SCHMITZ KEEPS SALOONS CLOSED

(Associated Press Cable to The Star.)

OAKLAND, May 11.—Mayor Schmitz has announced that the saloons in San Francisco will remain closed indefinitely. The sheriff of San Mateo county has made a request that martial law be declared in that county, in order to close the saloons. A slight earthquake was felt at 2 o'clock this afternoon.

HONOLULU MAN KILLED

SAN JOSE, May 11.—William Hanson, of Honolulu, has been killed here in a railroad wreck.

The name of William Hanson does not appear in the Hawaiian directories for the past six years.

SOCIALIST DEPUTIES RESIGN.

ROME, May 11.—All of the Socialist deputies have resigned as a result of the Government refusing to consider the bill regulating the use of arms by the troops and the police.

ZULUS ON THE WARPATH.

DURBAN, Africa, May 11.—One thousand Zulus are proceeding to join forces with the insurgent Chief Bambata. Serious trouble is feared.

UPPER HOUSE OPENED.

ST. PETERSBURG, May 11.—The upper house of Parliament has opened.

Lon Agnew Killed

FORMER PRIZE FIGHTER MEETS DEATH IN SAN FRANCISCO AT HANDS OF A FEDERAL OFFICER

News brought by the S. S. China today is to the effect that Lon Agnew, who was well known in Honolulu, was killed in San Francisco. Agnew was appointed chief of one of the divisions of the Citizens' Vigilance Committee. On Thursday night April 19, following the earthquake, Agnew got into a dispute over a matter of authority, with a Federal official. The dispute waxed quite high and Agnew finally made some gun play and was shot by the official. Agnew survived the wound several days but finally died at the Presidio Hospital. He was buried in the Presidio cemetery.

The news of the death of Agnew was brought by M. M. Stern who is a through passenger on the S. S. China. Stern is connected with the Pacific Mail S. S. Company and is going to Hong Kong, for the purpose of securing duplicate of the records of the Pacific Mail which were destroyed in the recent fire. He says that the details of Agnew's death were told him by Police Sergeant Duke of San Francisco. A brief mention of the occurrence was published in the Chronicle.

Agnew was at one time connected with the local police force. He was also physical instructor to the police force. He also appeared in the local prize ring until knocked out by Jack Weedy.

Agnew did not bear an especially good reputation here and in fact left Honolulu under a cloud. When the news that he had been shot and killed during the disaster in San Francisco, was first announced it was thought by many people that he had been shot for

China Came Early Today

LINER ARRIVED OFF PORT THIS MORNING FROM SAN FRANCISCO WITH MORE NEWS.

With mail since April 30 to May 5, the S. S. China arrived off port early this morning from San Francisco. She brought 44 passengers for Honolulu, the majority of them having passed through the horror. The vessel left San Francisco May 5, six days after the earthquake, so brought later details of the progress of rebuilding the city. The vessel brought 200 tons of freight for this port, which is much larger than she ordinarily brings. She has about 2,900 tons of freight for the Orient.

When the China got up to San Francisco two days after the earthquake and fire, the first intimation that any of those aboard the vessel had of the disaster was a huge column of smoke that was seen while the vessel was off the Farallones. Naturally no conception of the extent of the disaster was had until some time later. The first actual news that the people on the China received was when the pilot came alongside. He yelled out that an earthquake had come and San Francisco was being burned up. Then followed the utmost excitement aboard the vessel. Everybody was wild to obtain news of relatives or friends in the stricken city. But the passengers were not landed at San Francisco and were taken to Oakland. The China brought no regular files of the San Francisco newspaper, but various officers and passengers aboard had papers. Chief Steward W. K. Ashman very kindly provided the Star with a complete file of the San Francisco papers.

W. W. Brunner, the coffee planter of Hawaii, returned from San Francisco. George P. Castle, wife and daughters, returned from San Francisco. They were in San Francisco at the time of the fire.

C. F. Eckart, wife and child arrived. Mr. Eckart, who is in charge of the Planters' Experiment Station, went up to San Francisco on the Alameda last trip for the purpose of looking for his family who were in San Francisco at the time of the disaster.

J. C. Foss, Jr., was an arriving passenger. Mrs. C. Lacy Goodrich, wife of the purser of the S. S. America Maru, arrived for a visit to Honolulu.

H. L. Lewis arrived. M. M. O'Shaughnessy, the engineer, returned from San Francisco.

The China has a number of through passengers, the majority of them being government employees bound for Manila. She is scheduled to depart at 5 p. m. today from the Channel wharf for the Orient and Manila.

A BIG DIFFERENCE.

There is a difference in the flavor and quality of beers—that's why people who know drink Rainier Beer.

PARDEE THANKS HAWAII

GOVERNOR OF CALIFORNIA EXPRESSES APPRECIATION OF HAWAII'S SYMPATHY AND AID.

The following letter was received in the mail today:

"Hon. A. L. C. Atkinson, Acting Governor of Hawaii, Honolulu.

"My Dear Governor:—I received your cable message of sympathy and desire to thank you therefor. The relations between California and Hawaii have always been so intimate that we were sure of receiving all possible sympathy and assistance from your citizens. For the aid which your good people have sent in this present emergency, I wish to express our heartfelt gratitude. Very truly yours,

"GEO. C. PARDEE, Governor of California."

The ship Fort George arrived at Kaunapali May 9, 56 days from Newcastle.

MORGAN HEARD FROM

L. Tenney Peck, chairman of the Relief Finance Committee, received a letter from James F. Morgan this morning dated May 4. In it Morgan said he would remain in San Francisco until May 30, and would attend to any requests the committee made on him. His cable address is Morgan, San Francisco.

CAPTAINS TO BE ARRESTED

STOP ORDER ON STEERAGE REGULATION CRUSADE HAS BEEN CALLED OFF—ENFORCE LAW.

The captains of the Coptic, Mongolia, China, Siberia, Nippon Maru, Doric and Manchuria, and probably of all the other steamers which call here on the way and to and from the Orient, may prepare themselves for arrest when they next call at Honolulu, on charges similar to that preferred by the United States District Attorney here against Captain Goings of the America Maru. Advice was received by the local federal authorities from Washington this morning, approving the arrest of Captain Goings, and directing that further proceedings be taken against any other violators of the federal shipping law.

At the time of Goings' arrest was made it was expected that the masters of the next steamers from the Orient would be arrested in the same way, for violation of the laws regarding accommodations to be given steerage passengers. However, no such arrests were made. It appears that District Attorney Breckons received a cable order from the Department of Justice directing him to make no further arrests.

REV. FITZ CALLED ON TO RESIGN

IT IS SAID THAT THE QUEEN HAS OFFERED LAND FOR AN INDEPENDENT CHURCH.

The postponed meeting of the Hawaiian Congregation of St. Andrew's was held last evening. There was a large attendance for it was believed that the future relations of Rev. Frank Fitz to the congregation would be considered. Bishop Rostarkie presided. Queen Liliuokalani and the Princess Kalaninuihale among a very large attendance of the congregation were present.

