### KALUA IS INDICTED

WAILUKU, OCTOBER 23.—FORMER CIRCUIT JUDGE JOHN W. KALUA HAS BEEN INDICTED FOR PERJURY BY THE GRAND JURY OF THE SECOND CIRCUIT COURT. HE HAS RETAINED ATKINSON & QUARLES AND DAN H. CASE, LATELY COUNTY ATTORNEY, TO DEFEND HIM.

Kalua has been indicted in connection with the Cooper estate administration. He contradicted on oath evidence to the effect that he had obtained certain cattle from the estate, of which one Kapu was administrator, retained the livestock and never paid for the property. Kapu was ordered by Judge Kepoikai to be imprisoned for contempt of court on his failure to pay \$650 belonging to the estate into court, but, as a Star wireless message said on October 13, he was enabled to purge himself of contempt and escape jail.

through the generosity of Hon. H. P. Baldwin, who paid the money for him. Kalua is Republican candidate for county attorney of Maui under extraordinary circumstances. When the Republican convention nominated him he, at that moment, was sitting as a delegate in the Democratic county convention.

### THINKS IT LIKE THE THAW TRIAL

A HILO JUROR'S IDEA OF THE WYNNE MURDER CASE IN THE UNITED STATES DISTRICT COURT—THE INSANITY THEORY PUT IN A NEW FORM BY VON DAMM, WHO THINKS ALL CRIMINALS HAVE "MORAL SQUINT."

The selection of the jurors in the trial of John Wynne for the murder of Otter McKinnon, of the steamer Rosecrans, has not yet been completed and from the way in which things are going it seems doubtful if it will be today. The prosecution still has two of its five peremptory challenges left, while Attorney Thompson, for the defense, has used but ten of the twenty which he is allowed.

The men in the panel, as might be expected, are not very anxious to serve in a case like this where capital punishment is involved and some of those who have been drawn give one excuse and some another, varying between a dislike of the death penalty and a refusal to accept insanity as a mitigating circumstance in the case.

A. C. Roderiques, of Hilo, is evidently a reader of the newspapers and remembers what he had read. When being questioned by Attorney Thompson, in regard to his opinion on insanity as a mitigating circumstance or defense, he stated that from the questioning he had heard while waiting to be called he believed that Thompson was going to put up a defense similar to that which was used in the Thaw trial and that he would never vote for acquittal on the ground of temporary insanity. He was promptly challenged for cause and after a long argument, in which the two attorneys, Judge Dole and the talesman took part, was finally excused, without obliging Thompson to use one of his peremptory challenges.

In the examination of Bertram von Damm, his views on the average man turned out to be interesting and were backed up by Judge Dole. When being examined by Prosecutor Rawlins, von Damm stated that he believed that practically every man who committed a crime was insane in some manner at the time when it was done.

Thompson then took the matter up and got von Damm to state that he believed that "all of us have some moral squint." He went on to say that he thought that a criminal had rather more of a "moral squint" in some different direction. Later in questioning the talesman Judge Dole agreed that practically all men have a "moral squint." No full definition of the term was decided on.

It may be taken as certain that the trial will be a very long one and that it will be one in which the testimony of experts on insanity will be called, a great part of whose testimony will be of a technical character.

### THOUGHT MAN WAS MR. BODE

LADY VISITING HOUSE OF TRAGEDY IN COLLEGE HILLS, HEARING SCREAMS FROM FRIENDS, ATTEMPTED TO STOP MAN RUSHING OUT, UNDER IMPRESSION HE WAS HER CHUM'S HUSBAND—JAP SERVANT HELD ON SLIM EVIDENCE.

Hoyashi, Japanese, and until Sunday morning last, servant in the house of Mr. and Mrs. Bode, College Hills, this morning appeared in police court on preliminary examination before Judge Andrade on two charges. One charge is that of assault with intent to do murder and the other is that of assault with intent to commit rape.

Mrs. Bode took the stand and testified to the following effect. She and her husband retired Saturday night in their room in the front of the house, that evening being the first of their occupancy of the Judge Mathewman cottage. There was but one bed in the room and another was brought in and the two placed alongside the Japanese servant helping Bode and Mr. Bode's bed being placed nearest the door. There were no nets used and the beds were quite close. There was some commonplace conversation between husband and wife before retiring, in regard to reading, and then slumber claimed the pair.

Mrs. Bode, she testifies, was awakened by someone in the room and she saw a man, short and one who gave her the impression that he was the Japanese servant, with a long pole-like thing in his hand, held over his head, near her husband's bed; then she saw and heard the pole fall and strike something on the bed.

The man then went to her bed and took hold of her. He leaned over and took hold of her face. She screamed and struggled. He said: "You keep quiet and I will kill you." She said: "Very well, I will be quiet, but what do you want?" He stated his case, using a Japanese word which Mrs. Bode says she does not remember, but which sounded soft and seemed to have an "S" sound. He made signs and she again screamed, which was the signal for the man to again take hold of her face and neck, choking her and putting his fingers in her mouth. She felt her strength going, and screamed again.

Then she heard the voice of Miss Griffiths, her friend from Australia.

who was occupying the adjoining bed chamber, asking if she could come in and as to what the matter might be. Miss Griffiths entered and the man dashed by her.

Mrs. Bode would not say the defendant was the man, but she was under the impression at the time of the alleged assault that it was he, by the voice and clothes and general appearance. He had presumably gone to his room soon after eight o'clock Saturday evening, after telling her that the back doors would not lock.

In previous accounts Mrs. Bode did not say that she saw the man strike her husband, saying merely that she heard a blow as of something being hit that was not hard. Today she testified she saw the pole, or what then appeared to be a broom handle or perhaps the handle of an o-o or short spade exhibited in court, in the act of descent. She saw the man striking. Her husband was dazed and did not seem to realize what had happened.

Miss Griffiths testified that she heard screams as if they were very loud screams coming from a considerable distance. The wind was high that night and the windows were rattling. She went to the Bode room and asked if she could enter. As she opened the door, hearing Mrs. Bode scream, a man dashed out and she was under the impression that it was Mr. Bode himself and reached and grabbed him by the arm and wrist to hold him, but the man threw her off and ran down the passage. Then Mrs. Bode switched on the electric lights in her room and Miss Griffiths turned on the lights in her room, so that there was a fair light in the hallway. The man she saw, she says when the lights were on, was not Mr. Bode. He appeared to her to be a Japanese and his features were similar to the servant, the defendant, but the man in the passage seemed taller than the servant.

