EMMELUTH AND EDINGS BRING TEST CASE AGAINST THE MUNICIPAL ACT

Judge De Bolt Signs an Order Requiring Supervisors to Show Cause—Act Declared Unconstitutional and Void.

The City and County Act must now justify itself. It is before the courts charged with being unconstitutional, void, and of no effect, and the Board of Supervisors is called before the court to show cause, if any it has, why it should not be required to issue the proclamation for a county election under the County Act, and do all other things in regard to the County election which the County Act requires.

In the petition for mandamus John Emmeluth is the petitioner. The petition was filed in the Circuit Court yesterday afternoon by Judge W. S. Edings as attorney for Emmeluth, who immediately brought the matter before Judge De Bolt. Judge De Bolt was taking testimony in the suit of the Hawaiian Carriage Manufacturing Company vs. the Schuman Carriage Company at the time. The attorneys in that case, A. G. M. Robertson and C. F. Clemons, gave way, for the time being, to Judge Edings while he presented the petition for mandamus to Judge De Bolt, who on reading it signed the order requiring the Supervisors to show cause why they should not be required to carry out the provision of the County Act in regard to the coming election, ignoring the City and County Act.

Succinct Statement.

The petition is not as long as such petitions usually are. Judge Edings has not padded his document, but has succinctly stated the grounds on which he relies. The following is the petition:

JOHN EMMELUTH VS. THE BOARD OF SUPERVISORS OF THE COUNTY OF OAHU, TERRITORY OF HAWAII: MANDAMUS.

Petition for a writ of mandamus. To the Honorable, the presiding Judge of the Circuit Court of the First Circuit of the Territory of Hawaii.

The petitioner, John Emmeluth, of Honolulu, County and Territory of Hawaii, respectfully shows:

Petitioner a Citizen.

That your petitioner is a citizen of the United States and of the Territory of Hawaii and of the County of Oahu and a taxpayer, and duly qualified elector in said County and Territory. That the respondents, S. C. Dwight, J. J. Fern, Charles Hustace, Jr., F. R. Harvey, F. K. Archer, A. E. Cox and J. M. Kealoha comprise and are the duly elected, qualified and acting Board of Supervisors of the County of Oahu, Territory of Hawaii.

That by an act of the legislature of the Territory of Hawaii entitled "An Act Creating Counties Within the Territory of Hawaii and Providing for the Government Thereof," passed the 14th day of April, A. D. 1905, and now in full force and effect, it was among other things provided:

County Act Provisions.

Section 1. The Island of Oahu and all other islands in the Territory of Hawaii not included in any other county, and the waters adjacent thereto, shall be the County of Oahu.

Sec. 12. The officers of each county shall be a Board of Supervisors, a sheriff who shall be ex-officio coroner, a county clerk who shall be ex-officio clerk of the Board of Supervisors, an auditor, an assessor and tax collector, a county

attorney, and a treasurer; all of whom except the supervisors shall be elected by the duly qualified electors of the County.

Sec. 12a. The Board of Supervisors of each county with the exception of the counties of Oahu and Hawaii, shall consist of one member from each district.

Sec. 13. Within each and every district of the Counties of Oahu, Hawaii, Maui and Kauai, there shall be elected by the qualified electors thereof a deputy sheriff and a deputy assessor and tax collector.

Sec. 14. All County officers, except as herein provided, shall be elected at the general election held for the election of Senators and Representatives of the Territory and shall take office at twelve o'clock meridian on the first Monday in January next succeeding their election.

Sec. 29. The general laws and rules governing the election of Senators and Representatives of the Territory shall apply in the election of County officers wherever applicable, except as herein provided.

Sec. 36. At least sixty days before a general election and forty days before a special election, the Board of Super-

LABORERS TO LIVE IN CITY

Pearl Harbor Workers Will Be Encouraged to Have Homes in Honolulu.

In accordance with the policy prevailing at other naval stations and Navy yards, it is understood that the Navy authorities may favor the plan of having all laborers at the Pearl Harbor Naval Station reside in Honolulu or at the Peninsula, going to and from their daily work by whatever means of transportation are available or provided.

In a couple of years, possibly, a modern naval city will be reared on the shores of Pearl Harbor, and the employes may number many hundreds, probably thousands, until the entire work is completed, and the residence problem will no doubt be solved as above. Already the five or six score of employes at work there come into town every day, some by train and others by the water route. Those who travel by train board the Oahu Railway cars near the concrete bridge this

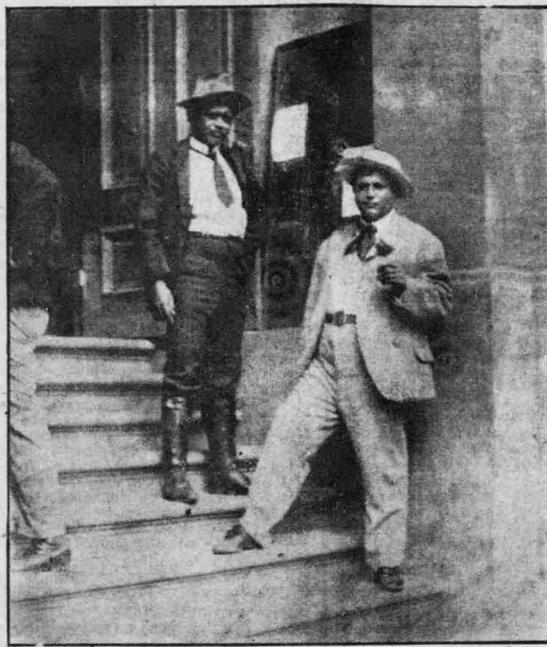

CARNEGIE MAY GIVE US A FREE LIBRARY BUILDING

Honolulu may have a public library before very long, a library more generously dealt with by Andrew Carnegie than almost any other library to which he has given aid.

The last legislature passed an act looking to a public library and providing for the appointment of a library board. The board was appointed, and though it has kept out of the limelight, it has not been idle.

When Governor Frear went east last May to attend the conference of Governors at Washington, he and Alonzo Gartley, who is a member of the library board, went prepared to present the library matter to Mr. Carnegie. They took with them complete data regarding the islands and especially of Honolulu, of the kind that would have a bearing on the subject of libraries. They took maps, and they took photographs. The whole subject was treated in a carefully prepared brief for Mr. Carnegie's consideration. The Governor and Mr. Gartley had a conference with Mr. Carnegie and presented the matter to him, and as they believe, interested him in the subject. The Laird was then shortly to go to Scotland, and on his return from Skibo Castle he will take up the matter again.

The act passed by the legislature contemplated the amalgamation of the present Honolulu library with the proposed free public library, and progress has been made in negotiating with the trustees of this institution. The Honolulu Library Association, in the accumulation of a library, has reached the limit of its library building. It cannot

side of Aiea station, and some distance beyond the Puuloa station, being conveyed to this point by the big Navy launches, two of which were brought here on the battleship Maine.

Where the Honolulu plantation track crosses the track of the Oahu Railway will in future be established an important junction station, if certain official plans prevail, for just there a frog will be laid in the Oahu Railway track, projecting on the makai side and run thence westerly and southerly toward Pearl Harbor, the two tracks (Continued on Page Seven.)

SCHEME TO NAME BROWN IS DROPPED

Yesterday the word was passed around that all talk of A. M. Brown as a candidate for sheriff was to be dropped, for the time being at least. Those who had been notified that they had been selected to go to the convention and would be expected to hold themselves in readiness to rally to Brown's support as soon as his name came up, were told that the plan of starting a convention boom had been dropped and that they might consider the scheme off. The reason given for the change of plans was that Brown had decided not to be a candidate in order to promote party harmony, the news that he would be forced on the ticket having raised a big roar from those who had not been taken into confidence in the matter.

PROMOTERS BACK FROM EUROPE

Mr. J. T. McCrosson and Fred Lewis Come by the Alameda.

Fred Lewis and J. T. McCrosson returned yesterday by the Alameda after an absence of several months. They went to London with Col. George W. Macfarlane to float the Hamakua lower ditch bonds, and they report that they have succeeded. The deal is not absolutely completed, but all that is lacking are certain details of information which will be readily supplied. The entire issue of bonds is \$1,000,000, of which \$200,000 have been taken up here. The syndicate which will take up the bonds is the same one through which the Hawaiian Commercial & Sugar Co. bonds were floated many years ago, and which has handled other Hawaiian enterprises.

The bond issue will be insured by the Norwich Mutual Life Insurance Company. The policy it issues insures the payment of the bonds at their maturity and is a protection to both the holder and the issuer.

Returning with Messrs. Lewis and McCrosson is Carl J. Brock, a mining expert from Idaho, who is an expert in tunneling. The promoters feel so certain of the conclusion of the bond deal that they are going ahead with the preliminary work.

While in Europe Mr. McCrosson and Mr. Lewis went to Germany, where they investigated the production of nitrogen from the atmosphere. This is a process that is in operation at Niagara Falls, and generally can be carried on where there is abundant and cheap power. The promoters hope to utilize the water power they will produce in the production of nitrogen for fertilizing purposes. If this is successful it will greatly reduce the importation of nitrates from the west coast of South America, which now amount to half a million dollars a year.

Col. Macfarlane expects to return from England in the latter part of September.

RUSHING WORK ON THE CRUISERS

A despatch from Vallejo, Cal., August 2, reports that to prepare the cruisers West Virginia, Maryland, California and South Dakota to leave the yard by August 20, in accordance with orders, the hours for the night shifts at Mare Island have been extended, and instead of work ending at one o'clock Saturday morning, as heretofore, the men worked until six o'clock. More than 700 men are now installing new fire control systems on the vessels, and while it is doubtful if the work can be finished before the ships leave, an effort is being made to get the jobs into such shape that they can be finished by machinists aboard on the cruise to Samoa.

