SENATE—TWENTY-FOURTH DAY.

Senator Chillingworth feels that an injustice was done him in publishing the Patterson letter without stating that it had been handed the Advertiser reporter by him. That statement is made now and to which is added: Senator Chillingworth handed the letter to the reporter early in the investigation and he was asked if it might be published. The Senator replied that it might not be courteous to the rest of the committee and before the representative of the Advertiser had an opportunity to read the letter the Senator took charge of it returning it to the reporter the next evening. It seemed fit to print yesterday.

Senator Lane was not one whose speeches during the campaign contained pledges to give to the voters what they did not then possess. But he is working on lines that tend toward having newly elected members to the Legislature redeem theirs. Yesterday he introduced a resolution requesting the Federal government to sanction the act transferring to the counties the water works now under control of the territorial government.

Senator Smith said that while he was not against the resolution it was of sufficient importance to be referred to a committee, so he would have an opportunity to examine it. Senator Lane defended the document and another Senator was overheard remarking that it was a case of "Republicans wrangling over Republican pledges."

The Governor's veto of House Bill No. 15, consideration of which was set for the day, was again deferred on motion of Senator Smith for the reason that the message was defective in that the Governor failed to state the objectionable words.

Sam Johnson was the foundation for the construction of a bill limiting the number of positions in the government service held by an individual to one. As it is Captain Johnson draws salary from Territory and County and while he is not named in the bill he stands out in bold relief as a target at which his enemies may throw stones.

Senator Knudsen wanted the report tabled but Senator Makekau said the bill would reach the deputy sheriffs who would now derive incomes for issuing marriage licenses.

Another matter of interest was the introduction by Senator Makekau of a graded income tax bill. This is the measure that past first reading by title on Tuesday.

Morning Session.

Senator Kalama presided and Rev. Mr. Lono administered spiritual comfort to the members in the absence of the regular chaplain, who was called to Maui on business.

REPORTS AND PETITIONS.

A petition from residents of Koolau asking for a government physician was read and referred to the Committee on Public Health.

Senator Smith, from the Judiciary committee, reported on Senate Bill 65, relating to payments to public accountants of claims in favor of the Territory under protest.

The bill provides that the treasurer may hold the money for thirty days, and if within that time action or proceedings are brought he shall hold the money as a special deposit pending the decision; and if the proceedings or action is not brought within the thirty days, the money shall become a government realization. We believe it desirable that such provision be made.

From the same committee the Senator reported on House Bill 105, which relates to juvenile offenders. The present law limits the age of children to be sent to the Reform school for offenses, at fifteen years. The proposed law fixes it at eighteen. The report was laid on the table to be considered with the bill.

Reporting on House Bill 123, relating to persons holding more than one position in the government, the committee says:

RICE GOT HEATED UP

Kauai Member Winces at Criticism of the Press.

HOUSE—TWENTY-FOURTH DAY.

The Honolulu press came in for some attention at the hands of the House members yesterday, the members seeming to realize of a sudden that their actions and doings were the subjects of comment.

Speaker Holstein began the matter by remarking that the press had treated Representative Gomes shabbily, inasmuch as he had not signed a committee report as stated and then voted against it. This appears to be a fact, although the members of the committee and Gomes himself thought he had signed the report until the comment in the Advertiser drew close attention to it. The neglect to sign was an oversight, but the member wanted credit for the oversight.

Rice, of Kauai, ventured the opinion that the Honolulu papers wanted to dictate the course of the government and urged the members to stand firm against such influence.

Most of the time of both the morning and afternoon sessions was taken up in sundry bickerings between members over items in the departmental appropriation bill, when Oahu found a solid array against her, and over the salary figures for some Hawaii county offices, in which the delegation from the Big Island drew party lines against themselves and fought a triangular battle, with other islanders assisting.

Incidentally the House rebuked the Senate for meddling with and spoiling one of its bills.

Morning Session.

Consideration of the departmental appropriation bill was the first business taken up by the House, yesterday morning, this bill being up for the third reading. As amended the bill carries \$1,557,465.

Rawlins offered an amendment to the item for the repair of landings and wharves, desiring the amount for Oahu made \$24,000 instead of \$13,000 as provided, pointing out that there were thirty big wharves on the Honolulu waterfront, calling for at least the larger amount.

Rice objected to amendments on a third reading. The bill was going up to the Senate and many changes would probably be made and there was the place for inserting the larger item for Oahu wharves.

The amendment was lost.

Kaleiopi made an earnest effort to secure a reconsideration of the Promotion item, to have it placed back at its original figure of \$25,000. The value of the work of the Promotion Committee for all the islands was great and worthy especially of the support of every white member of the House.

Rice thought the press of Honolulu was trying to run the Territory. It had attacked him, but he was not ashamed to go back to Kauai and explain what he had done. One day one member was attacked, the next day another was attacked, and now because the Promotion Committee didn't get all it asked for at once it attacked the members through the press. Now was the time for the members to show that they had the backbone to stand up against this outside influence.

Kaleiopi denied that the newspapers had had any influence on him and resented the slur that the House was so influenced.

Pali moved the previous question, which Hughes resented as an attempt to shut off the debate.

Kaleiopi moved for the ayes and noes. On this motion there was a tie vote at first, but the request was denied on a second call.

The amendment was lost.

The rollcall on the third reading of the bill showed eighteen ayes and ten noes, every Oahu member opposing it. DOCTORS MUST SPEAK ENGLISH.

Rawlins' medical act, which relates to the practice of medicine and surgery, the most important item of which makes English the only language in which examinations before the Board of Medical Examiners can be conducted, was read.

SMALL FARM SETTLEMENT

Nearly 25,000 Acres in the Past Four Years.

An aggregate area of 24,833 acres of public lands in this Territory were parceled out to homesteaders in 492 holdings during the four years ending December 31, 1906. The average was thus about 50 acres to each settler.

There was an increase of 100 holdings for the second half of the period, or the two years ending December 31 last, as compared with the first half. "I have taken some little interest in the matter of land settlement," Secretary Atkinson said yesterday, "and have just obtained these figures of the disposal of public lands in various forms of homesteads for the past four years."

As he handed over the memorandum, at the request of the Advertiser reporter, the Secretary remarked, "The present administration has not been altogether idle in opening the public lands to settlement." Following is the memorandum:

DOUBTFUL STATUS OF IMMIGRATION

No more steamships will be chartered by the Board of Immigration to bring Europeans here until it is definitely advised from Washington that more assisted immigrants than those now recruited may be admitted under the amended law. The third ship chartered, the Kumeric, is expected to sail between April 25 and 30 with Spaniards and Portuguese to the number of about 2000.

Governor Carter, differing from some others, believes that the President's advice to him to go ahead with European immigration until otherwise instructed carries authority beyond the charters made on which he was consulted. Yesterday the Governor suggested that he might call a special session of the Legislature to consider immigration matters should an emergency arise.

HOLLOWAY IS READY TO MEET PATTERSON

"No, it is hardly worth while to answer Patterson at present," the Superintendent of Public Works replied to a question yesterday.

"I shall answer him when he returns, before the committee, if the investigation is to go on."

Mr. Holloway, however, added that Patterson's statement that the Department of Public Works had prepared a report for Mr. Kellogg before his arrival was absurd.

"Patterson states what is untrue," Mr. Holloway further observed, "when he says there was on the plans and specifications a certain stone wall in the inner toe of the dam known as a rubble wall. There was no such thing as a rubble wall there. The specifications speak for themselves."

"I wished to cross-examine Patterson when he was before the committee but did not get the opportunity."

SUGAR MAY RISE SOON

Observers Note Lighter Receipts From Cuba.

Willett & Gray's Journal of March 7 makes the following comments on the raw sugar market:

"The improvement noted in the cane sugar market for the past two weeks continued during the week under review, reducing the difference between centrifugals and beet sugar to 38c. per 100 lbs. against 46c. last week, notwithstanding that beet sugar advanced from 8s. 11½d. to 9s. 0½d. for March delivery, with May quoted at 9s. 2½d. "Spot centrifugals are now 3.51c. per lb., duty paid, against 3.42c. last week. The equivalent of 3.55c. per lb. landed was paid for Cuba centrifugals for late March shipment."

"The advance has been so rapid for two weeks and such large quantities have been placed that a more quiet condition may intervene before further improvement sets in, particularly as refined sugar shows a less eager demand at the close."

"A fall off of 3000 tons in Cuba crop receipts for the week is significant as being the first indication of a probable exhaustion of cane in the fields of some estates. The weekly returns will be of special interest from now forward as bearing upon the outturn of the crop. We see no reason yet to change our original estimate of 1,250,000 tons."

"Cuba centrifugals have recently been offered for sale in England at 10s. floating, landing, equal to about 2c. in Cuba f. o. b., but we learn of no sales this week for shipment to Europe having been made, though a few sugars have gone forward which were sold previously."

