

FEAR KINGSTON WILL SLIP INTO SEA

SCARCELY A BUILDING IN KINGSTON STANDING

(Associated Press Cable to The Star.)

LONDON, England, January 17.—Dispatches from Kingston, Jamaica state that the police of that city estimate the dead at 1200. Several hundred persons have been injured. Ten thousand people are homeless. Scarcely a building in the city has been left standing. The greatest damage was that done by the fire that followed the earthquake. There are but two ruins left in the harbor. The shores of the harbor are sinking. It is feared that the city will slip into the sea. One battery at Port Royal has been sunk. The total loss to property is estimated at \$25,000,000. Earthquakes were reported from Austria and Switzerland on Monday.

STEAMSHIP OFFICE BESIEGED BY PROSPECTIVE EXCURSIONISTS.—TWO HUNDRED SHOCKS OF EARTHQUAKE FELT IN PAHALA, HAWAII, SINCE MAUNA LOA OUTBREAK—TWO BOATS MAY BE SENT TO ISLAND OF VOLCANIC ACTIVITY ON SATURDAY.

Two hundred earthquake shocks, writes Postmaster T. C. Wills of Pahala, Hawaii, to a Honolulu friend by the mail brought this morning by the S. S. Claudine, have been experienced in that section of the big island since the outbreak of Mauna Loa a few days ago.

There are signs of continued volcanic activity on Hawaii and reports of the grandeur of the spectacle of Mokuaweoweo is taking a large number of people to the office of the U. S. S. Co. to engage passage for the prospective

To Appraise The Land Wanted In Exchange For Lanai

THE LAND COMMISSIONER HAS ASKED FOR THE VALUATIONS OF THE LANDS OFFERED IN EXCHANGE FOR THE LANAI LAND—A COMMISSION OF BUSINESS MEN HAVE BEEN APPOINTED TO APPRAISE THE PROPERTY.

A commission has been appointed by Land Commissioner Pratt to appraise certain lands in this city which some time ago were mentioned as the property which the government desired in exchange for the Lanai lands. This commission has been instructed to appraise the lands and report to the government at their earliest convenience. While it is not known definitely it looks very much as if the government officials were going ahead with all preparations for exchange in spite of the decision rendered by Judge De Bolt last week. The government officials seem very confident that they will win in the

Supreme Court, and they seem to be going ahead in preparation for such a ruling.

The committee will appraise the lands within a few days and send their report to the Land Commissioner.

Land Commissioner Pratt said that the appointment of these appraisers was not wholly or solely in the expectation of winning the Lanai land case. If the injunction was made permanent, they wanted an appraisal of these lands which are needed principally for school purposes as a basis for presentation to the legislature of the needs of the schools and to ask appropriations for those needs.

TRYING TO CURE LEPERS WITH EUCALYPTUS EXTRACT

DR. GOODHUE RESIDENT SURGEON AT THE SETTLEMENT IS MEETING WITH FAVORABLE RESULTS FROM USE OF A NEW CHARACTER OF BATH—JAPAN MAY SEGREGATE LEPERS—DOUBTFUL ABOUT THE X-RAY.

A new remedy for the cure of leprosy is being tried at the Leper Settlement. The remedy is something that Dr. Goodhue, the attending physician has discovered, and thus far, the reports of its use have been very favorable. The properties of the new remedy are of a cleansing and healing character. Strange to relate, the natives at the Settlement who are afflicted with the disease, have shown a decided desire to try the new remedy. The result of the treatment has been that those affected have reported themselves as feeling greatly improved. Their sores have appeared better and there have been visible results in healing.

Extract of eucalyptus is the remedy Dr. Goodhue has steamed the leaves and twigs of the Australian gum tree and extracted the oil. This oil is diluted and in certain quantities is put into hot baths, into which the patients taking the treatment, are placed. The experiment has been in progress for about two months and Goodhue feels very much encouraged with the results. There has not been a sufficient length of time for trying the remedy to enable any definite results to be announced regarding it. The results are said to surpass those of the Goto treatment, the remedy discovered by a Japanese physician who was formerly in these

islands. In fact, the eucalyptus baths have displaced the Goto treatment entirely. Little reliance is taken by local medical men in the X ray treatment for leprosy. It is not being attempted at the settlement. The effects of the X ray are sometimes too injurious to warrant the local people attempting such a treatment until after more complete reports will have been received from the medical people who are using it with cases of leprosy elsewhere in the world.

According to a report that has reached Honolulu and President Pinkham of the local Board of Health, Japan is considering the advisability of segregating her lepers. Heretofore Japan has ignored the existence of the Unclean in her midst, at least so far as attempting any segregation of them was concerned, but more recent study of the methods adopted by other nations in handling the afflicted, has, it is reported, resulted in the Japanese deciding to follow the example of Hawaii and other countries. This report is not, however, official. Should the report prove correct, it will be of more than usual interest in the Hawaiian Islands, as a number of former residents are living in Japan owing to their being lepers.

BIRBE OFF TO THE COAST

Henry C. Birbe, the politician, etc., etc., et al. is to shake the dust, or to be more explicit the mud, of Honolulu from his shoes. He will indulge in that operation this afternoon when the oil tank steamer Rosecrans departs for Monterey, California with the barge Monterey in tow. Birbe will be among those also present when the pair of tank vessels depart.

The occasion of the departure of Birbe from the midst of Honolulu strife and turmoil has been the cause of much interest. The former political scrapper of the Fighting Seventh, has been busy all day with his friends and acquaintances. To some he has said farewell, to others aloha and to still others "go to the devil." He has run the gamut of parting greetings from His Excellency the Governor clear down the line to the most humble of his acquaintances. Birbe will depart with letters of introduction from famous Honolulu people to famous San Francisco people, to notorious Honolulu people, to notorious San Francisco people. But whether he presents them or not, Birbe will be able to make his way in Frisco, for he is one that Butchertown part of San Francisco that escaped the ravages of the fire, claims for her own.

Hedemann Gets Million Dollar Mill Contracts

MANAGER HEDEMAN OF THE HONOLULU IRON WORKS RETURNS FROM JAPAN HAVING BEEN AWARDED THE CONSTRUCTION OF TWO LARGE SUGAR MILLS FOR THE FORMOSA SUGAR COMPANY—FIGURING ON THIRD MILL—WORK TO BE DONE HERE.

Honolulu has a million dollar contract for sugar mills in Formosa.

Manager C. Hedemann of the Honolulu Iron Works this morning returned from Japan in the P. M. S. S. Korea, accompanied by A. G. Hawes, who has been assisting him and he has signed contracts with the Formosa Sugar Co., a Japanese organization, to construct two large up-to-date sugar mills on the island of Formosa.

Negotiations for a third mill are pending. The cost of the structures and machinery already contracted for will exceed one million dollars and if the third mill is arranged for, the total cost will approach \$1,500,000.

The mills will be about the size of the Waialua mill on this island. They are to be delivered about the end of the present year.

Mr. Hedemann was seen this morning as he left the Korea and asked concerning his mission in Japan. Mr. Hedemann had the following to say:

"I was called to Japan, as you know, in regard to the construction of several large sugar mills for the Formosa Sugar Company. Plans and specifications were submitted and we entered our bids, the contract for the construction of two mills about the size of the mill of the Waialua Agricultural Company, being awarded to the Honolulu Iron Works. A third mill is desired and we are figuring on that now."

