MURDERER'S FRIENDS JAILED

AUTOIST'S ASSAILANT GETS OFF CHEAP

POLICE THINK GRACE HAS BEEN LOCATED IN THIS CITY

From information received by the police from a lady who lives in the vicinity of School and Nuuanu streets, it is quite possible that the escaped murderer, Anderson Grace, will be in custody before the day is over.

For the last two months three negroes, who are known to be friends of Grace, have been seen leaving the On Tal camp two or three times a day with food that they took to some place along the Nuuanu stream between School and Kuakini streets.

About a week ago a number of children were playing along the banks of the stream when they noticed the queer actions of a negro who seemed to be anxious to get out of the way. The children reported the matter to their parents who in turn notified the police who have been daily watching the movements of Sticker, Dorsey and Johnson.

A few minutes after noon today U. S. District Attorney Breckons, Sheriff Jarrett, Chief McDuffie and officers Kellett and Olson made a trip

up to the creek, where a search was made for the man who is believed to be in hiding.

Dorsey and Sticker have already been arrested and ordered held under investigation until Johnson is found.

As soon as he is in custody an examination will be made for the purpose of finding out what they have been doing with the food and drink that they have been daily seen taking to some spot along the bank of the Nuuanu stream.

Both McDuffie and Jarrett feel certain that Grace is the man that has been getting the benefit of the food that has been delivered every day for the past two months. Sticker caused a good deal of excitement along the streets as he was being brought to the receiving station, as some one remarked that it was Grace, and by the time that the police station was reached fully a hundred people were on hand to see the man who has been causing the police a lot of worry.

QUINN SAVES LIVES BY BEING BEATEN

Everett Richardson who beat up Mrs. Willie Holt and chauffeur Jim Quinn was fined the sum of \$30 in police court this morning before Judge Andrade.

Judge Andrade intimated that had it been a case of a scrap in which he was a referee, instead of a case in police court, in which he was sitting as magistrate, he would have called the matter a draw.

It seemed that this was based somewhat on the appearance of Richardson who had a scratch or two on his face, but Quinn declares he never scratched Richardson, and the only other theory is that the lady herself put the scratches on the face of the man who admired her to such an extent that he half killed her.

This is the case growing out of the affair of the lady in question hiring

an auto and taking along Everett Richardson who amused himself by beating the wife of the man he had already beaten and driven out of town, and then beating the chauffeur.

If Quinn had been armed it would have been unfortunate for Richardson who took advantage of Quinn and smashed the chauffeur in the eye when the machine was being driven at fifteen miles an hour up Manoa valley.

Had Quinn paused to hit back at his assailant, the machine would have carried everybody into the ditch.

Quinn saved the lives of the occupants of the auto by refusing to retaliate when he was brutally assaulted.

It is safe to say that none of the crowd that Quinn had on the trip when he was assaulted will ever travel in his auto again.

Ancient Love Sues The Dead

Long years ago in old New York the late Colonel Norris, late millionaire ranchman, loved a lady.

Times were different then and he was not wealthy.

There was a business transaction in which money was passed.

Norris is supposed to have received the money, whether to use it in discovering new lands and new opportunities, or to buy up the Sandwich Islands, which had been placed on the map not so recently, is not known, but now that the famous old hermit and bachelor ranch king, known in Hawaii almost as well as Diamond Head is known, is dead and gone to some further and more fertile ranch beyond the skies, there is today filed in circuit court a suit whereby it is sought to enjoin Norris' beneficiary from hypothecating the rich lands left to him by the dead Colonel, for that the lady plaintiff in old Manhattan claims that Norris owes her something like \$64,000.

The girl's name, she was a girl when Norris met her, is Emilie L. D'Herblay, and she sues Macomber to whom Norris left his big estate for one Jollan's consideration, for that she may get back what she alleges she lent to Norris and what she alleges Norris never paid back to her.

Land involved as security in the

suit, or presumable security, amounts to 184,296 acres.

It seems that Norris executed two notes to the plaintiff at \$16,000 each, totalling \$32,000, and she wants interest at 6 per cent, interest amounting, so the claim says, to \$34,240.

It was before the civil war that Norris met up with the plaintiff and the trouble was started. Whether they loved or not, is not known, in any event there were breach of promise proceedings and in one of the phases of the long hanging suit it was claimed by Norris that the woman who claimed that he had not kept faith with her was not the woman with whom he had been acquainted, in other words he claimed at one time that some other woman was trying to impersonate the woman he had once known, the real Emilie, and that the real Emilie was dead long before.

The lady of New York, quite an aged lady now, claims that the late Colonel Norris' action in giving over his valuable ranch in these Hawaiian Islands to Macomber for \$1 was an attempt to defraud her out of her just dues on the notes he had years ago signed and given to her, and she wants Macomber restrained from wasting the land or otherwise spoiling what she considers to be her security.

PORTIA'S PLEA IS FAIR BUT FAULTY

In police court this morning Mrs. Fred Church, charming and enthusiastic, told His Honor, Judge Andrade, all about how she thought Captain Soule was brutal in allowing his Japanese yard boy to drive a horse which she claimed was lame.

She put up a plucky talk, but she was evidently mistaken.

Being enthusiastic as a member of the Society for the Prevention of Cruelty to Animals, she was thorough in her prosecution and deeply impressed the court and those present

with her Portia-like plea for the welfare of dumb brutes.

However, Captain Soule showed clearly that the horse was not lame, but that one of his legs was longer than it really ought to be and that this circumstance might have given the appearance of lameness.

Captain Soule was discharged with all honor, though Mrs. Church was none the less appreciated for her good work for the animals who cannot speak for themselves.

The judge knows the horse, living next door to it.

movable away. For ten days no one expected that the ship would be able to survive the weather that was the worst that the crew and officers had ever experienced.

The Baptiste will unload her cargo as quickly as possible at the Hackfeld wharf and will probably proceed to one of the coast ports to load grain for Europe.

NEW RICE MILL.

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

A PRICELESS POSSESSION.

If the supply of Chamberlain's Colic, Cholera and Diarrhoea Remedy should suddenly become limited, many homes would consider a bottle of it to be a priceless possession. It is sold in almost every civilized country, and never fails to give satisfaction. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

JAPANESE POACHER SEIZED UP NORTH

(Associated Press Cable to The Star.)

NOME, Alaska, August 2.—U. S. revenue cutter Perry is a total wreck on St. Paul Island. No lives were lost. The Tahama has seized a Japanese poacher.

CRANE ASKS FOR BALLINGER'S HEAD

BEVERLY, Mass., August 2.—There is an unconfirmed rumor to the effect that Senator Crane, after visiting President Taft, has requested the resignation of Secretary of the Interior Ballinger, in the interests of Republican party harmony.

SPANISH KING GOES TO ENGLAND

PARIS, August 2.—King Alfonso of Spain is about to visit England. He took luncheon today with President Fallieres.

\$12,000 A DAY FOR GUARDING COLUMBUS

COLUMBUS, Ohio, August 2.—There are 3200 troops in this city to guard against outbreaks on account of the strike and these troops are costing \$12,000 a day.

SCRANTON, Pa., August 2.—Colonel Roosevelt is investigating industrial conditions here.

ST. LOUIS, August 2.—There has been no opposition shown at the primaries against Champ Clark for re-election to the House.

BALLINGER DENIES IT.

(Special Cable to The Star.)

CHICAGO, Aug. 2.—Secretary of the Interior Ballinger denies the rumor of Senator Crane, as the result of an interview with President Taft, asking for his resignation. He says Crane's interview has no significance as far as he is concerned and that he has no intention of resigning.

MCLEOD CHALLENGES JOHNSON.

ALBANY, Mo., Aug. 2.—Corbett's unknown champion for heavyweight honors against Jack Johnson is Miles McLeod, a local athlete.

CLARIFIED OATH PASSES THE LORDS.

LONDON, Aug. 2.—The bill eliminating the anti-catholic phrases from the monarch's oath on accession to the throne has been passed by the House of Lords.

REMNANT SALE AT SACHS.

Sachs annual remnant sale, now on, offers an opportunity to gather in desirable odds and ends of goods at wonderfully low prices. You'll not have another such opportunity for a long time.

RUN OVER BY AUTO

The seven year old son of the Rev. Leopold Kroll who was run over by an automobile on Beretania street a few days ago and who sustained a broken leg as a result, was taken to the Queen's hospital this morning suffering from tetanus. Drs. Herbert and Walters who have been attending the child called Dr. Bruce McKall in to consultation this morning to see what he thought about the case.

The child is in a critical condition and very little hope is held for his recovery, as tetanus or lockjaw is in nine out of ten cases fatal. Extreme treatment is being used at the hospital in an effort to save the boy's life.

