MR. EDITOR: The recent victory gained by the attorneys for the Government (and for themselves) treaty, no financial policy, no econdeserves encomiums of an abler pen than mine. Those who depend on the Honolulu press for information must be sadly puzzled by recent closures, bankrupts, idle men, emipolitical movements; but when the circumstances are understood and the results considered, the whole appears a masterpiece of state craft, which compels our reluctant admiration. As a student of political economy I would like to write a contribution to the history of this micro-monarchy, giving an account of how Messrs. To render its strength doubly sufficient the Liberals, num- HONOLULU IRON WORKS CO., bering fourteen members, determined to support the Reform. The Liberals did this because they realized that they were a minority and had no hope for themselves; secondly, because they wished to turn out the Ministry and certain notorious officials at whose hands they had suffered persecution and all kinds of indignities; lastly, they hoped by helping to carry out the measures favored by the Reform to restore some measure of prosperity to the country and relieve the hard times which naturally affect them first and most severely.

The Reform now had the chance to assume the responsibility and carry out any policy they might favor. Instead of taking advantage of their power to secure an honest, efficient administration, they again fell victims to their fears and the wiles of the professional politician. They were soon led to vote to support Marshal Wilson and shortly afterward to sustain the Mahope Ministry. They are now engaged in a struggle with the native members to prevent them from meddling with and perchance weakening King Bolabola's soldiers and army of police. I cannot pause to praise the ability of the politicians who have with such slight means achieved such great results, but Carriers are not allowed to sell must refer to what the results themselves will be if they retain control of the counsels of the Legislature.

When Hawaii makes overtures to that country, Columbia will be dersigned for either paper one year, strictly in advance, will receive one found holding her nose. The evil odor of our peculiar institutions, our intestinal disorders and court scandals will be wafted across the waconviction of any one stealing the Daily or Weekly left at the office or disinfectants before talking of closer ters and make that country suggest relations.

In America public opinion is supreme; the press controls public opinion and the hospitality with which it is sought to gag wandering reporters and editors has lately GENERAL MERCHANDISE proved insufficient to restrain the free and independent newspapers across the sea. The natives have been antagonized. They say they have been betrayed. The color line has been drawn. They have been united to oppose the haoles. For another two years, as for two years Craft, or Politics in Hawali Nei. past, the energies of the Government will be devoted solely to beating Wilcox. No foreign policy, no utilization of Pearl Harbor, no omy, no reforms, no improvements, no money in the country; but plenty of agitation, treason, one-fourth of the population under arrest, foregration, royalty, favorites, boodle, opium, gin, gambling. By the end of the two years the most of the white people will have left, and the Reform will have to depend on the ingenuity of the Boodlers to defeat the natives, who will then have

WEDNESDAY, : AUGUST 3, 1892.

WE CONGRATULATE our neighbor, the Bulletin, on its entry into a new office, with a new press and a new dress, which are a great contrast to its old surroundings, whichmust have served to dampen the ardor of all connected with it. We trust that in its present location it will be able to copy the enterprise of its rival and hold its position as a leading representative of Hawaiian civilization and progress. Its neat type and attractive appearance will serve to make it a favorite with all classes, and we wish it every success.

SILVER CERTIFICATES.

Mention has been made from time to time in the last few days of the fact that the Minister of of a clear working majority in the Finance was signing silver certificates. For the last day or two the town has been flooded with new, crisp, handsome \$10 and \$20 certificates. The question natur- property for a similar purpose in ally has arisen as to the authority for their issue. Certainly the Minister of Finance can have no authority not conferred by law. The Act of 1886, as to the issue of certificates, was repealed by the Legislature of 1890, and an amended section was passed whereby certificates of deposit of amounts of \$20, \$30, \$100 and \$500 only were FINE SOAPS authorized. Omitting the \$10 certificate, for it was authorized by the Act of 1886, amounts to a direct prohibition against its further issue. It will be interesting to know what the Minister has to say on the question.

Honolulu people may be said to have the most interest in the question; but, after all, the whole country has something at stake. No doubt the Water Works may be conducted by clerks in a way. In fact the water would run without any clerks at all, but it would soon run out; and not only would it cease to produce a good revenue, as it now does, but disaster would follow. It is important enough, and has sufficient responsible work to require and employ all the time of a first-class man. It is doubtful if the Superintendent of Public Works can give the Water Works the required time and attention. The road work of Honolulu might well be handed over to the Public Works office. There is no doubt that there can and should be much retrenchment. No one likes to be cut off. But it For the same purpose as the first production, must be done somewhere. Is the Water Works the place to cut?

