COMING OF FLEET DELAYED TO OCTOBER 1 CO-OPERATIVE ROAD-WORK IS PLANNED

COMMERCE RULES CONTROVERSY STARTED

A controversy between the harbor commission and the commercial organizations over the rules for commerce of the port, with a possible compromise, is the prospect today, as the result of the discussion stirred up by the commission in proposing regulations a few days ago.

The Merchants' Association and Chamber of Commerce will meet today, and the recommendations of the special joint committee of six will be laid before them. These recommendations, it is expected, will in general be adopted.

The committee's report recommends rules for handling of freight widely at variance with those advocated by the harbor commission. It is anticipated that the weight of both influential commercial bodies will be put squarely back of the recommendations they adopt at today's meeting, for the preliminary discussion last week proved that the local business men do not intend that rules shall be adopted which they consider will hamper the movement of commerce here.

On the other hand, members of the board of harbor commissioners seen this morning do not favor the rules that the special committee has announced. They hope that a satisfactory compromise will be reached, but declare that the commission will stand by its guns in making and enforcing regulations it deems proper.

Secretary Herndt of the commission this morning ventured the prediction that the regulations already proposed by the commission will probably stand with slight, if any, exceptions.

A rather peculiar state of affairs has arisen. The commission set a special meeting for 2 o'clock this afternoon and is also invited to attend the joint meeting of the commercial bodies at 3. If the 2 o'clock meeting is a busy one, it is probable that there will be no members of the commission at the joint meeting later, although some may get there.

The rules proposed by the special committee from the Chamber of Commerce and Merchants' Association, for freight handling in this port, as published in the Bulletin's second edition yesterday afternoon, are amplified in recommendations made by the committee explaining the conditions that prevail on the wharves here at present. The committee says:

JUDGE HARTWELL STAYS ON COAST

Judge A. S. Hartwell, former chief justice, has recovered his health and now plans an extended stay in San Francisco, according to news received by the last mail from the distinguished jurist. He has taken a flat in the Golden Gate City, together with his daughter, sent here for his automobile and is preparing to enjoy himself there for some months. He has a large number of friends and acquaintances in San Francisco.

LOCAL PILOT IS SUSPENDED

Harbor Pilot John R. Macaulay has been suspended for a breach of the rules, but just what his offense is could not be learned this afternoon. It is said to have been intoxication on duty.

Hawaiian Hui Is After Road Work

Big Co-operative Association Plans To Handle Contracts Under Loan Fund

A hui of Hawaiians is being organized for the purpose of bidding on the big belt-road contracts to be let by the Oahu Loan Fund Commission, and from the lines on which the hui is being laid out it may be able to underbid any of the established contractors here on this work.

John H. Wise, clerk of the last Senate and prominent Republican, worker and politician, is the moving spirit behind the hui. It is being quietly organized along the lines of a cooperative association. He has secured already one hundred men for the hui, he stated this morning, and each will have a share in the profits from the contract.

The partners in the hui are to be road workers themselves. Wise figures that with each man interested in the successful filling of the contract, they will work as no road workers on Oahu ever have before. He figures that the hui can underbid any contractor and thus effect a big saving to the county and Territory, because the road men

will do the work in less time than a contractor would take, being stimulated by the profits from doing the work quickly and without waste.

However, Wise has run up against a snag that he is indignant about. After he had his hui organized, the specifications for the first contract to be let were issued, and Wise found that the bond required is 50 per cent of the amount of the job, or, in this case, thirty thousand dollars for the Heeia beach road work. "Together with the amount of the bond is a clause inserted by the loan fund commission which declares that no personal sureties will be accepted, and that the bond must be guaranteed by a surety company or Territorial corporation."

Wise has so far been unable to secure a surety bond. He was told by the agents for one surety company that the company will in the future refuse to act as sureties on contract work here, although still willing to go bonds for public officials.

CHINA SENDS WARSHIP TO MEXICO TO ENFORCE INDEMNITY DEMANDS

China will enforce her demands upon Mexico for indemnity, for the ruthless slaughter of Chinese merchants at Tientsin during the late revolution, by an appeal to force if necessary. News that the Chinese warship will go to Mexican waters and emphasize the demands for payment of the indemnity came to Honolulu first hand yesterday, when Shung Aisune, charge d'affaires of the Chinese legation at Mexico City, arrived on the Mongolia, bound for Peking to report to his government.

His Excellency (Chang, imperial Chinese minister in Washington, D. C., whose jurisdiction includes the Chinese affairs in Mexico, Peru and Cuba, is at present taking personal charge of the Chinese legation in Mexico. He arrived there a month ago, and has been busy pressing the claims of indemnity of the Chinese government to the Mexican authorities.

In order to hasten the day when the Mexican government will recognize the power of the Chinese government, the Chinese cruiser Hai Chi, whose approach to Mexican waters was reported in the Bulletin in some time ago, will arrive in Mexican waters the latter part of September.

That the settlement of the Chinese claims by the Mexican government will be satisfactory was the statement

which Shung Aisune made. He is returning to China on a leave of absence of about eight months.

"I am pretty certain," said Chung Aisune yesterday, "that the Chinese claims of indemnity will be recognized and settled by the Mexican government. President de la Barra," continued he, "is a very good and intelligent man. I had a long talk with him with reference to the payment by the Mexican government of the Chinese claims. From what I could judge, it is possible that amicable settlement will be made between the two governments."

Minister Chang, a recognized shrewd diplomat, is awaiting the arrival of the cruiser Hai Chi. It is his intention to hold the warship there until after the election of a new president for Mexico.

Shung Aisune said yesterday at the consulate that it is likely that General Madero will be elected president of the republic, succeeding de la Barra.

He emphasized the point that General Madero is recognized as an able and fearless man.

Mr. Shung is a young man, but he has been in the consular service for some time. He speaks fluent English, having been in the Chinese legation at Washington.

MOTT-SMITH SOAKED BY UNCLE SAM

Some of the jobs bid out by Uncle Sam are not secure, according to the woeful tale unfolded by Territorial Secretary Mott-Smith this morning. He has had two of them, neither of which brought anything into his savings account, but which together cost him just one hundred and ten plunks for the honor of being allowed to do the work.

Under the Federal law he was appointed as disbursing agent for the last Legislature, and also under another section of the said law he had to put up a bond. This he did, and it cost him \$100. Never thinking that there was any chance of a slip-up, he sent in his little account and thought no more of it.

Likewise he was appointed special distributing agent for the plebiscite

election. There was not so much cash to handle there, and he had to put up a bond costing \$10 only. For neither of these jobs did he receive any remuneration.

During last week he wore a worried look on his face, for, from the way matters were going, he had a hunch that everything might not be all right and that there was the awful possibility of having to pay out that \$110 without a chance of getting it back again. With the mail yesterday his worst fears were confirmed, and he found that under a special law dealing with the subject he has become an unwilling philanthropist to the Federal government. "Why," he commented this morning, "they can keep on appointing me until they have cleaned me out."

RAW SUGAR AND REFINED BOTH GO UP

SAN FRANCISCO, Cal., Aug. 29.—Sugar: 96 degrees test, 5.245c. Previous quotation, 4.9925. Beets: 88 analysis, 15s. 6d.; parity, 5.31c. Previous quotation, 15s. 4 1/2d.

(Associated Press Cable.)
NEW YORK, N. Y., Aug. 29.—Refined sugar advanced ten cents a hundred on the market today.

C. P. RETALIATES ON HILL

(Special Bulletin Cable.)
WINNIPEG, Can., Aug. 29.—Announcement was made here today that the Canadian Pacific Railroad will be extended to Spokane.

The announcement of the invasion of Washington by the Canadian Pacific means that the Canadian line is retaliating for the bridge that the Hill lines have been making in its territory by running branches up from the trans-continental routes.

TOGO SALUTED, BOUND FOR HOME

(Associated Press Cable.)
SEATTLE, Wash., Aug. 29.—Admiral Togo of the Japanese navy sailed for home today on the Tamba Maru. He was given a great ovation and demonstrations of friendship from all classes. He wired thanks to President Taft.

As the Tamba Maru left the harbor, the Japanese hero was saluted by the cruisers West Virginia and Colorado.

NATIONAL TENNIS DOWN TO FINALS NOW

(Special Bulletin Cable.)
NEWPORT, Aug. 29.—Maurice E. McLoughlin of California defeated G. F. Teuchard and Beals Weight beat T. C. Bundy in the semi-finals of the national tennis championship singles today.

CHARLESTON NAVY YARD SUFFERS IN STORMS

(Associated Press Cable.)
CHARLESTON, S. C., Aug. 29.—As a result of the great storm here, twelve persons are reported dead. During the storm six of the Atlantic torpedo fleet were driven ashore. Damage to the navy yard is estimated at \$20,000. There is also great loss all along the coast.

STEAMER HAZEL DOLLAR IS STILL ASHORE

(Associated Press Cable.)
SAN FRANCISCO, Cal., Aug. 29.—The steamer Hazel Dollar, which went ashore on the Japanese coast yesterday, has not yet been floated, according to reports today.

STEAMER ASHORE AT COLUMBIA ENTRANCE

(Associated Press Cable.)
ASTORIA, Ore., Aug. 29.—The steamer Aurilia has gone ashore at the entrance of the Columbia river.

RUSSIAN ARMY AVIATOR KILLED IN A FALL

(Associated Press Cable.)
ST. PETERSBURG, Russia, Aug. 29.—Lieutenant Zolotnichin, an army aviator, was killed today in a fall from an aeroplane.

FLEET TRIP DELAYED; REPAIRS TO CRUISER

(Special Bulletin Cable.)
WASHINGTON, D. C., Aug. 29.—Orders for the Pacific cruiser fleet and torpedo flotilla to go to Hawaiian waters for maneuvers have been changed. The sailing of the fleet has been postponed until October first on account of necessary repairs to be made to the cruiser South Dakota, now at the Mare Island navy yard.

The above dispatch to the Bulletin from its special Washington correspondent is the first news that local military officials have of the change in plans.

Orders have just arrived at the local naval station giving the proposed movements of the Pacific fleet, the news of which has been told in the cable dispatches here previously.

According to the orders received by Admiral Cowles, on September 15 the cruisers California, South Dakota, West Virginia and Colorado, and the first and second divisions of the Pacific torpedo fleet will leave San Francisco for Honolulu.

All of these vessels will return from Hawaii to San Pedro, Cal., by November 1. It is expected that the Maryland will remain at the naval yard, Mare Island, to undergo repairs until

about the middle of October. She will rejoin the Pacific fleet at San Pedro or San Diego about November 1.

Now that official word has been received by the naval authorities in regard to the coming of the fleet in September, Honolulu military circles will be busy.

The primary purpose of the trip is supposed to be for the secret attack on Hawaii during a war game, although it is believed the practice with the forts and coast artillery and fleet will not be as extensive or at first expected. The fleet will maneuver more for its own personal benefit.

According to several army officers here, the commanding officers of the cruisers or any kind of war vessels gather dislike to enter into a war game with the land forces, stating that the

GENERAL UNION OF HAWAIIAN LABOR ELEMENTS IS ATTEMPTED

Permanent organization of the "Hui Union," which translated, means General Union, was effected last night at a mass meeting held in the Nottley Hall. One hundred and two members pledged themselves to abide by the rules and regulations of the "Hui Union," which are being formulated by a special committee of five members, consisting of Frank K. Archer, a Republican leader, D. Kalanokalani, Sr., Home Rule leader, G. K. Kawehaku, Democratic leader, G. K. Kane, labor leader, and Joseph Kalana, leader of the hack driver's union.

Hereafter the leaders want the public to call their organization, "Hui Union," and not otherwise. They want the public to understand, said Kawehaku and Kane this morning,

that their organization represents not only the labor elements, among which are the longshoremen's union, the hack drivers' union, the labor union and other laboring organizations, but that it includes all other people, such as clerks, lawyers, church attendants, government officials, business men and such other like people, who are employed in all vocations of life. In this way, the leaders said this morning, there would be no occasion for differentiating themselves from each other.

