## SOUFRIERE APPALLS ST. VINCENT

The Island Covered By Electric Cloud.

## EARTHQUAKES AND FIRE FOUNTAINS

Pelee, Stromboli, Vesuvius and Alaskan Volcanoes Are Also Active.

KINGSTOWN (St. Vincent), September 4.—An appalling phenomenon was witnessed last night. It lasted from 9 p. m. until 5 o'clock this morning. A dreadful eruption of the Soufriere volcano enveloped this whole island in an electric cloud and smoke. At 11 o'clock this morning the atmosphere is still unsettled, but the eruption is apparently subsiding. The sun is obscured and oppressive heat prevails. The sea is slightly agitated. No sand has fallen here. The northern centers are deserted.

Officials have been sent from here by boat to visit the northern parishes, and, if possible, to report on the destruction of property and loss of life.

The destruction of the Carib country is presumably complete. The eruption yesterday was longer in duration and more violent than even the first outburst of May 7th. With a recollection of the fate of St. Pierre and the last disaster here, the people converged on Kingstown and ran to and fro seeking shelter from the electric cloud spreading over the hills toward the town, while shocks of earthquake, though not severe, increased the panic.

At 2 o'clock in the morning rapid explosions were mingled with a continuous, terrible roar; intense darkness changed into a constantly glimmering firmament, illumined by forked lightning, balls of fire ascending from the crater and bursting into meteor-like showers. Such an awe-inspiring scene the wildest flights of fancy could not have imagined. This lasted until 2 o'clock in the morning.

The rumor that a tidal wave was expected caused increased agitation and hundreds of people fled to the hills. Superheated clouds rose to an immense height and rain clouds below sent down showers.

At 6 a. m. silver clouds were issuing from the crater and throughout the day they moved slowly northward. The heat was terrible and there were indications of a further outbreak of the volcano. Last night there were unmistakable signs of Mont Pelee being in eruption simultaneously with the Soufriere.

Authentic reports received here from various sources confirm the statements that the eruption of Mont Pelee during the night of August 30th was the most terrific experienced. The captain of the French transatlantic steamer Salvador, which has arrived here, furnished the following: "I left Port au Prince at 5 o'clock in the afternoon of August 30th. On passing St. Pierre, at 7 o'clock at night, Mont Pelee was in violent eruption. At 4 a. m., August 31st, on approaching the islands of Les Saintes, volcanic ashes began to fall. I arrived off Pointe-a-Pitre, Guadeloupe, at 5 a. m., but was unable to enter the harbor until 11 o'clock, everything being obscured by falling ashes."

PARIS, September 9.—A cablegram from Governor Lemaire of Martinique says that measures have been taken to insure the evacuation of the northern part of the island.

A RIVER OF FIRE. KINGSTOWN (St. Vincent), September 6.—The sights in the Windward district of this island resulting from the eruption of Soufriere on September 3d are very interesting. The Rabacca river is a stream of fire a quarter of a mile wide. The river bed is continuously throwing up columns and dense clouds of steam, mud and pebbles. The land has spread farther southward and is changing considerably the appearance of the district. Probably this is caused by the ejecta that flowed down the slopes, filling the sea about the coast.

The port officer of Chateau Belaire.

## A GREAT REPUBLICAN VICTORY

PORTLAND (Me.), September 8.—Chairman Simpson of the State Committee tonight sent a message to the President saying:

"Maine has gone Republican as it once went for Governor Kent. We have carried the State by a plurality of 25,000. We have elected the entire delegation in Congress by a large majority, have chosen every Senator with one exception and about four-fifths of the Legislature. The Pine Tree State indorses your administration with no uncertain voice."

A message of like import was sent to Senator Hanna, saying: "Maine has today shown her appreciation of the Republican policies which have given to our country a prosperity unequalled in the history of the world."

Maine rolled up a big off-year plurality for the Republicans in the election today, approximating 27,000, in comparison with 12,000 for the average of other years. Complete returns will be very late, owing to the remoteness of many towns. The figures at midnight from 240 cities and towns give Hill (R.) 40,862, Gould (D.) 24,587. The same towns two years ago gave Hill (R.) 47,431, Lord (D.) 27,754.

The Legislature, while, as usual, strongly Republican, will have an uncommon number of Democratic members, some of the strongest Republican towns of the State having elected representatives of that party. The Senate will have only one Democrat in thirty-one members. In the First Congressional district Congressman Allen was re-elected over Dr. S. E. Gordon of Portland (D.) and Fred E. Irish (Socialist), with a plurality of about 5500, as against 7000 two years ago. Mr. Allen, who succeeds Thomas B. Reed, for whom he was secretary, ran behind his ticket in York and Cumberland counties. Dr. Gordon's personal popularity contributed to this result. An incident was the increase in the Socialist vote of from 70 two years ago to 300 this year in Portland alone.

In the Fourth district, owing to its great area, the returns will not be completed until late tomorrow, but the estimate is that Congressman Powers (R.) has been re-elected by a plurality of 7000 over Thomas White (D.).

In the Third district Congressman E. C. Burleigh got the Prohibitionist vote and ran slightly ahead of his ticket in defeating E. H. Benson (D.).

In the Second district Congressman C. A. Littlefield had no difficulty in defeating his Democratic opponent, running well ahead of his ticket. The city and county contests nearly all presented features, but the most interesting was that in Cumberland county, of which the late Rev. Samuel Pearson was sheriff. The Shrively fight today was won by Pennell, the Democratic candidate, by 100 in Portland and nearly 2000 in the county.

## PACIFIC CABLE ON THE OCEAN

Steamer En Route to San Francisco—Terms May Be Rejected.

NEW YORK, September 4.—The Tribune says: Information was received in this city today that Clarence H. Mackay was a passenger on the steamship Teutonic, which sailed from Liverpool on Wednesday. His object in coming to New York at this time is to assume the duties of president of three big corporations, the Commercial Cable Company, Commercial Pacific Cable Company and Postal Telegraph Company.

The rejection of the terms of the proposed contract between the Government and the Commercial Pacific Cable Company may be announced after the arrival of Mackay in this city. Some of the conditions imposed by the Government are regarded as prohibitive, and Mackay will probably not use the Government soundings. An indication of the intention of the cable company to reject the terms proposed for the use of the Government soundings is the recent action of the company in sending a steamship to take new soundings.

That portion of the company's Pacific cable which is to extend from San Francisco to Honolulu is on the cable steamer which left England weeks ago, and it is on the way around Cape Horn to San Francisco. It is expected that the cable will be laid and in use by December 1st. Parts of the cable which is to extend between Honolulu and Manila are being manufactured by English firms.

## Triumph of Wireless.

ROME, September 11.—Marconi, in an interview published here, declares he has completely solved the problem of sending wireless messages over a distance of more than 1,500 miles and that he is confident that communication between Europe and America will be established in the immediate future. He is to visit King Victor Emmanuel at Ragnoist Piedmont, September 14.

## J. T. DE BOLT WILL BE APPOINTED JUDGE

J. T. DE BOLT.

WASHINGTON, D. C., Sept. 10th, 1902. The Pacific Commercial Advertiser, Honolulu, Hawaii, per S. S. Hongkong Maru, from San Francisco.

The President has decided to appoint John T. De Bolt of Honolulu, Circuit Judge. Several days ago he directed the Department of Justice to prepare the commission which has been forwarded to Oyster Bay for signature. It will be signed by the President forthwith.

ERNEST G. WALKER.

J. T. De Bolt was born in the State of Texas on the morning of December 19th, 1857, his father who followed the physical and mental occupation of farmer and school teacher, being a native of Ohio. Anticipating war and being in full and active sympathy with the North, Mr. Bolt, senior, considering discretion the better part of valor, like many others, resolved to find more congenial surroundings and to that end made for the North, locating in Leavenworth, in Northeastern Kansas, where he remained with his family during the war. Here the subject of our sketch received the earlier part of his education. In the beginning of 1866, peace having been declared, the family removed to the State of Missouri, where J. T. De Bolt was employed on the farm during the summer months and attending the country schools during winter, at all times being an earnest student of any scientific or historical work within his reach. In 1879 he came west to California, remaining in the Sacramento valley from September till March of that year, when he and two companies with a spring wagon traveled

overland through northern California and Eastern Oregon to Spokane Falls (then Washington territory) at that time a village of 250 inhabitants, the scalp of the party, by the way, while en route, being several times much in demand. Leaving Spokane in 1883, 1884 found him studying law in the offices of ex-Chief Justice Orange Jacobs of Washington Territory, one of the ablest jurists of the northwest, being admitted to the bar in 1887, immediately commencing practice. Arriving in Honolulu on June 7th, 1896 he was admitted to practice in all the courts of the Hawaiian Islands on the 17th, since which time he has done a prosperous general law practice.

