

PROMINENT MEN ARE SUMMONED AS WITNESSES

CALLED INTO COURT TO TESTIFY TO THE MENTAL CONDITION OF JOHN K. SUMNER—COLBURN RAISES THE QUESTION OF FEES.

It was quite a distinguished crowd that almost filled Judge Robinson's court room this morning. Most of them had come in answer to subpoenas from one side or the other to testify to the sanity or insanity of John K. Sumner. By far the larger number had been summoned on behalf of Sumner. Among the gathering were the Bishop of Honolulu, S. M. Damon, John F. Colburn, S. C. Allen, Dr. John S. McGrew, Bruce Cartwright, Mark F. Robinson, Col. W. F. Allen, P. C. Jones, Father Valentine, R. F. Dillingham, J. H. Schnack, Miss Lucy Peabody, Mrs. E. K. Pratt, James Oida Jr., W. R. Castle, Carlos A. Long, David Dayton, Mrs. Charlotte D. King, Peter Barron, Benjamin Chapman and Cecil Brown.

There was a long dispute between attorneys as to when the case should begin, and neither side would venture an opinion as to when it would end. G. A. Davis, representing the petitioner, Maria S. Davis, who alleges that her brother John K. Sumner is insane and incapable of taking care of his estate, said he thought it would take about two days to present his case. Finally it was decided that the case should go on at 2 o'clock this afternoon, and Judge Robinson instructed all of the witnesses subpoenaed on behalf of the petitioner to be present at that hour. The other witnesses were instructed to be present Wednesday morning at 10 o'clock.

John F. Colburn raised the point of whether the witnesses could be required to attend further without being tendered further witness fees; in other words whether the tender of fees already made had not exhausted itself and its legal force by the attendance of the witnesses this morning.

Judge Robinson replied that it had not; that though the witnesses were entitled to their fees, the instruction of the court to be present at a definite time did not need any tender of witness fees to make it effective. The witnesses must be in attendance, and wait for their fees till they were taxed as costs and collected.

LUAU OR BARBACUE?

Invitations have been issued to all workers in the election of Republican delegates to attend a luau to be given at the home of J. Mana in Pauoa on Thursday evening next. The invitation is issued in the names of A. L. C. Atkinson, R. N. Boyd, J. Mana and A. McCabe, committee on entertainment. A bullock and sundry pigs have been tendered for the occasion by prominent Republicans and there will be a grand rally of party workers with speeches calculated to enthrall and instruct. In many respects the affair resembles a mainland barbecue only the meat will be roasted under and not above ground.

Great Change In Favor Of Prince Kuhio

"There is no doubt, in my mind, from the reports we are getting, that there is a great change of feeling in Hawaii towards Republicanism," says A. L. C. Atkinson of the territorial committee. "I think we shall carry the country triumphantly in November."

"Prince Kuhio is bringing together large crowds on Hawaii wherever he speaks. This we glean not only from our own official sources but by letters written by others outside of the actual political work. He has successfully met attempted rival meetings by Kalaupokalani and there have been rising votes in favor of the prince and the Republican ticket. One excellent feature is the desire of the people to know why the prince turned from the Home Rulers to the Republican party, a showing that makes manifest the fact that they reserved their judgment until the prince could speak for himself despite assertions made by the Home Rulers, who said among other things, that the queen had disowned the young Alii."

There have been instances of Home Ruler meetings in actual progress broken up by the arrival of Kuhio. The prince has been working hard stopping to speak on every occasion, even to little roadside gatherings."

Prince Kuhio is at Kona today and will remain in that district until Friday when he takes the Claudine for Maui.

Three hundred and sixty-one electors have registered at Molokai and nearly all of them have endorsed the Republican ticket. All who have expressed any opinion. At the recent visit of the Board of Registration 335 were present and listened attentively to the talk. Last year 312 registered.

A big rally will be held at Kaili detention camp this evening under the auspices of the Young Men's Republican Club and efforts are being put forth to make it one of the largest and most enthusiastic gatherings of Hawaiians yet held in the city. The speakers will discuss the Wilcox proposition to place the Leper Settlement under the control of the Federal Government.

DEATH FOLLOWS TWO ACCIDENTS

CHINESE HORRIBLY BURNED AND DIES OF HIS INJURIES—BLOOD-POISONING TAKES LIFE.

There were two deaths by violence on Maui recently. News of the accidents was received this morning by High Sheriff Brown.

One of the cases was where a native man about 25 years of age had died while under an operation of amputation. His name was Kaupua. On September 12 he was intoxicated and lay across the railroad track at Kahului. The train ran over his right arm. The physicians decided that amputation was necessary but the father of the injured man refused to permit them to operate on the young fellow.

Everything that was possible to relieve the suffering of the injured man was done, but he gradually grew worse as gangrene began to set in. Finally the consent of the father was obtained and on September 19, the operation was started. The young man died while under the operation. A coroner's inquest was held a verdict being returned to the effect that the deceased had died from blood poisoning while being operated for amputation.

Wong Ah Lok was the name of the other victim and he died September 18 from injuries received from being burned by oil at Spreckelsville. On September 17, the Chinese took a lighted lamp and went to an oil tank at "Well No. 3." The Chinese was in company with a countryman named Pow Lom. Ah Lok went to a barrel for the purpose of getting some coal oil to put into the lamp of Pow Lom. Ah Lok evidently mistook the use of the check valve, for he unscrewed the tap and caused the oil to gush out of the tank. The oil was ignited from the lighted lamp carried by Lok.

AUSTIN MADE NO DEFENCE

HE QUESTIONS RIGHT OF GOVERNOR TO SUSPEND

A DEMURRER READ AND THEN THE PUBLIC SESSION CAME TO A CLOSE—HIS ATTORNEYS ARE RETICENT—IGNORES CHARGES.

Herbert Austin, Territorial Auditor, appeared before Governor Dole this morning at 10 o'clock, to answer a pre-emptory charge against him in his position as Auditor and to show cause why his suspension should not go into effect and continuance.

Governor Dole asked if the Auditor required him to furnish witnesses and if his attorneys were ready to proceed. Attorneys A. G. M. Robertson and C. W. Ashford appeared for Mr. Austin. Assistant Attorney General Cathcart and Douthitt for the government. E. S. Boyd and a stenographer were the only others present.

Mr. Robertson read the following answer to the citation:

Auditing Department, Territory of Hawaii, Honolulu, September 29, 1902.
Hon. Sanford B. Dole, Governor of the Territory of Hawaii, Honolulu, Hawaii.

Sir:—Your two communications, of the 25th and the 26th instant, respectively, have been received by me and have my attention.

In the first of those, you allege certain charges against me, and conclude with the announcement that, because of those charges, you suspend me from my office as Auditor of this Territory, pending such reply as I shall see fit to make to said charges, or such further investigation as may be had therein.

