LATEST FOREIGN NEWS.

San Francisco, Dec. 22, per S. S. Australia.

UNITED STATES.

A monster bridge is projected between New York and New Jersey. Its designs by J. W. Balat have been accepted by the acting Secretary of War. The aim of the company in erecting the bridge is to concentrate all the railroads coming from the east, north, west and south into one great Union Depot.

Wait Whitman, the aged poet, Russell Sage, Jr., New York, and Jerome I. Case, the well-known horseman who gave his initials to the racer J. I. C., are all reported dying.

Two indictments have been returned against Edward M. Field, son of Cyrus W., one of which charges him with the larceny of 350 shares of Edison Electric Light Company stock.

Senator Preston Plumb of Kansas died suddenly of apoplexy in Washington, Dec. 20, aged 54 years.

The S. S. City of Peking arrived at San Francisco on the 21st, with two white steerage passengers down with smallpox in its most virulent form. The cabin passengers were landed at Angel Island for a two weeks' quarantine. Among them was Vice-Admiral Nazemoff of the Russian Navy.

Mr. Stickler, a World's Fair Commissioner from Germany, has landed at Hoboken and has in his possession what is said to be the sword carried by Christopher Columbus at the time of his discovery of America. The sword belongs to the museum at Salzburg, and has been lent for exhibition at the Fair.

THE CHILEAN AFFAIR STILL UNSETTLED.

Minister Egan in Chile requested the Argentine Minister to note the presence of police about the American Legation. Minister Urrutia of the Argentine Republic accordingly was to call a meeting of foreign Ministers, for the purpose of requesting the attention of the Chilean Government toward the surveillance of the municipal police over the American legation.

An attempt had been made the previous Saturday night to arrest the United States Minister's son Frank. The Government refused to grant the release under bonds of one of the refugees at the United States Legation, claiming that he must first leave the Legation, surrender himself to the Chilean authorities, and submit to imprisonment. This is considered another insult to the United States.

A long letter has been received at the State department, Washington, from Minister Egan, but its contents are not known. It is understood that no action will be taken by the American Government until officially advised by the Chilean authorities of the result of the investigation of the killing of the sailors of the Baltimore. The Yorktown was the only U. S. vessel at Valparaiso, but the Boston was expected in a day or two.

Senator Fair of Nevada blames English merchants with promoting bad feeling against the States, not hoping to embroil Chile in war but to injure trade with the United States.

A Santiago correspondent of the London Times says: In consequence of the delay in the trial of persons concerned in the Baltimore riot, the Chilean Congress proposes to abolish the antiquated secret Spanish procedure for a system of open trials. The delay causes irritation here.

EUROPE.

Hawaiian Lodge, No. 21, Celebrates St. John's Day—Installation and Banquet.

Hawaiian Lodge, No. 21, Registry of California, met last evening at the Lodge room, corner of Fort and Queen streets, for the annual installation of officers. There was an unusually full attendance of members from various parts of the world.

The visiting brethren were: G. W. Harney, Sydney, N. S. W.; S. F. Housley, Oregon; Philip P. Mager, Pennsylvania; John Bush, Chatham, England; H. Wicks, Sacramento; E. Baskerville, San Francisco; P. Laws, Morristown, N. J.; John F. Gillilan, San Francisco; D. McNeill, Port Madison, Wash.; E. A. Lundy, Santa Cruz, Cal.; Chas. W. Day, Chicago; P. Metzger, Sacramento; J. S. Muirhead, San Francisco; J. M. Oat, San Francisco; John Neill, Petaluma, Cal.; W. D. Howard, Lonsdale, N. I.; J. P. Moffitt, Portland, Me.; T. H. Griffiths, San Francisco; G. C. Kenyon, Balmain, N. S. W.; Norman Logan, Annapolis, N. S., Canada.

The installation of officers for the ensuing year was ably performed by Past Master J. A. Hassinger, assisted by Past Master T. C. Porter. There being no further business in the inner temple, the Lodge was closed, whereupon the brethren set forth to re-assemble a few minutes later around the festive board at the Arlington House, Hotel street.

