## BOTH HOUSES DO HARD WORK UPON **APPROPRIATIONS**

Senate Cuts Out St. Louis Building and Increases Item for Advertising.

House Throws Out Journal of Wednesday and Then Passes Emergency Bill---On Unpaid Accounts.

Both Houses of the Legislature worked on appropriations yesterday, the Senate considering the six months current expenses and the House taking up the emergency measure and the unpaid bills bill.

The House spent several hours on the Isaac Noar claim, and had a fight over the Hackfeld wharf on hand when adjournment finally was taken. The opening of its session was signalized by the formal and expected declaration of Speaker Beckley that he could not recognize the Wednesday session, and the consequent throwing out of the journal

The sessions today are expected to close up the two bills under consideration.

#### IN THE HOUSE.

The operations began with the read- Public Land Committee. ing of the minutes of Saturday which were approved as read. The minutes of the Wednesday session were read both in English and Hawaiian and immediately upon the conclusion Fernandez rose to declare against the placing of his ame on the roll of the House as being present, saying that he had objected and that to include him was a fraud. Paele made the same objection and then Aylett moved to reject the minutes. Harris moved to accept the minutes and Chillingworth seconded.

Kumalae sald that he would second the motion to reject, as he had made the motion to adjourn and unless he could be apprised of the rules he would protest agains; such meeting.

## BECKLEY ON THE LAW.

After some little discussion Speaker Beckley, usually so conservative and thoughtful in his utterances, took the floor and proceeded to dispose of the law and the Organic Act something like the following:

"The chair refuses to recognize the journal of a session of yesterday and holds that there was no such session legally. This is done under rule 53 of taken at \$1 a foot was carried, twelve this House. As the resolution to adjourn specified 10 o'clock this morning the Vice-Speaker had no authority, the only way in which he could claim it being by implication. This is not made by way of reflection upon the Vice-Speaker who has explained that he took his action upon the suggestion of the Governor. The Governor did not call my attention to any such alleged lile- ing the measure carry \$284,983.75, at gality and the Assistant Attorney-Genand has promised to submit to this and one no. House a certified copy of his opinion sustaining the action of the House."

## MORE FOR SCHOOLS.

A communication from Superintendent of Public Instruction Atkinson asking that his item for incidentals be increased to \$1500 from \$1000 was tabled for consideration with the Emergency appropriation bill

The six months' salary bill was received from the Senate and passed first

## WHY PUMPS STOPPED.

Speaker Beckley then said that unless there was objection he would direct the clerk to ask the Superintendent of Public Works for the list of firemen of the pumping stations, if they have gone on strike because they have not received their pay, or whether or not the Superintendent shut down the pumps to try and compel the Legislature to make ap-

Mr. Harris said he would go on record as opposed to this form of question, as it branded the men as strikers. He would favor asking why the pumps were stopped but he thought that was as far as a proper, query should go, supplementing this with the statement that the men had not been paid for four months. The Speaker accepted the amended form of question.

FIGHT OVER NOAR CLAIM. The third reading of the Emergency finished was suspended for the reading the report of the Judiciary Committee on the Isaac Noar petition for reimbursement for the loss of land by the widening of Fort street. The commit-

tee recommended payment in the sum of \$1467,50 as recommended by the Vida opposed the report on the

ground that many natives lost their homes and were compelled to give up their property at the rate of twentyfive cents a foot while this would make \$1.50 a foot.

There was long discussion over the matter, every one taking part and there being several good things brought out. For instance Fernandez vociferated, when some one suggested that the exec. utive departments should have been consulted and the claim presented there. "We are the government, these officials are our servants. I asked Noar if he had presented a claim to the Superintendent of Public Works and he said that he had not as he did not trust that official, but he trusted the Legislature as it was standing up for private rights.'

the figure per foot from \$1.50 to \$1, and there again the argument went on, the session being closed for the noon hour so that the assessment might be learn-

## KUMALAE LOSES FIGHT.

Kumalae reported that the assessment had been \$1.50 but it was reduced to \$1.25 though the assessor thought \$1.50 a fair valuation for the land. The motion to defer action brought

out only five ayes, but the motion to amend by placing the value of the land to eleven, and the report was then

## NO MONEY FOR POLICE.

Chillingworth presented an mendment providing for \$3,000 for the Attorney-General's incidentals instead of \$1,200, but the House would not permit it. The request of the school department for \$1,500 instead of \$1,000 was granted and the Isaac Noar claim put into the bill at \$977, these changes makwhich it passed with twenty-six ayes

UNPAID BILLS CONSIDERED.

On motion of Mr. Harris the Unpaid Bills measure was taken up, the report upon it at the regular session being read, after a long search for it. On motion of Vida the report was tabled for consideration with the bill and the House went into committee of the whole

on swimmingly until the item \$321 for First Circuit Court came up and this was referred to the Judiciary Committee. Immediately the House got busy again and passed the other items under the department, in some instances giving much more on the same show-

The reading proceeded through the Treasury department without change until it came to a new item offered by Wright, "W. J. Wright & Co., legal services, \$80." Chairman Harris ruled this out as there was no voucher. The

#### Treasury bills then passed. STRUGGLE OVER ROADS.

Under the Department of Public watches at the pumping station. Often Works the items proceeded easily until by his foresight and good judgment he that of Kaumana road to Olaa flume, \$2,531, to Olaa Sugar Co., was reached. The committee had reported against this item, which caused Fernandez to object saying the Hawaii men had not reaus in my department and I have abbeen consulted, moving that the item! be recommitted so that the Hawaii men

might be heard. Pall, from Maul, urged the striking early this morning, Mr. Brown had takout of the item and this excited Fer- en steps to get the pumps going with-

Explained By Cooper.

lieve Temporary Situation.

Much Public Discomfort, Started Up Again.

Supt. H. E. Cooper says that some of the comments made in the afternoon press on the shutting off of the water pumps, do Andrew Brown an injustice. In talking of the matter last evening, Supt. Cooper said:

"Six or seven weeks ago Mr. Brown called my attention to the fact that the appropriation was fast decreasing and that, in order to pay for coal we had just bought, it would not be possible to run the pumps to the end of the period without a new appropriation. I at once gave this information to committees of the Senate and House, stating the amount required to carry the bureau through on this particular item. An item was inserted in the emergency bill during the regular session; at least I was so informed by the committee. The item was again inserted in the emergency appropriation bill for the extra session. Neither Mr. Brown nor myself have any right to incur ob ligations beyond the limit of the appropriation and we have been working every expedient to carry our plants along until the passage of the emergency bill. We had not been able to pay the extra engineer at Palama, nor the firemen and ollers generally nor other employes for both plants not specifically provided for by the general appropriation bill for the past six

"During the shortage of money Mr. Brown has been oftentimes doing double duty; in fact he has even stood has saved the city from a water shortage at critical periods. I consider him one of the most efficient heads of busolute confidence in his judgment. The fact is, though I came down town very

Statement To Sargent.

Measures Taken To Re- Ask That Asiatics Be Kept Off Federal Work.

Finally Kalama moved to cut down Pumps, After a Brief Delay and Declare in Favor of Admission o Chinese For Places In Plantation Fields.

> Commissioner Sargent will receive b the next mail, letters signed by the Builders and Traders Exchange, show ing that that body is earnest in its ad vocacy of a presidential order prohibiting the employment of Orientals on federal contract, and as well setting forth the belief of the Exchange that Chinese field labor for the plantations would be in the interest of the Terri-

> The meeting was only fairly well attended, those present being acting President Emmeluth, Messrs. Pinkham, Hendrick, A. Harrison, Bowler, Harris, Neison, Rosenstein, Carroll and the meeting with Mr. Sargent, how the Commissioner had visited the cane fields, worked at all the different kinds of labor and made close and careful inspections of conditions. He described the meeting held with him and then, after explaining that the commissioner had naked that the views of the members be reduced to writing, how the letters had been prepared.

ON PUBLIC CONTRACTS. The first dealing with Oriental labor

on government work is as follows: Owing to the overwhelming preponderance of alien Oriental labor in competition with citizen, and eligible to become citizen, labor, a vital labor issue has been acutely raised in the

Territory of Hawaii. Herewith we hand a copy of an act drafted by the Builders and Traders Exchange and enacted into law by the present Legislature of the Territory of Hawaii.

We call your attention to the stipulation therein, strictly requiring eight hours of "actual service" for a day's work; also to the exception provided in cases of shortage of unskilled labor. We attach correspondence relative to officials of the Federal Government in

connection with citizen labor. Officials of the Federal Government

(Continued on page 4.)

## **RELIANCE WINS OVER COLUMBIA** BY 13 MINUTES

Kansas Towns Visited By Disastrous Cyclones---Three In One Day Afflict Sedalia.

Crevasse In Turtle Mountain---Jennie Flood's Benefactions to Berkeley---Rural Delivery Causes a Deficit.

(ASSOCIATED PRESS CABLEGRAMS,)

NEW YORK, May 21.—The Reliance, the new cup-defender, defeated her predecessor, the Columbia, today by thirteen minutes.

The success of the Reliance in her first actual trial against the Columbia under racing conditions on Long Island Sound augurs well for America's prospects in the coming cup race. This showing is a much better one than the Shamrock III has so far been able to make against the old Shamrock, which suffered defeat at the hands of the Columbia.

