PLAGUE ADVANCE IS SLOW

Sharp Action Continues in Fight Against Its Progress.

Mr. Hatch a Member of the Health Board—Council of State Appropriates—Fires in Chinatown Tomorrow.

2:30 p. m.—There is a decided lull in the plague situation today but, notwithstanding this fact, the officers of the Board of Health are as busy as ever doing everything in their power to stamp out the dread disease. The case near Kaumakapili church is being closely watched, but as yet there is nothing so very suspicious. A case on Queen near Nuuanu street was rumored about town this morning, but inquiry at the Board of Health office showed that there was no such case on the day's record.

The cases of the two Chinamen who died yesterday were both pronounced bubonic plague after post mortem examinations yesterday afternoon. Their bodies were cremated at Maunaloa. Both these cases were mentioned in yesterday afternoon's Bulletin.

The only case of the plague today is an Hawaiian who was sent to the plague hospital in Kakaako this forenoon.

Dr. Bowman has been given charge of the plague hospital in Kakaako. Work on the quarantine barracks at Waikamilo is being rapidly pushed today.

To Scare Away Devils.

The streets of Chinatown are strewn with the remains of firecrackers that are fired off daily by Chinamen to frighten away the devils of the black plague from their dwelling places. The night time is when most of the firing is done.

Case of a Japanese.

Drs. Mitamura and Mori reported the case of a Japanese near Smith bridge this morning. Their diagnosis was malarial fever. Dr. Scaparone was sent to make an examination and he reported the case as slightly suspicious. A post mortem examination was advised.

Council of State.

A meeting of the Council of State is in progress as the Bulletin goes to press. The notice to members called them for 2 o'clock. The matter under discussion is the request of the Board of Health for an appropriation of \$250,000 to combat the plague.

More Japanese Carpenters.

Twenty-five more Japanese carpenters were taken out of quarantine this morning for work on the detention hospital. Chester Doyle attended to the work of rounding up the men. J. Mitchell, a white man from the quarantine district will be the foreman of the gang.

A Guard Posted.

A guard has been posted at the house of a Japanese just on the other side of Kaumakapili church. The Japanese has quite a high fever but is able to get about and smoke and eat. His wife is living with him. There are no developments in the case today.

Medical Meeting.

A meeting of the Medical Association of Hawaii will be held in Progress Hall at 8 o'clock tomorrow evening. All members are requested to be present. The topic for discussion will be the sanitary condition of the city and its remedy.

Block 10 Tomorrow.

Chief Hunt of the Fire Department has been studying Block 10 in Chinatown today in order to be fully prepared in the matter of stationing his engines and men for the fire tomorrow. Japanese, Chinese and natives of the block have been very busy today with the work of getting out their goods.

Waikiki Inspectors.

The inspectors at Waikiki are doing good work under the direction of Geo. Mason, who is in charge of the district from Sunny South to the Park. J. H. Boyd has charge of that section from Sunny South to Manson's house; Mr. Manson from his house to Long Branch and Mr. Gartenberg from Long Branch to the Park. G. J. Waller has charge of that section along the old Waikiki road; George Castle and Percy Pond look after the Park district. Houses are visited twice each day and careful watch kept of the entire district.

Damages for Orientals.

Minister Mott-Smith stated yesterday that the Japanese Consul, had called on him and that the Chinese Consul had written regarding damage to goods of their respective countrymen from the firing of the different portions of Chinatown. It was agreed that the question of damages should be left for future judicial settlement and the assurance of the cooperation of the respective consuls in fighting the plague would be given this government.

OFFICIAL FOR COMMERCE

More Talk of Adding to Mr. McKinley's Cabinet.

Great Commercial Progress Forces Question to the Front—Chances for Favorable Action at This Session.

Washington, Dec. 28.—The fact that President McKinley's administration has been one of marked commercial and industrial activity will be used as an argument before Congress this winter for the establishment of the Department of Commerce, with its head a Cabinet officer. The movement in favor of such a department is not new, for the matter was discussed quite fully in committee last year. Bills have been introduced in this Congress, both in the Senate and in the House, and will be taken up by the Senate Committee on Commerce and the House Committee on Interstate and Foreign Commerce at an early date. Senator Frye and Representative Hepburn, chairman of the committees, are heartily in favor of the new department, which would make the present Cabinet consist of nine instead of eight members. It is urged that such an increase would be entirely reasonable, as the present number of Cabinet officers is very small, when compared with the Cabinets of other governments, Canada, although in a sense a dependent Government, has thirteen Cabinet officers, and Great Britain has no less than seventeen.

There is, however, an active movement on foot among the mining interests for the establishment of a department of mines and mining. The California State Miners' Association has been foremost in the agitation, and most of the other Western mining States and Territories have lent their influence to the same end. Westerners say that their section needs such representation in the Federal Government, and argue that the Department of Commerce would be more to the advantage of Eastern business interests. The Committee on Mines and Mining, of which Representative R. O. Crump of Michigan is chairman, will take up a bill providing for the creation of the Department of Mines and Mining soon after the holidays. Probably some sort of a compromise will be made eventually between the advocates of the two departments. Final legislation may not be secured at this session, but the advocates of the Department of Mines and Mining are not unwilling, if necessary, to accept a commissioner of such a bureau under the Department of Commerce. The program is to have the mines and mining bill reported from the committee before the department of commerce bill is considered. If the friends of the two measures can come together it is thought there might be a chance for the enactment of the law this session.

MOANA DID NOT STOP.

The mail steamer Moana, Carey commander, arrived off port early this morning but stayed only long enough to throw what mail she had for Honolulu into the pilot boat. Nine passengers she had on board for Honolulu were carried on to San Francisco, and not even a letter from here was taken on board.

