KLONDIKE GOLD.

Big Amount of Gold Yellow Metal in Sight.

DAWSON, May 26 (via Seattle, June 20).—The spring freshets have come and hundreds of miners on a dozen different creeks are busy with the annual harvest of gold. The clean-up for the mining season just closed has advanced to such a stage that an estimate of the output may be had, and while the estimates one commonly hears vary greatly, it may safely be said that at least \$18,000,000 will be taken from the riffles during the next six weeks. This is an increase of 100 per cent over last year's output.

The gold has been packed from the mines to Dawson for more than a week, and while it has usually been carried on the backs of men in fifty-pound lots, a few pack trains have been called into use to transfer greater quantities. On May 21st a train of six mules, each bearing 250 pounds of gold, arrived in Dawson under guard. This has been the largest amount brought in at one time.

FLOCKING TO RENNES.

Where the Courtmartial of Dreyfus will be held.

PARIS, June 20.—The approaching arrival of Dreyfus at Rennes is causing an influx of foreigners there. The hotels are besieged with applicants for rooms, which command immense prices. The arrangements for the conveyance of the prisoner from Brest have been made with the greatest care, and it is believed there is no danger of demonstration.

PARIS, June 20.—The courthouse at Rennes adjoins the prison. Captain Dreyfus will be brought into court through a specially constructed floor. It is proposed to fix a screen in front of the window of his cell so as to prevent his communication with the houses opposite. The dossier of the case has already arrived at Rennes and been deposited in the safe of the Credit Lyonnais under sentry guard. It is reported that orders have been sent to St. Michael, Azores, directing the commander of the French cruiser Stax, which is bringing Captain Dreyfus to France, to remain there a short time, so as not to arrive in home waters until the new Ministry is installed.

CABINET CRISIS SERIOUS.

Chances of Bourgeois Forming a Ministry are Good.

PARIS, June 21.—The prolongation of the Cabinet crisis is becoming most serious. M. Dupuy and M. Lockery both called on President Loubet and expressed their anxiety to be relieved of the responsibilities of office as soon as possible.

Should M. Bourgeois accept the task of forming a ministry it is thought his chances of success would be fairly good. His prestige has been much increased by the part he played in the deliberations of the Peace Conference at The Hague.

The latest gossip favors a combination Cabinet, including Messrs. Bourgeois, Brisson, Poincare and Waldeck-Rousseau, but nothing will be known until M. Bourgeois arrives. M. Waldeck-Rousseau, discussing his failure, is reported to have said: "I met with the utmost friendliness and straightforwardness from my former adversaries, but found only treason and cowardice among my old allies."

FLOODS IN PARIS.

PARIS, June 20.—A thunderstorm, which broke over Paris at about 5 o'clock this afternoon, appears to have been exceptional in violence in some parts of the city.

The exhibition works and the excavations in connection with the Metropolitan Railway, were seriously affected. Sewers burst in several places and cellars were flooded. The fire brigade had a busy time taking necessary precautions against accidents.

STRONG CONSTITUTION.

"For forty years I was not in bed a day on account of illness, but I have recently been threatened with kidney and bladder difficulty, and sometimes with the grip. Believing an ounce of prevention is worth a pound of cure, I resorted to Hood's Sarsaparilla and it has kept me in good health." Mrs. W. E. Beckwith, Lompoc, California.

"There are none so blind as those who will not see!"

There are some people who cannot be convinced that white is white and black is black, because they are determined to have their own way about it. Very good. Such people go through life missing the great truths and the greatest happiness as well as comfort.

There are others again who are convinceable. It is to the men of this class that we like to talk about the merits of our clothing.

They are better than nine-tenths of the made-to-measure clothes turned out in this city and the equal of the other tenth.

Alfred Benjamin & Company's clothes cost about half the price of made-to-order clothes and have every desirable attribute of the very best made-to-measure garments, besides embodying many unmatchable features strictly their own. That is why we say investigate the merits of the clothes bearing this label before going to a tailor. You risk nothing and stand to win a lot.

