Hole.RAISING MONEY
FOR THE JURYMcCully Tract Will Be Sold—Paris
Must Show His Books.
Court Notes.

Sam Parker will go to the relief of his friend, Judge Gear, and advance money to pay the jury for the present term of court. The second judge realized for the first time yesterday that the extravagance which has been the rule in his court since he took the bench is not such a joke after all. Judge Gear was compelled to take upon himself the responsibility of providing for the deficiency and he got but little sympathy from the attorneys or from the judges who were not responsible for the entire appropriation being exhausted. He estimated yesterday that \$15,000 will be required to meet the general expenses of the judiciary department for the remainder of the fiscal year, or until the legislature meets. This amount is now the second judge's estimate for nine or ten months of court, while it required but thirteen months to spend the entire appropriation of \$26,000, of which Judge Gear took the greater part. If the ratio which the court now thinks sufficient for the remainder of the fiscal year had been followed from the beginning there would now be no cause for the present unsatisfactory state of affairs, as the \$26,000 would have easily paid the expenses for the entire biennial period. The jury which was excused yesterday until this morning may, unless Judge Gear makes arrangements for securing the necessary advances, be discharged for the term as will also the grand jury. Sam Parker has offered to take up the due bills of the jurors now serving, at par, but whether this generosity will extend to the jury fees for the entire term has not as yet been decided.

The case of Territory vs. W. Kaledua for assault was called upon opening of court at 9 o'clock yesterday morning. The jury was sworn after two of its members had been told that being of the same political faith as the defendant (Home Rule) made no difference to the attorney general. Then it was noticed that the stenographer was absent, and Judge Gear ordered a recess of five minutes. He improved the time by calling upon Judge Robinson for a conference in regard to the shortage in funds. Little satisfaction was obtained from the third judge, and Sam Parker was called into consultation by Judge Gear. Next, the two judges called upon Chief Justice Frear and another lengthy conference followed. The Chief Justice offered in the event that the judges succeeded in borrowing money upon which to finish the term or year, he would recommend to the legislature that the lenders be reimbursed. He said further that he believed Governor Dole would also make such a recommendation to the legislature. Judge Humphreys was next called from the bench for consultation. He took but little interest in the matter, as he is to retire at the end of the month, but suggested that Judge Gear keep the jury and let the jurors look to the next legislature for reimbursement. Judge Gear did not like this idea, as some of the jurors are poor men and cannot afford to wait for their money. Finally, after the five minutes' recess had been stretched into an hour, Judge Gear resumed the bench. The jury, which had been sworn to try the case, was immediately excused, though they had to be paid for the entire day even though they served but ten minutes, and might just as well have finished the day as not.

"The jury will take a recess until 10 o'clock in the morning," said the Court. "And in the meantime we will see what can be done. I may have to continue court until May. By the closest figuring it will take \$15,000 to run the courts until May, or about one-half the appropriation which was made for the entire biennial period."

The grand jury was also excused until today, and it is said that its members will refuse to serve longer unless their pay is assured. None of the jurors for the present term have been paid, nor have the bailiffs or interpreters. George McCully, the Spanish interpreter, who was appointed at the beginning of the term, has an order for \$40 with Judge Gear's "O. K." upon it, but it was refused at the auditor's office.

(Continued on Page 5.)

CHINAMAN SAYS THAT A SCARED
CAT STARTED BIG FIRE YESTERDAY

SMOKING ruins alone mark the scene of the Chinatown fire of Monday morning and all day yesterday there gathered about the blackened remnants of one of the fiercest blazes of recent days, men, women and children of all nationalities picking among the embers for what they could find.

One of the developments of the day was the turning up of the only witness of the starting of the fire. This is Ah Sul, the butcher, whose store at the corner of Kekaulike and Hotel street was destroyed, the fourth establishment which the owner has lost. Ah Sul had gone to his store preparatory to opening and first put in place the morning's supply of pork. He then went to River street just mauka of Hotel, where he was to get some cabbages from the hucksters gathered there. He took the passage by the rear and his attention was attracted by a light burning in the rear room of the third store from the corner of the street. While he looked he saw a cat upon the table beside the lamp scratching at the panes, as if trying to get out.

The animal after many attempts finally began to spring at the window and upon one bound fell back in such a way that the table was overturned. There was a crashing noise and then a burst of flame. Ah Sul kicked in the door to make an attempt to put out the fire, but the oil had been spread all over the place and he could do no more than call for help and arouse the people of the house.

The cries soon brought Officer Hart from Pauahi street and he turned in the alarm. There was an incorrect rendering of the number of the box by the whistle and this caused some people interested to stay at home, as they thought that the fire was in reality on School street. One of the owners of the property destroyed, James Armstrong, the Pearl City rancher, was at his home in Puunui, and sat watching the play of the fire ignorant of the fact that it was his own building that was furnishing the fuel.

One of the first things done yesterday was the collection of salvage from the ruins of the buildings by the keepers of the various stores. The rewards of their labors were small, the only man who seemed able to find much being the keeper of the hardware store whose small stock seemed to have dropped through to the cellar. The opening of safes began as soon as the ruins cooled sufficiently to permit the handling of the masses of iron. In no instance was there any loss through the burning of papers, the nearest approach being in one case, the blistering of a contract which had fallen out of its box against the door.

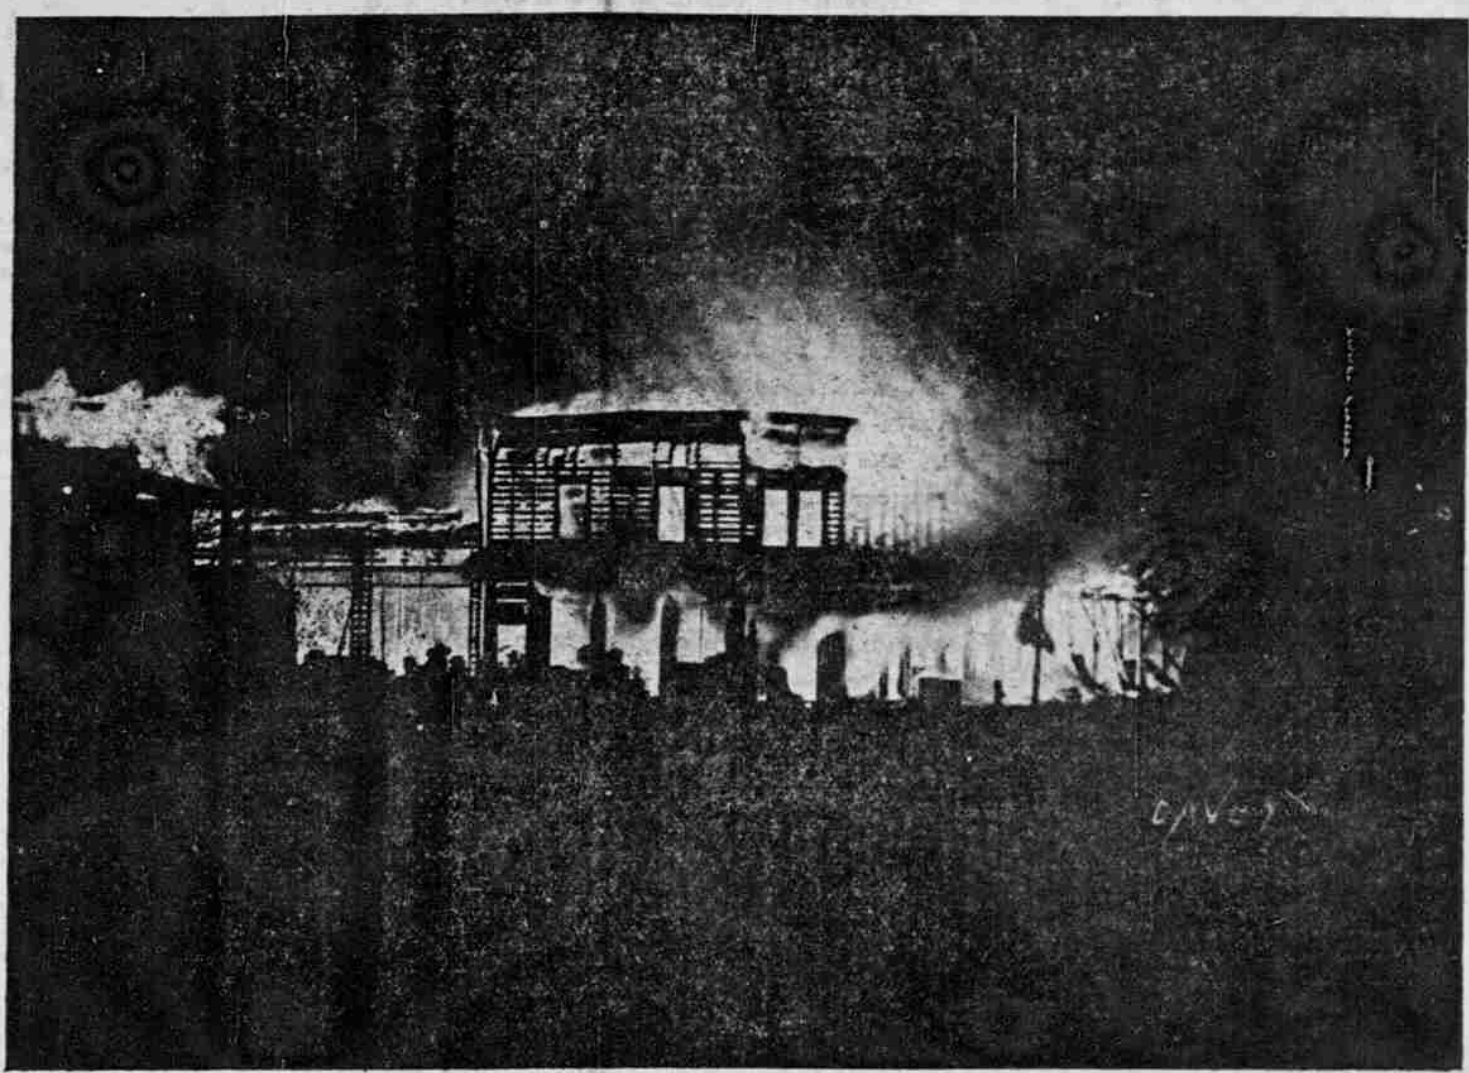

There were many amusing scenes, one being the rolling out of an open safe of a few handfuls of gold, which scattered about the cellar into which it had fallen. In another safe there seemed nothing of value but the owner prized some letters very highly and ran away to put them in the safe of a friend until he can again get into shape for his own opening.

In one part of the ruins children and women busied themselves in digging out crockery, one piece in a dozen having withstood the fire, in another boys eagerly sought and in many instances found money and tools, sometimes getting deeper and entering rooms in the unburned buildings, until stopped by the police. Curiosity hunters ravaged the ruins and Chinese cash, burned and bent were at a premium.

