SCHOOL MATTERS

Regular Session of Commissioners of Education.

APPLICATIONS FROM FOREIGNERS

Mr. von Holt Makes a Valuable Suggestion.

Report on Palama School Question—Mr. Abbott to Visit Germany.

At the regular weekly meeting of the Commissioners of Education yesterday afternoon there were present the following: President Cooper, Mrs. B. F. Dillingham, Mrs. E. W. Jordan, Professor Alexander, Mr. J. F. Scott, Mr. W. A. Bowen and Mr. H. M. von Holt.

Several recommendations by the Teachers' Committee were considered, and then it was decided to declare the position of S. Brierly, as teacher at Kaunakakai, Molokai, vacant. B. D. Mitchell was later appointed to fill the place.

The resignation of Miss Louise K. Brown from the Waiakea school was accepted.

N. G. Lemmon, of Spreckelsville, Maui, wrote asking the board to turn over to him the money spent for a transient officer at that place, and he would guarantee better service for the same money. Nothing was done by the board in regard to the matter, but there will be further communication on the subject.

Several applications for positions on the teaching force were referred to the Teachers' Committee.
A letter from Osmer Abbott, principal of Lahainaluna School, was read. In this the writer asked for a year's leave of absence for the purpose of studying pedagogy in Germany. Matters had shifted around so that it would be most convenient for him to leave in June. He was not desirous of severing his connection with the school as it was his intention to return to the work on the Islands for some time at least. He recommended that Mr. Rosecrans, assistant principal, be appointed to his place during his absence. Mr. Abbott was granted the leave of absence and Mr. Rosecrans was appointed to fill his place temporarily. A teacher to take Mr. Rosecrans' place will be appointed at the beginning of the next school year.

President Cooper stated that he had received a communication from J. F. Brown in regard to the school land at Waiakawa. In this the conditions of the place was set forth. From 1,200 to 1,400 acres were used for grazing purposes. The remainder was rough wooded country.
Mr. von Holt took exception to the statement of Mr. J. F. Brown in regard to the using of the land as a place for small farming. He had seen specimens of this kind of work on the place before. It was, indeed, a good place to starve. It was his idea that the land be kept until a good trade of some kind could be negotiated. Mr. von Holt jokingly remarked that the Commissioners of Education might go down and lasso and sell the cattle for several years' rent. This was due, and it was a public duty to collect it.

President Cooper read a letter from Inspector General Townsend, dated Makawao, March 29th, in which he asked for information regarding the extent of his authority in an investigation of the South Kona muddle. A report was also made of small repairs in Waikapu and Pohoiki.

Applications from two or three teachers in the States were read. President Cooper explained that a Miss Hodge, a friend of his, was desirous of obtaining a position as teacher in one of the schools of the Islands. He hoped that she might secure a place.
A letter from a teacher at Honokaa contained the information that, as yet, no one had arrived to take the place of Mr. Estep as principal of the school at that place, although it had been understood that there would be no hitch whatever. The school was in a rather embarrassed state. The board voted to appoint Mrs. Estep as temporary principal in her husband's place, and

THE ONLY WAY TO STOP THOSE PERIODICAL ERUPTIONS.

—From Chicago Inter-Ocean.

to appoint Mr. B. Brightwell assistant. Mr. J. F. Scott reported that he had, according to instructions from the board, investigated into the matter of a primary school in Palama. He had found that there were between 35 and 40 children over 6 years old in the place just mentioned, and that he had found the building near Palama a place just suited for school purposes, could be obtained for a rental of \$15 a month, and that this building could be fitted up for about \$57.

Considerable discussion followed in regard to the money side of the proposition, and it was finally voted, on motion of Mr. W. A. Bowen, that the Deputy Inspector's report be accepted and placed on file.

Mr. Scott explained that he thought certain of the rooms could be rented and that the money obtained therefrom might be all but sufficient to pay the rent asked for the whole building.

Mr. W. A. Bowen presented the application of Miss Sarah B. Wiler for a position as teacher. Recommendations from various places in the States, where she had been employed as a teacher, were read. These proved most satisfactory. Mr. Bowen explained that the application came through Miss Nellie Lowrey, who is acquainted with the lady. The matter was referred to the Teachers' Committee.

At 4:30 p. m. the board went into executive session to consider an important matter.

INSURANCE RATES

One Agent Denies That They Will be Raised.

Are High Enough Now—Efficient Fire Department Reduces Danger.

The reported increase in the insurance rates in Honolulu is disputed by Henrich Lose, resident agent of the New Zealand Insurance Company. In speaking of the article which appeared in an afternoon paper, he said:

"Let me say that so far as Honolulu ratings are concerned, the San Francisco Board of Underwriters has neither the direct control of nor the dictating of rates here. Honolulu, fortunately, has its own harmonious board, and I think I voice the opinion of the majority of its members when I say that current rates are excessive, and, notwithstanding the article referred to, they should, and I trust will, eventually, be lowered.

"Our Fire Department has grown very efficient, besides, the water supply of Honolulu is becoming more and more abundant. Owing to these facts, I venture to say that Honolulu rates, instead of 'going up,' will be materially decreased in due course.

"The article in the Star, in the face of existing exorbitant rates, causes no little uneasiness among property owners, but let me assure you that I, for one, will be willing to take risks on buildings and contents at the low rates."

The insurance rates in Honolulu

were adjusted several years ago, and the rates increased slightly in certain sections of the city. With the efficient Fire Department, it is doubtful if residents in the city will stand another increase.

Rare Hawaiian Idols.

There are now on show in Luce's auction rooms some 50 or more small Hawaiian stone idols, a number of adzes and tapa sticks, together with other Hawaiian articles used in the olden times. These were the property of the late Charles N. Spencer, and have been at the home of John Bowler on King street, ever since the death of that old kamaaina. Nearly all of the idols are labeled, and all have been on show in a museum in the States. All the Hawaiian articles are in a fine state of preservation, and will be sold at auction on Saturday.

Central Union Social.

A pleasant social, the second of the present year, was given in the Sunday School rooms of Central Union Church last evening. The affair was a great success, over 250 people attending. The following excellent program was given:

Piano Solo Miss Rosenwan
Trío—Mandolin, banjo and violin...
Messrs Hedemann, Cunha and Bond
Vocal Solo Mrs. Montague-Turner
Violin Solo Mr. B. L. Marx

WERE STUBBORN.

Japanese Show Unwillingness to Return to Japan.

There came very nearly being a serious time at the quarantine station yesterday morning. Deputy Marshal Hitchcock went out at 8 o'clock and ordered the transportation scow alongside the station pier. After this he went over to the pens, and through an interpreter, told the 134 Japanese men and 35 women that they must prepare themselves for the return trip to Japan, according to the decision of the authorities. There was a murmur, and soon the Japanese were in a rather turbulent state. Rushing here and there in the pens, they informed the Deputy Marshal, through three or four spokesmen, that they did not intend going back to Japan, and that they would die before going a single step. Then they thought a while and sent word that it was their desire to see Consul General Shimamura.

The Deputy Marshal returned to the city, and later on, went to the quarantine station together with Minister Cooper and a Japanese interpreter. The causes of the return were made clear to the Japanese, they were reasoned with on the uselessness and foolishness of any show of hostility and it was not long before they were quiet and peaceful again.

Then came the packing and general exodus to the scow which was waiting patiently to receive the rejected Japanese. When they got aboard the scow, they seemed quite pleased to think that it was not the dark and close hold of the Sakura Maru they would have to remain in. There was no further demonstration on the part of the Japanese.

The first day of January and the first day of October of any year fall on the same day of the week, unless it is leap year.

THAT ABDICATION

Gen. Hartwell Makes Statement About it.

JULIUS PALMER CONTRADICTED

Hawaii's Representatives Call on President.

Annexation is Manifestly the Right to Provide for Common Defence.

