Mercantile Trust Company, Welch & Company

THIS COMPANY undertakes the entire management of your property.

It looks after the rents, insurance, taxes and repairs.

It safely invests your funds, and remits income as desired.

It keeps your Will, and other valuables, in fire- and burglar-proof vaults.

If you wish to travel, or leave home, you can place your business in our hands.

Remittances made to any part of the World.

Have you deeds, mortgages, insurance policies, jewelry, or other valuables you do not wish to lose? If so, we advise you to rent a safe in our fire-proof vault. The charge is very small, and you will be the only one who can use it.

INSURANCE

Our Insurance Department can give you on reasonable terms and in Companies of the highest standing: Fire, Life, Accident, Plate Glass; also Surety Bonds as required by the Custom-House, and U. S. Government, and for employees, administrators, trustees, guardians, etc.

ST. LOUIS COLLEGE

BOARDING AND DAY SCHOOL FOR BOYS

KAMAKELA, HONOLULU

The Course of Instruction embraces the branches of a Christian and Commercial Education. Greek, Latin, French and German are optional, and free of extra charge.

The Annual Session commences on the first Monday of September, and closes the latter part of June.

Pupils will be admitted only at the commencement of the terms (after the summer vacation and the short vacations at Christmas and Easter).

Certificates of health and character are required for admission.

A monthly report of the boarders will be made to parents or guardians.

Boarders may spend the first Saturday of the month and public holidays with their parents, guardians, or any agent authorized by them.

Boarders must be supplied with the necessary toilet articles and with sufficient clothing, so as to be always neat and clean.

TERMS

For Day Scholars the fees are from 50 cents to $2.00, according to grade.

The Boarding Department consists of two distinct classes of pupils.

Board and tuition, first class, 10 months	$150 00
Board and tuition, second class, 10 months	100 00
Instrumental Music, per month. Piano	5 00
Instrumental Music, per month, Violin, Flute, etc.	4 00
Laundry expenses, per month	2 00

Medical attendance, books and stationery, mending, etc., form extra charges.

Payments must be made in advance (every quarter—2½ months).

For further particulars apply to

THE HAWAIIAN ISLANDS

Are situated in the Torrid and Temperate Zones just on the Tropic of Cancer. They extend from northwest to southeast between parallels of latitude 22 degrees 16 minutes and 18 degrees 55 minutes and are embraced between meridians 154 degrees 40 minutes and 160 degrees 30 minutes west from Greenwich. The important islands are eight in number, Niihau, Kauai, Oahu, Molokai, Maui, Lanai, Kahoolawe and Hawaii. Of these Niihau and Kahoolawe are principally devoted to grazing. This group is also known as the Sandwich Islands, a title given by Capt. Cook, but now in disuse except abroad.

Area of the Hawaiian Islands.

	Area in Square Miles	Acres
Hawaii	4,215	2,570,000
Maui	728	466,000
Oahu	600	384,000
Kauai	544	348,000
Molokai	261	167,000
Lanai	135	86,000
Niihau	97	62,000
Kahoolawe	69	44,000

THE CLIMATE.

The Territory of Hawaii is situated upon the Tropic of Cancer, the boundary of the Torrid and North Temperate Zones, and so possesses the happiest possible compromise between the climates of both. The asperities of the latter are softened by the balm of the former. Its sea-girt isles are fanned by the most delicious of airs while invigorating trade winds sweep its coasts, dispelling lassitude and languor. Extremes of heat and cold are read of by its people but not felt. Even the rigor of storms is tempered to the general placidity of the climate. Rain falls to an agreeable extent the year round, but is more copious in the winter months. On the slopes of Mauna Kea, Mauna Loa and Haleakala whose summits are generally covered with snow, the climate is of a more invigorating character and the productions vary accordingly; corn, potatoes, etc., being raised in abundance. The lower latitudes are a panorama of green looking up to skies of the tenderest blue. Sunshine laughs in foliage and sympathetic showers are photographed in delicious bows against a kindred sky. The climate of Hawaii is a climate of rest, of tranquility and of poetry. Under its influence passions are softened yet not extinguished, power subdued yet not paralyzed. It is not languorous enough for the lotus-eater; it is not enervating; it is rather recuperative. It affords a healthful rest from the sterner and calls into play the softer and tenderer emotions.

THE SOIL AND PRODUCTS.

The soil of the Islands is of decomposed lava enriched by vegetable mould. In the rainy sections such as Hilo and Hanalei it is exceedingly fertile. In dry sections it becomes equally productive by means of irrigation. A degree of acidity in some of the dry sections is corrected by proper fertilizers. There are many sections like Ewa where the soil is an accumulation of washes from the mountains which leave alluvial deposits of exceeding richness. Irrigation was formerly accomplished by ditches connecting with mountain streams and sources. Recently, more especially on the Island of Oahu, the supply of water in

grat abundance has come from artesian wells, both flowing and pumping.

