HEPBURN THE THINGS WILL FRIEND OF HUM IN HAWAII KONA

He Saved Refunding Bill From Death in Committee.

(Mail Special to the Advertiser.)

WASHINGTON, D. C., March 24.—The legislative appropriation bill, which the National House has been fighting fiercely over for a week contains a provision of \$30,000 for the expenses of the legislature of Hawaii. Apparently this clause will weather the storm on that measure, for no one has yet undertaken to have it stricken out. Along with the appropriation goes a provision that there shall be no extra compensation voted to the members of the territorial legislature and that there shall be no extension of the term of the session. This was inserted to prevent the extra session evil and with a hope of spurring the territorial lawmakers to pass the appropriation bills within the time specified for the regular session.

Mr. George B. McClellan took this matter up with the Appropriations committee last fall, soon after he came here and it is very largely due to his efforts that the appropriation was put in the bill.

NO PUBLIC BUILDING LIKELY.

Delegate Kalaniana'ole and Mr. McClellan appeared recently before the House Committee on public buildings and grounds to argue for an appropriation for Hawaii. Chairman Bartholdt told them at the very start it was not proposed to appropriate any money for buildings in the territories and accordingly that it was as good as futile to argue for Honolulu. Still, the committee would be glad to hear something about the needs of the territorial capital in the mid-Pacific. The Delegate asked for \$200,000 for the purchase of a site. Mr. McClellan said today that three members of the committee have since said they favored voting that amount and that there is some hope of getting it into the omnibus bill.

On the other hand it is much doubted whether when the time comes to scale down the bill and to drop out as many projects as possible to make money for other projects, backed by political considerations—Honolulu will not be forgotten entirely. If an appropriation for a site is secured it will be quite a surprise to those working in behalf of the Honolulu project.

Chairman Driscoll, of Elections Committee No. 3, has the report in the contest between Curtis Iauka and Delegate Kalaniana'ole all "signed up" but it has not been presented yet to the House. The committee has been giving most of its attention to an election contest from Texas and accordingly the Hawaiian contest has received almost no attention, because of its comparative lack of importance.

THE SEGREGATION BILL.

Representative Cole, of Ohio, chairman of the subcommittee which has the segregation bill in charge, is proving to be its most enthusiastic supporter. The real trouble with the situation, from the Hawaiian standpoint, is that all the enthusiasm is with the opposition. Most of those for the bill are for it in a half hearted way and that sort of support never accomplishes anything in Congress.

A leading member of the committee said today that he was satisfied the Speaker had decided to keep hands off the committee and allow it to come out of there with a favorable report, provided it can command a majority vote. Representative Sorenson E. Payne, chairman of Ways and Means says he is still opposed but there are indications that he is not as aggressive about it as he formerly was. There are reasons for believing that Col. "Pete" Hephburn worked quite as effectively with Mr. Payne as he did with Mr. Cannon. Had it not been for Col. Hephburn the bill probably would have died in a committee pigeon-hole. The people of Hawaii owe Col. Hephburn a great deal.

(Continued on Page 4.)

THE SON OF THE CZAR BORN DEAF AND DUMB

VIENNA, March 27.—A private telegram from St. Petersburg gives the startling information that a new succession law is being prepared, owing to the fact that the Czarowitz is in weak health.

According to reports emanating from quarters connected with the court, the Czarowitz is both deaf and dumb. Other reports describe him as suffering from microcephalous. That his mental condition is such that he can never ascend the throne of Russia and rule

Plantation Incorporated and Railroad to Be Built.

Application was filed with the Territorial Treasurer yesterday for a charter for the West Hawaii Railway Company, and articles of incorporation were likewise filed for the Kona Development Company, both being limited liability companies. And that means that things will begin to hum along the Kona coast of Hawaii before very long.

The West Hawaii Railway Company is to be formed to build a line of railway through North and South Kona, with outlet on the seashore at Kailua, Napoopoo or Kaawaloa, and to be extended afterwards, if circumstances warrant, into Kohala and Kau. If this is done it will connect up the whole leeward side of the Big Island, as a matter of fact. It asks for the privileges usually given in a railway charter, and is therefore, most comprehensive in its terms. The capital stock of the railway is to be \$100,000, divided into one thousand shares of the value of one hundred dollars each, and of this thousand shares nine hundred and ninety-six are in the name of F. B. McStocker. The balance is held, in equal parts, by J. B. Castle, W. R. Castle, James F. Morgan and Clinton J. Hutchins, who are named as the incorporators of the company with McStocker. There is a provision which permits of the raising of the capitalization to one million dollars.

The Kona Development Company, which is formed for the purpose of rehabilitating the old Kona plantation, is a sugar company, with all that the term implies, and is to be capitalized at \$250,000, with the privilege of increasing its capital stock to half a million. Of the capital stock as at present constituted, 1975 shares are in the name of F. B. McStocker, who is to be the president of the company, the balance being equally divided among M. P. Robinson, who is vice president and director; James F. Morgan, who is treasurer and director; Gilbert J. Waller, who is secretary and director; C. J. Hutchins, who is auditor and director, and A. N. Campbell.

It is stated in the articles of incorporation that the new company will take over the old Kona plantation property, 873 acres of land, mill, everything that the old concern owned, at a valuation that is deemed fair. And it is not stated, but it is the purpose, to go ahead at once and rehabilitate the old plantation. This project has been under consideration for some time past, so that the taking of the official step will be no matter for great surprise in financial circles.

O. BAINBRIDGE FINDING THINGS

LONDON, March 24.—Oliver Bainbridge, M. A., traveler and explorer, having penetrated in disguise the upper reaches of the Yellow river for 300 miles north of Hankow, reports the discovery of a remote Jewish colony, evidently of great antiquity. They had their synagogue and preserved their worship in secret. They appeared to be descendants of Jews who found their way to that neighborhood from Persian captivity about 700 B. C., by the old transatlantic caravan route along the Oxus, skirting the great desert to the Yellow sea. They used many Persian words.

THE ALAMEDA ARRIVED AT SAN FRANCISCO

Tuesday, after a stormy voyage.

BIG CHANGES ARE RUMORED IN LOCAL HOTEL SITUATION

Manager Noah Gray of the Alexander Young hotel may terminate his contract in October, returning to California for a while at least. He is said to have a large proposition in view in Southern California and still another one in the near future in Honolulu, a sort of Hotel Del Monte scheme. Should this move take place Manager Hertsche of the Moana hotel may be promoted as general manager for the Alexander Young and Moana hotels.

Mr. Young is said to have still in mind the acquisition of the Hawaiian hotel.

A deal is progressing, as far as can be learned, whereby Alexander Young may acquire the fee simple ownership of the property on which the Moana hotel structure now stands. Mr. Young owns the building and W. C. Peacock, or rather Mrs. Peacock, the grounds. The property is at present leased to Mr. Young. It is said that the purchase price may be in the vicinity of \$45,000.

At the same time another deal is rumored, namely the proposed purchase by Mr. Young of the Judd property on the town side of the Moana hotel property, formerly known as the Long Branch property and now occupied by the Moana bath house. This property has been under lease to Mr. Young and has been greatly improved in the last few months. It is now laid out in lawns and the bath house occupies one corner of the same.

Some time ago it was announced that Mr. Young contemplated making an addition to the present Moana hotel structure by the erection of a building similar in design on the Judd property. The building would not touch the present structure but the two would be connected by a bridge at the second stories, leaving a wide space between the two buildings. Mr. Young is said to have had his proposition in mind owing to the increasing demand on the Moana for apartments. The Moana for some time past has been getting the ultra-wealthy patronage of the east and since the new tourist rush began last year the Moana has frequently been cramped for accommodations for prospective patrons.

WRIGHT MAY MAKE DEAL WORKING ON AGREEMENT

To Negotiate Sale of Philippines to Japan.

WASHINGTON, March 26.—Although Secretary Taft of the War Department saw fit recently to deny a report that Japan had made certain overtures to the United States for the acquisition of the Philippines, corroborative evidence is at hand that the Japanese Government has been desirous of opening negotiations to that end, and when former Governor Wright of the Philippines goes to Japan as the first American Ambassador to that country he will be empowered by this Government to enter upon further consideration of that proposition. In fact, it is said on what ought to be impeccable authority that the selection of Governor Wright to represent the Roosevelt administration at the Japanese Emperor's Court was clearly caused by this situation.

The visits of Banker Jacob H. Schiff of New York and other American financiers may have some connection with Japan's negotiations.

President Roosevelt, according to report, desires to dispose of the Philippines problem before the end of his present term in the White House. He is represented as being convinced that the ownership of the islands is not acceptable to the American people and will eventually mean much larger expenditures than have been made thus far.

The President recognizes it is not the Moros and other tribes that are to be feared in the future, but civilized Filipinos, who, educated and armed, will demand their independence. He is of the opinion, also, that the money wasted in the islands in five years would reclaim all the arid lands in the West and greatly add to the wealth and general prosperity of the country.

Americans recently returned from the Orient say there is no doubt that Japan is extremely anxious to gain the Philippines and has made representations to the United States that an amicable agreement could be formulated, by the terms of which Japan would become sponsor for the integrity of the Philippines, with, perhaps, a joint protectorate exerted by the United States, Great Britain and Japan.

Just what form negotiations should or may assume is conjectural and these steps, it is understood, are to be left in the hands of Ambassador Wright.

SONOMA NOT SIGHTED.

At 2 o'clock this morning the Oceanic liner Sonoma, due from the Colonies, had not been sighted. The vessel has probably met adverse winds. She will be given quick despatch to San Francisco as soon as she reaches here.

COAL MINERS MODIFY THEIR FIRST DEMAND

It Is Possible That There May Be an Adjustment of the Difficulty in the Four Great Fuel Producing States Without a Strike.

(Associated Press Cablegrams.)

NEW YORK, April 5.—The coal miners are modifying their demands for increased wages from the operators.

Possibly, after all, the expected coal strike may not materialize. The afternoon cables stated that the conference now being held at New York between the miners and the mine operators had failed so far to agree upon a settlement of the wage question, but also that the President had decided not to interfere, at present, with the pending negotiations for a settlement of the trouble. As it is known that the President wants to avert a strike, it may be assumed that he has reason still to hope that the contending parties will arrive at an understanding.

If the miners are now modifying their demands, there must have been a substantial change in conditions since the Indianapolis conference, on March 28, when President Mitchell of the Miners' Union said: "The American people are going to ask and insist upon knowing why the operators cannot pay an advance of 10 cents a ton, and we are going to ask you why you can charge the American people an advance of \$1 per ton and not be able to pay us an advance of 3 cents a ton. During the past two weeks the American people (and I do not mean the railroads) have been compelled to pay the mines more than \$1 a ton more for coal. Mr. Hammond says he will show us the books of the Deering Coal Company. I ask him if he will also let us see the books of the Rock Island Railroad Company?"

VOLIVA WANTS COURT TO TAKE ZION IN HAND

CHICAGO, April 5.—Voliva, the newly selected head of Zion, will apply for a receivership of the concern.

The affairs of Zion are in a bad way, as all the world knows, and Dowle himself is coming home from the West Indies to try to regain his old hold upon his followers. In the meantime, as showing the straits to which the sectaries have been reduced, the mainland papers received here yesterday had this, under date of March 27, from Muskegon, Michigan:

Ben McDhui, the summer home and estate of John Alexander Dowle located on White lake, near this city, will be sold. The property, supposed to be the largest and most beautiful on this shore, will soon be converted

into cash, it is said, to aid the depleted finances of Zion City. Who is the purchaser of the property is unknown and no information can be gained as to what it will bring.

Dowle purchased the estate shortly after founding Zion City and originally intended to plant his colony on this shore, but was discouraged by the hostility of local residents toward his church. He formed the estate into a summer home, however, and spent thousands of dollars in erecting lofty terraces and magnificent dwellings for himself and the deacons. The estate consists of 600 acres and is worth probably \$60,000.

A RUSSIAN HIGH COURT FOR POLITICAL OFFENDERS

ST. PETERSBURG, April 5.—The Czar is elaborating a scheme for a high court to try political offenders.

There is more material for the reactionaries to work upon. It will be a new thing, indeed, for Russian political offenders to be tried in any court, high or low. The practice was, in the old days, to send them to the knout, to Siberia, or to death without any other formality than the Czar's nod. And even that was not always necessary, if the offender had earned the ill will of some court favorite. But it is a different Russia now, even with de Witte out of power. Whatever is to come, the autocracy can never return.

Incidentally to the new order in Russia, the afternoon cables stated negotiations had been opened from St. Petersburg for a loan of two hundred millions in Paris. It will be interesting to note whether French financiers have confidence in the new order in the land of the Muscovite.

BRITISH ARMY OFFICER HAZED FOR POVERTY

ALDRESHOT, England, April 5.—Four lieutenants are on trial for the hazing of a fifth because of his poverty.

