PRICE FIVE CENTS

MACHINE IS CROWDING OUT THE BEST MEN

A Trick to Disqualify Dillingham, Hughes and Rawlins Played by Booth and Boyd at Fourth District Caucus.

The meeting of precinct representatives at the Bungalow last night was not especially marked for its activity. At the hour set for the opening, there was not a baker's dozen in the room and they were speaking to each other in whispers. Mr. Lillikalani was at once the most conspicuous figure in front of the chairman. The chief of the walking delegates discussed important primary measures with Jimmy Boyd and David Kalauokalani in the rear of the room for twenty minutes prior to the moment when the chairman, Col. Jones, rapped for attention. A. D. Castro officiated as secretary.

The chair said he would officiate only until Mr. Harris had spoken upon several subjects. He said that as the scheme is now presented there is to be a ballot printed for voting purposes in the convention. Committees are here instructed by their delegations. The precincts, he believed, would favor the ballot proposition. He suggested a roll call and asked expression from delegates. J. H. Boyd from the First Precinct said he had seen nearly all of the delegates and they are of the opinion that secret ballots would be the most satisfactory. Nominations could be made and the convention adjourn so the printers could print the ballots. Each precinct could come to the meeting, get the ballots and go to the booth and mark them. This would avoid any suggestion of coercion.

C. S. Crane, from the Second said, he believed in the plan as proposed the other night. He had not seen all delegates but believed they would come instructed to vote in that way.

C. W. Booth, from the Third said, his 21 delegates had voted unanimously, approving the ticket scheme and secret ballot, returning them to the judges who would deposit them in the ballot box.

J. M. Gorman from the Fourth approved for his precinct.

Mr. Phillips from the Fifth said his delegates approved the Harris form of balloting as outlined by Mr. Boyd and others.

W. F. Drake from the Sixth said he had not seen all of the members of the delegation but felt safe in saying the scheme would be adopted.

The Seventh Precinct was not represented. Mr. Boyd, however, said a delegate from that precinct favored secret balloting.

Mr. Ziegler from the Eighth was of the same opinion.

Mr. Du Costa of the Ninth, approved the Harris scheme.

Mr. Buffandeau from the Tenth said his precinct had caucused and approved the Harris scheme with the addition that the tickets be printed.

The chair said the idea of printing the ballots was merely for the purpose of saving time. There had been statements made that this plan would require so much of it, but he believed this is a mistake.

Mr. Harris said that the matter of time in the convention is an important one. The printed ballot should contain names, but whether they shall contain all of the candidates for different offices, is a detail for future consideration. The first ballot might be a general one and afterwards a secret ballot might be taken "but as I have said these are matters of detail into which I have not gone. It was unfortunate that the affair last night was not satisfactory in result; it might have settled this matter. I believe if the convention adjourns for a half hour, the ballots may be printed and I have no objection to having a booth—if a man wants to vote secretly. It is for him to insist upon it. When the convention is called to order it will meet as a whole and any nominations that convention has to make will be made at that time and afterward the convention will subdivide into districts with a chairman for each. This would require tickets, one for the convention general, one for the Fourth and Fifth Districts. There might also be one for the city of Honolulu." Mr. Harris then put the following motion.

THE SECRET BALLOT.
"It is the sense of this caucus that the convention to meet on Friday, adopt a method of a secret ballot, the convention as a whole nominating all candidates for which the convention as a whole should nominate; that the nomination of representatives from the Fourth and Fifth Districts be on

a separate ballot; that the nomination for Supervisors and Deputy Sheriff for the district of Honolulu be on a separate ballot; that the Supervisors and Deputy Sheriffs nominated for the district of Koolau and Koolauloa, the district of Waialua and Waianae and the district of Ewa be announced to the convention after the caucus of the delegates from those districts; and further that the necessary voting booths be provided." This carried unanimously.

The chair said:
"A suggestion has been made that a committee from the Fourth District consult with a like person from the Fifth, relative to a ballot and the selection of a printing office so that the ticket may be set up in type and be ready for any additions which may be made. Mr. Harris, as the chairman of the caucus, might consult with some one from the Fifth."

Mr. Ziegler asked for instructions relative to booths; he is a committee of one in charge of the hall preparation and he wanted to know whether to build twenty booths or six.

The chair said this meeting cannot do that, it is a matter that cannot be put upon the convention until the details are finally agreed upon. When this is done orders for payment of bills could be issued.

Mr. Boyd said that so far as the First Precinct is concerned the scheme for voting is satisfactory. He believed representatives from the Fourth should meet those from the Fifth and caucus the matter. It is impossible to say whether all of this will be agreeable to the Fifth.

Harris said he had been notified by representatives of the Fifth of a desire on their part to meet a committee from the Fourth to arrange for the permanent organization in the convention. Thought it would be a good thing for the representatives of the Fourth to see those from the Fifth and say what has been done here tonight.

SPEECHES AND OFFICES.

Other matters for consideration were the time limit on speeches and the order in which offices shall be named so the names may be properly placed on the tickets. Rules are the final matter and one which should have careful attention and consideration.

Mr. Harris moved that it is the sense of this meeting that no person shall have the privilege of the floor for more than five minutes. Carried.

Some gentlemen moved that Senators be nominated first and that the names be arranged on the ballots in alphabetical order. Carried.

Mr. Ziegler moved that the office of Supervisor-at-Large be the second nomination. Seconded and carried.

Mr. Harris moved that the office of County Sheriff be the next in order of nomination, and that the County Clerk be the next. This is to be followed in regular order by County Attorney, County Treasurer, County Auditor. These were made as regular motions and carried. The names of these officers will be on one ballot.

Mr. Buffandeau moved that the Supervisors and Deputy Sheriff be the next nominations, and that they be on a separate ticket. Carried.

The convention will then divide into districts and nominations be made.

C. W. Booth moved the following:
That a candidate who is not present in the convention to sign a pledge to abide by the action of the convention and support the ticket be not given a nomination.

J. H. Boyd offered this amendment:
Any nominee shall take oath that he is not allied to any political organization, other than the Republican party, having a platform.

The motion as amended then carried. Obviously this is aimed at Walter Dillingham and W. T. Rawlins who will not attend the convention and John Hughes who had the backing of the Civic Federation last year.

Mr. Harris moved that the chair appoint a committee of three from this caucus to confer with a committee from the Fifth. Carried. Mr. Jones said the committee should be named by Mr. Harris and that he should be included as a member.

Mr. Buffandeau wanted each man present to see that the voters in his district be registered. Mr. Jones said the press could be depended upon to help out on that and Mr. Boyd said an occasional local would aid.

Mr. Harris wanted a meeting of this caucus at five o'clock Wednesday and when put as a motion carried. Jim Gorman wanted a general gathering in the evening.

(Continued on page 7).

MILK MAY BE TO BLAME

Epidemic of Sickness in Section of the City.

An unusual amount of sickness at the stomach among residents in the section above Bereitania street between Fort and Punchbowl has caused an investigation to be made by the Board of Health as to the cause. At first it was attributed to water, but is now believed to be due to the milk delivered by certain dairymen in that section. Samples of the milk have been sent to the Board of Health for analysis.

At St. Andrew's Priory seven out of nine teachers were yesterday taken with violent vomiting. None of the scholars was affected, however. They drank filtered water. Two of the teachers who were not taken ill, had drunk no milk. Those who were ill had drunk milk. None of the boys at the Iolani College has been ill. They drank filtered and boiled water, and generally use condensed milk. The drinking water supply for the use of the students is carefully looked after at all times.

Several boarding houses in that same section have had similar cases of sickness among the boarders in the last few days.

Dr. J. T. McDonald, bacteriologist of the Board of Health says that some hold to the idea that the illness comes from the drinking of water, but he does not believe it is the city water.

ATKINSON MAY ENTER FIELD OF FINANCE

Secretary of the Territory Atkinson, who left for the mainland yesterday on the steamship China on a two months' leave of absence, will celebrate his birthday at sea today. It is one of the most important birthdays of his life, for he becomes thirty-five years of age, and that age makes him eligible now to become a governor.

There was some talk yesterday that the Secretary contemplated resigning from office in the near future, and that he might take up some work on the mainland. There is a strong probability that he may do so. It has been known here for some time that the Secretary was offered last year a position with a large New York financial concern to look after their investments in Cuba, Porto Rico, Mexico, Hawaii and other places. His work would be merely to watch the trend of the investments and to make reports on their soundness. The salary attached to this position is said to be quite flattering.

On the strength of the rumor of the Secretary's resignation it is said that aspirants for the secretaryship are cropping up. Whoever the appointee may be he would probably be one acceptable to Governor Carter.

The Secretary had a fine floral send-off.

SHIP GOES THROUGH NORTHWEST PASSAGE

NEW YORK, September 3.—A cable to the Sun from Christiania says: The Norwegian polar expedition on the ship Gjoa has reached Bering Straits, having thus accomplished the Northwest passage. The arrival of Captain Amundsen of the Gjoa at Fort Egbert, Alaska, overland from King Point near the mouth of the Mackenzie river, was reported last December and it was stated that Amundsen said he had located the true magnetic pole on King William Island and found the monument erected by the Franklin expedition.

He had brought his little ship from Norway via Gochaven, Greenland, Leopold Harbor, North Somerset and King William Island to the mouth of the Mackenzie river, thus making the Northwest passage. Amundsen came over the ice to Fort Egbert and intended to return, make further magnetic observations along the coast, pass the winter at the mouth of the Mackenzie and make his way to the Pacific when warm weather set in, as he seems to have done.

A SURVEY OF WATER

Federal Investigation Is the Hope of the Governor.

Governor Carter has not been idle in the matter of surface and underground water supply in the survey of the Hawaiian Islands, since he gave utterance to this policy at the opening of the Wainiha power plant on Kauai several weeks since. The Governor wrote to the Department of Geological Survey to urge a federal investigation of the local water supply.

Mr. Newell, chief engineer of the department of Reclamation Service, replied to the Governor, and suggested that perhaps the Territory of Hawaii could use the proceeds of the sales of public lands. Governor Carter states that this fund is too small, even the whole amount realized since annexation, to make such a survey. The revenues from the public lands, leases, etc., are necessary to the taking up of the bonded indebtedness of the Territory, and other expenses. There is no sinking fund in the Territorial government with which such a survey could be made. The Governor is hopeful, however, that such a fund may be authorized by the coming legislature.

The Governor will reply to Mr. Newell to state, also, that the Hawaiian Islands are a part of the United States, and that whatever fund may be set aside by Congress for water surveys in the United States is applicable to Hawaii as much as to Arizona or New York State. The Governor will probably ask the coming legislature to appropriate at least a small amount for preliminary work to be made in conjunction with any fund made available by the next Congress.

Governor Carter foresees a vast value to the islands to have such a survey made, especially by experts of the United States. The methods of water surveys are very accurate. In various sections where such surveys have been made the experts have been able to point out danger, for instance, from continuing artesian well pumping. In some cases where the warning was disregarded the artesian supply in these places was exhausted and it is reported in official papers to the departments at Washington, that years and years will be required before the supply will again be available. This is only an instance of the value of the water survey. Mr. Newell's letter is as follows:

Washington, D. C., Aug. 28, 1906.
Hon. G. R. Carter, Governor of Hawaii, Honolulu, Hawaii.

