Save the Children

By Purifying Their Blood

HOOD'S Sarsaparilla makes Pure Blood, Cures Scrofula, Etc.

My experience with Hood's Sarsaparilla has been very effective. My little girl, five years old, had for four years a bad skin disease. Her arms and limbs would break out in a mass of sores, discharging yellow matter. She would scratch the eruptions as though it gave relief, and her eyes were sore.

Two bottles of Hood's Sarsaparilla caused the eruptions to heal and the sores to close, and the skin became soft and smooth. As a family medicine, Hood's Sarsaparilla is the best.

A Parrot That Attacks Sheep.

New Zealand has a kind of green parrot called kea that attacks sheep and is held up by evolutionists as one of the most striking instances of rapid adaptation on record.

Mr. Wallace has argued that it descended the forests and its natural food of berries, first for the pickings of the slaughter-house, then for the live sheep, and finally, by an extraordinary refinement, it now only strikes for the delicate fat around the sheep's kidney.

A New Zealand sheep farmer has lately brutally demolished this fable. The kea, he says, is only found above the forest line, and does not feed on berries, but on the lichenous stones; it did not train itself to eat meat, but probably only took to it by accident, mistaking the long hair of unshorn sheep for lichen. It never touches the kidney, but only wants blood, and strikes sheep far back, not to reach a special delicacy, but because the sheep cannot reach it. The only fact left the evolutionists is that the parrot sometimes kills sheep.

Lincoln's Laugh.

He had a great laugh—a high, musical tone—and he had learned to tell a story which particularly pleased him.

He would walk up and down the room, with one hand on the wall of his back and the other rubbing his hair in all directions, and make things ring with laughter.

Lincoln has great fun as a story teller, and yet under all his humor and all his laughter he was tender, sensitive, romantic, oftentimes sad.

He appeared hard and practical, and yet no man ever lived who needed and craved sympathy more than Lincoln.

He was strongly social in his nature and liked people rather than places. Like all men of the highest order, he was a lover of the human race, fearing nobody, he hated none. He would oppose man to the devil, but would never hate him.

—Senator Voorhees in Kansas City Times.

Cottage Cheese.

Most men will tell the story of the cheese that was made in a bag and let it drip six hours without squeezing it.

Put in a wooden bowl, chop fine with a wooden spoon, salt to taste and work to the consistency of soft putty, adding a teaspoon of butter as you proceed. Mold with your hands into round balls and keep in a cool place. It is best when fresh.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. & B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