WASHINGTON, March 20.—A few days ago a "proclamation" was issued by Julius Palmer, chamberlain and major domo to ex-Queen Liliuokalani of Hawaii, declaring that she never had legally abdicated the throne, and that the abdication signed by her was irregular, given under duress, and void. The paper of abdication signed by the ex-Queen was drafted by General Alfred S. Hartwell of Honolulu, who is now in this city. General Hartwell, when asked this afternoon for a statement concerning the ex-Queen's abdication, replied:

"I drafted the ex-Queen's abdication and jurat of allegiance to the Republic of Hawaii and abjuration to the monarchy under the following circumstances: Paul Neumann, her legal adviser, who came to Washington in the winter of 1893, holding her power of attorney; Samuel Parker, her late Prime Minister, a Hawaiian, and Charles Wilson, the last marshal under the monarchy, came to my office the day of her arrest and told me that she had intended to abdicate before, but had delayed for Mr. Widemann to talk it over with her, and that they wanted me to draw the paper. I told them that if I drew it there would be no reading between the lines, and asked if she meant it and approved of their coming to me. They said she did and that was the kind of document that was wanted. I told them it would not prevent her trial, which would soon come off. They said they knew it and that her idea was that things would settle down and there would be no further trouble if she would resign, and that this was her object.

"I looked up such references to royal abdications as I could find, and drew up the document, which Neumann, Parker and Wilson examined and approved verbatim. Wilson took it to Liliuokalani, who proposed some trivial change, which was made, and a second draft was drawn, which Wilson also submitted to her. At her request another inconsiderable change was made, and a third draft was prepared, which was submitted to her and returned to me by Wilson, who informed me that it was exactly as she wanted and that he desired a final copy, which was made. The earlier drafts, written in a clear, conveyancer's hand by my assistant, are in his possession in Honolulu.

"The three men wanted me to be one of the attesting witnesses, which

ROYAL BAKING POWDER

ROYAL BAKING POWDER CO., NEW YORK.

I declined to be, but at their request I was present when the document was presented by Neumann to the ex-Queen who, in a clear voice and calm and dignified manner, stated in the hearing of all who were present that she understood the contents of the document and desired to sign and acknowledge it, which she proceeded to do before a notary, Mr. Stanley, who was present at the request of Messrs. Neumann, Parker and Wilson. There were also present upon that occasion Mr. Widemann, her staunch friend, and William G. Irwin, a partner of Clans Spreckels, and an intelligent Hawaiian lawyer. Mr. Wilson then took the document and asked me to accompany him to President Dole, which I did. He handed the paper to Mr. Dole, who quietly remarked that it would be placed upon the files.

"Mr. Dole and his Cabinet did not know of the abdication papers until they were finally completed and executed. No misrepresentation was made to induce Liliuokalani to take this step. I did not see her until she acknowledged the instrument, and the gentlemen who were about her and talked with her upon the subject and who were her friends would not, I am confident, have misled her. The document was published in the Hawaiian and English newspapers. I did not hear much about it, although people said she would have been wise in taking the step earlier, thereby, perhaps, preventing the outbreak which occurred in the early part of that same month."

Annexation of Hawaii.

"Every one knows that the Hawaiian Government and its supporters wish Hawaii to be annexed to the United States. Whether the national measures under discussion in Washington will render it advisable to defer the Hawaiian question, and the Hawaiian diplomatic representative will for that reason not present the matter to Mr. McKinley now, are questions which, I suppose, are yet to be decided.

"There has been a misunderstanding concerning the causes of the downfall of the Hawaiian monarchy. In my own opinion, it is preposterous to suppose that there was a conspiracy by Americans in Honolulu, assisted by Ministers Stevens or Captain Wiltse, to bring about that result. No Americans there whom I knew, wanted to disturb the monarchy or to induce a state of affairs which would result in deposing the sovereign, with a view to ultimate annexation.

"People in this country have had to consider the meaning of 'anarchy,' an ugly condition, when local and temporary and subject to the control of a powerful Government. In such crisis the conservative elements demand the exercise by the Government of the supreme power of the nation and the cause of law and order soon asserts itself.

"In a small country, like Hawaii, in the middle of the Pacific Ocean, supported by the strong arm of any great power, it will not do to let anarchy have its day. It was, in my opinion, nothing but a sense of dire necessity which caused the establishment of the Provisional Government of Hawaii.

"However, all that is ancient history. The question now is whether the United States will annex Hawaii or see it Orientalized. When the question comes up, as it must do soon, it will be considered on its merits, and as a national and not a partisan measure. The annexation of Hawaii is not a 'jingo' or 'imperial' policy. On the contrary, Hawaii is as naturally and properly a portion of the United States as is Long Island or Martha's Vineyard or the Farallones. If there is any use in that clause of the Constitution authorizing Congress to provide for the common defense, there is no more effective way of illustrating it than by annexing Hawaii. It would cost the United States nothing to do this; instead of Hawaii being an expense, it would add to the national revenues. There would be no more flourishing or desirable portion of the United States than that little group of islands. It is nonsense to say the conglomerate population there is an obstacle. Hawaii, notwithstanding its Chinese and Japanese would be governed by the United States with as much ease as any fourth-rate municipal organization."

TO APPLY FOR ANNEXATION.

Expectation That Such a Course Will be Pursued.

The Washington Star of March 26th says of the Hawaiian situation:

It is expected that a definite step, official in character, will soon be taken looking to the annexation of Hawaii. This will be a formal application from Hawaii for political union. This application will be made by the Hawaiian Minister, through the State Department, and will, in due course of proceedings, probably be submitted to Congress together with the President's recommendations.

In view of these expectations considerable interest and more than a little importance attach to a visit which was made upon the President yesterday afternoon by the Hawaiian Minister. Mr. Hatch was accompanied by Mr. W. O. Smith, the Attorney General of Hawaii, who is in this city admittedly in the interest of annexation.

The Hawaiian delegation consists of ex-Minister Thurston, General Hartwell and Mr. Smith, who represent not the Hawaiian Government in an official capacity, but the Annexation Club of Honolulu. They have been here since the inauguration, and while they have been reticent as to the object of their visit, there is no doubt that they came to Washington so as to be on the field whenever the Hawaiian question might be taken up by the new administration and to counteract whatever influence the presence of ex-Queen Liliuokalani might have.

Mr. Hatch and Mr. Smith called at the White House at 3:30 o'clock by special appointment and were immediately ushered into the President's room. They were most cordially re-

ceived and were closeted with Mr. McKinley for some little time in a discussion of the Hawaiian situation. The hopes and objects of the annexationists furnished the subject of the discussion, and the two gentlemen from Hawaii are understood to have made the arguments in favor of annexation.

The fact that the President willingly accorded an interview on the subject and listened so attentively to what the two gentlemen had to say is looked upon as an important straw by the friends of annexation, especially when taken in connection with the fact that the ex-Queen of Hawaii has been unable to secure an audience with Mr. McKinley, a boon that she secured without the slightest difficulty from his predecessor.

The American View.

A gentleman familiar with the Hawaiian situation said today to a Star reporter:

"If the application of Hawaii for political union with the United States, which will soon be made in official form, be referred to Congress for its action the President can call attention to the conditions in Hawaii, which require action to be taken in order to give any meaning to that part of the platform of the Republican party which reads:

"The Hawaiian Islands should be controlled by the United States, and no foreign power should be permitted to interfere with them."

"The doctrine so announced is nothing more nor less than the policy which for many years has been entertained by all parties and by many administrations. The only way of enforcing this policy is for Congress, by joint resolution, to admit Hawaii into the Union on such terms as it thinks proper.

"The obvious conditions for the admission of Hawaii would be that no Chinese be allowed to come from there into this country, and that no Asiatics become citizens of the United States.

"The policy of allowing no control over Hawaii to be obtained by any foreign power may be rendered abortive, not only by Hawaii ceding its territory or any of its rights as a sovereign State to a foreign power, but by the existence of conditions which involve the indirect transfer of political power. This insidious but sure merging process will be accomplished unless something equivalent to annexation intervenes, and that not by the act of any foreign power, but by the operation of purely natural causes, against which Hawaii, standing alone, is helpless. A fitting occasion for annexing Hawaii now presents itself, and there are sufficient and suitable reasons for such action.

