WHAT IS THIS DISEASE THAT IS COMING UPON US?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constipated; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-coloured, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community where they live show in what estimation the article is held.

John Archer, Harthill, near Sheffield:—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Geo. A. Webb, 141, York Street, Belfast:—I have sold a large quantity, and the parties have testified to its being what you represent it.

J. S. Metcalfe, 55, Highgate, Kendal:—I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many gross.

Robt. G. Gould, 27, High Street, Andover:—I have always take a great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland:—I find that the trade steadily increases. I sell more of your medicines than any other kind.

N. Darroll, Clun, Salop:—All who buy it are pleased, and recommend it.

Jos. Balkwill, A. P. S., Kingsbridge:—The public seem to appreciate their great value.

A. Armstead, Market Street, Dalton-in-Furness:—It is needless for me to say that your valuable medicines have great sale in this district—greater than any other I know of, giving great satisfaction.

Robt. Laine, Melksham:—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

Frickheim, Arbroath, Forfarshire, Sept. 23, 1882. Dear Sir:—Last year I sent you a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced, and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaint and general debility.

A certain minister in my neighbourhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A near friend of mine, who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,
(Signed) William S. Glass, Chemist.
A. J. White, Esq.

15th August, 1883.
Dear Sir:—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,
(Signed) N. Webb,
Mr. White, Chemist, Calne.

A NORMAL SCHOOL.

Probably the most notable of recent advances in the educational work of this Kingdom is to be found in the largely increased number of schools in which the English language is taught. A very few years ago there was only about a half dozen schools in the entire country that attempted to impart an English education to Hawaiian children: now they are to be seen scattered all over the islands. This advance has certainly been in the track of popular sentiment. Native Hawaiians fully recognize that they are at serious disadvantage in the battle of life without a knowledge of English, and for this reason Hawaiian parents exhibit a strong desire to have their children trained in its use. But the entire juvenile population is not yet being so trained, for the Board of Education report shows that there are now over two thousand Hawaiian children not in English schools. To accommodate these will require a still greater increase of school facilities and sixty or seventy additional teachers. How are these teachers to be supplied? Many, if not most, of those now employed in existing schools were brought here from abroad, and for the simple reason that sufficient numbers were not procurable at home. But is there any sufficient reason why all the teachers required for our public schools cannot be produced right here on the islands, in the not very distant future? Competent observers say the material is here, only it lacks the necessary training. If so, what is needed is a Normal School for the training of willing candidates for a profession to which nature has already adapted them. Such an institution would be of incalculable benefit to the nation. The first advantage would be to the candidates themselves, giving native Hawaiians the opportunity of qualifying for an important profession which is at present mostly filled by foreigners. Next, the whole community would feel the beneficial influence of the rising generation being in charge of their work. The faculty of this Normal School should consist of teachers possessing the guarantee of fitness in having graduated in similar institutions elsewhere. Its proper location would be in Honolulu, because Honolulu is the most accessible place to all the islands, and because here there is a greater number and a greater variety of schools to serve as practising ground for the undergraduates of the Training School. To make such an institution of the fullest service to the country it must first be made popular, that is, it

must be made attractive to students ambitious of learning the teacher's profession. This can probably be done by a guarantee of permanent positions to successful graduates, subject, of course, to the usual chances of a teacher's life, and by giving them precedence of others of equal attainments, in questions of appointment and promotion. It seems to us that the subject is deserving of careful consideration by the Board of Education, and if it be found practicable to establish such an institution, in it the Hawaiian race will receive an inestimable boon and the Hawaiian Kingdom an incalculable benefit.

THE BRITISH SCIENTISTS—NO. 5.