Dear Sir: Your letter of August 9 to Mr. Walcott has been referred to me. He is now in Utah, but I will probably see him in Idaho in a few days. Without waiting, however, to discuss details with him, I will take the liberty of making some suggestions.

The Hydrographic Branch of the Geological Survey has been making measurements of surface streams and also investigating the extent and character of underground waters in the United States. I have personally desired to extend the work to the Hawaiian Islands, and have taken the liberty of publishing more or less about the water resources of these islands whenever facts were available. I am impressed with the great opportunities for the development of power and of irrigation, and the necessity of the government of the islands keeping such control of the water resources as will enable the largest possible development.

We have had \$200,000 a year to make these investigations. The last Congress, however, through a desire to economize, cut the appropriation to \$150,000. It is hoped that the amount will be restored to \$200,000, and I should be glad to see an authorization permitting us to do work in the Hawaiian Islands. The present appropriation is contained in the Act appropriating for sundry civil expenses of the government, under the head of the Geological Survey, and is as follows: "For gauging the streams and determining the water supply of the United States, and the investigation of underground waters, including artesian wells, and the preparation of reports upon the best methods of utilizing the water resources, etc."

An amendment might be made by inserting the words "including the Hawaiian Islands" after the words, "United States."

It occurs to me as entirely proper for you officially to urge the Secretary of the Interior to recommend that this amendment in current legislation be made and to follow up this matter in Congress. The regular course of procedure would be for the Secretary to make a recommendation and for your Delegate and other citizens to urge Congress that the recommendation be adopted.

Even with our diminished appropriation I believe that some work could be done in the islands, and if we succeed in getting a larger appropriation, it would then be practicable to enter systematically upon the investigations.

As you are doubtless aware, there has grown out of the investigations of the Geological Survey the actual construction of large works for re-

ONE THOUSAND POLES HAVE BEEN ARRESTED

A Reign of Terror in Russia--Earthquakes in Mexico--Palma Is Firm--Anti-Foreign Spirit in China.

(Associated Press Cablegrams.)

WARSAW, September 12.—One thousand terrorists have been arrested including children.

THE BUTCHER BILL.

SIEDLCE, September 12.—The massacres have ceased. There were 140 killed and 27 houses burned.

MURDERS AND ROBBERIES.

KRASSNAYARSK, Siberia, September 12.—The corruption of officials here renders the peasants susceptible to agitators. Murders and robberies occur daily.

INDICTMENT OF BANKER PAUL O. STENSLAND

CHICAGO, September 12.—Paul O. Stensland has been indicted.

The recent failure of the Milwaukee Avenue State Bank, of Chicago, provided the public with an unusually exciting midsummer sensation. It was alleged that investigation had disclosed that the collapse of the institution was due to embezzlements aggregating as high as \$1,000,000. The president of the bank, Paul O. Stensland, disappeared, his vice president and its cashier were put under arrest, and its paying-teller committed suicide. Several other concerns were disastrously affected by the fall of this large financial establishment. The mysterious absence of President Stensland, and the theories propounded to account for it, formed a sensational feature of the case. It was variously reported that traces of him had been found near our frontiers and that he was dead. Stories averring that he had led an extravagant life were circulated. The fact that the bank was ruined and that thousands of persons had suffered loss through the bad management of its officials could not be denied, and as the head of the institution, the chief responsibility and the greater share of the blame rested on the missing president.

RENEWED BOXER SPIRIT.

WASHINGTON, September 12.—Anti-foreign feeling is growing in China and it includes all except Japanese. Many large enterprises are endangered.

THE TROUBLES OF PERSIA.

TEHERAN, September 12.—The Shah has signed the decree reforming the Clergy and has dismissed his vizier, ending the agitation.

GUAYAQUIL, September 12.—The volcano at Tunguragha has become active. Four earthquakes have occurred in its vicinity.

THE CUBAN WAR.

HAVANA, September 12.—The government will prosecute the war to a finish.

TO PULL SHERIDAN AND MANCHURIA

With the arrival of Superintendent Donnelly, of the transport service, and his corps of assistants this morning on the transport Thomas from San Francisco the real work of refloating the stranded Sheridan will begin. The party will be taken down to the wreck this morning and make an inspection of the vessel, from which everything in the way of cargo has been removed, after which they will return to Honolulu to receive the wrecking gear to be brought down on the transport Buford, due tomorrow.

This gear consists of powerful pumps and hawsers, the idea of Superintendent Donnelly, so far as known, being to float the Sheridan with air tanks in the pierced compartments, which will prevent her from foundering when free from the rocks, and to pull her from her position with all the available power.

Provided the hopes of the wrecking crews at the Manchuria are fulfilled the vessels there, the Restorer, Pacific, Manning and Iroquois, will be available for the rescue of the Sheridan, and it is altogether likely that the Fear-

less will be at work with them in both cases.

It is not yet definitely known what are the orders of the two coming transports, Thomas and Buford, whether they will remain here for any length of time or whether the one will continue at once on her regular run for the Orient and the other return with the Sheridan passengers at once for the Coast.

At the Manchuria the big pull will be done on Thursday or Friday. The revenue cutter Manning is now at the wreck and the Iroquois will sail for there this afternoon at 3 o'clock. All her cargo has now been taken out and her coal supply, some 2000 tons, piled up on the upper deck in readiness to be jettisoned if deemed necessary. All the anchors will be in place by tonight.

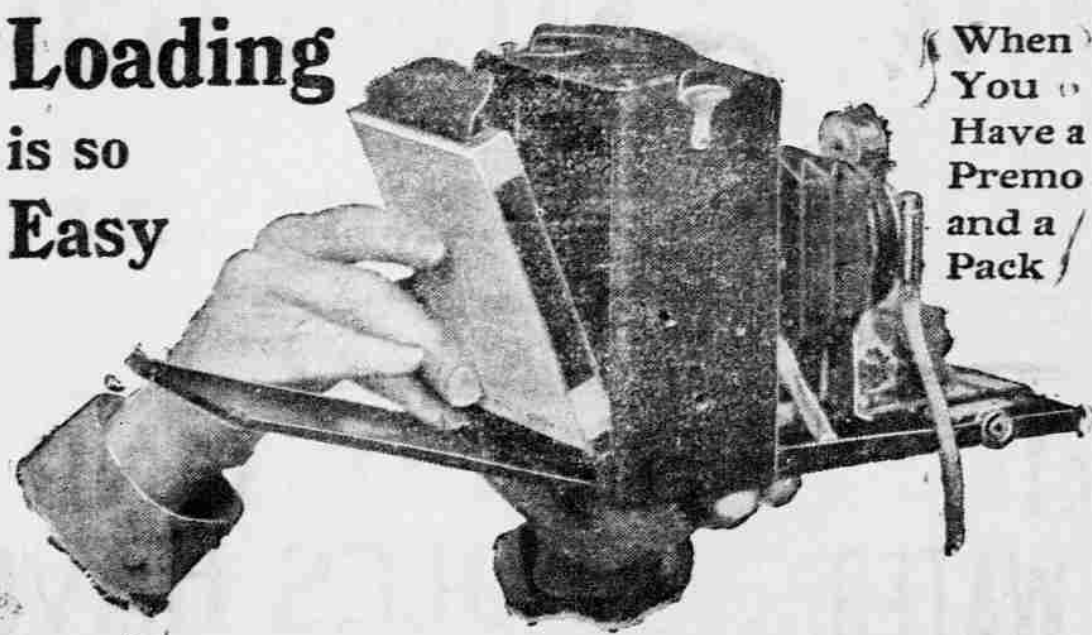

Locally the greatest confidence is expressed by those in charge of the work that the big liner will be dragged back into deep water on this attempt, but the advice sent from here and given out by the officials and underwriters on the mainland are by no means so optimistic.

TRANSPORT REPORTED.

The transport Thomas was reported off Diamond Head at 2 o'clock this morning.

The news of Gans victory over Nelson precipitated a riot in Chicago between blacks and whites, in which a thousand men and women took part. Forty arrests were made and four of the rioters are in the hospital seriously injured.

TWO MORE GOVERNORS

**Praise Our Pineapples
--Spokane Man Also
Testifies.**

Now the governors of Washington and Idaho have been heard from, in addition to the governors of Colorado and Montana previously reported, and their testimony as to the quality and condition of Hawaiian fresh pineapples sent to them is golden. The chairman of the Publicity Committee of the Spokane Chamber of Commerce also contributes a similar testimonial in the same regard, as will be seen below.

Governor Mead of Washington reveals himself as a sensible husband when, confining his note to an acknowledgment of the gift and a promise of publicity, he commissions his wife to testify to the condition and flavor of the fruit as received and duly tested in the eating.

The several letters are here printed:

State of Washington.
Executive Department.
Olympia.

August 24, 1906.

Dear Sir: In reply to your letter of July 26, I beg to say that I received in due time the crate of fruit referred to in your letter. I enclose a letter from Mrs. Mead concerning the condition of the fruit, etc.

I desire to thank you very kindly for this courtesy, and shall take advantage of the opportunity offered to give this matter publicity through the public press concerning the quality of the fruit and the nature of your work in our newly added possessions.

Thanking you again, I remain, very truly yours,

ALBERT E. MEAD,
Governor of Washington.
Mr. Jared G. Smith, U. S. Department
of Agriculture, Experiment Station,
Honolulu, Hawaii.

Olympia, Wash., August 23.

Mr. Jared G. Smith, Honolulu.

Dear Sir: We received a crate of pineapples from you a few days ago, for which accept our thanks. The fruit reached us in the finest possible condition and was of most excellent quality and flavor—in fact, far superior to any pineapples we had ever eaten. They are a favorite fruit with us and we enjoyed them greatly.

Again thanking you and assuring you that your favor was much appreciated, I remain, most sincerely,

MRS. A. E. MEAD.

711 West 4th.

State of Idaho,
Executive Office.

Boise, Idaho, August 31, 1906.

Jared G. Smith, Special Agent Hawaii
Experiment Station, U. S. Department
of Agriculture, Honolulu, Hawaii.

My Dear Sir: Your crate of fruit which you very kindly sent me was received about two days ago in the very finest possible condition. I want to thank you and the Hawaii Promotion Committee for your kindness, and to assure you that if you are able to deliver as fine fruit as this, that there should be no difficulty in securing a market throughout the United States for your product.

I have the honor to remain, yours very truly,

F. R. GOODING,
Governor.

Offices Exchange Bank Building.
Spokane, Wash., August 24, 1906.

Mr. Jared G. Smith, U. S. Department
of Agriculture, Honolulu, Hawaii.

Dear Sir: I am the recipient of your twofold compliment—your letter of July 26 and the crate of pineapples received by express the day before—and assure you that I accept the compliments of the Hawaii Experiment Station and the Hawaii Promotion Committee very gratefully.

