RUSSIAN BATTLESHIPS PERESVIET SUNK AND SEVASTOPOL HURT OFF PORT ARTHUR

Result of Another Fight of the Big Fleets---Togo Also Damages Czar's Cruiser Diana.

(ASSOCIATED PRESS CABLEGRAM.)

TOKIO, June 25 .-- Admiral Togo reports a battle at Port Arthur in which the Russian battleship Peresviet was sunk, and the battleship Sevastopol and the cruiser Diana damaged. The Japanese fleet came out of the action practically unharmed.

BATTLESHIP

but which, none the less, have great fighting capacity, though they perhaps hardly rank in the very first class. Their displacement is 12,674 tons, and their continuous sea speed is about 16 knots. The Peresviet had a continuous belt of Hacveylsed nickel steel made in Russia, which extended nearly the whole length of the ship, and she carried four 10-inch guns, mounted in pairs in two turrets, and eleven 6-inch quick-fire's, as well as smaller guns.

RUSSIAN LAND FORCES REPULSED

(ASSOCIATED PRESS CABLEGRAMS.)

TOKIO, June 25 .- Four thousand Russians attacked Aiyangpieman and were repulsed. The Japanese suffered slight loss.

ST. PETERSBURG, June 25 .- The Japanese vanguard has occupied a line four miles north of Senuchen, extending to the seashore and the mountains. They are building fortifications near Kapai pass. Skirmishes are going on constantly.

MUKDEN, June 25.—The Japanese have occupied Kaichou. A decisive battle will take place soon between the united armies of Kuroki and Oku and the Russians under Kuropatkin.

POSOTUFU, June 25.-A Russian ferryboat has been sunk o here. Sixty bodies have been recovered and 160 are missing.

ST. PETERSBURG, June 27.-It is reported that the Russians have been defeated in a serious battle at Tatchekiao.

Maps do not show the position of the town of Tatchekiao, under that name, but the Army and Navy Journal war map, a recognized authority, shows a town called Ta-shi-Kiau, which may be the same place, to be located within a few miles of Newchwang. on the railway between Port Arthur and Liaoyang. If this is the place the advance guards of General Kuroki's army, advancing from the Yalu River, have penetrated far into the interior of Man-

In a war map issued on June 11, containing corrected informa- Q tion concerning the seat of war, the Japan Gazette says: "To-shihchiao:-Near Newchwang and junction of the railways from Tien- O tsin and Port Arthur. Russia has built large barracks there.'

The capture of this important strategic point would be a victory of great importance to the Japanese.

LIAOYANG, June 27.-General Oku's army is withdrawing. of General Kuroki has apparently been abandoned. There are reports of indecisive skirmishes taking place constantly.

TOKIO, June 27 .- The refusal of the Russians to furnish information regarding Japanese prisoners is producing resentment in Japan.

SEOUL, June 27.-Cossacks have burned houses and committed other outrages in Northeastern Korea.

ST. PETERSBURG, June 28 .- The latest advices from the front confirm the imminence of a great battle. Three armies aggregeting 300,000 men are in close touch.

OYAMA SOON TO LEAVE.

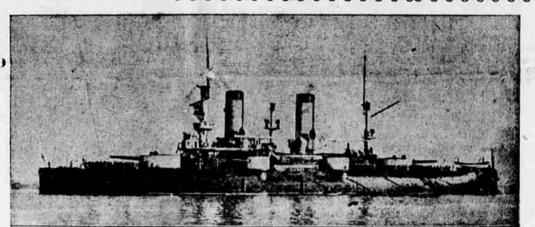

TOKIO, June 28 .- Field Marshal Oyama will leave here for Manchuria on July 6.

THE SKIRMISHERS AT WORK

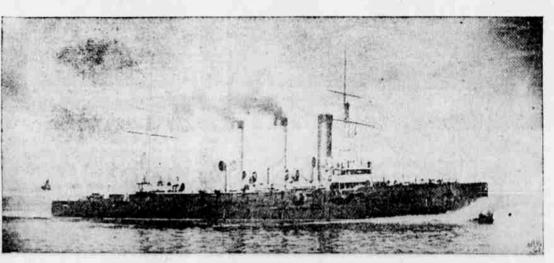

ST. PETERSBURG. June 38 .- There have been many skirmishing engagements between outposts with losses on both sides. The Bussians lost sighty one in one hight-

HILO JURY

No Agreement At a Late Hour Last Night.

(From Saturday's Advertiser)

Instructions as asked by each side were presented to Judge Gear in the Hilo waterfront case shortly after 2 p. m. yesterday.

J. A. Magoon moved for a directed verdict for the plaintiff, C. A. Brown, on the grounds that he had proved a clear title to the property and that the defendants had failed to prove any title, The motion was denied.

S. M. Ballou for the defendants, J. D. Spreckels and others, moved for a directed verdict for the defendants on the same grounds as those presented structions. to support the motion for a non-suit. The motion was denied.

Mr. Magoon next moved that the torted.

question of adverse possession be withdrawn from the jury.

Judge Gear asked if he wanted addi-tional instructions, adding, "I will instruct the jury at the end of the case." The motion was withdrawn.

W. A. Kinney began addressing the jury for the defendants at 2:28 and agree. spoke for fifty minutes. At the outset to whatever was given him in the deed from Mrs. Pitman. His title rested on the Bates grant from Kamehameha III., which, after description of three sides, stated, "and also the sea beach in front of the same to low water mark." Did that mean all of the territory between high and low water mark now, or the sea beach as it existed in 1853?

Defendants contended that all of the accretions in evidence went to the Hawallan Government under a ruling of the court. Mr. Magoon had said that everybody used that beach, and it had turned out that he was "another Daniel come to judgment," for the Judge had ruled that it was Government prop-

cause adverse possession could not run against the Government, while C. A. Pitman sold to Spencer, was it down to Brown would still have his sea beach. a certain point by metes and bounds Brown would still have his sea beach. One in possession was not obliged to surrender to anyone but the owner. Plaintiff claimed 100 feet of red soil washed from the mountains and separated from the beach by a bank five

"They had to yank that sea beach away up there and plant it with pohue-hue and sea sand," the attorney said. The highest reach of a tidal wave, however, did not constitute sea beach. Concluding, Mr. Kinney said they protested against the whole proceeding "from the morning when Loebenstein went in with his shotgun" to the time when Mary Ailau was brought to the front for sympathy. The entire case of the plaintiff was "cheap and tawdry."

W. L. Stanley made the closing address for the plaintiff, occupying about point where we cannot agree, a little the same length of time as Mr. Kinney had done. Replying to certain remarks he said the plaintiff was not going to California to abuse Spreckels. No dame ages were claimed as might properly be ages were claimed as might properly be done for unlawful occupation. There was nothing ignoble about the plain- Frank E. Blake, R. W. Passed By Judge De Bolt.

(From Saturday's Advertiser)

Jonah Kumalae and Enoch Johnson, convicted of conspiracy, were sentenced by Judge De Bolt each to be imprisoned at hard labor for one year and to pay a fine of \$12.50, the latter representing one-half of the costs of proseof conspiracy to defraud the Territory of \$312.50 in the guise of expenses of the

mittee on the "Chinese fund."

Previous to sentence the court denied: a motion for a new trial. When defendants were asked if they had anything to say why sentence should not be passed upon them, they motioned toward their counsel and said he would speak for them.

C. W. Ashford, counsel for defendants, argued that the evidence showed gross cheat and not conspiracy, if it proved anything, and claimed that the penalty should be pronounced as for the less serious offense. Then the attorney called attention to what he designated "persecution" of the defendants by the Advertiser, saying he was not only referring to attacks upon them prior to the trial but, particularly, to an editorial in the previous day's issue of the Advertiser, wherein he said the Judge of that court was "sought to be threatened and cajoled, bullied and flattered, Ashford considered such methods indecent and outrageous—an outrageous attempt to influence a court of justice.

Attorney General Andrews, replying, said in effect that nobody could imagine that any public officer, including the court and himself, was going to be swerved from his duty by what might e said in the newspapers. If a newspaper aided in ferreting out crime and scertained certain facts, it seemed tonim that it had the privilege of publishing the facts. He said this latter in reply to Mr. Ashford's statement that jurors on their examination admitted that they had been influenced by articles in the Advertiser.

