Tired of His Contest Against His Father's Will.

OAKLAND, Jan. 11.—William Holt Aldrich has settled his contest against the executors of his father's will which cut him off with an allowance of one-quarter of the income of the estate, which was worth several hundred thousand dollars. Aldrich was one of four children of the late William A. Aldrich, the Piedmont capitalist who died in 1892. His will created a trust, by which the contestant was left out of the final distribution. He brought suit against Mrs. Annie A. Barton, Helen Aldrich Dunning, Jos. M. Quey and Arthur A. Smith to have the trust declared void, so he could share in the distribution. Today his attorneys, Crandall & Bull, dismissed the suit. The terms of the settlement were not made known. It is said Aldrich realized a handsome figure in settlement. His family dwell in Honolulu.

YATES WILL EXHIBIT.

Mr. Fred Yates, the portrait artist, has accepted the invitation of the Honolulu Art League to exhibit his paintings. The exhibits will be made on Tuesday and Wednesday evenings from 8 to 10 o'clock. It will be an invitational affair, in charge of the Art League.

Police Clerk George Sea is the owner of a talking parrot imported from Australia. Already the bird has acquired a fair knowledge of the Hawaiian and English languages. George says a \$100 wouldn't buy his bird. Hack Inspector Sam Macy is also the proud owner of a talking parrot, which he received from Harry Evans.

MRS. DIMOND RETURNS

INJUNCTIONS AND RESTRAINING ORDERS ISSUED LAST NIGHT.

The Papers Were Not Served Until Too Late—The Defendant Entered the Waikiki Home—A Surprise.

Mrs. Carrie H. Dimond returned to Honolulu yesterday afternoon on the same steamer which carried her away to the States on New Year's Day. She was accompanied by A. J. Moore, of the Orpheum theater in San Francisco, who says he will look after her interests in the divorce suit which will be tried in the Circuit Court next month.

Mr. Dimond was on the Pacific Mail wharf when the big steamer anchored and when he learned of his wife's return, he at once took a carriage and drove to the office of his attorneys, Kinney & Ballou. A petition for a temporary injunction restraining Mrs. Dimond from entering his home or taking the only child was presented to Circuit Judge Carter in Chambers shortly afterward. The petition is as follows:

"Now comes the libellant, W. W. Dimond, in the above entitled cause, and moves this court that an injunction issue forthwith restraining the libellee, Mrs. W. W. Dimond, in said case from entering or attempting to enter the home of the libellant at Waikiki, or from interfering with or molesting the person of Lucy M. Dimond, child of libellant and libellee until further order of this court. This motion is based upon the record, and upon the affidavit of William W. Dimond, hereto attached and made a part hereof."

Mr. Dimond asserted in his petition that Mrs. Dimond voluntarily quit his house, and further that the premises were leased in his own name from the Bishop estate.

Judge Carter immediately issued the following order:

"Now, therefore, you and every one of you are strictly enjoined under the pain and penalty of being in contempt of court from entering or attempting to enter the house or premises of W. W. Dimond, at Waikiki, and from interfering or molesting the person of Lucy M. Dimond until further order of this court. Hereof fail not at your peril."

The papers were placed in the hands of Marshal Brown, but before he could serve them Mrs. Dimond had already gained an entrance into the Dimond home. The place had been locked and bolted, but Mrs. Dimond forced her way in.

All last night there was considerable excitement about the premises. Neither Mr. and Mrs. Dimond retired during the night. The attorneys of both parties, Messrs Thurston & Stanley for Mrs. Dimond, Kinney & Ballou for Mr. Dimond and Mr. Paul Neumann, Marshal Brown, Mr. Moore, Ned Macfarlane and others were also congregated at the house until midnight.

It has been stated by those who have talked with Mrs. Dimond that she will not fight the divorce proceedings. She will demand a settlement of the property, alimony and the custody of the child. Mrs. Dimond had an interview with her attorneys this morning.

A motion to dissolve the injunction granted last night by Judge Carter to restrain Mrs. W. W. Dimond from occupying the family residence at Waikiki will be argued this afternoon.

Mrs. Dimond left Waikiki shortly before noon today. She has taken up quarters in the Arlington hotel.

CALIFORNIA WINS.

