SEALED TENDERS

Will be received at the Interior Office until January 14, 1892, at 12 o'clock noon for Dredging the Bar at the entrance to Honolulu Harbor, to a uniform depth of not less than thirty feet, length, say Eleven Hundred feet; width at bottom not less that Two Hundred feet.

The material excavated therefrom to be deposited in a place prepared for the same on the Kakaako Flats.

The Government will furnish for this work a Hydraulic Dredger free of charge, with the understanding that the Contractor shall be responsible for any and all damages to the hull, machinery, pipes, etc., and that he shall return the same to the Government when the work is completed in as good order as when received, reasonable wear and tear excepted. That said Plant shall be insured against total loss in favor of the Hawaiian Government and the cost of insurance borne by the Contractor while in his charge.

The Contractor shall furnish to the Government, bonds in the Penal Sum of sixty-five thousand dollars, (\$65,000) to perform the work in accordance with the conditions named in the contract and also as against damage to or loss of Dredger.

Plans and specifications can be seen and all required information obtained, upon application to the Office of the Superintendent of Public Works.

The Minister of the Interior does not bind himself to accept the lowest or any bid.

backward populations of Europe. If the introduction of qualifications for the suffrage in the South should lead some of the Northern and Middle States to reconsider the above-mentioned dogma, and to withhold the means of injuring the commonwealth from newcomers unfit to vote intelligently, whether through their general political incompetence or owing to their ignorance of the English language and of American institutions, a service of no small consequence would have been rendered."

Mr. Emmeluth in a letter to-day calls attention to what appears to be an anomaly in the building laws, owing to there being no graduated scale of fees for building permits proportioned to the cost of the buildings. Intending legislators should take the matter into consideration, and, if they see it in the same light as Mr. Emmeluth, distinguish themselves by producing a measure for amendment of the law in ques-

Hon. R. W. Wilcox has publicly denied the authorship of the lately published letters to C. C. Moreno, Washington, D. C. Although some things in the letters bore a resemblance to previously published letters signed by Mr. Wilcox's name and not repudiated by him, these latest appearing ones looked in places as if they had been doctored considerably. At all events Mr. Wilcox is entitled to have his disclaimer accepted until proof of authorship is brought home to him.

Ka Leo complains that the BULLEris is opposing it for its campaign against the social evil. The caterer for Ka Leo's English page must be dreaming, as this paper has not had a line on the subject. He must be weakening on his imitation of Stead when he winces at the torture of martyrdom before he feels it.

THE BUILDING LAWS.

EDITOR BULLETIN :---There is a law on our statute books relating to fire limits and building construction, repairs of same, etc., in Honolulu that will bear amending. The section relating to issuing permits under the act provides for the payment of the sum of five dollars for each permit granted, no matter how small or large the proposed structure may be. To illustrate, a poor man must pay the same fee for permission to erect his simple cottage of one or two rooms as was paid for permits to put up the Brewer, Cummins and Robinson blocks during the past season.

One person paid the sum of five dollars for a permit to do some alterations, the total cost of which will not be twenty dollars. There is a manifest injustice in this, as the exmination of plans and spec on a building like the Brewer block is not properly recompensed by the amount of the fee, while it is an outrage to charge a man five dollars for a permit to put up a simple cottage, the plans of which are roughly sketched on a piece of note paper. Provision for Government supervision of building construction within the area prescribed does not imply a right to burden the building with the payment of excessive fees. In other countries the practice is different. In several of the United States the law relating to this matter requires the payment of one dollar for permit to put up a new house \$1000 or less in value, and 50 cents for each additional \$1000 of cost of structure. This applied to the cases cited would be for the Brewer block say \$12.50 and for a cottage of two rooms \$1, which seems to me a more just arrangement than the present law. While writing on the subject I would like to inquire of the Fire Marshal whether the corrugated iron building recently constructed on-Hotel street adjoining the Robinson block was erected according to the original plans submitted in application for permit, and whether its construction conforms to the law relating to buildings erected within the fire limits. JOHN EMMELUTH.

MONDAY, JAN. 4, 1892.

An American humorist has described Mr. James Bryce, M. P., author of "The American Commonwealth," as "the first Englishman who discovered America." Mr. Bryce has now followed up his privilege as a discoverer of the true inwardness of the Constitution of the United States, by contributing an able paper to the North American Review on "The Negro Problem." He does not see much hope in the application of force, saying in this connection, "Power naturally falls in a community to the strongest, and law undertakes a tremendous task when it attempts not merely to protect the ordinary civil rights of a backward race, but actually to force the rod of authority into their feeble grasp." Mr. Bryce advocates an educational suffrage to meet the negro problem, believing that this would be beneficial also for other sections than the South. "The desirability of universal suffrage, for whites," says he, "has been exalted in America to the rank of an axiomatic truth, and applied with hasty confidence. Nothing can be plainer than the mischief it is working in those parts of the Union which receive swarms of ignorant immigrants from the most so; Islands, 84.

a Club. About thirty persons, members and others, attended a special meeting of the Hui Kalajaina Saturday evening at Robinson's hall. President J. A. Kaboonei occupied the chair and called the meeting to order at 7:50 o'clock. A press representative, however, being in the middle of a heated political argument failed to comply with the president's call. The President becoming angry rapped the table with a monster cane and commanded silence, at the same time exclaiming, "If you can't keep quiet, you better go outside. I be-gin to rule now!" Silence reigned, the sight of the ugly-looking baton being sufficient to inspire awful

terror. The President then announced the subject, whose discussion occupied

about an hour. Then ensued a debate on whether it was advisable to elect a special committee of three members from each ward to canvass the respective wards, or whether the central was sufficient, to report to the nominating convention. The election of a special committee was lost and the central committee was authorized to hold meetings in the

different wards, and acquainted themselves with who was who for legislative honors and the most popular.

Several laughable incidents occurred at the meeting, which adjourn at 9 o'clock in disorder. It lay with

the president whether a member could say anything. Many were commanded to "Sit down!" and from. "Wait till I give you permission to speak !"

NEW YEAR'S AT THE HOTEL.

The New Year's dinner at the Hawaiian Hotel'on the eve of the holiday was in point of quality up to the high standard of the Christmas dinner. It was much better patronized by other than the booked guests, however, showing that Mr. Johnson's enterprise in catering to the public is being increasingly valued. The dining room looked very cheerful with brilliant lights and trophies of the flower garden and fernery. One notable feature was the fresh variety of viands, giving a change from the Christmas menu without any deterioration in the general excellence of the banquet. Hawaiiau music was furnished during and after the feast.