"Our policy toward Hawaii has been dictated solely by the determination that no foreign power shall gain a vantage ground which may be used to our disadvantage or for any hostile purpose. In other words, the Monroe doctrine applies with peculiar force to Hawaii.

"To acquire the Hawaiian group in the manner now practicable, which is neither by conquest nor by purchase, shows no desire to enlarge our borders or encroach upon any sovereign state in strict pursuance of the policy of the Monroe doctrine, and manifestly an exercise of the right of Congress to provide for the common defense.

To accomplish this result would end, once for all, the possibility of Hawaii becoming a base of supplies for a force directed against our Western coast.

"It is believed that the President will before long recommend to Congress the enactment of such measures concerning Hawaii as will secure these national objects."

MONEY SCHEME.

Conference Will be Held in Treasury at Once.

WASHINGTON, March 27.—The members of the executive committee appointed by the monetary conference held in Indianapolis some weeks ago had an interview with Secretary Gage today at the Treasury Department. The committee, which was headed by the chairman, H. H. Hanna of Indianapolis, discussed with the Secretary the question of the probability of Congress at once authorizing the appointment of a Monetary Commission on the revision of our monetary system, as recommended by the Indianapolis conference, and also by President McKinley in his inaugural message.

Gage expressed himself as fully convinced of the necessity for such a commission and he thought that no good could result from delaying its appointment. Business throughout the country was greatly depressed, and it was his opinion there should be no delay in taking measures for the general relief. There was, however, he said, in some quarters, serious doubt of the expediency of allowing legislation of any character whatever to interfere with the consideration and prompt passage of a tariff measure.

It is understood that the House is ready at any time to carry out the President's views as to a monetary commission and a revision of our monetary system. In the Senate, however, it is said there is likely to be opposition to speedy action. The committee expect to remain in Washington a week or so in conference with members of Congress on the subject.

Against Sky-Scrappers.

NEW YORK, March 10.—The Real Estate Exchange has adopted the report of the special committee appointed to consider and report upon the question of limiting the height of buildings hereafter to be built in this city. They recommend the appointment of a commission to revise the building laws and to map the city by districts and determine the height of buildings to be erected in each district.

Paris is making the venture of laying down mahogany roadways. The Rue Lafayette has been pulled up and relaid with real Brazilian mahogany of a peculiarly fine texture and color.

AFTER CANE WHAT

Louisiana Planter Portends the Future.

United States is Exceptionally Adapted to Growing Sugar Beets.

Now that it is claimed by sugar beet growers that it is but a question of time when the United States will be able to supply the world with sugar, the Louisiana Planter asks what is to become of the cane sugar growers. The Planter says:

In our issue of January 30 we wrote concerning sugar beets in the State of Washington, based upon bulletin No. 26 by Prof. Elton Fulmer, which was recently issued from the State Experiment Station at Pullman, and covered experiments in the culture of the sugar beets in Washington during 1895 and 1896.

An earlier bulletin gave even more favorable data concerning sugar beet culture in Washington than what we deduced from bulletin No. 26, although, as we said in that article, the gist of the whole matter was that the State of Washington was exceptionally well adapted to sugar beet production.

Now comes Professor Fulmer and calls our attention to a grievous error that we made in selecting the best sample for the basis of our comparison from the column of poorest samples. If the best of poorest samples justified our conclusions, and they did, what must we conclude from an examination of the best samples. We shall see.

EXPERIMENTS WERE MADE.

In order to determine the adaptability of the various sections of the State seed was distributed and samples were tested from ten different sections of the State. The experiments were made in a large way—in fact, we may say practically on industrial lines. An acre of beet constituted each experimental field to secure a fair average. Now for the results. As we said before, the poorest samples averaged above 12 per cent. sugar, or to be more exact, throwing out one exceptional sample that was grown under peculiar conditions, we find the nine poorest samples averaged 12.31 per cent. sugar in the beets, or to make a better comparison with sugar cane, of which the can juice ordinarily is tested, the juice of the nine poorest samples averaged 12.96 per cent. sucrose of 80.24 per cent. purity. Now, we shall consider the best ten samples, and with increasing experience it is certainly fair to think that the farmers of Washington will be able to raise beets equal to these ten samples. The best ten samples averaged 20.31 per cent. of sugar in the juice, the poorest of the ten indicating 18.3 per cent. and the best of the ten 23.6 per cent. sucrose. No wonder Professor Fulmer protested against our faint praise. The purity of the best ten samples averaged 91.3 per cent. All this is surely marvelous, but it indicates the inevitable. The United States will stand ready to supply the world with sugar within thirty or forty years; the sugar producing tropics will have to go back to coffee and indigo, and we in Louisiana to what? that is the question.

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by all druggists and dealers; Benson, Smith & Co., wholesale agents for Hawaiian Islands.

Do you know the meaning of Schilling's Best?

It means tea, baking powder, coffee, soda, flavoring extracts and spices of as high grade as can be maintained without extravagance.

The Best. Rest. Test.

There are two kinds of sarsaparilla: The best—and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root,—the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sarsaparilla has a record of half a century of cures; a record of many medals and awards—culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best—shut its doors against the rest. That was greater honor than the medal, to be the only Sarsaparilla admitted as an exhibit at the World's Fair. If you want to get the best sarsaparilla of your druggist, here's an infallible rule: Ask for the best and you'll get Ayer's. Ask for Ayer's and you'll get the best.

KING AND BETHEL STREETS.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.

TWO CLUBS DRAWING

CLUB NO. 3 NEARLY
FULL.

This is the result of only three
weeks' work. Could anything
be more convincing of its popu-
larity.

What are the reasons of this
popularity?
First and foremost is the fact
that we guarantee every article
you select to be your money's
worth in full.

We guarantee the watches to
be of a certain weight or above,
and we cover the movement
with our "money back" guaran-
tee, if not in every way satis-
factory to you, or we will give
you the range of our show cases
to select from, anything you
may desire, and the cost to you
is only

\$1

a week, until the article is paid
for.

The dollar which slips through
the bottom of your pocket every
week, without anything to show
for it, is the dollar we are after;
guaranteeing a safer investment
than any other scheme that may
be devised. There is nothing
complicated about it; nothing
which needs an explanation.
There should be no cobwebs im-
possible to see through, because
some one interested said so and
so. All that we ask is that you
pay the One Dollar each week
and we guarantee to deliver to
you an article which will be to
your lasting satisfaction.

H. F. WICHMAN
WATCH CLUB.

A large number of the Hawaiian
pastors and delegates from the Ha-
waiian churches of this island—about
60 in all—began the semi-annual ses-
sion of the Oahu Evangelical Associ-
ation at Waianae, Wednesday morning.
Rev. E. S. Timote, of Waiialua, was
chosen moderator, and Rev. J. M.
Ezera, of Ewa, scribe. After the usual
preliminaries of organization, re-
ports were read from the different
churches.

The churches of Waimanalo and Ka-
nehoe have been united into one or-
ganization under one pastor, as has
been the case with other Hawaiian
churches, as the native population has
lessened. The chapel at Kahana has
been taken down and built up anew at
Haleaha, Punaluu. The church build-
ings at Hauula and Kahuku are out
of repair, but estimates of cost were
submitted, and the association doubted
the advisability of attempting to re-
pair the old building at Hauula. Most
of the old residents have passed away,
and the church is far from the present
centers of population. The church has
called as its pastor its present slated
supply, Solomon Nuuhiwa, a graduate
of the N. P. M. Institute. He is offered
a salary of \$300, with a parsonage, and
a glebe of three acres. The churches
generally sent in favorable reports of
condition and progress.

