Legion Announces Armistice Day Plans

Horse Racing and Cowboy Sports Will Again be Features of the Day

STEER TYING TO BE REPEATED

Free Transportation to Waipouli Will be Provided to the Patrons

Complete plans for the American Legion's Armistice Day celebration were announced last week by Dr. T. L. Morgan, general chairman for the day. It is the plan of the Legion to follow along the same lines as the celebration last year. Horse racing, cowboy sports and steer tying to be the main features of the day.

According to the advance dope the big races of the day will be a mile race and a three-quarter mile race. It is rumored that Bridge-player and her former stable mate Gold Brian will oppose each other in these two classics. The rumor states that Honolulu men are backing Gold Brian to take the measure of Fernandez' mare in these races. These two races alone are enough to cause all lovers of the sport of kings to travel a long way to take them in.

The cowboy sports that caused so much amusement last year will again be repeated, but there is a movement on foot among local plantation boys to limit the mounts of the cowboy horses. This would bar the Waipouli team which has always used polo ponies in these events. Whether or not this regulation will go through is difficult to say.

The steer tying is causing unusual interest and all the cowboys are out to take the championship away from Hanalei this year. Princeville took first and second places last year and they are out to maintain their supremacy. Last year the entries were limited to six men but the interest has grown so much that the Legion is forced to increase the number of entries this year to at least eight. Last year's entries included Kainipau, who won the championship with the time of 37 seconds flat. William Lindsay, who took second place, William Purdy, who captured third prize; Charlie Huddy, the Makee entry, John Malina the Lihue entry, and William Kapahu Lili, who represented Kekaha. There is no doubt that every one of these men will be entered this year and at least two new entries are expected.

Entries for the steer tying and cowboy team events are now open and will be received by C. A. Baggott who is in charge of these two events. The entry fee for the steer tying will be \$25, while the fees for the cowboy sports will be \$5 per man. It is essential that all teams that are planning to enter get in touch with Mr. Baggott as soon as possible so that he can plan the heats, etc., in the different events.

J. M. LYDGATE GOING TO HONOLULU FOR TREATMENT

J. M. Lydgate, who has been seriously ill for the past month, is leaving for Honolulu tomorrow evening where he will take treatment. He will be accompanied by Mrs. Lydgate and their eldest son, Mortimer.

Martin J. Curran of the San Francisco office of the American Factors, is making a combined business and pleasure trip to Kauai. He is the guest of C. A. Baggott.

TO CELEBRATE

GOLDEN WEDDING
On Tuesday, October 7, Mr. and Mrs. William Hyde Rice will celebrate the fiftieth anniversary of their marriage, and will be at home to all their friends at "Halemani," on that day from 4 to 8 o'clock. No cards will be sent out, but a cordial invitation is extended to all their friends to join in celebrating this happy event.

KAPAA NOTES

The family of Dr. S. Y. Chang, local dentist, was increased fully one hundred per cent last Tuesday afternoon. The stork presented Mrs. Chang with twins that day, both girls, and the doctor has been busy the past week passing double shares of cigars around. The twins have been christened Katherine and Kathleen.

Democrats, Republicans and others held a joint meeting here last Friday evening to make a final effort to convince the voters of their qualifications for the jobs they are seeking. Among the speakers were M. G. Santos, S. E. Lucas, J. Hoopale, M. R. Aguilar Jr., James Werner, M. S. Henriques, J. Manoa, K. Waiwale, Sam Kaahu, John Kealoha and J. Scharsch Jr.

Antone Souza, homesteader, had the misfortune of having the windshield of his Dodge car smashed just before the Makee-Makaweli game on Sunday. Yoshida, during batting practice, drove a long fly straight for the car in left field. Mrs. Souza, who was in the front seat, received several bad cuts on her face by the flying glass.

Prohibition Officer J. Bettencourt Jr. reports the discovery last week of a still, 50 gallons of mash, an empty barrel and a bottle of oke at Waimea valley, the alleged offender, who gave his name as Ah Tim, being fined the usual rate of \$100 and costs.

Mr. and Mrs. Arthur Wong were hosts at a dinner last Sunday evening given in honor of Arthur's father, Wong Feart, in celebration of the latter 59th birthday. About 25 guests attended and all reported a good time.

Sunny K. Hung, mechanical dentist and sports writer of the Honolulu Advertiser, with Kenneth Mau of the Home Insurance Co. of Hawaii, are paying their respects to Dr. Chang. They arrived just in time to share in the passing of the cigars.

Miss Bernice Hundley, supervising principal of Kauai high school, departed last Saturday on the Kinau for Maui via Honolulu. She goes on official business in connection with the Maui Fair which is to be held this week, having been selected as one of the judges of all the school exhibits at the fair. She expects to return next Wednesday.

An analysis of the votes cast in this district last Saturday shows that out of a total of 385 votes cast for four delegates, Lyman received 54 per cent. Out of the 402 votes cast for senator, Rice received 48 per cent; and of the 1363 votes for representatives on the Republican ticket, Kawaihau candidates were favored with 57 per cent. Lyman's strength in this district was apparent before the election, but that he would poll more votes than all the other candidates combined, and beat Wise two to one, was not expected. Charles Rice was expected to beat Kahuu. Kaiu as predicted, lead the Kawaihau candidates for representative and the other finished as predicted, except that Young showed more strength than Meheula, getting second place.

Dr. Tai Hee Dang, a graduate of Northwestern University, Chicago, is visiting Dr. and Mrs. S. Y. Chang. Dr. Dang is a Hanapepe boy and is one of the proteges of H. H. Brodie, principal of Hanapepe school. He graduated in 1921, but has been serving as an instructor at the dental clinic of the university returning to Honolulu last month. He expects to go to Honolulu shortly to practice his chosen profession.

C. K. Ching, representative of the Consolidated Amusement Co., film service, arrived this morning to confer with the managers of the different amusement houses of Kauai.

RUMMAGE SALE

The Mokihana Club will hold its annual rummage sale on Saturday, October 14, in the Lihue teachers' cottage.

MR. AND MRS. WM. HYDE RICE TO CELEBRATE GOLDEN WEDDING

Mr. and Mrs. William Hyde Rice are celebrating the 50th anniversary of their marriage with an old time Hawaiian luau, on Tuesday, October 17th, from 4 to 8 o'clock. Although no special invitations are being sent out, Mr. and Mrs. Rice hope that all their friends will be there to help celebrate the happy occasion. It is a remarkably unique event, and one of interest all over the islands.

Mr. and Mrs. Rice have spent the whole of their married life on Kauai, always making their home at Hale Nani, where their hospitality has been a beautiful feature of the island life. The interests and welfare of Kauai have always been foremost in their hearts and they have always been particularly interested in all that pertained to the betterment of their Hawaiian friends.

William Hyde Rice and Miss Mary Waterhouse were married in Honolulu on October 17, 1872, by the Rev. Mr. Damon. Of their wedding party of four, the two bridesmaids, and one of the groomsmen will be with them next Tuesday: Mrs. C. M. Cooke Sr., who was Miss Anna Rice, and Mrs. Rice's brother and sister-in-law, Mr. and Mrs. William Waterhouse. Mrs. Waterhouse was at the time Miss Lela Smith. The other groomsman was the late Luther Wilcox.

Although many happy and memorable events have been celebrated at Hale Nani during the past fifty years, the celebration next Tuesday will be the happiest and most memorable of all. The aloha and warm congratulations of their numerous friends all over the territory will be extended to Mr. and Mrs. Rice on this occasion.

DeKay Completes Educational Campaign

INTENSIVE WORK IS CARRIED TO ALL PARTS OF THE ISLAND

Rev. Geo. H. DeKay will leave tomorrow night for Honolulu after a campaign of education and publicity concerning the prohibition law which pretty completely covered the island and which sounds quite like a strenuous one, as given to the Garden Island by Rev. R. W. Bayless who, with Rev. R. G. Hall of Koloa, was responsible for bringing Mr. DeKay to Kauai.

Just before leaving, Mr. DeKay said that he never found so completely planned and intensive (not to say extensive) a program arranged for him anywhere.

Beginning within two hours after he landed at Nawiliwili and continuing until Tuesday night he has spoken in all thirty-nine times to more than 3,500 people, old and young. He has given 19 school talks to over 2,350 pupils in seventeen schools, to more than 500 children in Sunday schools, and has held meetings in churches and before various bodies of representative people of the island.

