THE HAWAIIAN STAR.

The Hawaiian Star is the paper that goes into the homes of Honolulu—the circulation shows that.

VOL. IV.

HONOLULU, HAWAIIAN ISLANDS, THURSDAY EVENING, APRIL 22, 1897.

No. 1254

THE PROPOSED CEMETERY

"GOD'S ACRE" TO BE PLACED AT AIEA.

The Oahu Railway Company Make a Proposition to the Board of Health—Details of the Plan.

General Manager B. F. Dillingham, of the Oahu Railway & Land Company, has submitted to Dr. F. R. Day, representing the health department, a proposition for funeral transportation by rail to Aiea, where the proposed new city cemetery is to be located. Mr. Dillingham's letter was read in open session by President Smith at the Board of Health meeting yesterday afternoon. Action was reserved on the proposition until later.

The General Manager's proposal, which is subject to the approval of the Board of Directors of the railway, first asks for an agreement to be entered into by the cemetery association, Board of Health, or whoever receives authority from this Government to control the cemetery at Aiea, by which the Oahu railroad will be assured of the transportation business for a long term of years. This, Manager Dillingham explains is to warrant the large outlay of capital necessary to meet the requirement of the contemplated undertaking.

In commenting upon this, President Smith argued that this proposition on the part of the railroad might work both ways. It seemed unfair that one road should have a monopoly on the business, while on the other hand it would not be a solid business proposition to the railway company unless they did secure this guarantee.

By the terms of the agreement, the Oahu railway company are to construct a double-ended switch at Aiea, and add a branch track extending the same onto the cemetery lot, so that all special funeral trains or cars may reach the grounds, and thus require as a rule, no further expense for hearse or carriages.

Manager Dillingham expresses an opinion in his communication that a separate station at the Honolulu terminus would be most acceptable to the public. He also suggested that the railway company erect at the funeral station a small chapel, and a morgue, in order to meet the necessities of those who have little or no means to pay funeral expenses. It is also suggested that in the event of death of strangers in the city of limited means, living in small rooms or boarding houses the bodies could at once be removed to the morgue and prepared for burial with the least possible expense. The same condition would apply to the poor people living in Honolulu. A non-sectarian chapel would afford a convenient place for funeral service for persons of every creed and sect free of any expense to the friends or relatives of the deceased.

In speaking of the charge for the transportation from the "Funeral station" to the Aiea siding, Manager Dillingham fixed the minimum charge of a body at one dollar. The fare for the round trip will be, first class, 70 cents; second class, 45 cents. A body and one person to attend would cost \$1.70 first class; \$1.45 second class. A combination car would probably be supplied with compartment for hearse, seating thirty people, for a cost of \$10. The cemetery association would be expected to send a hearse to the Aiea siding and receive and take charge of the body from that point. A parlor car and hearse combined, constructed expressly for the purpose, with seating capacity for forty persons, would cost \$20. A special train could be furnished for \$35, with an extra charge of \$10 for each car. Three hundred persons could be conveyed to and from the cemetery at this rate for \$105.

A sketch of the proposed chapel and morgue accompanied Mr. Dillingham's letter. The site selected is just makai of the present station, facing on the prison road. Mr. Dillingham added that "it was possible to make a very attractive spot there by planting grass, flowers and a high hedge to shut off the surroundings."

The members of the Health department have been invited to call upon Mr. Dillingham at the station and secure further details from Mr. Dillingham.

VALUES NOT TO BE BEATEN. There are no better values to be found on the islands than at L. B. Kerr's. For bedspreads and curtains we lead the way. Likewise for hosiery, gloves and ribbons. These are positive facts. What are you going to do about it?

JAPAN TALKING OF WAR

BATTLE SHIPS TO BE DISPATCHED TO HAWAII.

A Grievance Against the United States—Emigration from Kobe to the Islands Has Been Stopped.

According to advices by the Doric this morning, the Japanese Government is aroused over the refusal of the Hawaiian Government to permit the Shinshu Maru immigrants to land here, and has ordered war ships to Honolulu to enforce what the Japanese immigrants choose to consider their rights. The Foreign Office instructed the Hiogo Kencho at Kobe, on the 9th inst, to stop the departing of any immigrants for these islands at once.

Grave complications have arisen, according to the Japanese official newspapers, over the action of the United States Government in sending the Philadelphia here. The Japanese official organs claim that the cruiser has been sent as a menace to the Japanese Government and is significant in that it fortells the annexation of the islands to the United States.

The Kokumin is of opinion that this refusal of the Hawaiian authorities to let Japanese emigrants land is merely the first steps towards affiliation or amalgamation with the United States. It says further that the Japanese Government is opposed to the union and that it has been definitely decided to send warships to Hawaii, and that the Minister for the Navy will select vessels for the service from those in the standing squadron in the near future.

The Yohiuri remarks that the Shinshu Maru, should be sent back again under the escort of Japanese warships and the landing of the emigrants demanded. Should the demand be refused, Mr. Shimamura, Japanese Minister, should be instructed to open strong negotiations. It also suggests that the Japanese Government demand compensation from Hawaii.

For years past, says the Kokumin, Hawaii has been desirous of entering the North American union, and since Mr. McKinley was elected President she has redoubled her efforts to achieve her desire. Mr. Hoshi, Japanese Minister at Washington, was sagacious enough to telegraph to the authorities at Tokyo in the latter part of March last calling attention to the subject. Simultaneously with the refusal of the Hawaiian Government to permit the landing of a number of Japanese laborers, the United States despatched men-of-war to Honolulu on the pretext that they were required to protect American citizens in Hawaii, but their true object was to make a kind of demonstration against the objections of the Japanese as to the refusal of landing. The Japanese Government now, apprehending that the matter has taken a serious turn, decides to send men-of-war to the islands. The annexation question not only has an influence over some 37,000 Japanese laborers already in Hawaii, but it also bears upon the future of the Japanese people; consequently this Government should take most decisive steps to prevent the contemplated union.

The Japanese official newspapers are full of war talk such as this. The Chuwo states that a telegram has been received by the Japanese authorities to the effect that England has sent an intimation to the U. S. Government that she objects to the intended annexation by the latter of the Hawaii Republic. The Sekai-no-Nihon says that a series of telegraphic communications are at present passing between the U. S. Legation in Tokyo and the U. S. Government, and is of opinion that they relate to the refusal of the Hawaiian Government to permit Japanese emigrants to land.

The Japan Daily Advertiser, a conservative Government organ, printed in English, says in this connection:

"If the authorities at Honolulu have without notice introduced regulations of a more stringent character than formerly, designed to exclude or largely restrict the entry of Japanese, that is a subject upon which representations may quite reasonably be addressed to the Government of the Republic. But if it should appear that by mistake or by rogery a large proportion of the Shinshu Maru's cargo of laborers were not qualified to enter the islands under such regulations as had governed the admission of previous batches of immigrants it is difficult to see what action Japan can take."

"Further the question of the annexation of the Hawaiian Islands is not a question that the Government of the United States is likely to put forward

for international discussion. It is far from probable that the British Government has intimated any objection of the kind mentioned by the Chuwo; and it is just as improbable that Japan will persist in attempting to overawe the Hawaiian republic by a show of force. For though Hawaii is insignificant, behind Hawaii is a greater Republic—and that way lies danger."

By letters received at the Foreign Office from Dr. Eldridge of Yokohama, it is understood that at the last moment the Japanese Government has rescinded the order for warships for Honolulu. The Japanese Government, before proceeding to any further action will await the advices of Minister Resident Shimamura. In the absence of Minister Irwin, Dr. Eldridge was called before the Japanese authorities and stated that the Hawaiian Government acted strictly within its rights.

HOLD MEETINGS.

A dispatch from Kobe, dated April 20th, states that persons there and at Hiroshima who are interested in the export of labor to Hawaii, were holding meetings with the object of determining what stand to take in the matter.

JAPAN NOTES.

The steamer Hakusan Maru, which leaves shortly for San Francisco via Honolulu, is said to be taking some 382 emigrants to Hawaii.

The U. S. cruiser Boston arrived at Hongkong from Amoy on April 1st.

The Japanese war vessel Hiyei is under orders to proceed on a six months' cruise to Vancouver, Seattle, San Francisco, Hawaii and other places with a party of naval cadets, for training purposes.

