"SPLENDID" SAYS HALSEY AT REVIEW AT SCHOFIELD

British Visitors Will Be Good
Hawaii Boosters in
Other Ports

Four thousand men in olive drab—foot, horse and wagon soldiers—swept by the reviewing point at Schofield Barracks this morning, and gave Captain Lionel Halsey of the New Zealand and a score of his officers, an opportunity to see Uncle Sam's soldiers ready for business. It was a business-like affair, this review, shy on ceremony and the pomp of glittering uniforms, but very long on efficiency. The choking red dust of the Leilehua plain is hardly appropriate for full dress ceremonies, but it fits in very well with infantry at the double, and cavalry and artillery at a gallop, with men and horses, rifles and guns, ready for action.

"Splendid," said Captain Halsey, after the last field gun had thundered by, and the last troop of cavalry had passed the reviewing stand. "I never saw a more efficient looking lot of soldiers anywhere. They are a fine lot of men, and their every move shows that they know their business. I consider it a great honor to have been able to witness this review, and the officers of the New Zealand will carry this morning away with them as a very pleasant memory."

Captain Halsey warmly complimented Colonel G. K. McGunagle, post commander and reviewing officer, on the appearance of his command, and showed by his keen appreciation and understanding of things military that he is well posted in land as well as sea defense.

The New Zealand commander and his officers were taken to Schofield Barracks by motor, officers of the Hawaiian Department furnishing transportation and acting as their own chauffeurs, so that each machine was a personally conducted "seeing Oahu" party. The drive to and from the big army post was most interesting to the British naval officers, who wanted to know the why and wherefore of the sugar and pineapple businesses, and sought information on many other points. When the New Zealand steams away, the great majority of the officers and enlisted men aboard will be traveling publicity agents of Hawaii, and this morning's jaunt to the center of the island helped to furnish some interesting material for them.

The party left the Alakea slip promptly at 8 o'clock, and reached Schofield at 9:30, only two of the machines having come to grief on the way out, the trouble being the cause of these delays. Captain Halsey was a passenger in General Funtun's car, and the other officers were apportioned so that medics could shop with medics, and coast artillery-men hob nob with the men who handle the big guns aboard ship.

At 9:38 Colonel L. W. V. Kennon, 25th infantry, who commanded the column, passed the reviewing point, and swung out to take his place beside Colonel McGunagle, the post adjutant and quartermaster, Captain Burnett and O'Leary.

The 1st infantry, 25th infantry, 1st field artillery, and 4th cavalry passed in review in the order named and when the last organization marched by, it was exactly 10 o'clock, 22 minutes having been consumed by the column in passing.

As the infantry commands passed the reviewing officer they broke into the double, and proceeded to their respective cantonments, but the horse and wagon soldiers reformed, and passed twice again in review at an increased gait, once at the trot and

once at the gallop. There were no accidents to mar the morning, although at times it seemed as though the excited artillery horses would carry gun and riders on a wild chase across country. The commands were splendidly handled, however, and even the most fractious of the teams and mounts failed to break up the alignment of troop and section.

The review was witnessed by practically the entire civilian population of the garrison, and by a number of Honoluluans who motored out from town. Every point of vantage on the gentle slope which overlooks the main review ground was pre-empted early

SMIDDY'S JOB REMAINS BONE OF CONTENTION

To ascertain who has the right to appoint the successor of Road Supervisor J. J. Smiddy, whose resignation takes effect the last of this month, Mayor Joseph Fern called upon Deputy City and County Attorney Weaver yesterday afternoon for a legal opinion on the point. While the opinion is being prepared, the mayor states he will take no action in determining upon a successor of Smiddy.

A dispute over what official has the authority to appoint the successor of the road supervisor arose shortly after the resignation of Smiddy was handed in, and the supervisors now stand divided on the question, some contending that the power lies in the city and county engineer, while the others hold that Mayor Fern has the right to make the appointment.

To end the dispute, Mayor Fern yesterday called for an opinion from Attorney Weaver, which will be given him in writing within a few days, he says.

Had it not been for the law passed by the last session of the legislature restoring the appointive powers of the city's chief executive, the present question would be easy to answer, and would undoubtedly have been answered in favor of the city and county engineer, who has been vested, by an ordinance, with the authority to name his assistants.

But now with the new statute on the books, the mayor by virtue of it having the power to name persons to fill all appointive offices, to be approved by the board of supervisors, the question has been raised of whether the act annuls the ordinance, or whether the rights under the ordinance do not come within the purview of the statute.

In the latter case, the city and county engineer would have the power to name the successor to Smiddy, in the former he would not. The opinion of the deputy city and county attorney will settle the question.

In the meantime there is a general reticence regarding who is most likely to get Smiddy's job. New names are heard each day as those of candidates for the place, but as to their respective chances nothing is being said by either Mayor Fern or Engineer Whitehouse, and Supervisor Lester Petrie, chairman of the roads committee, says that he will take no part in it. Smiddy believes that it will probably be some time before his successor is agreed upon.

SOLDIERS DISCOVER BODY OF MAN DEAD SEVERAL MONTHS

Remains May Be Those of Missing Aged Portuguese — Police
Undecided as to Cause of Death — May Have Been Murder,
Suicide or Accident

The decomposed body of a man, who it is now believed may have been a member of the Twenty-fifth Infantry, was discovered this morning by Private Morrow of Co. H, Second Infantry, who with several members of his organization under command of Lieutenant Foster were touring the country in the vicinity of Moanalua polo ground.

Deputy Sheriff and Coroner Rose, together with other police officials hastened to the scene of the gruesome find and telephone reports from Port Shafter, late this afternoon, are to the effect that the body had lain where found, for two or three months. An investigation led to the belief that he

was an aged man, partially bald and wearing a beard. This, however, is mostly conjecture, the remains being practically nothing but skin and bones. However, the police assert that this description tallies with that of an aged Portuguese who has been missing several months.

It was at first reported that the man's throat had been cut from ear to ear, but the coroner asserts that there was nothing to uphold this report—excepting the fact that the man was dead and that the body was found lying face downward.

The police are divided between several theories. They admit that it may be a case of murder, or that the man may have died of self-inflicted wounds or that he may have fallen over a cliff by accident.

The body was discovered at the foot of a cliff about 50 feet high. It was clothed in a dark coat and trousers, with shoes that had been slit, apparently to afford comfort to the feet. No weapon was found within a large radius of the body, inspected by the police.

KEALOHA IS DECLARED TO BE GUILTY

Hawaii Supervisor Sentenced
to Three Months in Jail
and Appeals Case

(Special Star-Bulletin Wireless)
HILO, July 17.—John Kealohe, supervisor and former road overseer in the North Hilo district, today was found guilty on a grafting charge and sentenced to three months' imprisonment. Kealohe, through his attorney, entered an appeal for a new trial, which will be heard in the near future. In the meantime the convicted man has been released on bonds of \$500, the amount scheduled previous to his trial.

Kealohe, yesterday, entered a plea of not guilty to the charge of padding the payrolls of the North Hilo district, during the month of June and in face of the searching graft probe then being conducted. Witnesses were called by the defendant, in an effort to prove that David Matson, whose case was used by the prosecution, had worked early in the morning and during his noon hour, in the employ of the county. The effort, however, failed. Matson was in the employ of a plantation and witnesses failed to show that he had put in sufficient time to be entitled to the 20 days' paycheck of \$50, allowed on the payroll.

HOLDINGS OF FRANCE LARGE IN SOUTH SEAS

When France stepped in some weeks ago and formally took possession of Wallis and Futuna islands, as told in Star-Bulletin yesterday, the act awakened considerable speculation in British circles throughout the South Seas.

The point has been brought out in a Sydney newspaper that "More than half the groups of Oceania first evangelized by British missionaries have fallen into foreign hands."

"The latest instance in which a foreign flag flies where ours was more than asked for," says the Herald, "is afforded in the annexation by France of the Wallis and Futuna islands, which make a convenient link

CALDWELL SAYS NO 'SHAKE UP' IN DEPARTMENT

J. W. Caldwell, superintendent of public works, denies the published report of a threatened shake-up in his department.

"One swallow doesn't make a summer, and neither do two," said he. "Just because one man quits or is released from this department is no more indication of a general shake-up than it would be in any private business where an employee chooses to quit his job."

The rumor developed with the news of Frank M. Friesell's resignation, handed in about ten days ago and which took effect Tuesday, July 15. Franz Riels, an engineer in the waterworks department resigned June 1, or a month and a half ago. Superintendent J. M. Little, of the waterworks department has been suffering from a nervous breakdown since July 3 and has not been in his office since that time.

Discussing these, Superintendent Caldwell said today: "Riels and Friesell resigned of their own volition, not at my request. When Mr. Little became ill I advised him to go home and remain there until he recovered, and assured him his job would still be here for him when the sickness had passed. I notified the other members of the waterworks department to the same effect and informed them that no acting superintendent would be appointed, but that each employee would be expected to take care of his work as usual until Mr. Little is able to resume his duties."

"I can only reiterate what I said when I took charge of this office: that no general change in the personnel is contemplated, and that I ask and demand loyalty and efficiency to the department. I am requiring no more than any private business concern would ask of its employees."

REPORTS SAY JAPANESE AIDING REBEL TROOPS

Revolutionary Forces Take
Nanking and Declare the
City Independent

(Special Cable to the Sun Chung Kwok Bo.)

SHANGHAI, China, July 17.—Reports have been received here that a large body of revolutionary troops has entered the city of Nanking, province of Kiangsu, surrounded the governor's office and declared the independence of that city. It is further reported that the rebels were aided in their undertaking by the Japanese government, which furnished them with men, ammunition and money. The arrangements for this assistance, it is said, were made during a recent secret mission of Dr. Sun Yat Sen to Tokyo, at which time he agreed to give over to Japan two provinces, possibly Manchuria and Fokien or Chi Kiang, if the Japanese government would assist him in overthrowing the government of the Kiangsi province.

The city of Nanchang is considered by the revolutionists as being a most important post for their movements against the armies of President Yuan Shih-Kai, and one of the rebel military officers who opposed the declaration to take over the city, was immediately sentenced to death. Already the rebels have taken steps toward organizing a new government for the city, and have appointed former Viceroy Shun, of Canton, as commander-in-chief of the army and Governor Chin as premier of the city. A governor has not as yet been appointed.

PRESIDENT CALLS A CONFERENCE

(Special Cable to the Nippon Jiji.)

TOKIO, Japan, July 16.—Realizing the seriousness of the situation in Kiangsi and Kiangsu, the provinces forming the seat of hostilities in middle China, President Yuan Shih-Kai today called his lieutenants into conference at the capital and discussed plans for an effective campaign against the revolutionists. The conference, as a special dispatch from Peking reports, resulted in the naming of a commander-in-chief of the North China army, Lieutenant-General Yuan Kawai, minister of war, being the one selected. The position was accepted by the minister of war, and he is now concentrating an army of several thousand men at Peking and as soon as possible will proceed from there to the provinces of Kiangsi and Kiangsu.