The National Guard of Hawaii has fallen before the colors of the National Guard of California. By the steamer Coptic there arrived the score made by the California marksmen in the 100-man shoot on January 10. The grand total was 3952, out of a possible 5000. This defeats the N. G. H. by 83 points. The California marksmen had the wind and weather against them.

COMPLIMENTARY CONCERT.

Saturday evening January 30, a complimentary concert will be tendered to Miss Richards at the opera house on the eve of her departure for the United States. An attractive program is being arranged for and will soon be announced. Tickets \$1, 75 and 50 cents, for sale at Hobron Drug Co. Wednesday morning.

THE PACIFIC CABLE LINE

COL. SPAULDING AND ASSOCIATES FAVOR COMPETITIVE BIDDING.

Proposition Before Congress to Throw Open to Competition the Building of a Cable to Japan via Honolulu.

WASHINGTON, Jan. 15.—Gen. Wager Swayne of New York, representing the Pacific Cable Company, of New Jersey, appeared before the House Commerce Committee today in support of a proposition to throw open to competition the building of a cable from the United States to Japan via Honolulu.

All the cable bills before Congress, he said, relegated the details to the Post Office Department, thus recognizing the cable as a part of the postal service. The postal service, he held, was not required to be remunerative, therefore the stipulation to pay the money of the United States in the form of a subsidy to the cable company for a term of twenty years was not strictly subsidy, inasmuch as the Government's business is to be carried during that period free of charge. There was no inconsistency in that, he thought, as the mails were carried in some part of the country by private parties who were paid for the service.

In answer to queries from the committee, Gen. Swayne explained that the other company which desired the contract would undertake to build the cable this year. His company could not do that. Neither could his company lay the cable to Japan and China within seventeen months from this date. They would not attempt to do it until the bed of the ocean had been properly surveyed.

The English Government, he asserted, would not lay their cable if the United States first enters the field. In this connection he referred to the existing condition in the Hawaiian Islands by showing that the Hawaiian people feel that they may not long remain a dependent province. He asserted that sooner or later they would cast their lot with some nation, and that nation would probably be the one which would put them in communication with the remainder of the world, and thus help them to build up their commerce.

In answer to a query if the men composing his company were responsible, Gen. Swayne mentioned the names of some of the leading incorporators, among whom were Col. Spaulding, who had resided many years in Honolulu and held a contract from that Government to lay a cable to San Francisco. Other members of the company were D. O. Mills of New York, Gen. G. M. Dodge, who built the Union Pacific Railway; James J. Hill, the President of the Great Northern Railway; Abram S. Hewitt of New York and others.

THE SCRYMSEY BILL.

WASHINGTON, Jan. 11.—Chairman Bennett's Committee on Interstate and Foreign Commerce has asked the Rules Committee for a day for consideration of the Pacific cable bill, now on the House calendar. This bill is one introduced last session by McCormick, and reported after material changes. It is known as the Strymsy bill or the New York Cable Company measure, to distinguish it from the Spaulding, or New Jersey Cable Company measure, reintroduced recently by Loud.

FOR PRIVATE BUSINESS.

Mr. Thurston Will Leave for the States Next Week.

Attorney Lorrin A. Thurston and Mrs. Thurston are going to the States next Friday by the steamer City of Peking. They expect to be absent for two or three months and will visit a number of eastern cities.

When questioned this morning about the object of his trip Mr. Thurston said he was going on private business. He would not represent the Government or be the envoy of any club or society. While absent Mr. Thurston will, of course, do what he can toward furthering the cause of annexation. Should he be unable to get away next Friday, would leave the following week.

OPPOSING THE TREATY

BEET SUGAR GROWERS WORKING AGAINST RECIPROCITY.

Interview With Hon. W. C. Wilder. The Incoming Administration to be Confronted With Serious Questions.

Hon. W. C. Wilder and wife are home from a lengthy visit to different places in California. Mr. and Mrs. Wilder are both improved in health and report having had a very pleasant vacation.

In speaking of his trip this morning Mr. Wilder said the sentiment on the Pacific Coast on annexation was pronounced in favor of it. He noticed some opposition to the measure, confined principally to the interests of trusts and corporations.