Several meetings were held with plantation laborers at which he met and talked with leaders of the Japanese and Filipino laborers, speaking thru interpreters. Several thousand leaflets printed in Japanese were distributed, and several articles published in the Japanese press.

One meeting was held with the Welfare Association at which he gave statistics which will be found elsewhere.

The meeting at the Tip Top theater on Monday night at which Dr. DeKay answered a number of questions put to him was marked by a frankness and sanity of statement and evident knowledge of facts which impressed all who heard him.

The closing meeting will be held tonight when Mr. DeKay is the guest of the Buddhist and Confucianist priests and Christian ministers at a meeting in Waimea and at which he will discuss prohibition as one of the causes in which all may unite who love their fellows and seek their good.

Mr. DeKay expressed his appreciation of the courtesy of the entire press of Kauai in the publicity given in advance to his visit, and while on the island.

"The press and the preachers have made possible a campaign which otherwise could not have been made," he said.

KEKAHA-WAIMEA ROAD TO BE REMACADAMIZED LATE THIS MONTH

Work on the re-macadamizing of the Kekaha-Waimea road is expected to begin this month according to information received from the county engineer's office. About 900 yards of rock have been broken for the crusher and the crusher is expected to start operation the latter part of this month.

PERSONALS

Mrs. Charles A. Rice returned this morning from a few days spent in Honolulu.

J. K. Cockett, of Koloa, returned this morning from a visit to the metropolis.

Mrs. C. M. Cooke, of Honolulu, arrived this morning to visit friends in Lihue.

Arthur H. Wong, of Kapaa, returned last Friday from a visit to Honolulu.

Neil Robertson of Eleale was a returning passenger on the Claudine this morning.

Miss Gertrude McLaughlin, of the Kauai Public Library, returned this morning from a brief visit to Honolulu.

Mrs. A. M. McConnell arrived from Honolulu last Thursday morning to visit with her daughter, Mrs. Heb Case, of Grove Farm.

Y. Shido, prominent merchant of Kapaa, returned Friday after an absence of several months visiting his old home in Japan.

Dr. and Mrs. Cyril Golding of Waipouli, arrived from Honolulu last Thursday morning. Mrs. Golding recently returned from a visit to the mainland.

R. B. Anderson, of the law firm of Frear, Prosser, Anderson & Marx, arrived from Honolulu Thursday last in connection with the final hearing in the matter of the estate of the late Albert S. Wilcox. He returned to town Friday evening.

Ken C. Bryan, director of industrial education, department of public instruction, arrived from Honolulu on the Claudine last Friday morning. Mr. Bryan, in company with Frank S. Pugh, local industrial supervisor, is making an inspection tour of the schools of the island.

W. C. Achi Sr. came over from Honolulu last Thursday morning. As master of the estate of the late Albert S. Wilcox, was called to appear in connection with the presentation of the final accounts, which were approved by Judge Wm. C. Achi Jr., at Lihue last Friday.

Rev. V. H. Kitcat arrived this morning to visit his brother-in-law, William Danford, assistant manager of Kekaha plantation. Rev. Kitcat will be remembered by kamaainas as he was at the head of the Evangelical church in Honolulu about 20 years ago.

G. M. Corson, salesman for Grace Brothers, Honolulu, arrived Wednesday morning and is touring the island in the interest of his firm.

H. H. Walker, F. W. Jamieson vice president and treasurer respectively of the Hawaiian Trust Co., came over from Honolulu on Thursday morning upon business in connection with the A. S. Wilcox estate.

MAJOR W. A. JOHNSON TO SPEAK NEXT WEEK AT CHAMBER MEETING

The principal speaker at the regular meeting of the Chamber of Commerce which will be held at the Waimea Hotel on Thursday, October 19 will be Major W. A. Johnson, U. S. army.

Major Johnson is the engineering officer for the Hawaiian department and the construction of the Nawiliwili breakwater is under his supervision.

The subject of Major Johnson's address will be the Nawiliwili breakwater project in regard to how the appropriation is holding out, the contemplated time for the completion of the breakwater, and some unusual problems encountered in the construction of the breakwater.

Another interesting talk will be given by Forrest J. Dollinger, principal of Kauai High school. Mr. Dollinger will speak on education and dwell particularly on his efforts to introduce technical training into the high school curriculum.

This meeting should bring out the largest attendance of the year for it is rarely that the chamber is so fortunate as to have two such well informed speakers on its program.

Rice and Hayselden Lead G.O.P. Ticket

Wise is Victorious Over Lyman on Kauai, Without Niihau, by 200 Votes

JACK CONEY IS NOMINATED

Gardner Has a Fighting Chance to Defeat John C. Jerves With Niihau Votes

Senator Rice and Puni Hayselden led the way for the other candidates at the primaries last Saturday the Senator piling up the highest vote ever polled by anyone on the island of Kauai, beating the record set by Harry Baldwin at the special election this spring—1356 votes. Young polled 187 and Young was the Senator's total on Kauai.

Puni Hayselden showed his heels to the other candidates for the lower house polling 903 votes. Meheula was second with 842. Coney was third with 746, Jerves fourth with 727 and Gardiner fifth with 693.

Gardiner has a slight chance to defeat Jerves if he polls every vote on Niihau and Jerves polls less than 25. But the chance is a slim one as it is expected that Jerves and Gardiner will run about even on that island.

Senator John Wisc, who relieved the Republican nomination for delegate defeated his opponent, Norman Lyman by not quite 200 votes. Wise polled 865 votes, while Lyman's total was 668.

Lyman carried two precincts, Kawaihau and Wahiawa. His total in Kawaihau was 210 votes while the best Wise could do was 99. Lyman polled 68 votes in Wahiawa while Wise's total was 48. Wise's biggest poll was in the Lihue precinct where he made a total of 221 votes to Lyman's 148. Makaweli gave Wise his biggest percentage as he polled 93 votes to Lyman's 19.

Jarrett was the Democrat nominee winning 144 to 86. Raymond carried and defeated his opponent on Kauai, in only one precinct that of Kawaihau.

Senator Rice gave the best answer to his opponents such as the O Luso, etc., that was possible by piling up three times as many votes as his two opponents combined. Rice carried every precinct by a big majority. Kanahu made his best stand in Kawaihau where he polled 139 votes against Rice's 232. Aguilar received a scattering number of votes over the island making a total of 80.

Although Puni Hayselden was conceded a place on the ticket his showing in the primaries surprised even his most ardent supporters. As could be expected he gathered most of his strength from the Lihue precinct, piling up a total of 335 votes. Makaweli and Kilauea helped him hold his lead with very substantial majorities.

Meheula who ran second high in every precinct and did not make any startling totals in any of them but managed to run well ahead of the average. He piled up his biggest vote in Kawaihau with a total of 159.

Jack Coney's vote in Lihue helped carry him over as he did not poll votes in the outside district as he had expected to. He piled up the biggest total of any of the candidates for the lower house in Lihue by polling 362 votes. This vote gave him third place on the ticket, as far as the island of Kauai is concerned.

Jerves is leading Gardiner for the fourth place on the ticket and is expected to finish ahead of the Hanalei man as they will probably break even on Niihau. Jerves' poll of 150 votes in Kawaihau was one of the big factors in his election. Gardiner's big total was made in Hanalei where he polled 114 votes.

Hoopale, who ran sixth and Mrs. Keilinoi who took seventh place also polled their best vote in the Lihue district. Hoopale's total was 218 while Mrs. Keilinoi polled 197. Three low men, Kaiu, T. Young, and Hamada polled their biggest vote in Kawaihau.

Kaiu, polled 213 votes in Kawaihau. Young polled 187 and Hamada 88. Hamada also made a good showing in Lihue with a total of 71.

Scharsch and Lucas had no opposition for the Democratic nomination. Scharsch polled 86 votes while Lucas polled 49.