The meeting was presided over by Wm. Kaloehua, a Hawaii attorney. Politically he is a Home Ruler, having been so for many years, since the overthrow of monarchy. He has run for legislative and county offices

SECRETARY OF WAR STIMSON IS BACK FROM VISIT TO CANAL

Says No City in the Country Is More Sanitary Today.

BY C. S. ALBERT.
(Special Bulletin Correspondence.)
WASHINGTON, D. C., Aug. 17.—Secretary Stimson has returned from his visit to the big ditch being constructed across the Isthmus of Panama. He devoted ten days to inspecting work along the canal. This included a walk of nine miles through the Culebra cut. In speaking of his visit the Secretary said:

"I was particularly surprised at the cleanliness of things in the Canal Zone. Not a city in our country can surpass the zone in sanitary conditions. There are 50,000 men on the payroll there, but the amount of sickness is surprisingly small. The best evidence of the healthfulness of the place is to be seen in the chubby, sun-browned children. "The most important piece of work that is being done at the Culebra cut just now is the shaving down of the side hills. The great weight of these hills caused the bottom of the cut to push upward. When that weight is removed, the engineers tell me, the cut will be free from further disturbance. There is no other disturbing problem

HENRY L. STIMSON
CHAMBERLAIN PRESS ASSN.

ENGINEER GIVEN INDORSEMENT FOR BOARD

Arthur R. Keller, professor of engineering of the College of Hawaii and member of the Territorial sanitary commission, was today indorsed by the Republican Territorial central committee for appointment to the

PROF. ARTHUR R. KELLER

board of health. A vacancy on the board now exists, Dr. W. D. Baldwin having resigned last week.

The indorsement of Mr. Keller is understood to be satisfactory to the Governor and his appointment is expected at once. The Governor's wishes were that an engineer should be named for the vacant place, he has intimated. Moreover, Prof. Keller is already an appointee of the Governor as a member of the sanitary commission, where he has been a hard and efficient worker.

Prof. Keller is a former member of the Corps of Engineers, U. S. A., and has had much experience in sanitation, both in military work and in construction camps of the South.

KAPAA LANDS NOW UP AGAIN

Senator Fairchild discussed the matter of the Kapaia lands and leases with Governor Peary this morning for an hour. They went into the question, but have not thrashed it out to a finish.

Another conference will be held tomorrow morning, when it is thought that some understanding may be come to on the question.

M'CORMACK HITS PETTY JEALOUSY

Dr. J. N. McCormack, chairman of the Organization Committee of the American Medical Association, and noted in the medical world, was the guest of the Hawaiian Territorial Medical Society at a luncheon given today at the University Club.

Dr. McCormack made a brief address to the assembled physicians and their other guests. "Backbiting" and a tendency not to keep up with modern ideas and a general lack of knowledge which placed 50 per cent of the doctors in the position of being a danger to the community, and the seeming impossibility of the profession ever living in harmony, are the main grounds for the special efforts being made by the Organization Committee of the American Medical Association.

LINE'S PASSENGERS SEE METEOR

Passengers who arrived in San Francisco on the Japanese liner America Maru were favored with a rare display by a meteor the second night out from Honolulu. It shot up suddenly from the northern horizon, described a thirty-five degree arc across the heavens and vanished.

GOOD TOBACCO PROSPECTS.

William B. Schneider, manager of the Hawaiian Tobacco Company at North Kona, is enthusiastic over the prospects for tobacco-growing in the islands. Mr. Schneider has been in Honolulu on a business trip. He says that he believes Turkish tobacco can be made to grow here.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. PARIS MEDICINE CO., St. Louis, U. S. A.

PERSONALITIES

HENRY K. AIKUE and Miss Annie Pio were married last evening, Rev. J. M. Poepoe officiating. PRESIDENT GRIFFITHS of Oahu College will be in his office from 9 to 11 o'clock on next Monday. DR. AND MRS. E. S. GOODHUE and family leave in the Lurline this evening for Santa Barbara, Cal. F. W. MAXWELL, of Little Rock, Ark., has returned to his home after a tour of the Orient and the islands. CHIEF CLERK GUS MURPHY of the United States District court left yesterday for a few days vacation. He returns Friday.

S. DECKER will sail for the coast in the bark Andrew Welch for the benefit of a sea voyage. He has been on the islands nearly twenty years. PRINCESS KAWANAKOA is reported to be recovering nicely from the operation of some weeks ago. She expects to arrive home early in December. LOT KAUWE, principal of the Government school at Napoosoo, Kona, returned to his home today in the Mauna Loa, which sailed at noon. He was accompanied by Mrs. Kauwe.

J. A. THOMPSON, clerk of the Territorial Supreme Court, was among the outgoing passengers this morning in the Mauna Kea. He goes to Hilo on a business and pleasure trip and will be absent from his desk for about two weeks. JAPANESE CONSUL - GENERAL IYENO is in receipt of a cablegram from Minister Komura of Foreign Affairs, informing him of the departure from Japan of Prof. Nitobe for the States. Prof. Nitobe is expected to arrive here in the new Toyo Kisen liner Shunyo Maru, next month.

MRS. METTA S. MACK, who left here a few weeks ago to be married on the mainland, has been wedded to Howard M. Chandler, in Kansas City on August 12, the news having reached here yesterday. She was superintendent of the Susannah Wesley home and active in church and charitable work in this city.

JARRETT AND McDUFFIE LOOKING FOR KING

Sheriff Jarrett and Chief of Detectives McDuffie are trying to locate M. M. King, who is wanted by his wife, who resides in Los Angeles. Yesterday afternoon Sheriff Jarrett received a letter from Mrs. King. It reads as follows:

"Chief of Police, Honolulu: Will you look for M. M. King? He is a theatrical man, insurance agent and a musician. He was to sail for Honolulu June 5. Please look in your city for him. He is an Elk, belongs to 671, Blisbee, Arizona. Kindly let me know or hear from you as I have lost track of him. Am in destitute circumstances with a little girl. Please find him, if there. Mrs. M. M. King, 1602 South Grand Avenue, Los Angeles."

STOCK EXCHANGE HAS SPECIAL MEETING TODAY

A special session of the Honolulu Stock and Bank Exchange was held this morning shortly after 11 o'clock for the purpose of receiving from the Hawaiian Trust Company the proposal of an alternate for Hobie Walker, who is to take a trip to the mainland shortly. Louis Abrams, secretary of the company, was named, the name being taken under consideration by the membership committee for the regular period of five days. The meeting was a formal one, called according to the rules of the exchange.

CONKLING IN 'FRISCO, BUT NO WORD OF MONEY

Governor Frear has received word from Treasurer D. L. Conkling that he is at San Francisco. He has had no word, however, as to whether the money for the bonds has been paid over.

A cable was despatched to Mr. Conkling this morning asking for the details. As soon as an answer is received then the Governor will proceed to inform the heads of the various commissions just exactly how they stand in the matter and how much money they will have available.

POLICE COURT NOTES.

Only eight cases adorned the police calendar in Judge Monsarrat's court room this morning. Almy Carey, C. Waldoyer and George J. Brown, whose cases for heedlessly driving their machines in public places, were continued from August 22, were taken up this morning.

Gorey had his case nolle prossed. C. Waldoyer was granted a continuance until next Thursday morning, when he will make a plea. Brown, who did not want to come into court again, pled guilty and was fined five dollars and costs of court.

Mew Yen and John F. Silva will be tried tomorrow morning. D. W. Davis and Yagi, a Nipponese, charged with being drunk, were each taxed \$3 and costs.

Alaskan Next in Line.

The American-Hawaiian freighter Alaskan is scheduled to sail from Seattle for Honolulu and island ports on September 6th according to advices received by C. P. Morse, general freight agent for the line.

Shipping

RECORD SHIPMENT OF PINES FOR MATSON STEAMER LURLINE

Quantities of Sugar, Bananas and Rice to Leave for Coast in the Vessel This Evening—Several Inter-island Steamers to Sail for Island Ports—Chancellor Chief Engineer III. Harbor Well-Nigh Departed.

The largest consignment of preserved pineapples believed to have ever been shipped in the Matson Navigation steamer Lurline has been placed aboard that vessel and before the liner gets away for San Francisco at six o'clock this evening there will be forty-three thousand cases of the table delicacy for shipment to the mainland.

The Lurline shipment will be followed by others of like magnitude and it will be some weeks before the bulk of the product will leave the islands and find a market in the States. The Lurline is also taking 2800 tons sugar. Other lines of Hawaiian products include about 2000 bunches bananas, 2000 sacks rice and quantities of sundries such as hides and honey.

The vessel will sail from Hackfield wharf and it is expected that the Territorial band will be on hand with a musical serenade for the forty-five cabin passengers who have booked to depart for San Francisco in the popular liner.

Arrivals From All Islands.

There is freight from many islands in the group included in the shipments received at Honolulu through the arrival of six Inter-Island steamers. Today the wharves present a busy scene where cargo is being discharged and supplies are loaded on board vessels.

The steamer Waiwale, from Kawaihae, brought 4337 sacks Kukuihane and 4629 sacks Honokaa sugar and 28 packages sundries. Purser Byrnes reports moderate trades and fine weather. One large automobile was taken on at Kawaihae.

Honey to the number of 400 cases was included in the freight list of the steamer Mikahala from Maui and Moloaloi ports. Other items were 100 sheep, 55 pigs, 16 crates chickens, 29 empty drums, 49 barrels wine, 7 baskets eggs, and 135 packages sundries. Purser French reports the schooner Carrier Dove at Kahului. It was too rough to land freight at Waialua.

The steamer Noeau, which sailed at 5 o'clock last evening for Kaula ports, has discharged a miscellaneous cargo including ducks, empty drums and barrels, 5 sacks awa, 741 sacks rice, 748 sacks paddy and 2000 sacks sugar. Purser Kaipo reports about 700 sacks sugar on hand at Kilauea.

In despatching the steamer Nilahu for Kaula ports at noon today that vessel took 20,000 feet of lumber as well as a quantity of fertilizer. The Nilahu arrived at the port yesterday, bringing 4900 sacks sugar, 50 sacks rice, 19 bundles hides and 20 packages sundries. According to Purser Peake the Nilahu met with fine weather and smooth seas on the homeward trip.

Six thousand sacks of sugar are being discharged from the steamer Like like, an arrival from Hamakua ports yesterday. The Like like met with strong winds and choppy seas. Purser Richter reports that Kohala Mill will finish grinding at the end of the month. The bark Albert at Kailua has finished discharging her load of lumber and will sail for the Sound today. The schooner Muriel is discharging at Honolulu.

Honolulu Figured in Babcock Ad.

The American ship W. F. Babcock, which arrived at San Francisco after a slow passage of 163 days from Newcastle, Australia, has had an eventful time since. She has left the Pacific Coast in January, 1910, lumber laden on the well known windjammer squared away from Port Ludlow for Cape Town, South Africa, and it took her nearly a year to reach her destination. On March 21st, 1910, she limped into Honolulu under a jury rudder. After effecting repairs she again set sail for Cape Town, but was compelled to make Sydney on account of damages sustained in heavy weather. After discharging what was left of her lumber cargo, a good portion of it having either been washed overboard or jettisoned, the Babcock proceeded for Newcastle, where she loaded 2865 tons of coal for Hind, Rolph & Co. of this city.

The Axe for These Customs Officers.

WASHINGTON, August 19.—If the Treasury department's plans for re-districting the customs territory of the United States are approved by Congress, the number of customs houses will be reduced from 124 to 73, and many collectors who now hold important political offices will find themselves reduced.

Among those which would be reduced to sub-ports are Albany, N. Y.,

count of damages sustained in heavy weather. After discharging what was left of her lumber cargo, a good portion of it having either been washed overboard or jettisoned, the Babcock proceeded for Newcastle, where she loaded 2865 tons of coal for Hind, Rolph & Co. of this city.