Regarding the reciprocity treaty, a number of people were outspoken in denunciation of it and were working energetically for its abrogation. "Of course," said Mr. Wilder, "the beet sugar raisers are opposed to the treaty and they are doing everything in their power against it." He was not prepared to say what would be the outcome of the united campaign now being waged against Hawaiian sugar.

Touching political affairs in the United States, Mr. Wilder expressed the opinion that the incoming administration will be confronted with some difficult questions, which will not be easy of solution. "My trip," said he, "was for pleasure, and I had a great deal of it. A number of places in the state were visited, among them being Los Angeles, Santa Barbara and San Diego. My health is much improved. 'Yes, I am pleased to be at home again.'"

HE WILL SEE THE ISLANDS.

Count Kergorlay, who puts in his time in San Francisco and Paris, is at the Hawaiian hotel for a few weeks. He will tour the islands. The count says that he was attracted to the islands by the enthusiastic reports given him by friends who had visited Hawaii.

A PRETTY CARD PARTY.

The beautiful residence of Mr. Alexander Young on King street was most brilliantly illuminated last evening. The occasion was a card party given by the Misses Young. About eighty friends were present. Euchre was the game. The ladies' first prize was won by Mrs. Joseph Gilman and the gentlemen's first by Mr. Von Horn. Very Mrs. Schmidt won the beauty trophy.

SUGAR ADVICES.

Castle & Cooke have been notified by their San Francisco agents that a New York telegram on January 16 reports a sale of 11,000 bags of sugar due to arrive at 3 3-16 cents.

There has been an upward tendency in sugar stock since last advices and in the past two days has taken a sharp advance.

DUTY ON SUGAR.

Ways and Means Committee Favor Such a Course.

WASHINGTON, Jan. 13.—While it is certain that the new tariff bill will be minus the 2-cent bounty on sugar of the McKinley bill, there is reason to believe that the duty on sugar will be nearly that amount. The Ways and Means Committee got down to work today, but nothing in the way of fixing rates can be expected for several weeks. Enough is known of the temper of the committee to justify the statement that the sugar advocates will be pleased with the results of the sub-committee's work.

ONE THOUSAND DOLLARS

EXILE CRANSTOWN AWARDED A JUDGMENT AT VANCOUVER.

He Wanted \$50,000—Case Settled After Many Months—Johnston and Mueller Did Not Contest.

VANCOUVER, B. C., Jan. 12.—Since the day the United States flag was hauled up by Stevens at Honolulu no matter of as much interest relating to Hawaiian affairs has come about as that of the decision of the Supreme Court of British Columbia yesterday.

The deportation by order of the Provisional Government of Hawaii of J. B. Cranstoun, J. Mueller and J. Johnston will be remembered. Mueller was a German subject, Johnston was an Americanized Englishman, being an ex-South African volunteer and a wearer of the Egyptian Voyageurs medal. Cranstoun was a Briton pure and simple, though he had lived some years in Tacoma and in San Francisco. These three were ordered on board the Canadian-Australian steamer Warimoo, Captain Bird, at Honolulu. They protested, but their protests were set at naught.

On their arrival at Vancouver protests were entered, but Col. Peterson, the United States representative here, is only a commercial agent and has no consular powers. He referred the matter to Washington. So far as the United States Government was concerned no answer was received, and the matter was carried to London and was the subject of diplomatic correspondence. Finally Secretary Olney and Salisbury decided to leave the matter for the courts to decide. And now, after nine months of waiting, the decision arrived at by the Supreme Court of British Columbia is in favor of Cranstoun, the other two not having had money enough to fight the suit.

This decision gives Cranstoun \$1000 on account of his having been forcibly exiled from Honolulu. The only appeal from this is to the Supreme Court of Canada, and from that there is only the court of final resort—the Privy Council of Great Britain.

The next steamer of the Canadian-Australia line to arrive here will be labeled for the amount of the damages and costs. This establishes a precedent on which the other two exiles, Johnston, who is now in San Francisco, and Mueller, who is in Cariboo, the British Columbia mining district, can base claims.

KATE FIELD'S ASHES.

They Are Deposited at Mt. Auburn Cemetery, Near Boston.