The staple product of the Islands is sugar cane. Soil and conditions are of the most favorable character for its yield and a scientific and intelligent direction of the labor and appliances necessary to its production have resulted in phenomenal yields per acre. Ewa Plantation, on the Island of Oahu, had an average yield of 11 tons per acre—the maximum reaching as high as 16 or 17 tons per acre. Mills of the highest type of invention and sugar machinery of equal merit contribute to an output unequalled by a like area anywhere else on the globe. The output for the season 1902 was as follows:

Hawaii	121,295	tons
Maui	56,726	"
Oahu	107,870	"
Kauai	69,720	"
Making a total of	355,611	tons

COMMERCIAL ADVANTAGES.

Hawaii has often been styled the cross-roads of the Pacific. The completion of the Isthmian Canal will justify and confirm this appellation beyond a doubt and its ports will receive additional rank and importance. Even now these islands furnish a trade and commerce with the United States of greater tonnage and value than any country except Great Britain, and this with the one staple industry of sugar. Coffee is as yet in its infancy as an industry though fairly through the experimental stage. The ports of entry are Honolulu, Hilo, Kahului, Mahukona and Koloa. Honolulu possesses a fine though small harbor. Hilo has a large open harbor and when proper break-waters are completed for its protection and wharves line its shores, a steady stream of trade will ensue. By the time the harbor of Honolulu becomes inadequate for the demands of commerce, Pearl Harbor, a few miles distant, will be opened and the vessels of the world may ride in safety upon its broad bosom. As Hawaii is almost entirely given over to sugar cane, rice and coffee, nearly all of our breadstuffs, hay, grain and manufactured articles are imported from the mainland. The balance of trade being so largely in favor of the Islands divests commerce of its risk and uncertainty. Honolulu is peculiarly favored as a seaport. The distances are, to San Francisco, 2100 miles; to Yokohama, 3400 miles; to Sydney, 4410 miles; to Manila, 4890 miles. It is a geographical center between occidental and oriental coasts and is under American control. That the sagacious business men of the United States are sensible of the advantages possessed by the city of Honolulu augurs a fostering care and development of

the same by the United States Government. This care and development will bring constantly to light newer and greater possibilities the expansion of which will inaugurate a future of reality beyond the dreams and visions of the past. Fine new and elegant steamers now make the trip to the coast a vacation of comfort and delight. That the voyage for most of the year is over a sea of tranquility unruffled by the storms of other oceans, is an inducement to visit our shores.

ISLAND ENTERPRISES.

Island enterprises are not confined to the production of sugar, rice and coffee. Two companies, the Wilder's Steamship Company and the Inter-Island Steam Navigation Company are engaged in freight and passenger traffic between Oahu and the other Islands. The Oahu Railway and Land Company has a railroad finely equipped from Honolulu to Kahuku, a distance of over 70 miles. This road was built through a waste of pasture land and lantana. It was deemed a wild and visionary scheme at first but Kahuku, Waialua, Ewa, Oahu and Honolulu plantations attest the foresight and sagacity of its promoters. This led to the building of the Hilo Railroad connecting Hilo with the Volcano and Puna and traversing the rich Olaa plantation, the outgrowth of the enterprise. At present the road reaches from Hilo to within eight miles of the crater of Kilauea, and is being pushed to rapid completion. It is broad gauge and up to date in every detail. A railroad is also in process of construction from Hilo to Hamakua. The route is through a rugged country, abounding in deep gorges, but when completed will tap many valuable sugar plantations, furnishing a direct outlet for their products to the coast via Hilo. A number of enterprises incidental to and as feeders of the sugar industry are in existence. Fruit and honey companies, stock and grazing companies are in a flourishing condition of prosperity. Under the head of enterprises may be listed also those enterprises not conducted for profit but established for the highest general good. An educational system of high merit provides for the education, churches for the morality and hospitals and charitable institution for the relief of such as need them. The public school system culminates in a high school in Honolulu, and the private school system finds its best exemplification in Oahu College and Kamehameha School also located in Honolulu. Fraternal societies are represented by four Masonic Blue Lodges, two Lodges of Odd Fellows, three Lodges of Knights of Pythias, two Lodges of Foresters one of Red Men and one of American Legion of Honor. The Queen's Hospital, established by Queen Emma, Lunalilo Home for aged and indigent natives, founded by Lunalilo, and the Kapiolani Maternity Home, established by Queen Kapiolani, are most prominent among the local charitable institutions.

THE CAPITAL.

Honolulu is one of the most picturesque cities on the globe. It has a beauty not derived from magnificent architecture, grand boulevards, shaded avenues or spacious parks. Yet it has charms of its own, charms almost impossible of description and not susceptible of analysis. There is scarcely a single feature which is not surpassed by other cities, but there is a harmony, a combination of the whole that renders it matchless. Embowered in foliage, with the accessories of light and shade framed in a setting of green hills it nestles at the sea a dream of beauty and a "joy forever." It is the beauty of a bouquet depending for its charm on the general blend rather than the individual loveliness. But already the city has entered on its march of progress. Real estate transfers for homes, not speculation, have multiplied the number of picturesque cottages and sumptuous mansions. There is no city on earth where benevolence is carried to such excess and the hospitality of its inhabitants is known where the name of the city is known. No one comes here so unknown as to escape courteous notice. Every visitor is debtor for attention not purchasable with money. A trip to the Pali, a plunge in the surf at Waikiki and a ride up Tantalus are delights not readily forgotten. Cool lanais, moonlight rides and enchanting native songs bequeath a witchery to memory never effaced. Long after the tread ceases to resound on our streets will these scenes recur to recollection like a round of fairy enchantment.