"I am not at liberty to go into the details of the plans and specifications for I do not believe that it would be agreeable to the Japanese interests, but I can tell you that the mills will in every way be most modern."

"We will need a superintendent to go to Formosa to look after the work of erection of the mills. I will select a man from Honolulu. I have a suitable man in mind, but do not care at this time to say who he is. There will be no labor called in from the outside on the work in hand. It has always been our policy to use local labor and this occasion will prove no exception."

"Nearly all the construction will take place at the Honolulu Iron Works here. There will be some machinery which will have to come from New York. According to the time of the contract this will have to be shipped from New York about the first of November. About the first of December this year, we will have everything in readiness to ship from Honolulu. The contract calls for the completion of the mills, ready for operation, by the first of April, 1908."

"There will probably be other mills to be erected in Formosa."

CLAUDINE GETS GLIMPSE OF GLOW

INTER-ISLAND BOAT REPORTS WEATHER TOO DENSE TO SEE MUCH OF THE REFLECTION.

Clouds obscured any possible distant glimpse of Volcanic fires on Hawaii while the S. S. Claudine was making her calls on the trip completed at 3:24 o'clock this morning by arrival at Honolulu. Last night a brilliant glow was to be observed in spots but the density of the atmosphere was not favorable to any heavenly reflections of Pele's blushes. The Claudine experienced rather a rough trip outward, but has no complaint concerning homeward weather.

Last Saturday the Claudine was 12 hours making the run from Hana to Hilo, a distance of 83 miles. She was bucking a norther all the way.

THE ERUPTION OF MAUNA LOA GREATER

WIRELESS MESSAGES SHOW THAT THE ERUPTION IS INCREASING INSTEAD OF ABATING.

The following messages were received yesterday from Hawaii relative to the outbreak on Mauna Loa. According to indications the lava flow is increasing rather than decreasing.

KONA, January 16.—The eruption of lava is increasing. Only one flow has reached the sea. The old flow of 1887 is covered. The new flow extends over thirty-five miles of waste land. No lava has yet reached the Kona district. There were earthquakes at Hilo today. The weather is clear.

STACKER.

HILO, January 16.—A big party from this city visited the lava flow on the steamer Kauai today. Two persons landed and waited to the southerly flow which is now two miles from the sea. It is moving thirty feet an hour, is fifteen feet high and half a mile in width. The other flows, further north, have reached the sea and are very active. No signs of cessation.

HILO, January 16.—Kauai's excursionists report a great sight at Puuk, where two lava flows are visible. They are yet about a quarter of a mile from the sea and show no signs of stopping. Three small flows have started higher up the mountain.

SMALLPOX IN CHINA.

SHANGHAI, January 17.—Smallpox
has broken out among the famine re-
fugees gathered at Sianking and three
hundred thousand of the destitute peo-
ple are returning to their homes, fleeing
from the disease. Terrible scenes of
suffering mark the retreat of the re-
fugees.
At Sianking the number of people in
distress is reported to be two hundred
and fifty thousand and at Antung four
hundred thousand people are starving.

TERRITORIAL ESTIMATES

Through the courtesy of the Executive, we are able to give the esti-
mates of the different department heads of the Territorial government for
the next biennial period, ending June 30, 1908, comparing them with the ap-
propriations passed by the Legislature, in 1905, for the two years ending on
June 30 next. The aggregate amount asked for the new period is approxi-
mately \$1,452,000, against which is an estimated revenue of \$1,200,000, thus
leaving the Governor a prancing of \$252,000 to do before he can submit to the
Legislature a budget that, in his opinion, will meet the needs of the Territo-
rial administration, and yet come within the income. The figures follow:

* Decrease.

Increases of salaries are sought in all departments with the exception
of the Survey office, the Board of Health and the Auditor's office. But more
than half of the larger amount asked comes under the item of \$175,700 for
the Department of Public Instruction, which means a return to normal sal-
aries for the teachers. Without known in the special reasons that have in-
spired the request for an addition of \$6,000 under the Department of Public
Works, and of \$46,200 for the Bureau of Agriculture and Forestry, the amounts
seem large enough to warrant careful scrutiny as to the need for such in-
creased or additional salaries. Such scrutiny they will undoubtedly receive.
In some instances we believe that salaries should be advanced especially in
the cases of competent officials, who have families, and whose expenses have
been increased by the higher level of prices for household commodities that
prevail throughout the United States.

In the matter of large appropriations for departmental expense accounts,
the Department of Public Instruction again comes to the front with a request
for \$270,000 more than it received during the current fiscal period. The addi-
tion to the Survey Department's fund could well be used in aiding in the
settlement of the lands of the Territory, which would also suggest a larger
increase than the \$2,400 asked for by the Land Office if the work of the one
is to keep pace with the other. If the added amount for the Board of Health
\$24,600, will prevent a recurrence of appeals to the people for special collec-
tions in emergencies. It should be approved by the Legislature, for there is
nothing more undignified than for a public office to seek private contributions.

The Governor's ideas of the estimates of his department heads will be
gathered from the manner in which he eliminates the \$360,000 that will bring
expenditures within the revenues, Trans-Pacific Trade.

BOARD OF HEALTH HELD A MEETING

DISCUSSED THE QUESTION OF
CARE OF INDIGENT SICK—OR-
ED LEPER REPORT PRINTED.

A meeting of the Board of Health
was held yesterday afternoon. The
question of the care of indigent sick
was discussed. It was decided to have
this matter dealt with in a special
report by President Pinkham as his
regular report for the legislature has
to go to the hands of the printer with-
out further delay. It was decided to
authorize the printing of a special re-
port with half-tone pictures of the
Kalihl receiving station and the Mo-
loka Settlement.

President Pinkham said that he de-
sired to have the reclamation scheme
for the Waikiki section laid before the
legislature, even though that body
might not take any favorable action
on the matter. There was some dis-
cussion of the pure food law. Pinkham
said that he had given a copy of the
laws to Food Commissioner Duncan. It
was also stated by the president that
nothing had come of a recent dispute
with the liquidators people.

Dr. George Herbert's appointment to
the Board of Examiners of Lepers was
confirmed on recommendation of Pink-
ham.

Some members of the Board thought
that the matter of the government
physicians caring for the indigent sick
should be discussed at a special meet-
ing and such action may be taken.

President Pinkham called attention
to the withdrawal of the use of the
police patrol wagon in conveying sick
people about the city. There was no-
body but the morgue attendants in the
health department to attend to this
work and they had had to work over-
time recently. It was not fair to ask
them to work overtime without extra
pay.

D. Kalauekalan made his first ap-
pearance as a member of the Board.

President Pinkham made a report set-
ting forth the net increase and de-
crease for his department that would
be touched on in his request for appro-
priations. A total of \$30,530 would be
required. This increase would be for
the next two years.

Following is the remainder of Presi-
dent Pinkham's report:

"It is not uncommon for persons
traveling on transports to stop off and
endeavor to settle or seek employment
in this Territory, nor does it follow be-
cause a man was in the United States
service that government is always re-
sponsible for him.

"I find Israel Lam, in 1899 and O. W.
Wilson, in 1906, arrived on transports
and in one and three months respective-
ly became insane. Wilson had not
been in the service of the United States
for some time, having been discharged
in Manila.

John McCall Porter became insane
after three months residence in Hono-
lulu. We have no further record.

resident of Honolulu returned from a
short stay on the coast, expecting to
marry, but found her intended had
been sent to Molokai, became insane
and was committed.