ITALIAN NAVVIES RAISING TROUBLE WITH ASIATICS

SEATTLE, August 22.—Trouble is threatened here between the Italian and the Japanese employed on the railroad as laborers at Auburn. The assistance of police officers to prevent a clash has been asked for by the railroad officials, and these have been ordered to the scene of threatened trouble.

HINDUS ATTACKED BY ITALIANS.

TACOMA, August 21.—Near here this morning a number of vengeful Italian laborers, who declare that Hindu workmen have deprived them of a means of livelihood, set upon a band of the Hindu laborers while they were at work on the railroad, a hot fight ensuing. Measures will at once be taken to protect the labor employed from further assaults.

SYDNEY ENTERTAINS IN STYLE.

SYDNEY, August 22.—Following the official landing of the admiral and officers of the American Atlantic fleet, a great reception was given to the officers of the battleships by city and state officials, followed by a banquet such as has rarely been given in this city. A great number of the American officers attended both banquet and reception, nor were the men of the fleet forgotten, for arrangements on a large scale had been made for their amusement and the city is in gala attire for their welcome.

BRITON AND FRENCHMAN IN CHARGE.

CONSTANTINOPLE, August 21.—The newly-organized cabinet has called upon a British adviser to at once make plans for the thorough reorganization of the Turkish Navy, with the idea of placing it on a war footing, and this speedily, while a Frenchman has been selected to model the finances of the government and to establish credit.

GOVERNMENT APPEALS OIL DECISION.

CHICAGO, August 21.—The United States District Attorney of this district, following the order issued by President Roosevelt, has filed a petition in the United States Circuit Court of Appeals for rehearing in the matter of the reversal of the judgment of Judge Kenesaw Landis fining the Standard Oil Company twenty-nine million dollars for violations of the interstate commerce laws.

TACKLE FOR THE BREAKWATER WORK

Rails and other heavy material for the Hilo Railway company are aboard the American-Hawaiian steamship Mexican for the additional five miles of track for the road proper, and sidings for the contractor, D. Metzger, to be utilized when completed in the construction of the Hilo breakwater. In addition to rails, there is also the derrick material, locomotive cranes and other appurtenances for the handling of the rock at the quarry and dumping it at the breakwater. The material will probably be delivered in Hilo by the 28th of this month, the Mexican going there to take on sugar for Salina Cruz. The grading for the railroad is completed, and within a month the contractor should be in position to go ahead with his work.

SPOILING THE LITTLE GAME

Manoaites Taking Steps to Find Out Where They Are at in Politics.

Republican voters of Manoa, College Hills and Punahou, residing in the Second Precinct, Fourth District, are just now from Missouri. They want to know the caliber of the men who may be chosen to represent the precinct at the Territorial and County conventions, and just how those men will vote in the conventions.

Just because the precinct club held a meeting in July, under circumstances that were rather indefinite as to time and place, and a "slate" of officers from president down to the last name on the executive committee was handed in by a lamp trimmer of the road department and run through, and just because the voters of the detached sections of Manoa and College Hills knew little or nothing about it, an informal meeting of the Manoaites was held at the car waiting station at the junction of Manoa road and Kamehameha avenue on Thursday evening, to discuss the situation.

A committee, including Judge Weaver, Fred L. Waldron and S. De Freest was appointed to confer yesterday noon with Eugene Buffandeau, president of the precinct club, and deputy clerk of the County Clerk's office, and ask that he sign a call for a caucus meeting for Monday night next, which he did.

The Manoaites are taking interest in the coming primaries and want to know all that is going on. There are thirteen delegates to be sent from the Second Precinct to the convention, and as it is understood that a deal is on to throw the weight of the vote of the road department into the nominating meeting so that as many as possible of these thirteen delegates will be of the so-called Brown-Cathcart faction, they ask to be "let in" just far enough to see what kind of a slate is being fixed up.

At the July meeting for the election of club officers, lamp trimmer Maile handed in a slate of officers which went through nicely, with Buffandeau's name at the head of it as president. The meeting was held on Buffandeau's premises, and not at the empty store on Boretania avenue where meetings are usually held. Feeling that more "slate" proceedings of this nature might take place at the coming meetings the Manoaites et al. suddenly determined they were from Missouri and want to be shown, and incidentally have representation in the convention.

ARRAL CONCERT FOR SETTLEMENT BENEFIT

The concert at the Opera House next Saturday evening, at which Madame Arral is to sing, will be under the auspices of patronesses whose names assure a successful benefit. The concert is given in behalf of the fund for the Leper Settlement moving picture machine, and this object, alone, will undoubtedly bring a generous financial response. The object is one of unique merit, and in past benefit affairs for the Settlement, residents have responded liberally.

The appearance of Madame Arral will undoubtedly prove a drawing card. The little French singer is unusually gifted, and as she is practically making a farewell appearance, an excellent opportunity is offered to music lovers to hear her, especially in the mad scene in Hamlet, and three scenes in Mignon.

She will be assisted by Mrs. Charles B. Cooper and Mrs. Sidney M. Ballou. Mrs. F. H. Humphris, who was also to have appeared in these presentations, is indisposed and may not be able to assist. The patronesses are: Mrs. W. F. Frear, Mrs. S. M. Damon, Mrs. Ralph G. E. Forster, Mrs. F. M. Swanzey, Mrs. Sam Parker, Mrs. J. R. Galt, Mrs. E. A. Schaefer, Mrs. H. Foeke, Mrs. E. D. Tenney, Mrs. S. M. Ballou, Mrs. F. H. Humphris, Mrs. J. S. McGrew, Mrs. C. B. Cooper, Mrs. A. J. Campbell, Mrs. A. A. Young, Mrs. G. P. Wilder, Mrs. Geo. Castle, Mrs. J. M. Dowsett, Mrs. A. G. Hawes Jr., Mrs. R. F. Lange, Mrs. A. Wall, and others who will be announced later.

TOKIO COMMISSIONERS TO PASS THROUGH HERE

WASHINGTON, August 12.—The United States Commissioners to Tokio Exposition are off on a preliminary visit to Japan to gather what information they can of a useful character to aid them in preparing for the biggest and best display ever made by any nation in a foreign country.

Commissioner General Francis B. Loomis, Commissioner Frederick J. V. Skiff, who is director of the Field Museum of Chicago; John Callan O'Laughlin, secretary, and William A. Newcome of San Francisco, chief clerk, departed tonight for San Francisco, where they will spend one week before sailing on August 25 on the Manchuria for Japan.

Mrs. Skiff and Mrs. O'Laughlin are of the party. The third commissioner, Francis D. Millett, the artist, will go via Siberia, first looking in on the Franco-British Exposition in London, meet his fellow commissioners in Japan, and return by way of San Francisco. The remainder of the party will also complete the circuit of the globe, returning by way of Europe.

EMMELUTH AND EDINGS BRING SUIT

(Continued From Page One.)

visors shall issue a proclamation concerning county elections and transmit copies of the same to the several Boards of Inspection throughout their County and such proclamation shall be posted in the manner required by law.

No Proclamation Issued.

That the said respondents, the said Board of Supervisors of the County of Oahu, have neglected and refused to issue said proclamation concerning county election and transmit copies of the same to the several Boards of Inspectors throughout their County and such proclamation to post in the manner required by law as required to do by Section 36 of said Act, and they, the said respondents, the Board of Supervisors aforesaid, decline and refuse at any time to issue said proclamation and will not, as your petitioner is informed and believes, and so alleges, issue said proclamation at least sixty days before a general election or at any other time as by said act required, but so to do absolutely refuse and decline, claiming and alleging that the said act entitled "An Act creating Counties within the Territory of Hawaii and providing a government for the same," as aforesaid has been and now is repealed by an act of the Legislature of the Territory of Hawaii, entitled "An Act incorporating the City and County of Honolulu," approved April 30th, A. D. 1907, and is void and of no effect and not binding upon them, the said respondents, in any manner or form.

County Act in Force.

And your petitioner alleges that the said act, entitled "An Act creating Counties within the Territory of Hawaii and providing for the government thereof," is in full force and effect; that the said act of the Legislature of the Territory of Hawaii, entitled "An Act incorporating the City and County of Honolulu," approved April 30, A. D. 1907, is unconstitutional and void and of no effect, the same being in conflict with and in opposition to an Act of Congress of the United States of America entitled "An Act to provide a government for the Territory," inasmuch as it is,

Wherein City Act Fails.

First—An attempt on the part of the Legislature of the Territory of Hawaii to grant to a corporation special and exclusive privileges and immunities without the approval of Congress.

Second—That it requires other and different qualifications for the electors under the Act than are presented and provided for in said Act of Congress; and disqualifies and disfranchises a large portion of the duly-qualified electors of said Territory and said County of Oahu.

That the said Act is unconstitutional in—

That there are numerous private agricultural corporations embraced within the boundaries of said municipal corporation, not subject to control on the part of the Territory, except in the exercise of the police power, their contracts being contracts within the meaning of the contract clause of the Federal Constitution which the States and Territories are prohibited from impairing.

Why Municipal Act Is Void.

That the said Act is void for inasmuch—

First—That municipal taxes may be imposed on lands strictly rural in character and therefore not capable of receiving the benefits or advantages usually derived from municipal organization.

Second—That the boundaries of said municipal corporation as sought to be established by said Act are inaccurate, indefinite and uncertain.

And your petitioner further shows that he is a duly-qualified elector of said County of Oahu and eligible to any of the offices created by the said Act entitled "An Act Creating Counties Within the Territory of Hawaii and Providing for the Government Thereof," and has a lawful right to have said respondents issue said proclamation as aforesaid and transmit copies of the same to the several boards of inspectors throughout their county, as aforesaid, and to do and perform all acts and things required of them by said statute.

Prayer for Process.

