WHAT THE BOLT FOR JUDGE CAPT. SPENCER'S DEFENSE NEW PRESIDENT OF OAHU SOLDIERY WILL REMAIN WOULD NOT BE NOT AIRED WITH LOCAL DEMOCRATS

TWO PETITIONS FAVORING HIM BEING SIGNED.

Attorneys and Business Interests Unite in Asking President to Appoint De Bolt Circuit Judge.

A movement is on foot to secure the appointment of John T. De Bolt to the office of second judge of the circuit court which is now vacant by the resignation of Judge Silliman. Two petitions are being circulated, one among the attorneys and another among the business men, urging President McKinley to appoint Mr. De Bolt to the office.

Many leading members of the bar have attached their signatures to the former while equal success is accompanying the circulation of the second petition among the business men. Nearly every agency of the sugar companies has signed the latter petition. It is also meeting with a cordial support from many business firms.

Although the candidacy of Mr. De Bolt is being urged against that of George D. Gear, the petitions do not attack Mr. Gear in any manner but simply urge the President to appoint Mr. De Bolt. The petition among the attorneys was started last Tuesday as soon as possible after the public learned of the resignation of Silliman and the recommendation of Gear. The other petition was started yesterday.

In what some attorneys term the snap appointment attempted by Judges Silliman and Humphreys, many leading members of the community see ample cause for taking adverse action. Neither Silliman nor Humphreys, they feel, are the only ones in this community whose interests are concerned in the appointment of the new judge and the public should have been notified in time of the resignation in order that its wishes could have been made known to President McKinley at the time the recommendation of Silliman and Humphreys went in.

As it is many fear that any effort to offset the recommendation of the judges and stop the appointment of Mr. Gear may be too late. Nevertheless every effort will be made to stop any unfavorable action upon the part of President McKinley, and to induce him to appoint Mr. De Bolt. The petitions will be forwarded as speedily as possible to the President.

A number of reasons for the circulation of the petitions and opposing the appointment of Mr. Gear have been given by attorneys and other interested. It is claimed by some that the relations which exist between Judge Humphreys and Mr. Gear are of too friendly and too close a business character to make it wise for both to hold the two judgeships. Not that there could or would possibly be the slightest understanding between them or intent upon the part of the gentlemen to do the slightest thing wrong, still some attorneys believe that with two much intimate friends and business associates occupying such closely allied positions, the proper equities of the circuit court might be threatened. It is well, the opposition argues, to have two men of the same turn of mind and of such friendly sentiment toward each other at the head of judicial affairs in a community where there are so many varied interests to be protected.

If it should happen that one of the Supreme Court Justices should be unable to act, either the Circuit Court Judges would be called to serve. The prospect of ruling against some decision of a dear friend would certainly not be a pleasant one and it is claimed that few human beings are so divine constituted that they would not be biased to some extent by their personal feelings. It is to guard against such a possibility that the appointment of Mr. Gear is being opposed. "The Circuit Court," says the opposition, "should be like Caesar's wife, it should be above suspicion."

The method which was taken to gratify the appointment and freeze out every other interest has also aroused deep resentment among the parties ignored. Then too it is urged that so far as personal qualification is concerned the personal qualification is upon the side of Mr. De Bolt.

Mr. De Bolt was born in Texas in 1857. He removed to Seattle Washington and was admitted to the bar at that place in 1887. He practiced in all the courts of Washington and about four and a half years ago came to Honolulu, where he has practiced in all of the Hawaiian courts. The present compliment came as a surprise to Mr. De Bolt and was entirely unsolicited upon his part.

BAILEY'S GIFT TICKETS.
Besides getting full value, customers of Bailey's Honolulu Cycles receive a gift ticket that entitles them to presents valued at from 10 cents to \$50.00.

THE SHOOTING AT LAYSAN ISLAND.

Starvation Stories of the Japanese to be Vigorously Attacked—Stolen Rice, Fish and Birds.

Judge Wilcox is having an interesting time in the district court, with the murder case of Captain Spencer. The Japanese side of the Laysan Island story has been fairly well brought out, though there are several more Japanese witnesses to be called. The three Japs who have been examined have all testified that all the white men did shooting. They have all testified that the Japs were deprived of food and water all day, and went to Spencer in the evening, on August 11, to ask for food, when the shooting was done.

The defense is preparing to make some big holes in the starvation testimony. For two days Attorney Kinney has been on the track of a bag of rice which was said to have mysteriously appeared in the Japanese quarters on the Ceylon, shortly before she arrived there. Today he found a witness who admitted an cross-examination that the bag was there, in fact the witness stated that there were two bags in the Japs' quarters when they left Laysan.

The defense will try to prove that these two bags of rice were in the Japanese camp at Laysan during all the trouble and at the time when the Japs, "starving and too weak to want to fight," as one witness put it, went to Spencer on the fatal evening. The Ceylon was a bag short in discharging, it is claimed, and the defense will claim that the Japs had this bag all the time.

The defense will also try to knock out the starvation story by testimony about Laysan Island itself. Skippers who have been there say that there are birds there that can be stopped on and fish so thick that they spoil the bathing. It is also claimed that the island is one at which sailing vessels often call to gather rain water and that plenty of water was to be had.

Takayama, who stands in the events of the day of the shooting, and under cross-examination told about how such luxuries as onions and soy were dealt out to the laborers after Captain Spencer arrived. He also told about the two mysterious bags of rice in the "twain decks" of the Ceylon, where the 35 prisoners were kept on the way to Honolulu. He could not say where they had come from.

So far the prosecution has only put on Japs to tell general stories of the shooting, and none of them have even testified yet that Captain Spencer fired at all, except in the general statement that "all the white men fired."

There are three more Japs to be put on the stand, and the two white men, returning with Captain Spencer, before the case for the prosecution closes. The inquiry will probably not be finished before next week and if the defense puts up its case in the lower court a decision will not come till the middle of next week.

W. R. CASTLE RETURNS.

Attended the Commencement Exercises at Harvard University.

Mr. and Mrs. W. R. Castle returned from China today from a five months absence in the states. They went principally to be present at the graduation of their son, W. R. Castle Jr. at Harvard. Young Castle graduated with high honors in the philosophical course with the degree of bachelor of arts.

Another purpose Mr. Castle had in making the trip was to interest mainland capital in the South Kona Agricultural company. In this he was not as successful as he hoped to be. He found capital ready to invest but it wanted more than he was willing to give.

Speaking of it this morning Mr. Castle said: "We have a good proposition and are not compelled to give the concessions demanded. Therefore the plans will be changed somewhat and we shall go on without the aid of the mainland capital I hoped to interest. Capitalists became interested enough in the matter to be willing to send a representative here to look into the plantation."

CLEARING OUT BOXERS.

TAKU, September 3.—An expedition will shortly start for Pao Ting, where the present campaign route, which were the seat of the first Boxer outrages in the province of Chi-li.

ANOTHER NOVELTY.

Ladies' felt hats in all the latest shades just to hand at L. B. Kerr & Co. Ltd. To be up-to-date visit the Millinery department at their Queen street store.

REV. SMITH AND NEW INSTRUCTORS ARRIVE TODAY.

No Radical Changes Are Contemplated in the Management of the Institution—New Teachers.

