RECEIVER'S SALE CONFIRMED

KONA SUGAR COMPANY GOES INTO THE HANDS OF LAND OWNERS AND RECEIVER'S CREDITORS WHO WILL TRY TO REORGANIZE AND PUT THE ENTERPRISE ON A PAYING BASIS—CONANT IN CHARGE.

Advices were received by the W. G. Hall today that Judge Edings on Monday last confirmed the receiver's sale of the assets of the Kona Sugar Company for \$12,250 to R. W. Shingle, for clients of the Henry Waterhouse Trust Company.

The only objection to the sale was made by A. Lindsay representing the Bierce railroad contractors who built the plantation road about nine miles in length.

The Receiver, F. L. Dortch, took the stand to state to the court that in his opinion, the property, if sold piecemeal would bring about \$16,600. R. W. Shingle, the purchaser, stated to the court that while it was quite possible that sold piecemeal the property of the corporation might bring a little more than the amount he had bid, still sale that way would mean the abandonment of the plantation enterprise. He represented landowners and receiver's creditors, largely persons who resided in the district. His purchase meant that an effort would be made to reorganize, and on safe lines conduct the plantation enterprise to success, to the great benefit of the Kona district.

The court confirmed the sale. There is in the hands of the Receiver considerable money received from the sale of sugar, which together with the \$12,250 from the purchaser would amount to about \$40,000, enough to pay all the debts incurred since the receivership began, and pay all the expenses of the receivership.

The Receiver's deed to the property is now being prepared, and the property will be transferred at once, and E. E. Conant put in temporary charge for the purchaser to look over the property and make a report as a basis for the reorganization.

THE ATTACK ON THE COUNTY ACT

PROCEEDINGS IN COURT THIS MORNING—A QUESTION OF WHETHER THERE WAS A HOUSE JOURNAL—BELIEF THAT THE ACT ALL BUT THE BOARD OF PUBLIC INSTITUTIONS PART MAY BE SUSTAINED.

The prediction is made by some attorneys that the County bill litigation will end in the knocking out of the Board of Public Institutions and the sustaining of the rest of the County government act. The point as to the illegality of the Public Institutions board is regarded as the strongest one against the law.

The provision that the Secretary of the Territory shall be a member of the Board is the one which is said to conflict with the Organic Act. The latter act provides for the control of public institutions by various officials and boards and provides that the Governor shall appoint such officials and public boards as well. With the exception of the Secretary of the Territory all the members of the new board are appointees of the Governor, but Secretary Carter's position is one which the President fills or makes vacant.

If the contention that the Board of Public Institutions is not legally created prevails, the Board will be thrown out of court as having no standing and that will settle the case, though the Board has decided to appeal to the last court in any event and will try to have the whole act reviewed.

Most of the County bill will remain in effect even if the board of Public Institutions is knocked out. The effect would be small on the general operation of the county government system, but the Public Works department, Attorney General's department and Board of Health will retain some institutions which the county bill orders them to turn over to the new board.

Attorney General Andrews led an attack on the documents supposed to constitute the journal of the House of Representatives this morning, in the county bill case. McClanahan sought to introduce the minutes in the possession of Stenographer George Thielen, to show action taken by the House on Senate Bill No. 1, or act 31, the County bill. There was a long legal wrangle before Judge Gear finally admitted the records in evidence as the journal of the House and for a time it appeared that the court was about to rule that there was no journal in existence.

"Is there any journal of the House?" asked the court, after Thielen had answered a lot of questions about the documents he held.

"There is no complete journal," said Thielen. "These are the minutes that were approved from day to day during the session, by a vote of the House. They will constitute the journal when some reports have been inserted."

Andrews questioned the witness as to whether the daily journal had ever been certified to by the officers of the House, in the face of many objections from McClanahan.

"Are you seeking to show that this is not the journal and that there is no journal?" he asked.

"I am not seeking to show anything except what these documents are," the Attorney General replied.

Thielen testified that the minutes had been in his possession continuously and that he knew they had never been certified to. The rules of the House were consulted and it was found that there was no rule requiring such certification. On this showing the documents were admitted, against exceptions by Andrews, as the journal of the House.

NAVY ANNEXES CHANNEL WHARF

CAPT. WHITE, ACTING COMMANDANT NAVAL STATION, RECEIVES CABLE ORDERS TO FIRE EVERYBODY OFF QUARANTINE WHARF AND TAKE POSSESSION FOR NAVY DEPARTMENT.

A peculiar complication between four departments of the United States government has arisen in the Territory. The Navy, Treasury, Commerce and Quarantine departments are the ones concerned in the mix up, with the Territorial government and H. Hackfeld and company also concerned to a considerable extent. At the present time, the Navy department has the upper hand and the rest of the outfit are groping in the dark as to where they will get off. The custody and control of the Quarantine wharf is the cause of the trouble.

Yesterday Captain White the acting commandant of the Naval Station, received a cablegram from the Navy Department instructing him to notify the Territorial government and Commissioner Sargent to vacate all lands belonging to the Navy Department and occupied by them. Captain White at once sent word to the various tenants on the Quarantine Wharf acquainting them with the receipt of the cable orders and notifying them to vacate the wharf and premises adjacent thereto by Friday June 12, as he intended taking possession of the place on that date.