Tre Reliance is a decided departure on the part of Herreshoff from his other cup defenders and is an excellent example of the American Shortage of Water Builders To Send flat-floored, fin-keeled boats. She is not such an extreme skimming keeled dish as was the Independence, but she nevertheless resembles the Crowninshield boat more than she does any of her predecessors

> Her lines are easy, with few hard places and a graceful, sweeping curve from the bilges into the garboards. Her stern is flat, so she will leave but little wake, while her bow, although not quite so broad and flat as that of the Independence, is still different from the bow of either the Constitution or the Columbia. She has a long keel, but owing to her good beam does not carry so much lead in the bulb as the other cup defenders. Her bow towards the end is quite sharp, while her taffrail measures scarcely eight feet. Her greatest beam is well up in the shoulders and is carried aft many feet. At the water line forward she is curved like the inside of a saucer. It is believed that her strongest point of sailing will be with started sheets in a comparatively smooth sea. She is also likely to go fast down the wind, her long keel holding her well on her course. Her weakest point will be on the wind and flattened sheets, a point on which Shamrock III is said to be fast. The boat, with her easy lines and her tremendous sails spread out over 15,000 square feet, will be easily driven. It seemed the unanimous opinion of those yachtsmen who saw her today that she would prove the fastest vessel ever built.

## DISASTROUS CYCLONES VISIT KANSAS TOWNS

ASHLAND, Kansas, May 21.—Immense damage has been done Secretary Avery. Mr. Pinkham told of here and elsewhere in the State by cyclones. Salina was thrice visited in twenty-four hours and two persons were killed.

## Elected Moderator.

LOS ANGELES, May 21.-Robert Coyle of Denver has been elected moderator of the Presbyterian General Assembly.

## Fears of Turtle Mountain.

FRANK, N. W. T., May 21 .- A big crevasse is forming on Turtle mountain and the neighborhood is being evacuated.

## Money Instead of Land.

BERKELEY, May 21 .- Jennie Flood intends to give the University \$150,000 in lieu of the Menlo Park property.

## A Costly Free Delivery.

WASHINGTON, May 21 .- The extension of rural free delivery has been suspended owing to a deficiency. ,

## Denver's Strike Off.

DENVER, May 21.—The strike has been settled by a policy of mutual concession.

## Fine Showing Of the School In Studies.

Comparison With Other Institutions of Country.

General Courses Are of Greater Breadth Than In Similar Preparatory Schools.

For the first time yesterday the Trusees of Oahu College met with the heads of departments, in what will be in the future an annual conference, which will draw together the teachers and the governing board. The result will be a closer understanding of the detail work and without doubt, a wider usefulness

Many points of interest were brought out, as that the Preparatory school, had not met with the predicted disadvantages, while many good points were noticeable. The falling off in the attendance was only eighteen, one-half of which was attributable to the closer discrimination as to Asiatic children.

Particular attention was given to the advanced English classes conducted by Miss Graydon, the registration having been twenty-five, of whom eighteen were from without the school, there being included some of the best known ladies of the city. This will be developed next year, as will a series of scientific courses to give pupils who are not

It seems likely that the plan for military drills will be abandoned because of the expense though such a course may be undertaken during the winter term under Prof. Anderson who has had such instruction.

The most interesting report from any head of department was the very able and timely paper submitted by President Griffiths on the scope of Oahu, as compared with five schools of the mainland. His address follows:

"The course of study as now definitely outlined is mostly prescribed. The number of electives has been reduced, and made to fall as far as possible into departments. For instance, choice is offered between languages. This will, we hope, minimize some of the evils in a free system of electives where the inevitable tendency is to follow the lines of least resistance. With a still more emphatic insistence on the finality of the work than has prevailed even in the past, we hope to make this a preparatory school, excelled by none. The course, which amply prepares for any American college or scientific school, is planned as well to give training and culture to those who do not go

To give you, however, an idea of how the amount of our work as announced in the new catalogue for next year, compares with the work done in eastern schools. I have prepared the

following statistics: 'For the comparison, I have selected paratory courses of the private endow- resentative Coffruth, of Bedford, Pa.,

and character of population, and in all elements which would affect the curriculum. The cities are Brookline and Springfield from the East; Evanston from the Mississippi valley, and Denver from the Rocky Mountain sections, and San Francisco from the Pacific Coast. The first comparison gives an idea of the subjects in which we show superiority or inferiority. It will be observed that the comparison is favorable to

"I. Punahou excels Brookline in the courses offered in English, history, advanced chemistry, commercial course, physiology, and Brookline is ahead of Punahou in advanced physics and manual training.

"2. Punahou has more English than Springfield but less courses in advanced physics, advanced biology, astronomy and analytical geometry.

3. Punabou excels Evanston in trigonometry, English and commercial course, while Evanston has only manual training that we have not. "4. Punahou is ahead of Denver in

English and in the commercial course, and Denver has courses in Spanish. "5. Punahou offers physiology and English, history, and the Lowell High School has a course in modern history. "In tables, the figures are year periods, i. e., English, which meets five times a week for four years, is counted twenty periods, and in the first comparison where it is shown that we have eleven and one-half such periods more than Brookline, it indicates that Brookline has only nine and one-half periods in English, or a little more than an average of two periods per week for four years. A difference of five periods is equivalent to a year's work by one

"It is hoped that these comparisons will show that as far as variety and number of courses and scope and continuity of the work is concerned. Punahou ranks high. The other elements to be considered are the quality of the teaching, to which the position taken by our graduates amply testifies, and the length of the periods, which in our case are forty minutes, as opposed to forty-five minutes in the schools with which comparison is made. This of course needs to be remembered in comparison. Our great superiority in Pnglish is explainable by its being required a greater number of periods for a

larger number of years. "The college Greek is planned to meet only four times a week for it is believed in our necessarily small classes that we can do more work in less times than in the large clauses of a big school. At the Lowell High school in San Francisco where the only great difference is shown in medern languages, they give either French or German only four times a week for two years; here it may be taken three years five times a week. In science and in mathematics we excel in every in-

"In music, if we consider only our chorus classes Springfield is the only school that has more; if we were also to count the harmony, ensemble, piano, violin and other classes, our work would greatly exceed Springfield's. to have college advantages some of the Springfield's great excess in art is due to four years elective work in mechanical drawing, coming five times a week preparation for technical school

> The table shown gives the number of years in the various branches as explained in the address.

In English where Oahu has 20, its xecess is as follows over Brookline, 11 1-2; Springfield, 2 1-2; Evanston, 6 1-2; Denver, 3 1-2; San Francisco, 5,

Latin: Oahu, 20, excess over Springfield, 1; San Francisco, 3; others equal. Greek: Oahu, 12. Excess of others Brookline, 3; Springfield, 2; EVanston, 1-2; Denver, 2; San Francisco, 1. Modern languages: Oahu, 30, excess over Brookline, 1; San Francisco, 14.

Springfield exceeds Oahu by 3. History: Oahu, 14 1-2; an excess over Brookline, 9; Springfield, 1-2; Evanston, 2. Denver excess by 1 and San Fran-

cisco by 1-2, Science: Oahu, 20 exceeding all others by Brookline, 3; Springfield, 1 1-2; Evanston, 6 1-4; Denver, 4; San Fran-

Mathematics: Oahu 19, again exceeding all others with the schools in the order named above by 6, 1-2, 7 1-2, 4 Commercial: Oahu, 42 1-2, which is

in excess by the following in order.

38 1-2, 4, 40; 40 1-2 and 42 1-2. Of the distinguished men who were

Lincoln thirty-eight years ago this week, but two are living. public high schools because their Henry G. Worthington, then member courses are planned more to meet the of the house of representatives from double purposes which I have mention- the state of Nevada, and now a resied, than are the strictly college pre- dent of Washington, and former Reped schools. The cities selected are who is now practicing law. Both men scattered geographically, in number | are well on in years, but active.

## AFTERNOON DISPATCHES FROM ASSOCIATED PRESS

SAN FRANCISCO, Cal., May 21.—The Atholl, the first steamer of the new China Commercial line, arrived today.

MANILA, P. I., May 21.—Commissioner Dean C. Worcester has been granted a leave of absence from the Philippines. He will probably make a trip to the States.

PORTLAND, Oregon, May 21.—President Roosevelt arrived in Portland today. The reception given the Chief Executive was one of the most enthusiastic he has received in the West.

LIMA, Peru, May 21.—The agitation over the plague reports from San Francisco has completely subsided. The proposal to quarantine against San Francisco has not been adopted.

LOS ANGELES, Cal., May 21.—The General Assembly of the Presbyterian Church opened its sessions here today. Many leaders of the church are in the city to take part in the proceedings.

NEW YORK, N. Y., May 21.—A disastrous explosion of a quartity of hydrocarbon barrels occurred in a local warehouse today. One man was killed and many injured. Considerable damage was done to surrounding property.

the Turkish border and in Manchuria, the Russian government has a more serious problem on its hands in dealing with its own people. revolutionary societies to carry on their work. A growing spirit of The difficulties with foreign powers have furnished an opportunity for unrest is shown among the working classes. The officials are in daily fear of popular outbreaks against the restrictive rule. Should the government be unable to quell the disturbances at the outset a widespread revolutionary movement will result.