The pineapples were received in perfect condition, there not being a single blemish anywhere on any of them. It was my pleasure to eat one of them, and to distribute the other five among the members of my committee, all of whom gave high praise to the delicious taste and flavor of the fruit. I, personally, have no hesitancy in stating that these features of the fruit, as well as that of size, exceed those of the fruit that we are used to receive here from Southern California, Mexico and Florida, and there should be no reason why the Hawaiian Islands should not command this trade with this north-

western section of the United States. If I can, in any way, aid you in this your most laudable undertaking to promote the agricultural business of the islands, command me. We of the Northwest, and in particular of Spokane and its tributary "inland empire," are undertaking to give to the world, in a most truthful way, the story of the agricultural and other natural resources of this country, and are prosecuting successfully that feature of our commercial endeavor, and it would afford me, as chairman of our committee (a working body along this line), pleasure to forward you from time to time such literature bearing upon the country as we may be authors of, and hope that same will be of interest to you.

We cannot produce pineapples here, or bananas, but we do produce a pear, an apple, a peach and grapes, which are unsurpassed in quality in the world. Again thanking you for your courtesy, and accepting your compliment in the fulness of its intent, I remain in all sincerity, very truly yours,

G. B. DENNIS,
Chairman, Publicity Committee, Chamber
of Commerce.

P. S.—I am sending you a copy of the
Spokesman-Review of the 20th inst.

ANNOUNCEMENT

Our Mr. A. Blom returned in the Korea, Monday, September 10, from a buying trip to the mainland.

Many of his personal selections in dry goods and fancies came in the same steamer.

There will be some excellent opportunities to get up-to-date goods at low prices and you should pay us an early visit.

marked. I regret very much indeed that a more extended mention of your shipment was not made in the paper. This happened, not because the journal did not appreciate the courtesy, but because it had unfortunately been relegated to an attaché who did not understand the matter. I, however, will at a near date in the future make it possible to have published a more concrete notice, and will at that time send you a marked paper.

INFANT MORTALITY.

The attention of the Town Council at Johannesburg, Transvaal, was last year directed to the fact that out of eighty-four infants who died in December, forty-four of them had died of dysentery. An investigation with a view of tracing the source of the disease was authorized. Under the best of conditions attacks of dysentery are very prevalent among children in warm weather, but in a large majority of cases the lives of the little ones can be saved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy always brings prompt relief, and has never been known to fail. For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

THE LEONARD IS BEST

WE CAN PROVE IT.

Leonard Cleanable Refrigerators are built with eight walls, each wall as follows: outside is wood, then dead air space, then a layer of parchment sheathing, then a layer of mineral wool, then a waterproof sheathing and finally the inside zinc wall. Air cannot possibly pass through these barriers and the air within is dry and pure. The doors are airtight.

The ice is protected from outside heat and cannot melt rapidly.

Take a match and leave it in the Leonard all night, then strike it. This is the test for dampness. Very few refrigerators can stand it. The Leonard is dry and keeps food pure and fresh.

The Leonard Cleanable Refrigerator is easiest in the world to clean. The inside parts are made to be removed and you can get into every corner. The circulation of air is founded on the latest scientific principles.

It is economical because it saves ice and is strongly constructed. We guarantee satisfaction in every one we sell.

HARDWARE DEPT.

PEOPLE'S HOLIDAY

Regatta Day Will Be an
Event of Undiluted
Joy.

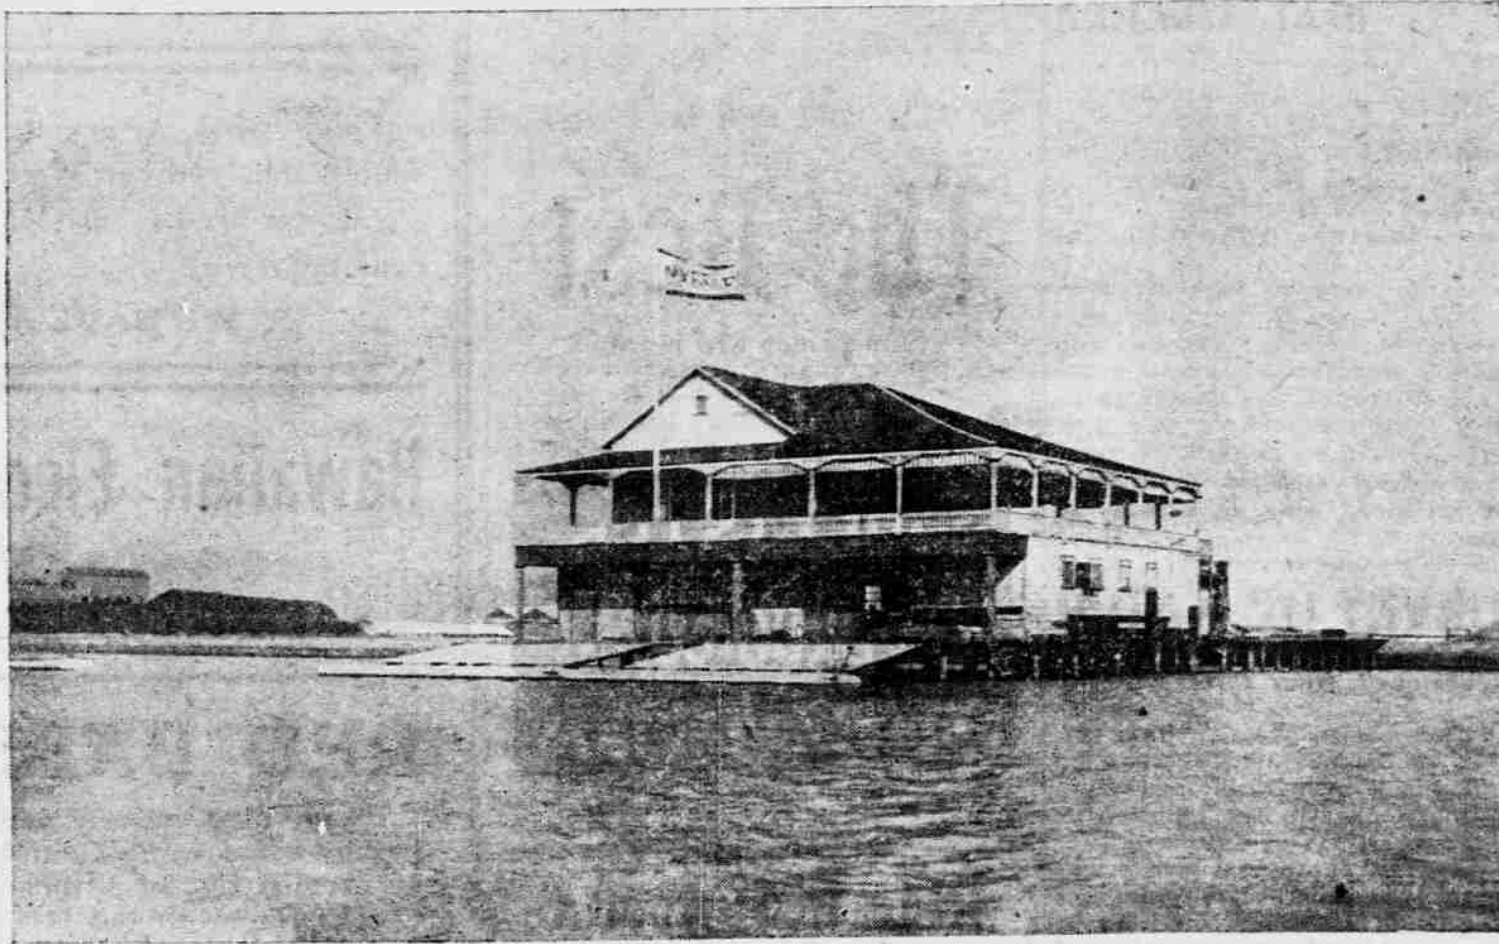

The Regatta Day crews have been definitely chosen and are as follows:

SENIOR BARGE.

Myrtles. Healanis.
L. King.....Stroke.....P. J. Jarrett
W. Soper.....No. 5.....G. Freeth
L. Underwood.....No. 4.....R. McCriston
Sam Johnson.....No. 3.....H. O'Sullivan
A. Ewart.....No. 2.....M. Robinson
K. Brown.....No. 1.....V. Fernandez
L. Hough.....Cox.....H. Steiner

FRESHMAN BARGE.

Myrtles. Healanis.
C. Padeken.....Stroke.....N. B. Lansing
C. Cowan.....No. 5.....R. Clark
E. Hingley.....No. 4.....R. Sullivan
T. Cooper.....No. 3.....E. Hamauku
R. Smith.....No. 2.....J. Archer
Myhre.....No. 1.....C. Oss
L. Hough.....Cox.....H. Steiner

THE MYRTLE BOATHOUSE.

It Will Be One of the Centers of Activity on Regatta Day.

SENIOR PAIR-OAR.

Myrtles. Healanis.
L. King.....Stroke.....P. J. Jarrett
W. Soper.....No. 5.....G. Freeth
L. Hough.....Cox.....H. Steiner

JUNIOR PAIR-OAR.

Myrtles. Healanis.
F. Bechert.....Stroke.....George Desha
L. Hough.....No. 1.....E. Desha
L. Hough.....Cox.....H. Steiner

The weight averages are:
Senior barge—Myrtles, 145 pounds;
Healanis, 155 pounds.
Freshman barge—Myrtles, 143 pounds;
Healanis, 145 pounds.

Interest in the barge championship is growing as Regatta Day approaches, and the races give promise of being as keenly contested as ever.

The crews have trained long and faithfully and will enter the boats on Saturday fit to row for their lives.

The senior race looks to be a gift for the Myrtles. The freshman race at this writing also looks good for the Reds, and a similar remark applies to the senior pair-oar race. If the Healanis are destined to take a race it will be the junior pair-oar event.

Captain King of the Myrtles stated last night that he contemplated protesting the inclusion of Dick Sullivan in the Healanis freshman crew, on the ground that he is a professional.

A substitute for the junior sliding-seat barge race will be provided in a six-oared stationary seat barge race between a haole and a Hawaiian crew. The veteran oarsman, George Harris, has arranged this event, which will undoubtedly be of a very interesting nature.

The haole crew will be recruited from the boys who trained for the abandoned junior race. The natives will use the crack boat Kanoeiani, in which the German naval crew defeated the Restorer's crew some months ago. The haoles will row in the Kapiolani, the boat used by the unsuccessful Restorer's crew.

The paddling canoe race is attracting great attention on account of a crew from Kona being due to arrive on Friday. They will have as their most dangerous opponent A. M. Brown's Alabama, which has won this race for the past six years. Other entries are expected. At present the Kona crew is a favorite at odds of 20 to 15.

The Alabama is said to have been badly damaged in the recent heavy surf and to have lost two members of her victorious crew.

All yachts intending to enter the races on Regatta Day can do so at the committee boat in the harbor before 9 o'clock on the morning of the races.

The handicaps for the second-class yachts will be given out from the committee boat. There will be no handicaps for first-class yachts.

The course to be sailed will be from a line from the lighthouse to the Healanis boathouse, out and around Bell Buoy, thence to the outer buoy at Pearl Harbor, rounding same; thence back and around the Bell Buoy, then back and up the harbor, finishing at the judges' stand.

Five entries are expected in the race for first-class yachts and from eight to ten in the second-class event.

The canvass for funds will commence today. No difficulty in this connection is anticipated, the regatta being essentially the People's Holiday and appealing as such to the merchants and business men of the community.