Captain Carey of the Moana stated to Fred Whitney of Irwin & Co., the agents of the steamer, that if it were cholera instead of bubonic plague present in Honolulu he would not hesitate to land his passengers and take on the United States mail, fumigating it on board on his way to San Francisco. Not knowing under what conditions his vessel would be received at that port if he touched at a port infected with the black plague, in justice to his owners he would not take the chance of being quarantined and so delaying the vessel, she being a Royal mail steamer.

Hartwell Called Down.

(Special to the Bulletin).

Washington, Dec. 27.—An interesting incident in Hawaii affairs occurred the other night when Mr. Dole's unofficial delegate Hartwell and Mr. W. O. Smith gave a dinner to a party of Congressmen and Senators friendly to the island cause. Included in the guests were members of the Commission.

Delegate Hartwell began talking about Hawaii not being annexed, following out the fallacies contained in the constitutional decisions of Hawaii's Supreme Court. On completing his talk Mr. Hartwell was very promptly called down by one of the members of Congress present, who forcibly told him that the views expressed were very much in error, that the Hawaiian islands were so much annexed that they could not get away from the United States nor could the United States get away from them.

The prompt answer of his statements took Hartwell's breath away, and after a somewhat distressing silence the conversation was turned to more general lines.

\$270,000 APPROPRIATED

The Council of State convened at 2 o'clock, President Dole in the chair and these Councillors present: C. Bolte, secretary; Ministers Mott-Smith, Young and Damon; Paul R. Isenberg, John Ena, W. C. Achi, John Nott, A. G. M. Robertson, A. V. Gear, Mark P. Robinson, P. C. Jones, S. K. Kane, J. A. Kennedy and Cecil Brown and M. A. Gonsalves.

Minister Damon read a statement by the President of the Board of Health, relating the financial and other steps taken thus far to suppress the plague. President Dole spoke of the reference to President McKinley of the permanent sanitary improvements, as stated by the President of the Board of Health. President McKinley had very large powers over the affairs of the islands, and it was deemed the proper course to consult him before incurring obligations for permanent improvements. The amount now asked for was approximately to the immediate necessities of the situation.

The motion was to pass the resolution appropriating \$250,000 and \$20,000 for garbage crematory passed by a vote of nine to three.

DAVID KELIPIO RESIGNS

David Kelipio has resigned as a member of the Board of Health and F. M. Hatch has been appointed to take his place. It will be remembered that, at the last meeting of the Board Mr. Hatch gave some valuable suggestions for the stamping out of the plague.

PRESIDENT C. B. WOOD.

Dr. C. B. Wood was this afternoon appointed President of the Board of Health. Minister Cooper continues a member.

RETURNING EXHIBITS.

The cases of private exhibits from Omaha are expected by the next Australia. With them are some fine varieties of seed corn from Nebraska for our farmers and mineral specimens from Colorado for St. Anthony's school, Walluku, the latter obtained at the request of Brother Francis, principal. The corn secured by the secretary includes the Egyptian variety, of which the head is bushy and the grains are round. It makes an excellent meal, while the whole grains are right for chicken feed. The superintendent of the Douglas county, Nebraska, exhibit, who kindly donated the seed, assured the Hawaiian secretary that the Egyptian corn would flourish in our climate.

The Irwin Mansion.

Campbell & Pettus, San Francisco, will build W. G. Irwin's new home at Waikiki. The contract was signed on December 26, the price in round figures being \$50,000. The contracting firm built the Cliff House at Golden Gate, the Poodle Dog in San Francisco, the large Navy buildings at Goat Island and other big structures. The tile roof of Mr. Irwin's house and stable will be replaced with terra cotta by the Akron Tile Co. of Ohio for \$5,100. These contracts include everything except the electric wiring. Ripley & Dickey are the architects of the Irwin structures. The contract of Campbell & Pettus beats the Honolulu bids by the enormous figure of about \$30,000.

UNCLE SAM AND CARGOES

Officials Not Worried Over Action of Great Britain.

Place Confidence in Decisions of Prize Courts—No Protest Will Be Made—Care for Rights of American Citizens.

New York, Dec. 28.—A special to the Tribune from Washington says: The equanimity at the State Department is not at all disturbed over the significance attached in legal and mercantile circles to the stopping by British warships of Dutch and Dutch merchant vessels bound for Delagoa Bay with cargoes exported from the United States. The officials express confidence that the British Government will make full reparation for an act committed by its naval agents if it turns out to have been illegal or unjustified and they profess a profound conviction that Englishmen are not taking any hazardous chances just at present of antagonizing any considerable popular element in America.

It is not known to the Secretary of State whether the cargoes in this country have been actually confiscated, nor precisely what articles Great Britain proposes to regard as contraband during the continuance of the South African war. It is said that every nation makes its own rules as rigid or lax as the occasion seems to demand and seldom takes other nations into its confidence on the subject. This was the case when the war with Spain began. Neither nation having subscribed to the privateering clause of the treaty of Paris, a proclamation was issued by the President announcing adherence to its provisions.

The Queen Regent issued a decree, which, while reserving the right of privateering announced that letters of marque would not be granted. But Spain did not announce what course she intended to pursue in other matters, nor did the United States except in confidential general orders to naval officers, fix any definite policy as to seizures and contraband.

The supreme serenity of the State Department regarding the four seizures is perhaps best illustrated by the steps already taken to ascertain the facts of the case, which are an essential preliminary to further action.

On the receipt of complaints from American exporters that their products had been detained and that their delivery at the neutral ports of destination, Delagoa Bay, had been refused, the Secretary of State immediately transmitted the complaints to Ambassador Choate at London and Consul Hollis at Pretoria for investigation and report. These notes went by mail and Mr. Choate has barely received his own by this time, while that of Consul Hollis will scarcely reach him before March 1, 1900.

As agents of the State Department reply to communications by the same means of transmission as the original query, no official information is apt to be in the possession of the authorities in Washington for weeks or months. The reason there was no resort to the cable to determine whether American interests have been injuriously affected, as found in precedents established over a year ago, when, notwithstanding the seizure of British and other vessels by American cruisers, European nations realized that this Government in its admiralty courts would determine the merits of each case as rapidly as possible as well as amenable for damages in the case of every mistake and that the greater the mistake the longer the delay, the greater would be the damages to be satisfied.