The testimony of the ladies was interpreted to Hoyashi. He said he had no questions to ask of Mrs. Bode. All

### ASTRAL DISMASTED; HONOLULU BOY SAFE

YOUNG PURDY, WHO ROUNDED HORN, IS WRECKED ON START OF RETURN VOYAGE, THE ASTRAL BEING TOWED TO NEW YORK—TERRIFIC HURRICANE BLEW FURLED SAILS FROM SPARS AND SHIP LISTED THIRTY-TWO DEGREES.

In the newspaper files from the coast today Major Purdy first learned that the American ship Astral, out of Baltimore for San Francisco on September 20, in which his son, Warren, was pursuing his marine education, was dismantled on October 4 in latitude 32 north, longitude 68 west, in a terrific hurricane and was on October 16 towed into New York harbor.

On Saturday last Major Purdy received a cable from his son dated October 16, at New York, with but one word, "safe," in the message. It was the first idea he had of anything being wrong with the Astral, for the inference was, since Warren was aboard the Astral and had undertaken to cable that he was safe, that something must have injured the vessel.

Major Purdy has received no further cable, the only information following the cable being the news contained in San Francisco papers of October 17 to the effect that the Astral had been dismantled in a hurricane.

The Honolulu boy's experiences in

the blow that nearly lost the Astral today were probably as exciting and fearful as one can imagine. The storm lasted three days and all canvas that was spread was carried away and even the furled sails were torn from the spars by the howling blast. The topgallant masts, with their gear, were carried away and the vessel took on a dangerous list of 32 degrees to port.

There has not been time for the Major to receive a letter from his son. He is in receipt of a letter from the captain of the Astral, written the day the ship left Baltimore, in which Warren Purdy is very highly commended by the master for his seamanship and general aptitude. The master declares that young Purdy is advancing rapidly a fact his big circle of Honolulu friends will readily understand.

### REPUBLICAN CAMPAIGN

W. H. Hoogs will preside at the Republican rally in the Orpheum tonight. Kaala's glee club will furnish music. Stenographers will be there to report Mr. Cathcart's speech verbatim.

On the platform will be seated the members of the Republican County Committee and of the executive committee of the Republican Territorial Committee.

The bulletin board at headquarters announces that other county nominees will address the meeting.

A. L. C. Atkinson, the Territorial chairman, will be back from Hawaii and Maui tomorrow morning.

Prince Kahanaloale, candidate for re-election as Delegate to Congress, is not expected to return so soon.

At a meeting of the Republican County Committee this afternoon a schedule of meetings for next week was arranged.

On Friday the candidates will start around the island. They will attend a great rally at Wailuku on Saturday evening.

At noon today a large Republican rally on the waterfront, at Oceanic wharf, was addressed by John A. Hughes, J. C. Cohen, J. C. Quinn and W. Kane.

### PARDON PETITION

Attorney Clem Quinn, who represented Sansui, the Japanese woman, convicted of having a still in her possession and also of distilling liquor without taking out the bond required by law, was spending his time this morning circulating a petition to President Roosevelt that she might be pardoned. When the case was completed and the woman had been found guilty on both counts Judge Dole gave her the minimum sentence on both counts, one month and \$100 fine in the first and six months and \$500 fine in the second.

It was called to the attention of the judge that the woman was destitute, had five children, the oldest being only a little over seven, and that her husband had been killed by a fall from an electric car only a short time ago. He stated at the time of giving sentence that he was compelled by law to do so, but that he would sign an application for pardon if the matter were brought before him. Attorney Quinn is obtaining the signatures of the members of the jury which brought in the verdict and also of Judge Dole and District Attorney Breckons and will forward the document to Washington at once.

### SUGAR ON A RISE

A private cablegram from New York City was received by H. Hackfeld & Co. this morning stating that the European beet crop has suffered from severe frosts. While the exact extent of the damage is not now known, the estimate is that the crop will be shorter than it was last year.

### ALAMEDA FROM COAST FULL UP

O. S. S. Alameda arrived at 7:30 this morning from San Francisco, leaving that port on October 17. She brought 73 cabin and 64 steerage passengers, a large general cargo and 427 sacks of mail. Much of the mail was for the Pacific fleet and was transferred to the Solace which sails this afternoon for San Diego and thence to Magdalena Bay.

BIG DEMAND.

The first shipment of the new crop of Tengu Japan Rice arrived a few days ago and is almost exhausted. Cables have been sent ordering large shipment which will arrive soon. K. Yamamoto, sole agent.

# ITINERARY OF ATLANTIC FLEET

MANILA, Oct. 7.—Rear Admiral Sperry has received from the navy department its approval of the itinerary of the Atlantic fleet from Manila to Hampton roads as submitted to the department by him.

The itinerary is as follows: Leave Manila December 1, arrive at Colombo December 14.

Leave Colombo December 20, arrive at Suez January 5.

In the Mediterranean the fleet will divide. The Connecticut and Vermont will go to Villafranca, arriving there January 14 and leaving January 27.

The Minnesota and Kansas will go to Marseilles, arriving January 14 and leaving January 27.

The Georgia, Nebraska and Kentucky will go to Genoa, arriving January 15 and leaving January 25.

The Rhode Island and New Jersey will go to Leghorn, arriving January 15 and leaving January 27.

The Louisiana and Virginia will go to Malta, arriving January 15 and leaving January 19; thence to Algiers arriving January 22 and leaving January 30.

The Ohio and Missouri will go to Athens, arriving January 13 and leaving January 25.

The Wisconsin, Illinois and Kearsarge will go to Naples, arriving January 17 and leaving January 27.

The first division will arrive at Negro bay January 31 and start for Gibraltar February 3. It will leave Gibraltar February 6.

The second, third and fourth divisions will arrive at Negro bay February 1 and leave February 6 for Hampton roads.

Strong objection is being made here to the departure of the fleet December 1 without a proper opportunity to carry out the program of entertainment which had been prepared and which was postponed on account of the presence of cholera in this city.

It is expected that representations will be made to both Rear Admiral Sperry and the navy department on the subject.

REVENUE CUTTERS RETURN TO STATIONS

SAN FRANCISCO, Oct. 7.—The revenue cutters that have been on duty in the Bering sea have been ordered home to their respective stations. Some of them will come here.

Others will go to Puget Sound. The gunboat Yorktown has already returned to Bremerton. The revenue cutters that have been on duty in the north are: Thetis, Bear, Perry, Hugh McCullough and Rush.

According to the reports made by the treasury department ships the five cutters have cruised more than 60,000 miles, have boarded 27 Japanese sealers, have supplied many villages with food, clothing and medical aid and have rendered \$500,000 worth of assistance to distressed vessels. The Bear arrived at Valdez September 25 for the purpose of prosecuting the crews of two Japanese schooners seized by the Bear for poaching.

while undergoing repairs, the principal item being the installation of fuel tanks and oil burning apparatus under the main boilers, supplanting coal. This is in the nature of an experiment in naval vessels on this coast, and the result will be watched with much interest by the navy department.