It was a painful duty that devolved on him, the Attorney General said, in prosecuting two men whom he knew well and had been on good terms with. Yet it was his duty to ask for a severe sentence, as the defendants were men of ability and education who must have fully realized the gravity of the offense

hey were committing. Judge De Bolt paid attention first to-the newspaper article of which counsel for defendants had complained. spoke of the press as powerful for both good and evil. The editor responsible for the article, he went on to say, must have intended either to injure the defendants or to insult the trial judge. As to the former motive, he said the defendants would not be injured by the article, for if it could have any influence with him the effect would be tomodify his determination of administering strict justice. Taking the other view of the article or concerning himself, he would pass it over without no-

With regard to the prime matter betwo last legislatures. It was necessary to purge the legislative halls if there was to be any hope for these islands. Kumalae, as a member of the Legislature, had taken an oath to guard the interests of the people who gave him the trust. Competency and absolute honesty were two essentials of a legislator, but of these competency could more safely be spared than honesty: If there were not some competent and honest men in the Legislature, though all too few, he did not know where the

country would be today. Johnson was a man of intelligence and ability, a member of the bar who must have known and appreciated the evil of the course on which he was setting out.

The verdict of the jury the court felt was absolutely correct, and the imposition of a fine would be a quite inadequate punishment. It was the sentence of the court that each defendant should be imprisoned at hard labor for one year and pay a fine equal to half the costs of prosecution. The costs were later taxed at \$12.50 against each defendant.

Mr. Ashford was granted thirty days for obtaining a transcript of the evi-The Hughes, secretary. Owing to the fact any improvement. Then I began to dence in which to file a bill of excep-

THE FOURTH

Parade, Orations, Ball A Dramatic Conclusion and Salutes the Order.

(From Sunday's Advertiser)

Public spirit manifested itself yesterday at a meeting of the sub-committees of the Fourth of July general committee in planning that the coming national holiday be observed with a parade of military and civic bodies, orations in the Capitol grounds and dancing in the evening at the Young and Hawaiian hotels. The meeting was held in the throne room of the Capitol building at 11 a. m., with Col. J. W. Jones in the chair, Secretary Taylor and Treasurer Hall being present.

The secretary notified the meeting that C. M. Cooke, appointed chairman of the Finance Committee, had declined to serve, but held himself ready to contribute funds when the subscription list came around. Mr. Gilman also notified the committee he would be unable to serve. L. E. Pinkham, of the Finance Committee, who was present, said nothing had been done to collect funds.

The Literary Committee, through W. R. Farrington, chairman, announced its recommendations were for literary exercises to be held at 10:30 a. m. in the Capitol grounds; that Theo, Richards be requested to organize a chorus of school children to sing national anthems accompanied by the band or other music; that F. E. Thompson be selected to read the Declaration of Independence. The committee asked for an allowance of \$100. The committee has also appointed a sub-committee to see Mr. W. G. Irwin to secure the Opera House in the event of rain on the Fourth. The Acting Governor will be asked to preside at the literary exercises. The following is the proposed form of program:

Music, prayer, music, reading of Declaration of Independence, music, address, "American Citizenship;" music, address, "Future of the Republic." The report was adopted.

The Sports Committee, through Harry was finally decided to cut out a sports program, as the boat races at Pearl Harbor in the forenoon and baseball in the afternoon would cover this feature.

G. W. R. King of the Ball Committee did not think a ball necessary. W. R. Hawalian hotels in the evening, the committee furnishing music for both places. In the event of the transport Deputy Attorney General Fleming in-Thomas arriving on the morning of the Fourth from Manila, the band aboard, if any, might be secured for the dances, as well as the parade. G. W. R. King was appointed chairman, vice Major Potter, who will be out of town on the Fourth. With the chairman will be associated Dr. Hobdy and F. C. Smith.

C. L. Crabbe for the Parade, Salute and Fire-works Committee, reported that it was desired to have the parade as early as possible. Captain Nichols, U. S. A., suggested that the two artillery companies from Camp McKinley would be in line at 8:45 a. m. Capmarines in line. Col. Jones will have in which no bills were found. the First Regiment, N. G. H., in line, and the Fire Department would also be represented. E. W. Quinn said the worth of good fireworks could be ob-Catholic bands might be had. The committee thought \$300 would cover ev-

ARRAIGNED

to Criminal Term Business.

(From Sunday's Advertiser)

Lul Lock was arraigned under indictment for murder in the first degree, as the last item of criminal business of Court, before Judge De Bolt yesterday morning. He was charged with murdering L. T. Chin on Wednesday, June 22, 1904, by inflicting two mortal wounds upon him with bullets fired from a pis-

While Interpreter Li Cheung was orally translating the contents of the indictment to him, Lui Lock seemed to pose as an entertained listener to a story that had no unpleasant interest for him. With arms folded like a senator in the forum, his left hand grasping the copy of the indictment with which he had been served, the prisoner leaned his head toward the Interpreter as if to catch every word. There was not a trace of nervousness in the regular winking of the eyelids, while the eyes glanced alternately upward into space and downward upon the original copy of the indictment in Li Cheung's hands An unknowing spectator might easily take it that the two men were an attorney and his client, the former reading a contract of some kind which he had drawn up for the latter's approval. A more perfect exhibition of bravado in the demeanor of one charged with a crime involving the death penalty has not for long been seen in a Hawaiian of Walter Giffard Smith, who made a court. The effect was heightened by shrewd and sinister features the accus-

Judge De Bolt, through the interpreter, told Lui Lock that he was not tract attention but this particular himself upon these subjects, and lest It was the last day of the term, the accused was informed, so that he could have no trial until September. In the fagged brain. He brought his editorial But though we are bowed down by meantime he might wish to consult his hammer with him, as a verbose and the weight of our sportcomings as they friends and counsel, which brought up the matter of bonds. The court would Sunday's pictorial edition of the Ad- still have a spark of hope and encournot decide at that time that the case The Sports Committee, through Harry was not ballable, as the statute was not paper often departs from the high mordoing around the Volcano Stables. PLANS FOR LUI LOCK AFTER SEVENTEEN DAYS HILO RISES AND KICKS OF THE WAR THOUSANDS

Finally Discovers That it is Angry About a Paragraph in Advertiser's Story of the Volcano Trip-Ripvanwinkleville Wrath.

(From Sunday's Advertiser)

5th, it was read in Hilo on the 7th and from the process of Judge De Bolt's the papers there got roused up to the court. point of criticism by the 23d and 24th. That is mighty good time for Hilo as nothing was expected from it about and time to our humble fortunes prob-the Voicano article until after the ably no one will ever know, unless the Volcano article until after the Fourth. What makes the thing more interesting is that the papers actually let the spirit of enterprise so work upon them as to discover that the editor of the Advertiser would have stayed longer in the Bedchamber City but for threats of bodily violence by Judge Little. Ordinarily such a discovery as that ought not to have been made by the Tribune, at least, before the first of next April. But here is the evidence of Hilo's sudden awakening into anger and grief:

THE PASSING OF SMITH.

The Tribune must apologize to its readers for its failure to chronicle last week either the arrival or departure hurried trip to the volcano to be im- until we were willing to admit (for the mune from legal summons in Honolulu. The passing of a Smith ordinarily is not such a momentus event as to at-

GOOD OUT BOOTY WORTH

Consul General Dickin-Secured from the son Talks on Turkey's Attitude.

NEW YORK, June 9.-Charles M. Dickinson, Consul General in Constantinople. Turkey, who has just arrived home on a sixty-day vacation, talked to-day on the Balkan situation and the attitude of Turkey in relation to the Russo-Japanese war. Mr. Dickinson said:

"Turkey officially is neutral, but individually the Turks are strongly pro-Japanese.

"I stopped in Naples on my way home and it is my opinion that the Italians are pro-Japanese.

in the East.

"It is a significant fact that within the last six months or so the Bulgarian ing pro-Russian has become pro-Bulgarian. It is now Bulgaria for the Bulgarians, instead of Bulgaria for the Russians.

"If this is to be one of the results obtained from the war between Russia and Japan. I look upon that war as clearly worth while.

"The main diplomatic question we have with Turkey," he said, "is whether American schools, established many years ago, and which have been conducted without interruption, generally speaking, shall have an imperial firman -that is, a kind of a Government concession. The Turks do not wish to take any action in the matter. They say: 'Your schools haven't been disturbed yet; wait till they have been and then demand something."