TO THE OTHER ISLANDS.

The other islands have attractions for tourists, the most prominent of which are the barking sands at Mana, Kauai, Haleakala, an extinct crater, on Maui, and the crater of Kilauea, on Hawaii. The first is reached by the I. I. S. N. Co. steamers. The others by Wilder's S. S.Co . The crater of Haleakala has an altitude of 10,000 feet. It is the largest crater in the world, having a diameter of nine miles, and a depth of 2700 feet.

The crater of Kilauea, now in a state of quiescence, is situated thirty miles from Hilo. A gradual ascent over a fine road takes the traveler to the Volcano House, whose altitude is 4,000 feet, and which is located on the very edge of the crater. The crater when active is one of the finest sights in the world. It is on the flank of Mauna Loa, whose summit, over 14,000 feet high, is covered with perpetual snow. The road for the most part winds through a forest where nature seems to have exerted her utmost ingenuity in devising a tangle of trees, vines, ferns and crepers. Every rod is a fresh surprise and every advance a new enchantment. Hilo, the point of departure on Hawaii for the Volcano is a typical tropical town. Sunshine and rain chase each other the

THE REGISTRY SYSTEM.

Letters containing money, or parcels of valuable matter, should not be sent in the mails without being registered.

The registry fee is 8 cents in addition to postage, Foreign or Domestic.

Safe transit and proper delivery are assured. A receipt signed by addressee is returned to the sender, without extra cost.

A domestic registered letter addressed to any United States Post Office is insured for its value up to twenty-five dollars.

POSTAL MONEY ORDERS.

May be obtained at or paid at 30,000 Money Order Offices in the United States, and may be drawn on 46 Foreign Countries.

The fees for Domestic Orders range from 3 cents to 30 cents.

International Orders from 10 cents to $1.00.

The System offers safety and combines economy with simplicity.

GOVERNMENT BAND.

Capt. Henry Berger, leader, headquarters Miller near Beretania.

This band of which all Hawaiians are justly proud, was organized in 1871. Its average membership is 30. Professor Berger took the leadership in 1872 and has been its inspiration ever since. The band takes part, in connection with the military, in all state functions and the celebration of all holidays. Four grand concerts are given each week in the various city squares, to which no admission is charged.

PRIVATE BANDS.

PLACES OF AMUSEMENT.

THE HAWAIIAN OPERA HOUSE.

The Hawaiian Opera House is one of the most artistic ornaments of Honolulu. In its construction and furnishing no expense has been spared to produce a place of amusement equal in all its appointments to any in the United States. The stage is large and modern in every particular. The auditorium is very handsome, well lighted and well ventilated. It has parquet, dress circle and balcony, with four large and artistically furnished proscenium boxes, the seating capacity being about 1,000. There are two large double exits from the parquet and dress circle, and two from the balcony, making it possible to clear the house in four minutes. The erection of this handsome house makes the engagement of the best American artists possible, and Honolulu enjoys being in the circuit of all first-class companies going to the colonies.

THE ORPHEUM.

This popular place of amusement is the home of vaudeville and has been in successful operation about three years. The auditorium and stage are large and thoroughly up to date. It is operated by the Orpheum Stock Co., J. C. Cohen, manager.

PARKS.

Kapiolani Park, United States Reservation, Waikiki road, base Diamond Head. The park covers 260 acres. It was organized by James Makee in 1876. There are twelve miles of tree lined drives. Makee Island, on which band concerts are held, is one of the many attractions of the park.

Emma Square, Emma near Beretania.

STREET GUIDE

CITY OF HONOLULU

The following guide has been compiled for Husted's Directory of Honolulu partly from data secured in the canvass and partly from information furnished by Hon. Walter E. Wall, Surveyor of the Territory, and Augustus E. Murphy, Esq., official city numberer, to whom the publisher desires to express his high appreciation of their kindness and courtesy.

The guide will be found to give the local names of many alleys and lanes that have not been officially named. They are designated by Mr. Murphy by the proper number on the street from which they branch. Thus Cunha's lane is designated as 1714 Luzo or Lusitana and the buildings located on the lane are designated as 1714 a b c, etc, Luzo

The numbering on King and Nuuanu streets is given and under Mr. Murphy's excellent system the numbers on all parallel streets correspond to these two, so that in most cases it will be an easy matter to determine where a particular number is located on any street by placing a ruler across the map at right angles with the street and noting the corresponding number on King or Nuuanu Av.

It will be noticed that there are a number of duplicates in the list. The publisher has thought best to retain them for the present until the official names and designations become established and generally known.

AALA—King to Beretania n of stream

Inter-Island Steam Navigation Company

THE POPULAR ROUTE TO THE WORLD-RENOWNED **Volcano of Kilauea**

S. S. "Mauna Loa"

The attention of the traveling public is called to the above fine passenger steamer, which leaves Honolulu regularly for ports on Maui and Hawaii, on Tuesday and Friday of each alternate week.

The staterooms on board are large and airy, special attention having been given to the ventilation of same, and everything is done for the comfort of passengers.

The route traversed by this steamer to the island of Hawaii is made mostly in smooth water, and much of interest is to be seen along the Kona Coast, the steamer stopping at all ports on both the outward and return trips. The total time occupied in making the round trip is seven days.