The program is as follows:

1. Six-oared gig, stationary seats.
2. Straight ash oars.
3. Six-oared sliding seat barge.
4. Second-class yachts.
5. First-class yachts.
6. Six-oared sliding seat barge, freshmen.
7. Five-oared whale boats. No spoon oars.
8. Six-paddle canoe.
9. Senior, pair-oar sliding seat boats.

2 Shetland Ponies

Will be in front of salesrooms early morning of sale.

WILL E. FISHER,

AUCTIONEER.

M'ILVAIN IS NO DUB

On Form He Should Give
Sullivan Run for
Money.

S. R. McIlvain, who is matched to box fifteen rounds with Dick Sullivan at the Zoo on Saturday night, has been employed as a clerk in the quartermaster's department in the Philippines for the past six years. He was returning to the States under transfer orders, aboard the transport Sheridan when she got stuck on the reef off Barber's Point. With him are his wife and three little children. The family is stopping at the Occidental hotel.

He has done considerable boxing in the Philippines, his principal fights being:

Knocked out Gorman of the 17th Infantry, in 3 rounds. Gorman weighed 187 pounds.

Knocked out Price, champion of the British Asiatic fleet, in 3 rounds.

Won from Schoenberg of the 15th Cavalry in 3 rounds.

Lost to Hinckel of the 6th Infantry, on a foul.

Won from Minor of the 6th Infantry, in 6 rounds.

Drew with McCreavy of the 6th Infantry, 5 rounds.

Drew with Williams of the U. S. S. Rainbow, 4 rounds.

McIlvain was present when Sullivan fought Welch and challenged him the next day. Sullivan told the visitor to go and get a reputation, intimating, however, that \$100 would do just as well. McIlvain made a fine showing with "Spider" Welch in a try-out and also dug up the century but Sully told him that the amount was too small to fight for and bade him get another \$75 before talking business.

The extra \$75 was soon forthcoming and the men met to make a match. The proposition was to fight for the \$175 side bet, which was put up, and 40 per cent of the gate receipts of the battle. The only terms Sullivan would listen to were winner take all and McIlvain accepted.

Sullivan, fresh from his impressive victory, over "Spider" Welch, naturally regards the match as easy money. He is doing no boxing work and is going on the road just enough to keep himself on edge. Every afternoon he is rowing with the Healanis freshmen crew. The weight he had to make to fight Welch, pulled him down a lot and today he is looking a lot better in the face than he did on Labor Day. On Saturday afternoon he will row in the freshmen's race in the harbor, a proceeding which Trainers O'Meara and McFadden are bound to consider unwise. Sullivan has set his heart on rowing in the race, however, so row it is.

The fight occurring on Regatta Day should draw a big crowd to the Zoo, especially as popular prices will prevail. The Sheridan contingent will be there to a man and promise to have money with which to back their confidence in their representative.

MACHINE AND MERCHANTS.

The reply of the machine to the merchants was made last night in the Fourth district caucus where two significant rules were adopted—(1) that no man may receive a nomination from the Oahu Republican convention who is not present at the time, to pledge himself to support the ticket; (2) that each candidate must take oath that he is not connected with a political party other than the Republican, having a platform. The two rules were embraced in a motion and amendment. The author of the motion was C. W. Booth, one of the defeated machine candidates of last year; the author of the amendment was James H. Boyd, one of the political heeled on the police payroll, who enjoys a sinecure.

Now what is the meaning of this move which looks so innocent? Simply to crowd Dillingham and Rawlins, two of the merchants' candidates, off the course, they having to be absent on business when the convention meets, and, further, to disqualify John Hughes because he is a member of the Civic Federation, which the machine chooses to regard as a party.

The machine represented by C. W. Booth and Jimmy Boyd against such men as Walter Dillingham, W. T. Rawlins and John Hughes! How do the merchants and all responsible and respectable men like the view?

And yet that is precisely what machine rule stands for—the promotion of men who do base politics and the rejection of men of character, civic virtue and true ideals.

Shall the Republican party of Oahu triumph at the election in the persons and policies of such men as Brown, Vida, Booth, Boyd, Gear and Lane or in those of such men as Dillingham, Rawlins, Hughes, Hustace, Waterhouse and W. O. Smith?

LOS ANGELES AND HONOLULU.

Mr. Warren Wilson, in what he says of trade possibilities with Los Angeles, bears out the statements made in these columns two years ago by a visiting member of the Los Angeles Chamber of Commerce. In considering business relations with the Southern California cities, Honolulu has been in the habit of regarding them as trade dependencies of San Francisco and as such, hardly worth our while either as importers or exporters. But this was our insular misapprehension. The San Francisco we did so much business with twenty years ago was a smaller place than the Los Angeles of today; and now, since the earthquake drove so many people from the coast metropolis, Los Angeles is doubtless the larger city of the two. As to independence, in the commercial sense, it has more of San Francisco than the latter has of Chicago or New York. As long as ten years ago, the southern city had cut out the trade of San Francisco with Arizona and begun to compete for the business of central California. She stands for production, exports, imports and for a trade—that with tourists—which is almost exclusively her own and that of her tributary towns—and in which we could, to some extent, share. Upon this latter point, however, the Advertiser cherishes no illusions. Southern California will naturally try to keep all the tourists and home-seekers she gets. But nevertheless, if a steamship line is put on connecting Los Angeles and Honolulu a certain number of tourists there will come here and a certain number here will go there. But the main thing is to supply a new recreation ground for the 275,000 Los Angeles themselves. Their pleasure objectives are now Mexico, the Eastern States and Europe. Why not add Hawaii? Every Southern California visitor we have seen goes into raptures over these tranquil islands. Honolulu has long had a large Southern California colony and, with a steamer line to help, might make it greater.

Our part in the steamer enterprise is the same as that embraced in the Portland scheme—to buy of Southern California products and to seek purchasers there for our own. It is an easy part and in view of the tourist as well as the commercial interests involved Honolulu ought to undertake it whenever Los Angeles gets ready to act.

The three sailors arrested at the instance of Chester Doyle pleaded guilty of drunkenness, having been told that they would get off more easily by doing so. These sailors, when Doyle attacked them, were going quietly along about their business, showing no signs of intoxication. If anyone was drunk it was somebody else than the sailors who, for resenting Doyle's ill-treatment, were sent to the tanks. Both the manager of the Gazette company and a reporter of the Advertiser saw the disgraceful affair from first to last, and would have been glad to testify on the side of the sailors.

The Democrats of Oahu county are not numerous but they are select. Note the many admirable names on the party slate, as published yesterday. It is within the power of the Democrats to earn respect for their ticket even though they may not be able to elect it all.

Greatly decreased Republican pluralities in Maine do their share to make Mr. Bryan's home-coming agreeable.

Vida, despite his blacksnake whip, seems to have trouble in lashing the voters into line. He must wish they were women.

LATE NEWS NOTES

From Coast Files.

A German scientist claims to have discovered a cure for cancer.

The Japanese seal raiders captured on St. Paul Island have been convicted. The business portion of the mining town of Stent has been wiped out by fire.

Twenty thousand men took part in the Labor Day parade in San Francisco.

An escaped lion caused a panic in a New York theater before it was recaptured.

The United States is paying a small premium for gold in Great Britain, securing \$1,250,000.

The Puyallup valley, Washington, is suffering from a pest of spiders, which are destroying the hop vines.

In his later speeches, it is pointed out, Bryan has avoided mention of government ownership of railroads.

Twenty thousand Welch coal miners are out on strike owing to the hiring of non-union men by the companies.

Brigadier General Williams is advocating an increase of pay for army officers owing to the increased cost of living.

Robert Gordon, 16 years old, of Chicago, has confessed the murder of a younger boy and the burying alive of his victim.

To avoid arrest for speeding, H. E. Huntington, of Los Angeles, gave his \$12,000 touring car to his chauffeur and \$50 to pay his fine.

Tammany Hall may combine with the forces of Mayor McClellan to defeat Hearst in New York state in his gubernatorial aspirations.

Between twelve and fifteen million dollars is to be divided among the stockholders of the Pullman company as an extra dividend.

The Polish school children of Posen, Germany, have struck because of the compulsory use of the German language during religious instruction.

Foreign and Chilean fire insurance

companies are said to be invoking the earthquake clause to relieve them of their liabilities in Valparaiso.

The killing of the five Japanese poachers on the Pribilof Islands is causing much commotion in Japan, the press devoting columns to the affair.

Miss Margaret Carnegie, heiress of the philanthropist, is said to be suffering from an aggravated form of hip disease, which has assumed dangerous symptoms recently.

The whereabouts of Stensland, the Chicago bank defaulter recently arrested in Morocco, was revealed to the authorities by a woman, a former companion of the fugitive.

The citizens of Douglas, A. T., armed themselves on the 2nd inst. to resist the invasion of Mexican troops, said to be marching on the town. The Mexicans failed to arrive.

The Pennsylvania Railway's tunnel under the North river, at New York, considered by experts among the most extraordinary engineering feats in history, is practically completed.

The Annual Trades Union Congress of Great Britain is in session in Liverpool, representatives of 1,500,000 trades unionists being present. The American Federation of Labor is represented.

Regarding his spelling reform orders President Roosevelt says that they will only be adopted if satisfactory to the public, otherwise they will be dropped. No radical changes are recommended.

A Hearst agent is reported to have shadowed Bryan for months during his European tour and has reported that a meeting took place between Bryan and a representative of J. Pierpont Morgan.

The relations between the Vatican and the Spanish government are strained and a rupture may result. The Pope has written to King Alfonso promising to make concessions providing the concordat is not denounced.

A Federal grand jury is investigating the filibustering trip taken some months

ago by the steamer Empire to South America with arms for the Nicaraguan revolutionists. The Empire is now the property of the government of Salvador.

PREPARING FOR THE NEXT VACATION

On Monday the schools reopened after twelve weeks of holidays and on Sunday a group of four teachers discussed their good times during the past vacation and their plans for the next one. This was between dips at the beach:

"Well, I'm going to the city next summer," said one of the four, sifting the sand between her fingers, "and I can hardly wait for the time to come around. I looked up the steamer sailings this morning. There are just thirteen Alamedas before I can start, and school closes on Wednesday and the Alameda sails on Friday, so isn't that lucky?"

A SURVEY OF WATER

(Continued from Page 1.)

claiming arid land. Under the terms of the Reclamation Act of June 17, 1902, the proceeds from the disposal of public lands have been made into a fund, to be used in the building of irrigation works. It is estimated that the proceeds for the period 1901-8 will amount to over \$30,000,000, and plans are being made for the expenditure of this amount. Already we have planned to irrigate in the near future about 1,000,000 acres, of which 200,000 acres are now under ditch. Eight hundred miles of canals and ditches have been dug and 30,000 feet of tunnel bored. Over 10,000 laborers are now at work.

It seems to me that a similar act might be passed devoting the proceeds from the disposal of public lands in the Hawaiian Islands to reclamation, or join with the other States and Territories of the Union in the general scheme; that is to say, if the proceeds from the sale of public lands in the Hawaiian Islands were treated in the same way as those from Arizona are treated, you might obtain additional benefits.

Enclosed is a copy of the Reclamation Act. As far as I personally am concerned I should be glad to see the Reclamation Act extended to the Hawaiian Islands and to incorporate them into the general scheme. So far as I know this might be accomplished with advantage to the country as a whole. We could bring to the islands the benefit of an experienced organization and the best engineering talent available.

