We take pleasure in calling the attention of the readers of the Gazette to the first letter from our special correspondent H. A. While on this subject of correspondents we may be allowed written by intelligent correspondents as one of the choice features of a carefully conducted newspaper, and therefore it has been our constant aim at no small cost during the time we have been publishing the GAZETTE, to secure the contributions of educated and racy correspondents in order to render the GAZETTE as attractive and instructive as possible. The arrangements made by the present publisher will be carried out by our successor to the letter, and therefore the readers of the Ga-ZETTE may rest assured that they will receive a paper that will both delight and instruct them, by keeping them well posted upon all matters and things transpiring abroad. weeks of the month of October last \$6,000,000 arrived at the port of New York by two steamers from England. The short crops of grain and scarcity of food in England and on the continent, have created a necessity for immense shipments of all kinds of cereals, and as this demand increases daily the influx of gold to the States must be enormous. With the tide of prosperity that is everywhere prevalent in America, and the excessive exportations of grain, the latter country will be the gainer this year to the tune of hundreds of millions. From the tone of our eastern exchanges we infer that the tidal wave of unwonted prosperity has really set in, and the best of times may be looked for in the great republic for years to come. The drain of the precious metals from England and the continent this year, is far in advance of any period in the history of America, and hence the jubilant strains of the American journals on the List of Licenses Expiring in Novem- good times at hand. In this state of things it is painfully apparent to Europe that whilst Note to be subject to the Interior Office, and all parties are taking to convert the largest to the Interior Office, and all parties are wars for conquest, America was pursuing the policy of peace at home and abroad, and her people by cultivating the arts of peace are Minister of the Interior. now ready to supply the deficiencies in the way of food and other necessaries, for which they are reaping rich reward in the shape of Honelula hundreds of millions of gold dollars and bullion, which England and the continent must furnish to prevent starvation among all ranks of society. Mr. Walker seems to think that the GAZETTE alluded to himself in the expressions used. "the transaction looks very much as if some " other persons than Chinamen were interested " in the shipment," Now we repeat that assertion, Mr. Walker's explanation and denial Honolulu to the contrary notwithstanding, while we repudiate the idea that we intended it for him or any person connected with him, or indeed, for any other man on these islands. We think that he is just a trifle too sensitive on this sub ject, and hence his rushing into print to ventilate himself, and to indulge in a pardonable weakness he seems to possess a prurient desire of seeing his signature attached to a newspaper article. Mr. Walker is a gentleman for whom we have a high personal regard, because we consider him a gentleman in every sense of the term, and therefore, we regret that under the pressure of a too sensitive organization, he has departed from his usual courteous and dignified style in his last communication to the Advertiser. So far as we are personally concerned, we care as little for his inuendoes, and what he, no doubt, considers clever shots, as we do for the idle wind that passeth; we only regret that a gentleman of his standing, breeding and intelligence, could so far forget himself as to

To-day the inhabitants of this city numbering 74,000 souls, have the pleasure to see the first street earls running. The excitement has been grand, and the streets are crowded with inquisitive spectators. For that this our first tramway has been carried through we have to thank an English Company, which has undertaken to run three different lines of tramways through the city where the one mentioned above has been completed and opened for public traffic. The length of this first line is 9,000 feet, and little of the New York Herald from Atlanta, Georgia, dated October 11th, says: The Judge of Baldwin county and a delegation of citizens reached here this morning, to sak the Governor for a military, force to suppress the "Georgia Tigers," a desperate organization, who were fully described in the columns of the Stieux. They had possession of the Herald a year ago. They had possession of the Herald Roman on Tuesday and hurned several houses. They had been the county, and defy arrest. They had possession of the Herald Roman on traffic. The length of this first line is 9,000 feet, and although the English Company, by the contract made with the town, were entitled to charge 30 ore, at the opening this morning announced the fare to be fixed at 10 ore, equal to 3 cents American currency. By reducing the fare I am certain that the Company will find that the tramway will pay, which otherwise would not have been the case. The main thing now-

artillery company belonging to the brigade.