The following is the personnel of the officers of the Wyoming, with the exception of the paymaster, who has not yet arrived: Commander J. J. Knapp, commanding; Lieutenant Edward E. Spafford, executive officer; Lieutenant John J. Hannigan, navigator; Lieutenant Henry E. Rhoads, chief engineer; Dr. George S. Hathaway, assistant surgeon, medical officer; Ensign Carl T. Osborn, Warrant Machinist Peter Burke.

The crew consists of 185 men, which includes 61 in the engineer's division.

VALLEJO, Oct. 8.—The United States monitor Wyoming was placed in commission this morning at 10:30 o'clock at the Mare Island navy yard, this being her second commissioning since being completed by the Union Iron works. Extensive alterations and improvements have been made in her.

The trial of the Japanese will begin October 19 before Judge Reid in Nome. Assistant United States District Attorney Jeremiah Conboy of Alaska has been in San Francisco for several days and through him the possibility of a change in the charge became known. Conboy will leave in a few days for the north to participate in the trial.

VALLEJO, Oct. 8.—The United States monitor Wyoming was placed in commission this morning at 10:30 o'clock at the Mare Island navy yard, this being her second commissioning since being completed by the Union Iron works. Extensive alterations and improvements have been made in her.

The trial of the Japanese will begin October 19 before Judge Reid in Nome. Assistant United States District Attorney Jeremiah Conboy of Alaska has been in San Francisco for several days and through him the possibility of a change in the charge became known. ## SKETCHES OF HAWAIIAN LIFE

Letter from Molly Brown of Kipuka to Jane Older of Palamala.

Dear Jane: Mr. Voppel has gone and we are pastorless.

The Kipuka church still waits for some orator similar, or more so. I am sure that the public Assessor never taxed any one more than Mr. Voppel's sermon taxed our patience yesterday.

I wrote you that this minister who was to preach his trial sermon, was a "progressive Westerner," so he is. He doesn't need to preach over five minutes before one is impressed with a lively sense of his ministerial unfitness, and he becomes progressive from necessity. Any congregation that would make such a minister progressive is no better than an idle game of Eucher. Not a bit.

I have always resented the orthodoxy which claims that all who have accepted certain plain entertaining truths, must go and sit for an hour or more each Sunday in order to hear any old thing preach, no matter how or what.

It is not Christianity but a sure reflection on the hearers of it. I have sat for more hours than I care to remember, listening to something like we had last Sunday: a gathering of facts, dry as dust, joined to a text and altered to fit it like our old dresses are made to fit the new styles—something no more original than a young girl's commencement essay.

I came home somewhat ruffled, and told father that I should never go again. Think how much this hour would be worth tacked on to the last moment of a man's life, or if you will be so trivial, added to a short moonlight opportunity.

I said this to father, too, and he grunted out:

"Mustn't neglect your religious duty, child." He's been sitting in the rocker all morning reading his newspaper and smoking a fragrant cigar.

Then papa said he knew one old minister who always preached at least ninety minutes who divided his sermons into eight parts and preached them all once every week.

Papa said that he spent the hour using imaginary fists on the old preacher, knocking him out of the pulpit, blacking his eyes, then putting eight heads on him, or else choking him black in the face by drawing both ends of his white tie till the poor fellow quit. Wasn't Papa wicked? No wonder he is such a mischievous old man. This is what Papa actually said to me about it:

"I acknowledge that such a spirit was very unregenerate, but so was the sermon, if we are to believe that inspiration is the best thing for us. The hour or so had a damaging effect upon my character during that week. Had I staid at home and read a good chapter of any book almost, I should have felt human, and probably invited Parson C. in to lunch as he came along."

### FROM CANADA.

Mothers have the same terror of croup in all countries, but Chamberlain's Cough Remedy leads in popularity for a prompt cure of this dreaded disease. Mrs. Thos. Matthew of Caledon, East Ontario, says: "I have used Chamberlain's Cough Remedy several times, and I try to keep it in the house always. I can highly recommend it for children troubled with croup." For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

After the sermon Sunday Mrs. Thom's little girl said to her mother: "That man is no 'count for a preacher, he says too many things at once."

I have heard men talk a whole hour saying absolutely nothing and yet edify a large audience by raising and lowering his voice and pounding the Bible at the right moment.

They have the knack of taking your attention off from what they are saying and in reality interesting you in something else. It's a sort of sleight of hand trick, I suppose.

But those who haven't this ability—how sorrowful dull they are. My worst enemy (you know Emma Boll and I haven't spoken for a month), glanced over at me and smiled when Mr. Voppel said "How sad this would be to you and I" and I saw Dr. Blood shudder. We made a note of this you may be sure, for everything he can get against an American he will.

I thought when Mr. Voppel was introduced to me and said "that is," so often, and looked anywhere but in my eye (Let us pray right here:—"Dear Lord, forgive us for growing hypercritical and suspicious of these poor malapropos who come from Chicago and elsewhere to Hawaii. Here we are enjoying waves of climate every day, yet unwilling to welcome as pastor an ungifted stranger who comes to us, because he says to you and I "Dear Lord, we know that this young man wants to preach very badly (that is, he wants very badly to preach but preaches very badly), and like a majority of his fellows is without a good reason for his inclination, but let him go from here in peace, to Lahaina or wherever he may be needed;—give us more charity Amen." I feel like getting sixty lashes for criticising any person behind his back, and I actually think that the nearer one gets to the equator the more one loses of the milk of human kindness.

It all goes into the coconuts. Or is it age creeping on that absorbs fire and optimistic fervor? I should hate to be an extinct crater even as magnificent at Haleakala. However, I don't intend to do any more towards getting a pastor for the Kipuka church.

Mr. Voppel has gone to Kilauea, and if he falls into the fiery lake he loves to preach about, I trust they won't mention it to outsiders.

Your old friend.

MOLLY BROWN.

The Swain—Aw, wot's de use? I've whistled through me teeth, wagged me ears and stood on me head 'til I'm black in de face, an' I ain't made no impression on her nohow.

## TAFT PLEASED BY SITUATION IN OHIO

Republican Nominee for President Assured of Support in Labor Centers.

### THREE DAYS IN THE STATE.

Farmers Show They Are Opposed to Change That Would Imperil Prosperity.

WHEELING, W. Va., Oct. 14.—Judge Taft today concluded his three days' campaign in Ohio. What he thinks of the situation is set forth in the following statement which he issued tonight: "I have now spent three days in the state of Ohio, much of the time in industrial and labor centers, among men who, it was reported were disaffected and opposed to the Republican party and its candidate. Wherever I appeared I was cordially received and only an occasional interruption indicated that misrepresentation of the attitude of the party and its candidates had made a casual impression.

