U. S. REFUSES GERMAN PARLEY; MAY ARM MERCHANT SHIPS

Washington Orders German Sailors of Refugee Ships Freed; Were Held 9 Days

KAUAI, WANTING ACTION, MAY GO TO LEGISLATURE

Congressmen May Come On Visit Again

Late News At A Glance

CREWS OF GERMAN MERCHANT SHIPS RELEASED TODAY

BERLIN WANTS INFORMATION ON GERMAN CREWS DETAINED IN PORTS OF UNITED STATES

Settlement of Land-Water-Railroad Problem Long Delayed, Say Garden Island People; Talk of Protest Through Delegation and Inquiry of Land Commissioner

Kauai's land controversies are likely to go before the legislature as Kauai's protest against non-action. With 4000 or 4500 acres of government lands on Kauai passing from plantation leasehold into full control by the territorial government this fall, word comes from the Garden Island that unless the present territorial administration soon outlines its plans for handling the various problems arising, there will be "some thing doing" in the legislature. The Lihue-Makee plantation fight of the past, which culminated last spring when the governor went to Kauai, were a phase of the knotty problems facing the administration. Most of these problems come to a focus next October, with the expiration of land and water leases. It is already readily hinted by Kauai men that the government is so slow in taking action that the Kauai delegation in the coming legislature will demand some sort of settlement. While many opinions are expressed as to what the government should do, the Star-Bulletin learns that a policy of home-steading part of the lease-expired lands now and home-steading the rest later on would meet with general favor. One suggestion coming from a Kauai businessman who has given the subject much thought is that about 1500 acres should be home-steaded this fall or early next year; that two years later a similar amount should be opened to public entry, and the remainder home-steaded two years later. To open all the lands for entry now, it is declared, would be disastrous. There is not enough water for irrigating all the acreage—that is, developed water. There is plenty of undeveloped, but reservoirs, pipe lines and ditches must be constructed, and the territory is making no progress toward doing this. By opening part of the lands now and the rest in two and four years, meanwhile short-leasing this remainder to the plantations, the land can be gradually turned over, it is hoped, to sturdy, intelligent and wide-awake American home-steaders who will "make a go of it."

Information reaches the Star-Bulletin from Kauai that eight months ago the land soon to be thrown back to the public was surveyed. Dissatisfaction with this survey is already manifest. The survey is said to have been made of 15-acre tracts only, whereas it is declared that such tracts are too small for home-steading and such a method of opening will work nothing but disaster.

Kauai people are also anxious to know what the territorial government is going to do regarding the distribution of water. Most of them, it is said, favor governmental distribution, feeling that then there could be no charges that the plantations were not handling the water fairly.

When the Kauai delegation comes to Honolulu in a few days for the opening of the legislature, it is likely to have several bills or resolutions ready for quick introduction, demanding action by the government. The land laws cannot be amended except by Congress, but that will not prevent a legislative inquiry into the delay which is now being talked of among Kauai's lawmakers. One particular item of complaint which Kauai county begins to feel, the Star-Bulletin is told, is that the public revenues will suffer when the leaseholds expire, and therefore the county feels that the territory should immediately begin a policy which in other ways will compensate the public. Through the taxes the Kauai plantations pay a substantial sum upon the leased lands. This will be lopped off when the leased lands revert to the territory. Kauai people admit that in the Kapa-Anahulu tangle and other land-water-railroad problems the government has a very knotty job to do. What their legislators are talking of making formal protest against is the alleged unreasonable delay of the territorial government in tackling the problem. Many months have passed since the governor's trip to Kauai and the hope then that the tangle would soon be ended has gradually faded. One of the phases of inquiry proposed is a resolution demanding an investigation and the calling of the land commissioner before a special committee to answer numerous questions.

Pages 9 and 11.

Delegate Kuhio Sends Marconigram Asking How Large Appropriation Can Be Counted on and Suggests April Visit Again

Senator Robert W. Shingle this morning received a marconigram from Hawaiian Delegate Kuhio Kalaniano'le which indicated that another congressional party similar to the one which came here two years ago will probably visit the islands in April, providing the local legislature appropriate sufficient funds for the party's expenses. The message reads: "Cable your views about a congressional party. How many should come? When? How much would you appropriate? I suggest April and \$40,000." All senators seen this morning were enthusiastic over the contemplated visit and believed there would be no trouble in obtaining the \$40,000 appropriation. Senator Chillingworth says: "I believe any necessary amount will be available for such a laudable venture." Two years ago there were about 135 in the party and \$42,000 was appropriated. It is believed there would be about the same number this year. Local senators believe the Washington party will leave there about April 20 if funds are forthcoming. It is probable that there will be no women in the party. Prince Kuhio personally invites those who make up the delegation from the house and senate chiefly, including a few other government officials.

When the last party visited Hawaii they left little of interest on all the islands unseen and it is predicted that the same extensive sight-seeing and merry-making will be observed this time.

FINDS BRIDGE IS NOT SUITABLE TO IMPROVEMENTS

Collins Writes Letter Showing Need of \$10,000 Structure on Kalakaua Avenue

That the bridge over Apukehau stream which flows between the Moana hotel and the Outrigger Club is in poor condition and unfitted for the permanent construction which will be put over it in the paving of Kalakaua avenue and although not exactly unsafe at present is likely to be in the future, is the startling information contained in a letter from George Collins, city and county engineer, to the board of supervisors.

Collins' letter announcing the poor condition of the bridge says in part: "The abutments are in poor condition and consist for the large part of irregular coral blocks of various sizes neatly pointed up on the stream face. Although there is no evidence at present of any failure, it is a very easy matter to work these blocks loose. The present type of construction is altogether unsuited to the permanent character of work being done on Kalakaua avenue. The bridge proper spans a distance of 25 feet and is a monolithic structure. Although the concrete along the bottom of 15 of the girders has fallen away from the reinforcement the bridge shows no sign of failure. It cannot, however, be considered a permanent structure."

"The reconstruction of this bridge will involve the expenditure of about \$10,000 and I would recommend such expenditure be made if the funds are available. If not it will be necessary to leave joints at such distance from the abutments as to permit reconstruction at some future date. The cost of concrete pavement which will be destroyed in this event will be about \$300. The only argument against reconstruction is that the plans for the reclamation of Waikiki swamps which include the diversion of the stream at some point make a bridge at this locality unnecessary."

GERARD THANKED FOR WORK FOR BRITISH PRISONERS
LONDON, Eng., Feb. 12.—The gratitude and thanks of the nation are to be conveyed to Ambassador Gerard by the British government for his work on behalf of British war prisoners in Germany.

HIGH PRICE OF PROBING HIGH COST OF LIVING
WASHINGTON, D. C., Feb. 12.—President Wilson will be asked to approve an appropriation of \$200,000 for the investigation of the alleged extortionate prices for food. The investigation, by the terms of the bill now planned, will be under his direction.

IRELAND'S TROUBLES TO BE DEBATED SOON
LONDON, Eng., Feb. 12.—The government has agreed to appoint a day for the discussion, in the house of commons, of the Irish administration, as requested by the Nationalists.

LANSING WOULD QUIET DISAFFECTED CUBANS
WASHINGTON, D. C., Feb. 12.—Secretary of State Lansing today made appeal to the Cubans not to plunge their country into another revolution. He urgently enjoins them to await the outcome of the approaching elections and abide by the decision of the votes.

GUARDING AGAINST SPIES IN CANAL ZONE
WASHINGTON, D. C., Feb. 12.—An executive order which excludes spies and other undesirable persons from the Panama Canal Zone, and giving the governor of the Zone virtually unlimited power to regulate immigration, was signed by the president today. The text is not made public.

CARRANZA WOULD PUT EMBARGO ON SUPPLIES TO EUROPE
WASHINGTON, D. C., Feb. 12.—Gen. Carranza, president of Mexico, has sent identical notes to the United States, Argentine Republic, Brazil, Chile and other neutral countries asking them to join Mexico in an agreement to prohibit exports to the belligerent nations of foodstuffs and munitions.

GERMAN DESTRUCTION OF HOSTILE PLANES GREAT
BERLIN, Germany, Feb. 12.—Announcement was made today that from the beginning of the war until January 31, 1916, German battle-planes and anti-aircraft batteries have destroyed 1002 hostile air-machines, according to the Overseas News Agency and official statistics. The machines of the enemy thus destroyed were valued at a total of 50,000,000 marks.

CAMINETTI WANTS REHEARING BEFORE SUPREME COURT
WASHINGTON, D. C., Feb. 12.—Drew Caminetti, the young Californian, who with Maury I. Diggs was convicted under the Mann "white slave" act of taking two young women to Reno on an immoral escapade, is trying to get a rehearing before the supreme court. His lawyer today filed a petition for the rehearing. The supreme court seldom grants such a petition.

HOUSE REJECTS PLAN FOR MORE SUBMARINES
WASHINGTON, D. C., Feb. 12.—By a vote of 281 to 139 the house today permitted consideration of an amendment to the naval appropriation bill, to include \$1,000,000 to buy basic airplane patents, also to empower the government to take over private ship and munition plants. The proposed increase in the submarine building program from 18 to 50 was rejected. The program reported to the house by the naval affairs committee is finally retained without change.

ALLOW NO MORE HYDRAULIC FILL ON PIER WORK
Decision to notify the Lord-Young Engineering Company that the harbor board will not allow any more hydraulic fill work back of Piers 8 and 9 was reached late in the meeting of the territorial body this afternoon.

ORDER FIVE DAYS IN PRISON FOR LEVENTHAL
Governor Pinkham this afternoon received orders of the summary court in the case of Pvt. Joseph Leventhal of Company D, 1st Hawaiian Infantry, National Guard, for five days' imprisonment in the territorial penitentiary for non-attendance at drills. The governor has the case under consideration, and it is deemed probable that he will approve the findings of the court. Leventhal is said to be an ex-convict man.

ESCAPED REFORM SCHOOL BOYS ARRESTED FOR THEFT
Gabriel Kupaka and Joe Perreira, escaped inmates of the boys' reform school, were arrested this afternoon by Probation Officer Joseph Leal and booked at the police station. The police state that a silver watch and chain recently stolen at Waimanalo, windward Oahu, was found on Perreira's person. The most interesting feature of the arrest is the fact that Perreira is the boy arrested Saturday night prowling about the Colonial hotel yards by Detective Arthur Anderson and released by Capt. McDuffie and Deputy Sheriff Asch later. Perreira declares now that Anderson hit him over the head with his pistol while Anderson and his chief, state that the officer did not even have a gun on him that evening.

SHIPPING BOARD WOULD PUT TRANSPORTS TO WORK

WASHINGTON, D. C., Feb. 12.—Use of the army transports now lying idle at docks is planned by the newly created United States shipping board as the first practical step in the long-planned rehabilitation of the American merchant marine. It is planned to use the idle army transports in domestic commerce mainly as a coast-wise service and through the Panama canal. The shipping board has asked President Wilson to turn over the army transports to it for use in such service. The board requested especially that it be allowed to take over the two old transports Meade and Crook now moored in San Francisco bay where they have been, unused, for a long time.

MAY TRANSFER CASE TO ASHFORD'S COURT

Attorneys interested in the Kahana land case, now on trial in Circuit Judge Ashford's court, have reached an agreement which may mean the transfer of the case to Circuit Judge Ashford's division with Judge Whitney acting as master. Further hearing of the case was had this afternoon. Judge Whitney has announced that he will leave the circuit bench next Thursday. He is to be associated with W. O. Smith and L. J. Warren in a law partnership.

BONILLAS IS NAMED MEXICAN AMBASSADOR

(Associated Press by Federal Wireless)
WASHINGTON, D. C., Feb. 12.—Ignacio Bonillas, a Carranza representative on the joint American-Mexican commission, was today named ambassador to the United States.

Orders Received From Department of Labor End Detention and Court Cases End

Acting on cabled orders received this afternoon from Secretary of Labor W. B. Wilson, Washington, D. C., Richard L. Halsey, inspector in charge of the United States immigration station at this port, at 3 o'clock this afternoon released from detention the officers and sailors of the eight refugee German merchant steamers tied up in this port since the beginning of the war. The number of men released was 76. The Germans have been held in detention at the immigration station exactly nine days. They were taken there under military guard on Sunday, Feb. 4.

The officers and men of the refugee steamers Pomern and Prinz Walde-mar, who are under arrest on charges of damaging and attempting to destroy their vessels, were to be released this afternoon, the U. S. attorney's office announced. "The charges against these men will be dropped," Attorney S. C. Huber said. "We do not care to press the charges."

As Mr. Huber says he has received no instructions from Washington for several days, it is believed he is acting under the instructions received by Inspector Halsey.

Manager F. W. Klobahn of H. Hackfeld & Company, local agents for the refugee steamers, said at 3 o'clock he had "not even heard of the men's release" and could not say whether they would return to the vessels. No orders as to the crew of the Oler had been received by army or navy departments up to 3 o'clock.

Four Ships Today Added to List of Submarine Victims

Sunday's Toll Less Than Saturday's, Which May Have Cost American Lives

(Associated Press by Federal Wireless)
LONDON, Eng., Feb. 12.—The British steamer Lycia was reported sunk, late today, the crew being saved, says a Lloyds agency announcement.

LONDON, Eng., Feb. 12.—Added to the toll of vessels destroyed by submarine warfare in the past two days there were added three today, according to early reports. They were the steamers Voltaire, Olivia and Netherlee, all British. One member of the crew of the Olivia was killed.

WASHINGTON, D. C., Feb. 12.—Eight ships sunk Saturday and two Sunday up to midnight is the submarine toll for the two days, according to available information. On Saturday a British steamer on which are thought to have been at least 25 Americans, muleteers, was sunk and the fate of these Americans, if they were actually aboard the ship at the time, is as yet unknown.