Let the trade talk, if any at all
is to be maintained, be more reason-
able.Mr. W. R. Castle will have the
consolation of knowing he is not
the first man who talked too much."Beware of the awful fate of
the water drunkard!" is the way
they warn against cholera contagion
in San Francisco.It is hoped for the sake of Ho-
nolulu that direct cargoes from the
coast to new ports on the other
islands will be the exception rather
than the rule.The town shows a remarkable
weakness for the filthiest story.
It glazes over the most absurd
rumors just as San Francisco rolls
the sweet morsel of the miserable
Durrant trial under its diseased
tongue.By the death of Poomakelani
there passes away a Hawaiian
woman held in the highest esteem
by all. She loved her people and
was always exerting herself in their
behalf. In return the princess had
the unreserved regard and aloha of
the entire race.It would not be out of the way
at all for the Government to under-
take to supply fish. Let the un-
contaminated article be secured and
handled by officials. Any other
system would tend to encourage
the methods of monopoly. The
strict taboo on a home article is a
hardship to many foreigners as well
as to all the natives. It does seem
that with a little effort in the direc-
tion of management this really im-
portant matter of fish could be
easily and satisfactorily arranged.There has been another case of
the Hawaiian cholera. The victim
is an aged inmate of the insane
asylum. This institution is in an
infected district. It is surrounded
by tar patches irrigated from con-
taminated sources. The case is
plain as a suicide, a shooting, a
railroad or building accident. Than
any of these it is no more threaten-
ing to the health of people here or
elsewhere. Very soon now the
possibility of another case of taro
patch cholera will be removed. The
polluted waters are being attended
to very thoroughly. Even the
growing taro is being destroyed.
The many springs in that locality
are posted kapu and are guarded.
The asylum inmates will be kept
from the fields till the cleansing is
finished. This man took on the
infection five days before he was
stricken.The Nuuanu stream trouble will
not down. Every day new difficul-
ties and new problems confront
those wrestling with the project.
The matter of expense is ever pres-
ent. This involves dealing with
scores of people. Then the engin-
eers, the sanitary experts, the
contractors and the laymen offer var-
ying plans requiring money of
amount from within the allowance
to ten times that sum. The sug-
gestion brought forward by THE
STAR, and given again on a local
page, is from practical men and has
met with favorable consideration.
Its strong point is that it will ob-
viate the necessity of extensive
purchase transactions by the use of
land now owned by the Govern-
ment. It should be evident and
probably is evident to every citizen
that here and now in the life of Ho-
nolulu and Hawaii this stream must
be purified and placed under con-
trol. In its present condition it is
a menace to health and a dragging
weight on the train of progress.Once more a plea is made for the
business men of Honolulu. The
Health Board is not giving them the
consideration which is their
due. Repeatedly at meetings all
members of the Board have agreed,
each speaking for himself, that
there was absolutely no danger or
risk attending the shipment of
goods. Then, and without other
reason than flimsy sentiment, the
Board regularly votes to postpone
even consideration of a partial re-
suspension of traffic. This may be
all very well from some mysterious,
unexplained standpoint. The
Board members may be satisfied in
their own minds with the conclu-
sions they have reached. But how
about the merchant who hasn't
been able to send a thing from his
stock for six weeks and who sees
trade slipping from his grasp? How
about the heavy proportion of the
community having its days of prop-
erty or adversity regulated by the
big and little houses? How about
the small dealers who have expen-
ses piling up and with whom the
absence of receipts conjures up a
vivid outlook of ruin? How about
the scores upon scores of people
who depend on tourists patronage?
How about the schools? Are all
these to suffer on account of indeci-
sion? Is the present and discourag-
ing condition to continue when it
is a positive fact that there is no
epidemic here?

THE BICYCLE WAS POISONED.

Peculiar Effects of the Bite of a Large Rat-
Snake on a "Bike."To our ears there have come many won-
derful rat-snake stories, painted with the
glowing colors of truthfulness, but never
in our long experience has such a one as
here related been reported.It is an entirely modern make story, and
it relates the old story of a rat snake
biting a bicycle. It is a story of a
bicycle snake story—a snake story that
would make the hair rise on a tiger's back
and make Bill Nye turn green with envy.But it is a true story and one which is
good looking and truthful. While telling
the adventure to us his soft black eyes
glazed and his black mustache bristled."I took a ride on my bicycle," said he,
"on an embankment near Anahulu. The
sun was blazing down at a South African
rate. Working on my trusty steed the way
home, after a good long ride, suddenly my
attention was drawn to an object in the
distance of immense proportions. Coming
nearer I soon saw that it was a large rat-
snake."Return I could not, neither was I will-
ing if I could, and I supposed that by this
time the snake had "discovered" me, for it
lay silently in my path. As I approached
nearer and nearer it coiled tighter and
tighter for battle. On seeing this I of
course formed my plan for action also.There was no escape, and as quick as light-
ning I rode over the rattler to rattle no
more. His snakehood rebounded as if he
were made of rubber."I glanced hastily over my shoulder and
saw a disjunct mass. I then knew that I
had killed the reptile. It was not long
before I found the place of the bite of the
snake on my leg. It was a dark, dull, blue color overgrowing
my once magnificent and shining wheel.
Since then the pneumatic tire has decayed
so that I had to have it completely over-
hauled. The cause of the complete disrup-
tion of my prized wheel is that the snake
in its rage sank its poisonous fangs in the
tire, thus causing the poison to spread all
over the cycle.""On going back to the scene of the com-
bat a few days later I found the dead bones
of my antagonist and 24 large rattles, the
snake measuring exactly 8 feet and 6 in-
ches."—Millen Herald.

