#### The New Social Club.

Another meeting preliminary to permanent organization of the new Social Club was held last evening at Charles Lind's. Temporary Chairman James T. Copeland presided with Walter Brash, Secretary.

A number of new names were reported for membership and the Committee on canvassing for members given further time to report. The indications are that the Club will go into permanent organization with about 70 charter members on the roll.

A. B. Serimgeour, Chairman of the Committee to procure a hall and furniture reported in effect that there were in view two capacious halls, one much more desirable than the other but inasmuch as the owner of this latter hall was not in town the Committee could not then report definitely and desired further time to report. In regard to the furniture satisfactory arrangements had been made and as soon as a hall was obtained it would be moved in.

On motion of Lind and Wright full power was conferred on the Committee to conclude arrangements for renting a hall and furnishing it, the result to be reported at a meeting to be held on Wednesday evening next, December 1st.

On motion A. B. Serimgeour and Horace Wright were appointed a Committee to collect initiation fees and dues for the month of December in order that the rent of the hall should be paid in advance.

It was practically informally decided that the first meeting in the new hall should be for permanent organization and that all who took an interest in the formation of the Club, and especially those who had wavered thoughts in regard to joining it should be publicly invited to attend. Those enrolled on that evening will be regarded as charter members.

The members are desirous that it should be distinctly understood that although nearly all the members in good standing of the old Haggy Social Club have joined the new Club, to the number of about 25, the Club is in no sense of the word a Haggy Club nor has it any connection with any medical treatment. It is founded on broad and general principles of mutual comfort, the conduct of which depends upon the character of its members.

#### Iolani School Entertainment.

To-morrow evening at 7 o'clock an excellent musical and literary entertainment will be given at Iolani School under the direction of Mr. R. J. Fenn who is endeavoring himself to his pupils by his many excellent qualities especially those that are appreciated by boyhood. The program contains 10 well selected numbers and nearly 20 candidates will permit themselves to entertain the audience of the parents and friends of the boys all of whom are cordially invited.

#### The Frawleys.

A very fair audience greeted the presentation of the "Railroad of Love" on Tuesday evening at the Opera House. The play is not very brilliant but the company did most of it in a very creditable manner. The audience was pleased and when the people left they all said "au revoir" till to-night when "Sue" will bring tears to the eyes of the Honolulu public.

#### A Serious Smash-up.

Unless a few of our bicycle riders become a little more careful we shall have soon to have to record fatal accidents through the carelessness of riders. On Tuesday afternoon a young police officer named Jackson with Trilby Fowler, the trick cyclist, on a tandem collided with a young fellow on a wheel, and knocked him senseless as they turning round the corner from Hotel to Bethel. The Marshal can investigate.

## WE ARE THANKFULL.

Of course we are thankful to-day. Sanford B. Dole has issued a proclamation, in which he addresses a special message of thanks to the Supreme Being for the prosperity and peace enjoyed by our people during the past year. You won't believe us boys? Read then the whole proclamation of the dear old whiskers who, by the way, spends his thanksgiving day in the remotest corner of the lands of our people. Here is S(and) B(ag) Dole's proclamation:

In view of the countless public and private blessings which have contributed to the condition of prosperity and peace enjoyed by our people during the past year, I, Sanford B. Dole, President of the Republic of Hawaii, recommend that Thursday, the 25th day of this present month of November, be set apart as a day of national thanksgiving to Almighty God for these His gifts, and of prayer for the continuance of His favor.

But dear friends, as we are to be annexed, according to Mr. Jones, in a few weeks it will be appropriate to learn the American style of doing the thanksgiving business and in the future dispense with the style of short addresses of Mr. Dole, who evidently thinks that he is running a special cable between Puuwaawaa and reserved seats on the rainbow of the hereafter.

Governor Budd of California is also grateful to God, and the fellows on the beautiful rainbow. He notices that another year has gone by and that Durrant is still unchanged. His language in his proclamation is beautiful and to the point and his references to the purses of his people in California are simply touching. Here is Budd's call for thanksgiving prayers:

Thursday, November 25, A. D. 1897, is hereby appointed a day of public thanksgiving. On said day let the people of this State give thanks to Almighty God for the manifest blessings enjoyed by us during the past year, and in recognition of said blessings let us mingle with our thanks such alms as our hearts may dictate and our purses allow.

In witness whereof I have hereunto set my hand and caused the great seal of the State to be hereunto affixed, this 16th day of November, A. D. 1897.

JAMES H. BUDD,  
Governor.

By the Governor:  
L. H. BROWN,  
Secretary of State.