Saturday's toll of shipping sunk by submarine or mine aggregates 22,271 tons. The known list includes eight ships, five British and three Norwegian. These are:

- British steamer Dauntless, 1361 tons.
- British steamer Japanese Prince, 3075 tons, between Plymouth and Newport News.
- British steamer Lullington, 1821 tons.
- British steamer Mantola, 5131 tons, from London for Calcutta.
- Norwegian steamer Beatchree, unlisted.
- Norwegian steamer Solbakken, unlisted.
- Norwegian steamer Ellavore, 1710 tons, from the Tyne for Barcelona.
- Norwegian steamer Havgard, 757 tons, Newport for Cardiff.

The Dauntless was sunk six days ago. Yesterday one of her boats with three Englishmen and one American was picked up. The men had been five days without food or water and were in a desperate condition. Some of them may die from the hardships undergone. Others of the Dauntless crew are still missing.

The Japanese Prince, according to the British consul at Newport News, carried 25 American muleteers. The information from London does not state whether the Japanese Prince was sunk before she made her British port from Newport News or at a time when she was returning to the United States. If the latter, it is unlikely that the Americans were aboard, as the practice is to send the men shipped as muleteers back as passengers aboard a regular liner. The Japanese Prince took a cargo of steel billets and grain. From London come reports that

WILDER MAY BECOME PERMANENT CHAIRMAN

W. C. Wilder, who has served as acting chairman of the land board since the resignation of Dr. J. H. Raymond last fall, will probably be elected permanently to that office by the land board at a regular meeting tomorrow, according to opinion expressed in government circles today. Twenty-one applications for leases, purchases or exchanges will be taken up for consideration at the meeting.

Hotel Burns, Fire Horror, Minneapolis

(Associated Press by Federal Wireless)
MINNEAPOLIS, Minn., Feb. 12.—At least 13 persons are missing and are believed to have lost their lives in a fearful fire which destroyed the Kenwood Hotel at midnight last night. The police estimate this morning is of the 13 missing, though there is some uncertainty caused by the confusion. Eleven other persons, unaccounted for, may also be victims. Many bodies are thought to be buried in the ruins, according to the proprietor. One woman is known to be dead. She leaped from the third story, crazed at the danger. On account of the still burning ruins, search for bodies is very slow.

German Sailors Crippled Steamers As Precaution Against Use in War

LONDON, Eng., Feb. 12.—The Evening News today publishes a despatch from Rotterdam which says that in an address at Wilhelmshaven regarding the precautions taken by the Germans because of the possibility of war with the United States, Dr. Gustav Stresemann, a leading liberal in the Reichstag, made this statement: "German bluejackets in the United States have seen to it that German steamers in American ports are unusable by anyone for some time."

IS KAISER CONSIDERING MODIFYING DIVER WAR?

WASHINGTON, D. C., Feb. 12.—Reports that already Germany is considering modification of her avowed campaign of ruthless submarine warfare have reached diplomatic circles here from unofficial sources in European capitals. The Kaiser called an important conference of high officials of the government according to these unofficial sources. The meeting, held at the emperor's headquarters, is reported to have been attended by Dr. von Bethmann-Hollweg, imperial chancellor, and high army officers as well as ranking officers of the navy. The possibility of modifying or moderating the new campaign of submarine warfare as it applied to neutrals is said to have been discussed, the apparent object being to stem the tide of indignation that the announced campaign of ruthlessness has provoked from the neutral nations.

the submarine campaign of the Germans yesterday netted but comparatively small results. Only two vessels are reported as having been sunk in the 24 hours ending at midnight last night, and one of them was a neutral ship, the Greek steamer Vasilissa Olga. The British steamer lost was the Salaga, registered at Lloyds at 3811 tons net burden.

The day, however, brought the story of the sinking of the British steamer Mantola, which carried an American, Dr. Earl Rice of Portland, Ore. In a statement to the Associated Press last night Dr. Rice gave a description of the unwarned attack upon the Mantola, and told how she sank after the torpedo struck her. Consul Frost, at Queenstown, announced that all hands on board the vessel had been saved with the exception of seven sailors, members of the crew.

Action Seamen of Refugee Ships in Smashing Machinery is Shown to Be Indorsed By Home Government as Precautions for Possible War

(Associated Press by Federal Wireless)
WASHINGTON, D. C., Feb. 12.—Refusing to parley with Germany on the submarine issue, the United States replied to Germany's proposal for a discussion of the submarine campaign. America declines to enter into negotiations while the German proclamation calling for unrestricted submarine warfare remains in effect, and declines also to negotiate until Germany restores the pledges of safeguarding given after the attack upon the Sussex. Secretary of State Lansing this afternoon made public the German proposal, submitted through the Swiss minister, also the reply by the United States, confirming the Associated Press announcement last Saturday.

(Associated Press by Commercial Pacific Cable)
WASHINGTON, D. C., Feb. 12.—The International Mercantile Marine Company today formally applied to the navy department for guns with which to arm passenger liners of this American line. The company states that it is unable to find the guns elsewhere. It is indicated in official circles now that while the department is opposed for military reasons to the project of conveying merchant vessels, it favors furnishing them with guns for their own defense and supplying trained gunners.

A more difficult objection may be the withdrawing of navy gunners from the active list for use on the liners.

(Associated Press Service by Federal Wireless)
WASHINGTON, D. C., Feb. 12.—Germany has released Ambassador Gerard, though a large number of American sailors taken as prisoners of war on the prize steamer Yarrowdale are still detained by the government.

Official reports that Gerard has arrived at Zurich, Switzerland, today reached Secretary of State Lansing from Pleasant A. Stovall, minister to the Swiss republic, at Berne. Gerard is to sail from Madrid on the liner Alfonso XIII, February 21, or the Infanta Isabel, four days later. All obstacles placed in his way by Germany were removed and the kaiser sent a private secretary to accompany Gerard to the border. From Copenhagen comes the news that the detention of Gerard was largely caused by alarmist reports concerning the treatment of Germans in the United States.

BERLIN, Germany, Feb. 12.—Dr. Alfred Zimmermann today informed the Associated Press that the government has requested an inquiry as to the status of crews of German vessels interned in American ports. The inquiry is asked through the Swiss government, which has taken over German diplomatic and consular offices in the United States.

Pending reply, 72 American sailors taken from Allied ships by the German raider in the South Atlantic, and brought to Germany in the prize steamer Yarrowdale, and whose release has been agreed upon, are now to be held by Germany.

Heaviest Fighting Today Is On West

(Associated Press by Federal Wireless)
BERLIN, Germany, Feb. 12.—The German press is confining itself to perfunctory references to the departure of Ambassador Gerard. The land fighting today has been bloody on the west. The British troops in six successive waves charged the German trenches along the Ancre river which were said to have been wrecked by Allied cannon-fire. The British were repulsed and suffered severely in hand-to-hand fighting.

PARIS, France, Feb. 21.—Two successful raids were made by French troops on the Verdun sector and in the Argonne section, and patrols were active in Champagne and the Argonne districts.

MAINLAND MARKETS ARE CLOSED FOR HOLIDAY

Owing to the fast Lincoln's Birthday is a legal holiday in New York state there were no sessions of the stock, produce, sugar or other exchanges held today and no mainland quotations are available.

NAVY WILL OPEN LABOR BUREAU IN CITY THIS WEEK

Employment Facilities at Good Wages Emphasized in Plan Announced Today

"Preparedness" by the navy on Oahu has taken a new phase—an active movement for putting through without delay its large industrial plans involving Pearl Harbor.

Under authorization of Capt. George R. Clark, commandant at the naval station, a special labor employment bureau is being opened in Honolulu, with F. G. W. Cooper, recorder of the board of labor employment at Pearl Harbor, in charge. The bureau will open formally next Wednesday at the naval station in Honolulu.

While no unusual activity is noticeable at the local naval station—a sign that the navy is proceeding as usual with its work—it has been decided to facilitate the employment of labor through the bureau in Honolulu. The wages paid are attractive.

The present crisis has resulted in the calling in of but few additional employees from the eligible lists which are always maintained at the naval station. Perhaps but few people realize the care which Uncle Sam uses in selecting employees; a candidate for employment at a naval station must be a citizen of the United States, naturalized citizens must present full citizenship papers, must pass a physical examination and present unimpeachable recommendations from former employers or fellow workers, who can vouch for their actual knowledge of the trade at which they are seeking employment. When this is done the name of the applicant is placed on an eligible list for employment in accordance with the marks obtained.

All application papers are marked by a board of naval officers under regulations approved by the civil service commission and in accordance with the trade experience shown by the applicant's record and recommendations.

In calling a man for employment, those obtaining the highest mark are called first, preference being given by law to war veterans and ex-service men discharged through disability resulting from wounds or sickness incurred in the line of duty.

The rates of wages paid are established annually by a board and are based on the rates paid by local employers, in all cases being equal to, or higher than, same.

Applications will be received for the following trades:

Helpers, copper-smiths; helpers, sheet metal workers; anglesmiths, boatbuilders, dieselers, drillers, electroplaters, forgers, heavy; galvanizers, joiners, ship; sailmakers, shipsmiths, sparmakers, tool dressers, toolmakers.

Application blanks and all necessary information may be obtained for positions in Groups II or III by mail or personal application to the recorder of the board of labor, naval station, Pearl Harbor, T. H.

Applications for employment under Group I must present themselves in person for examination by the station medical officer.

Commencing February 14, the recorder of the labor board will be at the naval station, Honolulu, every Wednesday from 8 a. m. to 12 m. and 1 p. m. to 4:30 p. m. to receive applications for employment from mechanics and helpers.

WILSON SIGNS BILL FOR NATIONAL LEPROSARIUM

(Associated Press by Federal Wireles) WASHINGTON, D. C., Feb. 11.—President Wilson yesterday signed the bill authorizing the establishment in the country of a federal leprosarium, wherein all the lepers of the mainland United States might be segregated for treatment and care. The location of the home has not as yet been decided upon. There are in the mainland United States about 250 known cases of leprosy.

RAISE STANDARD OF POLICEMEN

That the efficiency of the police department should be raised and kept at a high standard by not only increasing the pay in order that a position as policeman will be worth while, thus drawing to it better men, but by making the requirements sufficiently strict to keep out the undesirable and also making the position permanent, is the opinion of Edward Fogarty, member of the civil service commission.

There should be twice as many men in the police force today as there are and their pay should be on a graduated plan and much higher than it is now," said Fogarty today.

Plain Clothes men Needed

The reason why Fogarty believes that the criminal population in Honolulu has increased greatly during the past few years and will probably grow greater as time goes on. "What is most needed," he says, "is more plain clothes men."

In speaking of salaries, Fogarty believes that policemen should be started in at \$80 a month and each year that they are with the force have it increased to a certain amount and then make the raises occur every few years. He also thinks that a pension fund should be started to take care of the men who grow old in the service, are injured, or if killed, to care for their families.

Commission is Much Needed

In regard to the civil service commission, Fogarty firmly believes that no police department can be efficient without such an organization, which will pick the men by examination who are capable of caring for the safety of a city. He deplores the fact that the amendments to the city and county charter proposes to do away with the commission and it is understood that the commission as a whole is working to make it a permanent board.

PLAN DISCUSSION ON PIER MATTERS

In an effort to arrive at some conclusion whereby work may begin again on Piers 8, 9 and 10, the harbor board will probably hold a special meeting soon, it was learned today.

Pending the report of the three expert engineers appointed by the harbor board to decide conclusively upon the condition of Piers 8 and 9 and also upon the plans drawn for Pier 10, where work had not yet started, the Lord-Young Engineering Company, contractors, ceased all construction work at the site.

It will be remembered that the three experts in their report recommended a gravity wall instead of a curtain wall for Pier 10, and this part of the report was adopted by the harbor board at a meeting several days ago.

It is said that while the gravity wall is larger than the curtain wall, the ease with which concrete may be poured in the former makes this type much cheaper per cubic foot. The question now arises as to just how much more or how much less per cubic foot the wall will cost. Some engineers are of the opinion that the cost will be much less than the amount already estimated. It is said that the meeting of the board will be held to talk over this question and come to some decision to present to the contractor.

New York Sugar Market Easier

Alexander & Baldwin this morning received the following week-end wireless letter from its New York house:

NEW YORK, N. Y., Feb. 10.—Sales were 120,000 bags of Cut and 56,000 bags of Porto Rico at New York and 25,000 at the outports. Sales of full duty sugar were 10,000 bags.

The market is easier and 35,000 bags of Cubas for February delivery sold at 5.02. One refiner is a possible buyer of March and April sugars at 5.02.

There are 180 centrals grinding in Cuba.

Monday is a holiday here.

MENTION HEEN AS POSSIBLE JUDGE

Deputy Attorney General W. H. Heen for a circuit judgeship is the rumor that was going the rounds of the territorial halls today. Attorney Heen has remained in the background and mention of his name today caused considerable surprise.

Heen has been in the territorial attorney's office for one and a half years, coming here from Hawaii, where he had served for half a dozen years as county attorney. Congestion of cases in the courts has given the belief that Washington will consider soon an appointment, and Heen's name is now being mentioned.

WOULD PROTEST UPON LOCATION IN ISLANDS OF NEW LEPROSARIUM

Sunday's Associated Press despatches told of the passage by Congress of a bill to establish a leprosarium for the care of mainland lepers. As in the past there has been talk of locating such an institution in these islands, probably on Molokai, and placing by inference a stigma upon the name of the islands, the matter is of especial interest to the territory as to whether the bill provides for a location.

Raymond C. Brown, secretary of the Chamber of Commerce, was seen by the Star-Bulletin this morning. Asked if he knew the text of the bill he replied that he had not seen the measure and did not know whether the provisions included the location of the institution.

Brown further said that there had as yet been no protest against the possible location in this territory in connection with the bill that had passed but if necessary to prevent such a location the steps would speedily be taken.

JAPANESE ADMIRAL VICTIM OF ASSASSIN

(Special Cable to Nippon Jiji) TOKIO, Japan, Feb. 11.—For the first time in the history of Japan a high naval officer was killed yesterday by an officer under his command. Vice-Admiral Genta Yamashita, commander-in-chief of the Sasebo naval station, who is well-known throughout Japan, having been one of the heroes of the Russo-Japanese war and who distinguished himself at Tsingtau, was shot to death by Lieut. Shiro Tanji, retired.