"We are doing a great deal of business with Turkey, commercially and otherwise. There has been a remarkable increase in the last five years, both in the imports of American goods and in the exports to this country, and the growth of commerce is dependent upon peaceful relations with the Turkish Government. For this reason I hope the present differences will be adjusted without serious friction."

A RUSSIAN GENEBAL'S VIEWS UPON THE WAR

Dessino, military agent for Russia in Japanese that the party saw but few China, was a man whom I ought to birds where Weisbarth had seen countthe impression for several years that know-that if he saw fit to talk to me less thousands when he first visited as a newspaper man I would learn more the wreck in the schooner Ada some concerning the Russian intention in months ago. is from the pen of Walter Gifford Smith Manchuria than I could obtain from any other source.

I doubted. A previous experience months ago with Pokitilow, the man who financed the Russo-Chinese Bank reflection is convinced that he has been point of view, he naturally suspects the sincerity of all other men whose mo-

tives may be inspired similarly. It was with misgiving that I asked General Dessino for an audience. The promptitude with which my request was granted did not reassure me. The courtesy with which I was received when I called was nothing more than what I had been accustomed to receive at the hands of the Russian officer and the Russian gentleman in all my intercourse with him.

However, I had a duty to perform and I plunged boldly, resolved that I would press my inquiries home as an inferior swordsman strives to pass the guard of a master of arms. "

I spoke of Kullanchang—not sparing-

nor in palliation, but bluntly and with the conviction that it was a Russian disaster, the moral effect of which irremediable. General Dessino startled me with his reply:

"A stupld blunder." The clear, blue eyes of the Tsar's agent looked steadily into mine and prosperous position. divined the question that was on my

Wreck on the Shoals.

Sixty-two days ago the small Inter-Island schooner Lavinia, owned and commanded by Captain Weisbarth, left Honolulu for French Frigate Shoals. With a crew of young natives and by means of appliances secured specially for the purpose. Weisbarth sailed away to "wreck" the French bark Connetable de Richmont which has been stranded on the coral reef there for some months. Old waterfronters regarded the venture as a foolhardy one. They were sure that Weisbarth was wasting his money and his proposed departure was for some time the object of all ridicule "The Macedonian question has quiet-ed down since Russia's hands are tied grim looking face tanned to almost the color of leather, Weisbarth entered port again. His small vessel was load-ed deeply. The skipper returned not with a hard luck story but with booty Constitutional Assembly instead of be- from the Frenchman valued at thousands of dollars. Pumps, windlasses, anchor, sall, wire cables, ropes, hawsers, and about everything else under the sun that is found on a well equipped steel sailing vessel were stowed under the Lavinia's one small hatch and the wonder is that Weisbarth and his small crew of natives were ever able to take away such a large amount of stuff. One item of the Lavinia's cargo, anchor chains, is said to be of such quantity and quality that it is worth about \$4,500. This in itself is

booty that pays the venture. Weisbarth has been away from Honolulu about two months. He went down to the Shoals in three days. His return journey occupied eleven days. Every hour and every minute of the time that Weisbarth and his men spent on the Shoals was occupied hard work. Around the dangerous reefs and small rocks known as the French Frigate Shoals the Lavinia's crew enjoyed unusually fine weather and this in a measure is accountable for the success of the venture.

DESTRUCTION BY JAPANESE. Captain Weisbarth went to the Shoals armed with authority to send away any Japanese bird poachers who might be found there. But he had no chance

to exercise this authority as the Japanese had deserted the place after having massacred about all the birds that rendezvous in that portion of the Pacific ocean. Captain Weisbarth found evidences of great slaughter. The small Island on which he had previously met with a Japanese bird poaching party was covered with the bones of thous-TIENTSIN, May 10.-I had been told ands of booby and gooney birds, So n Newchwang that Major-General destructive had been the work of the

MAY GO AFTER BIRDSKINS.

Along the waterfront the query yesterday was: "Will old Weisbarth head for Lisianski Island and secure those throughout the Far East, had taught me to distrust the candor and honest opinion seemed to be that Weisbarth expression of all Russians speaking for would discover that he had some busi-Volcano House and whether new or old their government. When a man leaves ness to attend to over at Laysan Isstyle he will admit that the service is the presence of another filled with the land, the guano island ninety miles better than his paper would make the idea that he has looked down into the from Lisianski Island. And Weisbarth has business over that way which will send him hence in a few days! He willfully deceived as to the proper says that he has an arrangement to go over to Laysan on a guano carrying errand for Max Schlemmer. People figure that if the Lavinia can reach French Frigate Shoals in three days she can, with a bait of twenty thousand dollars worth of birdskins lying unprotected on Lisianski Island, reach that place in almost steamboat time But this is a matter which Weisbarth does not talk about. He is quite a clever old skipper in the wrecking line and has tackled tougher propositions than the securing of a few bird skins on an uninhabitated island. So it would not surprise the waterfront if Weisbarth suddenly sails away, to visit his friend Max Schlemmer. There are any number of people on the waterfront who are willing to chip in a dollar or so to send the Lavinia off.

No disposition has yet been made of the goods that Weisbarth brought from the wrecked Frenchman but he will probably dispose of them at once for a sum which will place him in a pretty

NEWSPAPERS AND COURTS.

(From Saturday's Advertiser) Judge De Bolt could hardly have been serious in his remarks, made from the Circuit bench yesterday, touching the motive of the Advertiser's leading an insuit. Judge De Bolt, of all men, ought to know that this journal has more than once sacrificed its opportunities as a newspaper out of consideration for his dignity and that it is man to maintain.

A Judge is no more sacred from pubfluence a jury or challenge his power with the Chief Magistrate of the nation or with Congress or a State or Territorial executive or Legislature, A judge is only above criticism in the narrow limits of his court and while he obeys the law; he is not an infallible pontiff who can, when the plain critic walks the street between the wind and his fictitious sanctity, let loose the blast of excommunication.

There are examples in point which

show the true relation between the citizen and the judge. When Theodore Roosevelt began his public career by exposing and chastising Judge West-brook of the New York Supreme Court American citizen. The people stood by him and did something for him afterjudiciary. When the New York Times dedozo should either do right in the ships. Tweed cases or stand an impeachment trial, it did a plain civic duty and at level of American journalism. Today, the St. Louis Globe-Democrat, in folbloodhound through the courts is a than District Attorney Folk himself any time. and far more efficient than some of the supply standard rules of conduct for Gen. Stoessel might attempt. an honest press and Judge De Bolt, whom we believe to be an honest man, may well ponder them before again business to rescue criminals from punishment "and of whose health thieves ask before they begin to steal."

Let the Advertiser repeat, for the twentieth time, that it means to be as candid about the judicial department of this government as it is about the other and co-ordinate branches. Lis experience of the past few years teaches it that labor in getting rid of bad judges and securing good ones is not necessarily in vain. But for its attacks upon intrenched chicanery on the bench of Hawaii, the opportunity to capture for themselves. When he was once there, however, this paper the calendars. sought no favors from him and exempted him from no criticism which it thought he deserved; but it has never reputable citizens of Honolulu, Judge than they did cases of shells. insulted him and does not expect to De Boit did his duty by the two conmake the freest and hopes to make the Johnson. FRUIT CULTURE LACKING.

doubt the following editorial paragraph from the Maui News will apply very aptly to Henolulu, as well as Hilo and other towns in this Territory. Hawaii is a fruit country with but little fruit to show of its own production in the local markets. Yet there is enough good soil about Honolulu homes to yield a surplus of fruit which, both in amount and variety. would be the most noticeable tropical feature to a stranger on arriving here. The Maui paper says: Year 5.00

"The News has long and almost vainly urged the land holders of Maui to plant more fruit trees, and the Improvement Association should join hands in the fight. This week several baskets of luscious peaches and grapes were seen on our streets, and inquiry developed the fact that only one or two persons in the whole of Iao Valley, when the Boer trouble broke out and have had enterprise enough to plant peach trees and grape vines. The same is true of oranges, a high grade of which are grown in Waliuku and can be seen from the street in front of the News office any day. Yet the whole number of orange trees in whole of Walluku does not probably exceed one dozen, even if there are so article about his duty in the Kumalae many. Let the Improvement Associaand Johnson cases. He spoke of it as tion take up the matter and encourage No crew was ever so strenuously drilled fruit culture in our home yards,"

JAPANESE MARTIAL TRAINING.