In the second, and later, of said communication, you cite me to appear before you, at a place and hour therein named, to show cause why the suspension which you have undertaken to exercise, and which, as above, you have announced in the first of those communications, "should not be continued in force until my official conduct as Auditor of the Territory of Hawaii can be submitted to and acted upon by the Senate of the Territory of Hawaii."

In response to said citation I have the honor to point out the following facts, viz:

1. My tenure of office, and the mode of my removal, is and are fixed by the Act of Congress creating the Territory of Hawaii; and by Section 90 of that Act, which deals with this matter, there is no authority vested in the Governor of this Territory to suspend the Auditor for any cause; neither is such authority expressed elsewhere in said Act, which, as I respectfully submit, supercedes all the provisions for suspension of that official, as expressed in the Audit Act of 1898, under which, apparently, you attempted to suspend me; as announced in your communication of September 25th, above acknowledged.

2. If, by any chance, I have erred in my construction of the law, as set forth in the preceding paragraph, you are still bound by the terms of the Audit Act, in respect of any suspension in this behalf. There is no bound, your acts will be legal, only as they conform to the intent of that Act. The language of that Act is very plain to the effect that the Auditor can be suspended only for certain faults therein specified; which obviously implies that he must be shown to be guilty of some one or more of such faults, before your right of suspension can be called into exercise. Such suspension being by that Act provided as a penalty for such faults, or any of them, it follows that the penalty cannot be imposed until the fault is established. It should not be necessary for me to remind you that a person's, or an official's guilt is not established by the fact of the presumption of charges against him; it requires a hearing or trial, which should be had only upon due and reasonable notice to the accused, the adducing of evidence in support of the charges, with opportunity for the accused to be heard in defence, before his guilt can be established in such a sense as to confer upon you the right of the Government, or of any official thereof, to visit upon the accused any penalty whatever. You will pardon my assertion in this place of truths and principles of law so elementary and obvious as the foregoing, but your departure from those principles, in your attempted suspension of me without hearing or opportunity for defence must be my excuse for recalling your attention to these landmarks of personal liberty and official obligation.

3. Your assumed suspension of me from my office as Auditor was enacted without your having first apprised me of the nature of the charges which you prefer against me; and without your having cited me to answer, or having given me any opportunity to answer the charges upon which you base your assumed suspension of me from office; wherefore it must be obvious to you, (as it certainly is to me,) that you have acted outside the law, without legal warrant, and that your action, in so assuming to suspend me, is a nullity. 4. I am cited to show cause why this act of yours, above shown to be a nullity, should not be "continued in force." I respectfully submit that a nullity cannot be "continued in force," and therefore see no occasion for me to show cause, further than I have already done, in this paper.

Appealing to the law under which I hold my commission as Auditor of this Territory, having been duly and regularly appointed confirmed and commissioned in the premises, I claim that my right to the full and free exercise of my official functions, and of the full and unrestrained command and custody of my office, and of the books and records thereof, and of the employees engaged in by said office, is at the present time as full and complete as before the receipt by me of either of your communications herein acknowledged. But you, Sir, acting without legal warrant, have seen fit to employ the police of this city to forcibly exclude me from my said office and from the books and records thereof, and from the employees engaged in by said office, at all times, to respond to legal instructions, and to obey the law, as an officer of the Government of this Territory. I invoke, at your hands, an equal respect for that rule of conduct which applies with equal force to you and to me. Destitute of legal authority to remove or suspend me, you have appealed to illegal violence; but you are respectfully reminded that legal rights, and especially, title to official place and authority, are not determined by violence.

I have the honor to be, Sir, Your obedient servant.

(Signed) H. C. AUSTIN.
Auditor of the Territory of Hawaii.

Governor Dole held that the right of suspension had not been repealed by the Organic Act and that notice of opportunity to defend had been given the Auditor. Mr. Robertson, for the defense, thought that no extended argument was necessary. The Mr. Austin had asked for an opportunity for a hearing before suspension but was not given. Governor Dole stated that he was ready to take testimony.

C. W. Ashford stated that the defense did not concern itself with any testimony that might be taken before the Governor. That they had only been given notice of appearance and show cause. Why the suspension should not continue in force. That they claimed had been shown as there was no suspension. There were some matters that they would like to discuss in private before the Governor. The speaker hoped it would be understood by the reporters present that such a session would not relate to the hearing or the question of showing cause.

The Governor then requested the reporters to retire. The private session took only a few minutes. Ashford and Robertson coming out first followed by Cathcart and Douthitt. None of them would make any statement. Mr. Cathcart saying that there was nothing that they could give out. Mr. Ashford stated that the interview was private as had been requested. E. S. Boyd came out of the Governor's door into the main office, but he too had been relegated to Secretary Hawes' office and knew nothing. Governor Dole, when asked if there had been any ruling, said: "I think you had better see Mr. Ashford. I really do not see why Mr. Ashford wants to keep it from the press, but as he has expressed his desire it will be better to see him."

It is understood that Mr. Austin's counsel through Mr. Ashford's recent brief statement to the effect that they did not wish to submit any testimony neither did they want to listen to any proofs. They believed they had shown cause that Austin was suspended without authority and that closed their case.

C. W. Ashford, seen later, said: "It is the Governor's move next, in answer to a certain statement that we made him in private session this morning when you newspaper gentlemen were out of the room. That is all I care to say in the matter." A. G. M. Robertson referred all statements to Mr. Ashford.

It is generally understood that the matter will next be taken eventually into the courts for settlement. In the meantime Austin is out and a policeman still guards against his return. The government authorities hold that he is suspended and, to all practical purposes, he is.

A Veteran Of The Tai Ping Rebellion

Pang Fook, whose funeral yesterday afternoon was the most largely attended Chinese funeral ever held in the Territory of Hawaii, is said to have been a veteran of the Tai Ping rebellion, one of the most ferocious wars of modern times, and the most serious assault on the Manchu dynasty of China it has ever experienced. It was in the suppression of this rebellion that Li Hung Chang laid the foundation of his reputation as the bulwark and support of the throne. It was from his services in putting down this rebellion on behalf of the Chinese government that Gen. Gordon acquired the sobriquet of "Chinese" Gordon.

The Tai Ping rebellion is said to have been largely brought about and carried on by the members of the Kei On Pui Kon Society which in its origin was a Chinese patriotic society the rebellion having for its object the overthrow of the Manchu or present dynasty and the elevation to the throne of a pure Chinese dynasty. Pang Fook came to Hawaii very soon after the suppression of the Tai Ping rebellion, some say as a refugee, he having been one of the rebels. However that may be, he was an active worker in the Hawaiian branch of the organization which is said now to number about two fifths of the Chinese in the territory in its membership, but is not now a political but a benevolent organization.

Pang Fook has been at the head of the order here for the past thirteen years. He died September 12. His embalmed body lay in state in a pavilion built for the purpose adjoining the Joss house of the society on Berea street, until the funeral yesterday. Hundreds of the members of the society arrived from the other islands and from other parts of this island, and it is estimated that no less than 2,500 people followed the body to the grave in the cemetery in Pauoa valley. The hearse was drawn by fifty men. The Territorial and the Catholic Mission bands were in attendance. No essential of Chinese funeral ceremonial was omitted in yesterday's obsequies.