For further information apply at the

Office of the Company, Queen Street, Honolulu, H. T.

Inter-Island
STEAM NAVIGATION COMPANY, Ltd.

INCORPORATED FEBRUARY 19, 1883.

OWNERS OF STEAMERS

"Mauna Loa," "Hanalei," "W. G. Hall," "Mikahala," "Kauai," "Iwalani," "Noeau," "Ke Au Hou," "Waialeale," "James Makee," "Niihau," and schooner "Malolo."

Freight and Passengers Carried Between Honolulu and Ports on the Islands of Hawaii, Maui and Kauai.

Direct Route to the Volcano of Kilauea

IMPORTERS AND DEALERS IN

Steam, Family and Blacksmith Coal, Ship Chandlery, Supplies, Etc., Etc.

OCEANIC STEAMSHIP COMPANY'S

THE NEW VESSELS OF THE OCEANIC STEAMSHIP COMPANY, THE SIERRA, SONOMA AND VENTURA, HAVE DOUBLE BOTTOMS, WATER TIGHT COMPARTMENTS, TWO SETS OF TRIPLE EXPANSION ENGINES WHICH WILL DEVELOP OVER 8,000 HORSE-POWER; TWIN SCREWS THAT WILL DRIVE THE VESSELS AT A SPEED OF OVER 17 KNOTS AN HOUR. THERE ARE NO STEAMERS AT PRESENT IN THE PACIFIC TRADE THAT COMPARE WITH THESE FAST STEAMERS. THERE ARE ACCOMMODATIONS FOR 240 FIRST CLASS PASSENGERS, 100 SECOND CLASS AND 100 STEERAGE. IN EACH CLASS NOTHING HAS BEEN LEFT UNDONE THAT WILL TEND TO THE SAFETY AND COMFORT OF TRAVELERS. THE SHIPS ARE BUILT TO COMPLY WITH NAVY REGULATIONS AND CAN BE TURNED INTO AUXILIARY CRUISERS INSIDE OF 36 HOURS. THE UPPER DECK CABINS ARE ALL LARGE SIZE, LIGHTED AND VENTILATED BY WINDOWS OPENING ON THE UPPER DECK. THESE CABINS BOTH AS REGARDS SIZE, LIGHT AND COMFORT GIVE THE APPEARANCE OF ROOMS IN A MODERN HOTEL RATHER THAN ON AN OCEAN LINER. THE ENTRANCE TO THE CABINS IS FROM THE CENTRAL HALL INSTEAD OF FROM THE DECK. THE SOCIAL HALL, DINING ROOM, BATH ROOMS, TOILETS, ETC., ARE ALL REACHED UNDER COVER. THE SECOND CABINS ARE LOCATED WELL FORWARD FROM THE STERN, AND WITH THE EXCEPTION OF ONE OR TWO ROOMS, ARE ALL OUTSIDE. THEY ARE LARGE AND EACH CONTAINS FOUR BERTHS. THIRD CLASS ACCOMMODATIONS HAVE ALSO RECEIVED ATTENTION, DINING ROOM BEING PROVIDED FOR THIS CLASS, SHOWER BATHS, AND EVERYTHING THAT GOES TO MAKE THE TRIP COMFORTABLE. ALL NECESSARIES FOR THIS CLASS OF PASSAGE ARE PROVIDED BY THE COMPANY.

LOOSE LEAF ACCOUNT BOOKS

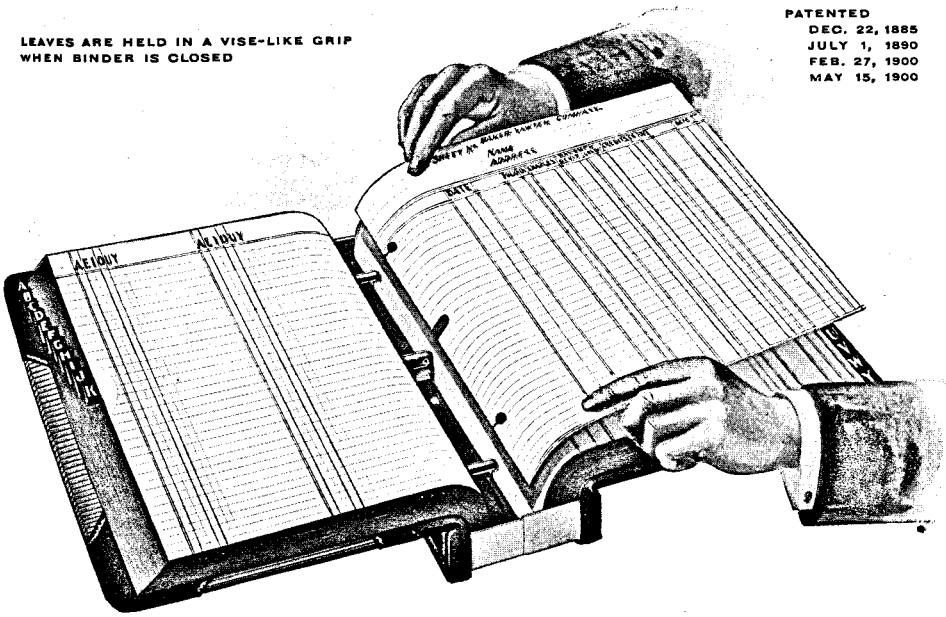

Enable you to increase the volume of your Business without correspondingly increasing the expense in your Accounting Department

DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

6349 Bookkeepers who had used our books more than three years were asked this question 6186 of them replied in the affirmative

LEAVES ARE HELD IN A VISE-LIKE GRIP WHEN BINDER IS CLOSED

PATENTED
DEC. 22, 1885
JULY 1, 1890
FEB. 27, 1900
MAY 15, 1900

THE PERPETUAL LEDGER

A leaf may be easily inserted or removed from any portion of the Binder without disturbing another

BAKER-VAWTER COMPANY

ACCOUNTANTS - AUDITORS
DEVISERS OF BUSINESS SYSTEMS - MANUFACTURERS

GENERAL OFFICE AND WORKS, CHICAGO

Western Office and Works
ATCHISON, KAN.

Eastern Office and Works
HOLYOKE, MASS.

SALES OFFICES IN ALL THE PRINCIPAL CITIES. WE VISIT EVERY TOWN IN THE UNITED STATES

SAN FRANCISCO OFFICE
ROOM 28, 3rd FLOOR, MILLS BUILDING

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run — less in material, less in time, less in labor.

OVER ***23,000*** *BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY*

FACTORIES: CHICAGO; ATCHISON, KANSAS
HOLYOKE, MASS.

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.
Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers, Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work thereon at one time without the necessity of rewriting.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks and Trust Companies

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

Baker-Vawter Audit Department

Regular and Special Audits made for Corporations, Firms and Individuals. Financial and Physical Examinations by Experienced Auditors and Engineers. Takes Entire Charge of Corporation and Private Records, and Keeps Accounts of Executors, Guardians, Trustees and Receivers. Has Competent Practical Examiners for Banks, Insurance Companies and Other Financial Institutions.

A certificate from this company after a thorough examination is useful as a basis for credit, purchase or sale.

Complete Business Systems Devised

This Company makes a Specialty of Devising Complete Systems for Financial, Mercantile and Manufacturing Institutions, Employing all Well-known, Proven Methods and Appliances.

By means of these harmonious systems the results in each department are known in detail at the close of business. Accurate account is kept with all stock purchased and sold. By removing all friction between employees and departments, all work is greatly facilitated, and time and labor saved. Correspondence solicited.

BAKER-VAWTER COMPANY

OUR SECTIONAL POST BINDER

Holds securely one sheet or one thousand.

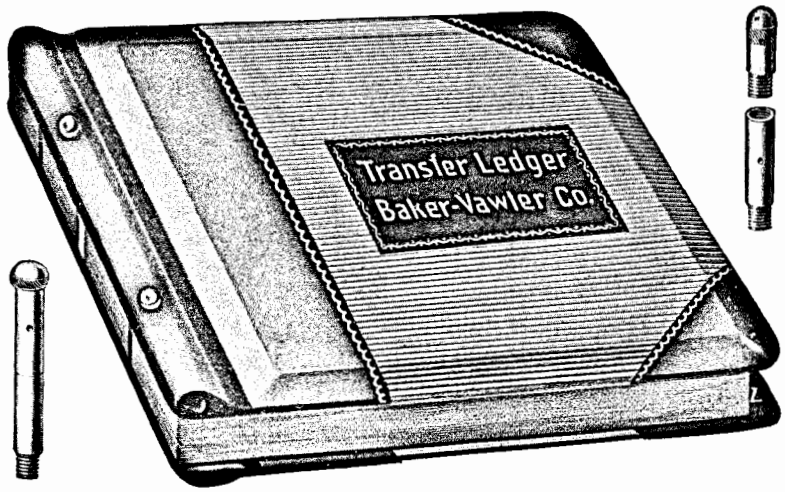

Has no long and unsightly posts projecting to catch on everything and be in the way.

Can be opened and expanded to receive leaves without removing the cover.

It is equipped with one-half and six one-inch sections for each post.

It is particularly adapted for filing records of any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 19, 1899.

Securely Locked by mechanism in top cover.
Key-hole shown in lower left hand corner of cut.

We have 60 salesmen covering the entire country. If one is not located in your city, he can call on you in a few days if you will notify our nearest office.

We are the originators and manufacturers of the Perpetual Ledger and many other Loose Leaf Labor-Saving Systems.

ISLAND OF HAWAII.

This island has felt the touch of improvements and growth as much as any in the group since our last Directory was issued. The Island of Hawaii is coming rapidly to the front in commercial importance. As in the past, so now it is the greatest sugar producer, and ranks first in that delectable sweet.

According to the report by the Sugar Planters' Association, the output for Hawaii for the season of 1901 was 134,618 tons; the total of all the other islands was 225,420.

Much has been done during the past year in railroad building, and much more is planned to be built during the coming year.

A railroad is now in operation from Hilo to Glenwood within 8 miles of the crater of Kilauea.

A railroad is now being planned through the North Hilo district, making Hilo the starting point and Hamakua and Kohala the terminus.

Also effectual plans are being made to build a railroad through North and South Kohala.