The proceedings of the Geography section of the British Association for the Advancement of Science were opened by the president of that section with a review of recent explorations. Geography and geology he showed were more intimately connected than was generally known. Dr. Halm had enumerated ninety-six more or less extensive tracts of land, on the sea coast alone, known to be rising or sinking. Mr. R. A. Peacock has given evidence that the island of Jersey had no existence in the time of Ptolemy, and was probably not cut off from the mainland of France until the fourth or fifth century. Nordenskjöld found the remains of whales, evidently killed by the early Dutch fishers, on the elevated terraces of Martin's Island. Professor Hall's recent conclusion that the land between Suez and the Bitter lakes has risen since the Exodus throws fresh light on the Mosaic account of that great event; and, to go further south, the Indian survey had demonstrated that it was almost certain the mean sea level at Madras is a foot higher than it was sixty years ago. So gently had the Island of Bermuda subsided that great hangings of stalactite, unbroken, may be found dipping into the sea, or, at all events, into salt water pools standing at the same level, and they had no reason to suppose the sinking to have stopped. The president referred to Canada's having within its limits two spots of a physical interest not surpassed by any others on the globe, viz:—the pole of magnetic attraction, commonly called the magnetic pole, and the focus of greatest magnetic force; also often but incorrectly called a pole. The first was visited by Ross in 1835, and again by others. The utmost interest attached to the question whether the magnetic pole had shifted its position in these fifty years, and although he was far from rating the danger lightly, it was probably approachable overland, without the cost of an Arctic expedition. The second has never been visited at all, although Dr. R. Bell, in his exploration of Lake Nipigon, was within 200 miles of it. He referred to the progress made on the canal works at Panama, saying that in March last the excavations were 4,590,022 cubic metres, being 615,831 metres per month. We quote the remainder of the report of the president's speech in full:—

"In Africa Mr. James Thomson has explored an unknown country about Mount Kilimanjaro and Mount Kenia, continuing his route to Lake Nyanza. Mr. H. H. Johnston has also made an investigation into the fauna and flora of Kilimanjaro, of which details will be given in section D. Through the rapid progress of the religion of Mohammed among the African races of the northern equatorial zone, native tribes, hitherto without moral or political cohesion, are being knit together in the Western Sudan, the Upper Niger and the Gambia, with a rapidity which endangers the peaceful advance of European commerce. It is to be expected that this movement will in time reach the Congo, and we have too recent evidence of the fanaticism it is capable of inspiring, not to perceive here a moral element which may greatly affect white settlements and missionary enterprise in Central Africa hereafter. Reference was made to the recent discoveries of Stanley on the Upper Congo, and to the teeming life of these equatorial regions. Lieut. Wissmann had brought confirmation of the oft reported existence of a dwarfish race, the Watwa, on the upper waters of the Sankuru. Lake Nyassa is becoming a busy inland sea. There are two steamers on it, and one on the River Shire. Upon the Tanganyika there are three. All around in this district centres of trade are arising, and soon roads will link the petty capitals in friendly communication. In Asia, the Caspian Sea, notwithstanding the enormous quantity of water poured in by the Volga, the Ural, and other rivers, is drying up fast, and the freshwater seals, which form so curious a feature of its fauna, are fast diminishing in numbers. One of the finest feats of mountaineering was performed last year by Mr. W. W. Graham, who reached an elevation of 23,500 feet in the Himalayas. The President then spoke of the great work being done by the trigonometrical survey of India. The Australian

continent had again been crossed from east to west, on the parallel of 25° S., by Mr. W. Whitefield Mills. But for the introduction of camels, the expedition would have broken down. Mr. Whitefield reports a great extent of available pasture between Warburton range and the Blyth water-shed, but he found only three permanent sources of water supply in 1,600 miles; such conditions give more than usual interest to the recent discovery that subterranean supplies of water may be expected all over a crustaceous area estimated at 126,000 square miles in the central region of the Australian continent. Good water was struck in April last by an artesian boring, at a depth of 1,220 feet, at Turkana, lat. 30° S., long. 138° E. The speaker then referred to the new railways in course of construction throughout the world, which had a great geographical interest for the traveller, and in conclusion, said that before he resumed his seat he could not help alluding to that important social reform, so simple in its application, so scientific in its basis, for which they were indebted to the perseverance of his friend, Mr. Sandford Fleming, C. E. He meant, of course, the agreement to refer local time in this continent to a succession of first meridians, one hour apart. The next step would not be long delayed; that is, the agreement of the civilized world to use one first meridian, Paris, Ferrol, Washington, Rio de Janeiro, gracefully, as he ventured to hope, giving that precedence to Greenwich, which is demanded by the fact that an overwhelming proportion of the existing nautical charts of all nations, and of maps and atlases in most of them, already refer their longitudes to that meridian; no other change would be so easy or so little felt."