This notice caused the greatest consternation. It meant that the extensive fumigating plant of the quarantine department would have to be removed, it meant that the immigration station temporarily established by Commissioner Sargent, would have to be abandoned, that the detention quarters where the alien emigrants awaiting deportation are quartered, would have to be located elsewhere and, more over, it meant that the entire Channel wharf which had been hitherto owned and regarded as Territorial property would be taken over by the Navy Department.

There was at once a hurried consultation among the various parties interested. In addition to the Territorial government and the departments of the Federal government, H. Hackfeld and Company were very materially affected by the order. Collector Stackable and Dr. Cofer promptly cabled their departments at Washington regarding the situation.

This morning Captain White was interviewed by F. H. Klebahn of H.

FIVE DOZEN PROSPECTIVE DIVORCEES

SIXTY LEPERS AT THE SETTLEMENT WHO WANT THE BONDS ON MATRIMONY SEVERED SO THAT THEY MAY REMARRY AND REMOVE THE REPROACH OF UNLAWFUL COHABITATION FROM THE SETTLEMENT.

There are about sixty lepers at the Settlement on Molokai who want to secure divorces from persons outside the settlement and the problem of how to proceed in such cases is being considered. "The divorces will probably have to be obtained by the husbands or wives outside the settlement," said Attorney General Andrews. "If leprosy is to be the ground of divorce the person whose husband or wife contracted the disease is the injured party and not the victim of the disease. It will be necessary to have the outsiders bring action and make motions in court to remit the costs. The suits may be brought in this circuit and if there is any evidence to be obtained at the Settlement a commission to take testimony may be issued. The idea is to have the Attorney General's department take up the matter, in order that those at the Settlement who have husbands or wives outside, may obtain freedom to marry there."

Superintendent McVeigh suggested that Judge Kalua might hold a term of court at Kalaupapa and hear the cases there. The Settlement is in Kalua's circuit and it might be convenient to have some cases heard there.

Two Bills Are Passed Along

The House Does Some Work and Resumes Debate on Salaries This Morning.

The House this morning passed the unpaid bills act on second reading, passed Senate Bill No. 11, making an emergency appropriation for the tax office, on second reading, and voted to refuse to concur in the Senate amendments to House Bill No. 3, making six months' departmental expense appropriations, and then the members settled down to weary debate in Committee of the Whole on the six months' salaries bill.

With a majority of the members reading newspapers or pamphlets, Kaniho opened the debate by moving to reject a report presented by Aylett, apportioning the funds for the electric light works among the employees of the institution, and increasing the total several hundred dollars. Aylett and Kaniho talked for a while and then Chillingworth spoke in favor of showing more confidence in committee reports. He said that as a general principle, when he saw that a committee had worked faithfully and intelligently, he believed in supporting its report.

Paele spoke against the report, saying that the House was appropriating too much. Kaniho asked for the ayes and noes and his motion to reject the report was lost by ten to fifteen.

Harris presented a report recommending that the item for salaries in the registrar's office pass without change. Kumalae objected, demanding that the item be divided up into specific sums for the various salaries and expenditures, and the ensuing debate took up the rest of the morning session.

Before the House went into recess Speaker Beckley announced that as the Senate had adjourned to Tuesday morning, the conference committee on House bill number 3 would not be appointed until then.

THE DENGUE STILL AT WORK.

The Sickness Continues to Cause Illikia in Honolulu and Other Districts.

The dengue fever is still prevalent in various districts throughout the islands, as it is in Honolulu, where there are many cases reported every day. A large proportion of those who are caught by the fever have two or even three attacks.

In the reports of government physicians to the Board of Health for the last month, the dengue is almost the only disease reported as unusually prevalent. Dr. Mouritz of Molokai reports 17 cases there, and the disease is reported as being in Lahaina, Kihei, North Kona and Hilo.

NOTICE TO STOCKHOLDERS.

The notice of stockholders in incorporated companies is particularly directed to the following remarkable statement of facts.

There is one corporation in the islands which has been doing business for over ten years and which is not affected by either hard times or flush times; its withdrawing stockholders have always received not only every dollar paid in on their stock, but good and substantial accumulated profits. It is called the Pioneer Building & Loan Association of Hawaii, and has just moved its office to No. 122 King street.

TO MAKE TARS STAY IN SERVICE

NAVY DEPARTMENT MAKES AN
ORDER GRANTING WHOLESALE
LEAVE OF ABSENCE.

Within the next two or three weeks
3,000 or 4,000 bluejackets of the United
States navy will invade the middle
western states. The seafighters will
not be armed, but they will wear their
uniforms and they will have their pay
in their pockets and plenty of leisure
in which to spend it. The invasion
will be the result of an order issued by
the secretary of the navy that all en-
listed men of the north Atlantic squad-
ron be given ten days' leave as soon
as possible after the fleet comes north.
The order was not a result of a spasm
of generosity in the department, but
was made in the hope that it would
check the wholesale desertions which
are daily reported.

During the month of March there
were 300 desertions from the ships of
the north Atlantic squadron alone. The
average for April shows an increase
and the officials are worried to no
small extent. During the last year
fully 1,500 men took French leave from
the ships and such large desertions
coming just at the time when the navy
is trying to increase the number of re-
cruits in order to be able to man with
trained men the new battleships in the
next two years has put the officials at
their wits' ends.