## But Only the Man Who Sold It Is Fined.

## Murphy Murder Case Is Making Slow Progress.

#### Court Sitting En Banc Decides That Attorneys Get Fees Only After Judgment.

Kiaihale, who sold beer, allesedly to the members of the Kaplelani Athletic Club in Kakaako was fined \$150 by Judge De Bolt yesterday, on his promise to have nothing more to do with liquor. The native boy was captured with a whole case of beer in his possession which he claimed belonged to the club. Evidence was introduced yesterday showing that the beer was sold to outsiders as well as to the members of the Kapiolani Athletic Club. The defendant said it was a baseball club and not formed merely for beer drinking purposes.

The jury found him guilty though with a recommendation to mercy. Judge De Bolt read a little temperance lecture in passing sentence. "It seems as if no one can even touch liquor without getting into trouble. You didn't drink it but yet got into troub'e, and I want you to promise now never as long as you live to have anything to do with it," said the court.

Klainale promised to be good and said he would cut away from evil influences. Judge De Bolt remarked that he would leave the fine at \$250 if he thought it would be assessed against the members of the Kapiolani Athletic Club and said he was sorry they couldn't be reached.

Two decisions were handed down by the Supreme Court yesterday both sustaining the tax appeal court. In the case of the Honolulu Rapid Transit Co., the valuation was fixed at \$409,-000 and in the appeal of J. B. Castle the value of his Waikiki property was placed at \$60,000.

## THE MARKHAM CASE.

The case of Markham vs. Johnson which has been before Judge Gear every day since the term opened was finally submitted yesterday. Judge Gear promised a decision on Monday.

## ATTORNEYS MUST WAIT.

The Circuit Court, sitting en banc, decided yesterday that attorneys' fees are not taxable until after a judgment has been rendered. The ruling was made in the Lin Wo Chan case where-'Hilo" Route, going. "Kona" Route, in the attorneys had asked all three judges to sit in order to establish a rule for future cases. Lin Wo Chan sued The New Zealand Insurance Co. on its policy which the defendant had offered to pay, but tendered only the amount of costs not including attorneys fees. The court decided that plaintiff was not entitled to attorney's fees before the judgment was obtained, and held for defendant. The ruling was based on the ground that the statute allows attorney's fee of ten per cent upon the first hundred dollars and two and a half per cent upon the remainder of the judgment, and as the fee is based upon the judgment it could not be levied beforehand.

THE MURPHY CASE.

Judge Robinson was engaged all day yesterday in the hearing of the Murphy murder case which seems no nearer the end. The native was again on the stand all day, most of the time under cross-examination.

TWO MEN DISCHARGED.

John Reveira, a Porto Rican charged with stealing a watch from a Japanese, was acquitted by a jury in Judge De Bolt's Court yesterday.

A nolle prosequi was entered in the case of Keola charged with larceny.

## WATER IS SHORT TILL MONEY COMES

#### Firemen Got Back Wages and the Pumps Were Started.

For an hour yesterday morning the

Makiki and Kalihi pumping stations were shut down, and as a consequence there was a shortage of water in many

The cause for the stopping of work was the unwillingness of the firemen to continue their work while no money was in sight after six weeks of labor, and so they decided to stop, which they did on Wednesday evening.

Many houses were dry during the early morning hours, but at 9 o'clock, the money would be forthcoming. Supt. Brown went to the various stations and persuaded the men to resume work. The money was procured from the pone action for reasons of policy but this was really all that he wanted. have the only right to appropriate odor and cooling to the scalp.

(Continued from page 1.)

by a sugar company. Kumalae moved to refer to a special committee but this was lost and then

the item passed as in the bill. The Pilhonua road item, \$5,000, to the Hawaii Mill Co., was referred to a special committee consisting of Lewis, Pa-

li and Long. Taking up the Hamakua forest fire items they were cut in half according to the report of the committee. The dredging of Honolulu Harbor was passed at \$9,887.98. The items for Wailuku road roller, \$5,525, were stricken out, on sale at \$1.30, age 10 to 13. the basis that there is now an appropriation for the subject.

HACKFELD WHARF ORATORY. The Hackfeld wharf was taken up with a rush, the first motion being to pass it at \$103,804.22. This is the committee's bill as Expert Ouderkirk arranged it, the items being made up as follows: Materials, \$75,301; labor, \$22,-908.51; commission on labor to Cotton Bros., \$5,594.71. Fernandez moved to strike out as no Legislature had ever authorized this expense.

Aylett argued that the wharf should be paid for, saying he would be delighted if there was sufficient money so that all the water front could be purchased for the Territory, saying these were good investments, he favoring the item in the bill.

Paele asked for an amendment and urged the reduction of the amount. Greenwell moved to amend by cutting the amount to \$100,447.97, saying instead of twenty-five per cent for the contractors he wanted only ten per cent. The committee rose however and the

#### IN THE SENATE.

made to secure a recess.

House adjourned, though an effort was

Senator McCandless presented the report of the Special Committee or health items. The committee recommended the passage of the three items for segregation of lepers, as in the bin instead of in a lump sum. The paial ration was recommended to be 23 pounds. A reduction in the item for Queen's Hospital from \$12,500 to \$10,-000 was recommended, as was also a change in the item of \$1,200 for passenger subsidy to pay freight on parcels for lepers.

The passage of the item of \$5,000 for telephone system at the settlement was recommended with a proviso that it be made to connect with the wireless on Molokai. The report was laid on the table to be considered with the bill.

#### AFRAID OF THE HOUSE.

When the House expense bill was called up Senator Achi moved to defer consideration saying the Senate should go slow and find out about the House's action on the Senate bill. He said he wanted to be on the safe side of the fence and not permit the House to hold up the bill. "The way the business of this Legislature is going I am disgusted," said Achi.

Senator Woods remarked that if the House bill was passed at \$20,000 and no attempt at dictation made by the Senate there would be no more trouble.

## BILL IS ILLEGAL,

Senator Baldwin said he had become convinced that the bill was illegally drawn and this was the opinion of both the Governor and Attorney General who contended that there should be a separate measure for unpaid bills of the last session, which should be itemized and go before the auditor. He claimed that the Legislature had no more right to pass a lump sum for unpaid bills of the previous session than for two years ago. Further the Legislature can not be considered to have been in continuous session, but this is a new session.

Senator Brown inquired about the legality of the appropriation for the special session of the Senate, and Baldwin replied that act was wrong also even though signed by the Gov-

Senator Baldwin stated further that the Governor would veto the bill as it was at present, and that the Attorney General would advise the auditor not to pay the bills when presented. He suggested that the best way was to itemize the unpaid bills and said he had spoken to members of the House in regard to the matter.

Senator Achi stated that the Senate in special session could not have passed an appropriation bill while the Legislature could have passed a bill for the payment of all its expenses at the reg-

ular session. "Suppose we passed this bill over the Governor's veto," said Senator C, Brown, "could the Governor and Treasurer and Aftorney General hold It up. That would be anarchy right

Senator Achi said that no law could be passed that is contrary to the Organie Act and that the treasurer could refuse to pay illegal bills.

"The only power on earth that can hold up the appropriation is the Supreme Court" Brown replied "and it cannot be done by any opinion of the Attorney General or the Governor. The only power that can set aside the law is the Supreme Court, the Legislature s supreme.

Achi replied that the attorney general could advise the treasurer not to pay and the action would be sustained by the Supreme Court.

Senator Baldwin said that Brown was right in saying that only the Supreme Court could set aside the law but that this would be a long process. He suggested that the quickest way to get the money was to pass a legal bill having secured definite assurances that | Another objection to the bill was that it embraced two subjects, an appropriation for the present session and also one for the last session.

Brown said he would vote to post-

money" he said, "and we can decree in AMARA CLAIM paid."

Senator Paris suggested that the easiest way to get the money was to pass a proper bill.

The motion to postpone cons! leration was carried and the Ways and Means Committee was instructed to confer with the Finance Committee of that body.

Upon motion of Senator Dickey an item of \$700 was inserted for incidentals

of the insurance department. ENCOURAGING IMMIGRATION. Senator Achi moved to increase the clude also the encouragement of emigration to Hawaii. He said the new immigration law was strict as to labor

agents and that the government should undertake to bring in immigrants. Senator Baldwin said that under the new law there could be no solicitation of labor, and that only Japanese could be brought here under existing conditions, with these people, a class of labor which he didn't consider desirable. He looked. suggested that it would be better to bring different nationalities to the islands and said some of them were more

desirable as immigrants. The motion to increase to \$15,000 was carried. A new item of \$850 was inserted for

Senator Isenberg suggested that the agricultural appropriation be placed in a lump sum as desired by the commissioners, as the department was a new one and should not be hampered in its work. The motion was withdrawn and will be proposed again on third read-

## MERCHANDISE TAX AGAIN.

Senator Dickey moved the insertion f the item of \$1,776 for refund of merchandise tax to the Hawaiian Fertilizer Co. Senator Brown opposed it as establishing a precedent for similar claims amounting to \$20,000 or \$30,000. Dickey said this item was different entirely, it was a tax on foreign made goods when in fact the goods were manufactured in Honolulu.