"It is my opinion that the attitude of labor toward the Republican party has been misrepresented quite as freely as that of the party and the candidate toward labor, and I find no reason for the belief that labor will divide other than on the lines that have heretofore divided it. In my opinion the nominal Republican labor vote will be cast as heretofore.

"In the agricultural regions it is quite apparent that the farmers are opposed to a change that will imperil their present prosperity.

"The situation in Ohio is entirely satisfactory and no one has any reasonable doubt but that the republican majority will be a substantial one. I certainly have no doubt on the subject myself."

### ROOSEVELT'S REGRETS.

MELBOURNE, October 14.—Premier Denkin today presented to the house of representatives the answer received from President Roosevelt in reply to Australia's invitation to visit the commonwealth on his return journey from Africa. Mr. Roosevelt expresses his appreciation of the courteous invitation, especially in view of the hospitality extended recently to the American battleship fleet everywhere in Australia, but he regrets that he will be unable to visit Australia on his way back from his hunting expedition. In

conclusion the president says he hopes at some future time to be able to come to "the giant young commonwealth of the southern seas, whose success is of the greatest importance to the civilized world."

### STOPPED IN TIME.

Little Willie, who for some months had invariably ended his evening prayer with "Please send me a baby brother," announced to his mother that he was tired of praying for what he did

not get, and that he did not believe that God had any more little boys to send.

Not long afterward he was carried into his mother's room very early in the morning to see twin boys, who had arrived during the night. Willie looked at the two babies critically and then remarked: "It's a good thing I stopped praying when I did."

GEORGE F. HENSHALL .....MANAGER  
FRIDAY.....OCTOBER 23, 1908

The process of improving local politics does not seem to advance. The main campaign cry so far is "anything to beat Cathcart." This may be an elevated, intelligent, reformatory and desirable method of conducting campaigns, but it doesn't seem to appeal to the voters.

## SETTLING OUR LANDS.

Director Frederick Newell in a very practical way confirms the view that all Hawaii needs, in order to settle public lands, is to be able to show Americans that we have land on which they can raise a profitable crop, and means of getting the crop to market. That is all there is between Hawaii and small farm prosperity. Thousands of Americans of means always jump at every land-opening proposition where it is shown that they can prosper on the land. The transportation problem, as The Star may be pardoned for reminding its readers it has contended all along, is the great difficulty. We have a lot of the richest land in the world lying idle. The United States has thousands of homeseekers who want to settle on such lands. But there is a lack of facilities for getting products to market,—both island facilities and more frequent and reliable freight accommodations between here and the Mainland are essential to farming prosperity, just as more frequent steamers are essential to the tourist trade. Director Newell has put his finger very quickly on the vital point.

Why didn't the Advertiser spring its Cathcart charges before Cathcart was nominated?—Star.

The Advertiser did a fairer thing? It laid the charges before the Republican managers, supposing that they would have the sense to secure the nomination of a less vulnerable man. They didn't. Then this paper appealed to the voters, as in duty bound—Advertiser.

It must be hard for the Republican committee to be patient under this sort of statement. The fact is that the Republican committee has been pleading with the Advertiser for days, asking it to tell what its charges are. And even in the same issue, and on the same page, on which it publishes the above-quoted statement that it "laid the charges before the Republican managers" the Advertiser says "it has more charges to make."

Yesterday's issue contained an interview with a Chinese editor visiting Paris, which discussed American interests in the Orient. In this issue will be found an interview with a Japanese visitor to Manila, who had written up the Atlantic fleet's visit to Australia, which touches on the same subject.

The Advertiser this morning announced the ticket it is going to support. And Laukea is not on it.

The Advertiser this morning formally announces Carlo Long as its candidate for county attorney, apparently regardless of whether Cathcart remains on the Republican ticket or not. How do the rest of the Republican ticket like this company? How many of them want to support Long, who flouted their own convention and broke all its pledges, and whose candidacy is now urged on the shocking grounds that if elected he will name a good deputy?

The contradictions in the positions taken in this desperate anti-Cathcart fight are so numerous and flagrant that space is lacking to point them out. The Star thinks that Mr. Cathcart should stay on the ticket. It does not congratulate the rest of the candidates on their lack of party courage or party spirit, as shown in the tendency to desert a fellow-candidate under fire. We think that Mr. Cathcart should be elected. The very character of the campaign against him should insure this, and probably will.

Even the Civic Feds are finding it impossible to follow the Advertiser. The Advertiser ticket published this morning contains at least one name against which the Civics and the Advertiser also, have charges more grave than any that have been brought against Cathcart.

Carlo Long—(by his campaign supporter): "Please elect me county attorney.—I'll get a deputy who can do the work."

The foxes of the ground have holes, the birds of the air have nests, —and Carlos Long promises to employ a competent deputy.

It is hardly proper perhaps to comment on pending legal cases, but when the Advertiser makes a political issue of them, they perhaps take a different aspect from the ordinary trials. It has called the Cathcart libel suits bluffs; it has repeatedly declared itself ready at any time to meet Mr. Cathcart, in court, on the stump, or in the press. He chose the court for a place and the immediate present for the time,—and his challenge was declined. Yesterday the reason given was that if trial began the Advertiser would have to cease criticizing Cathcart, for fear of contempt of court. This is not true. The admission is now made that the Advertiser's attorney's absence was a reason for delay. He returned this morning on the Alameda. Would it be contempt of court to suggest now that the case go ahead?

Weeks before Governor Frear spoke at the Orpheum nearly all the English newspapers in the Territory published the report that Link McCandless had promised every voter 160 acres of land if he was elected. He must have seen one or more of these published reports, yet he waits until the Governor exposes the "buncombe" to an intelligent Honolulu audience before denying the thing.

We would respectfully warn the Advertiser not to place too much reliance on Carlos Long's intimated promise to make Olson deputy if elected. Remember what happened to Long's other political pledges.

## AS TO SOME CAMPAIGN RUMORS.

This morning's paper gives currency to rumors that Cathcart planned to "pack" the Orpheum meeting with rooters and get an endorsement. Now it happens that the town had a rumor yesterday afternoon

that the Advertiser proposed to pack the meeting to have Cathcart hooted down. We don't think there is anything in either rumor. There are many rumors in circulation just now. For example, it is reported that Lane is supporting Long, whose withdrawal as contestant for the county attorneyship, in the convention, ensured Lane's nomination for mayor. In this connection, as regards candidates' disloyalty to one another, can it be possible that the Advertiser correctly says that Wise, candidate for sheriff, already under fire on the charge of having no sense of loyalty or good faith to any party, last night in a speech took occasion to prove his own disloyalty by attacking a fellow candidate? If it is true, surely there never was a man more misnamed than Wise, whose election simply depends upon how much party loyalty Republican voters can show.