"Canadian buyers have just accepted two cargoes of about 10,000 bags each, San Domingo centrifugals, for March shipment, at 2 1-32c., c. & f., to New York."

"At the close, the sales of Cubas are estimated at 250,000 bags and includes afloats at 2 5-32c., basis 96 deg., equal to 3.51c. duty paid, and at which we quote spots; March shipment, at 2 3-16c. c. & f., equal to 3.55c. duty paid, and April at 2½c., equal to 3.61c. duty paid."

Visible supply is thus stated: "Total stock of Europe and America, 3,826,183 tons, against 4,103,557 tons last year at the same uneven dates. The decrease of stock is 277,374 tons, against a decrease of 333,530 tons last week. Total stocks and afloats together show a visible supply of 3,926,183 tons, against 4,208,557 tons last year, or a decrease of 282,374 tons."

With regard to refined sugar the Journal says:

"While no immediate advance is likely to be made in refined it is evident from the above that the buyers who avail of the present quotations to add to their stocks to the largest extent are the ones who will reap the most benefit when the advance comes, while those who delay buying until the last moment may be left out in the cold."

"Having said there will be no immediate advance we can add that the market will show extreme strength right along and in due time be followed by several advances as was the case during the last season."

"Refiners influence on the raw sugar market will be as far as it counts, along the same lines. A good, strong feeling, with advancing tendency, but without the violent upward movement which last year carried prices of centrifugals above 4c. per lb., only to fall back ignominiously."

"A good, healthy trade, satisfactory to all concerned, is assured for this campaign."

PART CHINESE GIRL TO TAKE THE VEIL

At seven o'clock Friday morning, Miss Mary Wong Leong will take the veil, becoming a member of the Sisterhood of the Sacred Hearts of Jesus and Mary. The ceremony will take place at the cathedral, and the young woman will hereafter be known as Sister Aleida. Her father is one of the old Chinese rice planters of Oahu, having been in the islands over thirty years and her mother is a part-Hawaiian. Mr. Wong Leong has two other children, one at St. Louis College and the other in a college at Shanghai. He is a Roman Catholic.

STOCKTON, March 20.—The flood here is the worst in the history of the city.

NO TEACHERS AT THE LEGISLATIVE HEARING

There was no meeting of the Education committee of the Legislature last night to hear the opinion of the public and the school teachers concerning future legislation because no part of the public and none of the teachers appeared with either suggestions or kicks. In their absence the committee members agreed to accept the suggestions of the Superintendent of Public Instruction and let it go at that.

"We have given the teachers a chance to make themselves heard, we have advertised a public meeting and attended it, and now we don't want to hear any further kicks from the teachers about the matter," said Chairman Long of the committee last night, after he had waited until nearly half past eight for some teacher to appear. "We take it that the teachers have shown by their absence from this meeting that they have full confidence in Superintendent Babbitt, and if they have full confidence we cannot have anything else. We will recommend that his suggestions regarding the re-arrangement of salaries be adopted and the appropriation made on the basis of the list he has given us."

It will be gratifying for the public school teachers of the Territory to know that the schedule prepared by the Superintendent of Public Instruction approves in nearly all cases of a substantial raise in salary for the teachers. In some cases of nearly fifty per cent. over what they are now receiving. The schedule is based on three points: denomination of certificates, length of service and number of pupils under instruction. For length of service the suggestion is that for each three years a teacher has been in the employment of the government he or she shall receive \$5 a month additional.

The schedule puts the majority of the salaries back to where they were before the cut of twenty per cent. was made and then adds the additional amount for length of service. This is not done all the way through, for some teachers have been receiving increased salaries since the cut. The idea is, however, to bring the whole salary question to a uniform basis on the three points stated.

The total amount which will be asked for salaries at this session amounts to approximately \$766,000, an increase over the last biennial period of nearly \$269,000.

FARMERS ARE AIDED

(Continued from Page One.)

"We do not see any special need for this bill, but as there does not appear to be any important reason why it should not be enacted, we recommend its passage."

The report was laid on the table to be considered with the bill.

The Judiciary reported on Senate Bill 49, relating to responsibilities of innkeepers. The report says in part:

"After consultations with certain of the prominent hotelkeepers of the city, at whose instance the bill was introduced, the committee recommend that the bill be amended by striking out Sections 1 and 2 and substituting the word 'Act' in place of 'section' in line 4 of Section 5; and that Sections 3, 4, 5 and 6 be respectively numbered Sections 1, 2, 3, 4; and further that the title of the bill be amended by striking out the words 'liabilities' and so that the title shall read 'An Act to establish the rights of innkeepers and like persons with respect to baggage and property of guests.'"

"With these amendments we recommend the passage of the bill."

From the Committee on Ways and Means Senator Dowsett reported on Senate Bill No. 70, relating to additional appropriations for the use of the Department of Public Works. The report says, among other things:

"The first four items are for services rendered to the department, and the last item is to reimburse Mr. C. S. Holloway for payment by him for completing payment to the Hawaiian Gazette Co. for printing report of the Bureau of Agriculture and Forestry, the cost of same having exceeded the original estimate."

COUNTY TO CONTROL.

Senator Lane at this point presented his resolution on water works as mentioned above. Senator Coelho favored the adoption on the ground that the counties have been discriminated against. The resolution, after considerable discussion, was referred to the Judiciary committee.

BILL INTRODUCED.

Senator Smith, under suspension of the rules, gave notice of his intention and later did introduce a bill providing for the exercise by counties of the right of eminent domain for certain public purposes.

The bill passed first reading by title.

PASSED THIRD READING.

Senate Bill No. 55, procedure in the method of increasing capital stock.

House Bill No. 24, relating to sprinkling streets by Rapid Transit Co., between its tracks.

House Bill No. 51, relating to the conviction for lesser offense when a greater is charged.

House Bill No. 53, relating to the amendment of certain revised laws.

House Bill No. 8, relating to the publication of statements of copartnerships.

SECOND READING.

House Bill No. 11, relating to estates. Referred to the Judiciary.

House Bill No. 18, authorizing the use of typewriting machines in making records. Referred to Miscellaneous committee.

House Bill 120, relating to registry of corporations, was referred to the Judiciary committee.

Senate Bill No. 71, providing for a graded income tax was referred to the Ways and Means committee.

Senate Bill No. 72, providing that lepers shall be exempt from property, personal and special taxes. Referred to the Judiciary committee.

Senate Bill No. 65, amending Chap. 104 of the Revised Laws and providing for payment to public accountants for claims against the Government.

House Bill No. 105 relating to juvenile offenders.

House Bill No. 123, amending Sec. 18, Chap. 7, Act 39, relative to persons holding more than one office.

Senate Bill No. 49, relating to the responsibility of innkeepers.

PASSED FIRST READING.

Senator Chillingworth, under suspension of the rules, introduced two bills amending the County Act.

Senator Dowsett, No. 74, making additional appropriations for departmental uses.

MAUI TEACHERS.

Senator Hewitt, from the Education committee, presented a report on Petition No. 18, from the teachers on Maui. The report advised returning the petition to the signers, a committee of Maui teachers. Senator Lane moved to adopt. Senator Smith asked that the petition be read, which was done. He then said that while the language was offensive he did not believe it was intentionally so.

Senator Makekau also moved adoption of the report with the addition that the petition was returned with the compliments of the Senate.

Coelho voted against the adoption. Recess was taken at 11:25 until 2 p. m.

Afternoon Session.

Senate Bill 44, drawn for the benefit of the small farmer, in that it exempts lands used in certain industries from taxation, was called for third reading. Pineapples had been stricken from the bill on second reading, but through the efforts of Senator Smith, the word was reinserted and the same Senator moved to further amend by adding "not exceeding 200 acres."

There was a brisk fight over the measure, Senator Dowsett opposing further aid to an industry like pineapples that has gone beyond the ex-

perimental stage. Senator Woods supported the bill, he having had letters from Hawaii asking that pineapple item be reinserted.

Two senators were absent when the vote on passage at third reading was taken, the vote standing six to four. Senator Knudsen spoke in favor of the bill and Senator McCarthy demanded that the absent members, Senators Coelho and Lane, be sent for. When they took their seats they both voted aye and the bill passed third reading. Those voting no were Senators McCarthy, Gandall, Dowsett and Chillingworth.

House Bill No. 94, relating to the practice of medicine, passed first reading by title.

SCHOOL MEASURES.

Senator Hewitt from the Committee on Education reported on Senate Bill 65 as follows:

"Section 206 of the Revised Laws of Hawaii, which reads, 'All schools established and maintained by the department in accordance with law are public schools. All other schools are private schools.' The amendment provides that all other schools established and conducted in compliance with law are private schools."

"Your committee therefore recommend the passage of the bill."