TERRITORIAL SECRETARY
VISITS THE ISLAND

C. F. Loomis, territorial industrial and educational secretary of the Y. M. C. A., has been spending a few days on Kauai in the interests of his work and inspecting the county program as it is being promoted on this island. Mr. Loomis finds that the goal of at least one club in every community is slowly being realized. Pakala club, visited Saturday afternoon is typical of the work being done, fifteen members representing three races, met in the community hall under the leadership of F. Hondo. The meeting was called to order and conducted by the boy president; minutes read, roll call and business disposed of. "Qualities that Win," a discussion course on every day problems, was handled by the leader in a manner that would have done credit to a leader of long and careful training. The topic, "Obedience," was presented in an understandable and effective way. Short talks by Secretaries Locke and Loomis were followed by a heated game of hot-hand. The Junior Hi-Y at Waimea was found to have a 100 per cent attendance of its fourteen members and an interesting program outlined for several weeks. Twelve members are planning to secure a truck and attend the older boys' conference in Lihue next Saturday. Similar signs of interest were found in Lawai, Lihue, Kapaa and other points of interest visited.

NOTICE TO VOTERS

I wish to thank the voters of Kauai for their generous support at the polls last Saturday and also to bespeak their continued interest and help at the general election on November 7th.

CHAS. A. RICE.

To the Voters of Kauai:
I herewith thank the people of Kauai for their kind support at the last primary election.

JOHN A. HOOPALE.

To the Voters of Kauai:
I wish to thank the voters of Kauai for the splendid support they gave me last Saturday and trust they will again give that support at the general election on the 7th of November.

D. K. HAYSELDEN.

To the Voters of Kauai County:
I wish to express my thanks for the splendid support given me at the primary last Saturday and to solicit your further support at the general election on November 7th.

J. H. CONEY.

I wish to thank all of my friends for the loyal support they gave me on Saturday, especially the ladies who gave of their time and energy in their effort to put me over the top.

Now that the candidates of the party have been selected, let us all get together and pull for the election of the whole ticket at the coming election.

Aloha.

ROSALIE KELHINOI.

GARAGE TO BE BUILT AT
LIHUE GRAMMAR SCHOOL

A request from the teachers of the Lihue grammar school for a garage at the new school was granted by the board of supervisors last Wednesday. The garage will be built from the material taken from some of the old school buildings that are to be torn down.

A request for a garage at the Koolau school was also received and granted.

KOLOA WATERWORKS
TO BE IMPROVED

The extension of the Koloa water works to include the beach houses was assured yesterday by the board of supervisors when the agreement between the county and the Koloa Sugar Co. was approved.

The pipe lines will be increased so as to carry the additional water and \$900 was appropriated by the county for expenses until July 1st next year.

WAINIHA BRIDGE APPROACH
TO BE MADE PERMANENT

One thousand dollars was appropriated out of the permanent improvement fund by the board of supervisors last week to put in a permanent bridge at Wainiha. The temporary structure that has been serving since the floods of January, 1922, was carried away by the high water last month.

DELCO-LIGHT PLANTS

Whether you want a plant just to furnish electric lights for cottage or camp, or a plant for complete electric light and power service, there is a Delco-Light of just the size you need, insuring dependable service at lowest cost.

We should like an opportunity to tell you how Delco-Light can serve you, whatever your electric light and power needs may be.

DEPENDABLE
DELCO-LIGHT

Dependable Delco-Light is made in 25 styles and sizes—a size for every need. All models have the famous four-cycle, air-cooled, valve-in-head engine; only one place to oil. Over 140,000 satisfied users.

Easy payments if desired. Write for catalog.

PABCOLIN

This is an inexpensive enamelled floor covering which has qualities peculiarly its own. The enamel is baked onto the surface till it is a part of the material, just like the enamel on a high class automobile.

If it is kept waxed to preserve the surface it will wear for years. It will wear wonderfully well anyhow.

We will send samples and estimates.

If you will send a plan of your floor with the correct dimensions of angles and jogs we will send the PABCOLIN all cut ready to put in place.

This splendid inexpensive floor covering is only one dollar a square yard.

The Garden Island Radio Column

By MIKE O'FARAD

STRAY WAVES

Hello, Folks!
Did you see our radio ad?
The mysterious air is getting more
interesting every night. Mr. Mene-
foglio has picked up four radiophone
stations from the mainland. The lat-
est one, KLDB puts on regular pro-
grams, grand opera, 'everything.

One may not like the usual phono-
graph concert, but you don't have
to listen to them. Tune around and
pick up some coast phone and en-
joy some real music.

Mrs. E. Livesey has joined the
radio, fans an dhas her own set at
Kapaa homestead. She tunes in on
the Honolulu programs every eve-
ning and last week picked up
music and talking from California
and Salt Lake City very clear.

The Burbank operator was report-
ing that he had picked up KGU of
Honolulu and was talking about it
hoping someone down here was
listening. Well, he was heard al-
right.

Hello, KDYY of Honolulu! Mu-
tual night came over fine. Suggest
that you sign up Doc. and Bob. as
a regular weekly feature.

Rumored a Kauai resident re-
cently received a small crystal de-
tector radio receiving set. Said ra-
dio set will receive music broad-
casts about ten miles. Owner of this
set is seriously planning to move
his family to Honolulu so he can
hear the broadcasting programs.

The air is full of catter from the
mainland amateur stations. The oth-
er night I picked up radio signals
from an amateur in San Diego talk-
ing to a friend in Roswell, N. M.
This boy in San Diego is laid up
in bed with a broken spine and ra-
dio helps him pass the long hours.

Well, folks, the Giants took the
Sunday game in the World Series
championship again. We were hop-
ing Honolulu would broadcast the
story of each game, but permission
was not granted. But its coming.
We have strong hopes of getting
the news broadcasted: "Ball one.
Strike one, Babe up. Bank, another
homer. Hooray, Yanks now in the
lead.

Wouldn't that sound great coming
out of a magnavox?

Q. I am having considerable with
static. Advise what to do.

A. Eat more fish.

Last week one line in this column
regarding the present day regard-
ing the present day receivers said
they were good for days. This should
have read "years."

Tonight's feature on the air will
be a tenor solo by C. Dan of Tink-
erville, entitled "Tuning, Always
Tuning." (Ford owners special.)

Following this will be a barrel-
tone solo by I. M. Thurston, en-
titled "You may take away my
licker but you can't keep me still."

Intermission for applause.
Next Sunday evening the Poros-
knit Summer Quartet will render
several holy selections.

Next Sunday the radio minister
is going to play golf. Probably Mr.
Wood will tune in the sermon.

Say folks, drop in and see the
Aeriola Sr. radio set. Ideal for the
small family. Requires no storage
battery.

—Give your friend a nice magazine
for Christmas. Send your order to
the K. C. Hopper News Agency, Li-
hue. Phone 22-L.—Adv.

RADIO NEWS

President Harding is a radio en-
thusiast.
A high power radiophone has been
installed in the President's study for
the reception of music, lectures and
conversations.

The ideal aerial for the reception
of radiophone is two wires spaced
six feet apart and one hundred feet
long and as high as you can get it.

The National Bank of Dayton, O.,
has installed a radiophone set for
the purpose of broadcasting financial
programs consisting of financial ad-
vice, stock and bond quotations and
warning of activities of bogus pro-
moters. This will be a sort of an
experiment and is being watched by
other financial men as to the out-
come.

THE LATEST SPORT

Playing games v. wireless is the
latest sport; provided you both have
a radiophone transmitter. Playing
games by radio is fast spreading
throughout the country. Checkers is
the most popular.

Radio now only 25 years old has
changed more rapidly and radically
than any other science.

For a while when a change was
made it was to increase. The sta-
tions being made larger and more
powerful. Some stations occupy an
area of 75 acres. At the present time
the radio sets, both sending and
receiving, are getting smaller and
smaller. It is predicted that in ten
years we will have vest pocket re-
ceivers and tube sending stations for
trans-oceanic and trans-country work
all housed in a small room no larger
than the ordinary office.

NEW POWER TUBES

The three electrode vacuum tube
is now universally used not only for
receiving radio messages and broad-
cast programs but is coming into
more widespread use in connection
with transmission of radio mes-
sages. These tubes are now being
used in the radiophone transmitting
sets for broadcasting and generates
from one-half to five kilowatts of
high frequency power.

It has long been realized that, fol-
lowing out the principles made use
of in the small tubes, it would ul-
timately be possible to construct tubes
of larger power. This realization has
come true. Vacuum tubes capable of
generating 20 kilowatts have been
designed and put to work.

The tube is similar to the small
vacuum tube except that the plate
forms part of the tube wall on the
outside. Rectified alternating cur-
rent is used to operate them.