According to navy officers one reason
for the desertions has been the en-
couragement which has been given to
the enlistment of boys from the mid-
dle west. Inasmuch as it was demon-
strated during the Spanish-American
war that the farmer boys of Illi-
nois, Indiana, Iowa and other neigh-
boring states showed a high grade of in-
telligence and pluck the department
has exerted itself to get more of such

material. A large percentage of the
recent recruits has come from those
states, but experience has shown that
the independent western boys do not
knuckle down to hard discipline as ab-
solutely as do those from the coast,
where they are accustomed to the hard
knocks and slight attention given men
aboard ship. Besides the western boys
many of whom have never been away
from home before, have to be weaned.
The ten day's leave is expected to play
an important part in this weaning pro-
cess.

The officers believe that if they are
permitted to go home and receive the
attention which naturally comes to one
wearing a sailor's uniform in a small
inland town they will return to the
ships far better satisfied. Most of the
recruits come from the poorer classes
and it is thought that when they go
back home and compare their life on
ship with the discomforts of country
towns they will be content to serve out
the terms of their enlistment and not
be constantly watching for a chance
to get away from the service.

he declared "is fit only for women and
children."

Within half an hour of the death of

the doctor said, a certain curious sym-
pathy which exists between twins.

gratulate you upon the quality of your burglar-proof safe, as the burglars who
entered our place must have worked all night and could not open the doors,

this morning to inspect the work, they claimed it was done by professional
crackmen and told us that if it had been a safe of any other make the bur-
glars would have got in by the way they worked on our safe. We thought we
would write you this good news as we consider ourselves fortunate. We will
send the door to your factory this afternoon and kindly see that it is repaired

PIECES KOA WOOD**

W. G. HALL ARRIVES WITH TWO MAGNIFICENT LOGS OF HARD WOOD FOR WALTER WALL.

Two splendid pieces of koa wood were brought from Kona this morning by the steamer W. G. Hall. The wood came to Walter Wall. The pieces are as fine specimens of koa as have ever come to Honolulu. They were landed at Napoosoo.

The wood is from a single piece. Originally they were in a single log 33 inches square and 12 feet in length. The single piece was found to be too heavy for the steamer people to handle, so it was divided into two pieces. A Jap sawed the log in two and 9 hours were required for the work, so hard was the wood. The sawing was done lengthwise, thus leaving the pieces 12 feet in length and about 16 and 17 inches respectively on one side and 13 inches in the other. Two boats were lashed together and used to convey each piece from the wharf to the steamer.

The pieces were landed at the Inter-Island wharf today. They weighed 3,700 pounds and 3,110 pounds respectively. Mr. Wall intends having the wood sawed into boards and highly polished. He intends using it in the construction of a piano.

The Training School work will be in the first, third and fourth grades.

The faculty of the school is composed as follows: Edgar Wood, principal; W. T. Pope, Ira G. Eskew, C. A. MacDonald, Sam R. Dowdle, Carrie M. Pierce, Lilla G. Marshall, Nina J. Adams, Mabel Dryer, Edna Horner, Charlotte Stewart and Agnes M. Tuttle.

MATTOX DEVELOPS.

Millett's Opponent in the Boxing Match Makes Good Showing.

While at the outset it was generally whispered that Millett would have an easy victory over Mattox on Saturday evening, public opinion is now more decided. Very favorable reports have come from those who have watched Mattox work out. He is said by those whose opinion is apparently unbiased and certainly of value, to be fast and clever. He is young and strong and undoubtedly has the grit to stay.

Millett is sparring every day and is not letting the fight be lost by over confidence. He has the disadvantage of a couple of inches but his reach is unusually long. The contest will be a keen one whoever wins.

Harris is announced as eager to challenge the winner and Latham if he wins his bout will challenge Harris. It is said, so that there are four possible contestants for the championship of Hawaii among Saturday's boxers.

ELECTRICITY AT PIONEER.

LAHAINA, June 5.—As the Pioneer Plantation was one of the very first in the field, when the sugar industry was inaugurated in these islands, it is eminently proper that it should lead the way in introducing electricity as a motive power for the sugar-making machinery. A commencement has already been made, at the Lahaina pumping station in the southern part of the town. An electric engine of 185 horse power is now in successful operation. The machinery was manufactured by a firm in Holyoke, Mass. With the abundant supply of water, which will be available next year, the electric plant will be enlarged, and it is probable that steam power will eventually be abandoned altogether, on this plantation.

**STAND BY
FILIPINO WIVES**

ARMY OFFICERS COMPELLED TO RESPECT MARRIAGES CONTRACTED IN THE ISLANDS.

LEAVENWORTH, Kan., May 20.—Wedded, as he supposed for the time only, to a Filipino wife, at least one Fort Leavenworth army officer has found his foreign matrimonial alliance an insurmountable barrier to his marriage to a Leavenworth girl to whom he was engaged before his transfer to duty in the Orient. Worse even than this, the Filipino wife has recently arrived in San Francisco and is reported to be preparing for an immediate trip to Fort Leavenworth to claim her recent husband.