There have been quite a number of
additions, both on profession of faith
and on recommendation from other
churches. The Waikani Church has
increased its pastor's salary. In Hono-
lulu the students of the N. P. M. Insti-
tute have done efficient service in vi-
siting from house to house every Fri-
day afternoon. Special districts are
assigned to each two, and reports of
the work are made to the pastors of
the two city churches. Collections in
Kawaiahaoo Church for the six months
have amounted to \$723.30. The Young
People's Society of Christian Endeavor
meet every Thursday evening. The first
Thursday of the month is devoted to
Bible study, the second to special
prayer for special objects, the third to
methods of Christian work, the fourth
to discussion of special topics pertain-
ing to the new life in Jesus, and a
special consecration service. The Kan-
makapi Church, now vacant, pre-
sented a call to Rev. E. S. Timote, of
Waiialua, to take the pastorate for two
years. As this was an innovation,
unlike the ancient usages, there was
a prolonged and general discussion of
the propriety of this sudden departure
from old customs. But it was finally
approved by a two-thirds vote, though
in deference to the opposing opinion of
the minority it was proposed to lay
the matter before the General Associ-
ation at the annual meeting. The as-
sociation urged strongly the Waikane
Church, long without a pastor, to take
immediate steps to secure a new pas-
tor.

The last hour of the session was de-
voted to a consideration of the foreign
missionary work of the Hawaiian
churches. Rev. Louis Mitchell, who
came up from the Gilbert Island on
the Star, gave a brief account of his
work on the Island of Butaritari. The
people are just beginning to recover
from the demoralization induced by
the permission given by the former
British Commissioner to the people to
resume the public dancing which the
old King had suppressed. Four Cath-
olic priests and five Sisters had come
to the islands, and so large a corps of
workers had exerted too strong an
influence for one poor Hawaiian mis-
sionary to overcome. Nor could he
compete with them in buying converts
with gifts of tobacco, clothing and
books. In fact, the people were poorer
than ever. The debt of \$20,000 to the
traders had been reduced to \$4,000, but
to meet this the King had forbidden
the sale of a single coconut, except
in payment of this debt. The new Brit-
ish Commissioner had made rules fa-
vorable to the work of the Hawaiian
missionaries, especially in regard to
the establishment of public schools,
though no compulsory law had been
promulgated, and the children were
very irregular in their attendance. But
he had ordered the policemen to arrest
all who were drunk and flog them
for this offense against public moral-
ity. The policemen searched the homes
of the people for vessels containing
toddy, and smelt the breath of those
whom they met to know whether they
had been drinking. Rains had been
abundant, and the promise was favor-
able for a large crop of coconuts. The
dried meat of the nut, called cobra,
was all that the people had to sell. The
people depended for food, also, for co-
conuts, having for each person from
600 to 3,000 trees on the 35 miles of
the island, averaging 60 to 70 nuts to
each tree annually. But the people
were ignorant, as well as poor. In the
prayer meetings, none were able to ex-
pound Scripture, or to exhort their fel-
low-countrymen. The most they at-
tempted in the way of public address
was to confess some sin and tell of
their penitence. Nor could they sing,
except by rote, and that with voices
most distressingly rancous, utterly un-
cultivated, except the few teachers who
had attended the Training School on
Kusaie. Only four Hawaiian mis-
sionaries are now left for the eight islands
of the group, where work for Christ
has been begun. When the duty of
speedily recruiting the force at work
in the field, two of the present students
of the N. P. M. Institute and some of
the younger preachers volunteered to

go on the next voyage of the Star, and
there was evident readiness to respond
to the Macedonian cry to come over
the seas and help evangelize these Gil-
bert Islanders, left like a few sheep in
some far-off corner to hunger and to
darkness. In fact, no one topic awak-
ened such interest and so prolonged
discussion as this foreign missionary
work.

The Sunday School Association held
a session for business in the evening
of Wednesday, and after a short ses-
sion of the association Thursday morn-
ing, from 8 to 10, the excursion train
from Honolulu, bringing a crowd of
visitors to attend the Sunday School
exercises which had been arranged as
the chief attraction on the program for
the day. The weather was exception-
ally favorable for a large attendance,
and a cool breeze from the mountain
tops tempered the heat of the one-
sided sun of Waianae.

First Battalion Drill.

There was a good turnout at bat-
talion drill of the First Battalion, N.G.H.,
last night. Major McLeod was in com-
mand. After a review before Colonel
Fisher on Palace square, the com-
panies, headed by the Hawaiian Band,
marched to Emma Square and back to
Beretania, down Fort, and out King
again to the square. The Second Bat-
talion will drill tonight.

Americans are the most inventive
people on earth. To them have been
issued nearly 600,000 patents, or more
than one-third of all the patents
issued in the world. No discovery of
modern years has been of greater ben-
efit to mankind than Chamberlain's
Colic, Cholera and Diarrhoea Remedy,
or has done more to relieve pain and
suffering. J. W. Vaughn, of Oaktown,
Ky., says: "I have used Chamberlain's
Colic, Cholera and Diarrhoea Remedy
in my family for several years, and
find it to be the best medicine I ever
used for cramps in the stomach and
bowels. For sale by all druggists and
dealers; Benson, Smith & Co., whole-
sale agents for Hawaiian Islands.

FRIDAY : : : : APRIL 9.

A SAMOAN CONDITION.

These islands without the dominating force of the American Government established by law, will sooner or later degenerate into the Samoan condition. Without annexation, the European powers would, in deference to the moral claims of the United States, make no attempt whatever to secure control of these islands, but they would claim the right to protect their own subjects residing here. The United States if it did not undertake to maintain the reign of law, would assent to it.

The existence here of such a large preponderating number of aliens, not Teutonic, will beyond question create serious trouble sooner or later. There can be no doubt about it. Questions of civil rights will arise. Demands for the voting franchise will be made and must be answered satisfactorily. As the growth of communities elsewhere has invariably brought trouble and bloodshed, so the growth here of rascally, antagonistic factions will produce the most serious troubles. Even the conflicts of the Chinese factions in Singapore, a British Malay colony, a few years ago, were suppressed only by the British navy. Only men absorbed in present gain will not see that trouble is inevitable. This unusual, even extraordinary mixture of races is a hot bed of dissensions. The seeds are now only sprouting.

The effect of these jarring forces will naturally disturb business. If the Asiatics begin to dominate, the different European nationalities will demand home protection. It will be given as it is now given in Samoa. The German warship will protect the Germans. The British warships will protect the British. The American warships will protect the Americans. The consular representatives of these nationalities, differing in their views about measurers would soon become antagonistic, just as they are in Samoa. The Japanese and the Chinese probably would keep their warships in port and their representatives would not of course agree with those of the Teutonic races. Consular courts would be created and a conflict of laws prevail.

All this could happen while the Americans kept moral "control" of the islands. The Europeans would say to the United States, "you may do as you like with the islands, but you must allow us to protect our own people."

The local "white" government would be so weak, it would be forced to call upon the naval forces for protection, which would be practically a joint guarantee of peace and order. If the United States undertook to preserve order generally it would be practically annexation and would finally end in legal annexation. But the friction between the different white nationalities would cause the Americans to cancel any advantages which the Europeans enjoyed by treaty. Business would be arrested and perhaps ruined.

The United States having secured in one of many ways a foothold in Pearl Harbor, might simply leave the inhabitants of the islands to fight it out among themselves.

When the United States and Germany fixed up the Samoan affair, the negotiations looked forward to a lovefeast, to a period of harmony and mutual aid. They were quite too busy to study the real situation and took much

for granted. They did not see that the quarrels of the merchants and traders would end only in the supervision of warships. The racial differences in Samoa exist here in the most aggravated form.

It is impossible to predict the exact lines on which the political evolution will take place, if there is no immediate annexation. One thing is certain: Immediate annexation will avoid some of the most serious and -dangerous sources of trouble. We speak with moderation to those who are yet in doubt about the policy of annexation.