CORRESPONDENCE.

Correspondence is solicited on the topics of the day, or what may become so. We reserve the right to excise purely personal matter. We do not hold ourselves responsible for the opinions expressed by our correspondents.—Ed.

GIVE US A REST.

EDITOR BULLETIN:—I know not what may be the feeling of newspaper readers in general in Honolulu, but I, for one, am perfectly sick of this perpetual political bickering and squabbling and repeating over and over again the old charges with slight variations. For heaven's sake, give us a rest. No doubt, a majority of the thinking people of the town are opposed in heart, if not in voice, to the Government, and would be glad of some kind of a change; but surely these people are not clamorous for an everlasting repetition of what they have learnt and forgotten a thousand times, and are tired of learning and forgetting. If there is any new muddle, or any fresh corruption, or any improved trickery, trot it out; we are all attention. If there is nothing new in the political world, and nothing can be found outside of politics to write about, suspend the papers for a while and take a vacation up country, or go practising for the regatta, or fill up with that second-hand California stuff and those nursery pictures that they use in the *Hawaiian* and the *Advertiser*. Something, anything, nothing, for a change. This is the feeling of
A SICK READER.

MUSICAL NOTES.

There should be music in every house. Music is a higher revelation than science and philosophy. A concerto has just been composed in Italy for sixteen pianos. Vienna is to raise a \$50,000 monument to the memory of Mozart. Our church choirs will soon have to think of selecting their special music for the Christmas services. On the 28th of last month the inauguration of the statue of John Sebastian Bach took place, with grand musical exercises. To-morrow, Oct. 15th, there will be a grand musical festival in Vienna, to celebrate the 40th anniversary of Strauss's first appearance. It is expected that the celebrated band of the Grenadier guards, Dan Godfrey, leader, will play at the coming New Orleans fair. Gilbert and Sullivan will have another new opera ready by the middle of next month. The music it is said will approach the style of grand opera. November 25th will be the twenty-fifth anniversary of Madame Adelina Patti's operatic debut. She will celebrate it at the Academy of Music, New York. In the family where social music is cultivated, will be found prevailing peace, harmony and love, and there the great vices have no abiding-place. An American has offered \$1,000,000 to the heirs of Richard Wagner for the exclusive right of performing his opera "Parsifal". The guardian of the heirs absolutely refused to entertain the proposition.

SUPREME COURT.

The Supreme Court opened at 10 o'clock yesterday morning, Justice McCully presiding. Ah Hong, charged with perjury, had his case continued until a witness was sent for from Hawaii.

Ah Lee, for assault and battery, an appeal from the Police Court, asked for mitigation of sentence. Sentenced to pay a fine of \$10 and costs.

The case of Arsenio Joio, for selling liquor without license, an appeal from Police Court. The jury brought in a verdict of not guilty.

Ah Lum charged with having opium in possession. Appeal from the Police Court. A verdict of not guilty was returned by the jury.

THE FOUNTAIN!

Adjoining Dodd's,

123 FORT STREET.

The long looked for opening of this store will be on Monday, Sept. 15th, with a full stock of

Confectionery,

Soda Water,

And Tobaccos.

ROBT. DONNOLLY, manufacturer of Soda Water, Ginger Beer, Root Beer and Spruce Beer, will offer to the public on Monday, cooling drinks superior to any in the Hawaiian Islands. The drinks mentioned above are manufactured at my Soda Works, back of Rose Cottage. One trial of my Arctic Soda will pronounce it the best in the city. My syrups are imported from London, comprise the choicest of English fruits, namely—Gooseberry, Cherry, Pear, Raspberry, Strawberry, Lemon, Red Currant, Black Currant and Pine Apple, Sarsaparilla, Ginger, Orange and Vanilla. Any of these fruits at

5 cts per Glass.

My motto is, to give a superior article even if it costs more, and thereby ensure speedy sales.