Two Japanese became emotionally in-
sane one and two weeks after arrival.
They will probably recover.

The only case that apparently is
clearly an imposition is that of Frank
Willis, a sailor from the ship Arthur
Sewall, insane on her arrival from
Japan April 15, 1901. What the equities
are by law I do not know. It is doubt-
ful if we have an enforceable recourse.

The six months report and resume of
eighteen months will be this week ready
for transmission to the Governor. We
are invariably held back by informa-
tion necessary to complete our tables
of vital statistics.

Two errors were made in tenders for
supplies which the bidders request the
Board to correct.

Charles A. Mann presents a protest
relative to the award of the paid bid.
However, I have seen the real party
in interest and he makes no objection
of moment and drops the matter.

The report, herewith presented, of the
Insane Asylum for the last quarter of
1906 shows an increase of two patients.

I present the report of the Inspector
of Buildings, Plumbing and House Sew-
ers.

The report of the Chief Sanitary for
December is presented as is the report
of the Free Dispensary.

Owing to the departure of Dr. W. H.
Maya a vacancy existed in the Board
of Examining Physicians for Lepers,
which, under authority delegated I
have tendered Dr. George Herbert who
retired when the membership of the
board was reduced from six to five, I
request his confirmation.

There has been so much misconception
of the Kalihl Receiving Station and
Leper Settlement on Molokai that I
have prepared a pamphlet of some nine
pages of description and thirty-five half
tone pictures which I desire to have
issued. The few human figures are not
distinguishable. The pictures are al-
most altogether of buildings. I believe
its issue almost imperative for the right
understanding of the problems we have
to meet.

No Fears Of War

The refusal of the House to include an item of \$100,000 for coast batteries for Hawaii, is a pretty clear indication that there is no great fear of war with Japan felt on the mainland. Even a cursory reading of the mainland press must lead to the same conclusion. Whether there ever was any danger of a war or not growing out of the San Francisco school matter, there certainly has been little fear of it, or belief that it would come, expressed in the mainland papers. These have published a great deal about the Japanese question. They have discussed it from every point of view, and points of view have differed as widely as it is possible for views to differ on any subject. But almost without exception throughout the mainland press utterances on the subject there has been no intimation of fear or expectation that there would be war. There have been many expressions of regret if war should come, but these have all been coupled with the most positive assurances of belief that war would not come.

The Star from the beginning of the Japanese agitation has held and expressed this view, that there was no danger or probability of war between the United States and Japan. December 1, before the President's Message had thrown the lime-light on the matter, The Star said editorially: "There is no sound reason to believe that the peace of the world or the friendship existing between the United States and Japan, has been jeopardized." On December 4 The Star characterized as "morbid" the fear expressed that anything Hawaii did within her rights was likely to cause or aid in causing war.

December 5, The Star, speaking editorially of the Raynor Resolution, said: "The two things, the Raynor resolution in the Senate and the Kahn resolution in the House, are the effective guarantees that the Japanese Government will not be precipitated into war with the United States by any number of fierce and thoughtless patriots of the peasant Kodama type."

December 6, The Star said editorially: "As the head of the nation, of course it is the President's duty and desire to maintain the friendly attitude which has always existed between the United States and Japan. * * * No doubt also the President will be able to maintain those friendly and cordial relations. There does not seem to be any great or insuperable difference between the two countries. If the courts decide that the San Francisco action is wrong, that will be the end of it. If they decide that it is not wrong, then it is a matter for diplomatic negotiation, and involves no question that could by any possibility be a just cause of war."

December 13, again speaking editorially, The Star said: "Whether there is war or not will not depend on anything we do or omit to do, nor is there any probability of it for the next few years at any rate."

While The Star has never faltered in its belief that there was no likelihood or probability of war with Japan, and has iterated and reiterated its belief, it is at least pleasant to know that that belief is shared by most of the principal journals of the mainland.

Seizing Our Opportunity

The arrival by the Korea of Mr. Hedemann of the Honolulu Iron Works and Mr. Hocking of the Honolulu Brewing & Malting Company, each returning successful, from a business trip to the Orient, calls attention again to the expanding importance of the Pacific and of Honolulu the cross roads of the Pacific. It is probable that we do not yet realize the important part the Pacific is to play in the expanding commerce and progress of the world, nor of the part that Hawaii and Honolulu may play if her people are alive to the opportunities and active to grasp them.

McClure=Eddy Controversy

The controversy between McClure's Magazine and Mrs. Mary Baker G. Eddy, arising out of the series of articles the magazine is now publishing regarding the life and work of Mrs. Eddy, promises to be one of the most remarkable controversies in literature. Controversies over the lives of men and women who have passed from the scene of action, where the evidence of the facts are largely argumentative, are abundant. About every man of accomplishment there has grown up more or less that is legendary, and more or less certainly the product of hero worship. Napoleon, Washington, and Lincoln are examples in point.

But in the present case McClure's Magazine purports to be publishing the life story of a woman who is yet living; who is not so old but that many of the contemporaries of her early life are yet living; about whom very much must have become matter of record in court proceedings, administrative records, and in local periodical publications, and so be matters absolutely determinable by incontrovertible evidence. McClures claim that two years have been spent in gathering the material and that in the work the services of a number of people have been employed.

Yet there has scarcely a statement been made about Mrs. Eddy and her early life, her parentage and immediate family, that she has not contradicted or materially modified. An example of her contradictions and corrections will be found in an article over her own signature devoted to the January number of the McClure's series, which is published in this issue.

Many of the matters contradicted seem utterly trivial and puerile, and yet as the whole is made up of the parts no matter how insignificant many of these may be, it is natural that if they are erroneous or if Mrs. Eddy thinks they are erroneous, she should wish to correct them. If they are important enough to be stated, they are important enough to be stated correctly.

While much of what Mrs. Eddy says in contradiction of what is published is based solely on the recollection of a woman well advanced in years of what happened or did not happen in her childhood and youth, still other corrections are fortified by the testimony of witnesses apparently disinterested and in a position to know the facts. Some of them are supported by reference to records seemingly easily ascertainable, and to matters of record.

While one cannot help feeling, in reading Mrs. Eddy's contradictions that in some cases she is defending not so much a relative or a fact, as an ideal, and that therefore her recollection, however sincere,

is not conclusive, there are other points where she seems to clinch her statements with the certainty of a demonstration.

Whatever may have been the motive for the publication in the first place it begins to look as though the magazine must be well armored to maintain its position, and that if it is not, the loss in reputation will be very serious.

McClure's Magazine was one of the most sensitive to the lashing of the President of the "muck-rakers." The very next month after his "muck-rake" speech it abandoned the policy it had pursued for several years. The present has given rise to the query on the part of some whether it was any more fortunate in its selection of a new line of articles.

Perhaps it was Peruna saved the Prince from injury in that railroad wreck.

It was to be expected that some of the Suveric immigrants would become dissatisfied.

Trans-Pacific Trade C. R. Buckland's paper, was issued this morning. Like previous issues it is filled with interesting matter and matter pertinent to the policy outlined for the paper, and of value to the clientele the paper seeks to reach.

If Dr. Sun Yet Sen is really at the head of the uprising in Central China, it is only further proof of the training for the world's work that young men get in the schools of Hawaii. There was an uprising in Southern China a few years ago in which it was said that a Honolulu Chinese was one of the principal leaders.