JAPAN WATCHING

(Special Cable to the Nippon Jiji.)
TOKIO, Japan, July 16.—Cable advices received here from various parts of middle China indicate that the situation with regard to the revolution becomes hourly more serious, and Japan is eagerly watching for further developments. Premier Count Yamamoto today held a lengthy conference with Baron Makino, minister of foreign affairs, and discussed the Chinese situation. The particulars of the conference have been withheld from both public and press in order to maintain absolute secrecy regarding Japan's policy toward the Chinese republic.

GENERAL LI DELAYS

(Special Cable to the Sun Chung Kwok Bo.)

WUZHANG, China, July 17.—Realizing that his force of 4000 men is insufficient to warrant a movement against the rebels, General Li Shim, the commanding officer of the federal troops stationed in the province of Kiangsi, has decided to delay action until after the arrival of the battleships Kai Shim and Kai Yang. The battleships have arrived at Hankow en route down the Yangtze river to Nanking.

FEDERAL TROOPS REVOLT

(Special cable to the Sun Chung Kwok Bo.)

SHANGHAI, China, July 17.—The federal commanding officer, General Au Yong, has reported to the central government that the greater number of the federal troops stationed in Chi Kiang, a district of the Kiangsi province, have revolted. Upon receipt of this information, the central government ordered the dispatch of the 19th division to the scene of the revolt.

PROVISIONAL GOVERNMENT

(Special Cable to the Nippon Jiji.)

TOKIO, Japan, July 16.—The revolutionists today proclaimed the independence of the provinces of Kiangsi and Kiangsu, and a provisional government is being organized for each. The province of Honan has already declared its independence.

GENERAL YIN CHANG.
Member of the old regime and now said to be President Yuan's principal adviser.

TROOPS MOVE SOUTH

(Special Cable to the Sun Chung Kwok Bo.)

PEKIN, China, July 17.—Chi Qul Tuan, a son of the minister of war, has been placed by the central government in command of a large body of troops and ordered to proceed to the south. The destination of the force has not been given out, but it is believed to be Nanking.

HUNAN BREAKS LOOSE

(Special Cable to the Sun Chung Kwok Bo.)

SHANGHAI, China, July 17.—Following the occupation of Nanking, Kiangsi province, by the rebel forces which declared its independence, the province of Hunan, adjoining Kiangsi, has declared itself severed from the jurisdiction of the central government.

PREMIER CHIU RESIGNS

(Special Cable to the Sun Chung Kwok Bo.)

PEKIN, China, July 17.—Premier Chiu has resigned his position and Hoon Hi Ling has been named as his successor, his appointment having been ratified by the senate.

CLEAN-UP DAY IS GOOD THING, SAYS TENNEY

"Clean-up Day is a good thing—it has been so in the past," was the comment of E. D. Tenney as the question of whether Honolulu should have such a day was referred to the health committee at the meeting of the trustees of the chamber of commerce yesterday afternoon. The matter came up in a communication from the Oahu Central Improvement Committee.

The treasurer made reports, showing the chamber indebted to the Bank of Honolulu for an overdraft of \$483.01. President Bishop remarked that annual dues amounting to \$1200 would be due next month. He directed that no more payments be made to the Palama Settlement until the chamber gives a new authorization, the treasurer having stated that he had continued paying the monthly subscription for some months since the year had expired for which it had been authorized.

The Annual Meeting.
As both the president and vice-president will be absent from the annual meeting, August 20, the president asked that someone be appointed as chairman for that occasion and on the suggestion of Mr. Tenney, former President E. I. Spaulding was appointed and consented to act. In the

Governor Carranza Wants United States
To Recognize States As Separate
From Huerta Government—
Newspapers Conservative

(Associated Press Cable)

WASHINGTON, D. C., July 17.—Governor Carranza, who has been leading a revolt against Huerta for several months, has demanded of the United States recognition of his claim for independence. He declares that he controls a large part of Northern Mexico, including Coahuila and part of Chihuahua and that he has the sympathy of ninety per cent of his countrymen.

Wilson Goes to Conference

WASHINGTON, D. C., July 17.—Ambassador Henry Lane Wilson, who has been summoned from Mexico City for a conference here, is expected to arrive on July 23.

Think U. S. Will Recognize

MEXICO CITY, Mex., July 17.—The newspapers here take a conservative attitude, intimating that Ambassador Wilson's trip to Washington will probably result in the recognition of the Huerta government.

Roumania Forces Bulgaria To Seek Peace; Army Cut Off

(Associated Press Cable)

SOFIA, Bulgaria, July 17.—A coup by the Roumanian forces, by which they have destroyed part of the railway between Sofia and Varna, has resulted in the temporary isolation of the Bulgarian forces in the field. They are cut off from all bases of supplies and face the possibility of starvation.

Czar Ferdinand of Bulgaria has telegraphed to King Charles of Roumania that he is ready to negotiate a settlement.

GRAND JURY RETURNS 8 INDICTMENTS

In a partial report submitted this morning the territorial grand jury returned nine indictments, one charging George Rufus Simmons and James Frederick Field, negroes, with murder in the first degree, in connection with the death of Santos Morales, a Porto Rican, who was killed in a fight near Leilehua on June 30.

Choi Young Sun and Francisco Avila face two indictments each, the first for assault with intent to commit murder and the second for assault and battery. Sun is accused of shooting Ishi Park Hak Moon June 3, seriously wounding his victim. Avila is accused of stabbing Eddie Mokuahi on June 16.

The other defendants named are Alfredo Castillo, first degree burglary; Domingo Cruz, assault and battery; Anastacio Rivera, assault and battery.

PINEAPPLE MEN WILL REDUCE PLANTED AREA

Reduction of planted areas may be the remedy the pineapple growers will adopt to meet the crisis of over-production they believe confronts them, according to the action taken by the Pineapple Growers' Association at a protracted meeting yesterday afternoon. Unless this is done the planting schemes under way before the alarm was taken would, it is estimated, give an increase of six hundred thousand cases of the preserved article two years hence. As it is, there is a large increase assured for next year from pine already in course of growth. For the crop of 1915 there is yet time to limit the production, as the planting therefor will be done this year, but not too much time. Plants for the purpose are rapidly maturing and must soon be transplanted. It was decided at yesterday's meeting to take account of all of the available acreage for the 1915 crop, a com-

NAMES ON PENAL SUMMONS RESEMBLES SOCIAL REGISTER

While Honolulu society sallied forth in force to the Oahu Country Club last evening to attend a social function given as a compliment to officers in the British battleship New Zealand, a little delegation of police officers, while unbidden to the festivities, took stations along Nuuanu avenue and incidentally took more than passing note of the rate of speed maintained by those who journeyed Palward in fast-flying automobiles.

Today a sheaf of penal summons is under preparation and will be served upon the great and near-great of Honolulu society.

Special Motorcycle Officer Chilton and several assistants made careful note of a large number of machines that visited the well-known fashionable resort. In the course of the evening, the machines owned or driven by the following were placed on the list: G. J. Waller, C. A. Black, Dr. Mitsuura, J. Takamoto, H. Castle, James Quinn, E. C. Waterhouse, Ensign Freitas, F. P. Reynolds, — Davis, Rev. J. P. Erdman, C. N. Waller, D. B. Case, — Wilder, Stanley Kennedy, and several others, whose identity has yet to be established.

The police are expected to file charges of either operating machines without having proper numbers affixed or exceeding the speed limit. The summons are issued returnable within forty-eight hours.

In conducting the general campaign for safe, sane and conservative operation of autos in and about the city, the police department has served penal summons upon Tom Quinn, Frank Draper, J. Harris McKenzie, W. L.

SHIPPING NEWS

PACIFIC MAILERS NEARING PORT

Steaming from opposite shores of the Pacific, two Pacific Mail liners are en route to Honolulu and scheduled to arrive here on Tuesday, July 22nd, according to advices received here through the agency of H. Hackfeld and Company.

The Mongolia from San Francisco has left the coast with 80 tons general cargo for the islands. The number of passengers departing from San Francisco will be made known later with the first wireless message. It is possible that the Mongolia will be given the remainder of material for a sugar mill that is being manufactured in this city and shipped to the Philippines.

The steamship Persia has sailed from Oriental ports for Honolulu and San Francisco and should arrive here on July 22nd with 200 tons cargo from China and Japan. The Persia as well as the Mongolia will be supplied with coal, and both vessels are listed to berth at Alakea wharf.

Today's Sailings.

The Inter-Island steamer W. G. Hall, with passengers and general cargo, is scheduled to sail for Kauai ports at 5 o'clock this evening.

Two Matson freighters are on the boards to depart for island ports this evening, the Hyades proceeding to Port Allen and thence to Kapaeha and Hilo, while the Honolulu will steam for Kahului direct, returning here on Sunday morning to complete cargo for the coast.

The Hyades will sail from Hilo for San Francisco on about July 24, taking a full load of sugar and a quantity of preserved pine.

Hilo Shipping.

Hilo shipping according to report from officers in the steamer Helene was represented by the schooner Melrose, scheduled to sail for the Sound the last of the week in ballast. The Matson Navigation steamer Enterprise is taking on sugar preparatory to getting away for San Francisco with the first of the week. The Inter-Island steamer Kaula was discharging sugar into the Enterprise at the time the Helene sailed for Honolulu.

Claudine Back from Maui Ports.

The Claudine was an arrival from Maui ports this morning, the vessel returning with a shipment of 50 head cattle, 30 pigs, one horse, 104 sacks taro, a quantity of empty drums and sundries. Pursor Kibling reports 800 sacks sugar awaiting shipment at Kapaeha. The Claudine met with fine weather on the round trip to the Valley Isle.

Paving Blocks from Hawaii.

Paving blocks to the number of 33,670 together with 50 cords wood and a quantity of empty drums and packages of sundries were brought from Hilo and the Hawaii ports with the return of the Inter-Island steamer Helene. The officers report fine weather on the voyage.

Hyades Cargo Moving Fast.

Fast work is being done in the discharge of cargo from the Matson Navigation steamer Hyades with a view of an early dispatch of that vessel for Kahului, Kapaeha, Port Allen and Hilo. The prediction is made that the Hyades will sail from Hilo on or about July 24, taking a full shipment of sugar destined for coast refiners. The Hyades brought 110 head of army horses and mules, the animals arriving here in fine condition. Two thousand tons of supplies from the mainland are to be left here before the Hyades departs for island ports.

HARBOR NOTES

The Sierra from San Francisco due to arrive here Monday morning will bring the next mail from the mainland.

Should weather conditions warrant taking a chance, the huge floating crane is to be towed to Pearl Harbor within a week or ten days according to the present intention of the local naval authorities.

A cable has been received here in effect that the American-Hawaiian freighter Mexican, has sailed from San Francisco for Sound ports to load a quantity of cargo destined for the Hawaiian Islands. The Mexican is due here on or about July 30.

Marcus Mayer, an American theatrical manager is lying seriously ill in a London hotel.

JAPANESE AND BRITISH CLASH

Steamship competition between Japanese and British lines along the coast of Asia is declared to be exceedingly keen and war to the knife is the slogan. The battle between the N. Y. K., a powerful Japanese company, and the British India Company is a hard-fought one, entailing a loss of \$10,000 a trip, according to a conservative estimate.