Dr. Victor S. Clark, federal director of the census in Hawaii this year, has been appointed by the territorial board of immigration as superintendent of immigration, and the appointment has met with the approval of the Governor.

FRENCHMAN'S TOUGH TIME

Rough weather with heavy gales nearly the entire voyage was the report made by the officers of the French bark Jean Baptiste which arrived yesterday afternoon one hundred and seventy days from Leith with a general cargo consigned to Hackfeld & Co.

The worst weather encountered by the big sailing ship was off Cape Horn, although nasty head winds and heavy seas were met with on both the Atlantic and Pacific sides of South America. A few days after leaving Leith, the bark ran into calms off the coast of France and it was nearly three weeks before she was able to get out to the open sea on her run down to the cape.

After running clear of the cape, Captain Bregon was obliged to pour oil over the sides of the ship to keep the seas from carrying everything

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 19 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 mins. The time whistle blows at 1:30 p. m., which is the same as Greenwich 0 hours 0 minutes. The sun and moon are for local time for the whole group.

REORGANIZATION OF MARINE CORPS APPEARS PROBABLE.

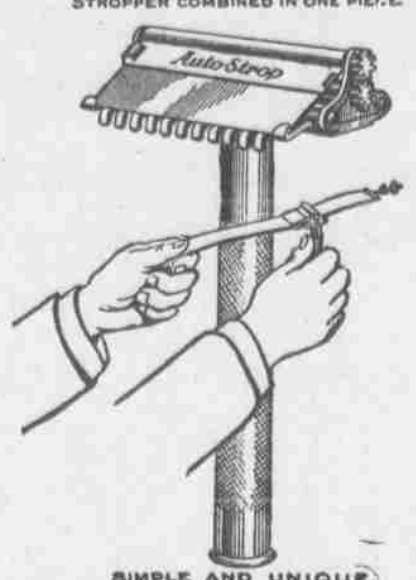

WASHINGTON, July 17.—That the Marine Corps faces certain reorganization as the result of pronouncement by a court of inquiry that the spirit of insubordination reigns throughout the service seems to be the prevailing opinion of naval officers at the

department. The serious condition of the service was held to be due primarily to too long terms of service by officers without changes of assignments. The question of reorganization probably will be considered this week.

18 DARKIES ARE SLAIN

PALESTINE, Texas, August 2.—Eight white men were arrested here yesterday in connection with the killing of eighteen negroes at Slocum, a near by village, on Saturday, July 30. The riot was nothing less than a pitched battle, and in addition to the killing of the negroes, several whites were injured.

Other arrests are expected to follow in the next few days. The sheriff and his deputies are scouring the country, and many persons suspected of having participated in the riot are under surveillance.

The civil officers are being assisted by the State militia in preserving order and preventing another outbreak. Feeling is running high on both sides. The original estimate that forty persons had been wounded in the riot was not an exaggeration.

CONFERENCE BEGINS.

STOCKHOLM, Sweden, August 2.—The international peace conference began its annual session here today, with representatives of the leading nations present.

TAKES LONG AUTOMOBILE TRIP.

NEW YORK, August 2.—Colonel Roosevelt started today on an automobile tour of New Jersey and Pennsylvania. He will be out four days.

NEITHER WANTS WAR.

Solid Basis of Understanding Between Japan and America.

(San Francisco Chronicle.)

There was no humbug on either side when Secretary Dickinson, representing the United States, and Count Komura, representing Japan, assured each other at an official dinner that a state of peace between their nations was almost a matter of course.

We may believe that much if we leave out sentiment, traditional friendship and civilized policies from a discussion of the problem, and rely only upon the practical common-sense of the situation.

Take Japan's side of it. The United States is her best customer, and there never was a time when Japan needed trade more than now. She is not going to fight her chief customer if she can help it.

Furthermore, she knows that, despite her commercial pact with Russia, she would, if at war with the United States, have to fight Russia again.

Also, she would have to deal with an uprising in Korea.

Again Japan's finances are in a bad way, and the easiest method of recouping them is to avoid war and continue the peaceable and uninterrupted development of Manchuria and Korea. Westward her star of empire takes its way. She has nothing to gain by venturing eastward.

Finally, Japan knows that victory in war, unless other resources are tremendously unequal, goes to the richest nation. In a war with us England would cease to be her ally.

The United States, on her side, has nothing to gain from a war with Japan, however successful it might be in the long run.

The brush with Spain cost half a billion dollars, and left a legacy of territorial embarrassments, more pensions and a big army and navy.

A war with Japan would cost, perhaps, two billions, and Japan, when beaten, could pay no indemnity in cash and one in land would give us more perplexities than the Philippines do.

Meanwhile, in the progress of war, we should suffer enormous material losses in the Philippines, and might in Alaska and Hawaii, besides losing some fights and much prestige.

There is no question between Japan and America which can not be settled by diplomacy, and war for war's sake would not be sustained by political opinion at home.

Peace between Japan and the United States is the natural, and should be regarded on all sides as the inevitable condition.

It would be so regarded if the yellow Eastern press did not have so confirmed a habit of going into a powder magazine to light up for its tormented readers.

NOTICE TO MARINERS.

V. S. Houston, Lieut.-Commander, U. S. N., Assistant to the Inspector, 12th L. H. District, gives notice as follows:

Southerly side Honolulu harbor entrance, entrance gas buoy No. 1, reported extinguished July 21, was relighted July 30.

Outside entrance gas buoy No. 2, will be removed August 4 for cleaning and recharging. It will be temporarily replaced by a 2nd class nun.

SHIP FOUNDERS; 206 MISSING

TOKYO, July 24.—The Tetsurei Maru, plying between Kobe and Dairen, sunk last night off Chinda, Korea. The steamer had 246 passengers aboard, of whom 40 were saved, the others are missing. Warships have been sent to the rescue.

Direct reports from China state that two of the Tetsurei's lifeboats landed 40 passengers, who tell of harrowing scenes when the befogged vessel struck. Six lifeboats were launched and filled with passengers.

There was no panic, and everything was carried off in the most orderly manner.

The captain and a majority of the crew were unable to leave the steamer. Six first class passengers were saved, including W. Cunningham, the British vice consul at Osaka, as well as 13 second class passengers.

One hundred and five third class passengers and 50 soldiers were taken off in boats and there is reason to believe that these boats either reached land or were picked up by the warships.

The Tetsurei Maru was of 2,400 tons register. She was built at Nagasaki and was owned by the Osakiki Hosen Kabushiki Kaisha.

CHALMERS GLIDDEN PROTEST SUSTAINED

NEW YORK, July 22.—After an all-night session the contest board of the American Automobile Association sustained the protest filed by the Chalmers-Detroit Company against the Premier entry, which had been awarded the Glidden trophy as the victor in the recent Glidden tour. As a consequence of this decision by the automobile court the trophy goes to the Chalmers Company, and the previous award to the Premier car is reversed. The protest against the Premier entry was based upon the use by it of an auxiliary oil tank.

The victorious Detroit-made machine was piloted on the grind by Bill Bolger, the car being the last to lose its perfect score, holding 1000 points for five terrific days after all the other contestants had been penalized. In the final technical examination after the trip of 2851 miles from Cincinnati to the Windy City by way of Dallas, Bolger's car lost fewer points than the protested entry.

The body was lying face down in the midst of the smoking remnants of what had been a huge fire. It was charred almost beyond recognition. Although all the evidence points to the theory of self-destruction, Coroner J. C. Snyder was not entirely satisfied, and late today placed the case in the hands of the police and asked that a thorough investigation be made. He hinted that the woman might have been murdered and her body thrown on the fire to destroy evidence of the crime.

WOMAN'S BODY IN SMOKING PYRE

SEATTLE, July 24.—The finding of the badly burned body of Mrs. Hannah Reynolds in the midst of the smoldering embers of a funeral pyre this morning revealed a horrible case of suicide, or possibly murder. The body of Mrs. Reynolds, who was 65 years old and lived with her two sons at 1631 Sixteenth avenue, was found in the woods near Ravenna park by a

Heart and Home Talks

by Barbara Boyd

AN OCCUPATION FOR THE RETIRED BUSINESS WOMAN.

Among the new conditions that are confronting women today is the question of what to do when the business career is over. The business woman who has saved enough to live on has, of course, no such problem. But she is in the minority. Thousands of business women have not been able to save enough to retire upon, yet the time has come when they must yield their positions to the younger generations. Employers, especially in stores, where thousands of women hold positions, do not care for a woman employee after she has passed a certain age. It is as difficult for her to obtain a position after she is advanced in years as it is to hold the one she has. What then shall she do?

