS PEOPLE PROMISE HASTE.

Practically All Opposition to Their Plans for Rejuvenation Are Said to be Removed—One Lawsuit.

According to Paul Neumann the attorney for the Hawaiian Tramways Company, the dismissal of the injunction suit yesterday by T. S. Southwick in the Supreme Court removed practically all active opposition to the organization and the company will proceed very soon with the work of electrifying its road. There is still another suit against the Tramways pending but Mr. Neumann does not anticipate much trouble from this source.

The dismissal of the suit by Southwick, Mr. Neumann said this morning, "removes about all the practical and effective opposition to the Tramways and it is now in a position to proceed promptly with the work. Just when this will be done I am not in a position to state, but the principal feature about this case is that it disposed of opposition from one source. As a matter of fact there now exists nothing but the opposition and unfriendliness of the former government against the Tramways. Indeed, there has been practically no opposition to us except that which has sprung from that party.

"There still remains one more case unsettled in the Circuit Court and while, of course, I can not anticipate the result, the company will not be deterred by any fear of the result from proceeding at once with the work. This suit is the case of the Rapid Transit Company asking for an injunction against the Tramways. When the action was first brought a temporary injunction was granted, pending the settlement of the suit for a permanent injunction but the court refused to grant that injunction. The case now pending is to determine whether the other injunction will be granted."

MILLE MORRIS WRECKED

ANOTHER ISLAND SCHOONER IN TROUBLE.

Henry Macfarlane Tries to Telephone to Kaneohe for Particulars, and Then Runs for a Train.

A telephone message from Kaneohe this morning reported the island schooner Mille Morris wrecked at Kaneohe harbor. The schooner left here yesterday to round the island with a general cargo for various points. She was in command of a South Sea Islander, who has been working on island vessels for many years. The Mille Morris is owned by Henry Macfarlane.

The schooner is said to be beyond rescue, having struck coral as she tried to enter the lagoon. Inside the lagoon is only mud, but the entrance is one not easy to pass. There was a high wind shorewards last night, and it is supposed that she was driven too close in shore.

As soon as news of the accident was received Henry Macfarlane began to try and get particulars. He employed a telephone with the result that he concluded that a train was quicker. After trying to get a connection for a long time, he went to the railroad depot and started for the other side of the island. He was in the lagoon when the battle with central. They have all given up now, and have realized that the quickest way to get the full details of the wreck is to wait until Mr. Macfarlane gets back.

The Mille Morris was built here and has been in the island trade for four or five years. She carries about fifty tons. She was commanded by Captain Martin until a few weeks ago, when he retired to take the place of watchman on the Sebastian Bach.

KAMALO IS RE-ORGANIZED

DELINQUENT STOCK BOUGHT BY THE COMPANY.

Colonel Fisher Auctions It Off—Small Speculators Disappointed at the Figures It Brought.

Nearly all of the Kamalo stock put up at auction today was bought by the Kamalo Sugar Company. A meeting of the directors of the company was held last night, and it was decided that none of the stock should be allowed to go for less than the assessments put on it. As a result, a lot of people who gathered in Colonel Fisher's office at noon, expecting that they would have chances to get some stock on "spec" for practically nothing, were disappointed. Sales at ten cents a share were talked of, and the directors think that they are beginning to see their way out of the troubles that have been hanging over the plantation for so many months. The buying of the stock this morning was a part of the plan to reduce the capitalization. One about 3,500 shares were left to be auctioned when the sale began, all the other delinquent shares having been paid up, since the recent settlement of the stockholders' suit. George Carter was present for the board and bid the same amount for every block put up. Once or twice bidders went over him, but he usually got the stock with little delay. Larry Dee, who has stuck close to Kamalo all through, bought a few shares at an advance over the company's bids, and Harry Evans also got some.

GROSS CHEAT CASE.
The case of Philip Naome, charged with gross cheat, was taken under advisement by Judge Wilcox this morning. The defendant was said to have secured \$40 from a client of T. McCants on false pretenses. He declared that he had turned the money over to Stewart and that it was to be used for court fees. Attorney Brooks contended that the case was one for a civil action, Stewart being responsible for his clerk's acts.

HACKMEN'S CASES.

Mike Costello, the hackman charged with overcharging a customer, forfeited bail of \$5 this morning in the police court. Darke, who was arrested for driving without wearing his badge, was reprimanded and discharged.

MEETING WAS POSTPONED.

The semi-annual meeting of the trustees of the Queen's Hospital, which was called for today, was postponed until the twenty-first, on account of their being no quorum.

THE ROBBERY AT KAKAOKO

JUDGE WILCOX HEARS ALL ABOUT IT.

The Lively Honolulu Career of an Ex-Cabin Boy—Sideights on Wilson Divorce Case Detective Work.

The details of the recent Kakaoko robbery and some new facts about the Wilson divorce case evidence, were brought out in Judge Wilcox's court this morning, in the trial of the case of J. Griffin, charged with assault and battery on Harry Leroy. It appears that Griffin was the companion of the young man who was robbed, and that Leroy was accused of the robbery. Leroy is a youth who arrived in Honolulu about three months ago as cabin boy of the bark St. Katherine, from New York. He has found life quite exciting in Honolulu, having established himself in a Kakaoko "joint" which frequently receives unannounced visits from the police. Leroy was arrested for violating the liquor law a short time ago, and next made the acquaintance of the jail when he was taken in on the Kakaoko robbery case. His job at Kakaoko put him in line for the divorce detective work that caused the trouble.

The trial this morning looked like a mock trial most of the time. Griffin was his own lawyer and he had so much to say that the court finally gave up trying to keep to the dignified routine of the law, deciding that the best way to the truth was to give everybody full swing. Leroy told his story and then Griffin asked questions and contradicted the answers.

"You know that all your testimony is lies," he said at the end. Leroy testified that he had called at Griffin's place to see S. Hartman who lives in the same house, about some money due for detective work Leroy had done in the Wilson divorce case. Griffin came to the door and called him names, accusing him of the Kakaoko robbery, and finally striking him several times. Griffin talked for about an hour on the stand. Most of his evidence was about the robbery, with now and then a reference to the case and Leroy case. He testified that he knew that Leroy had committed the robbery, which occurred when the victim was asleep. He swore that Leroy had struck him several times over the head with a cane, before the attack that caused the arrest was made.