Rev. Frank Fitz has been pastor of the congregation for some time, but it was reported among the members of the congregation that Bishop Rostarkie had called for his resignation last Saturday.

However, there was no discussion of the matter in the meeting, the question at issue in the matter being one simply between a priest and his bishop, it was said.

Nevertheless, the resignation of Rev. Fitz has stirred up a great deal of interest. He is popular with his congregation, and it is said that the Queen has offered land for a church and a residence for Mr. Fitz, if the Bishop insists on his resignation.

The following are the officers for the year elected by the Hawaiian Congregation of St. Andrew's: Warden B. K. Kariati; Secretary J. D. Aikoku; Treasurer Edmund Stiles; committee Henry Smith, J. H. Boyd and L. G. Blackman.

UNCLE SAM AND COUNTY

THE TWO ARE TO JOIN FORCES TO RID THE TOWN OF PREDATORY JAPANESE.

The federal and county authorities have joined forces in a general crusade on the Japanese pimps who infest Iwilei. The prosecuting will be done in the federal court, while the county police and United States Marshal Hendry will join in making arrests and furnishing evidence. Sheriff Brown and District Attorney Breckons have had a conference on the subject. A list of pimps has been gotten up, including over thirty names, and all have been notified by Breckons to "quit the business" and those who don't pay prompt attention to the notice will be brought into court.

The several hundred Japanese women in Iwilei are absolutely ruled by the gang of worthless countrymen who live on them. It is the Ten Dollar club over again, in a different form and on a smaller scale. An active campaign will be waged against them, with a view of landing them in jail or driving them out of town.

The conditions in Iwilei are said to much resemble those of the Ten Dollar club days, though there is no such complete and regular organization of pimps as that club.

REASSURING ABOUT STEAMERS

NEVADAN BRINGS ADVICE THAT TWO NEW AMERICAN-HAWAIIAN BOATS WERE NOT HURT.

News by the S. S. Nevada is of a more reassuring character regarding the new vessels of the American-Hawaiian line. It was reported some days ago that the two new boats that were on the ways in the Union Iron Works had been thrown forward about five feet and then had toppled over from the earthquake.

Captain Greene of the S. S. Nevada says that he was told before he left San Francisco that the two vessels had not been seriously damaged at all and it would not be necessary to rebuild them, as the first report seemed to indicate.

THE STAR IN KONA

COPIES OF EXTRAS TAKE THE DETAILS OF THE DISASTER IN SAN FRANCISCO.

The steamer Mauna Loa arrived this morning from her run to Maui and Hawaii ports with a large assortment of freight. She brought a fair size crowd of passengers. Purser Friel reports that the people at the various Hawaii and Maui ports were exceedingly grateful to The Star for sending copies of the extra edition issued by The Star last week on receipt of news by the S. S. Olympia.

There have been some good showers in Kona but none in Kau. Some light showers have fallen in the Hamakua district.

The vessel brought down two of the largest specimens of koa wood ever seen in Honolulu. They are two sections and measure 17 feet 4 inches in length by 4 feet 11 inches in width, and are 2½ inches thick. They were sent by J. Gaspar of Napoosoo.

EVIDENCE GOES IN

United States Judge Dole this morning decided the question of admission of evidence in the counterfeiting cases. Objection was made by Rawlins and Strauss for the defense to the testimony of J. Rooney, on the ground that he is serving a sentence and is incompetent to testify. The judge overruled the objection and allowed the testimony. The case will be resumed on Monday, with Rooney on the stand, if Juror Campbell is well. Rooney was indicted with the defendants on trial, Fuffy and Moore, but he pleaded guilty and is serving time.

WILL COLLECT POSTAGE NOW

Postmaster Pratt today received advice from San Francisco directing him to collect postage on all mail matter sent without stamps. Under the conditions in San Francisco, letters have been accepted without the payment of postage. Postmaster Pratt will have the letters delivered, but will collect postage, but without any extra penalty from the persons to whom they may be addressed.

THE QUEEN EMMA LOT

THE OAHU CENTRAL IMPROVEMENT CLUB COMMITTEE PROTESTS AGAINST ITS SALE.

The committee appointed by the Central Improvement Committee to call on the Acting Governor and protest against the sale of Queen Emma's lot met with the Governor this morning at 11 o'clock.

L. A. Thurston opened the meeting with the reading of the letter which was their authorization for calling on the governor.

The letter authorized the following as members of a committee to call upon the Governor in behalf of the Oahu Central Improvement Committee: L. A. Thurston, F. S. Dodge, C. W. Booth, C. B. Wood, A. B. Ingalls.

Mr. Thurston then read the resolution adopted last evening by the Improvement Club which appears in another column of this paper. After he had read the resolution he introduced F. S. Dodge who spoke at some length on the reason why the lot should be retained by the government for the purpose of placing a filtration plant thereon. Mr. Dodge also stated that the lot could be used to great advantage as a public park. He called attention to the large number of trees on the ground and stated that for a small amount of money the government could change the lot into one of the finest parks in the city. Mr. Dodge thought that the lot should be turned over to the park commission. If the executive power did not warrant the doing of this the next legislature should consider the matter, but on no account should the lot be sold. Mr. Dodge called attention to the fact that there were no parks or public playgrounds in that section, and that the location was an ideal one. At a small expense the lot could be made into a beautiful park. The short distance from the end of the car line made it within the reach of all and under no consideration should the lot be sold to private parties.

Dr. Wood was the next member of the committee to give his views on the situation. He confined himself to the necessity of a filter plant. He based

MARRIED.

LITTLE-STEVENSON—At San Francisco April 24, 1906, by the Rev. C. D. Raley Miss Jessie Little and Andrew Jackson Stevens.

DR. BISHOP TO DR. HAYES

DR. B. B. BISHOP DEMURS TO SOME OF THE POSITIONS TAKEN BY DR. HAYES.

EDITOR STAR: I thank you all the same for the very handsome bouquet you threw me yesterday; but I have just enough smattering of geology to know that you entirely over-estimate my knowledge of it.

Nevertheless, I am so presumptuous as to venture to demur to some positions of the eminent geologist Dr. Hayes, although he makes the same surmise as mine in respect to the immediate cause of the recent earthquake that it was a slipping of interior strata. This is in accordance with well established and generally accepted theory.

Where I disagree is with what he says of volcanoes. "The interior of the earth is probably not in a molten state, except in the region of volcanoes, but after you get down a distance of 60 or 70 miles the rocks are practically in a fluid state from the extreme pressure on top of them." No one has penetrated the crust of the earth more than a mile or two, or can assert anything from actual inspection. We can only infer from theories without absolute certainty. Dr. Hayes may be right, but the theory I strongly incline to is that the entire inner mass of the globe below a depth of 25 or 30 miles is at a temperature much exceeding that of molten lava issuing from volcanoes, which has parted with more or less of its heat in passing through the thirty miles of crust.