With my GINGER BEER, ROOT BEER and SPRUCE BEER, I have been at a heavy expense experimenting on them, so as to give the public drinks that will be both strengthening and refreshing in this climate. I guarantee them strictly VEGETABLE, no MINERALS employed. I use some of the finest medicinal herbs that grow in the States. The public wants a drink with some nutriment in it, this you find in my beers that strengthen the body as well as dilute the blood for purposes of a more easy flow through the system. They can be taken by any one as they are absolutely pure. They are the most enjoyable thirst quenchers ever introduced. I will sell them at prices to suit one and all.

Superior Ginger Beer, 10c. per bottle.
Donnelly's Root Beer, " " "
Donnelly's Spruce Beer, " " "

Candies for the Million

On Saturday, at the Fountain, my assortment is of the finest and purest description and will be sold at the lowest possible price. Don't forget and call early to insure a packet of these rare candies for the loved ones at home. I have also an assortment of Bon Bons, Cloves and Nuts of all descriptions.

SPECIAL NOTICE.

Smokers' Articles a specialty at the Fountain, all descriptions of home and foreign Cigars, to suit the most fastidious. Best brands of Tobacco and Cigarettes. Hoping to get a share of public patronage by supplying a good article, I remain,
Yours respectfully,
ROBERT DONNOLLY.

J. E. WISEMAN'S New Business Card.

Ready for Active Work Again.

THE Business Community and my Patrons generally throughout the Islands will please take notice that I have returned from my trip to the Coast and with improved facilities for conducting my General Office Business. I most respectfully solicit in the future the patronage heretofore extended to me during my business engagement in the Kingdom for the past five years.

In addition to my various departments, I have been appointed sole Agent for the St. Jo & Hannibal and the Burlington and Quincy Rail Roads, also, soliciting Agent for the San Francisco Illuminating Card Advertisement Company. Orders for Goods, Wares and Merchandise of every kind and nature sent to the Coast, and satisfaction guaranteed and on the most reasonable terms.

In my Real Estate Department, I have always on hand choice property to sell and Houses, Rooms and Offices to lease and let. I collect rents, pay and discharge taxes, insurance and order necessary repairs when required. Landlords and Owners will find that it will be to their advantage to place their Real Estate interests in my hands, as I will carefully attend to this branch of my business to their entire satisfaction.

Custom House Entries executed at short notice. Books and Accounts kept and adjusted, and Quarterly Bills distributed and collected accurately and promptly. Soliciting Agent for the Mutual Life Insurance Co. of New York, also Fire Insurance Agent.

Don't forget that I do business on business principles. Give me a call.

J. E. WISEMAN,
The only recognized General Business Agent in the Kingdom.

Offices, 28 Merchant Street, Campbell's Fire Proof Block, Honolulu.

SHIPPING NOTES.

Schr Leahi brought 130 bags of sugar.
Schr Mile Morris brought 150 sheep.
Schr Hanaui will sail for Pepeekeo
on Friday next. Her new main-mast
has been put in and the Captain says it
is a fine stick.

The Star C R Bishop took 10 Portu-
guese families for the Reciprocity Sugar
Co., Hana.

The Bk Forest Queen is taking in
ballast. She will sail for Port Town-
send on Thursday next.

The Brit Bk Ophelia, Capt Jas Mod-
drell, arrived this morning, 136 days
from Liverpool with a general cargo.
She is docked at Brewer's wharf and is
consigned to Davies & Co. The Ophelia
is a sister to the Bk Oberon that was
burnt at sea.

The brig Tewera has landed all of her
coconuts and what good oranges she
had left. She is so deep in the water
that it appears quite evident that the
leak is gaining on her. She will be
repaired by Mr Sorenson.

The bark Geo. S. Horner with coal
for this port, for the U. S. Government,
is reported 90 days out from Rio de
Janeiro and 170 days from New York.

The schr. Jennie Walker arrived at
Jalut 4 days before the Hazard arrived
there. She reports having had very
rough weather.

The bark Varuna from Liverpool for
this port, is said to be 155 days out.

LOCAL & GENERAL NEWS.

The Court will sit in Banco to-
morrow morning at 10 o'clock.