The British India Company has asked the English Chambers of Commerce to prevent the Nippon Yusen Kaisha from engaging in business on the Indian coast in view of the fact that Japan does not allow foreign steamers to engage in Japanese coastal trade, but the application was rejected. Consequently it started the competition against the Nippon Yusen Kaisha. Recently the British India Company increased the number of steamers on this run to eighteen, hoping to defeat the Japanese company at a blow, as it was under the impression that the government was going to withdraw the subsidy in accordance with the administrative reform scheme, and that the N. Y. K. would then be unable to continue the campaign. It still hopes it may be able to make favorable terms with the Nippon Yusen, though these fall short of victory.

The Nippon Yusen Kaisha will not be easily frightened by the mere increase of steamers, however, as it started the campaign with great determination. With the coming of the southwest monsoon, the loss will be greater than ever, and will fall principally on the British India Company, which will be running a large number of steamers practically empty.

BRITISH WIN IN SOCCER CONTEST

By a score of 3 to 1 the husky soccer team of the battle-cruiser New Zealand proved its superiority over the Schofield Barracks team, in a fast game played at Alexander Field yesterday afternoon. The game was replete with brilliant playing, but was clean as a whistle throughout, both sides, although playing for all that was in them, avoiding any semblance of illegal work.

The soldiers have not played a game for several months, and their lack of combination showed the want of practice. Most of the navy players showed by their work on the field that they were old time booters.

This afternoon at 4 o'clock, a game will be played between the New Zealanders and an All-British team recruited from the ranks of the Hawaiian Association Football League. The Punahou and Healan Clubs will furnish most of the players, and while they have not been on the field since the league season closed, they should be able to give the jacks tarts a hard run for the long end of the score.

Chinese Built Motor Vessel.

The trial trip of the motor vessel Ah Kwong, built at the Taikoo docks for the Asiatic Petroleum Company recently, took place at Hongkong. About 120 guests were invited, and of these about 100 attended in spite of the inclement weather. They included gentlemen interested in shipbuilding and engineering, and they were unanimous in expressing their admiration of the new craft and her serviceability. Her speed is nine knots. The trial proved most satisfactory.

'SPLENDID,' SAYS CAPT. HALSEY AT MANEUVERS

(Continued from page one)

In the morning, and motor cars were lined three deep behind the reviewing point.

It was a surprise to Captain Halsey and his officers to learn that 30 per cent of the infantry were recruits, and that half of the recruits were less than a month in the service. As the New Zealand commander put it, it must have been a busy month for the rookies, for they marched like veterans.

The British officers were especially interested in the regimental colors, and inquired closely into the history of each organization and the general plan of our military organization.

The band of each organization played it past the reviewing officer, and the music of both the foot and mounted regiments was inspiring and martial.

When the review was over the British officers were taken to the Infantry Club, where refreshments were served, and where they had an opportunity of meeting the officers of the post. The 24th Infantry band played for half an hour in front of the club lawn, ending with "God Save the King" and "The Star-Spangled Banner." It was a genuine "hands across the sea" affair, and one which was a success from start to finish.

General Fuston, General Macomb, and the entire staff of the Hawaiian government, besides all the post commanders on Oahu and their staffs, were in attendance at the review.

Morning on CHANGE

Hawaiian commercial had the stock board all to itself today, showing a recovery of the fraction mentioned in sales of two lots of 20 shares each at 23 1/2, following ten and 20 at 26 flat reported. Other recess sales were 10 each of Oahu and Ewa, both steady at 13 and 19 respectively.

Mounted Police Officer Kramer was numbered among those who fell victims to the campaign instituted by Chief of Detectives McDuffie and his sleuths against those alleged as violating a new territorial law pertaining to skylarks. Kramer entered a plea of guilty to the allegation but was released by Judge Monsarrat with the injunction, "Don't do it again."

A short meeting of the supervisors was held this afternoon, at which a small amount of routine work was disposed of. The several important items of business which have been hanging fire for some time were not discussed, as the purpose of the meeting was only to dispose of the routine work.

A meeting of the Hawaii fair commission, composed of H. P. Wood, chairman; J. N. S. Williams, John Hughes, John Wise and C. S. Wright, has been called for 10 o'clock Tuesday morning, July 22, in the rooms of the promotion committee, for the purpose of receiving the report of Chairman Wood. Chairman Wood's report has been compiled from data collected during his recent trip to San Francisco.

The legislature's appropriation of \$2500 for improvements in the public archives building has been found entirely inadequate for the alterations desired and it was decided this morning that the appropriation will not be spent, for a time at least. J. A. M. Johnson, who submitted a tender several days ago for supplying filing cases for that structure, was notified today that the bids are declared off, the fund available being too small to make the intended purchases.

CZAR PLEASED WITH VISIT TO GERMANY

[By Latest Mail]
ST. PETERSBURG, Russia.—Count I imperial receipt, addressed to M. Sazonoff, the minister of foreign affairs, has just been published: The hearty reception accorded to me on the part of the German emperor

and the people of Berlin and the friendly meeting with the king of England were all the more gratifying to me in that I could see in them not only the tradition of old friendship, but also an expression of harmonious feeling in the main questions of European policy at the present time, which is a sure pledge for the preservation of the peaceful relations so necessary for the happiness of all nations. In recognition of the fact that in the heavy labors which fell to your lot in consequence of the events in the Balkans, you not only have fulfilled in every detail all my instructions, suggested to me by the interests of my beloved Russia, but have also contrived with keen perspicacity and steadfastness in the defense of our views and also by a conscientious

treatment of every question to win for yourself the trust of all those who have taken part in the international settlement of complicated and trying questions, I consider it my duty to express to you my sincere gratitude.—Expressing the esteem in which I hold you, I remain your ever well wishing
NICHOLAS.

The Roman Catholic church of St. Charles in Montreal, the oldest in the city, was completely destroyed by fire. Many valuable paintings were burned, the total loss approximating \$500,000. While hundreds of school children were assembling for a Fourth of July parade in West Pittsburgh, an automobile plunged through the crowd, killing a 4-year-old boy and knocking down twelve others.

Police Notes

Arrested on a charge of white slavery, Ah Moon, Moke and Maile Moke-kalawe were yesterday committed to the circuit court by Judge Monsarrat.

Several drunken Japanese engaged in an affray over the possession of a dog, brought one A. G. Snow, a colored man, into the affair, with the result that Snow was brought to police station to face a charge of assault and battery. He was discharged.

At the instance of Chief of Detectives McDuffie, Delphine Montaro was placed under arrest yesterday, charged with the larceny of a watch valued at about \$40. Montaro entered plea of not guilty and requested more time in which to appear.

Korean Interpreter John Wo, identified with Chief of Detectives McDuffie's staff, was one of many who have been arraigned upon a charge of having a captive skylark in their possession. Wo was unable to be present at the district court this morning, and his case was postponed until tomorrow.

Several Chinese alleged to have been found with opium in their possession were placed under arrest this morning. In each instance the defendants asked for more time in which to enter a plea. Officers connected with the detective bureau are at present conducting an energetic campaign against the users of the seductive drug. In the series of raids in the lower section of the city a large delegation of alleged offenders have been rounded up.

While Harry Lake, a detective connected with the city and county attorney's office, was on the other side of the island yesterday drawing plans of the Santos Morales murder, of June 5, he put before the grand jury, he believes he came upon another "blind pig." His conviction on this point led to the arrest of Mrs. J. M. Fields, whom he says he saw sell gin to a soldier. A warrant was sworn out for her arrest by W. P. Fennell, inspector of liquor licenses, and she was arrested this morning.

It was some high-powered disturbance, turned loose during the still watches of last evening by a quintette of men and women, who coursed through the downtown streets while occupants of an automobile. Police finally interfered with the bolshieus jollification to an extent that Lillie Blossom and R. A. Pass were taken to the station charged with having disturbed the quiet of the night.

The young woman admitted this morning that nine bottles of beer were an incentive for the launching of considerable picturesque wrangings. Calls at several downtown saloons resulted in a renewal of supplies of stimulant. Mounted Officer Butler effected the arrest of the principals in the joy ride. Pass forfeited bail, while the woman was released with the injunction not to appear in court upon a similar charge for the next thirteen months.

BIG ATTENDANCE FOR WRESTLING TONIGHT

Sailors from the New Zealand will turn out in force this evening to witness the wrestling match between Shephard, one of the physical instructors of the ship, and McLeod, of Honolulu. Indications are that there will be a record house at the Popular Theater.

Two preliminaries have been arranged, and it will be about 8:45 before the principals take the mat. They will wrestle two out of three falls, Police Gazette rules.

PINEAPPLE MEN TO REDUCE ACREAGE

mittie having been appointed to do this and report at the earliest possible date. The committee consists of James D. Dole, president of the association, ex officio; Fred W. Macfarlane, president of Libby, McNeill & Libby of Honolulu, Ltd.; William L. Gifford, manager of Hawaii Preserving Co., Ltd., and W. P. Thomas, secretary and treasurer of Thomas Pineapple Co., Ltd. It will depend upon the committee's report whether the different planting companies shall reduce their respective areas hitherto set apart for the crop of two years hence. Adding to the difficulty of the problem is the fact that there are many Japanese planters cultivating areas of their own and selling their crops to the corporation canneries.

There was considerable discussion, with some warm criticism, of the action of the Hawaiian Pineapple Company in abruptly cutting the prices of this year's output, compelling all the other members of the association to follow suit. No action was taken, it being a case of "grin and bear it." Fuel has been added to the flame of chagrin over the matter, however, by the receipt of a cablegram by a local cannery manager, advising him of a shortage in certain varieties of California fruits, which, it is thought, through an advance in prices, might have the effect of diverting a demand therefor to Hawaiian pines.

It is stated that the cut in prices will make a difference in receipts from this year's pack amounting to between \$500,000 and \$600,000. In the opinion of some, the reduction will tend to weaken rather than strengthen the market, by causing large buyers to hold back in the expectation of still further decline in prices. At all events, it will hit the packers hard, especially in view of the general depression caused by the low condition of sugar and the tightness of money.

A 7-year-old boy of Chicago confessed to having pushed his 6-year-old playmate into the river, and is being held under arrest.

LOCAL AND GENERAL

Federal Judge Dole last Thursday appointed L. Severance to serve as United States commissioner at Hilo.

Emma K. Cox was appointed guardian this morning for Isabel M. Graves and Hattie A. Graves, minors, under bond of \$200.

The success of the first shipment of eight dozen chickens to the "Baufanden farm" at Kaimuki, is to be followed by the importation of twelve dozen more, it was stated this morning. It is planned to raise high class poultry on the farm.

The final accounts of the Hawaiian Trust Company as guardian of Margaret and Catherine A. Jones and administrator of the estate of Henry A. F. Carter have been approved by Master V. M. Harrison. The value of the latter estate is estimated at \$286,428.19.

Twenty residence lots fronting on the government road at Hakalau-iki, Hawaii, will be sold at public auction at Hilo next Saturday noon by George H. Williams, territorial sub-agent for the first and second land districts. The upset values of the parcels range from \$75 to \$125 per lot.