Banks of these tubes in parallel
will be able to transmit sufficient
energy to operate the great trans-
oceanic radio stations and which
will replace the high power houses
and generating plants in use today.

Eventually these tubes will be in-
creased in size and power and hun-
dreds or even thousands of kilowatts
will be generated. This will mean
the establishment of greater ease in
the electrification of railroads and
long distance transmission of pow-
er by means of direct current.

VETERANS' BUREAU

By means of the navy radio broad-
casting station at Anacostia, the Vet-
erans' Bureau employment service
is broadcasting via radiophone op-
portunities of employment for vet-
erans. Names of the skilled vets are
also broadcasted for the benefit of
the employers.

New Zealand is Famous for its Dairy Products

Maile Butter upholds its fame. It is sweet,
wholesome and appetizing. Gives richness and
zest to food. Bread is a treat when spread with
Maile Butter.

Let the children judge—they'll ask for Maile
Butter on their lunch sandwiches.

Specify Maile Butter when you order.

WAILUA PARK CLEARING TO BE CONTINUED

Two hundred dollars was appro-
priated by the board of supervisors
to continue the clearing and clean-
ing of Wailua park. Only two build-
ings remain on the park premises
and it is expected that these will
be removed shortly.

The Lihue road gang is busy re-
moving the rocks and breaking them
up for the crusher to be used on
road repairs.

COUNTY TO ASPHALT MAHELONA ROAD

The board of supervisors voted
at their meeting last week to as-
phalt the road at Mahelona hospital
from the gate at the government
road to the main entrance of the
hospital.

Three brakes on many cars ~ and one is always set

As much as 20% of the power at the rear or
driving wheels of the automobile may be lost
through the use of an incorrect oil. Too heavy
an oil, or one lacking in certain qualities, acts
as a brake on the car.

The ideal oil is the thinnest oil which will keep
the bearing parts separated, and at the same
time offer in itself the least frictional resistance
to the engine power going to the driving wheels.

This oil, providing it has "oiliness," stability
and purity, will give perfect lubrication and
permit the development of the maximum power,
speed and gasoline mileage of the car.

Zerolene fills all these requirements perfectly.

The Ideal Oil

All bearing clearances decrease under the heat of opera-
tion.

Analysis of Zerolene shows that the differences in its
body at the various engine temperatures, from cold to
operating temperature, follow in close relation the de-
crease in bearing clearances.

For this reason Zerolene oils have at all operating tem-
peratures exactly the required body to splash and flow
freely into the fast-moving, small-clearance bearings to
provide an adequate film of lubricant.

Because of this and its "oiliness," stability and purity,
Zerolene gives perfect lubrication under all conditions
of engine operation, and permits the development of the
maximum power, speed and gasoline mileage of the car.

OLDER BOYS' CONFERENCE
AROUSING MUCH INTEREST

All indications point to a good attendance and time at the county Older Boys' conference to be held at Kauai High school next Saturday under the auspices of the county Y. M. C. A. committee. Older boys from all parts of the county are planning to be present. The program as outlined below assures something of interest stirring every minute. The presentation of the Hi-Y banner for the club having the best record during the past month, is being awaited with keenest anticipation by the various club members. The respective football teams of Koloa and Dogmatory are grooming and drilling for the gigantic struggle at 2:00 p. m. on the day of the conference. Kapaa has challenged Waimea to a volley ball go. Older grammar school boys and boys of high school age are welcome to attend. Notifications should be given Secretary Locke by Thursday.

Conference theme: "Making Good."
8:30-9:00 Registration of delegates.
9:15 Sing Song.
Call to order.
Election of conference chairman.
"Who's Here?"
"Why We are Here."
Appointment of nominating committee.
Appointment of resolutions committee.

Address: "Tests of Strength," R. G. Hall.
Presentation of conference theme: "Making Good." Discussion led by R. L. Killam.

Report of the nominating committee.

Presentation of Hi-Y banner.
Talk: "Why Go to College?" Mr. Vince.

Report of the resolutions committee.
Formal adjournment of conference.
Games: Koloa vs. Dormitory. Kapaa vs. Waimea.

DORMITORY HI-Y HAVE
PARLIAMENTARY DRILL

The members of the Dormitory Hi-Y Club had an interesting and profitable drill in the fundamentals of parliamentary procedure at their regular weekly meeting last Monday. Prof. Wile of Kauai High school emphasized the importance of a working knowledge of parliamentary law by which all gatherings of importance are conducted. Practice in making motions, seconding, laying on the table, moving the previous question and the other puzzlers and embarrassers were demonstrated. Different club members taking the chair until a mistake was made. Several entertaining minutes were spent in what will prove of value to every participant as time goes by.

The initiation of new members followed the regular Bible discussion on school problems. The goat was in fine spirits after his prolonged vacation. Regular ride-around cowboy tactics were necessary for some of the new hands to stick with him. Most of the Dormitory members are planning to attend the Older Boys' conference next Saturday.

THREE-C CLUB HOLDS INITIATION

Four candidates for admission to membership in the Lihue Three-C Club were duly and properly initiated with the solemn and sacred ceremonies of that organization last Wednesday night at the regular weekly meeting. The neophytes were William Achi, Jr., Richard Achi, James Clapper and Merwin Nelson. President Glen Hopper conducted the proceedings assisted by Messrs. Rogers, Bayless and Nelson. The supreme test of integrity and loyalty to the vows of the organization came when the candidate was branded with a red hot iron. The ordeal was met in a most creditable manner by all the victims. The purpose of the club to "Promote clean speech, clean athletics and clean living," and the slogan, "To help the other fellow," were willingly subscribed. Every fellow felt he was getting connected with a world wide movement that had something really worthwhile as its object.

CONTRACTS ARE AWARDED FOR KOLOA COURTHOUSE

Kaui Railway Co. was awarded the contract for the material for the Koloa courthouse that is to be built by the county, at the meeting of the board of supervisors last Wednesday. Honjiyo was awarded the contract for the labor. The bid for the material was \$1800 while the labor bid was \$1,097.

COUNTY COMPLETES SCHOOL REPAIRS

The county engineer reports the completion of painting and repairs on the Elele, Kapaa, Koolau and Hanalei schools, which was started during the summer months. Garages were built at the Elele and Koolau schools. It is planned to extend the pipe line of the Hanalei school to the Rice tank.

KAPAA SCHOOL

The school children held a primary election last Friday and the result showed that Lyman beat Wisc. Dr. Clay, our dentist, departed for Honolulu last week on business and will not return until Tuesday.

Our flag pole was taken down last week, it was just in time as the borer had just about completed their job, and the pole was in constant danger of falling.

Mrs. Golding, who has been visiting her family and friends in California, returned last week and is with us again.

Some of our rooms will specialize in flowers this year instead of vegetables.

Our new sewing room is also being used as a dining room for the teachers. This gives the children an opportunity to learn to set and wait on tables, two arts which heretofore were lacking in domestic science courses.

Mr. Loomis of the territorial Y. M. C. A., was a visitor Saturday.

THE LITTLE MANDARIN SHOP

The Little Mandarin Shop will open on Friday, October 13, at 3 o'clock, at the home of Mrs. I. J. Hogg. This shop will offer you Chinese and other foreign novelties suitable for gifts, such as candlesticks, embroideries, laces, fans, gift boxes, beads, lavallieres and vases.—Mrs. Alma Rogers, Mgr.—Adv.

HAWAIIAN BORN JAPANESE MEET AT PARISH HOUSE

A splendid size and an intensely interesting group of Hawaiian born Japanese young people gathered in the Memorial Parish House last Friday night for the second of a series of social and educational occasions which are to be held during the fall and winter.

The first part of the evening was taken up with games and social and comical stunts to the great delight of all present.

The refreshment committee then issued an invitation to all to sojourn to the spacious lanai where they were amply rewarded with appetizing and refreshing delicacies.

Rev. George H. DeKay, who spent three years with the American soldiers, then related his experiences in transport service on the Atlantic and Pacific. The young audience was thrilled as he described the capacity of some of the larger vessels and the dangers which they were subjected to in the submarine zone. He spoke lofty praise of the high morale and manhood of the American soldiers.

Similar gatherings will be held throughout the year.