SEATTLE CHRISTIAN ENDEAVORERS WRITE

ARE PLANNING AN HAWAIIAN ENTERTAINMENT DURING THE ANNUAL CONVENTION IN JULY.

The next annual convention of the Christian Endeavor Society is to be held July 19-23, 1907 at Seattle. Secretary H. P. Wood of the Promotion Committee has written a letter to Wong Hing, secretary of the local Christian Endeavor Union, asking the latter organization to take measures to bring Hawaii and its characteristics and advantages prominently to the attention of the thousands who will be in attendance at the Seattle convention, and in Seattle in consequence of the convention and the low railroad rates which will be given on account of it. The matter was discussed somewhat at the last meeting of the executive committee of the local union, but no specific action was taken, and the matter will come up for further consideration.

In addition to this letter Secretary Wong Hing has received a letter from the Christian Endeavor Society of the First Presbyterian church of Seattle, saying that during the annual convention it is desired to give a typically Hawaiian entertainment, one that will show the diverse races, nationalities and tongues that are united in Christian Endeavor in these Islands, and asks for suggestions both for the entertainment and for the decorations. Secretary Wong Hing asks that members of the organization give this subject their thought and attention as he would like it very much if it could be arranged so that very definite information could be sent to the Endeavorers of the First Presbyterian church, as a recognition of their interest in the Endeavorers of these Islands.

No, Alonzo, men and hogs are not in the same class. Hogs sometimes know when they have enough.

ONE THOUSAND DEAD.
ST. THOMAS, January 11.—The death list in the Jamaica tragedy has been placed at one thousand and ninety thousand are homeless as a result of the earthquake.

In the city of Kingston the damage will amount to ten million dollars. Provisions for the destitute people are needed. The banks have all been burned but it is believed that the contents of the vaults will be found intact.

The stench from the bodies of the victims among the ruins is awful.

Among those known to have been killed is Sir James Ferguson, chairman of the Royal Mail Steamship Company. Many other prominent citizens are among the killed.

Communication with the island outside of the city of Kingston is difficult.

JAPANESE LADY EDUCATOR HERE

EN ROUTE TO WASHINGTON AND STOPPING OVER IN HONOLULU—FIRST STUDENTS TO AMERICA.

Miss U. Tsuda is one of the stop-over passengers at Honolulu from the Orient per S. Korea. This Japanese lady is a famous educator in her own country and is making her first visit to the United States. She was a member of the first party of students going to the United States from Japan and in her party on that occasion was the lady who is now the wife of Marshal Oyama. Miss Tsuda goes to Washington. She is accompanied by her maid. During her stay in Honolulu Miss Tsuda will see many people of importance and study the educational system here. She may stop a short time in San Francisco to acquaint herself with the school situation there and her visit to the national capital may not be without results as affecting the Japanese school question in California.

ROOT WILL ASK CONSULS TO AID

SECRETARY WOOD OF PROMOTION COMMITTEE RECEIVES A LETTER FROM THE SECRETARY.

The following is Secretary Wood's weekly report to the Promotion Committee.

Honolulu, January 11, 1907.

Chairman and Members of the Hawaii Promotion Committee.

Gentlemen:—By last mail we received a letter from Mrs. E. T. Weathered saying that she was yet unable to say just how many there would be in her party, but that she had engaged passage by the Ventura, due to sail for San Francisco March 5th. In her letter Mrs. Weathered says: "Miss Mary Agate Case, the best contralto singer on the Pacific Coast, will be one of my party. She will certainly delight the people of Honolulu with her sweet and melodious voice." She also states that, "in addition to the present trip, I am now advertising and arranging for a special summer trip to Hawaii for school teachers."

Among other answers to the standard generally sent out by the Promotion Committee in reference to the proposed Pan-Pacific Commercial Congress is the following:

Department of State, Washington, December 22, 1906.

H. P. Wood, Esquire, Secretary, The Hawaii Promotion Committee, Honolulu, Hawaii.

Dear Sir:—The Department has received and read with interest your letter of the 28th ultimo and its enclosure of press clipping showing the advantages of Hawaii as a commercial distributing center and the desirability of holding there a Trans-Pacific Commercial Congress.

In reply, you are informed that in the event that it shall be decided to hold such a Congress in Hawaii, the Department will take pleasure in instructing American consular officers stationed in the countries bordering on the Pacific to co-operate, in all proper ways, to make the project a success. Very truly yours,

(Signed) ELIHU ROOT.

Word also came to hand by the same mail that the special map of "The Cross Roads of the Pacific" we had ordered for presentation to the Secretary of State, was being prepared and would be delivered shortly.

Regarding this map, Mr. W. H. Simpson, Advertising Manager of the Santa Fe Railway Company, acknowledges the receipt of a copy saying that he was greatly pleased to receive the same and would use it in their advertising.

I am pleased to report the receipt of a letter from Yellowstone Park Association saying that they will give space on the walls of all their hotels in Yellowstone Park to enlarged photographs of Hawaiian scenery and will also see to the distribution of our folders.

By the steamer Alameda we received from the Passenger Department of the Chicago Northwestern Railway Company, original letters from some two hundred of their Eastern agents, giving the names and addresses of people whom they had personally interviewed and who had in view a western trip. To each of these addresses we will send a short note calling their attention to the attractions of Hawaii.

I am in receipt of a letter from Mr. Wong Hin, Secretary of the local organization of the Christian Endeavor Society saying, in reply to a communication from our Committee, that they will do what they can to attract the attention of visitors to the coming Seattle convention, to the attractions offered by Hawaii.

Mr. Loyd Childs writes accepting the position of Agent of the Promotion Committee for Southern California with headquarters in the rooms of the Chamber of Commerce at Los Angeles.

In writing about the excursion from San Pedro, Mr. Childs says: "There are so many applications for berths that it is going to be a difficult matter to limit the number of the comfortable carrying capacity of the boat."

In addition to the Rowing regatta, which will come off while the Los Angeles excursionists are here, we are in receipt of a letter from the Sisters' Hawaiian Poni Society, saying that they have arranged to give "a series of performances representing ancient Hawaiian customs" during the time the Southern Californians are in Honolulu. So though or Los Angeles friends will be too late for the February 22nd floral parade, which by-the-way promises to be unusually attractive, there will be other forms of entertainment which will make the time pass pleasantly for them.

Respectfully submitted,

H. P. WOOD, Secretary.

EVERETT CASE ON TRIAL.

The case against J. Everett charged with having burglarized the saloon of Sealey and Grimes, was resumed before Judge Robinson and a jury this morning. There was a conflict of testimony yesterday between Former Assistant Sheriff Vida and Detective Lake relative to an alleged confession that Everett had made about the robbery. The court decided that the confession could not be admitted, especially as Everett denied having made such confession. W. S. Fleming of the attorney general's department, urged the court not to rule adversely on the matter and the issue was suspended for the time. Lake subsequently corrected his testimony to comply with the idea that Fleming had previously gained of it, and this morning the confession was

Hocking's Hongkong Brewery

DESIRABLE SITE BELONGS TO CHINESE GOVERNMENT—LAWYERS NOW ARRANGING FOR LAND.

A Hocking of the Honolulu Brewing & Malting Company, accompanied by his wife, was a home-returning passenger in the S. S. Korea from the Orient this morning. The Hockings have been to Hongkong.