Revealed by Death.

"Life is perfected by death," and it is also
revealed. A story told in the "Life of Sir
Richard Burton" illustrates the clearance
with which death reveals a man to his com-
rades.A lieutenant in a British regiment was
honest, steady, quiet and full of sterling
qualities, but he was dull, reserved and
religiously inclined. His brother officers
laughed at him and associated but little
with him. Though well born, he was poor
and had no powerful friends. He therefore
remained without promotion or society, but
he never complained and did his best.A battery was to be taken to the Crimea,
and the lieutenant's regiment was selected
as the storming party. It assembled and
was driven back. The lieutenant rallied his
own company, and with a laugh flung his
shako before him and rushed through the
breach into the battery, followed by a hand-
ful of men. They never came out again.That night at the regimental mess there
was not a man but regretted that he had
not better understood the officer whose gall-
ant death had revealed his superiority. All
remembered a thousand good qualities and
incidents which ought to have endeared him
to them. They were ashamed of the con-
tempt with which they had treated him and
of the fact that they had never shown him
the least kindness.—Youth's Companion.GHEW

COMING
WOMANWill probably carry life insurance
to protect her husband and chil-
dren when the bread winner is
gone, and thus prevent the poor,
weak man from having to battle
with the cold, hard world.Even today, many women
need life insurance as much as
men. Some women need it more
than men. A man dies and leaves
his wife, who will probably be
able to provide for the children.
A widow leaves no one to protect
and care for the little ones. In

AT THE ASYLUM.
Another case of sickness from Typhoid infection.

Another case of cholera was reported last night at the Insane asylum. The name of the victim is Wheeler and he is supposed to have drank water from one of the infected tap water in the neighborhood of the Asylum. This is believed to have occurred on Saturday morning and the case only developed last night. Wheeler is a matured man in age and at a late hour last night there were very slight chances of his recovery. There are now eighty-eight cases, seventy-six of whom are Hawaiians, four Americans, two Portuguese, one Chinese, one Japanese and three Hawaiians.

Go to the Women's Exchange, 111 King street, for home made pie, cake, bread, etc. Also fine Hawaiian and Portuguese work, curio, flowers, pictures and fancy articles.

Y. P. S. C. E.
At the meeting of the Y. P. S. C. E., held in the Central Union church yesterday evening, Miss Grace Richards was elected president and Miss Ethel Rice recording secretary. The junior branch elected Lyle A. Dickey as president. Rev. Dr. Birnie was present throughout the meeting and made suggestions which were much appreciated by those present.

That Tired Feeling
Is a dangerous condition directly due to depleted or impure blood. It should not be allowed to continue, as in the debility it is especially liable to serious attacks of illness. Hood's Serravallo's is the remedy for such a condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients.

Provisions for Waianae.
A train was run to Waianae today with provisions for the people at that place. It is said that bags of rice were selling at \$15 and \$16. As soon as the quarantine was raised yesterday the Waianae people ordered provisions and a train to carry them to Waianae.

THAT JOYFUL FEELING.
With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not experienced it. The old time medicine and the cheap substitutes sometimes offered but never accepted by the well informed.

NEWS IS A MYSTERY.

Watch the show window at The Temple of Fashion.

The board of Health will meet this afternoon at 3 o'clock.

The sale of Government lots on the esplanade has been postponed.

Two mounted patrolmen have been discharged for unbecoming conduct.

Two Portuguese boys were fined \$5 each for malicious injury in the District Court today.

Tomorrow morning at ten o'clock Morgan will sell an invoice of new furniture at the store, 410 Hotel street.

It is believed the jurists who will sit on the bench at the trial of the Japanese, which a Japanese has proposed to introduce into the court, are aboard the Rio de Janeiro.

The young ladies and gentlemen who will attend the new high school are particularly anxious for the opening day.

A number of prominent Government officials this morning reviewed the site of the proposed stream walls and earth filling.

Frank Poor, purser of the steamer Likelei, is mixed up with the Board of Health regulations by neglecting to get a permit to move.

