MCANDLESS' SOCIALISTIC ALLIANCE.

A part of the doctrine of Democracy, as laid down by the Metropolis orators during the past few days, is that those Hawaiians and others who helped break the recent Japanese strike are traitors to their fellow laborers, the striking Japaneese.

"Scab" is the word a speaker threw in the faces of a number of Hawaiians yesterday.

To this Mr. McCandless descended, as shown by his orators!

To this has come R. H. Trent, who is also being boosted by the members of the local Socialist circle.

Yesterday, the Democratic spellbinders on the Bethel street corner howled their denunciations of the ones who went to work for the "striving planters" at a dollar and a half a day, when they should have taken advantage of the needs of the hour to force wages to two dollars a day at least.

"Vote for McCandless and stop this migration of people that will come in and rob us of our chance to make the planters pay us what we are worth," howled one of the loudest-voiced members of the Socialist circle. "What are they doing now with the Russians?" he further demanded. "They are alienating them in the English language out of a certain fund, while every day hundreds of our own children cannot get seats in the schools."

This sort of Democratic talk leads back to those days when the first troubles with the Russian immigrants started. At that time it was known that the local Socialists were at the bottom of the mess that made abortive the first Russian experiments; but at that time it was not known that when McCandless would be out on the stump the ones shouting the loudest for him would be these very same trouble makers.

When the police had to use their clubs to drive reason into their skulls, one of the loudest protesters against the "courage," one of the ones who declared it a shame that "white men should be treated this way by bandits" was a local Socialist leader. Yesterday the same leader was applauding McCandless' sentiments on the street corner, and an employee of his was yelling "scab" from the soap box.

Who supplied the agitators among the Russians with money at the time they were making their lying promises to the Russians regarding a possible thousand dollars each from the government? Can it be that the money came out of the same sack that is supplying the Socialist orators with money now as payment for McCandless' speeches?

There is a great similarity between the harangues of McCandless on the McCandless ticket and the Socialists on the street corners. Is it possible that the speeches of the Socialist and the candidate have a common origin?

If local Socialists are backing McCandless, what is McCandless doing for the local Socialist circle, from which came the seed of the Russian trouble?

Can we afford to have McCandless elected?

Do we want anything more to do with Trent?

The important announcement that Professor Abe was here to spy out the riches of the land for a new steamship line and that he discussed in a more than tentative way the probability of the establishment at Honolulu of a bonded warehouse for the transhipment of goods from Japan in various around the Pacific points, may mean a great deal to Hawaii. The possibility of making these Islands the trading place for a great deal of the Pacific commerce has been discussed in recent years in high official circles. It may be that the Japanese plan to start on their own account will reawaken Washington to the great possibilities for business that these mid-Pacific Islands offer. Honolulu and Hilo could be made the gathering places for all the ships of the western ocean here to exchange cargoes. This is one of the possibilities we must be ready to grasp if ever the occasion offers.

In the midst of the election racket the public should not overlook the important ordinance the supervisors are considering for the preservation of food stuff from contamination by flies. It is probable that pressure will be brought to bear by the small storekeepers to have this ordinance defeated, or at least shelved away during the life of the present board. What the public should insist on is that the ordinance be passed as soon as possible and passed in a form that will make it operative. If any supervisor up for reelection should hesitate in this matter he may be put down as flyblown worse than some of the meat sold at the open market.

McCandless ran on the Republican ticket for the senate in 1906 and was defeated; that was strike one. He ran as a Democrat for congress in 1908 and was defeated; that was two strikes. This time the majority against his platform and utterances should be so big that it will make three strikes and out.

There seems to be something about Storer incident that causes Roosevelt into a great silence. For thirty-six hours he has been living with the lie, direct aliasing him up and he has not even shown his teeth.

Trent rails a Pinchbeck millionaire to be required at the immigration bureau, just what he means we do not know, as he uses no negative utterances.

A short time ago it used to be the high flyers who spent all the time now it is the high flyers who pile up bare accounts.

How the Hawaiians are relishing being called the "so-called" McTrent speech.

A short time ago the papers of Hawaii were full of the

SHINGLE TALKED COMMON SENSE

Met Democratic Bumcombe With Some Argument and Met With a Hearty Reception.

Two or three thousand people sat in the Hotel street, near Hotel and Paley, last evening, to hear the talk of the candidates for office running on the Republican ticket. They were not all Republicans, though, showing themselves and this was evident. There had been a Democratic meeting there the night before and in the minds of some of the people most of whom were Portuguese, there was apparently a question whether the publication of the Democratic ticket should be voted for. That this doubt was somewhat alleviated was equally evident when the meeting came to an end just at eight, for the sound arguments and ringing talk of the Republican candidates most assuredly made a wholesome impression on the large gathering.

In the first place the Democrats had all the gift of having thrown out the most astounding assertions, which a second thought would not endorse with many. The Democratic speakers, the night before, seemed to talk past the crowd, but had tried to convince the men that in the event of the election of a Democratic ticket informers would be paid anywhere from \$2 to \$4 a day.

Bob Shingle, who is Republican candidate for treasurer, had night told the steering committee that he could not conceive how the Democratic speakers had found the nerve to promise them anything so impossible. The Republican party, he said, could honestly assure them of as much money in the way of wages as the Democratic party could honestly promise; only the Democrats had lied when they talked of any such idea of wages for old men, whose ears go as high as \$4 a day. Shingle told the people that the Republican party, in spite of crooked Democratic statements, had the interests of the Portuguese at heart, for the Portuguese made up a very desirable and indispensible element of the community. He

accorded to documents handed to the Dimer by the police department there are now in Siberia seventy-four thousand men and women exiles. The statistics show that in recent years the men who have acted as advisors to Czar Nicholas have allowed their wrath to descend upon quite as many petty law breakers as political criminals. In Siberia now are thirty thousand working men, about twenty thousand peasants and nearly twenty-five thousand teachers, students and political exiles.