The War Department's recent ruling as to officers who married Filipino women is a blow not to one man alone. At least six officers at Fort Leavenworth are similarly situated, and others are scattered throughout nearly every other military post in the United States. Even the enlisted men are much perturbed by the new order.

Many of the officers in particular are well known to have taken native wives during their stay in the Philippines, on the theory that the contract was to continue only during their stay in the islands. When their commands returned to this country these women were abandoned without a thought that the ceremony would be considered binding here. Numbers of the army men are engaged to American girls and have been looking forward for years to marrying them as soon as reassigned to posts on their native land.

OLD AGE PENSIONS.

It has often been the province of the Star to point out what is being done in Anglo-Saxon communities of the South. There is no doubt but that they are a peculiar people. They live under peculiar climatic conditions, they have been a very isolated people, their bone and sinew, and more betoken, their best minds have been drawn from curious and extraordinary beginnings, but undoubtedly the Australian and New Zealand colonies of Great Britain have produced a race which is of a remarkable fiber, and which has given forth a sort of men who have met questions which we, in the United States, fear to tackle. It is not that these Southern Anglo-Saxons and Kelts have actually solved many problems which bother us, but they have taken the problems in hand and have done their best, in practical way, to meet them. They may fail, they may make mistakes, but they go to work and they mean business. When the Commonwealth of Australia has decided, as it has done, that it shall be a white Australia, all colored races may make up their minds that the Australians mean what they say. The Australian has shown himself a fighting animal and he means to back up what he says, by force of arms, if necessary. He cares nothing what other branches of his race may do.

But it is not upon the aggressive side of the Southern Kelt and Anglo-Saxon that one would ask a world student to look. It is rather upon the economic and social development. Questions which are still in the air, the mere filmy theories of visionaries in the United States and in Europe, are met and in the process of solution among these aggressive colonists.

The last mail from the south of this ocean, or as some prefer to call it, the Southern Ocean, brings an exhaustive consideration of the "old age pension" subject. Every European country has considered the matter, and outside of Denmark, has shied at it. Many states in the Union have had their statesmen figuring upon the matter, but neither wealthy European kingdom or principalities nor astute states of the Union, have seen their way to consummating plans. Both the Australian Commonwealth and the Colony of New Zealand have met and solved the question. In New Zealand the number of old age pensioners at the end of March was 12,537. The pension allowance is \$2 a week in New Zealand and \$2.50 a week in New South Wales, and in both places the pensioner is allowed to make an income which will supplement his pension up to \$5 per week, beyond that sum there comes a reduction of the pension. An old age pension becomes payable after 65 years of age in both colonies. In Australia the number of pensioners reported recently was 26,013.

It is natural that one of the things connected with such a system is the protection of the states from fraud. During the first months of the working of the act many rumors were afloat as to the abuse of the system, and it was claimed that persons in possession of large property or who were disqualified by residence, previous history or present habits had been granted pensions. Naturally those who were supporting the act and believed in its working felt that confidence must be thoroughly inspired among the people, that the provisions were properly carried out, or the plan would have to be abandoned, and the people would refuse to tax themselves for the purpose.

The Australian Commonwealth is no more free from ill-tongued rumor, than any other part of the globe. Complaints were made in the public press and to pension board as to abuses. The members of the Board very properly hunted each case down, using the aid of the police which was at their disposal. A typical set of cases are cited in the report. Twelve persons in a district were said to be ineligible on account of possession of means, drunkenness, etc. It was found on examination that three persons were not pensioners, four alleged drunkards were of perfectly temperate habits, and those stated to have means, came within the rules of the act. This is typical set of cases, and shows how carefully such an act has to be guarded.

It is satisfactory to see these rising communities devoting their attention to not only the obtaining material prosperity, but recognizing that the state owes a duty to its poorer citizens, and providing for those who are unable to work for themselves. The essential idea in these cases is the absence of charity. The old age pension is a case of right not of charity. It is just as much the citizens' right as a pension is the right of a soldier or a sailor. It is the self-respect of the aged which is preserved, but which purely charitable institutions so often wound. One cannot refrain from honoring communities which deal with such questions in so liberal and so sensible a manner.

YALE TIRES OF GREEK.

The study of Greek has now been overthrown in one of its most formidable strongholds, Yale university. The vote in favor of taking it from among the required studies for admission, after 1904, was overwhelming, which in itself is an interesting fact, in view of the well-known conservatism of the Yale faculty. The extension of the elective system in the freshman year is also notable, but not hasty or reckless. It is Yale's policy to let other institutions do the pioneer work of experimentation, and to follow along only so far as the results elsewhere seem to justify breaking away from old systems and traditions. Thus Yale keeps progressive, if a little slow, but is never radical. It is hard to quarrel with such a policy, however true it may be that some institution must do pioneer work and run the risk of costly experimentation.

FLORIDA HOT AFTER A JUDGE.

Both houses of the Florida legislature have adopted by a large majority resolutions asking Congress to impeach Judge Charles Swayne of the United States district court of the northern district of Florida. It is asserted that he does not reside in his district, as required by law, that he is incompetent, and that he is susceptible to corrupt influences and has been corruptly influenced. His friends deny the truth of any of the charges, and say that the action of the legislature grows out of old political animosities. Judge Swayne is a republican and has been on the federal bench many years. Ten years ago the Florida legislature adopted similar resolutions, but Congress paid no attention to them.