Arriving at this point, the brethren were ushered into a capacious and brilliantly illuminated dining hall. The tables were laid with a supply of edibles that for quality and abundance adds at least one to the already well-earned laurels of "mine host," T. E. Krouse.

The substantial having received due attention, the sentimental, patriotic and fraternal parts of the program followed. Past Master Hassinger acting toast master and with his usual ability. The toasts were: "Her Majesty the Queen"; "Our Sister Lodge, Le Progress"; "Our retiring Grand Master"; "The Past Masters of Hawaiian Lodge"; "Our Worshipful Master"; "The Wardens"; "The Ladies"; "Our Visiting Brethren"; "The Brethren of the Masonic Tie, wherever dispersed throughout the world"; "The Press"; "To all distressed Masons, their widows and orphans, by sea or land"; "The Bachelors"; "The Youngest member of the Lodge."

Bro. Catton's proposal of a vote of thanks to Bro. Mackintosh for his excellent and appropriate St. John's Day sermon at the Cathedral on Sunday evening, was received with hearty applause all round the board. The responses to the toasts were appropriate, brief, and humorous, and were supplemented by volunteer remarks, scintillations of wit and repartee, so that the "eloquent air breathed" merriment. Bro. Porter, for the Grand Lodge of California, gave some interesting statistical information on the progress of the craft in numbers, resources and charities, the number of craftsmen in the United States and Canada being 800,000 and the "recruits" of last year, 24,000.

Funds were accumulating and charities expanding in every direction. Bro. Tucker, in answering for the retiring master, Bro. John Phillips, pronounced him "the embodiment of masonry." Bro. Mackintosh, in answering for the Past Masters, referred with satisfaction to the progress of last year and looked hopefully forward to the future. He was pleased to see the hearty response made to the call to attend service on Sunday evening. Masonry exercises a potent influence in humanizing society, in religion, politics and other relations of life. Bro. Soper, being called upon to respond for the wardens, regretted that his voice was not in perfect training for public speaking, and referred the audience to Bro. Tucker, who answered, in a humorous speech, for the south and west. The ladies were referred to the tender care of Bros. John K. Wilder and W. M. Graham, the latter of whom was of the opinion that the ladies ought "to be to all true men the guiding stars of their lives." As a bachelor he didn't know exactly what he ought to say about them, further than that he loved them all, though we do look to them for a great deal of our trouble as well as for some of our miseries and disappointments.

Some good-natured sparring took place between the two marine commanders, Bros. McNeill and Griffiths, as to which should sail into a speech on behalf of the visiting brethren. The last named weighed anchor with the remark that he had seen so many installations in Hawaiian Lodge that he now felt as if he belonged to it, and he had always been well received and well treated by the Honolulu brethren.

Bros. Bush, Moffett and Kenyon also added their testimony to the hospitality of Hawaiian Lodge in particular and of the craft in general on every shore where they had left their own footprints in the sand. Bros. Lundy, Mager and Laws responded in appropriate terms for the Brethren of the Masonic Tie. Mr. Frank Godfrey, editor of the Paradise

of the Pacific, and Bro. Norman Logan responded briefly, for the Press, to the effect that the Press is a strong auxiliary to the craft, inasmuch as both institutions work for the good of mankind.

Dr. Foote, for the bachelors, said it wasn't his fault, not by nine to eleven times. The youngest member, Dr. Wood, said this was a pleasant change from riding the goat. Bro. J. M. Oat expressed appreciation of the kind invitation of Hawaiian Lodge to join in the festivities of this occasion. Bro. W. A. Wall gave a comic recitation.

Bro. Mackintosh appealed to the brethren to cultivate the virtues and humanities of life. He hoped we would not be pointed to as displaying meaningless symbols but that in our lives we may always exemplify friendship and goodwill toward men. At 11:26 p. m. the brethren rose, clasped hands and closed the entertainment with "Auld Lang Syne."

REASON WHY

The New Drug Store is being so well patronized, is very easy to understand.

It is well known that drugs and medicines do not improve with age, especially in this climate.

Hence, everyone who stops to think a moment on the subject concludes immediately that, if it is necessary to take medicine, it is an important point to be sure and get the FRESHEST medicines that can be obtained.

For instance, if there is an infant in the family and it is desirable to feed it on Mellin's Food or Ridge's Food, why not get the FRESHEST in the market?