Hartman testified for Griffin, but did not seem to know very much about the fight. He admitted having signed a note, which was to pay Leroy for the latter's work in the divorce case. It was done as an "accommodation" to Griffin, said Hartman. Judge Wilcox read the defendant a severe lecture and imposed a fine of \$20 and costs. Griffin announced an appeal. "We care nothing about \$20," he began, "but we shall appeal." Judge Wilcox interrupted, with a few remarks about contempt, and Griffin subsided.

The victim of the robbery at Kakaoko was A. B. Judson, a young university of California student, who was on his way to China on the steamer Doric for a vacation. He and Griffin started to see the sights of Honolulu, and ended their evening at the "joint," as the witnesses called it, in which Leroy does detective work and is reported to serve drinks between times. Judson was robbed of over \$200 and some diamonds. Leroy was arrested when morning came, but was finally released as Judson would not have anything to tell, desiring to get away. High Sheriff Brown was credited by Griffin with calling Leroy a thief and expressing sentiments that indicated the sheriff's opinion that the ex-cabin boy ought to be behind bars, but Leroy didn't seem to have any hard feelings against the high sheriff. "Brown is the best friend I have in Honolulu," said the enterprising youth, and the high sheriff blushed modestly.

AN IMPORTANT DUTY.
Life insurance is getting more and more regarded as a duty which no man with an adequate sense of his own responsibility can afford to shirk. To take out a policy in a good life insurance company like the Provident Mutual is to capitalize one's earning power, and thus in a way to secure the community against the loss of that earning power. I. R. Burns is the resident manager of the Provident.

THE NEW KIND OF ANCHOR

ADVANTAGES OF THE STOCKLESS "MUD HOOK."

The Schooner Rosamond the First Sailing Vessel to Come Here With Them—Saving of Labor.

The new style stockless anchors on the schooner Rosamond, which is the first sailing vessel seen here with them, have attracted a good deal of attention since she came here. Captain Ward thinks that the day is not far off when the old kind of anchors will be made no more, as the advantages of the new ones are so many that the builders of new vessels are all ordering the stockless anchors.

The principal advantage of the absence of a stock is in the ease with which anchors not having any can be hauled up to a cathead, where it has to be fastened, after being lifted into proper position. Then when the vessel goes to sea it is hauled over the rail on to the deck. All this trouble is avoided by use of the stockless anchor. The Rosamond has no cathead and no fish tackle to lift it with, and there is no need to handle her anchors more than once, when they are to be hoisted. The anchors are simply hauled up, the shank follows the chain and the claws law close against the vessel's bow. In this position the anchors may be dropped at a moment's notice.

In holding power on the bottom the stockless anchor is also superior to the old kind. The two claws take an angle that makes them penetrate the ocean bed and catch whatever there is to hold onto.
On the Pacific coast the stockless anchor is being put on all the coasting fleet, and the steamship companies are adopting it. The new steamer Californian, just finished for the Hawaiian-New York line has them, and all the others of that line are to have them also.

THE KAMALO CASE.

The Kamalo case, being the suit of H. R. Hitchcock et al. vs. Frank Hustace et al. will come up before Judge Humphreys on the 24th. Indications are that the matter will be dropped at that time.

FINE TEAM FROM CALIFORNIA.

Walter M. Giffard received, via the schooner Helene, a pair of chestnut bay roadsters. The animals are evenly matched and can travel under 2:30. They were regarded as one of the finest teams in California.

FUNERAL THIS MORNING.

The funeral of the late Miss Sarah K. Gray took place from the residence of Mrs. F. E. Hobron at 10:30 this morning. W. W. Hall, J. B. Atherton, Prof. W. D. Alexander, Henry Waterhouse, W. O. Smith and J. O. Carter were the pall-bearers. The remains were interred in Nuananu cemetery.

MATCH SHOOT TOMORROW.

Company F will shoot their long projected rifle match at Kilauea tomorrow afternoon. Both team figure upon about 410. This will be unfortunate, as it will tie the score. However, it is probable that the teams will be a few points apart at the finish.

CONCERT ABRUPTLY STOPPED

On Account of the Sickness of John C. Cook.

The band concert in Thomas Square ended rather abruptly last night. During the rendition of the seventh number on the program Captain Berger, the leader of the band, noticed a man approach the band stand and begin gesticulating for the music to cease. Captain Berger concluded the selection and then received the man who proved to be Charles Eustice of Beretania street.

Mr. Eustice explained that John C. Cook the secretary of Theo. H. Davies and Company, was desperately ill with fever at his residence on Beretania street near Victoria and the music was likely to have a disquieting effect upon him so the leader was requested to stop the concert. This Captain Berger promptly did and after announcing the cause, the band left the square. It was stated at Davies & Co. this morning that the condition of Mr. Cook was about the same and there was no immediate fear of a fatal termination.

ARRESTED.

"Did you hear that General Buller had been arrested by the British Government?" "No why?" "For running a ferry without a franchise."

SPENT A GOOD FARM DOCTORING.

Mr. A. N. Noel of Asherville, Kans., says he spent a good farm doctoring himself for chronic diarrhoea, but got no relief and was afraid that he must die. He chanced to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was permanently cured by it. For sale by all dealers and druggists. Alsen Portland Cement

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand and gravel, with less loss of strength, than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements; it is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the seawall around Governor's island, New York Harbor, has never been equaled by any other cement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds.

For sidewalks it gives the best color and the most durable wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. bridges, 20,000 barrels.

Pulse Beats.

Put a finger on your pulse. Do you feel the throbbing beats come strong and regular, or are they weak and uncertain? A weak pulse means a weak heart and retarded circulation of the blood. It means stomach trouble, indigestion, pain in left side, dizzy spells, shortness of breath, palpitation, fainting or sinking spells and breaking down of the entire system. If your heart is weak and your pulse irregular begin at once to guard against the coming breakdown by taking

DOCTOR MILES' Heart Cure,

The Great Heart and Blood Tonic.

"I had much pain about the heart, palpitation and irregular pulse, and for nearly three months had to be propped up in bed to keep from smothering. I had frequent sinking spells when it seemed as though my heart had stopped beating entirely and the most heroic measures were necessary to revive me. I had no appetite for food and lost flesh rapidly. Seeing that my doctors were doing me no good I took the advice of an old friend and began taking Dr. Miles' Heart Cure. The good effects were so apparent that I kept on with it, and I am satisfied that I owe my restoration to that valuable remedy."