The old land case which it is sought to reopen in the Supreme Court brings out a curious linguistic phrase. The question is whether there is any word in Hawaiian which distinctly means daughter. It apparently has never struck any one before that the Hawaiian word "Keikimahi" means girl and might not mean daughter. It is certainly hair splitting, but it will be argued out with much solemnity by the lawyers. The same objection might be brought against a document in French where the word "fille" is alike applicable to a daughter or to a girl.

The knowledge which has been steadily acquired here at the experiment stations both that supported by the Federal Government, and that which has for years been carried on by the planting interest, is now very thor-

oughly appreciated throughout other tropical and semi-tropical countries, and experts from the Territory of Hawaii are sought for. Queensland had to come to Hawaii for a cane growing expert, and now Peru is asking for a man trained at the experiment station to give advice upon soils.

The legal fight over the county act is likely to be a long one. Our own courts will be exhausted and then there will be the United States courts to go to.

An extensive program has been prepared for the Summer school, which will enable teachers to take up special lines of work for their own benefit. The Summer school is entirely voluntary in the Territory, though some states make attendance obligatory. Since its establishment the Summer school has grown

In popularity among the teachers, who find it very helpful in their work. To make the summer school obligatory upon all teachers would have a narrowing effect, for a trip to the mainland, among other scenes and among fresh people probably does more good than a continuous application to books and lectures.

The House and the courts had a little spat yesterday, which was, however, quickly arranged and the information required by the Circuit Court was finally given.

The floods have not quite finished their threatening attitude. St. Louis is still menaced though it has been able to withstand up to the present. It must be most trying to the nerves to know of what great destruction has been wrought in Kansas, and then to watch the waters daily increasing about the lower part of a city, as they are doing at St. Louis.

The Kansas loss by floods must indeed be enormous. The railroads claim a loss of \$10,000,000, the packing houses and manufacturing claim a like amount, and then there is the private loss to be calculated. Kansas will feel the blow for a long time.

The House made very little progress yesterday. Indeed the legislative proceedings are so long drawn out that the bulk of the community has completely lost interest in them. Even the faithful band of listeners on the back seats has dwindled down to a corporal's guard.

The President's holiday trip, so-called, has been for the most part very much of hard work, and he must regard his return to Washington in the light of a rest. Official functions day after day are very trying.

Now the Jews are not to be allowed to own real estate in certain parts of Russia, this is only a prelude to a forced sale and general spoliation of the richer Jews. When one compares Russian methods with regard to Jews, with the manner in which Jews are treated by the Turks, one must credit the Moslem with being more Christian than the Orthodox Russian.

The Republican state conventions continue to roll up the tide in favor of Roosevelt. There is now absolutely no doubt about the nomination, and the mass of the people are firmly imbued in favor of the present executive.

When in the course of human events it becomes necessary for us to gracefully place our feet on the elastic neck of the "fake," we, as loyal followers of upright conduct, do so enveloped in a large smile of satisfaction. Not with the evil idea of suppressing the "fake" article for if it is allowed to exist it not only suffers by comparison with the real thing but also enhances the value of the genuine. Now, for instance, place side by side the real and the "fake." Take any two articles of known value. As an example any closet in the world and the Douglas Patent Closet. Comparison? There is one but oh my! Bath handles the Douglas.

Hackfeld and Company. It was soon apparent that if there was any possibility of rescinding or modifying the order it would have to be accomplished through Washington channels. Captain White politely informed Mr. Klebahn that it would be impossible to disregard the order. The order was very explicit and as commandant of the Naval station, Captain White would have to execute it.

As the result of this interview with Captain White, it was decided to communicate by cable to the Departments of Commerce and the Treasury and ask that they bring influence to bear on the Navy Department for at least an extension of time, in the enforcement of the order. The Customs and other

SENATE STANDS FOR A SUBPOENA

Discussed Attempt Circuit Court To Compel Attendance of Clerk—
Said He Ought To Obey Subpoena.

The Senate held a brief session this morning and practically all of that time was occupied with a discussion of the advisability of W. A. Savidge, the clerk of the Senate, responding to the subpoena of the Circuit Court and producing the journal of the Senate. No definite action was taken by the Senate.

The clerk read a communication from the House regarding the query by the Senate as to what disposition the House had made of the Senate amendments to the House's six months' current expense bill. The Senate was informed that the House had postponed the consideration of those amendments until today.

The eighteen months' appropriation bill was up on third reading, but before the bill was considered, President Crabbe introduced the question of the subpoena having been served on the clerk of the Senate. President Crabbe stated to the Senate the circumstances of the clerk having been subpoenaed yesterday by the Circuit Court and ordered to produce the journal of the Senate to be used as evidence in the case to determine the constitutionality of the County act. President Crabbe said that he had advised the clerk not to obey the summons, but that when Savidge had been given twenty minutes in which to produce the journal or else be subject to contempt proceedings, Savidge had gone to the court. The President asked the Senators for their opinion regarding the situation.