The murderer was arrested immediately at the naval station. Tanji was one of the adjutants of the admiral until he was placed on the retired list.

LANSING HUGS HOPE U. S. WILL KEEP OUT OF FIGHT

(Associated Press by Federal Wireles) WASHINGTON, D. C., Feb. 11.—Secretary Lansing addressed the Amherst alumni last night, his address dealing altogether with the international situation, which he declared most grave but not as yet hopeless.

"Although the United States is undeniably near the verge of war," he said, "I have always been able to retain the hope that this country is to be spared the calamity of being forced to take part in the general conflict which has rent the civilization of the world. Our endeavor shall be to keep the United States at peace with all the world, if we are allowed to keep the peace with honor."

AUSTRIA SEES HOPE IN WILSON'S DELIBERATION

VIENNA, Austria, February 11.—In government circles here the fact that President Wilson has taken no step to sever relations with Austria-Hungary is regarded as a most favorable sign that there will be no war between the United States and Austria's ally, Germany. The deliberation of the American President is taken as an omen that there will be no rupture with this country. A hopeful opinion to that effect is expressed at the American embassy here.

Tops of old shoes, cut into shape and covered, make excellent iron holders.

A combination table and settee is always a convenience in the kitchen. Babies are like other little animals—they should not be handled.

NOTICE

The meeting of the Lusitana Society will be held tonight at 7:30 o'clock. By Order of its President.

CARDS WILL TELL OF PREPAREDNESS

Cards are being mailed this week by Mrs. W. L. Whitney, secretary, to the 1000 members of the woman's section of the Navy League here, who over a year ago gave their support to the new movement organized all over the United States in an effort to encourage the increase of our navy.

The cards are sent to ascertain just what the members are prepared for in event of war and also to learn what they would like to prepare for. A check mark is to be placed before those subjects which the member knows or wishes to know.

Mrs. A. J. George, national director, who prepared the list, says the members need not be abashed if most of their checks fall under the "I wish to learn" column. She says the original list sent out contained a far greater number of subjects, which she mercifully cut down to the 13 noted.

Surgical dressings, knitting, home sewing or Red Cross garments, Red Cross first aid, elementary hygiene and home care of the sick, simple cooking, signal study, telegraphing, clerical work, stenography and typewriting, care of the sick, patients, poultry, raising and intensive gardening are those on the list.

If enough members signify their intention of studying any one of these subjects classes will be formed at the Hawaiian war relief rooms. Some are already in progress now.

"I cannot blame the residents of Hawaii who have so much more than most of us to keep them out of doors," says Mrs. George, "because they do not want to stay inside fussing over clothes and things, but it is the least many of us can do—and we owe it to our country."

SOCKS GALORE FOR GUARDSMEN

National Guard clothing and equipment arriving in wholesale manner at the armory and the big building is beginning to take on the look of a department store. Need for more room than the structure affords, large as it is, is rapidly becoming evident.

For the first time in the history of the local guard underclothing and light wool socks are on hand for distribution. Shoes galore are also arriving at the armory or are stored at the local docks, the new rule being that every man in the guard shall have an extra pair of shoes in reserve. It is not likely that these will be issued at once, however, but will be kept in the armory store rooms.

Enough equipment is fit on hand, it was stated today, to flow out every company in the entire territory, figuring enrolments at 65 men each. As an example of the size of these shipments may be taken the following: Socks, 27,000 pairs; drawers, 23,421; hats, 1800; O. D. shirts, 4125; shoes, 6982; coats, 3801; blankets, 6326.

DUKE OF CONNAUGHT INSPECTOR-GENERAL OF OVERSEAS TROOPS

(Associated Press by Federal Wireles) LONDON, England, Feb. 12.—The Duke of Connaught, former governor-general of Canada, will be appointed inspector-general of overseas troops, says the London Times today.

CONKING WILL SEEK TREASURERSHIP AGAIN

D. L. Conking announced this morning that he was out for reelection to succeed himself as city and county treasurer on the Republican ticket.

This decision of Conking is not a surprise though he has said several times that he was doubtful as to whether he should run again. "With the political pot sizzling the way it is," said Conking, "I have finally decided to run again and my hat is now in the ring."

POLICE COURT NOTES

From 26 gamblers of various nationalities that were rounded up over Saturday and Sunday by Capt. McDuffie's men \$150 was realized in the police court in fines and bail forfeitures. All were fined \$5, excepting four who forfeited \$10 bonds.

H. Maldonado has been arrested by Probation Officer Joseph Leal and was arraigned in the police court on a charge of assaulting D. P. Kellett of Vineyard street Saturday. This case and another in which the defendant is charged with threatening Judge W. L. Whitney in the latter's courtroom were postponed to February 14. The defendant is alleged to have threatened the judge in Spanish.

BADGES OF HIGHER DISTINCTION

Three badges of distinction are especially desired by scouts: Life Scout, Star Scout and Eagle Scout. The Life Scout badge is awarded to all first-class scouts who have qualified for merit badges of first aid, physical development or athletics, personal health, public health and life-saving or pioneering. The Star Scout badge is awarded to the first-class scout who has qualified for 10 merit badges, including the five badges of the Life Scout. The Eagle Scout is awarded to any first-class scout qualifying for 21 merit badges, these to include first aid, life-saving, personal health, public health, cooking, camping, civics, bird study, pathfinding, pioneering, athletics or physical development, and any 10 others.

The boy who becomes an Eagle Scout thus reaches the highest of all ranks in scoutcraft.

ROBINSON SAYS LEAVE TO BOARD

While not really stating he was opposed to Senator Charles F. Chillingworth's saloon elimination bill which he proposes to introduce in the coming legislature, Senator William T. Robinson of Maui who arrived recently to get the first breath of the approaching session is not exactly in favor of it.

"Leave it to your liquor board—they have all the necessary power, let them decide," he says. "By refusing to renew licenses of saloons they can automatically put any saloon out of business. If we are to take up new laws in the legislature first we will have to repeal those liquor laws now in force."

The senator said he had no particular bills he knew of at this time to introduce and declined to declare himself on other matters, saying: "My precinct is meeting at home soon and I will get a little private advice from there before I commit myself. I believe in following the dictates of those who elect you."

Going back to the liquor and prohibition question the senator said he knew the prohibition matter would not be settled in congress.

"And why should it?" he demanded. "Right here at home is where the vote should be taken. To settle the question properly every man of age in Hawaii should be allowed to vote 'yes' or 'no.' Speaking from the liquor man's standpoint, and I am one of them, I would be satisfied with that decision and I am sure the rest of us would."

German Fireman Tended Boilers For Seven Years

Here is a little story with a whole world-kind tinge to it, which has reached the Star-Bulletin from an authentic source. It has to do with the destruction wrought on the German vessels by the sailors who have been aboard them since they put into this port for safety at the beginning of the war.

While federal officials inspected the mutilated machinery, it seems that in some cases the engine crew accompanied them. On one of the big vessels the chief fireman watched the inspection with special interest.

"Can you repair those boilers in American shops?" he asked, and officials say that his voice as well as his English was broken. "I have tended those boilers for seven years," he added, "as a woman might watch over a child. I didn't like to do this work any more than you men like to find it."

FLAGS—FLAGS

Our big shipment of Flags have arrived. Everybody should decorate their homes with the national colors for Carnival week.

COMMERCIAL CLUB AND AERO CLUB WILL HAVE LUNCH TOGETHER

Next Friday will be Aero Day at the Honolulu Commercial Club, the officers of that organization having extended an invitation to all Aero Club members to attend a luncheon at the Commercial Club dining room at noon of that date.

Clifford Harmon, former aviator, will be the chief speaker and it is expected that Capt. J. E. Curry and Lieut. J. B. Brooks, who arrive on the transport tomorrow for aviation work here, will also make talks. The speakers will be introduced by Brig.-Gen. Frederick S. Strong, Aero Club members who will attend the luncheon are asked to communicate by Thursday noon with Lieut. R. C. Holliday, Young building.

SARATOGA ROAD WILL BE CLOSED TWO WEEKS MORE

That Saratoga road, which is part of the Beach Walk improvement district, will be closed to traffic for two weeks more, is the statement made today by George Collins, county engineer. The street has been finished for some time. In another part of the improvement district a newly-finished street was closed almost immediately. Traffic was not supposed to go upon it although there was no barrier placed across it. Recently, however, automobiles have been taking advantage of the opening. Today Collins ordered a barrier placed across Saratoga road at Kalakaua avenue. According to the specifications, the street should not be opened to traffic for 30 days after completion.

A leg of mutton is one of the most economical joints you can have.

CHINA'S ATTITUDE TOWARD GERMANY MAY BE OF DISAPPROVAL

(Associated Press by Federal Wireles) TOKIO, Japan, Feb. 12.—Foreign Minister Motono had a conference with the Chinese minister today, and afterwards announcement was made that he approves the attitude of China toward Germany, as expressed in the reply to the German note declaring for a resumption of "unrestricted" submarine warfare. The approval, it is said, is on the ground that the position taken by China would aid in uprooting German influence in the Far East for the benefit of the Entente Alliance.

So far no announcement has been made as to what China's attitude toward Germany is. This would indicate that China is expressing some sort of disapproval.

ORGANIZE RED CROSS

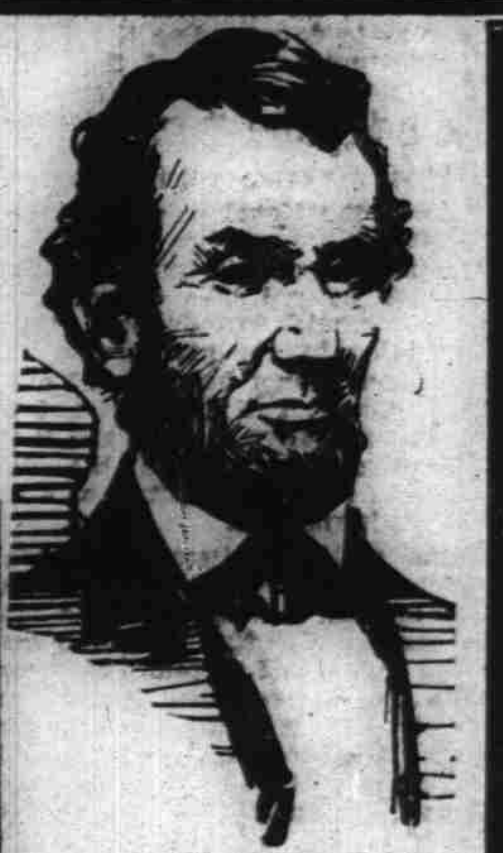

Women of Hilo are reported to be organizing a Red Cross branch in that city. Dr. A. T. Roll, who has had experience in this work, has offered his services as an instructor.

When a cake is done it should be turned out gently on a sieve or cloth.

THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

Scott & Bown, Bloomfield, N. J.

The same Sincerity that characterized Lincoln is a "built-in" part of every shoe we sell. Regals for men and women. Nettleton shoe for men. Utz & Dunne and Wicher & Gardner's for women.

Lincoln Said

"I would rather have a man at the head of one regiment who does something, than one at the head of a hundred regiments and does nothing"

¶ This Spirit of Action is the basic principle of Paid Publicity.

¶ Lincoln Might Also have said that he would rather have a man at the head of a little merchandising business who goes to the people and interests them

¶ Than One at the head of a large sized institution who waits for people to come to him and his merchandise.

¶ Paid Publicity is the mainspring of business action.

¶ It Drives Business—instead of allowing business to drive it.

Paid Publicity Enlivens Business.

Rulers of Future State of Hawaii Sing at Punahou

WE WHO LIVE HERE are apt to become sated with the very things that linger in the memory of the visitor to form the characteristic savor of the Islands. How many of you who read this column can say what of Island life and Island manners most strongly impressed the Congressional party of 1915?

THE CHILDREN of the Public Schools—children of every race and tongue and hue singing the same songs that are sung in the same speech of their common country by the Children of Maine and Florida and Ohio and California. These are our citizens-to-be. Our territory today; their State tomorrow. What other nation ever had the faith and courage to attempt such an experiment on such a scale?

WHEN UNCLE JOE WEPT UNCLE JOE CANNON isn't usually thought of as a sentimental old cuss. When that everlasting cigar tilts upward and that bristling chin whisker waggles forward, he doesn't look it, either. But when Uncle Joe first saw school children of Honolulu gathered to honor the representatives of the Nation, he was so deeply moved that the tears rolled down his cheeks. Afterwards he said it was the most inspiring sight he ever had witnessed.

THE MOST IMPORTANT CROP these Islands are raising isn't sugar; it is the citizens of the rising generation. What we do with them in the next twenty-five years is the measure of what they will do with us in the next half century. If you have children of your own in the public schools, of course you will go to see them dance and hear them sing. If you haven't, go anyway, and carry home something to think about.

AND YOU VISITING FATHERS and mothers, whose own children are in the States, probably struggling to school in the snow, you will see childhood as you never expected to see it, except, perhaps in the leaves of a book—little moon-eyed daughters of Japan, slim Chinese fillets, wheat-haired Russians, black braided Koreans, Portuguese, Spanish, and all the blends of these strains with the native blood of Hawaii. Then you will understand why this is called the melting pot of the world, why this Territory is the most interesting experiment in democracy the world yet has seen.

A BACKGROUND OF BEAUTY IT IS FITTING that such an exhibit should be shown against a background of beauty—green, spacious and restful, wafted upon by soft air. This Carnival of the Children's Festival, February 23, on the lower field of Punahou; there is no lovelier spot in town. The older scholars of the Normal School will be banded in thirteen tiers and wreathed in leis to represent the Stars and Stripes. At their right and left will be other blocks of ten tiers, each block wearing the colors of the different islands. There will be singing by a chorus of more than a thousand voices, and dancing on the green between the numbers.

TICKETS ARE ON SALE today at the Hawaiian News Company's store—fifty cents for the choicest seats, twenty-five for those not so favored. And, though the season ticket sale has closed, it is not too late to make up your own season book by buying twelve individual tickets across the counter. It takes a little more time but you get the benefit of the same reduction in price—\$6.50 instead of \$7.75 for the twelve.