FIGHTING IN TROPIC RAINSPANISH GARRISON AT BALER
SURRENDERS.Filipino Hopes of Success Kept up by
Political Reports From America.
Evil Influence of anti-Expansionists.

MANILA, June 21.—The insurgent

army has taken to the hills beyond

Imus. The largest force is supposed to

be in the neighborhood of San Fran-
cisco de la Malabon, holding a position

more toward the lake or toward the

coast, according as exigencies demand.

The heavy rains that fall nightly

make campaigning uncomfortable.

The roads are still good, but the rice

fields adjoining them are full of water.

The Filipinos will not fight unless

they can meet our troops in positions

most advantageous to themselves, or

take our reconnoitering bodies in am-
bush. It is impossible to learn what ef-
fect the recent defeat has had upon

their leaders.

Copies of the insurgent organ, Inde-
pendencia, show that the Filipinoshopes of success are kept alive by po-
litical movements in America. The In-
dependencia prints reports of allegedspeeches made at alleged mass meet-
ings in the United States, denouncingthe war, and it asserts that these rep-
resent the dominant American sentiment.

It declares also that the Filipinos will

continue the war until the next Presi-
dential campaign, which is "sure to re-
sult in a decision to withdraw the Amer-
ican troops from the Philippines."It is reported that the Spanish gar-
rison at Baler, in the province of Prince-
picio, on the coast of Luzon, which hadbecome reduced to thirty-three men,
finally surrendered to the Filipinos, af-
ter holding out for a year.The Filipinos imprisoned two English-
men at Tachobona, on the island of

Samar, southeast of Luzon. The British

first-class cruiser Grafton steamed to

that point from Cebu, and her com-
mander demanded their release. When

this was refused, he landed a force of

marines and cleared his ship for action.

Whereupon the Englishmen were hand-
led over.**MARRIED.**

THE HARBOR OF WEIHAIWEIPRESENT CONDITION OF THE
BRITISH PORT.Will be the Summer Resort of China.
Beautiful Sands—Dismantled Forti-
fications.

The condition of Weihaiwei, is thus

described in a recent letter to the

Shanghai Mercury:

"It is impossible to say much about

this place. The climate is the chief

thing, and it is just grand, bar a bliz-
zard now and then, and sometimes a

frozen coast. The great cold is a

myth, and I have actually been out

boating and yachting for pleasure in

February. It is, of course, a very

backward place yet, but it is going to

be the summer resort of China. Che-
foo, along the coast, has been hither-
to, but it is unhealthy, while this placeis bracing and healthy like the En-
gland. Of course when it expands

and is built over a bit it may breed

disease, for the Celestials have not the

most redemptory notions of sanita-
tion, and the most harrowing sights

meet the eye daily.

"All round this big bay there are

the most lovely sands you can im-
agine, so that the bathing here in sum-
mer will be simply grand, and, of

course, so will the boating. The naval

people are going to make the island

(Liu-kung-tau) their great place. It

will be fortified, and docks, etc., made

there. The civilian population, when

it comes, will be on the mainland

where we are, so that all the attrac-
tions such as football, cricket, and

hockey, for which we have to go across

about two miles of water, will eventu-
ally be on the mainland.

"Apropos of guns, etc., all the forts

on the mainland were dismantled and

broken to bits by the Japanese be-
fore they left last year, and they are

a sad sight now all in ruins. In all

of them there are huge Krupp guns

about 9 in. calibre, and 18 ft. and 30 ft.

long, lying around for anyone to take

who wants one, so if you have any

use for such you have only to come

and take a few away. On the island

things are better, and we are going to

arm and the rebuild the very strong

forts there. All the forts here were

designed by German experts, and

must have been very powerful.