Preparation is the keynote of Japanese success by land and sea. What is understood as preparation in many other military countries is the purstruction of large bodies of man in drill and tactics. General plans of the shape the French were when the German conflict began, the British the Russians when the tide of naval battle surged into Port Arthur without warning in the night.

Japanese methods of preparation are different in that they are thorough. Honolulu had a glimpse of them ten years ago when the cruiser Naniwa came into port with Togo in command. in these waters. Every waking hour was taken up with some phase of the ship's discipline. No shore liberty was allowed, even to officers, though one take a boat's crew beyond the reef of the mongoose under any circumthese, extending to the whole fleet, the Japanese navy has been turned into

The army has been prepared in the same way. No one in Japan ever sees ties, all the time learning something. Diversion is not encouraged among ofselves on a war footing. Their study of professional books is incessant; their conversation among themselves is not social but military; year in and year out they are practicing gunnery, workstaff preparing for war in any quarter. The staff even fills warehouses with service men make maps everywhere and take coast photographs as they did worship which is taking the place of No news comes from the vicinity of the worship of ancestors is cultivated. when there comes a chance to test a regiment in peace, by the gauge of peril, that regiment is sent out, as one was sent winter before last into A piece of land in Hilo "growed," a the blizzard-swept snow fields of north-

THE MONGOOSE QUESTION.

One cannot say what the extinction of the mongoose would mean to the sugar plantations. The destructhe rats which were ravaging the tery, chase of arms and ammunition, the cane fields and he certainly dealt with building of ships and the primary in- that pest so effectively that the rat question, on the great sugar estates, has ceased to be a serious one. Unfortunately the mongoose has raided warfare are also drawn up. But after the nests of wild game until the quall, all is said and done the real prepara- pheasant, turkey, rock-nesting dove tion waits for an emergency. In times and teal duck, once so numerous here, of peace the field and commissariat are becoming scarce; and it has invadwork is perfunctory, of a kind that ed so many chicken yards besides, as leaves an army when war comes, in of eggs and of brollers. Hence on to have affected the output and price sporting and small-farming accounts it is urged that the Territory ought to terminate him.

The matter is one to be settled, however, in the way to suit the plantation Interests, because, while Hawaii can get along without game and can stand high-priced eggs, it cannot go on without its sugar industry. Should the fact appear, after investigation, that the extinction of the mongoose would bring back the plague of rats to Hawaiian canefields-and, we may add, afford the chance for multiplying rodents to spread another plague besides themsay: the mongoose must be preserved. But out of justice to other interests the matter should be impartially and scientifically passed upon; for if the planters could spare the mongoose, Hawail, without him, would be a better place to live in.

It may be urged that the extinction stances would be out of the question; fear. The inoculation of the little animal with certain communicable diseases would soon sicken and kill the whole tribe.

HAWAIIAN DEMOCRATS.

Hearst Democrats of Hawaii now begin to see, what everybody else saw lot with a losing cause. As a candi- donated \$1000 for it. date Mr. Hearst is at the end of his tether and his only hope now is to succeed as a trader of 1904 votes for favors promised him in 1998. Among the base of the construction. the assets to be traded are the Democratic delegates from Hawaii. For what price or to whom they are bound even Hearst can't say as yet. Like the ing. where they are going and the expressman can't tell.

After their experience in the St. Louis convention we shall expect the local wisdom. Four years ago they sent a man to the national gathering who cast the deciding vote in the platform committee which doomed the ticket to a made the error of going wrong in the flock of sheep, and come home fleeced, tlon. they will learn another useful lesson in politics and prepare to go the next time unpledged and free, when on the convention ground, to make the best

CALIFORNIA DEAD HORSE

Produces Stormy Talk Between Lawyers.

Clark & Henery vs. H. Hackfeld & Co., Ltd., and Castle & Cooke, Ltd., was argued and submitted in the Supreme Court yesterday. It is an appeal the suit being based on an agreement of defendants, as agents of Oahu Sugar Co. and Ewa Plantation Co. respectively, to pay plaintiffs a bonus of \$25,-000 upon the completion of their contract with the United States Government for dredging Pearl Harbor channel, a stated proviso being the opening of the harbor to commerce. Castle & Cooke paid its share, while H. Hackfeld & Co. fought and is fighting the

As Justice Hartwell was counsel for plaintiffs below, Judge Gear sat with Chief Justice Frear and Associate Justice Hatch, A. F. Judd now appears tice Hatch. A. F. Judd now appears for plaintiffs, and H. E. Cooper of Kinney, McClanahan & Cooper for defend-

DR. CARTER MINORS.

Judge Robinson yesterday morning partly heard the petition of Edgar Henriques, as next friend of the minor children of Margaret V. Carter, deceased wife of Dr. A. B. Carter, Makao, Oahu, to appoint H. W. Kinney guardian pending the appeal of Mrs. Jessie K. Kaae from a decree removing her as executrix of the estate. Cathcart & Milverton appeared for petitioner, and C. W. Ashford for respondent.

It was sought to be shown that Mrs. Kaae was serving under a worthless bond, it having as surety the Fidelity celled by Deputy Insurance Commissioner Geo. E. Smithies. This official was examined as a witness, testifying that the surety's liabilities were about \$116,000 against assets of \$35,500. The hearing was continued.

OLD CLAIMS HEARD.

After partly hearing the suit of P. H. Burnette vs. P. E. R. Strauch, Judge Robinson continued it until Thursday. G. A. Davis appeared for plaintiff, and defendant in person.

J. L. Howland vs. Byron O. Clark was also partly heard by Judge Robinson, being continued until Friday. G. A. Davis represented plaintiff, and Royal D. Mead defendant.

STORMY SCENES.

Both of the two foregoing cases are actions on old judgments. The Howland vs. Clark proceedings on this oc-casion consisted of the "examination of judgment creditor." It yielded stormy scenes between counsel through-

"I will not be interrupted by the partner of W. O. Smith," Mr. Davis declaimed at an objection Mr. Mead offered to the course of examination. Mr. Davis at the time was endeavoring to compel Mr. Clark to reyeal his financial status, in which he was sustained by the court.

ed the witness for an answer.

Mr. Mead sprang to his feet in a choleric mood and, leaning over toward opposite counsel with blazing eyes, exclaimed:

"I want Mr. Davis' to understand that I have a right to make an objection and that he must wait until the court rules on my objection.'

It was red light and Roman candles

Mr. Davis was overruled by the court just before adjournment in his demand for an order to attach the shares held by Mr. Clark in the Clark Farm Co., the Hawaiian Fruit and Plant Co. and the Tropic Fruit Co.

Mr. Clark, against the objections of Mr. Davis, made several voluntary statements of his affairs to the court. For one thing he protested against being dragged into court here, after the lapse of years, and held accountable for "dead horse debts" in California. He claimed, backed by his counsel, that there was no moral or equitable right in the claim.

SENSATIONAL TURN.

Judge Robinson, admitting that such might be true, ruled that nevertheless there was a prima facie legal claim against him. Mr. Clark then made this sensational statement:

The plaintiff has written a letter stating that he never authorized this

Asked if he had the letter with him he answered in the negative, when Mr. Mead asserted:

'I have seen the letter." Davis said the note had been given to him for collection, adding ... "The plaintiff has been writing day

in and day out for his money."

Mr. Clark told of the failure of a fruit-raising enterprise in California through a visitation of frost. With the nid of his wife's resources he liquidated a portion of his obligations in the con-He stood between Mr. Howland

yesterday. Its occasion was a motion to transfer the proceedings instituted in the First Circuit from Judge Gear to Judge De Bolt. This was presented by S. M. Ballou and S. H. Derby, attorneys for respondent in the suit to remove A. W. Carter as guardian of Annie T. K. Parker, a minor. The ground of motion was that Judge De Bolt having passed upon accounts of Carter, under the rule that the same judge should have jurisdiction over one matter to its conclusion Judge De Bolt should take the present case.

J. A. Magoon, of counsel for the petitioner, J. S. Low, against Carter, opposed the motion, contending that it would be pernicious if parties were allowed to go around picking and choosing judges.

Judge Gear said it was done right along, and finally he took the matter under advisement

COURT NOTES.