The second cholera bulletin was sent from the Foreign Office yesterday to all consuls of this Government in other countries.

Rev. T. D. Garvin's new church cannot be completed till the winter arrives from the Coast, per sailing vessel now on the way.

KINDERGARTENS.

An Incorporation—Public Meeting—Work Being Done.

The Free Kindergarten and Children's Aid Association has received a charter of incorporation, so as to have a legal title to the control of invested funds and other property. The Association will hold a public meeting tomorrow morning in the Y. M. C. A. hall at 10:30 o'clock for the election of officers and committees. All members of the Association are requested to be present, and all others interested in Kindergarten work are cordially invited to attend.

The Association has five Kindergarten in operation. The Chinese Kindergarten, the first ever opened, is in the basement of the Chinese Church. The Portuguese Kindergarten, has its own building on Miller street. The Hawaiian, the Japanese, the Foreign, have their rooms in Queen Emma Hall, which is also the headquarters of the Association, the Teachers' Training Class, and the Women's Kindergarten Club. The Kindergarten will open at the same time as the public schools.

U. S. Sanitary Inspector.

Dr. C. C. Ryder, who has recently entered on practice here, and who served as a volunteer through the epidemic, has been appointed sanitary inspector of the United States marine hospital service for this port. Consul Mills made the selection and the latter and the doctor have a big day's work with the Australia yesterday. Dr. Ryder will also act as medical examiner for the Y. M. C. A. gymnasium.

WAS A CHARACTER.

The Insane Asylum inmate Taken to the Hospital.

The second insane asylum inmate adjudged to have cholera gives his name as William Henry Harrison Hiram Wheeler. He is quite a character, just crazy enough to be at times interesting and generally obstinate. With others he has been in strict quarantine since last Saturday. On one occasion before, he assaulted an attendant who tried to stop him from drinking hydrant water. For this he was locked up in a chair till he surrendered. Wheeler was re-writing the Bible. He said the accepted edition was full of mistakes. Besides this he had constructed a model of a warship to demolish the navy of the world. Wheeler claimed to be the son of George Washington. The patient has been very contrary at the hospital. He refused to swallow medicine. Though aged, the man had quite a rugged constitution.

It is a strange thing that the yesterday for San Francisco, the following unusually large mail was taken from the post office: 12,304 letters and 4933 papers. It is said to be the biggest mail ever despatched at one time from the post office.

Chinese Celebration.

The Chinese residents celebrated yesterday the fifteenth day of the eighth month of the moon, in the twenty-first year of the reign of Emperor Kwong Su. The celebration during the day was quiet, but as soon as the moon arose in the evening fire-crackers and bombs were exploded and a general good time was had. More especially was this towards Waikiki, where bombs were fired up to nearly midnight. The merchants gave din-ners at which invited guests were present.

Resolutions were presented by Mr. Rina. The petition is in effect a representation to the Board of Health of the changed condition with relation to the public health, and a mention of the hardship to merchants. It is requested that there be permitted the shipment of all American and European goods from Honolulu, as well as Hawaiian produce.

The petition will be taken up at the Board of Health meeting this afternoon at 3 o'clock.

Kauai Contingent.

Geo. H. Fairchild, Rufus Spalding and the number of other Kauai people who have been "on the island," celebrated the ending of quarantine last night. They set off fireworks and had a general good time.

Committed and Bailed.

George Houghtaling was committed to the Circuit Court for trial by Judge Perry today on the charge of perjury. Houghtaling was fined for selling liquor without a license recently and fined \$100. During the progress of the trial the defendant testified that two others men mentioned were not in the room. Witnesses for the prosecution swore they had seen them however. Hence the arrest and trial for perjury. The bond was fixed at \$1,000. Bondsman were easily secured and Houghtaling is again at liberty.

Hilo IS OPEN AGAIN.

WILL RECEIVE ALL CERTIFIED FREIGHT FROM HONOLULU.

Allowed steamer Men Ashore—Landings on Maui and Hawaii—Steamers and Kilauea.