Wherefore your petitioner prays your Honor to grant a writ of mandamus under the seal of this court, directed to the said S. C. Dwight, J. J. Fern, Charles Hustace, Jr., F. R. Harvey, F. K. Archer, A. E. Cox and J. M. Kealoha, constituting the Board of Supervisors of the County of Oahu as aforesaid, commanding them forthwith to proceed and issue a proclamation concerning a county election for the County of Oahu and transmit copies of a copy of the same to the several boards of inspectors through said County of Oahu and such proclamation to post or cause to be posted in the manner required by law and to do all acts and things required of them under and by virtue of the said statute, and to do and perform all such acts and things in the premises in the case required and for such other or further relief as to your Honor may seem meet, and to justice and right may appertain, and as in duty bound will ever pray.

JOHN EMMELUTH.

The order to show cause, upon being signed by Judge De Bolt, was immediately placed in the hands of Deputy High Sheriff George Sea for service, by Judge Edings. The order to show cause is as follows:

Order to Show Cause.

Upon the foregoing petition, and upon the application of W. S. Edings, Esquire, attorney for said petitioner, it is ordered that the said S. C. Dwight, J. J. Fern, Charles Hustace, Jr., F. R. Harvey, F. K. Archer, A. E. Cox and J. M. Kealoha, the Board of Supervisors of the County of Oahu, Territory of Hawaii, do show cause, if any exists, before this Court, at the courthouse in Honolulu, Territory of Hawaii, on Monday, the 24th day of August, A. D. 1908, at 10 o'clock in the forenoon, why a writ of mandamus should not issue as prayed.

"It seems to me," said Judge Edings, "that the very statement of the requirements for electors under this City and County Act, on comparison with the requirements of the Organic Act, shows the illegality of the Municipal Act. The Organic Act provides the qualifications for electors at all elections. The Municipal Act disfranchises a large number of these. There are abundant other reasons why the Act is void."

AMATEUR SPORTS PROFESSIONAL

ARE LOCAL FANS POOR OR PROPER SPORTSMEN?

Honoluluans Have a Chance to Loosen Up Today and Help the League Out--Will They Do It?

It's up to the fans today. Here is where they have a chance to show whether they are a bunch of tightwad soreheads or whether they are what they ought to be, an aggregation of live sportsmen who know enough to come out and see a good game and help the management out on the expense proposition. What do you think of a bunch that'll go back on their own people in this way? Just because every single game hasn't been up to big league ball they get sore and hang around town instead of coming out and helping the boys to do better by rooting for them. There is no excuse for the fans, they can fill the air with maundering talk about bushier playing and they can hold up the curb and railing on the Rialto for hours, but they can't convince any right minded sportsman that they are anything but a bunch of kickers. This talk about "Gee, that was a rotten game. Catch me out at that park again? Never" don't make a hit with a real sport. The fact is they are talking too much about the quarter they would have to spend to get in and they figure they can go to Aala Park Sunday and see a game for nothing. That's a hot way to do things isn't it? Here are some ten thousand fans for whose benefit the League went to work and brought two crackjack visiting teams from opposite sides of the Pacific to play for them, thinking, of course, that the fans would come through with their denarii and help pay for the show. How many of those ten thousand go out there? Sixty-nine. There's a good story for the boys to carry back to the

Coast. Here is what they'll say "Honolulu? Oh a fine place, you bet, some of the fellows there are just right but, say, talk about support, why after their own teams lost a game or two to us they wouldn't even come out and see the games. That is what is going to be spread round about Honolulu unless the fans wake up. If they won't come out to see the visitors play what will happen when only their own teams are left? It comes to this, that there will be one grand burial of the big league here unless the fans do something. It's up to you Mr. Fan, now loosen up, get that winning smile, pony up your dubs and root for the home boys. The Punahous are up against the Santa Clara boys today. Can anybody produce one sound reason why it shouldn't be a ripping good game? No; because there isn't one. It will be a good game and the Puns are crazy to win. They will play as they have never played before and the result will be a hard tussle. There has been some talk about the games for Sunday being switched around, but they will be played as scheduled, viz: Santa Clara vs. St. Louis and Keios vs. Diamond Heads. The Jewels were very anxious to play the Santa Clara again if they could obtain the loan of Vannatta and Burns to take the place of their two men who have left. The Keios are also anxious to play the Puns as the latter have beaten them in both games. But the league will stay by the regular schedule as the Keios will be back on the steamer this morning and will be Johnny at the rat hole for Sunday's game.

PURDY AND KAAUA ROPING TODAY

This is the day that will decide whether Ikuu Purdy and Archie Kaaua, the champion steer ropers of the Islands, have been able to defeat the champions from the great cow countries surrounding Cheyenne. The Frontier's Day Program at Cheyenne has such a large list of entries that the contests and celebration will last three days. It started last Thursday and is scheduled to be all over and all winners named by tonight. The only two items on the program that the Hawaiians will take part in are the steer-roping and wolf-roping contests. Judging by the records these two clever cowboys have made for themselves here, it seems very likely that they will return with the championship. The conditions of these contests, taken from the official program are as follows: Steer Roping Contest for Championship of the World.—Open to the world. Entrance fee \$10.00. Purses \$400.00. First, \$240.00; second, \$90.00; third, \$50.00; fourth, \$20.00. One-half the men to rope the first day, one-half the second day, the choice to be made by drawing numbers, and the four men making the best time on the first and second days rope on the third day. The average time made at both trials to determine the winner. Steers to have 60 feet of ropers. Riders to rope, throw and hog-tie the steer when time will be taken. If steer is not roped, thrown and tied within three minutes rider to withdraw at signal from judges. Wolf Roping Free for All.—Wolf to be turned loose in arena and to have 100 feet start of ropers. Committee will pay \$5.00 to person roping wolf.

CRICKET TODAY.

Oh, get your British accent out And prefix "I" to "Say" Put on the baggiest clothes you have There's Cricket on today. And don't forget, when on the field, A player by mishap Should miss an easy one, to shout "I say, well tried, old chap!"

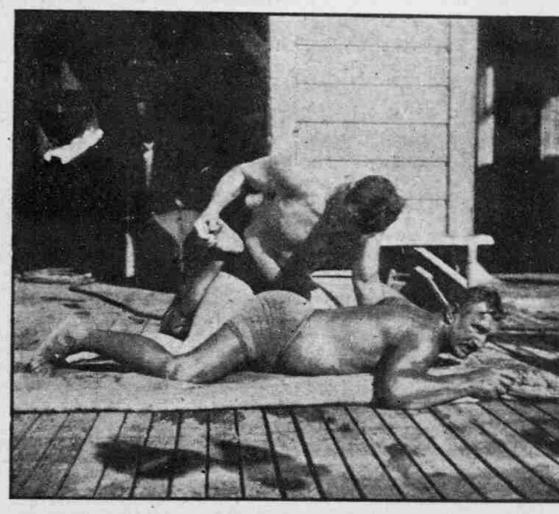

Messrs. Tait and Werner will give the receipts at the Empire Theater on Tuesday afternoon to the fund for the purchase of the moving-picture machine for the Settlement at Molokai.

CRICKET TODAY ALAMEDA VS. H. C. C.

The grand old British game today at Makiki. The Honolulu Cricket Club has arranged to play a game with players from the S. S. Alameda, and both sides state that they have a healthy aggregation to pick from. The game does not start till 2:15, and there will hardly be time to play more than one inning apiece. Of course, the right way to play this match would be to do it on the installment plan and finish up the second inning the next time the steamer comes into port. There is, unfortunately, no speculation in these latitudes as to the state of the pitch, for sad vandalism is a necessity and the balls are bowled on the unpliant surface of a mat. A mat makes a fast game, however, and the teams should have little difficulty in finishing one inning before dark if the bowlers have not lost their art since the desuetude into which the game has fallen of late in Honolulu. There will be the usual trimmings that always go with cricket—tea and talk,—and everybody who takes an interest in the game is cordially invited to be there, especially the men from the British bark Holywood, who are requested to steer a straight course for Makiki, luff up and show their weather. Plimsoll lines well clear of the water. The Honolulu lineup will be R. A. Jordan, J. R. McLean, W. T. Brown, S. Catt, P. J. Harwood, J. H. Fiddes, S. Lamb, R. J. Buchly, E. Melanphy, J. C. McGill, J. H. Fisher. It is not decided yet who will bowl for the local team, nor are the players assigned to their positions on the field. These matters will be arranged before the match starts. The trick lies hidden in the bat, coyly the maidens elude the striving bowler, the stumps are up and the bats are out, so come on, ye British cricketers, and see the game. It ought to be a good one, even though it be somewhat of a resurrection.

NEWSIES' LEAGUE TO BE STARTED

An attempt is being made to promote a Newsboys Baseball League. A. Gumbs, Spanish interpreter at the court house, is the man who is trying to do this and it looks as though his efforts would be crowned with well merited success. He has already got together a team which he has named the Giants and

they have won the only three games they have played so far. Yesterday they defeated the Bulletins by a score of 3 to 2 with Harry Sam Ku in the box and Charlie Sousa catching. These lads all play wonderfully good ball and it would be a great encouragement to them if a league could be started with about four teams and a suitable trophy presented for the winner of the series.

PRELIMINARY FOR SATURDAY NIGHT

A good preliminary has been arranged for the McFadden-Reilly go next Saturday night. Soldier McCullough will go eight rounds with Wahiani, the champion welterweight of the Hawaiian Islands. This should prove a very lively match and, while both men are no dubs as far as science is concerned, they are both hard hitters and there will be slap bang work from the first sound of the gong. Jack McFadden would have been without a sparring partner if it had not been for the kindly offices of Nigel Jackson, official scorer of the Riverside Baseball League. He heard that Jack was hard up for men to box with so he mosed down to the baths yesterday afternoon and offered to put the gloves on.

They went three lively rounds and Jack had to do some quick dodging in order to avoid the swift left jabs of the other man. Jack looks a trifle fat but he states that he weighs only 134 pounds and he can very easily take off six pounds between now and next Saturday. Next week he will weigh every day for the benefit of those who take an interest in the coming event.