TWENTY-FIVE PER CENT REDUCTION ON ROUND-TRIP STEAMER FARES FROM ALL ISLAND PORTS

PINKHAM TELLS GREGORY ABOUT COURT TROUBLE

Seeks Appointment of Judges to Relieve Congestion; Many Cases Pending

Secretary Interior, Washington. Chief Justice and lawyers request through you Attorney-General Gregory be informed that I am seriously congested courts of first circuit. Third circuit vacant, second court resigned.

PINKHAM, Governor.

With the despatch to Washington, D. C. late last Saturday afternoon of the foregoing cablegram, Governor Pinkham has taken the initial step toward securing an immediate relief of the congestion now existing in the local circuit court, placing the problem squarely before the attorney-general.

Back of the message stands the desire of the chief executive, and the desire of the justices of the supreme court, for the immediate appointment of a judge for the third division of circuit court, which bench has been vacant since January 13, when Justice J. L. Cole was elevated to the supreme bench. It is also the desire of these officials that Circuit Judge Whitney's successor be appointed immediately upon his retirement next Thursday or Friday.

Cable Sent After Conference As announced in Saturday's Star-Bulletin, Chief Justice A. G. M. Robertson conferred with the governor at about 4 o'clock in the afternoon on the problem of relieving the court congestion, as criminal and other cases are continuing to pile up with no judges to try or hear them.

The outcome of the conference was the forwarding of the cablegram by the governor to the secretary of the interior.

Seventy Criminal Cases Of the cases now pending, some awaiting trial and others awaiting initial hearings, more than 70 involve the alleged commission of crime, and a majority of these cases are appeals to the circuit court from the district court of Honolulu. Many defendants, unable to secure bond, are forced to remain in jail because, at present, there are no means by which their cases may be brought to a speedy trial.

With the retirement of Circuit Judge Whitney at the end of this week, two circuit court benches will be vacant provided no appointments are made between now and that time. This will throw all the work of the court into Judge Ashford's division, which is now endeavoring to clean up a long calendar of civil cases.

WHO WINS, METCALF, BOOZE OR HIS MOTHER?

An old woman's plea for her wayward son was answered in police court this morning when Judge Monarrat, upon Prosecutor Chillingworth's recommendation, deferred sentence on Thomas Metcalf, who was charged with threatening an old man who is a neighbor of the mother.

"I do not want him to go to jail," the mother said simply after she had told the same old story of many a son's neglect because of booze, "all I want is that he will not bother me so much."

The story was that the boy was a good, hard-working chap who minded his own business until he was well "liquored up" and then he came home to stir up the household generally. Metcalf has been in police court many times on the same charge, but in face of the statement that he has a steady job he will not be sentenced until Saturday. If he is straight then the sentence will be suspended.

Will Metcalf, the mother or booze win?

LOCAL AND GENERAL

Honolulu Lodge, F. & A. M., meets this evening.

R. McKenzie reports to the police that he was robbed in the Silent rooming house about 11:30 last night.

On the ground of extreme cruelty, Esalita Taintino has been granted a divorce from Pedro Taintino.

The board of directors of the Chamber of Commerce will hold its regular monthly meeting this week Wednesday.

Twelve divorce cases will be heard by Circuit Judge Whitney tomorrow. Trials will begin at 9 o'clock in the morning.

Notice of the discontinuance of the case of Emma Holt against Mrs. V. Bufandeau, assumpsit, has been filed in the circuit court.

James Henderson of Hawaii, president of the Burns Club, has been informed of the death of his mother in Auerdshire, Scotland.

The Pedro tournament will follow the regular business meeting of Harmony Lodge, I. O. O. F. tonight. Refreshments will be served.

The annual meeting of the Women's Auxiliary of the Outrigger Club will be held at the Library of Hawaii at 3:30 o'clock next Friday afternoon.

Further hearing of the admiralty suit brought by K. P. Andersen against the American bark George Curtis is being had in the federal court this afternoon.

F. Conley was taken to the emergency hospital for treatment of a cut over his eye, which he received while clipping a horse Sunday in Iwilei, the animal resenting the shearing with a kick.

On recommendation of Harry A. Wilder, master, Circuit Judge Whitney has approved the annual accounts of the trustees of the estate of the late Emma (Queen Emma) Kalelelanani. The estate is valued at about \$194,062.

At 3 tomorrow afternoon at the Library of Hawaii Dr. Aurelia Reinhardt, president of Mills College, California, will make a talk under the auspices of the Outdoor Circle. The public is most cordially invited to join with the Outdoor Circle in listening to this talented woman.

Until the end of next week Russians in Honolulu who wish to return to their native land at the expense of the Russian government will have the opportunity of indicating their desire by applying to the Russian consulate here. The departure will be some time in May or June. One party went back last year.

The members of the Hawaiian Historical Society will meet at 8 o'clock Tuesday evening in the rooms of the organization. Judge Sanford B. Dole will read a paper on the abolishment of the tabu, J. W. Waldron will tell of the death of Captain Cook and Edgar Henriques will read a paper on the death of Kalaninui.

PALENAPE JAILS ROWDY QUARTET

The cases of Mrs. Johnson, accused of being profane on the streets, and of C. Johnson, M. Tracy and Joe Resents, charged with having assaulted a policeman, L. Palenape, when the latter arrested the woman at the corner of River and Beretania streets Saturday night, were called in police court this morning and continued to Wednesday.

Palenape, the giant of the local police department, reports that Mrs. Johnson came across the street drinking a bottle of beer en route, and that when he remonstrated with her, saying it was not a womanly way to act, she opened upon him with a combination of Hawaiian and English epithets that would have done credit to the worst cuss in the former kingdom. One of the least offensive terms alleged to have been used was "makai hookano"—"naughty policeman."

Thinking she would sound better in the police station than on the public street Palenape started with her when he says the others interfered. He took them along too.

EXHIBITION BY H. C. BEST OPENS

Much interest is being shown in the exhibition of paintings by H. C. Best, which will begin at the University Club this evening at 8 o'clock. For the "first view" of the paintings the club is sending out invitations to members and their friends and all interested in the paintings are invited to attend.

LIEUT. CUSHINGHAM IS BEST SHOT IN HAWAII

Scoring 234 out of a possible 250 over the 200, 300 and 500-yard ranges, Lieut. James L. Cushingham, Company D, is high man in target practice among Big Island guardsmen. The showing of the Hawaii guard on the target ranges was good, according to word from Hilo. Col. James D. East, on-made 231 and Capt. George Desha, 230. Sixteen men qualified as expert marksmen, 12 as sharpshooters and 17 as marksmen.

BIG VOTE UPON BONDS IS SOUGHT

Next week, Wednesday, February 21, is the day set for the voting upon the \$480,000 water and sewer bond issue and every citizen who has at heart the welfare of Honolulu and desires to see the city made sanitary by an adequate water and sewer system is requested to go to the polls on that date and vote the Bonds.

According to Harry Murray, superintendent of the water and sewer department, people are beginning to feel that the bonds are so sure of being passed that nothing more need be done, and it is this feeling which he wishes to combat. Undoubtedly the bonds are expected to pass, but unless every loyal citizen does his part on that day by going to the polls and voting "yes" on both projects there may be a slip, resulting in the progressive plan proposed for Honolulu being set back a great many months.

From careful estimates made by Murray it will only take at the longest three minutes to vote for the bonds and certainly every citizen can spare that much time, even if it is Carnival week.

There are two projects which will be placed before the people February 21, one for a better water system and the other for an improved sewer system. In detail the water system includes the installation and equipment in Nuuanu Valley of a filtration plant and accessories and the installation, renewal, relaying and reconstruction of water mains and in the installation of valves, manholes, fire hydrants and accessories. The sewer system includes the installation of sewer mains and laterals, manholes, reservoirs, pumps, equipment, accessories and buildings.

Both of these projects are included in a comprehensive scheme for the entire city. It is also planned before the filtration plant is installed to carry out extensive experiments to ascertain the best method of filtration for Honolulu.

MAKER OF DREAMS SCORES SUCCESS

Bishop Hall was crowded to capacity on Saturday evening when the Y. W. C. A. dramatic class presented Oliphant Down's "Maker of Dreams." The play, which deals with the old story of love, was well acted, the players having been coached by Mrs. Fred Oht, dramatic instructor at the association.

Miss Adele Wicke played the part of the Maker of Dreams and her interpretation thereof was a surprise to the audience. Miss Tiny White as Pierrot made a decided hit and her characterization of the part showed careful study, and in addition she brought out all the possibilities of the character. Her dramatic ability was commented upon following the play. Miss Miriam Stacker, who was given the part of Pierrette, handled it in a manner that would lead one to believe that professional talent was called upon.

The dances were one of the features of the play. Contrary to the general run of such productions, young ladies who are known to be clever dancers were secured and the dances of the Pierrots and Pierrettes were heartily enjoyed. Miss Dorothy Walker, Miss Sophie Walker, Miss Grace Forsythe and Miss Amy Coates were the Pierrots and Miss Eunice Carter, Mrs. A. G. Horn, Miss Florence Davis and Miss Esther White were the Pierrettes. Miss Sutherland and Edwin Ideler entertained with an overture.

CHOOSE GERE'S ANCHORAGE PLAN

Vote to adopt the minority report of C. H. Gere as a member of the committee of three engineers, recommending a more complete anchorage system than the committee itself had chosen, was passed today at a lengthy meeting of the harbor board.

The meeting began before noon and was still in session at 1:30 o'clock this afternoon.

In voting to adopt the anchorage system recommended by Mr. Gere, the board members pointed out that while they believe the general report provides for a safe wharf, the added anchorage makes it more so.

GRAND ARMY MEN ARE FIRM IN ALLEGIANCE

At a meeting last Wednesday evening of the handful of Civil War veterans constituting the George W. De Long Post of Honolulu, they renewed their pledge of unflinching loyalty to the United States and offered once more their services to America in whatever form the nation might see fit to accept them. This resolution was passed:

"Whereas we, in 1861 to 1865, offered our lives to protect our flag on sea and land; be it resolved, that we renew our pledges of loyalty to our country, and tender our services to the United States of America, in any manner or form which may be required of us, and which we are able to perform."

Resolutions on the death of two members, E. A. Strout and T. H. Wilkinson, also were passed.

When putting a poultice on a child be sure it is hot enough to go good, but not too hot. Test it with the back of your hand. Covered with a double piece of thick flannel, a poultice will keep hot for two hours.

CLEANUP WEEK IS STARTED TODAY

The work of cleaning up the city for Carnival week started this morning but according to George Collins, county engineer, who is in charge, the people are responding very slowly and are not showing sufficient interest in the movement.

Tuesday the second district will be visited by the hauling outfit. It includes the city proper from Nuuanu avenue to Kapahulu road and from the boundaries of Awauiolimu and Makiki districts to the waterfront; Kalakaua avenue from King to Ena road; Kalia road to Fort De Russy and Metcalf street to the College of Hawaii. It is hoped that the people of this district will have all the rubbish ready when the carts arrive tomorrow morning. The carts will start cleaning up at 6:30 o'clock.

A request has been made by the Alewa Heights people to have their district included in district one and wagons will be sent there either today or next Thursday.

MANY FILIPINOS APPLY FOR NAVY

No less than 100 persons called this morning at the entrance to the naval dock where the cruiser St. Louis is docked to inquire regarding the recruiting campaign which is now being held on the vessel. The large majority of those interested were Filipinos.

There were 25 who actually applied for enlistment, but most of these were not able to pass the requirements. One man, Frank Rozapo, a Honolulu born Portuguese, was enrolled. Three or four others will probably be enrolled of those examined this morning.

"We are anxious to get hold of men of a certain rating," said Lieut. Lawton, who is in charge of the work, "and we have a call for one warrant cook."

Filipinos are being admitted if they speak English well and have good appearances. Sloppy or dirty individuals are not given very lengthy consideration.

LARGE CROWD ENJOYS NOVELTY OF HAWAIIAN FEAST AND OLD CUSTOMS

The luncheon given on the lawn of the Colonial Hotel, on Emma street, last Saturday afternoon, from 1 to 3 o'clock, was the real thing from every point of view. A large four-pole tent, decorated in a most tasteful manner, surrounded by tropical vegetation, made a perfect setting for the Hawaiian feast. Here tables were spread to accommodate 200 guests, but nearly twice that number took advantage of the chance offered.

The majority were tourists, to whom the whole affair was a grand surprise and treat. This was especially so of the hula dances, and the faces of many in the crowd who had heard of but had never seen beamed with appreciation.

The Hawaiian Band was in attendance and helped very much to make it all a grand success. The absence of knives, forks and spoons seemed to bother the malinis for a few moments, but they soon "did as the Romans did" and managed amazingly well. The menu supplied: Lau-lau, poi, papa-i, puua kalua, i'a lawalu, moa-luau-luau, kamano, lomilomi, uala Hawaii, i'a maloo, inamona, he'e, niou, akaakal, ma'a Hawaii, koelepalau, haupia and kulofo.

EJECTMENT CASE TO BE TRIED ON MARCH 5

Trial of the ejectment suit brought by the trustees of the Bishop estate against "Princess" Theresa Wilcox Belliveau and Lewis Belliveau is scheduled to begin in circuit court on March 5, according to a stipulation filed today. The "princess" and her husband "squatted" on the Gore lot at King and Richards streets about a year ago and the Bishop estate, which claims to be owner of the land, is seeking to move them off.

New mattresses should be turned often, else they will wear unevenly. Never leave brushes standing on their bristles. It is apt to rot them. Turpentine will prevent the moths from eating the felts inside the coats.

Borrow to Build

Every argument against the bond issue for water and sewer improvements has been met and answered.

Some of these arguments were

That Honolulu is too wealthy to bond itself; that the money could be raised by a higher tax levy; that a filtration plant was not needed because artesian water was sufficient; that the sewer system proposed was not comprehensive and—most foolish of all—that bonds are a bad thing.