On Senate Bill 67 he rendered the following: "The object of the bill is to amend section 211, Revised Laws of Hawaii, and provides that any school where English is not the basis and medium of instruction is not a public or private school under the provisions of the chapter, and attendance at such school shall not be considered a compliance with law. Your committee consider the amendment to be proper and recommend that the bill pass."

Both bills passed second reading. Senator Kalama expressed a wish that standing committees report promptly on the bills they have in hand. The Senate then adjourned until today.

RICE GOT HEATED UP

(Continued From Page One.)

The rollcall showed no opposition to the bill.

PENSION ACT QUESTIONED.

Long's bill creating a pension fund for retired public school teachers was read. Before the vote Rawlins asked the introducer if he had considered the constitutional aspect of the bill. The more he looked into it the less he was sure of it and he wanted more time for consideration.

The bill was accordingly laid over until Wednesday afternoon.

House Bill 62, which provides for boosting the Hawaii county official salaries, was up for third reading. Nallima, the introducer, asking for its withdrawal.

The bill was accordingly tabled.

The speaker gave out the information that to date the House had drawn of its Federal appropriation \$5,007.56 and the Senate \$2,461.10.

House Bill 143, amending Section 165 of the Revised Laws, relating to judicial circuits, was read for the second time and went to the Judiciary committee.

Afternoon Session.

Three House bills were returned yesterday from the Senate, all having passed without change. These are Bill 81, relating to the publication of statements of copartnerships; Bill 53, relating to quo warranto writs, and Bill 51, authorizing a verdict for a lesser offense than the one charged. Senate Bill 55 was also sent in for consideration and House Bill 24, the bill requiring street railway companies to sprinkle certain portions of the street, was returned passed.

The Miscellaneous committee recommended placing \$20,000 in the appropriation or loan bill for extending Judiciary street from Nuunuu to the Pacific Heights electrical station.

THE GOVERNOR'S VETO.

The message of the Governor criticizing the drafting of an amended coroner's law and vetoing the same was reread for consideration.

Rawlins explained that the bill was amended in the House after being reported on by the Police committee and was further tinkered at by the Senate. If the Senate spoiled it he would like to know it and asked for the Senate report.

Correa said that the law was one which ought to stand on the statute book. The present bill, however, had been mangled by the Judiciary committee of the Senate, who had amended the body of the bill and left the heading unchanged, making the bill faulty. In concurring with the Senate amendment the bill was not read in full in the House. The veto of the Governor was proper and should be sustained, but a similar bill should be again sent up for signature without the disqualifying features.

The veto was sustained by a unanimous vote.

THE BILL RE-ENACTED.

Correa then presented another similar measure, remedied as desired by the Governor, and a first reading was immediately given, the measure being placed on the order of today for immediate action.

INFORMATION WANTED.

A resolution was put in by Kalama asking the Superintendent of Public Works to tell how much had been spent on the Waialuku waterworks for permanent improvements and how much for Lahaina to date; what the receipts for each had been and how much had been spent on current expenses for each for the past two years.

SALARY JUMPING.

The House went into committee of the whole on the county officials' salary list, Sheldon making the first move in asking for a reconsideration of the Maui auditor's pay, which he

wished to make \$1800. It had been placed at \$2000 and the cut was allowed.

Nallima and Rawlins resumed their debate over the county attorneyship of Hawaii, which the Hawaii representative wanted to pay for at the rate of \$3000 a year. He objected to the Oahu member chipping in on a Hawaii measure anyway. He knew what Hawaii needed and wanted more than Rawlins did and asked that his amendment making the pay a proper one be passed.

Rawlins put Nallima on the witness stand and shot a score of questions regarding traveling fees and Supervisors' salaries for Hawaii. Rawlins stated that if the Supervisors paid mileage to themselves they could also pay it to the County Attorney and not put it in his salary.

Akai agreed with Rawlins.

The item stood at \$2400. Sheldon asked for consideration of the county clerk of Kauai's salary, which was passed at \$1800.

Sheldon moved to make the pay of the Kauai treasurer \$1800, which passed.

The pay of the Ewa deputy sheriff was made \$1500, but the other deputies of Oahu and Hawaii were left untouched.

For Maui, Pali boosted the deputies for Lahaina and Hana, while Nakalika got \$720 for the Molokai deputy.

SUPERVISORS' RAISE STANDS.

Rice asked for a reconsideration of the Supervisors' salary, to put it back to \$600. Kaleiupu objected to the motion, Rice having voted previously in the minority, whereupon Rice withdrew his motion.

Akai asked that the pay of the county clerk of Hawaii be put back to \$2100, something vigorously opposed by Nallima. He had had experience in the office and knew the arduous duties to be done.

Moanau expressed his surprise at the fickleness of the House, discussing something they had settled the day before. The question should be settled by the office, not by the officeholder, be he white or black. To change the figure now would be a childish act. In reference to the Hawaii member who wanted the cut the speaker made a reference to the betrayal of Christ by Judas.

Pali rose and a motion to adjourn was made for, but general surprise was felt when he began to make a speech, objecting to any member dragging Maui into this question.

Kahana, of Hawaii, favored cutting the pay to \$2100.

Kaleiupu and Nallima then fought it out, much of their debate being flung back and forth in Hawaiian too fast for the interpreter. Both members bristled up and looked fierce, while the chair had to make the Home Ruler sit down and allow Kaleiupu to finish. Kaleiupu's argument was that so long as the Hawaii representatives could not agree they should not be surprised at the other members getting into the fight.

The matter finally got to a show of hands, after an hour's debate, and was put back to \$2100.

Kahana asked for a reconsideration of the salary of the auditor of Hawaii, which had been placed at \$1800. The request was turned down.

The items of the salary bill, as amended and passed yesterday are: county clerk, Hawaii, \$2100; county clerk, Kauai, \$1800; county attorney, Hawaii, \$2400; county attorney, Maui, \$1800; county attorney, Kauai, \$2100.

Treasurers: Oahu, \$2400; Hawaii, \$2000; Maui, \$1500; and Kauai, \$1800. Deputy Sheriffs of Oahu: Honolulu, \$1800; Ewa, \$1500; Waianae, \$900; Waiakua, \$1200; Koolauloa, \$900; and Koolaulapo, \$900.

BIG SALVAGE CLAIM ON SHIP LOCH GARVE

In a libel in admiralty filed in the clerk's office of the United States District Court late yesterday afternoon, the Inter-island Steam Navigation Company claims \$32,500 as salvage against the British ship Loch Garve for services in pulling the latter off the reef at Kamalo, Molokai. Smith & Lewis are proctors for libellant.

On March 4 the Loch Garve, Captain Ritchie, from the Nitrate Ports for Honolulu, mistaking Kamalo Point for Diamond Head, was picked up by the Inter-island steamers Iwaland and Likelike and the Spreckels tug Intrepid having lines on her at the time.

BIG RACE IS TAKING SHAPE

Six Entries Already Received
For Next Transpacific
Contest.

The great transpacific yacht race of 1908 is rapidly taking shape and promises to completely eclipse the last race in point of interest.

Secretary Petrie of the Hawaii Yacht Club is in receipt of the following, outlining the conditions governing the race:

The South Coast Yacht Club of Los Angeles, California, offers two valuable cups for an ocean yacht race from San Pedro, California, to Honolulu, Hawaii, starting June 11th, 1908, conducted under the joint auspices of the South Coast Yacht Club and the Hawaii Yacht Club.

This race is open to all yachts of not less than 40 feet waterline length, belonging to any regularly organized yacht club of any country, without restrictions as to rig, number of crew (professional or amateur) or sails, but no motive power other than sails shall be used. Time allowance will be given, based on one-half hour per foot of racing length for the entire distance, racing length to be the load waterline length, plus one-half the length of the overhang.

All the conditions surrounding such a race as the one proposed are ideal, strong, steady, fair winds, without gales or fog, being the almost invariable climatic condition at that season. Entries or requests for information should be sent to the secretary.

W. H. McInerney, a member of the regatta committee, is enthusiastic over the race.

"I should like to see Hawaii represented by a suitable craft in next year's race," said he yesterday. "If necessary the boat might be built by public subscription. It would be a world of benefit to us from a promotion standpoint."

"The South Coast Yacht Club is putting up all the cups and will stand all the expense of the race. Already six entries have been received and several more are expected. Seattle and Port Gamble will each enter a yacht and the South Coast and Royal Vancouver Yacht Clubs will be represented by two boats apiece. The Port Gamble yacht will be a 70-footer. The New York Yacht Club may again be represented by the Anemone."

"This race cannot fail to do Hawaii a deal of good. The last race cost us \$200 and the visiting yachtsmen drew on their exchequers while here to the amount of \$3000 all of which they left here. If it hadn't been for La Palma's forced stay at the Coast on account of the earthquake, the expense bill would have been considerably less."