Satisfaction of judgment is filed by Ballou & Marx for plaintiff in the suit of Wing Wo Tai Co, vs. Chang He from Judge De Bolt's judgment for Judge De Bolt granted the petition plaintiffs in the full amount claimed, for leave to sell real estate in the matter of the estate of Wm. Luther Wilcox, deceased. The account of W. O. Smith, executor, was approved except on a reserved question of commissions raised by George Lucas, master, in his report. R. D. Mead appeared for the petitioner, who was also present. The court allowed the master

Following a vocal solo, excellently rendered by Mrs. C. S. Crane, Brother ence to L. Way, P. C. Martin and Mr. man, then, by his conduct, not by per-Adamsthwaite. Brother J. Lightfoot made a long and excellent address on brothers J. F. Scott and D. T. Balley.

The address of the day was made by Mrs. F. A. Smith, Past Grand of Paci- all children of one heavenly Father, in fic Rebekah Lodge, No. 1. The address was a beautiful tribute to Odd Fellowship and to the principles of brotherly love and friendship which are the primal essentials of the order. Mrs. Smith said, in part:

Brothers and Sisters: When one of services today, I felt I must refuse and leave it to others more qualified in oratory than myself, but on second the very first to be called upon to render all those little wants and comforts the sick and afflicted, oftentimes of some little share in the ceremonies those departed ones, besides simply decorating their graves with a few it were, the right and honor usually ac-Fellowship for there are too many long card matches, canned pears, can- brothers here who have all those things or woman devold of the principles of at their fingers' ends, and you have honor, heard them over and over, but what is there new I can say? Nothing, but take that for my subject.

I might, however, go back and say as far as Adam who is said to have the Patriarchs, of which brother S, is H. May & Co., dried apples, Bayo laid the corner-stone, others say it a member. He doesn't seem inclined to eans, California cheese, Kona green existed among the Jewish priests; still tell one much about them, but they others, among the known soldiers un- go about their work, as we all should, oranges, sweet potatoes, large prunes, small prunes, small prunes.

Metropolitan Mest Co. heef are for authentic history back of the year 1800, old were a peaceable, contented and Metropolitan Meat Co., beef—one fore quarter, rumps, rounds, loin steaks; ed and altered that as it now is in the United States it is purely of Area. the United States it is purely of American growin, and wherever on earth you find it, it owes its existence to and Grand Lodge of the United States.

Odd Fellowship consists, I may say, of two kinds-Lodges and Encampments, with their numerous degrees and sub-degrees, the Royal Purple degree of the Encampment being the highest and last attained of all, and a side or honorary degree of Rebekah, founded in 1851 or 2 by Schuyler Colfax of Indiana, and I feel rather proud of the fact, that a Scotchman and namesake of my father, Alex, Fraser, was the first to obtain a legal charter for

And now a few words about the Kauhoe declined to make a state- moral and intellectual development. ment before securing counsel, and was He must therefore prepare his mind committed under \$4000 bonds to the for the duties he is about to underdom and virtue, and he will learn that trict Attorney Dunne represented the whoever listens to that voice and obeys it will find the way to contentment and

We are but shadows floating for a moment over time, then sinking into the depths of eternity; how often are we called upon to shot the trar Righty-one Republicane participated sympathy over the grave of our fellow-in the ciub election of the second pre- men. How brief is our life, how necessern the stead between Mr Howland absolute rule on the stead of the stead

roads of decay upon his own system, of that day when he, too, shall become a tenant of the tomb.

Yet death teaches us that our hearts should foster no evil-evil that bane of society and fountain of all wrong. this life during the past year. It was Friendship, Love and Truth, if praca service which will be long remember- ticed faithfully are a safeguard against all the ills of mankind. If we of participants of the Odd Fellows and follow their instructions we shall indeed be happy. Friendship, Love and ful fioral decorations and the excellent Truth, if practiced universally, would make of this world a universal paradise. Let us be honest. An honest ble even to those who practice them. The influence we show on others will have its effect for good or evil. In all our dealings with mankind, especially our of deception. Let us speak well of our ing him.

> Men are not always what they seem. The poor man, in humble garb and with hand rough from honest toil, may be wise and good, while the rich man, with the style and appearance of what the world calls a gentleman, may be base and mean. Let us judge of a sonal appearance.

Fraternity this is our corner-stone, It teaches us to regard the whole family of mankind as our brethren, who we live and move and have our being, and we should, in our conduct, reflect the image of that Father after whose likeness man was made. Friendship, Love and Truth, fit warriors against vice in all its forms. Friendship prompts the contest, Love with its your committee called on me and ask, gentle influence supplies the weapons, el me to contribute something to our and Truth consecrates the effort and leads to victory. Let us engage in this Holy War, nor cease our battle until the whole world shall be conquered to thought I said, if a sister is among our cause, and induced to enlist under

As a child, I remember looking at the certificate of my father as it hung the last to close the lips of the de-parted one, why then is she not worthy and strange it all was. I couldn't fathom it, but as I grew older and we are this day to commemorate over especially after becoming a Rebekah, it was like an open book. There the all-seeing eye "Thou, God, Seest Me," flowers. This then is my apology for for the eye of the Lord is in every appearing before you and usurping, as place, beholding the evil and the good. Then our tongues. Let us bridle our corded a brother, but I won't go into tongues and the secrets we have promany data or statistics concerning Odd mised to keep inviolate will never be divulged by any one, except by a man

Then, the heart in hand, Odd Fellowship teaches us to relieve the distressthe old story of Friendship, Love and ed, etc. Whatever our hands find to Truth, though the old is ever new and do in this respect, let us do with our well worth repetition. So I'll simply whole heart, willingly and cheerfully, not grudgingly. The heart should go with the hand; they must not be divthat the origin of Odd Fellowship is ided in their efforts. You are all Odd were happy because they were good. Now Patriarchs of today though ye dwell not in tents, imitate the example has been planted and nurtured by the of the patriarchs of old, and you, indeed, shall be happy.

Now, before I close, a word to our sister Rebekahs. Odd Fellows went along tolerably well for some years, but there was something lacking and that something turned out to be woman. She had been kept out of the order therefore, not as some said to me once, because she couldn't keep a secret, but because of her social position and standing in those days. But in 1851 or 2 a man by the name of Schuyler Colfax wrote the degree of Rebekah, in Indiana.

Back as far as 1775 there were lodges for women all over Europe especially nature as their names would indicate. Perseverance, Knighta and Ladies of Joy, Daughters of Penelope and the like, they were full of nonsense. When a man was going through their degrees, it was the age "to love," and a maiden, "to be loved." All sorts of fanciful names were applied to their regalia and paraphernalia. A glass was called a lamp. Fill your glass, was to fill your lamp. Water was called oil; wine, red oil, and a person to be initiated was marched around the hall with chains of iron around his neck in search of the Temple of Love or Garden of Eden, and when he found that Temple the chains were replaced by gartands of roses.

Naw the Rebekuhs of today, while we go to for social pleasure, that is not all we think about. Not one of us but circl. Afth district, Homisulon, electing for that we almost prepare for its would cancel any sector pleasure to do the following officers:

her left hand know what her right did. I never went to her for counsel or advise but it was freely given and of the right sort. I make special mention of her because when I come into this hall, I think of the vacant chair, but our ship must sail on, though we've lost some of our good crew. I might mention many more good works of the Rebekahs. We have another brother and sister, who have stood by the ship perhaps unlike the sister I have just spoken of in disposition, yet alike in performing good deeds and kind acts, who threw open their hearts and their home to admit a sick and dying Rebekah, and her grave today will not be forgotten, whereas if the Odd Fellows did not exist she might be for saken and alone. Indeed our works

may be best described in a few lines, Brothers and sisters I shall soon be far from you and if I have only droped one word today that will bear good fruit I shall depart happy. I am not going to be here at the dedication of our new home, so near completion, but as you cross its threshold and behold it all so immaculate, so keep your lives and characters immaculate for that home in the heavens, not made with

Claims the treasured form of love, May we, while his bolt is speeding, Tell of brighter homes above. Be it our desire to soften Stern affliction's cruel blow. Cheer the widow and the orphan

BE REDUCED

On July 31st a number of changes are to be made in the force of the Custom House. These changes are brought about primarily because of slack times but a change in the character of the vessels visiting this port is largely responsible for it. Such yessels as the Korea, Siberia, and Mongolia require only the same number of inspectors on guard duty around them as a smaller vessel would and each of those large vessels cuts down the number of smaller vessels calling here and

It is stated that on the last day of next month three day inspectors, two night inspectors, and four or five clerks are to be discharged from the Custom House. It is not known yet who all the men are who are to go.

ed for guard duty. Few sailing ships

Honolulu, and so the force needed in

Chinaman and Porto Rican.

