## FOREIGNERS TO DIE TOMORROW

### MORE JAPANESE WANTED IN CALIFORNIA

## GOD'S PARADISE CAPTAIN BASTO NAMES HAWAII

"I have seen many countries in the world, and have visited many tropical climes, but I will never forget as long as I live the happy days spent in this beautiful land," said Captain Basto just before the Portuguese cruiser S. Gabriel sailed today.

"The hospitality shown to the officers and men, as well as myself, will be a sweet memory to me as long as I am able to remember, and it is my sincerest wish that God will spare me so that I will once more have a chance to spend a few days in these beautiful islands which are certainly God's paradise.

"I have heard a good deal about Hawaii in the past, but what I was told does not express the real truth about this heavenly place. I want to thank everyone in Hawaii for the way they have received my officers and men, and I hope that it will not be long before the naval department of my country orders me back here again."

With Berger's band playing the stirring national anthem of Portugal and ending with the Star Spangled Banner, the officers and crew of the cruiser San Gabriel standing at attention, the first warship under the Portuguese flag ever in Hawaiian waters departed at noon today for Yokohama and other ports in the Far East.

All morning members of the Portuguese community were swarming to the ship to say good-bye to the officers and men, and by the time the lines were cast off fully two thousand people were on the naval wharf.

A company of marines was drawn up at attention to give Captain Pinto Basto an official salute, the marine guard of the cruiser returning the honor. The ship will not be driven at her best speed to Yokohama, the trip taking about fourteen days, as drills, etc., will be the order of events on the way across the Pacific.

## CRYING NEED FOR JAPANESE ON THE FARMS

(The Associated Press.)

SACRAMENTO, Cal., May 29.—Some form of unskilled labor, such as is now represented by the Japanese, is essential for the continuance and development of the specialized agricultural industries of California.

This is the broad conclusion of the report of the State Labor Commissioner just submitted to the Governor, on the Japanese in California and which was prepared after over a year of careful field work by a corps of special agents among the farms employing Japanese. The investigation was authorized by act of legislature just after the anti-Japanese agitation in California in 1908-1909, and the report consists of over 200,000 words exclusive of a mass of tabulated statistics.

The so-called Oriental problem in this state is thoroughly discussed in the report and after searching inquiry into all economic and social conditions the commissioner finds that some form of unskilled labor, capable of independent subsistence, quick mobilization and entailing no responsibility upon the employer for continuous employment, is absolutely necessary to California's field, orchard and vineyard industries if these vast enterprises are to be perpetuated and developed. The report is of the opinion that the Japanese are second only to the Chinese in meeting these requirements.

As to the complaints heard against the Japanese in the districts in which they are employed in great numbers, the report states that they arise largely from the attempts of the laborers to secure higher wages. It is pointed out, however, that there are few complaints of this character except in such districts as are dominated by the Japanese laborers by virtue of their numbers and the almost absolute dependence of the growers upon them for the harvesting of the crops in the short time the seasons allow for the work. The average duration of employment on farms is

less than two months in the year. In this connection the report points out that the Japanese have learned that they can make much more money out of contract laboring than working for daily wages. The rough average wage in the fields, orchards and vineyards is given at approximately by \$1.50 per day. Under the contract system the laborers are able to make from \$4 to 7 per day. From this they have passed to a more liberal form of contract, working together on shares; to growing crops on ground held by them under cash rental and in comparatively isolated instances, to actual ownership of the land.

"Japanese ambition," says the report, "to progress beyond mere servility to the plane of the better class of American workmen, to own a home, to operate industries, to be master and not slave, is of the same quality as that of the Italian, the Swiss, the Portuguese, the Russian, with whom he competes, and is in line with the ambition of that type of American who will not compete with him. The moment that this ambition is exercised, that moment the Japanese ceases to be an ideal laborer."

Of the character of the Japanese laborers, the report states that they can education, the report speaks in high terms. Of the responsibility and reliability of the Japanese, contractors, small contractors, sub-bosses or laborers, the report states that they do not compare unfavorably with white men in the same stations. As to the individual Japanese laborer as compared to the typical class of white laborers now in the field and available for the work, the report discloses that the higher standard is that of the Japanese.

Of the Japanese grower, whether land owner or leaser, it is stated that he is found to be of a very high type. The investigators found that the land owning Japanese desired to make his home in this country, that he at once

(Continued on Page Eight.)

## CHINESE FANATICS PLAN TO SPILL ALIEN BLOOD

(Associated Press Cable to The Star.)

PEKING, China, June 2.—An outbreak of the anti-foreign element in Nanking is threatened for tomorrow, and great excitement prevails here among the American and European residents. The exposition at Nanking is scheduled to open tomorrow, and this is to be taken as the occasion for a demonstration against all who are foreigners. Throughout the city there have been placed placards inciting the anti-foreign fanatics to murder and destruction, calling upon them to kill all who are not Chinese, and to burn and destroy all property belonging to foreigners. Even the walls of the American consulate, during last night, were defiled by the placarding of these notices and threats.

The Chinese were responsible for this outrage, and they are declaring that death shall be meted out to all Americans and Europeans found in the city tomorrow. White merchants have fled the city, believing that their lives are not safe. They have buried what treasure they had, expecting to be able to regain their wealth when this trouble has passed over.

A United States gunboat and German and Japanese gunboats, now on Peiho river, are prepared to land troops and to take concerted action if it becomes necessary to protect the various consulates. It is not believed, however, that the uprising will spread to this city.

## WINNE'S HANGING

A mandate was this morning received from Washington in the Sierra mall by the local Federal authorities to the effect that the case of Winne, who killed Engineer McKinnon of the oil steamship Rosecrans is continued until June 13 when Judge Dole will set the date for Winne's hanging.

Winne has been in jail several years and was guilty of a brutal murder when he was under the influence of liquor. There has been a strenuous fight put up in his behalf, to save him from the gallows, but in vain.

KNOWN THE WORLD OVER.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. For sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

## Wills

Prepare your Will today for Tomorrow you may die.

The advantages of leaving a Will are many.

With our assistance its preparation is easy.

**Hawaiian Trust Co., Ltd.**

923 Fort Street.

## TRANSPORT'S GOOD TRIP

Reporting fine weather most of the way from Nagasaki, the U. S. A. T. Sherman arrived at her wharf a little before eight this morning. One of the largest lists of passengers ever carried on an army troopship is being carried this trip, a total of 1,386 souls exclusive of the crew are on board.

Colonel Edwin D. Bolton of the 4th Infantry is the commanding officer on board. The 4th Infantry is going to the Presidio at San Francisco. Seventy five marines from Cavite are for Camp Verry. The men presented a fine appearance as they came off the big ship.

Forty one passengers will depart this afternoon on the Sherman when she sails at five o'clock.

## PRISONER ESCAPES FOR SECOND TIME

Louis Martini, who escaped the other day from the old fishmarket prison gang and who was recaptured after several days of liberty repeated his trick again this morning from the same place and is at large.

As soon as word was received of his escape officers started out after him, but up to two o'clock have received no clues of his whereabouts.

Martini received an additional 3 months on May 25, and this time when recaptured will no doubt receive more.

## SATURDAY MORNING BARGAINS.

To encourage early buying next Saturday the Sachs Dry Goods Co., offers some very tempting bargains for Saturday morning. See ad in this issue. Store closes at 1 o'clock.

## NEW RICE MILL.

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

## All Officials Are Exonerated

In tomorrow's mail to the mainland States there will be forwarded the report, or a statement of the Federal grand jury in regard to that body's investigation of the allegations of recent Russian immigrants to the effect that they were not treated as they should be after arriving here, and that they were deceived in the process of their being brought here.

The report is supposed to be private, that is, it is not publicly filed here, although there is in reality nothing of a secret nature about it.

It has been prepared for the mail and will be forwarded to Washington.

That it completely exonerates all local Federal and immigration authorities has been before intimated. The name of Perelstous, the agent with Jack Atkinson for soliciting the immigrants, is not mentioned.

No blame is attached to local authorities and the nature of the report is highly complimentary to local agents in regard to this immigration scheme.

If there is any fault, then those who are to blame are neatly white-washed; and if there is no fault, then justice is done to those who have been unjustly held responsible for alleged trouble.

## HAVEMEYER GETS BLAME FOR SUGAR WEIGHING FRAUD

NEW YORK, June 3.—Secretary Heike, of the American Sugar Refining Co., has testified and denied that he is in any way to blame for the underweighing frauds. Present indications are, through statements made in the proceedings, that Havemeyer is responsible for the systematized cheating of the government out of revenue.