The Planters' Labor & Supply Co.
will have their annual meeting next
Monday.

LYONS & Levey will sell a quantity
of lumber at the P. M. S. S. wharf
to-morrow at noon.

A LARGE stock of Picture and
Cornice mouldings, new styles, at
King Bros. 842 St

CABINET Photos \$3 per doz, cards
\$1 per doz at Sun Pearl Gallery,
corner of King and Fort streets, for-
merly A. A. Montano's. 826 tf

As we go to press the condition of
the Hon. Mrs. Bishop is unchanged.
She is fairly comfortable though at
times somewhat restless.

The letter of "A Sick Reader"
was received after our editorial space
was filled, so that the comment it
calls for is deferred till to-morrow.

Dr. C. A. Peterson has been ap-
pointed Government Physician for
the district of Koolau, Oahu, in
place of Dr. L. Mathes, who recently
resigned on account of failing health.

An order was made yesterday by
Chief Justice Judd of the Supreme
Court, that the portions of the estate
of William Love, deceased, belonging
to his son and daughter should be
made over to them.

FAMILIES and others in want of a
set of good harness—will do well to
call at the store of M. McInerney,
and secure one of those fine sets
just to hand by the Mariposa. They
are beauties and are selling rapidly.
839 St.

During his vacation, Bandmaster
Berger intends to visit the different
places on the other islands where
brass bands have been organized.
He has always been called upon to
arrange their music, and his visit is
bound to be beneficial to them.

The sale of furniture, etc., of the
late F. T. Lenchau, by Lyons and
Levey, was well attended this morn-
ing and good prices were realized.
At noon, they sold a quantity of
coconuts from the brig Tawera,
which brought ten cents apiece in
some instances.

The bark Ophelia arrived this
morning 137 days from Liverpool.
Consigned to Messrs. Theo. H. Dav-
ies & Co. Besides a general cargo
she has 188 tons of stone in 242
cases, for St. Andrews new cathed-
ral. There are also two large
stones weighing nearly half a ton
each.

PACIFIC HOSE CO. No. 1, held its
regular monthly meeting last even-
ing, Foreman Rasmann presiding.
The resignation of Sam. Harrison
as Treasurer was accepted, and T.
F. Kennedy was chosen in his stead.
Two new members were elected.
The remainder of the business was
of the usual routine character.

The brig Hazard arrived yester-
day afternoon from the South Seas
with 79 laborers and 3 boys. Six
are from the Line Islands, one from
Rotuma and the rest from the New
Hebrides. They are a splendid lot
of men and the ship is in good
condition, being quite sweet and clean.
They will all be sent away to their
destination to-day.

The following is the crew selected
to represent the Honolulu Yacht and
Boat Club in the coming regatta; J.
M. Dowsett, stroke; H. Wodehouse,
No. 2; J. Holt, No. 3; H. C. Morse,
No. 4; Geo. Markham, No. 5; F.
Whitney, bow; Jno. Markham, re-
serve. This is a strong crew, and
its members are in active training,
coached by Capt. C. B. Wilson.

The following sentence is as it
should have appeared in our report
of Mrs. Hall's sermon in Kawaiahao
Church: "She would like them to
forget that they were strangers, and
to look away from each other and to
him who was lifted up beyond the
gates of Jerusalem." In the pub-
lished report the words between
"from" and "Jerusalem" were
inadvertently left out, making non-
sense of the passage.

THE BULLETIN called attention
last week to Chinese express driver
No. 128, who was driving a lame
horse. This morning, this same
man was driving the poor brute
down Fort-street, when it fell oppo-
site Williams & Co.'s and broke the
worn out harness all to pieces. The
man was arrested and later on
charged in the Police Court with
cruelty to animals. Judge Bicker-
ton fined him \$5 and costs.

Work will soon be re-commenced
on the new St. Andrews Cathedral,
as a large quantity of prepared stone
is to hand this morning by the bark
Ophelia. Mr. Lishman, who has been
in England superintending the
preparation of this stone, was to
leave that country October 4th, and
may be expected here by the City
of Sydney due November 1st, or at
the latest by the Mariposa, Novem-

ber 8th. In the meantime his son
will proceed with the work, so that
the sound of the mason's chisel will
be soon heard in that vicinity.