JUDGE DE BOLT'S INITIAL CASE

IS A DIVORCE SUIT WITH A PITIFUL STORY OF A DYING CHILD AND A DRUNKEN FATHER.

The first suit brought in which the declaration is addressed to Judge De Bolt as First Judge was filed this morning and is a divorce case. Amelia L. Birt asks for a divorce from her husband John Wesley Birt. The two were married August 17, 1895, by Rev. H. W. Peck, and they have three children living, a boy aged six and two little girls aged respectively four and one year. Mrs. Birt alleges in her complaint that for more than two years past her husband has been a habitual drunkard, and has neglected and mistreated her and the children and failed to make provision for them. She alleges that in May, 1901, when one of their children was dying the husband and father came home drunk and kicked the cradle in which the dying child was lying, and when the mother protested he beat her and kicked the cradle again. Judge De Bolt, before whom the matter came up this morning, entered an order requiring the husband to pay \$10 a week alimony, pendente lite.

In the divorce suit of Mary H. Bailey against George H. Bailey, a motion for an ordering requiring him to pay \$50 a month alimony was continued until Friday morning.

The Orpheum Company has begun suit in the Circuit Court against Macfarlane & Company for \$500, alleged to be due on an assessment of \$2 a share on 250 shares of stock in the Orpheum Company subscribed by Macfarlane & Company. It is alleged that \$14 a share has already been paid on the stock, but that the defendant has failed and refused to pay the assessment which became delinquent last May.

WINTER RAINY SEASON AND ELECTRIC WIRES

A WARNING TO HOUSEHOLDERS AND OTHERS TO LOOK OUT FOR TROUBLE IF THEY DON'T KEEP THEIR TREES TRIMMED.

Householders and other users of electric light and telephones are warned that there is more likely to be trouble with their wires during the rainy season than during the dry.

"With the advent of the rainy season the chances of accident from electric circuits greatly increase," says Territorial Electrician Hanson. This is due principally to the interference of foliage with overhead lines, and to faulty or flimsy construction allowing a possibility, under stress of weather, of contact between electric light or power lines and telephone or signal lines.

"It is matter of record for the past several years that the electric lighting and telephone systems have been exceedingly unreliable during the months of December and January; also that at this time many persons have received electric shocks more or less serious in their nature."

"The growth of trees during the summer months is very great, but there is no particularly noticeable effect until the period of continuous rains when the branches become so heavily laden with moisture as to be brought down on the wires. This results in some cases in the breaking down of the wires; in other cases in the breaking down of the insulation causing grounds and short circuits the result of which can not be foretold; in other cases, in bringing in contact different classes of wires which may result disastrously to the supply companies or to the public."

"Since January of this year an effort has been made by the Government to improve construction and remove existing hazards by the establishment of an electrical inspection. Considerable has been accomplished in the way of having new construction stable in its character. Existing laws, however, do not provide for the enforcement of rules modifying existing construction, without tedious legal formalities."

"Many reports have been made to the companies holding franchises for the erection of pole lines, but few have met with any response. The inspection force is limited to one inspector who can not possibly efficiently cover the entire ground."

"Property-owners and householders may materially aid this inspection by careful inspection to see that service lines in private grounds are clear of foliage; examination as to whether electric light and telephone wires are in such close proximity as to be possibly in contact by stress of weather; noting whether all wires entering buildings are provided with proper protective devices at or near the point of entrance."

"Complaints or questions filed in writing with the Government Electrical Inspector will meet with examination and consideration. The office of the Government Electrical Inspector is in the Executive building, and any person desiring, it can get a copy of the rules and requirements of the National Board of Fire Underwriters for the installation of electric wiring, which gives a great deal of information householders ought to have."

Freshly Smoked Ham

We smoke a lot every day and they are positively delicious. They are the best sugar cured hams imported, and being smoked in turn by us gives them a much finer flavor than when smoked in the states and shipped here. Besides they are full weight and not dried out. If you want something fine try one.

A GOOD FIGHT.

The fight against lantana has commenced in earnest. One of the hardest things in the world is to get a useful insect started. The useless ones, or the harmful ones start soon enough, just as the harmful plant does. Pests seem to have a vitality far superior to the vitality of any of the useful members of either the animal or the vegetable kingdoms. Few countries have suffered more from pests than we have, some of which we have introduced ourselves, and some we have allowed to enter our borders through carelessness.

We did not willfully introduce the Hilo grass, but it came to us uninvited. Crockery had been packed in it, and the packing was thrown into the yard of a house in Hilo. The seeds germinated, the plants grew and seeded, and the mischief was done. Hilo grass spread over the country, driving out the native grasses, and ruining the pastures. But we have forgotten all about Hilo grass now. Of course its true name is not Hilo grass. It was simply called Hilo, because it made its start from that section of the country. The Japanese beetle came in we know not when. He gave notice of his existence by sweeping off our roses, and since then he has taken to the hau trees, the bananas and even the coconut trees, though all these latter seem to be unaffected by the attacks. The cabbage butterfly, destined to destroy all our cabbages, if a counter species does not come in, and a fly which has completely ruined our muskmelon crop, having also been unwitting importations. In those days our gates were unguarded and the insects fairly poured in, finding a congenial habitat and ample food when they arrived. To illustrate how easily insects of this kind can be imported, there were no less than 18 varieties of insects in some cane which came from Queensland a short time ago, and almost an equal number in some Samoan coconuts. The latter harbored the cane borer, but that destructive insect had already made its home here, probably in similar importations of cane or coconuts.

If these have come in insidiously, others have come in through our own efforts. We spent considerable money to introduce the mongoose. There were those who warned us against them, but we would not listen. The mongoose came, brought hither with much care by Joe Marsden. Some of the original lot were drowned going ashore at Hamakua. It is a great pity that

from rats to land crabs, but the taste of our mongoose for fancy breeds of poultry is undeniable, he has cleaned out nearly all of our quail and makes a good flat at keeping down the pheasants. The mynah bird is another of our importations. He was supposed to keep down our insects, but he prefers figs and any kind of fruit which may be regarded as of special value. He has also almost completely destroyed the indigenous rock pigeon which is now only to be found in out of the way parts of Hawaii. The lantana may also be reckoned among our successful introductions.

Some of these pests we can fight, and though we never can entirely eradicate them, still we can keep them down. Others have got the better of us completely. It would have been much better if we could have prevented their introduction, but we did not understand the value of science and blundered on unscientifically. Now we have called in the aid of science, but it is like calling in the doctor when the patient is "in articulo mortis," in the very throes of death.

