## THE HUMOR OF INSPECTION

FUNNY THINGS THAT HAPPEN THESE DAYS.

The Chinese Who Lost His Presence of Mind But Recovered It Again—Portuguese Who Moved.

It is not all serious business, this work of the sub-inspectors. Amusing incidents occur. Sub-inspector W. H. Crawford was appealed to by a Chinese to approve his application for a removal permit. Crawford believing it to be all right wrote an endorsement on the application and gave it to the Chinese. Then the Chinese with a surprised look of Oriental features told Crawford that he had escaped from the quarantine district during the excitement of the big fire. Crawford said he would fix that and taking back the application scratched out his endorsement and made a note "See accompanying letter." Then he wrote a letter to the committee stating the facts, giving it to the Chinese with his application and told him to take it to the Sanitary Committee. But the Chinese seems to have recovered his Oriental presence of mind about this time and gave the letter and application to a Chinese friend to take to the committee. The friend, all unsuspecting, went down to the committee rooms, and of course as soon as the letter was read was put under arrest and taken to the police station. He had to send for Crawford to get him out of his pili. This morning Crawford hunted up the right Chinaman and he will have to face Judge Wilcox.

Another sub-inspector found among his wards a Portuguese who gave him and the whole neighborhood an immense amount of trouble. Finally a bottle of "square face" came to the rescue and the Portuguese was arrested for drunkenness. He couldn't pay his fine and his friends wouldn't, so he went to jail. The sub-inspector with great glee noted on his report opposite the man's name: "Removed from the district—gone to jail." But time ran on and the man got out of jail and applied to the sub-inspector for approval of an application for permit to remove to another district. The sub-inspector referred the application to the Inspector of the District with the endorsement "I hope it will be granted."

Sub-inspectors are called on to settle all kinds of family jars and neighborhood disputes.

## SUSPECT CASE IN NUUANU

NATIVE BOY FOUND ILL LAST NIGHT.

Probably Has Pneumonia—Day With a Clean Record—One Suspect Dies But Not of Plague.

Saturday—Plague deaths, 0; plague cases, 0; suspect cases, 0. The plague situation today is quite satisfactory. There have not been any suspect cases and only two plague patients at the pest hospital may be considered in danger.

At the meeting this afternoon the Board of Health will likely condemn the premises of Ah Man, at the rear of the McLean block. This was the victim of Thursday night.

Hoomanawanui, a native boy 15 years of age, was found ill in Jack's lane off Wyllie street last night. Dr. Garvin found the patient suffering from pneumonia and slight suspicion of plague. Guards were placed about the premises and the case is still being watched without a positive diagnosis. It is more than probable that pneumonia is the sole trouble. The young man had been working on the buildings at the Kalihi detention camp and was subjected to more or less exposure.

Chiege, the Japanese taken Wednesday night from the Kalihi camp to the pest house, died shortly after 10 o'clock this morning. Cause of death was pneumonia, not plague.

Last night Superintendent Newham, of the Reformatory school, reported a case of illness among his pupils. Dr. Garvin found Herbert, Hawaiian boy, aged 13, suffering from an epileptic fit. During the night W. R. Castle reported J. K. Burkett, of Kaula, a school teacher, as quite ill in his district. Dr. Jobe found the trouble to be acute rheumatism.

AT THE PEST HOUSE. There are 19 patients in the pest house at Kakaako under treatment of Dr. Bowman. Eleven of them are suffering of ordinary diseases and have no symptoms of plague.

Alons, the odorless excavator man; Shina, the Japanese woman from Merit street, and her baby are cured. They will be sent to one of the detention camps in a day or two.

Okuba Ichi, the woman from the Arlington, and Takauchi, man from the Kobayashi hotel, are nearly well. Both are out of bed and gaining strength rapidly.

Mrs. Franz is not so well today, the bubo having become more sensitive. Ah Cum, the boy from Wo Hop's tailor shop on King street, is also worse, the same report being given.

A. Medeiros, the National Guard soldier taken from the prison, is in a very bad way. Pneumonia is his trouble. There are no symptoms of plague. This morning he was coughing blood.

Dr. Wood and the detectives who have been tracing the movements of Ah Man, the plague victim of Friday morning, are satisfied that he had slept at home with his family for some time, certainly since last Saturday. The residence is in the McLean block, the entrance to which is from Fowler's lane.

A COURT-MARTIAL.

Ex-Regular Refuses Duty in N. G. H. and Is Arrested.

A late United States Army soldier is in trouble in the National Guard. Though only twenty-four hours a volunteer he will be court-martialed on a serious charge. The man enlisted yesterday in Company B. This morning he was put on one of the details for post duty. When ordered out he told the corporal that he would not go. The corporal reported him to the sergeant of the guard and the latter ordered the recruit to his post. The man replied in a rather insolent manner that he would not go. The sergeant reported to the officer of the day and a few minutes later placed the recruit under arrest on the charge of refusing duty. This will call for a regimental court-martial with a heavy penalty upon conviction.

THE FATAL HOUR.

EDITOR STAR:—Companies A, C, F, came in from Kalihi this morning to change clothing, take a bath and be fumigated. They arrived at headquarters about 9 o'clock, and were told that things were not quite ready for fumigation, and they could go for an hour and be back at 10 o'clock. They quickly took advantage of this hour and scattered all over the city.

Query? If fumigation was necessary, was it not wrong for them to be given this hour of liberty before fumigation? If they carried any germs, they could in this hour scatter them all over the city. CITIZEN.

MILLS GRINDING.

KOHALA, January 23.—The plantations of this district with the exception of Niuli, which is waiting for machinery, to be put in, have begun grinding.

## WHY LOEBENSTEIN CAME

HAWAII WANTS TO BATTLE WITH A SUB-INSPECTOR ASKS FOR INFORMATION.

Authoritative Answers to Practical Questions Will Enable Sanitary Work to be More Thoroughly Done.

Not shortage of provisions but a desire to begin a campaign against dirt, microbes and typhoid fever, which has made its appearance on Hawaii, was the motive that caused the Hilo board of health to send delegate Loebenstein to Honolulu. Mr. Loebenstein says that all is quiet in the Hawaii metropolis now, that the radicals have been relegated to the back ground, and that the whole island is thoroughly at one with Hilo.

"We feel that it is impossible for a Board of Health at a distance and beyond regular communication to attend to our local details," said Mr. Loebenstein this morning, on the steamer Kilaua Hou, which he will not leave. "It is also a fact that rules that may be good for Honolulu are not as well applicable to Hawaii. Here you have every means of combating disease. There we have nothing. In the policy of having just as little communication as possible with Honolulu all the commercial interests are united, and the large Honolulu business firms endorse the same policy. At the same time it is not generally thought that the main industry of the island should be endangered by the delay of machinery that is to complete plants begun and soon to be needed. Bacilli would not lodge in iron any-how."

"At present there is no shortage of food on Hawaii. The people are in favor of making arrangements to get it if necessary direct from deep water vessels, though there might perhaps be no objections to shipments that were transferred in the harbor to island steamers."

"The members of the committee that has taken affairs in hand on Hawaii represent all districts of the island. Four of them are physicians. Dr. Moore represents Kona, Dr. Irvine Kohala, Dr. Russell Olua and Puna, H. A. Moll Kau and I speak for the North Hilo district and was nominated as a member of the board by Kau. We want the authority to go ahead and make investigations of the sanitary conditions all over the island and correct whatever is wrong. At the present time there is some typhoid fever on Hawaii that is undoubtedly due to poor sanitation and health regulations. Another rule that should surely be in effect on Hawaii is the order that all deaths should be investigated and the cause of death made known before burial in each case. If it is right to know causes of death in Honolulu it is certainly right to know it on Hawaii too."

"The conservative element is in full control at Hilo. The fire-eaters have subsided and there is no excitement. I do not think that at any time there was the least danger of bloodshed. Mr. Andrews' first action was undoubtedly too radical and I remonstrated with him in the first place. He is now acting as executive officer of the board of health, for which we are asking that authority be granted to do his work. With that authority granted the whole island is united and ready for work that will suppress typhoid and similar diseases."

Mr. Loebenstein boarded the Kilaua Hou at Kawaihae, riding a hundred miles overland from Hilo to "feel the public pulse." He says that in every district he found the people indorsing the action taken at Hilo. He is now waiting for the steamer for an answer from the Board of Health to Dr. Grace's letter and will return to the rainy city as soon as he gets it.

Following is Dr. Grace's letter: Hilo, Hawaii, Jan. 24, 1900.

To the President of the Board of Health, Honolulu.—Sir: I have directed my secretary to forward to you the minutes of the meeting held a day or two ago of the Board of Health of the Islands of Hawaii.

I have the honor to inform you that the efforts of my committee have been directed toward the encouragement of a feeling of security among the people of this island, and they have been completely successful in this object. The people are now completely satisfied.

The committee have requested the sheriff of Hawaii to notify all corners that no burials are to take place on this island without a certificate, and they have further requested that in all cases of doubt a post mortem examination shall be ordered. They will be glad if you will empower them to deal more directly with this important matter.