TIP TOP-ICS

BETTY COMPSON IN "GREEN TEMPTATION"

Betty Compsen's beauty is displayed in a greater variety of costumes in her most recent Paramount picture, "The Green Temptation," showing tomorrow night at the Tip Top theater than in any picture she has ever done.

As "Gentle," the Apache she is vivacious and daring.

Her "Columbine" in the pantomime dance with Theodore Kosloff is piquant and dainty.

As the Amazon warrior in another striking dance, she is bold and fierce.

In the costume of a Red Cross nurse, she is quiet and sympathetic.

As Paris' most noted actress she is haughty and proud.

At a mask ball given by one of Long Island's social leaders she is the statuesque Grecian maid.

The dancing costumes are gorgeous and display Miss Compsen's beauty and talent as a dancer to a marked degree.

"The Green Temptation" was adapted from the story, "The Noose" by Constance Skinner. Theodore

Kosloff, Mahlon Hamilton, Mary Thurman and others are in the cast.

"I CAN EXPLAIN"

"I Can Explain," is the title of the Gareth Hughes picture which comes to the Tip Top theater on Wednesday 18th. In this comedy-drama which borders upon burlesque, the talented star, who is gifted enough to appear equally at ease in farces as well as in serious stories, plays the part of a browbeaten young man who is a junior partner in a firm, the senior of which is a jealous husband. Whatever the youthful hero does, his partner places a wrong conclusion upon it. He is intensely jealous of his wife. And he catches the hero with her on several occasions. Tiring of having to watch his young partner, the other has him shanghaied aboard a boat sailing for some South American port. There is an exciting time on board—for the persecuted youth is forced to keep hidden and suffer the insults and tortures of his strong, heavy and jealous partner.

Arriving at the port, there is some excitement when the quarantine officials refuse to allow entry to the city. The story follows with a duel between the partners, the younger being vamped by a passionate senorita. In good time he returns to his home town and marries the sweet heart who waited patiently for his home coming. The picture is adequately staged, is acted by a large and competent cast and is said to afford novel entertainment.

"MY BOY"

Jackie Coogan is everybody's boy. He is the most beloved youngster on the screen. And when you see him in "My Boy," you will take him to your hearts. You cannot help it. His appeal is irresistible. Ever since he flashed his precocious talent in the Chaplin picture "The Kid," the public has been eager to see him. So Jackie Coogan with his lovable personality—his juvenile appeal will be the feature attraction at the Tip Top theater on Saturday, October 21. You will see a picture which is marked for its tug at the heart. There is a big slice of sentiment, plenty of heart interest, a note of humor and a wealth of humanity. The little star is supported by a couple of players noted for their exceptional character work. Claude Gillingwater and Mathilda Brundage lend perfect portrayals in their support. Remember Saturday, October 21.

"They Satisfy"

AMERICAN LEGION PAGE

WORLD WAR VETS OF THE ALLIES UNITED

Within the present year a transition has been marked in the life of the international federation of war veterans' associations. It has steadily emerged into recognition as an established organization with potential strength to wield no less an important influence in peace than in war. The federation itself was the inevitable outgrowth of mutual sacrifice in military victories and political defeats for a common cause but its solidarity of organization and its place in the public consciousness were only achieved by determined effort, in which the Legion figured conspicuously.

At the third national convention of the Legion the federation became a reality to American ex-service men, so far as the affiliation with French, British and Canadian veterans were concerned, thru the appearance of representatives from veterans' associations in those countries. Military leaders from Belgium and Italy recalled other bonds of comradeship, but the world-wide organization of service men was still in a rather visionary state, best known probably by the French, who entered into its spirit in their reception of "The Second A. E. F." during a tour designed largely to call attention to inter-allied comradeship.

Then came the second international convention of the federation in Paris in December, 1921. The outstanding achievements at this meeting were the strengthening of the machinery of organization and the reinforcement of the federation's pledge to "maintain apart from political tendencies the bonds of fraternal comradeship forged between allied combatants on the battlefields" with the additional declaration "to strengthen more and more then entente cordiale between allied nations by making the government understand that the veterans ignore the difficulties and misunderstandings of politics and to remain closely faithful to the friendship sealed before the common danger upon the fields of battle." The American delegation, headed by Col. Cabot Ward, first vice president of the inter-allied federation, took the lead in the convention and in a large measure responsible for these accomplishments.

To complete the transition of the federation into a recognized organization in which the Legion would be an active and leading member the third international convention of the Federation Internationale des Anciens Combattants, or "Fidac" as it has become known, will be brought to New Orleans in conjunction with the fourth annual Legion convention.

At the close of these sessions an alliance is expected which will not only perpetuate a fine sense of comradeship but will go far in insisting upon justice in inter-allied relations and permanent world peace.

H. Nelson Jackson, national vice-commander of the Legion, represented the organization at the last national convention of the British Legion and close liaison has been main-

MANY IMPORTANT GUESTS AT LEGION CONVENTION

Organized labor and organized baseball will be represented at the American Legion national convention in New Orleans this October. The convention committee has received word that Samuel Gompers, president of the American Federation of Labor, and Kenesaw Mountain Landis, high commissioner of organized baseball, will appear on the convention program.

Acceptance of the convention invitation by the labor leader follows an address made before the recent national convention of the American Federation of Labor in Cincinnati by Hanford MacNider, Legion national commander. A resolution adopted by the labor delegates instructed Mr. Gompers to appear before the Legion gathering as the representative of organized labor.

In his letter to Commander MacNider, Mr. Gompers said:

"One of the most interesting and pleasurable events of the Cincinnati convention was the eloquent address you delivered. I heard many expressions of commendation of your remarks. You made a deep impression upon the delegates. Personally I want to take this opportunity to say to you that I regard your address as another strong link in the chain binding together the American Legion and the American Federation of Labor."

Mr. Landis, who recently resigned his position as federal judge of the northern district of Illinois to devote his entire time to baseball, has spoken at Legion meetings in all parts of the country and is considered one of the leading advocates of the interests of world war veterans. His son is an ex-service man.

Maj. Gen. John A. Lejeune, commandant of the U. S. Marine Corps, had previously accepted the convention invitation while tentative acceptances have been received from President Harding and General Pershing.

NO TWO SOFT JOBS IN ONE FAMILY

Resolutions against the employment by the government of women whose husbands also are drawing salaries from government agencies were passed at a recent meeting of George Washington post of the American Legion at Washington, D. C. The Legion post named thirteen women, among them Mrs. Caroline Harding Votaw, President Harding's sister. The Legion asserts Mrs. Votaw's husband holds the job of superintendent of prisons, which pays \$4000 a year while she draws \$50000 as head of the industrial service section of the Veterans' Bureau. The Legionnaires hold that one job in a family is enough and the women's places be filled by former service men.

Tainted with the Great War Veterans of Canada, in keeping with the policy of relations with foreign veterans. The number of representatives from foreign veterans' societies expected to attend the fourth annual convention of the Legion is from thirty-five to fifty.

NATIONAL COMMITTEES WEEKLY BULLETIN

The following is an extract from weekly bulletin of the American Legion national committee, week ending August 31:

Retirement of Disabled Emergency Officers

The House committee on military affairs is not showing good faith in handling the Bursum bill, S. 1565, for the retirement of disabled emergency army officers. After repeated promises by Acting Chairman McKenzie, and assurances from Representative Philip Hill and other members of the committee that this bill would be the first order of business disposed of after the House reconvened August 15, this bill was passed up after a little discussion for the alleged reason that a quorum of the committee could not be gotten together. A check of the roll call shows that there were present at the capitol enough members to constitute a quorum. A majority of the committee members have signified their intentions of supporting the Bursum bill, but they failed to get it reported out because of the opposition of Mr. McKenzie who holds with the views of the secretary of war, and opposes this bill. Despite the inability of Mr. McKenzie to get a quorum on the Bursum bill his committee considered and reported out favorably the so-called Anthony Bill, H. R. 12495, which will prevent the elimination of several high-ranking army officers, as contemplated in the army appropriation act of June 30, 1922. The Anthony bill, which will protect these able bodied regular army officers was in committee only a few days, and got immediate consideration and report because it was backed by the secretary of war and the army leaders, while the Bursum bill, for the relief of the disabled emergency army officers, which passed the Senate February 21st last, has lain in committee for six months. Mr. McKenzie informed American Legion officials and others interested in the Bursum bill that the House leaders had instructed him not to send any more legislation for consideration on the floor at this session and that he saw no chance for the Bursum bill before December. His action on the Anthony bill was taken after this statement was made. The Legion department officers receiving this bulletin should immediately call this situation to the attention of their members of congress.