Lantana has reached such a stage upon our ranches, that it requires tens of thousands of dollars to keep it down. Yet it is a curious fact that in Mexico, the home of the lantana, it is a comparatively rare plant. Scientific study has shown that lantana in Mexico is kept down by a variety of natural enemies. To bring these enemies to Hawaii has been the problem. Professor Koehle has collected many in Mexico. Professor Perkins on these Islands has propagated the lantana's foes and has studied their habits. In the first place there is difficulty in getting eggs and larvae from Mexico here. In the second place after they have reached here and been hatched out, they have to be studied, lest by any chance they should prove harmful to other plants beside the lantana. Moreover their own natural enemies which come with them have to be killed off.

The experiments, however, are succeeding well, and the war upon the lantana seems to be commencing well. It will take time, of course, but Professor Perkins predicts that, all being well, the cattlemen will have the lantana well in hand in five years. The lantana fight practically and scientifically is a most interesting one, the whole shipment was not drowned. We have not suffered quite so much from the mongoose as has been the case in Jamaica, where almost every living creature has been cleared off.

OUR TRADE.

The increasing activity of the manufacturers of the United States is illustrated on both the export and import side of the latest figures of the Treasury Bureau of Statistics. During the in the corresponding months of the pre-previous year, the exports of manufactures were nearly \$10,000,000 greater than in the corresponding months of the preceding year, and the importation of manufacturers' materials was 20 millions greater than in the corresponding months of the preceding year. The exportation of manufactures during the 7 months of the present year has averaged \$35,108,000 per month, or at the rate of \$421,000,000 per annum while the importation of manufacturers' materials has averaged \$36,000,000 per month, or at the rate of \$432,000,000 per annum.

Nearly all of the principal manufactured articles exported, except iron and steel, show an increase in quantity and in most cases in value, though in a few important articles the reduction in price per unit of quantity has brought the value below last year's figures, while the quantity shows an increase. This is true of mineral oils, for example the exports of which during the

7 months show an increase of over four million gallons, while the figures of value show a decrease of about one million dollars. Among the articles which show a marked increase in exports are cotton goods, the exports of which amount to nearly 21 million dollars in the months ending with July 1902, against a little less than 15 millions in the corresponding months of 1901.

This increase is almost exclusively in cotton cloths, of which the exportations in the 7 months ending with July 1902 were \$17,093,452, against \$11,124,018 in the corresponding months of 1901, the number of yards exported being 334,865,962 in the 7 months of the present fiscal year, against 297,577,567 in the corresponding months of last year. Copper, in which there was a marked decrease in the exportations of last year owing to high prices, now shows a marked increase, the figures being \$29,614,210 for the 7 months ending with July 1902, against \$20,731,622 for the same months of 1901. The chief decrease in exports occurs in iron and steel, the total exports during the seven months of this year being \$57,263,394, against \$61,660,730 in the corresponding months of last year.

Judge De Bolt's elevation to the circuit bench adds dignity to the courts and promises even handed justice to all who may come before him.

If the Home Rulers had chosen a representative Chinaman he might have had a chance, but Ng Mon War good gracious! He is truly N. G.

Investigations in and out of court are becoming the main objects of interest nowadays. In time we shall settle down to our normal plodding till something stirs us up again. There is no doubt that the Islands received a heavy mental and moral shock within the last fortnight.

The sisal plantation beyond Ewa mill seems to be very promising. It has taken three years or more to develop, but the shareholders now think that they have reached the turning. A crop should soon be taken off and the machinery is now here to prepare the fiber. Among our minor industries sisal is likely to prove one of the chief though very little has been said about it.

It never rains but it pours and telegraph or cable ships will be a feature of our port during the next month or so. The floor of the Pacific will be net worked with cables as much as the floor of the Atlantic, in time. Marconi's invention is evidently not regarded

seriously or so much money would not be put into cable lines. The experiments at the German Naval maneuvers will not ten to add confidence in Marconi's invention even for small distances.

Delegate Wilcox has certainly overreached himself in the matter of the lepers. He never had the welfare of the lepers at heart, but he always made a vigorous pretence of it, going out of his way to make false charges against the Board of Health. Now, ninety per cent of the lepers are denouncing Wilcox and all his ways, and he would have rather a hard time were he to visit the settlement and venture to talk to the segregated.

It seems probable that the term of Lord Salisbury's life is approaching, and that the great statesman will soon pass away. He has made an indelible mark upon the history of last century, and his name will be classed with the greatest of the Victorian statesman. He belongs entirely to the last century, and with its close and the death of his Royal Mistress his work was done. The work which he carried on has now gone into younger hands and he has been fortunate in having had lieutenants under him who will carry on the untarnished traditions of a conservative yet brilliant policy.

MORE LIGHT, LESS EXPENSE,

Can be obtained by using our old reliable M. & M. Arc Portable Lamps for Stores, Street Lighting, Churches, Halls, and in fact, any place where you want light of 500 Candle-power.

One M. & M. Arc Lamp gives more light than one electric Arc Light at cost of only one-half cent per hour.

This lamp is sold on trial subject to perfect satisfaction; is fully guaranteed for one year; over 36,000 in actual commercial use in the U. S. today.

If you want MORE LIGHT, do a little figuring. Note how many hours your burn your Gas, or Electric Lights, then figure cost of our Gasoline Arc Lamps, which are ABSOLUTELY non-explosive. They meet in every way the requirements of the National Board of Fire Underwriters. You will be astonished at the CUT IN YOUR LIGHT BILLS, and you will be MORE astonished at the INCREASE of your light.

Don't turn us down because you have had some other lamp that did not satisfy you, but GIVE US A TRIAL; if not perfectly satisfactory it COSTS YOU NOTHING TO FIND IT OUT. Write for particulars. Agents wanted for all unoccupied territory. CHICAGO, ILL.

PROTEST OF AVERY'S COURT FOUND THEM ON DUTY

J. D. Avery, appointed assistant
secretary to the Republican Central Com-
mittee on September 19 has written a
letter to the Territorial Central Com-
mittee in which he sets forth that he
has been ignored and overlooked as
such assistant secretary, that opposi-
tion to his election by a faction of
the party has continued to annoy
him and attempt to deprive him of the
rights of his office. Certain specific
statements showing when, where and
how, such annoyances and ignoring
took place, are set down in the letter
which appeals to the territorial cen-
tral committee to let the writer know
by a recorded vote whether his services
are or are not needed. Avery's elec-
tion to the post was gained by a two to
one vote. A committee, consisting of
J. H. Fisher, E. G. Keen and J. W.
Jones has been appointed to look into
the matter and report.

MAUI WILL SEND TEAM.

W. H. Cornwell Jr. writes to the
Oahu Polo Club from Waikiki regard-
ing the Thanksgiving week games to
the effect that the two Maui clubs are
to hold a meeting at which the ques-
tion of sending a representative team
will be decided.