The committee have placed a guard on board the steamer carrying this mail. He is their agent, and they will be obliged if all communications to them be handed to him for delivery.

As we have no facilities for the disinfection of mail matter, or freight of any kind, the committee requests that you will see to the proper disinfection of all mail and freight permitted to be taken aboard any steamer bound for the island of Hawaii. They will be glad if you will forward certificates stating that such disinfection has been carried out.

In conclusion my committee desires me to inform you that in all their actions they have been guided by a sincere desire for the welfare of the islands, and that they have endeavored throughout to act in accordance with the wishes of your honorable Board.

I am, sir, respectfully,

JOHN GRACE,

Chairman of the Health Committee of the Island of Hawaii.

HERE AT LAST.

"The Hawaiian Comic Calendar" published only by The Golden Rule Bazaar, 215 Fort street, was received by the S. S. "Mariposa" and is the handsomest piece of work in this line ever offered the public. Secure one and send it to the folks at home—they will greatly appreciate it, and it only costs 50 cents.

Hanan creates the style and leave others to follow.

## SOME SENSIBLE QUERIES

A SUB-INSPECTOR ASKS FOR INFORMATION.

Authoritative Answers to Practical Questions Will Enable Sanitary Work to be More Thoroughly Done.

EDITOR STAR:—May I offer a suggestion which may or may not prove worthy of acceptance?

There are at work in Honolulu some 400 sub-inspectors, going their rounds twice a day, and inspecting not only the residents but also the sanitary conditions of their apartments. Of these 400 inspectors 150 receive instructions from the sub-inspector in charge of the district, and the property that has to be dealt with is the property of other people. Sub-inspectors are armed with an authority which can, if not primarily, at any rate, eventually, be used to compel householders to carry out their recommendations. It is not unreasonable then to ask that sub-inspectors should be thoroughly and accurately informed as to what conditions are considered satisfactory, from a sanitary point of view, and since they will be often called upon for advice, what are the least objectionable ways of reaching these conditions. Other questions too, touching health are likely to arise as e. g. overcrowding upon which sub-inspectors should be properly informed. And the suggestion I would make is that the Star open what might be called "The Sub-Inspector's Inquiry Column" or "The Sanitary Column." To this column sub-inspectors might appeal, and if they might need authoritative guidance.

It might be urged at once that sub-inspectors could lay their enquiries before the board of health, but the board is not a body of inspectors. But I submit that the inspectors like themselves are laymen. In these matters, and might not in all instances be armed with sufficient knowledge, next that one rule should prevail throughout the city, and not a separate rule for each district, and finally that the conditions throughout the city being generally speaking of one character the authoritative solution in public of the difficulties of one sub-inspector might solve the difficulties of 400.

Never in the past perhaps have people's minds been so ready, as they are at the present moment to receive instruction on these matters and it may be a long time before the opportunity may recur. The present is a golden opportunity for impressing upon young and old the elementary principles of sanitation as they may be applied to this city.

To carry out this idea it would of course be necessary that the answers to enquiries should proceed from authoritative quarters and not from private individuals however well informed. The board of health or the Sanitary Committee would eventually be the source to which we should look.

Questions upon which one might look for instruction are such as the following:

1.—Should the drainage from the wash tub and sink be allowed to find its way into the closet pit, or should it be kept separate?

2.—Should the closet pit be kept in a dry or in a liquid state?

3.—Should the sink drainage be carried off on the surface and exposed to the purifying influence of the sun, or should it be conducted by a hole at once to the black sand that underlies the city?

4.—What is the proper depth for a closet pit? Should it go down of necessity to the black sand? Is boxing essential?

5.—For lodging houses, tenement houses, etc., what amount of airing modulation should be provided in the matter of closets?

6.—How many cubic feet of air does the law require for each person in a house? Is it the same for children as for adults?

7.—Within what limit may pigs be kept?

8.—Is it proper or improper to allow excreta to be received into movable vessels, tubs and the like, and then buried in or distributed over gardens, flowers or vegetable. The practice, right or wrong, is in vogue.

Simple enquiries perhaps some may say. An intelligent man could easily find out answers for himself. But again I reply that we are not acting on ourselves. We are enforcing recommendations on others. We should therefore have authority to stand on. And if this is given, not only will the more easily attained, but when attained there will be the satisfaction of knowing it is the best modern knowledge within reach.

Yours truly,

SUB-INSPECTOR.

HE HAD CAUSE TO REJOICE.

"A young man came into our store yesterday suffering from a severe attack of cramp colic," writes B. F. Hess, miller and general merchant, Dikey's Mountain, Pa. "He had tried various home remedies without relief. As I had used Chamberlain's Colic, Cholera and Diarrhoea Remedy I gave him a dose and it soon brought him out alright. I never saw a fellow so relieved." Sold by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

FOR CAMARINOS REFRIGERATOR.

Per S. S. Australia—Peaches, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Pears, Plums, Fresh Salmon, Flounders, Halibut, Crabs, Eastern and California Oysters (in Tin and Shell), All Game in Season, Turkeys, Chickens, New crop of Nuts and Dried Fruits, Onions, Burbank Potatoes, Swiss, Parmesan, Rockford, New Zealand and California Cheese, Olives. All kinds of Dried Fruits.

EXQUISITE RUGS.

If you want to decorate your home buy one of those 14-4 rugs that are being sold at L. B. KERR'S for \$17. They are good value, exquisite patterns, charming colors, and must be seen to be appreciated. Do not fail to see them before they are all sold.

## THE NEW RAT PROOF WHARF

ITS CONSTRUCTION TO BEGIN AT ONCE.

It Will be Built Near the Healan Boat House at the Beginning of the Channel.

The location of the quarantine wharf and warehouse recently discussed and recommended by the Chamber of Commerce is to be near the Healan Boat House, on the Walkiki side of the beginning of the channel. It will be completely rat-proof and will be kept in strict quarantine for "free" vessels. The work of construction is in charge of Edward Shih of Hackfeld & Company and President Ena of the Inter-Island Steamship Company.

The channel is over thirty feet deep and twenty feet wide close in to the sea wall. There is room for a wharf 400 feet long and 200 or more feet wide. It will be part of the way of harbor traffic and quite near the city without being in danger of contamination. The wharf will be of value not only during the present epidemic, but in the future any similar outbreak should occur, it will be ready for use.

Work is to be begun on the new wharf at the earliest possible moment and it is hoped that it will be ready for use in a few weeks. Mr. Ena and Mr. Shih were looking after the project this morning.

CITIZENS' COMMITTEE.

At the meeting of the citizens' committee on location of camps yesterday afternoon Minister Young reported that the contract for the wall at Kalihi camp had been let to McCandless Bros. for \$3500, to be completed within three weeks.

Dr. Herbert was appointed a committee of one to confer with Dr. Hovell in regard to a consumption hospital at the Kalihi camp.

C. B. Ripley was appointed to prepare pay rolls for the camp in advance and have them properly audited.

WANTS A LOCATION.

Harry Juen, proprietor of the late Louvre saloon in Nuuanu street, is looking about for another location in the city, but finds difficulty in securing one. The Government is disposed to continue his license in almost any other satisfactory place for the present, as the burning of Mr. Juen's premises was not the fault of the proprietor.

MAIL AND PASSENGERS.

Hilo, January 18.—Postmaster Severance will dispatch a mail by the Annie Johnson for San Francisco. Only letters and newspapers to points in the United States will be taken. Mail will close at 4 p. m. tomorrow (Friday).

The musical Fletchers, J. W. Wilson, R. W. Macintosh, George C. Wilhelm, W. S. Mansfield, R. F. Phillips, W. Mendon and Miss A. M. Austin are booked to leave on the Annie Johnson.

MILITARY IN TOWN.

Companies A, C and F, under Major Zelger, marched into town from Kalihi at an early hour this morning and stacked arms on the grounds of the Executive building. The men had a bath, changed clothes and were then allowed passage until 10:30 o'clock. Their uniforms went over to the fumigating rooms. The companies will march back to Kalihi this afternoon, leaving town about 6 o'clock.

Companies G and H are on duty at Kalihi today. Company E will be ordered there as soon as it can be spared from town.

THE WEATHER.

Weather Bureau, Honolulu, 1 p. m. Wind light east northeast; weather cloudy and variable.

Morning minimum temperature, 61; midday maximum temperature, 74; barometer, 9 a. m., 30.14, steady, (corrected for gravity); rainfall, 34 hours ending 9 a. m., .05; dew point, 9 a. m., 54; humidity, 9 a. m., 60 per cent.

CURTIS M. LYONS, Observer.

CHARGED WITH BURGLARY.

George Pigott and Fred Hansler are charged in the district court with the burglary of Yuen Chong's store last Saturday following the excitement of the fire. The police believe these are the men who started the raid and who did the most skillful and professional lock breaking. There are a large number of witnesses against them. The case was continued this morning at the request of Hansler until Tuesday morning.

Pigott is a brother of Annie Pigott who has figured so prominently in the police courts of San Francisco during the past several years.

HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing Machine has few equals and no superiors—B. Bergersens, agent, Bethel street.

Clearing sale of harness and vehicles this week at W. W. Wright's.

PASS THE TIME PLEASANTLY.

Steamer men in quarantine pass the time pleasantly by playing gramophones purchased from The Bergstrom Music Co. New improved gramophones sold on easy payments.

IN BEAUTIFUL DESIGNS.

Dress goods in beautiful designs can be found at L. B. KERR'S, Queen street, and at prices that are remarkably low.

Going out of the business of importing harness and vehicles. Rare chance for bargains. W. W. Wright.

MESSANGER SERVICE.

The Honolulu Messenger Service delivers messages and packages. Telephone 378.

Fine Job Printing, Star Office.

## FROM THE BATTERY CAMP

HAPPENINGS OF DR. NICHOLS'S PRESERVES.

Everything in Good Order and inmates of the Camp are Happy—The Children—Incidents.

Dr. Nichols knows full well the truth of the old saying, "Satan finds mischief for idle hands to do." From the first, he has endeavored to keep the people in quarantine here happy and profitably employed.

The men are on duty as watchmen, carpenters, cooks, tailors, store keepers, and general helpers.

Joseph Smith, one of the most intelligent boys in camp, is kept busy from early morning until late at night finding out the wants of the Hawaiian people. These wants are reported to the office, and they are promptly attended to by those in charge.

Tomie More attends to the wants of the Japanese people. Although but a lad of fourteen years, he is quite capable of looking after the wants of twice as many people of his race. The Japanese are very modest in their requests; they ask for what is needed, no more, no less, and they frequently express their gratitude for the kind treatment they are receiving at the hands of the Hawaiian government.

Chong King, known in camp as "Wall Nichols," is looking out for the needs of his people. His services are invaluable. He makes the Chinese "sabe" everything. Their wants are many and "Wall Nichols" has no easy task.

From the beginning, the women have been kept busy sewing. Each woman is given material for a holoku and a muiumu. Those wishing to do so, are given material to make bags to carry their personal effects out of camp when their fifteen days' have expired. These effects are thoroughly fumigated just before the people are released.

Every room is supplied with scissors, needles, thread and thread. At the request of the Hawaiian women, material for handkerchiefs will be distributed next week.

The children have been well cared for, but it has been no easy task to keep them clean, warm, well-fed, and well-dressed. If the ladies of Honolulu could see the Chinese, Japanese and Hawaiian babies here lodged out in the clothing sent to the Board of Health rooms, they would feel amply repaid for their kindness.

A visitor "going the rounds" in Battery Camp would be greatly interested in the occupations of the people. They not only sew, but they read, write, converse, play games, pick the guitar and mandolin, and sing songs. The words and music of the songs they are constantly composing and often improving.

The power of adaptability in this camp is wonderful. Each room is a home in itself and the people generally seem contented. The Hawaiians frequently express themselves as being very well satisfied. Many of them beg to remain, and in many instances it requires a "powerful" amount of persuasion to induce them to leave Battery Camp.

MAY-RE.

HE SAW A GHOST.

Native Soldier Discovers a Spook in Kawaiaha Cemetery.

Late Thursday night a native military guard on duty at the edge of Kawaiaha cemetery shrieked out wildly for the corporal of the guard. That functionary responded at a full run, surmising all sorts of bad things. The guard, with his knees trembling and fear depicted in his every molecule, declared that he had seen a ghost rise and sink into one of the graves five times in quick succession.

"Why don't you arrest him?" sternly demanded the corporal.

The soldier answered with a wide open mouth and a blank stare. He pleaded to be relieved at once as he was sure there was a ghost in the cemetery. The man was relieved.

GOING TO MADEIRA.

Hilo, January 20.—J. G. Serrao expects to leave about June next on a visit to his native home—the island of Madeira. He will be absent about six months.

Jan. 18.—J. M. Colman, Murcheson, from San Francisco, with general merchandise.

Jan. 18.—Bktn. Irmgard, Schmidt, from Honolulu in ballast.

January 19.—U. S. transport Aztec, with horses and mules for Manila.

#### Sailed.

Jan. 20.—Bk. Annie Johnson, Nelson, for San Francisco.

#### To Arrive.

Sch. Eva, from Eureka, 76 days out.

Sch. O. M. Kellogg, from Tacoma, 24 days out.

The schooner Lottie Bennett expects to clear next week.

Bark Amy Turner will clear in about 8 days.

On Thursday there were fifteen vessels in port.

## WILL ACT AS WHARFINGER

HARBOR MASTER FULLER'S NEW ASSISTANT.

A Man to Look After the Sorting and Delivery of Freight—Benefit to Consignees.

The appointment of Captain Freese to look after straightening out freight on the waterfront and see that it is properly delivered, is a step towards giving Honolulu a wharfinger who can give his time to the work. By law Captain Fuller, harbor master, is the wharfinger of Honolulu, but when the captain gets through moving vessels every day with Captain Tripp's assistance, there is no time for wharfing business. The two captains in the harbor master's office have been working from daylight till after dark for many months, since the harbor became so full of vessels that much moving about to make room was necessary, and since transports began to take docks away from other vessels, compelling them to move.

Captain Freese is directly under the supervision of Captain Fuller, the latter being wharfinger. At present he is at work at the Pacific Mail wharf, where the freight of half a dozen steamers is piled up. The tremendous work of fumigating it all and the rapidity with which it was discharged in a space too small for it, made a good deal of confusion unavoidable, and the captain will have his hands full for a time.

It is expected that the new official will make it much easier in future for consignees to get their freight, as there is work enough for one man most of the time to keep different consignments separate and look after deliveries. He may also assist Captain Fuller in the latter's other work.

### AZTEC AT HILO.

An Army Transport at the Rainy City.

The army transport Aztec, Captain Trask, arrived at Hilo on the 19th, with 350 horses and mules for Manila. The Aztec was sent to Hilo to avoid quarantine here. On Saturday the work of taking the horses off the vessel to give them a rest on shore was begun. They will have a week or two to recuperate in the balmy shades of Hilo and will then be loaded on the transport again, by means of lighters.

The Aztec left San Francisco on the 10th of January. She did not carry mail.

### THE KINAU'S TRIP.

The steamer Kinau returned from Kahului this morning and is now preparing for her run to San Francisco. She is being coaled and watered in the stream and will go to Makaweli as soon as she can be got ready, to take a load of sugar for the coast. After getting her cargo the Kinau will probably return to Honolulu, to leave some of her crew here, and will clear from this port.

### GOOD LUCK.

A strange story comes from New Guinea of the loss and recovery of gold worth \$1,400. A party of miners returning from the Manbare gold field in a cutter accidentally allowed three bags of gold to fall overboard when 30 miles from port. On their arrival at Samarai a reward of 50 was offered and a lugger and a cutter went in search of the lost gold. After diving for some time in four fathoms without result, the owner of the cutter gave orders to heave up the anchor, and when the anchor came up one of the bags of gold was found stuck in the flukes. The other bags were then soon located and recovered.

### HOURLY INCOMES.

The czar has \$250 per hour, the Sultan \$170, the Emperor of Austria \$100, the Kaiser \$90, the King of Italy \$66, Queen Victoria \$66, the French President \$50, the King of the Belgians \$13, and the President of the United States \$1 1/2 per hour.

**HILO AND HER QUARANTINE**  
SOME INCIDENTS GROWING OUT  
OF IT.  
The Sugar Bag Incident and Commo-  
dore Beckley—Major Purdy Finally  
Gets Ashore—A Plague Scare.

**HILO, January 26.**—The somewhat  
undetermined status of our "health  
board" and the interruption of com-  
munication with Honolulu have brought  
about a number of incidents and situa-  
tions all of them interesting and some  
of them amusing.

On Tuesday afternoon an attempt  
was made to land sugar bags and Ja-  
panese emigrants at Wainaku and Wai-  
akea plantations from the Kinau. This  
being contrary to regulations of the  
Board of Health of Hawaii, managers  
Scott and Kennedy refused a landing  
and sent them back. The Health Board  
then informed Mr. Beckley by letter  
that they regretted that steps had been  
taken by officers of the Kinau to dis-  
charge unauthorized freight and notifi-  
ed him that it was the purpose of the  
Committee to carry out the actions de-  
cided upon with firmness and de-  
termination. The sugar bags were  
transferred to the Hawaii. Appropos  
of this the Hawaii Herald says, "George  
Beckley probably knows at this date  
'who is running Hilu.'"

Beckley was allowed by the Board of  
Health to come ashore today.  
Major Purdy of the new bank spent  
several days on the Pathfinder. He  
was not permitted to come ashore un-  
til Tuesday January 16. The same  
evening about three hundred Japanese  
were placed on Quarantine Island. In  
order to feed them several bags of rice  
stored in quarantine were opened and  
cooked. Drinking water was sent over  
from town.

Sheriff Andrews has been made the  
executive officer of the Board of Health  
and in sanitary matters will act under  
instructions from that body.