One of the theories advanced by the advocates of woman's suffrage is that the presence of the mothers and daughters in the caucus and at the polls will have a refining and purifying influence on politics. Practice, however, has not always proved the theory a good one, as was evidenced by the events of a Populist convention held in Denver, Colo., not long since. The convention was made up of men and women in about equal numbers. According to press dispatches, Mrs. Alice Faulkner was a leading figure in one row and "Boiler Inspector W. R. Frazier," a defenseless, unassuming man, was thrown out of the hall by a delegation of men and women, because he accused some of the members with being controlled by the trusts and monopolies. One Mr. Akers, attempted to make a speech, but was interrupted by one of his sister delegates, who announced that it "was about time for him to go out and choke himself to death." Mr. Akers retorted that "Mrs. Reed had not added anything to her reputation by going out as a street singer." Miss Holmes, one of the refined delegates, then took up the cudgel and wanted to know why the men stood by and allowed the women to be insulted. None of the men responded to the appeal, whereupon Mrs. Reed and Miss Holmes fell upon Mr. Akers, and, according to the newspaper report, "administered the punishment themselves, and tore most of Mr. Akers' beard out of his face." The convention adjourned shortly after. No doubt women have just as much right to vote as the men, but we doubt whether the refining influence influence will always be apparent.

"Down with the department store" is the campaign cry of the Republicans of Chicago. The anti-department store agitation has reached a high pitch in Illinois, and in the cities it is wonderfully popular. The small dealers assert that they are practically run out of business by the war of prices the big stores are able to wage in their various departments. The department stores claim that they can sell goods cheaper, hence their excuse for living. This is true to a certain extent, but whether the public is benefited in the long run is an open question. While the department store is cutting prices in dry goods, it usually holds up the rates in other departments, hence on the whole makes a gain. But while the dry-goods war is on small single line dealers find it impossible to meet the cut rates, they lose the trade and finally go under. Department stores can give away one class of

goods in order to attract people who will buy enough in other lines to make up the loss. It is the case of the trusts over again. Corporations with plenty of money working to shut out the little fellow giggling along from day to day, satisfied with a small income. The tendency of the law should certainly be to protect the small dealer. The public must sooner or later appreciate that nothing is gained by the temporary cut in prices. The outcome of Chicago's fight will be watched with interest since we may have something of the same kind on our own hands one of these days.

TROPIC RAIN.

(By Robert Louis Stevenson.)

Sudden the thunder was drowned—
quenched the dim light,
And the angel-spirit of rain laughed
out loud in the night,
Loud as the maddened river raves in
the cloven glen,
Angel of rain! You laughed and leaped
on the roofs of men.

And the sleepers sprang in their beds,
and joyed and feared as you fell;
You struck and my cabin quailed, the
roof of it roared like a bull.
You spoke, and at once the mountain
shouted and shook with brooks.
You ceased, and the day returned, rosy
with virgin looks.

And methought that beauty and terror
are only one, not two;
And the world has room for love and
death and thunder and dew;
And all the sinews of hell slumber in
summer air;
And the face of God is a rock, but the
face of the rock is fair,
Beneficent streams of tears flow at the
finger of pain;
And out of the cloud that smiles, be-
neficent showers of rain.

Smoother
Than Silk

Is the finish of the different TOILET PAPERS we are now carrying in stock. You cannot over-estimate the value of a Medicated Silk-Finished Paper. We have reduced the price on the perforated roll paper until it is about as

Cheap as Dirt.

Most people are extremely particular about the food they eat, clothes they wear, soaps they use, and why not exercise the same precaution regarding the toilet paper consumed?

It is by far more essential than the average person realizes—that none but purely

Medicated Papers

Be used; in doing so, you need have no fear of the results.

Our stock at present is much larger than usual. We have just received a large consignment of such staple brands as Oro, Cosmos, Owl, Epsom, Pond's Extract, Perfection, P. P. P., all of which we are offering at remarkably low prices, in order that they may be in reach of all.

With prices we are in the lead, and we intend to keep there.

Hollister Drug Co.

Merit
Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Severe Case of Dyspepsia

"I suffered from dyspepsia 20 years. I had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." MRS. EMILY F. BUMP, 45 Portland Street, Middleboro, Mass.

Hood's
Sarsaparilla

Is prepared only by C. I. Hood & Co., Lowell, Mass.

TIMELY TOPICS

ON BICYCLES.

The arrival of the last "Australia" was greeted with a sigh of relief from the whole community. The unusually long interval between mails had made people quite anxious, and rumors of war and other political disturbances were flying as thick as leaves in Valambrosa. The encouraging news of the probable passage of the Dingley bill, imposing a duty on all foreign sugars while preserving for Hawaii the advantages of the Reciprocity Treaty, gladdened the hearts of all planters as well as merchants, who predict a new era of prosperity and progress for these beautiful Isles of the Pacific. News was also brought of the knocking out of Champion Jim Corbett by his sturdy opponent, Fitzsimmons.

The Tribune Bicycle

Knocks them all out. Like the Roman tribunes of old, it stands on a pinnacle of fame, elevated above all others, and like Fitzsimmons, it beats all the other Champions.

The '97 MODEL is the acme of perfection in wheels; it has no equal. We received a number of them by this "Australia" and can furnish them in Black, Royal Blue or Maroon.

The SAGER Pneumatic Saddle is recognized as the best for ease and comfort; no disease of the spine or jar to your nerves, if you ride this saddle.

The Stodder Punctureless Tire

Is impenetrable by glass, nails, thorns, pins, etc., and yet it retains all its elastic and resilient qualities. Every Tire guaranteed for one year.

In addition to the above we handle the "Zimmy," Stormer and other Bicycles, and carry a full line of M. & W. Tires, Rims, Handle Bars in Wood and Nickel, Bells, Cyclometers, etc.

Come and inspect our new stock.

If You Were About To Go By

To go buy a Bicycle, don't do so until you first know it were wise to give OURS the "go by." Why we sell so many Bicycles is no mystery, for the names "Rambler," "Columbia," and "Stearns" are known to every one who knows what the word Bicycle means, and about everybody in the Islands knows that we are the agents for these three leading makes.

We will not say much about the "Stearns" this time, as the lot of '97 wheels which left New York on February 10th, did not catch the "Australia," and you do not want to hear about a wheel you cannot see, so we will tell you about them when they get here. But if you want a pretty mount, something up to date, come in and see our '97 "Columbias" and "Rambler," but come quick, as we have sold over half of the lot just received, and we are sure to be out of both makes before we can get a good look at them ourselves.

We will have just forty-four (44) bicycles on the "Australia" when she gets here on March 30th, and from that on we don't think anybody will go by to buy a wheel because we have not got the stock to show them.

Our "Columbias" this year, as well as our "Rambler," are fitted with the well-known G. & J. tires. This tire has proved to be the best one ever used on these Islands, and if you get the genuine G. & J. tire you get what you need for this climate and our roads. The genuine G. & J. tire is sold by the "Rambler" Agency here, and is fitted to wheels we order. You can get tires that are said to be G. & J. and look just the same, but you won't want more than one pair: looks don't wear, you know.

Points of interest to you will be the way the spokes are fastened on the "Columbias," the new special seat and the handles and grips on the Ladies' "Rambler," in fact, you will find lots to interest you, and you are welcome to examine any wheel to your heart's content, even if you have no idea of buying. We have just added largely to our stock of sundries—such as Lamps, Bells, Luggage Carriers, Bike Stands, Enamels, etc.—and we can fit you out with about anything you need.

FOR THE BEST of everything in the wheeling line, go to

WAS NOT GUILTY

W. J. Gallagher Objects
to Press Reports.

Reporters Used Their Imagination.
Will Review the Case When
Strong Enough.

MR. EDITOR:—I regret to again have to trouble you in reference to the court proceedings against myself and Mr. Shimizu. Up to this date, beyond asking the press and public to reserve judgment while the case was before the courts, I have taken no notice of the unfair, and, in most cases, grossly untruthful press reports of the various phases of the trouble, feeling satisfied, as I did, that I would be fully vindicated in due time, in which event I could make any explanations necessary in the premises. On this occasion, however, I only wish to correct some of the misleading reports of the trial in Judge De La Vergne's court, and which terminated today. Later on, when my health and business engagements will permit, it is my intention to publish the history of the case from the outset, which will enable me to introduce matter concerning my personal connection with the importation of Japanese laborers which will satisfy the public that I did not, as charged by an afternoon paper, play the part of a "renegade white man."