Evidence of the cosmopolitan nature of the population of Honolulu crops up daily at the police station.

There was an instance of this yesterday. A few hours after the arrest of a Chinese his Parto Rican wife, who is probably the profitest women of that nationality in Honolulu, railed at the

ARCHITECTS

Little Is Doing In **Down Town** Section.

There is a difference of opinion as to the state of the building trade, some architects reporting they have little on their hands at present, others referring to more or less activity under their supervision.

Down-town building has practically come to a standstill, the completion of the Odd Fellows' Building and the alterations in the Waterhouse block comprising about all the business being done. The erection of the Pythian Temple at the intersection of Union and Garden Lane is the only thing for the future to constitute building operations in the business district.

The opening of Pauahl street from Fort to Nuuanu street, which is about completed, may be the means of more activity in the building line in that

Architect W. M. Campbell, who has built most of Pawaa, has all the work he can attend to. He has under construction eleven buildings and three more are projected, the plans already being drawn. As to the demand for houses Mr. Campbell stated yesterday: "I have a constant demand for new

houses. I understand that there are houses idle all over town, but the demand with me seems to be in the way of new houses, and especially those of the "Campbell" design. They comprise all modern improvements, whereas many of the houses lying idle need many of the modern appurtenances to make them habitable according to present ideas. There is not a house in Honolulu that I have built that is vacant. Even as hard as times are reported I have people waiting for I am getting about \$10 more for my houses than many other owners of houses of like dimensions,"

Campbell is building six houses for Gehring & Butzke, the plumbers, on a lane running between King and Young These will cost in the neighborhood of incidentally the number of men need- \$10,000 with improvements. He is also constructing a cottage with stone founfrom foreign countries are now visiting dation at Oahu College to be used as a teacher's cottage. Another house is going up in Pawaa for E. Madden and the Custom House, according to Uncle a handsome residence is being constants strict business ideas, must be structed on Beretania street next to H. E. Cooper's, for Fred Wundenberg. Another handsome home of colonial design is also going up on Beretania street opposite B. F. Dillingham's, for L. Abrams of the Hawaiian Trust & Investment Company. On July 1 Mr. Campbell will begin the erection of three houses in Kaimuki.

Architect Traphagen, who has been the Young Hotel, Hackfeld & Co., reports business in this line duil. In fact there is little doing in business blocks, and but few fine residences are even contemplated. The U.S. Immigration Station will be one of his future

It is reported that some new buildconstructed at the Planters' Experiment Station, Makik!, in a short time.

ANOTHER WATER SUIT

To Enjoin Ditch On Makawao Lands.

MAUI, June 25 .- Friday morning the question of an injunction against the Maui Agricultural Company in regard to the construction of the new ditch through the Makawao lands of George E Miner was raised before Circuit Judge A. N. Kepoikai of Walluku. A week or more ago a temporary injunction was granted and work on the ditch through the Miner lands was stopped. The hearing of the matter was postponed until Tuesday the 28th. J. M. Vivas was the attorney for the

An injunction preventing all further excavation of the ditch through the Miner premises was asked for by the plaintiff, pending the trial of a tenthousand-dollar damage suit against the ditch company (or Maui Agricultural Co.) brought by Miner to be tried by jury at the next (December) term of court.

The Miner property mentioned in this suit consists of six or seven hundred acres of land covered for the most part with lantana, situated makai of the Puuomalei lands in Makawao,

The new waterway of the Hamakua Extension Ditch Co. will not be completed until the last of September, and this will retard the planting of the lands of the Maui Agricultural Co.

LAWYER VS. PREACHER.

All the Republican precinct clubs of the island will hold meetings today to elect club officers. Considerable interest is manifested over the election of president by the Lahaina club, the candidates being Ex-Circuit Judge J. W. Kalua and Rev. S. Kapu. The latter, it is stated, has the backing of the local plantation people and the former has always been popular with the Hawaiian residents of the town.

Yesterday a wireless message was sent to A. S. Humphreys of Honolulu expressing the congratulations of J. M. Vivas and the Wailuku bar,

On Wednesday L. von Tempsky, manager of Haleakala Ranch, having been duly authorized, rounded up and impounded 65 head of stray cattle on the government lands at Omapio, Kula, NOTES.

She was accompanied by her daughter, Mrs. Randall von Tempsky.

holidays. Weather-Extremely dry; cane, corn and other crops suffering.

Miss Charlotte Baldwin also returned

yesterday from Farmington for the

POLITICS YET HAZY

The political fight which is to be fought on Maui at next November's election is still enveloped in doubt. owing to lack of present knowledge as to what will be done in the matter of a combination between the democrats and home rulers. The plan of campaign, so far as the republicans are concerned, is already laid out, and a clean fight on clear cut issues is promised. If the democrats put up one ticket and the home rulers another, it means an assured victory for the republicans. If the democrats and home rulers unite under the name of democrats with necessarily new issues, it leaves a weak spot in their armor, of which the republicans can take material advantage. If the democrats fail to fuse with the home rulers, and do not put up a ticket, the home rulers have a chance to win again on Maui, and may the good Lord deliver us from

MINOR INDUSTRIES **PAY MAUI PEOPLE**

Six new incorporated enterprises have within the last three years been inaugurated on Maui, all of which pay good and steady dividends, better and 6-1. The following set was a complete more reliable even than sugar. It is reversal, Hapai winning 6-1. WARSHIPS WILL NOT CALL HERE

CAVITE, May 19.-Admiral Cooper with the battleship Wisconsin, the gunboat Vicksburg and the naval collier Alexandria left Cavite this morning for Hongkong.

The Vicksburg on reaching Hongkong will bid the rest of the fleet adieu and start for the states via Yokohama and Hakodate, Japan, thence taking the northern passage. She will cross to Bear Harbor, Alaska, and after taking on coal will proceed down the Pacific coast to the Bremerton Navy Yard where she will go out of commission pending repairs.

The Vicksburg is classed in the Unitd States Navy as a composite gunboat of 1,000 tons displacement and horse power of 1,118 with a speed of 13 knots in hour. Her keel was laid in 1897 and she cost the government \$229,400. Her guns' battery consists of 6 4-inch rapid fire guns, 4 6-pounders rapid fire, 2 1-pounders rapid fire and 1 Colt.

The gunbout Annupolis, a sister ship of the Vicksburg, will remain at Cavits s while longer in order to complete needed repairs before starting over the same route for the States as the Vicks-

meded require before starting over the same route for the States as the Vicks-burg now takes.

> The graduates were Daniel Weight, Jos. Cockett, E. Meyer and Keanu, to each of whom was awarded a handsomely engraved certificate of excellence in school work .- Maui News.

COL. FITCH AND THE SAKE CASES

Honolulu, June 25th, 1904. Editor Advertiser: The New York Board of U. S. General Appraisers classed sake as a still wine dutiable at fifty cents per gallon. From this decision the New York importer appealed to the U.S. Circuit Court of the Southern District of New York. That tribunal reversed the N. Y. Board of Ap praisers, and found sake to be a "non enumerated manufactured article, dutiable at twenty per cent ad valorem or about nine cents per gallon. From this decision the government has appealed to the N. Y. United States Circuit Court of Appeals, and this appeal is now pending to be heard at the Octo-

With this case and the appeal from it Collector Stackable has, I repeat, no more to do than has the Shah of Persia. The case in which he has taken an ap peal is one in which he ruled-and the New York Board of Appraisers reversed his ruling-that the sake which leaked out of its tub on the voyage from Japan should pay duty to the United States just the same as if it were still there. The question as to whether the sake which might, could, would or should have been in the tub, was a beer, a wine, or a "nonenumerated manufactured article" is not involved. If, on Collector Stackable's appeal on the "sake tub" case, it is held that nine gallons of empty air must pay the same duty as nine gallons of sake, the duty will presumably and unless and until the N. Y. Circuit Court of Appeals shall reverse the decision of the U.S. Circuit The notice of appeal from which the Star quotes would have given a clearer

idea of the issue if it had read as fol- Overland

"Said Board erred in not holding said vacuum which once contained sake to be properly classed as a still wine vacuum, dutiable at fifty cents per gal-

I deviate from my usual custom of never attempting to correct a newspaper report of litigation in which I am engaged, only because my Japanese clients might be misled by the Star report based upon the confusing phraseology of the notice of appeal into supposing that the Board of General Appraisers had reversed its former sake ruling—which is not the case.