## The German Maneuvers.

FRANKFORT-ON-THHE-ODER, September 7.—Preparations are being made for the autumn maneuvers, which begin next Tuesday, and 92,000 troops are spreading over the countryside in two armies. One is marching to the eastward from here by way of various parallel roads, while the other is marching west from Posen. It has been raining all day.

## PROFESSOR HOUGH SAYS MARS HAS LIVING BEINGS

CHICAGO, September 10.—After a life-time spent in observation of the heavenly bodies Professor George W. Hough, head of the Department of Astronomy at Northwestern University, announced his belief today that Mars, Mercury and Venus, as well as millions of other planets outside of the solar system, are inhabited.

The professor further announced that the inhabitants of Mars, Mercury and Venus in particular are thousands of years in advance of the human race in point of civilization.

These conclusions have been reached by Professor Hough only after years of scientific observation and his acceptance of the theory marks an epoch in modern astronomy. For years he has been a recognized authority on matters astronomical and is known as one of the most conservative astronomers.

Accepting the nebular hypothesis of the origin of planets, Professor Hough has made a special study of our neighbor, Mars. Through the powerful telescope of the Dearborn Observatory he noted the similarity of the atmospheric conditions of Mars and the earth. He found that the planet Mars in itself did not differ materially from the earth, save in the matter of the color of vegetation, which in Mars appears to be red instead of green.

On Mercury and Venus, after careful observation, he found similar conditions to prevail. So far as his observations

carried him he could find nothing on any of the three planets inimical to life. Then he put to himself the question: If the earth is inhabited, why should not these planets, with similar terrestrial and atmospheric conditions, also contain life?

Upon accepting the possibility of these planets being inhabited, Professor Hough once more went back to the nebular hypothesis. Acting upon the hypothesis he believed Mars, Mercury and Venus to be older—millions of years older, perhaps—than the earth.

"If it took the human race as many years as the earth is old to evolve to its present conditions," he reasoned, "the inhabitants of Venus or Mercury or Mars, after a process of evolution begun millions upon millions of years before the earth even assumed its present form, must be ages in advance of us in civilization."

In discussing his recently drawn conclusions today Professor Hough expressed the belief that of the two million stars which are at present known to astronomy, a majority act as suns to various solar systems in which there are hundreds of inhabited planets.

"I do not believe the Creator placed all those stars in the heavens for nothing," said the venerable professor, "and after a lifetime spent in studying the heavenly bodies I can only begin to realize what a small thing man is."

Professor Hough has been connected with Northwestern University for nearly half a century, during which time he has discovered nearly seven hundred stars.

## MUNICIPAL ARRESTS AT ST. LOUIS

ST. LOUIS, September 8.—A sensation was caused here today by the issuance of bench warrants for the arrest of eighteen members and former members of the St. Louis House of Delegates following a confession by Delegate J. K. Murrell, who fled to Mexico last spring after being indicted by the grand jury for bribery in connection with the alleged hoodling operations in the granting of franchises to the Suburban Street Railway Company and in other legislation. Murrell, it developed, had returned to the city unexpectedly two or three days ago through the efforts of the St. Louis Post-Dispatch and surrendered.

His confession, which is most direct, involves eighteen prominent men who have been connected with St. Louis politics. It was read to the grand jury and the issuing of the warrants followed quickly. Murrell says he belonged to a combine which sold votes for cash.

## Bark John Ena.

TACOMA, September 5.—The American bark John Ena, which arrived at Kobe from New York in August, had a tragic voyage. Captain Madsen declares that during his long life at sea he never before experienced such a succession of misfortunes. Three lives were lost during the voyage and a fourth man was badly injured.

## War on the Isthmus

KINGSTON (Jamaica), September 10.—The British schooner William Cliff, which reached port today from Colon, Colombia, reported considerable activity on both sides of the Isthmus and announced that the rebels had already occupied Culebra and were advancing in strength.

## BATTLESHIP IOWA ASHORE

RIO JANEIRO (Brazil), September 10 (via Galveston).—The United States battleship Iowa has run aground near Cape Nossa Senhora do Desterro and the island of Mito. The Iowa had just finished target practice and was returning to the Priests Island.

Cape Nossa Senhora do Desterro is on the island of Santa Catharina, 460 miles southwest of Rio Janeiro. The island is about half way between Montevideo, Uruguay, and Rio Janeiro.

The Brazilian Minister of Marine has ordered a warship to go to the aid of the Iowa. The Iowa is the flagship of the South Atlantic squadron. Rear Admiral George W. Sumner is in command of the South Atlantic station. Captain Thomas Perry commands the Iowa. The cruiser Atlanta is the only other warship in the South Atlantic squadron.

## NO SETTLEMENT IN PEARL HARBOR CASE

Navy Department Not Favorably Inclined Towards Honolulu Compromise.

From advices received from Admiral Merry by Assistant United States Attorney Dunne, the prospects for a final compromise in the Pearl Harbor case are not very good. Admiral Merry favored a settlement with the Honolulu Plantation Co., but the sentiment in Washington appears to be against any compromise which has conditions attached to it. Admiral Bradford is away from Washington and Admiral Merry is not hopeful of success.

Mr. Dunne will leave for San Francisco on the Alameda next Wednesday to prosecute the appeal in the Circuit Court of Appeals, unless orders to the contrary come in the next mail.

The Honolulu Plantation Co. it is said, agreed to accept \$75,000 for its leasehold interest in the Bishop Estate lands, but also asked certain concessions relative to wharfage and water rights.

## FOREIGNERS MUST LEAVE SIBERIA

PEKING, September 10.—Paul Lessar, the Russian Minister here, has advised the Russian commander in Manchuria that the presence of foreigners in Manchuria during the military occupation is objectionable, and he is directed to expel the British Imperial customs employees who may be sent to Manchuria to resume charge of the postal service.

According to advices received here from Manchuria, the Russians are making no visible preparations to withdraw from the military occupation of the southwest portion of the province of Shantung, as was stipulated should be done within six months of the signing of the treaty. Russian troops and immigrants are reported to be entering Manchuria in large numbers, but none are leaving the country.

## GERMANS FIRE ON HAYTIENS

Kaiser's Ship Sinks a West Indian Cruiser.

## GRIT OF THE NEGRO ADMIRAL

He Blew Up One of His Magazines Rather Than Surrender. Lost His Life.

PORT-AU-PRINCE, September 8.—Secretary of the Navy, Washington: German gunboat panther sunk Crete-a-Pierrot at Gonaives. Crew escaped. The Panther returned to Port-au-Prince. (Signed) M'LEAN.

BERLIN, September 8.—The Marine Ministry has given out the official report of the sinking of the Firminist gunboat Crete-a-Pierrot: "Captain Eekermann of the Panther had received orders to capture the piratical gunboat Crete-a-Pierrot. The Panther went there from Port-au-Prince to Gonaives, where it completely surprised the Crete-a-Pierrot."

"The German commandant sent the following ultimatum: 'Strike your colors within fifteen minutes and disembark from your ship without undertaking any defensive measures whatever; otherwise an immediate attack will follow.'

"The Panther had already cleared for action. The Crete-a-Pierrot hauled down her flag within the allotted time and the crew disembarked. The Panther then attempted to take the Crete-a-Pierrot in tow, but an explosion of her aft powder magazine soon ensued, which was evidently effected by the Crete-a-Pierrot's crew. The explosion destroyed her stern and set the vessel on fire, rendering taking her in tow impossible, especially as further explosions followed. As this was regarded as a hostile act, and as the guns afore were still in condition, the Panther's Captain caused the boat's forward magazine to be exploded through a cannonade. After this was effected the Crete-a-Pierrot broke up and sank. The Admiral was on board with the rebels. 'Gonaives is in the hands of the rebels.'"