A very queer "sense of fair play" makes the Advertiser delay making more charges against Cathcart until it is too late for him to answer them.

## NOT A DEMOCRATIC ISSUE.

The speeches of Candidate McCandless would convey the impression that the Democratic party alone stands for reform of the land laws of Hawaii, and there is an impression in some quarters that he made the issue. The fact is that in this matter he stands very much as Bryan does nationally, stealing Roosevelt's thunder and claiming to be the real heir to the "Roosevelt policies." Just as Roosevelt has accomplished practical results along the lines of Bryan's empty talking, the Republican administration here has already begun the work which McCandless claims for his own mission. Long before McCandless entered the field, the Republicans had a land commission at work,—a non-partisan commission, on which leading Democrats have a place,—taking up in a practical, businesslike way, the task of amending the local land laws. Long before McCandless began his campaign the Republicans were at work upon the very difficulties he appropriates for his campaign thunder. They are just as much for improvements in the land laws as the Democrats and far more able to carry out their programme. This was brought out in the remarks of Governor Frear and especially in the remarks of R. W. Shingle, candidate for the House, at the Orpheum Wednesday night. McCandless himself could not go further than these speakers in their zeal for changing some of the objectionable features of the present land system. The great difference is that while the Republicans are working practically, the Democrats are talking demagogically; McCandless' legislative candidates if any are elected will be at outs with the administration and in all human probability so greatly handicapped, while Mr. Shingle and associates will work in harmony, possessing power to put their plans into execution.

It may be granted that the Democratic citizens who are running for the legislature are not disposed to be over partisan and would possess such a sense of duty that they would try to legislate for the whole people and pass good laws even if of Republican origin. But it is human nature to make capital out of such measures, and the only effective system yet discovered of accomplishing results under a representative government is by party organization. If the legislature is to do anything next spring it must do it through one party or the other. As regards the land issue which the Democrats so ardently claim as their own, the record already shows Republican action, and the platform and ticket of the Republican party, together with the fact that the executive is Republican and Senate nearly sure to be, make the Republican party the most likely one for action.

Of course Long's promise to employ a lawyer as deputy in the event of his being made county attorney may aid him in the campaign, —and it may not. What are the voters to think of a Republican who breaks two pledges to run for a job and then so far stultifies himself that a campaign cry is made of his willingness to employ a competent man to help him do the work?

"Vote for Long." Why? "Nana ka ihi, and though he isn't lawyer enough to hold the job he'll get a good competent deputy."

The idea that a newspaper threat to oppose a candidate unless he withdraws is a violation of the election laws is quite absurd. If such an idea should prevail it would simply destroy the liberty of the press as far as political affairs are concerned. If a threat to oppose is wrong, so is a promise to support. The Star claims its right to threaten to oppose pledge-breaker Long unless he withdraws, also to oppose Laukea unless he withdraws, and it feels itself safe within the law in promising to support the Republican ticket generally.

## NEW ERA IN HAWAII FRUIT CULTURE

By J. E. HIGGINS, Horticulturist, Hawaii Experiment Station, United States Department of Agriculture.

Fruit production is destined to become one of Hawaii's most important industries. Already pineapple growing has assumed very considerable proportions, and there are today between two thousand and three thousand acres under successful pineapple cultivation, where a few years ago the land was thought unfit for any purpose other than grazing. The pineapple area is rapidly increasing and conservative men believe that the industry is as yet in its infancy.

Other fruits, it is believed, will repeat the history of the pineapple in Hawaii. Together with the soil and that of arrival in San Francisco, moisture requirements, the absolute gust 21. **THOUGHT MAN WAS MR. BODE**

(Continued from Page One.)

he asked Miss Griffiths was it she believed he was the man she saw in the passage and she answered that the face was similar but the man in the passage seemed to be taller.

Huyashi has witnesses who testify to seeing him go to bed at midnight of Saturday at a friend's and to have seen what they believe to be him lying in a bed at 4 o'clock in the morning. The Japanese is in no way perturbed on account of the charges made, calmly declaring he was not on the premises.

The Japanese defendant took the stand and told the story of his alibi. It appears at present like a good, strong alibi. Three witnesses supported him, though they were not clear on some points.

Judge Andrade decided there was sufficient appearance of question to hold the Japanese for the grand jury. Mrs. Bode and Miss Griffiths were trained nurses and were together for several years. Miss Griffiths arrived here but a few days ago in the S. S. Aorangi, en route to Canada, and stopped over with the Bodes for a rest.

Mr. Bode says he knows nothing of the events of that night except that he was hit.

The evidence that holds Huyashi to the grand jury is that Mrs. Bode says his voice and shape are like those of the man in the bedroom and that Miss Griffiths says the features are very similar, but the man in the house was taller than the servant who is held.

It is said that there had been no quarrel between the Bodes, nor had the Bodes had any trouble to amount to anything with the Japanese servant.

Just why Miss Griffiths should make a grab to hold the man rushing out of Mrs. Bode's room when she says she thought that man was Mr. Bode may be explained later.

In the meanwhile the Jap is held; Bode says he knows nothing; Mrs. Bode accuses only the voice and general shape of the Jap, and Miss Griffiths, who says she hasn't seen many Japanese, feels that the strange man she tells about was bigger than the servant who is accused, although the features were much alike.

**GAMBLERS PAYING**

The Territory is at last reaping its reward from the Grand Jury raid on Chinese gamblers which was made nearly a year ago. Yesterday, though an appeal in the matter is still pending, the 68 men were given up to the custody of the High Sheriff by their bondsman, Lee Chuck. Up to noon today twenty-five had been arrested and all but five of these paid their fines and were released. The five are still languishing in jail, though their friends will probably get them out during the day.

**GOODWIN EXPECTED TO WED FAIR EDNA**

COMEDIAN MAY JOURNEY TO LONDON IN NEAR FUTURE TO JOIN MISS GOODRICH.

SAN FRANCISCO, Oct. 4.—Despite all denials by Nat C. Goodwin of any desire or intention on his part to wed Edna Goodrich, the beautiful actress whose engagement to J. Harry McMillan was recently broken off and who has been credited with having come between Goodwin and Maxine Elliott, the announcement of Goodwin's marriage to Miss Goodrich may be expected in the near future.

While scoffing at the rumors of the attachment between himself and Edna Goodrich, it is known that upmost in Goodwin's mind is the thought of the one time Flordora girl, and there can be little question but that his divorce from Maxine Elliott was secured with the end in view of claiming the fair Edna as his wife.