This condition is becoming one of the serious problems of the day. Many of the societies formed for helping working women have applications for advice as to what to do from hundreds of middle-aged women who can no longer secure positions because of their age, but who have not saved enough to live on for the rest of their lives. Many do not want to sit idle even if they could. They are healthy, active women and they still want an interest in the world's work.

To the woman who loves country life the "back-to-the-farm movement" offers an opening to still earn her living and to do it in an independent fashion, a factor that appeals to many. This "back-to-the-farm movement" is so well organized and managed that even a woman inexperienced in the requirements of country life can take advantage of it.

The plan is sponsored by well-known people of the country, and at the meeting to formulate plans, such prominent people as Secretary of Agriculture Wilson, W. J. Bryan, Jacob R. R. R. F. Yoakum, Lyman Abbott, Jane Adams, Joseph W. Folk and others of equal prominence took part.

The idea is to locate colonies on model farms in Texas, Missouri, Alabama and other states where land is cheap and fertile. Each farmer will be allotted forty acres; a home will

be erected for him and fences, utensils and live stock furnished. Thirty-two of these forty-acre farms will constitute a colony. Each colony will include a central farm, presided over by an expert agriculturist, who will oversee the work on the farms, the proper rotation of the crops, etc. Tenants will be given ample time to pay for their farms, and their profits have been figured out as averaging \$3,500 a year.

Each colony will have a school where scientific farming will be taught in addition to the usual curriculum.

Entertainments will be provided for the colonists, so that farm life will lose the monotony that is now largely responsible for the rush to the cities.

Applications for farms will be passed on by a committee appointed for that purpose. The plan is made up of the best features of similar plans that have worked out successfully in Europe.

There will be none of the lonely farm life that is such a deterrent to country living to many. And there need be none of the hardships that have been such a drawback in the past to farm life.

The woman who has saved a little money can use it to give her home the city conveniences of hot and cold water; to provide herself with the latest labor-saving inventions, such as washing machines, bread-making machines, vacuum cleaners, and the many things that do quickly and easily the hardest parts of housework; and also to add a few of the luxuries in the way of music, books and magazines, which lend to much pleasure to life.

The business woman who sees the time approaching when she must quit the business arena would do well to look into the matter if the country has charms on her.

searching party that had been out all night.

The body was lying face down in the midst of the smoking remnants of what had been a huge fire. It was charred almost beyond recognition. Although all the evidence points to the theory of self-destruction, Coroner J. C. Snyder was not entirely satisfied, and late today placed the case in the hands of the police and asked that a thorough investigation be made. He hinted that the woman might have been murdered and her body thrown on the fire to destroy evidence of the crime.

The strongest point in favor of the suicide theory is the fact that Mrs. Reynolds has suffered from mental derangement at different times. It is thought that she might have been seized by a sudden fit of insanity and while in this state of mind, destroyed herself in the manner indicated by the finding of the body this morning.

help us as medicine, almost immediately on taking." His voice became tremulous as he read:

"Our Father, who art ever with us, help us this day to reveal thee through our tasks, our relations with one another. * * * This is thy most beautiful world. May we not mar it by our selfishness, but, by the gentleness and sweetness of our lives, make it more beautiful."

BY AUTHORITY

SEALED TENDERS.

Sealed Tenders will be received at the office of the Superintendent of Public Works until 12 o'clock noon of Wednesday, August 17, 1910, for the construction of an extension and additions to the Matson or Brewer wharf shed on Queen street, Honolulu.

Plans, specifications and proposal blanks are on file in the Department of Public Works.

The Superintendent of Public Works reserves the right to reject any or all bids.

MARSTON CAMPBELL,
Superintendent of Public Works,
Honolulu, July 28, 1910.

CERTIFICATE OF TREASURER.

I, D. L. CONKLING, Treasurer of the Territory of Hawaii, do hereby certify, in accordance with the requirements of Section 2577 of the Revised Laws of Hawaii, the same being a portion of Chapter 158 of said Revised Laws providing for the incorporation of banking corporations, that I have examined into the condition of the BANK OF HONOLULU, LIMITED, a corporation formed under said Chapter 158, and that the said corporation has complied with the provisions required by said Chapter 158, as amended, to be complied with before commencing the business of banking, and that the said corporation, BANK OF HONOLULU, LIMITED, is authorized to commence said business of banking.

In witness whereof I have hereunto set my hand and affixed the seal of the Treasury Department, this 2nd day of June, 1910.

(Sgd) D. L. CONKLING,
Treasurer of the Territory of Hawaii.

Subscribers who do not get their papers regularly will confer a favor
by notifying the Star Office; Telephone 365.

The Supreme Court of the Territory of Hawaii has declared both THE
HAWAIIAN STAR (Daily) and THE SEMI-WEEKLY STAR newspapers
of general circulation throughout the Territory of Hawaii, (suitable for ad-
vertising proceedings, orders, judgments and decrees entered or rendered
in the Courts of the Territory of Hawaii.)

Letters to THE HAWAIIAN STAR should not be addressed to any in-
dividual connected with the office, but simply to THE HAWAIIAN STAR,
or to the Editorial or Business Departments, according to tenor or purpose.

DANIEL LOGAN EDITOR

TUESDAY AUGUST 2, 1910

A syndicate cartoon from the mainland takes off Hawaii's dream
of statehood. The Star would reject it but for its value in illustrating
the crude notions of Hawaii which prevail on the mainland. It repre-
sents Hawaii as a dark-complexioned lad with weak Caucasian pro-
file, dressed in naval costume—a nondescript hat excepted—standing
upon a beach under a palm tree with pleading hands extended over the
sea toward Uncle Sam holding a scroll tagged "Statehood" in his left
hand. Different symbolism of Hawaii would be chosen by any artist
who knew anything of his subject. He would show fine docks and
steamships, with a metropolitan hotel and stately commercial edifices,
also dignified public buildings long antedating annexation, in the fore-
ground; splendid churches, schoolhouses and beneficent institutions in
the middle ground, and massive sugar mills and fruit canneries,
amidst illimitable expanses of sugar cane and pineapple plantations,
in the background. His composition would in short give some idea of
a civilization old as that of any mainland community west of the
Rockies, and of industries and commerce richer in proportion to popu-
lation than those of any country in the world.

A system of paroles for Federal prisoners, including those in state
penitentiaries, is being inaugurated. It will not be a new thing in
Honolulu, where the national scheme has been anticipated by a Terri-
torial parole system. This appears to be working well. It is one of
various instances where Hawaii has been in advance of the nation,
as well as of some states, with respect to wholesome laws. Some years
ago the Federal land administration acknowledged the merits of cer-
tain provisions in the Hawaiian land laws as being advisable to adopt
in the national land system. Such instances are tangible proof to the
nation of Hawaii's worthiness of the liberal measure of self-govern-
ment preserved to it in the Organic Act. Moreover, they are cumu-
lative evidence to present in the fulness of time, in favor of admitting
Hawaii to statehood.

It is refreshing to find a journal of the caliber of the San Fran-
cisco Chronicle—organ of "the interests" though it may be called, yet
on that account its utterances being the more significant in this in-
stance—denouncing with strong arguments well arrayed the policy of
the Eastern yellow journals in trying to create bad blood between
the United States and Japan. It would be well if more of the great
papers of this country, as well as of Japan, bent their best endeavors
toward neutralizing the noxious bane cultivated by Hobson in America
and Takekoshi in Japan and dispensed by the sensation-mongering
prints of both countries.

It is welcome news that the Marine Corps is to be reorganized.
The morale of the camp at Honolulu, as evidenced by recent events,
would be improved by a general shake-up.

A GOOD RECORD.

In nothing has the municipal government made a better record
than in its care of the school property committed to its charge last
year by the Legislature. Besides providing new furniture and furn-
ishings for school-houses to the value of some thousands of dollars, in
the year since taking charge, the Board of Supervisors has brought
both buildings and premises into a better condition than, on the
whole, they have ever at one time been in before. Formerly unkempt
school lots, all over the city, have been made beautiful parks. Build-
ings that had been taken over under sentence of condemnation have
been repaired and painted so as to be both presentable and serviceable
for years to come. Very unsatisfactory, and in some cases even in-
tolerable sanitary conditions have been rectified. Many leaky roofs
have been made tight and floors, walls and desks preserved by
painting.

In addition to all the work of preservation and renovation, out of
a smaller fund than was formerly available, the municipal manage-
ment is equipping temporary buildings with school furniture in dif-
ferent localities, so that without any money for schoolhouse construc-
tion there will yet be new schools opened next term where hereto-
fore none existed.