Kobe, April 9th. The Shinshu Maru arrived last night at midnight, bringing back 448 of the emigrants who were refused a landing.

AN OFFICER INVALIDED.

Commander M. R. S. Mackenzie, of the U. S. gun vessel Machias, has been invalided home on account of diabetes, and is a passenger on the City of Peking. Lieut. D. H. Mahan, who is stated by the Hongkong Telegraph to be the son of the well known officer of that name, has been promoted to the command of the Machias.

U. S. S. OLYMPIA.

A Yokohama paper says the U. S. S. Olympia will probably remain in that port until June next, when she will go to Hakodate. A draft of sixty officers and men are expected by the Peru to relieve those of her crew whose time is expired, and a number of boiler tubes and other stores, which recently arrived here from Mare Island, are now being taken on board.

GERMAN PASTORS.

According to the Congregationalist, during the last six years the theological students in German universities have decreased from 4527 to 2956. The causes seem to be a weakening of faith through extreme liberalism, the overcrowding of the ministry and the very small salary paid to pastors. In Prussia a minister at the beginning receives \$450, and cannot expect at any time to receive more than \$900. It is significant that the only two universities which report increased attendance of theological students are Greifswald and Erlangen, which are among the less famous, but which are most conservative.

DUKE OF SALISBURY.

It is said among London political clubs that Lord Salisbury will probably be raised to a dukedom when the Queen celebrates her diamond jubilee this year.

BEST-FOR WHEELMEN.

Careful wheelmen are never on the road without Reading's Russia Salve. It is the best thing extant for bruises, sprains and cuts. Sold by Hollister Drug Co.

BROWN'S BRILLIANT BADGE

AN ILL NATURED JOKE MAY LEAD TO TROUBLE.

The Executive Session of the Board of Health Has a Leak—Proposal to Put the Officials in Quarantine on Reef.

C. A. Brown, a member of the Board of Health, is mad. He is on the war-path for the man or men who sent him an officer's badge made out of pure glittering tin and an insulting letter.

Mr. Brown believes it to be the work of the Government officials now in quarantine on the Castle premises in Waikiki. They did not approve of his presence on the scene at midnight Tuesday nor the action he took in regard to the matter before the Board of Health at yesterday afternoon's meeting. These are Mr. Brown's arguments in support of his belief and he intends to ascertain just who are concerned in the scheme and who left the grounds to deliver the tin badge.

He has one clue to start on. James G. Spencer, the secretary of the Pacific Club, says that someone drove up to his carriage last evening while he was out Waikiki way and tossed a package into the carriage. Mr. Spencer says that it was addressed to him and upon opening the parcel he found that it was to be delivered to Mr. Brown. In the evening he took it down to the Pacific club and left it there for its owner.

The story leading up to the presentation of the tin badge to Mr. Brown was fully exploded at a secret session of the Board of Health yesterday afternoon. While those in authority in the health department deem it best that the public be excluded from a matter which is of the greatest interest to the community at large, a leak was discovered this morning which will enable the readers of The Star to have some conception of what transpired at yesterday's secret session.

Mr. Brown requested the Board, so the story goes, to order the removal of Minister of Foreign Affairs Cooper, Collector General Castle and the other Government employes now in quarantine at the Castle place in Waikiki, to the quarantine station. His reason for proposing this motion was that the officials, from Minister Cooper down, were making a burlesque of the quarantine at present and he believed it the duty of the Board, as custodian of the public health, to enforce a stringent quarantine on these people until the expiration of the quarantine period. Mr. Brown argued that it could be done in no other way except by confining them on the island under the same regulations and restrictions as are in vogue with the Japanese.

Mr. Brown informed the Board that he had taken it upon himself, as a member of the Health department, to investigate into the true condition of things at the Castle residence, and in proof of his presence on the premises, he laid on the table for the Board members to gaze at, the yellow flag which the quarantined officials said had been stolen.

There was considerable said by Mr. Brown, as well as one or two other members, about the way things have been allowed to go on. Just all that was said cannot be repeated, but here is the gist of it, as told by a reliable informant:

Mr. Brown said he had been told that people were making it a habit to visit the Castle place, paying little or no attention to the quarantine regulations. He went to the Castle place on Tuesday evening at 11 o'clock and remained until after midnight. There was no guard on duty, so the rumor goes, and regulations were not being lived up to by the officials. Mr. Brown, it is believed, encountered the officials and a fair-sized row—only words being used—ensued. After securing the flag Mr. Brown returned to the city.

Previous to this, it is stated, that Mr. Brown, while riding on his wheel in Waikiki, encountered Minister Cooper riding on a bicycle. It is said that Brown severely rebuked the Minister for his indiscreet action. Untrusting in his efforts to learn other things, Mr. Brown saw them out canoe riding, was told that the members of a bicycle party last week were in conversation and even shook hands with the quarantined officials, and many other interviews were held with parties who might carry smallpox into the city, were there any germs to carry away.

Just whether the Board will take up an examination of affairs at the Castle place cannot be ascertained. One thing is certain, though, the officials have not been transferred to the quarantine station.

QUARANTINE IS RELAXED

FIRST CLASS PASSENGERS FROM THE DORIC ARE LANDED.

Advices from Yokohama show that the Smallpox Epidemic is Completely Under Control There.

There has been a slight relaxation in the strict quarantine measures that have been in force on vessels from Japan during the past few weeks. The advices from the Board of Health agent in Yokohama brought by the Doric this morning show that there has been a marked decrease in the epidemic in that city, and the Board, at a special meeting this morning, decided that hereafter, when a vessel arrives from Japan with a clean bill of health, the first class passengers may land. The only restriction placed on them is that they must report daily to the port physician until the full quarantine period of eighteen days has expired.

The Doric arrived early this morning, nine days from Yokohama, with 551 Chinese steerage passengers from Hongkong, and five European cabin passengers. She was boarded outside by Dr. Day and thoroughly inspected. About 9 o'clock she was brought inside, as she showed a clean bill of health, and permitted to go alongside the Mail dock, where she will discharge her cargo.

A special meeting of the Board of Health was held at once in Attorney General Smith's office, and quarantine measures discussed. The Board's agent in Yokohama reported that there were only twenty-two new cases of smallpox and eleven deaths in Yokohama during the last week, as against twenty-three new cases during the previous week and 200 new cases and 100 deaths during the week before that. The authorities, the agent reported, have the disease in check, and it is believed that it will be stamped out in the near future.

Upon this information the Board decided to permit the first class passengers for this port to land at once, provided they would consent to make daily calls upon the port physician, Dr. Day, during the next eight days, when their quarantine period will have expired. The Chinese passengers must go into quarantine on the island until the incubation period of eighteen days has expired.

Otherwise a strict quarantine is to be maintained on the Doric. Neither passengers in transit, officers nor members of the crew will be permitted to land while the steamship is in port. The Mail dock will be quarantined and the freight for this port subjected to fumigation before it leaves the dock.

As a result of the decision of the Board of Health, the Doric will not remain as long as usual in port, but will sail for San Francisco at 6 o'clock this evening.

DUBLIN, IRELAND.

Although the show is good all around there are some features which deserve special mention, chief among these is the trapeze performance of the Sisters Vaidis, in which the electric light is employed with beautiful effect.

We have never seen a cleverer, more graceful, or more original performance of the kind than that given by these accomplished artists.

Greater bargains than ever will be offered at L. B. Kerr's clearance sale tomorrow, last year's stock of dress goods will be cleared at a-y-price. Remember the sale ends this week.

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

THE LOCK AND THE KEY.

You can operate a lock only with the key that fits it. Very well. So you can cure a disease only with the medicine that goes down to the cause of it. Now, many so-called diseases are in truth only forms of one disease, branches of one tree, as we may say. For example, if we can nourish the body and enrich the blood we speedily get rid of many of our troubles, such as Anemia, Fevers, Rheumatism, Scrofula and Blood Disorders, Rickets in children, and so on,—all proofs that the body lacks vitality and force. Nothing is so useful as a body-builder as Cod Liver Oil, but alas, how many are nauseated and upset at the very thought of it. In **Wampole's Preparation**, made from Fresh Livers, however, we have the rose without the thorn; the valuable drug minus its vile taste.