MONSIEUR BRITT PARLE BEAUCOUP

What do you think of this dispatch from Paris? It shows that hope is re-awakening in the heart of James Edward Britt and that he is coming back with a challenge for Battling Nelson. He is going to retire next year, so he tells the Frenchmen, but he wants to take that championship away from the Dane. Willis Britt, as manager of the champion and ex-manager and brother of the California lightweight, will be in a nice state of mind when he gets the news, and will not know which way to jump. The story is as follows: "PARIS, August 12.—James Edward Britt of San Francisco was strolling through the Louvre today, looking at the masterpieces. He said: "Next year I shall quit the prize ring for good, but in the meantime I shall try to take the championship away from Battling Nelson. I have found that in England boxing is not on the same plane as in America, and purses are economical, to say the least."

There were rumors of Elbows McFadden going to Europe in search of victories and wealth, but of late we have not heard any more about it. He contracted the fever for the trip after he listened to the glowing accounts of Gay Paree as related by Willie Lewis and the soft time Willie had on the other side. Willie's wonderful stories made George get in touch with a few of the "mountains of youth" on the East Side, after which he felt as good as in the days that he trimmed Joe Gans and other stars.

Mrs. Gans is missing her bacon nowadays. Joe has been saying fo' her to just hang on by her nerve until September 7 and he will bring home another batch of honey-cured choice pa's of po'k. But it appears that she may have to wait longer.

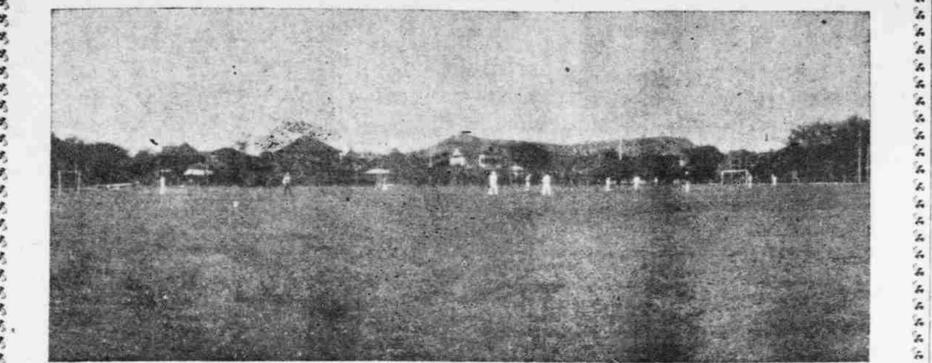

BILLY DELANEY ROASTS BURNS

The following article taken from the San Francisco Bulletin is interesting as voicing the opinions of that grand old veteran Billy Delaney. Billy very seldom gets off on the wrong foot, and when he takes a man up, that man comes pretty near growing into a champion. When Al Kaufmann was training at Arcadia for his fight with George Gardiner, Billy was there and watched the big lad very closely. It took Al eight rounds to do away with the superannuated George, and the fans raised a howl and said that he was in the N. G. class for taking so long to do an easy trick. But Billy thought otherwise; he has taken Kaufmann under his wing and proclaims that he has the coming heavyweight champion in charge. This is the article referred to: "Billy Delaney, the popular fight manager, dropped into the Bulletin office today on a little friendly visit and in discussing the heavyweight crop of pugilists suggested that the various promoters get together and hold an elimination tournament, the winner of the final bout to be presented with a belt to be purchased by popular subscription. "What does Tommy Burns intend to do when he gets through fighting all the dubs in Australia and returns to America?" asked Delaney. "Do you think he'll fight any of the tough nuts in this country? It looks to me as though he is trying to accumulate enough easy money to retire as champion without defending it against any hard game. Whenever he is challenged by any fighter who is considered to be of championship timber he sidesteps him by making all sorts of ridiculous demands. Now, I believe the American public is getting tired of his nonsense, and in order to develop a white heavyweight champion to be pitted against Jack Johnson for the title a tournament could be arranged in order to determine who is the best man in the lot. Ketchel and Thomas are two strong, husky young heavyweights, and the winner of next Tuesday night's fight could be pitted against the winner of the Flynn and Al Kaufmann bout in Los Angeles the latter part of this month. If Kaufmann wins I'm willing to sign him up with either Thomas or Ketchel. As Ketchel has challenged Tommy Burns, he should have no objection to fighting Kaufmann. Any other likely heavies now in the field could also be paired off, and in this way the field could be narrowed down to two men, who could fight for the belt and the honor of being matched with Burns for the title, if the latter has the "sand," and the winner of that bout could be sent against Johnson."

The suggestion made by Burns that Ketchel should fight Philadelphia Jack O'Brien before thinking of issuing a challenge to him was also commented upon by Delaney. "O'Brien is one man that Kaufmann wants to fight," said Billy. "He has an old grudge to settle with the Quaker City boxer and is just itching to wipe out that seventeen-round defeat. Al will take on O'Brien first, and if Burns is looking for trouble will accommodate him next."

ONE RUN IN TWENTY-ONE INNING GAME

What do you know about this? Here is the report of a game that took place in the bush covered wilds of Pennsylvania. It seems that there is a town there called Shoverstown and, wonderful to relate, they actually have a ball team there. They went up against a team from a place called Lebanon, not the one of biblical fame where the cedars grow, merely a village where the coal diggers live. That game lasted twenty-one innings and then one Mengert hit the ball over centerfield fence and the only run of the game was scored. This same Mengert handed out three triples and three doubles during the game, he must have had a poor lot of runners to work for him, if they could score only one run off three triples. The official scorer must have been all right for not a single error was recorded for either side. This report is taken from the Philadelphia Press and, while we do not doubt the veracity nor capability of that paper's reporters, we feel that a twenty-one inning game with no errors, one run and three three-baggers by one man must have been a hummer.

IMPORTANT PERIOD FOR HONOLULU.

The coming two years will be important in the history of Honolulu. The millions that the Federal government is preparing to pour into Oahu for Pearl Harbor work, for the building of fortifications and for the erection of quarters for a large number of men, will have the effect of changing materially the status of this city.

At the polls in November next the citizens will decide who is to be in control of the city government during this important period, but before the voting stage in the election arrives the candidates have to be chosen. Voting for the Democratic delegates to name the party candidates will take place on Thursday next, at places known to the members of that party, possibly. The Republican delegates, who will choose the ones to represent their party at the polls, will be chosen either by acclamation on Friday night next or by election a week later, at places to be announced, probably.

Whether Honolulu is to have men at the head of public affairs big enough to take advantage of the opportunities that are to come to our door, or politicians who will either take a peevish view of the situation and adopt a penny wise and pound foolish policy or seek their personal interest ahead of that of the community, rests entirely with the voters.

So far, of all the candidates that have either announced themselves or been mentioned, not one has publicly advanced any good reason why he should be elected or why the delegates to the convention should vote for him any more than for anyone else. No better reason has been advanced by any of the prospective candidates for any of the offices why he should be chosen than the fact that he wants the job.

Honolulu needs honest men with ability to handle big things for her officials for the next two years and the time to name them is within the next twelve days.

THE LAW'S DELAYS.

Judge Taft has hit upon a theme which should lead to his popularity with a large class of people in his plea for speedier justice. One of the greatest evils of the day in this country is the difficulty and the expense attending the use of the courts by individuals as a means of redressing wrongs and securing adjustments in business and personal affairs. "You have a good case at law," the poor man is told; "hire an attorney and sue for damages." The advice is good, but it is impracticable in many cases. Usually the man who sues has such slender means that he is easily tired out by the other side. He shrinks from undertaking the costly institution of a suit. He has heard all his life of the large fees earned by the lawyers, and he feels instinctively that if he goes to law, even though he may secure damages and costs, he will be out of pocket for many months. He has not, in fact, the capital necessary to enable him to prosecute his case. In some cities this condition has been correctly studied by sociologists and philanthropists, with the effect of organizing legal aid societies the services of which are available to the poor man who has a righteous claim for prosecution. There should be such an organization in every city of the United States, so that the poor man may feel no longer afraid of the court as a place of great expense, but may regard it as a refuge.

It has been said that we are a litigious people, and the argument has been advanced that anything that encourages the individual to go to court is unwholesome in that it tends to accent a disposition to dispute claims, to evade responsibility, to take issue on technicalities. Probably there is no basis in this for apprehension of evil effects flowing from efforts to make the courts of greater use to the class that needs them most. Judge Taft's hope is that the delays in the courts may be lessened, so that the inequality which now marks the administration of justice in favor of the claimant or the defendant with the longer purse may be eliminated. He would have the system amended so that it is no longer possible for a wealthy corporation to "wear out" a petitioner for damages. He feels that the right of appeal given to him is, in truth, detrimental to his interests, as it must also be given to the other and wealthier party. Therefore he thinks one appeal should suffice for all purposes of the law's satisfactory administration.

This is a vitally important matter, worthy of the most serious consideration of legislators, both State and Federal. It is not an issue of the campaign, but it might profitably be discussed at length on the stump during the next few months, with all candidates and their spellbinders urging upon the State legislatures and upon Congress some method of revision which will grant to the poor litigant a fair chance to secure prompt justice.

SMALL PROTECTION FOR POLICE.

Yesterday, in the District Court, two Chinese, who had assaulted and beaten a police officer, were fined ten dollars apiece. In view of the fact that the police are paid little, considering the risks they take, a fine of so paltry an amount does not give the members of the department the protection they deserve. In this particular case the officer may have shown mighty poor judgment in attempting the arrests, but the fact that he was a police officer and was known to be such, because his badge was taken away from him by his assaulters, justified the imposition of a heavy penalty. If the courts are not going to protect the police in the discharge of their duty, the result may well be that the officers will either refuse to take any chances in making arrests or will protect themselves by clubbing or shooting. Yesterday's case is not the first time within the past year when an assault on a police officer has been punished with a fine lighter than that imposed in some ordinary cases of assault.

TRUCKLING TO THE CRIMINAL ELEMENT.