Notwithstanding that excessive heat, that interior mass of the globe is not liquid but solid, owing to the enormous pressure of thirty miles of rock. Its solidity seems to be proved by the fact that it transmits seismic vibrations or earthquake tremors, in direct line, which only a body of rigid solidity could do. Every seismograph makes a double record of earth tremors sent from another side of the globe. One record is sent around the crust, and the other cuts straight across through the interior. Thus we seem to know that the fiery interior of the earth is not fluid, but solid.

Nevertheless, whenever from any cause the pressure is removed, the fiery magma at once liquifies, its occluded gases expand, and it pours up in a volcanic eruption. Such is a consistent theory of volcanic force, modified by contact of the magma with ocean or surface waters, producing violent explosive action.

An earthquake may result from the rending force of such volcanic action in breaking its way to the surface as in the great Kau earthquake of 1868. Or it may result from the breaking away of the side of an island as the north side of Molokai once broke away and fell into the sea; or in similar manner the northeast side of Kohala mountain. Such vast fractures would necessarily generate earthquake shocks.

Or a third, and probably more frequent cause, is the slipping of interior strata having no connection with volcanoes, as in the California temblors. As Dr. Hayes well states it, the rock foundations are in a state of change and have to readjust themselves, and shape anew into place. The earth is slowly cooling and shrinking, and its outer crust keeps wrinkling up against it. Nothing is absolutely stable. TERRA FIRMA is with great limitation.

S. E. BISHOP.
Honolulu, May 10, 1906.

IMMEDIATE NOTICE OF LOSS NECESSARY

INSURANCE COMMISSIONER GIVES POINTERS TO THOSE
WHO SUSTAINED LOSS BY FIRE AND HOLD POLICIES
—THEY MUST BE PRESENTED AT ONCE IF THEY
WOULD CLAIM LOSSES.

SAN FRANCISCO, May 3.—Insurance Commissioner Wolf has
issued the following notice to the public:

"All persons who expect reimbursement from insurance companies
for losses sustained by the recent calamity are advised to give im-
mediate notice of loss. While such action may not be legally necessary,
this suggestion is made in order to obviate the possibility of any tech-
nicity that might result disadvantageously to policy-holders.

"The notice should be in the form of a brief letter addressed to the
company specifying the character and location of the property insured,
the degree of loss sustained, whether partial or total, the date of the
destruction and the amount and number of the policy, if possible to
give the same.

"All of the companies are meeting in Reed's Hall, at Thirteenth and
Webster streets, Oakland, and at present letters should be mailed to
that address. If a change of address be made, notice thereof will be
given.

"Proofs of loss must be made within sixty days and these should
be made upon blanks which will be furnished by the companies at a
later date.

"The companies will establish some central point in San Francisco
at which this may be done. Notice will be given of the place as soon
as same is determined upon."

OAKLAND, May 2.—Another meeting of the insurance companies
was held at Reed Hall this morning. It was announced that the first
installment of proofs of loss had arrived from the East, and telegrams
from the publishers showed that the balance will be shipped as soon
as possible.

The committee appointed to secure the use of certain rooms at the
Ferry building reported that they had been successful, through the
courtesy of the Harbor Commissioners, so that within ten days head-
quarters will be established there for the use of adjusters and for the
convenience of claimants. However, the bureau will continue to meet
in Oakland for several weeks, if not months. By keeping quarters in
both cities it is expected to facilitate the work of paying the companies' losses.

A meeting largely attended of Eastern adjusters that are upon the
ground was held in the afternoon. It was voted that they would re-
commend to the adjusting bureau the appointment of seven Eastern
adjusters, to act in conjunction with the local adjusters. Many of
these Eastern men have had great experience in the adjustment of
losses in the East, and are well known throughout the country. Some
of them have been given the broadest authority by their respective
companies, looking to speedy and effective work. The meeting of
Eastern adjusters was presided over by Mr. Atwood of the Rochester
German of New York, who had been here for several days, and who
doubtless will remain for several months. He took part in the adjust-
ment of losses at Baltimore, which consumed four months, and where
the losses were small as compared with those of the recent disaster.

ALAMEDA'S SUGAR WAS NEEDED

THE SAN FRANCISCO CHRONICLE
SPEAKS OF THE ARRIVAL OF
THE ALAMEDA WITH SUGAR.

SAN FRANCISCO, April 26.—The S.
S. Alameda arrived yesterday from the
Orient, having on board a supply of
sugar at present badly needed, which
will probably be distributed by the Re-
lief Committee. The cargo included
10,000 sacks of refined sugar and over
32,000 sacks of the raw material, to-
gether with a quantity of coffee, some
rice and 4000 bunches of bananas. News
of the earthquake and fire was re-
ceived at Honolulu a few hours before
the scheduled departure of the vessel.

First Officer P. Anderson said: "The
Alameda was to have cleared for this
port an hour after the earthquake,
but the few details of the disaster re-
ceived before cable operations were
suspended induced the agent to hold
the Alameda until the next morning.
During all that time we received no
further information. Extras issued on
Wednesday made public what was
known of the catastrophe, and a thou-
sand people crowded around the cable
office trying in vain to send messages
to friends or relatives in San Francisco.

Young Girls

Avoid The Dangers and Sufferings of Womanhood

Many a girl who graduates
from high school or female
college with a brilliant record
and high standing is broken
down before she is twenty.

Nowadays girls are pushed
to the limit of their endurance
both in school and society.
They must make a success
—even if they are forever
unfitted for the larger school
of life and debarred from
the happiness of motherhood.

At this time of life, when just entering upon womanhood, nature makes
heavy drains upon the vitality, especially at each monthly period.

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over
this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.
MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A
little more than a year ago I was unwell for the first time, and since then I have been sick all
the time in some way or other and suffered with painful and irregular periods. I went to a sum-
mer resort for my health and was doctored all summer, but to no effect. I have not been unwell
for two months and thought I would see if you could do me any good. I attend High School
and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:—Some time ago I wrote to you for advice, being troubled with
irregular and painful periods and female troubles. I began taking Lydia E. Pinkham's Vegeta-
ble Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am com-
pletely cured and have not had any sickness since. I wish to thank you for your kind advice
and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave.,
North Adams, Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice.
Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her
direction, and since her decease, she has been advising sick women free of charge.
Thousands of women are well, strong and beautiful to-day because they made a confidant of
Mrs. Pinkham and followed her instructions at this critical time of their lives.

Points to Consider When Piano Buying

The piano must be full toned—deep and resonant, not shallow and
tinny. It must have a good action—not too easy, because the too-easy
kind soon get loose and rattle. The case must be made of genuine hard
wood—not a cheap stained imitation. Then the material must be of the
very best. If you buy a Fischer piano you are getting all these good
points and we sell the Fischer on easy monthly payments.