The losses will be heavier than appeared Monday morning. It is now estimated that the total may reach \$80,000, and on this there is probably insurance to the amount of \$50,000. The returns have not all been made to the Secretary of the Underwriters' Association but the following figures are noted as giving a fair idea of the insurance as placed in the various agencies:

| | | |
|--|-------|-----------------|
| C. J. Hutchins, (may reach \$10,000 later) | Known | \$7,500 |
| W. G. Irwin & Company | 6,500 | |
| Bishop & Company | 6,100 | |
| Honolulu Investment Company | 5,400 | |
| Waterhouse & Company | 4,300 | |
| T. H. Davies & Company | 3,500 | |
| Von Hamm-Young Company | 3,000 | |
| Barnes Agency | 2,700 | |
| Castle & Lansdale | 2,500 | |
| W. R. Castle | 1,500 | |
| Theodore F. Lansing | 1,500 | |
| German Alliance Company | 600 | |
| J. M. Dowsett | 500 | |
| Total | | \$45,200 |

It is known that the two policies of \$15,000 each on the River Planing Mill, carried by Von Hamm-Young company, were equally in the Queen and Agricultural, which disproves the report that the former company had overruled the limit for each company in the district. Another policy of the River Mill company for \$700 was in the Greenwhich, and the only other policy

THE MONDAY MORNING FIRE.

of that company, \$800, was in favor of Bow Ting.

As indicating the lines of policies held in the district the Kibi Shoten had one policy of \$2,000 with Hutchins. The average of other policies was \$500.

It is impossible to give the names of all the losers in the district. The heaviest loss on buildings is that of E. C. Winston, whose block was the largest, having cost \$18,000. The Armstrong block cost \$6,000 and was insured for \$4,000 and the Merrifield building at the corner of Hotel and Kekaulike cost \$2,400, never had a tenant and was insured for only \$1,200. The losses of rents is more disastrous than that of the buildings, as the store rooms averaged close to \$40 a month each. To the rear of the Armstrong-Merrifield buildings was a hotel structure belonging to Gus Schuman, which was burned, but the lumber was on the ground yesterday to rebuild. Pang Chong the contractor, waiting only that the insurance adjuster might view the wreck.

Adjoining the Winston block in Hotel street was that of C. K. Al, which was destroyed, as well as the interior tenements of Winston. At the corner of Pauahi and River the En Suk building was burned completely and then the fire spread to the tenement of the River Mill company, in front of the mill. This was practically destroyed, there remaining only a small fragment at the Waikiki end. The adjoining tenement of Chock Sing was not damaged materially.

Already there is much talk of rebuilding and as soon as the insurance adjuster views the premises it is safe to say that there will be a speedy clearing off of the premises and reconstruction of the houses.

The Rapid Transit company had its trolley wires burned down and it was not until 9 o'clock that cars were being run, passengers being transferred

at the river switch. Before four o'clock, however, there was a complete rehabilitation of the line and cars ran through.

The Electric Light company lost only a few secondary wires run beneath the awnings, and these amount to not \$150. The telephone company lost seven instruments and three poles, but the latter were quickly restored and there was no material interruption to the service. The Territory lost four poles which were replaced during the afternoon.

WHERE THE REFUGEES WENT.

While the buildings were roaring furnaces scores upon scores of Orientals of all ages gathered like frightened animals in the vicinity of their burnable abodes and the majority were bewildered faces. Some stood about stoically, and with unchanging demeanors saw their small fortunes go up in smoke. There were many who had saved nothing but the scanty raiment they wore when they escaped from their sleeping quarters. A well-to-do Chinese merchant rushed from his store bearing nothing but a dust cap and another ran like a deer for two blocks holding aloft a chair. A few there were who were momentarily crazed when they found their way barred to where their belongings were by sheets of flame.

By daylight the homeless ones began to cast about for shelter and two hours later there were few persons gathered about the burnt district who had been inmates the night before.

They had gone to Kakaako, Pauoa, Pawa and Liliha street. Hacks were in great demand even though the passengers had but scant baggage to carry, but from somewhere about their persons purses were taken from which their fares were paid.

The Japanese theater, a structure looking more like a warehouse than

a place of amusement, was thrown open to refugees and in a short time the place was littered with pieces of household furniture, bedding, straw baskets, kitchen utensils and stray ends of wearing apparel. By noon the interior had changed from a place of disorder into one of neatness, Japanese families having taken up sections of space where squares of matting were laid, bedding arranged and their odds and ends saved from the fire were neatly folded or arranged. Japanese merchants early sent supplies of food-stuffs and drinkables and these were eagerly partaken of by the hungry refugees. In the afternoon tables were set up in the audience section, bowls and chopsticks placed at regular intervals, and good cooks began the preparation of an afternoon meal. Upon the stage, which was filled with scenery, sleeping quarters were arranged and by nightfall everybody was comfortably housed.

A WASTE OF CORRUGATED IRON.

Yesterday the burnt area was mainly composed of a waste of corrugated iron sections, which had composed the roofs of the most of the structures. The fashion set in Chinatown of using corrugated iron for roofing has become general and there is hardly a building in the entire district, on both sides of the river, that is not covered with this material. It is the fireman's foe, for no amount of water thrown upon the roofs has a particle of effect in quenching a fire. It turns to steam or runs off the top like rain on a duck's back. In several instances during the fire the buildings became raging furnaces beneath these roofs and with the heavy wind blowing through the structures the flames were carried across Hotel street as if blown through a flue.

INCIDENTS OF THE FIRE.

About five o'clock in the morning a Chinaman could be seen sawing off, half way up, a telephone pole which was burning on the top. "Make very good firewood," he explained.

A band of Japs brought a small truck on which to remove a refugee's saved belongings. He greeted his countrymen sadly, yet offered each a five cent cigar. These were accepted. A moment later the whole crowd, puffing at their long cigars, were at work piling the goods high up on the truck.

During the blaze one Chinaman rushed into a building which had been used as a hotel. He had a bird which he wished to secure. He got the cage and reached the street in safety—but there was no bird in the cage. Some one had been there before him. Sorrowfully walking about with the empty cage he encountered a merry faced little Chinese girl, who, amidst her own hilarious laughter, brought the lost canary out from folds of her blouse. The wrinkled Chinaman laughed, the child chuckled and the incident was over.

If one wishes to know what kind of dress Honolulu people sleep in, he should attend a big fire during the early morning. He would perhaps see a doctor, his wife, and little daughter, all attired in very pretty silk kimonos. Here is a well known business man with a mackintosh drawn over crinkled pajamas and on his feet dainty Chinese slippers. Over on the sidewalk is a policeman who has drawn on anything he could lay his hands on and has now an umbrella raised above his head to keep the heat and spray from the hose off.

Cafes did a big business after the fire. Many people wanted a breakfast or two. They ate heartily and usually on finishing fumbled about and found that they had failed to bring any money with them. With many apologies it would be: "Really, that's funny."

**GOOD WILL
OF NO VALUE****Case of Brewer &
Co. in Tax Ap-
peal Court.****BANKERS GIVE
THEIR TESTIMONY****Question Hinges on Taxation of
Bills Receivable and Foreign
Stocks.**

The case of C. Brewer & Company on a protest from an increase in taxation of over one million dollars was heard by the tax appeal court yesterday afternoon. The return made by the corporation was for \$107,038, and this was increased by Assessor Pratt to \$1,121,137, who estimated this raise as the value of "good will," being represented by the premium of over four hundred per cent at which the stock was held.

The evidence before the appeal court brought out some interesting facts relative to the business of the corporation and the condition of the sugar industry at present, with its prospects for the future. The witnesses for the corporation concurred in the opinion that good will was not of value and several of the directors figured that the company was already paying taxes in excess of its valuation. Brewer & Co. contend that they cannot be taxed on stock in Hawaiian corporations which is admitted by the assessor. Further, that they cannot be compelled to pay on stock in foreign corporations and in California companies, or upon bills receivable, which amount to half a million dollars. This is not conceded by the assessor, who asserts that the money is an asset of the corporation, and should be taxed, even though the plantation which borrows the money also pays taxes upon it. There was considerable discussion as to "tangible" and "intangible" property, though the two kinds were hardly distinguishable.

E. F. Bishop of Brewer & Co. was the first witness put on the stand by Judge Whiting, who appeared for the corporation. He testified that the value of Brewer & Co. as an enterprise, excluding sugar stocks, bonds, etc., upon which taxes were otherwise paid and bonds and other property exempted by law was the amount returned, \$107,038. This was made up as follows: Leasehold and real estate, \$36,902; cash, \$3262; merchandise, \$8817; commissions, \$27,964; office fixtures, \$5640; making a total of \$107,058, from which was to be deducted \$24,833 paid upon insurance premiums. He listed also all the non-taxable property, consisting of Hawaiian stocks, at their par value upon which the tax was paid by the plantations, at \$1,788,932. Stocks in California and foreign corporations, \$263,102; bonds in California and foreign corporations \$100,000 and bonds in Hawaiian corporations \$109,000. He said he could not estimate the market value of the stock, as it depended upon the number of shares sold. "The value of the stocks held by Brewer & Co. give the value to our stock," said the witness; "but this stock is exempt and is paid by the plantations, so I don't see why they need be taken into consideration at all. Everything in the way of tangible property not exempt has been returned."

On cross-examination the witness said that he did not believe the control of plantation agencies by Brewer & Co. could be called of value if the corporation was compelled to liquidate. He testified that their profits depended upon the prosperity of the plantations and the price of sugar, and that the good will of the company was of no value. He said that he had never heard of taxing book accounts and that Brewer & Co. had paid dividends every year except 1892. Since July the dividend had been cut to one per cent a month because of the poor outlook for sugar. P. C. Jones testified that in 1901 he had tried to sell 100 shares of Brewer & Co. stock for a friend at \$375 and could not find a purchaser, and that the prospects for sugar were worse than they had been for months. He did not expect an increase in the price of sugar at present. He considered the total value of the corporation to be \$2,423,310 and taxes were being paid upon Hawaiian sugar stocks to the amount of \$1,788,562, leases on Maui and Hawaii were exempt, bills receivable to the amount of \$562,000 were exempt, and no taxes could be collected upon \$229,000 in bonds, making Brewer & Co. actually paying taxes upon \$247,383 more property than was held by the corporation. Mr. Jones on cross-examination said the value of Brewer & Co. as an enterprise was nothing. "I don't think the good will is worth four cents in any business," said he, "unless you get a franchise that freezes out everyone else." The commissions, he said, were not taxable and to tax them would mean about fourteen per cent on the business of Brewer & Co. He did not believe the fact that the corporation was well managed gave it a value for taxation purposes.

C. M. Cooke was next called and said he placed the value of the stock of

RICKETY CHILDREN.

As likely to think of chairs as of children when we use that word rickety.

Children with loose joints, bow-legs, and soft bones have rickets. It is a disease due to improper feeding—and a typical disease for the workings of Scott's Emulsion.

For the weak growth of the bones Scott's Emulsion supplies those powerful tonics, the hypophosphites.

For the loss of flesh Scott's Emulsion provides the nourishing cod-liver oil in an easily digestible form.

It is these things that account for the rapidity with which Scott's Emulsion cures rickets.

Rickety children improve in every way under its influence.

DEMOCRATS STAND FAST

(Continued from Page 1.)

state of the public pulse, discussing at length the feeling among Hawaiians as to the proper nominee. It was not intended that any action should be taken, and the conference was adjourned, the members deciding that they shall get together later for the purpose of further discussion.

FOURTH PRECINCT CAUCUS.

Fourth Precinct, Fourth District, members of the Republican District Committee met last evening for informal conference as to the action of the members in nominating convention. It is the intention to hold several similar meetings for the purpose of finding just the opinion of the members to candidates, so that the precinct members may enter the convention for the nomination of legislators ready to act as a unit. None of those present would discuss the names brought before the caucus, as there is no intention to form a slate, only to settle the question of the most available men for nomination.