Senator Baldwin said if the other claims were good they should be paid. no matter what precedent was established. McCandless said that the company had deposited check for the amount of the tax in the treasury sucject to the opinion of the Attorney General who had advised that the money should be returned. The check had been cashed by mistake however and could not be repaid without the action of the Legislature. The Item was referred to the judiciary committee. Senator J. T. Brown secured the Insertion of an item of \$5,000 for King street, Hilo, and Wilcox of \$3,000 tor

Kalihiwai road, Kauai. Further action was deferred by ad-

It must be annoying to the wearer, and certainly not a pleasant thing to observe. But dandruff can be eradicated. It is a germ disease that will some day cause baldness. Newbro's Herpicide kills the hair-de-

## MAY BE KILLED

BUILDING

There is being aroused considerable discussion over the disposition that may be made of the petition of Mrs. the House and ascertain the wishes of Kekie Amara, administrator of the estate of Jesse Amara, for reimburgement for losses during the plague fire. The allegations of those who favor the claim are that the failure to have it properly filed before the Fire Claims item of \$10,000 for advertising the re- court was due to the detention of letsources of the islands to \$15,000, to in- ters in the mail so that the statute of limitation in the bill ran against the

The subject was referred to a special committee which has made some progress with the investigation of the matter. It is said that the claim was presented too late by an attorney, who it He said the country was already filled is claimed might readily have put it before the court, had it not been over-

The broader question however is the propriety of reopening fire claims matters. One member will argue that no appropriation can be made as the provision for the payment involves new legislation. The point seems to be that the Legislature having put all these matters in the hands of a court, and Senator Baldwin called attention to to take them out of that category, there would be necessary legislation at a regular session of the Legislature. One attorney believes that the only course an item of \$25,000 for that purpose. On would be to create the fire claims court motion of McCandless it was increased once more for the discussing of this claim, if it would be put on all fours with others of the same nature. It seems likely that the House may refuse the appropriation for St. Louis fair, to reopen the question of fire claims, so that the money will not need to be for if it does there will be several don-

WALTER G. SMITH - - EDITOR.

ADULTERATED FOODS.

Honolulu to increase the amount used by every inhabitant, yet each month shows a long list of dealers whose milk is mixed with water. Of these culprits one Nobriga is, perhaps, the chief. After him comes one Souza. Thirteen separate sellers of adulterated milk were exposed in Mr. Shorey's last report to the Board of Health and these will, under the new law, be prosecuted. In the number are many familiar

Going to court seems to be the only thing to do as publicity in English print does not discourage those milkmen who supply Portuguese, Hawaiians and Jap. anese. Like Nobriga, whose practices have been exposed month by month for the last two or three years, these people are not hurt by such publicity as they get among consumers with whom they do no business. It is necessary to reach them in the police court,

Mr. Shorey's report also contains the

A considerable portion of the month was spent in work outside the laboratory: inspection of grocery stores, etc. The only food samples other than milk examined being one sample of cheese and one sample of chocolate candy, no adulteration being found, and eleven samples of miscellaneous canned groceries taken from auction rooms. In more or less decomposed and the lot from which samples were taken, 510 tins in all, was condemned and destroyed. The collection included salmon, oysters, clams, condensed milk, mushrooms and asparagus.

During the month there were several cases of ptomaine poisoning due to badly canned salmon. Probably the stuff was of the auction variety. It is a good thing in buying canned goods to go to reputable dealers and let the auction product alone. Usually the stuff sold under the hammer has either spoiled on the shelves of second-class stores in town or has been shipped here from the Coast after being condemned by the health authorities there.

It is a matter of regret that Mr. Shorey's report did not give the label names of the condemned goods as a warning to the public in future.

#### NO BUILDING.

The action of the Senate, in striking out the word "building" in the World's Fair appropriation, shows that the upper house takes a business-like view of the advertising question. Special State or Territorial structures at World's fairs never attract crowds or ensure wide publicity. They are looked upon as headquarters for people from the localities they represent and are, as a rule, avoided by others. There is so much else to see that people do not bother with them; and they are left, like the last rose of summer, to bloom

Hawaii would be especially to blame for committing the mistake of a building because, after the structure had been paid for and salaries and freights covered, there would not be money enough left in the appropriation to make a creditable display. An exhibit without a building is far better for Hawaii than a building without an exhibit. As the case stands for us, the Exposition people are ready to provide free space for Hawaii in the main buildings, and as the latter catch the crowds, the Territory ought to be satisfied.

The Senate's action in this matter is not determinative as the House has committed itself to a building. But it points to what ought to be the final them and the deep sea. adjustment.

An amusing comment upon the small farmer comes up from Wahiawa, When to deepen the harbor to 36 feet. One the small farmers of that colony entertained the Farmers' Institute, the question of salad came under consideration, and a telephone message was sent to Honolulu, "Send us some let-

What has lettuce got to do with small farming? Lettuce is raised by marketgardeners. Plenty of it is produced here, but mainly by Chinese. If white men at Wahiawa or elsewhere want to raise it there is nothing in the way. People who sneer at small farming should first find out what it is.

The correspondence clerks of the Judiciary Department may address the Territorial Circuit Judges as "United States Circuit Judges" if they choose but that does not overrule the Organic Act, which plainly leaves them in the Territorial class. Nor does it give them jurisdiction in any United States cases. Matters involving Federal law go before Judge Estee, the Federal Grand Jury and the United States Commissioner only and Estee is the sole United States judge in the Territory.

The pretense of interpretation often le dropped in the House, especially when some Hawalian speaker says

#### SUCCESSFUL FARMERS.

Diversified agriculture finds a strong champion in W. H. Hoogs, who is one of a company owning about seven hundred acres of land at Waianae. This company, when the coffee boom was on, planted 130,000 coffee trees which are now in fine bearing; and since then it surplus to export. Pineapples, Mr. tion Hawaiian coffee is getting on the

has ventured in limes and pineapples. The limes are of such good promise that the company expects, next year, to sup-Enough milk is now produced near ply this market with them and have a Hoogs says, have been raised at a good profit; and now, owing to the reputacoast, there promises to be a high price for this product. Figures are already nearing the top notch. It seems strange that our coffee men should not, until lately, have realized

the value of making a special market for their crop. For years our coffee was turned in with the glat from Centraj America and Java; and it is no secret that it was mixed with these brands and sold without its distinctive label. For some time past it has been advertised on its merits through such thorization and record for each case. firms as Goldberg, Bowen & Co., of San Francisco, Jevne of Chicago and Park & Tmord of New York, with the result that coffee drinkers now ask for it and are ready to pay a fair price. Who knows but that this method of publicity will serve our Territorial coffee interests as well as the special fame of the navel orange of California, the Indian river orange of Florida, the Blue Point oyster, the Cresta Blanca wine and the Vermont brand of maple sugar has served the people who produce this delectable merchandise. Once let Hawallan coffee be known as "the best" and it will need no bounty to make it

Meanwhile the Waianae people are giving a fine object-lesson to small farmers in the capacity of the land to produce crops that pay. And they show, besides, what persistence under early discouragement will do.

Isaac Noar's declaration of trust in the Legislature, in the sense of justice deportation would receive the enderseand right of that body, as against the ment and support of the Exchange, Superintendent of Public Works was a delicate flattery which stamps him as an Irishman, beyond question. He should be listed for the next March 17th

#### HONOLULU HARBOR.

[The Official and Commercial Record.]

The business men of Honolulu should take immediate and active steps to secure from the legislature an appropriation for the deepening of Honolulu Harbor to 36 feet. The new Hill steamers will draw 34 feet when loaded, and two feet of water under a ship's bottom is none too much for a margin of

It is of far greater importance to the business interests of Honolulu that the big steamers should enter the harbor than it is to have them go to any par-

We have the trade now. It is vastly easier to keep it than to get it back once it is diverted to Pearl Harbor or

Of one thing we can be sure, big ships will not attempt to do business from the roadstead outside of the harbor. The delay would be too great to leave any profit. They will therefore either come inside of the harbor, go to Pearl Harbor as soon as that is opened, or give us the go by altogether.

The Superintendent of Public Works is asking for \$400,000 with which to build two wharves, and only \$50,000 is asked with which to dredge the har-

men have now been paid and the passage of the emergency appropriation bill assures them of regular payments Bereafter."

There was much excitement in town yesterday when, as announced in the Advertiser, the water supply began to give out. Opinion was divided as to blame between the Legislature and the water bureau and some of the comment was severe. Later, as related above, the pumps were started again, Supt. Cooper guaranteeing the payroll.

## Danger in Mountain Climbing.

Danger is by no means an attraction to the true mountaineer. Some people may so affirm, but scarcely ever does an expert place himself in a dangerous situation, and if he does it is not from choice, and he does not like it. Sometimes he may take a risk, but seldom something designed to hold together the unless all the chances are in favor of native members, regardless of party the climbing party and the possibility lines. ## Judge De Bolt Grants Writ of Mandamus Upon Application of Andrews.