"Regimentally we are hung up for

want of room, and we cannot natu-
rally enlist men to any extent till we

can house them the proper way. We

are, however, in hopes of having this

difficulty solved before long. There

being no postoffice here, a private

firm started a courier post at ir-
regular intervals. The stamps are very

rare, as only 4,900 were published. A

postoffice is now going to be opened

here, I believe, by the Chinese Govern-
ment. The mails here are awful, and

we sometimes get three weeks' papers

in a bunch, and are for days and days

without even a Shanghai paper. How-
ever, I hope we are making history all

the time."

THE SUMMER SCHOOL.Department of Education Announces
the Opening.

The Department of Education makes

the following announcement regarding

the summer school:

The minister and Commissioners of

Public Instruction announce that the

summer school will be in session at the

Honolulu High school, from Monday,

August 14, the Thursday, August 31, in-
clusive.

Miss Zonia Baber and Miss Flora J.

Cooke, both of Chicago Normal school,

with a number of members of the local

force, will give instruction in practical

pedagogics. Primary work will be the

specialty of the session. But in addition

to this a good deal of general work will

be done.

The minister and commissioners in-
vite the attendance of all teachers ofpublic and private schools, of all per-
sons desirous of becoming teachers and

of all other persons interested in any

line of work to be pursued. Attendance

will be voluntary, and all work will be

elective.

SATURDAY, JULY 1, 1899.

The brief of W. A. Kinney in the
Cooper disbarment proceedings is pub-
lished in full in this issue. The brief of
W. O. Smith, attorney for Cooper was
given in full a couple of days ago.

The rank and file of the Twenty-
fourth regiment have an excellent re-
cord for soldierly qualities and for good
behavior. From what has been seen of
the men on shore they keep up their
record well. They are a fine looking set
of men, well set up, and look capable of
doing a vast amount of hard work
among the rice swamps of Manila.

The question of the rights of the
squatters in the Hilo district is to be
laid before the judges of the supreme
court it is said. As was pointed out
some days ago the squatters may suc-
ceed in causing a great deal of trouble,
and bring about any amount of friction,
but they will not help themselves much.
Whatever the ruling of the court may
be, it is not likely they will abide by it,
and there is bound to be a clash be-
tween them and the civil authorities.

THE COMING FOURTH.

There seems every prospect of the 4th
of July being celebrated in appropriate
style. The first and most important
portion of the affair has been brought
to a successful result. There has been
ample money collected for all the re-
quired expenses, so there is no fear
about the sinews of war, indeed if more
were wanted, more would be forthcoming.

We have every reason to celebrate
the day in appropriate style. It is an
historic day for us. We have celebrated
the 4th of July with great enthusiasm
when the flag of another government
was floating from the Government
buildings. On this occasion we shall
celebrate under the protecting folds of
the stars and stripes for the first time;
any enthusiasm which we may have dis-
played in the past, should be redoubled
in the present.

Then again there has not been a cele-
bration of the 4th of July for two years.
Last year it went by default, owing to
the fact that the town was fairly ex-
hausted by its efforts in entertaining
the soldiers en route for Manila. The
absence of a celebration last year,
should lend, therefore, additional en-
thusiasm to this, and from the signs
about, it is very evident that the in-
tention is to make it a banner day.

The committees have done and are
doing good work, and various private
citizens are preparing to make the oc-
casion a notable one. The procession
promises to be one of the most brilliant
ever arranged on the Islands and the
street decorations will also strive to ex-
cel all previous records.

It is a good thing to see this enthu-
siasm, in which all classes and all races
readily join. The 4th of July is now our
true national day. It is not a day cele-
brated by a section of citizens, but it is
a day which every citizen of the terri-
tory can claim as his own, and can re-
joice that the Islands have become a
part of that great republic which is
among the mightiest of the world's
powers.

ON LABOR.

There is something odd about the in-
terview attributed to D. A. Hayes in the
telegram from Chicago. He expresses
himself as in favor of contract labor,
yet he states that he is coming to in-
vestigate the labor question. When a
man is sent to investigate so important
a subject as this is to the Islands,
whatever his prejudices may be, he usu-
ally keeps his mouth closed, and does
not send his preconceived notions
broadcast before he has reached his
post of investigation. It is therefore
wise to accept this interview with a
very large pinch of salt. The effect of
Mr. Hayes' report would be very much
weakened, if he has said what he is
stated to have said.