FRIDAY MAY 11, 1906

The Japanese Beetle Question

There was a discussion of the Japanese beetle question at the meeting of the Oahu Central Improvement Club last evening. A good deal of it displayed a surprising lack of knowledge of what the entomological department of the Territorial government has done in this matter, and what it is possible to do in the warfare against the beetle by following the instructions of the department in this matter. Prof Koebele several years ago discovered a fungus antidote for the Japanese beetle. He formulated very simple plans for keeping up the supply of the fungus and for inoculating the soil and the beetles with it. The Board of Agriculture and Forestry keep a supply of the fungus on hand. It stands ready at all times to supply inoculated beetles in exchange for healthy ones to everybody who will take the trouble to gather the healthy ones and set the inoculated ones free where they can spread the contagion of the fungus. Portions of the fungus are supplied, too, to those asking for it, with simple and complete instructions for reproducing it.

The question of the Japanese beetle is simply a question of effort, continuous and systematic, along lines that are simple and easy and scientific; where the material and instruction are free. If the people of any locality want to get rid of the Japanese beetle, they can do it without any great outlay or difficulty, except in localities like Waimea, on Kauai, which are exceedingly dry. There is every reason to believe that the Japanese beetle could be practically exterminated from the island, or indeed from the whole territory, within a year or two, if there were concurrent action on the part of every household. The Improvement Clubs could do no more important work than inaugurating a widespread, consistent, and co-operative campaign against the Japanese beetle. It will be found that the Department of Agriculture and Forestry is ready to co-operate heartily. The result would be more in beauty and utility, than almost any other endeavor that could be undertaken.

Zone Theory Of Earthquakes

The San Francisco earthquake has started the theory of earthquake zones again. Just now the proponents of the earthquake zone theory think the zone lies along the Pacific coast, the growing of the coast mountains contributing to seismic disturbances. In 1755 the earthquake zone in the United States seemed to be limited to New England and there was then a disposition to hold the country northeast of Quebec responsible for the disturbance. The earthquake in Massachusetts began November 18 with a roaring noise like that of thunder. This was followed by a severe shock "with a swell like that of a long rolling sea." Then came other shocks culminating in a series of violent jerks and wrenches.

In 1811 startling evidence was submitted to show that the earthquake zone was in the Mississippi valley. In the country extending 300 miles southward from the mouth of the Ohio there was almost incessant quaking of the ground for several months. Over this whole region, far from any active volcano, the ground rose and sank in great undulations. Lakes were formed and were again drained, the course of river was changed, counties were transferred from one side of the river to the other, and new islands were formed.

The surface burst open in great fissures half a mile in length, from which mud and water were thrown as high as the tree tops. There was a sinking of ground over a large part of the district and for months there were phenomena that amazed the scientists and distressed the people. The disturbances continued until March 26, 1812, when they ceased coincidentally with the great earthquake at Caracas.

This New Madrid earthquake, one of the most notable in history, never was satisfactorily accounted for by scientists or laymen, but the "sunk country" is still a reminder of its terrors. In nearly a hundred years there has been no return to the extraordinary conditions of 1811-12, and, whatever else may be said of it, that part of the Mississippi valley is not suspected of being in the earthquake zone.

In October, 1870, an earthquake starting northeast of Quebec extended to St. John's, New York, Montreal, and Chicago. This was closely observed and it was predicted that there was trouble in store for the lake region. Among the possibilities were the destruction of Niagara Falls and the turning of lake waters down a new channel to be carved by an earthquake across the divide between the lake basin and the valley of the Illinois.

In 1886 the terrific experience at Charleston put the Atlantic coast in the earthquake zone. Now the appalling disaster in California puts the Pacific coast, west of the mountains, in the earthquake zone, with intimations from the scientists that it must remain there while the mountains continue to grow.

But who knows? The New England people have forgotten they ever had earthquakes. The new generation in the Mississippi valley regards the New Madrid upheaval as a wonder story. Chicago and New York scout the idea that they are or ever can be in the earthquake zone. Possibly when years have passed San Francisco may point to a record of exemption from shocks and ask, "Where is the earthquake zone?"

The Band And Its Concerts

No more striking evidence of the hold the Hawaiian Band has on this community, and its importance as an institution could be furnished than by its last two concerts—the one Wednesday night at the Moana Hotel. The two places probably represent the extremes in this thoroughly cosmopolitan city. Aala Park is in the very center of a dense population largely Asiatic, but also with a considerable proportion of Hawaiians, and within easy access of a considerable white population. It is so located that a very large population can get to the concert held there without taking the street car. The Moana Hotel is not in a densely populated part of the city. Most people to go to a concert there must take street cars or some other means of conveyance. It is in a desirable residence locality. It is accessible to Camp McKinley and to a considerable population of Hawaiians.

On both evenings the weather was threatening, and there was some rain. Yet both concerts were well attended, considering the locality of each. At Aala Park there were at least 1500 people in attendance at one time. During the evening there was probably 2,000 people. At the Moana Hotel, of course the attendance was nothing like as large probably not more than 200 or 300 people at most being there during the evening. But this, all things considered, is a satisfactory attendance.

The Aala Park concert attendance, in many respects the most

interesting. It gives some idea of the large and wholesome influence the band exerts on elements of our population, among whom, in the ordinary course of affairs, few wholesome influences are exerted, and among whom it is difficult to disseminate altruistic and wholesome influences. It would be hard to estimate the educative and uplifting influence of these concerts given every Wednesday evening in Aala Park.

On the other hand, the concerts in such localities as that of the Moana Hotel are equally important, as touching with a common and beneficial influence different elements of the population. The band is an institution and an influence that the whole community has in common, and which makes constantly for the unity and betterment of all elements in the community. That it gives concerts, equally public and equally free, in different localities, and in different environments, while subtly philosophical, is one of the best practical features of the band concerts as an institution.

As Edward VII. has been a good, reliable journeyman king, the University of Pennsylvania feels that a degree of LL. D. is not too high an honor to confer on him.

A scarlet tobacco plant has been evolved by a horticultural expert. If we just give Jared Smith and the other experts time enough they will probably come at us with a self-lighting cigar.

The Wisconsin scientist who thought all the time that there would be a disastrous earthquake some day at San Francisco need not be proud. Among the residents of the stricken city doubtless 999 out of every thousand have been saying the same thing since April 18.

Of course it is understood that in setting aside lands free for a tobacco experiment, the Territorial government does not intend to go on record as approving the use of that "Great Vegetable."

Mike the Molokan has gone back to make his countrymen on Kauai work, or to work them.

FIREMAN'S FUND AND HOME INS. CO.

BISHOP & CO. RECEIVE LETTERS FROM COMPANIES STATING LOSSES WILL BE PAID.