The consideration shown by foreigners whose vessels had been captured last year and sent under prize crews to an American port of detention was extremely gratifying to this Government, which would have been seriously embarrassed had neutral governments by a show of impatience forced the Executive into the attitude of hastening the judiciary.

The point officials make is that the British imperial authorities in London are not yet more acquainted with all the facts in the detention of ships off the south coast of Africa than are American officials and as these ships admittedly did not fly the American flag there is no national affront involved calling for drastic measures, as when the Alliance was fired on or when Captain Sigsbee brought to the Restormel. In the latter case the British Government made no complaint whatever.

On the Warpath.

Business men of the city are on the war path today on account of the action of Captain Carey in carrying the Moana straight on to San Francisco without even stopping for the mail.

They state that if the mail was properly fumigated there could have been absolutely no harm in allowing it to go. If the fumigation here was not satisfactory the mail could have been fumigated aboard the ship.

Another criticism is on the action of Captain Carey in refusing passengers for this port to land. What harm could have been done by allowing passengers to land here is not quite clear in the minds of many.

THREE MORE ICE FACTORIES

Schemes Galore on Foot to Keep Honolulu Cool.

Pennsylvania People With Gov. Stone As Prime Mover—L. C. Ables and Theo. Hoffman Also Have Their Plans.

If all the ice in the speculative atmosphere of Honolulu crystallize, it will produce cold enough to considerably affect the climate. The parties are rumored to be focusing at three or four centers. What should appear inevitable is that this tropic town will ere long receive the boon of cheap cooling material, unless the local history of the subject repeat itself and the people be laid out on dear ice instead of laying in cheap ice for their daily needs.

One report is of a company organized under the laws of Pennsylvania, with Governor Stone at the head of it, to make ice for Honolulu. Several local capitalists are named in this connection. It is said that the plans are here, the machinery on the way and the site of plant selected. This concern will have a comprehensive cold storage annex.

P. H. Burnette, stock broker, was interrogated regarding the foregoing rumor and made reply substantially as follows:

"Mr. Jockey from Philadelphia, who is here, has letters, plans and specifications with him, and he can probably tell you something."

"The capital is \$100,000. One of the latest plans is ordered, and I believe has been shipped. It is known as the 'Linde' ice machine, and manufactured by Wolfe & Co., Chicago."

"The price will be the same as the other people are charging—20 a ton. Cold storage is the principal object. 'Yes, Governor Stone is at the head of the company. The principal owners are members of a leading law firm in Philadelphia, where the head office will be, the business managing office here."

Another scheme mooted has the credit, by common talk, of having at its head L. C. Ables, the hero of many fights for a fair share of the ice field. The capital mentioned is \$150,000. Mr. Ables was the first man found, though this fact was purely accidental, by a Bulletin reporter hunting down facts behind rumors. The most Mr. Ables would admit was that the rumors in general were probably all right and that he intended "getting in somewhere."

Theo. Hoffman, lately manager of the Hawaiian Electric Company that has now for years been making all the ice, selling its cold storage surplus to supply the public through the People's Ice Co., is reported to have bought the plant formerly used by the P. I. C., also four lots at Kewalo as a site for the works. This rehabilitated outfit would begin the manufacture of ice in about sixty days.

Regarding what there is in ice here, one man who is taking an active interest in the coming battle for the trade said:

"The ice made and distributed for the last twelve months was about 5,000 tons. The manufacturing corporation received about \$30,000 by selling it at \$6 a ton. These 5,000 tons were retailed by the purchasing company at a price averaging at least \$17.50 a ton."

"In addition to its receipts for ice, the makers received for cold storage room about \$15,000. So that altogether the ice bill of the community for the year amounts to nearly \$100,000."

With reference to a statement that the rumored competition would have new patent ice machinery from Chicago, the gentleman just quoted made these comments:

"You always hear of a new patent from a new competitor. But it just amounts to this, so many pounds of coal are required to produce so many pounds of ice."

"There is little doubt," he added, in reply to another query, "that the new brewery will throw some of its ice on the market. It is already rumored that the Electric people have made overtures to the brewery people."

Stump Machines for Olua.

F. Owens, of Olua plantation, who arrived in the Mariposa, is bringing down four stamping machines and a thirty-horse power engine to operate them. One of the stumpers is capable of clearing an area of three acres without changing its position, the pulling force being exerted through a cable. Mr. Owens has had Klondike experience, and what he does not know about that gold region is not worth going to school to learn.

Omaha Exhibits for Paris.

Secretary Logan left six cases of exhibits from the Greater American Exposition in storage at Omaha for transmission to the Paris Exposition. Nearly four hundred framed pictures are in the lot, also the exhibits of Kamehameha and St. Anthony schools, besides a variety of other articles.

American Messenger Service, Masonic Temple. Tel. 444.

Chief Justice Resigns.

President Dole to-day confirmed the report published by the Bulletin some weeks ago regarding the resignation of Chief Justice Judd. "Yes, he has sent in his resignation," the President replied to a question. "It has not been acted upon yet."

"I have written to President McKinley, as it is an important matter, referring to consult him."

PUT IN A BOX.

Inspectors in Chinatown on their regular rounds last night, discovered a young Japanese, Ito by name, stowed away in a box arrangement in the rear of the Japanese church on River street. This was reported to the Board of Health at once and Dr. Garvin was sent out to investigate. It was discovered, contrary to the statements of residents of the locality, that the Japanese was not suffering from the plague.

It seems that Ito was about from place to place trying to get a room but, on account of the nature of his disease he was refused admittance everywhere. He then fixed up his box in the place mentioned and covered it with canvas to keep out the rain.