## LABORERS STONE ROYALTY.

(Special Cable to The Star.)

DETROIT, June 3.—The reigning prince, Leopold, and his brother Julius were stoned today by Italian laborers while motoring. Julius was wounded in the head.

## WITHDRAWING TROOPS.

WASHINGTON, D. C., June 3.—The governments of Ecuador and Peru are withdrawing their troops from the frontier in compliance with the mediation proceedings.

## TO REFLOAT THE DEWEY.

WASHINGTON, D. C., June 3.—It is expected that the floating dry-dock Dewey which was sunk under

questionable circumstances will be floated again by the twentieth of this month.

## TAFT ATTACKS SOCIALISM.

ADA, Ohio, June 3.—President Taft, delivering an address here today to the graduating class of the Ohio Northern Institute, denounced muckraking and socialism in the strongest terms.

## SHARP SIGNS

Signs Of All Kinds. Scenic  
Work, Decorating, Graining  
Paper Hanging, Etc., Etc.ATLANTIC CITY  
HAWAII EXHIBITFollowing in part is acting secre-  
tary W. J. Cooper's weekly letter to  
the Hawaii Promotion Committee yester-  
day:

We have learned indirectly through the Hawaiian Pineapple Company that our Atlantic City exhibit opened on Saturday, May 21st. Mr. Wood had promised to cable us on the day of opening but he has failed to do so, probably having forgotten it in the rush of work, which I know is almost overwhelming him. We received five letters from him by the last two mails, all of which were very brief and related to orders for supplies. I have been busy all week getting together a large consignment of tapas, fans and a miscellaneous assortment of Hawaiian curios, and I learn from Mr. Dole of the Hawaiian Pineapple Company that Mr. Wood has lately placed a large order for pineapple products with their Eastern agency. The Pineapple Company's information concerning the opening of the exhibit was received in the form of a night "telegram" from their New York representative, and while it relates to the outlook for their products, also indicates that there is no question that the venture will be a great success. The message is as follows:

"Hunt Brothers Co., San Francisco, Cal., May 23, 1910.

"Atlantic City opening day Saturday proved sure popularity of juice. Nearly four hundred drinks served. Number came back several times. Some afterward bought bottles. Some buy two drinks at once. Day cold gloomy but good class people present and greatly interested. Pineapple eating starting slowly but juice popular immediately."

We shall have our new quarters on the Alakea Street wharf open in time for the Nippon Maru due from the Orient tomorrow or Saturday. The arrangement of the furniture and decorations will not be fully completed but we expect to have a portion of the large signs in place and to be able to furnish general information to passengers as they arrive. It is the intention to have the rooms open during the time trans-Pacific steamers are at the wharf, and in charge of one of our office force.

Letters by the last mail from Mrs. Headlee indicate that she is getting located in her new headquarters in Seattle and that the outlook for our work in the Northwest is exceedingly bright. On her way North from Los

Angeles, Mrs. Headlee gave a lecture in Portland, which was largely attended and already she has more calls for her illustrated lectures than she will be able to handle.

During the past month we sent out 10,000 post cards to high school teachers in a large number of the more important states west of the Mississippi, calling attention to Hawaii as a place for spending a vacation. Already we are beginning to hear from some of these and I am sure that we shall realize results in an increase of the summer travel to the islands.

For several weeks we have been sending a circular letter together with one of our folders, to prominent members of automobile and golf and country clubs throughout the United States. These letters call attention to Hawaii's splendid roads and matchless climate and the advantages offered to automobilists and lovers of outdoor recreation. We shall probably send about 10,000 of these letters within the next few weeks.

## AT THE THEATERS

The downtown theaters were unexpectedly and unusually well patronized last evening for a mid-week occasion, most of them being comfortably filled nearly all the time, while the Empire, Park and Novelty ran very close to the "standing room only" point several times. Considering that the big Royal Hawaiian called for a large house, this showing was by no means bad.

## EMPIRE TONIGHT.

At the Empire for the balance of this week the features will be, "Up San Juan Hill," dramatic; "Late for recital" and "Paleface wooing," selected; "Heart of a clown," dramatic; "Wonderful electric magnet," comic; "Convenient lamp-post," a farce.

There will be the usual vaudeville features.

## HAWAIIAN SCENES.

A specialty is now being made at the Bonine of island views, taken by Eddie Fernandez on his recent tour. A side series of interest to the Portuguese colony shows the crew of the San Gabriel at their picnic at Pearl Harbor. There are also clear views

of the volcano of Kilauea in action and Honolulu happenings. The Howard sisters will reappear in interesting specialties and Mary Kaeleku will present her famous dances.

## "THE VACANT CHAIR."

Those attending the Empire Theatre on Monday night will have a big surprise in store for them.

Dainty Edythe Elliott and Charles E. Royal of the McRae Company have been secured for a short engagement and will present some of Mr. Royal's beautiful playlets.

Mr. McRae has kindly loaned these clever fun makers to the Empire and Mr. Royal has written a number of local songs which are sure to duplicate his former hits.

"The Vacant Chair" is the name of the playlet to be presented on Monday night and "Little Mandy Gates" of shore acre fame will be seen in a great child part. Edythe Elliott has recovered from her illness and will pay the part of an actress in this charming sketch.

The prices of admission will remain the same and the latest moving pictures will also be given.

## THE PARK THEATER

The famous Hood River valley, of Oregon, will be the feature film at the Park theater tonight. This film shows the great apple industry of the valley and salmon catching along the Columbia river. Some good comedies and one of the Biograph Company's best dramas will complete the picture bill. The Musical Ibsons, Carl Wallner and Miss Rhodda will continue to form the best vaudeville bill ever given here. Come early and avoid the rush.

## WOES OF SOCIETY.

She—There's Mrs. Jones walking when she has a lovely limousine.

He—I sold her next-door neighbor a later model.

The Nippon Maru will probably arrive off port a little before five o'clock this afternoon. She will be despatched for San Francisco at ten o'clock tomorrow morning.

Fine Job Printing, Star Office.

CHAMBERLAIN'S COLIC, CHOLERA  
AND DIARRHOEA REMEDY.

When you fail to provide your family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at this season of the year, you are neglecting them, as bowel complaint is sure to be prevalent, and it is too dangerous a malady to be trifled with. This is especially true if there are children in the family. A dose or two of this remedy will place the trouble within control and perhaps save a life, or at least a doctor's bill. It has never been known to fail even in the most severe and dangerous cases, and its cost is not beyond the means of any one. For sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

In The Circuit Court Of The First Circuit, Territory of Hawaii. At Chambers. Mary L. Gerst, Libellant, vs. William E. Gerst, Libellee.—Divorce.

NOTICE OF PENDENCY OF SUIT. The Territory of Hawaii, To William E. Gerst, Greeting:—

You are hereby notified that the above entitled cause is now pending before the Circuit Court above named, wherein said Mary L. Gerst prays for an absolute divorce from you upon the ground set out in the libel on file; and that said cause has been set down for trial before the Honorable W. J. Robinson, Third Judge of said Court, at his court room in the Judiciary Building in Honolulu, Territory of Hawaii, on Wednesday, the 27th day of July, A. D. 1910, at 9 o'clock A. M., or as soon thereafter at the business of said Court will permit.

By order of the Court.

A. K. AONA,

CITY AND COUNTY OF HO-

NOLULU, by Joseph J. Fern, as

Mayor and President of the Board of

Supervisors, and to ALL whom it

may concern:

WHEREAS, a petition has been presented to said Court by THE MUTUAL TELEPHONE COMPANY, LIMITED, to register and confirm its title in the following-described land:

Lot at West corner of Alakea and Merchant streets, Honolulu, being portions of L. C. Awards 162 and 163 to V. Kamamalu.

Beginning at the West corner of Alakea and Merchant Streets, from which the Government Survey Street Monument on a 10-ft. offset to the Northwesterly side of Alakea Street and an 8-ft. offset to the Southwesterly side of Merchant Street (same monument referred to in L. R. Court Certificates 82 and 181) is by true azimuth and distance 276° 17', 14 1-10 ft., and running by true azimuths:

1. 51° 03', 90 feet along Alakea Street to an iron bolt;

2. 148° 48 1/2', 60 2-10 feet along fence along portions of L. C. Awards 6506 and 162, owned by Est. of Claus Spreckels to iron bolt;

3. 234° 39', 72 1-10 feet along fence along portion of L. C. Award 162, owned by Estate of Claus Spreckels, to iron bolt;

4. 310° 51', 56 feet along Merchant Street to the initial point.