At the meeting of the Cabinet on October 24th Secretary Thompson submitted some dispatches received at his Department from naval officers at Sitta and the Samoan Islands. Their tenor indicated the advisability of establishing a civil government for Alaska and that measures should be taken to secure the rights obtained by our treaty with Samoa for the possession of the harbor of Pago Pago as a mid-Pacific naval station. It was agreed that the Navy Department should at an early day send a supply of coal to Pago Pago, to be stored there for the use of the United States cruisers, and the President will probably in his next message recommend to Congress the proposed establishment of a civil government for Alaska.

The Commissioner of Indian Affairs recently re-ceived a dispatch from Agent McGillicuddy, at Red Cloud Agency, saying:

Twenty of Sitting Bull's Indians are just in with a pass from Major Walsh, the British officer at the nearest post across the border. Many will come when the Missouri freezes. Do you want them fed? To this Commissioner Hoyt replied as follows: The Secretary desires me to say that Sitting Bull Indians returning must be looked upon as prisoner's

Indians returning must be looked upon as prisoner's of war; they must surrender their arms and ponies. The idea must not be permitted to spread that they can simply come back and be fed. Every one of them, if fed, must be made to earn his rations by work for the Government. Enforce this policy strictly, and keep them well watched.

A letter received from the same Indian Agent to day reports that the Sioux under his charge are exceedingly anxious to enlist and "assist the Great Father" in the war against the Utes.

At the Cabinet meeting October 24th, General Sherman reported that the troops concentrated in Southeastern Colorado, under command of General MacKennie, will be in readiness to more upon the Indians immediately, in the event of the failure of the inission of Special Agent Adams. It was agreed on all bands that preparations to meet this possible contingency should be continued, although no aggressive movement will be ordered while awaiting Adam's return.

The proceeds of the Fair are intended to defray the expenses incurred in enlarging the church. We trust that a liberal spirit will be indulged in by our citizens generally so as to make the Fair a success, as was the case with Dr. Damon's church fair some mouths ago. > giving day, when all Americans are expected to keep it as sacredly as if they were at home. Thanksgiving day in America is a holiday peculiar to the Great Republic, and has been banded down from the earliest days of the existence of the government. It is kept religiously in the United States by all good Americans, and we see no reason why should not be observed by Americans resident here. In old Jewish times a season of thanksgiving, prayer and praise to the Allwise Dispenser of mercles and blessing was set apart each year, which all the people were required to keep sacred-a custom which we believe is still kept up among the Jews It is in all respects but right, proper and praise worthy, that we should feel thankful to Almighty God for blessings vouchsafed to us, and therefore we hope Americans resident on these Islands will see the propriety of observing the 28th inst. as a day of thanksgiving to Jehovah for His goodness, It is as little as we can do to thank Him for His grace, aiways remembering that "behind a frowning Providence He hides a smiling face."

ARRIVED .- The China Merchant's Steam Naviga tion Company's steamer Ho-chung, Captain Peterson, arrived in this port on Thursday morning the 14th., 25 days from Whampon, with 451 Chinese passengers 13 of whom are temales. The Ho-chung also brought as a passenger Mr. C. C. Moreno, who also authorized to enter into negotiations with the Hawaiian government relative to the future movements of the Chinese immigrating to these Islands. From this it would seem that a new field of operations is about to be opened up on the part of the Chinese government through the Navigation Company, who contemplate running a line of steamers between Chica and Callao, touching at and taking in the direct trade with these Islands, and thus make the line a profitable one. In such an arrange ment we can easily conceive how beneficial direct communication would be with China for this Kingdom, and we hope that whatever negotiations may