Dr. Miles' Heart Cure is sold at all drug stores on a positive guarantee. Write for free advice and booklet to

BY AUTHORITY

AMENDMENT TO SANITARY REGULATIONS OF THE BOARD OF HEALTH FOR HONOLULU DISTRICT.

At a meeting of the Board of Health held on the 11th day of July, 1900, Section 2 and Section 10 of the Sanitary Regulations of the Board of Health for Honolulu District were revised and amended so that the said sections shall read as follows:

"Air Space Between Buildings.

"2. No building, not flush with a street or streets bounding the lot on which it is to stand, shall hereafter be erected within five feet of any other boundary line of said lot, unless the nature and location of such building and the purposes for which it is to be constructed and adapted, do not require said vacant space for the preservation of public health and public sanitation. There shall be a clear air space of ten feet between all buildings, except such as are flush with a street or streets bounding the lot on which they stand, unless the nature and location of such buildings and the purposes for which they are to be constructed and adapted, do not require said vacant space for the preservation of the public health and public sanitation. The word 'buildings' in this paragraph shall be construed to mean and include sheds, lean-tos, privies, outhouses and all other structures of similar character."

"Regarding Privy-Vaults and Cesspools.

"10. A cesspool or other sanitary means of disposing of waste, when necessary, shall be completed before any building hereafter to be constructed shall be occupied. No structure or cover shall be put upon or over any privy-vault, sink or cesspool, until it has been inspected by the proper Agent of the Board of Health and approved as meeting the requirements of these regulations and of public health."

Dated Honolulu, July 11th, 1900.

C. B. WOOD,

President Board of Health.

THE WAY TO WIN A WOMAN

JEROME'S COMEDY STAGED LAST NIGHT.

Neillis In Another Big Success Before a Large Audience—Best of Work by All Players.

Jerome K. Jerome's famous comedy, "The Way to Win a Woman," was played by the Neillis at the Hawaiian Opera House last evening, and attracted a very large mid-week audience. Nearly every seat in the house was occupied, and the galleries were well filled. The play in itself, was immensely pleasing, and the Neillis were fully up to their high mark in presenting it. "The Way to Win a Woman" is probably Jerome's best season at the Lyceum theater in New York, started it upon a career that has been all of successful and more. Its comedy is pure and rich; it is a play of great strength, depicting vividly several common traits of human nature. Mr. Neill is "Harry Hayward," and Miss Edythe Chapman is "Miss Carruthers," carried the heavy roles. "Miss Carruthers" is a flirt, with a passion for fine dresses, fine horses, and social prominence. "Harry" with \$5000 a year, is in love with and engaged to her. Withal, "Miss Carruthers" is a temptress, and her confession in the first act, when she tells "Harry" that she cannot marry him on account of his poverty, is one of the prettiest dramatic situations in the play.

"Mr. Hayward" refuses to part with her. A short time later he is wrestling with a temptation to accept a fortune which has been left within his keeping by an old chum. Only a bit of paper, a will, is between him and it. To turn this would mean wealth the balance of his life, and the hand of "Miss Carruthers." Mr. Neill's work from that point to the end of the act was simply magnificent. "Harry" yielded to the temptation after a desperate struggle. When the curtain went down there was a tremendous outburst of applause.

The remainder of the play abounds in delicate climaxes. A thread of comedy keeps up to the end. All through the principals keep up their standard of excellence. The other players were almost above criticism. Miss Lillian Andrews was in her element as "Mrs. Carruthers." Julia Dean was a stunning "Kidd Elphick." Mr. Bloomquist was rather better than usual as "Archie Philbrick." Robert Morris "Dr. Hayward" was finished. All the others were equally good.

"Amy Robsart" will be the bill for this evening.

GENERALS BECOME AMIGOS

AMERICAN AMNESTY ACCEPTED BY FILIPINOS.

Take the Oath With Bad Grace, Knowing What Its Violation Means—Non-Sectarian College in Manila.

MANILA, June 27.—Nine of the insurgent leaders, including Generals Pio del Pilar, Concepcion, Garcia and Alvarez, were released here today upon taking the oath of allegiance to the government and renouncing all forms of revolution in the Philippines, together with making formal acknowledgments of American sovereignty.

This oath is much stronger and more binding than the oath which General Otis administered and was consequently distasteful to the Filipinos who accepted it with bad grace, fully realizing the results of any violation.

Senor Buencamino took the oath Monday. It is hoped that the sparing of the nine leaders will influence their men to take advantage of the amnesty, which had thus far been without results other than those of today.

NEW YORK, June 29.—The Sun has received the following:

"MANILA, June 30, 9 a. m.—General Grant reports the unconditional surrender of General Aquino at Angeles with sixty-four rifles. General Aquino promises that his officers and men will surrender later. Secret service officers captured General Estralla in Manila yesterday.

"MANILA, June 29.—The non-sectarian college of primary and secondary education was opened at Manila today in the presence of Judge Taft, president of the civil commission, and his colleagues. Judge Taft spoke in effective terms of the significance of the event. The institution is the first educational enterprise in the Philippines that is not under the control of the priests and that looks for support to the voluntary contributions of the people. Five hundred pupils have already been enrolled and many children are leaving the schools of the priests to enter the college. The American educational department supplies text books on the easiest conditions."

TRIANGLE CLUB.

About one hundred people enjoyed the literary program of the Triangle Club in the Y. M. C. A. last evening.

Nearly half those present were ladies. The leading feature of the evening was an address by T. McCants Stewart, on "Perseverance." John Lennox read an essay on "What Iron Has Done for Civilization." Ed Towne gave a short review of the Rubaiyat. M. T. Bluxome recited very effectively Browning's "Lord Clive."

The music of the evening was ably managed by J. E. Davis, chairman of the meeting.

FAMOUS HEADRESS.

Miss Edythe Chapman of the Neill company will wear among the headresses this evening an "Amy Robsart," at the Opera House, a headress that was for many years worn by Edwin Booth, the greatest actor in American stage history, whenever he appeared in his favorite role of Hamlet. Mr. Booth gave the famous piece of headgear to Frederick Warde, and the latter presented it to Miss Chapman.