If you could be included under the terms of the Reclamation Act this would make available at once ample funds for the investigation of your water resources. The revenues might be considerably augmented, as in the case of this country, by utilizing the water powers on the public lands and using the proceeds for the construction of works; for example, in connection with the reclamation projects now in hand we have utilized a number of water powers, which yield an annual rental that in the aggregate is of considerable importance in swelling the fund. Instead of giving away to corporations these valuable natural resources, they are held and utilized for the development of the country and the creation of homes for citizens.

I could expatiate on this subject at great length, but will merely make these suggestions for your present consideration. I should be glad to take the matter up further if you so desire.

I am sending at this time a copy of the Third Annual Report of the Reclamation Service, which I hope you will glance over in order to obtain some idea of the scope of the work. This is entirely separate from the investigations of the Geological Survey, but is in one sense an outgrowth of these. To make the matter a little more plain, I may state that I am occupying two entirely distinct positions: one as head of the Hydrographic Branch of the Geological Survey, making investigations with the expenditure of \$150,000 this year; the other position is Chief Engineer of the Reclamation Service, expending upward of \$40,000,000 on the building of irrigation works. Co-operation with you might be had through either or both of these organizations; first, by your coming in under the annual appropriation, extending this to include the Hawaiian Islands, or, second, by coming in under the terms of the Reclamation Act through some arrangement by which the proceeds from the sale of public lands could be handled in a manner similar to those of our arid States and Territories.

Very truly yours,
F. H. NEWELL,
Chief Engineer.

A DIFFERENCE IN LUNGS.

In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white. In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate gray, as are the lungs of most city residents. That's why consumption thrives in cities.

One reason why Scott's Emulsion does so much to keep down consumption is because it helps to keep the lungs clean and supplies them with rich, red blood. It makes the lungs germ-resisting. If the body is run down and health is at a low ebb Scott's Emulsion will build it up quickly and permanently.

WORLD'S NEWS DAILY

A CUBAN SHORTAGE OF SUGAR

Willett & Gray's Circular.

Cuban Revolution.—A revolution in Cuba has been started by disappointed office seekers, which is giving the established government much concern. Fighting has occurred in Havana and Matanzas provinces, with uprisings in Santa Clara and Santiago provinces, and the revolt is spreading rapidly, according to latest reports. Attempts are being made to nip it in the bud by arresting the leaders and largely increasing the force of rural guards. Some of the leaders are very influential men, who were successful in former revolutions, which makes the government's task a difficult one.

In case the officials are unable to crush the insurrection, the American government has the right to intervene for the "maintenance of a government adequate for the protection of life, property and individual liberty."

The expectation is that the revolt will be short lived, but such guerrilla warfare is attractive to cane sugar plantation laborers and, unless this movement is promptly checked, the harvesting of the new crop may be delayed. Meanwhile, the cultivation of cane is neglected, which if continued, will cause a reduction in the yield.

We have received the following cablegrams from our correspondents: Havana, August 22.—"So far no damage done growing crop."

Cienfuegos, August 22.—"Will be shortage. Cane neglected."

The Week.—Raws: Advanced .065c. Refined: Declined 10 points. Net cash quotations this date are: Molasses 3-125c; muscovado, 3.44c; centrifugals, 2.94c; Granulated, 4.65c. Receipts, 22-25 tons. Mollins, 49,000 tons. Total stock in four ports, 278,889 tons against 299,664 tons last week, and 198,032 tons last year. Beet sugar quotation, f. o. b. Hamburg, 98.33-4d. per cwt. for 88 deg. analysis without bounty, equal to 3.55c. for 96 test centrifugals at New York. First marks German granulated f. o. b. Hamburg 118.33-4d., without bounty, equal to 4.54c. New York, duty paid.

Estimated shipments to the United States from Cuba and West Indies, 25,000 tons; Hawaii, 50,000 tons; Java, 55,000 tons; Europe, 20,000 tons; Peru, etc., 10,000 tons. Total, 190,000 tons, against 320,000 tons last year.

Net Cash Prices Refined.—It is generally understood that the lowest price named for refined here is basis of granulated, in barrels and bags, 4.65c. net cash, quoted by Federal for prompt shipment only.

Statistics by Special Cables.—Cuba: The six principal ports: Receipts, 2000 tons; exports, 15,800 tons; stock, 92,000 tons, against 234,000 tons last year. 4 cents grinding against 3 last year.

This week's summary of the statistical position shows stock in the United States and Cuba together of 379,889 tons against 405,664 tons last week and 432,032 tons last year, a decrease of 61,143 tons from last year.

Europe.—Stock in Europe, 1,587,000 tons, against 1,016,000 tons last year. Hamburg reports shipments of 5000 tons raw sugar to the United States this week.

Visible Supply.—Total stock of Europe and America, 1,957,889 tons, against 1,448,632 tons last year at the same uneven dates. The increase of stock is 509,257 tons, against an increase of 552,145 tons last week. Total stocks and shipments together, show a visible supply of 2,162,889 tons against 1,792,032 tons last year, or an increase of 369,857 tons.

Raws.—The upward movement in prices, which was checked for a fortnight, was resumed early in the week. The advances were in small fractions, the total for the week being 1-16c., establishing the quotation of 2.94c. for 96 deg. test on the spot and 2.9-16c. c. and f. for Cubas 95 deg. test, equal to 2.95c. landed for 96 deg. test, but the lowest price now named by sellers is 4c. At the close 4c. was paid for distant Porto Rico centrifugals.

Even at the higher prices only very moderate quantities were obtainable, and holders are now still more reluctant to part with their sugars.

Stocks in Cuba are reduced to only 92,000 tons, of which about one-half has already been sold, while Porto Rico has no more than 15,000 tons to dispose of and there is scarcely any old crop sugar in the West Indies.

Javas are coming forward slowly and in a small way compared with former seasons. It will be seen that the available supply is barely sufficient to meet the demand from refiners for cane sugars until December. It was hoped that the new Cuba crop might make an early start, and part of it come to market before January, but the news just received of a revolution in Cuba causes the fear of delay in the harvesting of that crop, in which event the value of cane sugars now in stock would be greatly enhanced. The new Louisiana crop will help out to some extent, and the distribution of the large domestic beet crop will tend to lessen the requirements of refiners for molasses in November-December, but it is evident that further supplies must be brought from Europe.

There were no sales of Java reported this week, the offerings now being at 10s. 7-12d. c. and f. for September shipment, equal to 4.05c. landed for 96 deg. test.

Canada bought 5000 tons Demerara centrifugals for October shipment at 27-15c. c. and f. Montreal equal to 4.07c. landed at New York.

It is understood that recent sales of about 20,000 tons of European beet sugars were made to New York refiners at 9s. 5d. to 9s. 8-14d. c. and f., equal to 3.90c. to 3.94c. for centrifugals, and but little more of old crop sugar suited for America is now obtainable.

The London market advanced steadily from 9s. 4-3d. at the opening to 9s. 3d. at the close for prompt beet. Futures are quoted at 8s. 11-14d. for Oct.-Dec. and 9s. 13-14d. for May.

The position is very strong, with tendency to higher prices.

Refined.—Notwithstanding the improvement in raws, the prices of refined sugars are still unchanged on basis of 4.05c. less 1 per cent. cash for granulated, except that Federal will accept a few orders for prompt shipment only, basis of 4.70c. less 1 per cent., the price at which deliveries are being made under old contracts, and which does not affect the quotation.

The distribut on continues to be satisfactory, and is so large as to prevent the refiners from catching up with their orders, the shipments being delayed seven to ten days in some instances. Buyers have so much sugar coming to them under contracts, in force that new business is only fair.

Reports received by us on the fruit crops of the far west are as favorable as those of the east, and it therefore follows that there must be exceedingly heavy requirements of sugar for canning purposes, this and next month. Buyers should anticipate their wants accordingly.

We recommend the engagement of full supplies ahead under the usual 30-day contracts, the indications pointing to a higher range of prices for some time to come.

Coffee.—The valorization pro's and con's have had some influence in the market changes the past week. While the practical success of this new protection policy remains to be demonstrated, it must be said that until the scheme has been applied or a full knowledge of its methods revealed, a fair criticism is not possible. One thing is very certain, that those who are in haste to condemn the new measure, have not taken the pains to get at the true facts. No one can doubt the right of Brazil to attempt to conserve her chief industry at a time when the world must buy the product. The government is actively engaged with the details of the new law and loan. Private advice predicts the success of same, but meanwhile operators profess to be disappointed because inside information is not immediately available to satisfy calculations as to the course of the markets. It is only about two weeks ago the President of Brazil signed the bill authorizing the loan, and in the most modern countries a longer time than this would be needed to complete it. The general lack of knowledge of modern Brazil is perhaps responsible for a great deal of the skepticism as to her capabilities and possibilities. The sound condition of the country, financially, and the high foreign credit of her states, individually, are well attested. Now that the coffee crop is moving in earnest, Europe and the States stand in the markets as free buyers, not from choice, but from sheer necessity. Europe has no coffee in the interior, and in the seaports the smallest stocks known for years. Europe has abstained from buying a very long time, hoping a full Santos crop would mean lower prices, but Brazil held firm and seems determined to strive for a living price when buyers must have the goods and actual consumers daily pay the old scale, year in and year out, as when coffee was double the price of today. Europe must continue to buy freely in Brazil, and so must this country. The monthly deliveries average 1,400,000 bags for the two countries, the greater portion of which must be drawn from Brazil for months to come, before any importations can be set by to replenish reserves.

With early activity of valorization plans and the outlook for the near future, growing crop already very unsatisfactory, Brazil can control the markets. Any further unfavorable developments as to the next crop would result in a great rush to secure coffee.

For several weeks the weather has been fine and dry, the trees being reported in a weak condition, without foliage. It is quite significant at this period, when there should be, under ordinary circumstances, some signs of vigor prior to the blossoming periods. We repeat that too much attention can not be given to this point of itself, as exhausted trees can not furnish a crop.

There has been quite an important coast and freight business done in Brazil at good prices. The demand for coffees on spot here has still further reduced the New York stocks, which are now nearly 1,200,000 bags less than January 1.

No. 7 Rio coffee is quoted nominally at 8 3-4c. No. 3 Santos about 9 1-2c., but quotations do not give a true idea of the price paid for selections. The usual commercial grades are entirely absent.

August options, week ending August 23: Highest, 6.95 to 7.00; lowest, 6.55 to 6.70; closing, 6.65 to 6.70, against last year closing 7.25 to 7.30. No. 7 last year, 8 7-8c.

Visible supply of world, in bags—August 1, 1906, 9,948,053; July 1, 1906, 9,626,563; August 1, 1905, 11,465,541.

Stock U. S., all kinds, in bags—August 1, 1906, 2,443,594; July 1, 1906, 2,475,386; August 1, 1905, 4,040,757.

Stock Brazil in New York, August 22, 2,726,594 bags. Total Brazil in the United States, 2,878,961 bags. Total in U. S., other kinds, August 20, 20,386,094 bags. Deliveries of Brazil for the week ending August 18, 71,423 bags, against 57,842 bags last year. Receipts of Brazil for week ending August 23, 30,270 bags.

AN UNUSUAL PICNIC: LUNCH ABOVE THE CLOUDS IN A BALLOON.