As we go to press the case of Tam
Look, for larceny of a sewing machine
is being heard in the Supreme Court.

ONE of the pages of this morning's
Advertiser is dated October 41st.
Sorry to find the month is going to
be so long, neighbor.

In the Police Court this morning
J. C. Hilton, charged with drunken-
ness, forfeited his bail. M. Kechnie,
charged with affray, forfeited bail of
\$10.

BRIGADIER Major General Alfred
Burrell Hayley, late of the Prince
Albert Hussars, late Captain of the
Hawaiian Mounted Police, is in
town.

THE French brig Tawera is now
in a sinking condition. The men got
tired of pumping, so let her go down.
It is quite probable she will be con-
demned.

In the Supreme Court this morn-
ing the case of Fook In, charged with
opium in possession, was tried, being
an appeal from the Police Court.
The jury brought in a verdict of
guilty.

By the steamer C. R. Bishop to-
day, 10 families, numbering 25 per-
sons, of the Portuguese immigrants,
are being shipped to the Reciprocity
Sugar Co., Hana, Maui. Also 12
immigrants to Lidgate & Co., Lau-
pahoe.

A LARGE bundle of letters written
by the newly arrived Portuguese im-
migrants to their friends in Madeira,
will be forwarded to their destina-
tion at the expense of the Govern-
ment.

THERE's a young piano player on
Beretania street who says "he al-
ways closes his eyes when he plays."
It is different with those within
hearing distance; they always close
their ears when he plays.

Those persons who are fond of
bananas and eat them on the street
should be careful not to throw the
peel on the sidewalk. A gentleman
walking on Fort street yesterday had
a nasty fall from stepping on a
banana skin.

BENSON, SMITH & CO.

Within the past few days a very
notable improvement has been made
to the interior of the store occupied
by the above popular and enterpris-
ing firm. By the S. S. Bordeaux,
they received direct from London a
large roll of linoleum of very hand-
some pattern which has been laid on
the floor, the effect being very pleas-
ing, and making it one of the neatest
and cosiest stores in town. By the
same steamer, they have received a
full line of Ricksecker's celebrated
perfumes, particular by among
which must be mentioned the jug
cologne, and the golden swan con-
taining the finest extracts. The get-
up of these novelties is neat in the
extreme, and something entirely new.
In the way of preparing for the holi-
days may be found some very
pretty celluloid toilet and perfume
cases, also hair, tooth and nail
brushes. The firm still make their
noted Maile cologne, and their Flor-
ida water is not equalled by any
imported. There are numerous other
things that we would like to mention
but space forbids us. Politeness and
promptness in filling orders is one of
the features of this establishment.
Prescriptions are put up in the most
careful manner. The drugs are the
purest in the market, and the firm
has lately secured the services of Mr.
W. H. Richardson, a practical drug-
gist of large experience.

Stallions at Marshfield!

"BAZAAR."
(Thoroughbred.)

By Jack Malone, he by Lexington.
1st dam, Ivy Leaf, by Imported Aus-
tralian; 2nd dam, Bay Flower, by Lexing-
ton; 3rd dam, Bay Leaf, by Imported
Yorkshire; 4th dam, Imported Maria
Black, by Pablo da Poth, etc., etc.

Bazaar was bred at the great Wood-
burn Farm, near Lexington, Ky., by the
late R. A. Alexander, and was sold to
W. L. Prichard, of Sacramento, Cal.,
for \$5,000. He stands 15½ hands,
weighs 1,065 lbs., and is a bright chest-
nut color. During his racing career he
downed many a favorite, and won many
a half of money for his owners, and
proved himself one of the greatest of
horses over a distance, most of his races
being at two and four miles. He has
already sired several colts in California
that are winners, among which are
Lizzie Dunbar, Young Bazaar, Sophia,
and another called the Bazaar Minerva
Colt, he being out of Minerva by Im-
ported Leamington, the sire of Parole
and Troquois. Lizzie Dunbar greatly
distinguished herself last year in her
two-year-old form by defeating one of
the largest fields of two-year-olds that
ever started in California, among which
were the two beautiful fillies brought
here last Spring by Mr. Agnew, distance
¾ mile; time, 1:01½, the fastest time on
record for two-year-olds at the distance.
This year she has won several important
events, and has proved herself to be a
crack three-year-old.