Mr. Hammond of the South Coast Yacht Club, and at present in Honolulu with the Los Angeles excursionists, said the other day that the Ohio's excursion was made possible in large measure by the last ocean race, which was an immense advertisement for Hawaii.

The race, said Mr. Hammond, gave yachting on the Pacific Coast a tremendous impetus. The South Coast Yacht Club increased its membership fee after the race, but in spite of this has recruited 75 new members, mostly easterners.

AUSTIN TAKES WEEKLY SHOOT

Spalding Is Runner Up in the
Hawaiian Gun Club's
Event.

The second shoot for the weekly challenge cup of the Hawaiian Gun Club was held yesterday afternoon at the Kakaako traps, the results being as follows:

D. L. Austin, 18 out of 20.
I. Spalding, 16 out of 21.
J. W. Harvey, 15 out of 20.
Dr. J. S. Call, 14 out of 20.
A. Waterhouse, 12 out of 27.
G. A. Jordan, 9 out of 25.
J. A. Young, 9 out of 27.
E. Kopke, 7 out of 20.

A very strong and irregular wind prevailed during the shoot.

Austin, who took first place, shot in very good form.

Dr. Call, with his handicap, should soon prove a winner.

ENTERTAINMENT FOR SATURDAY EVENING

A musical and literary entertainment will be given Saturday evening at the San Antonio hall on Vineyard street under the management of the Olympic Athletic Club.

NATURE PROVIDES FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

LYDIA E. PINKHAM

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

A MORNING PAPER.

"RUNNING THE LEGISLATURE."

The common recourse of an official, who is caught doing something that he shouldn't and is exposed in the press, is to complain that the newspapers are trying to "run" him or his office. In this way he expects to get sympathy and a longer lease of time for his own schemes. Legislators who are shown up in print are quick to make this turn and the gentlemen from Kauai are no exceptions to the rule. Mr. Rice, who has engineered a combination to down Oahu and hurt Hawaii in respect to tourist and other matters, declaimed violently on this subject yesterday. The press, he said, "was trying to run the Legislature;" and he advised his fellow-members to "stiffen their backbones and not allow themselves to be influenced by the press or the Promotion Committee"—all of which meant that Mr. Rice hoped to fool the native members into letting him run the Legislature in the interest of the feudal junta that sent him here and of which he is a part. So far as we know the press has done nothing to justify this criticism. It represents public opinion which, in a democracy like this, is entitled to have its full say. It advises from the point of view of the greatest good to the greatest number, but it keeps its hands off the machinery of Legislatures and of the other departments of the government. It "runs" nothing but itself. We feel, however, that, as between legislation for the Territory dictated by Kauai, in the interest of its own reactionary spirit and legislation for the Territory directed by progressive newspapers the latter would be the more beneficial. At least nothing would be done to force Hawaii back fifty years in the course of progress. Running a Legislature on such lines is an enterprise which needs Kauai spirit, not news-spirit, behind it.

How firm a grip Kauai has on the situation was shown yesterday by the defeat of the motion to reconsider the previous vote on the Promotion Committee bill. Maui and Hawaii, which seem to have been bound hand and foot to the Kauai chariot, helped in this unhappy enterprise. One may partially understand Maui, which has not availed itself greatly of the tourist opportunities; but nothing can explain the position of the representatives of Hawaii, an island, the tourist and settler interests of which are so looming up that a railroad is being projected to open the interior, Alexander Young is looking for hotel opportunities there and more Hilo steamers are being programmed. It is the firm belief of this paper that, if the work of the Promotion Committee is now checked that some of these good things will not materialize. Why should they? If tourists are no more to be sought, why should Mr. Young open a Hilo hotel and why should the Volcano House be enlarged? And if the bars are to be put up against home-seekers, why should Mr. Dillingham try to serve anybody but the plantations with his projected railroad?

It strikes us that public opinion on the big island had better assert itself pretty soon and tell its representatives here what is expected of them. They evidently don't know. Their impression seems to be that they were sent here to protect Kauai and incidentally Hawaii and the rest of the group from the American invasion. Any idea of public duty on their part is a matter to be referred to Mr. Rice. One might think that he had elected them and given them power of attorney to act in all matters for Kauai first.

PERHAPS AN OLD DODGE.

This city has no direct reason to doubt the good faith of existing steamship lines, which promise to provide ample transportation facilities between here and the Coast, but one thing Honolulu has always observed: The moment a new steamship enterprise comes into view the old companies fairly stutter promises of enlarged service. Then when the new people are frightened away, nothing more is said or done.

A year or so ago when Honolulu merchants were negotiating for a steamship of their own, the whole sky grew rainbow-hued with romances about the Sierra going on the local ferry and an American-Hawaiian passenger boat likewise. Did anything come to pass? There did. The merchants dropped their own project and the old companies were heard to chuckle as they renewed their schedules. Today there are fewer steamers serving Honolulu than there were before.

It may be merely a coincidence that the announcement of a Los Angeles plan to put a steamer on between San Pedro and Honolulu is at once followed by signs of progress on the part of the A-H. Perhaps it is true that the A-H line will crowd these waters with floating palaces. The Advertiser hopes for the best and the most for Honolulu; but out of the depths of this town's hard-bought experience it urges the Los Angeles people, if they see a chance for a remunerative trade with Honolulu, to reach out and take it. Honolulu will meet them half way.

Representative Rice opposed the amendment because, while he favored supporting the Promotion Committee, he objected to that committee's policy of attacking the House through the press because it did not get everything it wanted.

—Star Report.

The Advertiser has received no request for support from the Promotion Committee directly or indirectly, nor has it acted by previous or present arrangement or understanding with that body. If the Legislature were half so independent of the Kauai crowd as the Advertiser is of the Promotion Committee, a great deal more, than is now possible, would be accomplished for the common good.

The officers and men of the navy who participated in the engagements fought during the Spanish American war in the waters of the West Indies are entitled to the West Indian campaign medal, which Congress has authorized the Secretary of the Navy to have prepared in commemoration of those engagements. All those entitled to a medal who have not received one or heretofore applied for one may obtain the decoration by applying to the Chief of the Bureau of Navigation, Navy Department, Washington, D. C., inclosing his discharge papers from the service. These papers will be immediately returned to the owner. In all sixty-five naval vessels took part in the actions in the West Indies, and the crews of all of these are entitled to the medals.

The voters on Hawaii ought to quickly instruct their Representatives here that the interests of the big island lie with those of Oahu by preference to Kauai. Both counties are in the tourist business and are anxious to get immigration and capital. Hawaii, in the present stage of its development, and closely related as it is to Oahu capital and enterprise, can not afford to join in any combine against this county, least of all one which represents the policy of isolation which has kept Kauai behind every other island of the group.

There is America, which at this day serves for little more than to amuse you with stories of savage men and uncouth manners, yet shall, before you taste of death, show itself equal to the whole of that commerce which now attracts the envy of the world.—Edmund Burke, (1729-1797.)

That interesting prophecy was made several years before the Ship Subsidy bill was beaten.

An excursion steamer of a fine type, running from San Francisco to Los Angeles and San Diego, thence to Hilo and Honolulu and back to San Francisco and the other two California ports, ought to be able, at fair passage rates, to do a large business.

There were thirty women, seven children and twelve babies at the wharf yesterday to weep over the departure of one Mormon Elder. It will be a proud day for Salt Lake when it hears what advances the church is making in these parts.

A "lunetta" (from luna, the moon, and Etta, one of the girls who promenade) is so romantic a moonlight affair that one can hardly understand the prosaic Honolulu custom of holding it in the afternoon.

It is not likely that the Pacific squadrons of Admiral Brownson's fleet will combine for maneuvers until the Central American troubles are over.

Advice to the country members: Don't be Chinamen. Don't all swallow Rice.

NICARAGUA MAY ABANDON WAR

WASHINGTON, March 10.—Complications affecting the United States' relations with Nicaragua have arisen which may cause President Zelaya to abandon his belligerent attitude toward sister republics. Because of the treatment at the hands of Zelaya, William L. Merry, Minister to Nicaragua, Costa Rica and San Salvador, has complained to the State Department. His complaint relates to the way the Government at Managua has met his efforts to obtain arbitration of the claims of several Americans. Zelaya, it is declared, rejected Merry's proposals and a quarrel ensued. Merry charges the Nicaraguan government with delaying some of his cablegrams.

Reticence is maintained by officials as to the action to be taken, but the incident has given this Government an interest in seeking redress from President Zelaya, who may feel obliged to stop his hostile operations against Honduras to make peace with this Government.

Concerning the general situation in Central America, the representative of one of the republics in Washington said today that in his opinion there would be no settlement of the difficulty between Nicaragua and Honduras until the republics became seriously involved in war, when it would be found necessary for the United States or Mexico to end the conflict.