Rev. Arthur Maxson Smith the new president of Oahu College was a passenger on the China this morning from the Mainland. He was accompanied by his wife. Rev. Smith comes from the University of Chicago where he has passed the last four years taking a post graduate course. This year he received his degree of Ph. D. and last year the degree of A. M. He and Mrs. Smith are the guests of Governor and Mrs. Dole. Although President Smith has been here but a few hours he is most favorably impressed with Honolulu.

"From what I was told of the school," he said, "I feel greatly encouraged and think that the institution will be successful in every way. I am not acquainted as yet with the workings of the institution so can not say what will be done in regard to the management. There will not be any radical reforms or changes introduced however. Of course this community will undergo many rapid changes now and what changes are made in the college will be along lines of keeping up with those on the outside. After we get started it is the intention to advance kindergarten in connection with the primary department. Miss C. H. Ueckle has come to take charge of the kindergarten. She has had ten years experience with this sort of work in Chicago."

In addition to President Smith and Miss Ueckle three more instructors came on the China. William Burns a University of Chicago man will have charge of the mathematics. He had extensive experience in the Chicago High schools before coming here. Professor F. A. Ballancey will have charge of the music. He is an organist and pianist and was head of the music department of the University of South Dakota and also had charge of the chorister work and was organist at a leading Lutheran church in New York city. Miss H. V. Johnson, who was built on the art department. She has had considerable experience in this line of work in the Chicago high and grammar schools. She will teach drawing, sketching, and painting and while it may not be deemed necessary to include sculpture and modeling she is preparing to instruct in them. Mrs. Congdon came with the party. She will have charge of the boarding hall on the campus, a position which she formerly occupied at the University of Chicago.

It is the intention of the new faculty to start at once with their duties.

INDUSTRIAL SCHOOL WORK.

New Instructors Engaged for Boys Brigade Institution.

Theodore Richards returned on the China today from a three months visit to the Mainland. He went to visit his mother and other relatives at Mt. Clair, N. J. During his absence Mr. Richards visited the Thousand Islands and Massachusetts. While away he engaged an instructor for the Boys' Brigade school, who was built on the Oahu Railroad company's land. John Waldron is the name of the new instructor and he was formerly employed at Moody's school at Mt. Herman, Mass. Mr. Waldron will arrive within the course of a month and work will be resumed at the school immediately following his arrival.

Mr. Richards also negotiated with the publishers for a new hymn book but owing to the strict copyright law of the United States the publication of this work will be delayed as it will be necessary to first secure the permission of the owners of the songs to have them.

A FIELD DAY PLANNED.

Physical Director of Y. M. C. A. Returns Today.

A. J. Coats, physical director of the Y. M. C. A. returned on the China from a two months absence on the Mainland. He went to attend the regular summer school at Lake Geneva, Wis., where he received instruction in his line of association work. He is desirous of arranging a tournament for the middle of next month, and it was originally planned to hold this meet for the purpose of raising funds to equip a natatorium for the association but owing to the delay in the construction of the sewer it was impossible to install any swimming tank for the present.

Mr. Coats is desirous however of holding the tournament in the interests of sport. He thinks it is much better to have some open air work in athletics now than to start at once with indoor work. The details of the new proposed field day have not been definitely settled as yet.

While away Mr. Coats secured the new foot ball and basket ball rules. But few changes were made in them. He thinks that the Honolulu tennis players compare favorably with the best players of the mainland though the local people are not, of course, up to the standard of the experts.

THE MECHANIC'S HOME.

The sale of the cottages in the Mechanic's home means that the thirty odd shacks there will be cleaned out and fine new buildings will go up. Building operations will not begin, however, until Pauahi street has been extended to Fort. This will be in the very near future, as all of the land required has already been secured. The new buildings on the lot will face the Pauahi street extension.

The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made it standard over the greater part of the civilized world. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing Machine has few equals and no superiors.

POWERS WILL NOT WITHDRAW THEIR TROOPS.

France Alone of All the Nations Willing to Accept Russia's Proposal—Russia's Real Ultimate Purpose.

WASHINGTON, September 5.—No withdrawal of troops from Peking is now likely in the opinion of diplomats here, based upon official information which has been received in Washington. There seems to be practical unanimity of opinion among the powers outside of Russia that a blunder would be committed if the Russian plan was adopted. Germany is understood to have replied to the St. Petersburg note, stating the she deemed it unwise to allow her troops to leave Peking because all the purposes which led the allies to seize the Chinese capital have not yet been carried out. The German Government furthermore calls attention to the position of native Christians, who if abandoned to the mercies of the Imperial Government, would probably be as ruthlessly slaughtered as were thousands of their faith before the occupation.

Italy and Austria have replied along the same lines as Germany. Great Britain is known to agree that the interests of all nations demand the retention of the troops in Peking. Nothing definite as to the attitude of Japan can be learned, but it is inferred that she would prefer that the allies remain for the present. With all the powers, except Russia and possibly France, agreed as to the desirability of retaining troops in Peking it is plain that Russia's proposal will not be adopted. A diplomat who discussed the situation today pointed out that Russia's real purpose had probably been achieved. That purpose, he thought, was to impress upon China the deep interest in her welfare felt by Russia. And having shown such disinterestedness, and the other powers having decided on remaining in Peking, Russia can now say to China that in China's interest as well as her own it is advisable for the Russian troops to stay.

There is reason to believe that some of the powers have submitted counter proposals in modification of the Russian plan. As soon as Russia formally announces the withdrawal of her proposal negotiations will be begun to determine the force each power shall retain in Peking. After that will come the all-important question of terms the powers will demand of China. The State Department is being kept well informed of the situation in Southern China and the authorities appear confident that unless some unfavorable development occurs in the north the southern Viceroy will be able to maintain order.

ANCIENT FISH GOD FOUND.

IMAGE OF KUULA DISCOVERED NEAR KANEHOE.

Was Dug Up by a Native Who Sold It to Rev. Westervelt—The Old Legend.

What is thought to be one of the few remaining stone images of Kuula the fish god was discovered recently a short distance from Kanehoe on the other side of the island. It was dug up by a fisherman. The man did not realize the value of the fish to the favor of Kuula and it was sold to Rev. W. D. Westervelt of the Kawaiahae church, who secured it.

So far as is known only one other image similar to the present god is in existence, this being in the Bishop Museum. The image is about eight inches in length and is carved from the hard fine grained lava. It is in the likeness of a fish and though worn and a portion of the tail broken, it shows that great care must have been taken in cutting the idol. Ku was one of the three great gods of the old Hawaii. The others being Kane and Lono. The name comes from Ku, the god, and ula meaning red or blazing. Ku is reputed to have married Hinohoe. Prayers were offered to her in case Ku did not send fish. In the legends she was to instruct him with him. The red fish which were sort of rock fish were almost sacred and women were forbidden to eat them, only the high chiefs being allowed to use them for food. There was also an omen connected with the appearance of the fish for the running of the red school foretold, the natives said, the death of a member of the royal family or some high chief.

There was also a second fish god named Makalei but he was only a subordinate element in the worship of the graven image. Whenever the fish supply was short, one of the wooden images was used to try and attract the fish. The natives builded better than they knew for while they attributed the coming of the fish to the favor of Kuula in reality it was the sort of incense which they used in preparing the wooden god that attracted the fish.

A preparation was made from malle, a sweet scented leaf, kukui, the candle oil and the coconut. The oil thus secured was smeared over wooden fish which were then wrapped in ti leaves and sunk in the water. After this the priests and others would pray to Kuula to send them more food and during the progress of the prayers the preparation of the fish for the running of the red school foretold, the natives said, the death of a member of the royal family or some high chief.