The balloon is becoming a formidable rival to the motor-car, and this year it has risen to the dignity of a society craze. The balloon meets at Ranelagh have been particularly brilliant and interesting, and ladies are becoming daring aeronauts. Quite recently our Special Artist was invited by Mr. Frank H. Butler, one of the pioneers of the Aero Club, to accompany him on a voyage, of which this is the unique pictorial record.—Illustrated London News.

HATCHET BURIED

Reform Society Banzais Consul Saito and Expires.

A largely attended meeting of the Japanese Reform Association was held on Sunday night at the residence of Editor Shiozawa, for the purpose of removing the plank in the society's platform calling for the removal from office of Consul Saito, friendly relations between the consul and the Japanese community having been restored. A vote of thanks to Saito was passed, for his efforts in bringing to pass the objects for which the society was formed.

The organization was then formally disbanded. The Japanese Reform Society came into existence in May, 1905. Its objects were threefold, as follows:

To break up the Japanese emigration companies. To stop the operations of the Keihin bank which was acting in conjunction with the emigration companies. To bring about the removal of Consul Saito for alleged connivance with the bank and companies.

The Keihin bank and the emigration companies were together operating a gigantic scheme of graft, resulting in

MOTHERS

should know. The troubles with multitudes of girls is a want of proper nourishment and enough of it. Now-a-days they call this condition by the learned name of Anemia. But words change no facts. There are thousands of girls of this kind anywhere between childhood and young ladyhood. Disease finds most of its victims among them. Some of them are passing through the mysterious changes which lead up to maturity and need especial watchfulness and care. Alas, how many break down at this critical period; the story of such losses is the saddest in the history of home. The proper treatment might have saved most of these household treasures, if the mothers had only known of WAMPOLE'S PREPARATION and given it to their daughters, they would have grown to be strong and healthy women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and Bone and Blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia." The more it is used the less will be the ravages of disease from infancy to old age. It is both a food and a medicine—modern, scientific, effective from the first dose, and never deceives or disappoints. "There is no doubt about it." Sold by all chemists here and throughout the world.

the wholesale fleeing of Japanese emigrants to Hawaii. Because Consul Saito took no steps to stop the nefarious operations, the Japanese here suspected him of being in on the deal.

The association petitioned the Japanese government to remove Saito and investigate the dealing of the bank and the emigration agents.

As a result, Saito was summoned to Japan. Since his return the emigration agents have taken to cover and the game of graft come to a complete standstill.

As things used to be, laborers for Hawaii were recruited by the agents of the companies who charged them a fee of 20 yen for getting them the job and then made them deposit 100 yen in the branch of the Keihin bank in Yokohama. This money was never repaid.

The Japanese government has issued a special order whereby emigrants are permitted to leave Japan without possessing any specific amount of money. Corrupt officials previously divided spoils with the bank and the agents.

The Japanese Reform Society, having accomplished in the main that for which it was formed, goes out of existence.

TWO NIGHTS ON ISLE OF PALMS

The following is the extensive program for the pretty comic opera, "Ship-Ahoy," to be put on Thursday and Saturday evenings of this week, Sept. 13th and 15th. The whole play is full of fun from curtain up until finale and lovers of music and fun will revel in "Ship-Ahoy."

The seats are going very rapidly for both nights and with the show going the same way "Ship-Ahoy" will furnish lots of sport and entertainment.

ACT II—The Ball Room of Hygia Hotel; Old Point Comfort (Home again).
Stage under the direction of W. D. Adams.
Musical director—R. R. Bode.
Accompanist—Miss Alice Rice.
Two evenings of real pleasure are in store for the play lovers, and Saturday evening (dignified night) will, no doubt be a rousing one, a delightful culmination of an evening holiday and you'll be happy every moment of it.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, scalding or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back, running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.
Mrs. Samuel Frake, of Prospect Plains, N. J., writes:
Dear Mrs. Pinkham—
I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

Blended Whiskeys

are considered by connoisseurs to be superior to what is known to the trade as two stamp goods. The I. W. Harper whiskey stands at the head of this class of liquor and it is becoming the favorite of the men who know the best points in whiskey.

WE HAVE the celebrated Harper Premium A A put up in imported amber bottles five to a gallon. And the equally famous Old Continental, hand-made sour mash, in full quart flint glass containers. Each bottle is covered with wire mesh.

We feel that we can recommend these goods as superior products, something you may offer to your friends. For bar trade it is the best whiskey and a trade bringer.

The Plumber. 85 King Street.

EDITORS OFF TO HILO

Luau for Visitors on Monday a Big Affair.

The Southern California Editorial Association delegation, with but few exceptions, left on the Kilauea yesterday for Hilo and the volcano. A good time is in view while the Californians are on the big island. The party will return to Honolulu next Saturday in time to take in some of the Regatta Day events.

The luau for the visitors will take place next Monday evening, as originally planned. It is to be an elaborate affair throughout. It will be largely invitational. The Southern Californians are, of course, the guests, while Governor Carter, Judge Doie, Judge Frear, Prince Kalaniano'le, Delegate to Congress, W. M. Giffard, president of the Chamber of Commerce, George W. Smith, president of the Merchants' Association, and possibly one or two others will be special guests.

In addition, invitations have been extended by Secretary Wood of the Promotion Committee to representative residents of the city to attend, and tickets are to be had at the promotion rooms. It is necessary that the Secretary should know not later than Saturday, the names of those who plan to attend, so that the seating arrangements may be made far enough in advance to avoid confusion.

The trustees of the Kapiolani Maternity Home have kindly placed their large lanai at the disposal of the committee for the serving of the luau. A semi-privacy may thus be obtained, and whether there is rain or not the luau will be entirely under cover.

There will be special quintet music during the evening, and, in addition, Dr. N. B. Emerson is arranging for some old-time Hawaiian songs to be rendered by two of Hawaii's nightingales. A Hawaiian dance will also be given, comprising the old-time royal dances only.

The special committee of the promotion bureau for the luau comprises Chas. L. Rhodes, chairman; Dr. N. B. Emerson, A. P. Taylor.

THE POULTRY MEN CONSIDER RULES

The members of the Hawaiian Poultry Association met in the board room of the Bureau of Agriculture and Forestry last night to adopt a set of rules to govern their annual exhibition, to be held in December. A committee had been at work drafting the rules and there were majority and minority reports to consider. Throughout the meeting was a spirited one, all the members taking part in the several debates occasioned by the reading of the reports, the speakers allowing nothing to interrupt them, continuing in the dark after the electric lights went temporarily out of business.

There was a good attendance, the

"Grateful Results"

A life of suffering and misery, without sleep, without appetite. Restored to health by

Ayer's Sarsaparilla

"I was grievously afflicted with biliousness and liver complaint. My mouth was in a terrible condition every morning, my tongue thickly coated, my breath was offen-

sive, food distressed me, I suffered much from headache, my skin was sallow, and the many remedies recommended me did no good. At last I commenced using Ayer's Sarsaparilla, and my improvement began almost from the first dose. It relieved the distress about my liver, caused my food to digest well, cured my headache, improved my complexion, and restored my appetite. These unlooked-for but grateful results were accomplished by only two and a half bottles of Ayer's Sarsaparilla."—Mrs. Lydia M. Tabor, Altoona, Pa.

There are many imitations Sarsaparillas.

Be sure you get "AYER'S."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

HOLLISTER DRUG CO. AGENTS

pigeon fanciers among the members being well represented and winning out what measures they advocated for the show. The point upon which the greatest difference of opinion was shown was in respect to the advisability of having birds exhibited in pairs, contrary to the advice of the directors of the American Poultry Association, whose recommendation was that only single birds and birds in pens should be shown. Eventually the upholders of monogamy among the exhibited birds won out over the advocates of polygamy.

The next work of the association will be the drafting of a premium list, and a committee has been appointed for this purpose.

THE SALVATION ARMY HARVEST FESTIVAL

Have you ever heard of a poor, troubled, sorrowful, perplexed, hopeless man or woman appealing fruitlessly to the Salvation Army? Do you know that something like 3,000,000 just such people are upheld by this wonderful organization? Do you know that in twenty-three different homes fallen women are each year restored by the score to honor and a life of useful purity? Do you know that in three different havens little children, all the way from nursing babes to sturdy boys and girls, are being succored? Do you know that scattered over the country are seventy-eight shelters in which nightly some 9000 homeless, often hopeless, men or women are cared for? Do you know that these institutions represent but a mere fraction of the charitable work successfully carried on by the Salvation Army in the United States?

How is this enormous expense to be met? Fools and ignorant know-alls will perhaps explain to you that the Army is in and of itself a sort of business corporation, and of a truth it would needs be if out of its own resources it carried on the stupendous undertakings it dares. But the intelligent man or woman of today knows too well the Salvation Army under too many conditions, and through too many seasons to listen to such folly.

The Army just now is making a special effort to raise funds, and they are asking for not only cash, but articles that can be converted into cash. No religious organization of history has depended more fully upon the good offices and charitable warmth of the public than the Salvation Army. Happily we are not an ungrateful people, nor a people slow to realize or appreciate great deeds. That is why we have a right to feel a sincere interest in everything the Salvation Army undertakes, and that is why we all now take an interest in the Army's approaching annual harvest festival, September 22 to 25.

Anything and everything of any actual utility may be given as an offering at this festival, for what may not be locally useful may be of high practical value in less favored parts in the Army's national field. There is, in fact, a saying, humorous, but true, that the Salvation Army can find good use both for people and things that no other body in creation would consider.

Remember the dates, and remember the cause to be furthered; be generous and you will nurse no regrets. The Army has meetings every night. In the hall, corner of King and Nuuanu streets, and for Japanese, Chinese and Koreans, at 158 North Beretania Avenue, every evening. Also Sunday schools for children at these places, and on School street, near Lihue. Besides these the Army has a Rescue Home, for girls, in Honolulu.

Donations for the harvest festival can be sent by mail to Adjutant Bamberg, P. O. Box 518, Honolulu. Or if anyone wishes to have the officers call, ring up Blue 2331. Make all checks payable to J. H. Bamberg.

KNOCKERS OF THE VOLCANO TRIP

"I don't understand how you people in Honolulu can afford to knock the Volcano," said H. Ray Horton, city editor of the Los Angeles Examiner, who is here with the Southern California Editorial Association.

"Since I have been in the city I have heard numerous knocks against the Volcano, and principally around the hotels. You people can't afford to do that. However, it hasn't affected me in the least for I'm going to see the volcano, but it certainly may have an effect on others. We are told of a rough sea trip and many other disagreeable things. It ought to be stopped."

MACHINE CROWDING OUT BEST MEN

(Continued from Page 1.)

Mr. Harris moved that this caucus meet at headquarters at five p. m. Wednesday to hear the report of the committee and a general caucus be held in the evening. Mr. Jones said the business transacted tonight was of sufficient importance to bring the delegates together tomorrow (Wednesday) night. The motion carried.

Mr. Ziegler wanted a general caucus for Thursday night, and so moved. Opposition to this was shown by several speakers, and the measure failed. Mr. Harris then moved that the precinct delegation, as represented here tonight, report back the meeting of the Fourth and Fifth Districts and that these representatives meet in caucus, with written authority to adopt or reject the plan herewith, at 12 o'clock on Thursday and then meet the representatives of the Fifth District. Carried.