All these improvements show enterprise and life among the business people of the island.

North and South Kona possess a most salubrious climate; and, as these districts become more generally known, will, doubtless, attract the attention of many who seek change and convalescence. Their industries are already diversified; but each succeeding year brings with it some new departure. Kona coffee enjoys an enviable notoriety both in the islands and on the main land. Fruits grown in these districts have a richer flavor than those raised on any other part of Hawaiian Territory, and their vegetables are unrivalled—both in size and quality. During the past two years the cultivation of vanilla has occupied attention, and the results already attained herald "a bonanza" for those who embark in this industry. A large tract of land has recently been planted in pineapples, and an extensive canning factory is now in course of erection.

Business houses who handle the greater portion of the coffee output, are located in Kailua and vicinity; they are reliable and worthy of confidence; the different grades they pack for export, are as represented by samples, which are always furnished dealers on application. Very fine coffee is also grown on the highlands of North Hilo and Hamakau districts. In South Kona as well as in the last named districts may be found fruit trees in bearing,

and every variety of vegetables grow as though in their native clime and soil. In South Kona may be seen the Rhode Island greening, pairmane, in fact apples in great variety, olives, prunes, figs, dates, apricots, cherries, peaches, limes, oranges, almonds, and walnuts, varieties of grapes, Mexican plums, and all small fruits, such as currants, raspberries, strawberries, etc. All varieties of ornamental grasses and rare trees from every country. The pumpkin vine grows for two years and bears continuously.

Hilo, the commercial center of the island, has a fine harbor, as nature made it, but with some outlay may be made one of the finest of the world. Hilo Bay, that now forms the harbor, is beautifully surrounded, and is said to surpass in beauty the famed bays of the Mediterranean.

Hilo is destined in the near future to be a city of great importance as a railroad and shipping center.

Fine churches, free schools, two newspapers, two banks, two electric light and refrigerator plants, first class hotel accommodations, well equipped livery and transportation companies, large wholesale and retail stores, as finely and fully stocked with choice and valuable merchandise as the large stores on the mainland, together with the large shipping interests of this port, and its enterprising business men, the natural resources and attractions all go towards the fulfillment of the above prediction.

Certificate of analysis accompanies our shipments, which we guarantee to be correct.

R. T GUARD, Agent for Hilo, Hawaii.

ORDERS FILLED AT SHORT NOTICE.

The Hilo Railroad Co.,

Of Hilo, Hawaii, does a general freight and passenger business between Hilo and Puna, and between Hilo and Mountain View, on the road to the Volcano.

The Puna Line

Takes in the Olaa and Puna Sugar Plantations, the famous Green Lake, and the Hot Springs, celebrated for the cure of rheumatism. A home-like hotel will soon be erected at this point for the comfort of the traveler, who, while recuperating, may enjoy the varied beauties of nature and a climate which is unsurpassed.

The Olaa Line

Takes in the O'aa Plantation, the largest in the Hawaiian Islands, the beautiful koa forests and the ever active crater of Kilauea.

The Volcano Line

Is opened to Glenwood, within eight miles of the Volcano.

The trains of this Company connect with Wilder's Steamship Company's steamers, and the Volcano Transportation Company's stages, a stage meeting every morning passenger train at Glenwood for the Volcano, landing passengers at the Volcano at 10:30 A. M.

Hilo Railroad Co.
Machine Shops and Foundry

Are now prepared to do all kinds of Marine, Sugar Mill and Car Work. The Shops are equipped with a complete line of Modern Machinery and the Foundry equipped to furnish all kinds of Castings on Short Notice.

Plantation Cane Cars a Specialty.

B. F. DILLINGHAM, President.

W. H. LAMBERT, Superintendent.

Volcano Stables

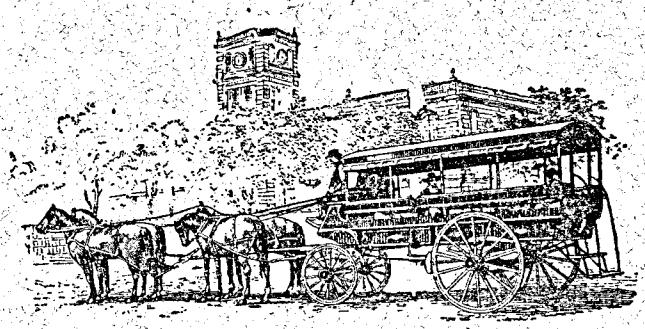

AND TRANSPORTATION CO., Ltd.

CHARLES E. WRIGHT, Manager **Hilo and Pahala**

Stage Line for Volcano,

Making Connections with Steamers at Hilo and Punaluu.

Tourists can make the trip tri-weekly between Hilo and the Volcano in comfortable coaches through a dense Tropical Forest and over a splendid macadamized road. The stage for the Volcano connects with a stage to Pahala, Kau, and passengers can be booked straight through.

We are under contract with Kilauea Volcano House Company to carry passengers to and from the Volcano and are thoroughly responsible. We make this trip a specialty and will furnish any mode of conveyance desired.

Carriages will be at every Steamer Landing at arrival of any Steamer, Day or Night.