Scott's Emulsion is far more palatable when fresh, and if you are taking it for general debility, or any other trouble, you will find it better to get it as FRESH as possible.

Then again, Pills, Cough Medicine, Liniment or any one of the many Patent Medicines, if they are FRESHEST, you can expect to get beneficial effects.

The ENTIRE stock at the New Drug Store can be relied upon, for everything is NEW and of the BEST quality.

Moreover HOBSON, NEWMAN & Co. guarantee that their Goods are just as they represent them.

As you pass their way drop in and look at those Tooth Brushes which they claim to be the best in Honolulu.

DIVERSIFIED INDUSTRIES.

THE LIME.

The sweet lime (Citrus Limetta, Bisco) ranks next to the orange and lemon of the citrus family in importance and value, though more strictly confined to the tropics. It grows wild in many tropical countries, and is not as yet extensively cultivated, but its value is beginning to be appreciated and it promises to be a formidable rival to the lemon.

Risso, of Nice, in his great work, enumerates eight varieties of the lime, as follows: Vulgaris, Parva, Acris, Hispanica, Romana, Tuberculosa, Amara, Pomumadami. The varieties known in the south of Spain and in Morocco, where they abound, are the "Roman," "Malaroe" and St. Jerome.

Those known and cultivated in Florida are: "Tahiti," strong grower, nearly thornless, very early and heavy bearer, fruit large, strong, rich acid. "Florida." Introduced from Mexico and known in California as the Mexican. Fruit medium size, skin smooth and thin, juice acid, rich and abundant. "Sweet or Dubis." Large, thick skinned, pulpy; valued only as a variety and for preserving. "Persian." Lately introduced: a very superior sort; fruit large, and often exceeds the ordinary lemon in size; juice a very pleasant acid; pulp tender and seedless. It will bear frost and will grow in higher latitudes than the ordinary lime.

At La Paz, Lower California, where the soil is alluvial and sandy, they cultivate the lima chichona or "sweet test lime" which weighs commonly from 12 to 14 ounces and is very delicious.

The lime tree is of a low bushy habit and it is only necessary to trim away the low branches from off the ground and remove the exhausted and dry branches. The culture is very simple, consisting only of keeping the trees free from weeds, and irrigating during the dry months. It flourishes best in a light soil near the sea, but it delights in a good soil and needs a large degree of moisture.

Protracted drought is particularly fatal to the lime tree. It is a hardy plant, however, and will thrive and be fruitful in poor soils. In high elevations the lime shows a tendency to assume the form of a lemon and to become thicker skinned, while nearer the sea they are smaller, more globular, and thinner skinned.

It is a quick and prolific bearer and will bring its owner a revenue more quickly than any other of the citrus fruits. It is planted from the seed, which should be selected from the largest and most perfect fruit. It does not "sport" like the orange and lemon, but always comes true to seed, and the fruit is sure to be the same quality as the parent. It grows rapidly and produces fruit in three years, coming into full bearing at about eight years, when it will continue to produce 5000 to 8000 limes annually.

They are generally planted 15 feet apart or 150 to the acre, but modern groves are set out 20 feet apart or 100 to the acre. Like all the citrus family, they are of great longevity and the lime will attain an age of 50 years in a good soil and with but little care.