Mr. Hocking went to China to arrange for the establishment of a Hongkong of a large brewery.

"I have made all preliminary arrangements for the establishment of a brewery at Hongkong," said Mr. Hocking. "And the matter for the present rests with the architect and my attorneys in Hongkong."

"The land desired for the brewery site is owned by the Chinese Government, and there is considerable to be done before we can obtain title. Meanwhile the brewery plans will be made and everything made ready for construction by the time the land is secured."

"I may have to make another trip to Hongkong. I do not know when that will be. Mr. Schweitzer will go to take the management of affairs there."

LOCAL VICTIM OF THUG DIES IN DRESDEN

CHEMIST TOEPELMANN WHO WAS SANDRAGED REPORTED TO HAVE DIED LAST MONTH.

News of the death of G. L. Toepelemann in Dresden has been received here. He died December 17. Toepelemann was formerly chemist at the Pacific Guano & Fertilizer Works. He was a very capable man, but one night he unfortunately was either struck on the head with a sand bag by some thug or else fell and struck his head on the curbstone near the corner of King and Liliha streets. In any event his senseless body was found and taken to the police station where he was put into a cell, supposed to be drunk.

His friends heard of the case and an investigation resulted in ascertaining that the man had been injured on the head and was suffering from a most serious injury. The police, William Henry was High Sheriff at the time, were charged with shameful neglect. C. Hatter, the special Pinkerton man employed by Governor Carter to work up evidence against the Brown police administration, tried to make out that Toepelemann had been monstrously drunk preceding the injury. But despite that claim the fact remained that Toepelemann never completely regained his mental faculties after his accident. His brain was permanently affected and he had ultimately to be sent to his folks in Germany. He left Honolulu over a year ago. The man is reported to have died of heart failure.

AUTOMOBILE CLUB PRAISES THE ROADS

PASSED RESOLUTION COMMENDING WORK DONE BY SUPERVISORS IN IMPROVING ROADS.

The Honolulu Automobile Club met last evening at the Hawaii Promotion Committee's rooms and a very interesting meeting was held. Several matters came up which are of interest to the entire community and were thoroughly discussed. Chief among these was a resolution introduced by Judge Kingsbury relating to the roads of the county.

The resolution was to the effect that the owners of automobiles appreciated the fact that the roads about Honolulu are in splendid shape not only for the owners of the machines but for all of the residents and guests of the city. The motion contained a clause thanking the Board of Supervisors for their work along these lines and stating that the club would do all in their power to aid and assist the supervisors to continue the good work.

Another matter which was discussed was the coming floral parade. All of the machines of the city will probably be in line. Walter Dillingham is the chairman of the committee in charge of this matter.

The club is in a healthy state and is continually growing. It will soon become a power in the community for the improvement of the thoroughfares.

BIRBE OFF TO THE COAST

(Continued from Page One.)

Waterloos of the late departed-to-others, T. McCall Stewart.

"Here is the way that Birbe tells it—

"You see," said the politician, "I came into these islands, with Democratic leanings, and one night I heard that they were organizing a precinct club out in my backyard, so I goes over to see how things were getting along and to sort of lend them a little advice and suggestions based upon practical experience in Rutherford and elsewhere South of the Slot back in Frisco. Well, I saw a lot of natives sitting around doing nothing and saying nothing and a few knackers doing about the same thing but I noticed a little jack-in-the-box soon doing all the spouting. So I turns to one of the fellows at my side and said: 'Who's the nigger? What Minister show in he spilling for?' and the fellow says 'Shu, that Mr. T. Makanta Tui, him all lite, him talk. Him show us how they run politics in Tammany.'"

"Oh, the dickens he is!" says I, "well, I have always been a Democrat but when a little kinkie haired nip like that tries to show these kanakas how to do Tammany politics, I guess I will show him how we do Frisco politics."

"And I guess the records will prove that we fixed Mr. Nigger. In other words we put him out of business and all he could do in politics in the Fifth was in an advisory capacity before the primary elections and after the elections, how it happened that he didn't get elected."

"Well, but no more of this political game for me for the present. I am going up to Frisco to testify in the case of C. Bolte, trustee vs. the Wilson Company in that Kona railroad case. No, I am not called as any expert on the number of ties in the road for I never had to count them, but I am to testify regarding an agreement that was never filed. The records in the case were destroyed in the fire in San Francisco, so oral testimony has to be secured."

"Coming back? Yes, in three months, just about. Honolulu is pretty good and I guess I will come back to take a look at the place by and bye, and also to see my friends. Captain Berger just treat the boys with this and just as they cast off those lines play your latest composition entitled 'Birbe has went, yes, Birbe has went, tum, tum, tum.'"

KOREA BRINGS 602 JAPANESE

SAILED AT 5 O'CLOCK FOR SAN FRANCISCO—PROMINENT PEOPLE ABOARD.

The Pacific Mail steamship Korea, Captain Sandberg, arrived this morning from China and Japan ports with several well-known Honoluluans, numerous through cabin passengers, 602 Japanese immigrants for these islands and 1,100 tons of Oriental freight for Honolulu. She docked at the Hackfeld wharf at 9:40 o'clock. Freight will be discharged by 5 o'clock this afternoon, at which time the Korea will leave for San Francisco.

C. Hedeman, manager of the Honolulu Iron Works, returned from Japan. His mission there is reported elsewhere in this paper. A. G. Hawes who accompanied Mr. Hedeman, also returned. A. Hocking of the Honolulu Brewing and Malting Company, accompanied by his wife, returned from Hongkong. Mr. Hocking's trip is referred to more particularly in another column.

Paul Holman, the Misses Lander and MacMillan of Edinburg and the Misses Conkey and Thompson of New York, who have been touring in the Orient, will stop over at Honolulu for a visit in the islands, taking in the volcano.

FIELD MEET MATTERS WERE DISCUSSED

THERE WILL BE A BIG MEET ON OR BEFORE MARCH 30—COMMITTEES APPOINTED

The various organizations of the city yesterday had representatives at the meeting held at the Y. M. C. A. to draw up a program for the coming field meet. There were present John McCandless and H. Auld, representing the Kamehameha Alumni; Frank McKeggie and C. G. Livingston, representing the Kamehameha School; En Sue Kong, for the Chinese Athletic Association; E. Fernandez and A. K. Akana, representatives of the Diamond Head Athletic Association; James Peterson, for the Punahou College, and Dr. Hand, for the Y. M. C. A. The Tenth Infantry, Infantry, Rapid Transits, St. Louis College and the Mills Institute were not represented, although they are almost certain to take some part in the field meet. Rev. E. H. Turner acted as chairman of the meeting.

The following program was decided upon: Track events—50-yard dash, 100-yard dash, 220-yard race, 440-yard race, 880-yard race, mile race, 120-yard low hurdle, half-mile relay and mile relay. Field events—Putting twelve-pound shot, putting sixteen pound shot, high jump, throwing twelve pound hammer, broad jump, pole vault.

The A. A. U. rules will be followed and the meet will be held before March 30.

The adoption of the A. A. U. rules makes it necessary that a committee on eligibility be appointed to scan the list of entries for the various events this year, the names of Secretary Atkinson, W. T. Rawlins, F. L. Waldron and Mr. Williamson being suggested. These will be asked to serve.