PORT AU PRINCE, September 9.—Rumors are in circulation here that Admiral Killick, a doctor and two sailors were killed on board the Crete-a-Pierrot when she was sunk by the German gunboat Panther, but the news lacks confirmation. The Haytian steamer Mancoi left here this evening for Cape Haytien loaded with rifles, cannon and ammunition, sent by the Provisional Government to General Nord, the Haytian Minister of War.

BERLIN, September 9.—The attitude of the American press regarding the sinking of the Haytian rebel gunboat Crete-a-Pierrot by the German gunboat Panther gives great satisfaction here.

GONAIVES (Hayti), September 10.—An investigation into the sinking of the Firminist gunboat Crete-a-Pierrot at the entrance of this harbor Saturday shows that Admiral Killick, her commander, personally fired the aft magazine of that vessel when the German gunboat Panther attempted to capture her, and that he went down with his ship. The Panther, which had previously attempted to board the Crete-a-Pierrot, the latter being moored to the shore, reversed her engines when the magazine exploded, and one hour afterward fired thirty shots from her guns at the Crete-a-Pierrot in order to finish the work of sinking her. The Panther then left Gonaives.

It is claimed here that the rifles and machine guns of the Crete-a-Pierrot have been saved.

The body of Admiral Killick was recovered Saturday afternoon and was buried the same evening. The surgeon of the Crete-a-Pierrot, who was asleep

## REVENGE THE WORD

Piece Club Will Run Camara Anyhow.

PORTUGUESE IN A PRETTY ROW

Portuguese Kickers Have a Lively Time at Their Hall—The Press Excluded.

The Portuguese Piece Club decided last night at an executive session to run J. M. Camara as an independent candidate for the legislature to show its displeasure of the action of the Republican Fourth District committee in naming Frank Andrade on the Republican ticket. The action was taken after a long discussion of the club's position in the political arena, and after attacking the character of Andrade, the Republican nominee. A subscription list will be passed around to raise at least \$500 to defray the expenses of the independent candidate's campaign, and a canvass of the Portuguese, Hawaiians and Democrats in the Fourth District will be commenced. Camara said he was in the liquor business, and his contribution would be to pay for the drinks he would have to serve to his followers.

The club opened its meeting by expelling two members for circulating a paper asking Portuguese to withdraw from the political club. Vivas characterized one, who is a government employee, as a man who said "stinking words" in the club, and he wanted some one to warn the employee not to take active part in politics. The brothers of Candidate Andrade were permitted to resign as members. Following this, Vivas arose and moved that the club go into executive session, excluding the press. Vivas then attacked the Advertiser for its accounts of the proceedings of the Piece club.

When the doors were tightly closed and about fifteen Portuguese non-members had been turned out of the hall, after having been invited during the day to be present, the club went to work on the question of independent ticket. Silva, Vivas, Seabury, Correa and others, said the Republican committee had done "dirty work" with them after the club had gone half way to meet it to agree on candidates. Seabury gave an account of an alleged interview he had had with George R. Carter, the following being the conversation as Seabury gave it: "I said to Mr. Carter, 'I am a man of judgment and you can never dictate to me.' He said 'We want you to run,' but when I said that I would never be dictated to, Carter said, 'You are not the man we want there (in the Legislature) because we cannot work you.'"

Silva said that he told the Republicans when they chose Andrade that "they had cut their own noses." "They don't want a man that they cannot dictate to," said Silva.

Pacheco derided Andrade and said the flower of the Portuguese colony was for Camara. He said Andrade was a man who had betrayed their secrets to the "enemy." He said, however, there was only one party to join in with the Republican party.

Vivas explained in the executive session that his action in calling for an executive session and ejecting the press was done for good reasons. He could have spoken in the Portuguese language when he made the motion and thus "cheated" the newspaper man. Pacheco later defended certain members of the press whom Vivas had attacked. Vivas said the Portuguese Political Club was pledged to support Prince Kuhio as candidate for Congress. He advocated an independent ticket, even though the Portuguese were not strong enough to elect their man now, for in two or four years the number of Portuguese votes would command respect from the other parties. He wanted the club, whatever its action, to support the Republican platform with the exception of plank 9, which refers to the employment of only qualified American voters on public works, etc.

Camara advocated an independent ticket and the vote was finally taken standing to run an independent ticket. Another vote placed Camara in the field.

The exclusion from the body of the hall of an Advertiser reporter did not deprive him of a chance to witness the proceedings and make shorthand notes. Though unobserved by the Piece Club he was present throughout.

## KAUAI WILL VOTE FOR PRINCE KUHIO

Frank Andrade returned yesterday from Kauai and reports that Republican organization on the Garden Isle is complete. He states that wherever he went he found that the Republican feeling was growing and the organizers were now able to put their hands on this or that person and say they knew how he would vote next November.

Mr. Andrade says that there will be 250 more votes this coming election than at the one in 1900, and that the registration so far gives 114 more votes to the island. The recent trip of Prince Kuhio made a good impression on the natives and from all that he could learn the Prince's stock is on the rise.

Marcus Island Claim

WASHINGTON, September 6.—Acting Secretary Adee has been informed by the Japanese legation here that Captain Roschill, who undertook to lay claim to Marcus Island and take possession, arrived on that island on July 30th last. He was met there by a Japanese war ship, the commander of which handed to him the letters addressed by the State Department, pointing out the advisability of his avoiding any forcible demonstration to support his claim. The Captain accepted these letters as sufficient and left the island about a week later. He has not lost any right he might have had, according to the State Department, and if he has any just claim it may be pursued to a conclusion in the usual diplomatic channels.

in his cabin, and two sailors of that vessel also perished.

WASHINGTON, Sept. 11.—Secretary Moody today telegraphed the commanders of the battleships Wisconsin, now at Bremerton, and the cruiser Cincinnati, at Cape Haytien, directing them to proceed as soon as possible to the Isthmus of Panama, the Wisconsin reinforcing the Ranger at Panama and the Cincinnati taking station at Colon. It will take the Wisconsin fully twenty days to make the long trip of over 4000 miles down the Pacific Coast to Panama. The Navy Department had intended to send the Boston, which is now getting ready for service at San Francisco, to relieve or reinforce the Ranger, but the alarming situation which has so quickly arisen on the isthmus prompted the officials to take more active measures to increase the naval representation of the United States in that section. The Cincinnati will only consume a few days in her trip across from Cape Haytien, so that by the beginning of next week she should have reached the other terminal of the Panama railroad. The destruction of Admiral Killick's flagship swept away the entire naval force of Hayti, and naval officials believe that the Cincinnati can relinquish her post there with safety.

## COMMISSION TO MOLOKAI

### Senators Will See Lepers Themselves.

### VISIT IS TO BE MADE THURSDAY

### Senator Mitchell Accepts the Invitation Extended by Board of Health.

The Senatorial Commission will make a visit to the leper settlement at Molokai next Thursday, returning to Honolulu on the following day. Senator Mitchell accepted the invitation of President Sloggett Tuesday and the members of the commission will go to Kalaupapa as the guests of the Board of Health and investigate conditions there for themselves.

The arrangements for the trip were completed at the meeting yesterday where the action of Dr. Sloggett was approved, and Dr. Pratt was instructed to provide the necessary accommodations. No steamer has as yet been secured but this will probably be done today or tomorrow, as it is hoped to complete all arrangements this week. The Senatorial Commission will furnish a list of the members of its party on Monday, and the Board of Health also intends to invite a number of guests. Not all the members of the Board will make the trip, Dr. Sloggett stating yesterday that he would not be able to do so. Mr. Isenberg will also remain at home, though the remaining members of the Board are expected to go.

There will probably be ten in the Senatorial party, provision being made for the ladies, if they express a desire to make the trip.

Senator Thurston will be invited as will also W. O. Smith who was said yesterday by the members of the Board to be the best posted man on the leper settlement, in Honolulu. An invitation will also be extended to Judge Wilcox. There was some discussion as to the number of newspaper men to be included, as the accommodations are likely to be limited. It was decided however that each of the daily papers, including the Aloha Aina should be invited to send a representative. Formerly the weekly papers were also included but accommodations are insufficient for that arrangement. Upon the last annual trip but two newspaper representatives were taken along and there was much complaint over the action of the Board, so it was concluded yesterday to have representatives from the five daily papers.

Supt. McVeigh will be notified on the first steamer to prepare for the reception of the Senatorial party. The steamer will leave probably Thursday evening and arrive at Kalaupapa early Friday morning. A thorough inspection will be made of the settlement, and if desired by the senators they will be allowed to interrogate the lepers. The return will be made Friday evening.