When last in London Goodwin in the presence of some well known Englishmen and a number of Californians, openly admitted his infatuation for Miss Goodrich and submitted to a good natured chaffing concerning such an attachment. It is known by Goodwin's close friends in this city that Miss Goodrich was one of the first to be apprised of his divorce from Maxine Elliott, and that he has been in correspondence with her since then, although the divorce is but a few days old.

Under the laws of Nevada Goodwin's divorce is absolute and he is free to marry again at any time. He is still in San Francisco, but it is no secret among his friends that his heart is in London, where Miss Goodrich is now stopping nor would it be a surprise to them should Goodwin leave for the east and sail for England within a few weeks.

In the meantime Goodwin still denies.

## CATS CONTEND FOR HONORS

PACIFIC GROVE, Oct. 16.—Ten thousand dollars' worth of cats are contending for honors and cups at the first annual show of the Del Monte cat club, of which Miss Gertrude Blaine is superintendent. Mrs. Leland Norton will judge the exhibits which comprise cats in diversity of breed, color, age, size and price. Several Persians or Angoras run up to the value of \$500. The principal exhibitors are ladies from San Francisco, Los Angeles, San Jose and Watsonville.

# WIRELESS BETWEEN MANILA AND OAHU

WHAT FRISCO PAPER SAYS OF NEXT MOVE AND OF BRIDGING OF GAP BETWEEN COAST AND ISLANDS BY AEROGRAMS—LONG MESSAGES EXCHANGED BETWEEN OPERATORS ON RUSSIAN HILL AND AT KAHUKU—TRANSPACIFIC RECORD

SAN FRANCISCO, October 12.—An indistinct clicking—then a jumble of Morse telegraphic dots and dashes—all in an unfamiliar tone—and finally, slowly and clearly, the letters A-I-o-h-a came, telling Lawrence Malarin, night wireless operator on Russian hill, at 1:20 o'clock yesterday morning that San Francisco and Hawaii were joined in wireless telegraphic communication. Congratulatory messages followed, and for more than an hour and a half San Francisco spoke with Kahuku, a bleak little station on the extreme northern shore of the island of Oahu, upon which is also located Honolulu. It meant that a mysterious electrical force was wafting across the Pacific, for the first time in the history of wireless telegraphy on this coast, intelligent messages, covering a distance of 2,098 miles. At the same time the operator in the Hawaiian islands plucked up messages from Bering sea. And the operator at Kahuku, Arthur A. Isbell, was sending the messages on half power only. Malarin was astonished when he learned this, and he afterward expressed the opinion that Hawaii and Manila would soon be joined in wireless communication and that a more wonderful feat would be accomplished—the establishment of trans-Pacific wireless communication.

A few months ago the station at Kahuku sprung up, but the apparatus was not in place until late Saturday night. Then it was that Isbell, anxious to establish the new record, began flashing out his Hawaiian greetings. He sent them out in all directions, hopeful that some one would pick them up and give him that satisfaction he desired.

Malarin in his lonely office on Russian hill was attending to the usual nightly messages that go up and down the coast, when the jumbled sounds tempted him to drop the routine work. He listened and was about to give up, believing that some young experimentor about the bay was "butting in," but "Aloha"—the Hawaiian word of welcome—impressed him as strange. He listened on and was rewarded with

## WHITNEY'S HORSES ON BOARD SHIP

NEW YORK, Oct. 15.—The plans of the shipment to England of Harry Payne Whitney's American racing stable have been completed, and today 23 were loaded on the Atlantic transport fine steamer Minehana in headiness for sailing Saturday. The selection of the horses was made by A. J. Joyner, trainer of the Whitney stable, who also had charge of the loading and of the horses en voyage to England and will train them after their arrival there.

The horses that are to make the voyage are chiefly yearlings, 16 of the number being material for 2 year old races in 1909. The older horses are Delacy and Baby Wolf, intended for use as trial horses; the 3 year old Stamina and the 2 year olds Bobbin, Persens, Field Daisy and Hillside. The stable will take its old staff of grooms and exercise boys and the American blacksmith to shoe the horses, but no arrangement has as yet been made for an American jockey.

With the Whitney horses will go Priscillian and Antaeus of August Belmont's stables, and Fair Play, another of the Belmont horses, which will be left behind to race at Belmont park Saturday, will be shipped to England later to join the establishment.

## SPORTING SPOUTS

Tennis Tournament finals will be played off tomorrow on the Beretania courts and it will be decided whether Castle or Cooke is to go up against Roth for the championship.

The "Tisers are planning to do the Ewas at ball.

Boxers Reilly, Lahey and Smith leave for the coast in the Alameda next week. Honolulu will miss three good sports.

The animals will be put through their various tricks and paces tomorrow.

Mr. Oba says he is not an expert on navy matters, but the clean condition of the battleships after their long and trying voyage was a revelation to him in Japan. It was generally expected that the fleet would be ready for docking on their arrival in Australian waters, and the fact that no repairs whatsoever were needed greatly impressed him. He sent a cablegram which cost him fifty pounds in English money to his newspaper, setting forth the trim condition of the fleet and the fine presence of the officers and men.

Mr. Oba readily discussed the contrasts presented by the American navy with that of Japan, instancing in particular two points. He was surprised to find wives of the American navy officers touring around after them as on the Kumano Maru. "For instance," "It struck me as curious," he remarked, "At Sydney and at Melbourne, there they were to meet their husbands when the fleet arrived at these ports, and several of them travelled with me to Manila to await their husbands here. That would not be permitted by the Japanese government."

JAPANESE DISCIPLINE. According to Mr. Oba, the sailorman of Dai Nippon has to toe the line of discipline much more strictly than the American bluejacket. At Melbourne over 100 sailors overstayed their final liberty and were left behind. Some of them took train to Melbourne and others got there by boat in time to report aboard their ships before anchors were lifted from Australian waters, but a few lost connections altogether and were brought to Manila on the Kumano Maru. Japanese sailors dare not break the rules like that, Mr. Oba remarked.

HE KNOWS WAR. The editor of the Osaka Daily News was with Kuroki and the first army corps up to the battle of Mukden. He knows what war is, and he smiles at talk of war between Japan and the United States. In Japan, he says, the war talk is confined to a small section of the Tokio press and people whose influence does not amount to much. The Japanese, as a body, are most friendly to America and Americans, and he instanced the enthusiastic reception given Mr. Taft. "The welcome we are preparing for the fleet will show how we feel towards your people," said Mr. Oba. "We are going to do our best to make the Tokio visit the great feature of the long cruise."