Aldershot is the great English training camp for the army. It will be recalled, however, has lately come from membered that there was complaint of the Japanese Parliament, afterwards, either the ally or the good friend of explained away, some little time ago. Great Britain took into account any concerning the morale of the British snobbishness of this particular kind.

E. C. SWIFT, BIG CHICAGO MEAT PACKER, IS DEAD

BOSTON, Mass., April 5.—E. C. Swift, the Chicago packer, is dead.

E. C. Swift was the brother of the late G. F. Swift, who was the head of the great meat packing house of Swift & Co., and was First Vice President of the concern and in actual executive control of its affairs after the death of his brother.

FRENCH AERONAUT KILLED.

NEW YORK, April 5.—Paul Nocquet, French sculptor and aeronaut, who made a balloon ascension on Long Island on Tuesday, was killed when descending, becoming entangled in the ropes and dragged after landing.

RECOMMEND A PURCHASE

The Country Club Likely to Buy Rooke Property.

At a meeting of the Country Club Committee, held last evening at the office of C. J. Hutchins, it was reported that 233 members had subscribed for 500 shares of stock, which will bring in \$12,650.

The proposition has been going along so nicely that the committee decided to recommend to the general meeting of proposed members to be held at the Young Hotel tonight the purchase of the Rooke property on which the club is to be located, paying over the necessary \$6000 and giving a mortgage for \$18,000. The purchase of the property will enable the club to dispose of some lots to people who have already made application for the same.

Country clubs elsewhere have adopted this idea, with the result that a small community of members have established homes directly on the club estates and have materially aided in the general improvement of the grounds.

HONOLULU COUNTRY CLUB.

The following notices have been sent out to the prospective members of the Country Club:

Honolulu, March 31, 1906.
Dear Sir: For more than a year past plans have been in preparation for the organization of a Country Club. Various sites were considered in the vicinity of Honolulu and those interested in the matter have carefully examined all of them and considered their different advantages. Of the two or three places which seemed available the only one which met the requirements was the Rooke property in Nuuanu valley. This land extends mauka from the Puunui tract at the head of Liliha street up Waolani valley, which branches from Nuuanu valley near the Electric Light Station, and contains approximately 300 acres of land, of which at least 100 acres is rolling land suitable for our purposes. It is accessible either from the Liliha street car-line or from Nuuanu avenue, its eastern boundary being about 150 yards from the latter street just below the Electric Light Station. The land is at present covered with guava bushes and hilo grass, but can be cleared at a moderate expense. A stream which is said to flow during the driest weather crosses the lower end of the property.

A lease of the property for twenty years has been obtained from the Rooke heirs in England; rental, \$900 per year. They have also given an option whereby we may at any time within five years purchase the whole property for \$24,000. It is proposed to organize a corporation with a capital stock of \$15,000 to take over this lease. A clubhouse to cost about \$5000, for which plans are already being drawn, will be erected at once. This structure will have broad lanais, an ample diningroom, kitchen and steward's quarters, and separate locker and dressing-rooms for men and women. A site for the clubhouse has already been selected. From the club's lanais there will be a magnificent view stretching from the Pali and including the whole sweep of Nuuanu valley to the harbor, and overlooking the entire stretch of land which will be devoted to the golf course. Just in front there is a good location for tennis courts, and in the rear a bowling alley and probably a swimming pool will be built. The land available for golf links is ample in extent for an eighteen-hole course, with natural hazards that will make the course interesting and sporty. Enough of the land will be cleared at once to make a good nine-hole course and as the membership of the club increases this will be extended to eighteen holes. A meeting of those interested in organizing the Country Club will be held at the Alexander Young Hotel roof garden on Thursday evening, April 5, 1906, at 8 o'clock. At this meeting all who have already subscribed to the lists which have been in circulation, as well as all others who wish to become charter members, are requested to be present. Of the desired list of 250 charter members about 200 have already subscribed. You are urgently requested to show your interest in this organization by attending this meeting.

POURED WATER INTO HIS BREAD OVENS.

Somebody has a grudge against baker Schmidt, who conducts the Vienna Bakery on Fort street opposite the Catholic convent. During Tuesday night, and possibly about 11 p. m., someone poured water into Mr. Schmidt's baking ovens, almost putting them out of commission for yesterday's batch of bread. The miscreant evidently took great pains to work damage, for the water poured into the ovens by the bucketful. Mr. Schmidt thinks that some competitor tried to injure him.

A first-class baker is wanted at Singer's bakery.

COOKE-JUDD WEDDING

Two of the oldest families of Honolulu were more closely united last evening by the marriage of Miss Sophie Boyd Judd, daughter of the late Chief Justice A. Francis Judd, to Mr. George Paul Cooke, son of Mr. and Mrs. Charles M. Cooke, the family names dating back to the early days of the American missionary development of the Hawaiian Islands.

The ceremony and the reception were a brilliant event in the social annals of Honolulu, the former being held in Central Union church at 8:30 o'clock in the presence of a throng of friends. At the reception at the Judd home in Nuuanu street there were present only the relatives and more intimate friends of the families.

Prettier decorations about the pulpit and organ loft have rarely been seen at a wedding in Central Union. The effect of the green and white color scheme was that of palms, ferns, malle and bamboo on the hillside of a cool, fragrant glen. At the foot of the pulpit, where a pillow covered with a white satin cloth was placed for the bridal couple to kneel upon while receiving the blessing of the minister, there was a bank of small palms. Above this rose maidenhair ferns, interspersed with waxy-white blossoms of the stephanotis vine and at one side was a dell of daisies. Beyond and still higher were larger palms and from the midst of these rose bamboo trees, the tops drooping in a most natural fashion. High up in this bamboo grove were the only two brilliant colors in the entire decorative scheme. These were displayed in two hearts entwined, formed of red geraniums and red carnations, a filmy strip of tulle falling naturally over the palms to the ferns. Groups of bamboo flanked the organ loft. A screen of malle ropes formed a background for this very novel garniture.

To carry out the natural idea the central aisle from portals to pulpit became an archway of bamboo trees, and throughout the ceremony a gentle breeze playing through the church kept the feathery tops in drowsy motion. Knots of ribbon confined bouquets of white daisies to the bamboo stalks at the pew ends. Mrs. C. E. Camp planned and executed the decorations.

To the strains of the Lohengrin wedding march the bride and her attendants passed into the church and to the pulpit beneath this pretty archway. The ushers, Messrs. George Fuller, Fred Damon and Harold Damon, preceded the party. Behind them came the bridesmaids, Miss Florence Hall and Miss Nore Sturgeon, both attired in dainty pink frocks. Then came the maid of honor, Miss Agnes Judd, in white. The bride entered leaning on the arm of her brother Mr. A. F. Judd. The bride met the groom at the satin footstool. Mr. Cooke was served by Dr. J. R. Judd as best man. Rev. Dr. William Kincaid, pastor of Central Union church, wearing his Doctor's gown, officiated, and during the recital of the marriage service, music was played softly by A. B. Ingalls at the organ, with violin accompaniment by Mr. B. L. Marx. The bride was given away by Mr. A. F. Judd. The ceremony completed, the bridal party passed from the church to the music of the Mendelssohn wedding march, and was driven direct to the Judd home where a reception followed from 9 to 11.

The reception was held in the parlor where the bride and groom received beneath an arbor of malle and white daisies. Directly above them was a large floral wedding bell composed of white marguerites, the clapper of white gardenias. At 9:45 a Hawaiian quintet club played a waltz and the bride and groom danced together for the first time as Mr. and Mrs. George P. Cooke. The bridesmaids and ushers joined in a little later and finally most of the guests danced in honor of the newly married couple. Refreshments were served throughout the evening. The presents were on view upstairs, a large and magnificent collection of silver and cut glass and useful articles for their new home in Keeaumoku street, the old Humburg residence. The bride wore a handsome gown of voile linen over white satin. Orange blossoms caught the wedding veil in the coiffure.

AN OLD KAMAANA DIES VERY SUDDENLY

An old kamaana, Mrs. Catherine Steward, was called very suddenly to her rest at a little after eight o'clock last night. Mrs. Steward, who was eighty-three years of age, was conversing with her daughter, Mrs. Catherine Lloyd, at the residence of the latter in Kalihi, and with the members of the family, when she suddenly sank back in her chair and was dead almost before her daughter and her grandchildren realized that anything was wrong. It was a case of heart failure, probably due to her great age, but Mrs. Steward had not complained at all of illness, and in fact had lately been very well.

She had resided in Honolulu for nearly fifty years, having come here from Australia, and leaves two children, Mrs. Lloyd and James Steward, and numerous grandchildren and great grandchildren.

She will be buried at four o'clock this afternoon from the Lloyd residence, interment being in Nuuanu cemetery.

A CHANCE TO PURCHASE GOOD EASTER LINEN.

Easter is approaching apace and there is at present a widespread enquiry for fine table linen. In recognition of this fact we will offer a full line of tablecloths, scarfs and tray cloths at half price, the sale commencing Monday, April 2nd, and lasting as long as the goods last.

Appended are some of the bargains which will be obtainable and which will undoubtedly appeal forcibly to every house-wife in Honolulu:

Elegant Footwear

THE FINEST STOCK IN THE
CITY NOW ON DISPLAY AT
McINERNEY SHOE STORE.

"THIS IS A SHAME."

So says George E. Whitlock, a sailor
on the U. S. S. Iroquois, that the people
of Honolulu are too often deceived
with the false testimonials published
by patent medicines, so convincing
you are almost forced to believe them
true till experience proves to the con-
trary, and proved them all a fake.

I have suffered from piles for nine
years and have tried every known
remedy in the markets of America, and
drank gallons of drugs to my loss
financially but not even temporary
relief, until I tried Wallach's Indian
Remedies, which is wonderful in its
immediate effects; it cured me in two
weeks' time.

During the nine years all my earnings
went to doctors and drugs and got
nothing but the same old thing. I can
not recommend Wallach's Indian
Remedies any too high and will gladly
give any one an interview; most every
sailor on the U. S. S. Iroquois use
Wallach's Indian Remedies.

Be sure and get Wallach's Indian
Remedies, and do not let the drugstore
pass off any useless stuff on you. Wal-
lach's Indian Remedies has a Star and
Crescent, with Help for All on top and
can not be mistaken.

was married in Washington, D. C.,
to Miss Marguerite Baker. The mar-
riage had been delayed, as on a former
occasion the Nicaraguan minister at
Washington sent young Zelaya home,
but he returned quickly.

Idle white laborers in Kernville, Cal.,
resented the introduction of Japanese
there by the Edison Electric company,
and forcibly ejected them from the
town, threatening to dynamite them.
The company asks protection from the
sheriff and says it will return the Japs
to their work.

The House has passed a hazing bill
aimed at infractions at the Naval
Academy. Representative Hepburn in
discussing the bill, roasted navy offi-
cers for a number of mishaps to ves-
sels and claims none have ever been
punished as they are tried by their
friends and former classmates.

James Burke Roche, member of the
British Parliament, has advised that he
will not be responsible for his wife's
bills. The cream of this lies in the fact
that the lady is the daughter of Frank
Work, a New York millionaire, and
that she paid her husband's bills until
she secured a divorce from him in Dela-
ware.

"Scotty," the eccentric and wealthy
mineowner, has been starring in a play
which deals with his own adventurous
life. Incidentally, a warrant has been
issued for his arrest in connection with
the recent mock ambush on the Nevada
desert when "Scotty" is alleged to
have shot at several men. "Scotty"
says he was ambushed in earnest.

roller skating rink next Wednesday
night, for which suitable prizes are to
be offered. The mile race will be the
event of the evening, while there will
also be short distance races, relay
races and obstacle races. The entries
for the mile race will be limited to
the first six received.

A REMEDY THAT IS TRULY MA- GICAL IN ITS POWER TO RELIEVE PAIN.

Mr. Lewis Rozario, Manager of Mad-
ras Co-op. Stores, of Madras, India,
says: "I certainly think Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy is one of the best medicines
made. I had been suffering from an
attack of colic and after trying a
couple of prescriptions without relief,
a friend suggested that I take Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy. I did so and the result was
truly magical for it gave me immedi-
ate relief. About that time several of
my staff were attacked in a like man-
ner and out of this same bottle I cured
them all." For sale by Benson, Smith
& Co., Ltd., Agents for Hawaii.