THE SINEWS OF WAR

At this morning's session of the Executive Council the entire business related to the stamping out of the plague.

It was voted to recommend to the Council of State the appropriation of \$20,000 for building a garbage crematory, and \$250,000 for the suppression of the plague.

The Minister of Foreign Affairs was authorized to incur extra expense for the maintenance of the National Guard in connection with special duties of the present emergency.

The Minister of Finance read notices respecting storage for freight from infected ports and the relief of the congested state of the wharves.

Paris Exposition Work.

The following answer will be sent by Minister Mott-Smith relative to Hawaii's exhibit at the Paris Exposition.

"During the presence of plague, steamers refuse all freight from this port. Can special concession be obtained to install exhibit say in April or May? Quarantine may continue two months. Lists of exhibitors sent by mail."

ORIENTAL WAR CLOUDS.

Victoria, B. C., Dec. 27.—Mail advices received from the Orient today state that Russia and France are conviving together in encroaching on Chinese territory and against England and that Japan is buying immense quantities of rice. It is believed that war will break out in the spring.

Mascotte at the Orpheum.

To night the Boston Lyrics will present Mascotte, also at tomorrow's matinee and Saturday evening. The music is light and catchy and the play full of humor. At tomorrow's matinee children will be admitted to any part of the house at 25 cents apiece.

THE PAAUHAU MEETING

San Francisco, Dec. 26.—Unusual interest attended the annual meeting of the Pauha Sugar Company yesterday owing to the recent decline in sugar securities and the fact that the yield of the plantation for the year ended on September 30th fell below the estimates made at the beginning of the season. The meeting was presided over by President William G. Irwin, and the attendance of shareholders was large and representative. From the reports it appeared that the crop was only 7,529 tons, it being explained by the president that this shortage was largely due to the lack of rains.

Included in this report was that of Manager Moore, which estimated that the coming crop would be 8,000 tons. This estimate President Irwin considered conservative. He added: "As the growing cane is at present looking unusually well, a large yield may be looked for. The mill was started grinding in November on cane that did not mature until after the close of the sugar year, and will take off about 125 acres. It is to start in on the regular crop about January 1st."

In reference to the holdover crop a letter from the manager was read in which he said: "We have made about 350 tons of sugar, starting on this crop."

In reply to inquiries as to the shortage President Irwin said that heretofore 10,000 tons of sugar had been obtained from 400 less acres than had been cultivated last season, and that the product of the next year would probably be nearer 10,000 than the low estimate of 8,000 tons made by the manager of the plantation.

A statement regarding the decline in the company's stock brought from President Irwin the assertion that in May last he had declined an offer of \$40 a share for his block of 20,000 shares, and that he held it intact, showing his confidence in the company. An inquiry as to whether or not dividends of \$35,000 a month could continue to be paid, was answered by the reading of the following estimates based on an 8,000-ton crop:

Funds with W. G. Irwin & Co.	\$ 4,035 00
Sugar to be paid for	560,000 00
Total	\$564,035 00
Expenditures—	
on months at \$23,000	\$230,000 00
Nine months' dividends	315,000 00
Total	\$545,000 00

Estimated funds on hand at the close of the year\$ 19,035 00
Satisfaction with this showing was expressed, a resolution was adopted, unanimously approving the acts of the officers and the board of directors, and the officers and directors were reelected without opposition.

Death in Land Slide.

Rome, Dec. 24.—Dispatches from Amalfi, the popular tourist resort on the Gulf of Salerno, where the landslide occurred on Friday, say that twelve persons are known to have been killed, that at least fifteen others were injured and that many are unaccounted for. Among those killed were Miss Weir, a daughter of James Calloway Weir, member of the British House of Commons for Ross and Cromarty, and her governess. They had escaped, but returning for their valuables, were killed together.

It now develops that some earth tremors and other premonitions enabled many people to get away before the catastrophe occurred. The Mayor of Amalfi declares his belief that the landslide was due to the fact that a huge fissure left after a similar slip ten years ago, had been carelessly filled with fagots and pieces of timber. This had always been considered a source of danger.

The hotel Santa Caterina was completely buried and other buildings are in ruins. The peasants fearing further landslides refuse to return to their homes.

School Teachers.

At a meeting of the Commissioners of Education yesterday afternoon, the Teachers' Committee reported on certain appointments which were concerned. These were as follows: Miss Clara L. Fassel, to be an assistant teacher in the Hilo Union school; Miss Emily Hawliko, to be an assistant teacher in the Hilo Union school; Miss Berrey to be transferred from Waiman, Kauai, to Kailihuka, Honolulu; Miss Henrietta Christian to be transferred from Lihue, Kauai, to Hanalei, Kauai; Miss Margaret Nape to be an additional teacher at the Wailuku, Maui, school; Miss E. Kellinot to be assistant teacher in the Wailuku, Maui, school; and Mr. and Mrs. J. F. O'Connor to be assigned to the new Keauhou school at Kona, Hawaii.

It was decided to refer to the Board of Health all questions regarding the closing of schools. The matter of finances for the next two years was referred to the Finance Committee.

"THE LOSS OF GOLD IS GREAT; The loss of health is more." Health is lost by neglecting to keep the blood pure, but it is gained by purifying, enriching and vitalizing the blood with the great health restorer, Hood's Sarsaparilla. Thousands who thought health had been permanently lost have been made perfectly well by taking this great medicine. Your experience may do the same.

Hood's Pills are gentle, yet always effective.

The beauty of a picture as a present is that when it becomes a part of the home it hangs in the memory forever, such is its influence. King Bros. have them, all sizes, prices and kinds.

FRIDAY, JANUARY 5, 1900.

Yelping curs have been silenced by
their masters.

Between black plague in Honolulu
and war in the Transvaal, Aguilado
has slid completely out of sight.

Rumor is abroad in Washington that
Unofficial Delegate Hartwell wishes to
be relieved. In other words discretion
is the better part of valor.