The letter seems to open a doubt if
the Maui teams will decide to come
down as much playing has been
done of late, but in any event "Frank
Baldwin, Harry Baldwin, Von Temp-
sky and myself, will," says Mr. Corn-
well, "come down and play, not as a
Maui representative team, but as a
team from Maui. We have not played
for two months and expect that you
will play all around us, but it is a good
game and the losers get as much en-
joyment out of it as the winners. You
are fortunate in having such a man as
Parsons for coach. I will let you know
the decision of the clubs as soon as
they have met. There will be a team
from Maui present anyhow."

TO ATTEND CONVENTION.

F. C. Smith, general passenger agent
of the Oahu Railway and Land com-
pany will be a passenger on the Sierra
tomorrow for the Coast. He is going
to attend the annual convention of
general passenger and ticket agents of
North America, which is to be held in
Portland, Maine in October.
Mr. Smith's trip is of special signifi-
cance for he goes for the purpose of
enlisting the aid of railroad influences
in diverting tourist traffic to these is-
lands. He will make a special effort to
secure such cooperation that could be
undertaken such a commission, his
trip will no doubt, result in ultimate
material benefit to Hawaii.

COAL FOR KAUAI PORTS.

The barkentine Hawaii sailed Sat-
urday afternoon from off port for Ma-
kau to discharge her cargo of coal.
The barkentine Lahaina will sail this
afternoon or tomorrow for Elese to dis-
charge coal. Owing to this being the
"off season," there will be no sugar
cargoes for either of those boats and
they will go in ballast to the Sound.

TO CAN PINEAPPLES.

The Tropic Fruit Company Ltd., is
the name of a corporation which filed
its articles of association on Saturday
with the Treasurer. The proposed
capital stock is \$80,000 divided into
shares of \$100 each. The object of the
corporation is to grow and can pine-
apples. It proposes to erect extensive
machinery and large acreage under
cultivation at Wahiawa in pineapples
and erect a large cannery. The stock
is subscribed by the following: Byron O.
Clark trustee, George B. McClellan,
trustee, E. C. Rhodes, L. B. Nevin,
Edgar Henriques, C. P. Lauka, Mrs.
Mary E. Clark, E. S. Boyd and Stephen
Mahaulu.

NEW STOCK YARDS.

Articles of incorporation have been
filed with the Treasurer for the organi-
zation of the Hawaiian Stockyards
Company, Ltd. The authorized capital
stock is \$100,000 with the right to in-
crease to \$160,000. The stock is sub-
scribed as follows: William S. Withers
470 shares, Edward H. Lewis, 470 shares,
William Sunningham 50 shares, Dud-
ley L. Wadsworth 5 shares and Harry
Lewis 5 shares. The object of the cor-
poration is to take over the lively
stable business now being conducted by
Withers and the drayage business con-
ducted by Lewis and Company.

ASSASSIN AT LARGE.

Two attempts at assassination were
made early yesterday morning in Ka-
kaako. A Japanese named Tomito
narrowly escaped being struck by a
bullet which was fired through the wall
at him by an unknown man. A few
minutes later, Kigi received a pistol
bullet in the arm while asleep in bed.
The bullet was fired through a closed
door. The police are searching for the
unknown man as it is believed that
both shots were fired by the same per-
son.

ON THE WAYS.

VICTORIA, September 19.—The bark
Alta, which arrived in port a few days
ago from Vintau will go on the Es-
quimaux Marine ways this morning to
be cleaned and painted. The bark Kin-
ross, which together with the Antelope
has been engaged in carrying coal be-
tween Ladysmith and Honolulu, is now
due from the island port and she will
follow the Alta on the Esquimaux Mar-
ine ways. These four-masted steel
schooner Honolulu, Captain Stockaby,
is also en route from Honolulu to go on
the Marine Ways and she will follow
the Kinross on to the slip. Mrs. Stock-
aby, who accompanies her husband on
the Honolulu, is a daughter of Captain
Buckman of this city.

SPECIAL GRAND JURY

Judge De Bolt says he has not dis-
cussed the matter of calling a special
grand jury to investigate the condi-
tions which have been laid bare by the
disclosures in the treasury department,
the public works, and the auditor's of-
fice.

"Neither Judge Robinson nor Judge
Gear has said anything to me on the
subject," he said. "They may have
talked the matter over between them-
selves; of that I know nothing."

"As for myself, I have not given the
matter any serious thought. There will
be a regular grand jury empaneled at
the November term which begins the
first Monday in November. I do not
know that there is any emergency call-
ing for an investigation by a grand jury
before that time. There is no money
in the treasury nor in the appropriation
for that matter, to pay the cost of a
special grand jury, though for the mat-
ter of that there seems to be continual-
ly less and less money in the treasury
with each day's developments for any
purpose. At the same time, if there is
a real public need and sentiment for a
special grand jury, the lack of funds
in the treasury is no insuperable rea-
son for not calling one."

Judges Gear and Robinson concur in
these views of Judge De Bolt.

FINE LEGAL POINTS.

Fitch and Magoon Fitted Against
Each Other Again.

Col. Thomas Fitch and J. Alfred Ma-
goon are pitted against each other
again. Fitch and Fleming represent
Susan Brash in a proceeding to secure
an accounting from Magoon as guar-
dian of Susan Brash's estate and the
appointment of a new guardian.
The petition alleges that in a num-
ber of particulars Magoon has not ac-
counted to the estate for all the money
that has or ought to have come into his
hands. In his answer Magoon denies
all these charges and alleges facts
tending to show him a faithful and
capable steward of his ward's funds.

But the interest in the case rises
largely from the legal points raised.
The late William Brash by his will left
certain property to his daughter, and
made his son William J. Brash execu-
tor of the will. William J. Brash be-
came executor of the will and guardian
of the estate of his sister. Some years
later J. A. Magoon was substituted for
him in these two positions. Now Fitch
attacks his appointment on the ground
that there never was a petition for the
appointment of a guardian of the es-
tate of Susan Brash as the law requir-
ed and that therefore William J. Brash
was never legally appointed to be
guardian, and that therefore Magoon's
substitution for William J. Brash was
without the necessary legal formalities.
The case was on hearing before
Judge Robinson this forenoon.

UNDER POLICE PROTECTION.
The Auditor's office is still guarded
by a policeman to prevent Austin from
seeking to take possession. Deputy
Auditor Meyers is in possession and in
charge of the work of the office. The
remainder of the office force is the
same as it has been.

HAD NO RECEIPTS.

Amana Said to Have "Forgotten" His
Book

In paying taxes or accomplishing
other business of that nature, it is the
custom of Oriental firms acting in co-
partnership, to have all the partners
present when the amount is paid. In
the case of Amana, who it is claimed
by certain Chinese, received from them
taxes without giving a receipt, Amana
is stated to have explained that he
had left his book behind and his stand-
ing was such among the Chinese that
they did not doubt the propriety of
giving him the money nor dream that
it would not be properly entered on the
government books.