THE BRITISH PARLIAMENT.

The full returns of the English election had not been received up to the departure of the last mail from San Francisco, July 22d, but from various sources we gather the following data, being all that was then known. At that date the result stood-310 Conservatives and Unionists and 338 Liberals, including Irish Home Rulers, leaving some twenty districts still to be heard from. The latest estimates concede to Gladstone a majority of

Mr. Hendry, President of this Company, left for the States by the Mariposa, Do you know what that means? It means that the markets of the principal cities from San Francisco to Boston will be explored for goods to go into your homes, or your plantations, your ranches, any place where articles in our line are used. The little Frenchman on the top floor of a New York tenement will be called upon for his latest efforts in Silk and Satin Lamp Shades. His neighbor further along, the brass goods worker will put forth the most fetching conceits in lamp goods and bric-abrac. It means that the best goods manufactured will be bought at prices low enough to enable us to put them into your homes without your being obliged to deprive yourself ofnecessities perhaps-in order to make your living rooms attractive. It pays to go abroad

-pays you and us. While we are waiting for novelties in Silk Shades of American and French manufacture, we have placed on sale not so elaborate as the others and at about quarter price. Genuine hand-painted on silk -they go to you at three dollars, about the same as you have been paying for the paper muslin affair that wrinkles, and stays wrinkled in the first wind. You can't break the Jap's with an axe. A cheaper line of decorated paper with silk fringe and tassle for \$1.50. We never had anything like them before.

We've had to replenish those two piles of Cocoa Mats standing inside our front door twice in a week-50 cent mats are an innovation here and people jump at the chance to keep their floors and verandas clean at the cost of a good broom and without the labor of pushing it. If you want one of them your time to get it is now, next week may be too late; we haven't a million of them.

Numerous inquiries for something different in Oil Stoves prompted us to buy an invoice of the "Florence" They're here and you may have them-cheap.

The "Forest Queen" brought us a lot of new Piano Lamps - good styles, and burners which give a light equal to the sun in brightness, but without the heat. You must have a Piano Lamp if you expect to get good music out of a piano--like the Legislature and-, useless unless combined. (We leave the name blank that readers may fill in to suit their tastes.)

Bird Cages of different shapes and material also arrived last week. The bird's NOTICE IS HEREBY GIVEN THAT in accordance with the law in such cases made and provided, I will cause to be sold the following articles of Ki On, taken by me in destraining for rent, (for the months) to wit:

home must be renewed if he is a good singer. It's bad policy to slight those who make life pleasant. Birds do that: home must be renewed if he is pleasant. Birds do that; so does the green grass-buy a Lawn Mower.

We heard of an ice cream freezer the other day that freezes cream without having to turn a crank. We don't sell them. We offer you the White Mountain, the best triple acting freezer in the world. You get no icy lumps, no "White Mountain." Nine others. minutes turning gives you cream as is cream.

THE LEGISLATURE

Fifty-Fourth Day. TUESDAY, Aug. 2. The House opened at 10 A. M.

PETITIONS.

that a school house be built at Kilauea, Kauai. Entrusted to the Committee on Education.

Rep. S. K. Pua presented a petition from Honolulu, praying that the Station House be provided with a \$1000 bell to be rung at night. Given to the Public Lands Committee.

The same member presented three petitions from Hanalei, Kauai, requesting: (1) That gambling be licens ed. Reterred to the Judiciary Committee. Also (2) that the law to mitigate be repealed. Given to the Sanitary Committee. (3) That merrygo-rounds be prohibited, and that native women may not be allowed to marry foreigners. Referred to Committee on Miscellaneous Petitions. And (4) that the Board of Health be abolished and a new one created. Submitted to the Sanitary Committee. mitted to the Sanitary Committee.

Rep. Wilder presented a petition from resident Chinese of Honolulu, relating to increased duties on Chinese merchandise. Petition tabled for consideration with Bill 33A.

Rep. Aki presented a petition praying that no increased duties on Chinese goods be enacted. Tabled for consideration with the bill.