Eugene W. Chafin, the Prohibition nominee for the presidency, has a way of saying things, and one of his sentiments, expressed at a political meeting the other day in Iowa, ought to be studied over by those whose partisanship overcomes their desire to be on the right side and the clean side and who wink at the truckling of their particular party candidates in their vote getting. Mr. Chafin said:

"A political party never can be any better than the evil it serves. It doesn't matter how many good men there are in the party. If they cannot carry the election without the criminal element in the party, then they must serve that criminal element after election and can get no better legislation than this criminal element will stand for."

A few days ago this paper called attention to the fact that there was much gambling of a more or less open nature going on in Chinatown in the old, familiar joints. Yesterday the statistics of arrests for gambling were given out by the Sheriff to show that the campaign against gambling was being kept up. The total arrests were creditable, but few of those arrested were Chinese. Some were Hawaiian and the majority were Japanese. The Chinese games are still running. In this connection it may be pertinent to inquire why a Japanese convicted of gambling is usually fined heavier than a Chinaman so convicted or a Hawaiian? The records for the past few months will show that this is the case.

A. M. Brown stated yesterday that he would not be before the Republican convention for a nomination. He has repeatedly said so during the past few weeks, yet his runners were pledging prospective delegates to the convention in his interest up until yesterday. It is possible that he has been brought to a realization of the fact that he is not wanted on the ticket, and he may mean what he says about being out of the running. It is also quite possible that this is only another attempt to keep the plans of the gang secret until the auspicious moment. Those interested in a decent administration of the police department will do well to watch for further developments.

If the officials of the Republican precinct clubs desire the public to know where their nomination and election of delegates are to be, the columns of the Advertiser are open to them free of charge. There is no excuse for any monkeying in this matter. If publicity is wanted it can be had for the small trouble of notifying this paper. If no publicity is wanted, the blank space opposite the precinct designation will so intimate.

PRECINCT SECRETARIES, ATTENTION!

In view of the fact that the acting secretary of the Republican County Committee states that he will not provide the press with a list of the places where the various precinct meetings will be held on the night of Friday next for the nomination of delegates for the Territorial and County conventions, and where a week later the balloting for these delegates will be carried on, stating that the matter of notification would have to be by advertisement from the separate precinct clubs, the Advertiser hereby agrees to publish such information for these precinct club secretaries free of charge. Club secretaries are free to use these columns for the publication of information for the benefit of the voters in their precincts. As fast as the information is supplied the Advertiser, the blanks in the following list will be filled in and the list allowed to stand until the morning of Friday, August 28. Secretaries who wish the Republican members of their clubs to know where the nominations are to take place will not allow a blank to remain long after the number of their precinct.

BILLS OF PRESS COMMITTEE

Meeting Called, but Did Not Convene—Plans for Fleet.

Contrary to expectations, the accounts of the press subcommittee of the Atlantic fleet committee were not presented yesterday afternoon to the gentlemen who were to have heard the report thereon, as there was no quorum. It is expected, however, that the meeting will be held soon, and the auditor's report made public.

A meeting was held at the promotion rooms, however, of the new committee appointed by Governor Frear to look after the Pacific fleet of cruisers, torpedo boats and auxiliaries, commanded by Admiral Swinburne. Some discussion was had over the balance left over by the Atlantic fleet committee, the question being raised as to whether the new committee had any power to receive and expend it. It was decided, however, that although originally subscribed for the Atlantic fleet, the subscribers would have no objections to its expenditure on behalf of the coming Pacific fleet.

The meeting was attended by George W. Smith, chairman; A. L. C. Atkinson, L. Tenney Peck, Fred L. Waldron, H. P. Wood, with Col. Jones and James F. Morgan absent. H. P. Wood and L. Tenney Peck were elected secretary and treasurer, respectively.

As to the entertainment of the fleet, it was decided to follow Admiral Swinburne's suggestion that this be deferred until October, this date being stated in the following correspondence between Captain C. P. Rees, commandant of the Naval Station, and Admiral Swinburne. Captain Rees wrote the Admiral for a roster of officers and the final paragraph follows:

"Regarding the matter of entertainment, I am inclined to the view that public hospitalities would be more keenly appreciated during the cooler weather of October than in September, when many citizens will be away from their homes. Any suggestion from you would be regarded as conclusive."

A cablegram was received from the Admiral by Captain Rees on August 19, as follows:

"Referring to your letter of the 10th, suggest October."

On motion, the chair was authorized to appoint the following committees: Transportation, sports, decorations and social; the latter to be made up of ladies who have very kindly offered to arrange for garden parties and other social functions at their own expense.

On motion, the Governor's committee constituted itself the reception committee, and also voted that the former committee's plan of procedure in the expenditure of funds be observed. The chair was authorized to appoint these committees and to request the members to formulate a plan of entertainment and report back their scheme of action at their early convenience.

The membership of each committee will be limited to about five members. As to entertainment, Mr. Waldron suggested that the committee's plans involve only a trip to Pearl Harbor, permitting the hotels to look after balls and receptions. Chairman Smith said that some ladies had suggested to him that they be permitted to give a subscription ball for the fleet.

ROADS WANTED TO PEARL HARBOR

The question of roads between Honolulu and the Naval Reservation at Pearl Harbor is one that must come up before the county authorities at an early date. There are roads, or rather excurses for roads, in the section between Moanalua and Paoua, but as there has never been any necessity for better roads there, none have been built.

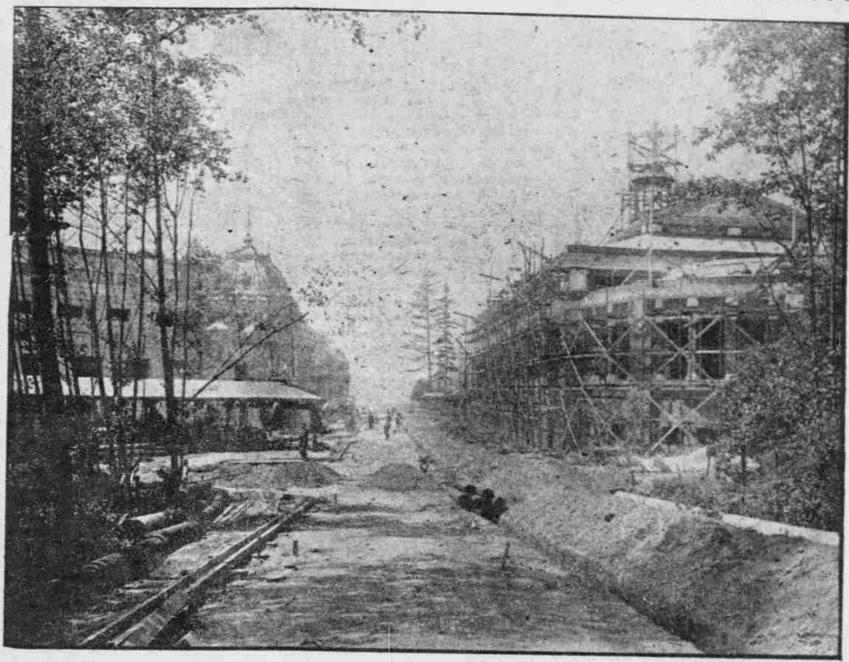

At the Naval Station the question of roads is already among the items of transportation that have been added to the list of requirements to aid in the construction of the Naval Station at Pearl Harbor. Materials have to be landed at the station, some by water and others by land, and in addition some easy means of travel between the reservation and the city must be provided by the overland route. A boat landing is in process of completion at Pearl Harbor, but so far most materials are landed directly on the shore. Dredging operations at one place near this landing have reached a depth sufficient to permit small vessels going directly alongside the shore.

WHAT IS POWER

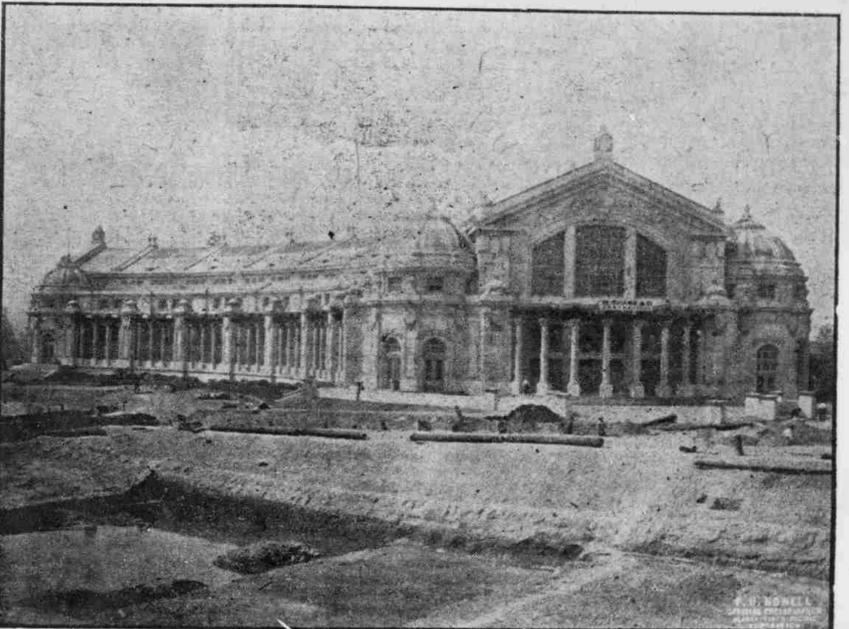

Nature supplies force. Wind turns the wind-mill. The brook turns the water-wheel. Coal runs the engine and food runs the man. Some things contain little force, some things much.

SCOTT'S EMULSION

Nature put the power there. It is a wonderful flesh-producer. This is not only a matter of nourishment but of new vigor and activity in the tissues.

SEATTLE PRAISES HAWAIIAN SEAMEN

As a result of the visit of the battleship fleet to the Hawaiian Islands, arrangements are being made in Honolulu for the creation there of a naval reserve organization, says the Seattle Post-Intelligencer. This force is to be recruited largely from the native Hawaiians, who are certain to take a deep interest in the matter. The probabilities are strong that the Hawaiian reserves will be among the most efficient in the country.