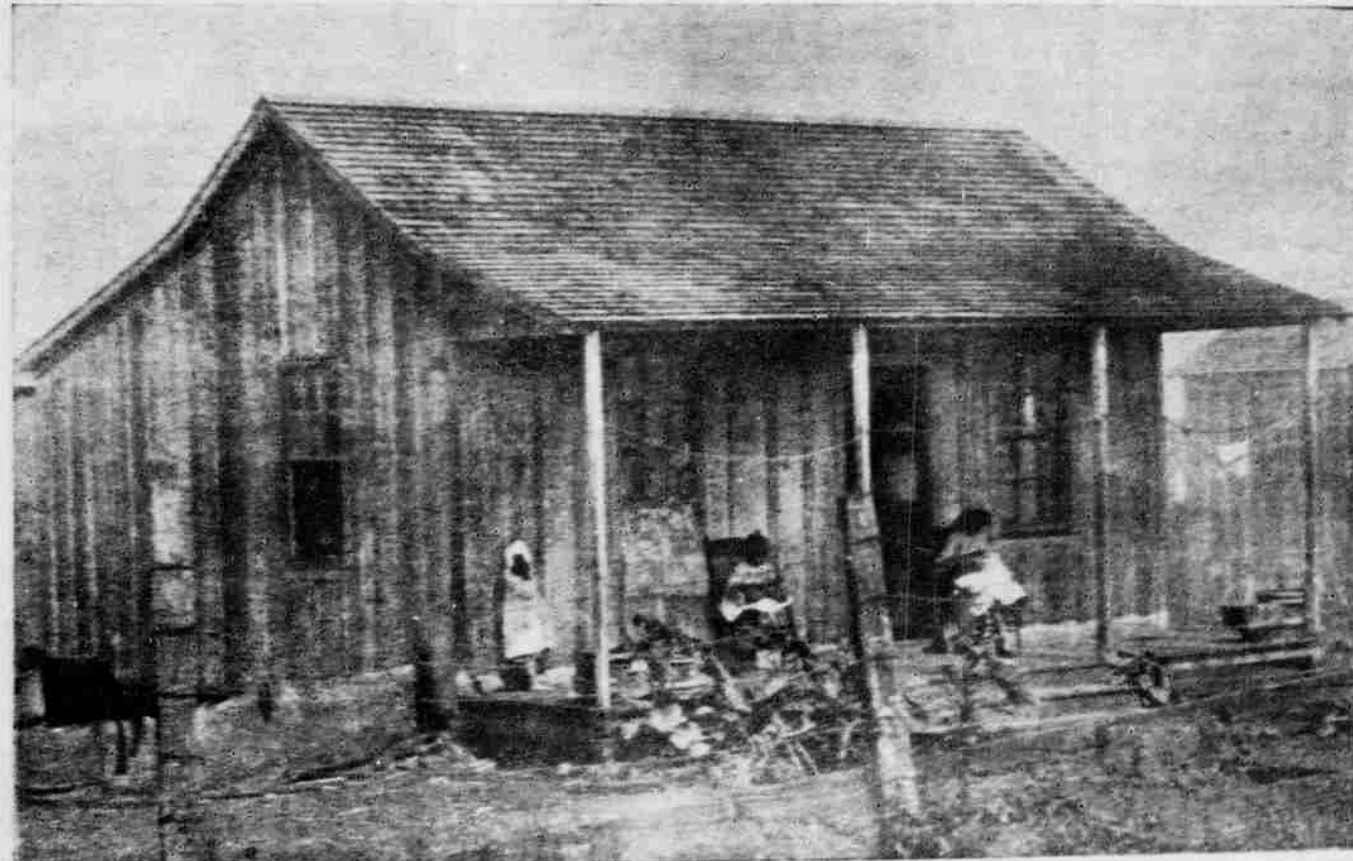

Va. was not the first white settlement
in the United States. He claims that
honor for Carmel-by-the-Sea, by five
years. The result is that the Jame-
stown exposition project has received a
setback. The house committee had al-
ready voted for \$1,000,000 to aid the
exposition.

PLANTATION COTTAGES—FROM HOUSES OF THIS CLASS THE PLANS FOR
LABOR COTTAGES FOR WHITE MEN ON THE SUGAR ESTATES HAVE
BEEN DRAWN. THE NEW COTTAGES, HOWEVER, WILL BE MUCH BET-
TER THAN THESE ARCHITECTUALLY, WITH MODERN FITTING.

THE PACIFIC COMMERCIAL ADVERTISER

WALTER G. SMITH : : : : : EDITOR.

THURSDAY : : : : : APRIL 5

KONA REVIVED.

The first public step was taken yesterday for the rehabilitation of the Kona plantation in the filing of articles of incorporation of the Kona Development Company. It is a reorganization that has been in progress, in fact, for months past, although the gentlemen promoting it have not heretofore been ready to make definite public announcement of their plans. Coincidentally with the filing of articles for the Kona Improvement Company, application is made for a charter for the West Hawaii railway, whose present purpose is to build a railroad through North and South Kona, with a sea outlet at Kailua, Napoosoo or Kaawaloa, and with the reserved right, if that should later be found advisable, to extend its lines into Kohala or Kan, or both.

With the coming of these enterprises, the prediction may be ventured that things will soon begin to hum in Kona. The Kona country is one of the richest regions in the Hawaiian Islands. That it has not been earlier and more thoroughly exploited is, perhaps, referable to the fact that a sugar enterprise once went to disaster there, and a failure of the kind that was made on Kona plantation is calculated to give the region a black eye, as it did—albeit the region be not at all to blame.

By mistakes we learn, however, and the new Kona Development Company will be managed upon safer lines and in the light of more recent experience with modern methods. And there is no reason, in the nature of things, why the enterprise should not be abundantly successful.

The Bulletin's excited comments on the land and labor question shows that the paper either knows nothing about the difficulty Gov. Atkinson has had and is still having to get an agreement with some of the planters or that it is holding back what it knows to save a point of politics. The old and the new ideas in Hawaii have had a mighty lively tussle and the old idea has not given up hope yet. But enough has been gained by the American policy of settling the land to assure its complete success. The issue now pending in certain quarters is whether a few plantations, in conveying land to settlers, shall retain an option on it.

The success of the Constitutional Democrats in the elections for the Russian Duma is important as an indication of what the educated classes think. There are said to be only about 1,400,000 qualified voters in Russia and if these have elected a majority of Constitutional Democrats one wonders what has become of the monarchical party. It certainly does not exist among the peasantry. As the Czar appoints the upper house of the Duma there will be monarchists enough to block the legislative wishes of the people, but they will represent a minority so small as to be almost in the list of "scattering."

It is doubtful that the President has committed himself to the sale of the Philippines to Japan, desirable as such a transfer would be from some points of view. The trouble with the scheme is that it involves the sale of human beings as well as of territory. We have done some queer things since 1898 but have not yet approximated the slave trade. Americans, much as they would like to have the Philippines off their hands, would certainly not consent to a sale of the islands unless the trade received the sanction of a Filipino plebiscite.

Australia sympathizes with the cause of Philippine autonomy. A Manila correspondent of a colonial paper explains the fact on purely commercial grounds. "Many necessities of life cannot be produced in the islands," he says, "and under a system of freer commercial intercourse the Philippines would be able to draw fresh and cheap supplies from the fields and runs of Australia to the great benefit of both countries." For the same reason, probably, the Americans are not autonomists.

Gangraena is very prevalent in Guam and should be watched for carefully here. It is a tropical disease affecting the lower part of the face with slow ulceration. Four hundred cases are reported from the afflicted island and the segregation of patients is proposed. Our quarantine officers will, of course, exercise special vigilance over transports which have made Guam a port of call.

Besides getting the Carnegie hero medal, the young Hawaiian of Maui, who risked his life to save Japanese fishermen, ought to have a decoration from the imperial government. Tokio has given such things for less cause, as witness the Japanese orders worn by a number of Hawaiians who got them merely for being polite to Japanese officials while in office under the island monarchy.

The proposed Iowa law to sell eggs by weight is sound in principle. Sold by the dozen, eggs are likely to include enough small ones to mix up rules of cooking and to deprive a consumer of a part of the nutriment he pays for. The Iowa plan would work more to the advantage of the buyer.

The Bulletin, which was shrieking daily to have a labor agent appointed, now says that it knew that one had been chosen all the time. This announcement should be read to the marines at dress parade.

HEPBURN THE FRIEND OF HAWAII

(Continued from Page 1.)

deal for the earnestness with which he has worked for this legislation. It is very rare indeed that he puts his shoulder to the wheel as vigorously for any House measure as he has been doing for the Hawaiian segregation bill.

But it seems that about all Col. Hephburn or anybody else can do with the House is to remove the aggressive opposition. Members are very sceptical about the principle of putting some of the money in the Treasury away in a separate bin, as Chairman Hamilton recently expressed it. They admit that the extremities of the Hawaiian government are great and that there is as good excuse as could be imagined for passing such a bill now. But there is a reaction of feeling towards the insular governments, just at present, growing out of the popular dissatisfaction with the Philippines and Hawaii and Porto Rico suffer on that account.

UNEASY POLITICIANS.

Great uneasiness exists in Congress, including both branches, over men's chances of reelection. This does not include Democrats, as a rule, because Democrats now in Senate and House practically all come from the South and there is no indication of an overturning in that section. But among the Republicans of practically every northern state there is more or less anxiety either over securing a re-election or over securing a reelection. Even the four members from Maine, the most stalwart Republican state in the entire north, unless it be Vermont, are a little aroused over the popular uprising in their state. Vermont, which is politically tranquil, has a stir in hand over a re-election, all of which goes to bear out the general assertion that the times are eruptive and conducive to unrest in Congress.

Of course it all rests on popular uneasiness. Much of the general Republican insurrection with which Speaker Cannon has had to deal this winter

has come from the uncertainty of members about the policies the Speaker has sought to put in force. Had their constituencies been calm, these Republicans would have been docile enough. Representative Babcock, of Wisconsin, the chief of Republican insurgents, has a world of trouble in his own district and is trying to trim his political sails to catch the popular breezes in that quarter of the world. The opposition to the Philippine tariff bill among beet sugar Republicans of the West comes from the fact that the fear of consequences among those who elect them to the National House is greater than fear of the House leaders.

The fact that renomination period is near at hand for many of these Republican statesmen in the House has also made them especially shy this winter of measures likely to be unpopular. The middle western states, like Ohio and Indiana, are already nominating candidates and from now on till early summer nominations for Congress will come thick and fast in that section. East the nominations are generally made much later, which gives members more opportunity to explain their votes and policies as members to their constituents.

There is a great deal of uneasiness, too, lest Congress still further muddle the general situation before it adjourns. The general trend of everything done by the Republicans since they met here last December has been to hurt their cause in the coming campaign. This has been added to of late by the attitude of the President, the Speaker and others in authority towards the labor men and towards their appeal for the enforcement of the eight hour law.

The date generally set for the adjournment of Congress has been June 1. But that leaves only about two months more to complete the work of necessary legislation and, as things look now, it will be impossible to get through by that time, unless some important matters be greatly expedited. The railroad rate debate is not proceeding as smoothly as many have wished. A week ago the leaders hoped it would be out of the way by the middle of April. The obstacles encountered in negotiations during the past week have led many to believe that the debate may not end before the middle of June. But that is not seriously expected.

Probably there will be a favorable turn again.

THE SHIP SUBSIDY.

The shipping subvention bill, which is of a wide interest, extending to people all the way from Maine to Hawaii, is probably showed under for this session. Great pressure is being brought to bear upon Speaker Cannon but he is determined that the bill shall not be pushed too fast, which means that it is not likely to be pushed fast enough to get through before the session ends. The hearings on the bill have been arranged to begin April 4. It is not expected that eastern shipowners will care to testify further, as they were heard before the general Merchant Marine Commission. But it is expected that western manufacturers will want a hearing and the intention is to give them a chance. Foreign shipowners, who are opposing the bill, will also want to be heard before any attempt is made to report it to the House.

EDITOR RHODES' ADDRESS.

Editor Chas. L. Rhodes of the Star delivered the address at the United Lenten service held at St. Andrew's cathedral last night, the subject being, "Statesmanship and Righteousness." Taking his text from Matthew xxii, 21, "Render unto Caesar the things that are Caesar's, and unto God the things that are God's," the lecturer argued that it is essentially incumbent upon Churchmen to be conscientious in the discharge of their civic duties, because the Christian is, in fact, the ideal citizen, and that it behooves him to weigh seriously his actions in all that pertains to the political life of the land in which he dwells, in a manner not only acceptable in the sight of God, but at the same time calculated to promote the public weal.

Owing to the absence of very many regular churchgoers—who were engaged at a social function elsewhere—the attendance was, unfortunately, somewhat slim. Bishop Restarick, as well as Canon Mackintosh and Rev. John Osborne, officiated.

Theo. McLeod, who had resigned his position as head water overseer for the Ewa Plantation Co., is going to make a tour of all the islands and expects to visit each and every sugar plantation. McLeod is an experienced sugar plantation man and was employed at Ewa for ten years. He expects to rest up for two or three months before resuming work. Mr. McLeod leaves on the Mikahala this evening.

