## FIAT JUSTITIA RUAT ORULUM.

Sentence was passed on T. E. Evans yesterday at the Police Court, and the penalty awarded is the highest prescribed by the laws as revised in 1890. The conviction was inevitable, the evidence, at least of unlawful possession, complete, and the sentence deserved; but the sentence should be shared by the more guilty persons who are concerned in the same guilty undertaking, and who have as yet evaded justice. As was said of old, "Laws are like cobwebs, the big flies break through, though the smaller ones are caught." That there are many older and bigger criminals cannot be doubted, though perhaps at present it cannot be proved in a court of justice. Evans alone was not concerned in the purchase, importation and concealment of the opium, nor was this particular parcel the only one by very far, that has been landed on these islands, or on this island, within the last few months.

The S. F. Chronicle of May 1st tells a tale not altogether unknown here:

"By the steamer Zealandia a story comes to hand relative to the schooner Annie Harley. The schooner cleared from this port in February last on a hunting and fishing voyage. Nothing was heard of her whereabouts until early in the past month she was seen off the island of Oahu. The news now received is that at a place called Larsen's Landing, on the island of Oahu, nearly two tons of opium were landed from the Annie Harley. By a very strange coincidence the well-known smuggler Whaley arrived in Honolulu from Yokohama on the Japanese steamer Omi Maru a short time before the landing of the opium. The notorious schooner Halcyon left Yokohama with a cargo of opium during March, and it is presumed that the preconcerted arrangement the Halcyon met the Annie Harley at some appointed place in the Hawaiian group and transferred her valuable cargo."

Beyond a doubt opium has been "cached" in several seldom-visited spots on Maui, Molokai and Lanai, to say nothing of Oahu. The schooner then comes in for repairs to Honolulu as empty of opium as of any signs of honest trade, and is sold for a coaster to carry rice.

How very innocent! The Halcyon herself not improbably landed and cached opium, and was most likely seen by several of our regular coasters, though the Claudine when commissioned for the purpose failed to catch sight of her. Whaley himself, as is well known, took passage for San Francisco by the last steamer, and will have a cheerful story to tell in San Francisco of the probable profits and improbable penalties awaiting a well-versed opium expedition to the Hawaiian Islands.

Evans himself blundered red-handed, so to speak, into the hands of the officials; we have yet to congratulate them or any of them for cleverness, energy, perseverance or any of the valuable qualities of the crime-detector, latent, no doubt, in their breasts.

Let us hear of a well-laid, well-played scheme for catching the opium smugglers, and let us see some of the big flies caught in the

net. Another set of opium smugglers will no doubt be ready to play their game whenever the inducement is sufficient.

## Sugar.

Regarding raw sugar the New York Shipping List of April 18th says the market is favoring buyers to a slight extent, but most holders consider the situation firm and they decline to release stocks at same figures that competitors are disposed to accept. The total stock in importers' hands in the United States is 3,049 tons in comparison with 11,305 tons this time last year, and if there is any cause for a strong feeling it does not come from the statistical position of the article. Since last writing the business has been light, and includes only 90 hbls. and 3,800 bags of Muscovado 99 cut at 3 1/2 cents net cash, and 3,000 bags centrifugal 96 test at 3 1/2 cents net cash, prompt delivery. These prices would still figure, although it is claimed that the latter figure has been bid and refused by some holders. The option market has ruled dull and lower, with sales of twenty-five tons June at 3 1/2 cents and 25 tons July at 3 1/4.

The following circular has been issued by the Treasury Department:  
To Collectors and other Officers of the Customs:

The following Act of Congress approved March 3, 1891, entitled "An Act relating to the treaty of reciprocity with the Hawaiian Islands," is published for the information of officers of the customs and others concerned.

O. L. SPAULDING,  
Assistant Secretary.

An Act relating to the treaty of reciprocity with the Hawaiian Islands. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That nothing in the Act approved October first, eighteen hundred and ninety, entitled "An Act to reduce the revenue and equalize duties on imports, and for other purposes," shall be held to repeal or impair the provisions of the convention respecting commercial reciprocity concluded January thirtieth, eighteen hundred and seventy-five, with the King of the Hawaiian Islands, and extended by the convention proclaimed November ninth, eighteen hundred and eighty-seven; and the provisions of said convention shall be in full force and effect as if said Act had not passed.