This care of public school property is but one of many new func-
tions conferred on the municipal government without notice the mid-
dle of last year, but all of which have been fulfilled in manner, both
businesslike and thorough, which will compare favorably with the best
management of the central government on record.

The habitual knockers of county government will not dare to an-
alyze the municipal record of these things. Facts are fatal to
slander.

Mr. J. F. Eckardt is to be congratulated upon the entry of his
thirty-second year as superintendent of the Queen's Hospital, and
that in condition hale and hearty such as promises many more years
of usefulness to him. His incumbency long antedated the advent of
trained nurses here, so that for years he was the comforter of the pa-
tients, as well as the right-hand man of the medical and surgical at-
tendants which he has been till now. There are probably few more
experienced hospital managers than Mr. Eckardt living, and the
Queen's owes much of its development and efficiency to his intelli-
gence and integrity.

THE HILO WHARF.

Private ownership and control of wharves and landings constitute
an old grievance on these islands. Opposition to any new proposal of
the kind, particularly such a large one as that now broached in Hilo,
is therefore what might be expected. "The burnt child dreads the fire."
If the government would approach the subject as a matter of principle
instead of expediency, perhaps there would be no Hilo wharf ques-
tion to discuss today. Is it the right, proper and true policy for the
people to own and manage the wharves for their own benefit? If so,
the Government should submit the matter to the Legislature at next
session, requesting an appropriation from either current or loan fund
to do the work.

If, on the other hand, it is sound public policy—not forgetting to
look to the future—to have navigation and shipping facilities placed
in charge of a corporation or trust, then let the Hilo Railroad Com-
pany have its desired license to build a wharf at Hilo granted without
any by-play of conferences in which the public at large seems to have
no part.

The saving clause in the draft of license contract—providing that

Uncle Walt

The Poet Philosopher

The mother, tired, with aching head, from sweeping floors and
baking bread, called to her daughter: "Susan, dear, I wish you'd help
a little here." Fair Susan, in the parlor dim, was play-
ing o'er a tender hymn; methinks it was "The Maiden's
Prayer"—a melody beyond compare. She cried, while
playing on, in style: "I'll help you in a little while."
Her lover blew in unawares—a fine young man with princely airs. His
heart was free from sordid stains; his head was full of high-class
brains; most any girl would give her eyes to gather in so big a prize.
He heard the mother's weary cry; he heard the damsel's flip reply.
His bosom swelled with noble ire! His tawny eyes flashed streaks of
fire! He cried: "Miss Susan Sarah Brown, it's up to me to turn you
down! While groundhogs live and comets shine, you'll be no blushing
bride of mine! The healthy girl who doesn't jump and on her system
get a hump, when mother calls, I do not want; so get thee hence!
Aroint! Avoant! I'll hunt me up a damsel fair who passes up 'The
Maiden's Prayer' when she has got a chance to chase the troubles
from her mother's face!"

WALT MASON.

the government may take over the property at cost whenever deemed
advisable, or profitable to the Territory—really means nothing if ex-
perience is any guide. This clause is found in most if not all of the
public utility franchises ever granted here. To what does it amount?
Nothing at all but words.

VACATION NOW.

What are you going to do to get
back the energy you have lost by re-
maining at your desk all summer? Ha-
lelwa offers opportunities unequalled
by any hotel on this island. Sea bath-
ing, boating, golf, tennis and horse
back riding through a delightful sec-
tion and over good roads. For the
summer season rates have been lower-
ed to meet the purses of the people
who are not overflown with money.
Halelwa is a place where nature af-
fords a most delightful view and
where the breeze is always cool.

Financial and Commercial News

By L. D. TIMMONS

LATEST LETTER OF HENRY CLEWS

New York, July 23, 1910.

The stock market is still undergoing a rigid course of treatment under the rest cure. Many operators are absent on vacations, and big banking interests continue to discourage any special activity in speculation at this time. No encouragement to an advance is afforded, neither are prices allowed to show any marked declines without meeting with support. The general trend of financial affairs is towards improvement. The local monetary outlook has been much clarified by recent liquidation, by rising reserves, by contraction in loans and general preparation to avert undue stringency during the coming fall. Gold imports have begun earlier than expected, and estimates are that no less than \$40,000,000 of specie will be imported from Europe this season. Complete reports of the national banks at the last call show a legal reserve of 21.22 per cent and a contraction of loans of about \$2,000,000. The latter item, however, is still nearly \$400,000,000 larger than a year ago. Eastern banks, upon which the strain for moving the crops will chiefly fall, show much the stronger position. Altogether the monetary situation is working out its own cure, and as money will go much further, owing to lower prices and diminished business activity, there is much less reason for fearing any undue stringency during the crop-moving period.

The formation of the proposed currency associations will be beneficial, inasmuch as they would provide against any injurious stringency in the money market. Secretary MacVeagh appears to have overcome some of the objections to the scheme, and it is to be hoped the banks will take advantage of his suggestions, which are not put forward as a cure for our financial evils, but as a palliative until a more scientific system can be adopted. The political situation is also much less threatening. With the adjournment of various legislatures the attacks upon railroads and other corporations have ceased. The fact that such attacks tend to aggravate any depression in business also aids in their discouragement. Public officials are beginning to learn that these political raids upon capital can be carried to a degree that is harmful to their own parties, inasmuch as it discourages enterprise, checks development, and tends to throw labor out of employment. President Taft has been doing his best to soothe irritated nerves and assure business interests that, while there would be no cessation in the pressing of reforms, such movements would be conducted with as little irritation and interference to business as possible. Apprehensions as to the abuse of power by the Interstate Commerce Commission are gradually dwindling which beset them when the bill was passed, they view the new bill with less and less apprehension. Some are already co-operating cordially towards its enforcement. Nevertheless the railroad issues are not by any means settled. As for the tariff issue, that is still too far distant a question to have any effect upon the market at present. It is nearly three months before the fall Congressional campaign will begin, and during that time the politicians may find it to the interest of their constituents to allow more consideration for business affairs.

General business is very quiet, more so than usual at this season. Curtailment is still necessary in many industries, and commodity prices continue on the decline. In consequence buyers hesitate, their takings being of a generally hand-to-mouth character. Doubtless when they discover that rock bottom has been reached a rush of orders will follow, since there is nothing unsound in conditions. The crops, though needing rain in some sections, are progressing satisfactorily, and there is every indication that farmers both West and South will this year raise products quite equal in value to those of last year, and this in spite of the damage to spring wheat, the importance of which has been vastly overestimated. What is a loss of \$100,000,000, the estimated damage to spring wheat, compared with the total value of farm products, which amounted to \$8,700,000,000 in 1909. The iron trade is quiet and not running up to full capacity, indications being that recent lower prices will bring out waiting orders and impart a larger degree of activity

BIG SALE OF EWA MADE YESTERDAY

The feature on the Stock Exchange this morning was the report of the sale of 400 shares Ewa at \$34, the blocks being 375 and 25 shares. These shares were sold by Joe Andrade to the Waterhouse Trust Company, for a client. At the close of today's session the stock was offered at \$34.25, so that the big sales really had little effect on the market.

A sale of 10 shares Pioneer was made at \$225, after which \$224 was bid and \$227.50 asked for the stock.

On the board a sale of 5 shares Honokaa was made at \$18.25, after which \$18 was bid and \$18.375 asked for the stock.

Oahu was weaker than ever. On the board a kind of "sample" sale of five shares was made at \$31.125, after which \$31 was bid and \$31.25 asked for the stock.

ARMY OF TOURISTS HEADED THIS WAY

The Promotion Committee received a big batch of letters by yesterday's mail from people all over the United States telling of their plans to visit Hawaii in the near future, and referring to other people who are coming. The letters taken altogether indicate that an army of tourists will be headed this way in the autumn and winter and that at last Honolulu's hotels will have their hands quite full.

One of the most interesting of these letters is from L. F. Cockcroft, general passenger agent of the Oceanic Steamship Company, who was recently here and who is taking a live interest in the Islands. Mr. Cockcroft states that bookings are already very heavy for the Sierra, leaving San Francisco on August 20, and for the same boat sailing from the Coast on September 10. He feels certain that this is only the beginning of an unprecedented busy season of travel in this direction.

Mr. Cockcroft informs the committee that his company is inaugurating a most extensive campaign of advertising trips to the Hawaiian Islands. These advertisements are being published in the papers of San Francisco, Los Angeles, Portland and Seattle.

Improvement is already developing in the cotton goods industry, the necessities of consumers compelling buyers to take hold with more freedom. The copper industry is still in very unsatisfactory condition owing to continued overproduction, but apparently well founded rumors of agreement to curtail between the big producers this week have imparted a decidedly better tone in this important industry.