Monday last it was reported that a  
Japanese had died of the plague at Ho-  
nolulu, but on investigation the cause of  
death turned out to be "beriberi."  
Our quarantine regulations as well  
as those of Honolulu have gotten into  
court. The case of the Government vs.  
C. H. Brown, for violating these regu-  
lations, was nolle pross'd by Sheriff  
Andrews on Tuesday.

The Herald says: "Nearly all the is-  
land delegates have returned home, no  
doubt satisfied that Hilu does not want  
to run all of Hawaii, but that it is fully  
capable to cope with the situation."

**HILO FOREIGN COMMERCE.**  
**HILO, January 26.**—The report of  
Collector of Customs Winter of the  
business of the Hilu custom house for  
the year 1899 shows imports valued at  
\$1,137,917.44 and exports valued at \$3,  
150,160.34.  
The imports show an increase over  
those of 1898 of \$350,814.39. The exports  
show a decrease from 1898 of \$132,791.80.  
The principal exports were 40,599 tons  
of sugar, 54½ tons of coffee and 50  
bunches of bananas.

**KOHALA DOINGS.**  
**KOHALA, January 23.**—Mrs. Robert  
Wallace is visiting her sister, Mrs. C. S.  
Kinnerly.  
Adam Lindsay gave an informal  
bachelor dinner last week.  
Mrs. Ebbel and family have re-  
turned from Kiholo.  
Rev. C. A. Austin, Harry Glass and  
Fred Walker are spending a few days  
in Waimalea.

John Hind and Mr. Hugh King, dele-  
gates from Kohala to Hilu returned  
overland last night.

Kohala has not heard from Honolulu  
since January 14.

**CHILDREN'S PARTY.**  
**KOHALA, January 23.**—Mrs. Dr.  
Bond entertained a merry company of  
little folks last Thursday in honor of  
Miss Ruth Renton's fifth birthday.

**ANNUAL MEETING.**  
**KOHALA, January 23.**—The annual  
meeting of the Foreign Church Soci-  
ety was held on January 18. There were  
no new trustees elected. Edwin Olding  
was re-elected as treasurer. The church  
has recently become a chartered  
body.

**130,000 AT DINNER.**  
In the latest issue of the War Cry  
received here are illustrated and gra-  
phic accounts of the Christmas dinners  
served to the poor in the various big  
cities of the United States by the Sal-  
vation Army. In the aggregate the Sal-  
vation Army served dinners to 130,000  
people.

**IMPROVEMENT CLUBS.**  
A meeting of residents of Palama  
was held last night for the purpose of  
organizing an improvement club, an  
association of citizens to work for the  
improvement of the district. At 8 o'clock  
this afternoon a meeting of Makiki re-  
sidents will be held for the same pur-  
pose.

**RIFLED TRUNK FOUND.**  
Employees of the Honolulu Iron  
Works soon after noon yesterday found  
a trunk hidden among lumber and piles  
makai of Queen street, opposite the  
burnt district. The lock had been broken  
and the trunk rifled of all its con-  
tents except some trifles. But inside  
the lid under a tape were found two  
bills of exchange drawn by Spreckels  
& Company's bank. One was dated  
November 23, 1899, for \$50 payable to  
Kwan Tong Chong. The other was  
dated July 3, 1899, for \$35 payable to  
Goon Tong Chong. It is believed that  
the trunk was taken out of the burned  
district during the fire Saturday, but  
how it was gotten through the guards  
is the puzzle.

**ORIGIN OF THE BICYCLE.**  
The evolution of the bicycle as it now  
is, is of a comparatively recent date. It  
appears that the earliest records of it  
are found about the year 1815, when an  
ingenious coach-builder brought out a  
two-wheeled machine which was prop-  
elled by the feet of the rider. This  
was called a hobby-horse. Some of the  
caricatures of that period depict the  
young men riding these hobby-horses,  
from which they most likely extracted  
as much amusement as our modern  
racers do from their "swifts" and  
"safeties". Riding a hobby-horse was  
quite a craze amongst the youths of the  
early part of the century; but their  
sisters and cousins (not mention their  
aunts) do not seem to have imitated  
them.

**CODE STOLEN.**  
British officialdom is greatly troubled  
because two more copies of the code of  
confidential signals of the British Navy  
have disappeared from the Portsmouth  
naval depot.

**FENCE CONTRACT AWARDED**  
WILL MEAN EARLY OPENING OF  
KING STREET.  
Conditions Under Which Nuuanu Mer-  
chants May Open Places of Business.  
Matter of Food Supplies.

The contract for building fences  
around the recently burned blocks in  
Chinatown was yesterday afternoon let  
to Mr. Russell, the lowest bidder, at 39  
cents per lineal foot. It was voted by  
the Board of Health to fence the two  
blocks between King and the water-  
front first. A fence will then be built  
on the east side of King from Thomas'  
yard to River street and the thorough-  
fare opened to the bridge. All the  
trash in the street is now being burned  
and road and sidewalks will be sprink-  
led with sulphuric acid.

There had been some difficulty in get-  
ting guards on the part of the Citizens'  
Committee, and Marshal Brown was  
called in. That official said he did not  
understand he was to supply guards  
except upon call of the Board of Health.  
The suggestion of the Marshal that a  
sufficient number of guards, with a  
wagon, be kept at the Board of Health  
office ready for service at any time  
was adopted.

The matter of allowing the merchants  
in Nuuanu street to re-open for busi-  
ness again came up. Dr. Wood spoke  
of the rear portions of most of these  
houses as being very insanitary. It was  
finally decided that if outhouses were  
renewed and premises put in proper  
sanitary condition, all of the stores ex-  
cept in the McLean block, the Holt  
block and the Wing Wo Tai premises  
might be opened.

Matter of food supplies for the other  
islands again came up. The Planters'  
Association will be asked to meet and  
suggest measures to relieve the situa-  
tion.

The house at Kaimuki, occupied by  
Mrs. Bieling, and the one next to it  
were ordered burned.  
Following up the case of yesterday Dr.  
Jobe, a city physician of the Board,  
was instructed to attend any case he  
went to see if possible.

**SPREAD OF ENGLISH.**  
In All 127,000,000 Claim it as Mother-  
Tongue.

English as the medium of converse  
has made rapid progress throughout  
the civilized countries of the world  
during the century, the last year of  
which has just started. On this  
head a few statistical facts taken from  
the Journal of Commerce may prove  
instructive. It says: "When the cen-  
tury began these people numbered only  
22,000,000, or 16,000,000 less than those  
who spoke German, 12,000,000 less than  
those who spoke French and 10,000,000  
less than those who spoke Span-  
ish. As the century draws to its close,  
the people who speak English as their  
mother-tongue number 127,000,000—an  
increase of 477 per cent and a greater  
number than all the people who speak  
French and German combined. At the  
end of the last century there were in  
these United States only 5,000,000 in-  
habitants; the census with which this one  
century will hardly show less  
than 75,000,000. In the same period the  
population of the United Kingdom has  
grown from 15,000,000 to 41,000,000, and  
the colonists of English race have in-  
creased from a few hundred thousand  
to between 11,000,000 and 12,000,000. At  
the beginning of the century the popu-  
lation of the European continent was  
170,000,000. At its close the total ap-  
proaches 343,000,000. Thus, while at the  
end of the last century the English-  
speaking family was outnumbered by  
the nations of continental Europe in  
the proportion of 8 to 1, it is outnum-  
bered by them today in the proportion  
of 27 to 1 only."

**A DIVERSION OF OLD AGE.**  
After a man passes 50 all that he has  
to look forward to is an ache in a new  
place.—Acheson Globe.

Fine Job Printing, Star Office.

**BUSINESS MEN'S MEMO.**

Saturday, January 27.  
Five per cent (\$1 per share) assess-  
ment is due and payable on the assess-  
able stock of the McElyde Sugar Co.,  
Ltd. on August 15, 1899. Five per cent  
(\$1 per share) on October 1, 1899 and 5  
per cent (\$1 per share) on January 1,  
1900.

Two and one-half per cent assess-  
ment on the assessable stock of Olua  
Sugar Co., Ltd., is due and payable  
October 1, 1899, and 3½ per cent ad-  
ditional on the 1st of each succeeding  
month, including July, 1900.

Sixty per cent assessment on the 10,  
000 new issue of shares of Waialue Agr.  
Co., Ltd., due Jan. 15, 1900, delinquent  
February 15, 1900.

Second assessment of 25 per cent on  
the assessable stock of the Honolulu  
Stock-Yards Co., Ltd., due January 1,  
1900.

**WE INVITE  
INSPECTION Pacific Heights**

Residence lots on Pacific Heights are now offered for sale.  
No residence property having similar advantages and attrac-  
tions, as far as healthfulness of location, having an elevation  
of from 170 to 800 feet, and affording the grandest marine and  
scenic views, as also its proximity to the business part of the  
city being less than a mile from the Progress Block, has ever  
before been presented to the people of Honolulu.