Chairman Harris then appointed as a committee to meet representatives from the Fifth Messrs. Jones and Kalo, with himself. The meeting then adjourned. It was a quiet meeting throughout and all but one motion passed unanimously.

SEA AND SHORE

The S. S. China resumed her voyage for the Coast yesterday morning at 9 o'clock, few being down to see her off. She carried a number of Honolulu passengers, among them Secretary Atkinson, who is credited by some with leaving for Washington to secure the loan of the Big Stick for use in Hawaii during the next few weeks. A number of his friends were on hand to bid him aloha, among them Governor Carter.

The China took on a big cargo of fresh and canned fruits here and some other freight.

OLYMPIC FOR LUMBER TRADE.

The bark Olympic, now discharging at the Bishop slip, will load with sugar for her return to the Coast, going over to the railway wharf this week. Owing to the end of the sugar season being at hand the Olympic will not return here for several months, being chartered to go to the Sound after discharging her sugar for lumber cargoes for the Coast, after which she is bound for one of the nitrate ports to load for Honolulu.

The Olympic has been on the Honolulu run for six years and is one of the best known vessels making this port, while her master, Captain Evans, has a host of Honolulu friends. The passenger accommodations of the Olympic have made her a favorite for those who preferred sails to steam on the trip between here and San Francisco, another reason why the bark will be missed for the next several months.

ALAMEDA'S FRUIT CARGO.

The Alameda sails from the Oceanic wharf this morning at 10 o'clock for the Coast. She will take a fair number of passengers and a good freight cargo, consisting principally of fruits. Among these will be 4000 bunches of bananas, 200 cases of fresh pines and 2000 cases of canned pines. Other freight is: 300 bags of rice, 1000 bags of raw sugar and a quantity of refined, five cases of lily root, four bags of fungus, a large quantity of hides, 100 empty barrels and a quantity of miscellaneous packages. There are also forty-four cases of spoiled wine being returned to the Coast shipper.

A TIP FOR METCALF.

When H. M. S. Dominion ran aground ascending the gulf, there was some confusion for a time especially as the engines could not succeed in floating the vessel, says an exchange. All hands were eventually ordered on deck and about eight hundred of the crew each carrying their kits were lined up. Each kit weighs about fifty pounds, consequently the eight hundred totalled forty thousand pounds to say nothing of the additional weight of the men. The men were marched from side to side, and this served to rock the vessel slightly and with this aid the engines succeeded in pulling the vessel off.

SHIPPING NOTES.

The tank steamer Lansing is due tomorrow from Monterey.

The William P. Frye is finishing up the last of her cargo and will sail this week for the Coast.

A seven-ton pump was among the freight items taken out by the steamer Maui yesterday. It was billed for Electric.

The U. S. S. Iroquois will leave for the Manchuria this afternoon, having taken on board some big tow lines from the naval stores.

The next mail from the Coast is due on the Nevada, arriving on Tuesday next. She will bring a week's mail, and the Sierra, due on Wednesday, will have two days' later mail. The next outgoing mail for the Coast will leave on the Mongolia, next Tuesday.

In his official report of the trip, Purser Hart, of the Nihoa, included the following yesterday morning after the arrival of the steamer from Hawaii: "We experienced, generally speaking, fine weather on the trip though there was considerable swell throughout on the 8th and 10th. A heavy rain fell at Pahala on the upper lands on the 8th. The cane looks promising and is in a healthy condition, especially since the recent rains. By all appearances a good crop may be expected."

JONES SENT TO FOLSOM FOR LIFE

REDWOOD CITY, August 31.—W. C. G. Jones, who was convicted of the murder of Mrs. Elizabeth Branderup in South San Francisco June 22nd, and whose sentence was fixed by the jury at life imprisonment, came before Judge Buck today for commitment. In sentencing him the Judge stated he had no comments to make upon the action of the jury, but he was at a loss to understand why his sentence had been fixed at life imprisonment instead of a plain verdict of murder in the first degree, and committed Jones to Folsom to serve his sentence. No motion for a new trial nor appeal was made by his attorneys, but when asked if he had anything to say why sentence should not be pronounced Jones answered no. Both Jones and his counsel consider he did remarkably well to save his neck. Jones will be taken to Folsom at once.

BY AUTHORITY.

LAND DEPARTMENT, TERRITORY OF HAWAII.

NOTICE OF SALE OF LANDS AT PUBLIC AUCTION.

At 12 o'clock noon, Thursday, October 11, 1906, at front entrance to Judiciary Building, Honolulu, there will be sold at public auction, under the provisions of Part IV., Section 17, Land Act, 1885 (Section 276 Revised Laws of Hawaii), the following lots of choice land, located on Makiki Slopes, Kona, Oahu:

Meets every second and fourth Friday of each month, in I. O. O. F. Hall. Visiting brothers cordially invited to attend.
W. F. DRAKE, Sachem.
A. E. MURPHY, C. of R.

HANDSOME FOREMAN

Judge De Bolt Directs Verdict for the Defendant.

George H. Cowan, one of Judge De Bolt's jurymen for this term, may be regarded as the handsomest or best-looking one of the lot. Yesterday afternoon at the close of the trial of the Territory vs. Tai Sow, the judge directed the jury to return a verdict of not guilty to the charge made in the indictment, and asked the jurymen to appoint a foreman.

"Probably you might select one of your best-looking men for this purpose," added the judge smilingly. Cowan was selected and he blushed like a sweet girl graduate as he arose and placed his signature to the verdict.

The case was decided by argument, while the jury was out. Assistant Attorney General Prosser conducted the prosecution and Judge Gear the defense. Tai Sow, an aged Chinaman, was accused of selling liquor without a license. During the trial of evidence it transpired that the man was really accused of selling a pin bottle of liquor which had not been sealed with a government stamp.

Judge Gear at once raised the point that the prosecution had not given facts sufficient, according to the ethics of the law, for the defendant to make a defense.

Judge De Bolt decided that the jury might return a verdict of not guilty and he called that body in to direct its verdict. He said to the assembled jury that one of the essentials in criminal proceedings and pleading is that defendants shall be fully apprised of the vital facts that constitute the charge. Every man charged with an offense shall know what he is accused of so that he may have the opportunity to prepare a proper defense. The statute under which the charge was brought had at least twelve definitions for violations. The defendant should know which one of the twelve violations he was being charged with. The defendant was entitled to know the facts. He surely did not in this instance, the Judge said, because, until the evidence brought it out he was under the impression it was for selling liquor without a license, whereas, in truth he was charged with having sold a bottle which did not bear a government stamp.

"I am not much in favor of technicalities," said Judge De Bolt. "I believe in plain, common-sense."

DEAN WAS ANIMAL-LIKE.

"He was like an animal," is the way a witness in the case of Mrs. Heine vs. The Hawaiian Trust & Investment Company, described the late Mr. Dean, whose small fortune is being sued for, or at least a part of it, by Mrs. Heine. The witness had told of Dean's penchant for whisky. The man, who was diseased, became so helplessly drunk that he wallowed in the room and bed for days at a time. He was simply an inert mass while drunk. He also had liver and kidney complaints. "He was stupid and could not get his clothes off or on by himself," added the witness.

Mrs. Heine, so the witness said, was nurse to Dean during his helpless stages. She is suing for several hundreds of dollars.

YOUNG MANASE'S CASE PUT OVER

Kalia-uka, Sept. 10, 1906.

Editor Advertiser: Will you give a notice for the statement made by my son, E. K. Manase.

"The sentence of the court has not been put on me this time. The judge and the attorney general have accepted what my attorneys have asked to have my case be tried in the U. S. Supreme Court, but it will not be acted because of being busy in the political campaign.

"The telegraphic news are not right. I will write you again. Letter of Sept. 3."

REV. H. MANASE.

Matsuoaka waived examination before U. S. Commissioner Davis on a charge of selling liquor without paying the special license.

Sam Papaula, who was liberated from the Oahu jail yesterday after serving a term, celebrated his liberty in a glorious jag which ended up in his arrest last night.

HAWAIIAN LODGE NO. 21,
F. & A. M.

THERE WILL BE A SPECIAL meeting of Hawaiian Lodge No. 21, F. & A. M., at its hall, Masonic Temple, corner of Hotel and Alakea streets, THIS (Wednesday) EVENING, Sept. 12, 1906, at 7:30 o'clock.

By order of the W. M.
R. K. G. WALLACE,
Secretary.

HONOLULU LODGE 618, B. P. O. E.

Honolulu Lodge No. 618, B. P. O. E., will meet in their hall, on Miller and Beretania streets, every Friday evening. By order of the E. R.
HARRY E. MURRAY, E. R.
HARRY H. SIMPSON, Secy.

DIVORCE OF THE WHITINS

Rapid-Fire Case Ends With Five Thousand Dollars Alimony.

A "Nancy-Hanks" speed was attained yesterday in Judge Robinson's court when Mrs. Daphne Belle Whitin obtained a divorce from Frederick B. Whitin, one of the two heirs of the millionaire manufacturer of cotton and thread of Whitinsville, Mass. Here is the time record:

9:20 a. m., papers filed in the courtroom.

10 a. m., papers received at police station for service.

11:10 a. m., papers returned to court unserved except upon libellant's attorney.

1:30 p. m., entry of appearance of R. W. Breckons as attorney for Mr. Whitin, filed.

1:30 p. m., libellant files answer admitting all allegations.

1:30 p. m., consent of parties by attorneys to an immediate trial.

1:35 p. m., First witness for libelee finishes testimony.

1:45 p. m., second witness for libelee finishes testimony.

1:50 p. m., decree of divorce ordered by Judge Robinson.

1:55 p. m., Mrs. Whitin handed her decree.

Mrs. Whitin in her libel states that she has been a resident of Honolulu for more than two years, and resided here with Mr. Whitin, her husband. In a succeeding paragraph Mrs. Whitin stated that she and Mr. Whitin were married at Ogden, Utah, on March 7, 1905, or a little over a year ago.

"Ever since the marriage," she states, "he has been guilty of habitual intemperance from the voluntary and excessive use of intoxicating liquors."

Mrs. Whitin asked for an absolute divorce, with permanent alimony and attorney's fees.

Mrs. Whitin was the only one of the parties present in Honolulu. She has been residing for some time at the Seaside Hotel, Waikiki. The Whitin home is at the upper end of Makiki street. Mr. Whitin for several months past has been a resident at the Volcano House, Hawaii.

Frank Halstead was the first witness called. In answer to questions bearing upon Mr. Whitin's ability to consume liquor, he stated that defendant certainly was a heavy drinker. While at the Volcano House recently Mr. Halstead noticed that Mr. Whitin had a penchant for liquor and that he drank almost constantly during his waking hours.

The next witness was Mrs. Beatrice Thompson, sister of Mrs. Whitin. She stated that she had known Mr. Whitin for about three years and during that time had known him to be sober but once.

"When did he begin drinking in the daytime?" was asked.

"Before breakfast."

"How did he drink?"

"Well, do you mean how many cocktails he had?" was the naive reply of the fair witness. And a smile went around the courtroom.

It did not take long for Judge Robinson to order the decree of divorce for Mrs. Whitin, with the statement that permanent alimony would amount to \$5000 and attorney's fee of \$250 and costs of court.