Add to this the Hypophosphites, for making bone, and the Extracts of Malt and Wild Cherry for equally excellent purposes, and we have a remedy indeed. One as pleasing to the palate and stomach as it is potent and successful in banishing disease in old or young, and making life worth having. Try it and you will agree with what we say about it, as our claims are supported by results. Genuine has trade mark. All druggists.

FURNITURE NEWS:

April furniture selling exceeds all months in the year with us. Not that the month makes the price; but our orders in December for April delivery saves us a lot, and you get the benefit.

Enameled Iron Bedsteads,

with full brass trimmings, are among the prettiest novelties introduced in the furniture line. We have half a dozen styles—one prettier than the other. Kings sleep on the \$12 style. Why not you?

We do upholstering at a trifle above cost of material. This is an odd season and we must keep our factory men busy.

ALL ALONG THE DOCKS

STEAMSHIP DORIC ARRIVES FROM THE ORIENT.

Big Cargo of Chinese Immigrants—Relaxation in Quarantine Regulations—Gossip of a Day on the Front.

The Doric sails for San Francisco at 6 p. m.

The Iroquois will probably get away for New York tomorrow.

The Archer's cargo will probably be out tomorrow and she will be loaded as rapidly as possible. Capt. Cathoun expects to get away for the Golden Gate by the middle of next week. The sugar is waiting on the dock.

The Helene got away late yesterday afternoon with the crew and master of the Likelike in her. A new crew will be shipped on the Likelike, which sails this afternoon. Capt. Fitzgerald remained ashore to attend the trial of the mutineers.

Mr. Foster, third officer of the Monowai, who left the ship here on her last trip, to reside in Honolulu, neglected to secure a permit to land from Harbor Master Fuller. It was probably an oversight on his part, but it has excited considerable comment along the docks. Capt. Fuller will see that the matter is properly straightened out.

The P. M. S. S. Doric, Capt. Smith, arrived from Yokohama this morning, a whole day ahead of time, having made the run down in the fast time of nine days. She brings 551 Chinese for this port, and 397 in transit. There are five white passengers for this port.

The Doric brings about the usual amount of freight. If quarantine regulations are strictly enforced, it is probable that she will only stay long enough to discharge her cargo.

The big ship Kenilworth commenced to take in sugar today. It is going in at the rate of a ton a lift. Capt. Baker expects to have 1200 tons in her by the time the Australia arrives in port, when he must back out and anchor in the stream. Progress will then be much slower, as the sugar must be taken from inter island steamers. It is probable the Kenilworth will be seventeen or eighteen days in port altogether. She will take about 70,000 bags of sugar, weighing about 4000 tons.

ARRIVALS

Thursday, April 22.
P. M. S. S. Doric, Smith 9 days from Yokohama.

VEILS VS. EYESIGHT.

Dr. Casey A. Wood states in the Boston Medical and Surgical Journal, "that every ophthalmologist has noticed the wearing of veils is productive of weak eyesight, headaches, and sometimes vertigo and nausea. This is due to the strain which is necessarily exerted by one or both eyes in order to see through the obstruction; the irregular figuring of the veil is also a source of annoyance. The weakest eyes suffer most; but where the vision is normal, they are able to bear the extra strain, and thus asthenopic symptoms traceable directly to the use of the veil usually escape notice. Dr. Wood states that, after a series of experiments, he finds that every kind of veil affects the ability to see, more or less, the most objectionable kind being the dotted veil. The least objectionable one is the one without dots, with large, regular meshes made from single compact threads. In conclusion, the writer states that one of the worst possible habits is the common custom of reading in public conveyances, churches, theaters, etc., through this unnatural screen."

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Buffalo Beer

Is dispensed over the bars of the Cosmopolitan, Pacific and Royal saloons at the rate of two glasses for 25c. It is always fresh and cold and life-sustaining. The interchangeable check system leaves you free to obtain one beer at any other saloons, provided you have a check.

Another Large Importation

Every daughter of Eve has a hankering after the occult; therefore I make no apologies for the subject of the following observations. We are, too, very credulous, as most men will admit, and it is generally easier for us to believe in a ghost than to investigate it. On these hankerings and this credulity hundreds of persons, more or less clever, trade. Some of them believe in their own powers and are deeply hurt if any one hints that they possess only imaginations. I have had personal experience with a few of these farseeing women, and they impressed me with their absolute sincerity. One is a palmist—a clairvoyant, or whatever she calls herself; she tells the character from the hand, often with startling exactitude; she informs you of various incidents of your past life, of which you are already very well aware, yet which she can't possibly know, in a way to raise the hair, and she predicts, with indifferent success, the future.

She is the only person I ever heard of who can read names in people's hands. Beware, O woman! If there be one person who has influenced your life more than all others, the name (shall I say his name?) is written in your hand! It is a positive fact that Mrs. — can read it there, unless, indeed, one accounts for the mystery on the grounds usually taken now by the Psychological Research society, who attribute everything to telepathy. The palmist told me "all things that ever I did" (and how glad I felt they were not worse!) and ended by spelling out a name. She tried to show me the letters, but I couldn't see anything but a mass of unmeaning lines and an irregular O. I turned cold and remarked politely, "You are the devil." I meant it as a compliment, and she took it as such. Her fee was 10s. 6d. (she earned it well), which I paid, and then I left her, full of thought. She now asks a guinea, and her door is besieged by the carriages of the great.—Harper's Bazar.

A Harvard Lottery.

As late as 1806 Harvard college was raising money by a lottery. It offered 20,000 tickets for sale at \$5 each, with prizes ranging from \$15,000 down to \$7. "In the above scheme," said the prospectus, "the just expectations of the public and the interest of the University have been consulted. It is worthy the attention of adventurers that the highest prize is nearly double in value to any that has been drawn in this Commonwealth for many years past, though the usual price of tickets is preserved. The Managers solicit the patronage of the public in general, and of the friends of Literature and the University in particular, and considering the object of the Lottery, they will combine the prospect of gain with the certainty of benefitting the University, and by lending their aid to the means of education will promote the best interests of their country."—New York Tribune.

Bottles.

Ancient bottles of glass, stone and metal have been found in many parts of Europe, Asia and Africa. Perfume bottles of glass have been discovered in great numbers in the tombs of wealthy ladies of Egypt. Many bottles, tumblers and other drinking vessels have been dug from the ruins of Pompeii. The most common bottle of the ancients, however, was of leather, the skin of a calf, goat or ox being taken off the carcass with as few cuts as possible and made into a receptacle for holding water or wine. The largest glass bottle ever blown was made at Leith, in Scotland, in 1747-8. Its capacity was two hogheads.

JAMES' SECRET MISSION

WANTS JAPANESE TRADE TRANS-
FERRED TO ENGLAND.

An Englishman, Who Taught the Jap-
anese Seamanship, Gunnery and
Other Arts of Modern Warfare.

Captain James, better known in
Japan as Admiral James, has been on
an extended visit to England for the
purpose of negotiating for the con-
struction of war ships for Japan, and
also to make arrangements for trans-
ferring so much of the trade of the
Land of the Sunflower as possible to
Great Britain, says a late Chronicle.

Captain James once held a commis-
sion in the British navy, and years ago
went out to Japan to teach her sailors
seamanship, gunnery and other arts
of modern warfare. For years he has
taught Japan's infant navy the science
of gunnery, he holding the rank and
pay of Admiral. He also took out
from England to Japan a number of
war vessels, including the cruiser Na-
niwa, sister ship of the Charleston.

After the Japanese navy had secured
an educated staff of officers for itself
the foreign officers or instructors were
dismissed, the Japanese Government
being desirous of showing the world
that it could run its own navy. Ad-
miral James was retired on a pension,
which he still enjoys. Becoming weary
of idleness, he applied for the agency
of some large shipbuilding firms in
England, and was instrumental in sell-
ing several vessels, war ships both old
and new, to the Japanese Government,
to his own financial advantage.

Admiral James is averse to being in-
terviewed, and particularly as to the
object of his secret mission to Eng-
land.

"I do not mind saying, however," he
explained, "that my trip has some-
thing to do with naval affairs—ship-
building, in fact—but as nothing has
been settled yet, it would be very pre-
mature to discuss it. You people here
seem to want a monopoly of the Jap-
anese trade. You can't have it; that
is all."

BUGLER WANTED.

A Good Billet on the U. S. S. Marion
Going Begging.