BOSTON, Jan. 10.—The ashes of Kate Field now lie in Mount Auburn Cemetery by the side of those of her mother. The small copper urn sent from San Francisco arrived in Boston Saturday afternoon, consigned to Lillian Whiting, who gave it in charge of a Cambridge undertaker. The urn was packed in a handbag filled with flowers, the offerings of friends in Chicago.

THE HEALTHY WOMAN.

Aside from form or features she
has an attractiveness all her own.
The bloom on her cheek, the elasticity
in her step, the ring of her
voice, her enjoyment of life—all
these are magnets which draw others
to her side. Wonderful and valuable
as it is, health is not so difficult
a thing to obtain as some discouraged
ones think. Most of the troubles
of women arise from impure
blood, impaired nutrition and low
vitality. Modern science furnishes
the most successful of remedies for
this condition—namely, **Wampole's
Preparation**. It contains the flesh-
building and nourishing properties
of Cod Liver Oil without its nau-
seous taste and smell the Hypophos-
phites and the Extracts of Malt and
Wild Cherry Bark. Taken before
meals it improves the appetite,
makes fat, restores vitality, enriches
the blood and cures those weak-
nesses peculiar to the sex, which
are the seat of their troubles. It is
a blessing to tired wives, nursing
mothers and girls growing into
womanhood.

It colors the pale faces and rounds out
the hollow chests. In a word it nourishes
and develops the entire body. It is the
typical medicinal success of our age, for
time has proved our claims are supported
by results. Genuine has trade mark and

Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was
made and sold 50 years ago. In the laboratory it is
different. There modern appliances lend speed to skill
and experience. But the sarsaparilla is the same old
sarsaparilla that made the record—50 years of cures.
Why don't we better it? Well, we're much in the
condition of the Bishop and the raspberry: "Doubt-
less," he said, "God might have made a better berry.
But doubtless, also, He never did." Why don't we
better the sarsaparilla? We can't. We are using the
same old plant that cured the Indians and the
Spaniards. It has not been bettered. And since we
make sarsaparilla compound out of sarsaparilla plant,
we see no way of improvement. Of course, if we were
making some secret chemical compound, we might....
But we're not. We're making the same old sarsaparilla
to cure the same old diseases. You can tell it's the
same old sarsaparilla because it works the same
old cures. It's the sovereign blood purifier, and
—it's Ayer's.

ATHLETES AS SOLDIERS

REGULARS HAVE SOME GOOD BALL PLAYERS AMONG THEM.

The Regiment to Have a Strong Ball Team for 1897—Foot Ball Club to Be Organized—Some Good Games.

That Hawaii's little standing army is the best paid in the world, is a fact that has become well known to many people in the United States, especially along the Pacific Coast. Another feature of the Regulars, which is rapidly growing stronger with the officers and Foreign Office, is the encouragement given to the promotion of athletic sports.

The inducements for enlistment, when there is a vacancy, offered to good athletes, are such as to attract the attention of first class foot ball and base ball players from the Coast. Quite a few of these have joined the regulars within the past three or four weeks and a number of recruits are on the way.

Among the new comers to Honolulu who have enlisted are Al Moore, Jas. O'Connor, John Gorman and C. Bower. These men are all prominent base ballists in California and along the Pacific Coast. That they are good athletes was fully demonstrated when they participated in the Kapiolani Park field sports on Saturday last and did excellent work for the Regiment team. A base ball team is being organized in the Regiment, and a successful season is anticipated because of these players.

Some foot ball players have been secured on the Coast and they will be given a place in the regulars. When they have arrived a Regiment foot ball team will be organized out of the present material in the barracks which will give the Townies and the Punahous a hard rub.

These men are obliged to enlist for a year.

The progressive ladies of Westfield, Ind., issued a "Woman's Edition" of the Westfield News, bearing date of April 3, 1896. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it." For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

DOTTIE HAGER.

LOWELL, WASH., Jan. 1, 1895.

WELLS, RICHARDSON & Co.,

Gentlemen:—My little girl has always been delicate. When she was a year old she had spasms caused by indigestion. The measles were coming out on her at the same time, and since then every little thing would throw her into spasms or the symptoms of them.

If she took the slightest cold she would wake up at night in a flighty condition, and we would have to give her medicine and work with her a long time to keep her from having a spasm. She would be like that every four or six months, and we had a doctor several times.