One of the main features of this property, and procured at  
great expense, is the abundant supply of pure spring water,  
pronounced by Dr. C. B. Wood as being the purest and best  
drinking water obtainable in the Island, which is now being  
conducted into storage reservoirs upon the property by an in-  
dependent pipe line, and will be supplied to residents at Gov-  
ernment rates.

**OUR GUARANTEE.**—We guarantee to all purchasers of lots on  
Pacific Heights that we will, within six months, provide rapid  
transportation to the highest lots on the property, connecting  
the same with the Honolulu Rapid Transit Co.'s line on  
Pauoa Road at the beginning of Kaiulani Drive.

**TERMS.**—One-third cash, ½ in one year, ½ in two years; in-  
terest, six per cent per annum on deferred payments.

Our carriage will convey parties desiring to inspect the  
property to and from the same.

For maps and full particulars, call at our office, rooms 7 and  
8, Progress Block.

SATURDAY, JANUARY 27, 1900.

The Japanese Consul-General gave a sensible speech to his people yesterday at the drill shed. It was calculated to make them contented and to make them realize their duty in co-operating with the authorities in the present crisis. Consul-General Miki Saito's attitude is one to be strongly commended.

Now that the contract for fencing the infected district has been given, it is to be hoped that the work will be rushed through, and the street cars and busses be once more set running. How beautifully clean the cars must be after washing and fumigating. It is said that after a week's scraping, Pain found a missing car.

That all is not dull hard work in inspection is true. Some humor can be extracted as is shown elsewhere. Another element of humor, which cannot be published, is the bald Anglo-Saxon used by some of the nationalities visited. They have not learned their English either in schools or drawing rooms. A spade is a spade with them.

The communication from a sub-inspector which appears in another column is an eminently sensible one. The queries which he puts cover practical matters which come before a very large proportion of the four hundred people employed in inspection. It is to be hoped that some member of the Board of Health will give authoritative replies. The Star will be happy to publish any further queries that may be asked.

The birthday of the German Emperor passes without any outward demonstration of loyalty from the Germans resident in this city, but in their hearts and homes the respect and loyalty of his subjects in these distant isles will be just as strongly expressed. The Emperor is the strong character among the Monarchs of Europe. Like all strong men he calls forth criticism, but he equally calls forth the unwavering devotion of his people.

## SECRETARY BALLOU.

S. M. Ballou as secretary of the Citizens' Sanitary Committee has seen fit, in his capacity as secretary, to take The Star to task for an article appearing in the issue of January 25 concerning the alleged actions of one W. Johnson which were the subject of investigation by his committee.

There can be no objection to Mr. Ballou's making such public comments on this matter as he sees fit, either in his private capacity or in his committee capacity. However when he speaks in his committee capacity he should remember that he purports to speak for others than himself, what he says is properly assumed by the public to be in the utmost spirit of judicial fairness, and therefore he should be doubly careful not to make erroneous statements when purporting to correct and admonish others for what he alleges are erroneous statements on their part.

Mr. Ballou in his communication to the Advertiser purports to analyze and correct statements in The Star's article of January 25. In doing this he has quoted as original statements of The Star statements which are clearly shown by their context in The Star to be the statements of others and given as such so that each reader may judge for himself as to the reliance to be placed on them. To these he has added some misstatements of his own as when he says "this committee is informed by the reporter of The Star that the article in question was published on the authority of Marshal Brown." No one representing The Star has given the committee any such information. To the extent that statements were made in The Star on the authority of Marshal Brown they appear in the article as such and the committee has no further or additional information in that respect than any other reader of The Star may have.

But Mr. Ballou has entirely ignored the article in The Star of January 26 on the same subject and given equally as prominent a place as the article of January 25. The Star is a newspaper striving to give in its news columns all information attainable at the date of publication on the matters of public interest of which it treats. It did so on January 26. On January 26 it had obtained further information on the subject and published it. So far as the statements in the article of the 26 are contradictory of those in the article of January 25, they are to be considered as the corrections of the former which later and further information makes, for a real newspaper is constantly striving after

later and further and fuller information in matters of public interest.

Therefore when Mr. Ballou or any one else, acting or purporting to act in a representative or official capacity takes a newspaper or an individual publicly to task for its statements, he puts himself in a position where it is his duty to take all the statements on the subject together, the latest as well as the earliest. This ordinary rule of fair play and courtesy Secretary Ballou—for as such he speaks—has entirely ignored.

## PROSPECTS BRIGHTER.

The clearing out of the detention camp at Kawaiahae church is very satisfactory. Nothing else could have been done in the hurry of moving a population in the way it had to be moved last Saturday. And the task of moving the refugees out again depended upon the rapidity with which the work could be pushed at Kailhi. This was pushed practically night and day, until before the end of a week accommodations had been provided.

The Board has now its people from the infected districts well in hand, and is giving them the advantages of pure air, comfortable accommodation and abundant food of a nourishing character. The physical health of one quarter of the city is being put into excellent condition, and it is a quarter of the city which supplied a large portion of the deaths from fevers and so forth.

The situation is therefore very much better than it was. The springing up of sporadic cases need create neither alarm nor surprise. Dr. Wood, in his remarks before the meeting of Inspectors and Sub-Inspectors last Sunday morning, said that such cases would occur, but he also pointed out that they could be easily handled and the cases prevented from becoming fresh centers of disease. The event has proved the truth of his words. The sporadic cases are at once discovered, while those who were living in a district exposed to infection are now freed from the dread of it, and are not developing any alarming symptoms.

It looks very much as if the plague was now well in hand, and that light is beginning to show through our heavy cloud. The work has been, and will continue to be, a heavy strain upon the citizens for some time to come. But one does not mind the strain when the prospect of success seems near. That the strain has been a heavy one is plain from its effect upon the minds and the tempers of the citizens. You can't have continued loss and continued hard work without reaching a somewhat angry or disgruntled condition. Not everyone is gifted with the sunny disposition of Charles Fox, whom nothing could disturb, neither financial loss, nor the steady struggle of an apparently losing political battle.

However once this strain is over the city will return to its wonted good humor and brightness. It will set manfully to work to retrieve its losses, and such are its recuperative powers, that a few months hence the evil effects of the plague will be obliterated, while its lesson will not be forgotten, and the city will rise from its bed of sickness a rejuvenated spot, careful as to sanitary conditions, and determined never again to fall into the conditions which have cost it so dear.

At the present moment all eyes are turned upon the detention camps. If they keep healthy during the quarantine period, as one firmly believes they will, the policy of Dr. Wood and the Board of Health will be thoroughly vindicated, and one of the most striking battles against disease will have been fought and won. It is not wise to halloo before you are quite out of the wood, but one cannot help feeling brighter when the gloom of the depths of the forest begins to give way to the checkered light of skirting saplings.

## THE CHILDREN.

An adult may be at once thin and healthy, but a baby, or a young child, should be plump, and well covered with fat. Yet how many gaunt, emaciated, thin-blooded babies and children we see, chiefly because the nutritive machinery of their bodies is in some way out of order. Or they may be scrofulous or the victims of some subtle wasting disease. Nauseous and bad tasting medicine is objectionable to adults and a horror to children. No doubt its frequent lack of good effect is, at least partly due to the disgust it excites in them—the shock to the system. This is true of cod liver oil in the form of the ordinary old-fashioned mixtures so often forced upon them. The old terror of this valuable, yet offensive drug vanishes with the transformation it has undergone in

WAMPOLE'S PREPARATION, which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anæmia, Scrofula, Rickets, and Bone and Blood diseases, nothing equals it. It creates new blood, strong muscles, sound teeth, solid bones, and enables them to grow up into healthy men and women. "Dr. Edward Clark says: From a long experience in the use of cod liver oil, I have no hesitation in saying that I regard it the best preparation on the market. It is pleasant to the taste, can be tolerated by the most delicate stomach and is productive of the most marvelous results in all cases where it is indicated." It will not disappoint those who trust to it. Genuine is effective from the first dose. Sold by all chemists.

## HILO'S POINT OF VIEW

ACCOUNT FROM THERE OF MR. COOPER'S VISIT.

The Rainy City Papers Treat the Matter in a Candid, Serious Way and in Good Spirit.

Both the Hilo papers give full accounts of the visit of Attorney-General Cooper to their town, and though from a different standpoint they do not differ in essential particulars from the account given by Mr. Cooper. The entire tone of the accounts in both papers is one of courtesy and fair play, recognizing that men may differ even when having the same motives of a desire for the best for all concerned.

The episode of the effort to prevent Sheriff Andrews from landing after his return from the Kinau is treated facetiously both by the Herald and Tribune. It is spoken of as the acts of persons whose solicitude for the public welfare could not keep them at their self-assigned posts when it came time to eat, and that their actions do not represent the real public sentiment of Hilo.

The most important particular in which their accounts differ from that of Attorney-General Cooper is as to the attitude of the representatives of the districts of Hawaii other than Hilo. Mr. Cooper thought they rather disagreed from Hilo as to the necessity for severing communication with Honolulu, while the Hilo papers rather seek to give the impression that there was substantial agreement among them on this subject, "Kohala and Hamakua being somewhat undecided," as the Tribune puts it.