The native Hawaiian has the making of a fine seaman. In the old days when the whaling industry was in its prime, and when Honolulu was the regular rendezvous of the great Pacific whaling fleet, Hawaiians by the hundreds entered the whaling ships. Among them many developed as harpooners of the first class, and in the old whaling ships a harpooner rated as an officer, not as a foremast hand. As boatmen the Hawaiians are unsurpassed, and they took a keen delight in the chase and capture of the whale. Men of this type will make a fine naval reserve force, when properly drilled and taught, as they will be.

While the Hawaiian Islands, with their limited population, are preparing to organize a naval reserve force, the State of Washington, with the greatest shoreline of any State in the Union; with more vessels registered in the foreign trade than any other single American State; with its great shipbuilding plants, its large ownership of maritime property and its thousands of citizens serving on vessels, has never as yet taken the preliminary step towards the creation of a naval reserve.

One thing which has stood in the way and prevented any action being taken by those who have taken interest in this subject is the absence of any State legislation authorizing the creation of such a force, and thus its recognition by the State. This is one of the matters which should be brought before the Legislature at its next session.

PRINCE OF WALES AS A COAL PASSER

The warship Indomitable, conveying the Prince of Wales from Quebec, arrived off Cowes on August 3. Her average speed was 21½ knots, a record for warships. Wireless despatches from midocean stated that she was making 26 knots. Delays on the coasts reduced her average. The officers of the Indomitable say the vessel averaged from Belle Isle to Fastnet 25.13 knots. One day she made 26.4. Her turbines worked splendidly throughout. All the offi-

DUMB BOY STOWAWAY RETURNS ON ALAMEDA

Pining for his deaf and dumb friend, "Dummy," Willie Rickard well known in the Palama and Chinatown sections stowed away on the last trip of the Alameda for San Francisco to join him. "Dummy," who was his close companion and quite "talkative" with his hands, departed for San Francisco several months previously with actor Cooley. Yesterday Willie was returned to his native heath and sent up town, but like the cat came back and again had to be sent away, for he is beginning to look upon the Alameda as his rightful home.

This pair of deaf and dumb boys have always traveled together. Occasionally a third boy entered the close corporation but it was always Rickard and "Dummy" who held together. They were fond of bicycling and hung about the Japanese bicycle stores and the proprietors, for small favors rendered, gave

them opportunities to ride around town. This oddly assorted pair, one a haole and the other a Hawaiian, "talked" quite as freely as people in full command of their senses. Their sign language was complete and even an utter stranger to both could easily follow their "talk."

After Cooley's protegee left, Willie became despondent. He had no one to "talk" to, and finally stowed away on the Alameda. In San Francisco he was unable to get any trace of his friend, and as it was cold he stayed with the ship and was finally brought back. Cooley is also reported to have sickened of his bargain and has tried to send the boy back to Honolulu. Then to cap the climax the young fellow, in order to get extra money, paraded through the streets with a placard pinned to his breast calling attention to his infirmity, qualifying it with the information that he is a couple of thousand miles from his island home.

PRATT EXPLAINS OUR LAND LAW SYSTEM

SAN FRANCISCO, August 12.—An outcome of Secretary of the Interior James R. Garfield's tour of the Hawaiian Islands recently is the visit which J. W. Pratt, Commissioner of Public Lands in the islands, who arrived yesterday on the steamer Alameda, will pay to Washington.

Mr. Pratt said that the purpose of his visit to Washington is to look into the methods used by the United States Land Office, to the end that the system of earing for public lands in the islands may be improved.

"Lands in Hawaii are handled under the Hawaiian law and not under the Federal law of the United States," said Commissioner Pratt. "The law at present is too cumbersome. There are too many loopholes for fraud in settlement. During Secretary Garfield's visit to the islands he accompanied me over a large territory and suggested that we could later take up matters that would be of advantage to the people of Hawaii. That is the reason for my visit to Washington. We want to have our laws pertaining to lands made as uniform as possible. We also have in view the reclamation of large areas. In some places it is impossible to realize on crops of sugar, coffee, pineapples and other products until four or five seasons after their first planting. By improving these backward lands we hope to attract the settler."

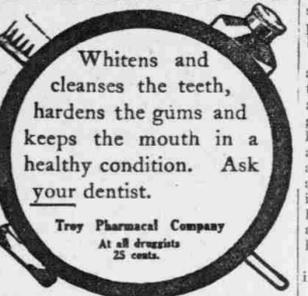

The generous offer of the management of the Empire Theater of the receipts from the Tuesday afternoon exhibition to the fund for the Molokai moving-picture machine will no doubt pack that hall. The usual admission will be charged.

LEI-GIVING MIGHT PROMOTE DESERTION

With a fear lest the sailors of the Atlantic Fleet might be too enraptured with the girls of Honolulu, the Herald, of Boston, on August 2, said:

After the parade of the American sailors at Honolulu, "200 girls appeared, their arms laden with leis or garlands of flowers with which they decorated the men, placing them about their shoulders and around their heads. This attention pleased the bluejackets mightily and the girls were most enthusiastically cheered." Surely if ever a sailor has been tempted to desert his battleship on this cruise, it was at Honolulu, where the climate lulls to delightful inaction, where maidens long famous for their beauty show friendliness and courtesy in an exquisitely delicate manner. It would seem, then, that civilization with all its horrors of useful inventions and practical appliances for "comfort," "education" and "fine behavior" has not wholly broken the charm of life among the Sandwich Islanders.

Reading the description of this reception, we are reminded of the romantic days on the islands of the Pacific. With Herman Melville we leave the whaler to live in the Typee valley, to take part in the feast of calabashes and watch the dances of the Marquesan girls. The enchanting Fayaway and her companions anoint themselves with aka and wear their gala costume: the necklace of flowers, the woven garland on the head, the short tunic of spotless white tappa. We voyage with Capt. Cook and landing on Tahiti hear the haunting song droned after sunset:

Te oowa ne malamala,
Te oowa te heenarro.

The old men tell us that the trees of Tahiti are those that clothe the slopes of the mountains of the moon. And when the vessel enters a harbor of the Society Islands young women of perfect beauty swim about the ship and laugh as the waves would fain embrace them. The world went very well then. Nor did Capt. Cook look forward to a shabby death, the result of a petty theft of a pair of tongs and a chisel.

Yet it was perhaps better for Cook to die on a far-off isle than to drag out feeble years at Galeshead, remembering adventurous days, longing for breadfruit—and the pepper of New Zealand that intoxicates. Mr. Edmond Pilon has written a charming sketch, "Mistress Cook ou les Heures d'Attente," in which he describes the wife of the sailor, waiting his return, welcoming him, disheartened when he told with gusto the story of his voyages. One day when he was at home, they walked together in the little garden. "My dear," she said, "I have planted tobacco for you." His eyes glistened: "Tobacco here is not so good as the tobacco over there." And he said this not knowing that he cut her to the quick. What sailor garlanded at Honolulu will hereafter be wholly content in the American town that he has called his home?

HIGHEST CLIMB EVER MADE BY A WOMAN

LIMA (Peru), August 14.—Miss Annie S. Peck of Providence, R. I., a mountain climber, signaled at 4 o'clock this afternoon her arrival at an altitude of 25,000 feet on Mount Huascarán, the summit of which is covered with perpetual snow. Miss Peck is accompanied by two trained Alpine climbers.

Miss Peck left New York two months ago to make another attempt to reach the summit of Mount Huascarán. On an earlier trial she was compelled to give up the attempt after reaching a height of 17,500 feet, owing to the cowardice of her guides. By reaching an altitude of 25,000 feet, Miss Peck has ascended higher than any other person in the world. The previous record was held by W. W. Graham, who reached a height of 23,800 feet in the Himalayas.

Miss Peck began mountain climbing in 1895, when she scaled the Matterhorn.

SUGGEST DANISH WEST INDIAN LABOR.

Editor Advertiser: If arrangements could be made with the Danish government for the transfer of some of the black natives of San Lucia, Santa Cruz, St. Thomas and St. John in the Danish West Indies, to this Territory the labor problem on the plantations could be effectually solved. But little work is offered those people at home, many of them, men and women, eking out an existence coaling steamers at four pence a ton. The women are as good workers, often better, than the men and from accounts furnished are law abiding, church going people. The diet of the laboring class is practically the same as that of the Porto Ricans but as workers these people are not to be compared with them. The difficulty in the way of securing them would be in the restrictions by the Danish government but which might be overcome by diplomatic means.

This is an exact picture of a Laird, Schober & Co. two eyelet Russia calf oxford we are selling for \$5.50. It is hygienically correct; as up-to-date as the directoire gown and a great deal more popular. Try on a pair today.

MARINE

Didn't Bring an Airship.

"We brought on this trip the largest consignment of ice-house goods that we have ever delivered in Honolulu," said one of the S. S. Alameda's officers yesterday. And the wharf looked as if enough apples, oranges, plums, grapes, etc., had been unloaded from the liner's refrigerators to stock the entire town. Over 110 tons of general freight will be delivered here. In addition to the big pile of fruits four autos arrived, three for the von Hamm-Young company and one, a Stearns, for Senator J. M. Dowsett. The freight consigned to Senator Dowsett was of such a nature that a wag asked the ship's officers if they didn't bring an airship, also, for the Senator. The Senator, in addition to his fine new auto, imported six fine horses and a handsome launch for use of the Waianae Plantation and his country estate at Makaha, on the Waianae beach. This odd assortment of motive power, suggested that the Senator had forgotten an airship to complete his transportation outfit.

A fine sky-terrier was also among the live freight, consigned to a fancier here. The Alameda arrived early yesterday morning from San Francisco after a fine trip. The weather was all that could be desired, hardly a breath of wind to stir the sea. The Alameda sighted the Manchuria on the 16th, and on the 17th at 7:30 p. m. sighted a four-masted schooner headed north. The Alameda will leave for San Francisco next Wednesday morning at 10 o'clock, carrying a full load of passengers.