THE FUNDAMENTAL LAW OF HAWAII CONTAINS:

1. The first Constitution of Kamehameha III, 1840, including the previously issued Bill of Rights.
2. The first laws of Hawaii, enacted under Kamehameha III, (1833-1842), published together in 1842.
3. The law creating and principles guiding the Land Commission.
4. The second Constitution of Kamehameha III, 1852.
5. The Constitution of Kamehameha V, 1864.
6. The Constitution of Kalakaua, 1887.
7. The Proclamation and orders incident to the establishment of the Provisional Government, 1893.
8. The Constitution of the Republic of Hawaii, 1894.
9. The treaty annexing Hawaii to the United States, 1897.
10. The Resolution of the Hawaiian Senate ratifying the annexation treaty, 1897.
11. The Joint Resolution of Congress annexing Hawaii, 1898.
12. The documents and procedure incident to the transfer of the sovereignty and possession of Hawaii to the United States, 1898; and the executive orders of President McKinley, relating to the government of Hawaii, issued during the transition period between the date of annexation and the passage of the Organic Act, 1898-1900.
13. The Act of Congress organizing Hawaii into a Territory, 1900.

Economical --- Convenient

The chances are that there is hardly a day in the week that you don't pay for 16-candle power light when 1-candle power is all that you need.

By using HYLO LAMPS you effect a distinct and appreciable saving of money. They may be turned down from 16 to 1-candle power as desired, thus giving you the particular illuminating power best suited to your needs.

For the sick room, where a dim, unwavering light is at times a necessity, HYLO LAMPS are invaluable.

TO REWARD LIFE SAVER

Public Thanks Will Be Given the Maui Boy.

Public thanks are to be given to Kekuewa, the brave Hawaiian of Maui who lately saved the lives of several Japanese fishermen at the risk of his own. The steps to this end have been taken by Acting Governor Atkinson, and the letters directing that this be done have gone forward to Maui, as will be seen by the correspondence printed herewith. The Acting Governor, indeed, has been anxious, ever since he heard of the heroism of this man, to signify in some appropriate manner the sentiment of the community of Hawaii with regard to the dauntless action.

It will be remembered that during the great storm that raged along the Maui coast on March 7 one of the Japanese fishing fleet was caught outside the harbor of Lahaina, and then turned turtle by the big waves, nine of her crew being thrown into the sea. Five of these were cast on shore, but the others were drifting about on bits of wreckage and in grave danger of drowning. It was at this time that Kekuewa, who is little more than a boy, jumped into the breakers from the wharf and swam out to the assistance of the endangered men. He brought in one, and went out a second time, having to swim a mile and a quarter, but he succeeded in getting a second man to the shore. He then started out for a third time, but by this time other natives had got a boat into the water and saved the third man. The fourth Japanese was drowned.

This was not the first time that the boy Kekuewa had done life-saving service, as he performed a somewhat similar feat two years ago when one of the Kinau's boats was swamped.

The saving of the lives of the Japanese was appreciated by the Japanese officials and the Japanese community, as will be seen in this letter from the Japanese Acting Consul to Governor Atkinson:

Honolulu, T. H., March 29, 1906.
Hon. A. L. C. Atkinson, Acting Governor, Territory of Hawaii, Honolulu, T. H.

Sir: On the seventh inst., when several Japanese fishermen at Lahaina were in danger of being drowned in the raging storm, a brave Hawaiian, Kekuewa by name, who is said to have nobly rescued a man in a former case, seeing various attempts to rescue fail, jumped into the breakers and after a daring struggle with the waves saved the drowning men, indeed two men. With much pleasure and high appreciation, I hear this event of noble and self-sacrificing heroism. At the same time, I take special interest in this case, as showing friendliness and harmony between the several different races resident here.

After communication with the Japanese community here, I wish to express my high appreciation of the action, referred to, and I take the liberty to ask you to convey my thanks to the brave Hawaiian through the proper channel. Very respectfully yours,
(Signed) K. MATSUBARA,
Acting Consul for Japan.

To this letter Acting Governor Atkinson replied as follows:

March 30, 1906.
Hon. K. Matsubara, Acting Consul for Japan, Honolulu, Oahu.

Sir: I have the honor to acknowledge the receipt of your favor of March 29, referring to the heroic conduct of a Hawaiian, Kekuewa by name, who saved two Japanese fishermen from drowning at Lahaina, on the 7th instant.

I need hardly say that it affords me much pleasure to learn of your high appreciation of this act of noble and self-sacrificing heroism, which also indicates, as you say, a showing of friendliness and harmony between the several different races resident in Hawaii.

A copy of your letter will be sent to Hon. A. N. Kopoikai, Judge of the Circuit Court of the Second District and the highest Federal official on Maui, who resides at Wailuku, and I will ask him to take the opportunity of handing it to Kekuewa in some public manner.

A copy of my letter to Mr. Kopoikai is enclosed for your information. I have the honor to be, sir, your obedient servant,
(Signed) A. L. C. ATKINSON,
Acting Governor of Hawaii.

The letter to the Acting Japanese Consul, with the reply, was forwarded in the last mail to Maui, with the following letter from the Acting Governor to Judge A. N. Kopoikai of the Second Judicial Circuit:

March 30, 1906.
Hon. A. N. Kopoikai, Judge, Second Judicial Circuit, Wailuku, Maui.

Sir: I have the honor to enclose a letter received today from Mr. K. Matsubara, Acting Consul for Japan, together with a copy of my reply thereto. These are sent to you as the highest Federal official on the island of Maui and I would ask you, in such capacity, to hand this correspondence to Mr. Kekuewa in some public manner, assuring him of my hearty endorsement of the remarks made by Mr. Matsubara, and of my appreciation

tion of his act of bravery, which is a credit to the Hawaiian race and an example to all of our citizens. It is such deeds that tend to cement the friendly relations existing between nations.

I have the honor to be, sir, your obedient servant,
(Signed) A. L. C. ATKINSON,
Acting Governor of Hawaii.

By this time, doubtless, Judge Kopoikai has taken occasion to publicly thank the gallant young Hawaiian for his services to humanity, and in the meantime steps will be taken to secure him a Carnegie medal. Indeed, this matter of the medal is already being attended to.

LINGERING COUGHS.

Persistent coughs that continue through the spring and summer usually indicate some throat or lung trouble and it is a serious mistake to neglect them. Chamberlain's Cough Remedy is famous for its cures of coughs of this nature and a few doses taken in time may save a doctor's bill and perhaps years of suffering. For sale by Benson, Smith & Co., Ltd., Agents for Hawaii.

MEN, IT'S FREE!

Ask me to send you, sealed, free, a book just completed, which will inspire any man to be bigger, stronger, younger (if he is old), and more manly than he ever felt.

I am a builder of men. I can take any weak, puny man and make him feel like Sandow. Of course I can't make a Hercules of a man who was never intended by nature to be strong and husky. I don't mean that.

But I can take a man who started with a fair constitution and before it got fully developed began tearing it down. That fellow is weak, nervous, slow, polky, lacking in vim, ambition and self-confidence. I can make a man of him in three months, so that his own friends won't know him.

Every man who is weak and "going back" knows that there ought to be something which will restore that old "steam" to his physical body. He has tried the usual drug method and found that a fizzle, and yet he knows there must be something.

I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps and make him feel like a Sandow in no time. It's the spice of life.

So get the book, if you want to be stronger. Send this ad, and I'll seal it closely and mail to you without marks. Come and see me, if possible. Whether you call or write, I'll give you the names of people you know that I've cured.

NEW DOCTOR IS ENGAGED

For Molokai Settlement Duty--Fish Market Inspection.

Beyond confirming one or two executive actions of the president, there was no positive business transacted at the meeting of the Board of Health yesterday afternoon. President L. E. Pinkham, Fred. C. Smith, Abraham Fernandez and Dr. Wayson constituted the quorum.

The first item in the president's message was a reference to the arrival of Dr. Brinckerhoff, the chief executive of the Federal Leprosarium on Molokai, coupled with a statement that he was taking the preliminary steps for the establishment of that institution.

AN ASSISTANT DOCTOR.

"Through the kind interest of Dr. W. C. Wile and Professor Schoemaker of Philadelphia," the message proceeded, "we have been able to secure Dr. H. T. Hollmann of Philadelphia as Assistant Physician at the Settlement. Mr. J. P. Cooke very kindly aided your executive with the advance funds necessary to accomplish this object." A formal vote ratified the president's action, the members of the Board having previously been consulted individually.

FISH MARKETS.

The president appointed Messrs. Smith, Judd and Peters as a committee to review his action relative to fish markets. He explained that the fish inspectors at the markets were appointed under the authority of the food laws and were paid from private and not government sources.

Answering the Advertiser reporter after the meeting, Mr. Pinkham stated that the owners of the markets paid the inspection fees. He also mentioned that the monthly reports of Food Commissioner Duncan were delayed on account of much outside work for the departments which he had been called on to do.

SETTLEMENT AFFAIRS.

Mr. Pinkham submitted the following

information on Settlement affairs, but nothing was done excepting a general inspection of the laundry plans:

"I have in pursuance to your authorization formally notified the Superintendent of Public Works that the Board would surrender the water rights and necessary rights of way in the upper portion of the Waihanau Valley, County of Kalawao, Molokai, to the extent of the preliminary application. I have not believed it necessary or proper to surrender the control of the land. The question of fuel is becoming an important one at the Settlement and furnishes one argument for retaining control of the land in question. It seems to me we have conceded all that is definitely asked for.

"Owing to the savings made on some of our supplies we are enabled to establish some conveniences at the Settlement that our means would not otherwise permit. Laundrying is a great hardship on our wards. I have therefore secured one combination disinfecting and washing machine, one ordinary washing machine, two extractors and one simple mangle with which all the laundrying may be done. The motive power is the same as that used for the poi factory, as there is no additional expense for power or steam plant. I present plans for the building."

OTHER MATTERS.

Dr. J. H. Raymond wrote to the president about the conduct of Malulu Hospital. His letter was read and referred to the hospital committee. It advocated a reduction of the ward fees and giving patients the privilege of calling in physicians of their own choice. Another idea was that physicians of the district take turns in monthly rotation for regular attendance without pay.

"The water in the reservoirs in Nuuanu Valley is very low," the message concluded. "We are keeping careful watch over the water supply and its sources by detailing an inspector for that purpose."

TWO SCHOLARSHIPS WITH TWO STRINGS

An offer of two scholarships in Oread Agricultural College at Oread, Maryland, and Worcester, Massachusetts, has been received at the office of the Governor. The scholarships run for two years, and are rated as worth \$1000 apiece, but the recipient must pay his own tuition and entrance fees, and presumably fare to the college, and will then be credited back at the rate of \$500 a year for the work that he does in the manual training and farming departments. The Governor is asked to recommend pupils for the scholarships. The matter will probably be referred to the Department of Education. However, an Eastern mainland farming education would hardly seem to fit Hawaii.

EDUCATION BOARD WILL MEET TODAY

The Board of Education will meet at 3:30 this afternoon to consider the recommendations made by the Teachers' committee, and such other business as may come before it. The Teachers' Committee met yesterday forenoon and agreed upon the following recommendations:

That Helen Severance be granted a leave of absence until September.

That E. W. Ward's certificate be extended for a year in consideration of attendance at the Berkeley summer school.

That Miss Lulu Gran be appointed substitute for Miss Myra Angus at Kalahele school.

That the appointment of L. M. Jessup as principal of the Kalihihaka school at a salary of \$42.50 be approved.

That the request of Rose Kaunama for a transfer be not granted.

That the application of Mrs. J. N. Taggard for a life certificate be granted.

That Miss Dillon's request for permission to close school on Thursday evening be granted.

That Miss Mable Taylor be appointed assistant at Hanalei at a salary of \$35.

That the request of Daza Barnes to close school on June 5 be not granted.

That Miss Guard be transferred from Olua to Haaleo, vice Miss Eaton.

That Miss Eaton be transferred to Maemae school.

That Mrs. Weatherbee be appointed assistant at Olua, Nine Miles, vice Miss Guard at a salary of \$42.50.

That Mrs. Maud Beers' request for a leave of absence on account of ill health be granted.

That Mrs. Finch be appointed substitute for Mrs. Beers.

That Miss Lydia Kawainui be transferred from Wailuku to Maemae.

That Miss Elsie Wilcox be appointed assistant at Lihue at a salary of \$44.

That Miss Gouveia be appointed assistant at Wailuku vice Miss Kawailoa at a salary of \$30.

Superintendent Babbitt is just now taken up with the matter of school sites, on Kanai, in Paoas, and at various other points, but has reached no definite agreement with the Land Office yet. These matters, therefore, will not come before the Board meeting. The Superintendent is also getting a line on his kuleanas in the Wailae Reform School grounds.

BURNS AND SCALDS.

The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm with a feather. It also heals the injured parts more quickly than any other treatment and unless the burn is very severe does not leave a scar. For sale by Benson, Smith & Co., Ltd., Agents for Hawaii.

The Oskhill restaurant in Montreal, in the building which was occupied in 1775 as the headquarters of General Montgomerie and staff of the American army, has been destroyed by fire.