Area, 4644 Square Feet.

YOU ARE HEREBY cited to appear at the Court of Land Registration, to be held at the City and County of Honolulu on the 28th day of June, A. D. 1910, at ten o'clock in the forenoon, to show cause, if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any decree entered thereon.

WITNESS THE HONORABLE W. J. ROBINSON, Judge of said Court, this 27th day of May, in the year nine, teen hundred and ten.

Attest with Seal of said Court:

Registrar.

DANIEL LOGAN ..... EDITOR

FRIDAY ..... JUNE 3, 1910

## THE PAVING CONTRACT.

Practically the entire central business section of the city is repre-  
sented—and that without respect to party lines, although many lead-  
ing politicians have their names there—in the petition received by  
the Board of Supervisors in favor of the bitulithic paving contract.  
There are included the chief of the Republican party in the last cam-  
paign, the leader of the Labor Party and some prominent Democrats.  
For an expression of the business sentiment of Honolulu the petition  
has seldom been equalled in representative quality and unanimity.

Mayor Fern's grounds for vetoing the ordinance authorizing the  
contract are not well taken. That there would be no funds available  
for an appropriation for the work outside of the regular allowance  
for roads and bridges fixed this year was known from the inception  
of the project. The large amounts expended upon the island belt road  
contracts, in redemption of the pledge given to the voters, together  
with many other extra appropriations for roads and bridges within  
a year past—the total of such expenditures being nearly \$60,000 in  
addition to about \$20,000 a month of regular appropriations for road  
work—preclude the voting of any more special appropriations for  
roads this year. Yet the Board of Supervisors is not cutting down the  
regular appropriations for this service. The cut made for the  
three months now closing was only to bring the expenditure on roads  
and bridges back to the original estimate submitted at the beginning  
of the present half-yearly period, which was jumped by the Board in  
a burst of liberality to the tune of about \$30,000 increase.

Further, it was clearly the sentiment of the Board, at the first  
of this year, that, after the belt road contracts were provided for, any  
surplus of revenue was to be devoted to improving the equipments of  
the fire and police departments. So there is no misunderstanding  
with regard to the question of "new" money for paving Fort street.  
The municipality has neither a mint nor a gold mine to draw upon,  
and it has no power to negotiate a loan for public improvements.  
Hence the only reason the mayor gives for his veto which needs an-  
swering is that there are so many demands for road work pending  
that there is no money to spare for the paving of Fort street from  
the regular appropriations. This argument will not hold good, either  
in point of relative importance of streets needing attention or on  
considerations of economy. What is more important than the main  
retail business thoroughfare, the chief route between the city center  
and the steamship docks, among all the streets and roads needing  
repair or reconstruction? New highways are wanted in town, sub-  
urbs and country, it is true, but the present Board has fairly strained  
the limit of its resources in original construction, and there is no-  
thing proposed of the kind which should take precedence of the neces-  
sity of reconstructing the most traveled thoroughfare of the business  
section.

Fort street is practically gone in its surface. It is one suc-  
cession of ridges, hollows and ruts. In dry weather it is a choice be-  
tween dust—noxious to human beings and damaging to merchandise  
—and muck produced by the watering cart. In wet weather it is a  
bog from end to end of the principal store section. It is only a matter  
of a year at most when it will be an absolute necessity to reconstruct  
Fort street. Shall it be macadamized or paved with durable mate-  
rial? That is the question. Macadam of the best known type will  
not long stand the amount of traffic there is on Fort street. It would  
call for renewal within four or five years. Moreover, the cost of mac-  
adamizing by municipal labor, as roadwork goes here, would almost  
certainly approach that of the bitulithic paving under contract with a  
guarantee of five years and a probable endurance in good condition,  
with little or no repairs needed, for several times that period. To  
secure the available type of pavement immediately it is only neces-  
sary that the road committee should husband its available resources  
to the extent of setting apart three thousand dollars a month for the  
purpose during the half yearly period. There would be left the re-  
spectable amount of eleven thousand dollars a month for other road  
work in the district of Honolulu.

Fort street needs reconstruction now. It would be false economy  
to rebuild it in the old-fashioned way, when at little if any greater ex-  
pense it can have a durable and cleanly pavement.

A demand for more Japanese in California officially declared is  
one of the last things which could have been expected. If it results in  
the throwing down the diplomatic bars to Japanese immigration for  
California, in all probability a cognate effect would be a renewal of  
the Japanese labor supply for the Hawaiian agricultural industries.

The visit ended today of the first Portuguese man-of-war ever  
seen in Hawaiian waters has been a most pleasant incident at Hono-  
lulu and the other island ports at which the San Gabriel called. Not  
only have other residents taken delight in witnessing the rejoicing of  
the Portuguese people, but all who have shared in the intercourse  
with the brilliant commander, his gentlemanly officers, and most or-  
derly men will have pleasurable remembrance of the occasion. Con-  
sul-General Canavarro and the whole Portuguese colony are to be  
congratulated both on the event and the splendid manner in which  
they did the honors of according to the visiting ship and her com-  
pany the hospitality of Hawaii.

Weddings as well as funerals bid fair to be simplified if an Eng-  
lish innovation just reported makes way. This is to dispense with the  
bevy of bridesmaids, and have just a best girl to attend the bride as  
the best man does the groom. It is the idea of Miss Saffron Pickers-  
gill-Cunliffe, a British society girl, who was recently married to Ar-  
thur R. Randolph. The fair innovator certainly has, or had, an impos-  
ing name to conjure with.

There is undoubtedly soreness in Japan over the unwritten em-  
bargo upon Japanese immigration to America, "a gentleman's agree-  
ment" its being called notwithstanding. Among other adverse com-  
ments in Tokio papers upon President Taft's speech on Far Eastern  
affairs, the Yordzu advises Mr. Taft, before trying to make Man-  
churia an international buffer state, to open the Philippines and Ha-  
waii and remove the ban on Japanese immigrants. "Until he does  
so," says the paper, "he has no right to air his views."

Anything but a cordial welcome was given in California to the  
Russians who moved on thither from Honolulu. An article in the  
Sacramento Union recalls the arrival on the Pacific Coast of some  
Russians from the east coast of Asia some years ago, saying:

They were received with open arms by the people of Cali-  
fornia, who looked upon them as men who had escaped from  
the horrible prisons of Russia. It was not long, however, be-

fore they began stealing and murdering, the first of their  
murders being committed in this city, and the victims being  
an honest old German groceryman and his wife. Eventually  
the whole gang were caught, and some, if not all, of them  
hanged. They, too, were unwilling to work. They, too, had  
been deceived into believing that they could live over here  
without labor, and they, too, were as tough a collection of  
human beings as ever landed on these shores. It would seem  
that those who have come over here are little better. If the  
Hawaiian papers are to be believed, they are a lazy, immoral  
set that should never be allowed in this country. The Uni-  
ted States has homes for and welcomes all who come here to  
be good citizens, but she already has too many of the unde-  
sirable kind.

## CHILTON MAKES FIRST ARREST

Last night motorcycle officer Chil-  
ton placed J. W. Santos under ar-  
rest for refusing to light his lamps  
when he had been ordered to do so  
several times by the newly appoint-  
ed officer.

Chilton asked Santos when he or-  
dered him to stop to light his lamps  
but his requests were met with firm  
but polite refusals. This morning  
Santos told Judge Andrade that he  
was entirely within his rights he  
thought, but the court thought dif-  
ferently and as a result Mr. Santos re-  
ceived a reprimand that he will re-  
member no doubt for some time to  
come.

John Kakanawa was found guilty  
of larceny and for the next thirty  
days will remain under the charge of  
Jailer Asch.

K. Nakane was found guilty of mal-  
icious injury and was fined \$20 and  
costs.

Two drunks were fined \$4 each.  
The rest of the cases were either  
nolled prossed or continued.

The man responsible for the new  
policy of the territorial government in  
the handling of the leprosy problem,  
according to Governor Frear, was  
the late Dr. Koch, news of whose  
death was received here recently.

Fine Job Printing, Star Office.

The last passage of the bark R.  
P. Rithet from Hilo to San Francisco  
which ended on May 14 at the coast  
port took twenty three days. Captain  
Drew reported a very stormy trip the  
last five days of the trip, strong  
northerly gales making the small  
packet ship sea after sea, the decks  
being constantly under water.