The following are copies of letters which the Insurance Department of Bishop & Co. received by today's steamer China from the Fireman's Fund Insurance Company and the Home Fire and Marine Insurance Company of California the home offices of both of which are in San Francisco: Fireman's Fund Insurance Company

Oakland, Cal., May 2nd, 1906.
No doubt by this time you have had a full account of the great disaster which befell San Francisco, and which caused the destruction of about three-fourths of the city. Probably never again in the history of the world will such conditions exist as did on the morning of the 18th of April.

The earthquake was of unusual severity causing the destruction of many buildings; then the death of the Fire Chief Sullivan by a chimney from the California Hotel falling through the Engine house upon the bed in which he was lying; the breaking of the water mains; the tearing asunder of gas pipes and electric wires; fires breaking out in thirty or more places at one time, and the lack of the prevailing trade wind. If the strong northwest trades had been blowing the fires which began near the city front would probably have been confined to that section, as the wind would have blown the flames towards the water. Instead of this there were only light variable winds which caused the flames to go from one part of the city to another, and then retrace its steps over that section which it had not already burned.

While the Fireman's Fund Insurance Company will undoubtedly be a heavy loser by the disaster, the company will continue to transact business as it has done in the past and sustain the reputation it has honestly earned for paying its just losses promptly and in full. At a meeting of the Board of Directors the following resolution was adopted without a dissenting voice:

"The Board of Directors of the Fireman's Fund Insurance Company announce that the company is amply able to pay all liabilities accruing under its policies involved in the great San Francisco conflagration, and at their meeting held April 27th, 1906, unanimously instructed its officers to pay all claims as adjusted, and continue business as usual."

Besides this the company has had numerous financial offers to assist it, if necessary, in the prosecution of its business. As the directors are all very wealthy men, outside assistance is not needed.

LOUIS WEINMANN,
Secretary Fireman's Fund Insurance Company.

Home Fire & Marine Insurance Company of California.
Oakland, April 28th, 1906.

San Francisco has met the baptism of fire to which all cities are liable, and which for the past half century, but it has come in a manner more appalling, and in a measure more destructive, than had ever been deemed possible.

To those who were present and experienced the full measure of the disaster, description is superfluous; to those who were not, it is inadequate.

The earthquake severed our main water supply pipe, and crushed the chief engineer of our fire department under a falling wall, and fires which followed from shattered chimneys and grounded electric wires found us deprived of all defence, and our fair city doomed to destruction.

It is as yet impossible to accurately estimate the total value of property destroyed, but while it runs well into the hundreds of millions and leads in destruction all the fires of the world's history it is safe to say that all the more conservative companies will honorably meet their policy obligations. So far as the Home Fire & Marine Insurance Company is concerned, OF COURSE WE WILL.

We realize from past experience that insurance companies are organized to protect policy holders in just such an emergency, and have endeavored to regulate our lines accordingly.

The records of most of the companies are either destroyed or still buried in the ruins and cannot be reached for some days yet, and it will be only after the rescue of such as are unburned, and the reinstatement from outside sources of many destroyed records, that the liability of the various insurance companies can be ascertained.

In our own case, the vaults seen to be intact, so we hope our more important records are saved, although they may not be available for a week or two.

We have located our temporary office, to which address please forward until further notice all communications.

When the unsafe walls are removed, and sufficient debris cleared away to permit, we intend to erect a temporary structure where we have done business for almost half a century, and we hope it may not be long ere we shall be again able to head our letters and greet you at the same old place as heretofore; meantime please address all communications to us at 506 Ninth street, Oakland, Cal.

(Signed) **WM. J. DUTTON,**
President Home Fire and Marine Insurance Co. of California.

SUPPLIES FOR MARINE GUARD.
Major Fuller of the Marine Corps is shipping some stores for the marine guard at Midway by the steamer Iwawani tomorrow.

CAPTAINS TO BE ARRESTED

(Continued from Page One).

and to let the going matter drop until further orders.

The instruction today directs that matters proceed. The local officials' proceedings in the going case are approved after investigation, and it is ordered that similar arrests be made in all cases where the law is being violated.

Since the going case, it is known, the officials have been keeping tab on every steamer calling here, and they are therefore supplied with evidence regarding each one. The steamers already named are those which have passed through since the arrest of the captain of the America Maru. There are others which are said to have violated the law.

The principal effect of the decision by the Department of Justice to press the cases will be some radical changes in the storage accommodations of the vessels affected. They will have to provide for more space for each passenger and for segregation of the sexes. The regulations with regard to food and to supplying tables and chairs, etc., will not be enforced, it is stated, not being regarded as applicable to Asiatics.

COMMITTEE PROTESTS
(Continued from page one.)

his remarks upon the statement reported to have been made by Superintendent Holloway of the Public Works Department to the effect that a filtration plant was not needed. Dr. Wood stated that such a plant was needed, for it was almost entirely by water that typhoid fever was spread. Dr. Wood stated that there was no other idea among medical men than that such a filtration plant is a necessity. One single case of typhoid might be spread to the whole community by means of water conduction. Dr. Wood cited a case in Germany where on one side of a street filtered water was used and on the other side unfiltered water. Cholera was prevalent and all of the people using the water suffered heavily while there were but few cases to cross the street.

The Acting Governor wished to know if Dr. Wood knew of any place as small as this one where a plant was used. Dr. Wood could not answer as he had not studied the matter.

Charles Booth spoke and stated that he agreed entirely with F. S. Dodge.

L. A. Thurston then took the floor and spoke at great length on the subject, answering many questions asked by the Governor. Mr. Thurston stated that the idea was not a new one for it had been discussed for many years. He thought now that the time had come for it to be decided. "People of this community need an earthquake to wake them up," stated Mr. Thurston, "and now that they are awake the chance must not be let go."

Mr. Thurston stated that the valleys of Manoa and Kulihi did not need a filtration plant as badly as did Nuuanu. The other had no road across the islands and the traffic was not as heavy as it was in Nuuanu. Here the need was imperative for a filtration plant. He spoke of several different kinds of plants that might be used, but stated that he thought that the best plan was to filter by running the water through sand.

The matter of filtration plant was dropped here and that of the parks taken up. The Acting Governor upon being called a "park crank" by L. A. Thurston, stated that while he was a crank on that subject, that he found it very difficult to enlist either the sympathy or financial aid of the residents of this community in the matter of parks. He stated that for some time he had tried to get \$50 to start a park in the Kakaako district and had so far failed. Another thing was that he had been informed that the Rapid Transit did not intend to extend its lines further up Nuuanu. However the Governor thought the idea of having the lot made into a park a good one.

L. A. Thurston stated that there were few places of historical interest about Honolulu and that he thought that this place would be a good place to start in.

A. B. Ingalls said that he was in hearty sympathy with the park movement.

The committee having discussed at length with the Governor the matter here ended the interview.

WILL APPEAL TODAY.

The County Attorney had dictated all of his papers in the Kaplan Park matter and will make his appeal to the Supreme Court this afternoon. The appeal is made so that the adjudication of the powers of the Board of Supervisors in the matter of appropriating moneys may be settled definitely.