The report that any mail was burned is clearly denied.

The conclusions arrived at in the conference with Mr. Cooper, and the subsequent action taken are thus stated by the Hawaii Herald.

"The question of quarantine was then brought up for discussion and votes taken. Several members voted for absolute quarantine but as there was a wish from others that it should be limited it was so decided. It was decided then to select men to act as members of the Board of Health for Hilo, the delegates from outer districts to select local men here to represent them and to vote for them at the meetings. The following were then elected: Dr. John Grace, president; Dr. W. L. Moore, Dr. A. Irwin, Dr. N. Russell, A. B. Loebenstein, C. C. Kennedy and John T. Moir. These men are to be commissioned from Honolulu. A meeting of this Board was held on the 24th inst. in the afternoon and it was decided to land the Japanese and white passengers, except Minister Cooper from the Kinau, the Japanese to be taken by steamer to their respective destinations or to the nearest point of landing. Those for Olau coffee plantations, numbering 283, were to be taken to Puna. As to freight only certain goods would be allowed to be landed and these were machinery, lime, cement, and money. This seemed satisfactory to Minister Cooper and the meeting adjourned. At 8 o'clock Monday night, January 15, another meeting of the Board was held and the action for limited quarantine reconsidered and it was decided that communication be absolutely cut off with Honolulu. It was also moved and carried that the Council of State appropriate the sum of \$50,000 for sanitary improvements in Hilo. A third meeting of the Board was held in the office of Dr. Grace Tuesday afternoon and it still being the opinion of the members that communication be cut off it was ordered that Minister Cooper be notified."

#### ROYAL FADS.

It may be interesting to know that a royal lady made 60000 marks or \$1500 by the sale of her garden produce last season. The Empress Frederick of Germany has done this, although in these market transactions she shields her identity by the name of Friedrichshof castle. The largest item on this account is for vegetables supplied to the imperial guards when monthly on potatoes to the kaiser some money, and everything on the table from potatoes to oranges had come from either the Friedrichshof kitchen garden or the hot house. Indeed, the origin of the vegetable part of the menu got out before the feast was over and afforded the emperor an opportunity to indulge in a hearty laugh.

Empress Frederick has taken gardening up seriously of late. Her library is well stocked with agricultural lore she attended a course of lectures on this line two years ago when in Berlin, and during the summer months often spends whole mornings rooting and grubbing about among her pot plants. She is as familiar with cabbage raising as any German farmer. Her specialty is roses, and Friedrichshof castle can show a creditable collection of prizes and diplomas taken by the empress' flowers at various exhibitions.

When the empress was a bit of a girl the hour between breakfast and class was always spent weeding and ranking in her flower plat. One day the queen chanced to pass and noticed that the princess was wearing a broad new pair of pearl colored gloves. "When I was a child," said she to her eldest daughter, "I was passionately fond of gardening, but I used to wear old gloves to protect my hand." "Naturally, mamma," replied the little lady without a moment's hesitation, "but you were not born princess royal of England."

If the Empress Frederick's latest hobby is horticulture, the queen of Roumania is lecturing. For several years past she has been giving private talks to young ladies at her palace. These have become so popular and so many requests have poured into the castle asking leave of attendance at her meetings that she recently decided to give these lectures in the public high school for girls. In conformity with Roumanian laws she applied for and received the official professional diploma duly signed by King Charles and the minister of public instruction.

#### THAT WAS THE ONE.

There are many Joneses in this world, but perhaps not quite so many as people think. Not long ago two friends met who had not seen each other for ten years, since their school days.

"Whom did you marry, Billy?" asked one.

"A Miss Jones, of Philadelphia," replied Billy, who was a trifle sensitive.

"You always did take to the name 'Jones'! I can remember when we went to school together you used to tag around after a little snubbed Jones girl."

"I remember it, too," said Billy. "She's the girl I married."—Youth's Companion.

## THE NORTHERN LIGHT

A SMALL BARK WITH A LONG HISTORY.

Made Many Fortunes for Her Owners in the Early Days When Whalers Came Here.

The Northern Light is in Honolulu harbor again, after a brief Klondike experience. The bark, the smallest in the harbor, lying outside the Kinau at Brewer's wharf, is a vessel with an interesting history, reaching back half a century. She is of only 375 tons register and is one of the smallest barks in the business. The Northern Light was built in 1842 and had a long career as a whaling vessel, in the southern and northern seas. She has made many fortunes for her various owners and masters, not the least of her successful runs being a trip last Spring to Kotzebue Sound, with 250 Klondikers as passengers at \$100 each.

Captain Challston, the present master, purchased the bark recently at the Sound. He brought her here with a large general cargo and will return to Seattle to load for Cape Nome this Spring.

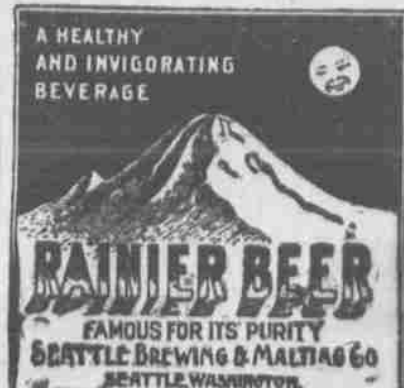

Thirty years ago the Northern Light made one of the record trips here from San Francisco. She was coming here regularly then, in the whaling business, in which she made money enough to buy a dozen of herself. There were cargoes in those days that made as much as \$15,000 for the captain in one trip, to say nothing of the profits of the owners and the percentages of the men. The little vessel had a record as a sailor, that made her famous in many parts of the world. She made San Francisco from Point Barrow, in the far north, in thirteen days, a record that has never been equaled again. Quick sailing and good handling among the ice enabled her to do the trick. The time is better than most steamers.

The Northern Light is in remarkably good condition after her fifty-eight years of ocean voyage. Her sides and bow show the marks of brushing with the ice floes of the north, but she is still a fast goer and only about a month ago she weathered the storm that caused disasters all over the north Pacific. Captain Challston had to throw his deck load over to save the vessel, which was hard pressed and leaking, but he made port far ahead of the time made by other vessels with an even start. From the first the Northern Light has been a lucky craft, and if figures could be obtained she would make a most remarkable showing of profits upon the investment of those who built her, many times multiplying what it cost to set her afloat.

E. E. Hitch, the sail-maker was a visitor to the little bark this morning. Mr. Hitch made the first sails for the vessel, in 1842, when she was built in the East, and he went to have a look at the interesting reminder of old times. To many pioneers here the craft is an interesting reminder. She played a prominent part in the old "wide open" days of the whalers in Honolulu, and many a lively luau was held by moonlight on her decks. In the days when the skippers were wont to welcome the natives to dance and song on board, while vessels lay in the harbor.

**Hawaiian  
Electric  
Company.**

The cleanest, brightest, safest and really  
the long run, the cheapest and best light  
for use in the family residence, is the incan-  
descent electric light. Safe; nothing could  
be safer. A few days ago a prominent gen-  
tleman of Honolulu came rushing down to  
the office of the Hawaiian Electric Company and said:  
"Give me figures for wiring my house, and I  
want it done at once; no more lamps for me.  
Last night a lamp tipped over and it came so  
near setting fire to the house and burning my  
children and I take no more risks."  
This is the sentiment of quite a number in  
the past few weeks, who have ordered their  
houses fitted with the perfect light.  
Just think it over and make up your mind  
that you want the best and safest light; send  
for the Hawaiian Electric Company and tell  
them what you want.  
We have a complete stock of everything in  
its line and have just received a lot of the  
very latest designs.

**LIKE DETENTION CAMPS**

LABORERS ENJOY AN EASY LIFE  
THERE.

Many Leave Jobs to Get Free Food and  
Board—No Workmen to be Se-  
cured.

Detention camp life is becoming so  
popular that the opportunities of go-  
ing there are actually adding to the  
shortage of labor on the waterfront and  
in other places. If there was any proof  
needed of the excellent care being tak-  
en of the people sent to the various  
stations it is found in the fact that  
native workmen have left jobs to try  
and get in on the deal of free board and  
lodging. This is a repetition of the ex-  
periences of cholera times. When  
there was free distribution of poi and  
other provisions during the quarantine  
against cholera, many natives who had  
positions left the deal of free food and  
lodging as long as they could live on the  
latter they had no use for employ-  
ment.

Yesterday an employer who wanted  
some men searched the whole water-  
front and was not able to gather to-  
gether half a dozen natives, where  
there are usually scores of them. With  
free poi in sight there is little incentive  
for many of them to keep on looking  
for their support.

There are many who are keeping on  
the same as ever, mostly among the  
steamship and wharf employees of the  
island steamship companies, but  
enough have disappeared to cripple the  
latter. Not every native wants to quit  
work as soon as he sees a chance to live  
on the public. Those who are on the  
steamers cannot get ashore if they  
want to.