There is an outside settlement, of course, of property held by Mr. and Mrs. Whitin in Honolulu. Their fine home in Makiki street has been sold through Broker R. C. A. Peterson to George Lycurgus, proprietor of the Volcano House and the Union Grill, and the Whitin automobile, a handsome one, and which figured more or less in the preliminaries to the bringing of the divorce, has also been acquired by Mr. Lycurgus.

Mrs. Whitin and her sister are booked to leave for the mainland on the steamer Mongolia, September 18. They will return to Denver, their former home. Mrs. Whitin was the divorced wife of millionaire Doyle of Colorado Springs and Denver, Colorado. Mr. Doyle acquired considerable notoriety a few years ago in contempt of court proceedings, preferred against him because of his refusal to answer certain questions put to him on the witness stand during mining litigation involving millions. He was committed to jail, and while there was elected mayor of a Colorado town. Mr. Doyle visited Honolulu four or five years ago.

Mr. Whitin was notified by wireless yesterday that he was no longer married to Mrs. Whitin.

The Whitin family of Massachusetts owned several townships, among them being Lynnwood, Oxford and Whitinsville. The head of the family laid the foundations of the great cotton mills bearing his name. At sixteen years of age Fred. Whitin entered the factory to learn the business at 75 cents a day, although his father was then a millionaire. Close attention to business after the father's death resulted in a general breakdown in health, and he was compelled to turn the business over to his brother, and travel. For three years he has resided in Honolulu, off and on, and has made investments here. He will probably continue to make Honolulu his residence for some time to come.

A GOOD FAMILY LINIMENT
Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, burns, scalds or similar injuries, which are of frequent occurrence in every household, there is nothing so good. It cools and soothes the wound and not only gives instant relief but brings out a speedy and permanent cure. For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

FOR RENT.

COMMISSIONER'S SALE

30 Shares of Stock

—OF—
MACFARLANE & CO., LTD.

In accordance with the terms of a certain decree of foreclosure made and entered in the Circuit Court of the First Judicial Circuit, Territory of Hawaii, on the 20th day of April, 1906, by the Honorable W. J. Robinson, Third Judge of said court, in a matter then pending before the said Judge, wherein J. J. Newcomb was complainant, and Henry R. Macfarlane respondent, notice is hereby given that the undersigned will, on SATURDAY, the 29th day of September, 1906, at 12 o'clock noon of said day, at the auction rooms of J. F. Morgan, No. 857 Kaahumanu street, in said Honolulu, Island and County of Oahu, Territory of Hawaii, sell at public auction thirty shares of the capital stock of Macfarlane and Company, Limited, evidenced by Certificate No. 19.

Terms of sale: Cash, United States gold coin; 10 per cent of the purchase price to be paid upon the fall of the hammer, balance upon confirmation by the court.

For further particulars, apply to Messrs. Thompson and Clemons, attorneys for complainant, or to the undersigned, at the auction rooms of Jas. F. Morgan, auctioneer, Kaahumanu street.

JAS. F. MORGAN,
Commissioner.

7507—Aug. 30; Sept. 1, 8, 22, 29.

COMMISSIONER'S SALE

Pursuant to a Decree of Foreclosure duly made by the Honorable J. T. De Bolt, First Judge of the Circuit Court of the First Circuit, Territory of Hawaii, at Chambers, in Equity, on the 5th day of September, 1906, in a cause entitled Ida E. Lamb, complainant, vs. Julia Noar, respondent, Equity Division No. 1518, notice is hereby given that the undersigned, Commissioner, duly appointed by said Decree, will, on SATURDAY, the 29th day of September, 1906, at the hour of twelve o'clock noon of said day, at the front (mauka) entrance of the Judiciary building, in Honolulu, Island and County of Oahu, Territory of Hawaii, sell at public auction the land and premises described as follows, to wit:

All that piece or parcel of land (part of the land mentioned and described in Royal Patent 1125, Land Commission Award 709 to Pehu as Anana 1), situate on the north side of Fort street at Kapaula, Honolulu, aforesaid, and thus bounded and described:

Commencing at a point on the new north line of Fort street where the boundary between Land Commission Award 734 to Pilko and Land Commission Award 709 to Pehu cuts said line, and running:

1. N. 15° 27' W. true 50.6 feet along L. C. Award 734 to Pilko to point on stone wall 2 feet makai of east end of same;

2. N. 78° 45' E. true 19 feet along Vierra and Emmes lots along fence 9 feet along Vierra and 10 feet along Emmes;

3. N. 86° 35' E. true 103 feet along Emmes lot along fence to present line of Fort street, thence

4. S. 61° 14' W. true 121 feet along new line of Fort street to initial point.

Area, 317 square feet or thereabouts, together with all buildings, improvements, rights, easements, privileges and appurtenances to the same belonging or appertaining or held and enjoyed therewith.

Terms of Sale: Ten per cent of the price bid to be paid upon the fall of the hammer; balance of purchase price to be paid in United States gold coin upon delivery of the deed by the said Commissioner. Sale to be subject to confirmation by the court. Deed at the expense of the purchaser.

For further particulars, apply to Holmes & Stanley, attorneys for complainant, at their office, Kaahumanu street, or to the undersigned, at the auction rooms of James F. Morgan, auctioneer, Kaahumanu street, Honolulu.

Dated at Honolulu, September 7, 1906.

JAS. F. MORGAN,
Commissioner.

Cor. Hotel and Bethel Sts.

If you were down town some day and heard that your house was burning and then remembered that your papers were between the mattresses wouldn't you regret not renting a box in the vault of the Henry Waterhouse Trust Co.?

TRANSPORT DANCE AT THE SEASIDE

A dance will be given at the popular Seaside Hotel this evening in honor of the officers and ladies of the transport Thomas. The wrecked passengers from the Sheridan will be especially welcome. The famous Russian refugee violinist, Mr. Gordon, will play during the intermissions of the dances. As usual, a cordial invitation to the public is extended.

BUSINESS LOCALS.

Go to Sachs' today. The Rough Riders are coming. Last day for Sachs' glove specials. Drink Coca Cola. 5c. at all soda fountains. Delicious, refreshing. Primo beer is brewed especially for this climate. It's pure and delicious in quality. Golden Gate compressed yeast always on hand at J. M. Levy & Co. Phone Main 144. Mules and Shetland ponies will be sold Friday at 12 o'clock at Fisher's salesroom. Selling more Opia 5c. cigars every day. Try one. Hayselden Tobacco Co., distributors. A fine lot of plants, trees, ferns, etc., will be sold by Fisher this Friday at his salesrooms. New hats for Regatta Day at Miss Power's millinery parlors, Boston building, Fort street. Ladies' sweaters at Sachs' in the Myrtle and Healan colors, for Regatta Day. See window display. A gold pin of wishbone design was found on the street. Owner can have same by calling at Advertiser office. A class pin, with initials "I. L. '03," was lost on Monday night. Reward if the finder will return the same to this office. Two young men are wanted as clerks in a hotel. Very good situation to right party. See our "Want" ads. for particulars. A well-known Honolulu boy desires a situation. Has had practical experience in bookkeeping and clerical work. See our "Want" ads. An electric fan will keep you cool. All you need is to attach it to your incandescent light wire—home or office—and turn on the button. The Hollister Drug Co. carry only one grade of drugs, chemicals, medicines and toilet articles—the best. Prices are always right. Oysters, steaks, chops, frog's legs, Welsh rarebit, served at the Royal Annex opposite the Police Station. Lunches 25c., dinner 50c. First-class tickets to all stations on the Oahu Railroad and Haleiwa coupon tickets are now on sale at the office of Trent & Co., 938 Fort street.

FRUIT PUNCH.

Squeeze the juice of four lemons and two oranges into a glass bowl or pitcher. Add a small can of shredded pineapple and put in any berries that you wish. Add a generous quantity of cracked ice and sugar to taste. A dash of rum, a small amount of water and a siphon of carbonated water will complete a delicious drink. If served from a pitcher, put a generous bunch of mint on the top. The French government has issued an elaborate treatise on this Territory, "Des Hawaï."

LOCAL BREVITIES.

Hawaiian Lodge holds a special meeting this evening, with work in the second degree.

It is stated that Secretary Atkinson will be absent two months and will not return alone.

W. H. Hoogs has announced himself as a candidate for the Senate, subject to the action of the convention of Republican delegates.

Philo, alias Phillips Freitas, is held at the police station to answer to a charge of assault and battery, the complainant being Mrs. Lucy Ross.

Koforoski, James Lucy, Robert Tillman, Fred Moberg and J. W. Birt were each assessed \$3 and costs yesterday at the police court for drunkenness.

August Hering disposed of a watch, the property of Louis Meyers, last January and was arrested for it yesterday. The timepiece was valued by the owner at \$160.

Mrs. P. N. Lillenthal, wife of the manager of the Anglo-Californian Bank of San Francisco, died in New York, September 1. She had been a sufferer for a long time. She was well known in Honolulu. Mr. Lillenthal is a close friend of Col. Macfarlane.

Sentence was suspended for thirteen months by Judge De Bolt yesterday in the case of Anin, an aged Chinaman, found guilty of selling liquor without a license. The jury, in finding the man guilty, recommended him to the mercy of the court.

It is reported that Collector of Customs Stackable has chartered a steamship and that the first detachment of Portuguese immigrants are now on the way to Hawaii from the Azores, via Cape Horn. It is said that about a thousand immigrants will be in the first lot.

Miss Marian Sterling of Oakland and "Toots" Cunha of Honolulu were married August 25 at St. Francis de Sales Church, Oakland, only the immediate family witnessing the ceremony. The couple will make their home in Grass Valley, where the groom is to engage in business.

E. T. Herrick, manager of the Seattle Brewing & Malting Company's branch in Honolulu, leaves for Seattle next month, to remain permanently away from the islands. Mr. Herrick does not know yet who will be his successor. He has been here about two years.

George Casson, who was in the chef's department at the Moana up to last February, returned on the Korea Monday from Paris. While in the French capital he took a special course in cookery under the chef of the Grand Hotel. He has returned with new ideas and goes into the kitchen of the Alexander Young Hotel.

Miss Julia Dean, the actress who was here with the Neill Company, was married in the latter part of August to Carme Caldera, leading man at the Chicago Opera House. The couple were married quietly either in Waukegan or Milwaukee. Mrs. Caldera is the niece of the original Julia Dean, a star of more than forty years ago, and the granddaughter of Edwin Dean, a prominent theatrical manager in the East early in the last century.

In polling jurors yesterday in the case of the Territory vs. Tai Sow, charged with selling liquor without a license, Judge Gear, attorney for defendant, questioned the talesman as to whether or not they were members of the Anti-Saloon League. He also questioned the constitutionality of the statute regarding the sale of liquor because it provided that no one could "dispose" of liquor without a license. He contended this could be construed to mean that one could not serve liquor to his guests at his own home.

Superintendent of Education Babbitt stated yesterday that there was a large increase in school attendance this term. He has not yet obtained actual figures. Some schools have received far more pupils than they accommodate. In some instances this is due to children going to schools without having received releases from the schools they attended last year. Unless the pupils can show a good reason for wishing to attend another school than the one he or she was in last year, the former teacher will not give a release.