A tour of the island, which will include a visit to every pineapple cannery on Oahu, to ascertain in what manner the new law relating to child labor is being carried out, whether the law is being lived up to or ignored, J. C. Anderson, probation officer, left the city this morning for a week's absence. In addition to investigating labor conditions in the canneries, he will take occasion to see that the laws prohibiting cruelty to animals are enforced, and he will also spend some time at the reform school at Waialeale.

BEAUTIFUL GIFT IS MADE BY FLORIST

A basket containing a sample of every available fruit and flower on the islands has been sent to the officers of the New Zealand by Mrs. E. M. Taylor, a florist of this city. The beautiful basket, artificially decorated, with the inscription on one of the ribbons, "Aloha-Honolulu," has been received by Captain Halsey, and in a letter of acknowledgment he has thanked Mrs. Taylor for the pretty gift and assured her that it is very much appreciated by him and his fellow-officers. There are almost as many fruits as there are flowers in the basket, which may be seen hanging in the captain's cabin by one who is fortunate enough to enter his handsome apartments.

Goodness does not consist in greatness, but greatness in goodness.—Athenaeus.

BOOST!

The Star-Bulletin's suggestion yesterday that one of the local commercial bodies, or the Ad Club or Commercial Club, should get up a boosters' excursion to Hilo, is strongly indorsed by the Advertiser, which says editorially this morning:

The idea of sending a delegation of the members of the Ad Club or the Commercial Club to Hilo, in order to bring the cities closer together is a good one. Any feasible plan of cooperation between the cities of the territory is worth while. At the same time, we believe that Hilo would do better if, as a starter, she sent a delegation of live wires to Honolulu to boost for the Crescent City on the ground. That is the way things are done on the mainland and with happy results. However, getting together is the main thing, whether we do it in Honolulu or in Hilo or in Walluku. There is a get-together disposition in the air and the good work of the Hilo board of trade is certain of results. Many this summer will "See Hawaii First" for the first time.

The Advertiser rightly says that "any feasible plan of cooperation between the cities of the territory is worth while." Furthermore, the stirring up of interest is worth while, because it helps to promote good feeling and good feeling is a mighty element in intra-territorial business relations.

A live bunch of boosters who will keep things moving in the promotion line here at home, would be a great asset to the community and the territory. We don't need to expend all our energies in advertising abroad. Let's get acquainted with ourselves and each other.

As to the suggestion that Hilo should send a delegation here, that is already on the way to fruition. The second annual conference of the commercial organizations of the territory will be held here in September. Hilo's live-wire Board of Trade, which was host to the visitors last year, will be well represented, of course. The September conference gives the Hilo boosters just the chance to come here that they will take quick advantage of. Two visits from Hilo may hardly be expected, and the logical time is during the September civic, trade and commerce conference.

Meanwhile, the spirit of "starting something" is in the air. Some wideawake organization should encourage it.

HITCHCOCK'S MOVE

Senator Hitchcock's action in withdrawing from the Democratic caucus mystified people in Hawaii, but it had a very simple explanation and no connection whatever with sugar, according to the Washington dispatches. Senator Hitchcock of Nebraska withdrew from the Democratic tariff caucus because that body voted down his amendment that would put a graduated income tax on tobacco production.

Senator Hitchcock's revolt, which he later declared did not mean that he had withdrawn from the party, or that he would not support the party measure, served to determine that there would be a binding resolution adopted by the caucus, pledging the senators to support the bill as ratified, and refrain from introducing any amendments not proposed by the finance committee majority, and not to support any amendments offered from the Republican side, according to the report.

It was because he anticipated such a resolution that the Nebraska senator announced that he could not remain in the caucus, because he intended to introduce his tobacco tax amendment in the senate, and to lead a fight there for its adoption.

However, Hitchcock's break with the caucus helps the sugar fight.

CIVIL SERVICE PROGRESS

Senator Wirtz and his colleagues of the municipal civil service commission are going at their work in a highly commendable manner. They are feeling their way, of course, but in doing so they are asking and receiving advice from all sides and are calling the heads of departments into consultation at every step.

As might be expected, the initial steps are taken somewhat uncertainly. There is no local experienced to be used as a guide and comparatively few people here are familiar with civil service detail. The exact balance between physical and mental requisites, the tests, promotions, are all questions that only experience will fully answer.

Of considerable local interest, therefore, is the experience of civil service commissions else-

where. We have seen no more lucid and broad recognition of the underlying principles of the civil service idea than that contained in a recent chapter from Col. Roosevelt's "Possible Biography." Col. Roosevelt, it will be remembered, was appointed by President Harrison as a national civil service commissioner, and served with distinction for six years, two of them under President Cleveland. The group of which he was a member did really remarkable service, and the fact that at one time the other two members of the commission were dyed-in-the-wool Democrats did not mar its fine record.

Mr. Roosevelt devotes a large part of a recent chapter to the work of the commission. Of concrete local interest are his conclusions as to examinations and promotions. He says:

If men are not to be appointed by favoritism, wise or unwise, honest or dishonest, they must be appointed in some automatic way, which generally means by competitive examination. The easiest kind of competitive examination is an examination in writing. This is entirely appropriate for certain classes of work, for lawyers, stenographers, typewriters, clerks, mathematicians, and assistants in an astronomical observatory, for instance. It is utterly inappropriate for carpenters, detectives, and mounted cattle inspectors along the Rio Grande—to instance three types of employment as to which I had to do battle to prevent well-meaning bureaucrats from insisting on written competitive entrance examinations. It would be quite possible to hold a very good competitive examination for mounted cattle inspectors by means of practical tests in brand-reading and shooting with rifle and revolver, in riding "mean" horses, and in roping and throwing steers. I did my best to have examinations of this kind instituted, but my proposal was of precisely the type which most shocks the routine official mind, and I was never able to get it put into practical effect.

The important point, and the point most often forgotten by zealous Civil Service Reformers, was to remember that the routine competitive examination was merely a means to an end. It did not always produce ideal results. But it was normally better than a system of appointments for spoils purposes; it sometimes worked out very well indeed; and in most big governmental offices it not only gave satisfactory results, but was the only system under which good results could be obtained. For instance, when I was police commissioner we appointed some two thousand policemen at one time. It was utterly impossible for the commissioners each to examine personally the six or eight thousand applicants. Therefore they had to be appointed either on the recommendation of outsiders or else by written competitive examination. The latter method—the one we adopted—was infinitely preferable. We held a rigid physical and moral pass examination, and then, among those who passed, we held a written competitive examination, requiring only the knowledge that any good primary common school education would meet—that is, a test of ordinary intelligence and simple mental training. Occasionally a man who would have been a good officer failed, and occasionally a man who turned out to be a bad officer passed; but, as a rule, the men with intelligence sufficient to enable them to answer the questions were of a type very distinctly above that of those who failed.

Therefore I felt convinced, after full experience, that as regards very large classes of public servants by far the best way to choose the men for appointment was by means of written competitive examination. But I absolutely split off from the bulk of my professional civil service reform friends when they advocated written competitive examinations for promotion. In the police department I found these examinations a serious handicap in the way of getting the best men promoted, and never in any office did I find that the written competitive promotion examination did any good. The reason for a written competitive entrance examination is that it is impossible for the head of the office, or the candidate's prospective immediate superior, himself to know the average candidate or to test his ability. But when once in office the best way to test any man's ability is by long experience in seeing him actually at work. His promotion should depend upon the judgment formed of him by his superiors.

Jersey City (N. J.) Journal: "The price of sugar has been falling for years, mainly on account of the rapid growth of the domestic beet industry. It is so low now that it is not easy to imagine how it could possibly go lower. The chief advocates of free sugar are the representatives of the Sugar Trust. They fear the American beet-growers whom free sugar would destroy."

Col. Roosevelt's latest Armageddon was featured by Grand Canyon lightning. However, the colonel didn't seem to mind the spotlight a bit.

Kaiser Wilhelm's course in the Mexican embroglio proves that because a man has a head for figures he is not necessarily a figurehead.

We presume that the Democrats will insist on removing protection from Mexico also.

President Wilson is having a nice, quiet summer—not.

Secretary Bryan ought to transfer his lecture tour to the Chihuahua circuit.

Possibly President Wilson would recognize the latest Mexican government if he could catch up with it.

Plans are on foot for a merger between the Ananias Club and the Insidious Lobbyists.

Editor Honolulu Star-Bulletin, Sir:—Having just returned from the volcano as one of a party of ten, I feel impelled to register some objections to the management of the Volcano House. Those in charge make no effort to direct visitors to the sights other than the crater, which if seen would go far toward making up for the absence of fire in the pit.

When spoken to about this omission, the manager told me that the hotel had nothing to do with such things. There is not a scrap of promotional literature in sight at the hotel, much less any printed information about the volcano itself. During the time I was there

the record books, in which visitors enter their impressions, were not once taken off the shelves, nor anybody to my knowledge asked either to look at them or to write in them. Another thing that does not seem right is that no discount is made on large parties, in keeping with the reduction to such made by the Hilo Railroad Company and the Matson steamers.

Although I was allowed a discount of fifty cents a day each from five dollars, for my party, its members did not have the ordinary hotel accommodation of all of the ladies being packed into one room. I was told that party discounts were not granted as a rule.

The Atkinson road to the crater, built at a cost of something like one hundred thousand dollars, is becoming very much in need of repairs, and in places is strewn with broken bottles. For this the management of the hotel is not responsible, but there should be some authority to bring to account those guilty of such reckless throwing of bottles.

If he has bound himself to do that for all of his 11 different kinds of brothers, he wants to know the worst at once. He does not know but that he has also promised not only to get all of them out of jail, but also into jobs which will give them opportunities for getting back into jail again.

When Murdock was running for Congress he gave a fine exhibition of self-restraint by refusing to join a single lodge, because he did not want anybody to go around and say that he was trying to get the brothers' votes. So far as is known, he is the only candidate who ever refrained from joining lodges for the sake of the brothers' votes. But Murdock admits that he just wouldn't do it.

But after he was elected he didn't mind joining. All the larges are glad to get Congressmen into "their midst," and before Murdock stopped joining he had 11 grips and passwords to remember. He was also supposed to remember his vows, but he did not. He supposed all the "I promise" business was like joining the church, and was

not to be thrown up to a man afterwards.

But he soon found out that the lodge brothers were disposed to hold him to his obligation, especially that part where it says that the thing to do when a lodge brother is in jail is to get him out. When he went to Washington to take the office a telegram was there from the secretary of one of his lodges. It informed him that a brother was locked up at Alexandria, near Washington, and directed him to furnish \$4000 bond for the erring one and get him out at once.

B. G. Gelson of Baton Rouge, La., thinks that some day the Mississippi Valley is going to have a worse flood than the Ohio Valley had this spring. "The denudation of forests in the northern central states," he said, "permits immediate drainage following spring thaws or rains. In former times forests, with their heavy undergrowth, retained the moisture like a sponge, allowing it to escape slowly. Thousands upon thousands of swamp lands along the Mississippi, which have acted as overflow basins, are being reclaimed, and the effort is being made to confine the river within its banks."