Fire-Fire-Fire

You never know when fire may break out in your home. An overturned lamp, and the house is in a blaze and, the chances are, your valuable papers and jewels, committed to the flames. Our safety-deposit vault is absolutely fire-proof and you can rent a box in it and have your own key for the low rate of \$5 per year and up.

WORLD'S NEWS DAILY.

ROCKY MOUNTAIN WEED YIELDS GOOD RUBBER

Colorado's Supply, Which It Is Hoped to Develop by Federal Aid, Was Discovered Through Goat's Indigestion.

WASHINGTON, March 18.—American rubber grown upon the arid lands of the West and manufactured by the original Americans, the Red Men, is the dream of Representative Brooks, of Colorado. Mr. Brooks has introduced a bill in the House granting to the P. F. U. Rubber Company the use of certain arid lands in La Plata County, Col., for the exploitation of a new found rubber plant. If the bill is passed the Secretary of the Interior will fix a rental value on such land as shall be used by the rubber making concern. The money derived from the rent of the desert is to go to the Southern Ute Indians within whose reservation the county named is located, and the measure further stipulates the company, shall, whenever possible, employ the Indians in the rubber factory.

"Within the last two years," recites the Brooks bill, "it has been discovered that a hitherto worthless weed growing in the higher altitudes of the Rocky Mountain States may, with proper treatment, yield a rubber gum of good quality. The P. F. U. Rubber Company has erected a factory at Durango for treating the weed and extracting the gum, and has, after exhaustive search extending over several states and territories, determined that the plant has reached its highest development as far as the percentage and quality of its gum is concerned in the specimens found on the desert tract in La Plata County." That's why the company wants to get hold of this particular spot on the Colorado desert, and, as it looks like a good proposition for the Indians, with no chance for them to lose, the Committee on Public Lands, to whom the bill has been referred, will probably be inclined to O. K. the scheme.

While the finding of real rubber on North American soil is an interesting event, it is not near as interesting as the story of how the "find" was made in the first place. According to Representative Brooks, a fine Angora goat was the original discoverer, but like many other martyrs to science and progress gave up her life for the new industry. For years and years, in fact ever since the first palefaces pushed their prairie schooners over the alkali wastes, the "rabbit weed," or *Picradenia floribunda*, was known to the settlers and was cordially detested by them. Like the sage bush and the greasewood, the rabbit weed apparently had no reason for existing, unless it were to prove that some vegetation could grow in the bitter soil. The prairie dogs, the buffalo and the other animals inhabiting the desert lands refused to eat the rabbit weed. If the fleet-footed jack rabbits themselves ate it they only did so as a last resort, and the early settlers and their followers in the march of civilization gave it no heed except now and then too invent more or less opprobrious epithets for its "nerve" in growing where nothing else could live and being absolutely worthless after all.

One day a "gentleman farmer" near Durango imported a lot of fine Angora goats. He had read up on the Agricultural Department bulletins and was anxious to turn his modest competence into a great fortune by exploiting the famous hair of the aristocratic goats. All went well with the goats until one of them, more curious or perhaps more hungry than her companions, concluded to sample the rabbit weed. Finding the flavor much more to her liking than tin cans or sage bush, she made a generous meal of the plant, and soon afterward bleated her last. The owner had an autopsy performed, and much to his astonishment found that his valuable goat had apparently been dining on rubber balls, elastic bands, pencil erasers and hot water bottles. Closer investigation revealed a fine collection of rubber in various stages of digestion within the interior of the deceased Angora, and a little Sherlock Holmes work on the part of the goat raiser developed the fact that the rabbit weed was to blame. From this discovery was evolved the plan of using the rubber weed for commercial exploitation. It is said that the Angora goats of Colorado are altogether too wise to eat rabbit weed nowadays. The news of the fate of their unfortunate ancestor is believed to have been assimilated by the herds in some mysterious but intelligent manner, and now they prefer starvation to a meal of golf balls and porous plasters.—N. Y. Tribune Correspondence.

WAOLANI VALLEY

BY JAS. W. GIRVIN.

The possibilities of this beautiful valley under the management of the Waolani Country Club may be imagined, for it has the natural accessions of landscape and a grand view of the city and harbor of Honolulu. So many of even the old residents of the city know so little about the valley that a few descriptive words in relation to it may not be out of place.

What is the meaning of the name, Waolani? A free translation of it might be "the spirit land," as it had the reputation of being the most haunted spot on the islands. It was said to be the abode of the spirits of departed chiefs and was carefully avoided by the common people at night, although processions of white robed visitors, at the full of the moon, to Waolani were not of infrequent occurrence in the olden time. "Lani," is often interpreted as "heavenly" or pertaining to the heavens, but was often used as the superlative in Hawaiian.

"Where is Waolani? If one would see it let him take the Liliha street car to the terminus at Wyllie street and keep to the Ewa side of Nuuanu and from the first eminence he will have a fine view of the valley from its opening to its terminus, where the sides of the ridges bounding it come together. In former days it would appear that more water was brought down there than in our time as we find the remains of a solidly built auwai which conducted the water out for irrigating purposes. The opening of the valley is at present covered with guava and lantana the uprooting of which will provide exercise for the muscular members of the Club. Some few Pride of India trees remain of those formerly planted there and the old stone corral is in a dilapidated condition. A tramp up through the valley will develop the fact that more was thought of it in old times than present appearances would warrant. Rocks piled up by human agency for some purpose are met with here and there and together with the ghostly stories told of the valley it may be that sacrifices may have been here offered to propitiate offended deities. Some springs in the vicinity which formerly gave out considerable quantities of water have been closed, rumor says by the gods. One tells of having been with his uncle there who was engaged in bird catching by means of bird lime and that the trees, now so scarce, were at one time very plentiful.

He said his uncle was a noted kiamanu or bird-catcher and when a bird was caught he would fasten it to his hat, if a lively one, and its flutterings would attract others which would land on the smeared branches and be likewise captured and stowed away in his hiaai or wicker basket.

Looking down from above the possibilities of the valley for golf links, bathing pool, or playgrounds of any nature is perceived, as well as fine sites for dwellings and a very slightly one for the club house proper.

It will not cost much to build a road to the valley as the material in quantity is to be found in the vicinity.

The hard-headed, iconoclastic white man who cares naught

for the superstitions of the ancients will soon make a playground of the spot which by the Hawaiians was always looked on with so much awe.

Instead of processions of white robed visitors in the wane of the moon we may see lively autoists "honk, honking" up to the club house to enjoy the balmy air or for a moonlight swim in the pool.

JAS. W. GIRVIN.

JOSEPHINE BURNETT.

Getting back the "old vigor."

Nothing causes so much discouragement, blues and despondency as the realization that one is "not so vigorous as a year ago."

The great trouble is that people in a run down condition usually sit back for a while and wait and hope that they will feel better soon.

Hoping will not restore the tired nerves to their true strength.

The nerves are tired and sick—they have been abused and they won't do their work in the right way until they have been fed new power and built back to their old strength; then you will feel the old vigor again.

You can get back the "old vigor" with Paine's Celery Compound quicker than in any known way.

The reason is—Paine's Celery Compound feeds new power to your nerves. It gives them vitality and strength. Get your nerves right and your "vigor" will be right.

"Restoring a worn-out person to the old vigor"—Miss Burnett sums up in this sentence exactly what Paine's Celery Compound does.

Oct. 1, 1904.

Wells & Richardson Co., Burlington, Vt. Gentlemen:—"Paine's Celery Compound is certainly the acme of perfection in restoring a worn-out person to the old vigor. Last spring I worked very steadily, often from twelve to fourteen hours a day. I had enjoyed good health until that time, but soon found that excessive labor with irregular meals and too little rest told on my health. I became nervous and irritable, suffered from headache, heartburn and indigestion, with loss of memory, and at times everything would become black before my eyes. One of my club friends had been restored through the use of Paine's Celery Compound and I decided to try it and was agreeably surprised to find how soon it relieved me and assisted nature to perform her work and restore me to a normal condition. Within three weeks I felt well and strong again and I have had no trouble since."—Josephine Burnett, 300 Benoit Bldg., St. Louis, Mo., President St. Louis Young Woman's Literary Club.

When you stop and think of it—there must be a pretty good reason for Paine's Celery Compound being the most universally used tonic in the world for over 17 years.

Some few years ago the formula of Paine's Celery Compound was sent to every registered doctor in the United States (it is always sent to registered doctors on request)—that is why it is constantly prescribed by broad-minded doctors everywhere.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians known in medical annals—Prof. E. E. Phelps, of Dartmouth University.

All reputable druggists recommend and sell Paine's Celery Compound.

WELLS, RICHARDSON & CO.
BURLINGTON, VERMONT.

UNCOMMON WISDOM

SOME HONOLULU PEOPLE PROFIT BY NEIGHBORS' EXPERIENCE.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it, and every man, woman or child in Honolulu who knows the misery of a bad back, the nervousness and restlessness caused by kidney complaint or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice.

Rev. J. Nus of Kawaiahae informs us: "I suffered from kidney trouble, which was, I believe, caused by my lifting heavy weights. Pains in the small of my back were one of the symptoms of my complaint. My trouble extends back to the time when I was 28 years of age, and as I am now 49, that is a considerable period. During all this time I was subject to pains in the back. They continued despite the fact that I consulted several physicians and took numerous remedies. No relief thus gained can be compared to the benefit obtained from using Doan's Backache Kidney Pills. I have got on wonderfully well since taking them. I am quite satisfied with the result, and shall always have some of the pills by me, even when going from Honolulu to other missionary fields in the South Pacific. There is no other remedy like Doan's Backache Kidney Pills for kidney complaints, including backache."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

THE ROYAL HAWAIIAN HOTEL

THE TOURIST HOTEL OF THE WORLD. Why, because the traveler says so. Here you have a tropical Hotel, eat out of doors the year round. The Royal Hawaiian Hotel is the only Hotel that can give these advantages. Trees of all descriptions, porches, verandas, large lanais. Hotel has been thoroughly renovated, hot and cold water in every room, new management. Management will spare no expense on the table. Summer rates commence May 1st for six months. City people need not keep house, it is cheaper to board.

There will be a monthly dance during the summer months.

HENRY BEWS, Manager.

The Vital Question

The popular interrogation used to be "Have you used Pear's soap?" Today the favorite question is "Do you dine at Scotty's?" It is the proper thing in the interests of cleanliness and a full stomach to be able to reply in the affirmative in both cases.

The 25c. lunch with a drink on the side, at the Annex, is a prize package that folks never tire of opening.

The City Beautiful

Park Expert Robinson, in his report, did not touch upon the question of PAINTING. This is a very important question indeed in this land of tropical coloring. In the making of Paint, Honesty is required, but in regards to the proper harmonious coloring of your property, a peculiar knowledge of color is important, a knowledge that is not only a gift but must be acquired by experience and study. We claim without fear of contradiction to be experts in this line, and have at your service an expert who has had thirty years' experience and who will willingly give you his advice free.

MARINE**JAPS HOUSED ON DECK.**

Shortly before 2 o'clock yesterday afternoon when the Canadian-Australian steamship was preparing to depart for Victoria and Vancouver, there was a prospect that the Japanese steerage passengers from here might not be taken aboard. An inspection of the vessel had taken place, along the lines of the inspection of the America Maru a few days ago, to ascertain just what accommodations were to be had on the vessel for steerage passengers. Unlike the America Maru, it was found that the Moana had tables at which the steerage passengers could eat their meals. In fact, it is said that the general accommodations for the comfort of steerage passengers on the Moana are a little better than on most of the Pacific liners, despite their more palatial build and large space. On the other hand, there was not room between decks for the Japs and they are to be housed under a tent. This is said to be clearly against the United States regulations covering the accommodations for passengers. The Japs were taken aboard, but, of course, at the risk of the company. It is understood that the company could be prosecuted for this alleged offense. Although the Moana flies the British flag and is going to a British port, yet the fact that she takes on passengers here, an American port, gives the American authorities the right to see that the American regulations are carried out. A similar case was that of the steamship Stanley Dollar, which was here last year and took away several hundred Japs to Victoria.

MOANA HAS NEW CAPTAIN.

The C.-A. S. S. Moana arrived yesterday morning at 8 from the Colonies, via Suva and Fanning Island. The Moana is now commanded by Captain Neville, the former commander, Captain Gibb, having been promoted to the command of the new turbine steamer Maheeno, which will be here next month. By coincidence, Captain Carey, formerly commander of the Moana, arrived here yesterday on the Sierra from San Francisco, en route to the Colonies.

Among the passengers aboard and for Honolulu are Hon. Lionel Robinson, valet and party, comprising wealthy London stockbrokers. They will remain here a short time, taking the Manchuria to San Francisco. In order to be assured of accommodations at the Moana, Mr. Robinson cabled from Sydney and also Suva. Dr. Walter Maxwell, who founded the Hawaiian Planters' Association chemist station at Makiki and was in charge until about five years ago, returned from Queensland to renew acquaintances here and rest. Dr. Maxwell has been doing big work for the Queensland sugar planters, and he now stands practically at the head of his profession. Bishop Nevill of the English church in Australia is a through passenger.