The voyage of the windjammer from Newcastle is the longest of the season, light winds being encountered the entire voyage. Captain McNaught reported that on January 28, in passing close to the Pitcairn islands, two boats, containing twenty inhabitants of the islands, came off, requesting stores and clothing. The islanders were overjoyed at being thus supplied and the Babcock's crew were equally elated at receiving a supply of fresh meat, vegetables and fruit. Captain McNaught reported that the population of the island now numbers about 150. The inhabitants are the descendants of the mutineers of the old ship Bounty, who were cast away on the lonely island in the South Seas many years ago. It is very seldom they receive any news from the outside world, as the island is not in the track of vessels.

The vessel will sail from Hackfield wharf and it is expected that the Territorial band will be on hand with a musical serenade for the forty-five cabin passengers who have booked to depart for San Francisco in the popular liner.

Silverware Under Lock and Key.

J. A. Chancellor, the California oil king, is the donor of a fine set of solid silverware which reposes in the strong iron-bound chests of the new oil-tanker J. A. Chancellor, which is credited by Captain Gus Holmes of that vessel as being worth at least \$2000.

The valuable plate is kept under lock and key and not used in the serving of the daily menu on board the fine oil tanker, but on state occasions has been brought out for inspection by admiring visitors.

The Chancellor has been an object of much interest among shipping men since her arrival at the port on Sunday morning. The vessel represents the last word and highest type of steamer to engage in the fuel-carrying trade.

The appointments in the skipper's and officers' quarters are the very latest in shipbuilding. Hardwood is used in the fitting of the staterooms.

The steamer represents an investment of nearly a million dollars. In general outline she much resembles the Matson steamers when viewed at a considerable distance, in that her funnel is located away aft.

The Chancellor bears the name of a former president of the oil company, and has a capacity of from forty-five to fifty thousand barrels of oil.

The appointments in the skipper's and officers' quarters are the very latest in shipbuilding. Hardwood is used in the fitting of the staterooms.

Hyades to be Repaired.

The Matson Navigation freighter Hyades will be next in line for repairs at San Francisco. This vessel will be laid up following the completion of work on the Matson steamer Enterprise. The Hyades has been in continuous service for many months without a break in the schedule. The freighter is in need of cleaning and repainting. Some work will necessarily have to be done on her machinery before going into commission again. The Hyades is understood will make one more round trip to the Hawaiian islands before going into dock.

Steamer on Fire in Kobe Harbor.

A fire occurred a few weeks ago on board the German freighter Slesia, while that vessel was taking on cargo in Kobe harbor. The first reports had it that the steamer damaged was the Helene Rieckmers. The fire was gotten under control within three hours through the timely assistance of the water police. Little damage was done the cargo.

Lumber for Hilo.

According to reports received by the local branch of the Merchants' Exchange the American schooner S. C. Holmes sailed from Port Gamble yesterday with destination as Hilo. The vessel is bringing down lumber.

Allen Makes Fair Passage.

The arrival of the schooner S. C. Allen at Fort Bragg is reported yesterday. The vessel is credited with making the voyage to the northwest coast in twenty-six days.

Gamble at the Coast.

The lumber schooner Gamble from Hilo is reported as an arrival at Port Gamble yesterday. The vessel made the trip to the Sound in twenty-seven days.

TIDES—SUN AND MOON

Table with columns for Date, High Tide, Low Tide, Sun, Moon, and other astronomical data for August 26, 1911.

Syracuse, N. Y., Atlanta, Ga., Wheeling, W. Va., Sioux City, Ia., Burlington, Vt., Dubuque, Ia., St. Joseph, Mo., Chattanooga, Tenn., Dayton, O., Paducah, Ky., Lincoln, Neb., Knoxville, Tenn., and Houston, Tex.

Some new ports of entry would be created, among them Springfield, Mass., Cincinnati, Louisville, St. Louis, Memphis, Evansville, Omaha, Kansas City, Des Moines, Indianapolis, Nashville and Grand Rapids.

Maine's fourteen customs houses would be reduced to four; Massachusetts from eleven to four; New York's from ten to six; Virginia's from six to two; New Jersey's from six to one; Florida's from eight to four, and California's from four to two.

In some instances the collection districts of important collectors would be enlarged and deputy collectors added to their staffs.

Rousing Welcome for Shunyo Maru.

The new Toyo Kisen Kaisha liner Shunyo Maru will be given a rousing welcome upon steaming around Barber's Point and approaching the entrance to the harbor. Thus far, some twenty-five Japanese sampan owners have signified their intention of proceeding to sea and there lay in wait for the appearance of the latest addition to the T. K. K. fleet due to arrive here from the Orient on September 8th.

Day fireworks will be sent heavenward, while the sampans will be decorated in keeping with the occasion. Thousands of spectators are expected to visit the new ship during the stay in port. A series of entertainments are planned including a dinner to be given to invited guests of President Arano.

Smart Passage for the Smith.

The schooner Gilbert L. Smith, Captain A. A. Ross, which arrived at Aberdeen a few days ago, made one of the smartest passages of record, the trip from Everett to Callao and from Callao to Grays Harbor occupying just four months and four days. Sixty-four days were occupied from Everett to Callao and forty-one days coming from Callao to Grays Harbor.

Honolulu Takes Enterprise Run.

The Matson Navigation steamer Honolulu which sailed from San Francisco may not make Honolulu a port of call on this trip. The vessel has taken on cargo and passengers for Hilo and it is the present intention to send the vessel along to Kahului before returning to the coast.

Chancellor Engineer is Ill.

Chief Engineer Harry Moeine, of the new oil tanker J. A. Chancellor, was conveyed to Queen's Hospital this morning where he will undergo an operation which will result in his being left behind. Moeine has been ailing for some time past. His illness became more acute as the big oil steamer neared the islands and Captain Holmes hastened to make the port in order that the engineer could receive medical attention.

Captain Holmes is now looking for an engineer to take the place of Moeine. This may cause the delay in the departure of the Chancellor though it is hoped that the tanker will be ready for dispatch to the coast tomorrow morning.

Moeine has been ailing for some time past. His illness became more acute as the big oil steamer neared the islands and Captain Holmes hastened to make the port in order that the engineer could receive medical attention.

Captain Holmes is now looking for an engineer to take the place of Moeine. This may cause the delay in the departure of the Chancellor though it is hoped that the tanker will be ready for dispatch to the coast tomorrow morning.

Steamer on Fire in Kobe Harbor.

A fire occurred a few weeks ago on board the German freighter Slesia, while that vessel was taking on cargo in Kobe harbor. The first reports had it that the steamer damaged was the Helene Rieckmers. The fire was gotten under control within three hours through the timely assistance of the water police. Little damage was done the cargo.

Lumber for Hilo.

According to reports received by the local branch of the Merchants' Exchange the American schooner S. C. Holmes sailed from Port Gamble yesterday with destination as Hilo. The vessel is bringing down lumber.

Allen Makes Fair Passage.

The arrival of the schooner S. C. Allen at Fort Bragg is reported yesterday. The vessel is credited with making the voyage to the northwest coast in twenty-six days.

Gamble at the Coast.

The lumber schooner Gamble from Hilo is reported as an arrival at Port Gamble yesterday. The vessel made the trip to the Sound in twenty-seven days.

IN FOREIGN PORTS.

Tuesday, Aug. 29. PORT TOWNSEND—Arrived, Aug. 28: Schr. Robert Lewers, hence Aug. 7. HILO—Sailed, Aug. 29: S. S. Hiloian, for San Francisco. SAN FRANCISCO—Arrived, Aug. 29: S. S. Sierra at 10 a. m., hence Aug. 23. Wireless: S. S. KOREA, will arrive from Yokohama 8 a. m. Friday and sails for San Francisco about 5 p. m.

VOTE MONEY FOR NUUANU AVENUE

It will require not more than fifteen thousand dollars to place Nuuanu avenue in good condition to a point now selected as the terminus of the Rapid Transit car line, according to the rough estimates made in the office of Road Supervisor Charles Wilson.

To complete the roadway to the premises of the Country Club would entail an additional five thousand dollars so it is believed. The most expensive item being the cost of curbing.

Tonight the City and County fathers will in all probability consider an appropriation of four thousand dollars a month for the special purpose of completing work on Nuuanu avenue and making this prominent thoroughfare in every way road and one that can hold its own with the best in the Territory.

In anticipation of the expenditure of an additional sum of money along Nuuanu avenue, Wilson has had a few men at work placing the rock crusher in proper shape to turn out the necessary material for the new road.

Wilson believes that were he given even a larger sum at his disposal, there would be more economy in placing a greater force of men on the improvement. He hopes at any rate to have the work pretty well under way before the approach of bad or unfavorable weather.

The appropriation of four thousand dollars a month for this work will keep something like eighty to one hundred men on the job. He hopes to have the portion of the road of a mile or more completed within three months.

Real work on Nuuanu avenue is slated to begin with the first of September. It is then that the dirt will fly. Road Supervisor Wilson declares that the Nuuanu crusher can turn out 150 yards of road building material a day.

FLORAL PARADE PLANS BOOMED

Arthur F. Wall, director of the 1911 and 1912 Floral Parades, returned yesterday on the Mongolia from a trip to the coast during which he found everywhere much interest in the big carnival that Hawaii will pull off next February. All the San Francisco people are interested in the parade plans, even though they have a hot majority fight on their hands and most of them are banking all they can on putting McCarthy out and James Rolph, Jr., in.

"I took in the Bohemian Club jinks and saw some original things there," said Mr. Wall today, and kept in touch with things as much as I could. I found that Hawaii's parade is getting to occupy a bigger and bigger place every year. This year ought to be a great one for the tourist traffic here. Now that I'm back, the Floral Parade forces will get down to work.

KEKAHA TO PAY FIVE PER CENT

Kekaha Sugar Company is going to pay another dividend, according to report today. It is expected that this plantation will pay a 5 per cent. dividend at the end of this month. The annual report is booming the price, and this morning's session of the stock exchange showed four blocks of five shares each bought for \$25, an advance of five points.

Kekaha's dividends are paid irregularly, whenever funds permit. Last year the company paid 30 per cent. in dividends, and with the 5 per cent. now forthcoming will pay 20 per cent. this year.

The market was strong today, with Waiwale going up and up and up. This stock, which has been selling cheap, is getting back where it ought to be, fifty shares being bought in at the session this morning for 122.50. Oahu is strong at 32 and Ewa at 32.75.

MAILS.

Mails are due from the following points as follows: San Francisco—America Maru, Sept. 5. Yokohama—Shunyo Maru, Sept. 8. Colonias—Makura, Sept. 12. Victoria—Marama, Sept. 13.

Mails will depart for the following points as follows: Yokohama—America Maru, Sept. 5. Vancouver—Makura, Sept. 12. San Francisco—Persia, Aug. 28. Sydney—Marama, Sept. 13.

TRANSPORT SERVICE.

Dix at Seattle, out of commission. Logan, from Honolulu, for San Francisco, arrived May 12. Sheridan, from Honolulu for Manila, Aug. 14.

Sherman, sailed from Manila, Aug. 14. Crook, arrived S. F. Apr. 13. Buford, sailed from Honolulu for San Francisco, arrived Aug. 15. Warren Stationed at the Philippines. Thomas at San Francisco under repairs—

WATERFRONT NOTES

Transport Buford Will Be Laid Up. The United States army transport Buford which passed through Honolulu the first of the month with officers' troop and civilian passengers en route to the homeland is to be laid up for overhauling. The vessel will probably not make another trip across the Pacific for some time unless something unforeseen happens.

The Buford is an extra ship and made the trip to Manila in place of the Logan, which was held here to help bring from the south the troops that had been stationed on the Mexican border. The Buford will be hauled out to an anchorage in the stream as soon as its freight and stores have been discharged. The Logan is just off the Mare Island navy yard drydock, where it was placed the other day to be scraped and painted.