THE WEATHER FOR THE PAST WEEK .- The weather for the past week has been anomalous. On Sunday last we had an unusual rain fall which commenced on Saturday night, and lasted all day Sunday. During Saturday night and Sunday a large quantity of water descended which was so gently and yet so copiously distributed, that it produced effects of the most beneficial character. The present year has been one of an unusual character so far as the rain fall is concerned which is a blessing, and the consequences to the agricultural interests must be in corresponding ratio. But the most phenomenal freak of nature took place on Friday evening the 14th inst. At about 5 o'clock P. M. we and he There have not been very to the scene of had thunder and vivid lightning which has not been her Monday's lectrifies at Ewa, was the cause of heard or seen on this Island for years before. The bours were star off, but the lightning was vivid and continuous until daylight Saturday morning. The thick dark clouds from which the lightning issued and the serident to the Pele at short intervals during the whole of Friday night were gathered in the cast, and seem to brood over Oabu all the time spoken of. These phenomenal exhibitions in the natural world must have their explanation somewhere, and no doubt will manifest themselves in due time, if not here elsewhere. Till then let us wait and see.

Monday, the 17th last, was observed as a soliday in Honolulu, it being the auniversary of His Majesty, King Kalakana's birthday. The an niversary coming this year on Sunday, the 16th, which is the proper date, the celebration of the event could not be observed till the following Monday, and to this end a grand fete was arranged Moreover to live weather was fine and all that for that day at Ewa, 10 miles distant from this city, many and the rain came down in tor- rous multitude of citizens repaired, some on Sunday but by far the greater number preferring to wait though part a when to the anticipated horse racing steamer to the point of rendezvous, and others by of the day, with the exception of private land conveyances. The weather in the ment and traces. In a few morning being rainy, kept quite a number from going who had made preparation for so doing. The shipping in the harbor was profusely decorated with bunting in honor of the occasion, prominent among which was the Chinese steamer Hochung. they was across the swollen | tery on Punchbowl. His Majesty, King Kalakana, was born November 16, 1836, so that he was 43 years of age on the 16th inst. He was elected King of the Hawaiian Islands, February 12th, 1874, and inaugurates the next day, February 13th, 1874. He make & Co. here established themselves as a Stock le at present in excellent health, and we hope he may be spared for many years to come, to bless his people with his judicious and humane presence as their Ruler and King. All the business places in the city were closed during Monday as a token of respect for His Majesty, which was a tribute alike creditable to King and people.

THE PLANTERS MOVING .- At Kohala, Hawall, the planters of that vicinity held a meeting on the 21st questions touching the mutual welfare of the planting interests connected with the culture of sugar on these Islands. The meeting was permanently organized by the election of the tollowing gentlemen, viz: President, Dr. Wight; Vice President, Dr. Thompson; and Mesers. Montgomery and Hoo kano, Secretaries. As this is a new departure and a good beginning we trust that the example will be followed, till there is a thorough national organization of the planters on these Islands. If such an titution existed the planters would soon find out how much mutual benefit would be derived by their annual meetings when and where they could interchange views, and discuss questions of vital intercets to themselves by which means they would become well posted upon all matters touching their individual interests. It would not be long till new light would burst upon them from such discussions and they would see where wholesome reforms could be introduced that would save large sums of money annually, as well as enable them to regulate things to suit themselves. It does not always do to leave things to take their own course; no business is worth attention that does not pay, and no business Colore superation on these tables between the two talls by those immediately interested. In other words, if a man desires success he must attend to his own affairs, and not leave his business entirely in the bands of others. "A word to the wise is sufficient.

The Amed will be held in safe keeping until the inquiry into the massacre is fulshed. At a meeting of the British Cabinet, October 23d the settlement of Afghanistan affairs was discussed and agreed upon. Kotwal of Cabul, and four others have been hanged for complicity in the massacre of the British Embassy, among those hanged with Kotwal the head of the city Mollohas, were two Generals, one of royal blood. of royal blood.

Active warlike preparations are going on in all the workshops of Russia, particularly in the establishments where steel causon are manufactured. It is reported that England is disposed to enter into an alliance with Germany and Austria.

THANKSGIVING .- The 28th inst., will be thanks-Madrid, October 31.-At Ballabardat, in the province of Huescar, several persons have been drowned and 25 houses destroyed by floods. The Liberar states that the phylloxera has ap-peared in a vineyard near Figueras.