Approved, March 3, 1891.  
A dispatch from Albany, N. Y., dated April 30th says: "The Senate Committee this morning submitted voluminous report on the sugar trust investigation. It speaks about 10 per cent dividend, and of the fabulous valuation placed upon the stock of constituent corporations. The report says it was plainly one of the chief purposes of the trust to provide for the issue of certificates affording an opportunity for great speculation, obviously to the advantage of the persons managing the trust, and to the disadvantage of the general public, who were ignorant of the secrets of the trust. Referring to the refusal of the trust officials to show books, the report says it is for the people to determine whether the refusal was because these books would show that the trust was using a combination for illegal purposes. The report questions whether the enormous dividends have been earned in the legitimate refining of sugar, and calls attention to widespread speculation in securities. It is recommended that legislation be had restraining the formation of trusts, as hostile to the interests of the people, or providing for their formation under the supervision of the State, and that they be compelled to keep books of account, or true copies for the State, to be subject to examination by duly appointed accountants."

## Foreign News.

A dispatch from Mexico under date of April 27th, reports the death of Miguel Lopez, who enjoys the reputation of being the most daring of the bandits of the Empire. He was killed by the Emperor Maximilian and caused the execution of that misguided instrument of European imperialism.

Chilean advices of the 22nd ult., state that the Government cruisers Lynch and Cochran attacked in the bay of Caldera the ironclads Blanco Encalada and Huascar and destroyed them with whitehead torpedoes. The attacking cruisers received no damage, and returned to Valparaiso, where they are preparing to cruise after the remaining vessels of the revolting squadron. This is considered a death blow to the rebellion.

The warship Balmaceda, which until recently has been loyal to the government, has deserted to the insurgents. In the battle the government forces lost one man and ten were wounded. The rebels lost 150 men.

The cruiser San Francisco, bound for Chile, has been reported at Payta, Peru. She is making fast time and is expected to cover the 6,200 miles in twenty days. The trouble between the British troops and the Manupuris still continues. Latest advices are to the effect that the capital of the rebels has been captured and destroyed. The mutilated leader of Commissioner Quinton and party were found in the city. In the last engagement 200 out of 1,600 of the Manupuris, were killed.

It is announced that the Argentine Republic will attempt to get away from the present gold standards by issuing notes against reserve silver, to be legal tender at par value for all obligations in the future. A law will be passed to force the acceptance of this financial change.

Don Antonio Rares Jauregui, Minister from Guatemala to the United States, is in San Francisco en route to his post at Washington.

The Portuguese Government has receded from its hold position in reference to the rights of British subjects on the Pungue river in Africa. Under pressure of Salisbury's ultimatum the Portuguese Cabinet has given consent to the free passage of that waterway and the row is at an end.

Michael Davitt, the famous Irish agitator, has decided to come to California to take a rest from work and worry.

The French Congress is in a great dilemma with regard to the enactment of new tariff laws. The proposed revision is meeting with stubborn opposition by the people and it is feared that a government crisis is at hand. The prospective failure of the cereal crop has changed the aspect of affairs, and unless some provision is made to provide for this emergency, the Ministry will be forced to resign.

A correspondent of the Associated Press at Rome has had a talk with a high ecclesiastical personage acquainted with Papal views on the school question in the United States. He said, in part: "What seems necessary here from the Catholic point of view is moderation and not precipitation. The general course to be pursued, however, is quite manifest. Catholics in America should have parochial schools in all parishes where it is possible, and where there is sufficient means to render them equal to the public schools. Where it is impossible to do this, schools should be established in which the catechism may be taught, or the state should be persuaded to permit instruction in the catechism outside of the hours regularly appointed for ordinary school subjects, as is done in Germany."

"One thing is absolutely obligatory, that is, to found no parochial schools unless they can be put on a level with those of the State. At present Catholics in the United States cannot rival the State schools, as they have not sufficient resources. The Vatican has confidence in the zeal and tact of the hierarchy in America."

It is rumored at Washington that ex-Senator Blair, the new Minister to China has been rejected by the Emperor's Government on account of his well known opposition to Chinese immigration to this country.

## Naval Notes.

## THE LEADER!

Everyone who reads knows the result of Don Quixote's "battle with the windmills." Even though that erratic individual had only the most primitive mills to combat he found himself "done up" on his first attempt to subdue that which had aroused his ire; had he come in contact with an Aermotor it is probable that he would have refrained from any attempt to contest the ground with so strong a machine. We can excuse him for his action in battling with the ancient style windmill, and could have done so had he waited a few years longer and tackled the old fashioned wooden mills which are now going rapidly out of date, but there could be no excuse for his desire to fight a steel Aermotor. He would not be it!

Don Quixote's farce reminds us of the attempts of some persons of to-day who, with even greater confidence than the Don, start in for a fight with the Aermotors. They buckle on their armor and start out, only to end by adding to the rapidly increasing popularity of the Aermotor, "The greatest windmill on earth."

We get a new invoice of Aermotors by each steamer and yet cannot supply the demand for them. They are recognized as the most powerful mill in operation, and we do not hesitate to say that within six months there will not be a single individual who needs a windmill on these islands who will buy any other kind.