MAUI NOMINEES.

Delegate Wilcox and Senator Kalanokalanui were on the street yesterday, after their return from Maui, where they held a series of meetings and named the candidates who will struggle for election to the legislature. Delegate Wilcox said that he was perfectly satisfied with conditions and that his meetings were entirely to his liking. At the convention at Wailuku on Saturday the following were nominated for the legislature:

For Senator—William White.
For Representatives—F. W. Beckley, C. L. Kookoo, Solomon Kawaihoa, Wallehua, J. K. Hihio.

ATTACKS IAUKEA.

The current issue of Home Rule, the Wilcox organ, thus opens up on Col. Iaukea:

"The little snake of Wailua talks with a wish-bone in his mouth. He says he takes issue and presents the statement that the electorate (meaning thereby the Hawaiian voter) is 'irresponsible,' he says, I know you will point to the utter incompetence and failure of our Delegate to properly maintain the high position of his office. On this score I have no defence to offer. With heads bowed in shame, I admit you surely can expect such a language from this little snake, as he is nothing but a white-washed Hawaiian; he cares not for this country and people."

"He is one of those animals that has a rope tied to his nostrils and is led here and there to suit the field. He is one of those that will give up his birthright for the sake of a few beans. If I am not mistaken, he has already done so."

"Now all this talk about the Delegate's incompetency is all 'bosh.' Delegate Wilcox has done a great deal for this country and people, and has done a great deal now. What has this little white-washed Hawaiian done for his country and people, can any one tell? He bolted away from the ones who showed him up to the world and who educated him and who put him in high position; he loves nothing but the Almighty Dollars, this ungrateful being. He never thanked the ones who put him in high position and gave him a name as he was not known in days gone by but as a retainer for some of the Chiefess now living, but the King fancied him in his younger days and took him up and made something of him, but after the King's death he thought he was a little god, and ran off where he is now, a white-washed Hawaiian. No Hawaiian cares for him; no Hawaiian talks good of him, as he is a snake to his countrymen."

"Delegate Wilcox got the franchise for his people. Was it this little snake of Wailua? Delegate Wilcox got five Senators elected for the Home Rulers. Was it this little white-washed Hawaiian of Wailua?"

Delegate Wilcox got the commissioners to come down to the Territory of Hawaii to investigate every thing in the Territory. Was it this little snake of Wailua?"

"Delegate Wilcox was the first one who wanted the municipal and county governments in the Territory. Was it this little Hawaiian snake of Wailua?"

"He better keep perfectly cool, as he is nothing but a traitor to his country and people. This little white-washed Hawaiian had better look into the Congressional records of Washington, D. C., and put his eye-balls on the pages and look for Delegate Wilcox's name and find out what he has done for his people and country, and not talk through his hat. He has an idea that the Capitol is a small place and that it will take but a day to get acquainted with all the members of both Houses. It takes a long time to get introduced to the members, as they are so many and they are always busy."

"I presume he is so ashamed of the Delegate's incompetency because he fought for his country and his rights, and for justice, and also he fought to restore his Queen on the throne. Oh! what a shame!"

"I could imagine seeing him hanging his head with shame on account of the Delegate's incompetency."

WILCOX'S MAUI SPEECH.

"I went to the United States Congress, as has been explained by my secretary, as your Delegate. It was the only one of the 355 members of that august body that came beyond the seas. This body represents eighty millions of people, so you can see the most exalted position in which your Delegate was placed and the great honors conferred upon him. When I was thus honored you were also honored."

"My enemies have been raising the cry that Wilcox is a failure and they are and have been trying in every possible way to injure me. They do this because they are jealous of me and the most envious position that I hold through you. They hate not only Wilcox but they also hate you, for to hate

Closing Out Shirt Waist Sale

One quarter chopped off the price and the waists are the most stylish of the season. We already have a fine record for value giving, but no previous sale of this year will come up to this one. The reductions are greater and the varieties better and broader than any shown heretofore. The offerings are not small lots of soiled patterns and broken sizes, but comprise full and complete lines of the prettiest and newest waists we have ever had.

They are the Unique and Derby brands of "Gibson" and other styles and consist of the following materials:

Plain Chambray in pink, light blue and ox blood

Mercerized Zephyrs in pink and blue.

Seersucker in red stripes.

Lawn in dainty patterns, light blue and pink effects.

Zephyr plain in pink, light blue and ox blood.

**Reduction 25 per cent

TOURISTS FOR HAWAII.

There are many ways to attract tourists to Hawaii but the most certain one would be to give them excursion rates of passage from the coast. With tourists it is not so much a matter of cheap living at the destination as it is of small expense en route. Just now tickets are being sold from Chicago to Colorado and return for \$25; and multitudes of people are making the trip careless of the board bills to come. It may be set down as a general proposition that excursion rates have been the making of every pleasure resort in America from Coney Island to Coronado Beach. They bring the crowds every time, just as they brought the two Shriners pilgrimages here. More than this, the chief cause of the American invasion of Europe lies in the fact that the eight day steamers give first-class passage at \$45 and that fine accommodations may be had on the flyers for \$50. Twenty-five years ago when the rate was as high as it is now between San Francisco and Honolulu, the American who went to Europe was, if not a curiosity, at least one to whom a romantic interest attached.

If a round trip rate of \$75 could be made for the San Francisco-Honolulu trip here is no doubt but that this Territory would soon take its rightful place as a fashionable resort. It is not merely that some Easterners who now spend their winters in California would come, but that California people themselves would flock here. Being as they are at the jumping off place they have nowhere but their home resorts to go to for a change, except along the back track, where great deserts supervene and where the summers are hot and the winters cold. Hawaii is their natural outlet and if they could be induced to think so, how much pleasanter it would be for them and how profitable for us. There is no reason why an average of 2000 such strangers should not be in the Territory throughout the winter months.

If Californians ever make this their lying-off place, others will be quick to follow and Hawaii's circulating medium will be where we all want it. Just now we are in the shape of the merchant whose store is full of goods but innocent of customers. Scenery and climate are merchantable assets the world over, but Hawaii offers some perennial spring novelties not to be matched on the bargain counters of any other concern. Here is where the South sea idyll is to be found and all the lotus life which men turn to with a sort of Garden of Eden instinct; and to make the showing more impressive we have an active but mannerly volcano on tap and a blue sea that foams and flashes at the feet of bending palms, with never a tidal wave to tear them up by the roots. These are things that northern people long for and are willing to pay for and which the mainland cannot offer them. They are our special commodities which ought, indeed, to be marketed—but it costs too much to bring the willing customers to our door. We are an emporium on the back street to which a ride worth a nickel costs the shopper a quarter. But the steamer business is expanding, the Santa Fe people may give us an excursion line, a more liberal spirit may come to actuate the old companies in the face of competition and if so, Hawaii will come to its own and will not feel the strain so much when sugar drops a point.

AFTER THE FIRE.

Do certain tenants furnish rooms cheaply in lodging houses, insure the goods for more than their value and then set fire to the building so as to collect insurance money? We merely put the question in view of the growing propensity of fires to break out in the tenement district of this city. Hard times in any town are always followed by the destruction of lodging houses; good times are rarely illustrated by a tenement house blaze, notwithstanding the fact that more people are under cover then among whom a fire might start. Why is it? Who is to blame? Perhaps a clue could be found quicker by an insurance man than by a detective.

Among the lessons of Monday morning's conflagration is one that the next Legislature ought to study. Had the fire limits been made to cover Chinatown, the blaze could not have got a block ahead of the engines. The last Legislature had before it a fire limit bill, but it was too busy protecting dogs and passing bills to swindle creditors, to pay much attention to an honest and necessary measure. When another Legislature convenes the whole of Chinatown should be put in the self-protected area, otherwise a great mass of shacks will always menace the city and at intervals set fire to it.

The Home Rule paper says that the coming of a Federal entomologist here is due to Delegate Wilcox—a man who probably would not know an entomologist from a monkey wrench if he found them both in the road. Wilcox also claims that he brought the coming commission this way and that he "saved the Hawaiian franchise." For a leader of such tremendous influence in Congress, it is strange that none of his bills passed and that out of a billion dollars disbursed by Congress Wilcox did not get a nickel for Hawaii. It is understood however, that he lays these mischances to God.

LIBELING JUDGE ESTEE.

Those who know Judge Estee are at a loss to account for the use of his name by Henry Loomis Nelson in an article on the carpet-baggers and scalawags who came here after annexation to exploit the country. Whatever may be said of the Territorial Judge named by Mr. Nelson, the fact remains that United States District Judge Estee is as far from being a carpet-bagger as is Judge Taft or General Wood or any of the men especially picked out by the President of the United States for high posts in America's insular possessions.

The character and career of Morris M. Estee ought to be known to a man of Henry Loomis Nelson's journalistic training. For forty years Estee has been one of the ablest and most useful of the public men of the West. Twice the candidate of the Republicans of California for Governor of the State; permanent chairman of one Republican National convention and a delegate-at-large to many; speaker of the lower house of the California Legislature and finally the Federal Judge for Hawaii, Mr. Estee has absolutely nothing in common with the adventurers with whom Mr. Nelson classifies him. The respect in which he is held here is not confined to party, or race or faction, nor is it in any degree foreign to the old residents whom it is the trade of carpet-baggers to try and push aside.

It is a mystery why Judge Estee should be singled out so often for comment which is both unjust and odious. A year ago the coast papers were trying to make him out a rival of Governor Dole when, as a matter of fact, he was keeping entirely out of politics, content to hold his judicial post. Then the vulgar domestic feud of some St. Louis man of similar name, was attributed to him and now he finds himself yoked up with Judge Humphreys as a "scalawag." Has it come to such a pass in Hawaii that any and every judge is looked upon with suspicion or is Judge Estee the object of some one's particular spite? In either case he has the support and sympathy of every good citizen of this Territory.

The Home Rulers want to swallow the Democracy and take its name. But the Democracy is unwilling to be the victim. It prefers to wait until election day and assist the Republicans in swallowing what is left of the Home Rulers.

The news that electric lighting is to be cheaper will not want for an appreciative public this morning. If telephones could be made better, also, the town would feel that things were beginning to come its way.

About now a wireless message from Captain Rosehill should present some entertaining news features.

There is a special call on the charity of the city to relieve the latest fire sufferers.

CHIEF ENGINEER ROHRER RESIGNS

J. B. Rohrer, Chief Engineer of the Rapid Transit Co., has tendered his resignation to the company and plans to leave for Vancouver on the Aorangi August 27th. He will extend his trip as far east as his old home in Pennsylvania but expects to spend some time looking over the Coast country before going on. Mr. Rohrer has not yet definitely decided where he will locate, having several offers under consideration which he will investigate during his trip. In his two years' residence in Honolulu, Mr. Rohrer has made many warm friends who will greatly regret his departure. He is an experienced man in his line and the excellence of the Trolley Road is largely due to his work.

CHINAMAN SAYS THAT A SCARED CAT STARTED BIG FIRE YESTERDAY

(Continued from Page 1.)

I forgot to bring any money with me. I'll send it around later in the day. Give me a card and I will leave you my name and address."

Hackmen missed a great chance. There were few to be had. Fire Commissioner Fisher heard the first alarm, telephoned for a hack, but not securing one, had to walk into town.

One Jap woman with her babe strapped to her back could be seen walking around and tearfully exclaiming in Japanese: "My clothes is all I saved." And these could have been purchased for a couple of dollars.