AMERICAN TRADE IN CHINA. Mr. Oba said a word or two about American trade in China. He told the representative of the Cablenews-American that Japan has no intention of discouraging American competition, but on the contrary the statesmen of his empire are anxious for it. "There is room for all," he observed, "and in Shanghai and Tientsin the German merchants are showing how much can be done in the extension of trade with the Chinese. We are anxious to develop the same competition in Manchuria, and the American merchant is sure of an open field there."

While awaiting the arrival of the fleet, Mr. Oba will see as much as he can of Luzon through journeys up country on the railroad lines. And he will write the facts as he finds them for the information of the readers of the Osaka Daily News.

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

## JAPANESE EDITOR GIVES HIS VIEWS

He is Greatly Impressed With the Condition of the Atlantic Fleet.

AMERICAN DISCIPLINE MILD. Room for All Trading Nations in China and Open Field in Manchuria.

MANILA, September 26.—Mr. H. Oba, editor of the Osaka Mainichi (Osaka Daily News) arrived in Manila yesterday on the Kumano Maru. He is here to cover the visit of the American battleship fleet for his newspaper and between now and October 10, when he leaves for Japan, he intends to see as much as possible of this country and write his impressions in the Mainichi.

Mr. Oba has been a spectator of the Australian welcome to the fleet and is the first Japanese newspaperman who has visited the Commonwealth. He gives a glowing account of the festivities at Sydney and Melbourne, but with the customary tact of the polished Japanese he expresses the hope that the Tokio reception will eclipse the Southern Cross displays. And as to the ships?

ADMIRE THE SHIPS. Mr. Oba says he is not an expert on navy matters, but the clean condition of the battleships after their long and trying voyage was a revelation to him in Japan. It was generally expected that the fleet would be ready for docking on their arrival in Australian waters, and the fact that no repairs whatsoever were needed greatly impressed him. ## SCOUT CRUISER CAN GO SOME

Entertainment of United States Atlantic Fleet at Yokohama.

CLEVELAND LETTER FORGER. Woman Suffragists Sentenced For Disturbing Session of Parliament.

NEWPORT, October 23.—The new scout cruiser Chester, in her trial trip yesterday, made twenty-three knots for twelve hours against a forty-mile wind, and twenty-six knots with the wind.

The Chester, a sister ship to the Salem and Birmingham, has a normal displacement of 3750 tons, and a complement of 356 men. Her length is 420 feet, beam 47 feet, maximum draught 18 feet. She mounts two five-inch guns, six fourteen-pounders, and has two submerged torpedo tubes.

FLEET FESTIVITIES. YOKOHAMA, October 23.—Admiral Togo will give a reception to Admiral Sperry on board the flagship Mikasa today, to be followed by a smoker for the officers.

Three hundred school girls were entertained on board the United States flagship Connecticut yesterday.

FORGED CLEVELAND LETTER. NEW YORK, October 23.—Dayton, the forger of the Cleveland letter in support of Taft, has been arrested.

TO GUARD BALLOTING. NEW YORK, October 23.—The Democrats have appointed five hundred lawyers, headed by Alton B. Parker, to safeguard the ballot in the interior of the state.

SUFFRAGETTES IN JAIL. LONDON, October 23.—Seventeen suffragettes have been sent to jail for disturbing a session of parliament.

TYPEHOID IN MONTREAL. MONTREAL, October 23.—Typhoid is epidemic here owing to impure milk. The hospitals are filled.

FIRST SNOW OF SEASON. WINNIPEG, Manitoba, October 23.—Ten inches of snow have fallen, and the railroads are crippled.

## REPUBLICANS HAVE LARGE RALLIES

Two large meetings were those held by the Republican party last night, at Alapai and Luzo streets, Punchbowl, and at Iwilei.

Besides candidates, John Lucas, W. T. Hawkins, W. H. Hoogs and David Kekaha spoke at the Punchbowl meeting. John A. Hughes was not well when he spoke at Iwilei, so did not go to the other meeting. Most of the two relays appointed for the meetings went from one to the other.

Messrs. Hoogs and Lucas gave straight ticket talks "from the shoulder." Candidates called at Punchbowl were Harry von Holt, Jim Quinn, E. W. Quinn, John H. Wise, R. W. Shingle, Norman Watkins, D. Logan and A. D. Castro.

J. A. R. Vieira, who ably presided, delivered a good address at the close of the meeting.

Captain J. Nahora Hipa presided at the Iwilei meeting. He introduced the speakers in English with comical personal allusions that kept the crowd in good humor. Eli J. Crawford with his usual ability interpreted the English speeches. The audience composed of both natives and whites was exceedingly attentive and gave the speakers a cordial reception.

Good music was provided at both meetings.

Mr. Shingle at Punchbowl was eagerly listened to while recounting what the Republican party had done toward preserving the Punchbowl homesteads to the thrifty Portuguese who had made the region a garden during their leasehold tenure.

Mr. Wise made a vigorous reply to the insinuations that he was anybody's tool. He also justified his association with the uprising of 1895 on the analogy of the American civil war.

Mr. Castro quoted Secretary Garfield's message to Hawaii indicating a Republican policy of ultimate statehood. It would be wise, the speaker advised, to send a Republican Delegate to Congress to promote the settlement of the Punchbowl homesteads question in favor of the tenantry.

Mr. Watkins drew a parallel between a business corporation and the municipal government, arguing for a businesslike administration.

Mr. Logan introduced, as part of his policy, at least a beginning on the paving of the streets of the business section of Honolulu.

## You Want Your Ads Read

## Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco, The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

## DIRECTOR NEWELL ON COLONIZATION

Frederick Newell, Director of the United States Reclamation Service, gave an important talk before the Promotion Committee yesterday. The meat of his address is found in the following extracts:

"I was sent here by Secretary Garfield because a strong impression had been made upon him of the possibilities here and the necessity of the Federal government giving at least its moral support to the Territorial government in its attempt to settle the problems of populating these lands. We want to get more citizens here of the right type. We want to protect the rights of the natives just as we protected the rights of the Indians and see that they get homesteads and we want also to get the best type of American farmers here to carry out the traditional American policy of small holdings with their owners living on them and developing the lands and the country. We do not want homesteaders to take up lands with a view to selling out, nor those who want large tracts, but tracts large enough to live on and make a living on.

"There are hundreds of thousands of such land seekers. My office is in receipt of two thousand letters from such people every week. For instance, here is a clerk in a Boston store who has been brought up on a farm and wants to get back to the land; here is a farmer in Minnesota, tired of the long, hard winters, who wants to get into a better climate and asks us where he should go. That class of men write to us. We are advising them to go to Southern California, to Oregon or Nevada, and there is no reason why we cannot advise them to come to Hawaii, for you have a climate here that they would thoroughly enjoy. Most of these men are middle-aged and have some money. Now, if you can tell them in a general way where they can go to get land it will help to settle your problem.