Alice Cooke Battered.

Battered by gales and an encounter with a waterspout sixty feet high, the American schooner Alice Cooke, Captain Penhallow, which left Honolulu forty days ago bound for Puget sound, came into port yesterday morning, her rudder stock damaged and more or less the worse off from her long passage. The trip from Honolulu to this port would ordinarily occupy about twenty-five days at the most, but the Alice Cooke seemed to have ill luck during the whole voyage. The schooner had on board two young women passengers from the islands, Miss Carlotta stenographer, and Miss Kraig, a teacher, who were glad to set foot on land again after their long and perilous voyage. The schooner left Honolulu on July 21st, when strong southeast gales assailed the schooner in latitude 35.59 north, longitude 150 west. The vessel shipped heavy seas, one of which carried away the rudder stock. Captain Penhallow, rigged up a temporary steering gear, but this failed to guide the schooner from her erratic course. On July 11th, in latitude 31.07 north, longitude 160.45 west, the schooner passed within a quarter of a mile of a waterspout, which, Captain Penhallow said, was sixty feet high. The spout was whirling in a direction away from the schooner and although it frightened the women passengers somewhat, it was not near enough to do any damage. Under the jory steering gear on July 30th, in latitude 37.35 north, longitude 140.26 west, the Alice Cooke spoke the schooner Willis A. Holden, bound from Mororan for Guaymas. The schooner will remain here until her rudder is repaired and will then continue her journey to the sound.—Chronicle, Aug. 13.

Florence Ward Overdue.

While the schooner Florence Ward, owned and operated by the Commercial Cable Company between Honolulu and the cable station on Midway Island, is out now thirty-three days, having sailed from Midway for this port on July 20, and is therefore considerably overdue, anxiety is not yet expressed as to her whereabouts or condition. This is the longest time the vessel has ever been out from the cable island, but the prolonged voyage may be due, in part, to the gales and bad weather generally that have prevailed to the westward during the past few weeks. Captain Saunders of the Pacific Mail Steamship Company reported that he had encountered severe weather between here and Midway, and this being so the Florence Ward could hardly be expected to make any headway. The vessel is fitted with auxiliary power, but this is not generally used except to work in and out of harbors. The Florence Ward is bringing back some people from Midway. She is in command of Captain Piltz.

Submarines Coming?

The San Francisco Bulletin of August 12 states that in addition to the cruisers, torpedo boats and auxiliaries making up the Pacific fleet, two submarines, the Pike and the Grampus, will accompany the warships. The Bulletin says, the fleet will be composed of "eight armored cruisers, eight torpedo boats, two submarines and two naval transports," and that "the original plan for the cruise provides that the cruisers shall tow the torpedo boats on the way to the islands and that the submarines Pike and Grampus will accompany the other fighting ships. Recently the transport Solace has been converted into a refrigerator ship and will accompany the Pacific ships."

Preparing for Long Trip.

VALLEJO, August 13.—The seven torpedo destroyers Whipple, Truxtun, Hull, Stewart, Preble, Perry and Hopkins, which will make the trip to Salko, the latter part of the month with the Pacific cruiser fleet, will leave the yard next Wednesday. The crews of the little boats commenced coaling ship today.

Crook Next Month.

The transport Crook leaves San Francisco September 10 for Manila, via Honolulu. The Crook will be retained in the Philippines transport service for the inter-island runs. She relieves the Warren which will return to San Francisco for overhauling.

Shipping Notes.

After receiving a coat of paint the British bark Caradale has been shifted into the stream to await orders. Thomas Dunn, paymaster's clerk, U. S. N., who has been attached to the Honolulu Naval Station for several years, has been detached and ordered to duty at the Pearl Harbor Naval Station. The Aorangi is due today from Victoria and Vancouver. Among the distinguished passengers to pass through on the liner is the Earl of Dudley, Governor General of the Australian Commonwealth, succeeding Lord Northcote. About 6000 bags of sugar arrived on the steamer Likelike yesterday morning from Makaweli. An evening paper stated that the Likelike brought in 6000 tons of sugar, which would be just half the cargo of the largest American-Hawaiian steamer. The steamship China, due here Monday en route to the Orient, will carry a big consignment of war materials to Manila for the government. She will carry mines, gun carriages and ammunition. The mines are to be used in the defensive plans for Manila and Subig Bays and Olongapo. The mines weigh nearly 200 pounds each.

LABORERS TO LIVE IN CITY

(Continued from Page One.)

forming a V as they diverge and the lower track reaches the edge of the reservation. About half way between the opening of the V, the reservation gate may be located. The Navy would build its own track on the reservation, connecting with the makai spur, and this branch line would run past all the main locations on the grounds, in order to land the construction materials where the drydocks, buildings and quarters are to be built. From what Admiral Schroeder said before the Atlantic fleet sailed for Australia, the docks may be built along the main stretch of shore some distance below the landing place where the workmen catch the train, and close by these docks the houses for the commandant, some administration buildings and quarters for the upper officers would be erected. Between these and the reservation gate it is likely the general quarters for all other officers may be built.

Just when the actual work on the Pearl Harbor structures is to begin is not definite, but by October it is believed that the real work of construction will be going on in earnest and that the drydock will be one of the first jobs tackled. Admiral Schroeder stated at the time the "Schroeder Board" completed its observations and made report to Admiral Sperry, that the report would have to go on to Washington for approval by the Navy headquarters, but at the same time he thought the local engineers appointed to the Pearl Harbor work would commence getting up the details without waiting for the official approval and sanction to make the dirt fly. When the report is adopted formally and solemnly, there is little doubt but that the local officials will be in readiness with their plans and specifications to proceed. Although actual work may not now be in progress, yet the preliminaries are beginning to assume measurable proportions. For instance, the naval tug Iroquois left for Pearl Harbor Thursday morning with two big hoisting engines to be used in all kinds of work—pile driving, drill attachment, etc.—and landed them safely. The last transport brought to Honolulu extensive drilling machinery to be used in excavation work, both for water and land operations. Men now at work at Pearl Harbor are making field surveys over the reservation, making borings and dredging. About ten acres of land have been cleared of undergrowth, but as yet there are no buildings to house employees. The framework of the coal sheds partially ruined by the fires in the coal piles at the Honolulu Naval Station have been taken to Pearl Harbor and will be erected to house materials and serve as places for the men to take their meals. Another of the coal sheds at the Honolulu station is yet to come down.

HAD FUN STICKING PINS IN HIMSELF

SEATTLE (Wash.), August 11.—When a physician from the Health Department went to South Seattle today to examine Harold Springer, 16 years old, for symptoms of leprosy, he found that youngster in the midst of a group of boys and girls industriously sticking pins into his face. The others were gazing at him with admiring awe and Springer was smiling and apparently enjoying himself as much as anyone. The boy had been making a practice of entertaining his friends by thrusting pins and darning needles through his cheeks and into his body, apparently without the slightest pain.

IF FRANKLIN CAME BACK?

United States District Attorney Breckons yesterday received an autograph copy of the edition of the autobiography of Benjamin Franklin edited by Nathan Haskell Dole, a cousin of Judge S. B. Dole. The editor has written a presentation inscription on the fly leaf of the book, which is as follows: "If one were granted the power of bringing to life some personage of the past, who else should it be but Benjamin Franklin! This is the Age of Electricity and Franklin was its progenitor. I should like to be the eicerone deputed to take him on his first trolley ride and introduce him to the long distance telephone! Wouldn't you, Judge Breckons?" Nathan Haskell Dole Ogunquit, Me., Aug. 6, 1908."

ROOSEVELT MAY STUMP FOR TAFT

WASHINGTON, August 14.—Close friends of President Roosevelt and Judge Taft have let drop some hint within the past day or two that the President is more than likely to get into the campaign in the most active manner close on to election time. That he will appear personally in some of the States where the fight assumes its most critical phases and talk directly to the people is regarded as one of the logical sequences of the decision of Judge Taft not to make any stumping tour. Information from a reliable source is that Secretary of War Luke Wright, a Democrat, will take the stump for Taft in Tennessee, and that being the case, Tennessee, more than otherwise would be the case, will become interesting territory. In that event, it may mark a more serious attempt than any yet made to break up the "solid South" and secure a political alignment on a new basis.

IN CLOSE TOUCH WITH WASHINGTON

A telegram relative to important ship movements was recently sent to Rear Admiral Sperry, commanding the Atlantic fleet, and his answer was received at the Navy Department in forty-three hours from the time of sending the first message, this by cable to Suva, and thence by wireless chain to the Connecticut.—Army and Navy Journal.

COMMISSION WANTS OPINIONS

Asks the Fullest and Freest Expression of Views.

A. Lewis Jr., chairman of the Advisory Land Law Commission has written the Advertiser regarding the plans and work of the Commission, as follows:
'The Commission is desirous of obtaining from your paper all communications which have been in the past addressed to your paper relative to the question of the administration of or legislation concerning the land laws of the Territory of Hawaii. It would also be pleased to receive from you editorials which have from time to time appeared in your paper. The Commission is expected to report November 1, 1908, and in order to make its report of value it will be necessary to obtain as far as possible the reflection of public sentiment of the Territory. The Commission knows of no better method of obtaining this sentiment than from the articles which you have received and from time to time published and also from your editorials.
'A number of public hearings will be held before the Commission makes its final report. These public hearings will be held in Honolulu, Wailuku, Lihue and Hilo, that is if the present plans are carried out.
'As the active work of the Commission will begin about the 1st of September, that is, as the first meetings of the Commission will be held at that time, it is desirous that the matter which we have asked you to furnish be forwarded as soon as you can conveniently send the same.'