The method of planting is about the same as for the orange. The seeds should never be allowed to dry off before planting, but if not convenient to plant at once let them remain in the rotting pulp, or put them in a box of sand saturated with water, and kept in a shady place; but do not water again, for it will rot the seeds. They may be thus kept for several weeks, but cannot be kept after they show signs of sprouting. Only plump seeds should be selected, for only these will make thrifty growers. If only a limited number of seeds are to be planted, it is better to place them at once in small boxes. If by the hundreds, in large nursery boxes; or if by the thousands, in open ground nurseries. Say for a small seed bed, make boxes a foot deep, two wide and as long as convenient—no bottom is necessary. Fill each box with one part of light soil, one part of sand, and one part of well-rotted manure, and pack it firmly and thoroughly, saturate it with water, make parallel grooves about one inch deep and about six inches apart, and drop in the seeds about three inches apart, covering in the soil and pressing it down firmly with a piece of board. Do not water more than once a week, for the seeds will rot if the soil is too wet; it should be moist. The boxes should be placed in the sunlight and protected from the fierce rays of the sun by a mulching of moss or straw, or by awnings of coarse bagging or muslin. The seeds will be up in about two weeks. When the plants are about twelve to eighteen inches high, they are ready to be removed to the nursery, and may be transplanted into separate boxes or into an open site similar to where they are eventually to grow, and protected as far as possible from high winds. The nursery should be well prepared, receive a dressing of manure, and laid out in rows to facilitate cultivation. There should be four foot space between the rows, and one foot between the young trees, and the ground should be thoroughly moist when the trees are moved. They should remain in this nursery for about one year and be carefully watered and cultivated. When they are to be transplanted the soil should not be dry but well moist, the plants carefully loosened with a spade which is thrust down perpendicularly and worked back and forth until the soil is detached from the roots. The end of the pivot root should be cut off, and then they are immediately put into a tub of water in the shade,

where they should remain 12 hours or more before planting. The sun must not be allowed to touch their tender roots even for a minute. Discard all sick and weakly plants and set out only the vigorous young saplings. The land where the trees are to be planted should be well plowed in order to sweeten the soil by letting in the sun and air. When setting out, have the roots in a box or bucket of slushy soil. Spread out the roots in a hole previously made, and pack down the soil firmly around them. Do not plant too deep, but keep the top lateral roots about an inch above the ground after the soil is filled in; otherwise the growth of the tree is long delayed till it can send out fresh surface roots. Place a mulching of some kind about each tree in order to retain moisture, and keep well watered. Keep down the weeds and for the next year let them grow as they please without trimming or pruning. In the seed bed and nursery the ant is an active enemy and has a special fondness for young citrus leaves. They should be kept off by an application of air-staked lime or wood ashes.

HEAVY STOCKYARDS LITIGATION.

The New Jersey Company, composed of London capitalists, who in 1890 bought the Union Stockyards in Chicago from Armour, Swift and Morris, known as the "Big Three," is in trouble. The "Big Three" found after selling out that the new concern was charging themselves exorbitant rates for stockyard privileges. They therefore organized a new company and proceeded to start new yards, also bringing suits to compel it to give them transit for live stock over its tracks. To save itself, the New Jersey company made a contract with the "Big Three," by which the latter transferred their lands to it and continued doing business at the old yards. For all this the New Jersey company agreed to pay \$3,000,000, partly in cash and partly in bonds. Now a London stockholder has brought suit to have the contract cancelled, and an injunction has accordingly been served on the parties to that end. The company has been attacked as a trust, illegally dealing in the stock of another corporation.

The National Congress of Brazil, which was dissolved by Da Fonseca when he declared himself Dictator, has re-assembled in pursuance of the call issued by President Peixotto. An uprising in the city of Pernambuco against the governor of the province induced the calling out of the troops. A sharp fight ensued in which 60 persons were killed or wounded. The Governor resigned and quiet was almost immediately restored.

The Adams Express Co. has made a final settlement with John Hoey, its defaulting ex-President.

The Labor Convention at Birmingham, Ala., has adopted a basis for an agreement between the American Federation of Labor and the Knights of Labor. A resolution was adopted that the struggle for the eight-hour day law be renewed in 1892. A woman's suffrage amendment to the Constitution was recommended. Another resolution demanded that no further subsidy be paid to the Pacific Mail Steamship Co. unless it discharge all the Japanese in its employ.

President Harrison will shortly proclaim the duties restored on sugar, coffee, tea and molasses from those countries that have not negotiated reciprocity treaties with the American Government. The only countries thus far entitled to free entry of such products are Brazil, Cuba, Porto Rico, San Domingo and the British West Indies.

CORRUPTION IN CANADA.

Governor Angers of Quebec has dismissed Premier Mercier and Cabinet on account of disclosures of corruption. This action promises to wreck the Federal Government of Canada also. Tarte, who brought the charges in the Federal Parliament against Minister Langevin, in a speech at a Montreal mass meeting, created a tremendous sensation by declaring that in making his charges he was aided and abetted by Minister Caron, Langevin's colleague and supposed friend but really his rival in the Cabinet. Tarte claimed to be able to prove that the Federal Government received \$500,000 with which to run the elections. It is reported that the Conservative leaders in Quebec intend to have Mercier and his colleagues arrested on a charge of defrauding the Provincial treasury.