Dr. Mackall recommends and the  
Supervisors have appointed Joe Rich-  
ards as milk inspector, succeeding H.  
Myhre.

## Rooming House For Sale!

If you are looking

## Announcement Service Commencing May 30, 1910

HONOLULU POWER WAGON CO. will give a regular  
daily service (Sunday included), with its sight-seeing cars,  
starting from, and returning to, the Promotion Committee  
Headquarters, Bishop Street (Young Hotel Building), under  
the following itinerary (weather permitting):

MONDAY—  
10:00 a.m.—Nuuanu Pali.  
3:30 p.m.—Moanalua, Fort Shafter and Kalihi.  
TUESDAY—  
10:00 a.m.—Kaimuki, around Diamond Head and  
Waikiki.  
3:30 p.m.—College Hills and vicinity.  
WEDNESDAY—  
10:00 a.m.—Punchbowl, complete circuit.  
3:30 p.m.—Makiki District  
THURSDAY—  
10:00 a.m.—Kapiolani Park and Beach Road.  
3:30 p.m.—Nuuanu Pali.  
FRIDAY—  
10:00 a.m.—Moanalua, Fort Shafter and Kalihi.  
3:30 p.m.—Country Club and Nuuanu.  
SATURDAY—  
10:00 a.m.—College Hills and Punahou.  
3:30 p.m.—Kaimuki, around Diamond Head and  
Waikiki.  
SUNDAY—  
8:30 a.m.—Nuuanu Pali.  
10:00 a.m.—Kaimuki, around Diamond Head, and  
Waikiki.  
1:30 p.m.—Nuuanu Pali.  
3:30 p.m.—Kaimuki, around Diamond Head and  
Waikiki.

A charge of One Dollar for each passenger will be made for  
any of the above trips, which will occupy about one and a half  
hours each.

For further particulars apply to

Hawaii Promotion Committee,  
YOUNG HOTEL BUILDING.

## The Last Drop as Good as The First

"There's a reason" for it. Everything that goes into it is made  
in the Sherwin-Williams factory. The wonderful growth in the use  
of S-W-P. for houses is the very natural result of making the best  
paint that it is possible to make. Quality is on your mind long after  
the price has faded away. The real pleasure the Little Paint Man  
finds in using Sherwin-Williams paint, we find in selling it.

It makes friends for us. Anything but the best on your house is  
expensive. You are going to leave the paint you buy out of doors.  
Everything else is under cover except the paint. That must do the  
covering for you. We know it so well that we use it for all our own  
buildings.

\$2.25 per gallon, full measure.

## PROMOTERS HAVE A SHORT MEETING

The Hawaii Promotion Committee held a very short meeting yesterday afternoon but finished up quite a lot of routine business. Much of it was correspondence, which, after being read, was referred to the acting secretary to be answered or otherwise disposed of.

Chairman McLean asked the approval of the committee of his purchase of two calabash cups for the trans-Pacific yacht race, at a cost of \$125. He had found a couple at \$150 and the two selected at the figure mentioned. The approval requested was granted.

Mr. Cooper reported that the rooms at the Alakea street wharf were practically ready and, although all the furnishings were not in, would be used while the Nippon Maru is in port.

Sample booklets of the Peck-Jordan Company were shown. They carried advertisements of the Promotion Committee, the leading hotels, railroads, etc., of the islands. The committee was much pleased with the arrangement as an advertising proposition.

Letters from H. P. Wood, to which attention has already been called—were read.

A letter from Mr. Milne, the man in charge of the Examiner's Los Angeles party, due here in August, stated that the suggestions of the Promotion Committee in regard to the program here was acceptable. Milne recommended that the party be met and decorated with leis, and the same will be complied with.

A Wholesale Reply. During the meeting Acting Secretary Cooper presented the copy of a general letter which it is proposed shall be sent out in answer to numerous questioners. A part of this letter is as follows:

"I do not want you to come under any mistaken ideas.

"In the first place, Hawaii needs and will welcome energetic and clear headed settlers. The territorial government will give to such all assistance that is within its power. We have a climate that is probably not excelled by any place on earth. The islands are civilized and there is probably not a State or Territory in the Union that has a lower percentage of illiteracy. On the other hand, we would not have you form the impression that you are coming to a ready made Paradise or a bed of roses, or imagine that there are no difficulties or obstacles. If you come here to take up any line of agriculture, you will have to do so as a pioneer in a new field. For many years and up to the present time Hawaii's prosperity has been founded upon practically one industry and that is the growing of sugar cane. This industry is thoroughly developed; highly organized and does not offer much opportunity to the new comer. For the most part, the sugar plantations are large and are controlled by large corporations. Moreover, the land adapted to sugar cane is practically all in use. The sugar lands, however, comprise but a small area of the Territory which for the most part has been cultivated to a very slight extent. Until recently almost every person in Hawaii has depended either directly or indirectly on the sugar industry and little effort has been expended along other lines.

"We import food products to the value of over three million dollars annually from the mainland, including oranges, lemons, poultry, pork products and vegetables to the extent of half million dollars or more, which could be produced locally. Besides all this, we should be able to produce large quantities of fruits and vegetables for export to the mainland. I do not believe anyone, familiar with our situation, doubts that ultimately Hawaii will be producing all of these products just named on a highly profitable basis. There are various reasons why we are not doing it now and there are various difficulties to overcome before we can do it. In the first place we have not the farmers necessary to go into this business on a very large scale. Then there are transportation difficulties, and although there is much land that is not your party be sent ahead prepared to in use, it has not always been easy to get land accessible to markets. And because most products have never will in this way be better able to judge been raised here on a commercial basis, there are a thousand and one practical problems that must be met word for it."

## Trade Between The States And Panama

Trade between the United States and the Republic of Panama will exceed \$22,000,000 in the fiscal year which ends next month, and for the seven years since the Republic of Panama came into existence will approximate \$100,000,000. About nine-tenths of this total, speaking in very round terms, is merchandise exported from the United States to Panama and about one-tenth merchandise imported into the country from that Republic. Even these figures do not show the grand total of merchandise sent from the United States to Panama during this period, since such portion of the supplies for the canal and those engaged in its construction as were sent from time to time upon government vessels were not included in the figures reaching the Bureau of Statistics of the Department of Commerce and Labor, by which this statement of trade with Panama is reported. Just what proportion of the merchandise sent to Panama has been for use in the construction of the canal cannot be definitely determined, though the British Minister at Panama recently estimated that about one-fifth of the total imports of the Republic were for the commissaries of the canal zone, approximately two-fifths for canal supplies, and the remaining two-fifths for general use.

The trade with Panama has steadily grown and the figures of both imports and exports for the fiscal year 1910 will exceed those of any earlier year. In 1904, the earliest fiscal year for which figures have been presented by the Bureau of Statistics, imports from Panama were valued at \$440,747. By 1906 they had grown to \$1,065,887 and in 1909 were \$1,676,994. Meantime exports to the Republic show an even more rapid growth, having advanced from \$979,724 in 1904 to \$12,460,289 in 1906 and \$16,797,530 in 1909. In the nine months ending with March, 1910, imports were \$1,596,048, against \$1,129,483 in the corresponding period of the preceding fiscal year, and exports \$15,303,585 against \$12,505,607, indicating that for the complete fiscal year which will end June 30 next the imports from the Isthmian Republic will exceed 2 million and the exports thereto 20 million dollars.

Bananas, vegetable ivory, india rubber and cattle hides comprise the principal articles imported from Panama. In the nine months ending with March, the latest period for which detailed statistics are available, the imports of bananas aggregated 2,506,000 bunches, valued at \$604,581; india rubber, 292,538 pounds valued

and solved. But I do not desire to discourage you or anyone who is in earnest in coming to Hawaii. All our problems are working out toward a satisfactory end; transportation facilities are improving steadily; the population is increasing; the United States Army and Navy are stationing large bodies of men permanently in the Territory and the feeding of these men furnishes a splendid market for a great deal more than can be raised here for many years to come. We have a federal experiment station, which, for nearly ten years, has been working steadily for the benefit of the farmer of diversified products. A college of agriculture and mechanic arts, maintained in part by the federal government, is also helping solve puzzling problems and smooth out the difficulties for our agricultural pioneers. The President has just signed a bill amending the Organic Act as relates to the homesteading of public lands and this will make it possible to assist bona fide settlers in getting a start.