NEEDED FIRE LIMITS.

The fire-swept portion is part of the area which business men and insurance people generally desired to have protected after the big fire of January 20, 1900, by the extension of the fire limits, so that all buildings erected subsequent to the spring of last year would be of a character to prevent general and widespread conflagrations. The legislature was appealed to to make the extension desired but that body, composed principally of Home Rule statesmen, ignored the request and threw the district open to dangers by fire as great as before. Their arguments against the extension of the limits were puerile to say the least, and as usual that of "poor people" not being able to afford fire proof buildings, settled the question for them. Since then every building erected has been of the flimsiest character, a perfect trap for fire, and the conflagration which has made so many people homeless, is only a result of the failure of the Home Rule legislature to give such protection to the city. The lesson of Monday morning is one that should be carried into the next session of the legislature and profited by.

IN THE MATTER OF A DELEGATE

Editor Advertiser:—The season approaches for the selection of a Delegate to Congress for the Territory of Hawaii and every thoughtful citizen appreciates the gravity of the situation. Under the circumstances, where in Hawaii, although heavily taxed, is allowed only a nominal representation in Congress, our Delegate being merely permitted on the floor of the House and denied the right to vote, it behooves us to equalize matters by sending such a Delegate as will have the respect of the members of the House. It is frequently reiterated that "the woods are full of them" and there is no difficulty in selecting a MAN who will be the peer of any member of the House, and that the only difficulty lies in selecting a man who can beat Wilcox.

I do not feel that there will be much difficulty in downing Wilcox if the proper course is pursued, but I do realize a difficulty in selecting from "the woods" an eligible MAN.

He must have some qualifications, even to beat Wilcox, but more so to be of use to the Territory. The Home Rule party will not hesitate to make the fight on "traditional American lines," as pursued in every district throughout the United States and if we make an error and nominate a man whose private life is not clean, "there's a chiel among them takin' notes on faith he'll prent it." We must therefore have one clean from the ground floor. He must be an American patriot thoroughly posted in American history and be patriotic to his adopted or native Territory. His forensic powers should enable him to cope with the innumerable Congressmen, who are usually so listless where Hawaii is concerned.

He should be sought after by those of his peers in the House not because he has a vote to give in their aid, but who on his dignity, erudition and eloquence could aid them more than ten votes.

He should not go there, expecting that from his incapacity and non-entity he would be reached down to by the helping hands of those capable of rendering assistance. There is nothing so humiliating to the citizens of a Territory as to know that their representative is looked down upon for his personal inaptitude, whereas on the contrary, all citizens feel a pride in the knowledge that their representative is a leader amongst the lawmakers of his country.

In selecting the ideal man for the position no thought should be taken to his "race, color, or previous condition of servitude." It is just as easy to elect a man who has the proper qualifications as it is to elect one whose only recommendation is that he can beat Wilcox.

It is not material what man is offered, be he native or foreign by birth, the Home Rulers will denominate him a "scab" and use all the appellatives of "missionary," "Dole party," etc., etc. in their endeavors to throw dirt. Therefore, we should not hesitate to select a man whom each of us will be interested in voting for on the proper grounds that he will be able to well represent the Territory and its urgent needs.

Why not place in nomination either of such men as A. S. Hartwell, Francis Gay, Judge Wilcox, C. H. Dickey, W. O. Smith, C. P. Ikaika, L. A. Thurston, G. P. Carter, J. G. Pratt, W. H. Rice, Henry Waterhouse, Lorrin Andrews, or a host of others whose records are clean and who would if elected be a credit to Hawaii. There is a way to elect the proper man, and it is not by haranguing the masses and by torchlight processions but by the personal endeavor of each man who is interested in this most vital object. "Any old thing to beat Wilcox" should not be the slogan. Opportunists and trimmers should not be allowed to control the selection of a real man on the momentous occasion.

Yours truly,
JAS. W. GIRVIN.

BABIES AND CHILDREN

should be fairly plump. They ought to put on fat as fast as they use it up; for fat is fuel, and the burning of it makes power and force. Thin children—even along to the age of eighteen or twenty—are in danger from consumption, and from other wasting complaints. The children who starve, and the young men and women who are consumed—why, the very idea of it is frightful. For such as they there is always what the Bible calls a "mighty famine" in the land. Food, though it may be taken plentifully, does not nourish them. It makes no fat; it gives no strength. To prevent this, to cure this, to save the young ones at the mother's knees, and the bright boys and girls who are just looking at the world with ambitious eyes, is the purpose of WAMPOLE'S PREPARATION.

Its success is decided and settled. Thousands owe to it life and health. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and bone and blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia. The children like it, they love the taste of it, it looks good to them, and it builds up their bodies; many little children owe their lives to it." Effective from the first dose. "You cannot be disappointed in it." Sold by chemists here and everywhere.

Old as the Pyramids

And as little changed by the ages, is Scrofula, than which no disease, save Consumption, is responsible for a larger mortality, and Consumption is its outgrowth.

It affects the glands, the mucous membranes, tissues and bones; causes bunches in the neck, catarrhal troubles, rickets, inflamed eyelids, sore ears, cutaneous eruptions, etc.

"I suffered from scrofula, the disease affecting the glands of my neck. I did everything I was told to do to eradicate it, but without success. I then began taking Hood's Sarsaparilla, and the swelling in my neck entirely disappeared and my skin resumed a smooth, healthy appearance. The cure was complete." MISS ANITA MITCHELL, 915 Scott St., Covington, Ky.

THE Steel Giant Grubber

Which has proved so successful in clearing land of lantana was introduced by the PACIFIC HARDWARE COMPANY, LIMITED, a little more than a year ago and has the endorsement of those who have used it.

The several invoices of Grubbers already received have been disposed of so promptly on arrival that they have not been advertised.

A few of the No. 2 size are now in stock and a supply of No. 1 are expected at an early date.

Any one interested in freeing his land of lantana should correspond with the

Pacific Hardware Co., Ltd.

Fort Street, Honolulu.

PARKER TO THE RESCUE

(Continued from page 1.)

The special stenographer whom Judge Gear employed for the term has already drawn her per diem, a total of \$165. The exact sum still remaining in the appropriation is 29 cents, and if a warrant for that amount is presented it will be honored.

Judge Gear will try to make arrangements with business men here to advance the money still required for the courts. If this is done an advance of \$15,000, sufficient for all the courts for the remainder of the fiscal year, will be secured, and the legislature asked to refund that amount. Sam Parker has offered to take up the accounts of jurors for the present term, and through him Judge Gear may make arrangements for the entire amount. If this cannot be accomplished the jurors will very likely be excused today for the entire term.

COURT NOTES.

An order was signed by Judge Robinson yesterday in favor of Henry Smith vs. S. B. Dole as governor and Mary S. B. Rose. By the order the governor is compelled to cancel the deed given by the Superintendent of Public Works to Mrs. Rose for a government street section in exchange. Smith is by this action given an option of purchase upon the land deeded to Mrs. Rose by the government.

Judge Gear yesterday heard the jury-waived cases of Lewers & Cooke vs. Jos. Correa, and Dimond & Co. vs. Orpheum Co., both assumpsit suits. Judge Humphreys made an order yesterday for the sale of the McCully tract upon August 30th by virtue of the judgment obtained by the Queen's Hospital vs. the Waikiki Land and Loan Association in the sum of \$137,371.71. Miss Kathryn Widdfield is appointed commissioner to sell the property and the court fixed her fee in advance at \$100.

It is reported that a company is being formed to take over the land. Judge Robinson yesterday rendered judgment in the case of John Crowder et al. vs. Henry Bryant et al., in the sum of \$517.33. The suit was on breach of contract, plaintiff having purchased from defendant the horses and wagon and good will of the mail route between Honolulu and Kahuku, the defendant agreeing not to engage in the same business. When a star route was established by the United States Bryant did enter into competition, greatly to the damage of plaintiff's business. The court held that nothing could be recovered on breach of contract as to re-engaging in business, such a contract being contrary to public policy and void. For loss of business and depreciation in value of property the court assessed the damage at the amount above stated.

In the case of J. M. McChesney vs. Waikiki Land and Loan Association, Judge Robinson signed a decree for plaintiff yesterday and ordered Geo. H. Paris as treasurer to appear before M. T. Simonton as commissioner on Aug. 25, with all his books and other accounts of the corporation and give an accounting of the expenditures and collections made by him.

The report of W. A. Whiting as commissioner in the case of Bailey vs. Cushingham was approved. An order of sale was made in the case of Chi et al. vs. Isaac Noar. This is a partition suit for division of the Star block, and it had been reported that the defendant had purchased the interest of the plaintiff. C. F. Reynolds has been appointed commissioner to sell the property.

The report of W. S. Fleming as commissioner in the case of Kahaleaahu vs. Pereira was approved and he was allowed a fee of \$100. George Davis has asked for an order of confirmation of the sale of the Lanai property to Charles Davis.

High Sheriff Brown was granted 20 days additional time in which to make returns of executions in the case of the Hawaiian Star Newspaper Association and Hoffschlaeger & Co. vs. S. W. Lederer.

An order for judgment was made yesterday against defendant in the case of J. D. Paris vs. J. A. Magoon, administrator, in the amount of \$2437.67.

Judge Hardy in a letter to Clerk Henry Smith, states that he hopes measures are being taken to furnish money for his September term of court.

Visiting Teachers

Miss E. P. Howard, the principal of St. Mary's School, Knoxville, Illinois, one of the old and well known church schools for girls, has been a month in the islands for rest and change of scene. She sails on the Sonoma on Tuesday. Miss Howard is charmed with the beautiful island scenery, and has also greatly enjoyed the many social attentions of her hospitable island friends. The Misses Leffingwell, who accompanied her, will make a longer stay. Miss Hortense Leffingwell will remain through the school year, as one of the faculty of St. Andrew's Priory. Miss Gertrude Leffingwell will sail, with friends, on the China, returning to St. Mary's School to finish her course of music study there, under the direction of the eminent pianist and composer, Mr. William H. Sherwood.

TEN BOLD ASSERTIONS.

Regarding Chamberlain's Colic, Cholera and Diarrhoea Remedy.

1. It affords quick relief in cases of colic, cholera morbus and pains in the stomach.

2. It never fails to effect a cure in the most severe cases of dysentery and diarrhoea.

3. It is a sure cure for chronic diarrhoea.

4. It can always be depended upon in cases of cholera infantum.

5. It cures epidemic dysentery.

6. It prevents bilious colic.

7. It is prompt and effective in curing all bowel complaints.

8. It never produces bad results.

9. It is pleasant and safe to take.

10. It has saved the lives of more people than any other medicine in the world.

These are bold assertions to make regarding any medicine, but there is abundant proof of every one of the above statements regarding this remedy. Every household should have a bottle at hand. Get it today. It may save a life. Benson, Smith & Co., Ltd., wholesale agents, sell it.

ASSIGNEES' NOTICE OF FORECLOSURE AND SALE.