These stone gods were always kept in heiaus or temples on the headlands. Rev. Westervelt expects to write a story about the discovery of the god and the ancient legend connected with it.

FOR CAMARINOS' REFRIGERATOR.

WIRELESS TELEGRAPHY FOILED BY A BALLOON.

Sending Pole Could not be Adjusted This Morning owing to Failure of the Balloon to Rise.

Molokai will have to curb its impatience to receive instantaneous messages by wireless telegraphy. It had been hoped by the managers of the company that the exact necessary height of their pole at Kaimuki would have been determined this morning, to enable them to warm the ears of the Molokaians with the latest news of the world but this pleasure had to be postponed, owing to unforeseen circumstances.

It had been arranged to make a balloon ascension today to determine the exact height to which the pole must be erected to carry the wireless waves to the receiving station on Molokai. Work has been progressing on the balloon for several days. It was beautiful in its symmetry. But on trial it wouldn't hold hot air. Hot air was to be the buoyant force. It was taken out to the Kaimuki station. But it will have to be boiled in hot oil before it will rise with its inflation of hot air. Molokai was on hand all right and so was the pole but the fault lay with the balloon. Whether it was a worldly wise balloon or not is unknown but in any event it refused to hold any of the hot air that was pumped into it. An attempt was made to inflate the balloon with heated atmosphere but the warm article escaped as rapidly as it was sent inside.

After working for an hour or so the attempt had to be abandoned. It was decided to fix the balloon in order that it could hold all the hot air necessary. The instrument will be boiled in oil today and it is expected this will make it air tight so that the experiment can be made tomorrow. Meanwhile the inhabitants of Molokai are consumed with a wild desire to learn whether Teddy has gone to lead the Americans out of Peking or William Jennings Bryan has been appointed plenipotentiary to negotiate peace with the wily Li Hung Chang.

This morning Molokai answered the call from Kaimuki but the messages are blurred and cannot be clearly made out. Manager Cross is convinced that the proper elevation of the wires has not been reached.

Captain Roschell, who erected most of the poles, is of a different opinion, however. He thinks the fault is with the Molokai pole and not the one at Kaimuki. He returned Saturday from Mahukona, leaving all the southern islands in perfect communication with each other. Lani to Maui and Maui to Hawaii are working perfectly; but from Lani to Molokai there is trouble.

"I feel sure," says Captain Roschell, "that the trouble is with the Molokai station. Lani and Makena have perfect connection, but when Lani calls Molokai there is blurred return. My opinion is that the Molokai pole is either not high enough or that there has been some error in putting up the apparatus. Messages are now sent without trouble between Lani, Maui and Hawaii. The missing link is between here and Lani. I understand that both Lani and Honolulu get Molokai in the same way, and that is what makes me feel sure that the fault is in the station on the latter island."

Marconi's experts here believe that if the proper elevation is reached at Kaimuki they can reach Lani and probably Hawaii, direct, anyway, without the intermediate station on Molokai. This is one of their projects in introducing the balloon test.

ISLANDS PILGRIMAGE.

SAN FRANCISCO, September 6.—The announcement of Islam Temple's Hawaiian pilgrimage has just been made. It is announced that the steamer Zealandia will leave San Francisco Sunday, October 7th at 1 p. m., and returning, will reach San Francisco October 23th. The pilgrimage includes a visit to Hilo and the volcano as well as to Honolulu and the tickets include all living expenses, excursions, banquets, etc., for the entire trip. All Nobles of the Mystic Shrine and their ladies are invited.

MARRIED.

BROWN-DODD.—In this city, September 12, 1900, at the residence of Mr. Brown, Young street, by the Rev. H. H. Parker, James Brown and Mrs. Grace Dodd.

McKINLEY LEAVES WASHINGTON.

WASHINGTON, September 5.—President and Mrs. McKinley will leave here either Monday or Tuesday for Somerset, Pa., to attend the wedding of Miss Mabel McKinley and Dr. Baer. The trip to Somerset will be made by daylight. Immediately after the ceremony they will depart for Canton, to remain some days.

THE WEATHER.

Weather Bureau, Punahou, 1 p. m. Wind moderate, northeast; weather partly cloudy, with light showers at night. Morning minimum temperature, 77; midday maximum temperature, 87; barometer, 9 a. m., 30.03, rising (corrected for gravity); rainfall, 24 hours ending 9 a. m., .02; dew point, 9 a. m., 64; humidity, 9 a. m., 55 per cent.

ABRUZZI'S EXPEDITION.

NEW YORK, September 5.—A cable to the Sun from Hammerfest says: The Norwegian steamer Hertha is towing southward the steamer Stella, which is on board the North Pole expedition, at the head of which is the Duke of Abruzzi.

AT THE OLD STAND.

General blacksmithing and carriage repairing business in all branches at the old stand, Fort street, W. W. Wright.

LOW PRICES ON SHOES.

Shoes are now being obtained at lower prices than ever before, owing to the cut made by L. B. Kerr & Co., Ltd. This firm have purchased three large stocks at about fifty cents on the dollar, and are selling them to their patrons accordingly.

McInerney's shoes are right in it. They are made by the leading factories of America, and consequently have no equal.

M'INERNEY SHOE STORE.

NO ANNOUNCEMENT UNTIL NEXT MONDAY.

Party Seems to be Divided Between Fusion and No Fusion with Independents—One Man's Opinion.

A meeting of Democratic leaders was held this morning, immediately after which it was announced that something of importance could probably be given out during the day in regard to the plans of the party. This afternoon it was stated that nothing would be forthcoming before Monday.

It appears that in the Democratic ranks are two factions, one desiring fusion with the Independents and the other not approving any plans thus far presented. In the former is Mr. McClanahan, National Committeeman Cornwell, Prince David and John Wise. Conspicuous among the latter is Colonel McCarthy, head of the central committee. Another sore point with McCarthy is that negotiations have been going on in that he has not been a party to, though he is chairman of the Territorial Committee. As head of the committee he perhaps naturally feels that he has been rather ignored.

In the fight for local officers a third faction of Democrats will back the best man among the conservatives. This is so in Honolulu and in the other islands. As for delegates to Congress they will support Sam. Parker, unless J. O. Carter or S. M. Damon are put up. In the latter eventually the question is an open one.

A prominent Democrat, in position to know, said this morning: "We do not consider that the Republicans, as now organized have a ghost of a show. We do not believe that we, as now organized, have a ghost of a show. That is why I advocate fusion with the Independents. The principles of the conservative Independents are identical with our own and with the conservative Republicans. If we who think alike can get together success is certain. Otherwise the straight independent party, as now organized, will take everything. This is a sad thing to think of, as it affects our national interests, but there is no use to look at the matter through smoked glasses. As Cleveland once said, 'a condition and not a theory' confront the two great parties in Hawaii."

SOME BRYAN MONEY.

Ten thousand dollars in Bryan money is said to have arrived in town this morning on the S. S. China. Local Democrats are telling their friends that they can get all the Bryan money they want now, and more. The man who brought the big pile of Democratic money is reported to be anxious to place it all in even bets, and there are a number of Republicans who would like to see him.

There has been much talk on the streets about election bets, and the alleged arrival on the China, created something of a furor among those who like to back political opinions with money, but no big bets are reported yet.

McGREGOR HOUSE SOLD.