### LEAVING FOR THE COAST

Mr. and Mrs. Thomas F. Osborn, accompanied by their sons Thomas and Neville intend to leave for the Coast next week. They will go via Victoria, working gradually down the Coast, spending a few days in their old home in Portland and going on from there to San Francisco and Los Angeles in both of which places Mr. Osborn has business connections.

Mr. and Mrs. Osborn have resided here for the past couple of years, he coming here originally in connection with the expanded metal and fire proof work in the Stangenwald Building and being a man of ability and experience in this line as well as in all methods of concrete construction he was secured as a member of the Concrete Construction Company of this city, and has been the practical man in all their work. They have carried out some very extensive jobs in the past two years, among them being the warehouses of the Union Feed Co.; the Automobile building, foundations of the Alexander Young Building and the new Punahou Preparatory School.

Mr. Osborn has under consideration some very flattering offers from Coast concerns and the chances are will locate in San Francisco where there is a good field for a man of his ability and knowledge.

Although it is not generally known here, Mr. Osborn has been recognized as one of the very best authorities on the Coast in all matters pertaining to elevator construction, both hydraulic and electrical.

Their many friends will greatly regret to see them go and will wish them a safe voyage and a satisfactory settlement on their arrival.

### Bob Evans Coming.

WASHINGTON, September 7.—Orders have been sent forward by the Navy Department today detaching Rear-Admiral Rodgers from the command of the Asiatic station and directing him to return to the United States. The detachment of Rear-Admiral Rodgers will leave Rear-Admiral Evans, now in command of the station, in supreme command, with Rear-Admiral Frank Wildes, the senior squadron commander.

### POSTAL CLERKS TO ORGANIZE

### The Honolulu Clerical Force May Form Branch of National Association.

Postal clerks in the Honolulu post office may soon be given a charter to organize a branch of the United National Association of Postal Clerks. Several meetings have been held recently and a request was forwarded to the headquarters of the organization a few weeks ago asking that authority be designated to some one here to organize a branch.

The Clerks' Association, like that of the letter carriers, is for the purpose of protecting their varied interests in the service, to watch the trend of salaries and obtain what benefits are possible both from the post office department and from Congress. The Letter Carriers' Association was able to cause Congress to pass an eight hour law in their behalf, and the Clerks' Association has a similar object in view. The organization of the branch here will take up a uniform schedule of hours for working as far as the interests of the service will permit.

### CIRCUIT COURT.

### Geo. Carter Denies That He Is Distasteful to Willie Hall

Geo. R. Carter has filed an answer to the petition of Wm. A. Hall for his removal as spendthrift guardian. Carter denies that he is personally distasteful to Hall, or that he has refused to give him money for his support, but alleges that he has advanced him over \$3000 out of his own pocket.

James Bright has been licensed to practice in the District Courts of the Territory.

Bishop Report has filed an answer in the case of Oahu Railway Co. vs. John K. Sumner, admitting the option, but asking the court for instructions as to whether he has any right to sign the deed of conveyance.

The answer in the case of Elizabeth K. Pratt vs. Y. Ahin Co. was stricken from the files by Judge Robinson yesterday and defendant was given ten days within which to file a specific answer.

Exceptions and formal appeals have been noted in the cases of D. L. Akwal vs. Royal Insurance Company, and Wong Chow vs. New Zealand Insurance Company.

The case of Poo Kee Co. vs. Yoshida et al., appeal from district court, was stricken from the calendar by Judge Robinson yesterday.

### ANXIOUS TO BUILD LINE TO WAIKIKI

Rapid Transit extension is held in abeyance to a large extent awaiting the answer of the London stockholders of the Tramways company to Mr. Moller's cablegram recently forwarded. No news is expected until about September 27.

One of the officers of the Rapid Transit stated yesterday that nothing would be done at present toward laying the Waikiki extension. There was a large amount of surfacing to be done over the fill through the McCully tract, and the road widening arrangements along the Waikiki road beyond Hopkins switch had not been completed. "We want to get to Waikiki as soon as possible," he said, "but it may be a few weeks before we get started on the track laying."

### Ayer's Cherry Pectoral

Weak throats and weak lungs easily give way. Some extra strain, as a fresh cold, and you are down with bronchitis or pneumonia. Better strengthen these weak places before it is too late. Ayer's Cherry Pectoral heals these irritable throats, gives tone to the relaxed membranes, and imparts strength to the lungs.

There are many substitutes and imitations. Beware of them! Be sure you get Ayer's Cherry Pectoral.

WALTER G. SMITH - - EDITOR.

THURSDAY SEPTEMBER 18.

The news about the accident to the Iowa is meager, but it leaves room for hope that the big battleship will not fare any worse on the rocks than the Oregon did.

The Republican tidal wave in Maine shows that the enthusiasm which brought in McKinley and a Republican Congress has in no wise abated. The defeat of the prohibition ticket in the late Sheriff Pearson's district is another striking fact in the returns from the Pine Tree State.

A treaty of alliance between France and Spain is said to be on the tapis. Heretofore Spain has cultivated isolation and she now feels that, by this course, she lost her colonial empire. It cannot be said that Spain will add much strength to the Franco-Russian pact, but if she joins it she may be able to raise enough money in Paris to build a new navy and re-arm her troops.

The President's decision to appoint Mr. De Bolt to the First judgeship of the First Circuit court, marks a new departure at Washington in the matter of judicial nominations. Hereafter some care will be taken with them. Mr. De Bolt has fine qualifications for Judge and, with his colleague, Judge Robinson, may be trusted to redeem the local bench from the disgrace brought upon it by other incumbents.

The attack of a German cruiser on a Haytian gunboat was apparently justified by circumstances. If the move was also made to test the Monroe doctrine it merely developed the fact, often developed before, that the United States does not attempt to stand between any of the Southern republics and their lawful punishment for offences against international law. The Monroe doctrine comes into play only when an Old World power tries to annex New World territory.

## Kate Field's Spirit.

NEW YORK, September 4.—A Herald Boston special says: Lillian Whiting, the well-known writer, says she has had a communication with Kate Field's spirit.

"Recently," she said today, "I gave the Boston Public Library a collection of autograph letters which had belonged to Kate Field. Suddenly one day, before the collection had been sent, I heard Kate's voice say, as plainly as if she was in the room: 'Lillian, give the Poe letter to Mr. Stedman.' (Edmund Clarence Stedman.) I heard no physical sound, but the impression was as vivid as if some one had actually spoken. I did as I was directed.

"Not long afterward I received a letter from Stedman, in which he said: 'But how did you happen to send it? It is just what I need to go with my collection of Poe's manuscripts.' I had no knowledge of the value the letter would be to him. I have had other communications with Kate Field."

## France and Spain.

NEW YORK, September 11.—Speeches at a luncheon given by General Andre at Toulouse, coupled with the presence of the French warships at the Bilbao fetes and with the attentions shown to the Spanish Queen-mother in Paris, are believed, says a Paris dispatch to the Times by way of London, to be in the line of a Franco-Spanish demonstration.

The correspondent quotes the Madrid Correspondencia Militar, which declares that Spain is about to abandon her long standing policy of isolation, which policy cost her colonial empire.

The Spanish Liberal party, says the Correspondencia Militar, will not leave office before concluding an alliance with France.

## Prof. Virchow Dead.

BERLIN, September 5.—Professor Rudolph Virchow, the pathologist, died here at 2 o'clock this afternoon. The evening papers here print glowing eulogies of the deceased professor, classing him as the world's greatest medical and scientific reformer, and saying that no other man had so deeply influenced modern medicine and that no other had such a world-wide reputation and so many followers in all lands. The papers also praise his humanitarian activity in improving the Berlin hospitals and other sanitary institutions. The liberal organizations extol his political activity and unswerving liberalism.

## Bartholin Commits Suicide.

CHICAGO, September 6.—William Bartholin has ended his career of crime by adding suicide to the murder of his mother and sweetheart, Minnie Mitchell. His body was found yesterday in a field of flax near Lowther, a suburb of Riceville, Ia. It was found in growing grain, and in one of the pockets was found a letter containing a full confession of the two murders, which for atrocity have not been equaled in the criminal annals of Illinois.