The Hawaiian Band played the Moana off at 2 p. m.

THE S. F. HONOLULU BOAT.

A contract has been awarded to the Union Iron Works for the building of a steamer that will be used exclusively on the San Francisco and Honolulu route, and which will be one of the best passenger vessels on the line. Some of the most prominent planters on the islands are interested in the new steamer. They have long felt the need of an independent steamer on the route, and only recently came to the conclusion that to attain their needs a new and independent boat should be provided. Money for the construction of this vessel has now been provided, and the Union Iron Works will undertake its construction. The steamer is to be 375 feet in length, with a breadth of 38 feet and depth of about 29 feet. Her cabin accommodations will be particularly good.

It is reported that negotiations were under way between the islands and the American-Hawaiian Steamship Company for the acquisition of one of that company's vessels, but that no deal could be made. General Manager Burnham of the American-Hawaiian line, who is now here, made an arrangement with the Honolulu people, however, by which he will undertake to provide a steamer more particularly suited to their needs.—Chronicle.

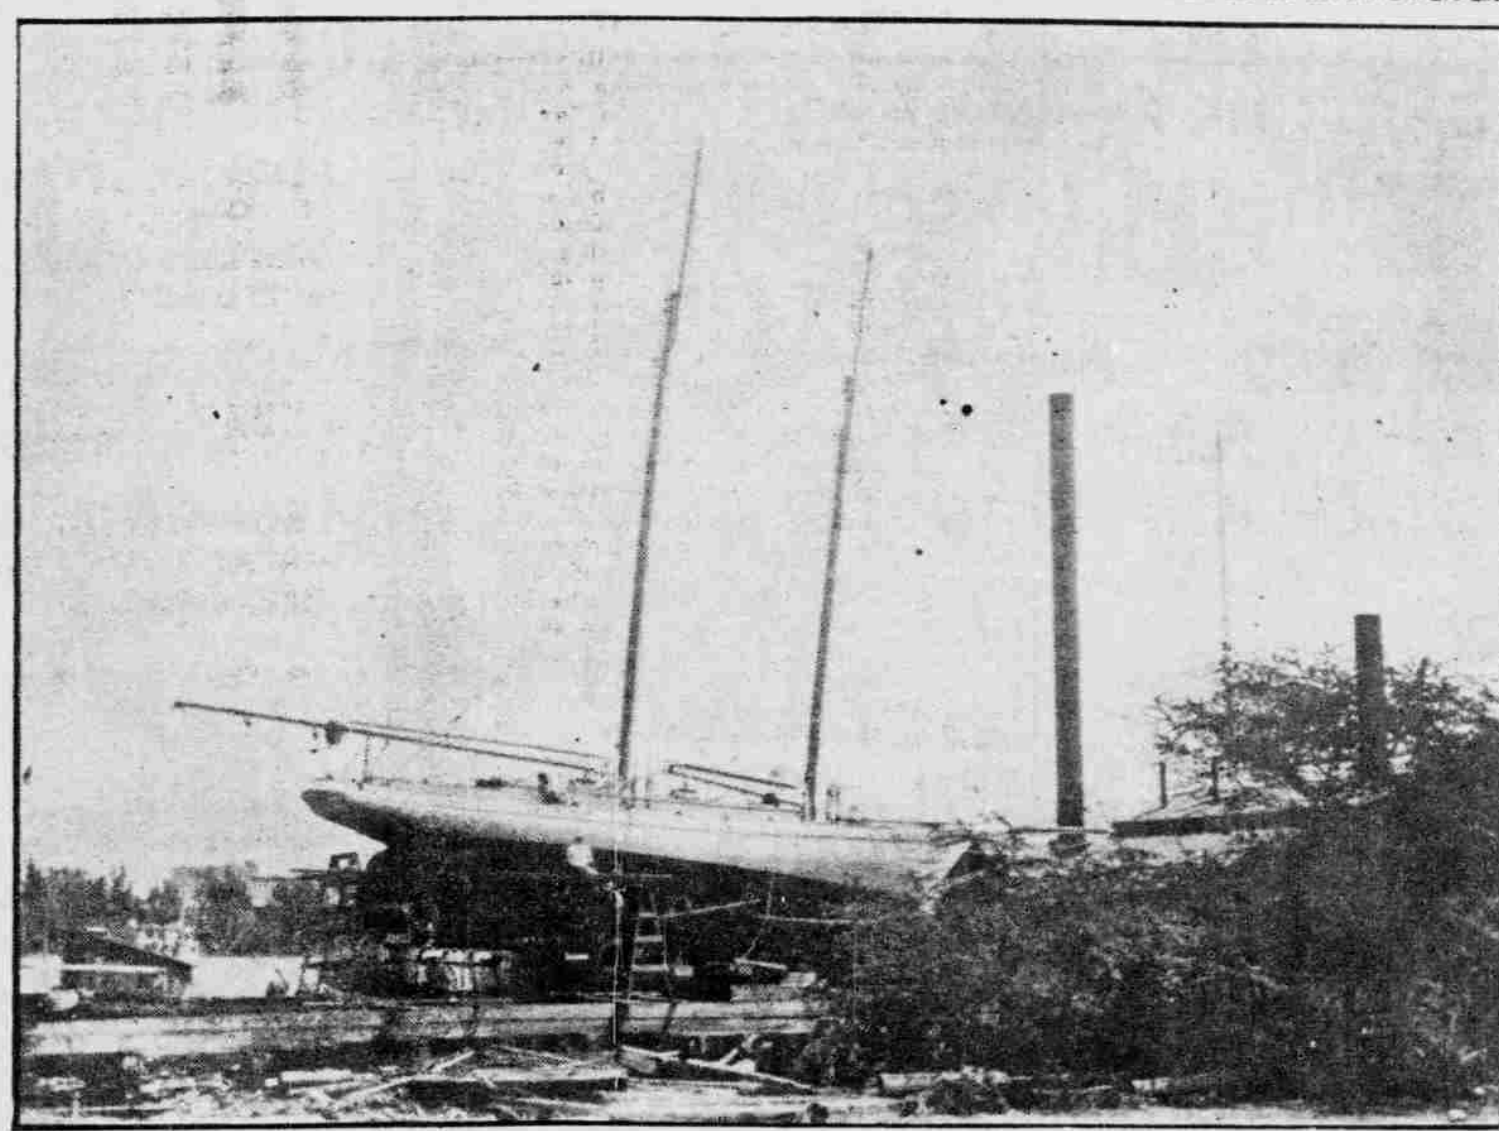

ISTHMIAN IS BUILDING.

A fine new freight steamer, to be known as the Isthmian, is being built at the Union Iron Works for the American-Hawaiian Steamship Company, for service between this city, Seattle, Honolulu and Salina Cruz, on the isthmus of Tehuantepec. The vessel will have engines of 3000 horsepower, of the triple-expansion type, capable of giving the Isthmian a speed of ten and a half knots an hour. Oil will be used for fuel.

This new steamer, which is to have the most modern equipment, is primarily for the transportation of sugar from the Hawaiian Islands to Salina Cruz, where the American-Hawaiian Company will enjoy special privileges covering the transportation of freight across the isthmus to Coatzacoalcas, on the Gulf of Mexico side, connecting with American-Hawaiian liners for New York. After discharging freight at Salina Cruz the Isthmian is to come to this city, and will proceed to Seattle before returning again to Honolulu.—Chronicle, March 26.

TOBEY'S NARROW ESCAPE.

It is considered remarkable that the bark Gerard C. Tobey did not go down at sea under the stress of the great gales and ponderous seas through which she labored during her recent attempt to reach Honolulu. As reported yesterday, the Tobey was 650 miles out of this port when the worst of her experiences came upon her. Leaking and dismasted, with four feet

Yacht La Paloma, Capt. Clarence Macfarlane, which is to enter the Trans-Pacific Yacht race from San Francisco to Honolulu in May. The Hawaii Yacht Club has offered a \$500 cup as the trophy for which La Paloma will compete with four or five coast yachts, including the Nixie, Lurline and Anemone. La Paloma sails from Honolulu for San Francisco, Saturday, April 7. The picture shows the yacht on the Marine Railway being made ready for her 2100 mile voyage.

of water in the hold and the decks running full of gasoline, the bark was in sore distress, and continued in great peril until almost within sight of the Golden Gate as she struggled to get back to this haven. But favoring conditions, as the storm passed, and the skill of Captain Scott and his men saved the ship.—Chronicle.

NOT A STOWAWAY FROM HONOLULU.

Dr. Milne was interviewed last evening in reference to an article appearing in the Evening Times. He said: "There is absolutely no truth in the statement that young Pike was a stowaway on the Miowera. He paid his fare from Honolulu in the usual way, and had some money when he arrived here. If he had been a stowaway the ship was liable to a heavy penalty for allowing him to land without proper listing on the manifest. He may have been a stowaway to Seattle, which no doubt was the cause of his return to Victoria, which possibly was the reason he was sent back.

"The young man was not returned on account of not complying with the requirements in any other way. As his parents are living in the United States and he was born there, and furthermore, he had been employed on the United States transport Thomas at Honolulu, and was returning to his home, he was fully entitled to return. There could be no objections to his landing in Seattle or anywhere else in the United States, except as above stated. The United States immigration officers here having made these inquiries had no hesitation in allowing him to go to Seattle, to which place he went last night.

"There can be no reflection on officials of the Miowera; nor can it be said that there was any carelessness on the part of the immigration officers, as the facts show that the case has no semblance to the highly-colored article appearing in the Times of last evening."—Victoria Colonist.

ON NEXT TRANSPORT.

Orders have been issued from headquarters of the Marine Corps for the organization of a battalion of 484 marines for service in the Philippines, to relieve a number of long-term men from duty in those islands. The battalion will be composed of 237 men from the east coast and 187 men from the west coast, and it will sail on the army transport scheduled to leave San Francisco April 16. A field officer yet to be selected will command the battalion and the following named officers have been ordered to duty with it: Capt. J. M. Salladay and J. N. Wright, First Lieut. E. T. Fryer and R. B. Sullivan, Second Lieut. R. G. Bartlett, W. Ellis, E. W. Sturtevant, Jr., V. I. Morrison, J. R. Henley and T. M. Potts, Jr. After arrival of this battalion in the Philippines 375 long-term marines and the following officers will be relieved from duty there and ordered home: Lieut. Col. C. A. Doyen, Capt. F. L. Bradman, J. W. Broatch, R. M. Cutts and H. C. Snyder; First Lieut. E. R. Beadie, J. G. Meade, J. K. Tracy and C. J. E. Gugenheim. The officers and enlisted men to return home will leave the islands some time in June.—Washington Star.

OFFICERS ARE PROMOTED.

Harry R. Howe, known among his friends as "Lord" Howe, has been promoted to first officer of the liner Doric, succeeding F. A. Frank, who returns to the Atlantic service. W. H. Thomas, second officer of the Coptic, now in port, and who has been a popular officer of the line, goes to the Doric as second officer, awaiting the liner's arrival here. C. H. Bate is promoted to second officer, and I. S. Paley to third officer of the Coptic. A fourth officer is to be appointed before the liner sails on Saturday.—Chronicle.

LAWTON'S ORDERS.

VALLEJO, March 22.—Orders have been received at Mare Island for the United States naval transport Lawton, William Winder commanding, to sail from here on April 5th for Tutuila, Samoa, taking a full draft of men and a big lot of stores for the station ship Adams at that place.

The decision of the Navy Department to send her to Samoa was made neces-

sary by the fact that the terms of enlistment of nearly the entire crew of the Adams will have expired by the time the transport reaches that port. The Lawton will return to Mare Island immediately to make her trip to the islands.

NEW STEAMER HILONIAN.

The steamer Hilonian, purchased on the Eastern coast by the Matson Navigation Company, for service between here and Hilo, is now out thirty-two days from New York, and should arrive within a month. The Hilonian was formerly the Spanish steamer Gaedetano and is under the command of Captain Peter Johnson, formerly of the bark Roderick Dhu and the steamer Rosecrans.—Chronicle, March 26.

SCHOONER ALOHA IN GALE.

One of the few arrivals yesterday was the schooner Aloha, Captain Dabel, twenty-one days from Kaaupali, Hawaii, with a cargo of 22,300 bags of sugar. The skipper reported upon arrival that when 300 miles off the coast the Aloha was for twenty-four hours in a strong southeast gale. The schooner rode out the storm without damage, however, and made port when other vessels stood off shore.—Chronicle, March 24.

HAWAIIANS IN NAVY.

According to the Bluejacket there are now among the entire force of enlisted men in the United States navy 1325 colored men, 900 Japanese and Chinese and 370 Filipinos, Samoans, Porto Ricans, Hawaiians and Indians.—Washington Star.