Senator Achi said that the President and clerk of the Senate were the custodians of the Senate's journal merely as private citizens, and he would advise them if they were subpoenaed to answer the summons. Senator Achi also raised the point of order that any discussion of the journal of the regular session should not be made at the extra session. The chair ruled against this point of order.

Senators McCandless and Dickey also spoke on the matter. The general sentiment of the members of the Senate seemed to be that the clerk should obey the summons of court. No vote regarding the matter was taken and so instructions were given him however.

The consideration of the appropriation bill was then taken up. On motion of Senator McCandless, seconded by Senator Nakapahu, the consideration was postponed until June 9 in order to await some action by the House. On motion of Senator Dickey, seconded by Senator McCandless, the Senate adjourned until next Tuesday morning at 10 o'clock.

AS TO THE VALUE OF LEASEHOLDS.

The Supreme Court Lays Down Rules For Their Assessment This Morning.

The Supreme Court with Perry partially dissenting this time, rendered a decision this morning making a considerable reduction in the taxes of Lam Wo Sing's rice plantation at Waikiki. Sing appealed from the tax assessor's valuation of \$19,621 on some leasehold interests which he returned as of no value, and the tax court set a valuation of \$9,000. The Supreme Court, by Frear and Galbraith, cuts it to \$2,000, while Perry says that the value is nothing. As to other property valued at about \$40,000 no contest was made.

The syllabus says:
"A leasehold interest cannot be arbitrarily valued for purposes of taxation of fixing the value of the land without the lease and deducting therefrom eight times the annual rental supposed to be the value of the lessor's interest."

"The value of a leasehold varies with the length of the term of the lease as well as with the income derived therefrom."

"An assessment of unreturned property is held unappealable."

examinations can be made. That the steamship companies will not and cannot afford to hold their vessels for any such operation, is positive. The vessels are mail boats, some under a mail subsidy, and they are required to make time according to a regular set schedule. To have to tie up the vessels for an indefinite period while the immigration officials are examining the immigrants, is ridiculous. This seems to be the only solution of the difficulty until some other quarters for immigration station could be secured. What the steamship would probably do would be to wait until their cargo was discharged and then sail for San Francisco whether all of the immigrants had been passed or not. Such an arrangement would cause no end of confusion and trouble.

By having to abandon the wharf, Hackfeld and company will be put to an additional expense of securing and equipping new detention quarters. On the wharf is located Dr. Cofer's fumigating plant. This is one of the best equipped plants of the kind that can be found. It is a very necessary part of the equipment for this port. Should the plant have to be removed from the wharf, it will mean that no steamer passengers could leave Honolulu until the fumigating plant had been set up in some other place. No tickets can be issued to steamer passengers from this port, under the present health conditions, unless the baggage of the steamer passengers has been fumigated by the quarantine officials. All of this work would have to be done.

Practically all of the fumigation of outward bound sailing vessels is done at the Channel wharf. This part of the work would have to be discontinued if the plant is to be moved. There is a fumigating scow also used by the quarantine department but this scow could not do all of the work necessary. Fumigation of vessels would have to be delayed considerably, as the material part of the fumigating done at the wharf, would be discontinued. Dr. Cofer says that at least ten days time would be required in which to remove the plant from the wharf. He has already notified the Marine Hospital service in Washington of the order to vacate. He says that when ordered to do so he will have to look about for other temporary quarters for the fumigating plant. Until such site can be secured the work of his department will be seriously crippled.

In addition to these features of the order, the revenue from the wharf will be lost to the Territorial government. The Navy department evidently intends to take possession of the structure. The Navy Department bases its right to take the wharf on an iron clad agreement that was entered into between Captain Merry the commandant of the Naval Station and the Territorial government about three years ago. There is some misunderstanding between the Territorial government and the Navy Department however regarding this matter.

The wharf was built about plague time. A portion of the mauka side of the wharf had to be located on the Naval reservation proper. Reports vary as to the extent, some saying that it was ten feet and others, 20 feet. Permission was given the Territory to construct the wharf but with the understanding, that the Navy Department had the right to take the wharf over at any time that it saw fit. The Department takes the ground now, that the wharf is entirely on the Naval reservation property for, under riparian rights, the Navy Department claims to control all water and land to the harbor line. Captain Fuller the harbor master has been notified by Captain White that on and after June 12 no more vessels are to be taken to the quarantine wharf except by permission of the naval station officials.

The exact reason for the Navy Department desiring to take possession of the wharf is not clear. The order throws no light on the matter. Those who are acquainted with some inside facts regarding Sargent's visit to Honolulu are of the opinion that it was due entirely to the high handed manner in which he attempted to run things over the local naval authorities, that has led to the latest action by the Naval Department. Sargent announced that under an act of Congress he was empowered to select a site on the naval reservation for an immigration station. With characteristic vigor of manner and action, he gave out the impression that he was about "it" and that he could annex just about what he pleased of the Naval reservation, in the vicinity of the Channel wharf. In fact his manner rather indicated that he thought he could run a bluff on the local naval officials.