## Kaiser to President.

WASHINGTON, September 4.—Messages of congratulation over the escape of the President from his accident yesterday have begun to come to the State Department from abroad. One of the first was the following from Emperor William of Germany:

"POSEN, September 4.—President, Washington: With all Americans, I praise the providence that saved your life from the terrible accident.

"WILLIAM, I. R."

SOUFRIERE  
APPALLS  
ST. VINCENT

(Continued from Page 1.)

who saw Soufriere from the sea yesterday, made the following report:

"The mountain is considerably lower than before September 3d, and the appearance of the summit has changed. A large proportion has evidently been blown off and the hill has a much more jagged appearance. New ridges have been cut in the west side of the volcano, down to what was formerly the Carib settlement of Harakal, where liquid matter was seen floating during the afternoon of September 3d. The crops of arrowroot and cocoa are ruined."

During the night of September 4th there was a terrific storm, accompanied by blinding lightning and terrible peals of thunder and a moaning sound from the agitated crater.

NEW YORK, September 8.—Gustav H. Schwab, chairman of the relief committee formed in May to relieve distress caused by the volcanic disturbances in the West Indies, received a reply today to a telegram sent by himself last week offering assistance to Governor Llewellyn of St. Vincent.

The reply, which was dated September 6th, notes the eruption of Soufriere, and adds: "Do not know extent of damage or wants at present. Believe no lives lost. Cannot communicate with Martinique."

## STROMBOLI IN ERUPTION.

ROME, September 9.—The volcano on Stromboli island is in full eruption and is throwing up great columns of fire and torrents of stones. The island is shrouded in smoke. Mount Vesuvius is showing signs of activity.

Stromboli is the northernmost of the Lipari islands in the Mediterranean, off the north coast of Sicily. Its area is eight square miles. It is wholly of volcanic formation, and has a constantly active volcano, 3040 feet high, with an extinct crater on top, but an active one on the side at the height of about 2150 feet.

On the east side of the island lies the small town of Stromboli. The population of the island is placed at 500 persons.

It was announced from Naples September 7th that large volumes of flames were issuing from the crater of Mount Vesuvius the previous evening.

## VESUVIUS AGAIN ACTIVE.

LONDON, September 7.—A special dispatch from Naples says large volumes of flame were issuing from the crater of Mount Vesuvius Saturday morning.

## ALASKA CHIMES IN.

SEATTLE, September 8.—Three Alaskan volcanoes are active, presenting a magnificent spectacle.

## AN ISLAND VANISHES.

NEW YORK, September 9.—A cable to the Sun from London says: A dispatch from Paris to Dalziel's News Agency says the Admiral commanding the French naval division in the Atlantic has sent word of the sudden disappearance of the island of Bermeja, in the Gulf of Mexico. No reefs have been discovered on the spot formerly occupied by the island, but the navigators are recommended to use extreme caution while sailing in that vicinity. The Admiral says the volcanoes in Mexico, Yucatan and Guatemala are very active.

## Habits of Hawaiian Cattle.

Hundreds of horses and thousands of cattle in the Hawaiian Islands never take a drink of water. They live on the upper altitudes of the mountains, where the cattle run wild from the time they are born until they are sent to the slaughter house. Except possibly for two or three months in the rainy season there are no streams or pools of water in any part where the cattle roam, but everywhere there grows a recumbent, jointed grass known by the native name of manina. This is both food and drink.—S. F. Chronicle.

## WHAT IS PAIN BALM?

Chamberlain's Pain Balm is a liniment and, while adapted to all the ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously tried the best medical service without securing relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing, generally prevents an unrightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Benson, Smith & Co., Ltd., wholesale agents, sell it.

The terms of the agreement between the Boers and British have been made public and show that no concessions were made to the Boers.

## NEW YACHTING RECORD.

Pleasure Steamer Makes Over Forty Miles an Hour.

NEW YORK, September 6.—Charles R. Flint's steam yacht Arrow was speeded over a measured mile course on the Hudson river, off Irvington, today, and she made a nautical mile in one minute and thirty-two seconds. This is at the rate of 39.13 nautical miles an hour, or 45.06 statute miles an hour. These figures were given by Charles D. Mosher, the designer of the yacht, who also said that it was the fastest mile ever made by a steam vessel. The British torpedo boat Viper, which was lost last winter, traveled at the rate of 36.82 knots an hour.

## Wireless Signals to Italy.

## An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A lurch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed and I have never had any trouble of the kind since."

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be, The men who try that are simply fools and soon come to grief—as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as

WAMPOLE'S PREPARATION

is safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in Weakness and lack of Nervous Tone, Anemia, Scrofula, La Grippe, Lung Troubles and Impurities of the Blood. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfé, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to it's record and represents the science and knowledge of bright and aggressive medical investigation. Effective from the first dose. Sold by all chemists here.

## ROOT'S LAW PARTNER

### General Howard on His Way to the Orient.

General G. E. P. Howard, a passenger on the Hong Kong Maru en route to Hong Kong on a pleasure trip, was the law partner of Secretary of War Root, before the latter was called to the cabinet of President McKinley. The law office of Root & Howard was located in Orange, N. J., which is still General Howard's residence.

General Howard stated to an Advertiser reporter yesterday that he had been associated with Secretary Root in the practice of law for about twenty years and he feels the breaking up of their business relations very much.

"When the offer of the post of Secretary of War came to Mr. Root I was quite astounded. It seemed incredible that such an honor should come to our firm and naturally I thought it best to dissuade him. However, he accepted and I am glad to say that he is the man for the place. Mr. Root is a man of force, and very much like President Roosevelt in many respects. I do not suppose that the firm will ever again hang out its shingle, as Mr. Root will undoubtedly be a figure in national affairs for the remainder of his career. The Philippines question and the Cuban question are matters that need the attention of the best men, and Secretary Root has come in for his share of settling them."

"Am I on an official visit to the Orient? No, I am merely taking this trip with my wife for pleasure. We will go to Hong Kong and remain there a short time, returning by this same route to San Francisco. I had intended going to the Canadian Rockies when the Oriental trip was suggested."

### VISION CAUSED WIDOW TO ACT

Sold Property and is on Way to India to Do Mission Work.

A San Jose widow, Mrs. Alice E. Chapin, is a passenger on the Jap liner Hong Kong Maru. Behind this simple story there is a stranger one. Obedient to the behest of an alleged supernatural vision the lady disposed of all her property in San Jose and using the income to pay her expenses is journeying out to India where she will spend the remainder of her life in a conquest for Christianity.

She is a widow of middle age. She was reared, educated and married in San Jose. While her friends have wondered at her strange plans, the source of the power directing her was not known till she was ready to depart on the Hong Kong Maru. The vision came to her, she says, while she was engaged in her home duties. The spirit voice came in a manner not to be mistaken and commanded her to lay aside all other pursuits and give her life to missionary work. Bewildered but obedient to the spiritual leadership, she changed her property into money, procured passage and left San Francisco alone on the steamer Hong Kong Maru, into a new and unknown world with only funds to pay her expenses for a few months.

She goes independent of any missionary organization. Her friends on the Coast tried in vain to dissuade her from the purpose.

### Portuguese Political Row.

Warm politics in San Antonio hall on Tuesday evening caused a rumpus between the members of the Portuguese Republican Club and the Portuguese Political Club, in which chairs were up-lifted and an attempt made to bring one down upon the head of M. T. Furtado, president of the Republican Club by M. C. Pacheco, a lieutenant of Major Camara and chairman of the Portuguese Political Club. Pacheco was frustrated by A. G. Correa who caught the piece of furniture from behind the wicker. The result of the movement however, was to cause a dozen men to engage in a scuffle which was finally quieted by the counsel of cooler heads. Mr. Furtado, who with J. F. Durao and Mr. Freitas organized the Portuguese Republican Club, characterizes the disturbance as an effort on the part of the Portuguese Political Club to break up the Republican organization, and that the presence for that purpose of Major Camara and about thirty others of his followers was premeditated.

## Where to Buy Gruenhagen's Candies

MAY & CO. have just received a large supply of fresh ones including Chocolate Creams and Marshmallows.

Now take Marshmallows—everybody likes them, but you can't get them anywhere else in town this week, and even if you could get them elsewhere, Gruenhagen's Marshmallows are far superior to eastern makes, because they come from San Francisco and don't have a chance to dry out as is the case with eastern Marshmallows.