"One of these days, the floods will come down from the uplands in greater volume than ever before and the confined Mississippi will burst its bonds and spread unprecedented devastation over the valley."

The Howard Watch

"Everything that a good watch should do—always—the Howard Watch does"

WICHMAN & CO

As for back as 1860 men were talking about the "super-service" of the Howard Watch — Because the Howard, even then, was superior in construction and work-power to every watch in existence.

"Super-service" is still a characteristic of the Howard Watch. No other watch of modern times can quite compare with the Howard in exquisiteness of construction and in the "super-service" it renders.

A Howard Watch is a good thing for you—or your son—to own.

custom house in the last 11 months. This beats all previous records. Maiden Lane experts estimate the year's importation of gems at more than \$50,000,000.

Some brokers say the influx is due to an attempt to "beat" the new tariff. It being feared that the rate on cut diamonds will be raised considerably by bringing in \$13,000,000 of cut diamonds ahead of the new tariff, the importers will make a net profit of \$1,000,000 in duties alone.

Other diamond brokers say that the

\$10,000,000 increase in imports is largely the answer of the rich don't care to the cry against the high cost of living.

The Diamond Trust in South Africa has restricted the output. Oriental sapphires have risen to \$400 a carat. The fad for pink pearls has driven them up 125 per cent. An Indian pearl trust has been formed. About half of the fine pearls in the world are owned in New York City. The purchases here averaging \$10,000,000 a year.

TARS WILL TACKLE THE SINOUS HULA

Jack Tar, to the extent of several hundred of him, will show Honoluluans that he is capable of doing things and performing deeds other than maintaining a watchful care over the fine piece of fighting machinery in the big new New Zealand, now preparing to steam away to British Columbia.

The sailor lads will try conclusions with the sinuous hula, take a hand in acrobatic stunts, turn loose a flood of melody upon their unsuspecting shipmates as well as the general public, and in fact go through all manner of amusing stunts along amateur theatrical lines at a special performance to be given at Ye Liberty Theater this evening.

It's a sailors' competition that has been arranged, and at which a shipload of fun is promised to be discharged in record breaking time.

The program includes instrumental numbers, vaudeville turns, black face and slapstick comedy, a series of selections from quartettes, duos and soloists, flashes of minstrelsy and in fact a wide variety of selections, in which the sailor man prominently figures.

A big time is promised and the men from the New Zealand should be out in force this evening.

The engine of a Baltimore and Ohio passenger train turned turtle near North Vernon, Ind., when the engineer suddenly applied the emergency brakes, and the fireman was killed.

A rear end collision of two trains on a New Jersey roller coaster killed one man and injured between twenty and thirty others.

EMPLOYMENT WORK TO BE 'Y' FEATURE

Arthur E. Larimer, who was recently promoted from the educational department of the Young Men's Christian Association to the secretaryship of the men's department and head of the employment work, this morning commenced work upon a series of plans which are expected to result in a complete reorganization of the employment department of the association.

This reorganization, in case it is carried out under the proposed plans, will establish the employment work on a systematic basis which will tend to make it a valuable community asset. The associations on the Pacific coast, as well as those in the larger cities in the east have come to recognize the employment work as one of the most essential features. The plan of this work as established in the mainland associations and which will eventually be undertaken locally, is to make the request of each applicant for a position that he take out a membership in the association with the guarantee that he will secure through it a position within thirty days or his money will be refunded. Those secretaries in charge of the local work must secure the cooperation of the employers in order that they may know the large percentage of the vacancies existing in the various mercantile houses, shops, etc., throughout the city from time to time. In a city of the size of Honolulu, this is believed to be comparatively easy.

The local Young Men's Christian Association will endeavor to cover the higher grade positions, such as all forms of office work and the various trades, cooperating with the other institutions which are doing a like work in Honolulu with the idea of getting men and boys into those positions best suited for them. In instituting this plan a committee on employment and vocational guidance will be appointed by the board of directors of the association. This committee will be composed of men who will arrange to meet the applicants for positions on certain evenings and study their individual qualities.

George S. Raymond, recently appointed inspector of schools for the territory and who will have a large share in the development of vocational training and guidance in the public schools during the coming year, will cooperate with the Young Men's Christian Association in working out the new system. The board of directors will take up and act upon the matter at its next meeting.

HOLDINGS OF FRANCE LARGE IN SOUTH SEAS

(Continued from page one)

between New Caledonia and the constellations of French groups in the Eastern Pacific that will be especially valuable when the Panama canal is opened and the Pacific becomes the great commercial highway. Wallis and Futuna were practically the last of the "protectorates." Tonga being the only other one of importance, and there are many who believe that Britain's delay in the annexation of this group may be dangerous, and that the wisest policy is to hoist the flag at once. Every group and practically every atoll on which a coconut palm will grow, or rock on which seabirds are accustomed to congregate, and on which deposits of guano are therefore to be found, has not been taken possession of by one or other of the great powers.

"Hawaii, where the great navigator Cook lost his life, was offered to Great Britain times out of number. Tahiti was ours till we abandoned it to France, Samoa was lost through vacillation and blundering, the whole of the Bismarck archipelago was once virtually British, as also were New Caledonia and the dependent Loyalty Islands, although not annexed. Indeed, it has been said to be more a matter of luck than good management that any of the islands remain British."

The British flag is, of course, paramount in the South Pacific, but the French possessions are considerably larger than most people imagine. France already has New Caledonia, the Loyalty Islands, Wallis and Futuna islands, the Society Islands (Tahiti), the extensive Tuamotu group, the Tubuai or Austral Islands, Rapa and Marquesas Islands, while she exercises a powerful influence in the New Hebrides.

"Germany owns the Bismarck archipelago (comprising New Britain and other large and valuable islands), and a large slice of New Guinea, the most northerly of the Solomon Islands (Buka and Bougainville), the choicest islands of the Samoan group, the Marshall Islands, and the Carolines, the New Hebrides, and the three last-named having been sold by Spain to Germany after the Spanish-American war for something like \$550,000. Most of Germany's island possessions came into her hands between 1884 and 1899, but since 1894 Germany has steadily promoted her interests, and encouraged in every way their settlement and trade."

"America has got Hawaii, Tutuila and other islands in the Samoan group, Guam in the Ladrones, and various scattered islands in the North Pacific, as well, of course, as the Philippines, if they are not beyond the Pacific littoral."

"Wallis island is about 300 miles due west from Samoa, and until the French missionaries arrived the natives were taught Christianity by the London Missionary Society. Futuna island, with its consort Alofi, lies about 125 miles southwest of Wallis, Futuna being eight miles long and five miles broad, and Alofi six miles long and three broad."

PROSPECTING WORK UNCOVERS DEPOSIT

[By Latest Mail]

HOBART, Tas., Aus. — Prospecting work at Zeehan has disclosed a big pyritic formation 32 feet wide on the old Britannia property, now owned by the British Zeehan Company.

The formation has been stripped for a width of 14 feet on the main vein, but its assay value is not yet known. There is a good market for pyrites carrying a fair percentage of sulphur, the Mount Lyell Company being a strong buyer, and as the value is in the ore, the news discovery will be an important one.

The formation is now being trenched for higher up the hill.

HAWAII HAS A PUBLICITY MAN ON THE JOB

That Honolulu people are taking a great interest in the "See Hawaii First" campaign started by the Hilo Board of Trade and that it should be a success is the opinion of John M. Giles, at the Henry Waterhouse Trust Co., who is handling the work in Honolulu.

"I have only been started a few days," he said, "but I am more than encouraged by what I have seen and heard. Everyone I have so far come in contact with is pleased with the idea and I think that just as soon as I can get around to it there will be a steady stream of Oahu people to Hawaii."

"The advertisements written by Mr. Thurston have been an eyeopener to most people for the prevailing idea of Hawaii and Hilo was a place where there was a volcano and a village of kickers who when they were not pursuing this pastime were changing their ancient yell of 'Watch Hilo Grow.'"

"There is no place in these islands so ideally suited for a summer vacation as Hawaii. There is everything that the advertisements have told about and this is not hot air I am talking now, for I have been there and I know it. Hawaii is not made up of Hilo and the volcano. There are hundreds of places where the jaded business man can loiter about in his oldest clothes, where he can take his rod and go fishing, where he can go riding or shooting. There are mountains to climb that are mountains, and something to see when you get there. There are ideal places for the wife and kiddies to go where they will be out of the enervating summer heat and where the cost will only be a fraction of the usual coast trip. What is more than anything else it is a real holiday and one from which they come back restored in health."

"One of the curious things I have run across, however, is that when you put it up fairly and squarely to a Honolulu, even the kamamias, they do not know that there are these places to be found and year after year send their families away to places where dress means more than comfort."

"It is impossible for me to get hold of everyone and tell where they can go, but I have a telephone number, 1208, and I am always ready to give information."

"If business men want to make a business trip to any of the other islands instead of sending the office boy down to book their tickets all they have to do is to call my number and I will make full arrangements for them."

"Somebody asked me the other day what I was doing and I told them, 'I am the bell hop of the territory.'"

The amateur golf championship of France was won by Lord Charles Hope of England.

meantime the president will name a nominating committee for the election of officers, from the body of membership and not the board of trustees—such being the practice, as was explained, to avoid the contingency of having any board making itself self-perpetuating.

Peace Essay Winners.
The committee on the annual peace essay prizes reported the following list of winners, which the president directed to be placed in the records: Miss Shirley B. Foster, College of Hawaii, first; Miss Eernie Smith, College of Hawaii, second; Clayton Worth Cousins, College of Hawaii, third; Miss M. Ruth Anderson, Oahu college, fourth; with honorable mention to Miss Genevieve Taggard, Oahu College; Elbert G. Tuttle, Oahu College, and Umechi Kinoshita, Lahainaluna.

Mr. Spalding raised a laugh by suggesting that copies of the essays should be sent to King Ferdinand of Bulgaria, King Constantine of Greece and the Sultan of Turkey; also that a few might be thrown into Mexico and China.

Fred L. Waldron was appointed by the chair to fill a vacancy on the committee for the annual territorial commercial convention in September.

A request for a contribution to the fund for defraying the cost of arbitration and peace literature issued by the Lake Mohonk conference was ordered placed on file. Similar action was taken with a request from the district secretary of the chamber of commerce of the United States for pictures of the president and of the chamber's building, if it had a home of its own—which it happens not to have. The pictures were desired to illustrate lectures.

A letter of thanks was read from Secretary Lane for the chamber's invitation to him to visit Hawaii, in which he expressed a hope that he might have an opportunity of doing so at some future time.

"We have no representative in congress," was the president's explanation of his direction to place on file without other action a perennial request that the chamber endorse a bill to exempt commercial organizations from the income tax. This endorsement, the secretary had stated, had been given the past two years.

Politics Eschewed.

There was unanimous consent to avoiding any interference in the matter of federal appointments.

It was remarked that previous appointments of United States district attorneys had been mainlanders and besides the far association had taken action with regard to that office. Also it was remarked that Congress could, in a twinkling, change the Organic Act so as to permit a governor to be appointed from outside of the territory.

Those in attendance were President E. Faxon Bishop, Vice-President Frank C. Atherton, Secretary H. P. Wood, E. I. Spalding, E. D. Tenney, J. P. Cooke, E. H. Wodehouse, J. W. Waldron and F. Klamp.