Now watch the official organs at-
tempt to show that the organization
of the Board of Health as an entirely
independent body is the result of their
efforts.

The information published exclusively
by the Bulletin relative to Chief
Justice Judd's resignation is at last
confirmed by the direct statement of
Mr. Dole. Why has this information
been withheld?

Great Britain in seizing food sup-
plies and practically declaring flour
landed at a neutral port contraband
of war is making history that will be
interesting to look back upon when
blockade of British ports will be a fac-
tor of European warfare.

The fire department has done splen-
did work in protecting buildings dur-
ing the fire campaign, but the officials
should see to it that every vestige of
the buildings condemned should be
consumed. Whether the fears are jus-
tified or not the people will not be sat-
isfied or feel that the work of destruc-
tion is done thoroughly until every
part of the buildings burned is reduced
to ashes.

Commissioner Logan returns to Hon-
olulu after six months' splendid work
for the general business interests of
Hawaii. Aside from his efforts at the
Omaha Exposition, he has left behind a
trail of interviews from Halifax to San
Francisco, that give the facts regard-
ing conditions in Hawaii dressed in
conservative and convincing language.
Other commissioners sent out from Ha-
waii on business or political missions
may have done as well, but none has
been more successful or deserving of
praise than Dan Logan.

BOARD OF HEALTH.

The official organs furnish amuse-
ment by endeavoring to explain where-
in, by their captious criticism, they
have rendered the authorities support
in the fight against the plague. That
this explanation should be deemed nec-
essary carries its own condemnation of
the attitude of the official contem-
poraries.

"The complete divorce of the
duties of the Attorney General and the
President of the Board of Health" is a
contention which the Advertiser copies
direct from the Bulletin. This is a
principle that should be followed in
every department of the government.

The Board of Health should by all
means be an independent body, and it
is known that the present Attorney
General is quite ready to relinquish the
duties of which his predecessor in
office was so jealous. Now that the
principle is accepted the authorities
should see to it that a physician be
placed at the head of the Board, a man
who combines a record for sharp busi-
ness administration with professional
prominence not likely to be disputed.
Such a man can be found and none will
be better suited to the position than
Dr. C. B. Wood.

STOP BUILDING SHACKS.

As was stated in the Bulletin some
time ago the Public Works Depart-
ment should take a very forcible hint
from the revelations which the black
plague has brought out. Whatever
may have been done in the past, the
Minister of the Interior should put a
stop to the indiscriminate granting of
permits for the construction of build-
ings which are merely second editions
of the shacks now committed to the
flames in Chinatown.

Steadily the two-story ramshackle
affairs with stores below and rooms
above with verandahs overhanging the
sidewalks have been advancing from
Chinatown into the suburban dis-
tricts. On King street, Beretania
street from Waikiki to Palama they
have been going up as rapidly as the
more pertentious houses. Im-
mediately the structures are completed,

they are indiscriminately crowded with
an indiscriminate population.

The result is that the town is build-
ing up the same conditions through-
out the town that now exist in Chin-
atown.

The Public Works Department must
be held solely responsible for this con-
dition. Business men will put up the
shacks just as long as the Govern-
mental departments allow it. A very
prompt and vigorous halt should be
called before the people awake to find
a Chinatown in every nook and corner
of the city.

MR. HARTWELL'S HANDICAP.

If it be true that Unofficial Delegate
Hartwell wishes to be relieved from
his task we trust that the local Exe-
cutive will have the good sense to ac-
cept his resignation; if it is not true
the Executive should accept his resig-
nation anyway.

Every advice from Washington, ex-
cept possibly those from the local
men who dislike to admit their fast
waning personal cause, is to the effect
that whatever prestige Mr. Dole ever
had with the friends of Hawaii has
been irretrievably lost by his an-
tagonism of President McKinley and
Administration officials in relation to
the land order. Whatever influence
Hartwell may have in Washington
has been nullified by his war record,
and his anomalous position as a per-
sonal representative sent to upset the
rulings of officials through whom, in-
directly, he derives his quasi official
position.

It is about time that this farce was
brought to an end, and the small per-
sonal plans which Mr. Dole and his
delegate represent be withdrawn, that
the stumbling blocks in the pathway
of Hawaiian legislation may be lessened.
Local people may be willing to for-
get the mistakes of Mr. Dole and his
personal representative, but unfor-
tunately they cannot wipe out the
handicap, which opposition to Admin-
istration officials has made an active
factor in Washington. An attempt,
though it may be fruitless, should be
made for a complete change of front
on the part of our officials. They can-
not save themselves, but it is possible
that they may be able to save the
Islands from the further embarrass-
ment of past mistakes.

By all means let Hartwell be re-
lieved. Better have no representative
than one discredited by the strong
friends of the Islands.

Manchurian Road Complete.

New York, Dec. 23.—A cable to the
Sun from St. Petersburg says: The
Manchurian section of the Siberian
railway is completed. Contracts have
been let for two large passenger and
emigrant steamers, one to be built at
Kiel and the other at Trieste, and for
four smaller steamers, two to be built
at Stettin and two at Rostock, all to be
delivered in fourteen months. The
larger steamers will cost \$12,500 each
and the smaller ones \$100,000. They
will carry troops in case of need.
Meanwhile they will carry passengers
and mails from Dalney, the new Rus-
sian commercial town at Tientsin-Wan,
to Vladivostok, Shanghai and Yoko-
kama.

Twenty-five foreign firms tendered
bids. The English bids were 25 to 35
per cent higher than the German, and
no English firm could guarantee deliv-
ery within the stipulated time.

Gen. Young, a Governor.