Telephone to us for any quantity. We will send them to you anywhere in the city on short notice.

## ERNEST KOPKE HOLDS RECORD

In Stockton, on September 9th, Ernest W. Kopke, a former Honolulu High School boy, lowered the American swimming record for 100 yards to one minute 1.5 seconds. Considering his age, young Kopke has made somewhat of a sensation in Coast swimming circles. Besides his latest feat in breaking an American record, he holds the California Academic one-half mile record, and also the diving championship of the Olympic Club in San Francisco. He is but seventeen years old and during the past year has given several exhibitions in company with the Cavill Bros. and Leary, all of whom are famous swimmers.

### Arrested on Serious Charge.

Upon a warrant sworn to by Joaquin Silva Melo, one M. S. Deponite was arrested yesterday on a charge of violating Section 177 of the Penal Laws, "For that he designedly by false pretense, and with intent to defraud, obtained from another, to wit, affiant, the sum of \$60, by then and there falsely representing to affiant that a certain promissory note for \$50 dated Honolulu, December 20, 1901, made payable four months after date to the order of Joaquin Silva Melo, signed by M. S. Deponite and endorsed by Maria J. Favares, was good and genuine according to its apparent purpose; whereas, in truth and in fact said M. S. Deponite at the time of making said representation well knew the same to be false in that the purported endorsement of said note by Maria J. Favares was false and fraudulent."

### Special Rate to Students of Music.

All music students wishing to attend the piano recital at Punahou College Friday afternoon will receive a special rate of one half the regular ticket. Mr. Morely has arranged a varied program, one that is sure to interest the student of the piano. Mr. Arthur Halm, the bass soloist who will assist Mr. Morley in this recital, is one of Australia's best basses. His voice is of wonderful range, and seemingly no end of power. This will be his first appearance in concert work and lovers of music should not miss this opportunity of hearing the greatest bass soloist that has favored us in years.

## SUGAR

San Francisco, Sept. 11, 1902.

Messrs. F. A. Schaefer & Co., Honolulu, H. T.

Dear Sirs:—We last addressed you by Circular, Sept. 3rd, per "Sonoma." Sugar—No changes have since occurred in the local market or for export, prices established March 5th still being in force.

Basin—No sales since last advice; accordingly, basis for 96 degrees Centrifugals in New York, established by transaction recorded 3rd inst., remains at 3.4375c; San Francisco, 3.0625c.

New York Refined—No change. Quotation 4.50c equivalent to 4.41c net cash, established June 19th, still prevails.

Federal Granulated, 4.40c net cash.

London Beets—Sept. 4th, 6th and 8th, 5s 11¼d; 8th, 6th, 5s 11¼d; 10th, 6s.

London Cable—Sept. 6th quotes Java No. 15 D. S. 7s 7½d; Fair Refining, 6s 6d; same date last year, 10s 3d and 3d respectively. October Beets, 6s 2¼d, against 8s 3d corresponding period last year.

Eastern and Foreign Markets—The Raw Sugar market is quiet for the moment, according to latest mail advices from New York, under date of the 6th inst., but with no sellers at less than basis of 3¼c for 96 degrees test Centrifugals. The improvement indicated in our last report has since been maintained, and the present firmness appears to be due in large measure to the healthy demand for Refined Sugar, rather than attributable to any influence from the foreign markets. The large stocks in Europe, however, must be reckoned with, and the consequential check on prices, should a continuance of present conditions result in Cane reaching the parity of Beets. Late accounts of the coming Beet crop have been more favorable, particularly from Germany and France, but nevertheless the present offerings of Beets are not on a large scale. In Java, as well as in Cuba, supplies are firmly held, and it is estimated that there are left in the latter country only 193,000 tons of Sugar, of which probably 50,000 tons will be shipped this month, and of the balance, a large proportion, it is thought, is held in speculators' hands.

Latest Statistical Position—Willett & Gray report Sept. 4th, U. S. four ports, in all hands, estimated Sept. 3rd, 155,651 tons, against 178,385 tons same date last year. Total stock in all principal countries by cable Sept. 4th at latest uneven dates, 1,982,651 tons, against 372,064 tons; increase over last year, 1,610,587 tons.

Yours faithfully,

WILLIAMS, DIMOND & CO.

## HAVEMEYER AFTER BEETS.

CHICAGO, September 5.—H. O. Havemeyer and his friends have acquired a controlling interest in no less than fourteen plants engaged in the manufacture of beet sugar. These plants have a capacity of 9000 tons of beets a day, as compared with a total consumption of 25,000 tons of beets a day in the entire country. This presents evidence of the strong foothold in the manufacture of beet sugar that has been obtained by the interests of the American Sugar Refining Company.

Eventually it is the intention to combine all of these plants into a single company, but there is no immediate prospect of this, as a number of plants were acquired with the understanding there should be no change in their present management for a period of five years.

The probability is that Havemeyer's first idea in entering the beet sugar field was to be in a position to fight the beet sugar people from their own stronghold, but it is believed now that these plants will be operated so as to relieve the American Sugar Refining Company of certain territory where the margin of profit between the cost and selling price is extremely small.

Another reason for the Havemeyer interests becoming identified with the beet sugar industry is the fear of competition in refined sugars. The American Sugar Refining Company depends upon Europe for a large part of its supply of raw sugar, and there is more and more a tendency on the part of producers on the other side to refine this sugar for export. There are 3000 companies producing raw sugar in Europe, and last year more than sixty concerns installed refining machinery. This year 189 companies have made a like move.

## SUGAR PLANTERS DISSATISFIED.

KINGSTON (Jamaica), September 7.—At a meeting yesterday afternoon of the representative sugar planters of Jamaica, resolutions were passed condemning Great Britain's neglect of the West Indies, resulting almost in ruin to the sugar industry, setting forth the total inadequacy of the measures proposed by Great Britain for the relief of her West Indian sugar planters, and calling for federation with Canada as the only means of relieving the fallen fortunes of Jamaica.

## BEETS INSTEAD OF WHEAT.

TACOMA (Wash.), September 8.—Several hundred farmers in Eastern Washington and Oregon are finding it more profitable to raise sugar beets than wheat. They are turning an increased acreage from wheat raising to beet culture with large profits in sight. These conditions prevail generally about Waverly in Spokane county, and La Grande, Umatilla county, where sugar-beet factories are in operation. Superintendent Akery of the La Grande sugar factory reports that there are 125 contracting growers in that valley this season as compared with fifty-eight last year. The average acreage tilled by the contractors is twenty-three and the average income per acre for this season's crop is estimated at \$38.50. The farmers are just beginning to pull the crop. They claim that beet raising is three times as profitable as wheat growing besides requiring less expensive machinery and apparatus to handle the crop.

## TO STUDY REFINING.

LOS ANGELES, September 10.—August Kruger of Dessau, dukedom of Anhalt, Germany, one of the largest sugar manufacturers of Germany, is in Los Angeles. Kruger is associated in the sugar industry with his father, who is a pioneer manufacturer of sugar in Germany. His visit to the United States is for the purpose of learning the methods in use here for the refining of sugar and

the machinery employed from the extracting stage to the placing of the product on the market. As California is considered on the Continent as the most important center in the United States for the manufacture of beet sugar, Kruger begins his inspection here, going first to Oxnard and then to Chino.

## ISENBERG RESIGNS

No Longer a Member of Board of Health.

## THE LEPEERS MAY HEAR POLITICS

Health Conditions in Orient Are Improving—Sheriff Coney and Dr. Goodhue.

Paul Isenberg severed his connection with the Board of Health yesterday after but a few months' service. His resignation was placed in the hands of Governor Dole yesterday morning, the reason given for the action being the nomination of Mr. Isenberg as Senator by the Republican party. As the statute provides against the holding of more than one office, Mr. Isenberg decided upon his retirement from the Board of Health. Gov. Dole accepted the resignation to take effect today, and is already looking about for a successor. It is reported that the office will be tendered to a Hawaiian.

Mr. Isenberg's resignation was read at yesterday's meeting of the Board of Health, the reason given there being "having accepted the nomination for senator upon the Republican ticket. I herewith tender my resignation to take effect September 18th."

President Sloggett expressed his regret at the necessity for the action saying that Mr. Isenberg had been of much assistance in the work of the Board, and his retirement was a cause for sorrow among the members. Mr. Isenberg replied briefly thanking the members for the assistance they had given him, and expressing regret also because of his retirement from the Board.