Lieut. Cogswell, of the U. S. S. Mar-
ion, has hunted high and low in this
city for a bugler, but up to date has
been unable to find a man or boy
willing to go to sea. The ship's last
bugler was mustered out of service a
short time before the Marion left the
Coast. Without a bugler the ship is
without music, and that is the reason
that Lieut. Cogswell does not bring his
men ashore often for drill. There is
nothing like music, he says, to put
life into men when they are manouv-
ering ashore or on ship board. The men
don't like to drill without it, and the
officers are of quite the same mind.

Lieut. Cogswell has advertised for a
bugler in all of the local papers, but
has not as yet heard from a candidate
for the position. It is accounted a
good billet among the enlisted men, as
a bugler gets \$30 per month in addi-
tion to his rations, etc., and has noth-
ing else to do than to furnish the
music when it is required.

The invention of mensuration and sur-
veying is attributed by some writers to
the Egyptians, the annual overflow of the
Nile carrying away landmarks and bound-
aries of the arable fields, necessitating
surveys and the redrawing of boundary
lines.

There are 3,485 miles of travel between
Paris and Washington city.

Watching the Jury.

Rufus Choate once, while addressing a
jury, several times repeated a certain part
of his plea—repeating in the same words
and accent. Certain that the great advo-
cate had some reason for so strange a pro-
ceeding—a reason not obvious to others—
the late E. P. Whipple took an opportunity
to ask an explanation. Mr. Choate's an-
swer in substance was: "There was a num-
skull on the jury who was paying no at-
tention to what I was saying. I would
have kept up the repetition until he listen-
ed if it had taken the entire day."—San
Francisco Argonaut.

WHOOPIING COUGH, CROUP,
ASTHMA, CATARRH, COLDS.
CERESOLINE being administered by inhalation,
gives the safest and most effective means of treat-
ing the throat and bronchial tubes. Its efficiency in
Whooping Cough and Croup is proven by the fact
that it is the only medicine that is safe in con-
siderable doses, as Diphtheria, Scarlet Fever, etc. Dis-
cussive booklet with testimonials free. Sold by
druggists.

Sulphume!

The curative properties of
sulphur have been known for
ages, but owing to the crude-
ness of the drug, its use to a
greater or less degree has
been restricted. The leading
chemists of the world have
labored for years endeavoring
to liquify sulphur in order that
suffering humanity might be
benefitted. By the aid of
electricity this grave obstacle
has been overcome.

Liquified

The old fashioned way of
taking sulphur with molasses
as a spring medicine has been
done away with.

This wonderful discovery
has furnished us with a pre-
paration that is pleasant to
take and positive in its effect.

Everyone is familiar with
the name "sulphur," and gen-
erally understand that as a
blood purifier and skin cure it
has no equal.

Sulphur.

Sulphume is not a patent
medicine, but simply sulphur
rendered liquid by the aid of
electricity.

Testimonials from men of
such prominence as Dr. W.
S. Fowler, Chicago's noted
Physician; Nelson A. Miles,
General of the United States
Army; Rev. J. Hennis, and a
score of others, certainly could
not have been obtained unless
the preparation was meritori-
ous.

Sulphume will cure pimples on
your face and clear your skin.

A PEACEFUL CONQUEST.

It is not aggressive action of Japan which this country has to fear. It is the steady influx of Japanese into the country, taking up trades and going into various lines in competition with Americans and Europeans that we have to fear, and it is the steady increase of those who are not under contract as laborers that has to be considered. In the matter of keeping out Japanese who come here without the proper qualification for landing, the Government has shown itself firm and the two last vessels that have come here had to take back the bulk of their passengers. The expense entailed in this has been a severe lesson and will prevent much infringement of the law in the future. But it will not prevent any Japanese from coming into the country if he can show that there is no fraud or effort to evade the law. The only way to meet that side of the question is to have the treaty changed.

At the time the census was taken the Japanese in the country were reported as 24,407 strong, the single nationality nearest to the total of the Hawaiians. The date of the census was September 27. Through the politeness of Mr. McStocker, of the custom house, The Star has been enabled to learn how many Japanese have come in since that date. During this period of very nearly seven months there have arrived in the Islands 3319 Japanese, and 1558 have returned to their homes in Japan, leaving a surplus of 1761. Adding these to the census figures, and not counting deaths, which are comparatively light, and of which, for the other islands, there are no reliable statistics, there must be today 26,168 Japanese in the country. This is an increase of 7.2 per cent since the time the census was taken. At such a rate of increase the Japanese will very soon exceed in numbers any single nationality here.

At the same time that the numbers were taken, the various occupations of the Japanese were inquired into. Of the 24,407 men, women and children, 14,600 reported themselves as engaged in various occupations. Of course the bulk of them are unskilled laborers. Engaged in this occupation are 11,042 males and 1526 females, a total of 12,568. This leaves 2002 for other occupations, of which ten are taken cognizance of.

Among small farmers the Japanese stand third on the list, showing that they have taken up land, and are cultivating it for themselves. In this line the Hawaiians stand first, and the Chinese come second. When we consider that the Japanese have been here but a short time, that they should have shot up so rapidly into the position of landholders, and in many cases of land owners, there is much food for thought.

As mechanics the Japanese stand fifth on the list, but the numbers of the various nationalities of mechanics are so close to one another that a very small addition to the ranks of Japanese mechanics might throw them up to the second or third place. As merchants and small traders they come next to the Chinese, in whose hands the minor trading of the country has been for years. They make a good showing among the clerks and salesmen; they stand second among the rice planters; they are planting coffee; a number of them are fishermen, and they claim seventy-two professional men.

It is not the mere illiterate and unskilled laborer that has to be considered, it is the property holding and the educated Japanese that must be thought of. At the present rate of increase and with recruits from the "student" class these people will become a very powerful factor in the politics of the State, and the time will surely come when a demand will be made for the franchise. This is the real danger. That the demand would be met with a denial goes without saying, but we should have a period of strong agitation as soon as ever the demand was made. And there is no telling how long that demand could be withstood. Once granted the Asiaticizing of the islands would be certain. Japan need not fire a shot, need not send a man-of-war to the Hawaiian ports. She can quietly make the con-

quest of the islands unless help comes from without. The only form that help can come to us from without, is by annexation to the United States. Once the American flag flies over the Executive building all hope of insidiously acquiring control of the islands by Japan will have fled away like the baseless fabric of a dream.

THE JUBILEE.

The meeting of the Britishers last evening was probably the largest gathering of members of that nationality ever held in Honolulu. It was very evident that all were thoroughly in earnest about having a celebration of the anniversary of the sixtieth year of Queen Victoria's reign which should worthily show how, even in these distant isles of the Pacific, the hearts of those whose birthright it was to call themselves subjects of that great monarch, still beat responsive to loyal feelings and love for her.

The preliminary arrangements are now under foot and efficient committees have been appointed. It only rests for those who are not members of committees to facilitate the work of those committees as much as possible and in no way can that be better done than by liberal subscription. It is "money makes the mare go" and the plans of the committees must be cut according to their cloth. There is every evidence of an intention to be very liberal on this occasion and the day will be looked forward to with great enthusiasm by every Britisher, while many friends among other nationalities will take a lively interest in the celebration of an event which is remarkable in the range of history. No monarch has held the reins of power so long as Queen Victoria.

The trans-Siberian railroad is being built in sections, and not all the sections are in an advanced condition. The section of Western Siberia is now ready for freight or service both for passengers and freight, with the exception of the large bridges across the Irtysh and Ob. This is very much the same as the railway across the American continent in the early days, when the passengers had to get out and be ferried across the large rivers. In some sections nothing has been done save the building of embankments. Altogether about 5000 miles of rails have been laid. It is calculated that communication through to Vladivostok will be open at the commencement of next century. As soon as ever the railway is finished there will undoubtedly be a great change in Russian policy. It will be transmuted from the passive to the aggressive in the Pacific ocean.

There has always been more or less doubt as to whether diphtheria really is present here or not. Some years ago two children died, who, it was claimed, most certainly had the disease. Dr. Howard, in his report to the Board of Health, says that he has treated a child for this disease, and that he had very little doubt in his own mind that it was a case of diphtheria. The question will be decided today, when the result of Dr. Alvarez's examination is made known. If once diphtheria gets a hold it will become a very serious matter; there is no disease more dreaded by the mother of a family than this, and there is many a mother today who is praying that the news may not be true. The greatest precautions should be taken with regard to disinfecting thoroughly the households should such cases appear. It must not be perfunctory disinfection like the perfunctory quarantine at Waikiki.