New York, Dec. 25.—A cable to the
Sun from Manila says:
General Samuel M. B. Young, who
has been active in pursuit of Agui-
lado, has been appointed Governor of
that part of Northwestern Luzon com-
prising the provinces of Abra, Bon-
toe, Benguet, Lepanto, Ilocos Norte,
Ilocos Sur and La Union. The Third
Cavalry and the 33d Infantry have es-
tablished headquarters at Vigan.
General Young will establish civil
government in his district and appoint
officers to supervise the collection of
customs and internal revenue, to be
subordinate to the Manila district. He
will at once open custom houses at
Loang, Vigan and San Fernando.

Carlisle 2, Berkeley 0.

San Francisco, Dec. 26.—In a fast,
close and desperate gridiron game be-
tween the Carlisle Indians and the
California varsity yesterday afternoon
8,000 keenly watchful spectators saw
the representative team of the Far
West demonstrate that the much-
vaunted superiority of big Eastern
football elevens is not very percepti-
ble when put to test against the best
this State can produce.

It was an even struggle and a fine
one to witness. The score of 2 to 0
in favor of the Indians resulted from a
"fluke," made possible by a bad blun-
der of the California backs.

Congressman Boutelle's Illness.

New York, Dec. 28.—A special to the
World from Boston, says:
Congressman Boutelle is now in the
McLean Hospital for Insane at Waver-
ley, seven miles out of Boston. When
he was brought to Boston last Mon-
day it was the intention of the attend-
ing doctors to place him in the Chan-
ning Sanitarium, at Brookline, a private
institution. He was refused admis-
sion there, the inference being that
his case was a more desperate one than
the managers cared to be responsible
for. From a thoroughly reliable source
it was reported that the Congressman
is suffering from paresis.

Spain and Filipinos.

Washington, December 24.—The Span-
ish Government has at last formally re-
cognized the Filipino Government through
its representative, Captain Curo of the
Spanish navy has been sent by his Gov-
ernment to look after the interest of the
Spanish prisoners in the Philippines and to
arrange for their immediate return to
Spain. Before his departure from Spain,
however, Captain Curo received instruc-
tions first to proceed to Paris and there
present commission to Agoncillo, the chief
of the Filipino Junta in Paris, and request
for himself a passport. Thus Spain, by
this request, recognizes for the first time
the Filipino Government, and thus it has
added another plume to the arrogance of
the Filipino representative at Paris, who
draws his pay, reclines in an easy chair,
enjoys the privileges of polite society and
the numerous pleasures of the French cap-
ital, while his countrymen are fighting
against tremendous odds.

Hill's New Steamers.

St. Paul, Minn., Dec. 23.—J. J. Hill
who returned from New York to day, says
he is now having built on the Clyde sev-
eral new steamships and that he will buy
others for the Pacific trade. This is the
first time he admitted it. He also says
the Great Northern is on the most friendly
terms with neighboring and connecting
lines.

He will go West the first week in Janu-
ary to carry out gigantic plans for the im-
provement of his road and development of
new enterprises.

Insurgents on the Run.

Manila, Dec. 27.—10:15 p. m.—Col.
Lockett, with a force of 2,500, includ-
ing artillery, this morning attacked a
strong force of insurgents entrenched in
the mountains near Montalban, about
five miles northeast of San Mateo.
The enemy was completely routed,
the Americans pursuing them through
the hills, amid which they fled in
every direction. Few Americans
were wounded. The Filipino loss was
large, resulting from a heavy infantry
and artillery fire for four hours into
the trenches.

and scenic views; as also its proximity to the business part
of the city, being less than a mile from the Progress Block,—
has ever before been presented to the people of Honolulu.

One of the main features of this property, and procured
at great expense, is the abundant supply of pure spring water,
pronounced by Dr. C. B. Wood as being the purest and best
drinking water obtainable in the Island, which is now being
conducted into storage reservoirs upon the property by an
independent pipe line, and will be supplied to residents at
Government rates.

OUR GUARANTEE: We guarantee to all pur-
chasers of lots on Pacific Heights, that we will, within six
months, provide rapid transportation to the highest lots on
the property, connecting the same with the Honolulu Rapid

BIG SUGAR WAR ON.

Chicago, Dec. 23.—Formal announce-
ment of the end of the "factor" plan of
siling sugar, which means that the sugar
war will be on a gain harder than ever after
Jan. 1, is contained in the current number
of the "Modern Grocer," published in
Chicago to-day. The news is that the
"equity plan" will be abolished on Jan.
1 and that thereafter all sugar will be sold
on a competitive basis and on its "merits."

The abandonment of the card agreement
comes after a year's futile attempt on the
part of the sugar trust to get the aid of
the wholesale grocers in driving the inde-
pendent refiners out of existence. A month
ago a committee from the wholesale gro-
cers went to New York at the invitation of
the refiners to make a final effort at an
understanding. The wholesalers were to
get their sugar with an additional rebate
if they signed an agreement to buy only
trust sugar. The conference, like former
ones, came to nothing, and it is supposed
the sugar trust officials gave up in disgust.

In spite of the fact that it will now be a
go-as-you-please race between the indepen-
dent refiners, and the trust for the sugar
trade, Chicago wholesalers do not look for
any great cut in prices on the part of the
refiners.

Bound Over for Trial.

Donavides, the young Portuguese
who accidentally shot a boy a few days
since, appeared in the Police Court
this forenoon on the charge of man-
slaughter in the first degree. After ex-
amination Judge Wilcox bound over
the defendant for trial at the next term
of the Circuit Court. Bail in the sum
of \$500 was required. T. McCants
Stewart appeared for Donavides.

Senator Frye and the Philippine Question

New York, Dec. 10.—The World to-
morrow will publish an interview with
Senator William P. Frye, president
pro tem of the United States Senate.
In reply to the question why it was nec-
essary to take over the sovereignty of
the Philippine archipelago he said:
"Commercially they were of the utmost
importance to our country, located as
they were at the very threshold of the
Orient, with an importation last year
amounting to \$1,500,000, with an ad-
vancing civilization, which will in a
few years, by increasing their neces-
sities, double it."