"I am sending you, under separate cover, a copy of one of our local papers with a marked article in reference to this matter.

"If you locate in Hawaii, you can live in the greatest comfort the year round. There are good schools and churches. If you and your friends have the right kind of backbone and some capital to start on, Hawaii wants you. I would recommend that one of you should be sent ahead prepared to in use, it has not always been easy to get land accessible to markets. And because most products have never will in this way be better able to judge been raised here on a commercial basis, there are a thousand and one practical problems that must be met word for it."

at \$214,976; vegetable ivory, 4,689,545 pounds valued at \$147,261 and hides of cattle, 617,642 pounds valued at \$67,654.

Iron and steel manufactures, meat and dairy products, breadstuffs, lumber, coal, cotton manufactures, explosives, cement, boots and shoes, and cars, carriages, etc., constitute by far the larger part of the merchandise exported to Panama; while soap, malt liquors, sugar, illuminating oil, scientific instruments, india rubber manufactures, fruits and nuts, eggs, copper manufactures, chemicals and lubricating oil are also exported in considerable quantities.

With few exceptions, all of the articles named show increased exports in the present year. Those of iron and steel, in the nine months ending with March of the years named, increased from \$3,893,691 in 1909 to 1910; the principal growth occurring in structural iron and steel, pumps and pumping machinery, iron sheets and plates, and wire; while steel motives decreased. Meats and dairy products as a whole increased from \$1,163,733 in 1909 to \$1,297,290 in 1910; boards, deals and planks, from \$516,639 to \$819,388; breadstuffs, from \$544,408 to \$628,885, the growth occurring chiefly in flour; bituminous coal, from \$677,458 to \$996,283; cement, from \$107,345 to \$702,551; explosives, from \$27,660 to \$22,631; cotton manufactures, from \$521,576 to \$803,968; and boots and shoes, from \$347,456 to \$475,382; the comparisons in each case being between the figures for the nine months ending with March, 1909, and those for the corresponding months of the current year.

## PACIFIC SURETY AND LOCAL TRUST

The San Francisco Pacific Underwriter, of May 10, contained the following concerning the business of the Hawaiian Trust Company:

The Hawaiian Trust Company, represented by Mr. H. B. Mariner, who is the company's managing underwriter, is in San Francisco, and has closed a contract with the Pacific Surety Company for the Islands embracing the company's entire line of business. Up to the present, the Hawaiian Trust Company has represented the Pacific Surety Company in the surety lines only and has placed its liability and casualty business with another corporation, which connection it has now resigned. Hereafter, the entire surety, casualty and liability business, controlled by the Hawaiian Trust Company, will be placed with the Pacific Surety Company.

## HONOKAA SHORT A THOUSAND TONS

Latest official estimates of the yield of Honokaa Sugar Company's plantation for this year places the total at 10,000 tons.

This is 1,000 tons below the estimate of the manager, Mr. Gjerdrum, having figured as late as last January that the total would be 11,000 tons.

The cause of the shortage is the long drought through which the plantation was obliged to pass—a danger which the new water now available will obviate in the future.

It is reliably stated, however, that in spite of the shortage in the yield of sugar, there will be no decrease in the dividend of one half of one per cent a month, at least for some time to come.

United States Internal Revenue Collector Walter F. Drake, whose resignation is still unaccepted, left in the S. S. Mauna Loa at noon today for a week's strenuous duty on the island of Hawaii in matters pertaining to the duties of the office. During his absence the office will be in charge of Ralph Johnstone, next in rank.

The captain of the Nippon Maru wired in last night that he would arrive this afternoon at six o'clock from Yokohama.

## MAUI MILL NEAR END OF SEASON

Information has arrived that Hawaiian Commercial will finish grinding on June 20, which is a little earlier than ever before. The total output will be very close to 56,500 tons, which is better than the banner crop of two years ago, the output that year being 56,150 tons.

Maui Agricultural Company reported work well along to the end of the season. The output will be a little over 29,000 tons, as against 28,808 tons last year.

Weather has been very favorable on Maui for the past five months. At Puunene and Maui Agricultural Company pumping became desirable last Monday for the first time since February, and since Monday they have had full ditches.

Although it appeared to be rather cold weather here this Spring, the 1911 crops at Puunene and Maui Agricultural are as far ahead as were the 1910 crops at the same period.

Maui Agricultural Company will finish grinding about July 1.

On May 28 Hawaiian Commercial had turned out 53,053 tons of sugar. The same date the total for Maui Agricultural was 24,366 tons.

PAPERS FILED.

The following papers have been filed up to this afternoon for registration:

John F. Co'bun and wife to James L. Holt, deed.

Nagran Fernandez, to trs. Kaumakapili Church, extn. mtg.

Kaumakapili Church to Lunaliilo Estate, a. m.

Chang Kim and wife, et. al., to Mut. Bldg. & Loan Ass., ad. Chg.

James F. Morgan and wife to Manuel F. Cook, deed.

J. K. Pimann and wife to Levi L. Joseph, deed.

Haina (K) to Levi L. Joseph, deed.

Kehopu (K) to Helen Knaekauhu, deed.

Kehopu (K) to Kepano Pahuwai, deed.

S. Nakagawa to S. Sekedo, chat. mtg.

M. Hatada to G. Kamei, chat. mtg.

M. Hatada to K. Yoshimura, chat. mtg.

Bishop Estate to Rufus A. Lyman, Sr., lease.

John R. Gilliland and wife to E. S. Sunha, deed.

Bishop Estate to County, lease.

Consideration was deferred.

## NICOLA KEEPS HIS PROMISE TO DOT

Fastened more securely and more cruelly than the most desperate criminal, Nicola, before a large and eager audience last night, performed a most wonderful feat. True to his word, Turnkey Billy Woods came down with several pairs of handcuffs, legions and shackles, as well as the famous Oregon boot. A couple of police officers also appeared upon the stage with several pair of handcuffs. One of the officers insisted upon placing a pair of handcuffs upon Nicola that had been tampered with and were not in working order. He was so persistent in his demand that Nicola finally allowed them to be placed upon his wrists. On account of the lateness of the hour Nicola did not work on one pair at a time, but allowed all the officers to place all their irons upon him at one time and in any manner they wished. They had them round his neck, body, arms, wrists, legs and ankles. These in turn were all drawn together with chains in such a manner that escape seemed impossible.

On top of these, Turnkey Woods insisted upon placing his famous "Oregon boot," which Nicola finally consented to. He was loaded down so heavily that he had to be dragged into the cabinet. After twenty-nine minutes of the most strenuous kind, Nicola stepped forth, free from every one of the seemingly impossible fastenings. The cheers and applause that greeted Nicola's success nearly raised the roof. Dozens of admirers rushed upon the stage to wring the hand of the hero of the day.

Tonight Nicola is to be nailed up in a packing case by Clarion employees.

A cut has been made by the Oahu Railroad and Land Company on the Ewa side of Alea across land through which the company recently obtained a right-of-way, to do away with the heavy grade which passes McGrew's place on the mauka side of Pearl Harbor.

## STOCK MARKET IS LITTLE STRONGER

Although there were no large sales, nor was there much dealing—the stock market this morning was slightly stronger. Transactions were put through at the quotations of yesterday and better; and there were probably more inquiries for stock than on any preceding day of this week. Buying orders are out, and it need not be surprising that a number of small sales will be put through before the day is over.

Hawaiian Pineapple came in for attention again this morning, closing very strong. On the street late yesterday 10, 5 and 10 shares sold at \$30. At the close of today's session, \$30.25 was bid for the stock and \$31 asked.

Between boards 100, 60, 25 and 15 Ewa sold at \$33.50, followed by 5 on the board at the same. At the close this morning \$33.375 was bid and \$33.625 asked for the stock.

Between boards 5 shares Honokaa sold at \$19.125, to be followed by 11 shares on the board this morning at \$19. At the close, however, the same was bid for more, holders demanding \$19.25.

On the street 50, 45 and 50 Oahu sold at \$34, after which more was offered at the same, but bidding had dropped back to \$33.50.

Between boards a sale of 40 Waialua was made at \$124. This morning more was offered at the same.

Hilo Extension bonds sold at \$98.50, the amount being \$2,000. Afterward \$99 was asked for the security.

Interesting quotations without sales were: C. Brewer & Company, \$40 bid; Pioneer, \$212 bid and \$218 asked.

# SPORTS

BY JAMES W. W. BREWSTER.