SHIPPING NOTES.

The steamer J. A. Cummins collided with the Kauai steamer Mikahala yesterday morning while docking. The Cummins lost a boat valued at \$200. The barkentine Newsboy, Captain Peterson, 33 days out from Gray's Harbor with lumber for Lewers & Cooke, was sighted off Koko Head at 7:45 last night.

The Sierra arrived yesterday morning from San Francisco and departed at night last evening for the Colonies. Although the list was not large, the

bulk of the passengers came to Honolulu.

It is stated in connection with the project for merchants here to own a steamship to ply between Honolulu and San Francisco, that planters wish the boat to call at Kahului to take sugar, and instead of having a 21-day schedule to make it monthly.

The schooner Defender, laden with sugar, arrived from the Hawaiian Islands yesterday afternoon. The schooner was twenty-two days from Honolulu. The schooner H. C. Wright is expected to arrive here daily from Mahukona. The vessel is now out twenty-five days.—Examiner, March 25.

The S. S. Moana brought news of two other hurricanes in the South Seas besides that already reported as having ravaged considerable of the Hawaiian group. Norfolk Island and Tahitian group. Norfolk Island and the latter part of March, and Thursday Island was similarly visited on March 22. Over a hundred lives were lost in the Tahitian group.

The Sonoma was thirty-six hours late in leaving Auckland and should therefore have arrived here by 5 p. m. yesterday. The vessel, however, did not put in an appearance during the evening and if she comes in port this morning she will be about 48 hours late. The Sonoma has undoubtedly had to buck the heavy northeast wind prevailing. The vessel will remain here only a few hours and will be given as quick dispatch as possible. A large number of passengers are booked from this port.

The brigantine Galilee, which has been chartered by the Carnegie Institute for the purpose of determining the magnetic deviation of the compass in the Pacific Ocean, has reached Fanning Island. The vessel left San Diego March 30, arriving at Fanning Island March 30. The S. S. Moana brought news of her arrival there. After leaving Fanning the Galilee will sail southward and westward, taking in Guam, the islands of the South Pacific, the Philippines and then along the Asiatic coast to the Aleutian chain and thence down the coast of America to San Diego. The Galilee was here last year on a similar cruise.

BY AUTHORITY.**NOTICE TO NUUANU WATER CONSUMERS.**

From present indications, it is a serious question as to whether or not there will be a sufficient supply from the Nuuanu Valley Source to meet the demand of consumers on the "High Pressure System" during the coming spring and summer months.

In order to avoid, if possible, drawing down this supply such that the consumers will experience want, even for household purposes, the use of water for irrigation purposes is hereby prohibited, until at least we have rains, outside of two hours each day, viz.: between 6 and 8 o'clock in the morning.

The inspectors have been instructed to see that all services are shut off or where they are found irrigating outside of the hours above specified. Employers are requested to notify their yard men that they will not be permitted to irrigate outside of these hours.

J. H. HOWLAND,
Superintendent of Water Works.
April 3, 1906. 7381

Sealed proposals for constructing Reinforced Concrete Culvert and Approaches over Niumalu Stream at Niumalu, Lihue, Kauai, T. H., will be received by the Board of Supervisors, County of Kauai, T. H., until 9:30 a. m., of Wednesday, May 2nd, 1906.

Plans, specifications and blank forms for submitting proposals, will be furnished upon written request accompanied by a deposit of Five Dollars (\$5.00) by addressing C. H. Sweetser, Esq., County Road Supervisor, at Lihue, Kauai, T. H.

The right is reserved to reject any or all bids.

By order of the Board of Supervisors.
(Signed) H. D. WISHARD,
Chairman.

Lihue, Kauai, March 31, 1906. 7378

NOTICE TO CREDITORS**ESTATE OF JANE WILSON.**

The undersigned having been duly appointed the Executrix of the Last Will and Testament of Jane Wilson, late of Honolulu, Island of Oahu, Territory of Hawaii, deceased:

Notice is hereby given to all persons to present their claims against the Estate of said Jane Wilson, deceased, duly authenticated, whether secured by mortgage or otherwise, to the undersigned at the office of Cecil Brown, Esq., 97 Merchant street, Honolulu aforesaid, within six months from the date hereof, or they will be forever barred.

And all persons indebted to said estate are hereby requested to make immediate payment to the undersigned.

Dated, Honolulu, March 22, 1906.
JANE L. MORE,
Executrix of the Last Will and Testament of Jane Wilson, Deceased.
7369—Mar. 22, 23, April 5, 12, 19.

ELECTION OF OFFICERS.**UNION MILL COMPANY.**

H. T. MOORE, Comdr.
R. H. LONG, Adjutant.

DEGENERACY
AND MANIAJohnson's Defense Is On
--Simeon's Father
Is Called.

Henry Wharton, father of the victim, was called by the defense in the trial of Frank Johnson for the murder of little Simeon Wharton. He was on the stand the greater part of the afternoon and when the court rose his cross-examination was unfinished.

Johnson was first employed by witness some years ago. Wharton taught him various duties about his little farm at Waialua, including the milking of cows and the driving of horses. Johnson learned things readily. He was entrusted with the driving of the family buggy inside of a week.

On only one occasion did witness recall an exhibition of anger by Johnson toward the young folks. That was when he was late turning out one morning and Wharton sent some boys to milk the cows. When Johnson went out and found the milking had been done he used profane language to the young people. Wharton told him that next time he swore in presence of the youngsters the gate was there for him to leave by. Johnson never let his tongue loose again.

About last Christmas, or after the words about his washing bill, Johnson was somewhat moody. He talked but little with anybody, and least of all with Mrs. Wharton.

It was only a few minutes to 12 noon yesterday when the prosecution rested. This was after the memorandum of Johnson's confession in Waialua jail, taken down by Chester Doyle and signed by Sheriff Brown who had asked the questions, had been identified by Sheriff Brown on the stand and admitted as evidence. Mr. Harrison, after slight hesitation, said he had no objection to offer to its admission.

Previous to the county sheriff's evidence, Officer Kane, Turnkey Kawela and Guard Keawekui of Waialua jail, had testified that Johnson was in no wise abused to obtain a confession from him, and Deputy Sheriff Cox that Johnson had first admitted his guilt to him after he had given him a caution.

Cox related that he had discovered Johnson kneeling on the floor of the cell and praying God to help him. He asked him what the matter was, when Johnson said he had something on his mind. Cox cautioned him as to his right of remaining mute and then asked him again what was the matter. "I killed the boy," Johnson made answer and, replying to further questions, said he killed him with his pocket knife—he didn't know why, God knew—and it was done between ten and eleven o'clock.

Johnson showed him in pantomime the way in which he did the awful deed. Cox corroborated the account by Brown of the taking of Johnson's confession.

Mr. Harrison, in opening the case for the defense to the jury, stated that he intended to prove by medical experts that Johnson was mentally deranged, that his head was abnormal in shape, that he had less intelligence than a child of seven years, that he belonged to the class of degenerates, that he was afflicted with homicidal mania and, altogether, that he was a person not to be held responsible for the crime with which he was charged.

On the point of degeneracy Mr. Harrison quoted at some length from a treatise by Dr. I. Ray on the medical jurisprudence of insanity.

Deputy Sheriff Cox was the first witness called for the defense. He was examined only with regard to the topography and vegetation at the scene of the tragedy. None of the buildings on the Wharton homestead, he testified, could be seen from the place where the boy's remains were buried, excepting the top of the water tank.

Deputy Attorney General Prosser still conducts the taking of evidence, with Attorney General Peters watching the law points, for the prosecution.

WANTED TO ARGUE
AGAINST HIMSELF

After argument yesterday morning Judge Lindsay denied the motion of plaintiff to strike from the calendar the case of Wm. W. Bierce, Ltd., vs. C. J. Hutchins, trustee, and others. A. G. M. Robertson, who had made the motion on the ground that the matter in controversy was pending before the Supreme Court of the United States, next moved for a continuance. A. Lewis opposed the motion under the rules for want of notice. The court continued the motion for continuance until 9:30 Friday morning.

At the ruling on the first motion D. L. Withington caused a general laugh in court by claiming the right to have a hand in the argument before the court disposed of the matter. It happened the court had already ruled. Mr. Withington had not caught the court's ruling and Judge Lindsay asked him if he wished to argue against a ruling in favor of his own side. This is where the laugh came in, as Mr. Withington was counsel for defendants. He laughed himself as he said: "Oh, no, I make no objection to that ruling."

TO SAVE EXPENSE.

To obviate the expense of bringing witnesses from the Island of Hawaii in the case of John C. Searle, as sheriff of that island, against August Humburg, a statement of facts has been ad-

mitted as true by E. A. Douthitt for plaintiff and Thompson & Clemens for defendant. It is a suit to compel Humburg to make good his accepted bid of \$1000 for property of the Kohala & Hilo Railway Co. sold by Searle under execution.

QUICK TRIAL.

When the case of M. Phillips & Co., Ltd., vs. Wong Kwai was called by Judge Lindsay after the Kona case—Bierce vs. Hutchins—had been switched, F. E. Thompson for plaintiff said the case was ready for trial, if it could then be tried without a jury, an arrangement to which he understood C. W. Ashford for defendant consented. Mr. Ashford nodded and the trial was over inside of fifteen minutes with judgment for plaintiff for his full claim, viz., \$277.17 on one note and a balance of \$77.18 on another. Meanwhile the jury had been excused until 10 o'clock this morning.

CHALLENGE GRAND
AND TRIAL JURORS

Hirota and three other Japanese were arraigned before Judge De Bolt by Deputy Attorney General Fleming for conspiring to commit an assault with a pistol on another Japanese, being thereby guilty of conspiracy in the first degree. John W. Cathcart entered a plea in abatement, which was continued until 9 a. m. today, also a plea to the jurisdiction. In the latter plea defendants were made to say that the court ought not to take cognizance of the charge.

"Because, protesting that they and each of them are and is not guilty of the same, nevertheless the said defendants and each and every one of them say that the said indictment is void and of no effect in that the grand jury which found and returned the same was improperly, illegally and without law drawn, impaneled and sworn, that the pretended law and statute of the Territory of Hawaii under which said grand jury was drawn, impaneled and sworn is unconstitutional, void and inoperative, that the provisions of the same are uncertain, ambiguous and contradictory."

In the case of Shimatzo, assault with a weapon, Mr. Cathcart challenged the array of jurors on the ground that the January and April terms had merged into each other. Judge De Bolt overruled the objection. Both defendant and his surety were called but failed to answer. They were declared in default on the bond, and a bench warrant was issued for defendant.

Kong Kok was called for trial on indictment for assault with a deadly weapon, intending to commit murder. Mr. Cathcart challenged the array of jurors on the ground of merging of terms, but Judge De Bolt overruled the objection and the impaneling of a jury was started. One juror being lacking a special venire for six jurors was issued, returnable at 2 p. m. At that hour the trial proceeded, the following jury being sworn: Arch. S. Robertson, E. E. Hingley, Jas. Lemon, J. Orndessen, John A. Noble, C. J. Falk, Frank Dutra, John H. Jones, Albert E. Lloyd, J. W. McDonald, J. D. Cockett and E. Mossman.

MRS. BERLOWITZ
SUES FOR DIVORCE

Laura Julia Berlowitz has brought suit for divorce against William Berlowitz on the ground of desertion and failure to provide maintenance since May 20, 1905. The parties were married in Honolulu on April 25, 1887, by Rev. E. C. Oggel, pastor of Bethel Union church. It is declared in the complaint "that since the said marriage the libelant has been faithful to her marriage vows and has in all respects conducted herself toward the libelee as a true and faithful wife ought to do." Further, that the libelee left Honolulu in the Territory of Hawaii on or about May 30, 1905, and has never since returned to the said Territory. Prior to leaving, it is alleged, he was receiving from \$200 to \$250 a month as a traveling salesman, and that he is possessed of property valued at \$5000. Mrs. Berlowitz prays for permanent alimony along with absolute divorce. Holmes & Stanley are her attorneys.

O. Yamada by her attorney, S. F. Chillingworth, pleads the general issue to Nino Yamada's suit for divorce.

COURT ITEMS.

In the mortgage foreclosure suit of J. R. Soares vs. J. G. Henriques and Luiza Henriques, motions respectively to quash and to vacate summons have been filed by Harry T. Mills and C. W. Ashford for defendants. Notice is given that the motions will be presented before the presiding judge at chambers on Tuesday next at 9 a. m.

Judge Robinson admitted the will of William Fessenden Allen to probate, ordering letters testamentary to issue to Cordelia Church Allen without bond.

JUDGMENT FOR RENT.