Many Asiatics Leave by Mongolia. Before departing for the Orient at five o'clock last evening the Pacific Mail liner Mongolia was the mecca for hundreds of Japanese who gathered to bid bon voyage to a large delegation of their countrymen who departed for Japan by that vessel. The Mongolia left here with one hundred and ten additional Asiatic passengers, who in the main traveled in the steerage. The liner left some seven hundred tons freight during the few hours stay at the port.

Honolulu to Call at Island Ports. The Matson Navigation steamer Honolulu which departed from San Francisco on last Saturday for the islands is to make a call at Hilo and perhaps one other island port before proceeding to Honolulu.

Sparks from the Wireless. P. M. S. S. Korea, en route Yokohama to Honolulu, 5 p. m., Monday—1274 miles off, arrive Friday morning 8 o'clock.

(Continued from Page 1)

lean Medical Association, he declared. Dr. McCormack said that when he took first stock they had 120,000 licensed doctors—now they have 150,000. Then only one in four had gone into organization matters. Many of them were a danger. Over 50,000 of them had never taken in any new books. The refrain ran through his mind, "God help the people in their charge." He found that the "average doctor could not afford to keep up. This is also true of over fifty per cent of the doctors of today. In Pennsylvania the great majority of doctors are poor. It is not so on the Pacific Coast and Northwest but in the great part of America. In case of an epidemic there is a danger to the people. Where not poor they were in discord and had brought the profession into bad repute. It has made it almost impossible to get good, effective legislation and stop quackery.

"There is a very bad system of backbiting prevalent. The whole system is bad in the medical colleges and it has been a curse to the country. The first colleges started got into a three-corner fight. There are now 172 schools in all the balance of the world, while a little while ago there were 182 in America only. The young man who graduated there lived in an atmosphere of slander. The fight spread throughout the country. It was waged throughout and it was no wonder that the public got tired of them."

MR. KERSCHNER RETURNS.

J. W. Kerschner of the firm of Kerschner Vulcanizing Co., recently incorporated, has returned from a business trip to the other islands.

Mr. Kerschner is well known to all automobile owners in the islands, and many of us have occasion to thank him for his timely assistance when stranded on the road with a tire that has burst.

The increasing patronage enjoyed by the firm is due to the high-grade work done in its shops.

Some live innovations in the line of the latest appliances used in vulcanizing are in evidence at the company's works. The Kerschner Vulcanizing Co. is well equipped to handle the work of its rapidly-increasing business.

PATTERSON CHARGES WILL PROBABLY DROP

Matters in connection with the Patterson charges are lying dormant, nothing further having been heard by Superintendent of Public Works Marston Campbell.

He stated this morning that he hardly thinks that there was any need for pushing the matter further from his office. "Patterson has expressed his willingness to come forward and make his affidavit," he said, "and he also gave the name of the man whom he alleges made the bribe. This should satisfy everybody concerned. Perhaps the Maul Loan Fund Commission may feel inclined to follow the matter out, but I really think that this should settle everything."

FREAR SEES NO DANGER FROM DILLINGHAM BILL

A copy of the Dillingham immigration bill has been received by Governor Frear. It shows what has been cut out and what has been added to the present laws, and, as stated by the Bulletin, does not greatly affect Hawaii.

"I do not think that the Dillingham bill affects us much either one way or the other," said the Governor; "we are put down among the other possessions, but we are not called a possession."

COMMERCE RULES CONTROVERSY STARTED

(Continued from Page 1)

that a great deal could be done to expedite business on the wharves if a capable person were appointed to regulate traffic and the means of access to and exit from the wharves.

"We beg to advise:
"Second: That the controllers of other wharves in Honolulu be requested to impose the same regulations as are finally adopted by the board of harbor commissioners for the government wharves, with the additional proviso that time limits are contingent upon sufficient cars being furnished by the railway company when freight is to be removed by rail—so far as this is beyond the control of the consignee.
On Foreign Cargoes.
"The reasons inducing the committee to make the above recommendations are as follows:
"No. 1. Three thousand five hundred tons was shown to be the largest foreign cargo delivered. The collector of customs uses discretion in issuing general delivery orders; he never issues same until the expiration of twenty-four hours after the discharge has been completed. In the case of 3500-ton Oriental cargoes, which are unloaded in one day, this gives a minimum time of two days plus the seventy-two hours which are recommended by the committee, or a total of five days, which evidence shows is ample.
"For a 2000-ton cargo of fertilizer, which is discharged at the rate of 1000 tons per day, the time would thus also be a minimum of five days.
Domestic Cargo.
"No. 2. The evidence shows that the largest cargoes dealt with are 6000 tons, and these are only at the American-Hawaiian wharf, where there is no difficulty in getting drays in, and 1000 tons per day are readily disposed of. Such a cargo would have twelve days after the day of arrival, which is evidently ample. At the other wharves the largest amount discharged is shown to be 3500 tons—this at the Hackfeld and Oceanic wharves. Such a cargo would have seven days in addition to the day of arrival. The Oceanic wharf, even with the present chaotic traffic regulations, is doing 700 tons a day, and evidence was given that the same is the case at the Hackfeld wharf.
"No. 3. Consignments in inter-island vessels are so small that—provided that outward freight does not impede—evidence showed that these cargoes could readily be moved within the time set.
"No. 4. There was no difference of opinion that the time allowed was sufficient for freight that was hauled from points in the Honolulu district.
Sugar First Consideration.
"No. 5. The evidence showed that sugar had principally to be considered here; but pineapples would also be affected to a certain extent. Sugars are shown to come in by inter-island carrier and by rail; it is impossible to gauge the arrival of such cargoes, and yet it is impossible to add the expense of extra handling involved in moving from wharf while awaiting the arrival of the deep-sea carrier. It was shown in evidence that such sugar, when in large quantities, undoubtedly impeded the wharves. Nevertheless the committee felt that the time had not yet come to impose restrictions, where no abuse is existing, and where when other regulations are in effect no inconveniences may occur. The committee, therefore recommended that no regulation be imposed. They stated, however, what was the minimum limit which ought under any circumstances to be allowed."

"The Hawaiian Sugar Planters' Association, in no sense a test of what the natives or the pilots could do. It was merely a reckless sporting event in which the men bet their lives against a certain amount of money. It was a gamble with death.

The Hawaiian Sugar Planters' Association, it is reported, are about to enter an agreement with Chemist E. Battelle to give his process for refining sugar a thorough test. A small sugar factory may be erected upon some plantation and the invention tried out there.

W. Kissin of Duluth has a grudge against Minnesota. He bought forty acres of "land" from the state and on inspection found that all except three and one-half acres was water.

The Oahu polo team has withdrawn from further participation in the polo tournament, and Kaimuki and the Fifth Cavalry will fight it out for honor. The announcement was made following a meeting of the captains this morning.

WILBUR WRIGHT ROASTS BIRD MEN DARE-DEVILS

NEW YORK, N. Y., Aug. 26.—Wilbur Wright's latest tour of Europe has increased his disgust at the dare-devil tactics of the European aviators.

"The sensational flights are really hurting the art," he declared on his arrival here. "They do not work toward maintaining a healthful interest in aeronautics or help in practical development of the machine.

HAWAIIAN HUL IS AFTER ROAD WORK

(Continued from Page 1)

"The bond is too high and the regulation about sureties is too stringent," said Wise this morning. "It simply means that the county will have to pay a big price for getting its road work done. They have been talking about doing the work by contract, and now this regulation stops all but four or five of the big fellows from bidding on the work, and the price of the bond will be added to the bid."

The hul plan has not by any means been abandoned, and Wise hopes to be able to arrange the bonds.

Local contractors declare that the bond should be high to guarantee satisfactory performance of the work. Wise says that the loan fund commission should see that the work is properly inspected before accepting it.

♦ PERPETRATED BY WALT McDUGALL ♦

THAT'S WHAT THEY ALL SAY.

Everybody has it easy except me!
I'm the only one that has the rotten job
In this bum dump, as far as I can see—
The others get the corn, I get the cob!

Take it from me, I am the only one
Who hasn't time to even make a knock.
I hustle till my work is really done
While they sit round a-lookin' at the clock.

It gets my goat to see the easy snaps
These simple boobs have somehow copped!
I might have done as well perhaps—
I believe, b'gee, that clock has stopped!

I'm the only one that's workin', believe me!
The only guy that HAS to grind all day;
The others merely fuss from nine to three;
Aint one o' them that really earns his pay!

It makes me so goldarnationed mad
To see the way these other fellers shirk
I'll have to quit and rest myself, by god,
Before I do another stroke o' work!

TUESDAY AUGUST 29, 1911

When I dig a man out of trouble, the hole he leaves behind him is the grave in which I bury my own trouble.—F. Parnell.

Rules for the wharves shaped by the men who have the most to do with cargoes ought to be the best for the promoting the traffic of the port.

Until the war game is over, the sympathy and support of everyone in Honolulu should be with the defending force. It's a good idea to have the community on the right side when there is fighting to be done—even at play.

While Aviator Martin was making his record-breaking flight from St. Louis to New York two aviators were killed in one day while making exhibition flights for the people of Chicago. Thus it is that the use of the flying machine for sport is what lends the greatest danger to life and limb. The people must have something that is daring, and the stunts are always purchased at a price of blood.

People who attended the polo game could not fail to be impressed with the inspiring support of a good American yell. When the men of the army made a point, there was always a good number of supporters on the side lines to yell. When the Oahu boys made a good stroke—which wasn't often to be sure, on account of the omnipresent cavalry players—they were helped on to better deeds by the intensely artistic but chilling boost of an automobile honk. It is strange indeed how terribly afraid many of our people are to let their feelings loose in a good old-fashioned yell. If they really feel like helping their own side, we believe they will do well to throw off the rigid habit, and get up a full-throated lusty yell for the boys who are working hard to win.

CUBA HAS TROUBLES.

Every newspaper in the country is receiving a copy of the Havana Post, the only American daily published in Havana. The blue pencil marks show the feature article to be "An Open Letter to Secretary Stimson." The Secretary of War recently visited Cuba, and the Post took occasion to give him its opinion on various topics.

The Post alludes particularly to the aspirations cast upon the Gomez administration which it regards as perhaps the best that Cuba has ever experienced. It is especially forceful in its allusions to the erroneous statements made regarding revolutions in Cuba and the idea prevalent in many quarters that the island is a hotbed of discontent.

A case directly in point as proving the contention of the Post is the Acevedo revolution, so-called. A couple of weeks ago the statement was generally published in the American press that Gen. Acevedo was leading an insurrection and was at the head of several companies of men. Later reports were to the effect that there was no revolution or if one it was personally conducted by Gen. Acevedo without companions.

The Post also deplors the knocks given in regard to concessions and taking these up one by one argues that all concessions given have been granted wisely for the benefit of the island and on very favorable terms. It claims that the clouds have been cast by interested parties and that the people are well satisfied.

If the statements of the Post are

correct and they seem to bear the impress of truth, Cuba is prospering finely at the present time. Foreign capital is needed and it is being obtained, the chief drawback to progress being the uncertainty caused by the rumors of revolution and of improper concessions which naturally have a tendency to frighten foreign investment.

DO SMALL AMERICAN FARMERS PAY?

That the education of the farmer is a factor of prime importance in his struggle with the land is indicated by the fact that the average profits of those who had gone through the district schools only was \$318 a year. High school graduates averaged \$847, and men who had gone beyond the high school netted considerably more. A high school education, according to the investigators, is worth to a farmer as much as \$6000 worth of 5 per cent bonds.

This is the conclusion reached after putting the farming carried on in the State of New York to the harsh test of cold, calculating business figures.