## MRS. COULTER WILL PLAY MISS RICHARDS

As a result of her easy victory over Miss Burnham yesterday afternoon, Mrs. Ethel Coulter and certain champion tennis player will meet Miss Ruth Richards this afternoon at four o'clock on the Beretania courts for the single championship of Hawaii.

Although Miss Richards plays an excellent game of tennis, Mrs. Coulter will probably have little trouble in annexing the coveted honors.

Mrs. Coulter and Miss Burnham gave a brilliant exhibition of tennis before a large and enthusiastic gallery of spectators, both players came in for much merited applause. Mrs. Coulter as usual played her steady finished game, her service and back handed returns being exceptionally fine. Miss Burnham like Miss Sewell was outclassed, in spite of the efforts she made in both sets, the scores being 6-2, 6-1.

Mr. Coulter from now until she leaves for the coast will play daily with the best men in Honolulu, a number having already been beaten by the lady champion. It is not certain if she will play in the mixed doubles which start next Monday, but her many friends are anxious to see her once more in a championship tournament before she leaves for the coast where she will be matched against the best lady players on the mainland.

### INTERNATIONAL RACE.

The twenty four hour "go as you please" race that will be started next Friday night at the Princess Rink under the management of W. Herbert M. Ayres, promises to be a very interesting one as the entrants according to nationality will pair off making the affair savor of internationality.

Ayres who is well known as an athlete completed the final arrangements with the management of the rink yesterday afternoon, the only matters now needing attention are the details relative to timers, scorers, judges and the twelve entrants who have already agreed to enter the long race. The race will be started a few minutes after the finish of the last Marathon skating race, which will be started at 8:30 sharp, finishing according to the time limit between 10:30 and 11 o'clock.

Prizes will be awarded the first five men finishing, the exact nature of same being announced next week. The entry book will remain open at the sporting goods department of E. O. Hall & Son until next Thursday afternoon at five o'clock.

As two men will enter as a team, one man from each team will always be on the track until the finish of the race on Saturday night June 11. The regular admission of twenty-five cents will be charged at the rink, the ticket including a seat in any section. As June 11 is a great holiday in Hawaii, and the race an international one a record crowd will no doubt be on hand during the last few hours of the race.

### FORREST TO LEAVE.

After the third Marathon race on June 10, Joe Forrest, champion of Hawaii, and four states on the west coast, will leave for San Francisco to meet the present champion distance roller skater of the world over the full Marathon course in Oakland on July 4. The present champion hopes to lower the world's record for the 26 miles 385 yards tomorrow night, the time being 1 hour, 35 minutes 2-3 seconds.

In the first race held on April 23 Forrest made more than the distance in 1 hour 57 minutes, the track not being properly surveyed, and taking into consideration the fact that he was off the track for nearly ten minutes, he ought to come very near setting a new record for the distance tomorrow.

Several of the entrants for the race tomorrow night have been making excellent time in practice, and with Forrest following the pace that Markham and Marcus intend to set, the time should at least be equalled if not lowered.

The officials who have kindly consented to act, are requested to be on hand at the rink not later than eight o'clock so that the rules etc., can be gone over before Lieutenant George Bowen, of the 20th Infantry, starts the race at 8:30 sharp.

The time limit of 2 hours and 30 minutes will be adhered to in the

race tomorrow, so that the spectators will be able to get the last cars home.

### HALL CUP PLAY.

Alfred Castle one of the committee who has charge of the arrangements for this opening match for the E. O. Hall tennis trophy, hopes to have every detail arranged so that the first tournament will be played about the middle of July.

Members of the Manoa, Neighborhood, Pacific and Beretania clubs will play in an elimination tournament to see what members will meet in the cup play, the unattached tennis players being assigned to one of the four clubs for the tournament.

As the deed of gift states that the cup shall be played for by every player in the territory regardless of club, this idea of the committee is an excellent one and will probably meet with great favor among all the tennis men.

As the cup must be played for semi-annually until it is won three times by the same player, some interesting matches will be recorded before the cup is finally won.

Some of the players who will be scratch men are: Castle, Low, R. Cooke, A. Richards, C. Cooke, Allan Lowrey, Sonny Cunha, Steere, Nowell, Deerr, Clarke, Waterhouse and Roth.

The matter of handicaps is something that is causing the committee no end of worry but those will all be arranged before the date of the opening tournament.

### ENTRIES ARE OPEN.

Entries for the Progressive tennis tournament which will be played all day on June 11 on the courts of the Manoa, Beretania, Pacific and Neighborhood clubs are open at E. O. Hall & Sons and will be kept open until Thursday, June 9, at five o'clock.

Playing will commence at nine o'clock in the morning at the four courts, playing being continued until the finals are reached which will be played at the Beretania courts at four o'clock in the afternoon. As the event will be men's doubles, at least fifteen teams are expected to enter. If the entry list should be larger more courts will be secured for the playing. The entry fee of fifty cents for each player will be spent in securing two prizes and for the balls which will be required. Any further information regarding the playing can be obtained from any of the tournament committee consisting of Castle, R. Cooke, Steere, Nowell and Giffard.

### SCHOOL BASEBALL.

This afternoon the regular scheduled games in the Grammar School baseball league will be played, the teams that will play being: Punahou vs. St. Louis at Punahou field and Royal vs. Normal Training School at the Boys' Field. Both of the games will be called at 3:30. A great deal of rivalry exists among the youngsters who are playing their first league ball and before the championship is decided some good games are expected as the players are improving in every game.

### PLANS FOR VISITORS.

Alfred Castle is making arrangements for the reception of the two Australian champion tennis players Brooklets and Wilding, who are expected to pass through here on their way to Newport either this month or next. If the steamer is held over, an exhibition match in doubles will be played on the Beretania club courts, and if time allows an effort will be made to get the cracks to play a match of singles.

Agents for the Canadian-Australian steamship line are not certain if it will be possible to hold the steamer over, but there is a possibility that the players will remain here and go up on one of the next steamers sailing for San Francisco which are due to sail on June 22 and on June 25. The Manchuria or Wilhelmina will sail after the Marama arrives from Australia on June 21 and the Mongolia and Sierra leave a few days after the Makura which is due on June 1.

Although no official word has been received relative to their intended departure from Australia, it is quite likely that they will be here on the

Marama, as the national tennis tournament in Newport starts the latter part of July.

If these two players will consent to play here, the local enthusiasts will be treated to an excellent exhibition of the popular game.

### PLANS FOR WASEDA.

Members of the Oahu Baseball league as well as the local Japanese are making great plans for the reception of the Waseda baseball team that will arrive here on July 1 by the T. K. K. S. S. Chiyo Maru.

A meeting of the local Japanese was held the other night, at which were present nearly every member of the Oahu league, it being unanimously voted that the visitors would be given the best reception ever tendered in Honolulu to any collection of athletic visitors.

A reception committee consisting of representatives of each team in the league as well as a number of prominent Japanese will go outside the harbor on a special launch with the Hawaiian band to give the players from Japan a welcome that they will long remember.

When the ship docks a parade of all the teams that will play in the series will start, the visitors being escorted to the hostelry they will stay in while in Honolulu. The first games in the series will commence in Sunday July 3 at Athletic Park, two games being played on July 4 and every Saturday and Sunday until they are completed.

Practice is the order of the day among the players of the six teams that will play in the games, the teams being: P. A. C., J. A. C., U. S. M. C., Punahou and St. Louis.

### SPORTING NOTES.

Seats for the International series will be placed on sale next week.

A good motto to follow is come early and avoid the rush.

Athletic Park record crowd is expected on July 3.

Something like five thousand people saw the Kelo team play their first game at the league grounds.

Is there and reason why there should not be that many on July 3?

The Japanese community are expected to outnumber the others two to one on the opening day on July 4.

Jack Doyle is waiting patiently to get out and yell "Banzai!"

Jack is the best roofer in town.

K. Yamamoto is a close second when it comes to baseball.

Castle will play for his old team. He will probably pitch in several games.

Frank Hoogs will play for his alma mater, as will his brother Bill.

"Old reliable" Bill Hampton will also wear the old blue and yellow colors.

Allan Lowrey will play second for Punahou.

Gleason may get in the game once more so he says.

Pat was a good player in his day. The question is does he still know the game?

En Sue will play for the C. A. C's.

Gibson and Heine will alternate in the box for the Marines.

Winne will catch for the Puns, with Bob McCriston as alternate.