Guatemala, contrary to reports, does not wish to become involved in the quarrel, and will not join Honduras in an alliance, Senor Toledo, Guatemalan Minister here, has received a dispatch from his Government saying that Guatemala will "keep hands off."

SPEAKER CANNON AND THE LUNATIC

The Hon. Joseph G. Cannon, Speaker of the House of Representatives, was riding in a street car in Washington, D. C., says Harper's Weekly, when an elderly man, with a nervous manner and rather wild look, entered the car and took the seat next to him. Thereupon ensued a conversation which is thus reported in the paper named:

After a short time the man, turning suddenly on Mr. Cannon, demanded, "Do you know what I am going to do?"

"No," replied Mr. Cannon. "I am going to have all the bones of my ancestors collected, mounted with silver, and hung on the walls of my room," said the man.

"I would not do that," said Mr. Cannon.

"Why?" demanded the man. "Well," replied Mr. Cannon, "you can not expect to live more than twenty years at the most, and when you die all the bones of your ancestors will be thrown out in the ash-barrel, and you would not like that."

"No," said the man; "I never thought of that. I'll have to think that over." After a few moments the man again addressed Mr. Cannon in the same manner.

"Do you know what I am going to do?"

"No," replied Mr. Cannon. "I am going to dig a hole in the earth one hundred miles deep and three miles in circumference," said the man.

"I would not do that," replied Mr. Cannon. "Why?" demanded the man. "Because you can not tell what you would find so far down in the earth," replied Mr. Cannon; "besides, you would be worried to death by the labor unions."

"I never thought of that," said the man. "I'll have to think that over." After a slightly longer period of silence the man once more addressed Mr. Cannon.

"Do you know what I am going to do?"

"No," replied Mr. Cannon. "I am going out West and sink one hundred thousand artesian wells all over the plains," said the man.

"I would not do that," replied Mr. Cannon. "Why?" demanded the man. "Because," replied Mr. Cannon, "I know you do not wish to injure any one, and as water is scarce supply of you would cut off the water supply of many cities and towns."

"I never thought of that," said the man. "I'll have to think that over." They both left the car as it was nearing the Capitol, and the man remarked, "You and I don't seem to agree."

"The other passengers had greatly enjoyed the conversation, and one of them remarked to his neighbor, 'Which of those two old gentlemen was the crazier?'"

But his neighbor gave it up.

AN EXPENSIVE LESSON.

Managers and clerks in large department stores of necessity have to deal with all kinds and classes of people, and they often have most amusing experiences, owing to the peculiarities of their customers, says the Philadelphia Record. While waiting for an exchange at the silk counter in a Market street establishment yesterday, a clerk told a West Philadelphia shopper a story which she has since been circulating among her circle of friends. "An uptown customer," the clerk said, "last week had six yards of a most expensive silk sent C. O. D. The next day the package was returned to us, and upon it was written: 'Returned. I was only teaching my daughter how to shop.'"

MR. HOWARD'S LITTLE JOKE

Threw Bomb Into a Chinaman's Stove Merely for a Lark.

H. Howard was invited by Judge Whitney yesterday morning to explain just what useful end was served when he dropped a bomb into a Chinaman's stove, the explosion wrecking it.

Howard looked sheepish and said that he had done it for a lark. The Judge, remarking that it was close season for larks, fined the practical joker \$20 and costs.

John Williams is a hack driver and like Jehu, the son of Nimshi, at times drives furiously.

The other day he had a fare who was in a hurry to catch a train. At the corner of King and Liliha streets a number of people were transferring from one trolley car to another.

Williams wanted to go slow but the fare abjured him to whip up his horse and get a move on. The driver did as he was bade, cut a swath through the crowd and left one man lying on his back in the mud.

Proceedings ensued and yesterday in the District Court, Williams had sentence suspended for thirteen months and was advised to in future go slow.

Mannuel Pace cut out too hot a pace in the booze stakes and was mulcted \$3 and costs.

M. R. Robinson got a like dose for a like offense.

Swift, also too speedy with the bottle, paid three big bucks into the county coffers.

Charles R. Main, a son of the raging main, and who incidentally got raging drunk, had sentence suspended for sixty days in order to enable him to get a ship.

"There's many a slip twixt the jug and the ship," remarked His Honor, sotto voce.

Wee Willie Crawford, charged with running a paikau game last November, was discharged on an opinion of not guilty, rendered by Judge Whitney.

"What's this 'pie cow' thing, anyhow?" enquired Crawford after leaving the courtroom. "I know something about pies and a little about cows, but a 'pie cow' gets me."

A FAREWELL TO FATHER ADALBERT

LIHUE, March 19.—Reverend Mr. Isenberg on Monday night entertained at dinner in honor of Father Adalbert, who is leaving Kauai in order to recuperate on the mainland. Those present were Father Julien, the new parish priest; Messrs. Weber, Fisher, Mahu, Sheriff Rice, Arthur Rice and Roerich.

The Lihue band, a creation of the Father, serenaded during the evening and presented him with a check for the purchase of a suitable present.

During a stay of eight years among us Father Adalbert has won the esteem of all classes in quite a marked degree and the necessity of his leaving here is greatly regretted.

The usual series of noonday services for men under the auspices of the Brotherhood of St. Andrew, will be held this year at the Y. M. C. A. hall. The services will be from 12:05 to 12:25. A short address will be made by a clergyman or layman from one of the churches.

WORKS WONDERS

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently.

Jacob Heasong, farmer, living at the corner of East Twenty-eighth street and Keely avenue, Portland, Oregon, says: "In recommending Doan's Ointment to those who suffer from hemorrhoids I can only repeat the statement I made some three years ago. I had suffered from this trouble for some years, and in hot weather it was a great worry to me. I could not sleep at night. Other preparations having given me little or no relief, I finally began using Doan's Ointment and it required only a few applications to bring soothing and healing relief. The facts above stated are as I told them just after my first trial of the remedy. I think just as much of the preparation today."

Doan's Ointment is splendid in all diseases of the skin: Eczema, piles, hives, insect bites, sores, chilblains, etc. It is perfectly safe and very effective. Very frequently two or three boxes have made a complete cure of chronic cases that have not yielded to other remedies for years.

Doan's Ointment is sold by all chemists and storekeepers at 50 cents per box, or will be mailed on receipt of price by the Hollister Drug Co., Ltd., agents for the Hawaiian Islands.

RHEUMATISM CAN BE CURED.

There is no disease which inflicts more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is therefore a bold statement to make but Chamberlain's Pain Balm, which enjoys an extensive sale in this country, has met with success in the treatment of this disease wherever it has been tried. One or two applications of this liniment will relieve the pain and hundreds of sufferers from this disease testify to permanent cures by its use. For sale by Benson, Smith & Co., Ltd., Agents for Hawaii.

Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is available to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

Sold by druggists.

MANY REASONS

There are many reasons why you should take Hostetter's Stomach Bitters in preference to all other remedies, but the main one is because it has never failed to cure any case of Stomach, Liver or Bowel Complaint in its 50 years' experience.

Hostetter's Stomach Bitters

has therefore proven beyond all doubt the many claims made for it. Try one bottle and let it demonstrate its ability to cure you of

Nausea, Dyspepsia, Indigestion, Constipation, Kidney and Liver Troubles, or Malaria, Fever and Ague.

Delicate Wash Goods

Serial Story No. 25

The thin, delicate ladies' wash-goods, such as Shirts, Skirts, Negligees and Underclothing is not worn out on your person. It is the continual washing. It is the laundry. It is not so much the way your clothing is handled, but it is the soaps, bluing and starches that work ruin. Now because we launder hundreds of these garments weekly we naturally know the best materials to use to give the best satisfaction to the patrons. We would not think of using soap containing a bit of lye on ladies' clothes. We would never dream of using the common bluing of commerce. We know by analysis starches that contain acids—and we do not buy them. We keep studying and experimenting all the time, in a scientific manner, how to launder. Don't you think it would be safe to entrust us with your work?

VIEW OF A LOS ANGELES VISITOR

Anticipates Good Results From Excursion—Too Much Sugar Here.

Charles H. Kelle, of the German-American Real Estate and Investment Co. of Los Angeles, who is on the Ohio excursion with his wife, said to an Advertiser reporter at Kapiolani park:

"This excursion is likely to lead to great things.

"Our Chamber of Commerce people, having seen Hilo and the Volcano and Honolulu for themselves, can recommend tourists to come to these islands.

"A great many tourists come to Los Angeles purely for pleasure and a change of scene. They think they cannot go any farther in this direction, unless they are going round the world. If there was a steamer to take them to these beautiful islands, so that they could make the round trip at a moderate cost within a few weeks, there would be a steady run of tourists from Los Angeles to Hawaii.

"Southern California would send a large amount of its products here if there was direct steamer communication, and no doubt would take a lot of Hawaiian products in return. Hawaii can produce a fine quality of tobacco I know, for I have just been smoking a Hawaiian cigar.