IN ACCORDANCE WITH THE provisions of a certain mortgage made by John Nahinu, party of the first part, Kapule Nahinu, wife of said party of the first part, joining therein, both of the District of South Kona, Island of Hawaii, Territory of Hawaii, to J. M. Monsarrat, of Honolulu, District of Honolulu, Island of Oahu, Territory of Hawaii, party of the second part, dated the 8th day of December, 1896, and recorded in the office of the Registrar of Conveyances, in said Honolulu, in Liber 186, page 204, said mortgage having been finally assigned to Samuel M. Damon, Henry E. Wally and S. Edward Damon, all of said Honolulu, partners in business under the firm name of Bishop & Co.; Notice is hereby given that said Samuel M. Damon, Henry E. Wally and S. Edward Damon, partners as aforesaid, intend to foreclose the same for condition broken, to-wit: the non-payment of both principal and interest, and that the property conveyed by said mortgage will be sold at public auction, before the main entrance of the Judiciary building in said Honolulu, on Monday, the 5th day of September, 1902, at 12 o'clock noon.

The premises covered by said mortgage are described therein as follows: 1. All that certain piece or parcel of land situated at Kahuku in said South Kona, containing an area of 49 acres and being the same premises described in Royal Patent (Grant) No. 1468 to Henry Clarke and that were conveyed to the said Mortgagee by John Schleif by deed dated April 30, 1894, and recorded in the Office of the Registrar of Conveyances in said Honolulu in Liber 148 on folio 325. 2. All that certain piece or parcel of land situated at Hookeke in said South Kona containing an area of 3.15 acres and being the same premises described in Royal Patent No. 1306 L. C. Award No. 7395 to Kahala, Apena 2, and that were conveyed to said Mortgagee by W. Kaakimaka by deed dated May 11, 1895, and recorded in the Office of the said Registrar in Liber 165 on folios 238 and 239.

RICH LAND

—IN—

Central Kona FOR SALE

By order of REINNE RODANKE, Trustee, I offer for sale those certain parcels of land situated at Onouli, South Kona, Island of Hawaii, described in Patent (Grant) No. 1167 to F. O. Schulze, and containing 174 acres. Royal Patent (Grant) No. 2862 to A. W. H. and containing 738 75-100 acres, situated at Keopuka and Onouli, Island of Hawaii.

This is a and of over 100 acres, situated in the most fertile and richest portion of the Island of Hawaii. It faces the new Government road, extends to the sea, and is five minutes' walk from Kealekua Bay, by way of the old Government road which runs through the property. Portions of the land are already under cultivation.

This tract is so situated that it is about midway between Kailua and Hookeke, and five miles from Napee, three most important ports of the Kona district. It has sufficient elevation, running up to fourteen hundred feet, to be particularly healthful, and its soil is well adapted to the growth of sugar cane, coffee, fruits, dairy, or for the promotion of diversified farming.

Occipants of this land have easy access to several ports for export, and with the advent of the Kona Railroad will find themselves in close communication with the thriving City of Hilo. This, of course, affords a splendid opportunity for the exporting of farm products to the California markets.

With the revival of the Kona Sugar Co., considerable portions of this land can be successfully planted to sugar cane.

This is one of the most splendid opportunities for a good investment that has been put upon the market for a considerable period of time.

Further particulars of

JAMES F. MORGAN,
65 QUEEN STREET.

MORTGAGEE'S NOTICE OF FORECLOSURE.

IN ACCORDANCE WITH THE provisions of a certain mortgage made by the HAWAIIAN AUTOMOBILE COMPANY, LIMITED, to CASTLE AND COOKE, LIMITED, dated the 24th day of May, 1901, recorded in Liber 224, page 8; notice is hereby given that the mortgagee intends to foreclose the same for condition broken, to-wit: the non-payment of both interest and principal.

Notice is likewise given that after the expiration of three weeks from the date of this notice, the property conveyed by said mortgage will be advertised for sale at public auction, at the auction rooms of James F. Morgan in Honolulu, on Monday, the 1st day of September, 1902, at 12 noon of said day. Further particulars can be had of W. R. CASTLE, an attorney for mortgage.

Dated Honolulu, August 1, 1902.
CASTLE AND COOKE, LIMITED, Mortgagee.

The premises covered by this mortgage consist of:

First: All that lot of land, being a portion of the premises covered by Apena 7 of Royal Patent 6666 to L. C. Award 247 to C. Kanaina for William C. Lunellio, situate on the makai side of King street in Honolulu, Oahu, Territory of Hawaii, adjoining the south-easterly line of the lot used by the street department of the King, Punch-bowl, Queen and Millian streets, and having a front of eighty-two (82) feet on said King street and an area of eight thousand six hundred and fifty-six (8656) square feet or 196-1000 acres.

Second: A lot adjoining the southerly or makai side of the first lot aforesaid (the two together forming one large lot) being premises more fully described in Royal Patent 5701 on L. C. Award 637 to Kuluwalehua, containing 22-1000 acres, together with the one concrete building standing upon said premises; and

Third: The following personal property and effects now lying in said building:

- 11 H. P. G. E. Co. Direct Current Motor.
- 12 H. P. G. E. Co. Direct Current Motor.
- 16-40-260 G. E. Co. Generator, 230 amperes, direct connected to a McIntosh & Seymour Horizontal Engine, 12 x 12".
- 2 Blue Vermont Marble Panel Switch Boards, fitted with
- 2 500 ampere Overland Circuit Breakers.
- 2 500 ampere Underload Circuit Breakers.
- 2 Thompson Astatic Voltmeters, 150 volts.
- 2 Bristol Recording Voltmeters with cards.
- 2 Bristol Recording Voltmeters.
- 2 Main Switches.
- 1 Thompson Astatic Watt Meters.
- 1 Station Recording Watt Meter.
- 1 Card Resistance Box.
- 1 2-ft. 2000-lb. Traveling Crane.
- 1 2000-lb. Pneumatic Motor Chain Hoist.
- 1 Breast Pneumatic Drill.
- 1 Worthington Water Meter.
- 1 Stratton Steam Separator, 3/4", with gate valve.
- 10 Gals. of acid-proof Mogul paint.
- 1 Office Safe.
- 1 Office Furniture.
- 1 Sundry Electrical Fittings.
- 5 Electrical Runabouts—No Batteries.
- 1 Automobile Runabouts—No Batteries.

Eye Accuracy

If there is one business more than another requiring careful and accurate attention, that business is the fitting and making of glasses to correct visual defects, and that such care is given in my optical department is fully evidenced by the constantly growing clientele.

As already advertised, I am now devoting my entire time to the optical department, making that a leading feature of my business, watching each detail, from the fitting to the finishing of glasses, so no error can creep in.

If a perfect knowledge of the eye and its needs, applied in a conscientious manner will give perfect results, you may safely entrust your difficult optical work to this department.

REBEKAHS ON THE STAGE

Amateur Players Give
Entertainment in
Progress Hall.

An audience of nearly two hundred persons last evening witnessed the amateur production of "Mr. Bob," a roaring comedy in two acts in Progress Hall, the Pacific Rebekah Dramatic Club presenting the piece in a very creditable manner. That the comedy was appreciated by the audience was attested by applause and roars of laughter. Following the production of "Mr. Bob" the floor was cleared of chairs and to the music of Ellis' Hawaiian Quintette club those present danced to their hearts' delight until long after the midnight hour had struck. The entertainment was a most successful one viewed from the social and financial standpoints, and the Pacific Rebekah members feel that they have inaugurated a plan of entertainment which may be continued from time to time during the fall and winter.

The cast of characters for "Mr. Bob" was as follows:
Aunt Becky (maiden lady, very rich).....Mrs. Jacobson
Phillip Roysen (her nephew).....J. Pedgrift
Katherine (her niece).....Verna Lyman
Marion (Katherine's friend).....Bob.....
Mr. Brown (law clerk for Benson & Benson).....A. Chambers
Patty (Miss Becky's servant).....Mrs. Petrie
Jenkins (Miss Becky's servant).....C. Carter
At the conclusion of the play the quintette club occupied the stage and with Hawaiian melodies soon had the dancers alternating in the valse and deux temps, with now and then a varying schottische, polka and lancers.

Crying for Help

Lots of it in Honolulu But
Daily Growing
Less.

Backache is one of the first indications of kidney trouble.

It is the kidneys' first cry for help. Read it.

Doan's Backache Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidney; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Honolulu citizen.

Mr. Charles Comey, of Cyclometer street, this city, one of the many persons who have tried Doan's Backache Kidney Pills with great advantage, relates his experience thus: "I have been a hack driver for a number of years past and this is an occupation in which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully."

Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box, by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no other.

TOO SLOW FOR A WESTERNER

United States Navy Paymaster T. Scovell Jewett of Kansas City, Mo., who has just returned to his home after a three years' cruise of the South Seas on the refrigerator ship Glacier, says he doesn't like the slow-going methods of the islands of the Pacific, and includes Honolulu. The Kansas City Journal of August 3, has the following:

"On June 28th last he sailed from Auckland on his way home. July 1 he reached Pago Pago in Samoa; Honolulu July 8, and July 14 the vessel was anchored in San Francisco bay.

"Mr. Jewett says that the tropical climate agrees with him, but he doesn't like the slow process of receiving news that exists in Honolulu and neighboring cities. Englishmen in Honolulu, he said, held the regular coronation services June 26, not having received notice of King Edward's illness and the postponement of the coronation.

"Mr. Jewett is home for a vacation, which he thinks will last three months, but will not know definitely until he receives instructions from the naval department at Washington. 'It is the greatest treat of my life to be home once more,' he said last night. 'Of course, I came in contact with a great many intelligent American and British colonists, but it wasn't like being in Kansas City, where you can pick up a morning paper and read the news of every quarter of the globe.'"

The entries for the ping pong tournament to be held at the Officers' Club closed yesterday afternoon at 5 o'clock. In all there were 50 entries. The drawing resulted as follows:

Byes—F. H. Derby, A. L. C. Atkinson, F. West, A. L. Ahlo, Marston Campbell, Geo. Waterhouse, F. H. Armstrong, W. T. Schmidt, E. C. Hartman, J. L. Horner, L. J. Maddux, Stewart Webster, F. J. Lowell, P. Lishman.

Those who will have to contest in the preliminary rounds for the privilege of playing the drawers of byes are:

E. C. Clark vs. L. J. Blackman; E. G. Waterman vs. W. E. Wright; Chas. Girvin vs. R. H. Moore; H. Wilder vs. G. H. Pecht; J. A. Tutill vs. Dr. G. W. Raymond; W. H. Coney vs. Capt. S. Johnson; Geo. Angus vs. A. V. Gear; Allan Dunn vs. Emmett May; Dr. C. B. High vs. J. A. M. Johnson; F. E. Blake vs. Byron Baird; Lieut. Davis vs. H. E. Picker; Lorin Andrews vs. R. S. Booth; C. F. Waterman vs. Prince David; Fred Angus vs. Francis Brooks; C. H. W. Norton vs. Fred Young; A. J. Blackman vs. F. Thompson; A. G. Hawes Jr vs. R. A. Jordan; H. C. Austin vs. H. Couzens.

The games will commence this afternoon at 4 o'clock and will be continued each evening until finished. It is suggested that the opponents should arrange their times of meeting so as to facilitate the playing off of the preliminaries. The same rules and conditions which existed at the Elks' tournament will be observed. After a time has been arranged between the opponents the one failing to keep his appointment shall lose by default.

Anyone having entered and not having received the club's card for 15 days membership privileges will receive the same on applying to H. E. Picker, who will also arrange the time of playing the different games when notified by any two opponents of their desire to meet at a certain hour.

BUSINESS LOCALS.

Horses bought, sold and exchanged by W. S. Withers.

A six-room cottage at No. 1541 Fort street is for rent.

Drink Primo lager. It will tone up and refresh your system.