What our planters should be prepa-
red to meet is the abolition of the con-
tract system. It is no use building
hopes upon the unstable proposition
that contract labor will be allowed here,
when our organic law is given to us.
We shall gain nothing by expressing a
wish in that direction. It is against
the views of the majority, both in the
Senate and in the House. It is a will
o' the wisp that dances before the eyes
of only a few of those who are inter-
ested in plantations, but those who are
clear sighted realize that there is nothing
in the idea.

We have so long been accustomed to
contract labor, and to a penal clause in
the contract, that many people think
we cannot do without it. The Rus-
sians were accustomed to serf labor,
and it was supposed that the country
could not do without it. But it has
done without it now for forty years or
so, and has prospered more than it did
with serf labor. We may expect a little
trouble at first, but matters will soon
regulate themselves. There is an ex-

cellent law of nature that unless you
work you can not eat. The laboring
population here is not going to live on
air, simply because contracts are abol-
ished. It will need to eat, and in order
to eat, it will have to work. Hunger is
a far more powerful task master, than
all the jailing that can be done under
the contract law. There is not the dan-
ger of collapse of our industries if the
contract system is abolished, that so
many people think there is. Better face
the inevitable and not monkey with
possible methods of evading it.

THE PEACE CONFERENCE.

The peace conference is coming to a
somewhat inglorious end. The main ob-
ject aimed at, the project of the disar-
mament of the European powers, has
been laid aside as not feasible. The
modified form of not making use of any
improvement in arms for a period of ten
years proved of the same character, and
the still more modified proposal of Hol-
land to reduce the period to five years,
proved but a feeble wail that fell upon
deaf ears.

There seemed to be some hope of the
arbitration idea being made practical,
and the American delegation proposed
a plan which has called forth the ad-
miration of all thinkers, an outline of
it was published in these columns eight
or ten days ago. But this too has been
emasculated till it remains a solemn
farce. It has been agreed that a coun-
try can arbitrate if it wishes to, but
there is no obligation to try arbitra-
tion. This leaves the matter exactly
where it was.

The stumbling block in the way was
the Emperor of Germany, who does not
believe in arbitration. That he should
take this view is not surprising. It
would be one contrary to the traditions
which he sets such store by.

The only thing that has been gained
is the application of the red cross sys-
tem to naval warfare. This is a distinct
gain. But it will probably not be the
"red cross" very much longer, if the
motion of the Persian delegate is
carried out. Mohammedan countries
cannot use the "cross" as a symbol. If
we are to make the Geneva convention
applicable to the armies and navies of
all nations irrespective of creed, we
must do away with an emblem which
is deeply offensive to all good followers
of the prophet of Mecca. The Persian
suggests a red sun on a white ground.
There will as likely as not be quite a
debate upon this point. It is one that
may be expected not to call up much
opposition from the English and Amer-
ican delegates, but it will surely draw
down upon it the concentrated opposi-
tion of the Greek and the Roman Chris-
tians.

The only thing that becomes clear out
of all this, is that the peace conference
has been premature, has entailed con-
siderable expense upon the powers, and
is likely to break without accomplish-
ing its object.

POOR FRANCE.

There is still great unrest in France.
The royalist faction seems to have
hopes of getting a large portion of the
army upon its side, and there are
threats of an outbreak on July 14. But
an outbreak, the date of which is osten-
tationously fixed, is not likely to occur at
all. There have been so many threats
of revolution in France during the last
quarter of a century, that people have
begun to doubt the cry of "wolf, wolf."
The elements of revolution, however,
are there and may burst forth at any
time.

It is extraordinary what precautions
have had to be taken for the trial of
Dreyfus. The French Government have
evidently searched the Atlantic coast
for a suitable town containing a suit-
able prison and court house, and even
this has had to be changed so as to give
Dreyfus a special entrance. Probably
no prisoner has ever given the authori-
ties more trouble than this presumably
innocent captain of artillery.