Liquidation in railroad stocks has been radical. Six months' decline has brought no important failures, and produced no signs of real uneasiness. Foreign opinion is still critical of American securities and American management, yet the fact remains that Europe has made no better investments outside of its own domain than in the United States. Our credit abroad is good, and when the turn comes Europe will no doubt again be found a ready purchaser of our investments, having absorbed not less than \$180,000,000 during the first six months of the current year. The present is not a time for despair in Wall Street. Readjustment has been going on for many months, and the unfavorable conditions not observable elsewhere have in many instances been fairly discounted. Our financial leaders are wisely indisposed to encourage any stock market boom at this time with a period of possible financial stringency before them. The probabilities, however, are that high grade securities are scraping on rock bottom. Many such issues are selling at a level exceedingly attractive to investors, and current dividends pay more than present carrying charges. As for dividend prospects there is no reason for anticipating shrinkage, unless it be in the industrials, which have declined less than railroad shares and will have to take the brunt of any business reaction; National Lead being an unpleasant example. It is true railroad expenses have increased enormously during the past half year, sometimes offsetting the increase in earnings, but a considerable portion of these outlays were for improvements and extensions, which when completed will be an assistance and not a burden to earning power. It is always within the capacity of the railroads to effect important econo-

CHRONICLE ON THE HAMAKUA DITCH

The San Francisco Chronicle of July 24 contained the following observations on the completion of the Hamakua Lower ditch:

The completion of the Hamakua ditch on the island of Hawaii and its formal opening as a system of irrigation marks the beginning of a new era in sugar production in the Islands that will be of incalculable benefit to the plantations whose lands will be served. Sugar cane raised on lands not irrigated yields from four to four and one-half tons per acre, while the same land under irrigation will readily produce seven to eight tons per acre. This fact has been demonstrated, so it will be of special interest to the many stockholders in Hawaiian sugar plantations to know that the Honokaa and Paauhau plantations will doubtless increase their output about sixty per cent by reason of their being provided with water by the Hamakua ditch company.

The company's sources of supply are in the high mountain elevations and they are so abundant that there will never be a water scarcity. Under direction of skilled engineers there has been constructed a wonderful system of galleries nine miles in length bored entirely through the mountains, capable of conducting 70,000,000 gallons of water daily to the sugar plantations lying along the Hamakua coast. Friday morning, July 1st, the harnessed waters, conducted through these galleries, gushed forth from the mouth of the tunnels into a receiving weir, around which were gathered the officers, engineers, workmen of the construction company, and their friends, who duly celebrated the arrival of the water upon the field of usefulness.

The object of tapping this mine of water wealth in Waipio was primarily for irrigation purposes only, and it is now being distributed on the lower lands of Kukuhaele, Honokaa and Paauhau plantations. This water is all derived from the confluence of four streams, known as Kawahui, Alakali, Kolawe and Walma. The entire length of the lower ditch, just dedicated, is twenty-four and three-quarters miles, comprising tunnels aggregating 56,932 feet, or more than nine miles of underground waterways, to which are added 57934 feet of open ditches and 6,739 feet of flumes. The tunnels were made six and a half feet wide at the bottom and the sides five feet.

Fourteen months only were required to build these twenty-four miles of tunnels and open ways, with flumes spanning deep gorges, hundreds of Japanese being employed on the work.

The great Kohala and the two Hamakua ditches do not utilize one-fourth of the water supply at hand that can be distributed to advantage on sugar plantations on the island of Hawaii.

While this great irrigation system will immediately benefit the Paauhau and Honokaa plantations by doubling their production, it will doubtless serve as an example for other plantations to follow. The outlook, therefore, for sugar growing in the Hawaiian Islands which has proved so profitable to the stockholders in the plantations during recent years, receives a fresh impetus by the prospect, through irrigation, of largely increased crops.

..... miles in such expansions, hence talk of dividend reductions by the railroads at this time is premature and unfounded. The outlook is brighter than two or three weeks ago, but caution is still imperative. Corn and cotton are not yet out of danger; nor has the period of greatest money strain been safely passed.

NEW ADVERTISEMENTS.

BY AUTHORITY

NOTICE.

WATER TO BE SHUT OFF.
The Government water will be shut off temporarily while making repairs in the main pipe line in all that section of the city lying west of Kalihii Pumping Station; between the hours of 9 o'clock a. m. and 2 o'clock p. m. on Wednesday August 3, 1910.

J. M. LITTLE,
Superintendent of Honolulu Water Works.

LEADING EXPORTS IN THE YEAR 1910

Details of the exports by principal articles during the fiscal year ending June 30, 1910 have just been prepared by the Bureau of Statistics of the Department of Commerce and Labor. They show nearly all of the articles of natural production a marked decline in the exports of 1910 compared with earlier years. In certain manufactures the figures for 1910 are larger than in any preceding year, and the total for all manufactures will probably exceed any earlier year, though the compilation showing the total manufactures exported has not yet been completed.

The statement as arranged by the Bureau states the exports in the order of magnitude, by values. Cotton, of course, heads the list of principal articles exported. The total value of the exports of unmanufactured cotton during the fiscal year 1910 was 450 million dollars, against 481 million in the fiscal year 1907. Copper is second on the list, \$3 1-2 million dollars, against 100 million in 1908. Illuminating oil occupies third place on the list, 62 1-2 million dollars against 71 million in the fiscal year 1909. Wheat occupies fourth place in the list, the value being 47 million dollars, in round terms, against 113 million dollars in 1902, 145 1-2 million in 1908, and 161 million in 1909, the high record year of exports. Flour occupies the next position on the list, 46 1-2 million dollars value against 75 million dollars in 1903. Lard ranks sixth in the list of principal articles exported, 43 million dollars value against 60 million dollars in 1906. Tobacco, which holds seventh place in the list of articles exported, shows a larger total for 1910 than in any earlier year the value being 38 million dollars against 3 million in 1903. Lumber, under the general title of "Boards, planks and deals," amounts to 37 million dollars against 40 million in 1907. Upper leather shows a larger total than in any earlier year, 27 million dollars against 22 million in 1907. Corn shows a total of but 25 1-2 million dollars in value against 85 million in 1900. Bituminous coal shows a larger total than in any earlier year, 26 million dollars against 25 1-2 million in 1908, and lubricating oil also shows a larger total for 1910 than ever before, 21 million dollars against 20 million in 1908.

Of the 50 principal articles exported, enumerated in the Bureau of Statistics' statement, those which show larger totals than in any earlier year are upper leather, boots and shoes, furs and fur skins, automobiles, electrical instruments, lubricating oil, tobacco, and coal, both anthracite and bituminous. The articles in which the falling off is most striking are corn, wheat, flour and meats; wheat falling from 161 million dollars in 1902 to 47 million in 1910; corn, from 85 million dollars in 1900 to 25 1-2 million in 1910; flour, from 75 million dollars in 1903 to 46 1-2 million in 1910; lard from 60 million dollars in 1906 to 43 million in 1910; bacon, from 46 million in 1908 to 18 1-2 million in 1910; hams and shoulders, from 26 million dollars in 1903 to 18 million in 1910; pickled pork, from 15 million dollars in 1907 to 4 1-2 million in 1910; fresh beef, from 22 million dollars in 1901 to 7 3-4 million in 1910; and cattle, from 42 million dollars in 1904 to 12 million in 1910.

REPORTS OF DUN AND BROADSTREET

R. G. Dun & Company's Weekly Review, of July 23, contained the following on the business situation:

Midsummer dullness is less pronounced in both wholesale and retail departments of trade. There is still much idle cotton machinery in New England, and a two weeks' shutdown is scheduled for August, but curtailment is forcing a recovery from the low-price levels, and there is less pressure to liquidate stocks. Footwear factories, East and West, are resuming, and trade is much improved in leather, while hides have recovered from the low point, large accumulations having been moved. More definite knowledge regarding the yield of cotton in the South and wheat in the west will determine the basis of manufacturing costs in dry goods on the one hand and flour on the other. Flour production in the Northwest continues greatly reduced.

Except for a moderate reduction in prices of wire products, no new feature has developed in iron and steel. On the same date Bradstreet (also New York) published the following: Trade and industry are still mark-

WILLETT & GRAY'S LATEST LETTER

Willet & Gray's trade journal of July 21 contained the following relating to raw sugar:

Under our remarks last week, we said that the sales of centrifugals at the 4.30c. per lb. basis were exceptional, and that the current market quotation would rise to the 3c. c. & f. basis again. This forecast proved correct, as only 38,000 bags were sold at 4.30c., and the next sales on Monday and Tuesday were at the basis of 3c. c. & f. (4.36c.). At this basis some 200,000 bags were taken by three refiners, including 150,000 Cubas and 50,000 Porto Ricos, July and August shipments.