THE BALANCE SHEET OF HAWAII FOR THE YEAR

The report of Territorial Auditor Fisher for the year ending June 30, 1908, has just been published. The cash disbursements under the regular appropriations figured up to \$1,518,033.83 of which the Department of Public Instruction took very nearly one-third, with the sum of \$467,555.05, exceeding its nearest competitor the Board of Health by over \$130,000.
The total for the counties amounted to \$959,270.83 of which Oahu got a lion's share with \$432,706.67. Hawaii follows with \$182,289.36.
The special cash payments by the Treasury form a lump sum of \$199,469.90, all the other items being comparatively small with the exception of \$98,800 which is paid to Wells, Fargo & Co. for interest. The net cash disbursements reach the sum of \$2,508,001.53, leaving a cash current balance in the Treasury of \$391,737.19.
The receipts of the various departments are as follows: Judiciary department, \$52,062.26; Public Works, \$270,025.66; Agriculture and Forestry \$408; Treasury, \$1,845,439.40; Public Instruction, \$5,056.05; Health, \$28,484.91; Secretary, \$1,612; Public Lands \$160,883.71; Survey, \$274.85; Land Court, \$643.03; License Commissioners, \$90,366.72; Auditor, \$15; making a total of \$2,669,748.22.
The appropriations of the Legislature amounted to \$3,489,879.26 of which amount \$1,680,822.19 has already been expended as of June 30 a balance remained of \$1,768,787.07.

STORY OF THE FLEET COMING IN BOOK FORM

'With the Battle Fleet,' by Franklin Matthews, is to be published in the early fall by B. W. Huebsch, New York. It is a picturesque record of the voyage of the Atlantic fleet from Hampton Roads to San Francisco, including accounts of the ships' visits to various South American ports. Appropriate illustrations, and an attractive cover design by Earl Stetson Crawford, will adorn the book. Mr. Matthews is one of the old guard of the New York Sun, to which newspaper the letters on which the book is based were written. They appeared also in thirty of the largest daily papers in the land, and the demand for their publication in book form has been widespread. The naval authorities have cordially cooperated with Mr. Matthews.

EMPIRE BENEFIT FOR SETTLEMENT

The management of the Empire Theater has announced that there will be a grand benefit at their place next Tuesday afternoon and that the entire receipts will go to the Settlement moving picture fund.
The doors will be opened a little earlier than usual and will be kept open as late as is necessary to accommodate the crowds.
There will be a series of comic and colored moving pictures among which will be 'A restful ride,' 'The dog and his various merits,' and 'Mr. Sleepy Head.' Mrs. King, the singer, has donated her services for the afternoon and will render one of her well known illustrated songs.

TWO NUISANCES.

Governor Frear yesterday received in the mail two publications of the National Federated Association. One of these is entitled 'The Billboard Nuisance,' edited by Clinton Rogers Woodruff, and the other entitled 'The Smoke Nuisance' by Frederick Law Olmsted, the celebrated landscape gardener, and Harlan Page Kelsey. The latter is illustrated, the illustrations being mainly cartoons that have appeared in the Chicago Tribune and the Chicago Record-Herald in illustration of the smoke nuisance there. The pictures in this publication are really quite interesting.

ABOUT BRECKONS.

Legal Notes, a paper published for

lawyers, has the following in its column of light paragraphs:
In Line For Promotion—The United States District Attorney, in Honolulu, was arrested not long ago at the instance of the Civic Federation for attending a prize fight without stopping it. Federal officeholders might make more serious mistakes between now and March 5, 1909, at any rate.

LAST APPEARANCE OF GOOD COMPANY

Tonight will witness the final performance of the French-Hallen & Fuller company at the Orpheum and there should be a packed house to bid these great artists a farewell.
Great credit is due Fred Hallen, the manager of this excellent company, for gathering together and bringing to Honolulu such an array of talent, and he will take with him to Australia the best wishes of all who have seen his performances.
His company is by far the best presented here for many moons and the local theater goers will be fortunate to see as good in the future.
After tonight the company will put in a week of rest and enjoyment in Honolulu. They will then go to Hilo, visit the volcano and return in time for the steamer sailing September 19 for Sydney.

IF WOMEN ONLY KNEW

What a Heap of Happiness it Would Bring to Honolulu Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.
If women only knew the cause—that Backache pains come from sick kidneys. 'Twould save much needless woe Doan's Backache Kidney Pills cure sick kidneys.
Mrs. Selina Jones of 200 Main street, Ansonia, Conn., says: 'I think if it had not been for Doan's Backache Kidney Pills I would not be alive today. Seven years ago I was in such a bad state with pains and aches across my back and other weakness that I was obliged to keep to my room, and was at times confined to my bed for six weeks before I could get about. Seeing Doan's Backache Kidney Pills recommended, I began taking them and inside of a week the terrific backache, pains and soreness across the loins and the headaches had vanished, as well as the feeling of general weakness and languor. The kidney weakness was corrected and the dizzy spells had disappeared. I strongly endorse the claims made for Doan's Backache Kidney Pills.'
Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

NEW STATION OFFICERS.

With the arrival of orders for Thomas Dunn, paymaster's clerk, U. S. N., to be detached from the Honolulu Naval Station, to be attached to the Naval Station, Pearl Harbor, the local station is raised thereby to the dignity of having two paymaster's clerks. Mr. Dunn, who has been on duty here for about three or four years, goes to the new station, but the two clerks will be done in Honolulu, the two clerks dividing the work. When Paymaster Brooke was on duty here, the station had only an assistant paymaster. The new officer, Mr. Hornberger, is a full paymaster. In recent months there have been attached to the local station five new naval officers, including Civil Engineer Parks, U. S. N.; Assistant Engineer Glenn S. Burrell, Carpenter T. H. Scharf, U. S. N.; Boat-swin P. J. Kenney, U. S. N., and Paymaster's Clerk J. W. Caum.

THE PICTURES ON THE WALL.

The Japanese Social Club has bought the lease of the premises at 69 School street, and the furnishings of the building, from T. Ida and H. Shinagawa. It pays \$1000 in monthly installments of \$100. An inventory of the purchased property is contained in the deed. It includes '7 pictures on wall,' 3 Japanese straw carpets, 4 charcoal stoves, crockery for 80 men, wooden dishes for 60 men, trays for 28 men, and glasses for 150 men. The deed was filed for record with Registrar Merriam yesterday.

The entire receipts of the Empire Theater on Tuesday afternoon will be donated to the fund for the purchase of a moving picture machine for the Molokai Settlement.

NEW HAWAIIAN BOOK BY REV. H. H. GOWEN

Rev. Herbert H. Gowen, pastor of Trinity parish, is the author of a new collection of Hawaiian idylls, just issued by the Cochrane Publishing Company of New York city. "Hawaiian Idylls of Love and Death" is the title of the volume, and its eleven subjects embrace many mythological tales of the beautiful Islands.

The publisher's announcement of the volume contains the following sketch of the author:

"Mr. Gowen is English by birth, and passed both Oxford and Cambridge examinations for holy orders. Being sent to Honolulu in 1886 for his health, he was there ordained in the English church. Since 1896 he has been located in Seattle, Wash. This is the sixth book that has come from his pen. He has taken great interest in the study of botany and the exploration of Indian mounds. As a linguist, he has mastered Arabic, Sanskrit and Chinese, besides having some knowledge of the familiar modern European tongues and several island dialects."—Seattle Post-Intelligencer.

LOCAL BREVITIES.

Gerrit P. Wilder has been suggested for Park Commissioner to succeed L. A. Thurston.

The report of the Tax Commission has just been printed. The Governor received copies day before yesterday.

J. T. McCrosson, the Hamakua ditch man, returned yesterday on the Alameda from a successful financing trip to London.

Auditor J. H. Fisher yesterday received a letter addressed J. H. Fisher, and written by H. Fisher, which is the name of his father, but was evidently for some other J. H. Fisher, whom he does not know.

Inspectors Hare and Carr of the mail service are both out of town and it is reported are investigating a mail robbery which occurred some time ago, very similar in its circumstances to that discovered at Kamuela postoffice.

Governor Frear yesterday received an invitation to be present at the celebration of the four hundredth anniversary of the settlement of Porto Rico by Ponce De Leon. That this anniversary should occur on August 12, the anniversary of the transfer of the sovereignty of these Islands, is considered an interesting coincidence, seeing that the two countries came under the American flag in the same year.

A MERCHANT MARINE MEMORIAL FROM VENICE

Governor Frear yesterday received a memorial from the Chamber of Commerce of Venice—Venice, California—against many of the restrictions of the American shipping laws. The Venice Chamber of Commerce does not oppose subsidies for fast mail service or for special service, but expresses the belief that the American people will never approve the subsidizing of merchant vessels in general. The memorial proposes, as a means of restoring advantages to the American merchant marine, to permit the purchase of vessels to be placed under the American flag from other countries. The argument is made that Great Britain, while throwing open her trade and giving her merchants the greatest freedom in the matter of securing vessels, and subsidizing only fast mail service, has built up her merchant marine; while the United States, with ungenerous laws against the vessels of other countries, and restrictions on the privilege of purchasing vessels not made in America, all for the purpose of helping her shipbuilding and ship-owning industry, has seen her merchant marine almost altogether fade from the ocean.

LUMLEY COMPANY WILL OPEN MONDAY

The Cohen-Lumley Stock Company, headed by Richard Buhler, which has been making such a successful tour on Maui and Hawaii, return from Hilo this morning by the steamer Mauna Kea. In Waikuku and Hilo they played to packed houses, breaking all previous records for receipts.

They will open again at the Orpheum for a short season and many who have enjoyed their previous performances will no doubt be glad to welcome them back.

The opening bill which will be presented on Monday evening is the great drama "My Partner." Tickets are now on sale at the Orpheum box office.

TEACHERS ON THE COAST.

Superintendent of Public Instruction W. H. Babbitt received a number of postcards and letters from teachers who left here on the transport. Of the thirty who went, twenty took the course in the summer session at the University of California. This is considered a splendid showing, especially as the teachers were not required to attend.

They have ranged wide throughout the Coast in sightseeing. A large party went to Yosemite and the Mariposa Grove of big trees.