The old McGregor homestead sold at noon for \$70. It is said that the staircase alone cost four times that amount of money, while the fine doors were worth much more. John Oudekirk was the purchaser. He will have to clear everything off in thirty days. The tile in the various walks around the house were bought by James Steiner for \$10. They were worth probably \$200. The McIntyre residence on King street sold to Joe Cabral for \$45. A singular thing was that a small servants cottage back of the big house brought \$62.50. It was bought by Ludovicko.

Will E. Fisher was the auctioneer. Aside from newspaper men there were not a dozen people present and only two or three buyers.

ATTRACTIVE CONTRACTS.

During the past few years the President Savings has put out a few very attractive contracts that are being purchased in greater quantities each year by those who are seeking insurance in a strong up-to-date company. This is the best indication of the quality of the goods the President has to sell. I. R. Burns, resident manager, office in new Magoon building.

Winslow, F. B. Talbot, Miss E. Wehner, Mr. and Mrs. W. Wilson.

BARK PFLUGER SOLD.

SAN FRANCISCO, September 6.—Deputy United States Marshal A. L. Farish yesterday sold the German bark J. C. Pfluger to satisfy judgements against her for salvage and repair work. Though she has been appraised at three different times by three different insurance boards of appraisers at \$5,000, she was sold to the John Rosenfeld's Sons Company for \$15,250. The bidding was very lively and the coal men were compelled to pay the high figure to get the bark. Though some work has been done on her since she was damaged at sea, \$10,000 is still to be expended upon her in converting the vessel into a barkentine, to be used in the sugar trade.

THE IRWIN SAFE.

SAN FRANCISCO, September 6.—In spite of storm and fire, the big W. G. Irwin is again safe in port, fifty-three days from Nome, sixteen days from Seattle and seven days from Roche Harbor. A few days before sailing from the latter port for San Francisco the Irwin had a narrow escape from being burned in time. Several hundred barrels of the material in her hold began to burn, and a large quantity of coal under deck also was threatened, but the fire was finally extinguished after days of hard work. The Irwin brings, besides lime and coal, a consignment of gold-bearing sand from Nome.

THE ALDEN BESSE.

SAN FRANCISCO, September 6.—The bark Alden Besse, twenty-four days from Honolulu, reached port yesterday afternoon with a cargo of sugar and a few passengers.

ON THE OVERDUE LIST.

SAN FRANCISCO, September 6.—The ship Wachusett, owned in this city has been placed on the overdue list at the Merchants' Exchange. The vessel is out 116 days from Newcastle, N. S. W., for Kahului with coal, and 35 per cent reinsurance is quoted upon her. The Wachusett is an old vessel, but has heretofore had a successful career.

BOERS RELEASE BRITISH.

Leyds Gets Little Satisfaction From the Czar.

LOURENÇO MARQUEZ, August 30.—The British prisoners at Moot Ged-bacht (on the railroad east of Mafeking) have been released by the Boers and are marching to join Lord Roberts' forces at Watervalhooven, near Mafeking.

President Kruger and his chief officials met Helprut, about sixty miles from the Portuguese border, and on the railroad between Pretoria and Delagoa bay.

LONDON, August 29.—Dr. Leyds' interview with Emperor Nicholas, says a dispatch to the Daily Mail from St. Petersburg, lasted barely five minutes. The Czar said he was sorry he could do nothing for the Transvaal except to urge it to make peace, as he hated all war.

BERLIN, August 29.—The delegation of Germans, who recently arrived here from the Transvaal to lodge a complaint with the German Foreign Office regarding the treatment of Germans there by the British, has already been received by the Foreign Office. After investigating the grounds of the complaint the Foreign Office will bring the matter to the attention of Great Britain.

BOSTON LYRICS.

The Boston Lyric Opera Company is now playing at Seattle. The Dailley Company, starring Virginia Cranna, who was here a short time ago, is also in the Sound city.

DAVID CENTER.

David Center formerly manager of the American Sugar company returned on the Mariposa. It is reported that he comes here to accept the position of assistant manager of Hawaiian Commercial.

A GOOD THING.

There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They stop to drink of "Raid" beer. On draught or in bottle at Criterion. Fine Job Printing, Star Office.

Alsen
Portland
Cement

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand or gravel, with less loss of strength, than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the seawall around Governor's Island, New York Harbor, has never been equaled by any other cement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds.

For sidewalks it gives the best color and the most durable wearing surface. A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. bridges, 20,000 barrels.

MORE TROOPS FOR CHINA

ENGLAND'S FOURTH INDIAN BRIGADE.

German Troops at Shanghai will be Quartered adjoining Li Hung Chang's Residence.

LONDON, September 6.—A. m.—Sir Alfred Gaselee's dispatch, which shows that the situation in Peking was unchanged on August 29th, is the only Chinese news this morning. The cancellation of the order holding back the Fourth Indian Brigade is regarded as important. It shows that whatever the outcome of the Russian policy the British Government is determined to have sufficient troops on the spot adequately to protect British interests.

Considerable significance is attached to the statement by the Journal de St. Petersburg as possibly meaning a modification of Russian policy. This paper is the organ of the Russian Foreign Office, its editor being a councillor of state. It is noted that, while the Journal de St. Petersburg announces Russian determination to maintain the solidarity of the powers, it only mentions the withdrawal of the Ministers and not the troops at Tien Tsin. It is believed that the powers might agree to such a modification of the original Russian proposal.

The Vienna correspondent of the Times, discussing the situation, declares that Japan has a strong disposition to act in harmony with the United States in the Chinese question. A Shanghai dispatch announces that German troops will land there today (Thursday). Curiously enough they will be located in barracks adjoining the residence of Li Hung Chang.

United States Consul Goodnow, according to the Daily News, says there never was any necessity for landing troops at Shanghai. The Daily Graphic's Moscow correspondent says: "The Moscow War Office has made immense purchases of furs, to be sent to the army clothing department, which is hurriedly preparing winter kits, showing that an extensive winter campaign is expected."

SIMLA, September 5.—The Fourth Brigade has been ordered to proceed to China forthwith.

LONDON, September 5.—According to a Hong Kong dispatch dated yesterday, Canton is more disturbed. Native shops dealing in foreign goods have been looted, and sinister rumors prevail.

ROCKHILL DENIES.
Says He Knows Nothing of the United States Policy.

NEW YORK, September 5.—A cable to the Sun from Shanghai says: Mr. Rockhill, Special Commissioner of the United States to China, denies statements concerning the Chinese situation attributed to him in an alleged interview printed recently in America. Rockhill, speaking to a correspondent of the Sun, stated that it would be impossible for him to define the policy of the United States because he himself is ignorant of it. Rockhill leaves here on his way to the north tonight.

OSCAR SEWALL MARRIED.
His Bride is Miss Josefa N. Crosby of San Rafael.

SAN RAFAEL, September 5.—Miss Josefa N. Crosby and Oscar T. Sewall were married this afternoon at the home of the bride's parents in this city. The groom is well known in business circles throughout the United States. At present he is New York manager for the firm of Williams, Dimond & Co. of San Francisco and New York. Miss Crosby is pretty and popular. She is the daughter of Rev. Arthur Crosby, dean of the Mount Tamalpais Military Academy. Just previous to the marriage Mr. Sewall received the sad information that his uncle, Arthur Sewall of Maine had died. The young couple will spend their honeymoon in New York.