In reference to the Police Court trial, permit me to deal with the following newspaper reports: The Star of last evening said: "When the Government rested its case B. Shimizu was placed on the stand, and he gave testimony on a conversation of Government officials, who endeavored to compromise the case. Mr. Magoon desired that his testimony be stricken out, whereupon a rather lengthy discussion followed between the attorneys. The Judge will make a ruling on this matter this afternoon."

"The entire defense of both Gallagher and Shimizu will probably be that the Japanese brought to these shores by them on the Shinshu Maru had a legal right to land, despite the decision of the Collector General of Customs and Supreme Court on the matter. The case will likely be submitted to the Judge late this afternoon."

It is sufficient to say that there is not a single line of truth in the foregoing quotation.

The Bulletin reporter referred to the case as follows:

"For the defense Gallagher testified in his own behalf and introduced a copy of a letter written by him to the Minister of Foreign Affairs, together with one of the contracts on which the immigrants came. It was claimed by counsel for the defense that these contracts were not such as those provided for in the Alien Act, and consequently there was no violation of the statute. Judge Magoon, on the other hand, claimed that the wording of the contract made no difference."

The above statement, like that of the Star, is directly contrary to the facts of the case.

Coming to the reports contained in today's papers, while that of your own is not entirely satisfactory, I consider it only necessary to take exception to one point, viz.:

"The defense admits that the rejection was by proper authority and official."

This refers to the rejection and return to Japan of the passengers brought here by the Shinshu Maru. I did not understand Mr. Kinney to admit the right or validity of the action of the Customs officials, as you would infer.

The Bulletin tonight says: "Not guilty and ordered them discharged from custody," presuming that Judge De La Vergne had at some previous time said: "Jailer, take them to thy custody." But the Judge did not. He simply sent us a polite request to appear before him at a certain time, when, apparently, our society pleased him so much that he invited us back on several occasions, but in no case did His Honor evince a desire to restrain us of our liberty.

Not satisfied with its efforts on previous occasions, the Star again tonight says:

"Gallagher and Shimizu were arrested during the recent Japanese trouble, charged with unlawfully importing into the country the Japanese immigrants brought here on the Shinshu Maru."

"The Court, after making a full examination into the case, found that Gallagher and Shimizu, as agents of the Kobe Immigration Company, had brought the Japanese to Hawaii on a contract binding their company to secure them work. It was not obligatory on the part of the Japs to work unless they wished to."

"Judge De La Vergne says that the statutes of the Hawaiian Islands provide against persons importing certain contract laborers into the country who might be aliens or not desirable. There was no crime on the part of the Kobe immigration agents."

Again, I repeat that, as is well known to most people, the officers of the law were good enough to not put us under arrest.

Our case, briefly stated, resulted as follows:

On Tuesday morning last, the Government, represented by Mr. Magoon, one of Honolulu's ablest and most gifted lawyers, opened proceedings by introducing its witnesses and documentary evidence, closing its case against the defendants about noon. At the close of the case for the prosecution, Messrs. Kinney and Robertson, for the defense, submitted to the Court that the Government had failed to establish even a prima-facie case, and therefore asked, after an able argument by Mr. Kinney, that the charges against the defendants be dismissed.

Mr. Magoon, in a most brilliant re-

LEWIS & CO.,

Agents, Honolulu, H. I.

ply, contended that Mr. Kinney was wrong, and that the defendants should be called upon to rebut the mass of testimony he had, at such great cost of labor and time, placed before the Court.

The learned Judge said that, owing to the amount of evidence he had taken, he desired time to compare it before giving a decision. He therefore reserved judgment till 9 o'clock this morning. At that hour His Honor called the case, and naming the defendants, said:

"I find the defendants not guilty and discharge them."

He made no comments upon the case whatever, and the Star, to the contrary notwithstanding, found nothing beyond the plain, simple truth that—"the defendants were not guilty."

When it is remembered that representatives of the Star and Bulletin were present at the hearing on Tuesday, especially at the close of the case for the prosecution, and also during the arguments for dismissal, it seems incredible that they would write and publish such palpable falsehoods, as shown above.

Mr. Editor, as you are well aware, there is considerable feeling upon this subject in Honolulu, and although I would not say my conferees of the press would wilfully misrepresent my case to injure my business with the public, others, prejudiced by misleading newspaper reports, have attempted to do so. For this reason, chiefly, I most respectfully ask you to publish this letter. Most respectfully,

W. J. GALLAGHER.

SOCIETY

The wooden anniversary of the wedding of Mr. and Mrs. J. M. McChesney was celebrated at their residence, Waikiki, last night. The affair was in the nature of a surprise, and it is believed to be genuine. The couple had overlooked the fact that they had been married so long, and were not expecting company. The evening was spent in dancing, singing and playing games. Music was furnished by an Hawaiian string orchestra. A large number of useful presents were taken out by the guests. Following is a list of those present: Mr. and Mrs. R. L. Auerbach, Mr. and Mrs. Davey, Mr. and Mrs. Bailey, Mr. and Mrs. F. W. McChesney, Mr. and Mrs. Wright, Mr. and Mrs. Gartenberg, Mr. and Mrs. Stevens, Mr. A. W. Keech, Mrs. Devlin, Mrs. H. P. Walton, Miss May Weir, the Misses Gurney, Miss Grace, the Misses McLain, Miss Maguire, Mr. Sayers, Mr. Stackable, Mr. W. A. Wall, Dr. A. Wall, Mr. Bronson, Mr. W. H. Baugh, Mr. I. Livingston, Mr. Emil Berger, Misses Rice, Mrs. A. K. Weir.

Among the through passengers on the Coptic were Frank and Henry Riggs, of Baltimore, two wealthy young men, who are touring the world just to see what there is to be seen. They are graduates of Princeton College and have both played with distinction on the varsity football team. On Wednesday they rode to the Pali with a number of their friends, and took dinner at Sans Souci. Yesterday morning they were shown the various places of interest about the city by the Misses Kitchen, whom they met at Narragansett Pier, R. I. The party of which the Riggs brothers are members, is composed of Messrs. Schumacher, Ferguson and Carroll, all from the city of Baltimore. Clinton Riggs, a brother of the young men mentioned above, was a classmate of Mr. Edward Dowsett, of this city, in the class of '87, in Princeton.

An afternoon tea to a number of ladies was given at the home of Mrs. Parke, Beretania street, Monday. A delightful afternoon was spent. Those present were: Mrs. Howison, Mrs. Avery, Mrs. Irwin, Mrs. S. M. Damon, Mrs. McGrew, Mrs. F. M. Swanzey, Mrs. D. P. Birnie, Mrs. Fuller, Mrs. Melancthon M. Hurd, Mrs. R. P. Myers, Mrs. F. M. Day, Mrs. Chas. Day, Mrs. Wilder, Mrs. J. O. Carter, Miss Birnie, Miss W. F. Allen, Miss Pauahi Judd, Miss Clara Fuller, Mrs. Frear, Miss Hurd and Miss Dixon.

By the Coptic Wednesday, many of the Honolulu society people received invitations to be present at the marriage ceremony of Miss Alice Naomi Kimball, well known in Honolulu, to Mr. Alexander James Campbell, a Honolulu man, on Wednesday noon, April 21st, at Tenth Avenue Baptist Church in East Oakland.

Mr. and Mrs. M. S. Grinbaum of San Francisco are the guests of Mr. and Mrs. C. Bolte. The latter will leave for a six months' trip to Germany on the Australia of May 6th, and during Mr. Bolte's absence, Mr. Grinbaum will have charge of the business of M. S. Grinbaum & Co.

As yet no date has been set for the postponed Myrtle Boat Club dance. The boys and girls who have been in the habit of attending pleasant occasions of the kind at the M. B. C. house are getting rather anxious over the delay but then the dance will be all the more enjoyable for the waiting.

At their beautiful home in Nuuhou, Saturday evening, Mr. and Mrs. F. A. Schaefer gave a most enjoyable "Wilkomen" to Mr. and Mrs. H. H. Renjes. There were about thirty in all present. The Hawaiian National Quintette Club boys furnished music during the evening.