Upon motion of Mr. Dole the president was directed to send a formal acknowledgement of the resignation, expressing the feeling of the Board in regard to the matter.

## MAY TALK TO LEPEERS.

The Board of Health granted the request of the Republican Central Committee for permission to send speakers to Kalaupapa to talk to the lepers. It was conditioned that they should remain within the enclosure. Upon motion it was decided also that this privilege should not be limited to speakers of one political faith, but that upon request any party, Home Rule, Kuokoa or Democratic should be given like permission.

**ORIENTAL HEALTH CONDITIONS.**  
A report of health conditions in the Orient from Dr. Hobbie who is temporarily filling Dr. Coker's place was read and placed on file. Yokohama has had no case of contagious disease for the two weeks ending September 2; Kobe up to August 30th, eighteen cases of cholera with seven deaths; Nagasaki to August 28th, fifty-nine cases of cholera and eighteen deaths; Shanghai, ninety-two deaths from cholera and six deaths from small-pox; Hongkong, thirty-nine cases of cholera and thirty-one deaths; twenty-seven cases of plague and twenty-six deaths.

## OTHER MATTERS.

The appointment of John Foster and Henry H. Perry as sanitary inspectors was approved.

The semi-monthly report of Plumbing Inspector Keen was received and filed. Forty-four permits were issued and 121 inspections made during the two weeks ending September 15th.

## THE TROUBLE ON KAUALA.

Correspondence was read at the meeting between Sheriff Coney and Mr. Dole, and a letter written by Dr. Goodhue to Coney, concerning the leper at Lihue who it was alleged had been detained in jail after being pronounced clean. Sheriff Coney claimed that the only reason he had for holding the man was that no steamer had left Lihue for Honolulu, as the Ke Au Hou had refused to take him, and the Maakee and Waialeale had not called at Lihue. He denied the assertion that he had had the suspect examined by another physician but had taken the report of Goodhue as final. Dr. Goodhue in his letter to Coney reiterated the charges previously made to the Board. Upon motion of Mr. Dole the matter was dropped, it being shown that the differences between the two officials arose from a misunderstanding. Sheriff Coney and all other sheriffs have been notified that in the future where vessels do not call at ports where lepers are held, they should be sent to ports where such steamers do stop.

## PRESIDENT'S WIFE SNUBS BORIS

NEW YORK, September 4.—A special to the Sun from Oyster Bay says: Grand Duke Boris came over to Oyster Bay today from Newport to pay his respects to President Roosevelt. He had no opportunity to pay his respects to Mrs. Roosevelt. She absented herself because of the growing bad reputation of Prince Boris, who, at Chicago, drank wine from a chorus girl's slipper. The Woman's Christian Temperance Union has petitioned the President not to receive him.

## BE A MAN!

Arouse Yourself. Feel the Spark of Life in Your Nerves Recover the Vigor You Have Lost.

Would you not like to have your friends point to you as they used to and say, "There goes a strong man?" Do you not wish your eye to be so bright, your step so firm and your form so erect that men and women will admire you and remark at your manly bearing? These are the thoughts uppermost in the minds of modern men—physical and mental perfection, strength and power. Who does not like to be strong, to feel that he is equal in strength to any man of his age? You can be if you will obey the appeal here made to you.

Drugs have been tried and have failed. You know that. "Electricity is Life." It gives you the oil with which to set the machinery of your body in motion, and a few months' use of it will assure you health and happiness for the rest of your life. "It is worth its weight in gold to me," says a recent letter. "I would not sell it for all the gold in this State," writes another grateful patient. It will cure all Nervous and Organic Weakness, Rheumatism, Lame Back, Kidney and Bladder Troubles, Indigestion, Dyspepsia and all ailments following the effect of dissipation. It will prove of great value to any man who suffers from these ailments.

Call today and test it free, or send for my book with full description. I will send it closely sealed if you will inclose this ad.

### JAP HAS MANY PASSENGERS

Treasure and Big Cargo From the Coast by Hong Kong Maru.

The Jap liner Hong Kong Maru reached the Pacific Mail wharf at about six o'clock last evening from San Francisco, having on board mail and lay-over passengers for Honolulu, three thousand tons of general cargo for the Orient, and a half million dollars' worth of treasure in transit.

The vessel has about fifty cabin passengers for Oriental ports, and her list includes General G. E. P. Howard, formerly a law partner of Secretary of War Root, in New York city. His wife accompanies him and they are to make an extensive pleasure tour of the Orient. C. Schlessinger and wife and Mrs. Morris of San Francisco are bent on a pleasure trip to Hong Kong. Mr. and Mrs. Ambrose Swasey and Mr. and Mrs. C. Staley, Eastern society folks, will stop-over for a few weeks in Hawaii and then proceed on their tour around the world.

The Maru sails for the Orient at noon today.

### Navy After Transports.

WASHINGTON, September 8.—The Navy Department has decided, after all, to take over four Army transports. Assistant Secretary Darling said today that the department was negotiating for the transfer of the transports Lawton, Grant, Hancock and the hospital ship Relief.

### Sixty-Five Round Trips.

Captain Cutler, the veteran master of the barkentine Kikikat, which arrived from the Sound yesterday with a cargo of lumber, is now making his sixty-fifth round trip to Honolulu. The captain is a non-smoker, non-drinker and non-sweater.

### Brown's Troubles Ended.

Captain Brown has settled with his sailors by paying, it is said, about half what the men demanded. As the captain is now clear of the libel he can sail any time, and it is likely that he may go today.

### SHIPPING NOTES.

The Alameda arrived at the coast on schedule time.

The transport Buford reached San Francisco on Sept. 6th.

The bark Martha Davis sailed from San Francisco for Hilo on Sept. 4.

The schooner Solano sailed from Newcastle for Honolulu on Sept. 2.

The steamer Tampico arrived at Seattle on September 10th from Honolulu.

The French bark Montebello from Honolulu has arrived at San Francisco.

The ship William H. Smith sailed from Newcastle on August 4th for Honolulu.

The schooner Esther Buhne sailed from Gray's Harbor for Honolulu on Sept. 6.

The barkentine Planter sailed from San Francisco for Honolulu on September 10th.

The bark Mohican sailed from San Francisco on Sept. 7 with a general cargo for Honolulu.

The British ship Claverdon is out about 210 days on a voyage from Hamburg to San Francisco.

The schooner Robert R. Hind from Elele for Port Townsend arrived at her destination on Sept. 5.

The barkentine S. G. Wilder arrived at San Francisco on September 10 after a twenty-three day trip from Honolulu.

The smoking room of the Jap liner Hongkong Maru has been enlarged and other improvements made in the passenger accommodations of the vessel.

Lieut. Winchell in his report of the trial trip of the oil burner Mariposa to Tahiti says it was remarkable in many respects. He declares the new fuel to be a success.

Believing that his vessel was thirty miles off land Captain Flicheux allowed the French bark Marguerite Molinos to butt into the jagged rocks that fringe the North Farrallone island. The vessel escaped injury in a marvelous manner.

Freight Clerk Roberts of the Hongkong Maru left the vessel at San Francisco to await the America Maru, to which he has been assigned as purser. His promotion strikes a popular chord in the Jap liner service. Mr. Burton, formerly of the Panama run, succeeds him.

The training ship Mohican is now at San Francisco and her arrival there will cause the Adams to hurry out for a similar cruise to the one that the Mohican has taken with the exception that she is to call at Wake Island and the Midway group in addition to Hawaii and other points.

Seamen's Institute Entertainment.

An entertainment is to be given at the Seamen's Institute tonight under the management of J. F. Kelly to provide amusement for the seamen on ships at present in the harbor. Music, recitations, club-swinging, sleight-of-hand performances, etc., will be the order of the evening and a very enjoyable time is anticipated. Admission will be free.

Siberia's Trial Trip.

The new steamship Siberia, sister ship to the Korea, had her trial trip at Newport News on September 11. She made a maximum speed of twenty-one knots. She made a run of 360 miles in twenty-four hours. The Siberia starts from the East for the Pacific next week.

Largest Steamer in the World.

The White Star steamer Cedric, the largest steamer in the world, has been launched. It is 700 feet in length, with a breadth of 75 feet and depth of 49 feet, and has a gross tonnage of 20,970. The big steamer has accommodations for 2900 passengers.