Nothing of the action of Congress in taking a part of the reservation seems certain. The Navy Department was acquainted with Sargent's statements and very promptly sent an order to Captain Rodman directing him not to allow Sargent to erect any buildings on the reservation. The Department has evidently decided to clinch matters by taking over the entire wharf and firing out everybody who might in one way or another, be disposed to dispute the title of the department to the reservation and wharf. The reason Dr. Cofer and the immigration people have been ordered off is because they are tenants under agreement with the Territorial government and the Territorial

government was explicitly named in the order. Sargent established his temporary immigration quarters through agreement with Dr. Cofer and the territorial officials.

That the Navy Department is directly striking at Sargent seems certain. So far as the other departments and tenants of the wharf are concerned, there would probably never have been any complaint against them, had not Sargent tried his high handed game.

Pressure is being brought to bear in Washington however to try and have the order modified or at least extended. The enforcement of such an order would work a hardship and inconvenience to the port and efforts will be made in more than one quarter, to at least secure some compromise.

AND PROVIDES PENNIES.

Superintendent McVeigh of the Lep-
er Settlement has exchanged the Kala-
kaua silver. The exchanges were affect-
ed at the settlement store, by holding
up all the Hawaiian coin presented
and giving out American money. The
old coins were brought to Honolulu,
furnigated and redeemed the same as
other money. It is thought that prac-
tically all of the Katakaua money at
the settlement was taken in, the
amount being about \$3,000.

The Superintendent also took five
thousand pennies to the settlement, at
the request of the lepers, who wanted
a quantity of the small coins. The
money was needed for making change
at the settlement store.

COURT NOTES.

James Love, spendthrift, has asked
the circuit court that the resignation
of George A. Davis as his trustee,
presented some time ago, be accepted,
and that the Henry Waterhouse Trust
Company be appointed in Davis' place.

A joinder in demurrer has been filed
in the suit of Antonio Joaquim Da Es-
trella vs. Charles M. Le Blond. This
is an action for damages by a client
against his attorney for neglecting his
interests in court.

A motion to set for hearing has been
filed by plaintiff in the partition suit
of Kaahi vs. Niau Iaukea et al. There
are five firms engaged in this case.

Samuel Kallimail of Puueo, Hilo, ad-
ministrator of the estate of J. Pinao,
late of Alex Oahu, deceased, has filed
his final account with a petition for
discharge. He charges himself with
\$1,827 and asks to be allowed \$1,500 55,
the balance in favor of the estate be-
ing \$235.45.

Kala, Kahi and Kahaleuki have
sued Moses Kelihihulu and others
for cancellation of the lease on a house
lot in Kakaako, alleging that the de-
fendants have violated the terms of the
lease.

MARRIED THE JAPS AGAIN.

There were nine marriages at the
Quarantine wharf yesterday. Nine
Japanese women arrived here by the
S. S. Korea. They claimed they had

migration officials were dubious over
this claim. In order to prove the
truth of the claims a minister was pro-
duced and he testified all nine of the
alleged couples. The women were then
permitted to land.

item was disapproved.

The action on these items finished
the unpaid bills act, and the House ad-
journing to allow time for the prepara-
tion of the complete bill as a report
of the committee of the whole. The
House expects to pass the bill on third
reading tomorrow. The amounts ap-
propriated for the different depart-
ments are as follows:

FESTIVITIES AT KAWAIAHAO

ANOTHER CLASS FINISHES THE COURSE AT THIS VENERABLE INSTITUTION.

The closing exercises of Kawaiahao Seminary were held yesterday at the seminary, King street, opposite Kawaiahao church. There was a large attendance of parents and friends of the pupils. The exercises by the pupils reflected great credit on the Principal, Miss K. C. McLeod, and the other teachers, all but two of whom retire from the institution this year.

A class of five girls finished the course provided by the seminary. These are: Rosa Aki, Samol Akau, Julia Akau, Flora Chaney and Lallie Liffie. The following were the exercises of the day:

Chorus—Scattering Seeds.....
Prayer.....Rev. O. H. Gulick
Scripture Recitation.....School
Hiawatha's Sailing.....

Flora Chaney, Samol Akau.

Recitation and Song.....Primary Class

Piano Solo.....Sarah David

Chorus—Blue Are The Heavens.....

Old Testament Outline.....Lallie Liffie

Song—Tommy Tompkins.....

Primary Class

Piano Solo.....Sarah David

Rip Van Winkle.....Lan Nyuk Ching

Guitar and Piano.....

Martha Oids, Sarah David.

Chorus—Golden Gates Ajar.....

Piano Solo.....Emela Nuuhwa

Recitation—Paso Del Mar.....First Grade

Guitar Solo.....Martha Oids

Chorus—Sunset.....

Physical Culture.....Primary Class

Hawai Poni.....

The musical part of the program re-

ceived the highest credit on Mrs. E. F. Girard who has had the musical instruction of the pupils for the past two years. While music is not a prominent part of the curriculum of the seminary, and only about half an hour a day of each music pupil's time is given to it, Mrs. Girard has aroused a great deal of zeal and enthusiasm among her pupils and both the vocal and the instrumental music of the program was delightfully rendered. The guitar playing of Martha Oids and the piano solo of Emela Nuuhwa were especially creditable both to pupil and teacher.