Briefly these objections are answered as follows:

The modern way of doing municipal business is by bonds.

To raise money by taxes quickly enough to put down the water and sewer mains before permanent street and road work could be started, would require a tax rate of \$4.80 a thousand—a prohibitive figure.

Progressive cities secure present improvements by borrowing on expected growth—by borrowing on the future.

It is an axiom of civic government that the future should help pay for improvements which the future will enjoy.

The Federal Government builds on bonds—on borrowed money. The citizen of small means builds his home on borrowed money. He pays back the money during the years that he enjoys his home.

Nuuanu water will have to be used because the artesian supply is being reduced at an alarming rate. Experts declare that the artesian head is dropping at the rate of five inches each year and that the artesian supply soon will be exhausted if it is not conserved.

Nuuanu water must be filtered before it is fit for domestic use.

The sewer system is comprehensive because it was designed by one of the best engineers of the United States. The present engineer of the sewer department has been working on Honolulu's sewers for sixteen years.

Honolulu has reached a stage in its development when further improvements must be built by borrowed money.

Honolulu has gilt-edge credit. Eastern capital is eager to invest in Honolulu bonds.

Vote the Bonds FEBRUARY 21

"What Would Lincoln Do?"

Sixty years ago, an uncouth man stood before emotion-swept audiences and put in immortal words the doctrine that no nation can permanently remain half-slave and half-free. In the next few years, this rustic of Illinois saw his warning written in the flash of cannon-fire, heard it sounded in the beat of the drum and the stirring call of battle-trumpets. Before the troops laid down their arms, slavery had been abolished, the seceding slave-states defeated, the union saved. And human freedom then and forevermore became the mightiest, the clearest ideal before the American republic.

This is the anniversary of Abraham Lincoln's birthday. Were he still with us, there is no doubt of what his words would be today.

He would declare that this nation cannot endure half-alien and half-American.

He would declare that the citizen of America who does not gladly, readily, wholeheartedly give his full allegiance to the United States is not worthy to dwell under the protection of the Stars and Stripes.

No man in American history has seen better than Lincoln, that upon a moral issue the nation cannot be divided against itself. No man has seen better than he that temporizing on such an issue is vicious, and that the duty of men and the duty of the nation is to take a positive stand before the world.

Lincoln was not among America's greatest lawyers, but no barrister or jurist ever excelled him in reducing to the simplest, most unequivocal terms any issue of the controversy. In the memorial Lincoln-Douglas debate of 1854, and the still more memorable series of debates in 1858, the rail-splitter of Springfield, was opposed by one of the ablest debaters and orators Congress has ever heard, the "Little Giant," Stephen A. Douglas. Douglas was a master of eloquence and talked with a flow of prose which won almost any audience. And yet Lincoln, with his clear, simple statements of the moral issues involved in slavery, made the deeper and more permanent impression on the excited crowds of those days.

Lincoln hated war, and suffered acutely as the dread devastation of conflict engulfed the country over which he presided. But, convinced that war was necessary, he did not falter when Fort Sumter was fired on, April 12, 1861. Addressing the extra session of Congress next July, called to take measures to prosecute the war, he said of the Fort Sumter incident:

"No choice was left but to call out the war-power of the government and so to resist the force employed for its destruction by force for its preservation."

In America's present crisis, it is inconceivable that Lincoln would be supine in the face of events which prove Germany deliberately menacing the safety and the security of this country. Once convinced that Germany's submarine war was violating American rights and international rights, and he would not hesitate to employ force in defense of those rights.

One can imagine with what emphasis and clarity he would reduce to their simplest terms, the sinking of the Lusitania, the outrage of Belgium and the reversion of Germany now to the campaign of ruthlessness Berlin once pledged the United States her submarine commanders would not carry on.

And one can also imagine how simply and splendidly he would state the fact that there is no place in American government or American homes for divided allegiance when the honor and safety of the nation are at stake.

As one hundred millions of Americans do honor to our martyred president, it is well to remember that his heart and mind were passionately devoted to the theory of national unity; that his greatest speeches and his greatest deeds were for the cause of national unity, and that his life was given in preservation of that ideal.

There was no hyphen in Abraham Lincoln's Americanism. It was unadulterated, unqualified, undivided.

AN APPRECIATION OF H. P. WOOD.

No better editorial comment upon the death of H. P. Wood could be written than the appreciation voiced this morning by his successor at the helm of Hawaii's publicity—A. P. Taylor, secretary-director of the Hawaii Promotion Committee. Mr. Taylor says of the man who for many years was secretary of the committee:

"Those who worked with H. P. Wood during his ten years of active promotion service for the Territory of Hawaii, can best appreciate the brilliancy of his methods of obtaining publicity abroad for the Paradise of the Pacific."

"During this decade of Mr. Wood's activity as the head of the Promotion Committee I was more or less closely associated with him in many of his publicity ideas as a newspaperman. It was my good fortune, while a newspaperman, to have been continually assigned to gathering news from the Hawaii Promotion Committee through Mr. Wood. He had a remarkable genius for working up ideas which would bring Hawaii into nation-wide publicity. He had little regard for publicity which would in the long run give only mediocre results. He always aspired to something big and so unique that it would command the attention of publicity organizations abroad."

"His Crossroads of the Pacific map, for instance,

was one evidence of his methods, for this map became famous, is still famous, and will be famous for years to come. In fact, it is one of the best publicity efforts of a tangible nature which has drawn attention to the whole Pacific Ocean."

"His plan for a Pan-Pacific congress to be held in Honolulu, which was accomplished some years ago, has resulted in the organization of many other schemes for bringing the people of the Pacific Ocean and countries bordering upon its shores into closer union, focusing at Honolulu. His plan for holding a convention of United States consuls from posts in and bordering the Pacific was another evidence of his tireless activity to focus attention on Hawaii. For four years he gave particular attention to plans for Hawaii's representation at the Panama Pacific Exposition at San Francisco in 1915, and backed by an appropriation of \$100,000 from the legislature of Hawaii, Hawaii was represented at San Francisco far more successfully than most of the states and dependencies."

"Mr. Wood had a very wide and influential personal acquaintance with railroad, steamship and tourist agency officials upon the mainland and in the Far East, and this gave him opportunity to call upon these officials to bear Hawaii in mind in their advertising and resulted in bringing Hawaii into very close communion with these great transportation organizations."

"As a fellow-worker with Mr. Wood in developing the plans for Hawaii's representation at the San Francisco Exposition, and as fellow-employee with him in Promotion Committee affairs, and although Mr. Wood had retired from active participation in publicity affairs, I know that the Territory of Hawaii has lost its greatest publicist."

LINCOLN AND THE JOB IN HAWAII.

Here is a Lincoln story which happens to have peculiar application in Hawaii now. It is from Col. A. K. McClure's stories of the great American:

It was during Mr. Lincoln's presidential term and a commissioner to the Hawaiian islands was to be appointed. Eight applicants had filed their papers when a delegation from the South appeared at the White House, on behalf of a ninth. They began to tell that not only was their man qualified, but was also in bad health, and a residence in the balmy Hawaiian climate would be of great benefit to him. The president was rather impatient that day, and before the members of the delegation had fairly started in, suddenly closed the interview with this remark:

"Gentlemen, I am sorry to say that there are eight other applicants for that place, and they are all stouter than your man!"

There were, it appears, in those days also delegations from the South who had to pay political debts with political plums. There were, likewise, long before the days of President Wilson, deserving Democrats who thought their health might be benefited by a federal job in Hawaii.

A despatch yesterday told of resolutions being introduced in the house Saturday calling for a referendum vote by the people before the government should declare war. One of the introducers of the resolutions was Congressman Frank Buchanan of Illinois. In case it is not generally remembered, here is something about this congressman: On December 28, 1915, he was indicted by a federal grand jury on the charge of conspiring to foment strikes in American munition factories. Buchanan was one of several men charged with being associated with German plotters, in connection with "Labor's National Peace Council." This council, according to the U. S. authorities who handled the case, was doing Germany's work in the United States. U. S. District Attorney Marshall, who worked up the evidence, in a public statement said that the executive committee of this "peace council" had accepted bribes from a German fund and in return had instigated strikes in American munition factories. Indicted at the same time with Buchanan was David Lamar, the notorious "Wolf of Wall Street," who has figured in several unsavory episodes. About the time of the indictments, the executive committee declared the charges false and simultaneously passed resolutions denouncing President Wilson's program for an increase in army strength. Buchanan, it was said at the time, would claim immunity because he was a member of Congress.

February 21 comes the vote on the municipal bond issue, a fact which neither the war nor the approach of Carnival season should cause to be forgotten. Every good citizen ought to get to the polls in his precinct that day and vote in favor of the bonds. It is obvious that the city government is running on insufficient money to get results, and in the long run it will be economy to borrow by the bond issue and accomplish needed improvements.

"The people of the United States," says T. R., "have eaten the bitter bread of shame." And, to add injury to insult, the price of the loaf was raised to six cents.—Boston Herald.

Germany is reported to be planning a modified submarine campaign. The only modification which American can accept will be one which safeguards American lives at sea.

It will be Carnival of Dust Week unless that clean-up gets action along our main-traveled streets.

Again the question is timely: Cannot Honolulu have cleaner streets? If not, why not?

THE GETTYSBURG SPEECH

Hushed were the cheers,
the tumult loud and long
A moment since in echoes
to a man

The orator had stirred,
a shiver ran,
As rose the speaker
from the waiting throng.

And hushed the praise,
the thousand-throated praise,
As towering above them,
lank and tall

The President,
the saddest of them all,
A Man of Sorrows,
saddest of his days.

He ceased; and silent
to his vacant place
He passed; a hush
no single voice could fill,
Adown the ages
will that message thrill;

The martyr's seal
was written on his face.
BENJAMIN C. WOODBURY, Feb. 12, 1917.

For Unadulterated Americanism

BACK UP THE GOVERNMENT

Schofield Barracks, T. H. Feb. 9, 1917.
Editor Honolulu Star-Bulletin.

Sir: If I am not asking too much of a favor please find room in the columns of your paper for the following letter, which I believe should be brought to the attention of the public:

Having read your paper for the last three years and a half, and always pleased with the news which it showed in its columns, I take the liberty of publishing this letter for the benefit of all concerned, especially for those who call themselves Americans, but at heart they are with Germany.

This was all right before and nobody had any objections because every foreigner has the right in a free country to sympathize or favor the country from which he came in this world struggle. But now since the time has come and the United States and Germany have severed diplomatic relations, it is up to every single man in this country, to every one who calls himself an American, to back up this government in the hour of the crisis, and not to go and call meetings and criticize the doings of this government, as happened a few days ago in the city of Honolulu by an organization which calls itself the German American Alliance.

Let the government do the work and assist as much as you can. Show yourselves as true Americans and not as a bunch of slackers.

Always respect the country that's feeding you. What was the kaiser doing for you in the past years? Nothing. But still when this country is in trouble and needs the support of

every man, you are turning against it.

Have you forgotten the oath you took when first you entered this country, to fight any enemy of this country whenever needs be? Well, if you have, well and good, so please stop and save us a lot of pain. I mean the ones who are true to the oath they took at the time they entered this country.

I am true, and I know there are a lot of others who will fight for their adopted country to the last. Any of you would-be Americans who do not like the style of this government's doings, quit and get out or shut your mouths forever.

I have home ties, brothers, sisters, nephews and nieces who are in the old country and who are near and dear to me, but now I have to stop for the country which I adopted as my future home needs the support of every true citizen and therefore it is up to us to do our best and not to criticize the government which is feeding us, for who dares to bite the hand that's feeding him? Forget the home ties until this crisis has passed and show yourselves as men. Remember, there are more German-Americans who will back up this government whenever the time comes, so please once more, spare us good German-Americans who are true to their new government the pain. Always remember we are not all alike.

So please, citizens of this country, don't pay any attention to the ones who are not true, for we are not all alike.

Respectfully,

P. MULLER,
Jatalfon Sergeant-Major, 9th Field Artillery.

Stand firm for protection united,
As follow the day and the night.

Hurrah for the sun and the stars!
Hurrah for the stars and the sun!
Deep down in all hearts it is written,
The life of the nations is one.

Though language and customs may differ,
Though kingdoms their courses have run,
Though races and peoples have altered,
O'er all shine the stars and the sun.
Let the nations whose banners are waving

The symbols that never shall cease,
Inure for the earth and its people
The blessings of safety and peace.

Hurrah for the sun and the stars!
Hurrah for the stars and the sun!
Enshrined in all life it is written,
The God of the nations is one.

—Philip Henry Dodge.

NOTED EDUCATOR WILL TALK AT AD CLUB LUNCH

Ladies' Day at the Honolulu Ad Club has been scheduled for Wednesday, at which time Dr. Aurelia Henry Reinhardt, president of Mills College, Oakland, Cal., will address the club upon the subject, "The College and Commonwealth."

Prof. Vaughan MacCauley of the College of Hawaii will deliver a message to the members and ladies present on "Education and Service." The Corelli String Trio will entertain with selections from La Boheme and Il Trovatore. The Corelli brothers are well known, and the music from the two violins and harp has been featured on the mainland many times. The lunch will begin at 12 o'clock sharp. Members of the club have been requested to bring their wives.

VITAL STATISTICS

BORN

AKANA—In Honolulu, February 7, 1917, to Mr. and Mrs. Henry Apio Akana of Kuakini street, a daughter.

MOONZEN—In Honolulu, February 8, 1917, to Mr. and Mrs. H. Moonzen of 622 S. Beretania street, a son.

STERN—In Honolulu, February 9, 1917, to Mr. and Mrs. Harry Kenneth Stern of 1944 S. King street, a son.

SILVA—In Honolulu, February 8, 1917, to Mr. and Mrs. William da Silva of Kalihi Valley, a son—Joseph.

MARRIED

BETZUE HARNE—In Honolulu, February 5, 1917, Gilbert F. Letz and Miss Francis M. De Harne, Rev. Father Stephen J. Alencastre, pastor of the Catholic Church of the Sacred Heart, Punahou, officiating; witnesses—Josephine De Harne and Frank Nicols.