"It is a pity you have so much good land tied up in large tracts in the hands of corporations. The land here is too good to be taken up altogether with sugar. I think there are other products which could be raised more profitably."

H. E. PICKER IN THE BRINY DEEP

Garden Island—H. E. Picker came down a week ago last Friday to look after the Kauaians and help them to get insured if they are not. He thought he was ready to start in working the island at once, but he was mistaken. A couple of days before leaving Honolulu he went on board the Andrew Welch to see a friend off and intended to go ashore in the tug which towed the vessel out of port. To get on board the tug he had to be transferred from the vessel to it in a small boat, but on attempting to enter the latter he got his right leg between the boat and the side of the vessel and got it badly jammed. The swell at the same time carried the boat away and Mr. Picker was precipitated into the brine. He dived under the vessel in order to avoid being knocked on the head by the small boat and had to swim around in the blue Pacific for a quarter of an hour before he was fished aboard again. This little adventure did not deter Mr. Picker from starting out on the business trip of Kauai that he had previously planned. Arrived in Lihue his leg began to ache, however, and he soon found that he would have to consult a physician about it. Dr. Putnam said that while it is not a dangerous affair in its present state, it might easily develop into something very serious, and recommended that he stay at the hospital for a few days in order to receive the proper care. This advice has been followed, and Mr. Picker is now at the Lihue Hospital, but hopes to be out again in a day or two.

TRIPLE DROWNING AT WAIMEA, KAUAI

A triple drowning occurred at Waimea, Kauai, on the 16th, Saturday last, two of the victims losing their lives in attempting rescues. The dead are Mrs. Akiona, wife of Waimea's well known poi manufacturer, a young Chinese woman, who had been married only a few weeks, and a little Chinese boy, a son of Akiona. The accident occurred in a deep hole within the breakwater of the Waimea river, caused by the waves breaking over the protecting wall and washing out the bank.

The little boy was the first to fall in and his call for help brought the young woman to his rescue. In attempting to draw the boy out the woman herself fell in, the bank caving beneath her feet. Mrs. Akiona, who had also hurried to the rescue, then jumped in to save the two, but the water-hole was beyond her depth and she too was drowned.

At the point where the drowning happened the breakwater is low, allowing the waves to overwash it and destroy the neighboring lands. To remedy this by heightening the wall a bill is before the Legislature at the present time, backed up by Representative Sheldon, of Waimae.

Use Carnation Cream for your breakfast food and your dish of strawberries. It is delicious. Sold by Henry May & Co., Ltd.

POLICE DOING SPLENDID WORK

Arrests for First Two Months of Year Outnumber Those of 1906.

The good work done by the police department during the months of January and February is strikingly shown by the following summary of criminal arrests made by the police throughout the County of Oahu during the months mentioned:

The total arrests for the two months amounted to 889, an increase of 247 over the corresponding period of 1906. Of the total arrests 313 were for gambling; 157 for drunkenness; for violation of the liquor law 24, and 393 for various other infractions of the statutes.

In the disposition of cases, 639 convictions were secured, 209 discharged and 41 pending. The fines and costs imposed aggregated \$3547.70, and \$480 in bail money forfeited.

The arrests were distributed as follows: Honolulu, 790; Koolauapoko, 2; Koolauloa, 1; Wai'alua, 56; Wai'anae, 0; Ewa, 40.

NERVE FORCE

Nervous prostration, nervous exhaustion, neurasthenia, are all caused by lack of nerve force.

To restore impaired vigor and give nerve force neurologists prescribe a tonic to feed the nerves, give them the strength they need and build them up.

Paine's Celery Compound has been for over 19 years the standard nerve tonic of the world.

Read the formula and the statements of the medical authorities and you will understand just how and just why it is.

Paine's Celery Compound contains no alcohol no cocaine, no opium, no harmful drugs of any nature. It has stood the test of generations.

I Make Men Strong

I am a builder of men.

I can take any weak, puny man and make him like a Sandow. Of course, I can't make a Hercules of a man who was never intended by nature

to be strong and husky. I don't mean that.

But I can take a man who started with a fair constitution and before it got fully developed began tearing it down. That fellow is weak, nervous, slow, poky, lacking in vim, ambition and self-confidence. I can make a man of him in three months, so that his own friends won't know him.

Every man who is weak and "going back" knows that there ought to be something that will restore that old "steam" to his physical body. He has tried the usual drug method and found that a fizzle, and yet he knows there must be something.

I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps and make him feel like a Sandow in no time. It's the spice of life.

ELECTRO-VIGOR

is a dry-cell body battery which gives a powerful current of electricity without the necessity of charging in vinegar or acid. Wear it while you sleep and feel its exhilarating sparkle in your nerves, its vitalizing glow in your blood, and after you have enjoyed a month of its use you will feel the return of your youthful strength.

FREE TO MEN.

To any man who will mail me this ad. I will send prepaid, free, my 100-page illustrated book in which I tell how I restore strength with electricity. Don't wait a minute. Send for this book now.

While thin hair and baldness are undesirable for men, they are vastly more so for women. Nothing adds more to the adornment of women than rich, heavy, flowing tresses. The hair is too valuable to allow it to suffer from neglect. So just as soon as you notice that your hair is coming out you should use

Ayer's Hair Vigor

It checks falling of the hair promptly. This feature of Ayer's Hair Vigor is now recognized as most marked, and has brought to this preparation a world-wide reputation. You cannot possibly have a splendid head of hair when the scalp is covered with dandruff. We urge upon all who are in any way troubled with dandruff to begin the use of Ayer's Hair Vigor at once. Do not be deceived by cheap imitations which will only disappoint you. Make sure you get AYER'S Hair Vigor.

Why Spend Money on Shortening?

Why buy cooking butter of doubtful value, or greasy, unhealthy, hog lard, when you can get better cooking results with

CARNATION CREAM

(Sterilized)

Ordinary milk contains about 3 per cent of butter fat. Carnation Cream contains 8 1/2 per cent. It will make your cooking richer, more digestible and more nourishing, besides affording a material saving in shortening. You can buy Carnation Cream from your grocer. Make him get it for you if he hasn't it already in stock.

Try it in making "Butter Biscuits" for tomorrow's supper. You'll have the daintiest, most tempting biscuits imaginable, and will need but half the usual amount of butter.

READ THE ADVERTISER
WORLD'S NEWS DAILY.

With many Portuguese in her steerage accommodations, the S. S. Alameda departed yesterday morning for San Francisco. There were over 200 Portuguese to depart. The majority of the Portuguese passengers were old residents of the islands but they are going away to accept better paying jobs on mainland fruit ranches. A few of the Portuguese who arrived by the S. S. Suverio also departed.

A great many passengers departed in the cabin. Among those who left were Mrs. H. J. Woolcott, Miss Woolcott, Percy H. Booth, Mr. and Mrs. Phillip Forve, Mrs. J. Maier and Mrs. Innis Maier who had come down by the Ohio.

Oliver H. Bybee, a prominent leader of the Laie Mormons, was a departing passenger. He wore many leis and was attended by many women, to the edge of the gang plank.

A number of well known Honolulu people departed, among them being W. H. Hoogs and family.

A. A. Crook, the former commissioner in bankruptcy, left to settle in San Francisco.

H. P. Wiehman was a departing passenger.

Dr. and Mrs. Humphris were departing passengers.

The Alameda took the usual assortment of island products. She is due in San Francisco next Tuesday.

AMERICAN-HAWAIIAN FLEET.

The S. S. Nebraskan of the American-Hawaiian S. S. Company is expected to arrive here March 26 from San Francisco with mainland passengers. The S. S. Nevada is also to return the next trip with passengers as a passenger license will have been secured for her by that time. The S. S. Missouri and S. S. Maine, the newly purchased vessels of the line, are reported to have passenger accommodations of about 60 cabin and 500 steerage. The Missouri is expected out here in about a month. The company has put out from four to five million dollars, for new steamships within the last year, as three are now in the course of construction on the Pacific coast.

OHIO SAILS FRIDAY.

According to plans yesterday the S. S. Ohio was scheduled to depart at 4 p. m. tomorrow from the Naval wharf for San Pedro on the return voyage with the members of the Los Angeles Chamber of Commerce Excursion party aboard. She is loading about 300 tons of sugar from S. G. Grinbaum & Co. The sugar will be discharged at San Pedro and be shipped to some refinery from that place. Some of the passengers, who arrived by the Ohio, departed yesterday by the S. S. Alameda for San Francisco.

LEPROSARIUM BIDS.

Mail advices received by Lucas Brothers from a surety company of New York, stated that the bids on the United States leprosarium were as follows: John Duggan, \$129,562; Lucas Brothers, \$180,592, and H. De Fries, \$204,000. Dr. Brinckerhoff, who will have charge of the leprosarium when

SUMNER'S ADVICE.