The exhibit of the pupils in sewing attracted a great deal of attention. This work is under the direction of Miss A. van Angien. The examples of work done by the girls, some of them only little tots was a revelation to one who has not given the subject thought. The primary object of the teaching is the practical usefulness of the art to the pupils, so that primary attention is given to plain stitching, patching, darning and all that sort of thing. At the same time the varieties of stitch and methods of sewing are carefully taught so that the pupil has the command of the most suitable use of the needle for the particular object in hand.

Following the exercises in the school room, there was a concert on the lawn by the Territorial band, and the pupils and their parents and friends visited with one another and enjoyed the music up to about 1 o'clock, when lunch and refreshments were served.

is disposing of them in the eastern market.

When all these payments are made, the ten per cent from the territory the million from the United States and the bond portion, amounting to about \$72,000 in bonds, the trustee will apportion the total amount due to each claimant, issue a trustee's certificate for it, which will be exchanged for a check on the bank on proper surrender in this way a complete record of every transaction is kept.

What is being done now is to separate each claim into the three items of the first ten per cent payment, the million dollar payment and the bond payment. It is in these computations that the abacus is used. These computations consist of additions and subtractions. One may call off the figures, and three men, each with an abacus, makes the required computation almost as fast as the figures can be read to him. Each is an expert with the Japanese computing board or abacus. They all make the same calculations separately. In any two or all three agree, which they almost invariably do, this result is taken as the correct one. The rapidity with which these computations can be made on the abacus is surprising to one not familiar with their use.

As a part of the system of trusteeship under which these claims have been handled, a record is kept of all deaths among the claimants or departures from the islands, either to Japan or to the mainland. All persons taking assignments of these claims are expected to notify the trustee, and where garnishment suits have been commenced, these are noted in connection with each claim. In some cases claimants have written the trustee asking that the amounts due them be sent to Japan to designated relatives there. In some cases the trustee's declaration of trust has been lost, and in some instances where lost has been found and attempted to be improperly used by the finder. There have been double assignments, or assignments to two different people, and these where known are noted in connection with each claim. So that the record the trustee has is a most complete one.

In the great many instances claimants have notified the consul instead of the trustee of matters in connection with the claims. In all these cases the consul has turned over the notification to the trustee.

These records show that of the several hundred claimants, forty have returned to Japan and four have gone to the mainland. Seven are dead, 126 have been assigned to other than Japanese, and there have been found two double assignments. It is expected that within a very short time after the last payment shall have been made by Treasury Agent McLennan, the trustee will be able to pay out to the individual claimants the amounts due them and the whole matter so far as the Japanese claimants are concerned will be closed.

But it is because the Japanese claimants have been handled in bulk that scarcely any Japanese have been seen in the line of claimants at the First National Bank.

ROUGH AT PUNALUU.
The steamer Nihau arrived this morning from Punaluu. Purser Kaes reports that the weather was very rough at that place for some days. The Nihau had to be at Hokena for shelter for four days, before she could go to Punaluu. She went there June 3 and loaded about 3,000 bags of sugar. The steamer Iwakami started for Punaluu two days ago. The schooner Julia E. Whalen had a very bad time at Punaluu. She lost several rafts of lumber and considerable other freight. She had to go elsewhere along the Kau coast for shelter.

SIMS WAS ARRESTED.
W. R. Sims was arraigned before Judge Wilcox this morning on a charge of larceny in the second degree. Sims was accused of taking two pictures belonging to Mrs. Mary A. S. Rose who is his mother-in-law. The pictures were of Sim's wife. The case was continued until Monday.

THE WEATHER.
Weather Bureau, Punahou, 1 p. m.
Wind light, southwest; weather clear
Morning minimum temperature, 66;
midday maximum temperature, 82; barometer, 29.98 steady (corrected for gravity); rainfall, 24 hours ending 9 a. m., .00; dew point, 9 a. m., 66; humidity 9 a. m., 71 per cent.

IS HE DEAD?
A queer question of law arises in an Alabama county. Two weeks ago, runs the story, a negro was hanged for murder in due process. The body was cut down and pronounced dead by the physician attending, and was then turned over to the relatives, who took it away. They observed signs of life in it, whereupon a physician was called in, who applied restoratives, and the man came back to his former existence, in which he now abides in health and strength. The question is whether the law can again lay hands upon him for that crime, since officially he has paid the full penalty, and stands as dead in the legal records of the case. Nothing has been done looking to his rearrest.

ENTERTAINMENT.
The Imiola Dramatic club of Waiakamilo will render its Hawaiian hula and gableau in the Orpheum next Thursday June 11. Tickets will be on sale June 9 at the Orpheum. H. Huka, manager.

**Keep
Cool**

In hot weather there is nothing so refreshing and delicious as a glass of our soda. Soda to be good must be made right, served right and taste right. There is a vast difference in quality. People walk several blocks to get our soda. There's a reason for it. They are sure of a delicious beverage not a lukewarm, sloshy drink. Ours has vim, snap and fizz that makes soda popular.

Our water ices seem to take the popular fancy. We serve a different one every day. These are made from fresh fruit.

We have a large store and large soda counter. Don't feel that you must hurry. Make our store your headquarters when down town. We have plenty of chairs. Use them. Use our telephone, leave your packages here while shopping. Remember, we cordially invite you to do this and are pleased when you make use of our store.