GET A TEN CENT BOX OF CASCARETS

Insures you for months against a Sick Headache, Biliousness, Constipation or a Bad Stomach.

Put aside — just once — the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have a Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.—advertisement.

BANANA CLAIMS NOW AMOUNT TO \$242,623

Seven hundred and ninety-four banana claims, aggregating \$242,623.74 had been filed with Secretary Walker Drake of the banana claims commission, by 10 o'clock yesterday evening. This makes the total over which the commissioners will begin work next Tuesday.

Eighty claims, with a total of \$18,621.29, were presented on the final day, the last batch being brought in at 10 o'clock last night by Kalakala, who brought in twelve of the twenty-five filed during the evening. Though the commission's first meeting is scheduled for next Tuesday several such sessions may be held before public meetings are called, at which claimants may be expected to discuss their lists with the commissioners.

WASHINGTON SPENDS FIRST "DRY" SUNDAY

WASHINGTON, July 6.—There was no liquor sold in Washington today, and the capital suffered its first "dry Sunday" under the drastic provisions of the new excise law to neither drink, sell, borrow, lend or give away any spirituous liquor. Hotels, clubs and other former Sunday joy spots were all "dry," and no amount of influence could obtain even a small one from these places.

Last week we asked where you were going to spend your Summer Vacation, and suggested various and sundry cool spots, warm spots, mountains, plains, volcanoes, jungles, lava flows, fern forests, holes in the ground, auto trips and railroad trips, and other choice things that might make the mouth of an ascetic water and the face of a pessimist smile.

"But what is it going to cost?" and "Where can we stay?" we are asked.

We answer these questions by this Ad., and say that we can and do recommend the following as being worthy of patronage:

WHERE TO STAY AND ENJOY YOURSELF ON HAWAII

CRIME RAMPANT ON ISLAND OF MAUI

[Special Star-Bulletin Correspondence]
WAILUKU, Maui, July 16.—One crime seems to lead to another on Maui of late. One occurred at Lahaina on Wednesday last with no fatal results, for the Japanese, Kitahama by name, tried to kill his wife and then himself. She fell after he had shot at her and thinking he had killed her, he tried to turn the pistol on himself. He was grabbed by friends who had heard the first shooting and his life was saved. The woman was uninjured. He was brought before the Lahaina court and committed to the grand jury for investigation.

The second affair happened last Thursday. It occurred on the road from Ulupalakua to Kanaloa, at the Brown ranch, as the farm house about eight miles beyond Ulupalakua is called. Brown has been a fairly successful cattle raiser, but had been somewhat mentally deranged during the last few years. Thursday morning early, so the story runs, he told his adopted daughter to go away from the house and not come back again that morning. The girl obeyed, and when she returned the doors were all locked. She climbed through a window, however, and when she saw the terrible sight of both her father and mother dead she ran to her uncle's house. He lived toward the Kanaloa Church some few rods away. He made an investigation and found the house covered with blood, the body of the woman frightfully mangled from the shooting, and the body of the man not far away. The sheriff was notified immediately and a coroner's jury brought in the verdict—murder and suicide.

The monthly meeting of Wailae, Kaimuki and Palolo Improvement Club, Inc., will be held this evening. The deferred matter of rejoining the Central Improvement Committee is mentioned in the call as one of the items of business. It is likely that the club will also consider the question of Clean-up Day.

The one perpetual thing about perpetual motion is its failure.

WOMAN A GREAT SUFFERER

Tells How She Was Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Grayville, Ill.—"I was a great sufferer of female complaints for a year and I got nothing that helped me until I began taking Lydia E. Pinkham's Vegetable Compound. I was irregular and had cramps so bad that I had to go to bed. Now I have better health than I have had for years and I cannot speak too highly of your medicine."—Mrs. JESSIE SCHAAER, 413 Main St., Grayville, Ill.

Case of Mrs. Tully.
Chicago, Ill.—"I take pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with such awful periodic pains, and had a displacement, and received no benefit from the doctors. I was advised to take Lydia E. Pinkham's Vegetable Compound, and am now as well as ever."—Mrs. WILLIAM TULLY, 2052 Ogden Avenue, Chicago, Ill.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

SEEKING WATER IN DISTRICT OF KONA, HAWAII

With the arrival here from the mainland last Tuesday of Howard Kimball, assistant engineer, United States geological survey, a systematic campaign will be begun to determine whether the Kona district of Hawaii can be used for water development. Kona is a chronic sufferer from drought and water famine, and water sources in the districts are largely lacking, so far as is now known. The last legislature appropriated \$5,000 for an investigation under the auspices of the superintendent of hydrographic survey and ordered a report to be ready by April 1, 1915.

Assistant Engineer Kimball arrived on the Honolulu Tuesday. His last post was at Portland, Oregon. On Saturday he and G. K. Larrison, head of the hydrographic survey work in the territory and district engineer, U. S. geological survey, will take the Mauna Kea to Hawaii. Larrison will remain about three weeks, but Kimball's work is expected to keep him in the Kona wilds for the major portion of a year.

The districts of North and South Kona will be thoroughly explored for water sources, charted and mapped and plans made for development of the water.

BISHOP ESTATE MAKES LIBERAL PAVING OFFER

At a recent meeting the trustees of the Bishop Estate agreed to bear one-third of the cost of laying a permanent pavement on Bishop street, from Hotel to King street, conditioned on the installation of all water, sewer and gas-piping in the stretch before the paving is done. It is expected that the remainder of the cost will be shouldered by the municipality and the Alexander Young Hotel Company.

This enterprising proposal of the Bishop Estate trustees is inspired by their wish to have a modern street in front of the large business block they are preparing to erect opposite the Young. It is reported that Architect Traphagen, who was in consultation with the trustees here some months ago, has the plans for the building nearly completed at his office in Los Angeles.

REDUCTION OF CURVE WOULD LESSEN DANGER

Changes in the survey of the belt road for a section in the Wailua district are now under way. The purpose of the changes is to do away with the sharp turns, especially the one on the Wailua Hill, which is held partially responsible for a number of automobile accidents there. City Engineer Whitehouse has surveyed part of the new location for the road and expects to complete the survey Tuesday. He plans to make the road curve in the opposite direction, joining the old road a short distance above the present sharp turn. It is expected that an exchange deal will be made between the city and Wailua plantation that the city may get the right of way for the new location.

SIMPLE NEW REMEDY HAS POWERFUL ACTION

It seems strange to many people in Honolulu that the simple mixture of buckthorn bark, glycerine, etc., as compounded in Adler-Ika, has such a quick, powerful action. Our customers state that JUST A SINGLE DOSE usually relieves our stomach, gas on the stomach and constipation so QUICKLY that it is really astonishing. Many say Adler-Ika is the best bowel and stomach remedy we ever sold. The Hollister Drug Company—advertisement.

SUNDAY SCHOOL PICNIC

[Special Star-Bulletin Correspondence]
WAILUKU, Maui, July 16.—The Sunday School picnic of the Wailuku Union Church was held at the Wailuku Beach House yesterday afternoon. Mrs. H. B. Penhallow and Mrs. Alfred G. Martensen were the committee in charge from the Women's Aid Society. The twenty-five children made immediately for the water and had the time of their lives in swimming, various stunts in the water and races along the shore.

PROFESSOR D'EQUITATION

begs to announce that he commences today with the training and schooling of "private horses" as perfect gaited saddlers stepping correctly in walk, trot and canter as required by the equestrian art.

I furnish my patrons with a written guarantee fulfilling my contention within thirty days to school any horse suitable for saddle, this includes combination horses, as a perfect saddle ready to be ridden either by lady, gentleman or child without any danger.

My training and schooling of a saddle horse includes the breaking of the horse, of any bad habits he may possess.

PRIVATE AND CLASS LESSONS

in horsemanship riding through the only correct method of the equestrian art COMMENCING ON JULY 15, lessons to be given in the open until the new Riding Academy is finished.

I request respectfully all ladies and gentlemen to join the class so we can soon begin with figure-riding and prepare for the opening ride of the new Academy, holding a society circus on that day with a few equestrian games for the entertainment of all lovers of the saddle sport.

List to join the class lies open at the office of the Young Hotel.

NEW ZEALAND DRAPED IN THE NATIONAL EMBLEM OF UNCLE SAM

Stars and Stripes Float on British Battle-Cruiser in Honor of
Honoluluans Who Will Be Guests of Captain and Officers
at Reception This Afternoon.

With American flags draped over
the deck of the great battle-cruiser
New Zealand, and canvas stretched
across the deck, busy hands are work-
ing this morning to make the ship
ready to receive Honolulu society at
3:30 this afternoon when Captain Hal-
sey and his officers will be the hosts
of the members of the Commercial,
Country, University and Pacific clubs.
The reception this afternoon prom-
ises to be a gala affair. It will be
the first time the officers of the bat-
tle-cruiser have taken a hand to en-
tertain society here. While many of
the crew have been given shore leave
during the day, only a few of the offi-
cers will be absent this afternoon, as
Captain Halsey desires as many of
them as possible to be on duty to
meet Honoluluans and escort them
about the giant ship of war.

Nothing has been omitted to make
the reception a distinct success. The
decorations, music and general ar-
rangement of the ship have been care-
fully planned. The affair is strictly
invitation. The reception will be-
gin at 3:30 and end at 5:30.

In the brief space of three hours
almost six thousand persons visited
the battle-cruiser New Zealand yester-
day afternoon, the vessel being
open to the public. The tally sheet
of ship showed that exactly 5980 per-
sons crossed the gangplank to be es-
corted about the battle cruiser.

The ship was open to the public
from 2 o'clock until 5 in the even-
ing and during all that time a steady
stream of humanity passed across the
gangplank from the Alakea wharf to
the vessel. The naval band played
amidships while the officers and mem-

bers of the crew showed the visitors
through the vessel, from one end to
the other, explaining its many points
of interest and answering innumerable
questions.

It was a warm afternoon and the
officers were showing the signs of the
heat before the visiting hours came
to a close, yet it did not prevent
them courteously acting as guest and
guide to the many persons who went
aboard. All were good natured, the
officers and crew and the visitors.

The men showed their surprise at
seeing such a cosmopolitan crowd. It
was different from any they had seen
elsewhere. They said it looked like
they had representatives of every na-
tion of the world on board, and un-
doubtedly they had representatives of
a large number of them.

It was the first opportunity the pub-
lic here has had to visit the ship, and
that it did not hesitate to take ad-
vantage of it is attested by the num-
ber of visitors the tally shows.

This is really the last day the bat-
tle-cruiser will be here. For tomorrow
morning early, probably at 9 o'clock,
she will sail for Vancouver. While
the last day, it is also the busiest of
the week. Through the entire day
there will be something doing for the
entertainment of the officers and men.
The day opens with the grand review
of the troops at Schofield Barracks
and closes with a special show at Ye
Liberty theater for the members of
the crew. Sports at Kaplania Park,
association football, and in the after-
noon, beginning at 3:30 a reception
will be given aboard the vessel to
members of the University, Country,
Pacific and Commercial clubs; Cap-
tain Halsey and the officers as hosts.