"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction on you. We can't force medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

Republicanism

Repudiated!

DENUNCIATION MASS MEETING OF HAWAIIANS.

Will Not Yield an Inch of Independence Nor an Inch of Soil.

A large crowd of people assembled in the gymnasium of the Honolulu Athletic Association yesterday evening pursuant to a notice of a mass meeting called by the Native Sons of Hawaii and the Hui Kalaiaia. Shortly after 7:30 o'clock, J. K. Kaulia, Secretary of the Sons of Hawaii, called the meeting to order. Hon. A. Rosa was elected Chairman of the gathering and took the chair, stating that he had come to listen, but being called upon to fill this position he would do so, also adding that he took the chair as a non-partisan in the discussion. He would also ask that the promoters of the assemblage excuse him if he failed to please all.

Isaac B. Iaea was elected secretary. Rev. J. Waiamau offered prayer. The chairman then stated the subject for discussion was "Their Denunciation of a Republican Form of Government for Hawaii." He was familiar with J. L. Kaulukou's ideas on the question and he would call on that gentleman for the first speech.

Hon. J. L. Kaulukou on arising greeted the chairman and audience, stating that as previously announced the object of the meeting was in regard to rumors prevalent abroad that Hawaii was desirous of a change of government from monarchical to republican. He considered it an appropriate occasion to stamp the idea as a false one, as all locally situated were well aware of the Hawaiians' disfavor to such a change of affairs, or even to annexation. We do not wish it and it is not the exclusive right of the race of Hawaii to repel the idea, but foreign residents, those who have married into and settled in the country, they have a say in the matter. We should not only think of our Sovereign as one who has supreme power, but we should consider our Queen as one of the gentler sex and this fact should strengthen our desire to uphold the Throne of Hawaii and perpetuate the same in righteousness. We should take England as our example and we must respect our Queen and the office she holds. As we have in the past revered our sovereign, so this evening we must continue and keep up the dignity of the monarchical government. In the days of our youth our forefathers had always been taught to love their sovereign, and if they did so they loved their country. All they had, belonged to the ancient chiefs. And as civilization crept into the country their trust in their sovereign was strengthened. He would denounce any form of government other than monarchical. He would also present a set of resolutions which had been drafted and carefully considered, and he hoped they would adopt the same as a whole.

WHEREAS, a report has been propagated throughout the United States concerning the belief that the Hawaiian people are standing ready to revolutionize Hawaii's present form of government, that is, a monarchical government, to a republican form of government, either by annexation to the American Republic or to be an independent republic, and such reports being published in foreign papers that have reached Hawaii, and to that effect, and

WHEREAS, similar open reports have been published by certain newspapers in this city, and these reports will certainly strengthen the belief that those reports spread throughout the United States are valid, as shown above; and if these reports are not contradicted by the Hawaiian nation, by publicly making known their disapproval and contradicting the truth of such reports, then their silence in this matter is a proof of the truth of such reports now being circulated, and will also confirm the belief that the Hawaiian nation is against their beloved Queen, and stand ready to remove her from the throne of Hawaii, and

WHEREAS, this is a question that deeply concerns the monarchical form of government of Hawaii; and it is proper that such threatening rumors be repelled strongly and firmly by the Hawaiian people:

THEREFORE, this mass meeting, held on the evening of December 28th, 1891, in the city of Honolulu, Island of Oahu, do pass the following resolutions:

1. RESOLVED—That the native sons of the soil do hereby disapprove the idea to discontinue and change Hawaii's monarchical form of government; but, by this, they certify to uphold forever that form of government, and likewise to uphold the Queen and the Throne of Hawaii; and they shall and always be bitter against the said movement.

2. RESOLVED, that the native sons of the soil do repeatedly disapprove any scheme to establish a republican form of government in place of Hawaii's present monarchical government, the government for which their forefathers bled, fighting for this blessing.