Steere the old Pittsburg leaguer may get in the game again.

If he does he will play his old position as short.

Bowen says he will win the Robertson cup on Sunday.

Harry Wilder says the same thing.

It would be unkind to quote Ray Rietow's remarks on the subject.

George Turner says he has a hunch that the Hawaii will win the ocean race by a day.

Everyone hopes you are right George.

Sailors were always superstitious.

Charley Wilder says watch the Hawaii on the morning of July 26 or 27.

Several rabbits feet were seen on

the Hawaii before she sailed Tuesday.

Ayres says he hopes the weather man will be good on June 10-11.

At least six teams are expected to enter the 24 hour race.

Kao says he is willing to take a chance.

Jackson will represent one of the English teams.

Gorman will probably enter.

Ornellas and Gomes will be the representatives from Punchbowl.

Charlie and Sam Hop will be China's representatives.

Connie Hayes will probably pair off with Fahy.

Forrest is confident about tomorrow night.

Marcus however will give him a good rub with Markham a close tuff.

Buglar Sarcone will race under the U. S. M. C. colors.

## COMING EVENTS

### BASEBALL.

## WOULD BE PRESIDENT

ST. LOUIS, June 3.—Former Governor Joseph W. Folk, of Missouri, last night announced himself a candidate for the Democratic nomination for the Presidency for 1912, making his declaration at a Democratic banquet held here.

In the course of his speech he outlined the principles upon which he would seek the nomination, his address being enthusiastically received. The Democratic party of the State has pledged him its support.

Governor Folk came into national prominence during the trials of the St. Louis grafters in 1903, when he was circuit attorney. The prosecution devolved upon him and he proved equal to the task, effecting such a cleaning up in St. Louis municipal circles that he was elected to the Governorship of the State in 1905.

### DROPS TEN POINTS.

NEW YORK, June 3.—Refined sugar dropped ten points yesterday, being quoted at \$4.14 a hundred.

### PAPKE WILL NOT FIGHT.

LOS ANGELES, June 3.—Papke has canceled his fighting date with Flynn.

### LEADER FOR DEMOCRATS.

NEW YORK, June 3.—William J. Conners was yesterday retired as chairman of the State Democratic Committee, John A. Dix, of Albany, being elected in his place. There has been a determined effort made to have Conners replaced ever since the disastrous—from the Democratic standpoint—returns of the Greater New York election came in.

Charles F. Murphy, of New York, and his friends secured control of the committee and, despite whatever could be brought up to delay the meeting on the part of the Buffalo chairman, he was formally deposed last night.

### MILLIONAIRE HURT.

NEW YORK, June 3.—August Belmont, Jr., the millionaire horseman and polo player, was injured as a result of an accident on the field of the Meadow Brook Hunt Club, yesterday. In a practice game, he was thrown from his horse and rendered unconscious. Examination showed that his wrist was broken but that he had escaped serious injury.

### WRIGHTS TO COMPETE.

DAYTON, O., June 3.—The Wright brothers, attracted by the size of the purses being offered for long distance aeroplane flight tests, have announced their intention of taking part in future contests.

The twenty-five thousand dollars offered for a race from New York to Chicago and the thirty thousand dollars offered for a successful flight from New York to St. Louis are the inducements that have made the Wrights break their resolution not to engage in long-distance contests.

Both Orville and Wilbur Wright will try for the big purses.

### PEARY VISITS KING.

LONDON, June 3.—Commander Peary, U. S. N., the discoverer of the North Pole, was received yesterday by King George, discussing with him the details of his famous voyage and dash for the pole. The probable success of the British antarctic expedition was also talked over.

## INSTRUCTION CAMP

Adjutant General John W. Jones, by order of the Governor, has issued the following general orders:

I. In conformity with the provisions of General Orders No. 64 Department of California, May 4, 1910, a camp of instruction for infantry officers of the Organized Militia of Hawaii will be conducted at Fort Shafter, Honolulu, for September 17 to 24, 1910, inclusive.

II. Under the provisions of the foregoing order Lieutenant Colonel Robert L. Bullard, 8th Infantry, has been detailed to take charge of camp of instruction.

III. All infantry officers of the National Guard of Hawaii, unless properly excused, will be required to attend and pursue the course of instruction provided at the camp.

Fine Job Printing, Star Office.

## MISSIONARIES THREATENED

CLEVELAND (O.), May 14.—A cablegram received here by the secretary of the Board of Missions of the Evangelical Association says that ten American missionaries have been forced to retire from Shenshow, in Hunan, China, and take refuge in Kiukiang, 500 miles away, near Hankow. The missionaries concerned are the Misses Shemp and Roloff, new workers in the field, and Dr. F. C. Krumling and wife of Blissfield, Mich. A. H. Bulzback and wife of Bainbridge, Mich.; C. E. Ranck and wife of Naperville, Ill., and E. C. Kelhofer and wife, of Wisconsin.

STALLED HIM.

The Joker—Hear Jones is making all kinds of money these days.

The Wise Guy—Oh, why, he's been working in the mint for some time.

## OWES HER LIFE TO

### Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—“I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound.”

Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound.”—Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

### MEETING NOTICE.

Special Meeting of Stockholders of Waianae Company.

Notice is hereby given that a Special Meeting of the stockholders of the Waianae Company will be held on Wednesday the 15th day of June, 1910 at 10 o'clock a. m., at the office of J. M. Dowsett, Honolulu, T. H., for the purpose of taking steps necessary to obtain an amendment to the Charter of the Company.

By order of the President,  
J. M. DOWSETT,  
Secretary Waianae Company.  
Dated, Honolulu, May 31, 1910.

### MEETING NOTICE.

Special Meeting of Stockholders of Waianae Company.

Notice is hereby given that a Special Meeting of the stockholders of the Waianae Company will be held on Friday the 17th day of June, 1910, at 10 o'clock a. m., at the office of J. M. Dowsett, Honolulu, T. H., for the purpose of considering an increase in the capital stock of said Waianae Company.

By order of the President,  
J. M. DOWSETT,  
Secretary Waianae Company.  
Dated, Honolulu, May 31, 1910.

## YOUR DELIVERY SYSTEM REQUIRES ATTENTION!

You can greatly reduce the expense of your present delivery upkeep, and at the same time increase its efficiency. Think of it! One “GRABOWSKY” POWER WAGON will do the work of three or more horse drawn wagons. Will do it better, quicker and cheaper.

Horse equipment is a constant, heavy expense, whether in service or not. It must be maintained whether business is active or dull. Horses lose in efficiency every hour that they travel.

“THE GRABOWSKY” IS READY FOR BUSINESS 365 DAYS EACH YEAR. It is built to do a given amount of work in a definite time, at a certain cost, under any known conditions. “THE GRABOWSKY” uses fuel and oil only when working, and is just as efficient on the last mile as on the first. Not a penny for upkeep Sundays, holidays or dull periods in business.

The following “GRABOWSKY” features (which no other commercial power wagon has, nor can have) accounts for its success:—A Removable Power Plant, Hardened Steel Bushings, Emergency Condensing Chamber, Positive Mechanical Oiling System, etc.

We can and want to show you that not alone will a “GRABOWSKY” reduce your expenses, and increase the efficiency of your delivery system, but it will actually pay you dividends—big dividends. Don't delay. Let us solve your delivery problem for you. You involve no responsibility thereby, but there is every chance that this investigation will save you a phenomenal yearly amount.

Write us today for an estimate. We can show you what your losses are with your present system. We will prove what your gains will be installing “THE GRABOWSKY WAY”—the way that turns losses into profits.

## NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

Regular Elks meeting tonight.

Pay Cash and ask for green stamps, (they are free).

Hawaii's Young People for June has been received from the Lahaina press.

Have you tried Pete, the champion Coast shoe shiner at the Silent Barber shop, Hotel street? Best fitted up stand in the city.

The Metropolitan Market has just received some of the best of California delicacies in the fish and poultry line. The fish are in fine condition and the chicken and turkeys are just from the farm.

Supervisor Logan was last night prepared to go into the discussion of a tentative budget, but estimates of sums to be received from the Territory were not complete.

Tom Quifia was arrested yesterday afternoon on a charge of violating the speed ordinance, as a result of the accident when his machine ran into a Chinese wagon.

Nolte's restaurant is open from 5:30 a. m. to 7:30 p. m., with first class meals at any hour between those hours. Try the fine Kona coffee there for breakfast.