A first-class, all around blacksmith is wanted. See classified advertisements on next page.

A choice line of groceries can be had at the new store on Fort street, opposite the Club Stables. L. F. Sterneman, proprietor.

Mrs. Hanna has Butterick patterns for fall styles; also the Delinctor for September, and Butterick large catalogues, 10c.

A middle-aged woman is wanted to act as maid to lady going to the mainland. For further particulars see our classified ads.

The adjourned special meeting of the Waimea Sugar Mill Co. will be held on Thursday, August 28th, at 10 o'clock, over Castle & Cooke, Ltd.

The list of officers elected at the annual meeting of the stockholders of the Honolulu Hardware Co., Ltd., is published elsewhere in these columns.

N. S. Sachs Dry Goods Co. will be closed all day tomorrow arranging their stock and marking down prices for the Mammoth Removal Sale to begin at 8 o'clock Thursday morning.

It does not matter whether you are a judge of clothes or not, so long as you look for the label: "The Steadfast Bloch Co." If they bear this label they are sure to give you satisfaction. M. McInerney has them.

There will be an auction sale of household furniture, window glass and a lot of miscellaneous articles, list of which is published in Morgan's column. Sale takes place today at saleroom on Queen street, at 10 o'clock.

WAIKIKI CONCERT.

Program for the Band's Recital at the Moana Hotel.

WILL MEET SENATORS.

Builders and Traders Exchange Committee's Memorial Approved.

The directors of the Builders and Traders Exchange last evening received the report of the committee appointed to meet the members of the Senate Commission which is to arrive here shortly for an investigation of the affairs of the Territory. The memorial which is to be presented to the commission was read to and approved by the members of the directorate. The committee was empowered to take part in any plans for the entertainment of the commission. This committee, consisting of Messrs. F. J. Amweg, chairman, L. E. Pinkham and W. W. Harris will act with any other bodies which may be appointed later for the same service.

O'Neill Building Contract.

The contract for the construction of the O'Neill building at Fort and King streets has been secured by the Honolulu Engineering and Construction Company. The successful bidders are to do the work for \$15,699. The iron and terra cotta, which are not included in this bid, have been ordered and are expected to arrive from the Coast about the middle of November. As soon as the contract has been signed the work of removing the present building will begin and the foundations be put down ready for the superstructure.

LOCAL BREVITIES.

Excelsior Lodge meets tonight for work in the second degree.

M. McInerney, Ltd., at Fort and Merchant, are decorating the interior of their store.

E. A. Frazer, manager of the Kohala Railroad, leaves on the Sonoma today for the coast, and will go to Chicago.

Orders were posted yesterday for a regimental drill and parade of the First Regiment to be given Friday evening.

Officer McDuffie raided a gambling joint in Kakaako yesterday shortly after noon, and captured four devotees of the game.

Hunters returning from Molokai report that deer are becoming scarce, the unceasing efforts to rid the island of them making hunting extremely difficult.

Samuel E. Kalama, deputy sheriff at Makawao, Maui, was married last Thursday to Miss Minerva Landford at Paia. Rev. Mr. Kuikahi performed the ceremony.

A directors' meeting of the Builders' and Traders' Exchange was held last evening at which the report of the committee on memorial to the Senate Commission was presented.

Jared G. Smith has been notified of the shipment of rubber tree seeds from Nicaragua to the Agricultural Department here. Experiments will be made at the United States Experimental Station.

W. A. Sexton, representing the general agent of the Greenwich Insurance Co., has transferred the local general agency for Hawaii from the Honolulu Investment Company to Theodore F. Lansing.

All members of Honolulu Aerle, Order of Eagles, are requested to meet at the undertaking parlors of Mrs. E. A. Williams this morning at 9:50, for the purpose of attending the funeral of their late member, Mr. Chas. J. Gardner.

Special Agent Jared G. Smith of the Agricultural Station is preparing samples of Hawaiian coffee, which will be sent to the Porto Rican Experiment Station. Seeds have been obtained from the Hamakua and Kona districts.

Another libel suit was filed yesterday in United States Court against the schooner Herman. Catton, Neill & Co. were the complainants, and ask judgment for \$55.45 for supplies furnished and repairs made to the treasure seeking ship.

At the meeting of the stockholders of Pioneer Mill on Saturday last the proposal of Messrs. H. Hackfeld & Company, the agents of the plantation, to take the proposed new issue of bonds to the amount of \$750,000, and to take as well the unissued stock to the amount of nearly 1200 shares, was accepted.

Petitions for dismissal of involuntary bankruptcy proceedings was filed yesterday by Hoffschlaeger & Co., T. H. Davies & Co., and M. Phillips & Co. in the case of Luis Vasconcellos. It is set out that Hackfeld & Co., who is alleged to have committed an act of bankruptcy, has surrendered its preference, and the other creditors are satisfied with the new arrangement.

A soiree will be given this evening in St. Clement's parish house, corner of Wilder and Makiki streets, at which a program of musical selections and fancy dances will be given. Paul Isenberg will render vocal selections, and Miss Stokes will also contribute to the enjoyment of the evening. The parish house will be appropriately decorated. Tickets can be had at the Makiki street entrance at 25 cents each.

A. H. C. Parker, formerly a driver on the Smith line of buses, was knocked down at the corner of Emma and Beretania streets last night about 7:30 o'clock, by a horse driven by Pastor Felmy of the German Lutheran church, resulting in the fracture of two ribs. The shaft struck him in the breast. He got up unaided and was led to Dr. Galbraith's residence opposite, whence he was conveyed to the Queen's Hospital in the patrol wagon.

Several counter-attractions prevented the Portuguese Political Club from holding its usual weekly meet last night and an adjournment was taken until next Monday, after a committee consisting of Messrs. Andrade, Freitas and Durao was appointed to confer with the officials of Lusitania hall to arrange for a mass meeting there this week. It is possible that either Wednesday or Thursday evening will be selected, and dodgers announcing the meeting will be scattered broadcast throughout the Portuguese section of the city.

Crozier to Take Vacation.

Mr. Charles Crozier, fire commissioner, and head of the blacksmithing department of the Honolulu Iron Works will leave on the next steamer for the Coast on a vacation after twelve years work without intermission. While absent he will look into the matter of securing an aerial ladder truck for the Honolulu fire department.

MAMMOTH Removal Sale

BEGINNING

Thursday Morning, Aug. 21
AT 8 O'CLOCK.

Entire Stock at a Big Sacrifice

We will shortly remove to our new building, corner Fort and Beretania Streets, hence a

FORT STREET.

Ladies' Colonial Slippers

We have a wealth of pretty and stylish slippers for ladies. Some are tongue slippers, others are slides, all new arrivals and the very latest styles. Have all the points to make them "swell" in the extreme. Many kinds of leather and variety of shapes and heels. See them in our show window.

Manufacturers' Shoe Co., Limited
1057 FORT STREET.

\$5 REWARD

See the five big silver dollars in our window.

They are yours if we use the name you suggest for our new tonic drink.

It is a good drink and needs a good name—that is why we are willing to pay \$5.00 for one.

Tones up the nervous system, the stomach, and, in fact, the entire body. A delicious cure for that tired feeling.

Now get to work and try and think of a good name. Five dollars per think is going to be easy money for somebody. You may get it. You had better try for it, anyway; that part of it costs you nothing—you don't even have to try the drink unless you want to.

We advise you to try it, however. It will stimulate your thinker as well as your body.

Write the name you think best on this slip, with your name and address, enclose in sealed envelope, and send it to the HOBSON DRUG CO. before August 31st, 1902.

TO THE HOBSON DRUG CO.
EHLERS BLOCK, FORT ST.
HONOLULU, T. H.

I suggest as a name for your new Tonic Drink.

VOL. XXXV.

HONOLULU, HAWAII TERRITORY, TUESDAY, AUGUST 19, 1902.

PRICE FIVE CENTS.

NEW PRICES FOR USE OF ELECTRICITY

Lower Rates for
Lighting Now
Assured.

DISCOUNTS ARE
TO BE ALLOWED

Plans Aimed at Inducing Burning
of Lights for Longer
Hours.

Under the new plans of the Hawaiian Electric Co., Ltd., which will become effective October first, in accordance with a resolution passed by the Board of Directors, the rate for electric lighting of the city will come to a new basis, a basis which it is expected will tend to increase the amount of current used and yet can have no other effect than a reduction in the bills of all consumers who use meters.

The discussion of rates by the directors of the Electric Co. has been going on for the past six months, being brought up primarily by the determination to do away as much as possible with the flat rate as embodied in the law granting the franchise and putting all consumers upon a meter basis. At the time this first came up, there was considerable discussion and the first result was an overhauling of a majority of the meters installed in the city. Objectors numbered scores, and yet, according to the officials of the Electric Co., once their claims of overcharge were investigated and explained, saw where the account as rendered them was accurate.

According to the new plan as submitted by General Manager Gartley in the letter which follows, the first discount which becomes operative will be that of ten per cent per month on all bills paid within ten days from date of bill, which advantage will accrue to every one of the 800 meter users in the city. The 300 whites and 700 orientals who still have their lighting on the flat rate basis do not get this discount, all of which, perhaps, may have a tendency to increase the number of meters, which must be installed by the Electric Co. After this discount there is one which will be appreciated only by those who burn their lamps a long number of hours. The first tendency of this would be to equalize bills so that the great difference previously existing between the summer and winter months will become equalized.

Under the present rate, the burning of a single lamp one hour and twenty minutes each day of the month costs 50 cents. This, on a basis of a 15 candle power lamp, the two kilowatt hours being equivalent to one and a third hours of time. The moment this is passed, the greatest reduction takes effect. Where it costs 25 cents per kilowatt hour up to the fixed limit, the charge thereafter will be only 10 cents, which, being translated, means that to burn a 15 candle power lamp an extra hour each night would cost only 1/2 cent, or 15 cents a month, thus encouraging literary pursuits and the burning of the midnight lamp.

The effect on business houses is much the same although when a special condition is taken into consideration, the reduction will be seen to be very much greater. It must be two hours of time per night for each lamp in a business house, which costs 75 cents per month, before the reduction takes effect, and then it is just the same as in residences, 15 cents per month for each lamp burned. Owing to the fact that there are a few concerns which keep open evenings, this rate will not effect great savings, but there are other business houses—such as restaurants, ice cream parlors, billiard parlors, saloons, and so on, where the consumption is so great that these will be entitled to the extra percentage off, which contemplates that—at the end of the year, any consumer who has burned

Gamble Away, John, I'm Sitting on the Police.

his lamps an average of four hours a day, shall be entitled to a rebate of 15 cents per month per lamp.

Manager Gartley, in discussing the proposed new rates yesterday, said: "In electric lighting the fixed charge of a station must first be considered. These are the same whether a smaller or a larger amount of current is used. Consequently it becomes of first interest to the corporation that the amount of electricity consumed shall be as large as possible. This has been my view in outlining the plans for reduction where lamps were burned a greater number of hours. The cost of producing current consumed will be just the same whether the lamps burn four hours, or two hours, for our force must be kept at work, steam kept up and the machines kept running. If, by these reduction, we can secure the consumption of any material amount of electricity, the returns will constitute the added profits of the company, and at the same time we will be enabled to furnish our customers with light at a very much cheaper rate."