Resolved, That the S. S. Claudine be allowed to proceed and discharge her freight at any port of the Island of Hawaii without further fumigation, and that any vessel from the port of Honolulu having a clean bill of health (from the Board of Health) be permitted to land her freight at any port on this island without further fumigation.

The foregoing was unanimously adopted at a meeting of the Hawaii Health Board on September 26th. Sheriff Hitchcock was in the chair. In letters to W. O. Smith the Hawaii people only urge that the utmost care be taken and that the matter of allowing travel be considered in all its bearings. Mr. Smith was more than pleased with this news from Hilo. He intimated this morning that the way to a clearance was now opening up and that there would be great caution as to both passengers and freight. There will probably continue to be a quarantine for passengers.

THE STAR'S advice per Kilauea Hou are even more encouraging than the above and are as follows:

The Hilo quarantine was raised on Saturday evening last, September 28, after arrival of Kilauea Hou. A special meeting of the Committee of Safety was held. It was then voted to permit Kilauea crew members ashore on necessary work, but not to mingle everywhere.

No difficulty was experienced by the Kilauea Hou in landing. Chinese laborers or freight on Hawaii and Maui were not allowed.

Hilo people praise and congratulate the Honolulu Board of Health on their grand work in stamping out the plague.

HE SEES ODDITIES.

Comment of "An Old Sailor" on home of the late Walter.

EDITOR, STAR—I saw yesterday's "Advertiser" that the "philobuster" bogey had got loose again, and am very sorry that it happens so, for if this industry booms periodically as heretofore, it will make its place in the front rank with the saw dust, green goods and cheap swindles and frighten the usual number of old ladies in breeches and become a standard article in the news market.

The whole thing reminds me of an alteration I once witnessed between two rogues (which collected a crowd) and gave their confederates in rascality, an opportunity to mix with, and pick the pockets of the public.

I saw by the papers also that some of our Solons deem the fencing in of the Nuuanu stream (or the fencing out of the disease) a necessary measure. I would say, Fence it in by all means and hang the expense.

We want to be famous, and as we have no ancient history to speak of let us go thundering down the ages as people who were quite as wise as our old countrymen, and the men of Megavizig in Cornwall, who advertised their intelligence by covering their town with fishing nets to keep a former cholera epidemic out. The measure may have been effective, but the filibuster story may have some foundation in fact, as THE STAR recently suggests, but both items look mouldy and belief in them seems rather odd to an

CHAMBER OF COMMERCE.

That Body Petitions for a Mitigation of Quarantine.

An important meeting of the Chamber of Commerce was held this morning. President F. A. Schaefer was in the chair. F. M. Swanzy acted as secretary in the absence of J. B. Atherton. There was a good attendance of prominent business men.

President Schaefer stated the meeting was the outgrowth of informal talk among the members who believed that the strict embargo on traffic was no longer warranted. It was plain that the epidemic had ceased and that any sickness now was merely local, not dangerous to others and not sufficient pretext for suppression of traffic.

Resolutions were presented by Mr. Rina. The petition is in effect a representation to the Board of Health of the changed condition with relation to the public health, and a mention of the hardship to merchants. The foregoing was unanimously adopted at a meeting of the Hawaii Health Board on September 26th. Sheriff Hitchcock was in the chair. In letters to W. O. Smith the Hawaii people only urge that the utmost care be taken and that the matter of allowing travel be considered in all its bearings. Mr. Smith was more than pleased with this news from Hilo. He intimated this morning that the way to a clearance was now opening up and that there would be great caution as to both passengers and freight. There will probably continue to be a quarantine for passengers.

THE STAR'S advice per Kilauea Hou are even more encouraging than the above and are as follows:

The Hilo quarantine was raised on Saturday evening last, September 28, after arrival of Kilauea Hou. A special meeting of the Committee of Safety was held. It was then voted to permit Kilauea crew members ashore on necessary work, but not to mingle everywhere.

No difficulty was experienced by the Kilauea Hou in landing. Chinese laborers or freight on Hawaii and Maui were not allowed.

Hilo people praise and congratulate the Honolulu Board of Health on their grand work in stamping out the plague.