## The County Law Will Be Tested In the Courts. Defendant Will File a Motion To Quash the Writ.

Judge De Bolt issued an alternative writ of mandamus yesterday directing Hon. Henry E. Cooper, as Superintendent of Public Works, to deliver over to the Board of Public Institutions all wharves and buildings mentioned in the county act, or to appear and show cause on June 2 why this should not be done.

The writ was issued in the morning upon the application of Attorney General Andrews. The next move in the county test case will be the filing of a motion to quash the writ by Superintendent Cooper. G. A. Davis is his attorney. The points of illegality claimed by Cooper in his letter to the Governor will be set out in the motion, and it is expected to get a decision early enough to permit of the presentation of the appeal to the Supreme Court at the June session.

The writ of mandamus granted by Judge De Bolt, which contains

and organized said board.

That at a regular meeting of said

Works be notified that, under Sections

484 and 485 of the County Act, the

Board of Public Institutions assumes

the control, management and mainte-

nance of the harbors, wharves, pilots

and towage, and of the executive and

judiclary buildings from May 1st, and

that the Superintendent of Public

Works is hereby requested to deliver

up the control and furnish this board

with an inventory of all the property

thereof, and also a list of the employes

That subsequent thereto on said date,

said Geo. R. Carter being Secretary of

the said board under Sec. 386 of the

said County Act, demanded in writing

from said defendant, Henry E. Cooper.,

as Superintendent of Public Works of

the Territory of Hawail, the possession

and control of all matters relative to

harbors, wharves, pilots and towage,

and of all property used in connection

therewith, and of the control, manage-

ment and maintenance of the executive

connected therewith."

Greetings

of Public Works.

Whereas it has been represented to board held at the Capitol at Honolulu me as Judge of the Circuit Court of on Monday, May 4, 1903, there were the First Circuit that Sanford B. Dole, present the Governor, Secretary, Audi-Governor; Geo. R. Carter, Secretary; tor, Superintendent of Public Instruc-A. N. Kepoikai, Treasurer; J. H. Fish- tion and Attorney General, er, Auditor; A. T. Atkinson, Superintendent of Public Instruction, and Lorrin Andrews, Attorney General, constitute the Board of Public Institutions of the Territory of Hawali, provided for by the act known as "An Act providing for the Organization and Government of Counties and Districts, and the Management and Control of Publie Works and Public Institutions therein," approved April 22, 1903, being Act 31 of the Session Laws of 1903. That at all times hereinafter mentioned the following persons were the duly qualified and acting officers of the Territory of Hawali, and held the offices set opposite their respective names (under and by authority of an Act of Congress of the United States of America, entitled."An Act to provide for a Government for the Territory of Hawali," approved April 20, 1900), as fol-

SANFORD B. DOLE, Governor,

GEO. R. CARTER, Secretary. A. N. KEPOIHAI, Treasurer,

J. H. FISHER, Auditor,

A. T. ATKINSON, Superintendent of Public Instruction, LORRIN ANDREWS, Attorney Gen-

That at all times hereinafter mentioned Henry E. Cooper, defendant above named, was the duly qualified and acting Superintendent of Public Works, and exercised the duties prescribed in Section 75 of the said Organic Act of the Territory of Hawaii.

III. That on the 22nd day of April, 1903, the said Governor of the Territory of Hawali approved an act of the Legislature of the Territory of Hawaii entitled "An Act providing for the Organization and Government of Counties and Districts, and the Management and Control of Public Works and the Public Institutions therein," being Act 31 of the Session Laws of 1903.

That by said act, Sec. 380, the Governor, Secretary, Treasurer, Auditor, Superintendent of Public Instruction and Attorney General of the Territory of Hawaii constitute and are known as the Board of Public Institutions. That by Sec. 483 of said act it became O the duty of the said board, immediately after the passage of the said Act. Q to organize, as prescribed therein, and that in accordance with the said act, Chapter 64, the said Board met and organized on May 1, 1903, in the office of the Governor of the Territory, at the Capitol in Honolulu.

That as soon as said board was organized, it became the duty of said board, under Sec. 484 of sald County | Act, to take control of all matters relative to harbors, wharves, pilots and towage, and all property used in connection therewith, and it became the duty of the Superintendent of Public Works to deliver the possession of all such property to the Territorial Board | of Public Institutions. It likewise became the duty of said Board, under sec. 485, to assume the control, management and maintenance of the executive and judiciary buildings at Honolulu.

That on May 1, 1903, four of the said

#### The Harm Slang Does. There is still another serious objec-

tion to the use of slang. It tends to limit the vocabulary of him who uses it. Now, a limited vocabulary is almost as inconvenient at times as a limited purse, and it is far more inelegant. If there was practically limitless wealth within the reach of him who was minded to take it, it would argue a certain stupidity in any one who declined to avail himself of the supply. The same assertion holds true with regard to him who is willing to limit his choice of words. There is even more to be said than that. There is a limitless wealth of words at our disposal, but the most of us are too stupid to make use of

"I'll never speak to them again." Call to-day, or send for my beautiful book, full of the thing a man that, Flossie!"

## THE OUTLOOK FOR COFFEE GROWERS IS IMPROVING

The Waianae Company Expects to Market Its Crop At a Good Price---Pineapples That Pay and Limes for Export.

When I say that the future of Hawaiian coffee is better than ever before, I am making no rash statement," said W. H. Hoogs vesterday. Mr. Hoogs is connected with one of the largest coffee plantations on Oahu, a fine piece of land at Wajanae, where 130,000 fall for the past three months had been coffee trees are bearing.

"I consider that the coffee raisers have a better show today for the sale of their product than at any time before. There is a demand Federal Government not having shown for Hawaiian coffee on the mainland, and people have become accustomed to the various brands from the Islands. The condition of the of sugar, he said it was not surprising market here is much different to what it was a few years ago. There that Ministers, with the papers in this are not so many persons engaged in production now as formerly, and to prevent, if they could do so, any this fact alone indicates that those who stick to the industry will reap public inquiry; but it was surely to the reward that comes from sticktoitiveness.

"I believe that we are going to have a top-notch price for our coffee this year. There is every indication that the price will be much to the transaction, which, from every higher. We have been engaged in the business now for ten years, and at no other time has the outlook seemed a ere hopeful. When I speak of a top-notch price I am not considering the possibility of a bounty helping us out.

"Our coffee is looking fine, and the 130,900 trees are in a flourishing condition. We are raising pineapples there and these have given us a good profit. There is ample opportunity in that section for the small farmer to make a success of his calling.

"Then we have limes. We will not take off a crop this year, but next year we expect to have a quantity that will perhaps enable us to export. Our limes, too, are fine specimens, Why, just at present they are selling limes in town at a cent apiece, and most of them are green. We can afford to sell them next year at a quarter of a cent arms great loads of winter's crystals

James H. Boyd said, in connection with Mr. Hoogs's plantation, bers in the grate cast a soft glow over that before it was cultivated it seemed to be land that was good for nothing. Persistent cultivation had proven that the soil was as rich as could be found anywhere, and that there was more of the same land in the vicinity that could be put to the same good use.

"The small farmer idea is a good one," said Mr. Boyd, "but the and Future. I looked out upon the small farmer, the one who comes here from the mainland to engage in farming, needs other help than that derived from his own capital. A man who comes here with \$1,000 \$1,500, or even \$2,000, finds scribed the words "The Douglas Patent that he must put most of it into his enterprise at the start. The cost of his home, necessary sheds, fencing, heavy cost of first cultivation, ded words, "Bath, the Plumber." And ol, Alliance Assurance Company of extra labor, horses, mules, and cows soon eat into his capital and he finds that he has nothing to live on after the first six months. Such a farmer, a bona fide settler who has shown his good intention to cultivate his land, should have support, and, I believe, from the govern- Pa., an up-to-date evangelist, who sement from which he obtains his land. If the government would borrow money for this specific purpose at 6 per cent and loan it out to these river with Bible texts and administions. tarmers, say at 6 1-2 per cent, the settlers could well afford to borrow Among the sentences painted were money. Their crops of pineapples, limes, and other products of small tance up the river he discovered a huge farming would yield enough for them to pay off the money thus bor-CARS arrive at, and depart from, rowed and give them their land unincumbered in three or four years painted in foot-high letters:

"This method of fostering the small farming industry would advertise this country far and wide and bring bona fide settlers with- enterprising advertisement writer came Manager, 'out a doubt."

## GOOD MONEY IN COLONIAL SUGAR

adopted. A dividend at the rate of 10 per cent per annum was declared, and £93,708 carried forward.

The Hon, H. E. Kater, chairman, stated that in North Queensland the cane had suffered much from drought, and the company were not hopeful of having a good crop at any of the Australian mills; while in Fiji the rainbelow the average, and the yield might not be so large as was anticipated. All the company's refineries had been kept busy. Referring to the matter of the any disposition to hold inquiry into the exemption from duty of certain stocks case before them, should be determined be expected that when Parliament met the House of Representatives would compel the Government to hold an immediate and searching investigation inpoint of view, was quite without precedent. It would be a great misfortune for the community if that course were not adopted for not only ought the loss of revenue to be explained, but the Customs Department should be given the opportunity of proving that its administration had not in this matter been partial and unjust.