Noble Williams presented a petition from influential citizens of Honolulu, praying that they are greatly in need of a reliable water works system; one that will without doubt supply the needs of the city for water for domestic use and for the purpose of suppressing fires. The present system proves defective during periods of drought, which occur to a greater or lesser extent every year. The city is in considerable danger from fire during these periods of drought; and the water available for domestic use during these times is of inferior quality and liable to breed disease. The petitioners therefore pray that the necessary legislation be carried out to ensure to this city a sufficient supply of pure water at all periods for all necessary purposes, from a source that is praying that they are greatly in need sary purposes, from a source that is absolutely free from all dangers arising from surface water, which may in times of drought become stagnant and

fertile in the germs of disease.

Noble Williams said that the revenue for the Water Works for the period have been about \$85,000, which sum has been paid chiefly by the peo-ple of Honolulu. Therefore he moved that the petition be referred to a special committee selected from the Nobles of Oahu and representatives from Honolulu.

Noble Baldwin did not favor limiting the committee to legislators from

Oahu only.

Noble Macfarlane thought that

Noble Williams was a little mistaken in his restrictions. He referred to the Fire Department whose exthe restriction to be manifestly unfair, and thought a fair committee would be from all the group.

(Laughter). But his objections were not allowed, and the bill went to that committee.

STANDING COMMITTEES. Noble Williams reported several

bills as printed. Rep. Kanealii presented the report of the Committee on Miscellaneous Petitions as follows: Petition 243 introduced by Rep. Kanealii (1) that an English school be built at Waiehu, Maui. Referred to the committee on Education. (2) That the use of the road mauka of Waiehu be not restricted. Given to the Public Lands Committee. (3) That planters be required to fence in their cane fields. Tabled. (4) That the law requiring licenses for the sale of salt beef and pork be repealed. Tabled. (5) That gates of the highways at Wailuku be removed.

Petition 256, introduced by Rep. Horner: (1) That no government physicians be paid unless the patients

(3) That an English school be built at Kaala. Referred to Educational committee, (4) That roads at Kaauili and Mauloa be opened. Referred to Publie Lands Committee.

Rep. Smith presented a petition signed by a large number of influential people at Walmea, Kauai, praying that Walmea, instead of Makaweli, be made a port of entry.

The bill and the two petitions (including the previous one) were referred back to the Committee on Commerce.

Rep. A. S. Wilcox presented a petition from Hanalel, Kauai, praying that a school house be built at license.

Rep. Smith presented a petition 259, introduced by Rep. Horner: (1) That a reciprocity treaty between the United States of America and Hawaii be made. Tabled. (2) That the law regarding leper suspects be repealed. Tabled for consideration with bill. (3) That the law requiring compulsory vaccination be repealed. Tabled for consideration with bill. (5) That all persons be allowed to practice medicine without a license. Tabled for consideration with bill. (5) That no lawyer be paid a fee unless successful. Tabled. That said measure is necessary, there being an evident omission in the English-version of Section 2 of Chapter LXXI of the Session Laws of 1890, the Hawaiian version being in all respects correct. AFTERNOON SESSION.

The House re-assembled at 1:46

Rep. Bush continued his remarks on Bill 33 A. Rep. Kamauoha did not approve discriminating against the Chinese. Rep. Smith asked Rep. Bush who was doing the tailoring business on Maunakea street now. They are Chinese, and not native women.

Noble Macfarlane appreciated the motives and good intentions of Rep. Bush, but he felt certain that the re-

sults wished for by the hon. Representative could never be attained by putting on this increased tax. If he believed that a prohibitory tax on this article will help to maintain local wage workers by having the clothing made here instead of in China, I can tell him that it will not contribute one cent towards the sup-port and maintenance of Hawaiian native women. The employment will go where it goes at present—to Chinamen. Does the member think for a moment that Hawaiian women can compete with Chinamen? I am for compete with Chinamen? I am for protection to every home industry, but the member is very far out in his views if he insists that this prohibitory tax will help any local industry, except those owned by the Chinese. It will in fact help to maintain these Chinese tailor shops which are now absorbing all the business in this line. And the same argument holds good on all other businesses. They ought to be on the plantations, where they came from and where they belong as field laborers, and where they should have been forced to remain instead of flooding the towns and coming into competition with native and white labor. The hon. Noble repeated his former argument against the increase to 25 per cent., because it will be an oppressive tax on the Chinamen who now finds himself forced to take much lower wages in view of the depressed condition of the times, and this tax is a tax upon one of his greatest necessities. For the same reason the speaker said he would

right; but if it is a bill for anything Rep. Smith thought Noble Neuman moved his motion merely as a

joke. Striking out the enacting clause will defeat the whole bill. The bill will certainly make about \$20,000 revenue to this Government.