PORT GEORGE IN DANGER.

The ship Port George which arrived at Kananapali Wednesday from Newcastle had a narrow escape from going on the rocks. The anchor chain parted immediately after she dropped her first anchor. The second anchor was dropped and held.

Tax Assessor Holt will keep the Tax office open tomorrow from 8 a. m. to 5 p. m. and on Monday and Tuesday from 8 a. m. to 9 p. m. to give taxpayers opportunity of paying their income, property and specific taxes. One-half the amount of such taxes unpaid on or before May 15 will thereafter be delinquent and subject to interest at 10 per cent per annum besides a penalty of 10 per cent on the amount delinquent.

SHIPPING INTELLIGENCE

KAANAPALI.
Arriving, May 9—Am. ship Fort George, Fullerton, 30 days from Newcastle.
Departing, May 10, Am. ship Aloha Dabel, for San Francisco.

KAHULUI.
Arriving, May 11—Am. ship F. M. Slade, Larsen, 27 days from Gray's Harbor.

MORE WORK FOR COUNTY CLERK.

The County Clerk's office hereafter is to have charge of the work of house numbering. The Public Works Department has had charge of this matter until this time, but today all of the records will be turned over to the County Clerk by Superintendent Holloway.

READY FOR APPEAL.

In the case of Iverson and others against the Pacific Mail Steamship Co. United States Judge Dole this morning gave a ruling to the effect that it was not necessary to allow consolidation of the cases for appeal. It was held that they were consolidated for the trial here and remain so for any further steps that may be taken.

VERDICT SET ASIDE.

A wireless from Deputy Attorney General Prosser was received yesterday by Attorney General Peters received word from Kailua, Hawaii, that Judge Matthewman had set aside the verdict in the case of Baker against A. M. Brown et al. This was a case wherein David K. Baker, now a deputy sheriff, with his wife went in and took possession of a school house, from which they were later evicted with some force by Deputy Sheriff C. F. Chillingworth. Baker and his wife brought suit for \$20,000 damages against A. M. Brown, the late A. T. Atkinson, then Superintendent of Schools, Lorrin A. Andrews, sheriff of Hawaii and G. P. Kamaoaha. The jury brought in a verdict, assessing damages against A. M. Brown for \$500, against Atkinson for \$2500 and against Andrews and Kamaoaha for one dollar each. The ground of setting aside the verdict was the illegal apportionment of damages by the jury.

MANHATTAN BROKERAGE.

The Manhattan Brokerage Co., located for the past eighteen years at 17 Place New York, has called instructions to establish a branch office in Honolulu and A. E. Murphy is installed as manager. This company deals only with distributors and will accept orders, to be transmitted by cable or letter, for the purchase of commodities used on these islands. Local capital is interested in this new enterprise and the purchase of supplies in New York, England, Spanish America, the Orient or the Colonies will be in the hands of experts familiar with different lines. The temporary telephone is Main 471 and the location of the offices of the company will be announced later.

Fine Job Printing, Star Office.

NEW ADVERTISEMENTS.

San Francisco, Cal., May 2, 1906.
Mr. J. M. Dowsett, Agent, Hartford Fire Insurance Co., Honolulu, T. H.

Dear Sir:—We have just been officially advised by Geo. L. Chase, President, that the Capital of the Hartford Fire Insurance Company has been increased from \$1,250,000 to \$2,000,000.

The best evidence that the Company is fully able to meet the demands made upon it by its losses in San Francisco is the fact that this additional stock was sold at \$500 per share after the San Francisco conflagration, the par value being \$100.

This adds \$750,000 to the Capital and \$3,000,000 to the Surplus, which will pay all possible losses in San Francisco and leave a Surplus to Policy-holders of over \$1,000,000.

We congratulate you and ourselves in representing a Company that has earned and acquired such confidence on the part of financiers. It is in such emergencies as that caused by the terrible calamity in San Francisco that the true character and strength of a Company are revealed.

Yours very truly,

PALACHE & HEWITT,
General Agents Hartford Fire Insurance Company.

CUSTOM HOUSE, Honolulu Collectors' Office, May 7, 1906.

Supplies for Revenue Cutters.—Sealed proposals for supplying ship chandlery, rations, and coal to vessels of the Revenue-Cutter Service, regularly stationed, or temporarily at Honolulu, H. T., and delivered on board said vessels at that place at such times and in such quantities as may be required during the fiscal year ending June 30, 1907, will be received at this office until 2 o'clock p. m. of Tuesday, May 15, 1906, at which time and place they will be publicly opened. Blank forms of proposals for coal, ship chandlery, and rations, showing conditions as to coal, articles of ship chandlery, and component parts of rations with specifications, may be had upon application to this Office; proposals must be submitted on these forms. Separate bids will also be received at the same time and place for lubricating and illuminating oils. The right is reserved to reject any or all bids and to waive defects if it is deemed for the interests of the Government to do so, and no contract will be put in force until Congress shall have made an appropriation for the purpose. **E. R. STACKABLE, Collector.**

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Ticket, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trent & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10

Fine Job Printing, Star Office.

RESOLUTIONS ABOUT ATKINSON
HAWAII BOARD OF SUPERVISORS
EXPRESS REGRETS TO THE ACTING GOVERNOR.

Acting Governor Atkinson this morning received the following from Hawaii:

"Whereas, It has pleased Almighty God to remove by death Alatau T. Atkinson, father of the Acting Governor of this Territory.

"Therefore, be it Resolved, that we sincerely sympathize with the family of the deceased, on which it has pleased Divine Providence to inflict such a sad bereavement, and we commend them to Him who orders all things for the best.

"Resolved, further that these resolutions be spread upon the record and a copy thereof transmitted to Acting Governor Atkinson by the clerk.

"**JOHN T. MOIR.**"

NEVADAN ARRIVED.

The S. S. Nevadan arrived yesterday afternoon 8 days and 10 hours from Seattle. She brought a large cargo of stuff for Honolulu and some for Kailua but brought no mail. She had \$3,000 pieces for Honolulu, of which 30,000 were sacks of flour. She brought fresh fruits, refrigerated stores, some groceries and also some butter in the ice house. The trip was uneventful.

With Captain Greene, the master, came his wife. Mrs. Klitgaard, wife of the chief engineer of the vessel also arrived. The women were aboard the vessel on the morning of April 18. The vessel was at Crockett refinery discharging. The earthquake shock was distinctly felt by those on the Nevadan. Later the Nevadan went down the bay and anchored off San Francisco and those aboard her watched the city being destroyed by flames. Captain Greene thinks that his house escaped the fire but the residence of Chief Engineer Klitgaard was evidently destroyed by the flames.

CANE HARVESTER

G. P. Thielon received a letter today from Inventor Gineca, stating that the cane harvester which had been burned in San Francisco was being duplicated and that the parts would be ready for shipment to Honolulu by the Alameda this month. It is expected that the machine will be rebuilt in 90 days and the various parts be shipped to Honolulu so that the machine can be put together in time to be at work in the present crop.