Mr. F. C. Griffiths was re-elected as

## ANOTHER PIPE DREAM.

I was seated by the fire place in a little New England cottage. 'Twas bleak December. The wind was whistling around the house and carrying in its which it threw in white banks against the doors and windows. The dying emthe room and with no other light the strange shadows seemed uneasy ghosts come to dance within, protected from the cold outside. I lighted my pipe, arose and sauntered dreamingly to the window, my thoughts roaming at their own will through the halls of the Past great, white sheet that covered the sleeping form of Nature, and saw-

There in the very center of the white screen was a circle in which was in-Closet." Even as I looked it disappeared, then again saw it with the adthen my pipe went out.

## The Future Made Essy.

There was recently in White Haven, cured a pot of yellow paint and decorated all the rocks along the Lehigh some rather startling ones. Some disrock with a fine, smooth surface, fac-"What are you going to do after

It was only a week, however, that the rock displayed this alone. For an along and painted just below: "Use Delta Oil. Good for burns."

## The Planters' Monthly

This magazine is now in the twenty-second year of its publication.

It is especially devoted to the agricultural, more particularly sugar interests, of the Territory of Hawaii.

It contains all of the proceedings of the Meetings of the Hawaiian Sugai Planters Association, including the detailed reports concerning Machinery, Fertilizers, Methods of Cultivation, Transportation and Manufacture and many other subjects vital to the sugar business.

It contains a Directory of the sugar plantations of the Territory, their agents and managers.

It contains a Directory of the corporation stocks and bonds listed on the Honolulu Stock Exchange, showing the capital, shares issued, par value and price at last sale.

It contains carefully selected news of the sugar situation, progress, and prospects in Hawaii and throughout the world.

It contains news of the development of all local industries of an agricultural character, and the best that is published in a wide circle of exchanges, concerning tropical agriculture.

With the back volumes it forms an invaluable reference library concerning the agricultural development of Hawaii during the past twenty odd years.

Subscription price 25 cents per copy; \$2.50 per annum; \$3.00 foreign.

Back numbers can be furnished.

## HERMAN COMING TO HONOLULU

Captain James Brown, the pugna-

clous skipper of the Treasure schooner Herman, which was tied up at Sydney for various debts which were claimed against the master, may shortly visit Hopolulu again en route to San Francisco. Captain Brown stated recently in Sydney that it was his intention immediately upon the release of his vessel to return to San Francisco via Honolulu, with the object of forming another expedition to recover if possible, the alleged hidden wealth which he says lies buried on a small island in the South Seas, known only to himself. He stated that as a result of the equity proceedings brought against him in Sydney he had withdrawn from the first syndicate organized in San Francisco. This syndicate bought the Herman, and Captain Brown bought all interests in i tat Sydney, so that he now claims to be master of the situation. Captain Brown strongly avers that in time he will proceed direct to the treasure-island and bring back many boxes of Spanish doubloons, pieces of eight and jewels rich and rare. The realm of romance in this regard would then be removed from the Spanish main to the waters of the South Pacific. The saying is that "Strange things happen at sea," and it is to be remembered that only a few well-known mariner Captain Strachan treasure-laden hulk of a Spanish galleon somewhere in theMalay Archi-

## WHERE OUR COAL

NEWCASTLE, May 1.-The foreign coal trade of Newcastle is at the pres ent moment particularly brisk, and the harbor is full of deep-sea sailing vessels, awaiting cargoes of coal. The owners, however, point out that this condition of affairs would not have been possible had the rate of 11 shillings per ton been strictly maintained throughout. Last year there was for a time a great depression in the coalshipping trade, and it was then that the rates began to be cut. Contracts at reduced prices were entered into with the result that a large amount of trade has been gained which would otherwise have been lost.

Keen competition exists among the oalfields of the world for the markets of the West Coast of South America, for San Francisco, and for Honolulu, and the margin between the prices of Australia and other countries is a very narrow one, It is asserted that the high prices of some years ago were responsible for the heavy loss of foreign trade which followed.

## MISSION BOAT IN SOUTH SEAS

SYDNEY, May 1.-London Missionaof the ketch Envy had fallen across the Wharf, Dawes Point, at 11 o'clock this morning for one of her periodical trips among the islands of the South Seas. The cruise will embrace visits to Niue, Samoa, the Cook slands, and the Tokelau, Ellice, and Gilbert Groups, and will cover a period of about four A. H. STEAMERS months. The Rev. Dr. Davies, formerly of Samoa, but more recently of South India, will proceed by the vessel to Niue, where he will relieve the Rev. F. E. Lawes during his furlough in England. The John Williams will also convey several native teachers who have been engaged in mission work along the coast of New Guinea to their island homes on furlough. The teachers are accompanied by their wives and families, numbering 37 all told.

## YEDDO COMES IN FOR HER ORDERS

The first steamer to come to Honolulu for orders since the installation of the Pacific Cable was the Yeddo which arrived yesterday from New-Bert Corbaley, clerk at the Oahu plan- here, came a few days ago to Manager tation, and his bride, formerly Miss Holt of the firm of McCabe, Hamilton & Renny. The Yeddo arrived off port at 10:30 a. m., and upon receiving her orders, steamed away at once for the coast. She is commanded by Captain Baird, has Scotch owners, and carries a cargo of 6119 tons of coal.

## Kohala Goes to Elecle.

The barkentine Kohala, Captain Dedrick, which was reported off shore Wednesday evening, anchored off port yesterday morning, and will remain there awaiting the discharge of the Huwail at Eleele before proceeding to the same port to discharge her cargo of corporation must be settled within 15 1345 tons. The vessel was sixty-three

The Kohala ran into a hurricane on April 16 in lat. 25 S., long. 154 W., near Tahitl, and she lost most of her sails and several spars.

## Sonoma is Late.

The steamship Sonoma had not been sighted up to a late hour last night, steamer would arrive in port yesterday afternoon. She will probably come in this morning. The vessel was out six days at midnight last night.

## Oregonian Sailed Yesterday.

Agent Percy Morse of the American-Hawaiian steamship line received a cablegram yesterday from Seattle stating that the Oregonian had sailed for Honolulu on Wednesday, May 20.

## Shipping Notes.

Portland yesterday morning.

yesterday and will sail on Saturday records of our Association, and we defor Delaware Breakwater.

## CHINESE WILL BE UNDER COMMERCE DEPARTMENT

## Collector Chamberlain Advised That All Chinese Records of His Office Must Be Sent to Washington.

On the first day of July all the Chinese records in the possession of Internal Revenue Collector Roy H. Chamberlain will be sent to Washington, presumably to be given into the control of the new Department of Commerce.

Collector Chamberlain received notice from Immigration Commissioner Sargent while here that all these records would have to be sent to Washington, and word to this effect has been sent to the COMES FROM Chinese consul. The consul was informed also that Collector Chamberlain still has in his possession about 100 certificates of Chinese May 30th, 1903. laborers which have not been called for. He now wants these Chinese to come forward and get their certificates before they pass out of his possession. Probably some of the Chinese are dead and others have gone to China without a certificate, and the consul has been asked to look into the matter.

> The transfer of the registration of Chinese to Washington will relieve the local internal revenue office of a considerable amount of work, though it will be rather hard on the Chinese.

> All the duplicates as well as the original records will be transferred to Washington, and when a Chinese wants to return to his native land he will have to send clear to that city in order to get a

> Collector Chamberlain has no information as to what department the Chinese business is to be given to, but it will probably be taken over by Secretary Cortelyou, the new cabinet officer, who has charge of the Department of Commerce.

## SATURDAY THE DAY FOR PAYING FIRE CLAIMS

Payment of the fire claims will begin on Saturday at the First National Bank. Secretary Carter publishes today a "by authority" at the request of Treasury Agent MacLennan to the effect that the first days ago it was published that the ry Society's steam yacht John Williams six hundred fire claims will be paid pro rata on or after Saturday.

This means that over \$200,000 in gold will be distributed on that day, a larger percentage of the total than is the number of the claimants who will get it.

Most of the first six hundred claims are held by S. Ozaki as trustee for the Japanese, and there will be no difficulty as to their payment. Many, however, are held by Chinese as individuals and there will probably be much difficulty as to identification, which in every case must precede payment.

The pro rata which will be paid to the six hundred claimants amounts to \$204,487.54, as shown by the books of the Auditor. There are a number of the larger claims among these, which accounts for the high average. There are seven thousand claimants, and the percentage which they would be entitled to, taking the average of all the claims, would be a little less than \$90,000.

Some of the larger claims to be paid are: Mutual Telephone Company, \$4,000; Yee Wo Chan, \$15,989; Wong Wo Tai, \$14,000; Hawaii Land Company, \$5,498; City Mill Company, \$18,448; and 6484 Tong Kee Company, \$9,300. This is only the pro rata these claimants are entitled to, and not the entire amount.

There has been no decision as to the disposition of the bonds, but it is expected that with the million dollars once in circulation there will be little difficulty about the remainder. The balance of the claims held by the claimants will be only a little more than 10 per cent of the whole, and it will be much easier to buy the small balance at a large discount than it was to get possession of the entire claim at a

The following is the notice published by Secretary Carter: "BY AUTHORITY-NOTICE TO FIRE CLAIMANTS.