At the close there are still some 100,000 bags Centrifugals for prompt shipments offering on the market at 3c. c. & f. basis, but for August shipment 1-32c. per lb. higher is asked, with the tone and tendency in favor of sellers. New Orleans is reported to have paid 3, 03c. c. & f.

A significance of the European market, which has been quiet and steady throughout the week, is that quotations for new crop beets advanced 3d. for October-December delivery, showing a speculative disposition in new crop. If new crop beets continue to advance, it will be to the advantage of Cuban planters, and this sentimental price of 3c. c. & f. held for so long a time, will likely be overcome and a somewhat important advance yet follow.

The European situation, by the Board of Trade figures, shows 195,831 tons more cane imported into the United Kingdom to July 1st than during the same period last year. This includes over 100,000 tons from Cuba, and no doubt tends to keep old crop prices down, inasmuch as to these large cane receipts there will, eventually, be added much larger imports from Java into the United Kingdom than customary.

There is interesting news from Russia, where the Government is taking active steps to reduce the high prices resulting from speculation in that country. They have lowered the import duty to an extent that will permit the importing to a considerable amount of Austrian sugar. At the same time, the refund of taxes on exported sugar has been suspended, leaving the markets of Finland and Persia, heretofore largely supplied from Russia, open to other producers. It may be seen later that this action of Russia will further reduce available supplies to continental countries to Europe to an extent that will influence European prices higher.

Our weekly Cuba cable gives 4,000 tons receipts, against 2,000 tons last year, with 4 centrals grinding, against 5 last year. The 5 last year continued grinding until August 23rd. Visible production to date is 1,714,000 tons which, added to 103,582 tons, the after receipts of last year, would give a crop of 1,817,582 tons. These figures indicate that the final crop may nearly reach 1,800,000 tons. One of the largest centrals in Cuba, the Chaparral, closed this week, having made 530,500 bags, against 482,428 bags last year. This central closed earlier than last year, but started working some weeks earlier than last season. We print elsewhere the destination of exports from Cuba to July 1st.

Total stocks in United States and Cuba together 568,814 tons, against 582,430 tons last week and 496,127 tons last year.

The imports into India during May show an increase over the preceding May, notwithstanding the larger domestic crop. March, April and May all showed an increase in imports.

As regards the European growing crop, it gives promise of a considerable increase over last year, but less

..... ing time, awaiting the passing of the vacation season and the progress of the leading crops nearer to maturity. A fair number of buyers are in the leading markets, but their operations are governed by conservatism pending clearer views of crop output.

Reports as to the fall trade outlook are optimistic in the Southwest and Central West, and the outlook in the Northwest is fairly cheerful. Clearance sales stimulate final distribution of summer goods, though results are still hardly up to anticipation.

Industrial reports point to quiet in most lines. Pig iron production are of fair volume there is a tendency to shade prices to get business.

Business failures in the United States for the week ending July 21st were 215, against 202 last week, 239 in the like week of 1909, 246 in 1908, 199 in 1907, and 171 in 1906. Business failures in Canada for the week number thirty-four which compared with twenty-four last week, and twenty-four in the corresponding week of 1909.

than the phenomenal crop two years ago. The continental weather has recently been cold and wet, much like that of last summer, but the beet roots had a much better start this spring.

The significance of our Java cable, printed on another page, is that, although the crop has been reported delayed, the shipments are actually ahead of last year at this time. Also, the crop is diverted from the United States and goes largely to United Kingdom, filling a gap that might have required further purchases in Cuba to fill later on. The remainder of the Cuba crop seems destined for the United States supply.

Meltings of raw sugar are still under the normal, the strikers at the H. & E. house not having returned to work.

SUGAR HIGHER.

The latest cable report announces a sale of beet sugar in New York at 14 s. 10 1-2d., which is considerable of an advance.

A Tonic Free from Alcohol

Are you pale, weak, easily tired, and do you lack nerve power? Ask your doctor if Ayer's Sarsaparilla would not be good for you. He knows, and will advise you wisely. Not a drop of alcohol in this medicine. It puts red corpuscles into the blood, gives steady, even power to the nerves; and all without stimulation. Make no mistake. Take only those medicines the best doctors endorse. Ask your own doctor.

Ayer's Sarsaparilla

SPORTS

BY JAMES W. W. BREWSTER.

BIG MEETING CALLED FOR THIS AFTERNOON

A meeting for the purpose of talking over plans for the organization of a new baseball league, will be held this afternoon at the Bungalow in the Capitol grounds. Secretary Andrews, of the Military Athletic Association, has sent notices around to the different clubs and teams intended to have representatives present at four o'clock today.

The idea of forming a new league has been considered for some time by

the officials of the old league as well as those connected with the Military league. If the present plans do not miscarry, the new league will commence its games some time the latter part of this month at the old league grounds. Some of the teams that have signified their intentions of entering the league are the Marines, Oahu College Alumni, J. A. C.'s, University Club, Cavalry, C. A. C.'s and Portuguese A. C.

JEFFRIES REFUSES BIG PURSE

LOS ANGELES, July 24.—Jim Jeffries will not accept the offer made him by Billy McCarthy of Philadelphia to meet Al Kaufman in a six round bout at the Quaker City on Labor day. Even the tempting bait of \$20,000 or 40 per cent of the receipts could not move the former champion and he declared himself in favor of an extended hunting trip before making another move of any sort.

Jeffries, with Tex Rickard and Jack Klipper, returned from Catalina this afternoon with all signs of the Reno calamity obliterated from the visage by the Catalina sun. When asked if he intended trying for another go at Johnson Jeffries declined to talk, but his silence is taken to indicate that Rickard's work during the fishing trip has met with success and a return match will be announced. Rickard refused either to affirm or deny that he was angling for the match.

Jeffries, Rickard and others will leave in a day or two for the Tehachapi mountains in quest of deer and bears. On their return a definite announcement of plans is expected.

M'LOUGHLIN WINS BLUE RIBBON EVENT

BROOKLYN, Mass., July 23.—Maurice E. McLoughlin of San Francisco today won the twentieth annual Longwood tennis tournament in singles, one of the blue ribbon tennis events of the country.

The Pacific coast player, who is but 20 years old, cleared the way to the challenge match Monday with W. A. Larned, national champion, by eliminating Wallace F. Johnston of Philadelphia, the intercollegiate champion, in straight sets, 6-4, 6-2, 6-3.

MAY SUTTON WILL BE SEEN IN ACTION

SAN FRANCISCO, July 25.—The annual tennis tournaments for the singles championship of the coast for both men and women will be played at Del Monte September 2 to 10. Last year, owing to the absence of McLoughlin, Long, Bundy and Sinabauha, four leading players of the coast, the men's event was eclipsed by the women's, but this will not prove the case this year. Long will no doubt be among the entrants, and will probably fight it out with George James for the championship.

It is expected a number of the cracks from the northwest will also participate, and they have some clever players up there. The women's event will prove even better than last year. May Sutton who did not participate last year, will no doubt regain the title. Her sister Florence beat Hazel Hotchkiss last year at Del Monte. While McLoughlin and Bundy will be missed this year, the tournaments are expected to prove even more interesting than those held last year.

The first tournament under the regime of the new officers of the Golden Gate tennis club will be held at the park today, and it bids fair to eclipse any event held in recent years with respect to the number of entries. Six or seven years ago a handicap singles tournament would have attracted an entry list of more than 100, but in recent years 50 have been the limit. In today's event there will be more than 80 in the competition. It looks as if there would be a revival at the park so far as tournaments are con-

cerned, and tournaments are the life of the game.

M'LOUGHLIN'S FRIENDS FEEL CONFIDENT

SAN FRANCISCO, July 25.—California tennis players distinguished themselves during the week on the eastern and northwestern courts. At Longwood Maurice McLoughlin covered himself with glory, and in the northwest Hazel Hotchkiss, national champion, swept all before her. McLoughlin's victory over the former national champion, Beals C. Wright, on Friday, was the biggest thing ever accomplished by a California tennis player of the sterner sex. Two years ago Wright was the mainstay of the American team, when they met Wilding and Brooks, the Australians, for the world's championship.

Wright showed his worth by taking both Australians into camp in the singles. He recently played in the English championship tournament and lost only to Wilding in the finals. McLoughlin's victory over Wright during the week will boost the stock of the young Californian more than anything he could have done outside of taking the scalp of National Champion Larned.