Naples, October 31,-Small streams of lava flowed from Mount Vesuvius yesterday. Paris, October 31 .-- A semi-official note has be raris, October 51.—A semi-omeiar note has been sent to the Press stating that the departure of Don Carlos for England was due to a warning, informing him that the Government had resolved not to tolerate the political manifestations for which his stay in France recently afforded a pretext. Berlin, October 31,-General Padblelski, Inspec-or General of Artillers, who held the post of Quartermaster-General during the Franco-German

war, is dead.

The Budget was presented in the Prussian Chamber of Deputies to-day. It shows an estimated deficit of \$11,901,810 for the next fiscal year, which the Government proposes to cover by a loan; as, also, a deficit of \$2,186,125 remaining from the cur-

Cheyenne, October 31.—A special train, with General Grant and party, arrived here at 12 M., and and at the same hour a special train from Denyer, bearing the Colorado, delegation, consisting of Governor Pitkin, Ex-Governo 8 Butt and Gilpin.

Senator Teller, and many other prominent clizzens of the State, arrived. Owing to some misunderstanding as to the time of arrival Governor Hou. standing as to the time of arrival, Governor Hoyt standing as to the time of arrival, Governor Hoyt and the Committee failed to be on hand to receive the distinguished guest, which was an embarassing circumstance. Finally, the Coloradians took possession of the General's party and drove to the residence of Governor Hoyt, where an informal reception took place. There where no speeches. The party departed at 2:30 p. m., escorted by a delegation of the Grand Army of the Republic from Omaha.

Rawlins, Wy., October 31.—Joseph Burnet, a courier, came in from White River, late last night, with dispatches and mail. CAUTION TO THE PUBLIC A FINE ASST. OF SMOKING TOBACCO

To avoid imposition, purchasers of Waitham Watches will observe that every genuine watch, whether gold or silver, lears our trade mark on both case and movement. Gold cases are stamped "A. W. Co." and guarantee certificates accompany them. Silver cases are stamped "Am. Watch Co. Waitham, Mass, Sterling Silver," and are accompanied by guarantee certificates, signed R. E. Robbins, Treasurer. The name "Waitham' is plainly engraved upon all movements, irrespective of either distinguishing marks.

engraved upon all movements, trrespective of either distinguishing marks.

This causion is readered necessary by reason of the fact that our cases are frequently separated from our movements and put into worthless movements of other makers, and vice errst, thus affecting injuriously the performance of the watches and vitading our glarantee, which is intended to cover only our complete watches wholly made by us. It is necessary, also, because it is a sincornous as to be a public scandal, that there is great found in the market and quality of both gold and sliver cases as now generally sold. We have demonstrated by frequent assays that many gold and sliver cases offered in the market are debased from from 16 to 29 per cent, from the quality they assume to be. This is a frand upon the purchaser, and accounts tor the low price at which such cased watches have been sold.

accounts for the low price at which such cased watches have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full plate movements, known by the marks "Wm. Eliery," "Appleton, Tracy & Co.," "Waltham Watch Co., "P. S. Bartlett," and "Broadway," giving to them not only a highly improved appearance, but great additional value, we embody in them suchof the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good performance and solid excellence at moderate cost. The alterations have been made with the view of pleasing practical watch makers, as well as watch wearers.

We avail ourselves, too, of this occasion to warn the public against chikar watghes. The superiority of Waltham goods, in all grades, is now so generally acknowledged that our competitors, Swiss and American, seem to have no resource but to present the attraction of low price. Their goods being inferior to ours, they have to sell them for what they can get. Times are hard, and people generally not knowing a good watch from a bed one, very often allow a small price to decide them. William Morris, the emiscot Eoglish Lecture on Art and Labor Toples, in a recent lecture delivered before the "Trades Guild," says:

"I know that the public in general are set upon having things chesp, being so fenoral that they do not know when they get them nasty, also so ignorant that they neither know wor care whether they give a man his due. I know that the manufacturers, so called, are so, set on carrying out competition to in unnost, competition of chapness, not of excellence, that ther meet the targain hunters half way, and cheerfully furnish them with making. I know that the manufacturers, so called, are no set on carrying out competition to in time the public wants or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in his occu