Under the direction of the Agricultural Experiment Station at Cornell University, a very thorough survey has been made of the management and methods of the small farmers of the State. The investigators found that many owners of farms secured a smaller cash profit from their operations than was received by their hired men. On the other hand, the statement is also made that "it is now possible to make a good living on a farm." This is where the value of an education is made evident.

Another important conclusion is that the large farm pays better than the small, or average farm.

A farm cannot be said to be a business success unless it pays all farm expenses, pays interest on the capital invested, and pays well for the farm work done by the farmer and his family, according to the New York investigation. About one farmer in every one hundred makes a labor in excess of over \$2000. The twelve most successful farms are compared with the average farm as follows: The most striking difference is in size of business. The most profitable farms average 108 per cent. larger, and have an average of 147 per cent. more capital, and 94 per cent. more cows than the average farm. These farms have nearly twice as many cows per farm, but the farms are twice as large, so they do not have quite so many cows per 100 acres as the average.

On each of these most successful farms there are two to four leading products, and in most cases many minor products. Those with three leading products are doing better than those with two. By combining two or more leading products, the receipts are greatly increased without much increase in expenses. For example, milk, potatoes, and hay can be produced for sale with little more than is required for producing milk alone. The quality of the business has been increased, but not nearly so much as the size. The yield of potatoes averages 82 per cent. above the average, other crop yields 27 per cent., receipts per cow 48 per cent., receipts per sheep 83 per cent. None of these twelve successful farmers was attempting to grow the largest possible crops. Some other persons who are making less money have raised larger

crops. These farmers are raising good crops, not fancy crops. Their hay crop averaged 1.6 tons. The average for all farms was 1.3 tons. Their oats averaged 43 bushels. The average farmer got 33 bushels. Their potatoes averaged 210 bushels. The cows on the best farms that sold market milk averaged about 8000 pounds. Roughly speaking, the size of the business (capital) on these sample farms is 150 per cent. above the average, and the quality or production is about 50 per cent. above the average.

These successful farms buy 89 per cent. more concentrated feed per animal unit than the average farm. Instead of trying to raise all the feed for their cows, they find it more profitable to grow such crops as potatoes, cabbages, and hay to sell, and to buy mill products. They sold an average of \$1,669 worth of crops and spent only \$426 for feed.

After allowing for feed purchased, these best farms contribute to the city supply 138 per cent. more food per acre than the average. The farms that are primarily larger, more diversified and somewhat better farmed than the average make the most efficient use of men and capital. With the same amount of man labor and horse labor per acre, the receipts above purchased feed are 138 per cent. more per acre than the average. One of these farms, averaging 212 acres, contributes as much food to the city supply as is contributed by 505 acres in farms of average size.

MANY BIDDERS WILL SUBMIT

Russell of Los Angeles to Try and Get Big Contract.

On September 8 bids will be opened at army headquarters for the construction of the superstructure on the Hilo breakwater.

This is a contract of a most important nature, and many companies are expected to tender proposals.

The contract for the substructure is now in the hands of the Lord-Young Engineering Company, and as it is already on the scene at Hilo, it will probably prove a hard proposition to underbid. Its present work is a \$200,000 contract. The contract for the superstructure is \$500,000, and well worth having.

Mr. and Mrs. Walter S. Russell of Los Angeles arrived yesterday on the Mongolia. Mr. Russell is here to study the situation and bid for the work.

When the superstructure has finally reached completion it will be one of the costliest and finest ever built in the Pacific and will tend to make the harbor at Hilo one of the greatest and safest of any of the island of the world.

FLEET TRIP DELAYED

(Continued from Page 1) ships are not for the purpose of fighting forts, but to battle with and fire upon warships at sea.

The two other cruisers making up the Pacific fleet will not be able to come. The Pennsylvania is ordered out of commission at the Puget Sound navy yard, and the Maryland is undergoing repairs at San Francisco, to be able to meet the squadron at San Diego on November 1.

The fleet is badly scattered at present, but the cruisers and torpedo destroyers are hurrying to San Francisco.

Once assembled in San Francisco bay, the fleet will make a dash to Hawaii, the purpose being to ascertain whether an invading fleet can make an entrance into any of the bays around the island of Oahu in an attempt to capture the capital, on this island.

The War Department will increase the garrison at Hawaii to five regiments at full war strength.

The warships of the fleet will carry their full complement of marines.

The maneuvers ordered by President Taft are to be the most spectacular ever planned on the Pacific Coast. The President wishes to demonstrate how quickly the navy, the coast defenses and the marines can unite for the defense of the Hawaiian Islands—the nation's outpost of the Pacific.

A new fire control system will be installed on the flagship California before the fleet sails from Mare Island.

Just how the forts and coast artillery are planning to hold off the invaders has not been fully decided as yet. Waianna bay will be closely guarded by the troops stationed here, as it is considered an objective point at which the marines are expected to be landed.

The forces at Camp Verry will be greatly strengthened upon the arrival of many marines and officers on the next transport.

It is not known whether the fleet will bring its own supply ship or not. At any rate, the ships will have to be supplied with bread, fresh vegetables and meats, so it is expected they will give in their requisitions to the naval station here and bids for contracts will

be called for from the various dealers to furnish all the foodstuffs needed.

As to the coaling, if two at a time take on coal, the naval station can accommodate them very nicely with berths, but if they all coal at once, accommodations will have to be borrowed.

Admiral Cowles believes the war vessels will be in and out of the harbor so much that they will have no regular anchorage or docks, but will anchor wherever handiest.

Rear-Admiral Chauncey Thomas will act as commander-in-chief of the Pacific fleet and remain aboard his flagship, the California.

The commanding officers of the cruisers are as follows: California,

Land of Puupueo Manoa Valley

WHEN a man buys something useful which at the same time is steadily increasing in value he is twice fortunate. It is only a little over ten years ago since the pioneer settler on the land of Puupueo made his home there. Then there were none of the many conveniences required by the exacting suburbanite. Now all the advantages that can possibly be asked for are procurable: Mountain spring water, telephone, electric light and Rapid Transit service, and gas for cooking.

BE TWICE FORTUNATE, and purchase one of the most desirable house lots to be had within three miles of the Capitol.

Remember, Easy Terms Are Offered.

MANAGER BRASCH RETURNS HOME

Says Wool and Cotton Tariff Are Sure to Be Revised, Sugar Safe.

After a three months trip through the States, from the Pacific coast as far East as New York, Maurice Brasch, manager for Whitney & Marsh, one of the leading dry goods firms of the city, returned by the steamship Lurline, and, like all others who have lived over five minutes in Hawaii, thinks that there is no other place in the world but Hawaii and no city like Honolulu.

Mr. Brasch went East on a purchasing trip for his firm, but, at the same time he did not let business take up all of his time, and many pleasant side trips were taken.

While away he visited the three commercial centers of the States, San Francisco, Chicago and New York. He states that business is not of the best in any portion of the States, as far as he could see, and that the cause of the stagnation is or was the uncertainty of the tariff and reciprocity questions. He says that it is the consensus of opinion throughout the East that the wool and cotton tariffs will be revised without question, but that there will be no move made in the sugar question. The South will not stand for it, and that phase of the situation is going to be the ruling force when it comes to a showdown on sugar.

The unsettled state of the Eastern markets, which, at the time of Mr. Brasch's visit little was doing in the line of big business, gave most favorable conditions to buyers who came from a distance, and consequently, Manager Brasch laid in a large stock while prices were favorable, and the goods that he purchased have been coming down by every vessel and will continue to come for the next month.

He purchased the latest in the fall styles to be found in the fashion centers of the states, and showings of the goods will be made as soon as they can be arranged and as fast as they arrive.

The latest fixtures for exhibiting the ready-to-wear garments on are also new acquisitions in that department of the big store. This department will be soon arranged for exhibition and in that line will be second to none in the city.

GET INTO LINE, SAYS BLANCHARD

Better ice cream and also inquires from druggists and stockkeepers is the result of the recent activity of Food Commissioner Blanchard.

"At the present time," he said today, "the stores are serving out a better class of ice cream than previously. There was some talk of them making a kick, but when part of the sealed samples were analyzed by one of their own chemists and the results returned were lower than mine, they dropped all idea of it and made a better article instead."

"Since the stockkeepers handling drugs have learnt that they must also comply with certain regulations, I have been kept busy answering inquiries. Besides the queries from Maui, which you published in the Bulletin yesterday, local people are beginning to wake up and take notice."

"This morning I had a deputation from the Japanese Druggists' Association to see me in reference to their branch of the trade. They are very anxious to know just how they stand in the matter. Persons handling other lines are also coming into line as well, and I think that very soon there will be no more trouble."

Bringing cargo from the East coast of the United States forwarded from New York in the Hawaiian on July 7th and the Georgian on July 14th, the American-Hawaiian freighter Columbian is expected will arrive here on Sunday morning. The Columbian is coming from Salina Cruz where the bulk of the freight was transhipped. The vessel called at San Francisco and Seattle en route to the islands. The Columbian is to load a large amount of sugar for the isthmus.

WHERE CLEANLINESS IS KING

We invite you to come unannounced to our Sheridan street milk depot, or to any of the dairies contributing to this Association.

It will show you to what lengths we go to assure absolute cleanliness in milk. We also treat every ounce of milk to our electric purifying apparatus.

Y. M. C. A. BOYS WOULD BE STAMP COLLECTORS

The doings of the stamp collectors' society are likely to be very much extended along the lines of the juniors if the scheme which is in vogue goes through. Commander Loomis of the boys' department of the Y. M. C. A. is very anxious that they should be allowed to go in with the movement, and he is to approach those at the head of the society and ask them about matters.

"Nearly all of our boys," he said, "take an interest in stamps, and I think it would be a real good thing for them if they could get in touch with a society. We might get the society also to hold an exhibition in our rooms, as a start, so that the boys could see just exactly how to do things in the proper way. I know there are a number of them at the present time who collect, and this would stimulate them as well as get the habit started in a number of others. It is a very interesting subject, and I hope we can get matters fixed up."

Mrs. David Frankovich, while dusting pictures on the wall, at Sharon, Pa., fell from a step ladder, throwing out her arm in an effort to save herself. A large picture hook in the wall penetrated her right arm, holding her suspended from the floor.

RECREATIONS

Sousa has found time not only to conduct his band over 9000 times in all quarters of the globe, but he is also the author of nine operas, over 250 musical pieces, two novels, a book of reminiscences and numberless magazine articles. He attributes it all to his system. "When I was a little chap at school I started to train myself to this system. The

MISS VIRGINIA ROOT
Soprano With Sousa.

secret is to adopt a method, and to use all the spare minutes. I heard the teacher once say, 'While other fellows are hunting for their pens and paper, Sousa's got his work finished.' Then I have been blessed by another faculty. I have never been called upon to use an instrument when composing. Other men have to seek the assistance of the piano, but this has never been the case with me. One of the greatest marches I have written was composed when I was pacing the deck of the White Star liner Teutonic, on my way across the Atlantic. That was 'The Stars and Stripes.'

Sousa and his band will give a concert here on September 12 at the Bijou Theater. Seats on sale at Bergstrom's Music Co. September 9th.

HYPNOTISTS IN DIFFICULTIES

Barnett and Ayesha, the two hypnotists who opened an engagement at the Orpheum last night, ran up against a difficulty that threatened to put the show to the bad and in fact practically spoiled what promised to be an unusually good performance. They couldn't get enough volunteers to come on the stage until after an hour of persuasion on the part of Barnett, the man.

Barnett coaxed, begged and pleaded for volunteers to come up on the stage and be sent to dreamland by the hypnotic eye route, and after half an hour he got six boys. Another period of persuasion was fruitless, and he tried to pull the show through with six, but only one appeared to be a suitable cataleptic subject.

Barnett thereupon, after a whispered conference in the wings, announced that the audience could get its money back or tickets for another night. Many of those present started to leave, and just then the mesmerist succeeded in getting enough willing subjects to fill the chairs on the stage.