The complainants have a big horse
shoeing shop on the Iwili road; ac-
cording to custom, the eight partners
were all present, it is said, and all
signed on a line after the entry to the
effect that the amount had been paid.
These eight partners and their records
may be called in the matter as wit-
nesses in the investigation that is being
undertaken while Amana is under sus-
pension.

The case against the alleged Chinese
counterfeiter was continued until Oc-
tober 23 to enable the United States to
secure from the coast expert witnesses
as to the coin found actually being
counterfeit.

SMASHED THE MATE'S EYE.
Kaluaipulani, the pilot of the
Concord, applied at the police station
this morning for treatment of a badly
cut eye. He also wanted a warrant
for the arrest of Kamalu a sailor
aboard the vessel. It took the com-
plainant about five minutes to make
the officials understand his name. It
appears that orders were given to move
the Concord from this side of the har-
bor into the stream. Kamalu and the
mate got into a row and the sailor in-
flicted a smash on the right optic of the
mate, that probably would have felled
an ox. In any event, the blow cut the
mate's eye very badly. Dr. Emerson
dressed the wound. A warrant charg-
ing the sailor with assault and battery
was issued.

DANDRUFF IS A DISEASE

Not a natural condition of the scalp.
The itching, the irritation, the white
flakes on the clothes, the rapid loss of
hair—each indicate the disorder and
its end—baldness. No matter what
caused you dandruff, how long you
have had it, or how severe it is.
Pacheco's Dandruff Killer is a posi-
tive cure. Tested on supposed hope-
less or stubborn cases, which for years
had refused to yield to any treatment,
this remedy has cured.

INITIAL SURVEY OF NAHIKU DITCH

IRRIGATION PROJECT NOW IN
HANDS OF ENGINEERS—WATER
FOR MAUI PLANTATIONS.

MAUI, Sept. 27.—M. M. O'Shaugh-
nessy left for Nahiku by Wednesday's
Maui to begin the initial survey for the
proposed new ditch which is to supply
the central Maui plantations with wa-
ter from Nahiku.

The work of completing the survey
and determining the approximate cost
will require several months, and the
construction will probably soon follow.
The head of the ditch will have an alti-
tude of between 1,100 and 1,200 feet, and
the grade will be approximately six
feet to the mile, which will cover a
large area of fine cane land from Haiku
to Kihikihi which is now in the dry
belt. The capacity of the ditch will be
100,000,000 gallons per day, which
amount of water is available, except in
very dry seasons.

The approximate length of the ditch
will be 45 miles, but when the first
twenty miles are completed the water
will be dropped into the present
ditch thus increasing the present sup-
ply to an extent which will largely ob-
viate the use of pumps.

When the entire length of ditch is
completed, the areas of Haiku, Pala,
Punene and Kihikihi plantations can be
materially increased, and as the pro-
posed ditch will largely take the place
of pumps, it may be readily seen that
proposed enterprise will add very ma-
terially to the wealth and stability of
the central Maui sugar plantations.—

GLADYS MAKES RUN IN EIGHT HOURS

LA PALOMA COMES IN SECOND—
MARY L. PUTS BACK LEAKING—
SUCCESSFUL YACHT RACE.

With a steady breeze and not too
heavy sea, the yacht race of the first
raters to Rabbit Island and back proved
easily the most notable event of its
kind of the year. The four single stick-
ers were thoroughly tried out, two of
the sloops coming home within twenty
minutes of each other, a very cred-
itable showing in a fifty mile race
with the time of the winning yacht
eight hours and eight minutes.

The Gladys, Commodore Hobron's
sloop won, the La Paloma coming in
second, the Helene third, the Mary L.
put back with a leak, but not until
she was left far behind in the race,
outsailed in the ocean going weather.
The race started with the boats go-
ing out of the channel on single file.
The Helene got away first at nine
o'clock, followed two minutes later by
the Mary L., carrying her topsail and
jibs. The La Paloma was late com-
ing up over the mark and it was not
until eight minutes past the hour that
the Gladys glided over the line.

On the way to Diamond Head the
Mary L. found her topsail too much
for the weather outside the reef and it
is more than likely that the sail she
carried caused her to strain too much
in the heavy seas. She somewhat over-
hauled the Helene for a while. The
Gladys, sailing a straight course for
Diamond Head, ran through the others,
which tacked two or three times. Dia-
mond Head, with its powerful current,
took a long time to round and the La
Paloma began to close up the gap. She
exhibited speed in reaching that was
a surprise and worry to the Gladys and
Helene who knew that Macfarlane's
sloop could outrun them coming back
and depended on getting sufficient lead
on the long reach to the island to pre-
vent the La Paloma overhauling them.
On the second tack into Waialae the
throat halyards of the Gladys, which
had about a ten minute lead snapped
and the big sail hung by the peak peri-
ciously close to the reef. The jib was
climbed in and Commodore Hobron
climbed to the spreaders with the
halyards and repaired the damage. In
the meantime the Helene, La Paloma
and Mary L. in the order named, came
down on their backs and went by the
helpless Gladys offering assistance
as they passed. The Gladys was off
again and twelve minutes lost, but the
weather position still hers. From there
to Koko Head she steadily gained and
the La Paloma took second place.
Round Koko Head to Makapuu Point
in the big seas the Gladys increased
her lead, tacking and slipping into the
channel between Rabbit Island and the
smaller islet inshore, about thirty min-
utes to the good. As she rounded the
island for the run home, the La Paloma
went to the lee of the island choos-
ing the shoreward channel and some
fifteen minutes later the Helene
followed the Gladys' course between
the islands.

A heavy swell was running and the
Gladys slipped along and reached Koko
Head before the La Paloma poked
her white nose around Makapuu. The
Gladys' big spinnaker was spread to
starboard, after jibing and swinging
the mainsail to port, and with all sails
spread on a steady course, she started
at an eight knot clip for the harbor
with the knowledge that the La Paloma
could go at least two knots better.
Presently the La Paloma swung out
her balloon jib, having no spinnaker,
and came along with the Helene a tri-
angular speck away to windward. Off
Diamond Head the breeze began to fall
and the Gladys threw her spinnaker
round to a balloon jib. The La Paloma
was sneaking up but the stern chase
proved too long a one and the Gladys
turned into the channel, rounding the
spar buoy and completing the race in
eight hours and eight minutes, the La
Paloma finishing twenty-one minutes
later, including her two minute start.
The Helene, which had made a close
race of it until the run home, was out-
sailed before the wind and finished af-
ter dark.

The Mary L. put back before Koko
Head was reached leaking from a
strain and with it is reported, a sea-
sick crew. Quite a crowd awaited the
return of the winner and Commodore
Hobron and Clarence Macfarlane shook
hands over the race with hearty good
will. The winning crew consisted of
Eugene Mott-Smith, Oscar White, Per-
cy Benson, Prof. Ballaseyus and Allan
Dunn, sailing under Commodore Hobron's
flag.