"Then, too, the existing conditions
in the islands afforded a powerful ar-
gument in favor of our action. Agui-
naldo, with his seventeen chieftains,
men exiles at Singapore, went to
Hongkong to sail with Admiral Dewey
for Manila. He having already sailed
they were taken over in one of our
revenue cutters, received arms from
the Admiral, raised an army, fought
successfully the common enemy, were
of assistance to us, and, while no
promises were made them, orally or in
writing, they were practically our allies.
Could we desert and leave them to
the tender mercies of Spain? Surely
no American would have justified us
in such action."

"What do the Republicans propose
to do with the Philippines?" he was
asked.
"First, restore peace there. Then
give them a good government, decent
wages, arouse in the people an ambi-
tion to become good citizens, supply
them with modern agricultural im-
plements, construct railroads and high-
ways, make access to the sea easy,
build schoolhouses, supply teachers,
educate them so as to fit them for the
exercise of governmental functions,
then trust them with the control of local
and municipal affairs. Possibly,
in time, they may become fit to estab-
lish a republican, stable and strong
enough government to preserve order
and peace, to protect life and property,
to make treaties, observe obligations
under them and compel others to do
likewise."

"Possibly, when that time arrives,
we being the sole judges, might sur-
render to them the sovereignty, reser-
ving to ourselves the naval and coaling
stations necessary for our naval and
merchant marine. So far as I am per-
sonally concerned, I would never sur-
render the sovereignty to any people
within the islands or to any nation
without."

"He was asked what our constitu-
tional rights in these new possessions were,
as to civil rights, tariffs, emigration,
etc., and replied: "The question is
one of great importance, undoubtedly
soon to be discussed in Congress and at
an early date settled. Therefore I do
not wish now, with only partial prepa-
ration, to deal with it. I believe,
however, that Congress has full power
to enact for them such laws as may
seem to be the wise and just; that the
constitutional limitation as to the
United States, so often referred to, does
not apply to territories."
"I am confident that in the near fu-
ture three or four regiments of white
men, with possibly twice as many na-
tives, will be ample to preserve the
peace."

Police Court Notes.
In the Police Court yesterday the
following cases were disposed of: Chin
Sing, cruelty to animals, \$10 and costs;
Nek Braham, assault and battery on
Q. H. Berrey, January 5; Martin New-
man, larceny in the second degree,
January 5; Nisk Braham, intending to
commit an offense, January 5; F. Ka-
kina and August Santos, gambling, \$5
and costs; J. McQueen, common nu-
isance, reprimanded and discharged;
Mannul Dumelo, Marion Fernuch and
Mannul Fernuch, larceny in the sec-
ond degree, January 5.

moo, Rainier Beer on draught. The
Anchor Saloon is here to please its
patrons.

Prince David and Titles.
Chicago, Dec. 21.—Prince David of
the royal family of Hawaii, is at the
Auditorium Annex.

"I was not in favor of the resolutions
of annexation," said the young man
last night, "but since they are an ac-
complished fact I have turned in with
the tide. I propose to make the best
of the situation. Instead of the expec-
tations of wearing a crown and ruling
a kingdom I am trying to gather \$20
gold pieces. After all they are better
than crowns. They will serve one
much better than great expectations."

President Coming West.
Washington, Dec. 22.—President
McKinley today expressed to Senator
Perkins his intention of visiting San
Francisco next fall at the time of the
launching of the battleship Ohio, now
building at the Union Iron Works. He
said he was greatly disappointed last
summer when pressure of business
prevented him from going further
West than Omaha. He had deter-
mined, however, to join the Congres-
sional party from Ohio that will jour-
ney westward to participate in the
christening of the big battleship that
will bear the name of the President's
State.

MERCHANT MARINE OF THE UNITED STATES.

According to an interesting docu-
ment, prepared for the United States
Industrial Commission, and presented
to that body and referred to by the
Times, it is pointed out that the portion
of the merchant marine of the United
States which is suitable for trans-
oceanic trade does not exceed 300,000
tons gross register. Ample details are
given to prove this assertion. The
vessels which are suitable for the
above class of business include only
those of at least 1,000 tons register and
under 20 years old. Mr. Neill, who has
drawn up the document, gives figures,
which we need not give here, to show
how large the foreign trade of the
United States is and that it is mostly
carried under foreign flags. He, for
obvious reasons, does not go into the
very important question why the
United States has so very poor a mer-
cantile marine and has had to purchase
most of the big steamers it possesses
abroad; but he has very definite opin-
ions as to the proper course which, as-
suming, as he does, a continuance of
protection as its policy, the United
States should adopt in regard to its
mercantile marine. He says: "In ad-
dition to such assistance as the United
States Government may see fit to ex-
tend to merchants, shipowners, or ship-
builders in the shape of subsidies,
bounties, or postal considerations, in
order to encourage the building of the
higher class of merchant steamers suit-
able, if required, to be used by the
United States Government as auxiliary
cruisers, transports, etc., and to assist
in maintaining the mail service with
other countries, and without question-
ing the great value of the existence of
such a fleet to the general Govern-
ment as well as to our maritime and
commercial interests at large, let us,
with the greatest possible promptness,
have enabling Acts passed by the next
Congress granting to the citizens of
the United States—British Trade
Review.

Lodge and Legislation.
Washington, Dec. 16.—Senator Lodge
said today he did not believe this ses-
sion of Congress would legislate for
the Philippines and Cuba. He does not
believe the time has arrived for such
action. He is in favor of declaring a
form of government for Hawaii and a
temporary arrangement for Porto Ri-
co.
The Senator believes that currency
legislation is a necessity at this ses-
sion of Congress. He is in favor of
extending the currency, tariff and
other laws to Porto Rico pending the
establishment of a permanent govern-
ment.

COSTLY BATTLESHIP.
The new battleship Implacable, now
being prepared for sea at Devonport, is
to be provided with armor and arma-
ment the cost of which will exceed half
a million sterling. This will repre-
sent nearly half her total cost, and
even this does not include the maga-
zine fittings or the rifles and other
small arms which form part of every
ship's equipment. The Implacable will
be one of the most powerful armed
battleships in the world.