By this time half of the pleasure of what should have been a really good performance was gone, and Barnett found it hard to extract the comedy element. However, Barnett seems to have the "goods." He is a slight young fellow, blonde and smooth, with an eye like a gimlet and a good line of comedy acts for his subjects. He put them through the usual ludicrous antics, broke rocks on one man's abdomen and generally got away with the hypnotic stuff.

Ayesha, the woman hypnotist, is one of the cleverest in this line in the business. She showed her power last night, alternating with Barnett. The pair deserve a big house this week, at least an opportunity tonight to show what they can do with a stageful of people.

The performance is clean and laughable, without any of the grotesque tricks that some hypnotists try.

BIJOU HAS CRACK SHOTS ON A GOOD PROGRAM

The Bijou has picked another "live" act in a rifle-shooting duo, Fox and Claire, who opened last night. This pair of young men are not only wonderful shots, but their work is not spoiled by the usual posing and gesticulating that the "wild west" performers too often affect. Fox & Claire work like chain lightning, and their shooting is marvelous.

With rifle and revolver, standing at a distance of twenty or thirty feet, they break chips around each other's faces and hands in a way that makes the previous ones in the audience shudder. Hardly a miss was recorded. They have a good little finale too. Standing away from a target spat-

tered over with little white chips, they shoot fast and furiously until enough of the chips fall away to reveal the letters "U. S. A." and simultaneously a flag unrolls and the bang-fest ends with a burst of patriotism.

The Eldeds were up to their high mark in truck cycling, while the midget pair pulled off a burlesque of the previous shooting act that was a scream.

GOOD SINGING FEATURE OF OPENING AT EMPIRE

Thanks to two pretty good singing acts, the Empire's program for the half-week opening last night, is unusually attractive. The Bell Trio shifted over from the Bijou and sang their way into popularity as they have everywhere. A new entertainer appeared in the person of Miss Louise Bright, billed as a concert singing bird who studied with Caroni, of Italy. Miss Bright made a hit at the Empire, singing well and reaching a high note with a good volume of voice. The O'Hagans have a fairly good sketch, and there are some very good films.

BAND CONCERT.

This evening at 7:30 o'clock, at Thomas Square, the following program will be rendered by the Hawaiian band:
March—The Gladiators Fucik
Overture—Light Cavalry Suppe
Intermezzo—The Secret Recker
Selection—Faust Gounod
Vocal—Hawaiian songs, ar. by Berger
Selection—The Operatic Mirror
Intermezzo—La Bella Hawaiian, (new) Lakaro
March—The Juggler Rosey
The Star Spangled Banner.

UNION OF LABOR ELEMENTS

(Continued from Page 1)

at many elections, but always came out on the wrong side. In his opening speech last night, Kalehula stated that it was proper time for the Hawaiians to bind themselves untiedly and do something for their betterment in the future. He emphasized the fact that since David Ewaliko returned from his important mission to the States, where he represented the Hawaiian Labor Union at the conference of the National Longshoremen's Union, the labor elements are looking forward to getting more recognition.

Leaders Speak.

Frank K. Acherer and Kalaokalani, Sr. according to Keawehaku, made convincing speeches in support of organizing such a union in these islands. They claimed that the organization of the union does not necessarily interfere with the local money interests, but that it would strengthen and cement the feeling of the members more closely, with a view to responding more promptly to the call of those who have work for them to do.

"Like 100,000 Club." Keawehaku, the recognized Hawaiian political interpreter of Link McCandless during the campaign, stated this morning that the organization of the "Hul Union" is similar to that of the One Hundred Thousand Club, which was recently organized in Honolulu.

"The Hul Union takes in men of different political faith," said Keawehaku today. "We do not bar out any men who want to join the Hul Union, because of their political faith. Politics cuts no ice with us," concluded Keawehaku.

Meeting Enthusiastic.

The meeting was enthusiastic. Another meeting will be held next Tuesday evening at the same place, when the committee's reports with reference to the rules and regulations, will be read. It is expected that the next meeting will be larger than the one held last night.

From about the middle of September the Nippon Yusen Kaisha will open a new service between Kona and Calcutta, via Moji, Hongkong, Singapore, Penang and Rangoon. The steamers Jinsen Maru (3781 tons), Miike Maru, Hiroshima Maru and Kiria Maru will be used on the new route. The government granted a charter to the company on the 5th instant for the new undertaking.

Inter-Island and O. R. & L. Shipping books for sale at the Bulletin office, 50c each.

REGISTRATIONS COMING SLOW

Registrations are coming into the City and County clerks office at a snail's pace.

Since the opening of the great register to voters of this island but seven hundred and twenty voters have presented themselves before City and County Clerk Kalaokalani for registration. From all appearances there will be the usual rush of eligibles at the very last moment and at a time when the staff in the clerk's office is crowded with work.

JARRETT SHOULD NOT HAVE RANCH SAYS McWAYNE

The question as to who shall have the right of looking after one 50-horse power Kissel Kar automobile and also the privilege of attending to the wants of our black horse, one grey mare, one bay horse and one small bay mare is to be fought out before a jury.

R. A. McWayne filed a suit in the circuit court on August 8 in which he alleged that Sheriff William P. Jarrett without plaintiff's consent "justly and contrary to the law and rights of the plaintiff, took into his possession and converted to his use," the articles named. In view of all this the plaintiff through his attorneys, Thompson, Wilder, Watson and Lymer asks for the recovery of said things or else \$2000 by way of compensation.

Sheriff Jarrett, however, does not see things in this light and accordingly yesterday afternoon filed a demand for a trial by jury. Attorney E. C. Peters is looking after Jarrett's interests.

BRIDE AND GROOM ARE WELCOMED HOME

An elaborate luncheon at the Diamond Head beach home of Mrs. Mary C. Beckley yesterday afternoon was the welcome home given George C. Beckley and his bride, who arrived on the Mongolia yesterday. Queen Liliuokalani was present, her kahili-bearers being Mrs. Boyd and Mrs. Kibling. Many toasts were drunk, that to the queen being given with the assemblage standing, and music was furnished by Hawaiian singing boys. Among those present were Prince and Princess Kaulanaloa, Mrs. Julia Afong, Mrs. Mary Montana, Mrs. Stillman, Mrs. John Ema, Mrs. Henriques, Miss Afong, Mrs. A. P. Taylor, Mr. and Mrs. John A. Dominis, Allan Herbert, Mrs. Walter Macfarlane, Mrs. Carl Widemann.

Korea Has Oriental Cargo.
The Pacific Mail liner Korea has seven hundred and fifty tons Oriental freight for Honolulu and according to the last wireless word should arrive here early on Friday morning. About one hundred cabin passengers have booked at the agency of H. Mackfeld and Company.

REDHOUSE WILL TRY IT AGAIN

J. W. A. Redhouse and J. Macaulay, the two passengers in the ill-fated gasoline schooner Eclipse, who made a short but memorable voyage in the little vessel with the expectation of finally reaching the far-off shores of Manila bay, say they are still game and eager to join the Eclipse company as soon as Captain Reibig is ready to again tackle the long voyage to the Philippine Islands.

Redhouse, as chief steward in the Eclipse, won something of a name for himself, as the Filipinos in the crew declare that he succeeded in boiling water without scorching it unduly. Macaulay, as chief donkey-engineer, had a rather easy time, inasmuch as the Eclipse is not provided with such an appliance.

Captain Reibig had a force of ten men at work on the Eclipse this morning. They were scraping the masts and painting the house and decks. It is the intention to put the vessel on the drydock within a day or two. The Eclipse will, according to the present program, leave the islands on a second start for the Orient the first of next week. Rebuilding of the vessel should be completed within a few days. A propeller may be fitted to the vessel, as auxiliary power.

Hilsonian Away for the Coast.

Taking a full shipment of sugar, the Matsun Navigation steamer Hilsonian is understood to have sailed from Hilo last evening with destination as San Francisco. The Hilsonian made a very brief call at Honolulu the first of last week, and while here left about fifteen hundred tons general cargo. The greater part of the sugar taken by this vessel was gathered at island ports.

KAM BOYS TO FORM TEAM

Hui Nalu Expects to Enter Meet on September 30—Rice May Join Their Ranks.

A track team is being formed by students and graduates of the Kamehameha Schools. Harold Godfrey, captain of the school team last spring, is busy rounding up men, and expects to form a strong team—one that will give any other club that enters for the championship meet a run for the honors.

Godfrey looks for a team that will make some good records on the day of the meet.

Frank Mackenzie is expected to join his old school team again and will be a very valuable man. Both he and Manoha will enter the sprints. Mackenzie is on Maui at the present time, and word has been sent to him to come over and strengthen the Kamehameha team, of which he was once captain.

Mackenzie holds two records—the hundred yards, 10 1-5 sec.; and broad jump, 21 ft. 9 1-2 in.—both of which were made in 1908.

In order to hold on to his records he must contest in the coming A. A. U. meet. The Kam boys are quite sure that he will join his teammates.

Frank Kanae, who holds the record for throwing the hammer, will once more participate in that event for the Kamehamehas. O. Jones, another Kam boy, who holds the Island record for putting the shot (48 ft. in 1907), will also line up with his old team.

Frank Scharach, who held the quarter-mile record for four years, will be missed on the team, as he enters a professional event on Labor Day, which disqualifies him from entering into A. A. U. sports.

"Dutch" Whiting will start in training for the mile run. He is a dandy at that distance and only needs a good three weeks of hard training.

Herman Brandt will be back at school again when it opens, and he will practice up for the high jumps.

There are a few other alumni boys who will be glad to hold the team out. They will join the team within the next few days.

The Hui Nalu are raking up a team, and the Punahoa boys will probably make up a team of their own.

It is rumored around town that the Diamond Heads will enter a team in the coming A. A. U. meet. Bill Rice, the champion Island sprinter, has been approached by a few Hui Nalu members, but he has not yet joined the club. Rice is planning to make up a team of his own, and is working quietly on the job.

There will be many individual A. A. U. members in the different events, among them being H. M. Ayres, who is training for the mile walk.

FANDOM AT RANDOM

The Hawaii and Star teams beat them all when it comes to bats. Sunday the Hawaiis had twenty-four bats out, and yet some of the players were not satisfied. The Stars had twenty-seven on hand, but even that number was not enough to enable them to win the game.

George Clark pitched a no-run game against the Hawaiis Sunday, and came near making it also a no-hit game. Markham made the lovely hit for the Hawaii nine in the seventh. It was a two-bagger, but did not do any damage, although spoiling Clark's chance for a no-hit, no-run game.

STOCKYARDS COMPANY WINDING UP AFFAIRS

The annual meeting of the Honolulu Stockyards Company was held in the offices of James F. Morgan yesterday afternoon, but as only 4372 shares out of 9995 issued were represented, the plans to take action looking toward a dissolution could not be carried out, the report stating that at least 7750 shares being necessary. The company has a capitalization of \$100,000 and the dissolution follows a period in which the company has not been active. The King street property, formerly occupied by buildings, is on the market, and it is stated that offers between \$11,000 and \$12,000 have been received for it. The officers elected at the meeting yesterday were W. H. Rice Sr., president; Cecil Brown, vice-president; W. C. Parke, secretary; James F. Morgan, treasurer; Frank Hustace, G. A. Schuman and G. J. Waller, directors. The meeting was adjourned until October 2, when action may be taken.

2185 editorial rooms — 2256 business office. These are the telephone numbers of the Bulletin.

SPORT CALENDAR

If Managers of baseball and other athletic teams would notify the Bulletin of the dates of proposed matches so that such information could be placed in the sport calendar it would be considered a favor. Address all communications to Sporting Editor, Bulletin Office.
Sunday, Sept. 3.
Stars vs. J. A. C.; Hawaii vs. P. A. C.; at Athletic Park.
Monday, Sept. 4.
Relay Race—Ten Miles: Fitzgerald against Jackson, King, Scharach, at Athletic Park.
Baseball—All Chinese vs. Cavalry at Athletic Park.
Sunday, Sept. 10.
Baseball—Stars vs. Hawaii; P. A. C. vs. J. A. C.; at Athletic Park.
Mohawks vs. Asahie; C. A. U. vs. Palamas; at Athletic Park.
Saturday, Sept. 30.
Track—A. A. U. Track Meet.