THOMAS FITCH.

After their recent sorrow Mr. and Mrs. Grover Cleveland are prepared to bury themselves in the seclusion of a far-away homestead, and they have leased a comfortable farmhouse near Sandwich, N. H., for the summer. This is almost a historic place, being one of the oldest farmhouses in the country and being one of the best preserved. It formerly belonged to Silas Frye, a wealthy farmer, who put in it furniture of mahogany and plate of pewter. It is said the Clevelands may buy the property and use it for a summer home. The Frye farm is eleven miles from West Ossippee, the nearest railway sta-Mr. William Preston has been a resident of Victoria for over half a censident and his wife wish to cut them-selves off from the world in general.

a treatise on the fundamental prin-ciples of growing Sugar Cane, should be in the hands of every planter. The value and use of

Nitrate of Soda

(THE STANDARD AMMONIATE) in increasing and bettering the growth of Sugar Cane is now so well understood that the real profit in sugar growing may be said to depend upon its use.

IMPERIAL LIME A RUSSIAN GENERAL'S VIEWS UPON THE WAR

(Continued from page 3.) Great Britain in South Africa. "But your fleet has virtually been destroyed," I ventured.

"It is nothing," he answered mildly. "A few millions, no doubt, but in no way a military disaster. Look at the configuration of the coast," and the sweeping gesture once more compre-hended the map on the wall; "a fleet could not assist an army in Manchuria a Russian fleet, I mean—thousands of miles from its base.'

"A fleet could hamper the movements of the enemy's transports," I inter-

"Not materially," was the answer; "when the enemy's base is only 200 miles distant and the enemy in battle formation weeks before he has given the slightest hint of hostile intent, a fleet can be of no avail after the ene my's troops are on the march to the frontier. Japan was still negotiating when she attacked Port Arthur; Japan had landed an army corps in Korea while she was awaiting Russia's answer to her last note; Japan had landed fifteen thousand muratta rifles in Shanghai for Yuan Shi Kai's army two weeks before she torpedoed the Czarewitch."

I wondered whether this soldier was thinking of Fontenoy and the chivalry that inspired the famous, "Gentlemen fire first." But I merely remarked:

"Russia procrastinated; Russia did not reply to Japan's last note; Russia sedulously ignored Japan's demand concerning Manchuria and the integrity of

"I am a soldier-not a diplomat," was the retort-the first evasion during the interview. "Then you do not regard the loss of

your fleet as a disaster?" I inquired. "Morally, yes; materially, no," was the General's answer. "It was abso-

There was just a glimmer of grim of Russia's ultimate purpose

"Then all depends on the army?" I

uggested. 'Unquestionably."

"And the army is adequate?"
"The army will give a good account of itself when it meets the enemy on

anything like equal terms."
"Is it prepared for that emergency?

"It will be prepared." "Where does the blame lie for Russla's unpreparedness?"

"That is not for me to say." "Was diplomacy responsible?" I per-

"I have nothing to do with diploma cy," was the prompt reply. In this di-rection I was thrusting at a shadow. I felt around for the substance. "Will the army at Liao-Yang attempt to re-lieve Port Arthur?" I asked.

"Port Arthur must take care of itself until we meet the Japanese advance from the Yalu," the General answered. "There are enough men in garrison at Port Arthur to defend the fortress and they are provisioned for a year's siege. The enemy has landed at Kinchou, about thirty miles north of Port Arthur, and they must cross the Kinchou mountain through a narrow pass, strongly defended, before they can attack the intrenched position of our troops outside the main fortress of Port Arthur. In the mean-time our business is to deal with the Japanese army now threatening in the

vicinity of Liaou-Yang." say it is likely to be a long war," I began; "do you think other powers will be involved before the

"If the Japanese are uniformly suc cessful, I am sure other powers will be involved," was the ready answer. "Why, if the Japanese are successful?" I asked.

"Because the Chinese will not be content to let the Japanese boast that they were solely responsible for driving out the intruder."

'And that would furnish an excuse to Russia for calling on her French ally, under the agreement regarding the interference of a third power?"

General Dessino did not immediately answer. I did not expect a categorical reply. As military agent of the Russian Empire it is not in the province of General Dessino to tell all he knows to the newspapers of the world, and I have reason to know that he would be especially chary in talking of this delicate phase of existing conditions to the representative of an American newspaper.

Finally General Dessino asked a question in his turn: "Do you think it would be necessary for Russia, in the event you have mentioned, to call on

My own answer is immaterial; but clearly General Dessino had properly answered my question.

"It is your opinion, then," I went on, the Chinese army around Pekin and north of the Great Wall?"

"Decidedly. But immediately, I fear the mounted bandits of Manchuria more than I fear General Ma's army or the soldlers of Yuan Sin Kai. It is the guerrilla of Kirin and the region roundations Harbin that will almoy us before the Chinese army decides to at tack our railroad communications. And the defeat of Russian nems and Russian believe that the Japaness are stready sian plans in the Far East. I am sure. at work among the brigands couth of

BY DANIEL LOGAN.

If, as appears generally accepted, the stock market should be taken as the harometer of the financial situation, the week has closed with an encouraging symptom. There were eight distinct transactions reported between boards on Saturday. While no appreciation of any security is recorded and the deals are but small ones, in view of the frequent blank reports of the recent past the mere movement indicated by such a number of separate share-handlings may be recognized as one of those "small mercies" for which we are told we should be thankful. There is a peg for comment in the largest of these deals-namely, 100 Kihei (par value \$50) at \$5. With the actual status of Kihei in view, the price mentioned is a mystery that, could it be solved, might go far toward clearing away the mists of a generally mysterious situation. Kihei's bonded indebtedness has been wiped out and on the present crop of the plantation there is a clear profit of \$60,000. Why its stock should change hands at one-tenth par value under such circumstances is a riddle that, for the present, no attempt will here be made to interpret.

Suffice it to say, Kihei is but one item in a general condition of sugar securities about which the town is becoming more and more agitated. There is murmuring, loud and widespread, in the community regarding that condition, and blame is unsparing but variously fixed upon those supposed to be responsible therefor. One complaint is directed at the brokers. They are said to permit quotations of certain shares to go forth upon the Stock Exchange list at considerably lower figures than such shares can be bought for. It is urged that this practice has a depressing influence and that it might be avoided if the brokers acted more in concert with each other. Similar lack of co-ordination between the banks is also a subject of complaint. The sentiment is expressed that local bankers, as the real masters of the situation, are individually obeying the maxim, "Every man for himself and the devil take the hindmost." They might if they would, it is contended, do much to ease the situation if they only put their heads together to work out a definite plan for restoring confidence

PROTECTIVE MEASURE

There was an error in the San Francisco cablegram of June 24, which stated there was an error in the San Francisco caningram of June 24, which states that Alexander Craw, the horticultural expert, was coming to Hawaii to exterminate the leaf hopper. Mr. Craw is not coming upon a temporary mission of the lend indicated, but to take permanent employment in the entomological division of the Board of Agriculture and Forestry. Prof. R. C. L. Perkins, first assistant entomologist, and one of the other assistants, are going over from the Territorial service to conduct the newly created department of entomology at the experi-ment station of the Hawaiian Planters' Association. Mr. Craw and an assistant he will personally select in California are to take the places thus vacated by Prof.

Perkins and his assistant, Mr. Craw will take charge of the horticultural quarantine work of the Board the General's answer. "It was absolutely necessary that Japan should win the confidence and applause of the world at the very beginning. Russia can afford to be patient. It may be a long war-and Russia has had experi-ence of long wars." matter of introducing antidotes to insect pests and plant blights into these isl-ence of long wars." ands. All of the consignments of such material sent here by Prof. Koebele while conducting his quests in North and South America have come through

defiance in those soft blue eyes as this Mr. Craw's hands.

Soldierly subject of the Tsar hinted To procure Mr. Craw's services it was necessary to offer him more than the salary allotted to the position. It is here that the Hawaiian Planters' Association showed its public spirit by undertaking to contribute the additional \$2000 for making up Mr. Craw's salary. The engagement of such an eminent specialist as Mr. Craw for the service mentioned cannot fail to have a good effect upon Ha-waiian agricultural securities. There is no doubt at all that exaggerated reports of the ravages of the leaf hopper have materially injured Hawaii on the main-land. While it is equally certain that the pest has done quite too much damage, its insidious introduction will prove not an unmixed evil since it has awakened the Government and the planters to the necessity of more strictly than ever guarding Hawaii's shores from such visitations.