We have now referred to the manner in which the chief officers of Hawaii and California desire their

people to observe the day of Thanksgiving. We wish sincerely that we could join Mr. Dole and Mr. Budd in their exhortations to their people to join in prayers of thanks to-day. But what are we to be thankful for?

Shall we be grateful because "annexation" is the war cry of the "noble" white men who make their money here and spend it abroad?

Are we to offer thanks because we are existing under a government which has locked us into the cells of their jails; and which has insulted and injured every man, woman and child not belonging to their political party?

Are we in our prayers to the Almighty to-day to thank him for the privilege of living in a country, ruled by a clique supported by a hired soldiery, and deprived of all the rights which are enjoyed by citizens in every civilized country of the world.

Are we to be thankful that we in the future are allowed to stand on the public sidewalk without interference of Mr. Dole's policemen and have been promised to be treated as men.

THE INDEPENDENT offers thanks because the vile scheme of annexation, which, if accomplished, would mean the ruin of Hawaii, is frustrated. We are grateful because, during the past year, only 10,000 Asiatics have been imported, and only 500 "white" men have cleared out. But first and foremost we are truly happy and truly thankful because Dole killed only one duck at Puuwaawaa and left the turkeys on the ranch for Christmas use.

By all means let us have a Thanksgiving day and let Dole and Budd have a chance to importune the Almighty God, with whom they seem to have a personal acquaintance, in spite of their checkered careers.

## YELLOW JOURNALISM.

It is probably in anticipation of annexation that some of our local papers are trying to adopt the style of the "yellow" journals, which are the fashion in certain stratas in the United States, and are a menace to good morals and public decency.

A few days ago a local paper which is sporting the low style of "yellow" journalism published a fake story about poor Harry Miller, a man well liked in Honolulu and whose numerous friends have been worrying over his mysterious disappearance while on a trip to the United States.

We cannot understand why the fate of Harry Miller should be made the subject of a burlesque. If misfortune overcame him and he has gone to the unknown regions from which there is no return, his ashes should be entitled to the respect which all men show to the dead. If it is found that he is alive and eventually will return to his friends here, the tidings would be joyfully welcomed and there would be no occasion or room for a sneer by the yellow journalists, and furthermore is not a decent journalist's duty to track a man on his vacation tour or marriage journey.

We are thankful for electric lights, telephones, tramcars and railroads in this small country, but let us daily pray to the powers above to protect us from "yellow" journalism.

## SPAIN'S POWERTY.

The Cuban War a Terrible Drag and a Large Loan Inevitable.

The Frankfort Zeitung publishes a dispatch from Madrid which quotes the Spanish Minister of Finance as saying that a fresh large loan is necessary, as the funds of Spain will be exhausted in June, 1898. The Cuban war, the Finance Minister is said to have added, puts his country to a monthly expense of 45,000,000 pesetas, and the civil and military departments of Spain are behind in their payments.

People appreciate that street paving is a good thing. The torn-up condition of the streets, however, has not prevented C. J. McCarthy from delivering the celebrated Rainier Beer regularly. **ANNEXATION ABSURD.**

What President Dole and Chief Justice Judd Have Proven to Americans.

New York, Nov. 16.—The World says editorially: "The remarkable revelations by President Dole and Chief Justice Judd of Hawaii place the Hawaiian question in its true light."

"They show clearly that annexation is urged not because it is to the advantage of the more than 70,000,000 of people of the United States, but because it is to the advantage of the less than 10,000 white inhabitants of Hawaii."

"Was there ever a more ridiculous proposition than this—that the interests of 70,000,000 of people should be sacrificed to protect the investments of less than 10,000 speculators in a remote and wholly alien group of islands?"

**Clears His Client.**

Wm. Coelho, who was charged with embezzlement of public funds, was found not guilty by a jury of his countrymen last evening.

Mr. Creighton, who defended Coelho, has added another feather to his legal cap, now flashing with trophies from his numerous victorious law battles.

Ex-Judge de La Vergne received a severe roasting from the attorneys for the prosecution and defense, and it is apparent to the taxpayers that they will have to look to him for the "missing" funds.

Mr. Creighton's clever address for the defense was a credit to the well-known attorney. He proved again that he is the leading criminal lawyer of Hawaii, and his suave and courteous manners in presenting the case of his client had great effect with the jury.

Coelho is acquitted and Mr. de La Vergne is no longer in the service of the public. Would it not be well for the taxpayers to be informed now who is the guilty party in the shortage in the public funds collected in the District Court of Honolulu? It is not Coelho, but who is it?

**Germany Takes a Hand.**

The German navy have captured the Chinese forts in Kiaochow bay on the Shantung Coast in retribution for the murder of missionaries.