SOLDIERS HOLD TRACK MEET

Yesterday forenoon the 159th Company of the Coast Artillery Corps won the third track meet from the 106th Company. The meet took place at Kapiolani Park, and there was a big crowd on hand to see the men run in the different events. The score stood 46-44 at the end of the meet in favor of the 159th Company.

The teams made it very hard for each other, and it was only until the last event was pulled off that the winning team was made known.

The 100-yard dash was the blue-ribbon event, and Truer once more showed that he was a sprinter by passing the line in 13 3-5 seconds. The results of the meet was as follows:

The Events.
100-yard dash—Won by Truer, 106th Co., 13 3-5 sec.; Schoup, 159th, and Sobczak, 159th.

Potato race—Harding, 159th, first; Batsel, 106th, second.
Wheelbarrow race—G. H. Smith, first; Corp. Jones, second; Corp. Hoover, third; all 159th Co.

Equipment race—Corp. Laurence, 106th, first; Shepherd, 159th, second.
One mile—Haggerdy, 106th, first; Danaher, 159th, second; Frjl, 159th, third. Time, 5 min. 45 sec.

Shelter tent race—Both first and second won by 106th Co.
Shoe race—Elrod, 159th, first; Brigham Young, 106th, second.

One mile relay—Won by 159th Co. in 4 min. 19 sec. Team made up of Sberbrook, Falkenstein, Sobczak, Ornaturs, Erwin, Harding, Reynolds, Schoup.

Tug-of-war—Won by 106th Co. in one pull.
Officials.
Referee, Major Timberlake; starter, Lieutenant Price; timekeeper, Lieutenant Pratt; Judges, Captain Wilbur, Captain Johnson, Captain Clark and Lieutenant Williams; scorer, Lieutenant Vaughan; assistant timekeeper, Lieutenant Williams.

BOYS SAIL FROM AUSTRALIA

The Columbia Park boys, numbering forty, who toured Australia two years ago, held their second reunion in San Francisco on August 19. The guest of the evening was Cecil Jeffery of Perth, who is advance agent of the forty-five boys who will arrive in San Francisco on September 15. Sidney S. Peixotto was also at the banquet.

A great deal of interest has been aroused among the field ball players since Jeffery has arrived.

The Public Schools Athletic League of San Francisco has started in training teams to meet the Australian boys when they reach there.

The Australian Boys' Club left Sydney on August 18 and is going by way of Tahiti. Forty-two have been chosen to make the trip for their ability in athletics and their power to entertain. The boys range from ten to nineteen years.

The party expects to be away from Australia for fifteen months, two of which will be spent in California. From that State they will tour the Eastern States and Canada.

This is the boys' first trip away from their country and is in the nature of a return visit which forty Columbia Park Boys made to Australia in 1909. The Australians will be the guests of the Columbia Park Boys' Club.

CHINESE TEAM OUT FOR WORK

Cavalry Nine Will Try to Even Up Things—Game Drawing Interest.

The Chinese ball team, which visited Maui last week and won three out of four games from the Valley Islanders, will start hard work this afternoon. The Chinese are to tackle the famous Fifth Cavalry team, which trimmed the Keios when the teams met on the field here last month.

En Sue, Akana, Apau and all the star players who did not make the Maui trip will be out this evening at Aala Park, and the boys will put in some strenuous work.

At the present time Captain Asam is on Maui, but he will be back tomorrow morning with Kan Yen and L. Tin. The boys have been spending their time traveling around Maui. Both Kan Yen and Asam were badly bruised up in one of their games on Maui, but it is believed they are all right now.

The teams will practise four times this week, and tomorrow evening, after all the boys have returned, an election will be held by the team for a captain and manager. At present the team is run by two managers, Kau Kiu Yen and En Yate Pong, while Asam has led the boys on the field. There is no doubt that he will be reelected captain, but the interesting part of the election will be as to a new manager.

There is always some talk about one of the two managers, and it was thought wise by the players to work under one of the managers hereafter. En Yate was in charge of the team that went to Maui, while Kau Kiu Yen is working on the Coast plan.

The cavalry team has been doing some extra work this week, and it is in perfect condition to meet the Chinese nine on Labor Day.

The local team has won one game already from the mounted boys, but it was a hard struggle and resulted in a score of 2-1.

A good game is expected when the teams clash, and the Chinese fans will throng the park on the day of the game. It is rumored that there will be a big crowd of Japanese enthusiasts at the park to root for the cavalry. This would no doubt make the game very interesting.

FANDOM AT RANDOM

In the J. A. C.-Hawaii game on Sunday, both teams had new pitchers in the box. The Hawaiis had Mike Hardy, who certainly kept his opponents guessing, and George Clark did the twirling for the Nipponese. He did well. Clark once belonged to the Hawaii team, but it is said that he jumped that team because it took his suit away in the first game to let another player have it for the day on account of scarcity of suits, as George was not going to pitch that day.

On August 19 Seattle took another game from Victoria, with Williams in the box for the losing team. He was hit frequently during the match. Both teams played an errorless game. Raymond made a two-bagger and Weed a home run off Williams. Each pitcher struck out four men.

The English team of lawn tennis players who is to meet America in the semifinal round for the Davis Cup arrived in New York on August 29. The men are C. F. Dixon, A. H. Lowe and A. E. Beamish.

Soares did wonders with the stick Sunday. He faced the pitcher four times and made three hits, one of them a two-bagger. He also made two runs.

Ornellas was five times at bat Sunday and got four hits off Williams. He also made a run, and played a good game for the P. A. C.

BY AUTHORITY.

Sealed proposals will be received by the Loan Fund Commission of the City and County of Honolulu up to 12 o'clock noon of September 28, 1911, for the constructing of twenty-six thousand, three hundred thirty-eight and seven-tenths (26,338.7) lin. feet of highway, designated as Section One of the Oahu Belt Road, and extending from the north end of the Heela rice fields to the Wainohole bridge, in the district of Koolaupeko, City and County of Honolulu.

Proposals shall be on forms furnished by the Commission. Each bidder shall state in his proposal: 1. A specific sum for which he will furnish all labor, tools, and material, except as specified to be furnished by the City and County of Honolulu, necessary to complete the work in accordance with the plans and specifications. 2. The time within which he will agree to complete the work.

Proposals shall be in a sealed envelope, addressed to T. H. Petrie, Secretary of the Loan Fund Commission, City and County of Honolulu, and plainly marked on the outside, "Proposal for the Construction of Section One, Oahu Belt Road." All proposals shall be accompanied by a certified check as provided for in the specifications for a sum equal to five per cent. (5%) of the amount of proposal. The Commission reserves the right to reject any or all bids and to waive any defects.

Plans, Specifications and Forms can be had on application to the Engineer of the Commission, Room 10 McIntyre Building. A deposit of Ten Dollars (\$10.00) will be required on each set of plans and specifications. ANDREW ADAMS, Chairman, Loan Fund Commission, City and County of Honolulu, 5015—Aug. 27, 27, 28, 29, 30, 31; Sept. 1, 2, 26, 27.

Sealed tenders will be received by the Superintendent of Public Works until 12 m. of Monday, October 16, 1911, for furnishing the Department of Public Works with three 18", one 12" and one 15" Venturi Meters with recording apparatus. Specifications are on file in the office of the Superintendent of Public Works, Capitol Building. The Superintendent of Public Works reserves the right to reject any or all tenders. MARSTON CAMPBELL, Superintendent of Public Works, 5015-104

Honolulu, T. H., August 23, 1911. Tenders are called for by the Department of Immigration, Labor and Statistics of the Territory of Hawaii, for Three Hundred (300) three-tier iron hospital beds with pencil spring iron mattresses or equivalent, to be delivered and erected at the receiving station of the department, Alakea street, Honolulu, not later than November 15, 1911. Bids will close at noon, September 5, 1911. VICTOR CLARK, Commissioner of Immigration, Labor and Statistics of the Territory of Hawaii, 5012-104

RUSSIA AND JAPAN SETTLE

(Associated Press Cable.)
ST. PETERSBURG, Russia, Aug. 28.—One more step in the complete settlement of all differences between Russia and Japan growing out of the Russo-Japanese war was taken today in this city, when certain war claims were satisfactorily settled.

The Japanese government undertakes to pay a number of private claims for damages, amounting to \$150,000, while it will reimburse the Red Cross Society for its ship, taken during the war, by a payment of \$50,000.

To Russia the Japanese government agrees to return the hospital ship, which was also taken possession of during the war. There is much satisfaction felt here at the outcome of the official negotiations.

ENTIRE AMERICAN ARMY IS TO BE VACCINATED
WASHINGTON, D. C., Aug. 28.—A new and startling order has been issued by the War Department, one which will personally affect every officer and enlisted man on the rolls.

It has been determined to make compulsory the vaccination of all officers and men with typhoid serum as a matter of precaution against this disease, which is so prevalent in the army.

The work of vaccination will be done through the agency of the American Red Cross.

HURRICANE WRECKS HOUSES AND KILLS SEVERAL PEOPLE

CHARLESTON, S. C., Aug. 28.—A terrible hurricane swept over this city today, the wind blowing at a rate of 91 miles an hour, demolishing buildings and wrecking property of all kinds.

Seven persons were killed and a number injured. The financial loss is now estimated at \$1,000,000, but may exceed this sum.

CHAOS WOULD FOLLOW GRANTING OF DEMANDS

SAN FRANCISCO, Cal., Aug. 28.—Julius Kruttschnitt, traffic manager of the Southern Pacific railroad, commenting upon the refusal of the company to grant the demands of its shopmen, declares that to do so would mean chaos.

TAFI'S BON VOYAGE TO ADMIRAL TOGO

BEVERLY, Mass., Aug. 28.—President Taft today sent a telegram to Admiral Togo, at Seattle, wishing him a pleasant voyage.

TABU ON DEFENSE STAMPS.

WASHINGTON, D. C., Aug. 28.—The Postoffice Department has issued an order against the so-called "McNamara defense stamps," which are now eliminated from the mails because they are called "stamps" on their face.

IMPRISONED SIX DAYS IN MINE.

TUCSON, Ariz., Aug. 28.—After six days' imprisonment in the shaft of a mine near here, a miner was rescued today and will recover. The shaft was that of an abandoned mine.

WRECK OF THE THEKLA.

ANTOFAGASTA, Chile, Aug. 28.—The bark Thekla is ashore in the straits and is believed to be a total wreck. Captain Lemaris and fifteen of the crew are missing.

DEADLY TRAIN WRECK.

REGINA, Sask., Aug. 28.—Six persons were killed and a number injured in a freight wreck on the Canadian Grand Trunk Railroad today.

SAILOR THINKS HE IS A LEPER

SAN FRANCISCO, Cal., Aug. 28.—Believing himself to be suffering from a loathsome disease, James Quinlan, a sailor, applied at the central emergency hospital last night for admission that he might die there. The story he tells is that he shipped from San Francisco in 1906 on the windjammer Annie, owned by the Matson Navigation Company, bound for Honolulu. The ship was wrecked off the Solomon Islands, he claims, and he was for seven days adrift on a raft with three or four companions before they were able to get ashore. He remained on the islands for some years, contracting disease during that time. Then he was rescued and brought to this coast, since which time he has been living in a Howard street lodging house. The physicians at the hospital provided him with accommodations, but declare that he has a good chance for recovery. Quinlan's home is in Pennsylvania.

MILD LIQUID CURES ECZEMA

Skin Sufferers! Drop Greasy Salves and Nasty Medicines.

That mild, soothing liquid, D. D. D. Prescription, stops the awful itch with the first drops. A prescription of acknowledged value.