3. RESOLVED, that the Hawaiian nation do forever protest against any scheme annexing this government to any foreign government in order to satiate the desire of converting Hawaii into a republic.

4. RESOLVED, that it be publicly declared that the reports widely circulated that the Hawaiian people are standing ready to adopt and embrace a republican form of government for them, either independently or by annexation, are false and without foundation.

J. A. Kahoonei being called upon stated that he represented the Hui Kalaiaia and their sentiments were against a republican form of government.

J. M. Poepeo felt honored in addressing them. He hoped that all would be averse to any other form of government than the present monarchical government. Those who thought that they would be greatly benefited by any other form of government were mistaken. He thought it was proper to wrestle with the question now, and not wait until the rope was around their necks, then say "we have got a republican form of government." But like Kamehameha the Great, grasp the question while it is hot. For himself he was averse to a republican form of government.

J. Kaulia said that all were familiar with current rumors abroad that Hawaii was favorably inclined to republicanism, which were being inculcated by people in this city. Who are these people? Is it the present Cabinet, or not? They (the Cabinet) were now talking about a treaty with America and annexation to that country. He would make an addition to the previous resolution that Hawaii was unfavorable to annexation or the ceding of an inch of Hawaiian territory to the United States. Our present constitution was a republican one and he would state for himself as well as others that it hurt him to the core. The speaker wished it to be conveyed abroad that they were averse to ceding Pearl Harbor as a naval station for the United States.

Jno. Poe said he was an intending candidate for legislative honors. He would ask that the resolutions be approved by the meeting. The previous speakers had voiced his sentiments, and all that remained for him to say was to vote for him and the question would be his initial work in the Legislature.

J. Kaulia stated that all should be watchful as "young, wide-awake Hawaii," and that should always be our watchword. Europe is watching our movements and eyeing the reports of Hawaii being favorably disposed to republicanism. And if these reports were not quelled a republican form of government would in a way rule in Hawaii. And as the elections are approaching let all pick men who have the best interests of Hawaii at heart. He would say, as a closing remark, "Hawaii for the Hawaiians!"

W. C. Achi—If we glance back and view the acts of our forefathers including Lumilo and wade on to our present Queen, we will see that no such meeting similar to this with the subject of republicanism for discussion has ever been held. France went from a monarchy to a republic and are we to lay cheek to cheek with her? One of the ablest of Hawaii's politicians is foremost in this republican talk. But he was assured that the majority of Hawaiians were disfavorable to such a movement. America a few centuries back was a small and insignificant nation, but look at her now. She is a great and powerful nation; and as an English statesman said, a century hence America would be the greatest nation on earth, and the combined naval forces of the other nations will be unable to trample her down. This fact may be a motive in our wishing a Hawaiian republic, and the question of why should not Hawaii attain a similar degree of prominence and greatness. For himself, however, having come there to speak his views, he was against it to the last drop of blood in his body. If Hawaii was annexed to the United States the Native Sons would be treated as insignificant people. The speaker promised that if a republic was established in Hawaii it would end similar to Chilean affairs.

Hon. E. K. Lilikalani prefaced his remarks with saying that the previous speakers had not toed the mark. If the judiciary, independent of the other powers of the land, advocated a republic for Hawaii, why it is impossible. So would it be if the executive desired the same without the approval of the people, it would be impossible to attain. If the wealthy class from one end of Hawaii to the other wished a republican form of government and the poorer class of Hawaiians defied the same, why, they can't get it. If the newspapers and others wanted to establish a republic, and the sons of the soil opposed it, they can't do it. If wealthy people of the country asked England or America to establish a republic in Hawaii, why the enlightened nations would scorn the idea, as the people of the country opposed it. This republican talk is all nonsense. "They can't do it!" (Applause.) Before winding up the speaker gave three reasons why a republic cannot be established in Hawaii: 1. That Hawaii is a constitutional government. 2. The revenues have always met her wants. 3. Hawaii is a Christian government and able to take care of herself. (Applause.)

The chairman then put the question and the resolutions were unanimously adopted and ordered to be printed. With a few commendatory remarks to the audience the chairman adjourned the meeting at 9 o'clock.

The Hawaiian band played Hawaii Pono and the enthusiastic gathering dispersed.