War Risk Insurance

H. R. 12517 has been introduced in the House and referred to the committee on interstate and foreign commerce and provides further amendments to Public Law No. 47 of the 67th Congress, an act to establish the United States Veterans Bureau.

Warrant Officers of the Mine Planters Service

Under the new pay law certain warrant officers of the Mine Planters service were eliminated. Many of these warrant officers have 20

years' service. We have secured the introduction of a bill, H. R. 12410 to have these warrant officers reinstated in the service with the grade and rank they have been holding. Week ending September 7th:

Military Affairs

S. 2515 amending the national defense act providing for the establishment of a warrant officer corps in the organized reserve passed the senate unanimously. In the House the bill was referred to the military affairs committee.

S. 2493, amending the national defense act to conform with the new army pay act. This bill provides for the elimination of a technical discrepancy in the new army pay act and the national defense act, so that enlisted men will continue to receive the pay to which they were entitled during their current enlistment, before the passage of the new army pay act.

H. R. 12493, a bill to amend the elimination section carried in the last army appropriation act. This bill passed the House unanimously and on the same day passed the Senate unanimously. Certain difficulties were encountered in reducing the commissioned personnel of the regular army as authorized by the last army appropriation act. H. R. 12493 gives the President authority to regrade certain army officers, but in no case shall there be on January 1st, 1923, 12,000 officers in the army.

Senate joint resolution 48, authorizing the retirement of certain army field clerks as warrant officers. This bill passed the Senate unanimously and was referred in the House to the military affairs committee.

Naval Affairs

There has been introduced in the House H. R. 12567, providing for the retirement of certain officers of the naval reserve force on account of physical disabilities received in the line of duty, after many years of service; this bill was referred to the committee on naval affairs of the House.

There was also introduced H. R. 12568, a bill for the relief of certain officers of the naval reserve force who were placed on inactive duty on or about the close of the fiscal year ending June 30, 1920. It was also referred to the committee on naval affairs of the House.

As it has been very difficult to keep a quorum of the House of Representatives in Washington, it is not likely that hearings will be had upon these bills until the regular session convenes in December.

Land

House joint resolution 108, mentioned in previous bulletins, providing that provisions and preferences are hereby extended to apply to allowed in public resolution No. 29, those citizens of the United States who served in the allied armies during the World War upon their resumption of their citizenship in the United States, shall be granted the same preferential rights to settle upon the land, now enjoyed by ex-service men of the army, navy and

STATE BONUS FUND FOR HOSPITALIZATION

According to a report received by the New Jersey American Legion, Senator Joseph F. Wallworth of Camden, will introduce a bill in the legislature to have the people vote on what shall be done with the unexpended balance of \$800,000 left after paying the state bonus. The introduction of the bill is contingent on Governor Edwards I. Edwards calling a special session of the legislature. The Legion seeks the special assembly in order that the fund may be used to build one or more hospitals for the care of the sick and disabled world war veterans.

marine corps of the United States. This bill passed the House without a record vote. In the Senate it was referred to the committee on public lands.

Land

H. R. 70, previously mentioned in bulletins, allowing credit for a deceased husband's military service, in cases of widows making homestead entries, having passed the House and Senate, now goes to the President.

War Department Appropriation Act

S. 3704, providing an amendment to the appropriation act of June 30, 1922, has passed the Senate. It provides authority for the War Department to spend \$175,000,000 for field service for the National Guard. The bill when it reached the House was referred to the House military affairs committee. Probably no action will be taken upon it before the next session of Congress convening about December 5.

Aliens

H. R. 12022, mentioned in bulletins heretofore, has passed the House, allowing certain women, married and single, the right to become naturalized citizens regardless of their husband's citizenship. It now goes to the President for final approval.

United States Veterans' Bureau

Senate resolution 347 was introduced on September 12th, authorizing the Vice-president to appoint a committee of three senators to investigate the United States Veterans' Bureau. This resolution was referred to the committee on audit and control of the Senate. No action is contemplated upon the resolution at this time. There is now a select committee of the Senate authorized to investigate or inquire into the affairs of the United States Veterans' Bureau at any time it may deem such action desirable.

House resolution 431 was introduced in the House on September 14th providing for the appointment of a select committee of five members of the House to investigate the conditions and manner of treatment of beneficiaries of the United States Veterans' Bureau in receipt of treatment at Hospital No. 81, borough of the Bronx, New York City. This resolution was referred to the committee on rules of the House.

LEGION TENNIS CHAMPS TO MEET AT NEW ORLEANS

Nationally prominent players from all sections of the country will compete for the tennis championship of the American Legion at the annual national convention of that organization in New Orleans, October 16-20.

The convention tennis tournament will be held in three divisions. Men of the Legion will play for the title in both singles and doubles, while women of the Legion Auxiliary will play for championships in singles only. The tournament will open October 16 on the courts of the New Orleans Lawn Tennis club and will end October 20. Preliminary rounds will be held October 16 and 17, the semi finals October 19 and the finals on October 20. Silver loving cups will go to the title winners in all divisions.

Among those eligible for play in the Legion's net tournament are William T. Tilden, national champion; William M. Johnston, Wallace F. Johnston, Watson Washburn, R. Norris Williams, William E. Davis, Dean Mathy, Roland Roberts and Marshall Allen. These men are shown on the national ranking list of men's singles of the United States Lawn Tennis association as among the twenty best players.

GOBS TO GATHER AT CONVENTION

More than 2200 sailors and 90 officers of the United States navy will come to New Orleans during the American Legion national convention, October 16-20, as the result of a recent order made by Assistant Secretary of the Navy Roosevelt.

The naval men will come with a fleet of one cruiser and six destroyers ordered to New Orleans for the convention. The cruiser Birmingham, flagship of Rear Admiral W. C. Cole, who will command the fleet, has a normal quota of 1000 men and 60 officers. The six destroyers that will accompany the Birmingham will have crews of 200 men and five officers each.

Hydroplanes ordered to fly to the convention from Pensacola, Fla., will include some of the largest models in existence. Their wing span measures 100 feet. All planes will be twin screw equipped with Liberty motors.

Arrangements have been made for the appearance of a band of 20 pieces from the naval training station at Pensacola.

Bearishly Near

"I've been in camp," said one of a group in the local grocer's who were exchanging stories of adventure, "and only came down yesterday. One morning last week I struck a trail of a bear and followed it till about half-past four that afternoon before giving it up."

"What made you quit after putting in a whole day's work?" asked one of his listeners.

"Well, to tell the truth," replied the first speaker, shifting his weight ponderously from one leg to the other, "it seemed to me the trail was getting altogether too fresh."—Harper's Magazine.

NIGHT SCHOOL TEACHERS AND THE COMMITTEES MEET

Twenty-two interested people gathered at the high school last Friday night to discuss night school work and problems.

The urgent requests from several localities for night schools where English will be taught, was the occasion of the gathering. Many misunderstandings arise between luna and laborer because orders and directions given are not understood. A working knowledge of the English language among an increasing number of plantation workers will help in the illumination of some of these misunderstandings.

Representatives from Waimea, Makaweli, Koloa, Lihue and Hanalei enjoyed the dinner and discussion relative to methods, courses and other matters important to night school procedure.

Principal Dollinger of Kauai High school related some of his experiences in the Philippine Islands and on the mainland. C. F. Loomis, territorial educational secretary of the Y. M. C. A. gave a resume of the work of the night schools in the territory, stating that when the war was mobilized at Camp Schofield from the islands of Hawaii that

over 5000 of the 7000 men were not able to speak a word of English. Classes were immediately started and this emphasis has been maintained since the signing of the armistice.

A round-table discussion brought out many helpful suggestions to those who will have the schools in charge this year.

The plan to be followed is a local committee in each community where night school work is being done. This committee is responsible for the enrollment of students, collection and disbursement of fees, supplementary programs and all matters relating to the interests of the school.

Past results secured here and on the other islands, justify any effort and time necessary for the promotion of this work.

Classes will begin this week in Waimea, Makaweli and Lihue.