This fall she took cold while out playing, and woke in the night, flighty as usual. This turned to rheumatism in her hand, leg, and foot. The doctors gave her some medicine and bathed

the parts in oil of peppermint, which helped her for the time being, but the rheumatism came back as soon as she went out. So I concluded to try Paine's Celery Compound for her, and continued bathing as before. She commenced to improve right away, and I had given her but little over half a bottle when she was strong and well and able to go to school again. She has been doing finely ever since, and is healthier than ever before and always hungry.

We cannot say too much in praise of Paine's Celery Compound.

Very truly yours,

Mrs. D. Hager.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement

LAND SALES.

The Hamakua lands opened for application on January 15 and proved a great success. Nothing is more encouraging in the present development of the islands than the opportunity given by the Government for small investors to acquire homes for themselves. President Dole is largely, if not entirely, to be commended for the present land system, and it is one which will give "monumentum aere perennius," a monument more lasting than brass, as Horace put it.

The acquiring of land and the building up of a home makes a population conservative and careful. It is the homeless man who is apt to give trouble to a community. The man with a home stands up for it and is a support to his government, but, should his Government not do what is right he becomes its most dangerous foe. He knows his rights and he has his stake driven deep down and he will not be down-trodden. But the man The Star refers to, must have acquired his holding by purchase, which means by hard work. If it is simply given him he does not value it. He will be willing to throw it away and hope for redistribution. This is why the systems of the modern legislators in agrarian matters are so much superior to the agrarian systems of the legislators of old.

In all, in Hamakua, about 1217 acres have been taken up, which represents a value of about \$13,000. As the majority of applications were for right of purchase leases, they show a particularly healthy financial condition of affairs in the district. The lots vary in size from eighty-one acres down to eighteen, but the majority are about seventy acres.

These lands will become the homes of a thrifty population. As the families increase they will supply the labor necessary for our industries and they will also supply a careful set of voters for the future.

SAVINGS BANKS.

The view that savings banks are sometimes a menace to the commercial prosperity of a country is certainly one that would not naturally occur to the ordinary mind. The Star has always considered that they were an un-mixed boon. One of the few things in this world that did good and could do no evil. A paper read by ex-Secretary Fairchild, before the American Economic Association at Baltimore threw a new light upon the subject. He granted at once the advantages of the savings bank system, in that it urged the citizens of any state to become thrifty, and it was the duty of all Governments to encourage thrift among its subjects. By the way, the term "subjects" is an entire misnomer under a Republic. The officials of the Government, the employees the very Government itself are the servants of the sovereign people, how can therefore the sovereign be the "subject" of the servant—it is quite a neat little thought.

But to return to "our muttons," as the French say. Every depositor looks upon his deposit not as an investment, but as something he can withdraw at will, indeed this is his main object. He puts his money in the savings bank rather than in a bank of deposit, because in the savings bank he can get a percentage upon it, which he does not get in the bank of deposit.

In times of financial disturbance the depositors take alarm and withdraw their deposits. Securities come on the market which is not ready to take them—and these funds become at last a menace to business interests which need funds to tide them over. Finally many of the depositors are employees of the business houses which are affected by the depression in trade or by the panic. As stated in the lecture "The circle is complete. The fears of the depositors return to injure the depositors themselves by the curtailment and stoppage of their regular employment."

Ex-Secretary Fairchild from this premise argued that it would be well for men to consider whether saving could not be made easy and at the same time the dangers which he called attention to could not be avoided.

The Star, while freely granting that

in times of panic the argument of ex-Secretary Fairchild is in a great measure correct, though the clause of time in all such deposits is very likely to save the institution and finally avoid the crash, does not see in the argument any advantage. It has the force of pointing out a possible evil, but it proposes no remedy for that evil. It sounds to one's ears like the prophecy of Cassandra.

If ex-Secretary Fairchild saw the difficulties which he displayed in his argument, why did he not propose some means to avoid them. It is no use to pull down without being prepared to build up. Pulling down without building up is Nihilism pure and simple. Does ex-Secretary Fairchild wish every saving poor man to resort to the expedient of putting his savings in a stocking and hiding that in a hole in the wall? That seems the logical outcome of his arguments.