"By request of Mr. W. F. MacLennan, Special Agent of the Treasury Department, notice is hereby given to those holding fire claims Nos. 1 to 600 inclusive, that upon presenting their certificates of award to the First National Bank, on or after Saturday, May 23d, A. D. 1903, their pro rata will be paid. G. R. CARTER,

"Secretary of the Territory. "Secretary's office, Honolulu, May 21st, 1903."

## RESOLUTIONS OF SYMPATHY

Whereas it has pleased Almighty Providence to take from this life our Friend and Associate, William Waterhouse Dimond, and whereas, this Association through his death has been deprived of its President and one of its Founders; therefore be it resolved: That we, the members of the Merchant's Association of Honolulu do hereby express our heatfelt sorrow and regret at the loss of so young and zealous a member of this Organization. We shall always bear him in affectionate remembrance as a helper and having been so intimately associated worker who was ever ready to do his share in the promotion of all undertakings pertaining to the best interests of the business community, and tained in being thus bereft of Husband as one eagerly anxious for the best wel- and Father and now beg to offer their fare of the Public at large,

# RULFLINE

Baseball Case Is Decided For Elks.

Hold His Delivery Legal.

Games of Saturday Promise To Be of Unusual Interest As Teams Are Working.

The protest of the Kamehameha Baseball Club against the pitching of Perine, the new pitcher for the Elks, was heard by the trustees of the Baseball Association at the office of W. F. Allen yesterday afternoon. All of the trustees, D. P. R. Isenberg, W. F. Allen, H. M. Whitney, Jr., C. F. Chillingworth and L. A. Thurston, were pres-

The Kamehameha club was represented by John Wise, manager, and by Capt. Lemon. The Elks club was represented by Manager Brooks, Capt. Cunha, Lorrin Andrews and A. G. Murphy. Both umpires, Lieut. Newton and Mr. Bowers, also pitcher Perine, were present. All the other clubs of the League were represented by one or

Full evidence was submitted defining the point at issue, and the rules bearing upon the matter were also present-6-room house. Lot 50x90 ...... 3500 ed. Authorities were quoted by Lieut. Newton from the official decisions of the umpires of the game in the United States, and from the instructions to umpires from the president of the National League.

> The point at issue was as follows: Rule 29. The pitcher shall take his position facing the batsman with both

> feet square on the ground and in front of the pitcher's plate; but in the act er's plate. He shall not raise either foot, unless in the act of delivering the ball to the bat, nor make more than one step in such delivery. Pitcher Perine makes use of an un-

usual motion of his feet just before delivering the ball to the batsman. With both feet on the plate, facing the batsman, he moves his left foot about fifteen inches to the left, placing it on the ground. He then lifts his left foot again and places it on the ground about two feet in advance of his right foot,

**GIRLHOOD'S PERILS.** 

"Sweet sixteen" is an age of which poets have sung rapturously. Mothers know that girlhood is not all romance and roses. The growing girl needs plenty of strength to fit her for the duties of maturity. There is but one real source of strength, and that is digested food. But so many lassies in the early teens will not eat what is good for them; they have no appetite, they say, and even when they do force food down their throats, it disagrees with them. Hence they are gaunt, white-faced and narrow-shouldered. Kind friends of the family remark that the darling of the household is going into a decline, or that she looks as if galloping consump-tion might get hold of her some day. Let no mother be scared. Thousands of just such slender, debilitated, fragile girls have grown into rosy, handsome, robust women because they built and toned themselves up with WAMPOLE'S PREPARATION which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It does all that plain cod liver oil does in making flesh and blood and does it better. Dr. P. A. David, Pro-fessor of Chemistry, Bishops College, Montreal, says: "I have used your preparation of cod liver oil both in my hospital and private practice, with results uniformly satisfactory, and consider it one of the best reconstructive tonics before the profession to-day; its palatability is also a most important and attractive feature." As sure of victhirst. Try it and see how much sweeter life is without weakat the same time delivering the ball. The Kamehameha's contention was that this so-called side-step to the left and then the advancement of the same foot to the front, constituted two steps and was consequently a violation of the last line of Rule 29.

The Elks claimed that this motion constituted but one step. Both of the umpires supported the position of the Elks. The decision quoted by Lieut. Newton was to the effect that in throwing to any base the pitcher must step directly towards that base and that a side step towards that base would not be a compliance with the rule, and would constitute a balk. Or in other words a side-step was not counted as a step.

The trustees, upon this authority and submitted by the Kamehamehas decided that the side motion made by Perrine, prior to his advancing his left foot, at the time of delivery of the ball, did not amount to a second step and that consequently the delivery was legal. A protest of the Kamehamehas was therefore dismissed. The de- Still Calls Attorneys and Judges cision of the trustees was unanimous and met with the approval of the base ball fraternity.

There is a deal of feeling as to the two games of Saturday next. They will be between the winners of last Saturday, the Punahous and the Elks, and the Kamehamehas and the Mailes. The Elks will appear in different infield form, King going to third and Kaai coming in from the field to play first. A new man will be sent to right. The Punahous probably will show no change though Wood may be at first.

The Kamehamehas will be stronger than last week, the seasoning being in their favor. A new face or two may be seen on the team. The Mailes will make their first appearance and great things are expected of the team. George Clark will pitch and his friends say he is better than ever. Change pitchers will be on the field in the persons of Desha and Rodgers, an import-

ed man who will not be used at first. The H. A. C. team is hard at work at practice and will be improved by the is improving and may play second. If not Louis will go there and Leslie will lar. She approached Geo. Lucas, the catch. Ensue and Williams will alternate at short.

# LANDERS

Guy Landers, whose arrest at Blilings, Montana, for forgeries on Honolulu banks was given in yesterday morning's cablegrams, had a primroselined career in Honolulu lasting several months, during which time he managof delivering the ball to the bat, one ed to fill his pockets with money befoot must be in contact with the pitch- longing to other people. The First National Bank of this city suffered the heaviest loss through Landers, a forged draft for \$540 being worked off on the institution. Cashier Cooper of the First National Bank placed the matter in the hands of the Pinkerton agency, and after a long pursuit the detectives landed their man on Wednesday in Billings,

> Landers, who comes from Georgia where his parents reside, came to Honolulu last October and secured a position at Ewa plantation. Landers had an affable manner, was a good storyteller, and he made many people believe that he was the son of a rich Louisiana planter. During the time he was at the plantation, Landers opened up accounts with Honolulu firms, and in February he deposited a draft for \$540 bought some sugar stock for Landers, and lost money on the deal. A post him with toilet articles, the bill for which amounted to a considerable. These transactions took place in February and on the 16th Landers went away in the Alameda,

Then the bank had a surprise for the draft was returned from the East with the information that it was worthless. The bank had given Landers \$300 on the paper. Landers was first located at Shreveport, Louisiana, but when the officers attempted to take him he fled. Cashier Cooper hopes to have Landers returned to Honolulu to undergo trial. The immediate cause of his arrest was his attempt to draw \$1600 on the First National Bank of Hawaii at a Butte bank.

## JAP STABBED **HEAD LUNA**

Otamatsu Funukaru, a Japanese laorer at Waimanalo plantation, stabbed head luna John Chalmers on Wednesday, luckily inflicting only a slight wound. The trouble came through Chalmers ordering the Jap to leave the plantation on the ground that he was a worthless fellow, did not work and was drunk most of the time. The Jap is said to work only two or three days a week. Shortly after the noon hour the plantation, but the Jap made no cated person is able in reading to unreply. Chalmers then struck him, it is derstand perhaps 25,000 words, but most tory as water is sure to quench | reported, and the man retaliated by of us who write and speak limit ourplunging the blade of his knife into selves to about 500 or 600. Indeed, Chalmer's arm. The Jap then fled. He there is a vast number of fairly intelness, pain or worry. "It cannot | was not captured yesterday, although | ligent people, or people whose workdisappoint you." Sold by all the police are scouring the country ing vocabularies do not comprise more chemists here and everywhere. about the plantation.

Lenient With Magoon.

By Mandamus Now.

**Bad Names and Scents** a Conspiracy.

Ordinary rulings of law do not satisfy Mrs. Anna Gertz, the woman who has been keeping the courts busy for several years in attempting to get them to correct wrongs she alleges that she has suffered at the hands of J. Alfred Magoon. Every attorney, and every judge in Honolulu has told her that she is not entitled to legal redress but Mrs. Gertz is not the sort of woman that despairs at such rebuffs. Last term the Supreme Court finally decided that she was in the wrong, but she immediately came forward with a motion for rehearing. This the Supreme Court also denied this week, and yesterday Mrs. Gertz was to the front with a petition for a writ of mandamus.directed at everysending of Gleason to first. Thompson one in general and Magoon in particuclerk, and asked him to file the document in the Supreme Court. Lucas demurred but Mrs. Gertz insisted and began to quote the law which provided for such a proceeding so Lucas wilted and took the paper from her hands. Among other things Mrs. Gertz says

> "That it seems defendant J. A. Magoon knows he is a powerful man and is entitled to all the false oaths he pleases, a poor man would not have gone through all the courts being accused of perjury he would be indicted by the grand jury and by the jury trial the sentence would be twenty years imprisonment at hard labor."