The actual sailing time of the yachts

in yesterday's race, as officially taken
by the time keeper, Conking, are as
follows: Gladys: Started at 9:10:29
from imaginary line between lighthouse
and harbor. Finished at spar buoy at
5:18:30. Time 8:08:10.
La Paloma: Started 9:05:15. Finish
5:29:47. Time 8:24:32. Difference in
favor of Gladys, 22 minutes 22 seconds,
plus 2 minutes, 5 seconds at start, mak-
ing the win from the La Paloma in all
24 minutes and 20 seconds corrected
time. Twelve minutes was lost by
Gladys in repairing halyards. This
was not taken out of the race. The
Mary L. was very badly strained.
Nearly two feet of water was over the
cabin floor and she came back water-
logged and almost in a sinking condi-
tion. The yacht was built for smooth
water sailing and the heavy seas
strained her to a dangerous point.

TO PREVENT RUST.
It is asserted that if new tinware is
rubbed with fresh lard and thoroughly
heated in the oven before it is used, it
will never rust afterward, no matter
how much it is put in water.

HIGH CHIMNEY.
A wooden chimney stack 160 feet high
is in operation at Mapimi, province of
Durango, Mexico. The interior is lined
with corrugated iron, and there are
platforms at intervals to throw water
on the wood if it catches fire.

NOTHING LIKE OIL.
"In dealing with man, remember that
a spoonful of oil will go farther than
a gallon of vinegar." The same may be
said of children. There is nothing so
good for children as the old-fashioned
castor oil. However much they abhor
it, it is their best medicine for disor-
ders of the bowels. In the most severe
cases of diarrhoea and dysentery, how-
ever, Chamberlain's Colic, Cholera and
Diarrhoea Remedy should be given af-
ter the oil operates, and a quick cure
is sure to follow. For sale by all deal-
ers. Benson Smith and Company gen-
eral agents.

SAVE MONEY

ON YOUR
GROCERIES

By buying canned fruits, vegetables and meats in case lots of one
or two dozen, we give you the advantage of a much lower price. Also
you can have an assortment of many kinds in one case. For instance
in a case of two dozen cans of fruit you can have a half dozen of
peaches, half dozen of pears, half dozen of cherries and half dozen of
apricots.

The saving in price by buying in this manner is very considerable
and it will pay you to enquire.
There are many other things about the store—everything in fact—
that you can buy much cheaper in quantity lots. This is a new de-
parture and we want every customer to understand it perfectly.

ANOTHER ENEMY OF THE TUA-TUA

AN INSECT WHICH IS DESTROY-
ING THE SHRUB AS IT GROWS AT
THE EXPERIMENT STATION.

The Tua Tua seems to have other
enemies than the board of Health.
A bug of a variety yet undetermined,
it has just been discovered, is attack-
ing the plants where they are growing
at the Planters' Experiment station,
Wilder Avenue and Makiki street.
The discovery was made a few days
ago by the director of the experiment
station and was reported by him to
Commissioner of Agriculture, Wray
Taylor yesterday. Taylor cut several
sections of the shrub which showed
the ravages of the bug and contained
the larvae and brought them down to Prof.
R. C. L. Perkins, the entomologist for
identification.

The bug is about half an inch long with
long antennae. It is of a dirty brown-
ish, black color, and very active. In
the larval stage it seems to burrow it-
self in the heart of the stems of the
shrub and judging by the looks of
things is very destructive to the plant.
Of about twenty-five shrubs of the Tua
Tua at the Planters' experiment sta-
tion, about five of them have died
within a very short time from the at-
tacks of this insect, whatever it is.

The Tua Tua was sent here by the
United States Marine Hospital with a
request that it be planted and propa-
gated and experiments made as to its
alleged leprosy curative properties. Dr.
Carmichael who was the Marine Hos-
pital Service representative here at
that time notified the Board of Health
of the matter and secured the slips sent
to be planted at the Planters' experi-
ment station where it seemed to thrive.
Some desultory experiments were made
with it under the direction of the Board
of Health and then it seems to have
been neglected until a few months ago,
stories of cures made in it in Tahiti
brought it into notice again, and re-
newed experiments were made with it.
Slips were sent to the leper settlement
and planted there, and quite a quan-
tity were planted in the Government
Nursery on King street.

WOULD EXPEL CATHOLIC ORDERS

LONDON, September 15.—The com-
mittee of the Protestant Alliance is
making another attempt to get the
Jesuits and priests of other orders
expelled from England under the
Theological Test Bill. The committee
has just issued a circular asking
Joseph, one of the Assumptionists who
came to England when the order was
suppressed in France.

BARK FOULS ANCHOR

SAN FRANCISCO, September 13.—
The bark Albatross, which arrived
last night from the Hawaiian Islands,
got her anchors into a pretty mess as
she rounded to off Meigs wharf. The
stopper on the starboard cable carried
away at the 45-foot shackle struck
it, and the entire length ran free.
The ship's anchor was then let
go, only to foul the chain that was let
out on the other side, and in this helpless
condition she was being rapidly set in
shore by a westerly wind and strong
flood tide—the causes of all the trouble
—when a tugboat reached her and put
her into a berth.

BUILDS NEW BATTERIES

KINGSTON, (Jamaica), September
16.—The construction of a new battery
at the eastern extremity of Kingston
harbor has been begun. It is to have
an armament of six-inch quick-firing
guns, and is intended for defense of the
eastern channel. This new battery
forms a part of the general scheme for
strengthening the British naval station
at Port Royal in anticipation of the
opening of the Panama canal. Another
battery is to be constructed on Palis-
ades sand spit.

BIG GUN DAMAGED

NEW YORK, Sept. 12.—With one of
her thirteen-inch guns scamed and
corroded and the breech out of order,
the battleship Indiana went into action
in the recent maneuvers, and now she
is promised a long season of rest while
the gun is removed and replaced, a
proceeding that will occupy much time
and involve much expense.
The defect was discovered when the
members tried to fire the gun. At first
it was thought that the defect was
blame but a thorough examination to-
day showed the defect to be of long
standing.
Another six-inch gun has also been
found to be out of order, the muzzle
having expanded.

BARR TO SAIL THE DEFENDER

NEW YORK, September 15.—Captain
Charles Barr, the well-known America's
cup skipper, who sailed the Columbia
against the Lipton challenger, Shamrock
II, will again serve the New York
Yacht Club next year in the interna-
tional match, as he did last year, says
the Herald. Barr has been engaged by
the interested officials to take charge of
the new boat that may be built to de-
fend the cup, or that may be selected,
as the syndicate deems best.

LIPTON'S CHALLENGE COMING

LONDON, September 15.—The chal-
lenge of Sir Thomas Lipton for another
series of races for the America's cup
will be forwarded within a few days, so
as to reach the New York Yacht Club
by October 1st. Confirmation was
forthcoming today of the report that
the hull of the Shamrock III will be
milled steel instead of manganese
bronze, as in the case of the previous
challenger. The new yacht's design
does not differ materially from those of
the previous Shamrocks, although there
is some divergence from the old line
forward. The new boat will not be so
costly as the Shamrock II.