REAL ESTATE,

Real estate men report deals in some choice residence property on the verge of closing. All of them insist upon it as necessary to transactions that those having property to sell must accept what they call "depression prices," as buyers will not look at anything held for anything approaching the valuations of 1899-1900 boom times. The rate of depreciation is placed at 40 to 50 per cent. For centrally situated residence sites the rates are from five to ten cents a square foot. Cottages of five or six rooms find tenants at from \$25 to \$30 a month, somewhat

more ambitious houses from \$30 to \$45. One of the latest suggestions heard is for the organization of a Real Estate Exchange, for the listing of properties and equalizing of valuations. It is respectfully submitted, through this medium, for consideration by real estate agents to whom the idea may be new. As in the case of other securities, large capitalists are being held accountable for much of the existing depreciation. They are said to be all too eager in prosecuting foreclosures, and evincing a lack of public spirit in withholding even moral support from debtors in tight places, for causes that are general, whose chief assets consist in holdings of land. The precipitating of a great amount of both improved and unimproved real estate on the market, it is pointed out, must greatly aggravate the general situation and is likely to retract in the long run upon the financiers who might now, if they chose, check the battering process.

NOTES IN GENERAL.

A new arrangement for the financing of Olaa Sugar Co, will be consummated within a few days. Kamalo Sugar Co,'s estate on Molokai will be sold at auction, for the benefit of all concerned, on October 24. It is well adapted for ranching purposes. The Territory is saved the necessity of issuing any more of the 4 per cent, fire claims bonds, owing to the receipt of \$11,589.83 from the Federal Treasury to refund interest paid by Hawaii on the public debt assumed by the United States at ampexation. Plans for the new Immigration Station have by the United States at annexation. Plans for the new Immigration Station have been approved at Washington and the work will shortly proceed. This with the early prospect of building operations for the Army Post at Kahaniki will bring considerable Federal money into circulation. It is urged on all sides that our commercial bodies should leave nothing undone which would tend to induce the next Congress to make provision for going ahead with the improvement of Pearl Harbor and the establishment of the long-talked-of naval station there,

underestimated the Japanese in any but something, nevertheless. brave; they have acquired in a won-derful degree many of the deadliest Kuropatkin or his successors. traits of the Western civilization; they are a proud race, an ambitious nation, and a determined people. The Russian knows better than others what he has to contend against when he comes in hardiest and the most fanatical of Oriental nations. These people do not fear death; they are intensely patriotic, and the utter elimination of the Japanese Empire from the roll of monarchies."

"It is not the intention of Russia to subjugate Japan, is it?" I asked.

"No," was the answer; "but what rank can Japan hold among the powthat there is an element of danger in ers if she is beaten in this struggle-us lidity. The disappearance of a promiallies, open and secret-come to the rescue?

I understood the veiled allusion to

"I think, however," the General con-House, "that the United States and Great Britain will regret the success of Japan as bitterly as Russia may regret from my personal knowledge of the Suparces character and Japoness bur-puse that Japon will not be the plant test to the founds of the Heiligh and Apostogic communical explaining that those outerpoliting glassemen issuality fracts by not the standard to very the topic for the other retine

The Champion Cowboys.

John Lindsay and Ikua, known as the champion cowboys of the islands, are in town as witnesses in the Parker ranch litigation. These two men are said to be the most expert throwers of the lariat in the islands. Some Miss Annie Rose, Mrs. W. L. Rose, Bro. | years ago a Mexican was brought here to compete against them and they easily outpointed him in every way.

SILENCE OF GRAVE AT PORT ARTHUR

Since the war began there has been no lack of information regarding the social conditions prevailing in Japan. The war correspondents have been strictly forbidden, it is true, to expatiate on military matters, with the result that to earn their salt they have overloaded us with descriptions of Yokohama and Tokio, the people, customs and manners of Japan ad infinitum. But how do matters stand in Port Arthur? The silence of the grave hangs over the inner affairs of that citadel. Occasionally a glimpse has been afforded in a stray telegram of the prevailing conditions there, but it has not been at all satisfactory.

On Saturday, an Englishman, speaking with a strong American accent, and bearing the evidences of hardship and privation, arrived at Singapore from Port Arthur. He was connected with an Park Adtn; \$10, etc. Dated Apr 27, Anglo-Russian firm whose headquarters are, at any rate were, in 1904. Port Arthur and as he may return some fine day to that salubrious G Serrao; M: lots 3 and 6, blk B, Villa spot "when the Japs cease from troubling and the Russians are at Franca Adtn. Hilo; \$1,000. Dated Aug rest" he desires to remain incog. But he gives some vivid accounts 26, 1903. of his experiences "up north."

THE SPY MANIA.

When the war started, he said, the English and American members of his firm thought they at least were safe from molestation, being connected with a firm which was half-Russian. But after the first attack on Port Arthur, the Russians ran madly around looking for spies. They found spies in every shadow of the sun; nobody was safe from the accusation; a Chinaman with a slack queue found himself kneeling in front of an executioner half an hour after discovery. Even the man in the moon grew affrighted, and hid his face behind the hill.

ENGLISH AND AMERICAN EMPLOYES.

At last a raid was made on the mess run by the English and American employes. An officer and half a dozen Cossacks appeared in the doorway and said "You are under arrest." And the dozen Anglo-Saxons were marched off to the guard room. Not an article of clothing, not a scrap of paper, not a cent of their money were they allowed to take with them. They were marched off-in the dead of winter-just as they stood.

Three weeks they spent in the filthy prison. They were allowed to buy their own food and handed money to the Cossacks to get the food. The Cossacks waxed exceeding fat and the prisoners waxed exceeding thin-no more need be said on that point.

As nothing of an incriminatory nature could be found among their possessions they were at last allowed to go free. But there had been a holocaust at their mess. Nothing remained there after the visit of the Cossacks.

LIVING IN TENTS.

They were ordered to live in tents outside the town. Probably they obeyed that order the more willingly because most of Paahao and hsb-Sami K PaahaoD the public buildings and many of the private houses were wrecked- Mele Keawe-B N KahalepunaPA the result of the Japanese bombardments. At any rate they went under canvas and lived at the expense of the Russians who had Jacob Kaulaa and wf-John Nevin...M commandeered everything.

Sometimes the dry staleness of their meals induced them to dine D M Lonohiwa et al-Paauhau Sgr at the Oriental Hotel. Dinner cost anything between \$18 and \$20 ahead, so they were living at the rate of some millions a year while

Constant alarms were the rule at Port Arthur. Every other day a few unhappy wretches who looked like Japanese, and may tract. Honolulu; \$25. Dated June 10. have been Japanese, were marched out to execution, charged with 1994. being spies, and their heads were speedily sliced off. The Russians seemed to live in continual fear that they were speaking to spies. At night the Japanese torpedo boats dodged about outside the har- Dated June 13, 1904. bor, laying mines and generally keeping the Russians lively. Food had risen to enormous prices, the comforts of life had disappeared, Kohala, Hawaii; \$17L44. Dated Nov 7. and indeed, life had become intolerable to the non-combatant,

ESCAPING FROM PORT ARTHUR.

About three weeks ago the refugee now in Singapore met the and Ap 1, R P 7577, cor Nuuanu and skipper of a collier who had got permission to leave Port Arthur.
He was smuggled aboard and managed to get clear of the fortress, and made tracks for Singapore. He states that the Russian fleet at Port Arthur is in a terrible plight. The Retvisan lies embedded on the mud and is used as a fort-some day a strong wind will shift | Koolauloa; R P 188, Walkane, Koolauher from the mud and she will sink to the bottom. The Askold is a mass of patches. The Tsarevitch is also patched up, though how firmly it is difficult to say. There are four or five cruisers in fair condition and about eight torpedo destroyers.

THE CZAR'S CHAGRIN.

But the greatest chagrin to the Russian mind is the failure of their much-vaunted fleet. Our informant states that the Czar had 10, 1904. sent several stinging messages to the officers of the fleet.

"You have disgraced my fleet," the Emperor said in one message, You have made my navy the laughing-stock of Europe. You are a disgrace to Russia and to your uniform; you make us weep with The Russian naval officers are not enjoying themselves at Port