SUGAR.
NEW YORK, September 5.—Raw, strong; fair refining, 4 1/4 c.; centrifugal, 96 test, 4 5/16 c.; Molasses sugar, 4 c.; refined, firm.

THE TELEPHONE.

The telephone system came in for a deserved scoring by Mr. Swanzy yesterday during a meeting of the Chamber of Commerce. It was high time that some of the merchants should take the question into consideration for if ever a service has deteriorated the telephone system of Oahu and Honolulu has done so. It is often more expeditious to send by messenger or by hack than to wait till something intelligible can be obtained over the wires.

When a connection is made with one instrument, it is almost impossible to make a connection with another under a quarter of an hour or so. You cannot get any redress through the instrument, because the arrangements are such that your call can be systematically ignored. The telephone is for the benefit of the subscribers, and every care and courtesy should be shown to them. This cannot be said to be the case here. There is very little care and the courtesy is of the scantest.

Not only is the working of the instruments unsatisfactory and the connections made by the operators careless in the extreme, but we have retrograded in the matter of private wires. Formerly each instrument had its private wire, now there is one wire to two instruments in many cases, which is an immense nuisance and detracts seriously from the usefulness of the instrument as a means of confidential conversation.

Lastly any company ought to be ashamed of the manner in which the alphabetical list of subscribers has been got up. It is full of interlineations, many of which are so badly written that they are illegible. If the list had been prepared without any proof reading it could not be more jumbled or worse. Mr. Swanzy's remarks on the telephone will be endorsed almost unanimously.

A KNOTTY POINT.

The move of Russia to evacuate Peking was evidently in her own interests, but what its object could be was not clear on the surface. Now the true inwardness comes out. Russia is willing and anxious to retire from the Chinese capital because she will get three provinces in Manchuria as her price, and the undivided possession of that Territory will be much more satisfactory than the divided occupation of Peking, with no particular gain in sight.

Russia knows what she wants and she obtains it gradually. Peking will eventually fall to Russia, but this is not the time for such a move, when Russia occupies Peking it will not be with any allies, it will be with her own individual troops, and the northern province of China will be added to the empire, just as three provinces of Manchuria are now added.

Any one who will take a map of fifty or sixty years ago and compare it with a map of Asia of today will be astonished at the gradual and steady advance of Asiatic Russia southward. All the small Khanates south of the Sea of Aral have fallen into Russian hands till she has pushed her way almost to the frontier of India. It is only the buffer state of Afghanistan which prevents the outposts of the Cossack from challenging the outposts of Sikhs and Ghorokas.

The Amoor river has long been a Russian waterway. Saghalien Island is more than half Russian and will in time become entirely Russian, and now at a bound Russia sweeps up to the very frontier of China proper, threatening Corea, which will be probably her next objective, and which is bound to bring about a collision with Japan. The latter empire aims to get a footing on the mainland while the Russian is determined the little brown men shall be confined to their islands.

Whatever settlement may take place now is bound to leave any amount of reasons for future disagreement and complications. In fact no permanent settlement of the Chinese question can be made at the present time. And it is not only China itself which presents insoluble problems, but it is the ambition of the other powers which stand in the way.

That some striking object lesson should be taught the Chinese is evident. The same system of lying is going on now as occurred during the French war in Annam, during the allied attack upon the Summer palace and in every punitive expedition undertaken against the Chinese. The empire is being flooded with pictures and accounts of Chinese victories, and the destruction of the allied forces, together with funny sketches of the foreign troops kowtowing to the Emperor. The people believe these settlements.

It is not only in China that these stories are swallowed greedily. They are believed by some of the Chinese here. There are some Chinese in these islands who are firmly convinced that Peking has not been taken, and that the stories of the capture are utterly

untrue. To these men the power of the Emperor remains unbroken, the Forbidden City remains sacred and defended by supernatural means.

How are you going to teach such people a lesson. They may be defeated, they claim a victory. They may be forced to pay an indemnity, they immediately explain it as an act of grace on the part of the Emperor towards the barbarian, who would otherwise perish on their way to their distant and miserable homes. The diplomats and the military authorities have certainly no easy problem to solve. And yet it is a most important problem, because upon its solution will depend the future peaceful and satisfactory intercourse with the Chinese. Perhaps the Japanese can supply the solution better than any other race. They have done the cream of the fighting.

A GRAVE ERROR.

The prospects for the Republican party in Honolulu are not so brilliant as they should be. There seems to be an almost hopeless split in the Fourth district, with the result that it will be practically impossible to get a strict party vote upon any ticket that the present clique will bring forward, and that there will be a regular bolt at the polls. And while the republicans are quarrelling among themselves, the democrats are able to get in their own work.

Of course this effort was made with the object of showing that H. M. Sewall had much political power here; and thus giving him a "pull" in Washington. But it will not prove much of a "pull" if the action taken alienates a large section of Republican voters who will either refuse to go to the polls or else scratch the ticket unmercifully, and thus lose the election to the party.

Had the original plan been carried out harmony might have been maintained, but the plan was thrown aside and an entirely new one adopted. Some of the most prominent and most influential republicans were ruthlessly turned down, and now are probably lost to the party. To gain a petty triumph, the machine men have sacrificed the true interests of the political organization to which they profess to belong, and instead of going to the polls with united strength the party will go pretty well broken up. One can hardly commend this style of politics.

With the elements of the Democracy and the Independent party looming up prominently in the Territory the only chance that the Republican party had for victory was unity, and unity could have been easily obtained, if the machine men had only shown less greed of power. When the lesson has been learned at the coming election, perhaps there will be some regret that a very grave political mistake has been committed, and powerful supporters have been alienated.

The Fourth District and the Fifth are likely to clash and there will be a lively political fight when the territorial convention meets.

Attorney-General Doie interprets the law liberally with regard to Sunday trading. The next Legislature will undoubtedly tackle the Sunday law and bring the Territory into line with the more advanced places on the mainland.

On January 1, 1901, Spain will adopt the computation of hours from 1 to 24, and the use of the words morning, afternoon and night with regard to hours is abolished. The clocks of Venice have struck 24 at midnight for many years.

The local Bow Wongs are happy in finding that their relatives who were arrested here have been well treated. Many of them feared that those near and dear to them would have suffered torture and even lost their lives. However a change seems to have come over the authorities especially in the south where most of our Chinese come from.

The copyright in speeches has just been settled by a decision of the House of Lords, as far as England is concerned. If a man wishes to copyright his speeches he must do so before he publishes them by public delivery. A newspaper publishing a report of the speech can copyright that report and forbid its use by other publication. The question has not come up in the United States yet, but this decision of the House of Lords may call attention to it.

Wireless telegraphy has not proved the immediate success that was hoped for. Our experience here makes one understand why it was not taken up more readily in the United States and Europe. Apparently it cannot be depended upon. Sometimes it acts and sometimes it fails. However the Territory may yet have the honor of establishing the system on a practical working basis. If success at last crowns the experiments the system will spread rapidly. The trouble is that at present the experimental stage has not been passed. But it will be shortly.

We have been complaining of the heat here, but it is nothing to what has been experienced on the mainland and in Europe. Our highest has been 88 in the shade. In London recently 95 degrees have been registered in the shade and 133 degrees in the sun. There were 25 deaths from sunstroke and 60 cases of heat prostration. In New York the same story is told. Taking a sample August day, at midnight it was 82 degrees, at midday 95, from 2 p. m. till 4 p. m. it was 95, at 7 p. m. it was 90, at 9 p. m. it was 86. There were 15 deaths from heat and sunstroke and 50 cases of prostration. We ought to congratulate ourselves upon our climate, which is far better and milder than this frightful heat of the temperate zone.