Chinese officials there consider that Germany, by landing an armed force and capturing the forts, has committed an act of war, but they do not believe the Peking Government will treat it as such. British and American warships have been ordered to proceed to Kiaochow bay to watch developments there. It is said the region is immensely rich in minerals. The harbor is one of the best on the whole coast. It is believed that the Germans intend to stay there.

**The Baltimore Victorious.**

There was a fair gathering around the waterfront this morning to witness the rowing races between the crews of the U. The last race was an especially well-rowed and close one.

## Pleasing Truths Through Thrum's Window.

OUR COUNTRY.

Nature has performed her part with a lavish hand by giving us a temperature range which it would be hard to improve upon, an atmosphere which although humid is not excelled by that of any tropical country, a sun which shining almost every day in the year uses the power of its rays only for good, a soil which has stood abuse for many years without retaliation and a water supply pure and abundant if properly conserved. — C. B. Wood, M. D.

WHAT WE ARE WORTH.

The value of the landed property of the Government is greater than the public debt, and the whole property of the Government is double the value of the debt. — Alatau. T. Atkinson.

OUR CHILDREN.

The heterogeneous character of our population makes it vitally important that all the children should be trained in the use of one common language, the English, as well as in the knowledge and practice of their duties in all their relations to others and to the State. — W. D. Alexander.

OUR COTTON INDUSTRY.

Under conditions similar to those existing at Ewa, this island, I cannot see why, with almost a continuous yield, five bales of about 500 pounds cotton per acre, of the finest fiber and staple, may not be produced in a year. — L. D. Timmons.

PEARL HARBOR.

It has been understood and held by the Hawaiian Government that the right of the United States to occupy Pearl Harbor terminates with the Treaty of Reciprocity, of which it forms a stipulation. — S. E. Bishop.

THE CONSTITUTION.

The Constitution may be amended or revised by the passing of amendments or a revision through two consecutive regular sessions, at the second of which a two-thirds vote of each House is required. — Sanford B. Dole.

THE JUDICIARY.

Their salaries cannot be diminished during their term of office. — J. E. Judd.

HAWAIIAN POLICE.

At night the mounted police patrol the city in pairs and have proved to be a very effective force.

The islands offer a very poor field of operations for burglars or criminals of the desperate class. — William O. Smith.

THE CLIMATE.

The history of the country proves that men and women can pass long lives in constant and intellectual work, and enjoy health and vigor. — George P. Andrews, M. D.

THE SUGAR INDUSTRY.

I see no reason, from present conditions of the sugar industry or from any outlook, to believe that it is not to continue to be the leading and profitable industry for years to come; with annexation there should be a somewhat more extended cultivation of sugar cane be made possible by artesian wells and pumping plants. — J. B. Atherton.

THE COFFEE INDUSTRY.

Next to sugar the most important product of the Hawaiian Islands today is coffee, and taking into consideration the present rapid advance of the latter, the next few years will doubtless show it to be the principal stay of the country. — L. D. Timmons.

OUR CHIEF RESOURCE.

The chief advantage of a residence on these islands is the singularly salubrious climate, and the absence of frost, while the gradual elevation of the land permits the most diversified cultivation to be carried on. — W. N. Armstrong.

AS AN ARTIST'S FIELD.

Besides the Hawaiian flag there floats that of the great dragon, representing thousands of Chinese; and the Japanese in sandals and

Kimona are to be found on all sides. — Phillip Henry Dodge.

HAWAIIAN LAND POLICY.

The rich easily obtained the control of extensive tracts while it was a difficult and discouraging enterprise for the poor man to secure the few acres that he needed for a home and for cultivation. — Sanford B. Dole.

AMERICAN SHIPS.

The people and the country should not be denounced if American manufacturers patronize vessels other than American in sending their goods to these islands. — James T. Stacker.

"Doppelbrau," on draft is the finest beer in town. It is on tap at the Royal Saloon, and is pronounced a very healthy and refreshing tonic by all connoisseurs.

The favorite beverage of the nobility is Andrew Usher's whisky and Scheweppe's famous soda. The Royal Annex, always up to date, is now responding to the frequent calls for "U. & S."

Bicycle boys remember that we have the finest brews of Buffalo Beer and the Pabst genial shandy gaff at the Royal, Pacific and Cosmopolitan and with our interchangeable checks you can take a turn around the blocks between refreshments.

The Favorite has become the favorite resort in town. W. M. Cunningham carries an excellent stock of liquors and beers. Attention is called to certain brands which will be of special value to sportsmen during the game season, as they cause a steady aim and straight shooting.