Steamer Cottage City Wrecked.

The steamer Cottage City of the Pacific Coast Steamship Company went ashore at Etelin island. The steamer may be saved. Her passengers and crew were saved by the steamer Spokane.

Honolulu Bound Vessel Damaged.

The French bark Duchesse de Barry, bound to Honolulu, has put into Cape-town damaged and with her cargo shifted.

Ship Arthur Sewall Arrived.

The ship Arthur Sewall, loaded with sugar from Honolulu, arrived at Delaware Breakwater on September 9th.

### "YOU MIGHT BURN IT UP"

Overton's Reception to Letter From U. S. Attorney Breckons.

A sailor named Morgan called upon United States Attorney Breckons Tuesday afternoon and complained that J. E. Overton, proprietor of a boarding house in Nuuanu street, known as the "White House," was detaining his clothing for debt. As United States law provides that a sailor's clothing cannot be detained for debt, Mr. Breckons wrote a letter to Overton informing him that he was liable to a penalty of \$100 for detaining Morgan's clothes and that he should turn them over to the sailor. Mr. Breckons also asked the sailor to take the letter to Overton.

Morgan had shipped as a sailor on the schooner Golden Shore and wanted his clothes to make the trip. He says that he owes Overton ten dollars for room rent but that he had agreed to send him the money as soon as the Golden Shore got up to the Sound. He has been in Honolulu since leaving the transport Egbert in March, and during most of the time has been employed on inter-island steamers.

When Morgan went up to the "White House" to deliver the letter he took another sailor with him.

"I've got a letter for you from the United States Attorney," Morgan says he told Overton.

"Take it away. I don't want it," Overton is alleged to have said.

Morgan asked for his clothing and told Overton that the letter was from Mr. Breckons and was important, but he says Overton's only reply was:

"You better be taking it back where you got it. You might burn it up."

On Wednesday morning Mr. Breckons sent U. S. Marshal Hendry up to the "White House" with another letter. Overton called on the U. S. Attorney during the afternoon. The sailor was present. The boarding house man made considerable bluster, but after the law had been pointed out to him he turned on the sailor saying: "Go on then—Git and Git your clothes." The case was not further proceeded against.

## POI IS NOT PROFITABLE

## Food Commissioner Makes Monthly Report.

Poi is so expensive that many restaurants have found it unprofitable to longer serve the Hawaiian dainty according to the report of Food Commissioner Shore to the Board of Health yesterday. What poi has been examined was found to be unadulterated, tests being made of samples from every poi shop in the city.

The food commissioner reports also upon the presence of saccharin in lemon soda and upon tests made with cider and chocolate.

In his report the commissioner says: The analyses of milk samples found below standard from sources as stated are as follows:

	Total Butter Solids.	Fat.
F. Correa	11.1	2.6
Oliveras	11.9	3.0
Fujioka	10.9	2.8
S. Nobriga	11.0	3.4
Marques	10.4	2.7
V. Souza	10.4	2.6
V. Souza	10.7	2.8
V. Souza	10.8	2.8
Honolulu Hotel	11.1	3.4
Yee Chong restaurant	10.7	3.4

One sample taken at dairy direct from one cow claimed to be a poor one gave on analysis total solids 11.6 and butter fat 3.1 per cent.

Eight samples of poi obtained from restaurants were examined and no evidence of adulteration obtained. Many restaurants formerly serving poi do so no longer, it being claimed that it is so expensive that they can no longer serve it in the quantity and at the price their patrons expect. The figures obtained from the samples examined were as follows:

	Moisture.	Solids.	Ash.
No. 1	83.50	18.50	0.285
No. 2	84.20	15.80	0.277
No. 3	84.25	15.75	0.290
No. 4	83.80	18.20	0.301
No. 5	82.74	17.26	0.310
No. 6	82.85	17.15	0.299
No. 7	83.08	16.92	0.289
No. 8	83.20	16.80	0.300

Four samples of lemon soda of the brands most commonly found in Chinese and Japanese stores were examined for the presence of saccharin. One sample only was found to contain this substance, viz., that from Hawaiian Soda Works. The amounts of cane sugar present were found to be as follows:

No. 1, cane sugar, 5.4 per cent; no saccharin.  
No. 2, cane sugar, 5.8 per cent; no saccharin.  
No. 3, cane sugar, 3.6 per cent; saccharin present.  
No. 4, cane sugar, 5.6 per cent; no saccharin.

I have reported saccharin, when used as it is in soda water, as an adulterant, on the ground that it is an inferior substitute for sugar. The fact that saccharin is not a food, and has no virtue except its sweet taste, cannot be questioned; and I hold that when the average man who knows nothing about chemicals or sugar substitutes partakes of a drink which tastes sweet, he takes it for granted, and is entitled to take it for granted, that it is sweetened with sugar. In other words if he buys a drink which he thinks contains sugar which has a food value and obtains one in which the sugar has been wholly or in part substituted by saccharin, which has no food value, he buys an adulterated article. See Art. 34 S. L. 1898, Sec. 3 b (2).

A sample of cider submitted by the High Sheriff was found to be preserved with salicylic acid, and to contain 0.6 per cent alcohol. This article was labelled "Carbonated Sweet Cider, S. R. & C. J. Mett, New York."

One sample of chocolate was examined and no adulteration found.

Respectfully,  
E. C. SHOREY,  
Food Commissioner.

## MORE CITIZENS ARE SUBPOENAED

Sergeant-at-Arms pro tem Brown of the Senatorial Commission did not go to Hilo yesterday with the Commission, but was left behind to subpoena a number of persons to appear before that body on its return from the big Island next week. The list comprises the names of twenty-eight citizens, as follows: Henry E. Cooper, Fred Wundenberg, F. W. McChesney, C. Bolte, Andrew Brown, Henry Waterhouse, William O. Smith, Theo. F. Lansing, L. A. Thurston, John Emmelhuth, Wm. R. Castle, J. A. McDaniel, S. B. Dole, S. M. Damon, J. O. Carter, Samuel Parker, Chas. B. Wilson, John E. Bush, Robert L. Wilcox, David Kawanakoa, Jonah Kalamianakole, Charles L. Hopkins, J. L. Kaulukou, Lot K. C. Lane, L. K. Prendergast, John A. Cummins, John F. Colburn, Abraham Fernandez.

The Commission will convene in Honolulu again on Monday morning next.

Russia Pressing Turkey.

CONSTANTINOPLE, September 7.—Russia has refused to accept the declaration of the Porte to allow four unarmed Russian torpedo boats to pass through the Dardanelles under a commercial flag, and has addressed a note to the Turkish authorities insisting that the boats be allowed to go through. The Porte, it is expected, will appeal to the powers.

**Trouble in Mindanao.**  
MANILA, September 7.—Captain Herisching, in command of the American force at Camp Vicars, Mindanao, reports that several of the Moro chiefs whose followers have attacked American soldiers have rejected all friendly overtures and that he has been unable to reach any understanding with them. This action probably will bring on a crisis in the Moro situation.

It is believed in Manila that a renewal of Moro attacks will result in retaliation by the American forces.

## A CITIZEN'S STORY

Told by a Honolulu Citizen for the Benefit of Honolulu People.

The greatest importance attached to the following is that it concerns a Honolulu citizen. It would lose three-quarters of its interest if it involved some resident of Kalamazoo, Mich., or Woonsocket, R. I. Like all the testimony which has appeared here, and like all which will follow about the Old Quaker remedy, Doan's Backache Kidney Pills, it comes from residents, fellow citizens and neighbors. No other remedy can show such a record of home cures. Read this case:

Mrs. Emma Vieira, of King street, this city, says: "For three or four years I had the misfortune to be afflicted with an aching back. The pain and discomfort this entailed on me can be better imagined than described. I have two children, and it was of course difficult for me to attend to them while oppressed with suffering. The way in which I found relief eventually was by using Doan's Backache Kidney Pills, procured at the Hollister Drug Co.'s store. They did me a large amount of good, as I now testify. I should certainly recommend those who have backache or any other form of kidney trouble to try Doan's Backache Kidney Pills."

Doan's Backache Kidney Pills are for sale by all dealers. Price 50 cents per box (six boxes \$2.50). Mailed on receipt of price by the Hollister Drug Co., Ltd., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's, and take no other.