VISITORS ENTERTAINED AT MOANA

The Moana Hotel clubhouse was the
scene yesterday afternoon of a party
given by the "Ahahui o na Pua o Ha-
waii" to officers of the battle-cruiser
New Zealand. Queen Liliuokalani was
present at the "Hawaiian Afternoon,"
as it was called, and was presented to
Prince George of Battenburg, who was
present. Hawaiian music and dances
were given during the afternoon, in-
cluding the famous hula dance, which
the officers loudly applauded. Old
Hawaiian chants were sung, and cus-
toms of the people in former years
were spoken of.

Mrs. A. G. M. Robertson, Miss Edith
Williams, Mrs. Charles Hall and Miss
Ethel Whiting and Miss Abbie Buchan-
an sang Hawaiian songs while Mrs.
Robertson and Mrs. Hall sang a num-
ber of duets and solos.

Refreshments, including a variety of
Hawaiian fruits and beverages, were
served. About 200 guests were pres-
ent. Some of the officers declared
that they had spent few such enjoy-
able afternoons, and many of them de-
clared that they would not be content-
ed until they could play the native
ukulele, an instrument which was
much in evidence during the after-
noon.

NEW ZEALANDERS TO MAKE PRESENT TO BATTLE-CRUISER

A beautiful kou bowl is to be pre-
sented to the officers of the battle-
cruiser New Zealand this evening at
6 o'clock by a number of New Zea-
landers, residents of Honolulu. There
is a silver plate on the bowl bearing
the following inscription:
"Presented to H. M. S. New Zea-
land by the New Zealanders of Hono-
lulu as a token of welcome to Hawai-
—of their affection for the mother-
land, and of pride in the land of their
birth."

"Honolulu, July 12, 1913."
On the plate there is a crest of a
pineapple in solid gold, and at the
sides of the plate coconut palms are
engraved. The bowl will make one of
the prettiest gifts the officers have re-
ceived here. The kou bowl is ex-
ceedingly rare on the islands now, and
the New Zealanders here consider
themselves in extra good fortune in
being able to give such a present to
the officers.

A short presentation speech will be
made at 6 o'clock on board the ship
when it will be accepted by Captain
Halsey on behalf of the officers.

ARMY AND NAVY NOTES.

The increasing cost of living the
country over is demonstrated in con-
tracts let by the Treasury Department
for feeding the officers and men of
the revenue cutter service during the
new fiscal year.

New York city, according to the
contracts, shows the greatest increase.
It will cost \$0.436 per day to feed each
sailor this year, as against \$0.36 last
year. Baltimore and Boston are the
only cities showing slight decrease in
a long list, the cost in Baltimore drop-
ping from \$0.41 to \$0.401 and in Bos-
ton from \$0.387 to \$0.383.

Other cities in the list showing in-
creases in the cost of daily rations are:

Astoria, Ore., from \$0.44 to \$0.461;
Detroit, \$0.44 to \$0.465; Galveston,
\$0.427 to \$0.452; Key West, \$0.562 to
\$0.603; Milwaukee, \$0.38 to \$0.418;
Mobile, \$0.415 to \$0.441; New Bedford,
Mass., \$0.425 to \$0.456; Newbern, N.
C., \$0.454 to \$0.462; New London,
Conn., \$0.387 to \$0.415; Norfolk,
\$0.420 to \$0.423; Portland, Ore., \$0.375

SEAMEN ARE HOSTS TO THE VISITING CREW

Many score men of the battle-
cruiser New Zealand were present at
the Seamen's Institute last night as
the guests of the club. A clever pro-
gram was given of songs, recitations,
a sketch and sword feats, and refresh-
ments were served. The sailors loud-
ly applauded the numbers and re-
mained until the last song had been
sung. More than 250 of the sailors
and marines were present. The en-
tertainment was in charge of F. W.
Norton of the institution. He was
assisted by other members.

The program was as follows:
Solo, Mr. Myers; piano solo, Mrs.
Eisa Howard; "A Rehearsal," W. O.
Phillips; solo, Miss Greenfield; solo,
Rev. Canon Ault; sketch, "Chinese
Washhouse," Mr. Vierra; solo, Miss
Cunningham; recitation, "The Lord of
the Line," F. J. Loret; solo, L. Good-
man; swinging swords, Sergeant
Aene; concertina, P. O. Prince.
Berger's band furnished music from
6:30 to 7:30.

RETIRED
When first I joined the Navy
And donned the Navy blue,
The teeming realms of Fancy
Spread out before my view,
Each maid bore orb and sceptre,
Each man was brave and true,
When first I joined the Navy
And donned the Navy blue.

The crystal arch of heaven
Bent o'er the rolling main,
Youth's many-tinted mirage
Made buoyant heart and brain,
And care fell on me lightly
As falls the evening dew,
When first I joined the Navy
And donned the Navy blue.

The straining sails above me
Were spread wings of the swan,
And blazoned lists of chivalry
The decks I trod upon;
Helm, helm in hand, sailed after
The Golden Fleece anew,
When first I joined the Navy
And donned the Navy blue.

So youth was spent pursuing
Those lovely lures and lies—
Ah, swift is joy's undoing
The day that we grow wise;
Alas! that life's red roses
Should be entwined with rue,
Since first I joined the Navy
And donned the Navy blue.

Lank jaw and wrinkled visage,
Stiff joint and crabbed mien
A cynic's smile and peery eyes
Where light and warmth have been;
To bold romance and errant lance
And woman's glance—adieu!
Since first I joined the Navy
And donned the Navy blue.

STANFORD BEATS ALL-SERVICE 9; SCORE 4 TO 1

Rowdiness of Sunday's Game
Does Not Reappear at
Molili Field

HALM AND LAWSON SHOW
GOOD TWIRLING ABILITY

With Little Stronger Batting the
Soldiers Might Have
Scored a Win

In a perfectly pleasant game at Molili field yesterday afternoon the Stanford University boys evaded matters with the All-Service team, taking the second contest with the military aggregation by the score of 4 to 1.

In marked contrast to the affair of last Sunday with the St. Louis team it was a very lady-like event, umpire batting being noticeable by its complete absence. Captain Stayton and Ringland, the indicator men in the St. Louis-Stanford game, were back on the job yesterday and so far as can be recalled not a single decision was questioned. The meekness of the players and the usual Honolulu crowd in this respect was distinctly unusual.

Halm, the Stanford southpaw, showed virtue as a twirler by taking his second victory. He won from Punahou last week, and his teammates compelled the college athletes to use two pitchers. The lengthy Lawson opposed him yesterday and managed to hang on through the entire game, showing some brilliant flashes at times, and with proper support should have won. But the soldiers proved a little weak in the batting department, unable to bunch their hits and displaying a fatal recklessness on bases.

The two centerfielders, Clark for the army men, and Argabrite for the university boys, developed as individual stars, the first making a running, one-handed catch in deep field that brought the fans to their feet and a long throw from a caught fly that caught a runner from third base and completed a neat double play. In this effort Clark strained his arm and retired when the team went to bat. Kibbey taking his place. Argabrite collected three safe hits and made two excellent catches in the field.

La Mere scored the Service team's only run in the second period when Halm hit him with a pitched ball. Clark hit to Maple, who threw wide to first base, permitting Clark to reach the bag safely and La Mere to reach second. The latter romped home a moment later when Kibbey sent a little pop just beyond third base. He started a long steal, collided with Cass, causing the latter to miss the fly and speeded home before the latter could recover the ball. Several times later the Service men reached second but were either caught on a steal or simply died there.

The college men scored in the first inning. Argabrite lifted a double over first base but was tagged out between second and third, when Workman drove the ball into Lawson's hands. While the army men were tagging him, however, Workman went to second and scored a moment later on Dent's single into right field.

Stanford piled up three more in the third, beginning with Terry's double with no outs. He went to third on Argabrite's bunt, the latter also getting safely on base. Workman drove a double into left field, sending Terry home. On Workman's run to second, Kibbey, receiving the ball from left field, sought to catch him, but shot the ball skyward. It went far into center with the fielder absent, and Argabrite and Workman sauntered home.

NEWS THAT'S COMMENT THAT'S NEWS

OAHU FIRSTS ARE GIVEN A HARD FIGHT

The fastest practice polo game of the season was played at Moanalua yesterday afternoon, six periods of something very closely approaching the real article being furnished. It was the first work-out of the team that will defend the inter-island cup for Oahu, in the August tournament, and as such had a special interest to players and polo enthusiasts.

Only three members of the Oahu team, Castle, S. A. Baldwin and Walter Macfarlane, were on hand, Arthur Rice being absent from the city. For three periods his place at No. 1 was taken by Henry Damon, for two by Lieutenant Peyton, and for one by A. Magoun. These constant changes didn't help the combination work, and so the showing yesterday can hardly be taken as an estimate of the new team's strength.

The game resulted in a near-shave victory for the Blues, or first team, over the Whites, by a score of 3½ to 2½. At one time in the last chukkur the Whites actually led by a goal, but Captain Castle rallied his men and pulled the game out of the fire.

The opposition yesterday consisted of Walter Dillingham, at back, R. W. Shingle, No. 3; A. Magoun for two periods, B. R. Peyton for one, and Henry Damon for three, No. 2; Guy Macfarlane, No. 1. Dillingham, who expects to be away from Oahu at the time of the big tournament, and who therefore has stepped off the first team to give his successor a chance to perfect the combination work, coached the Whites to good advantage yesterday. There was better team play all around, although the grass was long in spots, keeping the ball hanging, and the players bunched on top of it at times. Considering this handicap, the hitting was remarkably good on both sides.

In the first and second periods neither team was able to score, and neither goal was seriously attacked. In the second period a cross was called against Shingle, the period ending with the score board showing Blue 0, White minus ½. In the third chukkur Damon scored for the Blues, and Shingle for the Whites. In the fourth, toward the end of play, Walter Macfarlane shot a beautiful backhand goal under his pony's tail, at a difficult angle, making the score 2 to ½ in favor of the Blues at the call of time. The fifth saw a cross called against Castle, and a goal for Dillingham, so that when the players went on the field for the last time, the score was tied at 1½ all.

This was too close for the peace of mind of the first team, and when Dillingham shot another goal soon after the ball was put in play, a black flag was seen to climb up behind Harold Castle. The latter called for a closing rally, and the result was a slashing goal by Sam Baldwin, followed by one off Castle's stick, winning the game by a one-goal margin.

According to the present plan, Oahu will play Arthur Rice at No. 1, Sam Baldwin, No. 2, Harold Castle, No. 3, and Walter Macfarlane, back. There is some talk of having Rice and Macfarlane shift positions, and this would seem to be the more logical distribution of the players. Walter Dillingham is a sad loss to the Oahu, for he is a tower of strength on any man's polo four, but Walter Macfarlane is playing the game in good style, and if the team can get together it should put up a good argument against Maui and the cavalry.

Sam Baldwin played the sensational game yesterday, his shots being beautiful for distance and accuracy. He is well mounted, and can be counted on to play well in the big tournament.

Laurence Redington refereed yesterday's match, while W. Lucas acted as timekeeper.