DAILY STAGES HILO TO LAUPAHOEHOE, HONOKAA AND KAWAIHAE

Wagonettes, Carriages, Buggies, Brakes, Carts and Surreys always on hand. Also Trucking, Draying and Teaming of every description. Contracting of any kind; and Road Building.

HEALD'S BUSINESS COLLEGE

ESTABLISHED FORTY YEARS.

24 Post Street, San Francisco

Stands at the head of Commercial Schools in its Equipment, Faculty, Liberality and Educational Facilities.

A national, international, metropolitan and cosmopolitan institution. The oldest and largest commercial school on the Pacific Coast and among the largest in the United States. Annual enrollment nearly 1000; average daily attendance nearly 500; 70 typewriting machines in the typing department; 30 teachers; individual instruction. Open the entire year, day and evening.

20,000 GRADUATES SUCCESSFULLY APPLYING THEIR KNOWLEDGE 20,000

FULL BUSINESS COURSE FOR SIX MONTHS, $75.

LARGE CATALOGUE FREE.

Includes Shorthand, Typewriting; Telegraphy, Single and Double Entry Bookkeeping, Commercial Arithmetic, Business Penmanship, Mercantile Law, Business Correspondence, Business Practice, Railroading, Brokerage, Banking, English Branches, Mechanical Drawing, French, German, Spanish, and everything pertaining to a business education.

HEALD'S SCHOOL OF MINES AND ENGINEERING

PROVIDED WITH ALL NECESSARY INSTRUMENTS, LABORATORIES AND APPLIANCES.

DAY AND NIGHT SESSIONS.

CIVIL AND MINING ENGINEERING

Thorough instruction in mining and surveying much shorter than the university course of four years. The plan adopted therefore is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full *practical* knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes: — Algebra, Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.

The MINING ENGINEERING COURSE includes:—Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes:—Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING DEPARTMENT

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world. Each student has to manufacture in the workshop a large proportion of the apparatus. The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-Ray closet and a large Laboratory.

Send for Catalogue.

The course of study in every department of Heald's Business College is as short, practical, thorough and useful as it is possible to make it.

Visitors to the College are always welcome.

HEALD'S BUSINESS COLLEGE DIPLOMA

Business Houses needing Bookkeepers, Stenographers, Typewriters, Cashiers, Clerks, Foreign Correspondents, Telegraphers, Electricians, Assayers, or Clerical Labor of any Kind, can be immediately supplied by telephoning

ISLAND OF MAUI.

Maui is the second island in size of the Hawaiian group, with an area of 760 square miles or 400,000 acres, and has between 15,000 and 20,000 population, including Chinese and Japanese. The island consists of two circular volcanic groups of mountains, connected by a long, low, sandy isthmus about three miles wide. The western group is the smaller of the two, the highest peaks of which are but 5,820 feet. On east Maui stands Haleakala, an extinct volcano 10,032 feet high. on the summit of which is the largest crater on the globe, having an area of 16½ square miles.

Around the bases of these mountains, and sweeping down to the sea, are eleven sugar plantations, some of which are the largest and most productive on the islands, and others of which are as yet but "infant industries." One plantation produced this season 19,477 tons of sugar.

Beside sugar, there are annually produced on Maui large crops of rice, taro and potatoes, the Kula variety of the latter, grown on the sides of Haleakala, being as fine a potato as is grown anywhere. The principal fruits grown on Maui are the mango, pineapple, lime, guava, papaya, avocado pear, fig, grape and orange.

Much of the natural scenery of Maui is beautiful beyond description, many points of which are annually visited by large numbers of tourists. The chief attraction of Maui is a visit to the summit of Haleakala, which is reached by a long, sinuous, horse trail winding up the northeastern side. The view from the edge of the crater at sunrise of a clear morning is most marvelous, and the beauty is enhanced when the trailing clouds lazily float up the mountain side and lend their varying effects to the scene. The entire horizon is bounded by a vast circle of blue water, and by a singular optical delusion, the ocean seems to stand far above the land which it surrounds, making the spectator feel somewhat as if he were standing in the bottom of a vast

blu China tea cup. Rivalling Haleakala, is Iao Valley, the "Yosemite" of the islands. This stream has cut a deep gorge in the mountains of west Maui, emerging into beautiful Iao Valley a couple of miles from the sea. A horseback ride four or five miles up the canyon of the valley reveals the most beautiful and typical scenery on the islands. Standing far up the valley is the "needle" pointing its slim spirelike finger far up into the sky and producing a weirdly beautiful effect. Beside these, many minor scenes along the entire windward coast appeal to the eye for appreciative admiration.

Most of the animal life on the island is of imported origin. Wild peacocks, turkeys and goats are numerous on portions of the island, and doves, wild geese, ducks and plover, indiginous, perhaps, are more or less common. Cattle and horse raising is quite profitable.

Kahului is the seaport of the island, from which point most of the import and export trade is carried on, although considerable trade is carried on between Honolulu and Maui at the ports of Lahaina and Kihei. Last season over $4,00,000 worth of sugar was shipped from the island and over a million dollars of imports were received. This of course gives Kahului much importance as a shipping port.

The leading town on the island is Wailuku, situated at a point where Iao river emerges from the canyon on an easy slope facing the sea and with mountains for a back grouund. With annexation has come a growing impulse, and Wailuku is a growing town.