Noble Neumann said that that was no joke of his. He was glad that new light had been shed—that toothbrushes are luxuries. He wondered why the reputed Committee of Ways and Means do not stick to the bill. He had a great deal of confidence in the committee.

the committee. He read these items: "Gloves, 25 per cent.; and hoop skirts 10 per cent." If the bill is good, let it pass as recommended. He did not see any reason for striking out lines 7 Section 4 was reconsidered, on mo-tion of Noble Marsden. He submitted

an amendment which was passed. Section 2 was reconsidered. Noble Neumann moved to strike out line 9 "on tea, 10c. per lb." Noble Macfarlane opposed the increase to 10 cents per pound on tea. He was born in Augusta County, Virginia, near Staunton, and was the eldest of six sons. He spent the early part of his life on his father's farm. He joined Hebron Church, near Staunton, in 1829, and making up his mind to study for the ministry, he entered a classical school where he remained three years, struggling to help himself along.

It is agreed that if the Court shall find there is any liability of either party to the other, a further hearing may be had to ascertain the extent of such liability, the areas occupied and the amounts to be paid by one party to the other.

HAWAIIAN COMMERCIAL AND SUGAR COMPANY, by its attorneys. Thurston & Freeze attorneys. Thurston & Freeze struggling to help himself along, often taking only two scanty meals often taking only two scanty meals a day. After spending one year teaching, with only thirty dollars in his purse and a horse worth about the same, he started across the Alleghany mountains for South Hanover College, Indiana, where he remained two years, working before and after school hours to help himself along. He then spent two years in the service of the American Bible Society. Entered Bangor Theological Seminary in 1836, and graduated in 1839 with Rev. D. Dole, father of Hon. S. B. Dole, and the same year was ordained to the ministry and accepted by the A. B. C. F. M. as a missionary. He was married to Miss M. Grant of New York in October, 1840, and sailed from Boston on November 14, 1840, in the ship Gloucester via Cape Hora for the Hawaiian Islands in company with Rev. D. Dole, E. Bond, and Rice, with their wives, arriving in Honolulu, after a long and stormy passage, in May, 1841.

He was stationed at Kau, being the first foreign missionary there, among a population of nude savages. His first house was a grass hut about fifteen feet square, without a rain door, a mat being used for the door. Here, with a wife and babe, he commenced his work for the Master.

There he labored nine years for the good of the natives, helping build

*There he labored nine years for the good of the natives, helping build several churches with his own hands and instructing the people both spiritually and intellectually. In 1849 his wife's health failed, and leaving the work to Ray. H. King, he took his wife to Hilo, where she died. He then took his two daughters and returned to the States.

In September, 1851, he was married to Miss M. Carpenter, of New York, and again sailed for the Hawaiian Islands on November 18, 1851, arriving March, 1852.

In September of the same year ire was stationed at Kaawaloa, Kona, where he labored arduously for the Hawaiiaus, both in churches and schools, and through his energy most of the Hawaiian churches in Kona were erected.

Here he remained until 1870, when he removed to Honolula for the education of his children, but not to lay down the armor or rest. Seeing the need of a Theological School for the education of young Hawaiians, it was through his efforts that the present site of the North Pacific Institute was secured, and the Theological School was opened in October, 1872. He was chosen President, and in company with Rev. B. W. Parker, H. H. Parker and B. D. Baldwin, carried on the Institute for about two and a half years, and he might

well be called its founder. In 1874 he resigned, and Rev. B. W. Parker was chosen in his place. He then returned to his old field, where he spent his declining years, preaching when able and doing what he could for the Master.

He was a kind and tender husband, a loving and affectionate father, and leaves a wife and four children to mourn his loss.

Journalism in Japan.

Constitutional government has had a remarkably beneficial effect on journalism in Japan, for, while several years ago the papers there were few and far between, and very poor, it is a fact that last year there were as many as 550 Japanese newspapers and other periodicals, and in the city of Tokio alone there were seventeen political dailies with a weekly circulation of over 1,000,-000 copies, besides weekly and monthly publications devoted to progress, science, literature, the fine arts and social affairs. Japan, which is at once very ancient and ever youthful, has become one of the great newspaper reading countries of the world.