A general committee of management, by which the different committees will be chosen was elected, as follows: J. S. Reid for the Punahou, C. G. Livingston for the Kamehameha School, H. J. Auld for the Kamehameha Alumni, Dr. Hand for the Y. M. C. A. and E. H. Turner, as representing the Boys' School. Dr. Hand was chosen as chairman pro tem and requested to communicate with the other athletic associations regarding the appointment of a delegate for the committee.

This committee will meet on Monday afternoon at the Y. M. C. A., to proceed with their arrangements for the meet.

December 24—Jockey H. Lewis, killed in steeplechase at Ascot Park, Los Angeles.

ATHLETICS.

February 14—Dr. William H. (Yale) Murphy, at Southville, Mass., aged 35.

February 24—Hal Weeks, University of Michigan athlete, at Washington, aged 20.

March 19—James Robinson, Princeton trainer at Princeton, aged 65.

March 25—Gerald E. Krupp, Michigan athlete, at Ann Arbor, aged 22.

May 17—S. H. Terry, University of Pennsylvania runner, at Philadelphia, aged 24.

September 18—Charles E. Lennon, former president of the Wanderers' Athletic Club, at Sioux City.

MISCELLANEOUS.

April 2—Old Sport Campina, pedestrian and noted character, at Chicago, aged 73.

May 6—Mrs. Jane Fitzsimmons, mother of Bob, at Timara, New Zealand.

May 7—Charlton H. Zedlin, noted polo player, at Philadelphia, aged 35.

July 9—Herbert Tweedle, leading Chicago golfer, at Chicago, aged 42.

August 10—Smith Eldridge, trainer of prize-fighters, at Grand Rapids.

September 19—James Collins, former champion bag puncher at Chicago, aged 38.

FOOTBALL PRACTICE TODAY.

There will be a practice of the Diamond Head football club this afternoon at the Makiki grounds, at which a full turnout of the members is requested.

Captain James Macconel desires all players who have been chosen to play against the Malles on Saturday, and who will be unable to take part, to notify him as soon as possible.

SAYS NEWCOMERS ARE DISCONTENT

FRANK J. DUTRA STATES THAT MANY IMMIGRANTS ARE LEAVING FOR FRISCO.

It is reported about town that all is not as well with the passengers of the Suveric who have gone to work upon the plantations as it should be. It is said a number contemplate leaving for San Francisco in the spring. Frank J. Dutra has the following to say on the matter:

"Already a few of the newcomers have left the Territory for California. When the Ventura left for the coast a short time ago she carried away some of the Portuguese as stowaways and yesterday the Alameda was boarded by others, who also stowed away. Just how many got out I don't know, but I

called Captain Bowdell's attention to several who were trying to get on board unnoticed.

"I talked to some of these people yesterday and they told me that those among the Suveric people who have families are having a hard time to make both ends meet on the wages they are receiving from the plantations, some of them running behind at the plantation stores to the amount of three four and five dollars a month. The police charged them at the stores they consider too high in view of the wages they are able to earn.

"Among the newcomers were a large proportion of mechanics and those are drifting into town from the plantations. One of them has gone into business here, opening up a cabinet shop. Others are at work as plumbers and carpenters and there is a great deal of talk among them of leaving for San Francisco in the spring. There were others among those arriving who had small sums of money with them, one man bringing a hundred pounds in gold in a money belt. These came here to acquire small land holdings of their own and will not be content to stay and work in the cane fields."

MRS. EDDY AND THE M'CLURE BIOGRAPHY

CONCORD, N. H., January 5.—The January issue of McClure's Magazine, which undertakes to publish the history of the early life of the Reverend Mary Baker Eddy, leader of the Christian Scientists, and her family, has been brought to the attention of Mrs. Eddy. She has taken the pains to correct the matter, and has sent out the following statement over her own signature:

It is calumny on Christian Science to say that man is accused to thought or action only by ease, pleasure, or recompense. Something higher, nobler, more imperative, impels the impulses of Soul.

It becomes my duty to be just to the departed and to tread not ruthlessly on their ashes. The attack on me and my late father and his family in McClure's Magazine, January, 1907, compels me as a dutiful child and the leader of Christian Science to speak.

McClure's Magazine refers to my father's "all, gaunt frame," and pictures "the old man tramping doggedly along the highway regularly beating the ground with a huge walking stick."

My father's person was erect and robust. He never used a walking stick. To illustrate: One time when my father was visiting Governor Pierce, President Franklin Pierce's father, the Governor handed my father a gold-headed walking stick as they were about to start for church. My father thanked the Governor, but declined to accept the stick, saying, "I never use a cane."

Although McClure's Magazine attributes to my father language unseemly, his household law, constantly enforced, was no profanity and no slang phrases. McClure's Magazine also declares that the Bible was the only book in his house. On the contrary, my father was a great reader.

The man, whom McClure's Magazine characterizes as "ignorant, dominating, passionate, fearless," was uniformly dignified—a well-informed, intellectual man, cultivated in mind and manners.

He was called upon to do much business for his town, making out deeds, settling quarrels, and even acting as counsel in a law-suit involving a question of pauperism between the towns of London and Bow, N. H. Franklin Pierce, afterward President of the United States, was the counsel for London and Mark Baker for Bow. Both entered their pleas, and my father won the suit. After it was decided, Mr. Pierce bowed to my father and congratulated him. For several years, father was chaplain of the New Hampshire State Militia, and as I recollect it, he was Justice of the Peace at one time. My father was a strong believer in State's Rights, but slavery he regarded as a great sin.

Mark Baker was the youngest of his father's family, and inherited his father's real estate, an extensive farm situated in Bow and Concord, N. H. It is on record that Mark Baker's father paid the largest tax in the colony. McClure's Magazine says, describing the Baker homestead at Bow: "The house itself was a small, square box structure of rudimentary architecture." My father's house had a sloping roof after the prevailing style of architecture at that date.

McClure's Magazine states: "Alone of the Bakers, he (Albert) received a liberal education." * * * Mary Baker passed her first fifteen years at the ancestral home at Bow. It was a lonely and unstimulating existence. The church supplied the only social diversion, the district school practically all the intellectual life.

Let us see what were the fruits of this "lonely and unstimulating existence." All my father's daughters were given an academic education, sufficient advanced so that they all taught school acceptably at various times and places.

My brother Albert was a distinguished lawyer. In addition to my academic training, I was privately tutored by him. He was a member of the New Hampshire Legislature, and was nominated for Congress but died before the election.

McClure's Magazine calls my youngest brother, George Sullivan Baker, "a workman in a Tilton woolen mill." As a matter of fact, he was joint partner with Alexander Tilton, and together they owned a large manufacturing establishment in Tilton, N. H. His military title of Colonel came from appointment on the staff of the Governor of New Hampshire.

My oldest brother, Samuel D. Baker, carried on a large business in Boston, Mass. Regarding the allegation by McClure's Magazine that all the family, "except Albert, died of cancer," I will say that there was never a death in my father's family reported by physician or post mortem examination as caused by cancer.

McClure's Magazine says that "the quarrels between Mary, a child ten years old, and her father, a gray-haired man of fifty, frequently set the house in an uproar," and adds that these "fits" were diagnosed by Dr. Ladd as "hysteria mingled with bad temper."

My mother often presented my disposition as exemplary for her other children to imitate, saying: "When do you ever see Mary angry?" When the first edition of Science and Health was published, Dr. Ladd said to Alexander Tilton: "Read it, for it will do you

good. It does not surprise me, it resembles the author."