When charges are made against any branch of the Government or against the methods used by its officers the public has a right to know what is charged and what defense is made. The town has been ringing with the alleged manner in which the quarantine was being conducted at Waikiki. The charges may or may not be true. The matter was investigated before the Board of Health yesterday, but it was in executive session and the public is as wise today as it was yesterday. This is manifestly unfair to both sides. It is unfair upon the people in quarantine, if the charges made against them were not sustained. It is unfair to the public because they are left in ignorance of the truth of the matter. If there has been anything wrong it should be known and those who are responsible should be made to feel the weight of public opinion. What is sauce for the goose is sauce for the gander, and there should be no hole and corner method of white washing. The Star publishes today what can be found out about the executive session of the Board of Health.

BEDSPREADS.

We boldly announce that we have the best values in bedspreads; see our \$1.25 bedspread, hemmed, ready for use. N. S. Sachs, 520 Fort street.

CYCLISTS DRINK IT

Timely Topics.

APRIL 19, 1897.

ON BATHING.

"Go to Bath" is the advice frequently given by the Faculty in England to sufferers from Gout and Rheumatism, and go to BATH is our advice to all and everyone.

We are considerable on cleanliness. A week or two ago we had tons of soap—now we have acres of Baths. The

Mosely Folding Bath,

when closed resembles a fine cabinet, and would adorn any home, but when opened proves itself the most complete Bath Tub in the world. Porcelain lined, with Oak Ridge and fixed Gasoline Water Heater, it stands without a rival.

Then we have Porcelain Lined

Bath Pools.

Just the things to splash about in on a hot day. Bath Tubs and Marble Top Washstands, too, in all varieties and cheap as talk.

We have a room full of them and when you are passing, just "DROP IN" and see for yourselves.

HAWAIIAN HARDWARE CO.
FORT ST., opp. Spreckles' Bank.

We Told You

last week that we were not having an annual closing out sale, nor are we closing out at a dead loss. Our prices are right twelve months in the year, and so are the goods. Cheap John stuff is not offered by us as a bait to the unwary. We are legitimate dealers in Dry Goods. Our customers know it, and others find it out.

Bleached and Unbleached Sheetting from 45 to 90 inches wide. The best brand in the market.

Also White and Brown Cottons from 25 to 36 inches wide. Lowest prices in Honolulu.

Figured Dimities, fresh from the markets of Europe and the United States, sell with us for less money than shelf-worn goods in other shops. We try to buy our goods at a figure which guarantees their prompt removal to the homes of our customers. Everyone knows how we succeed in this respect.

A large stock of Towels, Turkish Linen and Cotton, all sizes, at your own price—if it's low enough.

The Australia will bring us another line of Shirt Waists.

Indian Curry

is to the people of the East, What Catsup or Worcester-shire Sauce is to those of the West.

Anyone who has traveled in Japan, China or the East Indies knows that there is no more palatable dish prepared than curry and rice, or the many other ways in which it is brought into use by residents of those countries.

The demand is so great that inferior preparations are placed on the market and sold to the uninitiated as the real article.

"While the palate is still hot with a curry, an un-flavored dish seems insipid."

No one has ever disputed the fact that the people of the East know how to, and do, live on the best the land affords.

In the lower Fort street window of our store is a display of the

Genuine Indian Curry Powder

that is prepared by us strictly according to the original receipt, and when the Pacific Club, Hotel and commissary department use it and no other, we have no hesitancy in selling it to the public as the STRICTLY PURE Curry Powder. A trial is all that is required.

CHARLES WILCOX,
Secretary of Board of Health.

SEALED TENDERS.

Will be received at the Office of the Minister of the Interior, till 12 o'clock noon of WEDNESDAY, May 12th, 1897 for the construction of Roads in North and South Kona, Hawaii.

Plans and specifications at the office of the Superintendent of Public Works also at Kailua Post Office and Hokena Post Office.

The Minister of the Interior does not bind himself to accept the lowest or any bid.

J. A. KING,
Minister of the Interior.
Interior Office, April 22, 1897.

SALE OF GOVERNMENT LOTS ON THURSTON AVENUE, SOUTH SLOPE PUNCHBOWL HILL, HONOLULU, OAHU.

On TUESDAY, May 25th, 1897, at 12 o'clock noon, at the front entrance of the Executive Buildings will be sold at Public auction five Government Lots, situate on the makai side of Thurston Avenue, opposite the residence of H. D. Johnson and near Wilder Avenue, South Slope Punchbowl Hill, Honolulu, Oahu, and numbered from 629 to 634.

UPSET PRICE: Lot 629, \$400. Lot 631, \$750. Lot 632, \$750. Lot 633, \$500. Lot 634, \$400.

These lots have a frontage of 100 to 120 feet on Thurston Avenue and a depth of 175 to 300 feet, according to location.

The conditions of sale of these Lots are as follows:

One fourth of the purchase price to be paid at the fall of the hammer and the balance in equal payments in one, two and three years, with interest at the rate of six per cent per annum.

The purchaser to join with the Minister of the Interior in an Agreement of sale, containing the following conditions and stipulations:

1. The purchaser to have immediate right of possession.
2. To build a residence on the premises and to live therein before the expiration of three years from date of Agreement.
3. To pay Taxes on the premises from the date of the Agreement, upon the full value thereof.
4. The Agreement not assignable.
5. Purchase price may be paid in full at any time during the said three years, thereby stopping interest.
6. At the expiration of three years from the date of the agreement, if the conditions of the same shall have been performed, a Land Patent shall be delivered to the purchaser or his heirs.

Map showing the above lots can be seen at the Interior Department, Honolulu, Oahu.

J. A. KING,
Minister of the Interior.
Interior Office, April 21, 1897.

SEALED TENDERS.

Will be received at the office of the Minister of the Interior till 12 o'clock noon of WEDNESDAY, April 21, 1897, for the construction of the Road over Nuuanu Pali.

BRITISHERS IN SESSION

PLANS FOR COMMEMORATING VICTORIA'S DIAMOND JUBILEE.

Alexander Young Comes Forward with a Handsome Donation for the Permanent Memorial—Committees.

Alexander Young did a good thing for humanity last evening at a meeting of over 100 Britishers in the Arlington hotel parlors, when he headed a fund for the purpose of establishing a hospital for incurables with a donation of \$2,500. The scheme met the approval of almost every Britisher present. The suggestion made is that the institution be called the Queen Victoria Hospital and that although it would be open to patients of all nationalities, the hospital was to remain always in the control of England's subjects.

British Vice Consul T. R. Walker presided over the meeting last evening and W. F. Wilson officiated in the capacity of secretary. F. M. Swanzy stated the objects of the meeting.

A committee composed of Sir Robert Herron, William G. Irwin, Daniel Logan, Thomas May, W. F. Wilson and F. M. Swanzy was chosen to draw up resolutions of congratulation to Queen Victoria on the completion of the sixtieth year of her reign. These will be forwarded to reach her majesty in due time.

The Queen's Diamond Jubilee will be observed in Honolulu in a most appropriate manner. There will be a parade, exercises, athletic sports, and perhaps a dance. The details have been left to a committee which will confer with British Commissioner Hawes to ascertain his wishes in regard to the celebration. A Government holiday will be declared and a gala time will be the order of things.

It was moved and carried "That the British community in Honolulu take suitable steps for celebrating Queen Victoria's Diamond Jubilee, and that an Executive Committee be appointed by the chair to draw up a programme for the day's celebration and to carry out same. Such committee to have power to appoint sub-committees from their own number and also to fix the day on which the celebration shall take place, after consultation with the British Commissioner. The committee to report to a further meeting of British residents."