GOING TO MAHUKONA.

F. J. Cross and Expert Bowdoin will leave Tuesday for Mahukona to test the wireless telegraphy station there and get it in shape for handling messages. Until this station is in working order and the charity message sent over it no commercial business can be received by the company. This is because the buyers of the charity message wish to reach Hilo first of all.

FRIDAY, JULY 13, 1906.

STAGE LAND.

Honolulu is just closing a theatrical season. To many people the stage is a synonym for a snare and all kinds of wickedness. Fortunately that class is growing less and less every day. To others the stage is a sure means of education and uplifting. After all the stage and the book are very much the same. The latter can do infinite good and it can do infinite harm, or it can do neither and merely soothe an idle hour.

Well conducted, the stage undoubtedly has an immense influence. It has not the influence upon us that it had among the Greeks, to whom the theater was in a measure a religion. It has not the influence upon us that it has had sometimes in France, where it has turned ministries from power. With our race the influence of the stage is sociological. It may do good, socially. It may do harm, socially.

The influence of such a company as Mr. Neill has brought to the Islands cannot but be for good. It is refining, elevating and artistic. We admire and are improved by contemplating a beautiful picture, it may be Rafael's "Madonna," Correggio's "Ecce Homo," Frith's "Derby Day," Millet's "Eve of Bartholomew" or Hogarth's set of the "Rake's Progress." On the stage we have the picture touched to life. It is not one scene but a continued series of scenes which are set before us.

A company such as has been playing in Honolulu recently has a distinct effect upon the community. It strives, of course, to cater to the public taste, but at the same time it strives to lead the public taste. Its aim is a high one. The desire of the public in the mass is to be amused, and a very large section of it is amused with coarse wit and risqué allusions. But if something really good is offered to it the public readily responds, and is quick to appreciate the elevating influence which is acting upon it.

After all the philosopher must take the theater seriously. The theater is in a great measure the guide to the moral standing of the people. Read Shakespeare and you learn the dignity and the brilliant ideals of the Elizabethan age. Read Wycheley and Congreve and you very quickly see decadence of manners, the flippancy and immorality of the time of Charles II. Take Moliere from your shelf and you have the biting sarcasm of an age that knew it was on the downward path and could laugh at its own moral decadence. Turn to Halcyon's librettos to which Offenbach supplied the music and you have a picture of society dancing while Rome is burning, a wild bacchanal rout, which the Third Empire was, Go far back and Aeschylus shows us how the Greek intellect viewed moral questions. Still further back and study the book of Job—for that production was a play, as much as any of the most modern plays, and read carefully it is a problem play at that—and you get the reflex of the mind of a time which history knows not. Come nearer and get some glimpse of the miracle plays. These show the thought of the middle ages. One of them has survived to the present time and is even this month being presented at Oberammergau, whither all the world is flocking now.

The above paragraph is a very hasty view of a great subject, but it tells enough to show that the stage ought to be taken far more seriously than it is. Like all great forces it is capable of infinite good, and it is capable of infinite evil. Womanhood, the ruler of the earth, has a like power. She can be, and is the guiding star of humanity. She is the emblem of all that is holy and pure in the world, and gives us our standard for the next. But how degraded she can be. How she can wreck the grandest and most useful of lives and drag them down into an abyss of shame and other dishonor.

To those who strive to elevate the stage, who strive to keep it to its high ideals, all credit and honor is due, and Honolulu owes ever a debt of gratitude to any one who shows her that those high ideals remain in stage land.

SAUCE FOR THE GANDER.

"What is sauce for the goose is sauce for the gander." It is by no means a bad proverb, and proverbs, we know, are the concentrated wisdom of the vernacular. They have a true Doric salt about them which is refreshing even to the jaded senses of the epicurean. The proverb is applicable just now.

The Chinese government has insulted and, mayhap, allowed to be killed the representatives of western powers. To each government is accredited a Chinese gentleman as a representative of his country. It would be quite competent for each government to seize the smooth-tongued official and make their lives somewhat less easy than they are. For instance, Ambassador Wu, at Washington, might be relegated to jail until it was perfectly clear what had become of our ambassador in Pe-

king. But Ambassador Wu knows that he is quite safe, because western nations do not do this kind of thing.

One does not see why some such measure of retaliation should not be started though. Take the case of the Bow Wong Chinese here. They have used the right of free speech which the laws of the Territory, and before that, the laws of the Republic gave them. They have openly come forward and preached a doctrine of reform in China. Their work has not been underhand, or secret, and there is nothing immoral or subversive to good government in the ideas which they have expressed.

But there has been some one on their track. Chinese Consul Yang Wai Pin has looked up every Bow Wong and has carefully forwarded the names of these gentlemen to the central government in China, which has very promptly clapped the relations of the reformers into jail, and if said relations don't pay up promptly to the local magnate, discomfort in prison, and perhaps torture, will follow. Such is the beneficent law or lack of law in the Chinese empire.

Now, would it not be quite in order for the Chinese resident in the Territory to petition the President to put Consul Yang under duress until the unfortunate victims, whom he has been the means of resigning to a dismal jail, are released. This would very thoroughly be "sauce for the gander," and the "gander," meaning Consul Yang, would probably not enjoy it. It is no fun yanking stones out of a quarry after you have been driving around town in a buggy and have had the best of attendants to help you keep sleek and fat.

As regards Consul Yang Wai Pin personally, there is nothing for the Star to say. He is a Chinese gentleman resident in the Territory, and as such is welcome, and has all his claims to rank and courtesy. But he represents something else than Consul Yang, he represents the Chinese official system, and as such the Star challenges and criticizes him as any true American paper would.

The advice urged may seem extravagant, but it is essentially practical, and would have very practical results. The Chinese official class need a very sharp lesson from the west. The Chinaman in the humbler ranks of life we know and can appreciate. The Chinese merchant who settles in a country such as this proves himself a progressive and worthy citizen. But the Chinese official forever despises and hates the foreigner, and he hates his own countrymen who assimilate with the foreigner. There is only one way in which to meet this class of men. Their rulers have insulted and outraged our representatives; it is about time that we began to make reprisals of a like nature.