PER S. S. AUSTRALIA.

OPPOSITION TO PACIFIC CABLE.

Washington, Dec. 26.—It is possible that private interests may attempt to delay the construction of the Pacific cable, just as they obstructed the construction of the Nicaragua canal. The Eastern Extension Cable Company, which appears to be an outgrowth or offshoot of the Hongkong Cable Company, will protest against any rights being given by Congress to any other company or party to land a cable at Manila or any part of the Philippine Islands. This company is acting under a grant of the Spanish Government, made less than two years ago which would appear to give it a monopoly for fifty years. It is said that the Eastern Extension Company would surrender its concessions and privileges for \$1,000,000. In fact, it is not improbable that it would be very much pleased to do so.

Freights and Charters.

Freights and charters in San Francisco for the week ending December 23, were as follows:

Archer, Am. bktn, 845 tons—pass & mds to Honolulu, in Planters Line, by Welch & Co.

Annie M. Campbell, Am. schr, 485 tons (at Tacoma)—lumber thence to Honolulu, by Tacoma Mill Co.

Cleveland, Am. str, 730 tons—pass and mds to Kahului, by Alexander & Baldwin.

Courtney Ford, Am. brig, 352 tons—pass and mds to Hilo, H. I., in Spreckels Line, by J. D. Spreckels & Bros. Co.

Eva, Am. schr, 253 tons (at Eureka)—redwood thence to Hilo, H. I., by Chas. Nelson.

Emma Claudina, Am. bark, 185 tons—pass and mds to Kahului, by Alexander & Baldwin.

G. W. Watson, Am. schr, 397 tons (at Gamble)—lumber thence to Honolulu, by Pope & Talbot.

Okanogan, Am. schr, 606 tons (at Ludlow)—lumber thence to Honolulu, by Pope & Talbot.

Santiago, Haw. bark, 902 tons—pass and mds to Honolulu, in O. S. S. Co.'s Line, by J. D. Spreckels & Bros. Co.

Latest Charters.

The latest charters on the Coast for ports on these islands are as follows: Skagit, barkentine, 444 tons, now at Port Gamble, lumber thence to Honolulu—chartered by Pope & Talbot.

Aloha, schooner, 742 tons, returns to Honolulu in the Hawaiian Line.

Dora Blum, schooner, 316 tons, merchandise to the Hawaiian Islands, in the Island Line.

G. W. Watson, schooner, 397 tons, lumber from Puget Sound to Honolulu.—Weekly Com. News, Dec. 27.

Ship Henry Hyde on Fire.

A cablegram in San Francisco from London December 27, announces that the ship Henry E. Hyde, from Norfolk for Honolulu, put into Valparaiso with her cargo on fire. Captain McLeod was to leave on the Mariposa to take command of the Hyde when she arrives at Honolulu.

Lubricating Oils

Will be used very freely for the next 6 or 8 months so we wish again
to call the attention of all mill men and users of machinery to our TROPIC
LUBRICATING OILS. For years this brand has been used on these islands
and each season the demand has increased so that this year we have
had to build a special oil warehouse at Kakaia to hold the hundreds of
barrels of oils we have to carry in stock. Tropic Cylinder, Engine, Machine,
Dynamo and Carbox Oils are the ones you want if you want every-
thing to run smoothly.

Benton Boiler Compound

This compound is entirely vegetable, contains no oil or acid, it being a
natural preservative for iron or steel. It rots the scale in the boiler and
gradually cleans same. After the boiler becomes clean, the Compound, if
used according to directions, will keep the scale forming properties of the
water in the form of solution or deposit, and the boiler can be kept clean,
and the scale forming properties of said water can be blown out in the form
of mud. It is a great saver of fuel as it will clean and keep clean any
boiler. Let us send you a barrel on trial, no pay if not satisfactory.
Packings, Waste, Compounds, Engineers' tools and supplies of all kinds.

The South African Catechism.

[From Life.]

Why did the Boers migrate to their
present abiding place?

Because they abandoned their former
holdings for the sake of being farther
away from the English.

Were the English undesirable neigh-
bors?

It seems a safe inference when a
whole nation gives up its homes and
moves away.

Why did the English follow them
up?

Because gold and diamonds were
found in the new territory.

What was Jameson's raid?

An attempt by the English to pos-
sess themselves of this new land.

By fair means or foul?

Foul.

Then are Jameson and his fellow
conspirators still in disgrace?

They have never been in disgrace.

They are national heroes.

But the English were at peace with
the Boers at that time?

Yes.

Then the raid was in open violation
of international law?

Distinctly.

An indefensible attempt to gain pos-
session of a neighbor's country in time
of peace?

Yes.

What led up to the present war?

A desire of the English to control a
country which was not their own.

What is the ultimate object of the
English?

Treasure.

And for what are the Boers fighting?

For their country.

Will the British outnumber the
Boers?

About ten to one.

Do these facts explain why the sym-
pathies of civilized countries are wholly
with the Boers?

They do.

lot of Copley Prints, Carbons,
and London Prints, covering

BOOKED FOR AUSTRALIA.
Notwithstanding the uncertainty as
to the arrival and departure of the
A. stralia, the bookings have been go-
ing on. There has been such a rush
and so many applications have been
attended to that when the steamer
leaves Honolulu she will be jammed
full. Most likely many of her passen-
gers will have to be content with a
"shakedown." This, however, and the
prospects of being quarantined at San
Francisco does not seem to stop those
who wish to leave, and Irwin & Co.'s
office is kept busy putting down the
names.

No steerage passengers have as yet
been booked and the prospects of there
being any are extremely small.

The bookings up to date are as fol-
lows: Frank Marten and wife, C. Van
Dyne and wife, A. L. Parmley, C. Ha-