I will relate the following incident, which occurred later in life, as illustrative of my disposition:

While I was living with Dr. Patterson at his country house in Rumney, N. H., a girl, totally blind, knocked at the door and was admitted. She begged to be allowed to remain with me, and my tenderness and sympathy were such that I could not refuse her. Shortly after, however, my good housekeeper said to me:

"If this blind girl stays with you, I shall have to leave; she troubles me so much."

It was not in my heart to turn the blind girl out, and so I lost my housekeeper.

My reply to the statement that the clerk's book shows that I joined the Tilton Congregational Church at the age of seventeen is that my religious experience seemed to culminate at twelve years of age. Hence a mistake may have occurred as to the exact date of my first church membership.

The facts regarding the McNeil coat-of-arms are as follows:

Fannie McNeil, President Pierce's sister, afterward Mrs. Judge Potter, prescribed to me my coat-of-arms, saying that it was taken in connection with her own family coat-of-arms. I never doubted the veracity of her gift. I have another coat-of-arms, which is of my mother's ancestry. When I was last in Washington, D. C., Mrs. Judge Potter and myself knelt in silent prayer on the mound of her late father, General John McNeil, the hero of Lundy's Lane.

Nowwithstanding that McClure's Magazine says, "Mary Baker completed her education when she finished Smith's grammar and reached long division in arithmetic," I was called by the Rev. R. S. Rust, D.D., Principal of the Methodist Conference Seminary at Sanbornville Bridge, to supply the place of his leading teacher during her temporary absence.

Regarding my first marriage and the tragic death of my husband, McClure's Magazine says: "He (George Washington Glover) took his bride to Wilmington, South Carolina, and in June, 1844, six months after his marriage, he died of yellow fever. He left his young bride in a miserable plight. She was far from home and entirely without money or friends. Glover, however, was a free-mason, and thus received a decent burial. The masons also paid Mrs. Glover's fare to New York City, where she was met and taken to her father's home by her brother George."

Her position was an embarrassing one. She was a grown woman, with a child, but entirely without means of support. * * * I Mrs. Glover made only one effort at self-support. For a brief season she taught school.

My first husband, Major George W. Glover, resided in Charleston, South Carolina. While on a business trip to Wilmington, North Carolina, he was suddenly seized with yellow fever and died in about nine days. I was with him on this trip. He took with him the usual amount of money he would need on such an excursion. At his decease I was surrounded by friends, and their provisions in my behalf were most tender. The Governor of the State and his staff, with a long procession, followed the remains of my beloved one to the cemetery.

The Free Masons selected my escort, who took me to my father's home in Tilton, N. H. My salary for writing gave me ample support. I did open an infant school, but it was simply for the purpose of starting that educational system in New Hampshire. The rhyme attributed to me by McClure's Magazine is not mine, but is, I understand, a paraphrase of a silly song of years ago. Correctly quoted, it is as follows, so I have been told:

Go to Jane Glover,
Tell her I love her;
By the light of the moon
I will go to her.

The various stories told by McClure's Magazine about my father spreading the road in front of his house with tan-bark and straw, and about persons being hired to rock and swing me, I am ignorant of. Nor do I remember any such stuff as Dr. Patterson driving into Franklin, N. H., with a couch or cradle for me in his wagon. I only know that my father and mother did everything they could think of to help me when I was ill.

I was never "given to long and lonely wanderings, especially at night," as stated by McClure's Magazine. I was always accompanied by some responsible individual when I took an evening walk, but I seldom took one. I have always consistently declared that I was not a medium for spirits. I never was especially interested in the Shakers, never "dabbled in mesmerism," never was "an amateur clairvoyant," nor did "the superstitious country folk frequently seek my advice." I never went into a trance, nor described scenes far away, as McClure's Magazine says.

My oldest sister dearly loved me, but I wounded her pride when I adopted Christian Science, and to a Baker that was a sorry offense.

McClure's Magazine calls Dr. Daniel Patterson, my second husband, "an itinerant dentist." It says that after my marriage we "lived for a short time at Tilton, then moved to Franklin." * * * During the following nine years the Pattersons led a roving existence. The doctor practiced in several towns, from Tilton to North Groton and Rumney.

When I was married to him, Dr. Daniel Patterson was located in Frank-

ROLL CALL AT CENTRAL UNION

ABOUT FOUR HUNDRED PERSONS GATHERED LAST EVENING AT CENTRAL UNION CHURCH.

The roll call of the Central Union Church was largely attended last evening about 400 being present. A visitor was served in the Sunday school room of the church and the reading of several reports followed. There was not a report of unsatisfactory nature.

Rev. Dr. Sylvester, the pastor of the church outlined his policy for the coming year and stated that with the aid of the members present that there would be a great change at the end of another year. He asked all to give him their helping hand.

W. W. Hall, the church clerk reported a slight loss of membership during the year. The present membership was 284.

The collections taken up during the year amounted to \$6,387.25 all of which had been expended with the exception of \$84. Jonathan Shaw reported that the church had an income of \$11,547.75 of which \$442 was carried over.

Among the other reports read were the following: Bible School superintendent's report, by Rev. E. B. Turner; Bible school treasurer's report, by W. J. Forbes; the ladies' society, by Mrs. Z. K. Myers; Woman's Board of Missions, by Mrs. D. Scudder; Missionary Board of Cleaners, by Mrs. Withington; Christian Endeavor Society, by J. Dutoit, and the Paluma Settlement, by J. A. Rath.

MISS KROUT SPOKE.

Miss Mary H. Krout delivered one of her series of lectures on "Modern Authors" yesterday afternoon at the home of Mrs. C. M. Cooke. Miss Krout was introduced by Prof. W. D. Alexander. She then spoke at some length on Novelists. Next Friday Miss Krout will speak on Robert Louis Stevenson.

lin. N. H. He had the degree D.D.S., was a popular man, and considered a rarely skillful dentist. He bought a place in Rumney, which he fancied, for a summer resort. At that time he owned a house in Franklin, N. H.

Although, as McClure's Magazine claims, the court record may state that my divorce from Dr. Patterson was granted on the ground of desertion, the cause nevertheless was adultery. Individuals are here today who were present in court when the decision was given by the judge and who know the following facts. After the evidence had been submitted that a husband was about to have Dr. Patterson arrested for eloping with his wife, the court instructed the clerk to record the divorce in my favor.

What prevented Dr. Patterson's arrest was a letter from me to this self-same husband, imploring him not to do it. When this husband recovered his wife, he kept her a prisoner in her home, and I was also the means of reconciling the couple. A Christian Scientist has told me that with tears of gratitude the wife of this husband related these facts to her just as I have stated them. I lived with Dr. Patterson peaceably, and he was kind to me up to the time of the divorce.

The following affidavit by R. D. Rounsavel of Littleton, N. H., proprietor of the White Mountain House, Faybans, N. H., the original of which is in my possession, is of interest in this connection:

About the year 1874, Dr. Patterson, a dentist, boarded with me in Littleton, New Hampshire. During his stay, at different times I had conversation with him about his wife, from whom he was separated. He spoke of her being a pure and Christian woman, and the cause of the separation being wholly on his part, that if he had done as he ought he might have had as pleasant and happy home as one could wish for.

At that time I had no knowledge of who his wife was. Later on I learned that Mary Baker G. Eddy, the Discoverer and Founder of Christian Science, was the above mentioned woman.