It was not so very long ago that at the Chinese embassy in London, Dr. Sun, one of the leaders of the reform party, was imprisoned for some days, and only by good luck was saved from being shipped to China to have his head cut off. Yet so gross an outrage was smoothed over. It is about time that Chinese officials abroad should be made to understand their position. It would be quite a good thing to go from the general to the particular. If Consul Yang was made to understand that his line of conduct in getting the families of the reformers resident here put into jail does not meet with the approval of the American Territory. In point of fact, the Territory wants no snakes in the grass among its fair meadows and vales.

LEUNG CHI-TSO.

In the present condition of affairs in the east it is of the greatest value to have the opinions of a man like Leung Chi-tso. That they were of considerable value was evidenced by the fact that British Consul Hoare was present as one of the listeners, and this, no doubt, to obtain light and information for his government.

Leung Chi-tso is a reformer, and his reforming principles were evidenced by his audience. Among his hearers were a number of Chinese ladies, and Chinese ladies are not usually in evidence at public meetings. Many of the Chinese present had discarded the queue as Mr. Leung himself, has discarded it, and there were quite a number of Japanese present.

Leung's chief point lay in a warning against the attempt to partition China. He warned his hearers that of the 400,000,000 of people in China, at least nine-tenths would join the Boxer movement if such an attempt were made. Mr. Leung knows his own people, and has been devoting himself to their improvement and advancement, and as a patriot, he desires to see a regenerated China, but he is quite unwilling to see a conquered China.

The reformer's efforts are directed to uplifting China and her people into the position of one of the great powers of the earth, and assimilating her with western civilization and western thought. His methods are educational. The Empress Dowager's views and those of her advisers are to conserve Asiaticism, and eastern thought by crushing out every trace of occidentalism, and banishing from China every westerner. Her methods are arbitrary and tyrannical.

The present movement in China will set back the able work of Mr. Leung and his fellow reformers for many years. Many reforming Chinese will, from well understood motives of patriotism, join the anti-reform party, and the bitterness between the oriental and occidental will be much enhanced by the events now going forward.

The silver plank seems to be giving the Democrats a considerable deal of trouble. But Bryan is determined upon the point and a certain section of the Democracy is with him heart and soul. Iowa has affirmed the Chicago platform, but has dropped the 16 to 1, and Illinois has done the same thing.

Bristles in Your Teeth!

Are not pleasant, but you will get them there, every time you use a poor tooth brush. Get a brush that is built right. It doesn't cost any more and is more satisfactory. Our best is built right. Its not every day that we can offer such a good value in a tooth brush. We always have a complete assortment on hand but its only occasionally that we run across such good ones as these at so low a price. Besides being put in to stay, the bristles are of the correct stiffness—two or three grades—so that you are sure to be suited.

DECAY AND DEATH LURK IN ITS

Report of Experts on the Condition of the Old Royal School Building—Dangerous to Life.

No wonder the school authorities will not take the responsibility of longer continuing the use of the Royal School building as a school building.

The experts appointed by Superintendent of Public Works McCandless might have used the words of the old negro song about the "Chimney falling in and the walls are crumbling down," in their report of the condition of the building. They have used the description, and have almost paraphrased the words.

The experts appointed were W. E. Rowell, C. B. Ripley and John Ouder Kirk. Their report has been made to Superintendent McCandless, and is as follows:

"We the undersigned members of the commission appointed by you to inspect the condition of the building known as the Royal School on Emma street, beg leave to report as follows: "We find the coral walls of the building to be many inches out of plumb, that they are very poor, are cracked, crumbling and not of sufficient strength to safely support themselves or the wooden building which rests upon them.

"We regard these walls as dangerous and while it is possible that they might stand a few years in their present condition, it is true that they are liable to collapse at any time when some settlement or sudden jar or strain comes upon them and this is most likely to occur when the building is filled with school children.

"We would urge that the building be not used for any purpose in its present condition. We should further say that we do not believe that it is possible to so repair or strengthen the present building that it would be suitable for use."

OBJECT TO THE BOARDS

(Continued from page one.)

fairness, to have at least one Democratic representative upon the various boards. Of course as the boards have the full power to pass upon the registrations they could, if they desired, refuse the right to many Democrats to secure the enrollment of their names. In such a case the only redress which the voter would have would be a suit in court but legal action requires time and money and the average man does not care to spare either.

"By refusing to register a voter who had the right of enrollment the members of the Board would lay themselves liable to damages which could be secured through an action in the court. While I am not positive about the matter, my impression is that the organic law requires the boards to be as unpartisan as possible which would give the Democratic party at least one representative on each board, an appointment which we certainly ought to have received."

WOULD ADOPT CHILD.

Thomas Murray and wife have applied to the Circuit court for permission to adopt a little native child named Malaka Moolau. The child seems to be a waif on the world.

MANDAMUS CASE DROPPED.

A. M. Brown this morning discontinued his mandamus suit against the collector of customs. This matter was instituted to compel the registration of the ship Falls of Clyde under the Hawaiian flag. As the vessel was admitted to American registry by Congress, there was no longer any necessity for continuing the action.

FALL OF THE BASTILE.

Tomorrow will be the one hundred and eleventh anniversary of the fall of the Bastille. The Bastille, which represented the monarchial despotism of Paris, was built in the fourteenth century and was destroyed by a mad populace on July 14, 1789.

In honor of the occasion the Hawaiian Band will serenade French Consul Mout at 8 o'clock tomorrow afternoon.

LILUOKALANI PETITIONS.

Queen Liluokalani, has, by her attorney, J. O. Carter, filed in the Circuit court a petition to allow the filing of a certain bill of sale of one Anhea Kekaulohe for land, given December 28, 1894, but not properly filed at the time. Judge Humphreys has consented to hear the matter tomorrow morning.

Judge Stanley is today hearing a native petition from Waiatua to cancel a deed to certain lands now held by the Waiatua Sugar Company. A number of natives appear on either side.

THE HOGAN CASES.

Robertson & Wilder, attorneys for defendant in the matter of Hogan's Trustees vs. Canadian Australian Steamship Company, have petitioned the Circuit Court to allow them until July 31 to perfect and file their bills of exceptions.

HEAVY FLOW STRUCK BY THE
SEWER MEN.