At the camps none have been taken  
in, as far as is known, except those  
entitled to be in, but it is impossible  
to find out exactly about every case  
and at a time like the present charity  
does not stop to make very careful in-  
quiries.

**ANOTHER ANDREE RELIC**

DESCRIPTION OF THE BUOY  
LATELY DISCOVERED.

Opinions of Various Scientists Upon  
the Find—Nansen Thinks It Was  
Thrown Out as Ballast.

The discovery of one of the buoys be-  
longing to the Andree expedition has  
been noted by the daily press. "Ueber  
Land und Meer" says that twelve  
of these buoys were taken with the ex-  
pedition, each one consisting of a cork  
balloon painted with the Swedish colors  
(yellow and blue) and covered with a  
network of strong copper wire ending  
below in a spike.

In the upper end of the balloon there  
was an opening in which was secured  
a cylinder, that was closed at the lower  
end by means of a rubber packing and  
at the upper end screwed in the  
copper plate to which the netting was  
secured. On the plate the inscription  
'Andree's Polar Expedition 1896' was  
engraved. The inscription was dated  
1896, the year for which the expedition  
was first planned, and was not altered  
although Andree really started in 1897.  
The iron cylinder was designed to carry  
communications in writing. From the  
cylinder, which projects beyond the  
plate, extends a strong spiral iron wire,  
that terminates in a Swedish flag made  
of sheet iron. This arrangement is very  
practical, for if the buoy is thrown into  
the water it will always fall with the  
copper spike down and if it falls on  
the ground or on ice, the spike will  
bore in so that the flag will always be  
uppermost. The buoy which was found  
is 12.5 inches long, and has been de-  
clared by several experts who met in  
Stockholm on October 1 to be the so-  
called "Nansen buoy" that is, the  
buoy Andree was to have thrown out  
after the North Pole had been passed.  
Captain Svedenborg, who has had ex-  
perience in balloon ascensions, explained  
that the hooks seem not to have been  
fastened on the eyes and that conse-  
quently the buoy was not let down by  
means of lines. The buoy was opened.  
The copper network was cut off at its  
lower edge, whereupon sea sand fell  
out; and when the copper spike with  
the copper tube secured thereto was  
taken out, the latter held some water,  
and the tube was sawed off. In the  
lower part they found a rubber stopper  
on which was some gravel. On the in-  
ner side of the tube there was a paper-  
like lining which the microscope showed  
to be a sort of seaweed. Professor Na-  
thorst explained that the buoy could  
not have traveled from the Pole to  
King Charles Land. Svedenborg  
thought the buoy had been thrown out  
empty, and Professor Montellius main-  
tained that it had not been proved that  
the buoy was thrown out empty.

Nansen thinks that the finding of the  
buoy is a bad sign, and believes that  
the evidence is that it was thrown out  
as ballast rather than as a means of  
communication. He thinks that the  
buoy was thrown out near Franz Josef  
Land.

**THE STRENUOUS LIFE.**

A small son, aged three, turned up  
the other afternoon with a black eye  
and crying piteously.

"What's the matter?" asked papa.

"Somebody hit me," answered John-  
ny.

"Did you hit him back?" asked the  
stern parent.

"No," sobbed Johnny.

Then followed advice, which ended  
impressively with the words: "Remem-  
ber, Johnny, you are a big boy, and  
when anyone hits you, hit back, and as  
hard as you can."

Two days later in came Johnny, with  
his head high in the air and a blatant  
swagger.

"Well, how goes it?"

"Some one hit me," said the proud  
boy, "but I hit back harder anyway."

"Good!" said papa: "was the little  
boy bigger than you were?"

"It wasn't a boy," calmly answered  
John: "it was a girl."—Life.

**FOR MOTHS.**

Lemons were used by the Romans to  
keep moths from their garments, and  
in the time of Pliny they were consid-  
ered an excellent poison. They are na-  
tives of Asia.

A GOOD THING.  
There's one good thing when they feel  
dry  
That business men cannot pass by.  
For far and wide it's fame you hear,  
They stop to drink of "Rainier" beer.  
On draught or in bottle at Criterion.

**Lubricating Oils**

Will be used very freely for the next 6 or 8 months so  
we wish again to call the attention of all Mill men and users  
of machinery to our TROPIC LUBRICATING OILS.  
For years this brand has been used on these Islands and each  
season the demand has increased so that this year we have  
had to build a special oil warehouse at Kakaako to hold the  
hundreds of barrels of oils we have to carry in stock. Tropic  
Cylinder, Engine, Machine, Dynamo and Carbox Oils are the  
ones you want if you want everything to run smoothly.

**Benton Boiler Compound**

This compound is entirely vegetable, contains no oil or  
acid, it being a natural preservative for iron or steel. It rots  
the scale in the boiler and gradually cleans same. After the  
boiler becomes clean, the compound, if used according to direc-  
tions, will keep the scale forming properties of the water in  
the form of solution or pendent, and the boiler can be kept  
clean, and the scale forming properties of said water can be  
blown out in the form of mud. It is a great saver of fuel as  
it will clean and keep clean any boiler. Let us send you a  
barrel on trial, no pay if not satisfactory. Packings, Waste,  
Compounds, Engineers' tools and supplies of all kinds at

**E. O. Hall & Son, Ltd**

## RUMOR FIENDS IN HILO

THE TRIBUNE CALLS THEM DOWN ROUNDLY.

Calls Editorial Attention to the Impossibility of Their Stories Being True. Confidence in Board of Health.

They have rumor fiends in Hilo as well as they have in Honolulu. They seem to mask themselves there as they do here. They get their information "from some one who knows."

But likewise there is good sense and good counsel in Hilo as well as in Honolulu which goes far toward neutralizing the damage the rash rumor fiends might otherwise do. The Hilo Tribune of January 20 publishes the following clear statement of facts and conclusions:

"People in Hilo, who have received private communication from friends in Honolulu are spreading the report that the plague situation is much worse than is published by Board of Health in Honolulu, and are giving this rumor the semblance of fact by stating it upon the authority of 'some one who is right there and ought to know.' This is undoubtedly no more than rumor in Honolulu, where rumor is rife, but there are means of proving its unreliability there, and thus nullifying its effect, while its becoming current here, makes the situation seem worse than it is. As a matter of fact the Board of Health would prefer to have certain deaths declared to be of the plague when they are at all suspicious, in order that they may burn hovels whose unsanitary condition and filth render them at any time a menace to public health. In no case has this been done, which fact, in itself, should disprove any such rumors which sensation mongers may put in circulation. The very efficient, fearless and thorough manner in which the board is proceeding should give the public every confidence in their actions and reports."

FOR THE CHILDREN.

Mrs. S. M. Damon yesterday sent a big package of slates and pencils for the youngsters at the Drill shed detention camp. Mrs. W. F. Allen sent a big bundle of toys. Some lady who does not disclose her identity recently sent \$25 to be used in the purchase of toys for the children.

FEBRUARY TERM.

The February term of the Circuit court should open a week from Monday morning. Following are the jury lists, now out for service:

Foreign—B. Cartwright, C. L. Clement, J. C. Cluney, J. P. Cooke, M. Costa, A. Coyne, L. H. Dee, W. L. Disney, Wm. Fetter, G. A. Fogarty, C. M. V. Foster, Robt. B. French, H. Gallagher, H. A. Glen, W. L. Grieve, W. W. Hall, W. L. Howard, Sam Johnson, Sam Kueby, Sam Lederer, F. M. Lewis, Chas. Lind, E. L. Marshall, E. M. Marshall, L. L. McDaniel, Thos. Morrissey, W. H. Nott, John Oudekirk, H. C. Patzig, J. S. B. Pratt, C. B. Ripley, N. S. Sachs, D. F. Thrum, G. J. Waller, S. G. Wilder, F. W. Wood.

Hawaiian—S. Ahole, Geo. C. Allen, Sam. K. Ahl, Wm. Ching Hoon, H. N. Crabbe, John Crowell, Geo. cypher, C. B. Dwight, Kawai George, I. H. Hakulole, L. K. Haulani, B. K. Hanuna, John D. Holt, Jr., J. S. Hulimok, J. U. Iosepa, Wm. Kaapa, S. W. Kaikuaahine, Alex. Kahoalii, Kaholole, C. P. K. Kamao, H. Kolomoku, John Leal, Alani Maki, J. W. Maffiona, Halemano Meek, L. H. Miranda, Geo. Moran, T. Mokuluna, Jos. Morris, J. Nakuna, D. L. Naone, Alex. Nicholas, J. Nohunohu, M. Puahi, A. J. Smithies, John Wallace.

CHINA'S NEEDS AND ABILITY.