> Mrs. Gertz also goes for Miss Dorothea Lamb, now Mrs. Emerson, for buying the property and says she is another fraud.

anything and leaving petitioner to her fate, she appealed to Attorney-General Dole, to Acting Governor Cooper, to Attorney-General Knox and lastly to President Roosevelt all which advised her must be fought out in the Territory courts except Attorney-General Dole who said he had no time to arrest J. A. Magoon or look into the charges of fraud, robbery and perjury."

She says also no one was allowed to look into the "robber business" and that any rascal would swear false when he can make thousands of dollars. "But why is such a rascal protected by the government and judges? May be it with the First National Bank. About shall be the fate of petitioner, as her this time Frank Winter, the broker, mother and mother's sister also were robbed of a great fortune after the death of their parents about 1834, as office official was induced to loan the she said her brother and lawyers deyouth \$50, and a drug store supplied prived them of most of their part. The courts were bad then."

Mrs. Gertz charges all the attorneys and judges in the Territory with divers illegal things and then says: "In summing up all the different charges against different parties the Hon. Chief Justice will come to the same conclusion, that a conspiracy existed to destroy Gertz business and rob his real estate, it seems that a league is in existence and J. A. Magoon seems only hired to play the Satan and take away whatever they want, and it seems that the oath of the league is more obeyed as the official oath.

"If it was not so, how could the judges do such wrongs and violate

"Your petitioner is not able to put the demands in a better, shorter shape, as the time does not allow an overwriting and your petitioner feels sick from so much writing, and therefore the last pages are badly written.

"Your petitioner is able whatever expenses may be to pay. "Petitioner is entitled to more as she asks, but she wishes to show leniency

## HONOLULANS TO VISIT THE ORIENT

Col. Macfarlane and family are booked on the Siberia for a trip to China d Japan as guests of the Pacific Mail. Colonel received a cablegram yesterday from Vice-President Schweren, who had learned of his intention to visit the Orient, tendering passes for the round trip. Governor Cleghorn has decided to make the voyage with the party, as his physician has recommended a sea journey. Both Col. Maefarlane and Gov. Cleghorn should be well received in Japan having been decorated by the Emperor during Kalakaua's reign, the former as a Knight Companion and the latter as a Knight Grand Cross of the Order of the Rising Sun. The party will visit the Osaki Exposition and Tokyo, and remain over, for the steamer Korea's return.

## CALLS HAWAII FOREIGN LAND

There is a dense ignorance of Hawaii in parts of the United States and that too among some business men. An instance of this was shown recently in a letter received by Mr. Levingston, the Young Building clothier, from a Cincinnati house which manufactures a conformator for hats.

The firm informs Levingtton that it sellaits appliance for \$30 "in the United States," later saying "Our price in foreign countries is \$37.50." The reference was entirely on the lines of belief that Hawaii was a country independent of the United States.

This will give a great opportunity for Dr. McGrew when he arrives in Cincinnati, his old home, to do some

of the back trimming in the mirror. N. S. SUGIS UIJ GUULS GU. "Well, it doesn't look like a last year's hat, anyway."-Judge.

#### LOCAL BREVITIES.

Miyama was put on trial yesterday before a jury in Federal court on a charge of importing women for purposes of prostitution. He is defended by J. W. Cathcart.

Subpoenas for twenty persons, in connection with the Turk case, were made out yesterday afternoon and will be served this afternoon, so Deputy Sheriff Chillingworth states.

Governor Dole yesterday pardone Joaquin Silva, a Portuguese, who was convicted in the Circuit Court on February 5, 1903, of illicit distilling, and sentenced to three months' imprison-

ment and to pay a fine of \$250. Each of the circuit judges as well as Judge Estee received a request from drug store goods. Remember the Attorney-General Knox for the appointment of an extradition commissioner. As E. A. Douthitt has already been appointed by the United States tion. court, no action will be taken by the Territorial judges.

Secretary Carter is still overrun by Chinese who want the Chinese fund deposits. Yesterday he placed under arrest one man who was believed to be impersonating another in order to get the money. Carter believes that there have been a number of fraudulent applications by Chinese.

Supt. Cooper yesterday opened bids for a seven-ton and five-ton roller. They were as follows: Grimwood, Richardson & Holloway, \$3,200 and \$2,490, also \$2,887 and \$2,197, delivered in seventy days; W. E. Rowell, \$2,650 and \$2,050, delivered in five months; Henshaw, Bukley & Co., \$3,715 for seventon delivered in sixty days; Julius Schol & Co., \$2,993 and \$2,337.

## THE CORNER GROCERY.

The Famous Fun, Making Play Presented This Evening.

The "Corner Grocery," long famous as a laugh-maker, will be presented this and tomorrow evening at the Orpheum. All those who have read and roared over "Peck's Bad Boy" and the "Bad Boy's Diary," will remember the corner grocery which used to regular-Ladies will find a complete line of ly send in a bill to "Dad" for the

It is this grecery that is made the scene of the play. The "Bad Boy" is in evidence and with a typical Dutchman, played by Lando and an Irishman, Corrigan, his pranks furnish comedy combinations that are made Party advertises in today's issue for the subject of mirth provoking situa-

# A KIPLING

The audience, which gathered last evening in the Sunday School room of St. Andrew's Cathedral, was entertained with an intelligent interpretation of Kipling's works. It was truly 'An evening with Kipling," and those who had hitherto failed to catch the spirit of the Kiplingesque humor, went away charmed. Not alone was the interpretation of the British poet and author given in recitation but there were tableaux and songs.

The room was decorated with banana stalks with wide flaring leaves, palms and the paratite vine, giving the interior a tropical touch in consonance with the spirit of most of the selections. One end of the hall was marked by draw curtains, and where the two parts met, there was exhibited an excellent painted likeness of Kipling, the familiar picture of the writer in his closebuttoned white coat. This was the work of Harry Couzins. The tableaux presented during the evening were under the direction of Mrs. Camp and Miss Annie Parke, artistic conceptions of jungle and hill life. Several shadow pictures, the excellent handiwork of Mr. and Mrs. Harry Couzins, afforded the audience much amusement. The sketch work was clever and was warm-

Mr. George Davies was the introducer of the program numbers and the persons who interpreted the selections. Mr. Davies spoke of Kipling as a master of poetic and prose description, a writer who had been able to suft the moods and temperaments of readers in every clime. Mr. Davies' running account of the shadow pictures and of the poems as each person was introduced. was interesting in itself, and provoked frequent applause. The first number was a shadow picture showing how the elephant got his trunk, a humorous suggestion by Couzins taken from Kipling's jungle series. Mr. D. W. Anand "Fuzzy Wuzzy," and was followed by Dr. Humphris who read in his delightful manner, "Paget, M. P." The readings of both Dr. and Mrs. Humphris were the more interesting by reason of the true British accent which DOUBLE store in Day Building. Will Commercial Advertiser by the Government Survey, Published added not a little to the value of the interpretations.

The tableau, "The Tomb of his Ancestors", was an excellent jungle picture in which banana stalks, the peculiar trailing parasite vine, broad-leaved taro plants were used to form a shady 9 30.11 30 03 69 80 0.05 68 3-5 NE 3 10 30.12 30.03 65 80 0.05 68 3-5 NE 3-1 11 30.06 30 02 69 78 0 02 70 8.3 NE 2 0 12 30.07 30 00 68 81 0 00 76 4 NE 3 13 30 10 30 04 70 80 6.05 71 5 NE 3 5 14 30.06 29 98 71 81 0 01 69 3 NE 3 5 14 30.06 29 98 74 81 0 01 69 3 NE 3 5 15 30.04 29 98 69 81 0 00 57 7.3 SENE 1-0 jungle retreat with a tiger in hiding. The effect was quite startling. Mrs. Faraday sang "My Lady of the Snows" in an exquisite manner. The reading of "His Wedded Wife" by George C. Potter was one of the humorous hits of ever, and for standard gravity of Lat. 45. the evening. "Mowgli and the Wolves" was another fine shadow picture. The Dillingham quartet rendered "On the Road to Mandalay" so well that they were compelled to give as an encore, "The Mulligan Musketeers," the only un-Kipling feature on the program.

The tableau, "The Woman of Shamlegh", was presented with Miss Bernice Kopke posing in a jungle scene. Miss Kopke was effectively garbed in Oriental dress and made a charming Hindoo woman. Mrs. Dr. Humphris RAILWAY. Wife", in a pleasing manner. Dr. Humphris recited the laughable "Pink Dominoes", and Hugo Herzer added to his musical laurels by singing "Danny Deever". The entertainment closed with the singing of the Recessional by The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Isaac Dillingham.

## An Early Railroad Strike,

ing that of the meridian of 157 degrees 30 There were no labor organizations minutes. The time whistle blows at 1:30 during early rallroading. Each man p. m., which is the same as Greenwich, \$ settled his own case, though perhaps hours 0 minutes. Sun and moon are for the following account may go to show that even strikes were not unknown factors. Two Irish laborers concluded to introduce one, in hopes of obtaining an increase of pay. So they called on the superintendent and said:

"Mr. Superintendent, we've struck." "Get out," said the official, and with that he seized a chair and drove then from his office; and, strange, to relate, the men returned at once to their work without further protest.-National.