Over Four Million Gallons a Day Being Pumped Out Near the Water Front—Richards Street Flooded.

An underground stream of very large volume has been reached by the men who are working on the big sewer on Halekauwila street, and there is great difficulty in keeping the water down so that the men can work. Though the engines used are pumping water from only fifteen feet beneath the surface at a distance of only a block from the harbor, the water is not salt. It is slightly brackish, showing the effects of some drainage from the ocean through the coral.

Three engines are kept going day and night to keep the water down in the ditch where the men are at work, but the laborers stand in two and three feet of water all day, using the pick and shovel. The engines pump a thousand gallons a minute each, making nearly four and a half million gallons of water a day being pumped out of Halekauwila street, within a distance of a block. It all runs into the harbor. Two of the pumps are at the corner of Richards and Halekauwila, and the other one is at Alakea. The ditch being dug has only just reached Alakea street, but the underground stream evidently runs along so unobstructed that the trench is affected at Alakea by the pumps a block away. At Richards street there is only a small hole about ten by ten, and fifteen feet deep and out of this two engines pump 2,000 gallons a minute day and night, without more than keeping pace with the water that flows in from every side.

Incidentally, the Richards street pumps keep that street in a flood constantly from Halekauwila to the harbor. The ditch that was made to carry the water is not large enough, and the entire block is a puddle of lake. It is about closed to traffic, and the way to the pilot house is by walking planks that are none too broad or too steady.

HOW IT SEEMED.

You can't convince the British convey that there were not 50,000 Boers concealed at Mealie Spruit.—Detroit Free Press.

FLIGHT FROM PAOTING-FU

TERRORS OF THE RETREAT UPON
TIEN-TSIN.

Fearful Experiences of a Small Party
of Europeans—Nine Out of Forty-One
Left Behind.

The newspapers of China and Japan
contain many stories of the terrors of
the flight of foreign parties in the
general retreat upon Tien-Tsin, Taku,
and other centers where white people
might find safety. The China Gazette
tells of a thrilling experience of thirty-
three men and seven women who at-
tempted to get to Tien-Tsin from Paot-
ing-fu. All foreigners were warned to
leave the latter place on May 25, and
on the 26th the party left, one of the
women carrying a child. The railroad
that connected them with civilization
had been wrecked, and they were com-
pelled to take boats, manned by Chinese
crews.

The Europeans were mostly armed
with revolvers, although there were
several old Mauser rifles in the crowd.
As they departed at five o'clock an
enormous hostile crowd gathered
around them armed to the teeth, and
in many cases wearing the red belts of
the Boxers. After about an hour's
journey, M. Ossent, the railway super-
intendent, who accompanied the party,
on the advice of Sun, ordered the hatch-
ways to be closed down as they ap-
proached supposedly dangerous locali-
ties. The foreigners objected to this on
the ground that in the event of being
attacked they would be helpless, for
they had no faith in the Chinese sol-
diers who were acting as their escort.
Notwithstanding every remonstrance,
however, M. Ossent ordered the hatch-
ways to be closed, and as the heat was
intense, considerable suffering was en-
tailed.

The next day, when the Europeans
refused to allow the closing of the
hatches, "An attack was made by hun-
dreds of infuriated Chinese. The Euro-
peans jumped ashore, and, forming
themselves into small groups were
promptly responding to the fire of the
Boxers. They found that they were in
front of a large town, the name of
which they had been unable to learn,
and the inhabitants turned out in large
force against them, being armed with
lances, swords and guns. All the Euro-
peans with the exception of M. Ossent,
Madame Astier (his sister), and
Signors Cadel and Pessiro, who were
on the other side of the river, were
fighting desperately and at dangerous
odds. None of them could tell exactly
the situation of Ossent, as in the flight
there was no time to think about any-
one but oneself.

"Firing went on furiously on both
sides, the savage cries of the Boxers
adding greatly to the horrible din. The
Boxers fired cannon from the wall, but
so bad was their marksmanship that
nobody was hit. M. Deviment stated
that he saw the Chinese soldiers who
were acting as escorts, firing at the
foreigners, and many others of the party
testified to the same effect. After a
long and difficult tussle the party were
left alone without boats; and there was
nothing left for them to do except take
to the interior and make the best way
they could to Tien-Tsin. The majority
of them were only half-clothed, and in
almost every case they had lost their
shoes in the mud and getting up.

"The party came to a farm house at
length and succeeded in purchasing
drink and a little bread, the heat
being positively unbearable. Still
besieged by hordes of rabble, the condi-
tion of the party was wretched in the
extreme, almost all suffering from in-
sufficient rest and nourishment. It was
after leaving here that they realized
for the first time that M. Ossent,
Madame Astier and seven others of the
party were missing. They did not know
what to do, whether to turn back or
not. At last they decided to go on in
the hope that the missing would catch
up, as the Boxers were now pressing
them severely.

"The party succeeded some hours later
in again reaching the river bank, and
a boat was procured in which to
make for Tien-Tsin. On reaching Tien-
Tsin they were all very much exhausted
and were escorted by the relief party
to the Astor House, where they were very
kindly treated. Our informant was in
Tien when the wretched band of strag-
glers arrived, and she says they pre-
sented a truly pitiable spectacle, all
being in rags and tatters. One man
was proudly carrying a captured Box-
er flag."

DENY LIABILITY.

Various insurance companies sued in
the past few days have engaged L. A.
Thurston for their attorney. This
morning the attorney filed answers to
the various complaints setting forth
that the fires complained of occurred
from causes not insured. The property
in question was burned in the great
fire of January 29.

In the matter of Pioneer Mill Com-
pany vs. Lahaina Coffee and Fruit
Company, plaintiff has filed a replica-
tion to the answer denying each and
every allegation therein set forth, and
relying on the bill originally submit-
ted.

"AMY ROBSART."

Beautiful Romantic Drama Presented
By the Neills Tonight.

Tonight the famous Neill company
will present the four-act romantic
drama, "Amy Robsart." The play is
a dramatization of Scott's novel, "Ken-
ilworth," and in general follows very
closely the story of the book, although
the characters of "Michael Lambourne"
and "Wayland Smith" in the novel are
merged in the one character of "Way-
land Lambourne" in the play. The
"Countess Amy" in the play is not mur-
dered, but, instead, the villain, "Rich-
ard Vane," is hurried to death through
the trap which he had designed for his
victim.