Bartlett Spring Mineral Water

Bottled at the Bartlett Springs, Lake County, California.

A fresh supply of this justly celebrated water has been received.

Pleasant

To the Taste, and an invaluable remedy in stomach and Kidney

Troubles

It is endorsed by the Medical Profession and thousands of visitors to the Springs.

DOESN'T WANT SHOPPING

A CHINESE OBJECTS TO AN AMERICAN CUSTOM.

Judge Wilcox Renders an Entirely New Kind of Decision—Was Malikiwiski Given a Reprimand?

O. Ingram, a Chinese who runs a store on King street, has pronounced objections to the American system of "shopping." Ingram says that Hawaiian women are getting into the habit of dropping in on him when they haven't any money, and waiting away a few hours looking at samples. As a result of his objection to this system he was a defendant in the police court this morning, on a charge of profanity.

Lucy, a Hawaiian woman, testified that she had gone into the store to buy a hat, and Ingram had told her she had no money and had better get out. She insisted that she had plenty of cash and wanted to be waited on, but Ingram said he had no time to bring out samples only to be looked at.

The row ended with the women going to see a policeman, who took the police man in on a charge of profanity. His language as related before Judge Wilcox, did not appear to bear out the charge, and he was dismissed. Today was a very good day for dismissals and nolle proseques.

The next lucky defendant was Tom Powers, who was up for assault and battery. After investigating the prosecution moved for a nolle prosequi. Mr. Kaulia appeared for the defendant but had not time to do anything. Kaulia has struck a streak of hard luck lately in the police court. Yesterday he appeared for a Chinese and entered a plea of not guilty. Then the Chinese plead guilty through the interpreter.

Malikiwiski, a Pole, went free because no interpreter could be found. He was up for drunkenness. The Pole forfeited \$6 a few days ago. This morning all the English he knew was "six dollars," which he appeared to think was due him.

A hunt was made for an interpreter without success, and Judge Wilcox decided to let Malikiwiski go.

"If you are guilty the court reprimands you," said the judge, "and if you are not guilty the court doesn't," and no one will ever know whether Malikiwiski was reprimanded or not.

Mrs. Herbst and Mrs. Rahe, the former charging the latter with assault and battery, brought a petty quarrel into court. Kinney appeared for Mrs. Rahe, who went a few days ago to Mrs. Herbst's place to get some effects of her late husband, which had been left there, and became involved in a warm row. The case was dismissed.

Elv Loy, accused of violating a Board of Health ordinance, got a nolle prosequi, at the instance of the board, having made desired alterations in the premises. Then the decks were cleared for action in the Spencer murder case, and at 10:30 the court and the police, lawyers and interpreter sat down to a long wrangle with the Japanese witnesses.

NEILL'S MOTHER DEAD.

The Son Received the Message in Los Angeles.

Mrs. Isabelle Neill, mother of James Neill, the actor, died in Savannah, Georgia, September 1. A telegram announcing her death was received by James Neill just as the curtain was about to rise at the Burbank Theater, Los Angeles, where the Neill Company is playing a very successful engagement.

After consultation with other interests, Mr. Neill decided to continue the engagement here, but ordered the cancellation of a week early in February, so that he might attend the funeral with his brother, Edwin H., who is the business manager of the Neill company. In the meantime the body of Mrs. Neill will rest in a vault in Savannah.

Both James and Edwin have always been very devoted sons. When the company left San Francisco for Honolulu last June, they decided that one of them should stay behind with Mrs. Neill, for fear that some accident might happen to the steamship, and, if fatal, there would be no son to look after the mother. Therefore Edwin visited Savannah, while James went on as the bright star of the famous Neill company, and gained new laurels for the dramatic organization that bears his name. Edwin returned to the company just before it reached Los Angeles.

Mrs. Neill was 69 years of age. She was married in Savannah fifty-three years ago. She was born in St. Marys, Ga. Her husband, John Neill, died four years ago in Savannah. He had been a distinguished officer in the Confederate army.

MASSACRES DUE TO FORGERY.
 Bogus Ultimatum Said to Have Influenced the Emperor.

NEW YORK, September 5.—A cable to the Sun from London says that a Shanghai dispatch to Daiziel's news agency explains that the Boxer massacres were due to a forged ultimatum purporting to come from the Ministers of the powers, and presented to the Emperor by Prince Tuan. The ultimatum demanded the absolute retirement of the Emperor, the reinstatement of Emperor Kwang Hsu, the placing of Chinese finances under European control, the removal of the seat of government from Peking, and the appointment of foreigners to direct the affairs of state. Upon receipt of the ultimatum the Emperor, convinced that the powers entertained hostile designs, ordered a general massacre of foreigners. She now believes the ultimatum to have been a forgery. Prince Tuan insists that it came through the regular channels.

CAPABLE OF ANYTHING.
 After that capture of six British guns near Bloemfontein, we needn't be bit surprised if we hear of the Boers kidnapping Rudyard Kipling or the Duke of Marlborough.—Syracuse Herald.

NO CATCHING AT STRAWS.

Drowning men, they say, will catch at straws. Naturally enough, because they see nothing better to catch at. It is the principle of any port in a storm. All the same the straw does not save the drowning man, nor is the tempest-tossed mariner likely to find a safe harbor every time he runs for the shore. The scientifically constructed life preserver is better than a straw, and to know how to ride out a storm is better than to trust to luck in finding a port in time of need. Just so it is in disease and all manner of sickness. When your life is threatened by disease you naturally desire a mode of treatment founded on absolute knowledge—a treatment that has proved effective in other cases like your own. This is the common-sense of the subject and no one will dispute it. And it is because the well-known effective remedy

WAMPOLE'S PREPARATION

never fails in the complaints for which it is recommended, that it enjoys the confidence of the people and the medical profession everywhere. The doctor who prescribes and the patient who takes it are not catching at straws. For it does what it is said to do on the same principle that water puts out a fire. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Malt and Wild Cherry. It quickly arrests the loss of flesh in wasting diseases, builds up the body, and expels from the blood those pernicious germs which cause Fevers, La Grippe, Scrofula, Bowel Complaints, Throat and Lung Troubles, etc. One bottle convinces. Effective from the first dose. "You cannot be disappointed in it." Sold by chemists everywhere.

DULL DAYS ON THE FRONT

THE HARBOR RAPIDLY BEING EMPTIED.

Fewer Vessels in Than at any Time in Many Months—Great Contrast to Last Fall.

Honolulu harbor has not been so nearly empty as it is now for over a year. For several weeks past the big ships have been going out and there have been few arrivals. Now naval row is nearly bare, except for the big bark Dunreggan, which is making high out of the water at the Waikiki end of the row, with pumps going most of the time.

The few big vessels left in the harbor are most of them getting ready to leave. The Philadelphia, St. Katherine, Kilmorey, J. E. Brown and Standard are all preparing to set sail for coast ports. The bark Andrew Welch is nearly filled with sugar, and will be listed as a departure very soon. This will leave only about half a dozen vessels in the harbor, in addition to the lumber schooners, and there are not many of these.

Last year at this time all the wharves were crowded and there were many ships in naval row. A tremendous rush of coal and durable merchandise before application of American laws was partly responsible for this state of affairs. Another reason for reduction now is an increase in the shipping at other island ports.