Yesterday McLoughlin disposed of Wallace Johnston in the finals, and thereby earned the right to meet Champion Larned in the challenge match on Monday. While it is not expected McLoughlin will take the measure of Larned, who has twice won the Longwood cup, and is also national champion, the Californian is expected to make a good showing. He got rid of his stage fright last year, and after beating Wright three sets out of four he may even lower the colors of the premier player of the country. Whether he beats Larned or not McLoughlin in winning the Longwood tournament, one of the big eastern fixtures, has accomplished something that he can feel proud of. If he keeps up his present gait he stands an excellent chance of making the international team.

The Longwood tournament, as well as the eastern doubles, both played during the week, were full of surprises. In the doubles Wright and Little, who two years ago played a five set match with Brooks and Wilding in the inter-national doubles at Melbourne, were beaten by Carl Gardner and Gustav Touchard, two former Californians, who were playing together for the first time. After beating the former internationalists Touchard and Gardner were beaten by a couple of second raters.

In the Longwood tournament McLoughlin's hardest match was that with Gardner. The former Californian won the first two sets and lost the third only after 18 games had been played. It was a close call for McLoughlin, Gardner always has made more or less trouble for McLoughlin, but has never succeeded in beating him.

LARNED KEEPS TITLE.

BROOKLINE, Mass., July 25.—William A. Larned of Summit, N. J., national tennis champion in singles, won the third and final leg of the Longwood cup today by defeating Maurice E. McLoughlin of San Francisco three out of four sets, 6-2, 4-6, 6-1, 6-3, at the Longwood Cricket Club.

Larned thus secures permanent possession of the Longwood cup. McLoughlin had played a sensational game, having put out the international veteran Beals C. Wright of Boston, and it was thought that Larned would be extended to the limit; but the veteran was seldom forced to show his full strength, although the Californian outplayed him in the second set. Rain

caused suspension of play for an hour after the second set, and when it was resumed Larned went in and won the final sets.

Longwood singles, challenge match—William A. Larned defeated Maurice E. McLoughlin, 6-2, 4-6, 6-1, 6-3.

HAZEL HOTCHKISS IS STILL CHAMPION

PORTLAND, Ore., July 23.—As predicted, Miss Hazel Hotchkiss of California defended her title of Oregon woman champion against Miss Marion Pitts of British Columbia and by today's victory in the final contests of the Oregon tennis tournament Miss Hotchkiss becomes permanent holder of the Ainsworth challenge trophy, which she has won three successive times.

Miss Pitts took the opening set, but the next two were easy for Miss Hotchkiss at 6-1, 6-0. Miss Pitts played a steady, aggressive game, driving but few out or into the net, but she was no match for the clever Californian. Most of the points scored by Miss Hotchkiss were the result of "kills."

In the finals of the mixed doubles Miss Hotchkiss and Ralph Gorrill won from Mrs. Ponthoux and James F. Ewing in straight sets, 6-4, 6-3. There was fierce playing in the men's doubles, Wickersham and Gorrill defeating Emerson and Andrews.

WALL TOURNAMENT STARTS TOMORROW

The sixth tennis tournament for the Wall cup will be started on the Bereania club courts tomorrow afternoon commencing at four o'clock. Nearly all the crack players of the club have entered for what promises to be the most exciting tournament ever held since the trophy was presented by the Wall brothers.

Castle, Low, Lowrey, Kennedy, Richards and a few others of the club's best players have entered, and before the winner is announced some fast tennis is expected.

Atherton Richards who won the cup a few months ago with a handicap of one 15 from the scratch men, will be obliged to play in this tournament from scratch.

The majority of tennis enthusiasts who have seen all the cup entrants in action, feel certain that the winner this time will be either Castle, Lowrey or Richards.

SECOND GAME IN BASKETBALL SETS

The second basketball game in the Y. M. C. A.-Fort Shafter series, will be played at Fort Shafter tomorrow night at eight o'clock. The first game played two weeks ago was won by the Y. M. C. A. team by one goal.

Both teams have been putting in a lot of practice for the game tomorrow night which promises to be a closely contested one from start to finish.

CLUB SMOKER IS GREAT SUCCESS

Everyone who was present at the smoker last night at the Myrtle Boat Club in honor of the visiting yachtsmen from the yachts Sweetheart and Mollilo, pronounced it the best ever given in Honolulu.

Captain Berger, Will Kerr, Caceres, Pat Cornyn, Dick Sullivan, Ed Vaughan, Henry Vierra, Henry Clark, Carter, Mays, Keoho, Bischoff and the St. Louis alumni quartet were among those that helped to make the evening one of the most enjoyable of the season.

Henry Vierra, as a Chinese laundryman, made the bit of the evening by his clever impersonations of a chink asking for work.

Caceres, the blind boy, rendered a number of piano solos which were loudly encored.

Dick Sullivan and his brother Pat gave a three round boxing exhibition which made those present sit up and take notice, as both men surprised themselves by their cleverness.

Will Kerr, who is known as the "Prince of Hawaii's entertainers," brought the house down with his rendition of "My Cousin Caruso."

Mays and Keoho furnished a Japanese talkfest which brought forth much deserved applause.

During the evening light refreshments were served which were very much enjoyed and it was with great reluctance that the party broke up a few minutes before midnight.

MRS. MARK JOHNSTON DEAD.

Mrs. Alice Johnston, wife of Mark G. Johnston of the custom house force, died this morning after a month's illness, and funeral services will be held over her remains at 4 o'clock this afternoon at the Methodist church. Friends invited.

No. 151. TERRITORY OF HAWAII, Court of Land Registration.

TERRITORY OF HAWAII TO MARY ROBINSON FOSTER (MRS. T. R.); MR. CHAS. H. DICKEY; MARY E. FOSTER; MRS. GRACE DICKEY MERRILL (MRS. A. M.); THE TERRITORY OF HAWAII, by Alexander Lindsay, Jr., as Attorney General, and by Marston Campbell, as Superintendent of Public Works; CITY AND COUNTY OF HONOLULU, by Joseph J. Fern, as Mayor and President of the Board of Supervisors, and to ALL whom it may concern:

Whereas, a petition has been presented to said Court by SHILA BROWN PRATT to register and confirm her title in the following-described land: House Lot on Nuuanu Street, Honolulu, being L. C. A. 727, Ap. 1, to Kuanane; portion of L. C. A. 1286 to Pihon; portion of R. P. 5696, L. C. A. 11215 to A. Keliiahonui, for John R. Kinney; and portion of L. C. A. 935, Ap. 2 to Keaka.

Beginning at the east corner of this piece, on the northwest side of Nuuanu Street, which point is true azimuth 41° 15' and distant 110.1 feet from an iron pipe marking the west corner of Nuuanu and School streets, which said iron pipe is true azimuth 111° 27' and distant 37.2 feet from the Sewer Manhole, at the intersection of Nuuanu and School Streets and true azimuth 40° 28' and distant 39.7 feet, from the sharp angle of the low stone block wall, at the north corner of Nuuanu and School Streets: the co-ordinates of which iron pipe at the west corner of Nuuanu and School Streets, referred to Punchbowl Triangulation Sta. are 1572.7 feet north and 2314.6 feet west; and running by true azimuths:—

1. 129° 35' 147.6 feet, along fence, along Mrs. Grace Dickey Merrill premises;
2. 131° 10' 24.2 feet, along fence, along same;
3. 139° 12' 81.1 feet, along fence, along same to premises of Mrs. T. R. Foster;
4. 50° 43' 52.2 feet, along barn, along premises of Mrs. T. R. Foster;
5. 319° 12' 14.3 feet, along barn, along same;
6. 325° 36' 57.6 feet, along fence, along same;
7. 341° 54' 23.9 feet, along fence, along same;
8. 35° 00' 10.2 feet, along fence, along same;
9. 309° 35' 12.3 feet, along fence, along same;
10. 324° 05' 160.8 feet, along fence, along same;
11. 221° 15' 118.5 feet, along Nuuanu Street to the point of beginning.

Containing an Area of 21,390 sq. ft. or 0.491 acres.

You are hereby cited to appear at the Court of Land Registration, to be held at the City and County of Honolulu on the 9th day of August, A. D. 1910, at ten o'clock in the forenoon to show cause, if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any decree entered thereon.

Witness the Honorable W. J. ROBINSON, Judge of said Court, this 12th day of July, in the year nineteen hundred and ten.

Attest with Seal of said Court: (SEAL) M. T. SIMONTON, Registrar.

4th—July 12, 19, 26; Aug. 2.

SOLD INTO SERVITUDE

BOSTON, July 24.—In her investigation of the lineage of the Cleveland family, Miss Rose Cleveland finds that the great grandfather of Grover Cleveland was sold for servitude in Canada for 16 gallons of rum.