The scene opens in the tavern of old
"Giles Goslin," where "Lambourne" on
a drunken wager, proposes to discover
the secret of Conner Castle and the
mysterious prisoner. The second scene
is laid in Conner Castle, and where
"Edward Tressilian," who has accom-
panied "Lambourne," finds his former
sweetheart, "Amy Robsart," for whom
he has been searching, kept there in se-
clusion by the "Earl of Leicester," to
whom she is secretly married. Then
comes the sudden arrival of "Richard
Vane," his career with "Amy" and
"Tressilian," and the flight of the latter.
"Leicester's" arrival and interview with
"Amy," his hasty departure when "Var-
ney's" attack on "Amy" and her rescue
by "Lambourne." The close of the first
act finds "Tressilian" on his way to the
home of "Sir Hugh Robsart," "Amy's"
father, and "Leicester" hastening to the
court of Queen Elizabeth to parry the
attack which he knows is sure to come.
As a scenic production "Amy Rob-
sart" easily ranks as one of the best
the Neill company has ever presented.
The old inn, the interior of Conner Cas-

tle, the throne room of Queen Eliza-
beth, Kenilworth Castle, Conner Tow-
ers, and the moonlight scene of the old
postern gate are fine examples of scenic
art.

AMENDMENT TO REGULATIONS
REGARDING STABLES.

At a meeting of the Board of Health
on the 27th day of June, 1900 the fol-
lowing amendments were made to the
"Sanitary Regulations for Livery Sta-
bles in Honolulu." That the word
"Livery" be stricken out from the title
of said regulation, and a new section to
be known as section 7 be added to said
regulations, so that the said regulations
shall read as follows:

"SANITARY REGULATIONS FOR
STABLES IN THE DISTRICT OF
HONOLULU.

"1. The floors of all stalls shall be
made water tight and may be made of
the following materials: Tongue and
grooved planks, cement, asphaltum or
broken (coral) rock to the depth of six
inches covered with clay well tamped.
"2. All stalls shall be constructed
with a slant of at least three and one-
half inches from front to rear.
"3. The water tight flooring of stalls
may be covered with any suitable ma-
terial, provided such material shall not
be allowed to become saturated with
animal discharges and remain until foul
or insanitary.

"4. Liquid discharges from animals
shall be conducted into a drain or ditch
to a cesspool or sewer and said drain
or ditch shall be flushed and kept clean.
"5. Where washing is done, the floor
shall be of cement, graded so as to dis-
charge through a trapped waste pipe
into a cesspool or sewer.

"6. All manure from stables where
ten or more animals are kept, shall be
removed at least twice in each week,
and where there are a less number, once
a week.
"7. These regulations shall apply to
livery, hack, bus, tram car, truck, ex-
press, dairy and all other stables where
five or more horses or mules are kept."

BETTER POSTAL SERVICE

PLANS FOR INTRODUCING NEW METHODS.

New Mail Pouches and Distributing Racks—Completer Distribution of Incoming and Outgoing Mail.

Postoffice Inspector M. H. Flint is figuring on a great number of changes and innovations, all in the nature of improvements, both in the local and foreign mail service of the islands. Among these are a number of new furnishings for the postoffice itself, for which he is now getting up the specifications on which the requisitions will be based.

For one thing, the style of mail bags will be changed. The mail bags now in use are not locked, but sealed. Under the new regime the leather pouches which lock will be introduced for letter mail, and bags for newspaper mail. For the Territory of Hawaii a distinctive key will be used. The key for the mail pouches on the Mainland have an eagle stamped on them. The key for the Hawaiian mail pouches will have a distinctive symbol or device and will differ in other respects.

It is also proposed to have the latest improved distributing rack. The present rack is a series of boxes arranged in a semi-circle into which the mail is thrown, and then it is taken out of the boxes and put in bags and the bags sealed. In the new rack, the mail will be thrown directly into the bags, and when distribution is complete the bags are taken off the racks and locked almost with the same operation. The racks are so arranged also, that as soon as a bag is full it can be taken out without disturbing the others.

It is also proposed to provide a new case for distributing letters, so that distribution here, before letters are sent away, will be more fully made than it is at present. For instance, letters are distributed here now for "San Francisco distribution," "eastern distribution," etc. It is proposed to carry this farther and distribute here for "New York," "Chicago," and as many places as the amount of mail for such places will justify. This will save handling at San Francisco, and so expedite delivery at the other end.

Mr. Flint hopes to secure the services of mail clerks on all mail steamers plying between here and the Coast, so that they will arrive here ready for delivery. With free delivery this would mean that for the most part letters would be delivered at residences or places of business within an hour after the mail steamer arrived.

A mail clerk on steamers going the other way would accomplish the same end in regard to outgoing mail.

The policy of the United States mail service is "expedition." The effort to secure faster transportation is constantly accompanied by an effort to utilize the time required for transportation in distributing mail, so that after having hurried mail across the continent by the fastest long distance trains in the world, delivery shall not be delayed by having the letters remain in the postoffice of destination while the local distribution is being made.

One question which will come up in the islands in regard to the postal service will be unique. That question will be to whom does the postoffice building belong? The United States owns or rents the postoffices on the Mainland, or else they are owned or rented by the postmaster. But the Honolulu postoffice building has been the property of the Kingdom of Hawaii, and the question will now be whether it is the property of the United States or of the Territory of Hawaii.

SPECIAL MATCH RACE.

D. Ferreira announces that there will be a special match race for \$250 Saturday at 3 p. m., between his horse, Erech, and "Shamashah" J. The distance will be a quarter of a mile and ten fathoms over the Kapiolani Park track.

ALLEGES SLANDER.

A Kamehameha Pupil Sued Because He Believes in Ananana.

Mrs. Abigail K. Kallieha by her attorney J. T. de Bolt, has brought suit for \$5,000 damages against Lowell Kupal for alleged slander. Both parties to the suit live near Waianae. The defendant Kupal is a graduate or former pupil of Kamehameha School. Some time ago he had a fall from a horse, narrowly escaping death. It is said he believed his fall to be the direct result of the plaintiff's practice of ananana or praying to death, and in the presence of witnesses, charged her with trying to pray him to death and causing his fall.