(Signed) R. D. Rounsavel.
Grafton N. H., January 18th, 1902.
Then personally appeared R. D. Rounsavel and made oath that the within statement by him signed is true.

Before me,
J. M. WOOD,
Justice of the Peace.

I was obliged to be parted from my son, because after my father's second marriage my little boy was not welcomed in my father's house.

Who or what is the McClure "history" so-called presenting? Is it myself, the veritable Mrs. Eddy, whom the New York World declared dying of cancer, or is it her alleged double or dummy heretofore, described?

If indeed it be I, allow me to thank the enterprising historians for the testimony they have thereby given of the divine power of Christian Science, which they admit has snatched me from the cradle and the grave, and made me the beloved leader of millions of the men and women in our own and in other countries,—and all this because, the truth I have promulgated has separated the tares from the wheat, uniting in one body those who love Truth; because Truth divides between sect and Science and renews the heavenward impulse; because I still hear the harvest song of the Redeemer awakening the nations, causing man to love his enemies; because "Blessed are ye, when men shall revile you, and persecute you, and shall say all manner of evil against you falsely, for my sake."

MARY BAKER G. EDDY.

MARRIED.

MAAGE-BOURKE—in Honolulu, T. H. January 16, 1907 at the Methodist parsonage, Frederick W. Maage and Miss Lillian Irene Bourke, both of Honolulu. Rev. J. W. Wadman officiated.

SHE SAYS SHE DIDN'T

Repeating in her husband's story to her that Mrs. Ab. Wood said that she married him. She says further that if her husband became so unbecomingly on December 21, 1891 to her that she married him, that he could not possibly be any longer, she is not aware of the fact.

GRATITUDFUL FRISKY PEOPLE.

The thanks of the California Women's Hospital at San Francisco for a donation of \$1,000 have been received by the local relief committee. Governor Carter, acting largely upon the recommendation of J. P. Moratin, reported in favor of disposing of the balance of the local relief fund to San Francisco institutions.

TEMPERANCE MEN TO MEET.

This afternoon the Anti-Saloon League will hold an executive session at the Y. M. C. A. They will discuss various legislative measures and lay special stress on local action.

WHY COLDS ARE DANGEROUS.

If you would be immune from disease, keep the system healthy. Each successive cold weakens the constitution and renders infectious diseases more liable. GANG OF SMALL THIEVES ARRESTED

DETECTIVE BUREAU MAKES HAUL OF JUVENILES—THREE SENT TO REFORM SCHOOL.

Three boys were given a year in the reform school in police court this morning for stealing bicycles. They were John Gomez, George Silva and Manuel Andrade. It seems that they have been in the habit of stealing wheels and disguising them by a careful swapping of seats, handle-bars, tires, etc. Chief of Detectives Taylor and Joe Leal apprehended the youngsters. Another haul made by these detectives is that wherein five boys are interested namely John Fraga, John Martin, Alfred Freitas, Frank Gomez and Abe Lincoln. They entered a Japanese place the

other day and got away with four watches. It is charged that they were on the lookout for a watch and on the night of the robbery they were arrested by Taylor and Leal.

M. KEIZO WILL NOT BE HANGED

Morita Keizo will not hang. That is the way it will be after the Supreme Court of the United States passes on the matter of a technicality regarding the personnel of the grand jury (1904) indicted the condemned Japanese.

This morning the hearing on a petition of habeas corpus in behalf of Morita came up before the Supreme Court. A. S. Humphreys, representing Keizo, presented the matter and Attorney General Peters and Deputy Attorney General Peters appeared for the Territory. The grounds upon which the petition for a writ of habeas corpus were brought were precisely those that Judge George D. Gear, an attorney for Morita, had brought before the Supreme Court months ago. It was then contended that eight of the sixteen grand jurors who had indicted Morita for murder were not legal citizens as they had been naturalized by a circuit court and such naturalization was illegal. The Supreme Court overruled the point, holding, in effect, that such naturalization was legal. Judge Gear who had discovered this point originally, had intended to bring an appeal in behalf of the murderer as soon as it was learned what course Governor Carter intended to take in the matter. If Morita were to receive a commutation of death sentence or the Governor sign the death warrant. The Governor did the latter, setting the date for execution as January 22. In fact the appeals to both the Territorial Supreme Court and the U. S. District Court had been prepared, ready for the signature of Morita. But when Gear sent to secure the signatures it was to discover that Humphreys had either "batted in" or had gotten in in some way, for the murderer had switched attorneys.

The Supreme Court this morning denied the habeas corpus petition, but Humphreys gave notice that he would petition for a writ of error to enjoin the matter to be appealed to the U. S. Supreme Court. Peters did not oppose this course, for it is customary in such urgent cases.

Humphreys presented the petition ex parte later in the forenoon and the Supreme Court made an order for the writ to issue. An order of superseces was also issued to High Sheriff Henry commanding him not to execute the death sentence of Morita. The case now goes to the highest tribunal in the land.
Particular interest is given the case as the decision by the Supreme Court will affect the status of a large number of citizens who have been naturalized by Circuit Courts of the Territory.

Legation Secretary On Korea

John Gardner Coolidge, the secretary of the American legation at Peking, China, is a passenger on the S. S. Korea bound for the coast where he will proceed to visit his old home in Massachusetts and then will call at Washington. Mr. Coolidge stated this morning that he was simply on a vacation having been in China since 1902. He says that while he will call at Washington he is not upon any errand of special importance but acknowledged that he will confer with the Secretary of State at Washington and will talk questions of the Far East over with that official.
"I have nothing whatever to say," said the Secretary this morning "except that I am going home on a vacation having been in China since 1902. There is absolutely nothing of importance connected with my visit to the East although I expect to confer with the Secretary of State in regard to questions in the Far East but of course I cannot discuss this with the public."
I know but very little about the Japanese question. We have heard of the San Francisco trouble of course but know nothing more than the public in the states do."

The secretary declined to discuss the matter of the Chinese boycott, but stated that the last reports in regard to it were exaggerated.

The secretary was told of the proposed consular convention to be held at this place. He stated that while he had never considered the matter before it appeared on the face of it to be very plausible and he had no doubt but that it would prove a wise thing.
The Secretary may be transferred to another post and not return to China.

"Moving" Mountain Resting

REPORT OF THE ENGINEER SAYS IT WAS A RESERVOIR THAT SCARED SUPERINTENDENT.

That moving mountain at Walahee has not moved. Engineer Southworth returned yesterday afternoon from an inspection of the side of the hill that Superintendent Gibson of the Walahee school, feared was moving down upon that institution.

It appears that some distance above the residence of Gibson there is a reservoir that was constructed some time ago for the purpose of operating a motor. For some reason no use of this reservoir was made. The recent heavy rains caused the reservoir to fill up

If you have a will rent a safe deposit box from us and put it where it will be convenient for your heirs after you have gone. We have them from four dollars a year upwards. Henry Waterhouse Trust Co., Ltd.

and the water to run down around it on to some made land on which the reservoir is constructed. The softening of the earth caused it to settle down and made the wall of the reservoir split and sag. To Gibson the side of the hill seemed to have moved and to be threatening to slide down upon him and his wards.

It was decided by the engineer that a ditch cut from the rear of the reservoir which is 15 feet in depth, some repairs to the wall and reinforcement to the made land section would put the mountain back into the class of rock-firm mounds.