HAWAII COUNTY FINDS SHORTAGE

(Special Bulletin Correspondence.)
HILO, Aug. 25.—The good of a county engineer was shown last Tuesday when the lot released to the county for the Waialea fire department was measured off by Engineer Southworth and the dimensions which are given in the lease were found to be very far from corresponding with the other lots in the vicinity. The lot which was released to the county by Turnbull was supposed to commence one hundred feet from the Puna side of the junction of Cococanut Island Road and Front street extension and have a frontage of 45 feet. It was also supposed to have a depth of 125 feet.

The measurements taken by Mr. Southworth show that the fence which runs along the next adjoining lot on the Puna side is but one hundred and twenty-seven feet from the Puna boundary of the Cococanut Island Road. In addition to this mauka boundary of the Japanese chapel in the rear, is but eighty-two feet from Front street extension. Should the lot extend back for the full one hundred and twenty-five feet, the temple would have to be moved. In the meantime, it is understood the county has paid for the lease of the land that it did not get. This happened before the appointment of a county engineer.

Mrs. S. F. Zeave,

HOTEL STEWART

SAN FRANCISCO
Geary Street, above Union Square
Just opposite Hotel St. Francis

European Plan \$1.50 a day up
American Plan \$3.00 a day up
Steel and brick structure, furnishings cost \$200,000. High class hotel at moderate rates. Omnibus meets all trains and steamers. Hotel Stewart now recognized as Hawaiian island headquarters. Cable address, "Travets," A. B. C. Code. Reservations made through Trent Trust Co., Fort Street, Honolulu.

Hotel St. Francis

Union Square, San Francisco
Under the Management of JAMES WOODS

FACING the beautiful park in the heart of the city, which is the theatre of the principal events of the famous festival of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravansary in the world.

WHILE THE SERVICE IS UNUSUAL, THE PRICES ARE NOT.

J. P. MORGAN WILL BE CALLED UPON TO TELL OF STEEL TRUST

Famous Financier Wanted By Congressional Committee.

BY C. S. ALBERT.

(Special Bulletin Correspondence.)

WASHINGTON, D. C., Aug. 17.—

The Stanley committee of the House, engaged in investigating the sins and iniquities of the Steel Trust, has completed its work for this session of Congress and will take no more testimony until next winter. It is then intended to examine J. Pierpont Morgan and some of the big ones. Hearings will be resumed October 16.

It is intended by the committee to formulate its report in time for presentation early in December. Recommendations will be made for a reduction of the rates in the iron and steel schedules of the tariff law. This feature of the report will at once be referred to the Committee on Ways and Means, which is expected to present early in December a bill recommending changes in the iron and steel schedule.

JOHN PIERPONT MORGAN

LAHAINA LAND FIGHT TO START

The first fight in connection with the "Lahaina remnants" at Maui will start on Thursday in Judge W. J. Robinson's court. The title was granted back in the days of Kamehameha III. It is recorded in the book of the original public or great division of lands and is today known as Pelekane.

The right to the land is claimed by the Territory and against it are ranged the Pioneer Mill company, the Bishop Estate, W. O. Smith as administrator of the estate of Elizabeth K. Nahaolelua, eight members of the Nahaolelua family, James C. Heisael, Goo Lip, Mrs. F. C. Achong and others.

The Territory bases its claim to the land by virtue of an agreement made between King Kamehameha III and Victoria Kamehameha, dated January 27, 1848. She released to the king all her lands in various parts of the islands and he in return made over to her certain land in the district of Lahaina, Maui. She was awarded a freehold title. Part of it passed to the Bishop estate through Bernice P. Bishop and the estate leased it to the Pioneer Mill company for twenty-four years from 1901.

The Nahaolelua family claim to have owned and lived on part of the ground for three quarters of a century. A look into the documents in the case seems to show that there was a difference of opinion between the king and his privy councillors and now one of the main parts of the fight will be as to whether or not the king had the right to deal with a matter against which those who made the great division of lands were opposed. The case is looked on as a very interesting one.

Y. M. C. A. PLANS FOR DEDICATION

The committee in charge of the arrangements for the dedication week in connection with the opening of the new Y. M. C. A. held a meeting during last week and drew up tentative plans. There is some doubt as to whether or not the tiles will arrive in time for the lobby to be finished off and so allow the contractor to turn over the building by October 1. If they do not then the arrangements for the dedication will have to be altered. The present plans are to start Sunday, September 24 with farewell exercises in the old building. On the Monday night there will be a dinner for the Press and the Pulpit. Tuesday night will be members and subscribers' night. Wednesday night will be taken up with the dedication, and on Thursday the visitors will have full swing. Friday night the educators and teachers throughout the city will be invited.

On Saturday night there will be a try-out of every part of the apparatus for the physical culture end. There will also be handball games and indoor baseball. Sunday night will see a big evangelistic meeting. The committee consists of H. G. Dillingham, chairman; F. D. Lowrey, R. A. Cooke and G. H. Angus.

The little lumber laden schooner Resolute from Astoria is enroute to Honolulu according to advices received here. The vessel was twenty days out from Columbia river ports today.

NEWS NOTES OF VALLEY ISLE

WAILUKU, Aug. 26.—Mr. O'Neil, who until lately was station agent of the Kahului Railroad Co. at Wailuku, left for the coast yesterday on the Lurline. Mr. T. B. Rogers, a nephew of Mr. W. L. West, Cashier of the Wailuku Sugar Company, has been appointed station agent.

County Clerk W. F. Kaue returned this week after spending a week at West Maui registering voters. From Olowalu to Kahakuloa including Lahaina less than three hundred came forward to be registered. Former boards of registration could accomplish better results than that in one day, but as this is an off year when people are busy either farming, fishing, or doing other fruitful labor instead of shouting for politics, people are not expected to busy themselves with registering just now.

A gang of prisoners has been busy this week regarding the new baseball grounds. At the recent games the players objected to running up hill for the ball, so the order was given for the regrading, which when completed will make the Wailuku Baseball Park an ideal place for games and athletic sports of all kinds.

Dr. C. J. Ryder and Rev. W. B. Olesen of Honolulu were Wailuku visitors this week. They addressed a large congregation at Kaahumanu church last Thursday evening. On the following morning they left for Lahaina by way of Kahakuloa and Honohouan on their way to Honolulu.

A Portuguese boy who fell over the Wailuee bridge several weeks ago with his bicycle, and struck his head on a rock, left the Maluanui hospital this week cured, the height he fell was about twelve feet.

Mr. Jack Rivers, formerly the leading barber of this town, has returned to Wailuku after wanderings in many lands. The Wailuku band may resurrect from its slumber of many months.

SAILORS COMING WEST FOR FLEET

WASHINGTON, D. C., Aug. 16.—The Hawaiian Islands will see a formidable part of the Pacific fleet this fall. The Navy Department today ordered the armored cruisers Colorado, South Dakota, West Virginia and California and eight torpedo boat destroyers to sail from San Francisco September 15 on a cruise to Hawaii. The warships will return to San Pedro, Cal., November 1 for target practice.

WASHINGTON, D. C., Aug. 17.—To complete the complement of the crews of the vessels of the Pacific fleet, 375 bluejackets will start by train from Norfolk, Va., for San Francisco August 26. These men have been recruited in various sections of the East and trained at Norfolk.

A late wireless received at the office of H. Hackfeld and Company is to the effect that the Pacific Mail liner Korea from Hongkong and Japan ports will arrive off the harbor on or about eight o'clock on Friday morning. The Korea has room for one hundred first class passengers and there is a possibility that about seventy applicants will have secured transportation before the departure of the steamer for San Francisco.

HONOLULU MEN FOR IRRIGATION

Governor Names Advisory Committee to Represent Territory.

(Special Bulletin Correspondence.)

CHICAGO, Ill., Aug. 17.—Governor Frazar of Hawaii writes in a recent letter to the headquarters of the National Irrigation Congress, that he has appointed an advisory committee with which the officers of the irrigation congress can cooperate in making its coming meeting here, December 5 to 9, of the greatest benefit to Hawaii.

Members of the advisory committee appointed by the Governor are: Ralph S. Hosmer, Honolulu; William O. Smith, Honolulu; Alonzo G. Carter, Honolulu; Walter F. Dillingham, Honolulu; Jared G. Smith, Honolulu. "Save the forests, store the floods, reclaim the deserts, make homes on the land," is the motto of the National Irrigation Congress and clearly sets forth its objects. Of particular interest is the consideration the congress will give at this session to reclamation by drainage.

This year its sessions are held simultaneously with the United States Land & Irrigation Exposition and the International Live Stock show. These three big events offer unusual opportunities for communities to make known their advantages to hundreds of thousands of prospective farmers and settlers, and that interested states might make the most of these opportunities the suggestion was made that their governors appoint advisory committees.

CLOTHES SELLER WILL DO FOUR MONTHS' TERM

Carl Ontal, arrested some time ago and charged with selling soldiers' clothing, the property of the United States government, started in to put behind a four-months sentence yesterday. This was imposed by the Federal court some time ago and now word has been received by the mail that the sentence is affirmed by the appellate court.

United States Attorney Breckons brought him into court yesterday and he was sentenced to four months besides \$100 fine and costs which amount to about fifty dollars. It is understood that several other charges of a similar nature which are against him will be nolle prossed.

HAWAIIAN COLONY IN 'FRISCO MAKES MERRY

The Hawaiian colony in San Francisco, in accordance with their annual custom, held a reception at the Hotel Stewart last evening at which some 200 natives and former residents of the islands were present. Dancing, interspersed with native music, afforded the diversion and a promenade supper was enjoyed by the guests during the course of the evening. The committee in charge was composed of W. Campbell, J. Cook, J. Scully and L. H. Dee, the two former coming from Honolulu for the occasion.—San Francisco Chronicle.

LEGAL NOTICES.

IN THE CIRCUIT COURT OF THE First Judicial Circuit, Territory of Hawaii.—At Chambers. In Probate. In the matter of the Estate of Mele Hipa, Deceased. Notice to Creditors. Notice is hereby given that Letters of Administration have been issued to Bishop Trust Company, Limited, an Hawaiian corporation, as Administrator of the Estate of Mele Hipa, late of the City and County of Honolulu, Territory of Hawaii, deceased. All creditors of the said estate are hereby notified to present their claims against the said estate, duly authenticated, and with proper vouchers, if any exist, even though the said claims be secured by mortgage upon real estate, to the said Bishop Trust Company, Limited, at its office, No. 924 Bethel street, Honolulu aforesaid, within six (6) months from the date hereof (which is the date of the first publication of this notice); otherwise such claims, if any, will be forever barred. And all persons indebted to the said estate are hereby notified to make immediate payment to the undersigned as such Administrator. Dated at Honolulu, T. H., August 15, 1911. BISHOP TRUST COMPANY, LIMITED, Administrator of the Estate of Mele Hipa, deceased.

5005—Aug. 15, 22, 29; Sept. 5, 12.

IN THE CIRCUIT COURT OF THE First Judicial Circuit of the Territory of Hawaii.—At Chambers. In Divorce. Christina Martine, Libellant, vs. Ignatio Martine, Libellee. Libel for Divorce. Notice. To Ignatio Martine, libellee herein, you are hereby notified that the above-entitled cause, the same being for a divorce from you on the grounds of desertion and non-support, is now pending in the above-entitled Court and that the same will be heard and determined on Saturday, the 21st day of October, 1911, at the hour of 9 o'clock a. m. of said day, in the courtroom of the Presiding Judge at Chambers, or as soon thereafter as counsel can be heard. Dated, Honolulu, this 14th day of August, A. D. 1911. (Sgd.) V. M. HARRISON, Clerk, Circuit Court, First Judicial Circuit, Territory of Hawaii. (Seal.) Clem K. Quinn, attorney for libellant.

5005—Aug. 15, 22, 29; Sept. 5, 12, 19.