Those chosen to serve on the executive committee were:

H. Armitage, George Angus, B. F. Beardmore, C. Crozier, A. R. Hatfield, George Harris, Jr., Fred Harrison, H. Herbert, Dr. Murray, W. H. Pain, W. Roe, R. S. Serimgeour, W. L. Stanley, T. M. Starkey, H. E. Walker, E. H. Wadehouse, Fred Whitney, H. Wright, W. W. Wright, R. L. Auerbach, O. St. J. Gilbert, C. Girdler, J. W. Podmore, W. F. Reynolds, T. R. Robinson, W. C. Sproull, E. B. Thomas, Thomas Wright, Alatau Atkinson, T. Black, George Dall, T. C. Davies, Ed Giffard, George Harris, A. St. M. Mackintosh, H. Mist, W. McBryde, R. C. Montague, J. M. Monsarrat, T. McMillan, Ernest Ross, D. Shanks, W. G. Shinglehurst, John S. Walker, Sam P. Woods, J. Lucas, C. G. Ballentyne, J. C. Cook, E. W. Jordan, M. B. Macfarlane, J. H. Soper, Wray Taylor, Douglas Colling.

It was moved and carried: "That a Finance Committee, with power to add to their number, be named by the chairman of the meeting; such committee, amongst its other duties to canvass (1st) for subscriptions for the general celebration of the day and for the address to the Queen. (2) For funds to be devoted to the permanent memorial. This committee to report to the Executive Committee, the amount available for the general celebration, and also to report to a further meeting of British residents, the amount of donations secured for the permanent memorial."

The following are the members nominated:
F. M. Swanzy, Robert Catton, J. M. Dowsett, C. M. V. Forster, J. A. Kennedy, William Lishman, H. E. McIntyre, J. Rothwell, Alexander Young, James Campbell, W. M. Giffard, Dr. Herbert, T. R. Keyworth, L. B. Kerr, T. Lucas, Thomas May, Dr. McKibbin and E. C. Macfarlane.

Clive Davies made a suggestion that religious services be held in conjunction with the celebration.

The last motion was as follows: "That a fund be formed for the purpose of establishing a hospital mainly for incurables of any nationality, as a permanent memorial of the completion of the sixtieth year of Queen Victoria's reign, the control of such fund and hospital to be at all times in the hands of British subjects, and such hospital to be known as the Queen Victoria Memorial Hospital.

Proprietor Krons, of the Arlington, was tendered a vote of thanks for his kindness in providing a meeting hall for the Britishers.

BIG SHIP OWNER COMING

ARTHUR SEWELL ON HIS WAY TO VISIT THE ISLANDS.

Was to Have Been a Passenger on the Kenilworth But Failed to Arrive in Time.

Hon. Arthur Sewell, vice presidential candidate of the Democratic party in the last general election in the United States and owner of the famous Sewell line of ships, was to have been a passenger on the Kenilworth to this city, but did not arrive in San Francisco in time to board the ship before she sailed. He is expected to arrive on the Australia next week, and, if he comes, will probably make a lengthy visit to the islands.

Mr. Sewell has large interests here. His fleet consists of fifteen of the finest American ships afloat, and all but one or two either have or will load sugar at island ports for New York. The Kenilworth, now in port, and the Dirigo, on her way from New York, are the only steel ships of the fleet, and are two of the finest vessels carrying the American flag. The Susquehanna, a larger vessel than either of the two, is expected hourly from Japan. She is a wooden vessel, but a fine ship and big carrier.

Mr. Sewell has never before visited the islands, although his vessels have been in the sugar trade for years. He comes this time, partially on business, but for the most part on a pleasure trip. He expected to meet his nephew, who had been in Central America, in San Francisco, and they were to make the trip together.

Capt. Baker had fine quarters for his guests. His cabins are probably the lightest and roomiest of any vessel that comes to this port. They are not cramped like those of a steamer. The captain's sleeping apartment is a big room, with a wide bed, and his office is as light and airy as one in a New York "sky scraper." There are several spare rooms besides, and a large party could be accommodated on a pinch.

Capt. Baker is quite sure Mr. Sewell will come down on the Australia. He has planned a visit to the islands and had started from New York for San Francisco prior to the time the Kenilworth sailed.

Capt. Baker says that his vessel will be in port probably about seventeen or eighteen days. Although he is anxious to get away with all dispatch, so as to make a fast run back to New York, Capt. Baker will be sorry to leave Honolulu. The friends of the genial skipper here are legion and he is always extensively entertained while in port. He is very fond of Honolulu and the island people.

Roasting Schilling's Best tea in San Francisco costs more than other tea in China or Japan, but it makes tea better.

You don't have to pay the difference, though. It comes out of our profits.

We make money in giving up profits. Queer!
A. Schilling & Company
San Francisco

ELECTION OF OFFICERS.

At a meeting of the Chinese Cemetery Association, of Panoa, held this evening Association, of Panoa, (Yee King Chong) held this 19th day of April, 1897, the following gentlemen were elected officers for the ensuing year:

C. Monting, President.
Goo Cho, Vice President.
Chin Ngee Chow, Treasurer.
Goo York Kee, Vice Treasurer.

BOARD OF HEALTH MEETS

CASE OF DIPHTHERIA REPORTED
BY DR. HOWARD.

President Smith Takes His Seat—Reports Upon His Hygienic Observations in the United States—Bad Water.

The attention of the Board of Health was called yesterday afternoon to the case of a young native child which died while an operation was being performed by Drs. Howard and Wood in the latter's office. The circumstances under which the child died had every appearance of a case of diphtheria. Some of the secretion in the throat is now under the microscopic examination of Dr. Alvarez. The Board instructed Dr. Howard to visit the house from where the child had been taken and see that everything was properly disinfected.

President Smith stated that Surgeon General Wyman, of the United States, has realized the importance of appointing a medical inspector at Asiatic ports. Dr. Wyman had informed him while in Washington that he would send a member of his corps to Japan shortly and that he would pass through Honolulu. The president suggested that the Board send a representative from Hawaii with him. He believed it advisable because cholera would very likely be prevalent in Hongkong, Kobe, Yokohama and other Japanese ports this summer and Hawaii could not be too careful in guarding against this dreaded disease. Mr. Smith believed that Dr. Day could do the best service for the Government inasmuch as he is port physician and has had considerable experience with cholera.

The matter was allowed to remain over until the next meeting of the board. Mr. Smith stated that he had informed President Dole and the Cabinet of the suggestion he had made.

Complaints are coming in from the residents and health authorities of the water flowing in Nawiliwili stream on Kauai. Three large gin bottles containing samples of the water were before the board for its examination. Sheriff Carter had sent these down. President Smith informed the Board that the Nawiliwili stream had given trouble before and the plantation had been prosecuted for maintaining a nuisance. He advised the Board to have the Government physician of the district test the water, and if found to be impure, to notify the Board. The plantation could then be reached again as it had been before.

Dr. Howard was notified to submit a report to the Board by the next meeting upon the condition of the children who had been vaccinated under a recent order of the Board.

Dr. Monsarrat was given permission to kill three cows, one at a time, for the purpose of making a postmortem to ascertain if tuberculosis was prevalent in their bodies. A man was employed by the Board to gather up the infected cows, at \$1.35 a day.

There is but \$800 left in the appropriation to conduct the general expenses of the health department for the next nine months.

No action was taken in regard to the meat contract for the Molekai leper settlement. The difference between the old and new price was a cent a pound.

W. O. Smith has now succeeded H. E. Cooper as president of the Board of Health. Those present at yesterday's meeting were: President Smith, Dr. Wood, Dr. Howard, Dr. Alvarez, Dr. Monsarrat, Dr. Day, Fish Inspector Kellipio, Executive Officer Reynolds, Messrs. Lansing and Brown and Secretary Wilcox.

THE NEW JOURNALISM.

City Editor (of great daily): "Where is the President of the United States?" Assistant: "He's reporting today's cabinet meeting for us."

City Editor: "All right. Cable the Czar of Russia to look after the Chinese question for us today, and remind the Emperor of Germany that we depend upon him to cover the meeting of the Reichstag."

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

"Put Me Off at Buffalo"

The title of this well known song as well as the song itself emanated from the brain of an employee of the Buffalo Brewing Company. This excellent beer is on draught at the Cosmopolitan, Pacific, and Royal saloons. The interchangeable check system is found very valuable to patrons.

The Secretary Disc Plow

is giving satisfaction on a number of plantations. A manager who has been using it for years, says: "I am busy plowing a field with it now and it is doing fine work, and I hope for good results from the thorough plowing it is receiving."

THE PACIFIC HARDWARE COMPANY, LIMITED,

are agents for this Plow, and also for the

Vacuum Oils,

which are the standard of merit the world over.