William E. Chandler, former Senator from New Hampshire, and now president of the Spanish Treaty Claims Commission, has been in public life since 1802 and has known about everybody who has been contemporaneous with him in that time. He has known all the Presidents, with the exception of Buchanan, since Pierce.

Mr. Chandler was seventy-one years old a few weeks ago and was talking to some friends. "The best political advice I ever had," he said, "I got from Charles Sumner. I was walking to church one Sunday in Washington, and I met Mr. Sumner, who was driving an old-fashioned carriage.

"Where are you going, Chandler?" he asked me.

"To church," I said.

"Put it off," Mr. Sumner insisted, "and get in here with me. I am going out in the country for a picnic."

"I got in with him and we drove out to Surrattsville, saw the Surratt house and ate our luncheon by the side of the brook. As Mr. Sumner was discoursing to me he suddenly turned and said: 'Chandler, where do you live?'

"I live in the Fifth Ward of Concord, New Hampshire," I replied.

"Well," he said, "let me give you this advice: Never lose your hold on that ward. Always have it so you can be sent to the State convention or the State legislature from that ward. The control of the home place is the secret of success in politics."

"And," concluded Mr. Chandler, "I always kept my hold on the Fifth Ward of Concord."

Managing Director—Well, and what are your qualifications for the post of night watchman? Applicant—Well, sir, for one thing, the least noise wakes me up.—Bystander.

Angler—Hang it! Is there a dry spot in this boat where I can scratch a match? Boatman (who has been disappointed as regards refreshment)—Try my throat, sir!—Punch.

MAGNIFICENT FORENSIC BATTLE IN ADMIRALTY

An attempt to get a rope placed at the bottom of the harbor, at least in evidence, so as to prove it never was there, was the occasion of a battle royal in the Federal court yesterday afternoon. Messrs. McClanahan and Derby for the Pacific Mail Steamship Co. were putting on rebuttal to the defense of the North American Dredging Co., owning the libeled dredge Pacific, and Messrs. Watson, Stanley and Frank were heading them off at every turn.

Judge Dole repeatedly ruled that libelant could not on rebuttal adduce proof that there was no other wire cable than that mooring the dredge which could have fouled the steamship Siberia's propeller and caused the damage of \$30,000 worth claimed. Mr. McClanahan contended, a score of times, that his side had a right to rebut an "inference" left by Captain Miller's evidence that the old hulk Mokoli had been moored by a wire cable in such position and at such a time, as to make the cable liable to have been the one that wound itself around the Siberia's propeller. He was allowed to try on one question after another, John Young of Young Bros. being the witness, but Reporter Deas was kept as busy striking out as he was taking down the evidence.

Mr. McClanahan part of the time paraded up and down carrying in his hand a section of twisted and jagged wire cable—a fearsome looking weapon—as he almost plaintively expressed his certain conviction that, in the argument, Mr. Frank would drag that Mokoli wire rope up out of the ooze and shake it in the face of justice. That is why he wanted to prove that there was no such rope in the way of the Siberia's propeller.

Altogether it was as fine a forensic battle, on both sides, as has been fought in a local court for some time. There was withal no loss of temper at the bar, while Judge Dole exhibited a patience that merited his canonization.

RICE AND HIS WORK FOR KAULAI

"Do you think I am sent here to see our island slighted?" said Hon. C. A. Rice, of Kaulai, yesterday, referring to the share spent on Kaulai out of the total of \$958,036.17 expended from the Loan Fund and explaining his actions in the House in reference to items of appropriation and expenditures.

"Here are the figures," continued the fighting member from the closed island. "The Territory has had expended \$372,029.86 out of \$861,160 appropriated from the new loan fund bill; Maui has drawn of this amount \$7,900, Hawaii \$19,722, Oahu \$29,907 and Kaulai only \$184.75.

"For our island \$46,500 had been appropriated from the loan fund and there are not even contracts drawn for any part of this amount, while existing contracts call for \$256,495 for the other islands.

"Do you think I am here to allow Kaulai to be slighted and overlooked like this? All the satisfaction I can get from the Department of Public Works is that there is no money spent because of the orders of the Governor. The Governor is a resident of Oahu and he sees that a good share of the Oahu appropriation is spent.

"He tells me that new appropriations will have to be made now for our public works. He tells me that he has plans for \$50,000 of the available cash balance of \$150,000 on hand, but he refuses information as to where this amount is to go.

"Now I have some rights on my side over these appropriation items and I am going to fight for this right until the Governor sees fit to give some good reasons why Kaulai's money has not been spent. Why, even that amount of \$184 was spent on Kaulai by accident, the Public Works Department starting in and doing that amount before the Governor called them off."

BOY'S LONG JOURNEY.

A Grecian boy, 10 years old, whose name requires twenty-three letters in the spelling of it, arrived in St. Louis, name and all, last week, after journeying alone more than seven thousand miles. When he reached the Union station there was a tag on his coat which showed that Konstantinos Argeropoulos (the name) was bound for the home of his father, Nicholas Argeropoulos, No. 413 South Broadway. "and would the officials please see that he reached his destination?" Konstantinos was unable to speak a word of English, but he received much attention on the train from Boston to St. Louis, and kind passengers fairly overrode him with good things to eat. The boy sailed from the Piræus, Greece, about three weeks ago.

WOUNDS, BRUISES AND BURNS.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the usual treatment. Chamberlain's Pain Balm is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. SOME CRIMINAL BUSINESS DONE

Young Gambler Departs---Lee Let Must Stand Trial ---Court Items.

Two cases of larceny in the second degree were nolle'd for Alfred Freitas, and on his plea of guilty to being present at a gambling game sentence was suspended for thirteen months by Judge Robinson.

Freitas has been a rapidly advancing young criminal. It is reported that he has left for San Francisco in the Alameda.

Kekapa, for whom L. M. Straus was counsel, changed his plea to indictment for conducting a gambling game from not guilty to guilty and sentence was suspended for thirteen months.

Lee Let's demurrer to the indictment for bribing an executive officer, which F. E. Thompson presented on his behalf, was overruled and then he pleaded not guilty. His trial will come in its order.

The trials of Yong Kee, assault and battery, and Ah Chong, selling liquor to minors, were continued until Wednesday next.

County Attorney Cathcart appeared for the Territory in the foregoing cases.

SHIP BURNING ATTEMPT.

In the case of Jacques Guerre and C. Ahrens, malicious burning in the first degree, in trying to burn the British ship Claverdon as alleged, Messrs. Straus and Lightfoot, their respective counsel, individually moved for a separate trial for each defendant. Deputy Attorney General Prosser opposed the motions, but after argument Judge Robinson granted separate trials.

Guerre's trial was set for 10 o'clock this morning and when it is concluded that of Ahrens will immediately follow.

As life imprisonment is the maximum penalty for the offense charged, Monsieur Guerre is entitled to twelve peremptory challenges of jurors. It may therefore take a while to obtain a jury for his trial.

Judge Robinson's jurors are required to be in court at 10 o'clock this morning.

AFTERMATH OF BOOM.

Honolulu Iron Works Co. has brought an action against Wong Kwai as endorser of two notes made by the Maui Sugar Co., on which \$212 and \$411.97 respectively are claimed as unpaid, with 8 per cent interest on each amount from about the middle of 1902. The Maui Sugar Co. was a Chinese enterprise which started in the boom times of 1899, but it came to grief from lack of water among other obstacles.

THE CAMPBELL WILL.

Still another Campbell will case has been instituted. Complainants are Abigail K. Campbell Parker, Joseph O. Carter and Cecil Brown, executrix and executors and trustees under the will and of the estate of James Campbell, deceased. Respondents are Abigail K. Campbell Parker, her children and grandchildren, devisees, legatees and heirs of decedent.

The bill recites all that has been done regarding the will until now, including the recent decision of the Supreme Court which left some things undecided. Its principal prayer is that an adjudication be made by the Circuit Court as to the several matters in respect to which doubts and uncertainties, specified in the bill, have arisen and a decree be made settling the construction of the will and directing the complainants in what manner they shall carry the trust thereof into execution, so as to enable them to execute the trusts properly and with safety to themselves.

DIVORCES GRANTED.

Judge Lindsay granted a divorce to Samuel Apolonia against Maraea, Ake Apolonia, on the ground of adultery.

The same judge granted a divorce to Chiyoni Fujita against Iukuzo Fujita, on the ground of extreme cruelty.

COURT ITEMS.

A general denial is the answer of Kaimuki Heights Zoo, Ltd., to the complaint of H. W. Adams, who sues on a claim for salary.

In Jenks v. Bulletin it is stipulated that the stenographic report of F. W. McDaniel's deposition may be used at the trial without having been read to or signed by the witness, subject to all objections for other reasons.