VIEIRA-ALVEIRA—In Honolulu, February 3, 1917, John F. Vieira and Miss Julia J. Alveira, Rev. Father

Stephen J. Alencastre, pastor of the Catholic Church of the Sacred Heart, Punahou, officiating; witnesses—Rosie Alveira and Manoel Alveira.

DIED

WOOD—In Honolulu, February 11, 1917, H. P. Wood of Manoa Valley, married, former secretary of Hawaii Promotion Committee, a native of Rough and Ready, Cal., 61 years old. Funeral at 3 o'clock this afternoon from St. Clement's church, Makiki, interment to follow later at Kohala, Hawaii.

KELEKOMA—At Lihue, Kauai, February 9, 1917, Manoiki Kelekoma of Lihue, Kauai, married, cowboy, a native of Kauai.

PAAWELA—In the Queen's Hospital, Honolulu, February 10, 1917, Solomon Paawela of Moanalua, married, former board of health inspector, a native of this city, 55 years old.

Smart button shoes of regulation height displayed alongside the still popular lace boot of extreme ankle height.

Help in Building

IN handling properties which are left in the care of the Trent Trust Company, it is often advisable to construct stores or homes, or to make alterations on buildings already on the property. In order to insure the best results to clients, this company has instituted a Building Department, under the skilled, practical supervision of an architect.

The business of this department is to draw up plans and specifications, call for bids if the work is large enough to warrant it, oversee construction, check up on specifications, and in every way to safeguard the client's interest in the matter of getting the the best building for the lowest cost.

This department is also found of great help to those who buy lots from this company, in taking matter of getting the best building for the lowest cost.

If cost of building is an item for consideration with you, you are cordially invited to talk over your plans with this department. You will undoubtedly find that it pays.

OFFICER ADMITS SLAPPING YOUTH

On suspicion of peeping into windows of the Colonial Hotel on Emma street Manuel Perry was arrested shortly before midnight Saturday night near the hotel by Detective Arthur Anderson. He was released Sunday by Capt. McDuffie. The chief does not believe the boy to be the one wanted.

Perry sustained a small scalp wound when he attempted to run away from the officer. There was a statement that this came from a blow delivered by Anderson after Perry's recapture, but the officer says the fellow was hurt when he ran into a fence.

"We had a complaint from the proprietor of the Colonial," says Anderson, "that some 'Peeping Toms' had been bothering the guests and the chief detailed me to watch for them."

"Saturday night I saw Perry coming through the grounds, stopped him and was told that he had been to the merry-go-round and was going home to Palama. It was such a round-about way and he acted so suspiciously that I took him for investigation. I told him I was a police officer and started for the box to ring for the patrol."

"Suddenly the boy shook away from me and ran into an adjoining yard. If he had not run into a fence which he did not see in the dark possibly he would have escaped. I slapped him with my open hand when I got him again."

Anderson admits that he did tell the boy that he might get shot some day running away from an officer and also stated that a stranger who came up in a threatening manner was told by the policeman to "beat it."

Capt. McDuffie says the boy is a large fellow, about 18 years old. The captain also states that Anderson did not have a gun on his person.

PROMINENT SALVATION ARMY MAN WILL VISIT HERE FOR SHORT TIME

Local Salvation Army folk are looking forward with pleasure to a visit here February 21 from a very prominent officer in their organization, Lieut. Col. John Bond, who is going through on the Niagara from Canada to Australia. He will be accompanied by his wife.

Col. Bond will be met by a large delegation of local officers and a meeting will be arranged for him if he will be here long enough to attend one.

For 35 years the expected visitor has been identified with the Salvation Army. Recently he has been editing the War Cry in Toronto and he will have a similar position in Australia.

BOOZE BRINGS POLICE MORE WORK THAN EVER

If the police blotter is any proof, booze flowed freely last week in Honolulu—apparently freer than ever. There were 142 arrests made by the police during the seven-day period and of these 50 were purely for drunkenness and about 30 were for offenses of assault, profanity and threatening language with booze usually given in the officer's report as the direct cause. Only 26 were arrested for gambling.

FRIENDS INVITED

Mr. and Mrs. Benjamin Keolaakalani Pitman will be at home to their Hawaiian friends on Wednesday afternoon, February 14, from four until six o'clock, at Miss Bertha Young's Villa, near Seaside Hotel, Waikiki.

E hookipa ana o Mr. and Mrs. Benjamin Keolaakalani Pitman i ko laua mau hoaloa Hawaii o ka alua, ma ka auwina la Poakolu, Pepeluani 14, mai ka hola eha a hiki i ka hola eono, ma ko laua wahi e noho nei, Miss Bertha Young's Villa, e pili ala ma ka aoao Ewa o ka Seaside Hotel, Helumoa, Waikiki.—Adv.

WOMAN COULD HARDLY STAND

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Fulton, N. Y. — "Why will women pay out their money for treatment and receive no benefit, when so many have proved that Lydia E. Pinkham's Vegetable Compound will make them well? For over a year I suffered so from female weakness I could hardly stand and was afraid to go on the street alone. Doctors were useless and only an operation would help me, but Lydia E. Pinkham's Vegetable Compound has proved it otherwise. I am now perfectly well and can do any kind of work."

Mrs. Nellie F. Foster, care of R. A. Rider, R.F.D. No. 5, Fulton, N. Y.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have had symptoms and do not understand the cause, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

MANY WEEK-END ACCIDENTS HERE

Accidents on Saturday and Sunday were numerous but not serious. For Saturday alone Motorcycle Policeman J. G. Branco reported four minor crashes between motor vehicles, including the meeting of two autos on Kalia road, Waikiki; the mix-up of an auto and a motorcycle on King street near Robello lane, and the wrecking of an auto at the corner of Kapiolani and Young streets where it ran into the curb.

Branco also says he stopped Detective John Woo on King street Saturday night and told him there would be a warrant out for his arrest.

"Woo said, 'All right, Branco,' and kept on going," Branco reports.

Branco says Woo was traveling at least 30 miles an hour with his muffler wide open.

On Sunday auto accidents were as follows: V. A. Cedarloff, on a motorcycle, in mix-up with Rapid Transit car, fractured his leg and was taken to the emergency hospital. Frank Kapero hurt his shoulder when he fell from his motorcycle on the road between Fort Shafter and Moanalua.

SCOUTMASTER IS EAGERLY SOUGHT

There is a fine live bunch of boys out in the Makiki district who are looking for a scoutmaster. There are a whole lot of them and they all live by Pastor D. C. Peters' church on Kewalo street, and they are as splendid a bunch of scout material as can be found in the city. But they cannot be scouts without a scoutmaster. They are beseeching Mr. Peters with appeals to be organized into a troop until the reverend gentleman is fairly tearing his hair in the effort to find them a master.

Does not somebody living in Makiki want to be a scoutmaster? Commissioner Harry S. Hayward is sure there must be some man who would find profit and pleasure in taking over this group of youngsters. If such will volunteer, every effort will be made to help to introduce him to his new work. Anyone who wishes to offer his services will find a hearty welcome awaiting him if he makes his wishes known to Mr. Peters, Christian church, Kewalo street, or Commissioner Hayward.

SCHOOLS OBSERVE LINCOLN'S BIRTHDAY IN VARIED MANNER

Honolulu's 17,000 public school children this morning observed the birthday of Abraham Lincoln in compliance with a custom that has been in vogue in educational circles for many years.

In the larger schools each room had a separate program, while at the normal school and in some of the smaller institutions the pupils gathered in the assembly rooms for the brief exercises.

Today children of a score or more of different nationalities paid tribute to the beloved martyred president. They heard again, and interest was just as keen as in years past, something of the life of the famous statesman who, born in a log cabin of poor and uneducated parents, arose to the highest pedestal of fame and led the nation to final success through a great civil war.

As a fitting supplement to their program they sang patriotic songs and listened with interest to the reading of Lincoln's Gettysburg address. Especially interesting was the celebration at the Kaulani school, where 1400 students, comprising the largest public school in the territory, held programs in the several rooms and bungalows.

At the normal school Lincoln Day was observed with a brief but effective program of four numbers:

"Lincoln's Early Life," Rose Gomes.

"Thought Suggested by Lincoln's Second Inaugural Address," Sancha Teller.

"Tribute to the Memory of Lincoln," Bryan, Lucy Raposo.

CAPT. IAUKEA BACK ON JOB AT POLICE STATION

Capt. Fred H. Iaukea of the police department is back at the receiving desk at the police station this morning after a six weeks' absence during which time he was laid up with rheumatism. He still has a decided limp but declares he is ready for business—and looks it. When he was able to hobble to the beach the captain was in the water and he believes it did him considerable good. He submitted to a successful operation while off duty, also.

PHOENIX LODGE GIVES JOLLY DANCING PARTY

One of the most successful affairs ever given in Phoenix hall was a dance held there Saturday night by the Phoenix lodge. About 200 people were present, including many tourist guests. Hawaiian music was a feature especially pleasing to the malihinis, and refreshments were served throughout the evening. The dance was one of a series of regular monthly affairs which are to be given by the lodge and will be followed by another on March 10.

The Chinese government has sent students to the Philippines to study scientific forestry as conducted by Americans.

SMITH WILL NOT MANAGE HOTELS

Since the resignation of T. B. Thiele from the management of the Young and Royal Hawaiian Hotels of the Territorial Hotels Company, it has been persistently rumored that Francis Smith is to be his successor. This is emphatically denied by Smith, who says he is here on private business and has no thought of engaging in hotel business again.

It will be remembered that Smith came to this city 16 years ago and during his four years' residence was identified with the management of the Royal Hawaiian and Young hotels; and in 1902 married Miss Alice McCully. They now reside in Oakland, where Smith has been for some years past the manager of one of the big brokerage houses and is known there as an Oakland booster. He claims for Oakland its supremacy as the industrial city of the Pacific coast and cites many interesting facts about its development.

Speaking of his impressions of Honolulu, he notes its new cosmopolitan air, there being a snap and go about it that indicates among other things that "business is good." The one thing about which he expressed himself and which impresses him much in addition to the wonderful suburban development, is the value of business properties as indicated to him by his friends, Bob Shingle and Al Campbell. These values seem to him to be in many instances fully as high as they are in Oakland, where the population is about three times that of Honolulu. He confidently believes in a much greater business growth for Honolulu, especially now since the federal government has attached to it the importance of one of their large army and navy posts. This gives it the protection and "safety first" idea necessary for substantial security.

The activities of the Chamber of Commerce and Promotion Committee in dead earnest also furnish much of the horse-power that is necessary to the end of big things.

A portable generator has been specially designed to furnish electric lights to permit farm work to be done at night.

SHIPPING & WATERFRONT NEWS

NIPPON WILL BE SIX DAYS LATE

Making up three days of the nine she was behind schedule when she steamed from this port for the coast, February 4, the T. K. K. intermediate liner Nippon Maru will leave San Francisco Friday of this week, six days late, according to marconigram advices received today by Castle & Cooke's shipping department.

This will bring her to Honolulu on Washington's birthday, February 22, instead of this coming Friday, February 16, as scheduled. She will steam for Yokohama the same afternoon. Owing to her six days' delay the Pacific Mail liner Ecuador due February 20 from San Francisco will take the next mail for the Orient.

Persia Maru Also Late
Delay has also been met by the other T. K. K. intermediate liner, the Persia Maru. Cable advices received Sunday by Castle & Cooke say she left Yokohama that day. The message adds "one day late," which is rather puzzling as the latest T. K. K. schedule, 19-A, calls for her to steam from Yokohama February 7, which would make her four days late under that schedule. The local agency thinks it may have been changed, but has not received any notification. The Persia will thus arrive here February 22 if the cable is correct.

Due any time for bunker coal is the N. Y. K. steamer Wakasa Maru, which wirelessly in Sunday to the local agency, C. Brewer & Company, saying she had insufficient coal aboard. The steamer left Balboa January 18. The local agency does not believe she called at San Francisco for bunkers.

Freight brought in Sunday by the inter-island steamer Mifanaka from Mahalo, Maui and Lanai ports, included 2000 bags of sugar, 15 of charcoal, 210 pumpkins, 20 bundles of hides, 15 crates of chickens, 32 hogs, 23 head of cattle and 125 sundries.

LOGAN ARRIVING NOON TOMORROW

A wireless received this morning by the quartermaster's office from the U. S. army transport Logan says she will not arrive off port from San Francisco until noon tomorrow. She will dock at Pier 6. Her delay will probably keep her from leaving for Manila before 5 p. m. Wednesday, although she was scheduled to steam for the Philippines about noon that day. Her time of departure will be announced definitely tomorrow.

The Logan will take 1120 tons of bunker coal in port here, an unusually large amount for a transport. The usual tonnage of bunkers taken by army transports is not much over 600 or 750.

Today's wireless reports the Logan's position at 8 o'clock Sunday night as 451 miles off port. She may have been delayed by unfavorable weather as she was scheduled to be off port at daylight. In a wireless Saturday she gave 9 a. m. tomorrow as the time she would arrive, but she has piled up three hours more delay since then.

NO WORD IS HAD FROM C. M. BOAT

What is delaying the China Mail liner China?

Although the steamer is due to arrive here Friday of this week no cable advices of her departure from Yokohama have yet been received by the local agency, H. Hackfeld & Company, or the Merchants' Exchange.

According to her schedule, the China should have sailed from the Japanese port February 5. She left Honolulu January 1 for the Orient, three days late on account of repairs which had to be made here to her main steam pipe.

It is thought possible that permanent repairs or a new steam pipe put in at Yokohama may have further delayed the China in getting away from Japan. The local agency, H. Hackfeld & Company, said today it has had no word from the Yokohama office and does not know whether the steamer left that port.

MANY SPANIARDS GOING TO COAST

Taking 40 cabin and a full list of steerage passengers, the latter mostly Spanish immigrants who came here several years ago, worked on the plantations and have saved enough money to go to California and buy small ranches, the Matson steamer Lurline, Capt. Arthur L. Soule, will steam at noon tomorrow from Pier 19 for San Francisco.