Other Oils do not give the satisfaction that is obtained by using Vacuum Oils.

Do not misunderstand us. We are not trying to cry down other peoples' goods, but we are telling you a cold, naked fact. "We know of NO goods ANY BETTER than the Vacuum Oil Company's, and there are but very few brands which are as good," is written us by a gentleman of the largest experience in lubrication.

We have just received a choice assortment of

WHIPS

and expect at an early day a fresh line of

PICTURE MOULDINGS AND ARTISTS' REQUISITES.

THE LIMEKILN CLUB.

BROTHER GARDNER DISCOVERS THAT GOODNESS DOES NOT PAY.

He Proves His Assertion by Recounting the Experience of the Late Comeback Thompson, an Esteemed Member of the Club—The Happy Medium to Strike.

"My friends," said Brother Gardner as he motioned to Samuel Shin to raise an alley window and look the doors, "it is with mingled feelings of pleasure and sorrow that I announce to you the death of de Hon. Comeback Thompson, who has been a member of the Limekiln Club for de past ten years. I feel de joyous as he an through wid life's tribulations an he vine to a better land, an I sorrow dat he didn't hev a better time doarin his sojourn an airth.

"Brudder Thompson was a good man in all dat de term implies, an dat's de reason he was glad to go when death called him. An experience of 60 years had proved to him dat goodness didn't pay 1 per cent on de capital invested. I knowed him fur ober 50 years, an I knowed all his peccoliarities. Doarin his lifetime he lent to his frens an neighbors 460,287 umbrellas, an he nebbor got but two of 'em back, an dat was by accident. Fur 20 years he libbed next doah to a woodyard an nebbor stole a splinter, an yit de woodyard man wouldn't even send a bunch of roses to his funeral. He figgered up dat in fo'ty years he lost 720,000 watermills from his garden, an yit no man was generous 'nuff to leave de rinds behind to feed de pig. He nebbor lent his wheelbarrow dat it didn't git broke, an he nebbor lent his crowbar dat he didn't hev a lawsuit to git it back.

"If he lent \$2, de pussion who borrowed it allus run away or got struck by lightning. If he borrowed a dollar, de lender allus jumped on him wid boaf feet to git it back. If Brudder Thompson ever got ready to go to a circus or a picnic, some naybur got kicked by a mowl or run oler by a street kyar, an de ole man would sacrifice his pleasure to get as many and as cosier. Dar was a hole in de sidewalk in front of his house, an fur 20 years he hung a lantern on his gate to warn pedestrians agin de peril. Not only was he laughed at fur his pains, but de lantern was stolen so often dat de ole man had to go widout 'taters and sugar to buy new ones. People who stole de cucumbers from his little garden an got a case of de colic had de cheek to send to his house fur remedies, an mo' dan 15 different families used his washbo'd, his flatirons an his fine comb. As a good man—a man who wanted to do de square thing by his feller man—Brudder Thompson was at de head of de pursion. Nebbor in all de years I knowed him did he ever doin good or utter one complaint about de way de world used him.

"An de odder day he was called home. One of de last things he did was to lend a naybur his washub an clothes bars, an de ole man was skassid den befo' dat naybur traded de things off fur a yaller parrot which was blin in one eye. Only three or fo' pussions wisisted him doarin his illness, an one keerridge held all de mourners dat followed him to his grave. Jest befo' we let de house fur de sad journey a man arrive fur de purpose of borrowin de cook stove fur a week or two, an when he larned dat Brudder Thompson was dead he also wanted to borrow de back doah an two beds. Takin not only de case, but my own experience an dat of others, I am free to say to yo' dis evenin dat goodness don't pay. It am my serus an almost advice to yo' not to be too good. Dere ain't any money in it. Dere ain't any gratitood in it. Dere ain't any satisfackshun in it. Bein too good means comin down from roast beef an sweet 'taters to a mighty thin porridge an crust coffee. Be good up to a sartin pint, but nebbor go beyond it. If a naybur sends yo' a free ticket to a cakewalk, yo' kin reciprocate by sending him a pound of dried apples, but stop right dar. If yo' should send him a \$10 box to de theater, he'd only look upon yo' as a soft snap. In de years gone by I took Brudder Thompson as an example an tried to be as good as he was. It didn't take me but three months to diskliver dat I was gallopin to de poorhouse. If I borrowed a dollar of a friend, he turned around an axed fur a loan of five. If I told a man I believed in his honor, he got my money an I got his word. If I accepted a pumpkin pie from a naybur, I soon found dat he wanted to borrow my mowl fur a week to make even. I had to quit bein too good or lib on roots.

"Don't be too good an don't be too bad. Dar's a happy medium which yo' kin strike if yo' figger a little. I went to work to figger, an I think I've got it. "Tey' yo' want to trade mowls wid a man, allus fix it so dat he'll cum to yo' fust. In dat case he won't be half so apt to look fur spavins on yo' mowl.

"I nebbor beat a church out o' my pew rent, but five pennies will make mo' clatter on de contribushun plate dan a \$10 bill.

"If yo' hev a ole hoe an yo' naybur has a new shovel, allus be de fust to offer to lend.

"De higher rates of interest yo' charge a man who wants to borrow money de quicker yo' kin discourage him from doin business outside de banks.

"If yo' want to buy of a man, wait till he am hard up an am obliged to sell. If yo' am hard up an want to sell, doan let anybody know it.

"Be seen at church every Sunday as a rule, but if dar am any money to be picked up around a circus or a horse race don't let nuffin keep yo' away.

"I don't advise yo' to bet or play poker, but if yo' win \$25 on a presidenshul 'leckshun or de same amount on fo' aces it's a heap better to put it in de bank dan to gib it back to de man who lost it.

"If my milkman should gib me a dime too much in makin change, I should return de overplus to him, but if I should find de wallet of a capitalist on de sidewalk I should consider dat I was ahead of de game.

"If de street kyar conductor holds out his hand to me, I pay my fare, but if he overlooks me I am a nickel ahead.

"I wouldn't buy counterfeit money to pass off on de public, but when I find myself stuck wid a bad bill I don't feel easy in my mind till I hev got rid of it.

"As I said to yo', don't be too good an don't be too bad. De too good man am a puddin fur de hull world to eat at, while de too bad man has to put out all of his money to de lawyers to keep him outer prison. Jest find out de betwixt and between—de p'int whar yo' kin make about 20 per cent profit on all yo' do fur man kind an yit be so well thought of dat yo' will be prominent at a county convenshun an de postmaster won't ax fur any refer ence when yo' go to rent a box. Let us now break de meetin in two an go home."

M. QUAD.

Cruel.
Officer (to recruit)—You look as sullen as an ape dat has just found out dat you are his descendant.—Flegende Blatter.

SHORT WHEEL NOTES.

An English railroad has provided special cars for the carriage of bicycles. Bicycles are no longer luxuries; they are necessities, says the New York Advertiser.

During the last two years in England over \$100,000,000 was invested in the cycle trade.

A tandem driven by electricity has been recently tried in England and is said to have proved a success.

There is a tiremaking machine, in use by a well known tire manufacturer, that can turn out 3,000 tires a day.

Lady Colin Campbell's objection to riding London streets is that she "does not like omnibus horses breathing down the back of her neck."

In the Argentine Republic a law has been passed forbidding women to ride bicycles in public. It is stated that the law was enacted to protect the owners of public vehicles.

A corset maker committed suicide not long ago. As usual, the deed was laid to the small demand for the waist constrictors, brought about by the general use of the bicycle by women.

There is no part of the bicycle that rusts so frequently as the spokes of the wheels. Saturate a rag or piece of cotton waste with kerosene and dip in powdered pumice stone; rub briskly, and the rust will quickly disappear.

AMONG THE RACERS.

More than 300 professional licenses were issued last year in England.

Louis and Charlie Callahan will be on the bicycle circuit as usual this summer.

Tom Sullivan, the famous professional sculler, will try his luck this year as a professional cyclist.

George Banker says that he will not follow the national circuit this year, but will train for the big Philadelphia meet.

Diakoff, the well known Russian champion, has become a "pro" at last and will soon begin to make things hum in his new role.

Huret, the famous French racer, is barely 27 years of age and is the holder of many records. Four times he has beaten the 24 hour record.