\$250,000

A purported interview with E. R. Adams in the San Francisco Bulletin of May 1 contains the statement that Honolulu has \$100,000 for the relief fund and will raise double that amount if needed. Adams and J. F. Morgan arrived in the city on the first. The same article says that the news was brought by J. F. Morgan that Honolulu has raised \$250,000 for the fund.

FOR TREASURER

F. T. P. Waterhouse, the "Mark Hanna" of the last campaign, is another Republican candidate for the office of county treasurer. Waterhouse will probably go before the convention as a contestant for the nomination, against Shingle, Thielon and others.

Fine Job Printing, Star Office.

We have now a combination, in the proper proportions, of pure white lead and zinc. It is

Michigan Seal White Lead

Being ground and mixed by specially constructed machinery, the combination of the two materials is much more thorough than when done by hand.

It is put up in steel kegs which prevent absorption of oil, keeping the lead in perfect condition. The kegs are light and have a handle, making a handy paint bucket.

It is a well known fact among painters that white lead and zinc in proper proportions is the best material for this climate. It gives a harder and more durable surface.

Don't neglect your cough. Stop it at once and drive away all thought of consumption. Begin as early as possible—the sooner the better—to take

Ayer's Cherry Pectoral

the most effective remedy for coughs and colds of every kind and in every stage.

One of the most annoying coughs is a throat cough, where you have constant tickling in your throat.

It comes on worse at night, keeps you awake, and makes you have that smothered feeling in the chest. Ayer's Cherry Pectoral quiets the cough, makes breathing easy, and heals the lungs. There is no other remedy so surely to be relied on.

There are many substitutes and imitations. Beware of them and of so-called "Genuine Cherry Pectoral." Be sure you get AYER'S Cherry Pectoral.

Put up in large and small bottles.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

The above will be repeated four times during season.

Tomorrow will bring solace to the baseball fans who have waited so patiently for the 12th of May. Tomorrow the magic words "Play Ball" will echo again at the baseball park and only those who love the great national game of America know what that means to the American fan. Tomorrow the baseball season of 1904 for the championship of the Hawaiian Islands will open as it has opened three times before. Each year the league grows in popularity and the outlook for this year is particularly good.

Although it has only been six months since the season of 1903 was brought to a close yet it seems a long while to the fans since they last climbed to their places in the grandstand to maunch their peanuts and shout encouragement to their favorites or to hoot derision at the opponents of their friends. The professors who have been wanting to attend in order to listen to the flow of wit always present will welcome tomorrow as eagerly as the small boy who will climb to his favorite limb in the Algoroba trees beyond the park. For many days past during the bright afternoons that the sun is shining the thoughts of the people who love the game have turned regretfully towards the baseball park and the remark is heard, "I wish there was a ball game this afternoon."

But tomorrow ends all the suspense. At two o'clock the Punahous will meet the Oahus and will open the season of 1904. The managers of both teams claim that the game is theirs. Those who watched "progressive" a few days ago are placing their coin on the Punahous. Perhaps—but look out. Only about half of the regular players of the Oahus were in that last carnival of ball.

Kams and Mailles will also meet. It is hard to pick a winner here. The following of the two teams seem to be equally divided.

At one o'clock tomorrow the teams of the league will meet on the corner of King and Fort streets. They will board a car there and will be taken for a car ride through the city. "Cap" Berger and his boys will have a private car and will precede the boys to let the people know that they are coming. "Cap" has fixed up a special program for the occasion and from his little seat in front will force the music from his aggregation as only he can.

Desha is the slab artist for the Punahous. He will deal them out in assorted doses and as fast as the Oahus get next to one kind he will have something else warm for them. The boy has been practicing hard and his team mates say he is the only original phenom that Hawaii has ever seen.

Hampton will be the boy who will mix them for the Punahous. Now anyone who has ever seen that boy in practice will know that something is going to happen when he does get his dander up and goes for the other crowd. He is said to have the spit and several other kinds of foxy moves down fine. He is supposed to be a wonder.

Remember the date, boys, tomorrow at two o'clock at the baseball grounds.

RESOLVE TO TRY TO GET PURE WATER.

The Oahu Central Improvement Committee met last evening and was largely attended by the delegates from the different clubs of the city. The following resolution was read and adopted after much discussion.

1.—That we believe that the sanitary welfare of Honolulu requires the filtration of all surface water consumed in this city.

2.—That from reliable information, we believe that the lot in Nuuanu Valley known as the "Queen Emma Lot" is well fitted for the purposes of a filter plant, having been purchased by the government for that specific purpose, after full investigation and deliberation; and, so far as we are informed there is no other locality equally suitable or available.

3.—That such portions of said lot as are not required for filtration purposes are eminently appropriate for park purposes, it being well wooded with choice trees, in a portion of the city where there is no park reservation, and at a point which at no distant day will probably be reached by the Rapid Transit system;

4.—That in view of the small amount of land owned by the government in or around Honolulu, suitable for the purposes above mentioned, or for other public purposes, we deprecate the proposed sale of said lot, and most earnestly urge those in control of said matters to withdraw said lot from sale, at least until the questions incidental to the public interest therein can be fully investigated and considered.

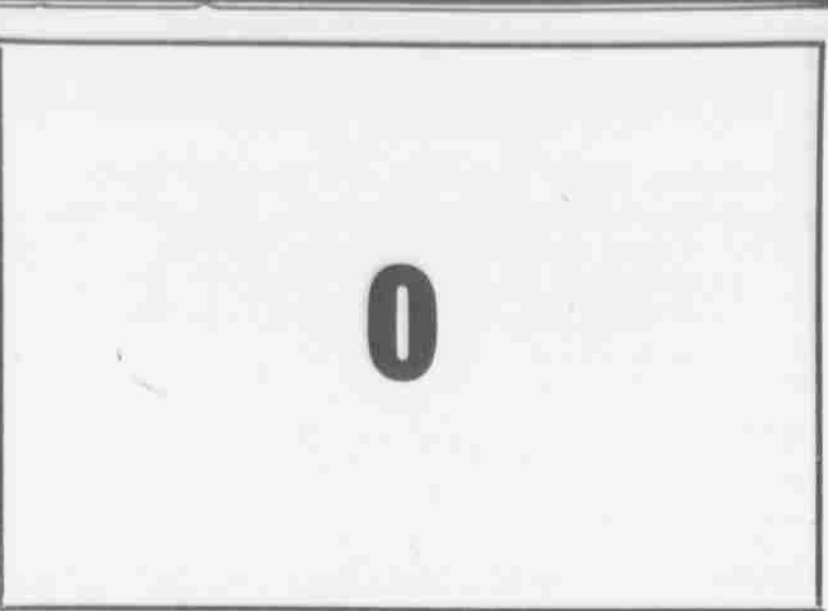

Resolved, That copies of these resolutions be presented to the Acting Governor, the Superintendent of Public Works and the Land Commissioner by a committee of five, to be named by the chairman of this meeting, and that such committee do ask for a hearing before said officers for the purpose of presenting arguments in support of these resolutions.