Saturday 44 of the Spaniards, men, women and children, applied at the U. S. immigration station and were given alien certificates. Today 15 more were supplied with them. Immigration officials said today this is only one of many parties leaving here in the last year because they claim they cannot get "back to the land" in the islands.

The Lurline will take a capacity cargo to San Francisco. It will include 6255 tons of sugar for the Crockett refinery, 1200 tons of molasses, 15,000 cases of canned pine and 3000 bunches of bananas.

WHISTLE BLASTS WERE OIL PUMPING SIGNALS

The mystery of whistle blasts which shattered the peaceful quiet of Sunday evening about 8:30 o'clock, making Honoluluans think Germany had declared war or fire had broken out, was solved today by Capt. William R. Foster, harbor master of this port.

"It was the Matson steamer Lurline signaling the Iwiflet oil tank pumping station half a mile away to start pumping oil through its pipe lines to the vessel," said Capt. Foster. "There is a prearranged set of signals. The liner gives a certain number of blasts of her whistle when she wants oil pumping to begin and another number when she wants it to stop."

Next mail from San Francisco will arrive tomorrow afternoon in the Matson liner Wilhelmina. She has 900 bags. The Logan, with 321 bags, will arrive first, as she will be here at noon.

Freight brought Sunday by the Kinau from Kauai ports included 10,000 racks of sugar, four autos, 50 bags of rice, 43 bags of molasses feed, two drums of molasses, 42 bags of taro, 12 bags of coconuts and 132 packages of sundries.

Hot Eyes, Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No stinging, just Eye Comfort. At your Druggist's or by mail, 50c per bottle. For Book of the Eye Free, ask Murine's Eye Remedy Co., Chicago.

BAD WEATHER IS DELAYING LINER

Meeting the same bad weather which is delaying the transport Logan, the Matson liner Wilhelmina will not arrive from San Francisco until between 2 and 4 o'clock tomorrow afternoon. Her commander, Capt. Peter Johnson, sent in a wireless to Castle & Cooke's shipping department this morning saying the steamer is nine hours late.

Heavy southerly winds are believed to be holding back the old Matson boat, which has traveled close to half a million miles in the 10 years she has been on the island run. She is due to go on a slower service, taking the Lurline's run, after the Mail is placed in commission. The Wilhelmina has 133 cabin and 22 steerage passengers; 900 bags of mail, 180 packages of express matter and 6319 tons of cargo for Honolulu. There are four automobiles for this port. Hilo cargo is 712 tons. The liner will dock at Pier 15 late tomorrow afternoon about half an hour after she arrives off port.

HARBOR NOTES

Inspector A. E. Arledge of the 19th Lighthouse district is expected to return on the transport Logan tomorrow from the mainland.

Next mail for San Francisco will leave at noon tomorrow in the Matson steamer Lurline, mails closing at the postoffice at 10:30 a. m.

Sunday morning the Matson steamer Lurline returned from Kahului. She will steam at noon tomorrow from Pier 19 for San Francisco.

Next mail for Guam and Manila will leave some time Wednesday in the U. S. army transport Logan probably between noon and 5 o'clock that afternoon.

Purser Thompson of the Kinau reports the following sugar awaiting shipment on Kauai: Kekaha, 5359 bags; Waimea, 3119; Koloa, 21,000; McBryde, 10,000; Makaweli, 3000.

At 11 o'clock Sunday morning the Japanese steamer Talyo Maru, which returned from sea Saturday for more coal, left a second time for Yokohama after taking 500 additional tons.

Collector of Customs Malcolm A. Franklin will return in the Wilhelmina tomorrow after a visit of several months on the mainland, including a call at Washington to make recommendations for certain work at the custom house here.

Making a special trip to load Kauai sugar, the inter-island steamer Kailua left Sunday afternoon for Kauai. She has been on drydock for some time getting her fore-castle reconstructed to meet the standard required by federal regulations. This is her first voyage since leaving the dock.

Oxygen and alcohol vapor are being used to stimulate the heart by English physicians.

SALVATION ARMY TO OPEN IN MAY

May 1 or thereabouts has been set as the day for the formal opening of the new Salvation Army buildings, both down town and in Manoa valley. Brigadier Robert Dublin says affairs have arranged themselves now so he can plan on that day. Some of the exercises will be held in the new city building.

The opening will include the inauguration of the boys' dormitories, the new assembly hall and the baby cottage at the new boys' home in Manoa valley and the headquarters building which was recently purchased on Beretania street. This will have 16 moderately priced lodging rooms upstairs.

The latter building has been bought and paid for with \$24,000 raised recently by popular subscription and there is \$4000 on hand for remodeling it. An additional \$6000 will be canvassed soon.

"We need \$10,000 to properly renovate and furnish the place," says the brigadier, "but I didn't want to be too greedy while the Y. W. C. A. was at work."

Quite an affair will be made out of the May openings and the brigadier hopes to have some prominent officials of the Salvation Army here from the mainland.

K. Oshiro was slightly injured and was brought to the emergency hospital this morning for treatment when he fell from a dray he was driving in Lanakila tract. The horse became frightened and dragged him several feet.

ELECTION OF OFFICERS.

C. BREWER & COMPANY (LIMITED)

Notice is hereby given that at the annual meeting of shareholders of C. Brewer & Company (Limited) held at the office of the corporation in Honolulu, T. H., on Monday, February 12th, 1917, the following Officers and Directors were elected to serve for the ensuing year, viz:

E. F. Bishop, President
G. H. Robertson, Vice-President and Manager
Richard Ivers, Vice-President and Secretary
A. Gartley, Vice-President
E. A. R. Ross, Treasurer
C. H. Cooke, Director
R. A. Cooke, Director
G. R. Carter, Director
J. R. Galt, Director
D. G. May, Auditor

E. A. R. ROSS, Acting Secretary.
Dated Honolulu, T. H., Feb. 12, 1917. 6707-7t

NOTICE OF FORECLOSURE AND SALE UNDER CHATTEL MORTGAGE.

Notice is hereby given that in pursuance of the provisions of that certain chattel mortgage, made by A. W. Seabury of Honolulu to The Von Hamm-Young Company, Limited, dated October 11, 1915, recorded in the Registry of Conveyances in Honolulu in Liber 439 page 110, assigned to J. P. Mendonca May 20, 1916, as in Liber 454 page 174, the said J. P. Mendonca has taken possession of the property described therein, namely, One 1916 Chandler Touring Car, Number 10221, with its appurtenances, and intends to foreclose the said chattel mortgage for condition broken, namely, the non-payment of principal and interest when due; and said property will be sold at public auction at the auction rooms of James F. Morgan Company, Limited, on Merchant Street, Honolulu, aforesaid, on Saturday, February 17, 1917, at 10 o'clock a. m. of said day.

Terms of sale: Cash in U. S. Gold Coin; bill of sale at expense of purchaser.

Dated Honolulu, February 9, 1917.
J. P. MENDONCA, Assignee of Mortgage.

C. F. PETERSON, Attorney for assignee of mortgage. 6706-Feb. 12, 13, 16, 1917.

RECOVERIES ARE RULE IN MARKET

Recoveries were general today in the local stock market by both listed and unlisted securities. In all directions conditions of the 'end of last week were reversed and stocks were buoyant, the upward trend being very clearly shown. Considering the Saturday half holiday business between boards was good, 935 shares, and at the session sales were 455 shares. Oia rose from 14 1/4 to 15 1/8. McBryde 9 1/2 to 9 5/8. Waiialua 26 3/4 to 27 1/4. Pioneer was 35, Oahu 28 and 28 1/4. Bond sales were \$1500 Hawaii Railway 5s at 96. Engels Copper was especially buoyant among the unlisted shares, rising from 6 1/4 to 6 7/8. Mineral Products scored a 15 cents advance with sales at 90 and 91 cents. Montana Bing-ham rose from 42 to 46 cents, Madera from 25 to 28 cents and Oil was \$3.50.

BERKELEY PROFESSOR IS IN RESERVE CORPS

BERKELEY, Cal., Jan. 20.—Dean David P. Barrows of the University of California is among the majors in the United States Army Reserve whose appointments have been announced by the War Department. Dr. Barrows served six weeks with the citizen soldiery at Plattsburg, N. Y., last summer and was discharged with the rank of corporal at the end of his service. He will now be on call in time of war and will serve a definite length of time with the regular army at certain periods of the year.

E. W. CHRISTMAS, PAINTER, FINDS KAUAI MAGICAL

E. W. Christmas, R. B. A., one of the many talented painters drawn here by the charm of Hawaii's scenery, and one who has spent virtually all of many months out in the open with the scenes he loves, is back from Kauai eloquently enthusiastic over the Garden Island's opportunities for the painter.

Twenty watercolors, some of which will be worked up into oils, prove the truth of his words when he declares that the painter on Kauai forgets time and fatigue so absorbed does he become in transferring to canvas the glories around him on every side.

The great Waimea canyon, with its ruddy colors and bold configurations, and the marvellously beautiful Hanalei bay and environment are, says Mr. Christmas, two of the finest gems in Hawaiian scenery. Often he painted from dawn to dusk, leaving his boarding place early, with a few biscuits in his pocket, and staying in the open all day.

Mr. Christmas will give an exhibition of his paintings just after the Carnival, time and place to be announced later. This exhibition will be one of the artistic events of the season, as his fine work is already recognized throughout the islands.

FRENCH BENEFIT SHAPES UP WELL

Every act now playing at the Bijou theater has offered its services to the French Red Cross League at the entertainment which will be given at the Bijou theater Friday night. Each act will present a new change of bill.

The box office at the Bijou opened at 10 o'clock this morning and many persons with tickets were there before that hour applying for seats in the house plan. At other establishments where tickets are sold, a heavy run on the sale was reported.

All of the societies in Honolulu of the Allied nations have flocked to the support of the benefit. The British Club is representing the interests of the French as an organization, on account of the fact that there is no French club in Honolulu.

The funds which will be collected will not only be used for the caring of the French wounded but for the maintenance of the wives and fatherless children in France who are suffering as the result of the war's ravages.

The program of talent which has been secured so far is as follows:

Miss Gertrude Hogan in song recital; the Corelli Trio, violin and harp artists; the Lampini, comedy magicians in exposures; Flo La Var, Oriental dances; Neil Slattery, songs; Dan Kelly, songs and patriotic recitations; the Wireless Telephone, a rapid-fire comedy sketch; Pierre Baron's gymnasts; the Castner Quartet; Merlin, the talkative magician, and Walter Weems, the "black-face" comedian.

Tickets are on sale at the Bergstrom Music Company, Honolulu Music Company, Cunha Music Company, Territorial Messenger Service, and from members of the British Club.

FILIPINOS, KOREANS SEEK CITIZENSHIP

These are busy days in the naturalization department of the local federal court, and Koreans and Filipinos are forming a majority of aliens who are seeking their "first papers." Today two Koreans and five Filipinos filed their declarations of intention to become American citizens. They were Joe M. Lora, laborer; Vicente Arguelles, laborer; Basilio Nunez, laborer; Enfracio Garcia, laborer; Carlos Villanobos, laborer, all Filipinos, and Lee Hyung Tai, laborer, native of Chemulpo, Korea, and Ching Sung Baik, laborer, native of Fusan, Korea. As far as is known, there has never been a ruling here as to the eligibility of Koreans to become American citizens.

HUMANE SOCIETY OF HILO SECURES \$230

Two hundred and thirty dollars was raised at a dance and social recently given by the Humane Society of Hilo, an active branch of the Honolulu organization. The money may be used to purchase an automobile, as the agent of the society, when visiting, has to walk or else hire an automobile, and distances are great on the Big Island.

DANCE

LEAH BENEFIT ATTRACTS CROWD TO MOANA HOTEL

The largest crowd that ever attended an entertainment affair at the Moana Hotel was present at the Leah benefit concert Saturday night. The management announced at the conclusion of the evening, and outside the dining room another crowd even larger took part in the general festivities of the evening.

With a diversified and delightful program of vocal and instrumental music the concert proved to be an attraction that brought, it is estimated, 500 people into the dining room, arranged by Manager Moroni for recital purposes. Those whose services were preferred for the raising of funds for Leah Home were Signor J. S. Warrick, basso; Mrs. Riley H. Allen, coloratura soprano; Miss Bernice Holmes, mezzo-soprano, and the Russian quintet from the Young Hotel. Two members of the quintet, A. Podinovsky, violinist, and Fidler Birmanie, pianist, gave solos, and Mr. Birmanie played the piano accompaniments through the evening. In fact, the playing of the Russians proved one of the very effective features in a program which was greeted with the warmest applause, all of the soloists being called upon for encores. There were many tourist-visitors in the audience and after the program they took occasion to tell Manager Moroni and those who gave the program that it was the finest musical event they had found in Hawaii.

After the concert the large crowd enjoyed dancing on the cool lanai of the hotel. The courtyard was sprinkled with tables, at which sat many of the merry-makers.

Reports from the sellers of tickets are still coming in and Manager Moroni will announce at the earliest date possible the sum which was realized for the home. A substantial sum to aid in the carrying on of Leah's work is assured.

AGED HAWAIIAN TO CHANT MELE

Peleue, the aged Hawaiian mele singer, will chant again his weird song of the birth and life of Umi at the performance of Umi-a-Liloa at the Opera House next Thursday evening. Peleue is perhaps the only man yet living who knows the mele of Umi as it used to be sung at the royal court during Umi's lifetime in the 16th century. It has never been written but has been handed down from father to son in the succeeding centuries.

The hula dancers will have a prominent part in the scene of court festivities in the second act. Sitting and bamboo hulas will be given, with a more modern hula as a divertissement between acts. Other features of the life of old Hawaii are represented during the three acts of the play, which is given in English.

The Royal Dramatic Club is now rehearsing another Hawaiian drama, which will be presented in the near future. It is the story of Pele and her mortal lover, Lohiau, and is one of the many legends which are told about the favorite goddess of the volcano fires. It has a number of spectacular scenes and thrilling moments in its three acts. F. W. K. Beckley is the playwright.