By a usage of the present Czar, in 1906, who even then wished to abolish

extremely, imprisonment was substituted for transporting the offenders against the law to the Siberian wilderness.

His act mitigated to a certain extent the atrocities that had been taking place prior to the change, but by no means provided a solution of the problem.

Now prisoners are sentenced to toil in the salt mines for terms varying from five to twenty-five years.

If they survive their sentences they are allowed to come home if they have means of reaching there. Few, however, of the released convicts ever make the return journey, and the villages which comprise the country, like, for instance, Samarokovo, in the Turkestan district, are crowded with these half-starved examples of humanity who exist under the most pitiable conditions.

While the chase of the Czar in 1906 stopped to a great extent the wholesale shipping of offenders to Siberia, much the same condition is prevalent today as existed prior to that date.

Political offenders are subjected to exactly the same punishment as then.

Banishment is their sentence—not to work in the mines and be fed by the government, but transported to the wildest sections of the wild country and there turned loose to die.

Recently the desolate Turkestan district, which covers a tract of about 720 miles long in the neighborhood of the Yenisei River, described by men who have been there as "the most awful, most abominable, most hellish place without hope," the government, however, has announced it is about to make a monthly visitation to the solitudes where the savages have roamed for mutual safety, to inspect the terrible conditions of life at last. Most of them are now too weak and emaciated to farm life. The 720 miles of track, though, will be a great way to travel.

A 500-mile trip through the

desert, the salt mines, the

peasant villages, the

isolated towns, the

tiny hamlets, the

tiny villages, the

THE GUINEA PIG PROVED IT

That dandruff, itching scalp and falling hair, are caused by a germ or parasite is now recognized by dermatologists everywhere.

A notable demonstration was by Drs. Lassar and Bishop, who took dandruff scales from the head of a student who was losing his hair and having made a pomade of them with vaseline, rubbed the same upon a guinea-pig, and the pig became bald. (See George Thomas Jackson, M.D., on diseases of skin, 4th edition).

Newbro's Herpicide kills the germ that causes dandruff, itching scalp and falling hair. Keep your scalp in a sanitary condition with Herpicide and extraordinary results will follow. Stops itching of the scalp instantly. Try it.

Two sizes, 50c. and \$1.00. At Drug Stores. Send 10c. in stamps to The Herpicide Co., Dept. N., Detroit, Mich., for a sample.

Guaranteed under the Food and Drugs Act, June 30, 1908. Serial No. 915.

BE SURE YOU GET HERPICIDE

THREE NEW CARS REPRESENTED HERE

Two Agencies Add to Their List by
Deals Closed During
the Week.

Deals closed during the week by von Hamm Young and Sons, the well-known dealers, three new cars will be added to their stock. The latter two are the latest Marmon and the other, the 1910 Hudson, are representatives of the Hudson and LaFrance companies.

The last Hudson 22-hp. model was added to the list by the same firm.

Mr. George Bishop was one of those who had been some years pastally with the agency, the two being strangers to Hawaii at present. A few hours ago he called upon Mr. Bishop.

Mr. and Mrs. Harry Young were members of a hunting party at Waialae, who when they had good shooting, had pleasant memories of the days when

they were young.

Warren MacFarlane, representing the Royal Hawaiian, is now touring the States in the interests of the house and is responsible for the acquisition of the agency, signing the papers right on the spot.

The first consignment of the Marmons will arrive on the Mongolian on the thirty-first and will be the first of the new cars to be seen here in stock.

This car came in second in the Vanderbilt cup race and has made an enviable record for itself over the speedy courses of the fast.

von Hamm's New Cars.

The von Hamm Young Company will be in a position to make deliveries of its new cars shortly. The Hudson demonstrator arrived on the Hawaiian last Sunday and is on exhibition in the showroom of the firm now. The car has been advertised extensively on the coast and has been put to useful many varied purposes.

There is one lower car in town owned by John McNamee, which has done good work over the local stand roads. Two tourists have been in town who have also run Leasers, in consequence of which the models are not strangers. One of them possessed a lower Maxwell roadster and the other a larger automobile. Both the cars are popular in San Francisco which speaks well for their climbing capacity.

Schuman Busy.

The Schuman Cartage Company had a busy week of it and made a record for what part of the month has gone for as far as sales are concerned.

Doctor Mackay has been one partner to us now the owner of a 1911 E. M. F. roadster. His old car, which became a landmark around the city and somewhat of a noisy one so that, as he expected a big electric bell to it, is now being operated by Deputy Sheriff Ross who finds it an improvement over quadrupeds when it comes to serving papers.

Other sales included a Brush runabout, a Hudson Gas Company and a Ford roadster by Paymaster Stevens of the navy.

Telephone Sales.

Another sale made by Schuman was to Manager of Post Office of the Hawaiian and South Pacific Telephone Company who will use in connection with his office business.

Mr. H. H. Young, who has repaired him through his establishment of the best automobile system to be used in the Hawaiian Islands, has sold his works to von Hamm Young, a large busi-

ness based on the use of his de-

signs. While he will still be con-

cerned with the manufacture of

automobiles, he will be free to

concentrate on the sale of his

products.

Associated Sales.