Savings banks are good things and a community is bettered by their establishment. The best of all savings banks is one backed by the Government, and that, fortunately, we have here.

STATISTICS.

The amount of labor and time devoted to statistics in the United States and elsewhere throughout the civilized world is enormous. The Statistical Bureau is forever at work—collecting and collecting information which is ready to the hand of the public whenever they want it. Not only is the information obtained about the United States, but information is taken from consular reports and comparisons made with the statistics of other countries.

Here we live in a happy go lucky manner in the matter of economic statistics. We have the material, but it is neither collated nor collected, and any stranger desiring to obtain information upon any given point would have to chase over half a dozen bureaux before he hunted up what he required.

The statistics of the country should be put together in a compact form. If one wants to know anything about New Zealand or New South Wales or Victoria, each of these colonies issue what is known as a "Year Book." The information is official and bound to be correct. You can find everything connected with the financial condition, everything about mines, crops, cattle, or anything else you may desire to know, and if there is something you cannot find you have only to write to the Statistical Bureau and the information will be obtained for you.

It must be remembered that these places and the United States have stringent statutes with regard to census matters and not a loose paragraph under which the Hawaiian statistics are obtained, or not—as the case may be. It will be a matter for the next Legislature. But there, it is devoutly to be hoped that there will be no next Legislature, and that before that is due that we shall be annexed to a power that knows the importance of these things and will see that they are carried out.

By the "Coptic" it is stated that Cranston was awarded \$1000 as damages for his deportation. He claimed \$50,000, thus getting one fiftieth of the amount claimed. It is practically the loss of the case. Cranston gets nothing and Clarence Ashford must be out for fees and traveling expenses, because the British Columbian lawyer who came down here must have gobbled a great deal more than \$1000. Moreover there are other courts to fight the case in. The court of final appeal has not been reached yet.

IN OLDEN TIMES

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well informed people will not buy other laxatives which act for a time, but finally injure the system.

INTENSIVE FARMING IN SUGAR.

Consul Monaghan Forwards Figures From Germany.

Germany sent out in the season of 1895-96 of raw beet sugar 958,128 tons, against 1,046,043 tons in the preceding year. The home consumption was 668,860 tons, against 552,695 tons in 1894-95. The factories employed in making sugar numbered 96,458, and they consumed 11,700,000 tons of beet root. The bad business of the preceding year forced the sugar makers to offer less for roots, and this in turn caused the farmers to plant less.

United States Consul Monaghan, at Chemnitz, sends these statistics to the State Department, to back up his statement that Germany's beet sugar industry has been making huge strides in a dozen years, in part owing to intelligent Government aid and also to the energy of the manufacturers, who believe in helping themselves. He says that intensive farming rather than extensive farming may be made as profitable in Nebraska and Ohio as in Germany, as he sees no reason to doubt that America can profitably make her own beet sugar, and save the millions of marks that are annually spent in Germany for this article.

Timely Topics.

JANUARY 20, 1897.

In our advertisement last week we announced that we would mention the new coffee machinery which arrived by the "W. H. Dimond."

We have been negotiating for the "Guatemala" Coffee Pulper for some time, it being recommended to us as especially adaptable for the coffee growers of these islands.

The Improved Guatemala Cylinder Coffee Pulper is conceded to be the most perfect machine yet devised for the purpose. Experience and the brilliant results which have been uniformly obtained with this machine, amply confirm all that has been claimed for it. To those who inspect this machine we wish to particularly call attention to the feed roll, which is a recent addition. The new adjustable gates in the breast plate enable it to pulp any size of coffee without breaking the bean. The arrangement of the hopper prevents pebbles and other foreign substances, which are sometimes found in coffee, from reaching the cylinder.

The approximate capacity of ripe coffee in the cherry per twelve hours is 5000 pounds. Weight of machine for shipping, 400 pounds. Height, 33 inches. The diameter of the fly-wheel, 22 inches, gives a rapid, and, at the same time, a steady motion. The simplicity of the construction recommends it to all. With each pulper is furnished an extra copper drum and extra gates for the breast plate, without additional cost.