"In eastern cities there is now being charged a fixed rate of \$9 per year for the first lamp with an additional \$1.50 per month for each additional light. This covers the fixed charges of operating the station. All current consumed is charged for at a low rate, say 5 to 10 cents per kilowatt hour. We cannot make this charge, and in consequence must put our rate for the first 2000 kilowatts at 25 cents. As soon as a fixed charge is made it becomes possible for us to reduce the price to 10 cents per kilowatt hour, which is about the lowest rate possible to charge for such a service."

"It is the idea of the directors and myself to get the cost of lighting down to the very lowest figure and we feel that we can do this, if by means of such discounts and rebates as are outlined in my report, are sufficient to induce consumers to increase their use of lights. Taken as a whole, there is an immediate saving to all meter users in the ten per cent discount on bills, and we feel confident that when the people come to realize that the extra lighting can be accomplished at such a cheap rate, that they will enjoy the advantage of illumination for a greater number of hours than is now the case in the residence districts."

The entire system as reported to the directors by the manager is contained in the following letter:

To the Committee on Rates, of the Board of Directors of the Hawaiian Electric Co., Ltd.:

Gentlemen:—Any quasi-public corporation supplying a commodity to the public must meet the requirements by giving a good and economical service. They must adopt broad and liberal business methods and must be straightforward in all their dealings with the public. All rates made for the commodity furnished must be the same to all, and they must be simple and easily understood. The rate must be fixed at the lowest price possible commensurate with a fair and just return on the investment.

It has become a generally accepted principle with lighting companies that it is possible to make the greatest return on the capital invested when the rate per kilowatt charged is a minimum. A reduction of rates means a reduction in income, but the amount of new business taken on and the increased consumption due to the cheaper rate, invariably increase the net income and

profits. As an example: A little over a year ago we reduced our power rate from 25c per kilowatt hour to the rate at present in vogue, 15c per kilowatt for the first 100 kilowatts, and thence on a sliding scale to 8c per kilowatt, depending upon the quantity used. We further extended a cash discount of 5 per cent on all bills paid at our office by the 10th of the succeeding month.

That this policy was a correct one has been clearly demonstrated from the fact that January 1st, 1901, we had installed and operating upon our service, 167 horsepower in motors, while at the present date we have 549 horsepower, and have under order 140 horsepower additional, which we hope to have connected within the next two months, thus giving us a total of 689 horsepower. It goes without saying that our income from power has been greatly increased and that the consumers have in nearly every instance expressed themselves entirely satisfied that the rate is an equitable one.

PRESENT RATES.

At present our rates are flat rates in accordance with our franchise, and a uniform meter rate depending upon the quantity of electricity used. The flat rate is entirely inexcusable and I know of no other business where a commodity is delivered on a flat rate unless it is the Chinese vegetable vendor who supplies vegetables at so much per week.

FLAT RATE OBJECTIONS.

They are not suited to all classes of customers, and a long-hour consumer pays less than the cost, and a short-hour consumer more than the cost of the service he obtains. The cost to a customer with a large number of lights installed and a small consumption is prohibitive, and as a rule the installation is curtailed in order to reduce the amount of the bill; a rigid inspection is required to prevent an increase in

the number of lamps or candle power of lamps, and fraud is encouraged.

ARGUMENT IN FAVOR OF UNIFORM METER RATES.

This system of rate permits of simple office records; the income is constant and can safely be anticipated and the fixed charges of the plant are assured; no investment for meters or expense of meter reading and repairs is required. Easy calculation can be made upon the capacity of the distribution system and a comparative freedom from disputed bills is insured.

Uniform meter rates would probably be better, although they are not suited to all classes of customers, for a short-hour consumer probably does not pay the cost he occasions, while a long-hour consumer may obtain other service more cheaply. The rapidity with which bills increase in the winter also gives rise to dissatisfaction and an opportunity for dispute between the company and consumer. They encourage a large use of the current during the heavy lighting hours and discourage the liberal use of current for long hours.

In order to make a rate equitable to all classes of customers constant adjustment, more or less arbitrary in character, must be made. An argument in its favor, however, is that a simple system of office records is required and a comparatively small investment is necessary for measuring apparatus.

From the above it would appear that neither of the above systems of rates is equitable to the consumer and they tend to discourage rather than encourage the use of current, and it does not seem desirable that we should adopt either system.

WHAT RATES SHOULD BE ADOPTED.

You will recall that a committee composed of the stockholders of the Ha-

waiian Electric Co. were appointed to report at our annual meeting upon the question of reduction of rates. They recommended at that time that the old rate be continued. In that report they included an extract from the "Electric Review" of Jan. 4, 1902, entitled "Some Averages on Electrical Costs and Charges." In this article it was assumed that the price of fuel was a fair indicator of the basis of charge, and from figures which were obtained from several central stations in every State in the Union, the average rate per kilowatt was about 4 per cent of the cost per ton of coal. The cost of our coal averages approximately \$8.00 per ton delivered at the plant, 4 per cent of which amount would indicate that in Honolulu the rate should be 32c per kilowatt to conform to the average price in the United States. This rate is too high, and it will be necessary for us to establish a base rate at less than this price.

The question of an equitable and profitable rate for electricity is one which has agitated central station men probably more than any other question involved in management. This is largely due to the fact that the production and sale of electricity differs from all other business, in that an electric company must manufacture its product as required, and electricity cannot be commercially stored. The customer will not wait for his supply, and cannot be prevented from taking it when required. It is therefore necessary that the capacity of the company's plant and distribution system must be governed by the maximum demand to be made upon it at any time. The operating expenses of a station are not dependent upon the output of the station, and the experience of central station management in the United States is that 70 per cent of the expenses are not influenced by the output, and that a station sells only from 10 to 30 per cent of the amount of current they are capable of generating. In other words, the plant lies idle from 70 to 90 per cent of the time. From the nature of the business and the demand it is impossible to make the load uniform throughout the day and night. The actual conditions are that an electric station has a heavy load for one or two hours during the evening and the balance of the time it is running greatly under-loaded. The period of heavy load is usually spoken of as the peak load.

In the consideration of the adoption of a new rate, only such a rate should be adopted as will tend to encourage the use of light for longer hours and to encourage new business. The rate should be easily understood by the customer; should be automatic in character, giving the greatest reduction to consumers who burn the longest hours. The principle of giving long-hour consumers a greatly reduced rate is generally recognized by all electrical men as being the correct one, and it is being put into operation by many central stations in the States in different forms, and wherever it has been in operation it has resulted in satisfaction to the customer; in popularizing the use of electricity for lighting and power; in extension of the number of hours of burning lamps; increased business to the company and increased earnings.

A review of the different rates adopted would be of little value to you at this time, as many of them have been somewhat complicated in character, although very equitable to the company and to the customer. In many cases, however, they have been looked upon with suspicion by the customer, although actually being a reduction and a benefit to him.

A rate—to meet the requirements outlined above—would be what is known

WATERFRONT NEWS

The schooner Rosamond which seems to be keeping up in the island trade as she is the only sailing vessel that has brought a full load here for sometime.

OLD WHALER KEEPS "BUG LIGHT"

Is Lowest Salaried Official in the Service of Old Uncle Sam.

Way back in the early days of Honolulu, when whaling fleets visited the port annually, there used to be a whaler who made the port often who now holds the distinction of being the lowest paid official among all the employees who draw from Uncle Sam's purse.

This old whaler is "way down east" now. His name is Charles Henry Gibbs and he is officially known as keeper of the "bug light" at Nantucket. Annually, about the 20th of July, he receives a check for \$1, his year's salary, and with all the pride that an old whaler can muster, he goes straightway to the bank and cashes it, just as pompously as if it were one hundred dollars instead of one hundred cents.

What is known as the "bug light-house" is a curiosity. It is situated on a hill near Monomoy on the south side of Nantucket harbor, and at the time when the island was at the height of its fame as a whaling port this light was one of the most important ones on the Atlantic's iron-bound coast. The name "bug" was given to the light by a marine wag in the early days because the light, when seen from a distance, high on the hill, resembled a huge firefly. The government now has no use for the light, but appears to be willing to pay a man \$1 a year to live there and graciously allows him the privilege of running the place to suit his own ideas.

A man who has visited "bug light" says: "The keeper has no work to do, but is allowed to keep hens and breed cats for a livelihood. Mr. Gibbs is one of Nantucket's eccentric characters and lives alone, coming to town only when his stock of provisions is getting low. He is a native of the island, and in early life learned the cooper's trade, afterward going whaling for over 20 years, and made several voyages "round the Horn," visiting nearly every sea on the globe. Since giving up the sea he has made a living at whatever kind of a job he could secure, and about eight years ago he accepted his present position as keeper of the lighthouse. Despite his three score and ten years he even now hires out to neighboring farmers in haying time, and is an expert berry picker, claiming he can pick more berries in a day than the liveliest youngster on the island. Mr. Gibbs wears neither shoes nor stockings in the summer time, but in the winter resorts to the old-fashioned leather boots. He says he does not get lonesome, for his cats keep him company; and he always has one event to look forward to each year—the coming of his check in July, when he indulges in a few delicacies for his table, and one or two heads of tobacco for his enjoyment during the long winter months."

Arrival of the Freighter.

The big freighter Hawaiian, which recently made such a fast run from New York to San Francisco, is expected at Honolulu from Puget Sound ports on Thursday or Friday. The steamer Nevada will leave San Francisco on August 28th and freight orders going up by the Sonoma will reach the coast in time so that the goods can come down by the oil-burner. The steamer Californian sails from New York on Sept. 15, for San Francisco and Honolulu.

No Rest for the Purser.

Although the steamer Mauna Loa is to lay up for repairs after ten months' stay in the water, Purser "Willie" Simerson must go on with his labor of making friends with passengers and being a good fellow with all those people who travel over Hawaii way. He goes out today as purser of the steamer W. G. Hall, which is taking the Maui, Kona and Kau route. Purser Ferguson, recently of the Hall, remains on the Kauai run, going out today as purser of the steamer Mikahala.

Advices from Vancouver Island say that the extensive forests of that island are being rapidly depleted and that the price is bound to go up considerably within the next year.

DECLINE OF THE SAILING FLEET

Windjammers Coming to This Port Fast Lessening in Numbers.

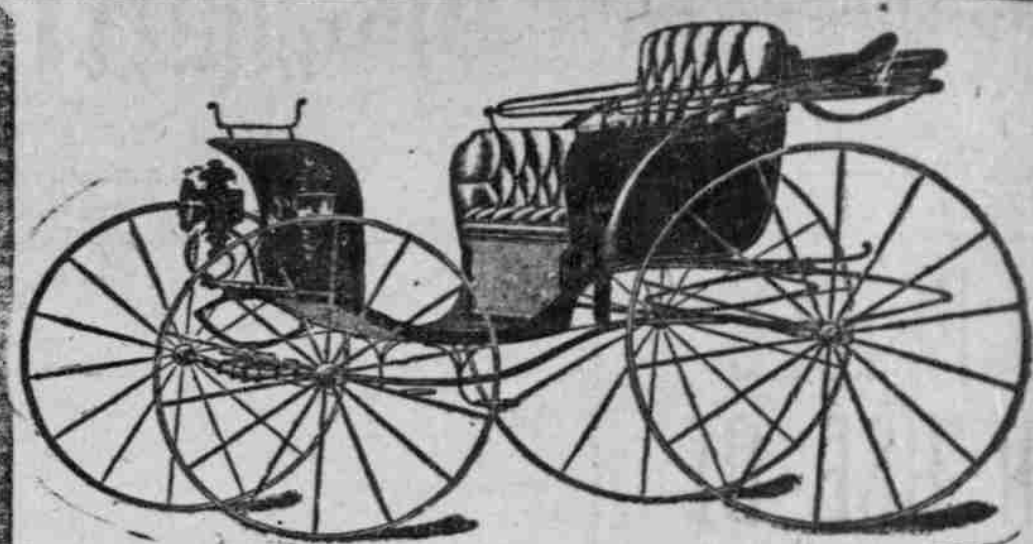

There were no arrivals or departures yesterday at Honolulu, and of course the old question as to the decline of the sailing fleet was talked over again. Among all the sailing vessel arrivals during the past few weeks only one from the coast has come with a full cargo. This latter was the schooner Rosamond. Even she did not have a cargo that could be counted as a full one, as compared with former days, as it only represented two-thirds the amount of money in freight that a full cargo would have been worth before the \$2.50 rate from the coast on general merchandise went into effect.