Judge Lindsay has rendered judgment for plaintiff on the action on contract of James W. Pratt, Commissioner of Public Lands, vs. Niau Lauka, for \$67.50 with legal interest from Oct. 1, 1904, and the further sum of \$67.50 with legal interest from April 1, 1905, together with the costs of action. The contract in question was a lease of kula land and fish pond at Kaneohe, Kaneohe, Koolanapo, Oahu.

J. Rooney, the soldier brought from San Francisco for passing counterfeit bills here while going through in the transport Sherman, was sentenced yesterday by Judge Dole to two months' imprisonment. He had pleaded guilty, saying he would not perjure himself by pleading otherwise and had already been six months in jail.

Judge Whitney's house at Punahou was entered yesterday morning and his wife's purse containing money stolen.

MERRIAM
WINS CASEU. S. Judge Dole Denies
Writ of Mandamus
Against Him.

In the matter of a petition for a writ of mandamus by the United States against Chas. H. Merriam, as Registrar of Conveyances of the Territory of Hawaii, Judge S. B. Dole of the United States District Court yesterday rendered a decision concluding: "In accordance with the foregoing views and authorities, I feel that the respondent was justified in his refusal to record the judgment offered to him, and deny the writ."

The judgment in question was one of condemnation of land for fortification purposes. It contained a map of the land and Registrar Merriam refused to record it on the ground that Act 23 of the Session Laws of the Territory of Hawaii for the year 1905 made it unlawful for the "Registrar of Conveyances to accept for record and record any plan of land."

The mandamus suit turned on points too technical for the ordinary lay comprehension. As to the law found by Judge Dole the following syllabus of decision speaks:

"Retrospective Effect of Laws: Laws will not be construed retroactively to prejudice rights and liabilities. 'Same' Laws may be construed retroactively to affect the forms and methods of procedure and forms of remedies."

"Vested Interests: A party litigant has no vested interest in the form of the remedy." Near the conclusion of his decision, Judge Dole intimates that there will yet be an opportunity for due consideration of a question raised by the respondent in his brief—though rather late the court suggests. This is "whether the judgment offered for record was a final order of condemnation according to the provisions of the statute of eminent domain, in that there is no information furnished to the court that the payment of the compensation or damages to the defendant in the condemnation case has been made, the statute providing that such payment shall be made to the clerk of the court and that, when such payment has been made, a final order of condemnation shall be made and recorded in the office of the Registrar of Conveyances."

J. J. Dunne, Assistant U. S. District Attorney, represented the plaintiff, and E. C. Peters, Attorney General of the Territory, the defendant.

NEW HONOLA
FOREST RESERVE

Acting Governor Atkinson presided at a public hearing at the Bureau of Agriculture and Forestry yesterday afternoon at 2 o'clock to discuss the proposition of setting apart the Honouliuli, North Kona, forest reserve. This tract lies on the western slope of Hualalai and there is an area of 665 acres. It is covered with a heavy koa forest which may one day be merchantable. The land was formerly part of a lease to Henriques and Gomes, who got the whole of this land under lease at the end of Governor Dole's administration. When the present administration came in, Land Commissioner Pratt left the matter of a forest reserve of this land to the Board of Agriculture and Forestry and asked the Board's pleasure. The Board recommended that the whole land should be set apart as a reserve and the lease not granted. The Attorney General ruled that the lease had to be delivered, they having in good faith done what was required of them in perfecting the lease.

Then Superintendent Hosmer of the Forestry Department arranged with Commissioner Pratt to get some of the land by cutting out a part of it and making a pro rata reduction in the rental. This was effected last winter, and by action of the Acting Governor yesterday is now declared a forest reserve.

The trees on this tract are second in size only to those on the Bishop Estate land at Keauhou, back of the Volcano House.

GUAM SCOURAGED
WITH GANGROSA

WASHINGTON, March 29.—Gangro, a tropical disease, has become so prevalent upon the Island of Guam that Lieutenant McNamee, United States Navy, the Acting Governor of the island, has recommended the establishment of a hospital for the isolation of the disease, which is believed to be highly contagious. The Surgeon General of the Navy has approved the recommendation and it is likely a \$5000 hospital for these cases will be erected at once near the other hospital.

Lieutenant McNamee says the disease affects the lower part of the face by slow ulceration. As 400 cases have already appeared, Lieutenant McNamee says its isolation is imperative. Naval surgeons have investigated the disease in parts of South America and the West Indies and their reports indicate that there can be little doubt that it is a distinct malarial and one which does not yield to the treatment given tuberculosis, leprosy and other diseases common in tropical countries. Cases of gangro have been treated in New York, which are believed to have come from Brazil and Panama.

THIS DAY
Auction Sale
Douglas Fir Piles

Thursday, April 5, 1906,
AT 12 O'CLOCK NOON.
At beach, a little mauka of end of Railway wharf—
About 6500 lineal feet Douglas Fir Piling,

"The Star Spangled Banner."

A MILE RACE ON SKATES

Next Wednesday evening there will be a mile race at the rink. This will be the first of a series of events for skaters. Suitable prizes, probably cups, will be offered. Long and short distance races, relay races for athletic club teams and obstacle races will be among the events. Each week a different event will be pulled off. The mile race will be limited to the first six entries received at the rink office, where further particulars can be obtained. Later on polo teams will be formed among the athletic clubs.

"Those Russians on the transport were wise gazabes" remarked the Major as he ordered his entree yesterday.

"I think not nit," said the Colonel "or they would not have been in the brig."

"It is not for that I consider them wise" answered the Major "but because they read the daily papers and after reading them they requested that they be allowed to go to the Criterion for one good lunch before being taken back to chokie. Maybe they didn't read them at all, they may have met a patron and heard about it for every customer at the Cri. is an ad for the place."

Cor. Bethel and Hotel Sts.

BUSINESS LOCALS.

If you have anything to sell send word to Fisher, the auctioneer.

A salesman and collector is wanted on Maui. See our "Wanted" ads. Read Morgan's columns for Friday sales. Comprise lot of ladies' goods, etc.

Inter-Island and O. R. & L. shipping receipt books, 50c, each, at the Gazette office.

Have you been to Pacheco's new barber shop? Everything up-to-date. 928 Fort street.

Morgan sells today on the beach at the end of the Railway wharf, a lot of Douglas fir piles.

Buff Wyandottes, Plymouth Rocks and game chickens at auction Saturday at Fisher's auction rooms.

A cottage on Beretania street, near the Queen's Hospital, is offered for rent by W. W. Chamberlain at room 206 Judd street.

First-class tickets to all stations on the Oahu Railroad and Haleiwa coupon tickets are now on sale at the office of Trent & Co., 936 Fort street.

A lot 100x233 in Kalihi, with all out-buildings and improvements, including fruit trees in bearing, is offered for sale for \$1700 by J. H. Schnack. See him for fuller particulars.

Talking about the yacht race, there is enough Primo Lager drunk in Honolulu to float a whole fleet of yachts. People wouldn't drink it if it wasn't good.

Miss Power is showing beautiful Easter hats this week. The ladies are all cordially invited to inspect them. Millinery parlors, Boston building, Fort street.

When it comes to a high-grade, healthy family wine there is one that all housewives order in confidence. That is the justly-celebrated Napa and Sonoma Table Wines brand, pure and wholesome. Lewis & Co., Ltd., sole agents, 169 King street. Telephone, 240. Try some.

Deputy Sheriff George K. Kekauoha of Koolauloa denies almost everything which Criminologist Doyle reports about him in connection with the Japanese murder case. He says he did not leave the Jap prisoner in charge of a boy but of a man between forty and fifty years of age. He says he summoned the jury between nine and ten a. m. for the inquest at 5 p. m. Kekauoha wants the other party to consider himself challenged for proof.

Mrs. S. B. Rose returned yesterday from a visit to the mainland. Olive Branch Rebekah Lodge No. 2 meets this evening at 7:30 o'clock. Steamer passengers can be had at Alexander & Baldwin's office in the Stage-ward block.

A plate glass door in the Campbell block was smashed yesterday from slamming by the wind.

The Daughters of Hawaii will meet at Mrs. Coney's, Richards street, at 10 o'clock this morning.

J. T. Crawley has resigned the superintendency of the Hawaiian Fertilizing Co.'s works, to retire July 1.

Theodore Richards will deliver the address at the noonday service for men today at the Young Hotel building.

P. McLane resigned the position of manager of Koloa Sugar Co. to take the management of a large sugar plantation in Fiji.

There will be a meeting of St. Clement's Woman's Guild at the Parish House at 3 o'clock this afternoon in order to finish up Lenten work.

The Honolulu branch of the Theosophical Society meets every Tuesday and Thursday evening at 7:30—Kaplan Building, Thursday visitors' night.

The launch ride to be given for the Odd Fellows and Rebekahs will take place tomorrow evening, starting from the Bishop's slip, foot of Alakea street, promptly at 7:30 o'clock.

Mrs. Edgar Wood, wife of Principal Wood of the Normal School, departed yesterday on the Moana for Canada. She will visit with her family in Halifax and return here in August.

Announcement is made by the Brooklyn Eagle of the engagement of Miss Louise Lefferts to Ira B. Downs. The bride elect is a sister of Mrs. Chas. Montague Cooke, Jr., of Honolulu.

F. W. Everton of the Brotherhood of St. Andrew led the devotions, and Rev. J. W. Wadman delivered the address, at the Lenten meeting for men yesterday noon in the Alexander Young building.

A dangerous fire amongst stored bags of nitre in a warehouse of the Hawaiian Fertilizer Works at Iwilei yesterday morning was promptly suppressed by the firemen. The blaze was within 100 yards of the oil tanks.

The ladies of the Methodist church will hold a fair at the parsonage lawn, Saturday, April 14, at one p. m. Orders for Easter baskets and chicks and rabbits for Easter favors may be left at the residence of Dr. Wayson.

The McCully Tract Improvement Club held a meeting in the Government Nursery building on Monday night. James Nott, Jr., was elected delegate to the Central committee. The discussion at the meeting was upon the petition for the opening of Young street.

A. W. Eames of Wahiawa began putting up his cannery Tuesday. One of the buildings will be completed in a week. Half of the machinery is here and the rest has been shipped. Mr. Eames says that his plant will have a capacity of 20,000 cans of pineapples a day.

A. A. Brown, editor of The Red Funnel, a magazine published at Dunedin, N. Z., passed through in the Moana on his way to London. He is a great admirer of Premier Seddon and he predicts that in twenty years hence liquor will be prohibited throughout New Zealand.

Mr. F. J. Lowrey was yesterday elected chairman of the Civic Federation Committee on Streets, Parks and Public Works for the ensuing year. The committee consists of Mr. F. J. Lowrey, Mr. A. F. Griffiths, Mr. F. B. McStocker, Mr. F. S. Dodge and Mr. R. S. Hosmer.

Dr. P. S. Rossiter, U. S. N., Assistant Surgeon at the Honolulu Naval Station, has been ordered to the mainland to await orders. Dr. Rossiter has been on duty here for about two and a half years. He and his wife have been popular in social circles and both are enthusiastic golfers.

Because there is serious doubt as to whether the water supply from Nuuanu valley will meet the demands on the high pressure system during the summer months, Superintendent of Water Works Howland has prohibited the use of water for irrigation, unless rains should fall, at all times save between the hours of six and eight in the morning.

HOTEL STREET.

HONOLULU WOMAN DISPLAYED HEROISM

Mr. and Mrs. A. Cartwright and child who arrived on the Sierra from San Francisco yesterday, were the three passengers aboard the bark Gerard C. Tobey, which recently put back to San Francisco after having been dismantled and narrowly escaped foundering.

Mrs. Cartwright was formerly the wife of Jacob Bearwald, who died at sea about two years ago while en route from San Francisco to Honolulu. The Call, in its story of the Tobey disaster, says of Mr. and Mrs. Cartwright: "On the vessel were three passengers, A. Cartwright, wife and child. The Cartwright family are residents of Honolulu. When the storm was at its height Cartwright came out and volunteered his services and was of valuable assistance in cutting open the gasolene tanks, while he worked as a member of the crew. Mrs. Cartwright, although a very frail, delicate woman, offered her services. She tied her little baby tightly in a bunk to keep it from being thrown to the floor and then, robbing herself in a heavy makeshift, appeared on the deck while the storm was at its height and asked to be allowed to give what assistance she could.

"The ship at this time was pitching and rolling with great fury. The captain at once ordered Mrs. Cartwright back to her stateroom, but after the gale was over he thanked her for the great kindness she displayed in offering to aid the sailors."

Mr. Cartwright said of Capt. Scott and his officers: "I can not praise too highly the conduct of the officers and all those on board the ship. I cannot imagine more heroic or noble conduct under any circumstances. They all worked day and night and only stopped when they were so exhausted that they could hardly crawl to their bunks. I shall never forget this terrible experience, for during the two days we were in this gale I expected that every moment would be our last and that we would all be sent to the bottom of the sea. It is a miracle that Captain Scott ever managed to bring the ship back to port."

SHIPPING INTELLIGENCE.