At the meeting of the supervisors last night, a letter was received from Superintendent of Public Instruction Pope, asking for more schools. Supervisor Logan suggested that it be referred to the ways and means committee.

"We have no money to grant this petition," he said, "and I move a reference to committee merely to save time."

One great point about Nolte's is the absolute reliability of the place. The guest knows that he is getting the best and that it is properly cooked and served.

Manuel Richards, the automobile driver indicted for killing Kekai, the old Hawaiian, was arraigned before Judge Cooper yesterday afternoon, his plea deferred until next Tuesday and his bail fixed at \$5,000. Richards has retained Judge Leongs to defend him.

Ohio, a Hawaiian, aged about sixty, was found dead yesterday afternoon near Diamond Head. The deceased had been ill for some time, and was about to be sent to a hospital. He left his home with only a blanket for covering, and lay down on the ground with the blanket for a pillow and died.

The thermometer in the government kiosk on Hotel street may swell up and bust these hot days, but it is always cool at Nolte's, Honolulu's reliable cafe.

Governor Frear wants a number of scientific and practical farmers to accept, free, good homesteads on the various islands of the Territory, and farm them for the good of themselves and their neighbors for a reasonable salary. This is a part of Governor Frear's plan for populating the islands with an American citizenship.

The reduction of subsistence to a science is given in the report as the basis of successful competition by the Japanese laborer against those of any other races but the Chinese.

It is stated that the average Japanese supports himself on 20 per cent of his earnings or less. The average expenditure is about 25 or 30 cents a day and the highest figures recorded was sixty cents. American food articles, it is stated, are being substituted rapidly among them for Japanese. It is given as the opinion of the Japanese themselves that the adoption of the American diet has increased their capacity for labor.

The report states positively that the number of Japanese laborers obtainable for the harvesting work this year is far short of the number required. White labor is unobtainable at prices within reason and as a result of the evident withdrawal of Japanese, witnessed by the immigration and emigration reports which show the tide of Japanese travel to be setting toward Japan. Hindu labor has come to the state. In the fifteen months ending January 1, 1910, 836 Japanese entered the port of San Francisco from Japan and Hawaii and 4,182 departed. In the three years

gathering the data from which it is drawn.

With the data before them, and with the daily reports of the agents and thousands of interviews with employers and others financially interested in the problem at hand, the investigators prepared the following summary of farm labor conditions in the state:

"1. That the relationship existing between the farm labor utilized at the present time in the great industries of the orchard, vineyard and field and the industries themselves has been developed along lines of an evolutionary character, and is practically impossible of modification in any material degree.

"2. That the problem of solving the situation by drawing from the present available white farm labor supply by any known or suggested methods of modification of the conditions now obtaining in this State will afford no practical or material relief.

"3. That the creation of an ideal intelligent class of white farm labor to be drawn from all sources within the confines of the United States is practically an impossibility for the reason that such an effort would entail an entire and radical readjustment of economic conditions and the relationship that now exists between the grower and the system of transportation, distribution and marketing.

"4. The perpetually of continued development of these great and highly specialized forms of agricultural activity must largely depend upon a supply of labor coming from without the United States, and of such a nature and character as to conform to the condition resulting from the application of that labor to the agricultural demands.

"5. That the transition from the cereal-growing period of the development of specialized agriculture increased the ratio of temporary help required by the farming districts beyond the normal available supply within the State during the periods of largely increasing population.

"6. The necessity for providing the large number of temporary employees engaged in the harvest with employment during the various periods other than the harvest season is a vital element in the solution of farm labor problems."

Of the resident Japanese engaged in commercial or other pursuits within the state the report speaks at some length. After stating the belief that the Japanese commercial element is merely an incident in the problem and the presence of the Japanese in the cities and towns a natural resultant of the farming element "without vital effect so far as the possibility of competition with the white man may be considered," the report dismisses the question with the statement: "The displacement of these people would be accomplished without any disturbance of the commercial activity of the white people."

The Japanese population of California is given by the report as 41,628 on January 1, 1910, about 10 per cent being females. Of this number 65 per cent are engaged in agricultural pursuits and 15 per cent in domestic services of one kind or another.

Of the 817 Japanese children attending California public schools the following table of distribution is furnished:

Kindergarten, 1 male, 5 females; Primary school, 269 males, 149 females; Grammar school, 150 males, 31 females; High Schools, 137 males, 3 females; Evening schools, 71 males, 1 female; total, 628 males, 189 females.

The reduction of subsistence to a science is given in the report as the basis of successful competition by the Japanese laborer against those of any other races but the Chinese.

It is stated that the average Japanese supports himself on 20 per cent of his earnings or less. The average expenditure is about 25 or 30 cents a day and the highest figures recorded was sixty cents. American food articles, it is stated, are being substituted rapidly among them for Japanese. It is given as the opinion of the Japanese themselves that the adoption of the American diet has increased their capacity for labor.

The report states positively that the number of Japanese laborers obtainable for the harvesting work this year is far short of the number required. White labor is unobtainable at prices within reason and as a result of the evident withdrawal of Japanese, witnessed by the immigration and emigration reports which show the tide of Japanese travel to be setting toward Japan. Hindu labor has come to the state. In the fifteen months ending January 1, 1910, 836 Japanese entered the port of San Francisco from Japan and Hawaii and 4,182 departed. In the three years

## SIERRA ARRIVES

Keeping up her reputation as the ship that always arrives on time, the Oceanic liner Sierra, Captain Houdlette, arrived off the harbor a few minutes after five o'clock this morning and came alongside her wharf at seven thirty. Seventy-six first class passengers and seventeen steerage passengers were brought on the popular liner.

Freight amounted to 1744 tons, including 2000 bags of cement, 8 automobiles and 288 bags of mail.

Captain Houdlette reports a fine trip from San Francisco, westerly swells and light trade winds prevailing the better part of the trip. The time from lights to Diamond Head was 5 days, 19 hours.

The following passengers arrived: Miss Marguerite Creighton, home for the school vacation.

Mrs. L. F. Cockcroft, accompanied by her two daughters, Miss Thoda and Miss Charlotte, are here for their first visit. Mr. Cockcroft, general passenger agent of the Oceanic S. S. Co., comes on the next Wilhelmina and will remain here until some time in July.

A. J. Fairweather and Mrs. Fairweather are the father and mother of Dr. Norman Fairweather, the well known dentist. They will remain here for some time.

E. R. Marriott is the son of the owner and editor of the San Francisco News Letter.

J. Spitzer, well known merchant, with his wife, returns from a business trip to the coast.

Peter Peacock, brother of the late W. C. Peacock, is here for a short business trip.

"Scotty" Weston, who left here a few years ago, is back for a short visit.

A. K. Vierra well known sportsman, is back from a pleasant trip spent on the coast.

Jack Young of launch fame is home from a business trip to the coast. Young has a new engine coming for his launch, the Water Witch.

Mrs. A. A. Young, accompanied by her three children and a maid, is home from a short visit with her relatives on the mainland.

The Sierra will leave for San Francisco on Wednesday morning at ten o'clock.

George H. Robertson, manager of Brewer & Co., is home after a pleasant trip spent in the California lake regions.

Joel Cohen and Mrs. Cohen are back from their regular semi-annual trip to the coast. Joe states that he finds everything booming in San Francisco and says that plans are already being made for the world's fair that will be held there in 1915. The celebrated musical comedy company that will appear under the management of Cohen will probably arrive from the coast on the next Sierra.

Mr. Cohen stated this morning on board the Sierra that he will make other arrangements for the company if he is unable to secure the Opera House, although he has been told that the McRae company will probably leave for the far east before the end of June.

## DIED.

MACDONALD—In Honolulu, June 3, 1910, Jas. J. Macdonald, aged 61 years. He was an old resident of Honolulu and a member of Harmony Lodge No. 3, I. O. O. F.

The funeral will take place this (Friday) afternoon at 4 o'clock from the undertaking parlors of H. H. Williams.

of 1906, 1907, 1908, there were 810 births among the Japanese in this state and 1,332 deaths.

The report contains some interesting statistics on the physical aspect of the Japanese in California. The records of the county assessors show 199 farms, containing 10,791 acres, owned by Japanese in the State of California. These farms were assessed at \$330,401 on land, and \$46,927 on improvements, making a total of \$377,328, and were mortgaged to the extent of \$175,584. The records also show 185 holdings of town property assessed at \$174,694 of which \$79,600 was on land and \$95,094 on improvements. These holdings were mortgaged to the extent of \$50,359.