The number of vessels on the way shows that there is plenty of business in prospect. Newcastle leads all other ports in the number coming here, as usual. There are 48 coal-laden vessels en route to Hawaii from Newcastle. Five big vessels are coming round the Horn, the ship Henry Failing being due from New York. From Tacoma there are eight coming, from San Francisco six and from the lumber ports about fifteen.

The island business has entered the dull season at the same time as the "foreign," the sugar-grinding being over in many places, and the steamers get no cargoes on half the trips.

PUBLIC CONCERT.

The band will present the following numbers at the Hawaiian hotel this evening:

PART I.

Overture—"Poet and Peasant," by request Suppe
 Intermezzo—"Russian" Franke
 "Reminiscences of Verdi" Godfrey Song—
 (a) "Like Lehua," "Pua Pikahe"
 Miss J. Kellian.

Tired Feelings

Due to Climate.

The weather is often very trying.
The blood becomes filled with impuri-
ties and the nervous system is greatly
weakened. One awakens in the morn-
ing just as tired as at night.
Mr. John Dryden of Coolgardie, W.A.,
sends with his portrait the following:

"I go about the country a great deal and
have to encounter very trying weather. When
my system is run down by the peculiar
climate of our I always take

AYER'S Sarsaparilla

It takes away my tired and depressed feelings
at once and builds up my system in every way.
As a blood purifier and nerve tonic I believe it
to be the best medicine in the world."

To get the best results from Ayer's
Sarsaparilla you should take Ayer's
Pills also. They cure constipation,
biliousness, sick headache, and dys-
pepsia.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

HIS BREACH OF PROMISE

IT COSTS FRED WUNDENBERG
NEARLY \$50,000.

Compromise Effected and the Deeds to
the Property Recorded—A Story of
Plighted Troth.

OAKLAND, September 5.—Mrs. Julia
A. Calhoun has won every point in her
suit against Frederick A. Wundenberg
for breach of promise, and the deeds to
the property in dispute have been
placed upon record in this county. The
millionaire Hawaiian sugar planter has
compromised the suit brought by the
lady and a settlement in full has been
made. The lady receives the property
at 941 Filbert street, the house and fur-
niture and substantial cash payment
which, while not the full amount of \$50,-
000 sued for, very nearly approaches
that sum.

The suit was brought on March 1, 1900
and has been pending ever since. Just
as the suit was brought Wundenberg
left California for the Hawaiian Islands
and this caused delay. The case is still
pending upon some demurrers filed
by Wundenberg to the service of the
summons by publication, but the
dismissal is ready to be filed, and the
deeds in the compromise are already of
record.

Frederick A. Wundenberg is a very
wealthy Hawaiian sugar planter. The
plaintiff is Mrs. Julia A. Calhoun, the
widow of the late Dr. J. G. Calhoun of
Willows. Mrs. Calhoun is a handsome
woman and is possessed of a consider-
able estate left by her husband, so that
she was independent when she met
Wundenberg.

The sugar planter and the widow first
met several years ago, and the Hawai-
ian became much interested. He repeat-
edly proposed, but he was refused as
often as he offered his hand, his heart
and his sugar stocks. At last the Hawai-
ian became very insistent. He went to
the Hawaiian Islands, where his sisters
live, and sent for Mrs. Calhoun to visit
them. Mrs. Calhoun finally decided
that she would make the trip. She
went to Honolulu and stayed at the
Royal Hawaiian Hotel for a month,
during which time she visited the fam-
ily of Wundenberg, and was received
into the best society in the islands. It
was during this trip that Wundenberg
proposed that they get married in Hon-
olulu. To this Mrs. Calhoun demurred
upon the ground that his family might
think that she had followed him to Ho-
nolulu in order to marry him. Wun-
denberg pleaded that he was compelled
to go to Australia, and that he wanted
the ceremony performed before he went,
but Mrs. Calhoun replied that she would
consider the matter upon her and his
return to San Francisco. So he went
to Australia and she came back to San
Francisco.

Wundenberg later proposed that they
marry and settle down in Oakland. He
agreed to settle upon her a house and
lot, \$25,000 in sugar stock and other prop-
erty. She selected the house and lot,
which was purchased for \$15,000 and
furnished. Wundenberg ordered his
agent to put the property in her name,
but it was put in his name, though she
went to live there. Wundenberg was
at this time in the Hawaiian Islands.

Then Mrs. Calhoun noticed that there
came a change in his letters, and at
last they stopped altogether. Then the
agents and attorneys began trying to
dispossess her, and the suit for the prop-
erty and the breach of promise action
resulted.

Then Wundenberg began negotiations
for a compromise with the result noted.
Mrs. Calhoun believes that it was Mr.
Wundenberg's family that caused the
breach between them.

CHINESE WITHDRAW.

ST. PETERSBURG, September 5.—
The War Office has received a dispatch
announcing that the Chinese troops
have withdrawn from the vicinity of
Newchwang to Liao Yao Chow, where
they are intrenching.

OVEREATING AND CANCER.

The theory is advanced by Sir Wil-
liam Banks, in a recent series of lec-
tures delivered before the British Medi-
cal Society, that overeating, or even
a "high standard of general nutrition,"
may predispose to cancer, which he be-
lieves to be eminently a disease of the
healthy and robust. Thus abundance
of food, which is a result of national
prosperity, and on the whole a power-
ful factor in the improvement of pub-
lic health, is not without its draw-
backs. "More than one hygienic prop-
het," says The British Medical Jour-
nal, in a note on the subject, "has late-
ly uplifted his voice in warning as to
the evils of overfeeding," and Sir Wil-
liam adds one more reason for deplo-
ring and doing away with it. Says the
writer of the note just quoted:

"The theory is not altogether new,
but it undoubtedly acquires new
strength from the adherence of a sur-
geon of his experience and sagacity.
He points out that the increase of cancer
coincides with an increase of food
throughout the country (Great Brit-
ain.) Ever since the passing of the
Corn Laws, he says, bread has been
cheap and plentiful, while during the
last twenty years the importation of
animal food from other countries has
been enormous. The increased wages
and emoluments of all classes in this
country have enabled them to purchase
freely of the best there is to be had in
the whole world of things to eat and
drink. Our working classes fare ad-
mirably. Our better classes eat in-
finitely too much, especially of animal
food taken out of breakfast, lunch,
and dinner. But for the athletic ten-
dency of the age and the general pas-
sion for games and exercises which
pervades all classes, this over-stuffing
must have proved very dangerous. Sir
William Banks is pretty well convin-
ced that, when man is over forty-
five, excess in food is perhaps worse
for him than excess in drink, and be-
lieves one of the results of too much
nourishing food is the production of a
widely spread, second-rate kind of
gout, of a different type from the acute
and furious attacks produced in for-
mer days by the excess drinking of
beer and port wine. Sir William Banks
is distinctly of opinion that it has also
to do with the increase of the consti-
tutional tendency to cancer. The the-
ory is supported by the fact that the
increase of cancer in males has been
more rapid than in females. And it is
precisely the male population that eats
heavy food in ever-increasing quan-
tities, whereas the female remains much
as she was before in this respect."