Jaap Eden, the Dutch crack, is the champion skater of Europe, a distinction he will lose on account of his inability to defend his championship, which is open only to amateurs.

Billy Murphy, the Brooklyn "pro," will coach the Princeton cycle team candidates. Asa Windle will look after those of Yale, while Columbia men have the services of P. L. McCue.

Many Bicycle Patents.

There have been many number of inventions made in the line of the bicycle. In fact, just at the present time the inventors of the country seem to be turning their whole attention to this matter, and it is estimated that fully 50 per cent of the applications filed for patents with the government relate directly or indirectly to the bicycle. That this is the case should not be regarded as strange. Many of the devices are not patentable, owing to the fact that they infringe on inventions for which patents have already been allowed. The variety and style of the devices for which patents are sought is great and embraces everything now known in bicycle construction and lots of things not known. The practicability of many of the inventions can be doubted, but the inventor is always sanguine, and as he is the party directly interested there is no reason in the world why any one else should object.—Washington Star.

Wood Pulp For Frames.

Wood pulp is the latest material for the making of frames for bicycles. The use of wood after it has been ground up and reduced to a pulp is not so new as many people suppose. As far back as 1719 a Frenchman named Reamur published an essay upon the subject, taking his hint from the wasps, whose paper-like nests are literally made from wood pulp manufactured by those insects. But it was only something like 80 or 40 years ago that any practical trial of the matter was made, and it is almost wholly within the last quarter of a century that the industry has begun to attract attention and assume importance. For some time past railroad car wheels have been made from wood pulp and also many other things which are exposed to great strain in use, and now the attention of bicycle makers has been attracted to this useful article.—Brooklyn Eagle.

Cycling Making Reforms in China.

Cycling, it is claimed, is responsible for great reforms in dress, even to the sizes of women's shoes. It has caused a reaction, it is stated, against the Chinese deformity and a sympathy with nature in this matter, simply because women cannot pedal with feet like the extremities of a piano forte. Doctors have preached against and denounced the French heel and the compressed foot, but without receiving the slightest attention. The bicycle, however, has proved all powerful, and the myth of the very small foot is now almost exploded.—New York Advertiser.

The Object of Tire Cement.

The object of tire cement is not, as many suppose, to prevent the tire rolling off the wheel, as there is little danger on that score. The main use for which cement is intended is to prevent the tire from "creeping" or moving around the wheel. The harm from creeping comes to the valve stem or "cap," which is almost sure to be injured or entirely torn off. Cement for this purpose need not be—in fact, should not be—of a sort that dries too hard, so as to be liable to crack. Thick carriage varnish has been used for tires with success.—New York Press.

ITCHING SKIN DISEASES

Instantly
Relieved by
CUTICURA

A warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great skin cure, followed by mild doses of CUTICURA RESOLVENT (the new blood purifier), will afford instant relief, permit rest and sleep, and point to a speedy, economical, and permanent cure of the most distressing of itching, burning, bleeding, scaly, and crusted skin and scalp diseases, after physicians, hospitals, and all other methods fail.

Sold throughout the world. British depot: F. NEWBERRY & SONS, 1, King Edward-st., London, E. C. POTTER DRUG AND CHEMICAL CORPORATION, Sole Proprietors, Boston, U. S. A.

Women and
Women Only

Are most competent to fully appreciate the purity, sweetness, and delicacy of CUTICURA SOAP, and to discover new uses for it daily. In the preparation of curative washes, solutions, etc., for annoying irritations, chafings, and excoriations of the skin and mucous membrane, or too free or offensive perspiration, it has proved most grateful and comforting. Like all others of the CUTICURA REMEDIES, the CUTICURA SOAP appeals to the refined and cultivated everywhere, and is beyond all comparison the most effective skin purifying and beautifying soap in the world.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The educational commissioners will meet this afternoon.

The Japanese conspiracy cases went over until tomorrow.

The truant officer arrested two native boys this morning.

Ah San and Ah Kuna were arrested today for having opium in possession.

The widow and children of A. L. Chaves have a card of thanks in this issue.

Maria M. Alexander is held at the police station for disobedience to her parents.

A breast plate to harness has been lost. Finder please return to American Livery stables.

Herr Pastor Isenberg will hold a German service at Y. M. C. A. hall Sunday morning at 11 o'clock.

"Our prices are right twelve months in the year and so are the goods" is what is claimed by J. T. Waterhouse.

A dividend will be paid to the stockholders of Paia plantation at Bishop & Co's. bank tomorrow, April 23rd.

Tomorrow is President Dole's fifty-third birthday anniversary. The Government band will serenade him at his Waikiki place.

This children need whole wheat bread, as it makes them strong and sturdy. Love's bakery delivers it fresh every morning.

Miss Bernice Halstead, who has been the guest of Miss Harriet Lewers for the last five weeks, left for her home at Waiakua today.

Lewis & Co., epicurean caterers, publish a receipt for Finnan Mince. They carry in stock all the best brands of table delicacies.

The Honolulu cricket team scored 117 points while the Wild Swan men made 105 points in a cricket match at Makiki yesterday afternoon.

Castle & Cooke have received their shipment of Garland and Michigan ranges and cook stoves and will have them ready to exhibit in a few days.

The story of a morning paper that the young girl who fell into a Hotel street sewer on Tuesday, had died is erroneous, according to the clerk who rescued her.

Sealed tenders will be received by the Minister of the Interior till 12 o'clock noon, Wednesday, May 12, for the construction of roads in North and South Kona, Hawaii.

Mrs. Penhallow will accompany her husband, Capt. Penhallow, of the Alice Cooke, to San Francisco, next week. Their son Harry will enter Berkeley university this fall.

The installation of officers of the P. H. Brooks', No. 1, Division, Uniform Rank, took place last evening. George P. Dennison is the new captain, succeeding Charles J. McCarthy.

An effort was made to secure the Government band for the base ball game at Makiki on Saturday afternoon, but was without success. The band will play at Emma square.

It is said that the committee upon the address of the British residents to Queen Victoria intend to have it handsomely bound in morocco and enclosed in a casket of koa or some rare island wood.

G. W. R. King, of the annexation bureau, has shown his handicraft by constructing a clock tower out of koa and white holly wood. He will present it to his daughter, Mrs. Dr. French, of Waianae.

As a result of the recent troubles between the old and new companies interested in the Chinese theater, Lau Che was badly beaten on Tuesday night. William Prestige and D. Kau were arrested today charged with the assault.

Tickets for the St. Louis College stereopticon exhibition, to be given Saturday, may be procured at Thrums' book store and from members of the base ball club. The exhibition is given to defray expenses, as the club is in its infancy.

Capt. Cotton and First Lieut. Ingersoll, of the Philadelphia, expect to be relieved in the near future. They have been expecting the order for some time and were all ready, with their trunks packed when the big cruiser was ordered to Honolulu.

The nineteen sailors who refused service on the Wilder steamer Helene, because Fitzgerald was master, are on trial in the Police Court this afternoon. J. W. Kaulla is defending the sailors and S. M. Ballou is conduct-

ROYAL BAKING POWDER

Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

ing the prosecution. The court room is filled with natives.

Mrs. A. Inveen, residing at 720 Henry Street, Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

WALTER C. WEEDON, 314 Fort St.

Your teeth need

ATTENTION

The benefit promised from the use of good tooth powder is lost through the use of

Poor Tooth Brushes.

There is as much in the brush as the dentifrice. The bristles must be permanently set and they should be of the right sort. We have solved the problem with our genuine

ALOHA TOOTH BRUSHES

made especially for us and stamped with our name. There is no brush to be found in Honolulu that has met with such

READY SALE

as this. Dentists recommend it for its quality. It penetrates the space between the teeth and in conjunction with Aloha Tooth Powder and Wash prevents the formation of tartar.

THE ALOHA

is sold only by us and has no equal.

25 CENTS EACH.

Sterling Bicycle
"BUILT LIKE A WATCH"

Ladies, Attention.

Before you decide on a wheel, examine the "Ladies Sterling."

It is by far the most graceful and the easiest running machine on the market. In fact, it is so easy to propel, that you need never get off to rest when on a long ride.

Examination invited at Household Supply Department of
CASTLE & COOKE, Ltd.

OUR CLAIM

upon your attention today will prove a safe investment for you.