TO INCREASE WATER SUPPLY AT KAUAI HIGH

Due to the fact that there has been a continued shortage of water at Kauai High school, the board of supervisors voted to increase the water supply and work will be started on a new pipe line for the school.

The University Extension Letter

MORE AND MORE AGRICULTURAL FAIRS FOR HAWAII

September is "Fair Month" throughout the United States. These are gala days for the country folk and for many of their city cousins. Possibly no other institution has done so much to bring together the interests and understanding of rural and urban peoples as have our best conducted state and county agricultural fairs.

Hawaii has a splendid example of these possibilities and opportunities in this direction in the Annual Maui County Fair, the fifth of which is to be held at Kahului on the Valley Isle, October 12, 13 and 14. No finer permanent county fair exists in any of the states of the Union than that on Maui, and none in which the community takes a greater pride.

Nothing has given better evidence of the progress in Hawaii's agricultural diversification and rural institutions, nor more forcibly revealed the trend of our intellectual and industrial life and activities generally than did the territorial fair held in Honolulu several years ago.

Each of the counties of the territory should stage an annual agricultural fair, culminating in a grand agricultural and industrial territorial fair to be held either annually or every few years at the capital city.

Well conducted fairs are not merely expositions displaying farm products and other wares showing the resources and advantages enjoyed by certain individuals and districts which is the more or less mercenary view, but rather a great educational institution for the masses, information in every branch of agricultural practice, in the advances and improvements made in the arts and manufactures and the educational and intellectual life of the communities of the state.—F. G. K.

DRIED PINEAPPLE WASTE AS A HOG FEED

The residue of pineapple in our canneries consisting of those parts of the pineapple which have little or no value for human consumption have heretofore been treated as more or less of a waste product which was disposed of in the least expensive way possible. In out of the city canneries this disposal usually consists in allowing it to accumulate in a convenient gulch back of the cannery, while in the city canneries it has been hauled away and applied to the land or perhaps burned and the ashes used as fertilizer.

A feeding test has just been completed at the University of Hawaii farm which seems to indicate that pineapple waste has a considerable feeding value for livestock.

The dried pineapple waste in this feeding experiment was secured from the Hawaiian Pineapple Co., as a drying apparatus had been installed in their factory to handle a large part of the accumulation of refuse. This material was analyzed by the experiment station of the H. S. P. A. had the following composition:

	Sample 1 Feb., 1922	Sample 2 Aug., 1922
Water	17.82	10.63
Protein	3.65	3.62
Ether extract	0.49	1.01
Invert Sugar	14.20	11.96
Sucrose	7.66	8.70
Starch, etc., (by indifference)	38.18	42.15
Fiber	13.25	18.23
Ash	4.75	3.70
	100.00	100.00

The February, 1922, material was used in the hog feeding test about to be described. The August, 1922, material is in a better physical state than was the earlier material and this is being used in a dairy cow feeding test which is now in progress at the university farm and will be reported later.

The details of this feeding test will appear in the fifth annual report of the agricultural department of the University of Hawaii, but a general summary is given here as a preliminary announcement.

Twenty-nine hogs with an initial weight of 45 pounds each were used in the feeding tests, which were continued for twelve weeks. Green alfalfa was supplied as a roughage in all these tests.

A lot of hogs having free access to any or all of the following feeds balanced their ration as follows:

Rolled barley, 18 per cent.
Cracked corn, 41 per cent.
Dried pineapple waste, 9 per cent.
Wheat middlings, 19 per cent.
Tankage, 13 per cent.

This lot gained one pound in weight for every 3.53 pounds of the feed consumed at a feed cost of 9.64 cents per pound gain when dried pineapple waste was valued at \$20

per ton, and the other feeds at market prices. This test shows that hogs are not particularly fond of pineapple waste and select other feeds in preference when such other feeds are available. However, this is typical of the reaction of the animals to any new feed to which they are not accustomed.

Another lot of eight hogs were put on a mixture containing 30 per cent dried pineapple waste along with 30 per cent wheat middlings, 20 per cent rolled barley, 10 per cent tankage and 10 per cent coconut meal. They could eat as much of this as they liked but every mouthful they consumed contained 30 per cent pineapple waste. In a three week period they averaged one pound of live gain for every 4.07 pounds of the feed mixture contained at a feed cost of 8.9 cents per pound of gain.

After this these same eight hogs were given for three weeks a mixture containing 50 per cent dried pineapple waste, 30 per cent wheat middlings, 10 per cent tankage and 10 per cent coconut meal, and on this mixture they averaged 1 pound of gain for every 3.7 pounds of feed consumed at a feed cost of 7.9 cents per pound of gain.

These results were so satisfactory that the same hogs that had been given this 30 per cent and 50 per cent dried pineapple mixture were again given free access to a number of feeds one of which was pineapple waste to determine if they had acquired a fondness for this feed after being forced to eat it for six weeks. During three weeks they selected an average of only 10 per cent of dried pineapple waste.

This shows that hogs will make good gains on a feed mixture containing 30 to 50 per cent pineapple waste, but they will select other feeds in preference, when available. One test is suggestive but not conclusive. Another similar feeding test is now in progress at Kamehameha schools under the direction of Mr. Borden, and this when completed will either confirm or disprove these interesting results secured at the university farm.—L. A. Henke.

MORE ABOUT DRYING BANANAS

Following the publication recently of Dr. Ripperton's experience in drying bananas at the federal experiment station, some further information was volunteered by W. A. Anderson of Honolulu. According to his statement, S. Miura (formerly with a dehydrating company in Los Angeles) took up the problem some months ago of drying or dehydrating bananas on a commercial scale and succeeded in producing an article believed by a large San Francisco dealer to be marketable.

Miura dries the ripe banana whole which contains a good color and flavor and apparently has good keeping qualities. The dried product is said to weigh about one-fifth as much as the original bunch (including the stem). The cost is stated to be 21 cents per pound, with fresh bananas at 2 cents per pound. This information may be available to others working along the same line. Lets have some more ideas on this.

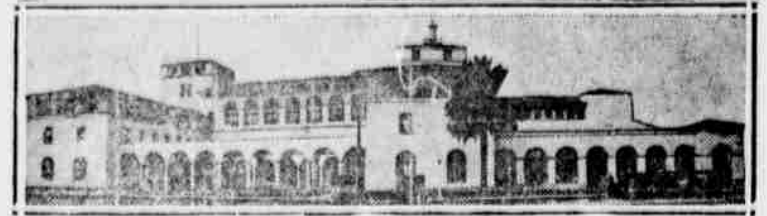

SCHOOL AGRICULTURE

It is far more important to teach children to like agriculture than to teach them facts about agriculture. If a child becomes interested in agriculture the facts will be easily learned as a matter of course. The teacher exerts a great deal of influence on pupils in awakening or retarding interest in agriculture. Thru the school garden, thru nature study, thru pig clubs, poultry, sugar cane, and other clubs of boys and girls, you have the opportunity, feature means awakening and developing real interest in agriculture on the part of your pupils.

Training children toward agriculture means awakening and developing an interest in the subject and leading them to discover many interesting facts for themselves. Actual contact with growing things is even more important than reading and study, although both are essential.

MAINLAND QUAIL IMPORTED FOR KAUAI

The board of supervisors appropriated \$300 at the request of the fish and game commission for the introduction of quail on Kauai. It is expected that about twenty dozen birds will be imported and placed at different places on the island. The plans of the commission were to import a tree roosting quail as a protection against rats.

Make It Your First Choice, Too

The great majority of Goodyear Tire users are experienced motorists.

They long ago learned that it never pays to buy tires of unknown value.

So, knowing the quality of Goodyear Tires, they use Goodyears year after year.

Their confidence is repaid by the service that Goodyear Tires invariably give.

They get the maximum of trouble-free mileage, and they get it at lower cost per tire mile.

They get tire ability—traction, power, safety and lasting resilience—over the roughest and steepest roads.

And, at home and abroad, they get the courteous, capable service your Goodyear Dealer offers you, and sees that you get, whenever you buy a Goodyear Tire.