MUSHROOM PARTIES THE THING.
Mushroom parties are the latest div-
ersion of Terre Haute society. H. I.
Miller, superintendent of the main line
of the Vandavia, who introduced golf
and antique furniture to Terre Haute,
is the leader in the mushroom move-
ment, and on Friday he took a party of
society people in a special car to Clay
county to hunt mushrooms. It is said
that Mr. Miller has the best library on
the mushroom in the state.—Indiana-
polis News.

ing under the orders of Li Hung Chang
are exterminating the Boxers in the
province of Hunan and Chi-li.
Four prominent Boxers were executed
in Tien Tsin today. The French shot
two and the Japanese beheaded the
others. The executions have had a good
general effect.

ABOUT QUARANTINE WHARF

NO MISUNDERSTANDING ABOUT OWNERSHIP.

Always Perfect Understanding Between Territory and Navy Department—Purposes of the Wharf.

There is no misunderstanding of any kind whatever between the Territorial and naval authorities in regard to the ownership of channel wharf or the land upon which it stands.

As is well known a part of the wharf is on land belonging to the Navy department. When the wharf was planned it was found that owing to the boundaries there it was impossible to put the wharf in the position desired, and have it as extensive as was necessary, without encroaching upon a strip of Navy land. The matter being urgent, Captain Merry granted permission to the then Minister of Interior to occupy the strip as suggested, subject to the approval of the Washington authorities, and on further condition that the wharf be removed from the Naval strip at any time the land might be required. The entire wharf, and Territorial part of the land as well, may at any time be condemned and taken for army or navy purposes, precisely as can any other public land in the country.

The Interior department constructed the wharf at a cost of something like \$60,000. It was immediately turned over to the Chamber of Commerce for use in the transshipment of goods to the other islands in plague times. It was then that the Chamber spent something over \$12,000 and received back something like \$5,000 in wharf charges. A little over \$5,000 was for permanent improvements to the wharf and the remainder for expenses of the big quarantine force, etc. It is the permanent improvements part of the account that the Government proposes to pay back to the Chamber.

It has always been the understanding between the Territorial government, the navy department and Dr. Carmichael that the channel wharf should be preserved as a quarantine wharf until some other scheme is provided.

It is calculated to use it right along, when the necessity arises, for other purposes, but in the event of the appearance of any epidemic, anything or anybody on the wharf would have to move and the Marine Hospital Service would take general supervision there.

THE BARGE RACES.

The senior six-oared sliding boat race on Saturday morning will be around the bell buoy in place of around "Le spar buoy."

The freshmen race will be around the spar buoy as previously arranged.

There is some complaint on the part of the freshmen that their race has been arranged for 5 p. m. in place of early in the afternoon.

FROM THE COAST.

H. Streubach and family returned by the Mariposa yesterday from a two months' vacation in California. On Friday they will proceed to Wailuku where Mr. Streubach holds the position of chief engineer.

TOMPKINS APPOINTED.

The president has appointed Daniel A. Tompkins of North Carolina a member of the industrial commission, to succeed Ellison A. Smythe, resigned. Mr. Tompkins is largely interested in the cotton industry of the south, and is one of the owners of the Charlotte Observer. The Observer is a Democratic newspaper, but has repudiated Bryanism.

NO MORE FIGUREHEADS.

In these practical days the man who builds a vessel seldom spends much money in useless decoration, and so the crowning glory of the ship of the olden time, the figurehead, is seldom seen on American vessels, except on the larger yachts, says a Bangor (Me.) correspondent of the New York Sun. With the passing figurehead has disappeared almost entirely the once-flourishing industry, or art, of the ship carver. Up to 20 years ago nearly all vessels of any considerable size carried some sort of carving under their bowsprits, and it gave them a sort of finishing touch that is lacking now. Figures of women of voluptuous form were the favorite, and these women were astonishing white gowns, or Grecian robes, with trimmings of the most stunning shades of red, blue and yellow. They had the expression of lofty virtue that is seen on the face of the Goddess of Liberty, and they were much admired by sailors. Eagles, fishes, Indians and figures of Triton and Neptune were also much in vogue, and fierce-looking dragons were prime favorites.

THE BISHOPS LUNCHEON.

During the recent special session of the Protestant Episcopal House of Bishops in New York, the bishops were invited to take luncheon at the Players' Club with Bishop Potter, who is an honorary member. The bishop arranged to have the luncheon served in the grill room. Says the New York Sun: "Just after the bishops had seated themselves at the tables, two members of the club who hadn't heard about their visit came in for luncheon and made for the grill room. They were stopped by one of the club servants, who told them that the members would be served with their luncheon upstairs. 'What's the matter with the grill room?' asked one of the men. 'The House of Bishops is luncheon there today,' was the answer. 'Who?' inquired the club member. 'The House of Bishops,' was the answer. 'Bishop Potter and all the other bishops in the United States.' 'Great Scott!' exclaimed the club member. 'I suppose that, dating from today, the stage will be considered to have been properly elevated.'

A WONDERFUL CURE OF DIARRHOEA.

A Prominent Virginia Editor Had Almost Given Up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL.

(From the Times, Hillsdale, Va.) I suffered with diarrhoea for a long time and I thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and live the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

BEAUTIFUL SKIN

Soft White Hands

Luxuriant Hair

Produced by

CUTICURA SOAP.

MILLIONS OF WOMEN USE CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines, in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

Complete External and Internal Treatment for Every Humour.

Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the severest humours, with loss of hair, when all else fails. Sold throughout the world. "All about the Skin, Scalp, and Hair," post free, of Aust. Depot, R. TOWNS & Co., Sydney, N.S.W. So. African Depot: LEXSON LTD., Cape Town. POTTER DRUG AND CHEM. CORP., Sole Props., Boston, U. S. A.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

A concert will be given by the band at the Hawaiian hotel this evening beginning at 7:30 o'clock.

William Lewis, lately a clerk at H. J. Nolte's was married last evening to Miss Eliza Houghtaling.

Prizes for the yacht races on Saturday have been largely increased. See program for particulars.

George Roenitz of H. Hackfeld & Co. returned by the China this morning from a two months vacation.

Flourery was the cause of the death of the native woman upon whose body an autopsy was held yesterday afternoon.

Notice of the 2d 3d and 4th assessment on the assessable stock of the Hawaiian Electric Co., Ltd., appears in this issue.

The commission appointed to investigate the subject has decided to extend Kakaulike street from Hotel to Bere-tania.

All parties having horses in Punahou pasture will please call and take them out at once, as the fences are to be removed.

All carpenters are requested to meet at Painter's Hall on King street on Friday evening September 14th at 7:30 o'clock.

Tomorrow at 10 a. m. Jas. F. Morgan will sell at auction an assortment of household effects at his Queen street salesroom.

E. O. Hall & Son have a few Chatless Columbia bicycles, which they offer fitted with any tire, gear or saddle at the low price of \$20.00.

Mrs. J. W. Yandley, accompanied by her mother and brother, arrived yesterday on the R. P. Rithet and will take up her residence in Emma street.

An experienced typewriter adjuster arrived by the China this morning. Send for him at H. Hackfeld & Co., Ltd. and he will make your old typewriter turn out work like new.

Tomorrow will be the last day of the Board of Registration in town until after its return from the island settlements. There will not be a sitting of the Board on Saturday.

The yachting committee this morning anchored the stake boats to be used in Saturday's races. The first is off Castle's place at Waikiki and the second off the mouth of Pearl harbor.

The Pacific Hardware Company is today moving from the Castle & Cooke store house at King and Bethel streets to the main store on Fort street. Castle & Cooke will fit up their building for offices.