"A man does not want to come here and have to ramble all around the islands looking for a piece of land that will suit him and then find, when he comes to buy, that he has to go in and bid against others for it or that the price has been shoved away up on him. He wants to know something definite. He wants to be told, for instance: 'There is land that you can get on the Waimea plains, or such and such tracts in Hamakua are on the market.'

Byron O. Clark related the experiences he had had in Hawaii in the matter of raising and marketing fruits. His most important statements had to do with the possibilities of a banana market in the Northwest. Last year, from Bluefield, over two million dollars worth at wholesale of bananas came into Seattle, Portland, Spokane and Vancouver. These bananas were brought to New Orleans on steamers and hauled across the continent and landed for one and a quarter cents a pound, while the rate from Honolulu to Seattle was two cents a pound. Even with this disadvantage, the Hawaiian banana could capture the field on quality alone, while with equal freight rates and an assured steamship service the Hawaiian fruit could drive the Florida fruit and the imported banana out of the market as far east as Winnipeg.

## STARTLING CHARGE AGAINST H. GOULD

NEW YORK, Oct. 2.—New and startling charges against Howard Gould are contained in an affidavit by Mrs. Katherine Clemmons Gould, read before Justice Giegerich in the supreme court today.

Two affidavits, one by the Rev. Father Murray and another by Michael Doody, employed as a doorman at the Hotel St. Regis, were read to show that Mr. Gould had employed James Kennedy, the house detective of the hotel, to obtain evidence against Mrs. Gould and that Kennedy had attempted to bribe Doody to make false statements.

Doody had consulted Father Murray (not in confession) about the matter and, according to the affidavits, had been offered \$2,000 by Kennedy, who said that he was to receive \$5,000 for his services.

Attorneys for Mr. Gould argued in favor of the motion to strike out certain allegations in Mrs. Gould's complaint and Justice Giegerich gave the lawyers until next Tuesday to submit briefs.

Mrs. Gould repeated her accusations concerning her husband's cruel treatment and attempt to drive her from Castle Gould, their magnificent country home.

## THE DEMOCRATS

L. L. McCandless, Democratic candidate for Delegate, made a lengthy reply to Governor Frear's Orpheum speech at the meeting of his party on Punchbowl last night. He repeated his denial of the 160-acre promise to voters on the other islands.

Other speakers were Edward Ingham and W. H. McClellan.

Another Democratic meeting was held at Kailih, addressed by the Representative candidates and J. J. Fern, C. J. McCarthy, R. H. Trent, Judge Edgings, F. R. Harvey, H. T. Moore, J. Hanapi, E. M. Watson, H. N. Crabbe, J. Kuba, J. K. Paele, A. V. Peters, M. E. Silva, J. C. Anderson, G. K. Lowe and W. Jarrett.

## Politics

This evening at the Orpheum theatre County Attorney Cathcart is to deliver an address explanatory of his position in the campaign, and replying to the various charges which the Advertiser has brought against him.

After the meeting the Republican committee will hold a session, to consider the situation. The matter of Cathcart's withdrawal has been brought up, and the committee consented to delay a final decision, though it sustained Cathcart after first hearing the main charges, until he had replied publicly. After hearing his speech this evening, the committee will decide whether any action is called for.

A very marked trend of public sentiment in favor of Cathcart was today's evident development in the political situation. His challenge to the Advertiser, that it go into court and meet him at once, had a deep offset to turn public support his way. After repeatedly saying it was ready to meet him in court, on the stump or in the press, the Advertiser declined his challenge to an immediate trial, on the ground that if the trial of a case began it could not, without being in contempt of court, comment further upon Cathcart.

"The excuse is simply nothing," said Cathcart. "It is strange, also, that the Advertiser should suddenly become afraid of contempt of court. It wasn't before."

"The fact is that it is just as much contempt of court to comment now as it would be if we went ahead with a trial. The cases are pending now, and contempt exists just the same."

"I offered to try one case, to let the Advertiser choose which one. If it fears contempt of court, it can take up a case, drop comments on that one, and go ahead and say all it wants about the others, or about any new stuff it wants to bring out."

Both among the candidates and among the public generally, there is marked trend of popular support to Cathcart today.

Some prominent Republicans want Cathcart to withdraw, for the sake of harmony in the ranks. Others declare that he ought to stay with the game anyhow, and if general expressions on the street and among business men count for much, he has the strongest kind of support.

Mr. T. E. Robinson, formerly registrar and business agent of Kamehameha Schools, but who has been absent from the Islands for several years, returned on the Alameda. Mr. Robinson is a graduate of the Law Department of Stanford University, and has recently occupied the position of Assistant District Attorney of Santa Barbara county in California. He comes to Honolulu to manage the title abstract and law department of the Trent Trust Company.

A most interesting entertainment was given by Commodore Buchard of the French cruiser Catinat, to the guests who were invited to his farewell dinner last evening, this being of scenic stereopticon views of the various places of interest visited by the ship during its cruise through the Pacific. The guests were Captain and Mrs. Reist, French Consul and Madame R. Menant, with her mother, Madame Ruiz, Portuguese Consul General Canavarro, British Consul and Mrs. Forster, French Vice Consul and Mrs. A. Marques, Mr. Tarn McGrew and three staff officers.

## KALUA IS INDICTED

(Continued from Page One.)

tion of Governor Carter, on charges of misconduct.

Kalua has been in the public eye for many years, having sat in the legislature under different regimes dating back a quarter of a century. There has in fact in that time never been a political campaign in which he has not more or less figured.

A crowd of small boys were gathered about the entrance of a circus tent in one of the small cities in New Hampshire one day, trying to get a glimpse of the interior. A man standing near watched them for a few moments, then walking up to the ticket-taker he said:

"Let all these boys in, and count them as they pass."

The man did as requested, and when the last one had gone, he turned and said:

"Twenty-eight."

"Good!" said the man. "I guessed just right," and walked off.

APPLIED TOO WELL.

A clergyman in an interior town married a woman from whom he received a dowry of \$10,000 and a prospect of more. Shortly afterwards while occupying the pulpit he gave out a hymn, read the first verse and proceeded to read the fifth, commencing:

"Forever let my grateful heart," then he hesitated and exclaimed: "The choir will omit the fifth verse." Some of the congregation read the verse for themselves and smiled as they read:

"Forever let my grateful heart  
His boundless grace adore,  
Which gives ten thousand blessings now  
And bids me hope for more."

One day as a minister was passing down the street in Scranton where he

resided he was seen by some hangers-on at a public house which he was approaching and one of the number called to him and said:

"We have a dispute here of some importance, and would like you to decide. It is in relation to the age of the devil. Can you tell us how old he is?"

"Gentlemen," said the minister with dignity, "you must keep your own family records."