When all the big steamers of the American-Hawaiian line are completed it is doubtful where the sailing ship in the Hawaiian Islands trade is to fit in. Many people think that the windjammer will not fit in at all, and that nearly all the sailing fleet which has been engaged in this trade for years will be taken off this run and placed in more profitable work to foreign ports. America's foreign trade is pushing ahead at a surprising rate, and there is really no reason why the sailing fleet should not find considerable business in carrying it out. Take for instance the Oriental trade. In the long passage to Oriental ports the sailing vessels have much better opportunities to compete for the trade than the steam vessels. Our trade has shown an enormous increase with Australia and with the lumber of American ventures that have been started in the drought stricken country there should be great openings for the sailer.

A well known exporter said yesterday: "I believe that every month will show a less number of sailing vessels coming to this port with general merchandise. The tendency is constantly toward steam, and the rates are now such that the windjammer is paying very little to its owners when engaged in this trade, and the profit is certainly not worth the risk. Then again, business is now conducted in such a manner here that the merchant when ordering goods prefers to get them much sooner than the sailing vessel can bring them to him. We have heard a lot about the sailing vessels being owned in Honolulu, but the interest in them now held in the islands is very small, and their owners in the islands find it more convenient to send by steamers and certainly cheaper in the long run. The bigger part of interests in the fleet now trading here is held in San Francisco, and the owners will certainly put them into other trade as the business falls off here. I believe that the Matson Company has taken one or two vessels from its Hilo line and is sending them to South American ports with lumber."

Another said: "The trade between Honolulu and the coast is slowly changing from sailing vessel to steamer. The case is identical with that of Australia. Years ago an enormous fleet was engaged in the coastal and inter-colonial trade of Australia, New Zealand and Tasmania, but this has now nearly all been changed to steam, and the big lines of the Union Steamship Company of New Zealand, the Adelaide Steamship Company, the Howard Smith Company, and the Huddart-Parker Company have resulted. Nearly all the coal used for the South Australian smelters is now being taken around by steamer from Newcastle. This trip is about the same as that from the coast to Honolulu. Recently the government made a contract for coal to be transported from Seattle to Honolulu for the army transports which are to call here. Under conditions of five years back one would have expected that this contract would have been secured by sailing vessels. But no, the Globe Steam Navigation Company stepped in with cheaper freight rates and secured the plum. It will soon be the same in most other lines."

The ship yards of Victoria are now very busy. Wooden passenger ships and wooden barkentines are now on the stocks, and a steel barkentine is to be built at Esquimaux.

ON THE FASHIONABLE BOULEVARDS, all classes of work mingle together, but the discerning eye readily distinguishes the O'Brien & Sons', San Francisco, and Babcock Co.'s New York vehicles, by that subtle air of fashionable elegance that is not mere outer ornamentation or novelty but is a happy combination of many details in harmonious relationship. It represents the experience gained by years of improvement.

"SLAVES" TO GO BACK

Ordered Deported by Commissioner Gill.

Both Chinese women, Ah Sue and Ah Ngan, her alleged daughter, were ordered deported by United States Commissioner Gill yesterday. Their attorney, F. M. Brooks, asked for ten days to appeal and this was allowed, though unless the appeal is perfected the women will be sent back to China on the first steamer.

The commissioner in his decision holds that it was not proven within the meaning of the law of credible white witnesses, that Lum Pong the alleged husband of Ah Sue was a "merchant," or that Ah Sue was his wife.

The court holds in regard to the contention that a great hardship would be worked by parting husband and wife and that Lum Pong paid no attention to his wife and child for sixteen years after leaving China. Concluding the commissioner holds:

"Under the circumstances, coupled with the uncontradicted testimony of the High Sheriff, as to the circumstances under which the defendant and her alleged daughter were arrested, on the night of August 7, 1902, I believe that an imposition upon the immigration laws of the United States was attempted, and the consummation of which it is the duty of the Commissioner to prevent.

"I am convinced, after a careful consideration of all the testimony that the statements of Lum Pong and Wong Loy, as well as those of the defendant herself, relating to her being the wife of Lum Pong, are so highly improbable as to be unworthy of belief.

"Having failed to satisfy the Court that she is the wife of Lum Pong, it is the judgment of the Court that Ah Sue, alias Ah Yuk, is unlawfully within the United States and District of Hawaii, and she is hereby remanded to the custody of the United States Marshal with directions to deport her to the country from whence she came. The order of deportation will be duly prepared without delay."

MAY GET THE KAMALO PUMP

The Kansas City waterworks department may purchase the 10,000-gallon capacity per diem pump which was ordered for the Kamalo Sugar Company on Maui, but which was never shipped. The following item from the Kansas City Journal of August 4, tells of its impending sale to the Missouri city:

"William Goodwin, superintendent of the waterworks, has returned from his junket. He has not been back long enough to collect his thoughts, but last night he was of the opinion that the city could not do much better than to buy the hand-me-down engine which he went to New York and Boston and Baltimore to see. The engine is in cold storage in New York, but it was no use going east without doing the grand rounds properly, so Boston and Baltimore were included.

"I saw the engine they offered us," said the engineer. "It will pump 10,000 gallons a day, can be put up in four months, and will cost about \$75,000. The experts recommended a pump with a capacity of 12,000 gallons a day, or of 15,000 gallons a day, to cost from \$125,000 to \$150,000, either of which would require eighteen months to build. We could get the same capacity pumps for much less money, but they would not stand the requisite pressure of 175 pounds. We have to raise water here 450 feet to get to the tops of houses on Swarth's point. St. Louis has an engine there for less money than the New York engine, counting gallon for gallon, but it has a pressure of only 100 pounds, and so is of no use to us."

"Evidently Kansas City is not the only place where blunders are committed. After a syndicate in Honolulu had spent twelve months' time buying lands, platting them for farming and irrigation and running ditches, and after it had ordered an \$80,000 pumping engine and paid \$20,000 cash, it discovered that the water they proposed to pump was salt, and consequently absolutely worthless. The whole scheme was knocked on the head and that explains why there is a 10,000-gallon pumping engine being peddled over the country."

FLOW OF JAPAN CURRENT

Systematic Observations to be Made of This Great Stream.

BERKELEY, Cal., July 29.—Prof. William E. Ritter, head of the department of zoology at the University of California, is the prime mover in an undertaking which promises to be of great scientific and economic value to the Pacific coast, namely, the systematic observation of the flow of the Japan current and the study of the biological conditions of that great stream. The San Pedro and Santa Barbara channels will also be surveyed. The enterprise has the backing of President Harriman of the Southern Pacific Railway Company, the United States Fish Commission and a number of wealthy business men of Los Angeles.

The McKinley Park

Work on the McKinley Park will soon commence, as a large amount of money has been subscribed for that purpose. Its location being on King Street, and the additional fact that the ELECTRIC ROAD runs straight out has established this thoroughfare as the main avenue of Honolulu. The beautiful PAWAA TRACT lies manka of this line, just beyond Waikiki Road. Lots in this location are the most desirable in Honolulu. On account of the sheltered condition of this Tract, it is free from the severe winds and rains that come down from the Manoa valley; yet it is subject almost continually to a mild, healthy breeze, rendering it from 10 TO 15 DEGREES COOLER than Ewa of Panahou Street. On account of the low prices asked and the very small amount down and easy terms, the opportunity to purchase a beautiful home site comes within the reach of all; but after September 15th, the prices of these lots will be ADVANCED 20 PER CENT. So now is your time to see

W. M. CAMPBELL,

for terms, at his office on the premises, or his agents,

W. M. MINTON, 369 Judd Building

OR G. W. HAYSELDEN,

137 Merchant Street.

NEW PRICES FOR USE OF ELECTRICITY

(Continued from Page 9.)

as the "two-rate or sliding scale system," that is the consumer would pay a high rate for the first hour or two hours of the consumption and a greatly reduced rate for the balance. The turning point for the reduced rate would be governed either by the equivalent of the 15-candle power lamps installed or by the maximum demand he would make upon the service at any time; that is, upon the maximum number of lamps he would have burning at any time during the month.

A rate based upon the maximum demand requires in addition to the installation of a meter, an apparatus to measure or indicate the demand for light by the consumer. I fear that such a rate at present would be looked upon with suspicion by the consumer, although a maximum demand rate would probably be the more equitable.

In several cities of the United States there is in operation a rate known as the "New York rate," and this system requires less investment than any other two-rate system. Briefly, this requires a consumer to pay at a fixed rate per kilowatt hour for the current consumed by his connected load for the first hour or two hours per day that it is used; all current used in excess of this to be paid for at a greatly reduced rate per kilowatt hour. Further modification is made by giving a cash discount if bills are paid within ten days.

I would recommend that the New York system be adopted, and, after it has been adopted and in operation, I am convinced that the consumer will see the equity of the system. After operating under this system for some time, it may be possible to introduce a further modification by the adoption of the Wright system or some other similar to it, at the option of the consumer.

BUSINESS HOUSES.

For use in Honolulu I would recommend the following rates: For the first two hours consumption per lamp installed (that is, the first 3000 watts consumed per lamp per month), to be charged for at the rate of 25c per kilowatt hour. All current used in excess of this to be charged for at the rate of 10c per kilowatt hour, and a cash discount of 10 per cent to be allowed on the total amount of bill if paid within ten days from date of bill. And further, at the end of each year, all consumers who have averaged not less than four hours' burning per day for the maximum number of lamps installed during the year, shall receive a rebate equal to 15c per month per lamp installed.

RESIDENCE RATES.

The first 2000 watts consumption per month per lamp installed to be charged for at the rate of 25c per kilowatt hour; all current used in excess to be charged for at the rate of 10c per kilowatt hour, and a cash discount of 10 per cent to be allowed on the total amount of bill if paid within ten days from date of bill.

The above rate to be extended to those only who use current from the Hawaiian Electric Co., Ltd., exclusive-

ly; for those who obtain current from other sources, a minimum charge of \$2 for the first five lights will be made and 15c for each additional light per month.

The result of making such a rate would be that all consumers would receive from 10 to 50 per cent reduction from their present rates. For the first few months after these rates are in operation, our net income will fall off, but I firmly believe we will acquire sufficient new business and our present customers will increase the length of hours of burning, which will in time mean increased earnings and increased profits.

I would suggest that prompt action be taken upon this matter by the committee and the Board of Directors, and that these rates be extended to the consumer not later than September 1st or October 1st, 1902.

Very respectfully,
THE HAWAIIAN ELECTRIC CO., LTD.,
A. GARTLEY,
General Manager.