Mrs. C. L. Carter, who left for the States with her children, on the Australia of Wednesday, is on her way to her home in Ann Arbor, Mich., for a visit. She will make a trip East, visiting some of the large cities, and will be back in Honolulu in three months' time.

Mr. E. C. Macfarlane entertained the Newell party, Mr. and Mrs. Eckart, Miss Landers and others in a canoeing party at his home, Waikiki, Sunday. A most enjoyable time in and out of the breakers was spent. A luncheon afterwards was no small part of the day's pleasure.

It seems to be a pretty well settled affair that a German will be given as soon as the Lenten season is over. There has been a dearth of pleasant occasions of the kind lately, and an effort will be made to renew the popularity of the German.

Miss Sarah Birnie, sister of Rev. D. P. Birnie, left on the Coptic for Japan yesterday. It is not certain whether she will return to Honolulu. She will remain in Japan through the summer at least.

The Misses Afong with Mrs. Hutchinson were off aboard the U. S. S. Marion to breakfast on Wednesday.

On Friday last, at the home of Rev. and Mrs. D. P. Birnie, a tea was given

for Miss Sarah Birnie as a farewell before departure to the Orient. Quite a number of Miss Birnie's friends were present.

The Newell party will leave for the Volcano on the Kinau of April 16th. Returning, the members will leave for their home in the States by the Australia if May 6th.

Miss Cahill's Opening.

Miss Anna Cahill, the popular Hotel street milliner, is now in her very much improved quarters. The modern show window in front and the change of arrangements on the inside has brought everything out in fine style. Miss Cahill has on show in her pretty establishment all of the very latest things in the millinery line, and is ready to meet her customers with just what they want. The violets, the American beauty roses and other kinds of flowers in profusion are so natural as to be mistaken for real. The geraniums, both pink and red, are something very new, and to show how they have taken, it may be said that Miss Cahill has received many orders for hats trimmed with these flowers. In speaking of the hats, there is one in particular that has been admired very much. This is French with a rim of satin straw braid and a crown of violets. The white satin ribbons, with green aigrettes, and five green tips that nestle on the head of the wearer make a very pretty effect. Visitors are always welcome.

In the Circuit Court.

The plaintiff in the case of Piliplani vs. George Houghtaling et al., filed an appeal yesterday from the decision of the Circuit Court.

An inventory of the property of W. W. Boyd, bankrupt, was filed yesterday.

A petition was filed for the appointment of a guardian for S. K. M.

HANDKERCHIEFS
A hundred dozen hemstitched handkerchiefs for ladies are ready for your inspection today. Handsome swiss embroidery on every one, the daintiest and prettiest designs imagin-

The Board of Registration has a new announcement in the "By Authority" column.

Just opened entirely new line of bargains in glassware, hardware, tools, etc., at Sturdevant's.

J. T. Waterhouse has an immense stock of dry goods, marked low in price and sold low.

A regular meeting of the Sharpshooters will be held this evening at 7:30 o'clock at company headquarters.

At the next meeting of the Young Men's Research Club, the paper to be read by Mr. Case will be on the liquor question.

A reporter for the Advertiser is indebted to an unknown admirer for one beautiful box filled with real nice precipitate chalk.

A special meeting of the stockholders of Pacific Sugar Mill will be held at 2 p. m. today at the office of the agents, F. A. Schaefer & Co.

The opium case of John Radin, the hackman and Bennett, the mate of the J. A. Cummins, will be the center of interest in the Police Court this morning.

Some tailors make good clothes but charge too much for the goodness. "The Kash" will sell you the clothes and you judge the goodness, ready to wear.

The regular weekly meeting of the Christian Workers will be held this afternoon at 3:30 o'clock at the Y. M. C. A. hall. All are cordially invited to be present.

The Hollister Drug Company received a fresh supply of Bullet and Bull's Eye films by the Coptic. Local amateur photographers are rejoicing in consequence.

Rev. Dr. George Wells, who visited in this city about a year ago, was recently struck by a railroad train while walking along one of the tracks, in Wisconsin, and killed instantly.

New fashion tailor goods, including suitings, trousseings, kamgarus, serges, linings, etc., just received by H. W. Schmidt & Sons. White linen and cotton duck by the yard or piece.

The latest at the Kakaako butts is a German ring target, which will be placed in position about the end of next week. This is the same kind of a target that is in use at Shell-Mound Park, San Francisco.

Rev. Alex. Mackintosh, together with 30 or 40 boys from the Royal School, paid a visit aboard the U. S. S. Marion yesterday afternoon and gained a great deal of pleasure from a close inspection of the ship.

Mr. and Mrs. Kirkpatrick, the former well known in connection with the Hagey Institute, bought Cleveland wheels of Harry Walker yesterday. They will take them along to Australia on the Mariposa today.

A full stock of the famous brand of Earl & Wilson's collars and cuffs can be found at M. McInerney's, corner of Fort and Merchant streets. Summer clothing in all the latest styles is a specialty of this house.

On Saturday, April 10th, at his salesrooms, W. S. Luce will sell a choice selection of ferns and curios, the property of a gentleman who has spent many years in securing the same. See itemized list in advertisement.

The event of the week will be the concert at Oahu College this evening. The program already published is an excellent one. The entertainment will begin at 8 o'clock. Arrangements have been made with Manager Paine for running special cars.

At 3:30 o'clock on Saturday afternoon there will be a game of baseball between the Stars and the Kamehameha boys. No doubt this will be an exciting contest from start to finish, and as there is to be no admission fee, it seems as if there should be a crowd out.

At a recent meeting of the Lailani Boat Club it was reported that a 10-year lease of the boat house site just makai of the present quarters of the Healan's, had been obtained from the Government. The boys will start on their boat house as soon as they have the requisite funds.

Mr. and Mrs. W. F. Allen left by the Coptic yesterday to spend three months or so in the Orient. Mr. Allen has not been very well of late, and his many friends hope that he will return much improved in health. Many friends were on the Pacific Mail wharf to say good-bye to Mr. and Mrs. Allen.

Among those who registered at the Y. M. C. A. yesterday were Mr. Edgar Quackenbush of New York, Mr. George Heber Jones of Korea who was at one time prominent in Y. M. C. A. work in Rochester, N. Y., and Mr. and Mrs. H. B. Price of Yokohama-Aaira, Japan. All were through passengers on the Coptic.

Proposed Road Race.

There was an informal meeting of the H. A. A. C. yesterday, at which a bicycle road race was discussed. The route suggested was from Palace square, out King to Punahou, to Bereania, to Alapai, to Kinai, to Emma, finishing at the square. This is one of the best routes in the city, as most of the distance is down hill.

"At One Fell Swoop"

Jim Steiner and J. W. Luning struck their funny bones yesterday with rather serious results. The first is from the dispenser of sweetmeats.

"We had a boycott here tonight!" Thinking that the members of Company B had abandoned soda water for something stronger, the reporter asked what it was all about.

"Two of my boys got to scrapping and one cut the other—boy cut. See?" When the reporter succeeded in getting his coffee check charged up, he disappeared in the darkness.

Later, he met Luning, the humanitarian, coming into Hotel street from Union. Stopping the reporter, he said, almost breathlessly:

"I've got a good one, and I'll wager tickets for the Vaidas sisters' performance that you can't guess it. Won't bet? I'll give you a chance, anyhow. Listen to this:

"Where did Noah keep the bees when he was in the ark for 40 weeks—I mean 40 days? Give it up? Guess again. No? In the archives; ch. hard. See? Good, ain't it? You won't realize its full value until you think it over. Good night."

Luning will feel sorry for it today. The Hawaiian Gazette (semi-weekly) will be issued this morning in time for the outgoing island mails.

SACHS' WEATHER BULLETIN.
"What Charlie Says."

DIAMOND HEAD,
April 7, 1897.

NOTICE TO MARINERS.