His great grandfather, Richard Falley, was kidnapped on the Island of Gurney when 10 years old and brought to Massachusetts, where he was bound until he was 21 years of age. Falley's oldest son, Richard Deiring, in the latter part of the Indian wars, entered the contest against the French and Indians and in one of the fights was captured.

With 20 men and women Richard was taken to Canada and sold to a woman in Montreal as a servant. The Indians received 16 gallons of rum for young Falley. A few months later he got aboard a ship bound for Boston and returned to Massachusetts.

WORLD UNION OF CHRISTIANS

NEW YORK, July 17.—Twenty-four American Episcopalians, fourteen of them residents of this city, will incorporate at Albany tomorrow a plan to bring about the organic union of the Christians of the world—Protestant and Roman Catholic. The Christian Unity Foundation is the name of the society. It is patterned upon the Sage Foundation, purporting to place at the service of Christianity the same methods that are employed by the Sage and similar church foundations.

The new scheme is unlike the Federal Council, organized here three years ago, for they seek co-operation without disturbing organization. The new plan would sink all names and make simply one big religious body. Twelve of the twenty-four men are clergymen and twelve are laymen. Of the first twelve half are bishops and half presbyters. All the schools of thought in the church are represented.

FEDERAL PAROLES

WASHINGTON, July 17.—Preliminary steps have been taken at the Department of Justice to put into effect the law enacted at the last session of Congress for paroling United States prisoners, thus establishing a practice that has been adopted by probably one-half of the states.

The first step will be the establishment of rules and regulations for the procedure of the Board of Parole of each penitentiary. Robert V. Ladow, superintendent of prisons, will leave Washington later in the season to visit the penitentiaries at McNeil Island, Washington, and at Atlanta and Leavenworth for the purpose of setting in motion the machinery to carry out the law.

IN THE CIRCUIT COURT OF THE First Judicial Circuit, Territory of Hawaii.—At Chambers—in Probate.—In the Matter of the Estate of Charles Frederick Hart, deceased.

NOTICE TO CREDITORS.

Notice is hereby given that the last Will and Testament of Charles Frederick Hart, late of the City and County of Honolulu, Territory of Hawaii, deceased, with a codicil thereto, has been admitted to probate by the above Court, and Letters Testamentary granted to the undersigned, Rebecca Hart and T. Clive Davies, both of Honolulu aforesaid, the Executrix and Executor respectively named in the said Will. All creditors of the deceased or of his Estate are hereby notified to present their claims, duly authenticated and with the proper vouchers, if any exist, even though the said claims may be secured by mortgage upon real estate, to the said Rebecca Hart and T. Clive Davies at the office of Theo. H. Davies & Company, Limited, Kaahumanu street, Honolulu, aforesaid, within six (6) months from the date hereof (which is the date of the first publication of this notice); otherwise such claims, if any, shall be forever barred. And all persons indebted to the said estate are hereby notified to make payment to the said Rebecca Hart and T. Clive Davies at the above address.

Dated at Honolulu, T. H., July 12th, 1910.

MADRIZ AFFAIR ANNOYS GERMANS

BERLIN, Germany, July 14.—Although it is officially considered a closed incident, the Kaiser's letter to President Madriz of Nicaragua continues to be the subject of irritated discussion. While the foreign office is criticized severely in certain quarters for sending the letter to the Kaiser for his signature without warning him as to the situation in Nicaragua, there are signs elsewhere of open annoyance that Germany's freedom of action in the premises should be questioned.

One of the most interesting expressions emanated from the Koelnische Zeitung, whose semi-official character is well recognized. It says:

"The question at issue relates to negotiations between two independent states. We are not aware that America can raise a tenable claim under international law to regulate the relations between Germany and Nicaragua according to its wishes."

The general feeling is that the incident, though due to official inadvertence, is calculated to leave an unpleasant impression.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. For pain in the stomach, diarrhoea or infantile cholera, this remedy has no equal. It has been used in many serious and dangerous cases and has never been known to fail. When reduced with water and sweetened it is pleasant to take. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

Fine Job Printing, Star Office.

NEW LIGHTHOUSE BOARD "JOKER"

WASHINGTON, July 17.—A "Joker" has been discovered in the legislation providing for the reorganization of the lighthouse board on a civilian basis instead of under the military-naval supervision which has prevailed for years. As an important element in the reorganization, Congress provided for the appointment of civilian inspectors, but search has failed to discover anywhere in the law any appropriation to pay such inspectors.

The consequence is that the board will have to do without the aid of the civilians until the next session of Congress and, in the meantime, will depend on Army and Navy officers to perform inspection work, the law contemplating that for a period not exceeding three years the President may assign them to such duty. This was purposely made a part of the statute, so that the transition from military to civilian control in that feature of the service would be gradual.

ELECTRIC LIGHT IN TARSUS.

WASHINGTON, July 8.—The ancient city of Tarsus in Asia Minor, where the Apostle Paul was born, is catching up with the progress of civilization and invention, and now is illuminated by electricity.

Consul Edward I. Nathan, of Mersine, in a report to this government on the electrification of the ancient city, says that the power is taken from the Cydnus River. There are now in Tarsus 400 electric street lights and about 600 incandescent lights for private use. It is proposed to extend the lighting system to Adana and Mersine.

ASIA IN;
OUT TODAY

The Pacific Mail liner Asia, Captain Harry Gaukroger, arrived alongside of the Alakea street wharf a little before six o'clock last evening and will sail for Yokohama at three this afternoon. Fine clear weather was experienced the entire voyage from San Francisco.

On Sunday morning the Mongolia stopped a few hundred yards from the Asia and delivered two stowaways who were discovered a few hours after leaving Honolulu. One was a Japanese and the other a Russian. The cruisers Cleveland and Chattanooga and the collier Prometheus were passed three days after the Asia had left San Francisco. Captain Rodman wireless to Captain Gaukroger that every one was well on board and asked him to report the same to the naval authorities.

The Tenyo Maru, Sierra and Wilhelm were all passed very close by the Asia. Wireless communication was kept up with either San Francisco or Honolulu the entire trip.

The Asia has over two thousand tons of general cargo for the Oriental ports. Every cabin is taken in the first class, while over two hundred passengers are being carried in the steerage. Four hundred and thirty-four bags of mail were brought for Honolulu.

News Co., Ltd., Alexander Young Building.

An effort was made yesterday afternoon, at a conference in Governor Fren's office, to block the granting of a license for the construction of a new wharf at Hilo by the Hilo Railroad interests, the protest coming from C. R. Hemmenway who represented Messrs. Petrie, Kennedy and Faxon Bishop. The governor, however, will probably sign the license.

Early to bed and early to rise, work like H—and advertise—the Lakeview No. 2 Oil Company the safest and best oil proposition to make big money ever offered to the people of Honolulu. I have \$100.00 ready to back

SHOOTS SELF
IN THE HEAD

W. H. Kuhlmann, aged seventy-two, one of the best known of the old German residents of Hawaii, committed suicide by shooting himself in the head with a 32 caliber revolver at his home on Rose street, Kahlili, a little before seven o'clock this morning.

Eddie Cremer, who was going to see the deceased on some business, was very much surprised when he found his friend dead on entering the house this morning.

Cremer notified Deputy Sheriff Rose who at once empanelled a coroner's jury to view the remains. According to friends of the dead man, worry on account of ill health and the death of his wife a few years ago was probably the cause for the suicide today.

The dead man has lived alone for several months at his home in Kahlili, as his three sons are employed on the other islands.

Deputy Sheriff Rose ordered the body removed to Williams' undertaking parlors where it will remain until word is received from F. H. Kuhlmann, a son who is employed as sugar boiler at the K. S. mill at Hana.

WHEN WOMAN SMILES.

When woman smiles her sweetest, ah
Perhaps her heart is breaking!
When woman's look is tenderest,
She may be sadly making
A last brave fight to keep the tears—
The bitter tears—from flowing;
A woman's happy glances may
But be an outward showing.

When woman smiles 'tis hard to tell,
She may, alas, be grieving.
Her careless air may be put on
Her soulful look deceiving!
When woman smiles, take care, beware
She may, perchance, be scheming
To work you. Never, never judge
Her by her outward seeming.

my assertion. Who will pick up the gauntlet? No Piliika. Phone 690, J. Oswald Luttet, Fort street next Convent, P. S.—H stands for Hay.

SACH'S ANNUAL
REMNANT SALE

NOW ON

Since our Great Sale of last month we have been busy trimming up our shelves and throwing out thousands of odd lots and short lengths. These will be offered at prices which are bound to make a short, decisive clean-up.

Come early Monday morning and look at the values we will offer. It will be twelve months before you have another opportunity like this.