Those speaking on the resolution were L. A. Thurston, Dr. C. B. Wood and F. S. Dodge. In the general discussion which followed the introduction of the resolution John Kidwell, Senator Dickey, General Davis and others took part.

The Japanese beetle was also discussed. Several remedies were suggested.

The club indorsed the petition of the McCully Tract Club asking for the opening of Young street through the Jaeger and other properties.

The sidewalk committee reported the following locations as being badly in need of sidewalks. Alakea street, between King and the harbor; Richard street, between King and the waterfront; Richards street, mauka of Hotel street; King street, opposite Bishop street; Fort street, below Queen street on the government property and on upper end at the rear entrance to the High School; Nuuanu street, from King to Hotel, Merchant street, from Fort to Alakea, and Bethel street, on the Waikiki side from Hotel to King street.

ant to Captain Gray, manager of the Merchants and Shipowners' Towboat Company at San Francisco.

There will be a meeting of the Pa-u Improvement Club next Monday evening, May 11, at the office of the Board of Agriculture and Forestry, King Street, at 7:30 o'clock. A number of important matters are to come before the meeting. The territory of this club now includes both sides of Makiki and Keweenaw streets, as far as Makiki as Wilder Avenue. It is hoped all will attend the meeting.

PUT SIGNS ON DEAD LOOTERS

CHIEF STEWARD ASHMAN OF THE CHINA TELLS OF SOME GHASTLY SIGHTS IN PRISCO.

"I tell you," said Chief Steward W. K. Ashman of the S. S. China this morning, "no one can have any idea of the conditions that prevailed in San Francisco after the disaster. Money was practically worthless. It was not worth so much as a bag of wood. People who were rich enough to buy out the Spring Valley Water Works were standing in line along with the poorest citizens, getting their rations of bread and a little water. Money could not buy anything in that city, the only way to get rations was from the relief depots.

"I believe that fully forty men were killed for looting. In some instances very grave mistakes were made and innocent people were killed. I did not see any one killed for looting, but I noticed one body lying on Turk street with a placard pinned to it saying: 'Shot for looting.' There must have been regular signs printed for such purpose. Sticking out of one of the pockets of the clothes on the body that I saw was a woman's hand, on which were numerous rings. The man had evidently cut the hand from the body of some woman in order to secure the rings."

"The bodies of looters were left in the street unburied for several days, evidently to serve a warning. Most of those who were shot were evidently of the tougher element. The body that I saw was evidently that of a tough."

"One shocking case of an innocent man being shot occurred on Van Ness avenue. The body of a well dressed man was lying in the street and a woman placed a handkerchief over the man's face. The wind blew the handkerchief away and a man picked up the handkerchief and stooped over the body to cover the face again. While engaged in this act he was shot dead, I presume, by one of the soldiers."

HOW MARKET STREET LOOKED

LETTER FROM ONE WHO WENT UP ON THE VENTURA—VIVID DESCRIPTION OF RUIN.

The following interesting letter was received by the China from R. W. Green who went up on the Ventura. It gives a vivid description of the city as it appeared to the new arrival.

STANFORD UNIVERSITY, Cal., May 3, 1906.—Well when we picked up the Farallone light about 10 p. m. last Tuesday and slipped into the Golden Gate the place were Frisco used to be was all dark. Across the bay the Oakland waterfront shone with the glare of the electric light on our right with the single exception of a handful of lights at the Presidio it was dark and over all the glare in the sky of the fire still burning in the ruins beyond. I spent most of the night on deck waiting for daylight. The pilot we picked up outside brought an edition of the Chronicle and wanted to know what day it was. There was little news in the paper; mostly ads and talk of the greater San Francisco on the road, however the eastern baseball scores were there along with the rest. I tell you I made one feel proud of the fact that he was an American to see the ferry boats running and the hastily constructed steam railway clearing the water front of debris. We rode up Market street on an electric car jammed to the bottom foot board, between ruins of what were once places of business. The ferry tower was leaning up town way and the clock stopped at 5:15 but otherwise the building was in fairly good shape. Where the Examiner building stood was just a heap of twisted metal and bricks and ashes. The old Chronicle building and its addition was standing as was also the Call and the Palace Hotel, gutted by fire but not down and out. It was a sight indescribable and the people going every which way in crowds walking seemingly being the most popular means of locomotion.

After seeing Frisco things down here seemed tame but it was here that the shake-up did the mischief. Do you remember the poster with the busted arch picture gotten up for Wagner's show? Well the arch was similar only worse and the new gym, library, etc., were ruins.

PURSER RENNIE ALL RIGHT.

A. F. Rennie, purser of the S. S. Mongolia, has written to a friend in this city stating that his house on Dolores street escaped injury by earthquake and fire in San Francisco. He says that no one can realize the condition that San Francisco is in unless they see the place. The destruction is something terrible. The Pacific Mail S. S. Company lost every record. It has opened temporary offices in the Oriental shed at the mail dock while a little gin mill opposite the dock has been rented for use as a passenger and ticket office.

LON AGNEW KILLED

(Continued from page one.)

looting. This surmise proved to be incorrect however. The details of the cause of the row are not known by Mr. Stern. The man who shot Agnew would not, it was thought, be brought to trial.

Mr. Stern says that the Hawaiian Relief bureau is evidently doing excellent work. Headquarters had been established opposite the Pacific Mail wharf and another branch has been located at the former site of the Occidental Hotel.

A PROTEST.

EDITOR STAR: As an American and a Kamaaina, having landed in these isles over fifty years ago, I wish to protest against the sale of the Queen Emma place at this time. It is historic, almost the only spot which has not been reached by the hand of the vandal and has been located as the scene of Kamehameha's great battle. It should not go out of the possession of the government and if possible should be reserved for a park, or park and filter plant. It was bought years ago by the government for its water rights.

Had this site been proposed to the legislature when it turned down the proposition for a park on Tantalus, I am told the bill would have passed. The place has been held for the Water Works Department until about a month ago, when it was turned over to the Land Commissioner and put up for sale at the request of the head of that department.

The time selected was certainly unfortunate, if the government wanted many bidders, as it comes only two before taxes are delinquent and at a time when the calamity on the Pacific Coast has made money very tight.

The consensus of opinion among the prominent men of the community deprecates the sale of the property on such short notice. If it is not to be used as a filter plant for which experts say it is properly located, a chance should be given to ascertain if the people want a finely wooded and picturesque park within easy distance where it can be reached by the cars.

The acting governor has plumed himself upon giving the people parks and has had fenced off a lot at Nuuanu and Pauoa Road, where youngsters gather and make the Sabbath hideous by their games; why does he see the present proposition in so different a light.