A writer in the current Atlantic observes that China needs protection and guidance, even to the point of wise compulsion, at the hands of such Christian nations as are truly interested in her welfare, that she may be preserved in her integrity and enter in earnest upon her career of reform. Though the Chinese national life should disappear for a time, the life of the people will continue. There is no lack of vitality to perpetuate and multiply their racial type. The Chinese are a people of industry and thrift, and in the sharp competition with other races will secure for themselves their relative share in the world's productions. They will prove themselves to be skillful workmen, ready to adapt means to ends, and will make their labor a necessity in the varied activities of the world. They will be cautious and judicious traders, competing on equal terms with men of other nations. Chinese students will prove their ability to master and use the learning of the west, and finally, we may believe, to contribute something to enlarge the sum of human knowledge. The Chinese language and literature will survive along with the race, and will be enlarged and enriched for use as their civilization advances. All that is best in the Confucian civilization will be preserved by the Chinese people, and the future Christianity of China will not destroy, but rather renovate, the institutions of China. The Chinese have moral and religious capacities to develop a civilization of high moral purpose and of steadfast religious life that will not be below the best type of civilization that Christianity has produced in western lands.

HEATHER ON THE GOLF LINKS.

The fine growth of Scotch heather on the links of the Billy-cock Golf club is the envy of all visiting players. The secret of the growth has at last been divulged. It seems that Mr. Philip Putter, one of the club's most enthusiastic members, spent a week last fall on the St. Andrew's links in Bonnie Scotland, and the seeds of the heather finding lodgment under the shelter of the hobnails of his golf shoes, were spread broadcast over the home links when he returned. A standing offer of \$5 per pair is now made for any old pair of shoes that have been worn over Scotch links.—Life.

OLDEST TOY.

Probably the oldest toy in the world is the top. It has been used all over the world for thousands of years, and in some savage tribes is used in the performance of religious rites.

TO THE PUBLIC.

I want to let the people who suffer from rheumatism and sciatica know that Chamberlain's Pain Balm relieved me after a number of other medicines and a doctor had failed. It is the best I have ever known of.—J. A. Dodson, Alpharetta, Ga. Thousands have been cured of rheumatism by this remedy. One application relieves the pain. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

# Cuticura

REMEDIES

## THE SET \$1.25

Consisting of CUTICURA SOAP, to cleanse the skin, CUTICURA Ointment, to heal the skin, and CUTICURA RESOLVENT, to cool the blood, is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humors, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

SAVE YOUR HAIR Warm shampoos with CUTICURA SOAP, followed by light dressings with CUTICURA, purest of emollients, and greatest of skin cures, will clear the scalp and hair of crusts, scales, and dandruff, soothe irritated and itching surfaces, stimulate the hair follicles, and produce luxuriant, lustrous hair, which cleans, wholesome scalp, when all else fails.

Sold throughout the world. Price, CUTICURA SOAP, 25c.; Ointment, 50c.; RESOLVENT (half size), 50c. CUTICURA RESOLVENT, 1.00. CUTICURA SOAP, 25c.; Ointment, 50c.; RESOLVENT (half size), 50c. CUTICURA RESOLVENT, 1.00. CUTICURA SOAP, 25c.; Ointment, 50c.; RESOLVENT (half size), 50c. CUTICURA RESOLVENT, 1.00.

## STORM ON KOHALA COAST

A SCHOONER AT HONOLULU IN DANGER.

Her Owners Anxious About the Upolu. Two Lives Lost in Consequence of the Storm.

KOHALA, January 25.—There was a severe storm along this coast last week. It was so severe that it was feared the schooner R. R. Hind would part her moorings and be dashed against the rocks. The Upolu is long overdue and its owners are beginning to feel anxious exposure during the storm.

There is report of heavy rain in Hamakua. The rainfall here for the month has been about one inch. A Chinaman, 63 years old, was found dead on the hills near Kahua. He went to look for a pig and doubtless died of exposure during the storm.

During the storm last week Wednesday a native boy was drowned near Hawaii. He was trying to catch crabs and was washed off the rocks.

KOHALA GIRLS' SCHOOL. KOHALA, January 25.—The Kohala Girls' School has opened with an attendance of 42, seven more than last term. The new teacher Miss Darrow is detained in Honolulu on account of the plague.

KOHALA-HILO RAILWAY. The preliminary line of survey for the Kohala and Hilo Railway has progressed as far as Honolulu gulch and by the end of the week will reach Onomua gulch. Advantage of the present dry weather has been taken to prosecute the survey as quickly as possible. Plans for an arrangement of terminal facilities at Waialeale are on the board and negotiations for right of way in Hilo and out beyond will begin immediately.—Hilo Tribune.

MISTAKEN IDENTITY. The connection established yesterday between the names of Mrs. Brising, plague victim, and "Sweet Emilia" was not the fault of this paper. The statement that both were the same woman taken from the examining physician's report to the Board of Health, as made to Dr. Wood before noon yesterday. It is a fact that there is no connection between Mrs. Brising and the woman known as "Sweet Emilia."

BANK AT HILO. HILO, January 26.—The Hilo branch of the First American Bank of Hawaii will open for general business on Monday morning. The regular bank hours will be observed—from 9 a. m. to 3 p. m. Special arrangements will be made for hours to meet the convenience of the public prior to the departure of steamers and sailing vessels. Major Purdy has already issued a number of drafts on New York for the convenience of the commercial public here and will do so today if necessary. It is understood that \$250,000 of the unused capital of the bank will be put on the market shortly and a portion of this amount will be allotted to Hilo for subscription.—Hilo Tribune.

## NEW ADVERTISEMENTS.

WANTED. Bookkeepers Finance Committee. Page 1 NOTICE TO CONTRACTORS. H. L. Kerr & Co. Page 1 REAL ESTATE-AGENT. T. R. Mossman Page 1

## NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

There will not be any church services tomorrow.

T. R. Mossman, real estate agent has a card in this issue.

This is the birth anniversary of the Emperor of Germany.

New campaign hats have been issued to the National Guard.

A ship was twenty miles southwest at 11 o'clock this morning.

There are still five cases of illness in the Kawaiahao hospital.

Mr. Lycurgus expects to close Sans Souci on the first of the month.

Next mail to the coast will be by the Alameda next Friday, February 2.

The Census bureau will be moved back into its regular office early next week.

Kaui is preparing to shout for food and the Ke Au Hou takes the island a load of fertilizer.

Four bookkeepers are wanted by the Finance Committee. Apply at once to George R. Carter.

A discharged soldier of the First New York, who saw service in Cuba, has enlisted in the National Guard.

Ned Adams had charge of the gang that cleaned and disinfected Kawaiahao church yesterday afternoon.

The Government expects to hear by the next steamer whether or not the legislature will meet in February.

The Rapid Transit Company has lowered two sets of its rails on King street to get them out of the way of vehicles.

The sale of the wrecked barkentine William Carson, by the Marshal was postponed this morning till next Wednesday.

Fred. Weed accidentally sprained his left ankle at the Kakaako detention camp Sunday night. He is nearly all right again.

Foreman Smith and a gang of Number 1 firemen spent yesterday picking up the hose left around in various places where rubbish was being burned.

Bids will be received until February 10th by H. L. Kerr & Co. for the construction of a three story building at the corner of Beretania and Fort streets.

Hawaiian women and children in quarantine are being fittingly provided with necessities by ladies of the Hawaiian Relief Society and their associates.

Superintendent Jack McVeigh, Dr. Pratt and Ed. Towse, of the Kakaako detention camp, were in the city last night. They report everything in excellent shape.

The government band under Captain Berger will give a concert at the Kakaako detention camp tomorrow afternoon at 2 o'clock. The band will leave town about 1:30 o'clock.

The officers of the steamer Kinai, which is going to 'Frisco, are the envy of all the others on the island fleets.

"Diekey" Davis was lucky enough to fall into the purser's berth just in time.

Norman Watkins, chemist in the office of the Hawaiian Fertilizer Company and Miss Annie K. Clarke, daughter of Captain and Mrs. Clarke, are engaged.

Mounted police guard the King and Beretania bridges and the corner of Kukul and Nuuanu streets at the boundary of the burned district. Special police hold the town side of the line.

Edward Lycan, at one time engaged in the sewing machine business in Honolulu, and later connected with a venture in ramie near Hilo is now managing the Hotel Hoquiam, in the State of Washington. The hotel covers a ground space of 12,000 square feet and contains 100 rooms. Mr. Lycan will be remembered by old kamaianas here and in Hilo.

NOVEL MILITARY INSPECTION.

Vindicates the Honor of Companies F, C and A.

There was a military inspection at Camp Jones yesterday which has made Lt. Col. McCarthy prouder than ever of the troops he commands.

A Chinese was brought to the police station yesterday, who had escaped from quarantine, at Kawaiahao church, as he claimed by paying a National Guardsman \$5 to let him jump over the wall. He was sent out to Kakaako to see if he could identify the man. Col. McCarthy had his men all drawn up in companies and had the Chinese taken along each company to see if he could identify the man. McCarthy saying he wanted no man who would accept a bribe in his command. The Chinese failed to identify anyone. At Kawaiahao church he pointed out the post where he was allowed to escape and gave the day and the hour. From the records of the posts and details, it is shown that no one in Col. McCarthy's command was on duty at that place and that time so that it could not have been anyone in Companies F, C or A. The Chinese was taken to Col. Jones who will give him an opportunity to identify his man among the other companies, if he can.