Bazaar has now been brought back
to Honolulu, and will remain here the
balance of this year, and breeders, horse
owners and stock raisers should avail
themselves of the opportunity to obtain
his services while they have the chance.
Terms, \$40. Payable at time of
service.

The Imported Clydesdale Stallion
Donald Dinnie, Jr., will stand at
the same time and place at \$30 for the
season. He was bred in Canada, sired
by Imported Donald Dinnie, and out of
an imported Clydesdale mare. He is a
beautiful dapple grey, 16 hands high,
and weighs 1,400 lbs.; is very active,
and as fine a large horse as could be
found anywhere.

Also, the fine large Imported Ken-
tucky Jack Sampson. This is one
of the largest Jacks that we could find
in California, and is an animal of im-
mense bone; is a very sure breeder, and
should be liberally patronized, as he is
one of the very last animals of his
kind. Terms, \$30 for the season.

The Public are cordially invited to
call and inspect the above animals.

A CURIOUS COLLECTION.

Interesting Beliefs of the Olden Times —A "Glass-chock."

"There!" said Dr. William Hovey, of the Bunker Hill district, pointing to an old-fashioned, tall clock, "that is an eight-day clock made by Benjamin Bagnell, of Boston, some time about 1730. As far as can be learned, he had made only four of the clocks when he died and left the business to his son Samuel. Wyman's 'Genealogies and Estates in Charlestown' states that Benjamin Bagnell was paid for cleaning a clock Aug. 22, 1724. You see the clock is running and the time is correct. I wind her up every Sunday morning, and, as far as I know, she goes as well as she did 150 years ago."

The doctor then went into another room, and returned with a pile of books. "Here," said he, "is a complete set of 'Robert II. Thomas' Almanacs' from 1800 to the present day." In looking through the almanac for 1800, the reporter found the following item: "Boston and New York mail stage sets off from Pease's stage of fice, 71 State street, every Monday, Wednesday, and Friday at 10 o'clock in the morning, and arrives at New York every Thursday, Saturday, and Tuesday, 11 o'clock; leaves New York every Monday, Wednesday, and Friday, 11 o'clock, morning, and arrives at Boston every Thursday, Saturday, and Tuesday at 12 o'clock, noon."

"Let me show you what I call a 'glass-chock,'" said the doctor, as he lifted the cover of what appeared to be a melodeon. It contained, however, glass globes, set in wood, and when touched with a wet finger the globes gave forth sweet sounds. "This musical instrument was bought at the sale of the old museum at the corner of Court and Hanover streets, Boston, the first museum ever in the city. The purchaser was Archibald Babcock, of Charleston, who also bought the musical clock, then a curiosity, but he was so annoyed by people coming to see the clock that he sold it. I believe there is only one other 'glass-chock' in the country, and that is in Philadelphia."

"Here are my old coins," said the doctor. "I have one 1-cent piece issued by the United States for every year from 1793 to 1884. I sold three 1-cent pieces of the year 1793 for \$10 each, and one made in 1804 brought me \$20. Here is a French-vauguer cent, made of nickel in 1838, and presented to congress for adoption in place of the large cent, but was rejected. Here are four 5-cent pieces issued in 1853, one with a shield, another with a large V and the words 'E Pluribus Unum,' another with a large V and the words 'Five Cents,' and the fourth with a large V with a shield. I have an old Jackson cent and a copper piece good for 1 cent at Dunn & Co.'s oyster-house issued by the firm in 1864, when change was scarce. I sold one of these pieces recently for \$1."

I have not shown you all my curiosities yet. There is my diploma of membership of the Mercantile library, issued in 1857, when James T. Fields, Daniel N. Haskell, and E. P. Whipple were young men. Then here are a pair of whalebone 'twists,' made by a sailor while in the Pacific ocean. I don't know how many years ago. Here is a family umbrella used at the time of the Revolutionary war. This is a 'sampler' worked by Martha Story, when she was 11 years of age, at Fitchburg, in 1797. Here is a decanter used in Charlestown in 1732. I have also in my cellar, nicely packed, the decanters and wine glasses used by Rev. Dr. Morse, father of Morse, of telegraph fame, when he was pastor of the First parish church, Charlestown. They were sold at auction, April 1, 1820."