United States Branch Hydrographic Office, Merchants' Exchange.
San Francisco, Cal.
Captains of vessels touching at any of the ports of the Hawaiian Islands, by communicating with the Branch Hydrographic Office in San Francisco, will be furnished with the Monthly Pilot Charts of the North Pacific, and with the latest information regarding the dangers of navigation in the regions which they frequent.
Nautical inquiries will be investigated and answered.
Mariners are requested to report to the office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publications of the Pilot Charts of the North Pacific.
W. S. HUGHES,
Lieutenant, U. S. Navy, in Charge.

First Quarter of Moon April 9 at 9h. 57m. p.m.
The tides and moon phases are given in Standard time. The time of sun and moon rising and setting being given for all ports in the group are in local time, to which the respective corrections to Standard time applicable to each different port should be made.
The Standard time whistle sounds at 12h. 0m. 0s. (midnight). Greenwich time, which is 1h. 30m. p. m. of Hawaiian Standard time.

Industry for Kula, Maui.

The Marsden Company, just incorporated at Trenton, N. J., with a capital of \$50,000,000, have for their object the manufacture and sale of all products made from corn stalks, in accordance with the discoveries made and patents secured by Mark W. Marsden. These inventions are said to permit the use of the pith of corn stalks for the manufacture of car wheels, basins, barrels, and other objects now made of iron, wood or paper, and also of board and other building materials, as well as for a cellulose filling between the inside skin and outer armor of war vessels.

Pacific Sugar Fleet.

SAN FRANCISCO, March 27.—The Golden Gate was one of the busiest ports in the United States yesterday. A dozen coasters and steam vessels made port and six sugar boats got in from Hawaii, while a number of vessels came in from Australia and South Sea Island ports.

All the vessels from Hawaii made quick passages. The Santiago made the quickest run of the fleet, arriving here last Thursday night in the fast time of fourteen days. The bark S. C. Allen made the run from Honolulu in sixteen days, and the barkentine Painter from Kahului in sixteen days, while the barkentine George C. Perkins took twenty days to come from Mahukona, the Metha Nelson nineteen days to come from Kahului, and the Marie Hackfeld eighteen days to come from Honolulu. All the sugar boats had fair weather and every one of them sailed in. Consequently the captains of the various tugs that were outside looking for a job were more than angry when they saw the vessels sailing by them under full sail.

The Metha Nelson when she entered port completed her first round trip. She was built a year ago in Mendocino and was named after the wife of Captain Nelson. A few days after the schooner left port for Hawaii Mrs. Nelson died, and consequently the return of the vessel is a sad reminder to the owner of the schooner.

The barkentine Planter anchored off Folsom street wharf, but before her sails were clewed up she began to drift. Before the captain could take any precautions he was almost alongside of the British ship Lismore. Luckily his second anchor held and the Planter was soon warped out of danger.

Mrs. A. Inveen, residing at 720 Henry St., Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one of a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. For sale by all druggists and dealers; Benson, Smith & Co., wholesale agents for Hawaiian Islands.

WHARF AND WAVE.

DIAMOND HEAD SIGNAL STATION, April 8, 10 p. m.—The weather is clear; wind light; north.

There will be several steamers in with sugar today.

The Kaala put all of her sugar into the Babcock yesterday.

The Mauna Loa is due from Maui and Hawaii ports this afternoon.

The Helene discharged part of her cargo into the Babcock yesterday.

The ship George Curtis hauled over to the Railroad wharf yesterday to take on sugar.

The J. A. Cummins came in from Oahu ports with a cargo of sugar early yesterday afternoon.

The Highland Light did not succeed in getting away yesterday. She will sail for the Sound today.

The Callao did not get away for New York yesterday on account of the illness of the captain. She will sail today.

The Mariposa is due here from San Francisco today with one day's later news and the famous murderer Butler aboard.

The ship Iroquois hauled over to the Fish Market wharf yesterday afternoon to discharge ballast, preparatory to taking on sugar.

Although booked to sail at 1 o'clock yesterday, it was nearly an hour later before the O. & O. S. S. Coptic got away for China and Japan.

The Lehua finished discharging her cargo of sugar yesterday and sailed for Laupahoehoe, Hakalau, Honoumuli and Pahukamuni after another load.

The American schooner Alice Cooke, Penhallow master, arrived in port late yesterday afternoon, 28 days from Port Townsend with a full cargo of lumber.

The pile driver was still at work yesterday trying to make an impression on the big rock that caused the stopping of the Mauna Loa a week ago today.

Messrs. George Lycurgus and Camarinos went down aboard the Coptic yesterday, each with a bunch of leis. These they threw around the necks of their friends among the officers of the steamer.

Barney, the boat landing dog, was decorated with a maille lei yesterday, in celebration of his regular annual bath. He looked very happy and received the congratulations of his friends among the boat boys.

The Waialeale came in from Kilauea yesterday with a cargo of 2,370 bags of sugar which she discharged on the Nuanu street wharf for the ship Luzon. The Waialeale sailed again for the same port in the afternoon.

Besides the 134 rejected Japanese men and 35 women from the quarantine station, the Coptic took away yesterday the following: Chinese, 63 men; Japanese, 6 men and 2 women. One Chinaman was stopped on account of his debts.

SEATTLE, Wash., March 31.—The American manager of the Nippon Yusen Kaisha denies that the S. S. Sakura Maru, now due, left Yokohama without a bill of health, and will be detained in quarantine at Port Townsend, subject to a \$5,000 fine.

The Missionary packet Morning Star got away for San Francisco shortly after 2 o'clock yesterday afternoon. Mr. J. A. Dower changed his mind about going out as second mate on account of the large amount of work on his hands. The Star will be away something over three months.

The barkentine W. H. Dimond, Nilson master, arrived in port yesterday morning, 15 days from San Francisco, with a cargo of 800 tons of general merchandise for Wm. G. Irwin & Co. She brought, in addition to this, 24 horses and two cows and a calf. The Dimond is at the Oceanic wharf.

A. M. Hewitt succeeded in discharging the 1,300 tons from the bark Mohican in 2 days and 2 hours. All this freight was delivered in 3½ days. The Mohican has 4,000 bags of sugar now in her hold and 6,000 more await her at the Railroad wharf. There is another lot for her on the Helene, and the James Makee will have about 2,500 bags. If all goes well she will get away for San Francisco on Saturday or Sunday.

REFRATORY ARTHUR.

Fitzgerald, the Prisoner, is Now at Work.

Arthur Fitzgerald, the young Englishman serving a sentence for shooting a police officer, is again working on the streets. It will be remembered that the young man, after being sent to jail, had a difficulty with a fellow prisoner and was confined in the dungeon in consequence. It was not his first experience of this kind for infraction of the rules, and Arthur "took his medicine" like an old hand.

For the assault case he was sentenced to the dungeon, on bread and water diet, for ten days, the extreme limit of time.

As is the custom, prisoners in the dungeon are brought out and examined by the prison physician once each day. Arthur came up smiling every day, though growing gradually weaker. When the guard would hand him his daily allowance of one hard biscuit and a cup of water he noticed that Arthur would take a sip of the water, and throw the balance in the bucket. Once Jailer Low sent a meal from his private table. The guard was told to tell Fitz where the meal came from and ask if he had anything to say. His answer was characteristic of the man: "Tell him no. I'm not the sort of a man to give up."

It was seen at the end of ten days

that life in the dungeon would not change the prisoner's disposition, and the punishment was changed. He was given a ball and chain and put to work in the garden for about six hours each day and forbidden to speak to anyone. Then he was deprived of reading matter and tobacco. The idea that he could see his fellow prisoners and not be allowed to speak to them, and have nothing to read in his cell, was too much for the little fellow, and he gave in and sent for Jailer Low and told him he was ready for work. He is very docile just now and the ball and chain will be taken from him in a short time.

The French have adopted a great many English manners and customs, especially that of afternoon tea, which is now regularly served in every house of any social pretension; but they steadily draw the line at plum-pudding which they do not appreciate, distrustful of it as being the embodiment of indigestion and nightmare.

MEETING NOTICE.

A special meeting of the Stockholders of the Pacific Sugar Mill will be held at the office of F. A. Schaefer & Co., agents, on Friday, April 9th, at 2 o'clock.
H. RENJES,
Secretary.

MEETING NOTICE.