What the effect of his trial and ac-
quittal may be no one can foretell. With
any other nation than the French, it
might be possible to foretell, but with
them it is impossible. At the time of
condemnation, and long after, it was
treason to say a word in favor of Drey-
fus, to hint that he was innocent was
regarded as a heinous crime. That
mood has changed among part of the
nation, but the anti-Dreyfusards re-
main strong and are even more desper-
ately bigotted. Will Dreyfus be regard-
ed as a martyr to be almost worshiped,
or will he be looked upon as a vill-
ain who is the cause of all France's ills.
Either extreme will probably be equally
unpleasant to Dreyfus.

ADVISERS OF SQUATTERS

GOVERNMENT KNOWS MEN BACK
OF OLAA SCHEME.

Question of Rights of Settlers to be
Submitted to Supreme Court Next
Week—Contrary to American Law.

It should have been added in the report of yesterday, regarding the intention of the land department to ask a ruling of the supreme court on the rights of squatters to take up land in Olaa, that the government is now positive as to the agitators on the big island who have led the people into their foolish venture.

It will go hard with some of them—not from the government but from the squatters themselves.

The agent of Public Lands is authority for the statement that some people who have taken up lands in the tract do not themselves believe there is a show of retaining their holdings. They have merely followed the example of others and to the shadow of an impossible luck.

The application to the supreme court will be made during next week, in all likelihood. It will merely ask a ruling of the court on the right of the squatters under the Newlands resolution to hold the land against Hawaiian law. There will be little argument of the matter, if any at all. In view of the decisions of the highest tribunal on such matters as civil and criminal procedure, registry of vessels, etc., the land department has no doubt as to the outcome.

It will merely give a legal handle to the ousting process which will soon come. The Government is nearly ready to open the tract and will have it cleared of squatters before the bona fide ones are invited upon it.

Agent Brown makes the point that even under American law, the squatters would have no claim to the land. In the United States, squatters are only recognized on unsurveyed acres. The Olaa tract has been surveyed and plotted, and as such is removed from the possibility of unsystematic acquisition.

LARGE FLOWER.

The largest flower in the world grows in Sumatra. Some of the specimens are thirty-nine inches in diameter. The central cup will hold six quarts of water.

Neighbors Could Not Bear to Look

Cure by Hood's Sarsaparilla
After Others Failed.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

Could Not Hide the Sores.

My niece, who was familiar with a case similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptom of scrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured."

THE YEAR'S DEFICIT.

Uncle Sam's Receipts a Hundred Millions Below Expenditures.

WASHINGTON, June 21.—It is regarded as a conservative estimate that the treasury deficit for the fiscal year which closes ten days hence will be less than \$100,000,000. Already the receipts for the year aggregate over \$48,500,000, with the expenditure barely \$100,000,000 more, with ten days, judging from past years, of heavy receipts yet to be accounted for.
From the closest calculation that can now be made the war revenue account, which with the exception of a few items went into effect on July 1, 1898, will realize for the year a little less than \$100,000,000.
The expenditures up to this time aggregate about \$60,000,000.

HIS MEMORY.

"Did you ever find that when you stood up to talk before an assemblage you forgot everything you ever knew?" "No," answered Senator Sorghum. "I never was investigated."—The Star, Washington.

It Must Be

remembered that our stock represents the finest ready-to-wear clothing made in the United States—stylish, serviceable, becoming clothes that have nothing in common with ordinary "ready made" garments, nor with the kind of goods turned out by the average custom tailor.

We have recently added to our stock the lines made by Hart, Schaffner & Marx of Chicago, in addition to our Stein-Block goods.

Do not pay out money for awkward, old fashioned ready made clothing when you can have the H. S. & M. goods for the same cost. Do not pay the tailor's price when you can get as good, and probably better, satisfaction, for less than half the money.

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