Manager Bill Dahlen Says He Has Coming Southpaw Star In Pitcher Yingling

BROOKLYN—Manager Bill Dahlen says he has one of the most promising young left handed twirlers in Earl Yingling, one who will be heard from before the season is over. Yingling has been with the Superbas for two seasons and has not been used to any great extent, but Dahlen says he is now ready to spring him on the fans as a regular. On his first appearance this season against Cincinnati May 14 Yingling made a unique record. He relieved Allen in the seventh inning, with Becker on third, Tinker on first and one out. Hoblitzel hit the first ball pitched by Yingling into a double play, retiring the side. It so happened that Yingling would have been the first man up for Brooklyn, but Phelps was sent to bat for him and grounded out. Thus Yingling got into the game and did yeoman service on exactly one pitch. With Rucker, Stack, Ragon, Dent, Allen and Yingling all in good shape Brooklyn will have a formidable twirling department.

OAHU JUNIORS TO VAUDEVILLE IS PLAY TWO GAMES ON SUNDAY

The Oahu Junior League will furnish two games Sunday afternoon at Athletic Park. As the Senior League will not have any games until the opening of the second series, the Juniors have decided to play their games in the afternoon for the benefit of some of the fans who cannot be up in time in the morning to see them in action.

The program for Sunday's games will be Asahis vs. P. A. C. in the first contest and the J. A. C. vs. Pawaas in the second game. Both of these games are international in their line-ups and as the Juniors have put up some fast games since the opening of their series, the fans can be assured of some good baseball. The first game will commence at 1:30 p. m. sharp and Manager Henry Williams of the league will see to it that promptness will be the rule at the ground.

Batteries for the first game will be Sueda and Nishiwaki for the Asahis and Domingo and Joseph for the P. A. C. Juniors. The second game will furnish Miyahara and Oda for the Japanese team and Williams and Henry Zerbe for the Pawaas.

STANFORD MAY PLAY THREE MORE GAMES IN THIS TERRITORY

The Oahu Baseball League, at a meeting called for tonight, will endeavor to get together and offer some inducement that will keep the Stanford University nine in Honolulu for at least another week. The plan, at present, is to arrange a series of three games, Stanford to meet the Portuguese Athletics, Punahou Athletics and the Asahis.

Provided the arrangements can be made there is every reason to believe that three sterling games of ball will be played. The teams mentioned should be able to measure bats with the visitors in first-class style and the public may look for a series that will

BALL FANS GLAD HARMONY IS REACHED

Baseball fans and local lovers of clean sport were glad to learn yesterday that Capt. Norris Stayton and the management of the Molili field baseball series have patched up all differences and that Capt. Stayton will umpire the remainder of the Stanford games here.

Captain Stayton's stand for the strict enforcement of the rules has been upheld by the management, and at the same time harmony has been reached by a spirit of better understanding all around. Those who know the developments of yesterday do not take the truce as an approval of rowdiness or anything like it, but as an agreement that will help along baseball and end the controversy over last Sunday's game.

The management yesterday visited Capt. Stayton at Fort de Russy on a mission of peace and after a conference it was announced that Capt. Stayton had consented to don his mask and windup again and "call 'em" with his usual accuracy. It was admitted that there was misunderstanding on both sides, and that both sides wished to do the square thing.

Capt. Stayton proved that he has no personal feelings in the matter by asking that Barney Joy be allowed to pitch next Sunday in the St. Louis-Stanford game. The management says that it will back up the umpire's decisions absolutely.

The full statements of Ben Hollinger, president of the St. Louis Alumni Association, and Capt. Stayton, made in the Star-Bulletin yesterday, helped to clear away the heated atmosphere and to show that the row of Sunday was largely due to misunderstanding, particularly as to whether or not the extra run let in from third should have been allowed. Capt. Stayton insisted that such was the ground rule, while St. Louis men took the opposite view.

However, the management took the proper step to win public favor by going to Capt. Stayton and frankly talking the matter over with him, and Capt. Stayton agreed to continue officiating. He umpired at the game yesterday and his decisions were well received throughout.

The best umpire in the world will make mistakes sometimes and so will anyone else in the excitement of the game. The disposition of the fans is now to cooperate with the management and the umpire in seeing that the games are run off without wrangling. So far as the stand against undisciplined protests and rowdiness is concerned, that has been upheld, both by public sentiment and the officials by their latest action.

Communicated

Honolulu fans are still talking about the St. Louis-Stanford rumormongers of last Sunday, and they are likely to continue to talk for some time to come.

The sporting editor has received several communications from advocates of clean sport, and one from "Enthusiast" is printed below. The writer signs his true name and address to the communication, and for this reason it is printed. The Star-Bulletin does not print anonymous communications. It might be pointed out that the statement of Captain Stayton as to the existence of ground rules, printed in yesterday's issue, answers "Enthusiast's" question in full.

to the Sporting Editor, Star-Bulletin: Sir:—I have read the accounts of the Sunday fiasco in both papers and I think that something should be said in fairness to the members of the St. Louis Alumni team, from a spectator's point of view. Be it admitted from the start that Umpire Stayton was in charge of the game, but at the same time let him give a fair and just ruling on the point at issue.

To make his ruling correct under the Oahu League rules the ball would have had to strike the building after passing the catcher and everyone who witnessed the game are well aware that the ball did not go near the building. I am putting this forward granting that the game was being played under O. L. rules, but as I understand that the Molili ground is of the regulation dimensions, and that no ground rules were made between the two captains before the game, I think that it is up to Captain Stayton to vindicate his position and explain fully why he made such a rash ruling which brought about the unpleasant episode which will go down on the debit side in the annals of baseball in Honolulu.

NEW ZEALAND TARS COMPETE IN SPORTS

This afternoon the sailors and marines from the New Zealand are taking part in a monster track and field meet at Alexander Field, Punahou. The events are open to New Zealand men only, and there is enough up in cash prizes to make winning worth more than glory.

There is a general good time planned for the finish of the meet, when substantial refreshments will be served to all those who take part. A big attendance of non-combatants is expected, and special cars will be run to accommodate the crowd.

OVER-NIGHT FEDERAL WIRELESS To the Advertiser

The national funeral of Prince Arisugawa was held at Tokyo. Japanese civil officials, with high officers of the army, as well as Count von Rex, representing Kaiser Wilhelm, attended the service.

Acting on instructions from President Wilson, Secretary of State Bryan today telegraphed Henry Lane Wilson, American ambassador to Mexico, to come to Washington immediately for a conference on the Mexican situation. The president desires a detailed report of conditions there.

The United States is virtually the only civilized nation now withholding recognition of the Huerta government in Mexico. It is feared if the United States were to recognize Huerta now it would be construed as a "backdown" and that Huerta would become more arrogant than ever.

The fact, however, that the Huerta government has not been recognized makes it difficult adequately to protest against the treatment accorded American residents, and Ambassador Wilson is prevented from acting in concert with representatives of the other powers in Mexico City.

Fifteen conspirators involved in an alleged plot to assassinate President Huerta and Generals Felix Diaz and Blanquet, are reported to have been shot at sunrise today.

Fritz Tabbs Henshaw, son of Justice Frederick W. Henshaw of the supreme court of California, has eloped with Miss Mary Gwendolyn Casady Henderson of Claremont and started for Honolulu on the Sierra on a hurriedly-planned honeymoon.

Young Henshaw is twenty-two years old and his bride nineteen years of age. The pretty bride lived with her uncle, R. T. Casady, 6038 Claremont avenue.

Monday morning she told him that she and Henshaw were going to visit Henshaw's mother at her summer home at Ben Lomond. Mr. Casady helped her aboard the train with her luggage. They were married in the Catholic Church in San Jose and yesterday they broke the news to the uncle from San Francisco over the telephone.

Mr. Casady did not even know their honeymoon destination until their baggage was traced, although he had unwittingly helped start them on their journey.

Dr. Robert Bridges of Oxford, a retired hospital surgeon, was appointed poet laureate of England by Premier Asquith. The office is an honorary one, carrying but a small salary from the government. Bridges succeeded the late Alfred Austin.

George B. Cox, former Republican boss of Cincinnati and a power in Ohio politics, was freed again today from charges in connection with alleged legal loans made by the Cincinnati Trust Company to the Ford-Johnson Chair Company. Cox was president of both companies. Judge Caldwell instructed the jury to bring in a verdict of acquittal.

It is officially announced in dispatches from Belgrade, received at London today, that there will be a temporary pause in fighting between the Greeks, Bulgarians and Servians, pending negotiations for the cessation of hostilities. Military operations, however, will continue, it is declared, so that Serbia may be in a position to resume the conflict if Bulgaria refuses to accept the terms offered.

Lieutenant Stoll of the German army aviation corps, died at Jüterbog today as a result of his machine striking a tree while he was attempting a landing at the army aviation grounds.

Completing an unusually long and rough passage the Matson liner Lurline.

line, Captain Weeden, arrived in San Francisco this morning, bringing 60 passengers and a big cargo of sugar and Hawaiian fruit. Head winds and high seas delayed the Lurline twenty hours. The seas broke over the vessel and at times nearly every passenger aboard was seasick.

Secretary of State Bryan announced today that the American reply to the latest rejoinder by Japan on the California alien land controversy has been presented to Ambassador Chinda. The note, it is understood, is argumentative in character and discusses the question from a legal standpoint.

Thomas E. Hayden of San Francisco, appointed special prosecutor for the government in the "white slave" cases, conferred today with officials of the department of justice in Washington in regard to the trial of Drew Caminetti in San Francisco August 5. Senator Ashurst of Arizona, who yesterday protested to Attorney General McReynolds against the appointment of Hayden on the ground that he is a friend of the Caminetti family, conferred with President Wilson this afternoon.

It is reported that the German agents who came to London seeking radium have bought every available gram of the British supply, which is only one-eighth of the quantity wanted. They paid cash down. The present price of radium is equivalent to \$2,400,000 an ounce.

The board of education at East Orange, N. J., is accused of discrimination because it declined to permit Kinoki Yorita, a Japanese 21 years old, to become a pupil in the high school. The board bases its refusal on the ground that the Japanese is over school age.

Three persons are dead as a result of the most severe electrical and rain storm in Minneapolis this summer, which continued all night and this morning. Rain fell in torrents following a dazzling electrical display. Three-quarters of an inch of water fell during the first fifteen minutes of the storm, flooding many basements and cellars.

Martin M. Mulhall brought the story of his lobbying activities for the National Association of Manufacturers up to 1908 before the senate committee today. He testified about the work of the association in promoting a tariff commission.

"The association wanted Miles and Schwedman in it and it wanted to control it themselves," Mulhall testified. He did not explain who Miles was. Schwedman was secretary to President Van Cleave of the National Association of Manufacturers.

A conference was held in New York today between committees representing the Eastern railroads and their trainmen and conductors to arrange the details of a plan for arbitration of wages affecting more than 80,000 men, seek a 20 per cent increase in wages. Two points which threatened trouble remain to be arranged. One of these is the threatened strike of employees of the railroads, independent of the general differences, and the other is the determination of the railroads to force an arbitration of their grievances against their employees.