The unconventionality of President
Roosevelt is remarkable. In his hunt-
ing expeditions he never shoots a guide.

COMBAT WITH EELS

There was an exciting and very un-
usual combat on the deck of the steam-
er Noeau last Tuesday night while she
was lying at Kukuhae. The chief
engineer caught two marine eels. One
of them was 4 feet 4 inches in length
and the other 4 feet 8 inches long. The
eels were laid out on the deck and the
engineer struck the larger one on the
tail to see if the fellow would fight.
Instantly the eel reared up and start-
ed toward the engineer, then seeing the
other eel lying close, darted forward
and grabbed it by the body. The small-
er eel wound itself around the slimy
body of its assailant and in turn sunk
its teeth into the body of the larger eel.
Then ensued a desperate battle.
The eels were soon a writhing, wig-
gling, squirming struggling knot that
tied, untied and retied itself into all
combinations.

The officers and crew of the vessel
watched the fight for fully five min-
utes. Finally the larger eel caught the
other by the head and crunched the
bones of the other creature. Even this
injury did not cause the battle to stop.
The men had to separate the combat-
ants and declare the fight a draw.

THE WORLD'S GOLD SUPPLY.

The editor of the European Econo-
mist, discussing the outlook, says:
"Europe rejoices in the Anglo-Borneo
peace. The cost of war has been borne
by the whole of Europe and has seri-
ously interfered with its material in-
terests for the last three years. Eng-
land is the clearing house of the world's
exchanges. The consequence of the
Transvaal war was to take from the
market the £1,200,000 monthly supply of
gold which came from South Africa
and which acted as a compensating
balance to the gold which has been al-
most exclusively retained since 1886 by
the United States. The gold output of
the world has increased largely since
1885, but Europe has not received its
proportion of the benefit. Between 1891
and 1895 European nations absorbed
something like £168,880,000 in gold, plus
£12,400,000 which had been drained
from the currency of America. Be-
tween 1896 and 1900 the gold for the dis-
posal of Europe has fallen to £90,480,000.
This was the result of the closing
down of the Rand mines, the gold de-
mands in British India, the introduc-
tion of the gold standard in Japan, the
restoration of the finances of some of
the South American states and the war
requirements of the British Govern-
ment. This produced a monetary con-
traction on the Continent leading to
financial crisis in the principal mar-
kets. With the resumption of work at
the Rand mines this situation will im-
prove. By the early part of next year
the gold output of South Africa should
exceed £10,000,000, and in 1904 the total
should reach £25,000,000, raising, per-
haps to £40,000,000 in 1905."

COTILLON VERSUS POLO.

Dancing at Night Spoils Game Next
Day.
The polo on Saturday proved quite
conclusively that the polo is not
not conducive to good polo the next
afternoon. The Blues won but the dis-
play was very tame. The men were all
tired out at the end of the third period
and the ball seldom broke away from
the scrimmage. The new style of
throwing in the ball was adopted and
resulted in some pretty scrimmage
work.

MARTIAL LAW SOON TO END.

CAPE TOWN, September 15.—in an
interview today the Attorney-General,
S. L. Graham, said: "The general in-
demnity act will become a law in a day
or two, when martial law will be re-
pealed throughout the colony. Simul-
taneously the Government will pro-
claim the peace preservation act, en-
abling it to control the possession, im-
portation and registration of all arms
and ammunition. Profound peace
reigns throughout the colony."

THETIS RUNS ASHORE.

SEATTLE, Sept. 15.—A special to the
Post-Intelligencer says:
The fact developed here today that
the reason for the early return of the
revenue cutter Thetis is that the ves-
sel was ashore during a recent visit to
Nushagak River, in Alaska, sustaining
such damage that Captain Healy hur-
ried down here, where the vessel could
go on dock for the purpose of examina-
tion. She was "hogged" that is, her
hull was bent from shape, necessitat-
ing a repainting of the water line here.

STRONGER OIL TANKS.

SAN FRANCISCO, September 18.—
Because of numerous complaints of
weak fuel oil tanks on board of steam
vessels, United States Local Inspectors
O. F. Bolles and John K. Bulger have
issued the following circular to manu-
facturers of the tanks and owners of
steam vessels:
"We hereby notify you that in build-
ing fuel oil tanks for marine purposes
the same shall have all the holes fairly
drilled and in no case will punched
holes be accepted. The thickness of the
tanks shall be one-quarter of an inch
for vessels navigating bays and rivers
and five-sixteenths of an inch for ves-
sels navigating the ocean; all seams to
be double riveted (chain riveting)."
The cost of the change will be about
35 per cent more than the cost of the
defective tanks.

CIVIL SERVICE.

The latest controversy in the civil
service at Washington involves a par-
ticularly delicate question. The head
of one of the divisions of the bureau
of printing ventured to order a young
woman to change the style in which
she did up her hair. The superinten-
dent says the way she wears it inter-
feres with her work. The young woman
retorts that it is the most becoming
way for her to wear it, and that the
United States government can't make
her change it.

CHESS EXPERT.

Pillsbury, the American chess expert,
is called the greatest "second" chess
match player in the world. He has the
habit of generally finishing second in
a match. If Lasker is entered, Pills-
bury will be second to him, but if Las-
ker is not entered, Pillsbury, who, bar-
ring Lasker, ought to be first, will con-
tinue to end second to some player of
the second class. He has thus been
second in more chess matches than any
other expert. Only once did he take
first place, and that was in his first in-
ternational contest.

FOUGHT FOR HIS LIFE.

Criminal Resists Officers When Summoned to Gallows.

NEW YORK, September 19.—Peter Hernia was hanged today in the Bergen county jail at Hackensack, N. J., for the murder of Barney Carter, a butcher but he first made a desperate fight for his life. When two deputy sheriffs approached him to strap his arms, he suddenly tore off two brackets on the side of his cell, and getting into the corridor leaped over a partition. Here he ripped off a piece of lead pipe and crouching in a corner shouted that he would brain any one that came near him. By this time the jail was in an uproar. The sheriff and his deputies were at first puzzled as to how to deal with the murderer and disarm him, but it was finally decided to turn a hose on him. This was done and as Hernia put up his hands to ward off the water from striking him in the face a deputy sheriff leaped over and grabbed the hand of the murderer in which the lead pipe was. Other deputies quickly rushed in, and Hernia was finally overpowered and securely strapped. He was then placed in a chair and carried to the gallows.

FAMILY HAD A QUARREL.

Mehelwa a woman was brought to the police station this morning from Kankoo suffering from a bad cut on the right side of her head. She claimed that her consort, Kaunulu, had struck her with a chair. The latter denied this statement but was locked up to answer to a charge of assault and battery.

Many dollars are turned away annually by The Star in rejecting offensive and improper advertisements offered for insertion in its columns.

This is a cogent reason why The Star's advertising columns are so generally used and so widely read.