Tickets for the performance of Umi-a-Liloa Thursday evening may be obtained at the Territorial Messenger Service. Early reservations are advisable as the seats are already selling in large numbers.

A BAD BACK MADE GOOD

(By L. W. Bower, M. D.)

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, over-working the sick kidneys, hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack of ambition to do things.

The latest and most effective means of overcoming this trouble, is to eat sparingly of meat, drink plenty of water between meals and take a single Anuric tablet before each meal for a while.

Simply ask your favorite druggist for Anuric (double strength) if you aren't feeling up to the standard. If you have lumbago, rheumatism, dropsy, begin immediately this treatment with Anuric. Most scientists and medical men believe that because of an over-abundance of uric acid in the system, uric salts are deposited in the tissues and cause rheumatism and gout.

The physicians and specialists at Dr. Pierce's Institution in Buffalo, N. Y., have thoroughly tested Anuric and have been with one accord successful in eradicating and throwing off from the system the uric acid which accumulates and poisons. Patients having once used Anuric at this institution have repeatedly sent back for more.

Such a demand has been created that Doctor Pierce decided to put Anuric in the drug stores of this country, in a ready-to-use form. It will be their own fault if these suffering from uric acid troubles do not take advantage of this wonderful remedy.—Adv.

Tonight at 7:40

PALLAS PICTURES

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapiesin" is the
Quickest and Surest Stomach
Relief

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.—adv.

BAND CONCERT AT EMMA SQUARE TONIGHT

Beginning at 7:30 o'clock tonight the Hawaiian Band, under the leadership of Prof. Peter Kalani, will give a public concert in Emma square. The program for the evening will be as follows:

America.

ARMY & NAVY

WANTS TRAINING SHIPS ASSIGNED

Recommendation that training ships be assigned to all naval militia organizations now in need of them, made by the chief of the bureau of naval militia affairs in his annual report to the navy department, has set the hearts of Hawaii's young mariners thumping with interest. The report has recently been received here.

"No special organizations are named in the report," said Cmdr. W. H. Stroud, discussing the matter, "but there is little doubt that Hawaii is being considered for the assignment of a ship which will be manned by naval militia men, probably 200 strong."

"The report advises that these assignments be made as rapidly as practicable."

Stroud predicts that a three weeks' cruise will be held this summer, probably to the coast. Navy regulations require that cruises amounting to three months be held during a four-year period, which means more than one cruise of considerable length will have to be taken.

SAN DIEGO HAS STRONG STATION

According to word from San Diego, Cal., the new radio station there has demonstrated its power by communicating with operators in Honolulu, Arlington, Va., and other cities. Says a coast paper:

SAN DIEGO, Cal., Jan. 29.—The new naval radio station at Chollas Heights, which was formally opened Friday, gave a demonstration of its power yesterday when the operators on duty talked with the Arlington, Va., station; Darien, Panama; Nome, Alaska; and Honolulu; overheard French operators at work on the island of Papeete, South Pacific, and concluded by exchanging the time of day with operators at a radio station near Melbourne, Australia.

No attempt will be made to flash a message to Europe from the Chollas Heights station until the various new instruments have been "broken in."

NATIONAL GUARD NOTES

1st Sgt. Carl A. Vickery, Co. D, 1st Regt. Haw. Inf., N. G., will be honorably discharged to accept commission in the National Guard.

Subject to future examination, the following appointments are announced for:

H. Lawrence White, to be first lieutenant of infantry, assigned to 2nd Haw. Infantry.

Carl A. Vickery, to be second lieutenant of infantry, assigned to 1st Haw. Infantry.

The following named enlisted men of Company K, 1st Haw. Inf., none of whom have taken the new federal oath, will be honorably discharged.

Pyts Godfrey Bertelmann, Benjamin Hussey, William K. Kekapa, Andrew W. Mahai, Sam Mattson, Peter Makekau.

Upon the recommendation of the commanding officer, 1st Co. Haw. Coast Artillery, the following promotions in that organization are announced:

Private Edwin O. White, to be sergeant, with rank from Feb. 8, 1917.

Private Wm. H. Soper, to be sergeant, with rank from Feb. 8, 1917.

AIRPLANES WILL PICK UP MAIL FROM LINERS, SAYS COL. SQUIER

Head of Aviators Foresees Big Developments During Next Few Years

People in Hawaii who count the days during long waits for mail boats may be spared that bother within a few years if a prediction made by Lieut. Col. George O. Squier, Signal Corps, comes true. Col. Squier predicted at a recent meeting of the Aeronautical Society of America that aeroplanes at ocean ports will be used in a few years to meet liners and pick up mail to carry on in advance.

This will come to be a common practice, said the officer, and there will also be ports established in different parts of the country to furnish landing places for airmail. Col. Squier spoke at a meeting in Washington. He said in part:

"In my judgment there ought to be a movement set on foot, and there will be, both by the states and by the federal government and by societies, to make aeronautical grounds a part of our larger municipalities. We need reservations, we need a chain of them around the whole United States, so that we can fly from the one to the other and circuit this country. We need them in the interior, too."

"If we are laying a city out anew now it would be wise to provide plenty of space for airplanes. In other words, I think that we must begin to think of our interior cities, like Indianapolis, as airport towns, with perhaps a board of dock commissioners or something of that kind, where ships of the air can be brought in and docked or berthed, because airplanes are going to arrive and depart in great numbers to a certainty, and we must have room for them."

"In any case we must have these reservations, and it occurs to me that since we have the Lincoln highway laid out for automobiles, why couldn't we go along that same route and have reserved landings with gasoline and mechanics and first aid in each of these reservations, so that one can start across the continent and have a Lincoln airway over the Lincoln highway."

"I do not see why this is not possible. If that could be brought about we could practise with the army fliers."

We could simply order a squadron, for instance, from the Atlantic to the Pacific. It would be good practice for the army, and I feel sure that the secretary of war would approve of it. What we need immediately is a careful survey of the entire country and provision for suitable landing places and flying grounds at or near large centers of population."

Regarding the aerial mail problem Col. Squier pointed to the fact that the mail to and from Gen. Pershing's headquarters in Mexico was carried almost entirely by airplane. The time in the air from the border to Gen. Pershing's base, he said, was 66 minutes.

"The truck trains," he added, "take something like three days. I think mail will be very largely carried over certain air routes in the next few years. And we can just as well go out to sea and take the mail off ships and avoid the delay at quarantine. If this air mail bag service starts 200 miles out to sea it would be better to go right on to inland towns like Tulsa and Buffalo. Time, which is a very valuable thing in the mail service, would be saved and I look to see this air mail service among the principal developments of the near future. The post-office department may soon operate more airplanes than the army and navy combined."

Discussing the arming of military airplanes, Col. Squier said that in his opinion what is needed is "a multi-barreled machine gun, a gun which can land a great many shots in a very short space of time."

"If some one," he added, "would develop a super machine gun with three or four barrels, operated by pulling a string, producing a stream of lead bullets, it would be very valuable. An airplane is so vulnerable at the present time that a small projectile will do as well as a large one."

Among the problems to be solved Col. Squier mentioned the mapping of the currents of the upper atmosphere, the evolving of simple and practical rules for the guidance of air pilots, a way to eliminate the noise involved in operating airplanes, a bullet proof gasoline tank, the development of a fabric that will excel Irish linen as a covering for airplanes, and a wireless to be operated between airplanes.

Wants Others to Know Remedy That Helped Him

MR. CHAS. FROELICH, Ill., and can be purchased in Honolulu of Benson, Smith & Co., wholesale distributors, and leading drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

Can't Understand How He Was Cured So Quickly After Suffering Nineteen Years.

For nineteen years, Mr. Chas. Froelich, R. F. D. No. 2, Gorham, Kansas, suffered from stomach and kidney trouble. He tried all the doctors for miles around but got no relief, and had about given up, when Mrs. Froelich read in the Kansas City Post about Fruitola and Traxo and what it had done for a man with stomach trouble. He says, "She sent for Fruitola and Traxo and from the first I felt better. I only took two bottles and am well now and can eat and work like a young man. Fruitola and Traxo did it and I'll do all I can to get others to try it."

Fruitola and Traxo are compounded from the original Eidsall formulas at the Pinus Laboratories in Monticello, Ill., and can be purchased in Honolulu of Benson, Smith & Co., wholesale distributors, and leading drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened, rundown system.

SGT. COTCHETT RETURNS TO RECEIVE COMMISSION

Sgt. Amory Cotchett, who was recently announced for the rank of second lieutenant in the army as a result of passing the required examination, returned yesterday from the island of Kauai, where he has been on duty as instructor of the medical department of the 4th Infantry, National Guard.

Cotchett says the Kauai guard work is moving well. With his completion of duty there the sergeant leaves militia instruction work. It is probable that his commission as second lieutenant will arrive tomorrow from Washington. Three other sergeants of the medical department who passed the examination for second lieutenant also expect to receive their commissions in tomorrow's mail.

WILL GIVE PRIZES AT ARMORY MASK BALL

Three prizes for best impersonations of characters will be given at a mask ball on Saturday night at the armory, the affair being held under the auspices of the enlisted men's club. One prize will go to the best impersonation by a couple, one to the best lady character and one to the best gentleman.

AUSTRALIAN MIDDIES TO JOIN GRAND FLEET

SYDNEY, Australia. — The first graduates of the Royal Australian Naval College at Jervis Bay, who completed their four years' course this month, will sail for England next month for duty with the Grand Fleet under Sir Admiral Beatty. The graduating class consists of 25 members, and this first instance of Australian-trained midshipmen joining the Grand Fleet is hailed with great interest in Australia.

Governor-General Sir Donald Munro Ferguson, in an address to the graduates, spoke of the honor that was theirs. "You are," he said, "on the eve of joining the Grand Fleet, which under Providence, is the greatest security for his majesty's arms and allies. Midshipmen have the soft side of all British hearts. You will have a hearty welcome. Australia owes a big debt to Cook and Flinders, a debt which you are helping to repay. There could be no more acceptable contribution, and one to be judged as worthy as the first fruits of the college and of its staff. Your bearing, good manners and conduct testify to the high tone maintained, and that you are qualified to exhibit that character and personality which from Nelson downwards have ever distinguished the British sea officer."

ARMY ORDERS

Corporal Arch I. Harrison, Company C, 3rd Engineers, will proceed to Fort De Russy for temporary duty at the engineer depot at that post, and upon completion of the duty will return to his proper station.

CADETS AT OAHU MUST EXERCISE

(Special Star-Bulletin Correspondence)

OAHU COLLEGE, February 12.—A system of required, supervised athletics is being put into practice at Punahou today. The system is in connection with the military training system—it is intercompany contests in all branches of sport—and the supervisors are the members of the faculty. Punahou is exceptionally fortunate this year in having such a strong bunch of alert and athletic men on its faculty. Bergin, Silverman, Brier, Schmitzler, Ideker, Sacer, Marsh and Midkiff are all available to work in this department. They are all willing, are keenly interested in boys and in boys' sports and furthermore they are able to show how the stunts are done.

The present system involves every member of the five cadet companies, except such as are excused by physician's advice. Each cadet signs up for at least one sport each term. He may take more. Furthermore, he may take the same sport; viz, tennis or swimming, for three terms. It is only required that he engage in some athletics at least three times each week for about five to eight weeks out of each term. This is a minimum. The opportunity for continual participation in athletics is afforded every Punahou student.

The sports from which cadets elect at least three are as follows: Football, soccer, swimming, basketball, tennis, baseball and track.

Each cadet must go through a minimum of prescribed training preparatory to his intercompany match. Every cadet scores for his company, both as to the character of his practice and as to the success of match competition. The company scoring the highest average of points receives a reward. There are also medals offered for the individual winners of the tennis, swimming and track contests.

This athletics is a part of a broad plan of intercompany competition, other events of which are signaling, close order drill, average of attendance and general excellence at drills, range shooting, gallery shooting, etc. The Punahou students are taking great interest in the idea and great things are hoped for the plan.

CHIHUAHUA DOG IS BORDER FAD

(By Associated Press)

JUAREZ, Mexico, Feb. 1.—The demand for Chihuahua dogs is greater than the supply and small boys are searching all of the homes of refugees from the interior of the state for these diminutive little animals with their bulging eyes and long ears.

The American soldiers of the National Guard regiments are responsible for this demand. Many of them had never heard of the little dogs until they came to the border and saw Mexican vendors selling them on the streets. There was an immediate rush for them to send back home. The dog supply was soon exhausted and the vendors offered high prices for more of the Chihuahua breed. This demand was at first met by the surplus supply here but every available dog was soon sold on the market. The Chihuahua dog is nothing like the purple, hairless dog of Mexico. He weighs only a few pounds, is usually black and white or black and tan in color and has ears almost as large as his little face. One of this breed which is owned by a local breeder weighs but two and one-half pounds and is fully grown.

A good cook is known by her clever use of leftovers.

TRAIN AVIATORS IN NIGHT FLYING

Preparations for training in night flying at the Hempstead Plains aviation field of the aviation section of the United States army were completed with the installation of the last of the 12 flood light projectors, which will be used to mark the landing places. The chief unit of the lighting installation is the 1,500,000 candlepower Sperry searchlight, which has an effective range of more than 8000 yards, and is mounted on a 16-foot platform. This great light will be used for "picking up" aeroplanes as they fly over the field looking for their landing. In addition, it will be the "lighthouse" of the field, and will serve as a homing beacon for aviators coming from other cities. The flood light projectors will be lighted as soon as the searchlight "picks up" the aeroplane, and will make it possible for the aviator to land as safely at night as in the day.

Capt. J. H. Carberry, in command at the field, believes that night flying is absolutely necessary in war. "War flying will all be done at night in the near future," he said, "and nothing could be more important than the training of army aviators in this work. Only at night can the aviators fly low enough to do effective bombing work, and night fliers must be developed. With the equipment now installed we will be able to train our men rapidly."

Telegraph companies in Argentina are making general use of a system whereby messages are received automatically with a machine that prints them.