Kahului and Lahaina have also felt the impulse of growth. The power plant for the electric light of Wailuku will be established at Kahului, so that both towns will be lighted with electricity. In Kahului is also located the central office of the Kahului Railway connecting Kahului, Wailuku, Spreckelsville Paia and Haiku.

Lahaina, at one time the capital of the islands, and a favorite rendezvous for whaling fleets, lies on the west side of the island, shut off from the rains of east Maui. It extends for miles along a beautiful sand beach, nestling under mango trees and cocoanut palms, and awaiting the magic kiss of Prince Progress.

The cane lands on Maui are an eroded volcanic red dust with but little sand, no mineral, and very porous. Water is the life of the land, and is supplied largely by immense pumps which raise millions of gallons daily from near sea level. All the natural water supply available has been utilized by immense ditches, and the supply is being largely augmented by tunnels which are being run under the streams to catch the lower strata of waters which now escape to the sea underground.

ISLANDS OF KAUAI and NIIHAU.

The island of Kauai is the most northern and westerly of the group. It is twenty-five miles in length and twenty-two miles in breadth and contains a superficial area of 590 square miles. This island has appropriately been called "the Garden Isle." Geological investigation shows that it is the oldest island in formation of any in the group. The center of the island is mountainous, and bears the geographical name of Waialeale. From this mountain the land rolls in every direction towards the sea, the contour being gently rolling uplands and table lands. Those absolute requisites to successful settlement, wood and water—are there in abundance. The valleys are especially luxuriant. The island is at this time principally devoted to the cultivation of sugar, although in some sections rice is also very successfully raised. An experiment was made some forty years ago to raise coffee, but bad judgment was used and the enterprise failed. Since then capital has been timid, but as experience is obtained, and the cultivation of coffee is better understood, no doubt exists in many minds but that the island of Kauai will be found to be as well adapted to the raising of coffee as any other island in the group. Leaving the plain where the sugar cane is found growing luxuriantly, at the head of the Hanapepe gulch, as far as the eye can reach, waving fields of rice, home-like cottages and tropical gardens are to be seen. A majestic river flows through the valley, on one side of which vine-clad hills usurp the place of the rice fields, and on the other orange groves fill the land with a fragrant perfume. Garlands of fragrant blossoms, and beds of roses are everywhere.

The Hanalei Valley is beautiful beyond description. In approaching it from the sea, the steamer enters the channel between two high bluffs, and suddenly glides to an anchorage near the mouth of the river, from whence the valley in all its beauty and grandeur bursts upon you. The road to the center of the valley passes through the largest rice producing district in the islands. One might spend weeks in this delightful valley without exhausting its beauties and attractions. Other interesting natural features of Kauai are the Spout-

ing Horn near Koloa, the barking sands of Mana, Lumahai valley, the caves of Waiakanaloa and Waiakapalae, the mirage near Waimea and Mt. Waialeale, the central peak of the island.

The Island of Niihau is devoted exclusively to sheep raising. It is a small island only twenty miles long by seven miles broad with an area of 97 square miles.

MOLOKAI, LANAI and KAHOOLAWE.

Molokai is fifth in size of the Hawaiian group. It is the first land sighted by steamers from San Francisco to Honolulu, and is separated from Oahu by a channel twenty-five miles in width. The island contains about 270 square miles. The location of the leper settlement is one of the most charming and healthy spots on the island, with perennial verdure on every side, and fanned by the cool trade winds from the north. The houses, as they appear from the deck of the steamer, form a pretty village, all painted white, and kept in good condition. Besides the numerous small cottages which dot the plain for two miles or more, are several larger buildings, including two churches, the hospitals, and dwellings erected for the physician, superintendent, clergy and nurses who reside here. There are about seven hundred lepers and three hundred relatives and assistants of the sick, making in all a colony of about one thousand. The lepers are not allowed to leave the place, but the overseers, physicians and nurses have or can obtain permission to go and come as often as is desired. Visitors are not permitted to go to the settlement, except with permission of the Board of Health, which is only granted in exceptional cases.

LANAI.

Lanai is the sixth island in size. It is 22 miles in length, 13 miles in breadth and contains 150 square miles, or 100,000 acres. Its greatest elevation above sea level is 3,500 feet. It has a delightful climate and many attractive features, and in some respects is one of the most interesting of the Hawaiian Islands. The people residing on the island are mostly devoted to sheep raising, and it is from them that the city of Honolulu draws its supply of mutton. It is seventy-two miles distant from Honolulu, and only ten miles from Lahaina on the island of Maui, where steamers to and from the capital city touch. To the tourist approaching it from the outside it does not present an inviting appearance, and yet in the interior are rich grass lands, which feed about 50,000 sheep, 600 horses and 500 head of horned cat-

tle, besides goats and hogs. This island is noted for the immense number of wild turkeys that are to be found on it. While clearly of volcanic origin, it has a fertile soil, and the grassy plains of the land-locked valley of Palawai contain more than 10,000 acres of rich virgin soil. The botanist, geologist and lover of nature can find much on this island to interest and instruct him.

KAHOOLAWE.

This small, low island, to the southwest of Maui, is barren, save a few low shrubs, and uninhabited save by occasional sheep herders, to which industry the island has for some years been devoted.