The Court Plaster Idea.

(Chicago Herald Interview.)
"It became a fashion to wear beauty-spots about five years ago, and their introduction is, I believe, credited to a fascinating ballet dancer in the Theatre Francaise, Paris, who had resorted to the most cunning devices to brighten her beauty in order that she might displace a hated rival in the affections of a wealthy and handsome young duke. I might further add that the artful little dancer accomplished her purpose. On the evening previous to the one on which she had first worn the device she had heard the object of her love warmly praise the pretty, childish dimples in the cheeks and chin of her rival."

"With the French woman's proverbial quick-wittedness she set about giving herself artificial dimples. She first tried the effect of a dark blue tint delicately put on with a camel's hair brush. She discarded this scheme, however, as the painted spots did not appear sufficiently plain. She then hit upon the court plaster idea, and as she noticed the effect of it on the face of a little friend whom she had let into the secret her pleasure knew no bounds. The next night her appearance in her ruffy, gauzy snow-white apparel was hailed with delight by her admiring audience. Never before had she looked so bewitching, and to none more so than the young duke who, as usual, was seated in his private box. Celeste, for that was her name, looked ravishingly beautiful. She was a handsome woman, but that night she was especially so. This," said the druggist in conclusion, "you can believe or not, but is the story of the agent who first introduced the article to me. It matters not whether it be true or not, the fact remains that its sale is constantly increasing."

Plaster Busts.

(New York Mail and Express.)
A Broadway dealer says that the house-decoration mania runs chiefly to plaster now. Busts, statuettes, plaques, reliefs, antiques, urns, vases are a few of the things sold every day by the dozen. They are all made in the Italian quarter by newly-arrived immigrants, and cost almost nothing in quantity. Ladies buy them almost exclusively. They take them home and paint, gild, silver, or bronze them. They then look almost as handsome as genuine antiques, and at one-twentieth the price. Of course it's shoddy, but it brightens up a sitting-room amazingly, and for people of limited means it's a good thing. Besides, it gives a decent livelihood to scores of young women who would otherwise be starving on needle-work. They'll buy a dozen or two each for \$2, color or fix them up for \$1 more, and then, if they have good taste and are careful in their work, they can sell them all the way up from 30 cents to \$2 apiece."

Couldn't Blame 'Em.

(Exchange.)
Citizen (examining last summer's flannel shirt)—My own fault—my own fault b'Jove! Mightier know it. Didn't put in enough insect powder. Moths ate up all the insect powder—nothin' more to eat—began on the shirt—course they did—can't blame 'em!

What He Gets.
(Philadelphia Call.)
Little Jack—Pa, why is a receiver so called? I mean the kind that is appointed when a company gets in a tight place. What does a receiver receive?
Pa—Pretty much all there is, my son.

A SKILFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is a peculiar indigestible distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The hands are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferer feels tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon-road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it root and branch, out of the system.

St. Mary's-street, Peterborough.
November, 29th, 1881.
Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly,
Mr. A. J. White. William Brent.

September 8th, 1883.
Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "God-send to dyspeptic people." I always recommend it with confidence.

Faithfully yours,
(Signed) Vincent A. Wills,
Chemist-dentist, Merthyr Tydfil.
To Mr. A. J. White,
Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Spanish Town, Jamaica, West Indies,
Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather skeptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men," and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am, dear Sir,
Yours ever gratefully,
(Signed) Carey B. Berry,
A. J. White, Esq., Baptist Missionary.

Preston, Sept. 21st, 1883.
My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it." The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am, dear Sir, yours faithfully,
(Signed) W. Bowker.
To A. J. White, Esq.,

Hensingham, Whitehaven, Oct. 16, 1882.
Mr. A. J. White,—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.—I remain, yours respectfully,
(Signed) John H. Lightfoot.