SPORTS

Makee Trims Redskins On Kapaa Diamond

Lihue Noses Out Scots In Best Game of Year

JONAH HAS BEST OF BATTLE WITH WRAMP, WHO IS YANKED

Playing their best game of the 1922 season, the only game in which they came thru with only one error to mar their records, the Makees downed Makaweli at Kapaa last Sunday and thereby clinched their title to the 1922 flag, provided of course that Lihue cannot get the league to throw out that protested game. If this game is thrown out and Lihue beats Makee, the two teams will be tied for the championship of the second series, but this is very unlikely, as the Lihue protest is not very likely to be sustained. The winning of the 1922 pennant gives the Makees three championships in succession.

The game was a pitching duel for six innings with neither team being able to gain a lead, but Wramp's balloon started to ascend in the last half of the seventh, the champs putting the game on ice by scoring four runs. Hits were few and far between for both teams, Cummings allowing four and Wramp five, but the latter's passes were fatal. Morita's sensational catch of K. Yamase's liner to right center featured the game. So sure were the runners on bases that the ball would go safe that they raced for home at the crack of the bat, but Morita, slow as he is, galloped hard and managed to spear the drive over his shoulder, doubling up Ah Nee on second who had already reached third. A triple play could have been made if necessary, as M. Yamase had already reached home.

The Makees were the first to score. Doi singled in the second and advanced to second when Morita was hit by Wramp. Lyons fanned but Wramp also hit Cummings. Rodriguez worked the squeeze, Doi scoring. The Redskins tied it up in the seventh, Conant's single and M. Yamase's double accounting for the lone tally. Ah Nee grounded to Cummings but both runners were safe when the umpires gave M. Yamase his base because of interference on the base paths. With runners on second and third and none down, it looked like a great chance for Makaweli to get into the lead, but Nakashima fouled out to Morita, and the latter's sensational catch a few minutes later of K. Yamase's liner, doubling up Ah Nee, ended their chances.

The last half of this inning saw the retirement of Wramp and the clinching of the game by the Makees. Rodriguez walked and went to second when Yamase kicked away Wramp's throw to catch him napping. Yoshida hit Umpire Marcallino on the right knee and got a single for his work, Rodriguez remaining on second. Tsunehiro walked, filling the sacks. Soong connected with a timely two bagger to right center, Rodriguez and Yoshida scoring. Wramp retired and Kruse went on the hill. The first ball pitched was a wild heave. Tsunehiro scoring. King flied out to center. Doi grounded to Kruse and Soong scored on a fielder's choice. Kruse then fanned both Morita and Lyons.

The score:

TENNIS

LIHUE TENNIS MATCHES NOW IN SECOND ROUND

The first round in the Lihue Tennis Club's doubles tournament has been completed and only one game remains to be played in the second round.

In the first round Baggott and Spalding defeated Wile and Vance 6-3, 6-1. Bayless and Rice defeated Middleton and Smith 6-2, 6-0. Garlinghouse and Stackhouse defaulted to Case and Jamieson.

In the second round Balthis and Fern defeated Olsen and Scribner 4-6, 6-1, 6-4; and Hopper and Wood defeated Crawford and Longstreth. Baggott and Spalding meet Bayless and Rice, while Jamieson and Case meet Englehard and Lane in the other game.

LIHUE TO MEET MCBRYDE IN TENNIS TOURNAMENT

An invitation tennis tournament will be held at Lihue on Sunday, October 29, the McBryde Tennis Club being the guests of the Lihue association.

Three sets of doubles will be played and possibly three sets of singles. The McBryde teams will be made up as follows: Richter and Kaye, Nunes and B. Galsier and Sinclair and Brehm. The singles will be Richter, Nunes and Brennan.

The Lihue teams have not been picked as yet but will be decided when the local tournament is completed.

VETERANS START PRACTICE FOR THANKSGIVING GAME

The Veterans' team which will oppose the Kauai High school in the second annual American football game on the high school grounds, started practice last week. Although only a few vets were out, it is expected that a larger turnout will be made this week.

The Vets expect to put a strong team in the field this year and considerable strength will be added to the line with Crawford, Christian, Lydgate and King as new men. Sam Carter and Bush are two new men out for the backfield. The Vets will practice on Mondays and Thursdays and any man interested can report to the Lihue field either of these nights.

SOCIAL SERVICE ASSOCIATION MEETS AT LIHUE SATURDAY

The Social Service Association held its first meeting of the fall at the Mokihana hall last Saturday afternoon. Dr. Hagood, the new president of the association, presided at the meeting.

The principal speaker of the afternoon was Dr. Geo. H. DeKay, superintendent of the Anti Saloon League, who spoke on "Prohibition and Its Relation to Welfare Work."

The American Legion communicated with the board of supervisors requesting the board to insure the armory so that in case of fire the armory can be rebuilt, which would not be possible unless the building was insured.

The Wicked Man

Cuthbert had been listening for half an hour to a lecture from his father on the evil of late nights and late risings in the morning. "You will never amount to anything," said the father, "unless you turn over a new leaf. Remember, it's the early bird that catches the worm."

"Ha, ha!" laughed Cuthbert. "How about the worm? What did he get for turning out so early?" "My son," replied the father, "that worm hadn't been to bed all night; he was on his way home."—Pittsburgh Christian Advocate.

KALIHIWAI ASKS FOR A SCHOOL

A request was received from the residents of Kalihiwai for a school to be built at that place. Since the new Kilauea school is located quite a distance from Kalihiwai the residents claim that it is too long a walk for the children. The request was referred to the board of education for action.

NO BIDS RECEIVED FOR THE PUUKAPELE ROAD

Bids were called for by the county for the grading of a unit of the Puukapele road about 1.08 miles long, but no bids were received. The county will construct this unit by day labor as the first unit was constructed.

NEW SCHOOL TO BE BUILT AT ANAHOLA

A request from the residents of Anahola in regard to the new school was read and the board instructed the county engineer to draw up plans for a four-room school building and a teachers' cottage.

D. G. MAY IS GRANTED PAROLE

Governor Farrington approved last Friday the recommendation of the board of prison inspectors for the parole of D. G. May, former treasurer of C. Brewer & Co, who was charged with embezzling \$18,000 in 1919. He was sentenced in 1921 to serve not less than two years nor more than ten years in Oahu prison. Six other paroles recommended by the board were approved by the Governor.

Certain-teed Roofing

All Snug

WHEN the hatches are battened down and all is snug and dry below, it's a grand and glorious feeling. And that feeling lasts just as long as the water stays on the outside of the ship.

The same grand and glorious feeling can be yours if you put your faith in Certain-teed Roofing.

There's a roofing you can put on and forget. It stays on the job because it was made to stay on the job.

That, in our opinion, is what roofing is for.

LEGION VAUDEVILLE

READY TO PRESENT

(Continued from Page One)

that amuse. Jimmy's gift of caricature is well known and by confining himself to local celebrities he is bound to make a hit. Carter and Scribner in their feats of strength will cause a big surprise as it is not well known what capable gymnasts the two local Le-

gionnaires are.

The show will start promptly at 8:15 and the management announces that no persons will be seated while any of the performers are on the stage.

Reservations for the Lihue show can be made at the Lihue Store, and for the Makaweli show which will take place the following Saturday, with John Catton at the Hawaiian Sugar company's office.

SOCIAL NOTES

BROWNING CLUB HAS AN INTERESTING MEETING

The Browning Club to the number of about twenty members met at the home of Mrs. R. D. Sloggett last Tuesday evening. The poem "Saul," was thoroughly discussed, with many interesting versions. Several exceptionally good papers were read.

LUNCHEON AND BRIDGE

A very charming luncheon and bridge was given by Mrs. R. M. Allen at her home at Koloa last Thursday. After luncheon bridge was an added pleasure. Attractive prizes were awarded for the highest scores.

MOKIHANA CLUB HOLDS MEETING

The Mokihana Club held its first meeting of the new year in the Memorial Parish house last Wednesday at 2:30 p. m.

Mrs. Alma Rogers was unanimously elected vice president for the coming year to replace Mrs. Midkiff.

Although the Mokihana Club is a nonpolitical organization they were glad to hear a few words from Mrs. Kellinot.

Miss Myrtle Ward of Oakland, gave two piano solos and Mrs. Snead sang a group of songs which were a real pleasure.

Miss Elsie Wilcox, who just recently returned from the convention of the Federation of Women's Clubs, held in Chautauque, New York was the speaker for the afternoon. Her talk was most interesting as well as instructive and was thoroly enjoyed.

The hostesses for the afternoon were Mrs. Sloggett, Mrs. T. L. Mor-