William M. Flack has discontinued his replevin suit against Harry T. Mills, administrator of the estate of H. E. Highton.

Judge De Bolt has entered judgment for defendants, with costs of \$11 taxed against plaintiff, in the title quieting case of Pekelo Kapamau v. John Hao, John Hao, Jr., Haka Puahi, Killnaha Puahi, Annie Kamao and Kapoia Kakeikini.

Lahapa Kauhi has filed an amended petition that Albert Waterhouse be appointed administrator of the estate of her late husband, A. Kauhi, consisting of land at Ewa valued at \$1000 and \$130 cash in bank.

CHAPIN CASES CONSOLIDATED

Judge De Bolt So Decides but Plaintiff Appeals From Him.

Judge De Bolt rendered a written decision yesterday on the motion of E. M. Watson for defendants to consolidate the damage suits of Walter C. Weedon against C. W. Chapin and Mrs. C. W. Chapin of New York for injuries sustained by plaintiff in Kapiolani park from the approach of an automobile, in which Mrs. Chapin was having an outing, to a horse that plaintiff was riding. It was a nervous horse and the rider was thrown. The question of consolidation as now raised is a novel one here.

These are two separate and distinct actions in trespass, the court says, now pending and set down for trial on a day certain. The facts involved in each are the same and constitute one transaction only. Also, as shown by the respective complaints, as well as by the admission of counsel, the actions were instituted on the theory that the defendants were joint and several tortfeasors, against whom a joint action, instead of these several actions, could have been brought and maintained. Each of the actions must necessarily depend upon the same witnesses and the same evidence. The same counsel appear in each action. The motion under consideration is based "on the ground that said actions are of a like nature and arise out of the same transaction and that such consolidation will avoid unnecessary cost and delay."

A. Perry and A. G. M. Robertson for plaintiff, objected to the consolidation on the grounds that plaintiff had the absolute right to sue both defendants jointly or each separately, and having elected to pursue the latter course he now has the further right to prosecute each action separately before different juries. They also urged that the court had no power to order the consolidation and to require the parties to submit the issues involved in the two actions to one and the same jury.

Judge De Bolt quotes authorities, one of which says "there are instances in which thirty or forty actions have been consolidated into one." He also discusses the Hawaiian statutes bearing on the question, which plaintiff claimed were inapplicable to these cases, and he decides the motion in substance as follows:

"Correctly speaking, the actions under consideration are not to be consolidated but simply tried together. The rights of all parties can be as well guarded and protected in one trial before one jury as in two trials before two juries. Whatever could or can be properly and legally presented as a claim or defense in separate trials can likewise be presented in the trial of the two cases together."

"It is further urged that the motion can not be granted because the actions are not between the same plaintiff and the same defendant. This point, as it seems to me, is not well taken, inasmuch as the parties to these actions might have been the same if plaintiff had sued defendants jointly."

"The adoption of this rule tends to prevent unnecessary litigation; it will lessen the cost and save time also, and is supported by reason and authority."

"The consolidation will violate no statute and will be in harmony with the common law rule, as well as tend to facilitate and promote the administration of justice."

"A formal order, if desired, consolidating the two actions for trial before one jury at one and the same time, will be signed on presentation."

Counsel for plaintiff have filed exceptions to the order of consolidation, so that the question will go to the Supreme Court.

AMONG PINES

Los Angelenos Visit Wahiawa
and Top Day Off With
a Dance.

About a hundred of the Los Angeles visitors visited the pineapple lands at Wahiawa yesterday, going down on a special train and returning in the afternoon.

A pineapple lunch was served by Mrs. H. C. Brown and every visitor who cared to brought a souvenir pine home with him.

The tourists expressed great surprise at the extent of the industry and were much interested in the dam.

Nearly fifty Los Angelenos took in the Pall yesterday, instead of visiting Wahiawa. Some went to the great precipice for the first time while others made their second visit.

Last night a dance in honor of the visitors, at the Moana hotel, was largely attended, both by visitors and town-folk. The Hawaiian band and a quintet club were in attendance and the affair was a brilliant one.

Today the visitors will be allowed to do as they please and many of them, will, it is safe to say, be glad of the chance.

Tonight there will be a dance at the Seaside hotel in honor of the visitors, at which the Ellis quintet will render the music.

The S. S. Ohio will sail to-morrow at 4 p. m., with the Los Angeles crowd aboard.

Several of the visitors left by the S. S. Alameda yesterday, including: Percy H. Booth, Mr. and Mrs. Philip Forve, Mrs. J. Maier, Mrs. H. J. Woodlact, and Miss M. Woodlact.

Some of the party will remain here till the S. S. Ventura sails and a few may remain in Honolulu indefinitely.

BAND CONCERT THIS
EVENING AT AALA

At 7:30 this evening there will be a public band concert at Aala park:

PART I.

March: "Prosit"..... Kunoth
Overture: "The Spring Queen"..... Bigge
Intermezzo: "Cherry"..... Albert
Selection: "Popular Airs"..... Mills

PART II.

Vocal: Hawaiian Songs, arr. by Berger
Selection: "Pantana"..... Hubbell
Waltz: "Filipino"..... Andrew
Final: "Molokama"..... Berger
"The Star Spangled Banner."

LOCAL BREVITIES.

One of the items in the next campaign of the Central Improvement committee is to secure the keeping of sidewalks clean.

Dr. Brinckerhoff is making changes in the plans of the proposed leprosy sanatorium on Molokai, if possible to bring construction within the appropriation. The plans were based on the cost of material and labor two years ago. It was intended to appropriate \$75,000 to buildings and \$25,000 to equipment. The bids were as follows for construction alone: John Dugan, \$129,562; Lucas Bros., \$180,582; H. De Fries, 294,000.

A petition is being circulated by the Henry Waterhouse Trust Co. asking the Superintendent of Public Works to appoint a road jury for the purpose of condensing Bishop street extension, the opening of which is a requisite condition of having the Mahuka land selected as the site of the Federal building. Meanwhile memorials for the gore site—bounded by Palace square, King, Alakea and Merchant streets—are merrily circulating.

A second-hand Jubilee brooder is wanted. See our classified ads, for particulars.

FINAL JOLLITY
AT THE SEASIDE

The farewell dance to the Los Angeles tourists will, no doubt, be largely attended tonight by the general public to help speed the parting guests. The beautiful open dining and dancing lanai will have on its best dress of multi-colored electric lights and the green lawn stretching down to the sea will be a scene of beauty with its Japanese lantern effects.

The Ellis glee club will furnish their best orchestra for the dancing and during the dinner preceding the dance.

A special dainty dinner will be served at 6:30 at the popular price of one dollar, for those who wish to dine in the open lanai facing the sea, which will be cleared for dancing at 8:30.

A special arrangement will be made for late car service tonight.

LOOK OUT FOR THE
FIRST OF APRIL!

The Honolulu Brewing & Malting Co. have concluded not to put out their Bock Beer until the proper season, April 1. They believe the public will better appreciate it at that time. They will on that date offer to the public the best Bock Beer that has ever been put on this market.

FOUNDED IN HONGKONG.

No doubt you have seen in the papers such announcements as this concerning some medicine or other: "If, on trial, you write that this medicine has done you no good we will refund your money."—Now, we have never had reason to speak in that way concerning the remedy named in this article. In a trade extending throughout the world, nobody has ever complained that our medicine has failed, or asked for the return of his money. The public never grumbles at honestly and skillfully made bread, or at a medicine which really and actually does what it was made to do. The foundations of WAMPOLE'S PREPARATION are laid in sincerity and honour, the knowledge of which on the part of the people explains its popularity and success. There is nothing to disguise or conceal. It was not dreamed out, or discovered by accident; it was studied out, on the solid principles of applied medical science. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. This remedy is praised by all who have employed it in any of the diseases it is recommended to relieve and cure, and is effective from the first dose. In Anemia, Scrofula, Nervous and General Debility, Influenza, La Grippe, and Throat and Lung Troubles, it is a specific. Dr. Thos. Hunt Stucky says: "The continued use of it in my practice, convinces me that it is the most palatable, least nauseating, and best preparation now on the market." You can take it with the assurance of getting well. One bottle proves its intrinsic value. "You cannot be disappointed in it." Sold by all chemists everywhere.

ENCOURAGING NEWS OF FRANK L. WINTER

With reference to a report published yesterday afternoon that Frank L. Winter's condition was very serious and that he was not expected to live, the Advertiser has been informed that the latest cablegram as well as letter received by Mrs. Winter from her husband's physician was very encouraging. Mr. Winter, who is chief office deputy of the U. S. Marshal here, left for the Coast two months ago to receive special treatment for Bright's disease with complications.

The steamer Likelike arrived yesterday morning from Hawaii ports. She departs at 4 o'clock this afternoon for Makawili.