The plaintiff indignantly resents any imputation of the power or reputation of a Kahuna.

The alleged slander has a legal peculiarity in this that no plea of justification is legally possible as the defendant cannot prove that the fall was the result of the alleged ananana, or that she has the power of praying to death.

IOLANI COLLEGE PRIZES.

Distributed Yesterday by Bishop Willis—The Field Day.

Short exercises in the school room preceded the field sports at Iolani College yesterday afternoon. Bishop Willis addressed the boys on the work of the past year, and L. G. Blackman spoke to them of the future. Thereupon Bishop Willis distributed the prizes to the following:

John C. Andersen, Thomas L. Andrews, Kim Fook, Ah Tong, Lo Choy, Chang Yat, E. Mahaulu, Soy Kan, Chum Su, Fo Sue, Edward Kahaku Ken, Edward Ping Chong, Ah Loi, Shen Yen, James Robertson, Malcolm Robertson, Ah See, Ah Wane and Ah Yuk. The field sports began at 3:30 o'clock. The following gentlemen were officers of the day: Rev. V. H. Kiteat, R. A. Jordan and J. Stokes, judges; Herbert M. Ayres, handicapper and timekeeper; F. S. Fitz, starter.

Mrs. Moore, daughter of British Consul Moore, distributed the prizes.

The events were very interesting from every point of view, reflecting great credit upon Mr. Blackman, the new instructor. It was probably the most extensive program of athletics ever attempted by the college.

TWO BONDS FILED.

In the matter of the estate of the late Kalua Pika, Keau, administrator, has filed his bond in the sum of \$500. S. Mahelona is his surety.

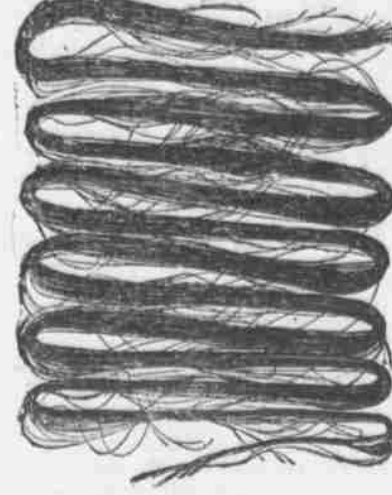

In the estate of Samuel K. Kahal, the administratrix, M. Kahal, has filed her bond in the sum of \$1,800. D. Kawahinekoa is surety.

Thomas J. King of Liverpool, was the only applicant yesterday for the rights of American citizenship.

Hair 55 Inches Long Grown by Cuticura.

MISS B—, of L—, sends us through our British Agents, Messrs. F. Newberry & Sons, 27 and 28, Charterhouse Square, London, E. C., a strand of soft, glossy hair cut from her own head and measuring fifty-five inches in length, of which the annexed drawing is a photographic fac-simile. She attributes her magnificent head of hair to frequent shampoos with CUTICURA SOAP, followed by light dressings of CUTICURA gently rubbed into the scalp. Previous to the use of CUTICURA, her hair was dry, thin, and lifeless, and came out in handfuls to such an extent that she feared she would lose soon it.

This is but one of many remarkable cases of the preservation and restoration of the hair in seemingly hopeless cases by warm shampoos with CUTICURA SOAP, followed by light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, clears the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow on a clean, sweet, wholesome, healthy scalp, when all else fails.

MILLIONS OF WOMEN use CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery.

Complete External and Internal Treatment for Every Humour.

Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humours, with loss of hair, when all else fails. Sold throughout the world. Aust. Depot: R. Towns & Co., Sydney, N. S. W. So. African Depot: L. N. L. D., Cape Town. "All about the Skin, Scalp, and Hair," free. POTTER DRUG AND CHEM. CO., Sole Props., CUTICURA REMEDIES, Boston, U. Members of the Y. W. C. A. will form a bathing party at Waikiki Inn tomorrow. Those riding wheels will leave the Elite building, Hotel street, at 7:30 o'clock, meeting the others at the beach.

Frank C. Faxon and Mrs. Ida A. Hawkins were married yesterday afternoon. The groom is secretary of the new American Power and Water Company. The bride arrived a few days ago from her home in Alameda.

A. G. Kaulukou, the bright young native orator of the Fourth of July exercises, is a candidate for the position of fourth clerk of the court. He has the support of the entire legal fraternity, and will likely be given the place.

Dr. J. D. Jones, technical adviser of the agricultural department of Japan at Tokyo, Professor Koehle, Commissioner of Agricultural Haughts, inspected Tantalus forest today. Dr. Jones was favorably impressed with that place. He will leave on the Nippon Maru next Tuesday for Tokyo, after an absence of several years in Europe.

MAY BE AALA WAREHOUSE.

Where the Royal School May be Located Next Year.

It is likely that Aala warehouse will be used by the Royal school for a large part if not all of the coming scholastic year. The report concerning the condition of the Emma street building, published in another column, decided the government to take some immediate action in the way of getting another place.

Mr. Atkinson suggested that Aala warehouse might be secured and could be fitted up to become a very comfortable place. After a great deal of discussion the superintendent of schools was requested to secure the warehouse if possible from the Board of Health.

The question of support to the hospital for incurables came up. It was pointed out that the institution was badly in need of funds, and that the treasury had an appropriation to the credit of the hospital. It was recommended that the hospital be allowed the sum of \$400 a month on condition that only incurables be admitted to it.

The Y. M. C. A. applied for a twenty years lease of five acres of land in Manoa Valley upon which it is proposed to establish a permanent camp. Mr. Brown replied that under the Territorial act a lease for five years only could be granted, as longer leases were only to be given agricultural purposes.

The question of reports from the various departments was brought up, and it was decided to have them annually in place of biennially. These will be printed and handed to the Governor in time for his expense estimates and report to the legislature.

L. A. Dickey and J. E. Bush applied for authority to grant marriage licenses. Referred to the treasurer.

The treasurer reported that the appropriation for the Pali road was about exhausted. Mr. McCandless replied that he thought there was enough to finish it.

PAINTING THE LILY.

In restoring the White House recently the workmen discovered that the two doors at the entrance were of solid mahogany, but owing to some mistake the original wood had been painted in imitation of walnut. The paint was at once scraped off and the doors restored to the pristine state.