If you have passed our store at night during the past week you may have noticed lights burning and the force of clerks at work opening boxes and cases and marking up goods. The customers took up all the time the clerks had during the day, and the only time we have had to get on with the work is at night.

Lots of novelties have been brought by recent vessels from the Coast, and we are now ready for our spring campaign. The beauty of our novelties lie in their usefulness. There's no wear out to them, and each fills a want.

The Primus Oil Stove is the latest good thing to reach here, and it is destined to revolutionize the cooking industry. It burns nothing but kerosene oil and on the principal of gasoline, but without the danger. The Primus will boil water in three minutes.

DELICIOUS DELICACIES

If a wife wants to have her husband think as much of her as he does of his maternal parent she must look to the larder and see that it is provided with plenty of things for the inner man. But quantity in this instance is not the only essential; quality plays an important part in food articles.

You can fill a dish with peas, but if they are not of good quality they will remain full. We are now selling genuine Petit Pois in one and two-pound tins that are remarkably good, and cheap.

Another delicacy is Preserved Mushrooms—new here—and we are selling them to people who regard a good dinner as a requisite to happiness on this earth. Black English Mushrooms, and many French Mushrooms go a long way toward filling a man out around the vest pockets.

Another trifle worth thinking about is genuine English Jugged Hare. Where is the Briton who would not go a long distance for a lunch where Jugged Hare is one of the courses?

We have a store full of such things—too many varieties to mention in a week. Pickles of every sort—from the ordinary bottled to Batty's Nabob; Tippo Sahib's Curry Powder; Orange Marmalade in stone jars; Cross & Blackwell's Jams in glass, and a thousand other things.

SERVICE TO BE CHANGED

TELEPHONE SUBSCRIBERS WILL
EACH HAVE A PRIVATE WIRE.

Babel of Voices Will Soon Be a Thing
of the Past—Improvements Toward
That End Now in Progress.

If there is one thing in which all the people of Honolulu are interested it is the telephone. Perhaps no city in the world makes as much use of 'phones as this burg. As is well known the central office is a large-sized intelligence office; you can find out almost anything by asking "Central." Then the service should be in keeping with the multitudinous uses to which the instruments are put.

The entire telephone service of Honolulu is to be changed. Manager Gillespie has so declared, in fact work has already been commenced to that end. The city proper will be systematically wired with cables of 100 and 200 wires; all the old poles and wires will come down. There will be four-teen cables containing 1500 wires. When these are strung and connections made every subscriber will have a separate line, and when it is desired to make use of the instrument no more will be heard of the babel of voices now evident when "Central" is wanted. It will, necessarily, take some time to complete the proposed transformation, but when it shall have been done Honolulu will have a telephone service that will be a joy forever.

Instead of shouting to the central office the subscriber gives two short rings, and a number corresponding will fall by a simple arrangement in the main office—then connection will be made as desired. The system will be known as a magneto-bell, successfully operated in many of the eastern and western cities.

Manager Gillespie showed a Star representative through the office this morning and pointed out how the changes would be effected. Stacks of new wire, immense blocks of cable, fittings innumerable were seen, all to be made use of in some way. An entire new innovation in the shape of what is called terminals will be particularly essential to the workings of the rejuvenated system. These are long, box-like affairs, fourteen in number, and will be placed on poles where the cables end, each wire having a separate connection.

Inside the main office the cables will run into an iron frame partitioned to receive them, from which point the wires will be conducted into the switchboard in the calling room.

It will not be an easy matter to make the changes proposed, but Manager Gillespie and his able corps of assistants will see that it is accomplished without loss of time.

DECISION RENDERED.

The Supreme Court, in an unanimous decision in the case of H. Lose, assignee of the estate of M. S. Levy, a bankrupt vs. Theo. H. Davies & Co., Ltd., equity appeal from Circuit Judge First Circuit, a decree for the cancellation of a chattel mortgage upon the ground that the mortgagor was insolvent and that the mortgagee had reasonable cause to believe him to be insolvent, has reversed the decree appealed from and the bill dismissed with costs. A. S. Hartwell for plaintiff; Thurston & Stanley for defendant.

Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. It undermines the health and shatters the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla may not come as quickly, but it comes more surely, permanently and is

Sweet

And refreshing because it is realized through nature's great restoring and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

Refreshing

"I was generally run down last spring, appetite was poor and I could not sleep. Hood's Sarsaparilla built me right up, gave good appetite and I was soon able to get a good night's rest." G. F. WHITNEY, Merchant, Yeomans St., Ionia, Michigan.

SICK FOR YEARS

THE UNENVIABLE EXPERIENCE
OF A BROOKLYN WOMAN.

Nature Singled Her Out as a Victim of
Torture—How Science Successfully
Baffled Disease—A Story for Women

From the Standard, Brooklyn, N. Y.

Few women have had a more miserable existence and lived to tell the tale than Mrs. Anna L. Smith, of 311 Pulaski Avenue, Brooklyn. With all the comforts that money affords, with all the happiness that many loving friends can give, the joy of Mrs. Smith's life was blasted for years by the terrible ravages of sickness. The story is most interesting as told to a reporter:

"I was an invalid for years, suffering first with one complaint and then with another. My case was truly that of a complication of diseases, due to an accident which I received some years ago. The thing which caused me the most discomfort was the worst case of indigestion imaginable. I made all around me miserable by my sufferings and was most miserable myself. I had the best physician we could find, and occasionally his prescriptions relieved me temporarily. But the pains and misery would all soon return again. I became desperate, and started to try remedies of which I had read. Among them were the Pink Pills. I took the pills and followed out the directions to the letter, and before many days I began to feel like a different woman. For six weeks I took the pills regularly, and I can truthfully add after that I was as well as any one in the family. The change for the better in my condition has caused my relatives and friends to take the pills.

"I assure you it was impossible for me to oversee my household for three years. Now I visit my kitchen every day, do my own marketing and shopping; in a word, look after everything connected with my home and family.

"Oh, yes, I still keep taking the pills I take one daily after dinner. Prevention, you know, is better and cheaper than cure. I verily believe one half of the women who are suffering from the ills which our sex is heir to would be up and well if they could be induced to give the Pink Pills a fair trial. I certainly recommend them heartily and feel grateful to the physician who put them on the market."

The secret of health, strength and activity is pure blood, and sound nerves. Dr. Williams' Pink Pills make pure, rich, red blood and strengthen the nerves, and this is the secret of the marvelous success with which this medicine has met—the reason why it cures when other medicines fail.

The list of diseases having their origin in impure or watery blood, or a shattered condition of the nerves is a long one, but in every case Dr. Williams' Pink Pills will restore health and strength if given a fair trial. The genuine Pink Pills are sold only in glass vials, bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People." They are sold by the Hollister Drug Co., the Hobron Drug Co., wholesale agents for Hawaii, and all dealers in medicine.

THE POCKET KODAK

Was the Photographic Success of 1895.

In the hands of the absolute novice it produced a larger percentage of perfect pictures than any camera, big or little, had ever produced before. The "cartridge system" did away with the necessity of a dark room, and made photography simple and easy with a Pocket Kodak.

THE 1896 MODEL

Retains the simplicity and daylight loading features of the original, and combines with them an

Improved Rotary Shutter,
Set of Three Stops for Lens,
Rectangular Finder,
Improved Ratchet,

The new shutter is always set—push the lever—that makes the exposure. The set of stops adds greatly to the capabilities of the camera, especially for interiors and snap shots on the water. (No other manufacturers fit stops to cameras listing at less than \$12 to \$15.) The rectangular finder gives a more exact scope of view than a round finder. Exquisite Finish—Dainty, yet Strong.

Price, loaded with film for 12 exposures, \$5.50.

A Little Knowledge

Is a Dangerous Thing.

A person unacquainted with Bicycle construction attempting to dismantle a wheel or effect a home repair will often do more damage in five minutes than a skilled mechanic can repair in a day. The mechanism of most Bicycles is very intricate, with left hand lock-nuts and very fine threads, which will slip if the least bit over-stained.

Many of the parts require special wrenches to turn them, of which we have a large assortment, together with the other tools used in Bicycle construction, and a skilled mechanic to do the work.

We make a specialty of repairing Bicycles. No matter how badly used up they are we can put them on their wheels again. Our work we guarantee. Our charges are moderate. We don't want the earth—only a chance to live.