You have been told through the newspapers before that the mills are so light in construction that a gentle zephyr will run them; so easy and perfect are those we have seen in operation, and by a letter recently received from a purchaser of an Aermotor we are almost tempted to tell you now that they will run in a dead calm. This would not be far wrong for we have seen a 12-foot mill revolve rapidly when there was not enough wind to carry the smoke from the stack of a steam engine only a short distance from the Aermotor. These are facts much too true and the manufacturers of other mills to fight. We enjoy hearing the praises of other mills sung because parties interested in windmills make comparisons and then come to our store and select an Aermotor. duties.

The steamer Claudine towed out the

British four-master One from the port of

Kahului on Saturday, May 9th, the latter

having on board 1,250 tons of sugar for

San Francisco.

Captain Amundsen, who commanded the

steamer Claudine last week, reported that

the brigantine John D. Spreckels was

sighted at 5 o'clock last Saturday after-

noon five miles off Kahului. The Spreck-

els was 15 days out from San Francisco.

The Hawaiian schooner Mary E. Foster,

Captain H. H. Berry, sails early this

morning for a month's trip to Laysan Is-

land. She will take 18,000 feet lumber, one

anchor, one buoy, forty-five fathoms

chains, several tons of provisions, and five

Hawaiian mules.

The bark Forest Queen will leave for San

Francisco next Thursday.

The steamer Mokoli's cargo on Sunday

morning was: 1 mule, 2 horses, 12 calves,

110 sheep, and 650 bags sugar.

BORN.

HOLDSWORTH-In Honolulu on the

11th inst., to the wife of Mr. Edmund

W. Holdsworth, a daughter.

From Maui.

A correspondent from Maui writes

that Dr. Stowe, who took Dr. Geo.

Herbert's place at Wailuku, has

gone to Kula to nurse the grippe.

Dr. Holmes takes his place tempo-

vited to attend.

## Paintings Returned.

Some months ago three or four

large paintings were loaned to the

Hawaiian Government by Mr. B. F.

Dillingham and sent to Washington.

D. C. They have been recently re-

turned and are now to be seen at the

Pacific Hardware Company's store.

One of the paintings is a view

from Dowsett's place at Punalou,

looking up Pearl Harbor, showing

nearly the whole of it, with a range

of mountains in the background, partly

overhung with clouds. Another is

from Halawa hills overlooking Pearl

Harbor, showing Ford's Island, with

a view across the country to Waia-

leale mountains, while a second one

from the same place shows the site

of Honolulu, Punchbowl and Dia-

mond Head.

The artist, Mr. J. D. Strong, has

painted another large picture of

Rainbow Falls, Hilo. The first three

mentioned are 3 ft. 6 in. by 7 ft. 6

in., placed in frames of Tuscan

bronze, steel and plush, giving the

paintings a very pretty effect.

## The Scottish Thistle Club.

A meeting of the members of this

club was held in the hall of Engine

Co. No. 1 last evening. The meeting

was called to order by Chieftain

Dall, and after the transaction of

considerable business, the members

enjoyed a very pleasant social eve-

ning. The object of the club is to

establish a reading room and to have

weekly social meetings. All Scotch-

men in Honolulu and throughout

the Islands should interest them-

selves in such an organization.

## Racing Association.

The annual meeting of the Maui

Racing Association met at Wailuku,

Maui, Saturday, May 2d. The pro-

gramme for the Fourth of July was

arranged, having twelve running

officers of the Association were re-

elected. They are as follows: Presi-

dent, R. D. Walbridge; Vice-Presi-

dent, A. F. Hopke; Secretary, L. M.

Vetlesen; Treasurer, F. L. Stolz.

To those who need a pleasant Toni

for any kind of debility, we can recom-

mend Clements' as the best. For sale

by HOLLISTER &amp; CO.

## The Morning Star.

Capt. Garland, in command of the missionary vessel Morning Star, writes from Jaluit, March 19th: "We have visited all but two of our stations in the Marshall Islands, and leave here to-morrow to finish the work, and then go to Kusaia. After that I expect to go to Apia for three men and their wives, to enter the training school at Kusaia. We are having a rough time; much bad weather. It is the hardest voyage I have made in these waters, and head winds are the order of the day. Our upper topsail yard is sprung; it is now fished, and I hope it will hold until we reach Honolulu. I do not see how I can get to Honolulu before the middle of June. With one boiler burst, and the other liable to go and do likewise, an unsound mizzen mast, and a broken topsail yard, I do not feel as much confidence in this packet as I usually have. We have just received a mail from 'Frisco with dates to January 7. I have no late news from Ponape, and do not intend to stop there on my way west. The ship's crew are well, but the passengers fare hard. I am not as well as usual. So much wet, stormy weather makes me feel old."
